MOST REMARKABLE

Was the Recovery of this Nova
Scotia Youth.

Bright's Disease had Brought him
to the Edge of the Grave—Dodd's
Kidney Pills Cured Him—All
Other Remedies Failed.

LIVERPOOL, N. S., March 20.—Some
time ago, there appeared in the leading
journals of the Dominion an account of
the case of a farmer's son, who lives
about ten miles from this city, and who
was a severe sufferer from that dread
 scourge of humanity—Bright's Disease of
the Kidneys.

The young man's father, unable to
bear the sight of his son's sufferings, any
longer, purchased a box of Dodd's Kid-
ney Pills from Druggist Arthur Hutch-
ins, and the sufferer began to use them,
for his complaint, following the directions
strictly.

Long ere the box was empty, a decided
change for the better had taken place, in
the victim's condition, and new hope
sprang up in the breasts of the family.
The use of the pills was continued and
day by day the young man grew stronger
and stronger, till at length, he was com-
pletely restored to health and strength
and vigor.

"No other medicine that we used, and
we tried many different kinds, did him
the slightest iota of good," said the father
to Mr. Hutchins.

"But within a week from the day we
commenced to use Dodd's Kidney Pills,
we could see beneficial results. He be-
came more lively, and cheerful; the ex-
treme pallor of his countenance gave way,
and was succeeded by the ruddy flush of
health. His nervousness vanished, and
the soreness left his bowels, and he gain-
ed strength rapidly. I never heard of
such a remarkably rapid and complete re-
covery. "Dodd's Kidney Pills are truly
a heaven-sent medicine, and ought to be
in every house."

Dodd's Kidney Pills save every life
that is in danger from Kidney Disease, if
they are given a chance.

Pork Packing.

Saturday's Sun.

The meeting in the Board of Trade
rooms last night in the interests of pork
packing and pork raising was well attend-
ed. W. M. Jarvis presided.

After a few opening remarks by the
chairman, George Robertson, M. P. P.,
spoke on the pork raising industry and
the establishment of a pork packing factory
in this city.

Hon. Mr. Lablillois, in response to a
call, spoke at some length in favor of the
establishment of a pork packing establish-
ment in this city.

J. J. Ferguson of Ontario, said it rested
with the farmers to supply the right
kind of hogs. If the farmers raise hogs
he must be assured that there will be a
pork packing establishment. The condi-
tions, he thought, were favorable for pork
raising and pork packing in this province.

He spoke of the feeding system in On-
tario, and stated that in some sections
hogs could be raised cheaper than in On-
tario. Hogs enough to keep a factory in
operation could be raised in this prov-
ince, but if there was a scarcity there
would be no trouble in getting a carload
from Montreal in 24 hours. A corpora-
tion should not start with a small capital.
Cash must be paid for the hogs and a
company should have a considerable sum
of money on hand to provide material.
The cash returns will come in slow at first
and for this reason good provision should
be made.

Mr. Ferguson, in reply to Dr. Gilchrist,
answered several questions in regard to
feeding hogs. He said in Ontario hogs
could be sold, live weight, at an average
of four and a half cents per pound. Mr.
Ferguson spoke of his visit to Middleton,
N. S., last week, where a farmer told
him that he would supply the pork factory
with 500 hogs a year, getting his
feed from Ontario.

W. W. Hubbard thought farmers did
not understand swine growing, although
there were some farmers making a good
showing off clover. He said the farmers
would not produce the pigs unless there
was a market for them, and therefore it
remained for the moneyed men to estab-
lish the factory.

Hon. Mr. Emmerson, in response to a
request, spoke briefly. The commissioner
of agriculture had frequently brought
before his colleagues the importance of
pork packing factories, with the result
that the matter has awakened consider-
able interest. It was most important,
the subject of establishment of a pork
packing factory in this city. There have
so far, however, been no practical steps
taken to establish a factory. On the
train he was conversing with a gentleman
from Madawaska who sold three thousand
dollars worth of pork each year, imported
from Ontario. This was only one man.
He had no policy to propound so far as
the government was concerned beyond

the business people to take hold of it.

He did not know what better way the gov-
ernment could aid in the establishment of
pork packing factories than in the im-
portation of some good breeds of stock,
and from conversations he had had with
his colleagues the government would be
favorable to such an importation. He
was present for the purpose of getting in-
formation and learning the views of busi-
ness men and farmers.

Dr. Gilchrist read the circular issued
some time ago in request to the estab-
lishment of a pork packing factory, and
criticized the same. Afterwards the doc-
tor spoke of the feeding of hogs, and
pointed out that there was no necessity
for sending to Ontario for feed. Just as
soon as the farmers are assured there is a
market the hogs will be forthcoming for
a factory.

T. A. Peters, secretary for agriculture,
on being called on said one good argument
in favor of the establishment of a pork
packing factory was that never had one
failed. He said that at least after the
first year all the hogs required would be
forthcoming. In fact he was satisfied
that Kings county alone would supply
hogs enough for a St. John factory.

James Pender was of the opinion that
it would be a good idea for the board of
trade to endeavor to get Slipp & Flew-
elling to establish a factory in conjunction
with other gentlemen.

T. L. Hay said the last letter he had
received from Mr. Packingham stated
that he offered to take stock up to ten
thousand dollars. Mr. Hay did not think
the prospects were favorable for the es-
tablishment of a factory. He was, how-
ever, willing to subscribe some stock in
the company.

W. S. Fisher spoke of the movement
within the past two years for the estab-
lishment of a pork packing factory.

Frank Flewelling, of Slipp & Flew-
elling, on being called on, said the limit of
his business was the limit of the hogs.
He said he paid a cent to a cent and a
half more to the farmers for their hogs
than the Ontario farmers got.

In reply to W. W. Hubbard, Mr.
Flewelling said he would take a carload
of live hogs next September and pay the
Toronto market price. Although there
is a duty of two cents a pound, or four
dollar a barrel, American pork is not shut
out. The farmers will not raise hogs
sufficient to supply the local demand.

W. M. Jarvis and Frank Flewelling
spoke, Mr. Jarvis stating that it was ap-
parent from all that had been said it was
desirable to have the views of Hon. Mr.
Emmerson carried out, namely, the im-
portation of some good breeds of pigs.

C. J. Osman, M. P. P., of Albert, and
Hon. Wm. Pugsley, M. P. P., Kings
county, spoke on the subject of estab-
lishing a pork packing factory. Both
were in favor of the scheme.

F. L. Potts, W. S. Fisher and Capt.
Keast spoke briefly, after which a vote
of thanks was tendered Hon. Messrs.
Emmerson and Lablillois, T. A. Peters,
Mr. Ferguson and W. W. Hubbard.

Hon. Dr. Pugsley moved that a com-
mittee be appointed to confer with the
government as to the establishment of a
pork packing factory at some convenient
point within the province.

Dr. J. M. Smith seconded the resolu-
tion.

E. Lantaul moved an amendment,
that St. John be substituted for the
words "some convenient point,"

S. D. Scott suggested that "some con-
venient point" be struck out.

This was accepted by Hon. Mr. Pugs-
ley and the amendment was withdrawn.

The motion was carried and the follow-
ing committee appointed: Hon. Wm.
Pugsley, George Robinson, M. P. P.,
James Pender, T. L. Hay and F. L.
Potts.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of
Hannibal, Mo., lately had a wonderful
deliverance from a frightful death. In
telling of it he says: "I was taken with
Typhoid Fever, that ran into Pneumonia.
My lungs became hardened. I was so
weak I couldn't even sit up in bed. No-
thing helped me. I expected to soon
die of Consumption, when I heard of Dr.
King's New Discovery. One bottle gave
great relief. I continued to use it, and
am now well and strong. I can't say too
much in its praise." This marvellous
medicine is the surest and quickest cure
in the world for all Throat and Lung
Trouble. 50 cents and \$1.00, at any
Drug Store; every bottle guaranteed.

Active Prohibitionists.

MONTEAL, March 13.—Sir Wilfrid
Laurier's letter to the secretary of the
Dominion Alliance announcing that the
government had decided not to introduce
any prohibitory legislation as a result of
the plebiscite caused great excitement
among temperance people here. The
meeting of the Quebec branch of the Al-
liance has been called for Monday to dis-
cuss the situation. It is said a manifesto
will be issued to the electors of Canada
exposing what temperance people consid-
er the duplicity of the ministry and ad-
vising the formation at once of a third
or prohibition party in Canadian politics.

It Gives True Life!

Paine's Celery Compound

Indorsed by Physicians as the
Best Spring Medicine.

The records and history of medicine
point to Paine's Celery Compound as the
most successful remedy ever given to sick
and suffering humanity. It is indorsed
by the medical faculty because they know
its formula and have confidence in its life-
giving virtues.

Paine's Celery Compound works glori-
ous and marvellous cures. This is the
secret of its success, and accounts for its
world-wide and enormous sales.

It is in the spring time—this very
month—when men and women are weak,
nervous, rheumatic, neuralgic, dyspeptic,
have headache, kidney and liver troubles,
and blood that is sluggish and impure,
that the great medicine should be used to
restore nervous energy, rich blood,
healthy digestion, natural appetite and
sweet refreshing sleep.

The winter has been a time wherein
men and women have stored ill health in-
stead of keeping the body sound, clean
and full of true life. The nerves, blood
and digestive organs must be fed, nour-
ished and cleansed by Paine's Celery
Compound if true and lasting health is
looked for.

At this time we honestly urge the use
of the medicine that has restored thou-
sands to full and robust health after med-
ical skill and ordinary medicines failed.
One bottle of Paine's Celery Compound
will convince you that you have found a
true friend and helper.

The new Allan Line S. S. Castilian,
Capt. Barrett, which sailed from Port-
land, Me., on Saturday for Liverpool, via
Halifax, went ashore shortly after four
o'clock on Sunday morning on what is
known as Cannon Rock dry ledge, twelve
miles from Yarmouth light. There was
a general cargo valued at \$450,000, the most
valuable cargo ever shipped by the Allans
from Portland. When the despatches
were sent out on Sunday the ship had six
feet of water in her hold. She was bad-
ly bulged up from the saloon to the fore-
mast. A large number of sheep in the
forward hold were drowned. The swell-
ing of grain in the forward hold threw up
the saloon deck. The passengers were
taken off by a tug and landed at Yar-
mouth. Captain Barrett and officers are
still by the ship.

The Castilian is a new ship and was
built by Workmen, Clark & Co., Belfast.
She was especially designed to meet the
requirements of the Canadian trade and
was fitted up with all the latest improve-
ments. She cost \$700,000.

Death of Hon. John F. Wood.

TORONTO, March 10.—Hon. John F.
Wood, M. P., for Brockville, was found
dead in his bed at the Queen's Hotel this
city, this morning. Death resulted from
heart failure.

She was an aristocratic but vinegar-
faced lady, and she had called on her
friend Mrs. Grindstone. "He's a charm-
ing little fellow, Mrs. Grindstone," she
said, referring to Willie Grindstone.
"Only five years old, you say? You'll
give me a kiss, won't you, Willie?" Wil-
lie did not evince any signs of eagerness
to comply with the request but he kissed
her.

"That's a good boy," said the visitor,
"but what are you holding in your hand
so tightly?"

"It is a quarter mamma gave me," said
the truthful Willie; "she said she 'specked
you'd want to kiss me, and I told her I
wouldn't do it for less."

Captain Barrett and officers are still by the ship.

The Castilian is a new ship and was built by Workmen, Clark & Co., Belfast. She was especially designed to meet the requirements of the Canadian trade and was fitted up with all the latest improvements. She cost \$700,000.

Death of Hon. John F. Wood.

TORONTO, March 10.—Hon. John F. Wood, M. P., for Brookville, was found dead in his bed at the Queen's Hotel this city, this morning. Death resulted from heart failure.

She was an aristocratic but vinegar-faced lady, and she had called on her friend Mrs. Grindstone. "He's a charming little fellow, Mrs. Grindstone," she said, referring to Willie Grindstone.

"Only five years old, you say? You'll give me a kiss, won't you, Willie?" Willie did not evince any signs of eagerness to comply with the request but he kissed her.

"That's a good boy," said the visitor, "but what are you holding in your hand so tightly?"

"It is a quarter mamma gave me," said the truthful Willie; "she said she 'spected you'd want to kiss me, and I told her I wouldn't do it for less."

Active Prohibitionists.

MONTREAL, March 13.—Sir Wilfrid Laurier's letter to the secretary of the Dominion Alliance announcing that the government had decided not to introduce any prohibitory legislation as a result of the plebiscite caused great excitement among temperance people here. The meeting of the Quebec branch of the Alliance has been called for Monday to discuss the situation. It is said a manifesto will be issued to the electors of Canada exposing what temperance people consider the duplicity of the ministry and advising the formation at once of a third or prohibition party in Canadian politics, prohibitionists having come to the conclusion that nothing is to be expected from either of the two old parties.

It Gives True Life!

Paine's Celery Compound

Indorsed by Physicians as the Best Spring Medicine.

The records and history of medicine point to Paine's Celery Compound as the most successful remedy ever given to sick and suffering humanity. It is indorsed by the medical faculty because they know its formula and have confidence in its life-giving virtues.

Paine's Celery Compound works gloriously and marvellous cures. This is the secret of its success, and accounts for its world-wide and enormous sales.

It is in the spring time—this very month—when men and women are weak, nervous, rheumatic, neuralgic, dyspeptic, have headache, kidney and liver troubles, and blood that is sluggish and impure, that the great medicine should be used to restore nervous energy, rich blood, healthy digestion, natural appetite and sweetest-sleeping sleep.

The right has been a time wherein men and women have stored ill health instead of keeping the body sound, clean and full of true life. The nerves, blood and digestive organs must be fed, nourished and cleansed by Paine's Celery Compound if true and lasting health is looked for.

At this time we honestly urge the use of the medicine that has restored thousands to full and robust health after medical skill and ordinary medicines failed. One bottle of Paine's Celery Compound will convince you that you have found a true friend and helper.

Here is a Total Loss.

The new Allan Line S. S. Castilian, Capt. Barrett, which sailed from Portland, Me., on Saturday for Liverpool, via Halifax, went ashore shortly after four o'clock on Sunday morning on what is known as Gunnet Rock dry ledge, twelve miles from Yarmouth light. There was a heavy fog at the time. The steamer being in company with the British general cargo vessel valued at \$450,000, the most valuable cargo ever shipped by the Allan from Portland. When the dispatches were sent out on Sunday the ship had six feet of water in her hold. She was badly bulged up from the saloon to the foremast. A large number of sheep in the forward hold were drowned. The swelling of grain in the forward hold threw up the saloon deck. The passengers were taken off by a tug and landed at Yarmouth. Captain Barrett and officers are still by the ship.

The Castilian is a new ship and was built by Workmen, Clark & Co., Belfast. She was especially designed to meet the requirements of the Canadian trade and was fitted up with all the latest improvements. She cost \$700,000.

TEMPERANCE COLUMN.

Contributed by the I. O. G. T.
AN INDESCRIPTIBLE MONSTER.
By M. P. Olmstead
(Continued from a last issue)

Some years ago a man came from one of the rum dens, excited with liquor, and deliberately set to work to kill his wife. Seating his little girl, ten years of age, in a chair, he compelled her to witness the horrid deed, threatening her life if she moved or made a noise. Then setting the wife and mother by the hair of her head, with no provocation, he fell to beating and kicking and dragging her around the room. Not satisfied with this, he dragged her out of doors, down a flight of stone steps and back again, till she was dead. The little girl watched her opportunity, and fled to the neighbors and revealed the awful tragedy. A few months after he was hung in prison, cursing his little daughter with his latest breath. But are these isolated cases? By no means. I venture the assertion that he who reads the public prints generally for the next six months will find similar feats of this traffic. "It stamped the residue under its feet." So does rum. But it may be asked, when property, character, family and influence are all destroyed, what else is left to be trampled under foot? We answer, there is much left—the undying soul!—Yes, that poor wretch, whom the rude boys jostle in the streets, was once not only a "mother's darling," but perhaps some noble maidens lover or husband, and still he has a soul. And that soul must at last swell the songs of angels in heaven, or wall among the lost forever. This to me, is the worst feature of this rum trade—it ruins the soul! The fourth beast was not only "averse from those that went before it," but it was more destructive than the other three combined. So in this case, a warrior may fall on the battlefield, amid the thunder of artillery, the roar of musketry, the rush of horsemen and the clashing of arms; and may be borne away in triumph in a chariot of angels to a world where there is no more strife.

Pestilence may strike its fatal blow in an hour, but its victim may reach a clime where "Chilling winds and poisonous breath, Are felt and feared no more."

The slave may clank his chains under a cruel task-master, but may soon burst those shackles and mount to the land where all are free, and walk the golden streets of the New Jerusalem, and amid fields of bloom, pluck the blushing fruits of Paradise, and in each case it may be written emphatically, "To die is gain."

But the drunkard's death is hopeless, for it is written, "No drunkard shall enter the Kingdom of God." Should our foreign foe levy such a tax as rum imposes, no power could resist the tide of indignation which would be raised against it. Or let some foreign vessel attack one of ours on the high seas, and the whole country is aroused, and should some of our wild land, war is the result. But this tyrant may lead us with the most galling chains, rob us of our homes, lands and goods; ruin our families, destroy our property, and even ruin the soul, and yet the monarch is forgotten, and grows strong, by the indulgence of our people. Oh! for the spirit of freedom that would break the thralldom of this tyrant Alcohol! But this struggle is to be more desperate than any that has preceded it, for it is a crusade on two renowned conquerors, Puck and Appetite. But let every lover of the race nerve himself to the conflict, and as Gideon with his 300 tested cold water men surrounded the camp of Midian, so let the Grand Temperance army move upon the works of the tyrant King, shouting everywhere, "The sword of the Lord and of cold water men!"

TO CONSUMPTIVES.
The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge), a copy of the prescription used, which they will find a sure cure for Consumption, Asthma, Catarrh, Bronchitis, and all Throat and Lung Maladies. He has all suffered with this remedy, as it is invaluable. Those desiring this remedy will send their name and address, and may prove a blessing, will please address:
REV. EDWARD A. WILSON,
Brooklyn, New York.

Short Sighted People.
Parents who quarrel before their children.
Those who talk about their troubles to strangers.
Those who think that gaining riches will make them happy.
Parents who permit their children to grow up in idleness.
The young woman who does not make a confident of her mother.
The father who tells his children to go away, a little bit with another.
Those who never try to be religious except when they think they are being watched.
Evil is always the weak pleasure of a little and narrow mind.
Virtues of Fruit Juice.
Pure grape juice, says an authority on food, is invaluable in either sickness or health. In fevers it is both food and medicine, and is more and more used by physicians. Oranges and pineapples make a delicious juice, but the small fruits are more valuable. Currants, used alone or mixed with a kind of raspberries, are more so, and the huckleberry and elderberry yield products not to be despised. Blackberries, field or garden, are valuable medicinal agents, and the poorest cherry, uneatable as a fruit becomes nectar when made into a drink.
Kerosene or any burning fluid is excellent for cleaning windows. Moisten a woolen cloth with it, rub the glass clear, then polish with a fresh piece of flannel. This is an easy and effectual method of cleaning windows all the year round, but it is especially recommended in frosty weather.
A small boy, writing a composition on Quaker, wound up by saying that the Quakers never quarrel, never get into a fight, never claw each other and never "jaw back." He added "Pa is a Quaker, but I really don't think it is."

Cook's Frenstrating Plasters.
Jones asked his wife, "Why is a husband like dough?" He expected she would give it up, and then he was going to tell her it is "because his wife needs him," but she said it is "because he is hard to get off her hands." A slight coolness followed.

ST. JOHN LETTER.

When some of the oldest of us were boys we were told in the geography a good deal about Popocatepetl, (a word we could never pronounce) "the smoking mountain" in Mexico. We were told that it had an elevation of 17,540 feet, 1,800 feet higher than Mont Blanc, and that its crater was about three miles in circumference, 1000 feet deep, within which were vast quantities of sulphur. The volcano was in great activity in 1819, and in 1842 a man was let down into the crater by ropes to a depth of 450 feet. It is said that the Aztecs were in the habit of casting human sacrifices into the crater to appease the anger of the demon of the volcano.

Now, Popocatepetl has been sold to an English syndicate for \$250,000 dollars who will build a railway to its summit and remove the sulphur from the crater where millions of tons have accumulated, it is said, "in the long base of the cone."

W. C. Pitfield & Co., of this city have effected a compromise with their creditors at 15 cents on the dollar, part cash and part secured notes.

It is reported that the Yarmouth Steamship Co., and the D. A. R. Co., will put steamers on the St. John-Boston route next summer in opposition to the International Line.

Practically the markets are unchanged since last week; P. R. molasses is a little stronger and is firmly held at 34 and 35 cents. Business is active for the season; the leading houses report very satisfactory collections and sales through their travellers. Geo. S. DeForest & Sons are receiving direct from Havana the largest stock of fine cigars held in Canada east of Montreal. It comprises such famous brands as Diaz and Garcia, Manuel Garcia, El Rico Queens, Constanzas, etc. They also handle two or three private brands of domestics which are very popular.

The House suit vs. the Street Railway Co., is now in progress. The plaintiff claims \$100,000 for damages sustained.

Dominion Parliament.

OTTAWA, March 16.—At three o'clock this afternoon His Excellency the Governor General proceeded to the chamber of the Senate in the parliament building, and the members of the Senate being present, and the members of the House of Commons having been summoned to the bar of the Senate His Excellency was pleased to open the fourth session of the eighth parliament of Canada with the following speech:

Honorable Gentlemen of the Senate: Gentlemen of the House of Commons:

In meeting you for the first time since entering upon my duties as the representative of Her Majesty in this Dominion it affords me great pleasure to be able to congratulate you on the large degree of prosperity which the people of Canada at present enjoy as evidenced by the expansion of trade and commerce, the flourishing condition of the public revenues and the increased number of immigrants which are to become permanent settlers amongst us. To these evidences may be added another, which is even more gratifying, the almost total cessation of the exodus of our population, which at one time was a regrettable feature of our affairs.

The negotiations which we set on foot during the recess between Her Majesty's government and that of the United States in reference to the settlement of certain questions in dispute between Canada and the latter country, were, I grieve to say, greatly delayed by the illness and subsequent death of two of the most eminent members of the commission appointed for that purpose. Considerable progress had been made on several of the subjects sub-

mitted, but a serious disagreement arose between Her Majesty's commissioners and the commissioners of the United States of the question of the delimitation of the boundary between Canada and Alaska. The question was referred by the commissioners of their respective governments to the commission being adjourned to the second day of August next in the hope that in the meantime the difficulty might be overcome.

In compliance with the act passed last session a public sale was held on the question of prohibition, and the official figures of the vote will be placed before you. I observe with pleasure that the mother country, Canada and other British possessions have recently adopted a penny postage letter rate. His satisfaction with which this action has been received by the Canadian people is a further proof of the general desire existing amongst our people for closer relations with the mother country and the rest of the Empire.

I am also glad to be able to state that the satisfactory condition of the finances of the country permitted a reduction on the first of January last of the Canadian domestic letter rate from three to two cents, and although such reduction involves a temporary loss of revenue, it is nevertheless confidently expected that the cheaper rate will prove of such service in the promotion of trade and in the general interchange of correspondence that within a reasonable time the revenue of the post office department will be restored to its former figures.

Much information has been obtained since you last met relative to the value of the deposits of gold and valuable minerals in the Yukon and other parts of Canada. The returns from the Yukon have so far proved sufficient to meet the heavy expenditure it was found necessary to incur for the purpose of preserving law and order. It has been thought expedient in the public interest to authorize the construction of a line of telegraph for the purpose of maintaining speedy communication with the people in these distant territories.

A measure will be submitted to you for the better arrangement of the electoral districts throughout the Dominion, as also several enactments of less importance. Gentlemen of the House of Commons: The public accounts will be laid before you and also the estimates for the coming year. They have been prepared with due regard for efficiency and economy and the responsibilities resting from the rapid progress of the country.

Honorable Gentlemen of the Senate: Gentlemen of the House of Commons: I am confident that the important subject I have mentioned to you will receive your serious consideration, and that it will be your earnest endeavor to promote the public interests and prosperity of Canada.

The day broke clear and bright, and though the temperature was too low for comfort, the weather conditions for the opening were auspicious. Lord Minto made his first official appearance on Parliament Hill at three o'clock and was greeted by an immense crowd without and within the buildings. He was escorted from Government House by the Governor General's Body Guard, and when he reached Rideau Falls the great guns on Nepain Point thundered out announcement that he was on the way.

Firing continued until the Governor General reached Parliament Hill. Here he was received by a guard of honor composed by the Governor General's Foot Guards. The crash in the Senate chamber was tremendous, every inch of space upon the floor and in the galleries being occupied mostly by ladies. Society never made a braver show or brought together a more representative assemblage about the vice-regal throne.

OTTAWA, March 17.—The following newly elected members were introduced: Messrs. Holmes, (West Huron), Martineau (Montgomery), Johnston, (West Lambton), McCarty (North Simcoe), Marel (Bago), and Bell (East Prince). All took seats on the government side of the House, including Mr. McCarthy, who was introduced by Messrs. Stobbs of Cardwell and Douglas of the Eastern Association.

Speaker Edgar announced that he had received the resignation of Mr. Gaitz,

member for Bonaventure, but as it was informal he had declined to accept it. He also stated that he had received from Mr. Gladstone a letter acknowledging a resolution of sympathy passed last session on the occasion of Gladstone's death.

Touching references were made by the leaders to the deaths of Messrs. Jamieson, Wood and Guy.

The House adjourned until Monday out of respect to the memory of the late Mr. Wood.

Sir C. H. Tupper will interrogate the government in regard to the sale of the Canada Eastern Railway and the purchase of steel rails for the Intercolonial. He will move for papers on this latter subject, also in regard to the construction of deep water terminals at St. John.

Mr. Fontain will again present the indemnity measure drafted by the Canadian League of Trade.

Mr. Maxwell wants to increase the Chinese poll tax to \$800.

COMpletely PROSTRATED.

A Quebec Farmer Tells How He Was Restored from Almost Hopeless Suffering to Complete Health.

Mr. William Goodard, a well known farmer living near Knowlton, Que., says:—"A few years ago my health gave way and I was completely prostrated. The least exertion would make me up and make it difficult for me to breathe. I suffered from headaches, had no appetite, and fell off in weight until I was reduced to 130 pounds. Finally I grew so bad that I was forced to keep my bed, and remained there for several months. I was under the care of a good doctor, but he did not seem to help me. One day a friend urged me to try Dr. Williams' Pink Pills and I procured two boxes. When I had finished them I could not see much improvement and would have stopped taking them but for the urging of my friend, who said that in my condition I could not expect to see immediate results. I continued taking the pills, and by the time I had taken a couple more boxes there was no doubt that they were helping me, and it needed no further persuasion to induce me to continue them. In the course of a few months I not only regained my health, but increased in weight fifty pounds. These results certainly justify the faith I have in Dr. Williams' Pink Pills, and I strongly urge those who are weak or broken down to give them a fair trial."

More weak and ailing people have been made strong and energetic by using Dr. Williams' Pink Pills than by any other means. They fill the veins with new, vigorous blood, and strengthen every nerve in the body. Sold by dealers at 50 cents a box, or six boxes for \$2.50, or sent by mail by addressing the Dr. Williams' Medicine Co., Bristolville, Ont.

Laurier on Prohibition.

Mr. Laurier has sent his views on the prohibition question in view of the recent plebiscite to Mr. Spence, secretary of the Dominion Alliance. Among other things Mr. Laurier says: "The record shows that the electorate of Canada to which the question was submitted, comprised 1,223,849 voters, and of that number less than 25 per cent, or a trifling over one-fifth affirmed their conviction in the principle of prohibition."

If we remember that the object of the plebiscite was to give an opportunity to those who have at heart the cause of prohibition, who believed that the people were with them and that if the question were voted upon by itself, without any other issue which might detract from its consideration, a majority of the electorate

would respond and thus show the Canadian people prepared and ready for its adoption.

It must be admitted that the expectation was not justified by the event. On the other hand, it was argued before us by yourself and others, that as the plebiscite campaign was carried out by the friends of prohibition without any expenditure of money and without the usual excitement of political agitation, the vote recorded in favor of it was comparatively a large one. This statement I did not then controvert, nor do I controvert it here and now. I would simply remark that the honesty of the vote did not suffer from the absence of those causes of excitement and that even if the totality of the vote might have been somewhat increased by such cause, its moral force would not have been made any stronger.

I venture to submit for your consideration and the consideration of the members of the Dominion Alliance, who have in prohibition as the most efficient means of suppressing the evils of intemperance, that no good purpose would be served by forcing upon the people a measure which is shown by the vote to have the support of less than 23 per cent of the electorate. Neither would it serve any good purpose to enter here into further controversy on the many incidental points discussed before us. My object is simply to convey to you the conviction that in our judgment the expression of public opinion recorded at the polls in favor of prohibition did not represent such a proportion of the electorate as would justify the introduction by the government of a prohibitory measure.

I have the honor to be Dear Mr. Spence,

Yours very sincerely,

WILFRID LAURIER.

DIED AT WOODSTOCK.—Mr. Charles T. Perkins died at his home five miles below town on Saturday evening last, after an illness of some duration. He was born in Kings county but moved to Queens when but a mere lad, where he married and lived many years. Some twenty-five years ago Mr. Perkins purchased the old church property known as "the Rectory." Here he lived until a few years ago, when the present occupant and owner Mr. John Flemming, purchased the property. Since then Mr. Perkins has lived with his son, Charles H. L. Perkins, who married Miss Florence Bull. Mrs. Charles T. Perkins pre-deceased her husband some ten years. Of a family of three children who moved with their father to Woodstock, only the son above referred to, survives. Two daughters, Agnes, wife of Arthur J. Raymond, have passed away. Mr. Perkins was a man of sterling character, upright and honest in all his dealings, a good neighbor and an industrious and capable farmer. Since he came to Woodstock he won the respect of all with whom he came in contact. He was a devoted member of the church of England.—Woodstock Despatch.

Mr. Thos. Akerley of St. John who has been spending a few weeks in town returned home last week leaving a number of arriving friends.

Miss Jennie Cooper left for home this morning accompanied by Mr. and Mrs. Wm. Cooper.

TO EDITOR QUEENS COUNTY GAZETTE. In reporting Mr. H. W. Woods' Declaration speech, you credit him with saying that there was \$200.00 paid for a vote in Peterville, which I say is entirely untrue.

Then he explains that a certain man in said Parish had done some work on roads and claimed for his work \$20.00 and his claim was not allowed. This, I also say was not correct, as I happen to know that the claim was a just one, and the chief commissioner would have settled it long before the date referred to, only some difficulty arose between Burton and supervisor which caused the delay.

Then he says that the said certain man told the government candidates when he solicited his support that if the money was not paid for the said work before the Election day that they would not receive any vote from him. The said certain man George R. Burton in the presence of a good, reliable witness, told me on the 2nd day of this month that he never saw nor spoke to either of the government candidates in his life. Then he says on Friday evening before the election the \$20.00 was paid.

I will now explain how and why it was paid. I knew the work was done as I had written to the Hon. Mr. Farris in reference to it and I also explained the matter to the Honorable Chief Commissioner on one occasion and both of those gentlemen said the claim would be paid if it was a just one, as soon as things could be made all clear with said supervisor. With these facts before me and Mr. Burton being a good neighbor, he was in my office just a week prior to nomination, I said, Burton, I suppose we will see you up to the election. He replied, if they don't pay me for the work done I will not leave the house that day. I explained that I feared that it could not be paid at that time on account of the Election Campaign, but I would write to Mr. Winslow in the Board of Works Office and if the money did not come at once as he needed it at the time, I said, George, I have a cheque for \$20.00. Not a word Mr. Burton said ascribed by Mr. Woods but my own money, which I would get cashed and give him the \$20.00 and wait till the Board of Works paid the bill.

I went to St. John and got the cheque cashed, and on Friday evening previous to election, I called at Mr. Burton's house, and in presence of his wife and father (and I would not have objected if Mr. Woods had been there), I handed Mr. Burton the \$20.00, and the only

words I said as when you are down some day, I will take a receipt for the \$20.00.

I positively say that during all or any conversation with Burton, I never mentioned to him how I expected him to vote or in any way hint so that it could possibly be construed, or imagined, I was bidding for a vote.

Then Mr. Woods reads a sworn statement from Burton in order to prove the above statements to be true, which the said Geo. R. Burton says is not correct, as he never swore to any statement made to Woods. He does admit, however, that he gave Woods a statement that the \$20 was paid by H. Johnston, for work done on Roads as stated in my letter above.

I would just be as justified in the eyes of the public, to state here that the \$20 paid by the said H. W. Woods to the said George R. Burton on Monday after the election for driving the said H. W. Woods to the polling booth was paid for a vote as Mr. Woods was in making the statement that the \$20.00 was paid for a vote. But I can assure my friend, Woods that Mr. George R. Burton is not the man to be bought so easily as he thinks.

Yours, H. JOHNSTON, Walford, Queens Co., March 7th, 1899.

I have carefully read over the above letter written and signed by Mr. H. Johnston and I do solemnly say, and I am prepared to prove, that it is a true and extremely fair statement of each and every matter and subject referred to therein.

GEORGE R. BURTON, ROBERT McDONALD, Witnesses, Walford, March 7th, 1899.

Mr. Wannamaker's Advice.

Tomkins. "Good morning, Mr. Wannamaker, I have called to see if you can give me a position in your establishment. I can turn my hand to almost anything."

Mr. W. "No, we are full in every department, and you are the twentieth man I have refused today. Why don't you take up a line in which there is less competition and better pay?"

Tomkins. "I'd only be too thankful if you can put me on track of such a position."

Mr. W. "When I was 20 years of age, I was a stranger in a strange land, with neither work nor money, when a friend of mine, a lawyer, advised me to take a book agency saying he had educated himself by canvassing; like drowning men grasp at straws, I took his advice, and in 5 years saved \$5,000, and with this sum started my present business. It is just 50 years ago today that Mr. Bradley, the founder of the present firm of The Bradley-Garrattson Company, Limited of Toronto, sent me my first book prospectus, and to his beautiful letters and good advice, I owe much of my present success. Yes, young man, if you have anything in you, there is just so good a chance for you today with this old established House as there was for me. Write them and see what they have to offer."

Tomkins. "I have seen the advertisements of this firm, for agents, for years back, and have often thought of writing them, but have never done so. I will write today; and I am very thankful to you, Mr. Wannamaker, for your good advice."

A Curious Love Epistle.

In a book, dated 1830 there is the following very curious Love Epistle. It affords an admirable play upon words.

Madam: Most worthy of admiration, after long consideration, and much meditation on the great reputation you possess in the nation, I have a strong inclination to become your relation. On your approbation of this declaration, I shall make preparation to remove my situation to a more convenient station to profess my admiration, and if such oblation is worthy of observation, and can obtain commendation, beyond all calculation of the joy and exultation of years, Sam. Dissimulation.

The following is the still more curious answer:

Sir: I perused your oration, with much deliberation, at the great infatuation of your imagination, to show such veneration on so slight a foundation. But after examination and much serious contemplation, I supposed your admiration was the fruit of recreation or had sprung from ostentation, to display your education by an odd intimation; or rather multiplication, or words of the same determination, though of great variation, in each respective signification. Now, without disparagement, your libidinous application in so tedious an occupation, deserves commendation; thinking mitigation a sufficient gratification, I am, without hesitation, yours. Mary Moderation.

The Farm Garden.

The garden should never contain less than half an acre, and better be two acres. A garden of this size can easily be worked with a horse saving much hand labor, which is required in smaller plots. If more is grown than required for home use it can usually be disposed of some near by market, or to some neighbor who will not have a garden. Or the area can be devoted to potatoes, or roots for stock can be increased. Being near the house, it is of easy access, and the farmer can spend many half hours working his garden, when he would not think of going to the field for that length of time.

The garden should contain all the small fruits, such as berries, currants, etc. Plant these in single rows, and far enough apart so that they can be easily cultivated. The space between can be devoted to some vegetable, which will compel working around the shrub. If the market gardener, upon lands ranging in price from \$300 to \$1,000 per acre, can upon a half dozen acres sell more dollars worth of produce than are sold off many large farms, why may not the farmer give in his own garden a richer food that will take the place of much of the more expensive commodities bought in town? The garden cannot be had without labor, but with less, considering the amount produced, than is required for general farm crops. Two and sometimes three crops can be grown upon the same ground in one season. With the addition of a few hot bed sash the garden can be made to produce fresh vegetables for the table all the year round.—Orange Judd Farmer.

Want to be British.

SEATTLE, Wash., Mar. 9.—The citizens of Port Wrence, Alaska, are said by late arrivals from the North, to be drawing up a petition asking the High Joint Commission to cede their town to Canada. This is one of the oldest settlements in Alaska. They desire to be the centre of Canadian travel to the mines of the interior and think a change of flags would help their business chances.

The only excuse they offer for their desire to get from under the American flag is that the principles and laws which that flag stands are not in effect in Alaska. They claim that the territory has been abused and neglected.

Offences against Kaiser Wilhelm's dignity in the one year 1898 were punished, taken altogether, with 2,000 years of imprisonment, according to the Nurnberger Zeitung, a Social Democratic newspaper.

TEMPERANCE COLUMN.

Rise up ye Women that are at Ease.

REV. DR. CARMAN'S QUADRENNIAL ADDRESS TO THE GENERAL CONFERENCE OF THE METHODIST CHURCH, 1898, ON THE PROHIBITION PLEASITITE.

DEAR BRETHREN.—As well as members of the Church of God, enjoying its privileges, sharing its honors and rewards, bearing its burdens and guarding its interests, we are also citizens of the State, for the most part of the godly estate of the Dominion of Canada, holding our relations to other citizens and the civil government, entitled to the rights, immunities and franchises of good citizenship, and under obligation to the best of our knowledge and ability to defend and support the State and keep it from harm; and the citizens from injustice, loss, hurt, damage and public or private violence, trespass, oppression, encroachment and wrong.

WE ARE BOUND TO PROTECT THE FAMILY. Especially are we bound as citizens and under government to protect and nurture the family, the home, as the creative and indispensable unit of the State, without which no State can properly exist, abolishing what wars against the family life of the country, and promoting what invigorates and establishes the home; not the home of the thief or counterfeiter, or pimp, or saloonkeeper, or distiller alone, but the home of the merchant, the laborer, the lumberman, the teacher, and the preacher as well.

To guard and strengthen the home we must defend and enable the individual, the free moral person. Civil government is an institution of God, as also the State of which the civil government is the agency. So also is the church, an institution of God. So also is the family, the home, an institution of God. Therefore family, State and church have their respective spheres and need by no means come to be thrown into collision. Kept in their proper relation in their unbiased, untrammelled exercise, they are mutually helpful and gradually co-operative for the common good.

Head, heart and stomach are organs in that perfect and harmonious unity, the human body, each having its indispensable place, office and functions. The head cannot do the work of the heart; no more can the stomach do the work of the head. But each doing its own work in its own way, time and relations, you have the strong active, symmetrical man. No more is it to be applied to the church to do the work of the State, or to the State to do the work of the family.

The ills of earth and even the conflicts of centuries are in no small measure attributable to the pervasions, failures, disgressions and interference of these high appointments of the most high God through the self-will and consequent blindness of man. The human person, God the Creator, the church, the family, the State, society and the human race are compass man's earthly being. And because of the fundamental relations of God and the human person, vital religion must run through all political, economic and ethical systems. Here is why the broad-minded, far-seeing, religious, patriotic and philanthropical man cannot give over his fight against the liquor traffic.

CRANKS! THEY SAY.

CRANKS! they say; but cranks with a sweep broad as the human race through the coming ages of time! Cranks that turn the wheels which roll back the doors from the dungeons of darkness, misery and death, and let forth wretched, degraded men and women into freedom and light! The liquor traffic is the foe of every interest of humanity and of every claim of the righteous God. It is the dispeller of reason and intelligence, of virtue and piety, of social order, domestic comfort and civil prosperity and peace. It is the utterly conscienceless plunderer of the wealth of the family and the nation.

The revenue it pays, and yet it boasts it pays seven millions of dollars into the Canadian revenue. Is the Government guiltless? Are the people guiltless? Are we human? Are we honorable? Are we brotherly? Certainly we are not Christian when we raise our revenue out of murder and arson and robbery, out of ignorance and insanity; seeking poverty and disease; revenue out of fallen men and women, desolated homes and the tears of the wives and mothers, and the mothers, and the wail of the orphan. There is nothing wise about this; there is nothing manly, nothing noble. Our statesmen should show themselves worthy of the name in this matter as did Gladstone, a Tilley, a Galt, or should leave the Government to men who can carry it on without debauching the people into drunkards and sots.

Alas! Alas! For us as a people, if we force our Government into partnership with distillers and saloonkeepers to secure public funds. How, then, about the ballot-box? Canada, body and soul, schools, churches and homes, agriculture, commerce, manufacture and are sold to Bagghus and his minions for \$7,000,000 grog money! In that day it will be a proud thing to be a Canadian. God and true religion are at war with the liquor traffic. The free moral and responsible

personality is at war with the liquor traffic. The genuine Church of Jesus Christ is at war with the liquor traffic. The home is at war with the liquor traffic. Pure government and the State in every essential political interest is at war with the liquor traffic. Incurable and incorruptible society is at war with the liquor traffic. The brotherhood of universal humanity on all continents and seas is at war with the liquor traffic. Why, then, should it be perpetuated? Why protected by Government? Why fostered by the people at large? 'Tis fatten distillers and dealers, to pander to the lusts of victims, to leave an open sluiceway to deluge the land with vice and crime and sweep many of our noblest sons and daughters into the whirl of an awful ruin and to raise seven millions of revenue.

The Methodist Church as a church, with all its agencies, must continue to fight the liquor traffic. Our home influence and our family discipline and devotion must array themselves against the liquor traffic. It should be a mark by which every Methodist is to be known, that he is always and everywhere opposed to the liquor traffic. And in the great public test now before the country we should have but one voice throughout all our territories, that of us and all of us, are decidedly in favor of a Dominion law prohibiting the importation, manufacture and sale of intoxicating drinks for beverage purposes. This is one of the political rights and duties of moral reform. This is the highest exercise of civil and political freedom, to defend the family and the State, and even in many cases personal health, character and property against an organized, heartless and rapacious an enemy, social, private and public, as the aggressive traffic of the men who delight in the bowl, the still and the mash tub, clothe themselves in purple and fortify themselves in palace; no matter who goes to the hotel and to ignorance, starvation and rage. It is time that the moral sense of the people asserted itself, and that the public law, the high boast of public opinion, made this great wrong criminal and waded out to its due punishment. It would be a majestic step onward in our Christian civilization.

Think of a direct annual loss to the country of over \$40,000,000; and an indirect loss through illness, failure of labor, shortened lives, cost of prisons, asylums, charities, etc., of nearly \$100,000,000; and then talk of \$7,000,000 or \$8,000,000 revenue. What nonsense to talk about the statesmanship of immigration agency while we maintain so propulsive an immigration agency to hell by the expensive route to the gallows, the prisons and the asylums and by the dark and desolate way of disease and crime.

The bracing air of the prairies in our northwestern domain, in a recent noble sermon gave the solid position, as first a ground for faithful men: (1) That civil government is an ordinance of God; (2) that the civil Magistrate is the servant of God, administering righteous law under a sense of his responsibility to our Supreme Sovereign; (3) that the proper object and aim of civil government is the good of the people; (4) that the governing power must minister not evil, but to material good and moral good; (5) that the liquor traffic is not for the good of the people either materially or morally, because it serves no desirable end, meets no natural need, does not conduce to any advantage to the individual, the family or the State, but is all evil and evil continually, and thereof the government should have no relation to it.

From the Philippines.

MANILA, March 10.—Rebel incendiaries landed at the village of Paudcan last night for the purpose, it is alleged, of terrorizing those of the inhabitants who don't sympathize with the insurrection. A number of native houses were destroyed.

The United States transport Geard, which sailed from New York Jan. 9, having on board Maj. Gen. Lawton and the 4th Infantry, and a battalion of the 17th Infantry, arrived this morning.

With the exception of San Pedro Macuti, where Filipino sharpshooters incessantly annoy the American troops, matters are unusually quiet along the line.

The weather is much cooler today.

New York, March 10.—A despatch to the Herald from Honolulu, Negro Island, says: After a pleasant voyage the St. Paul, carrying the deputation from Negro, Col. J. F. Smith, the first American governor, and the first battalion of the California Regiment, Major Simes commanding, arrived at Honolulu on March 3. As the vessel entered the harbor at midday, it found the artillery in action and Gen. Miller's command advancing into the coconut plantations at the right of the line. Honolulu was terribly wrecked by the insurgent incendiaries and presents a scene of havoc and desolation. Magnificent residences and great warehouses were totally wrecked. Gen. Miller and his staff are confident they can hold the town. The insurgent strength is not definitely known, but it is believed there are 2,000 armed with firearms and 2,000 with bolts. They follow similar tactics to those at Manila, dropping irritating shots into the American lines throughout the night, but never appearing in sufficient strength to justify a resolute forward movement. Few casualties are reported.

A Rare Opportunity.

Having made arrangements with the publishers of the Toronto Daily Mail and Empire, we are in a position to supply said paper and the QUEENS COUNTY GAZETTE for one year for the small sum of \$2.70. The "Mail and Empire" is the leading Conservative paper in Canada and the low figure asked enables all to procure a copy. Address, JAS. A. STEWART,

IN MEMORIAM.

In memory of a beloved granddaughter.

By HARRIETTE MURRAY.

Disease came to our home
And our darling lay dead,
Oh! the waves of sorrow
That swept over our heads.

We felt an unseen hand
Wipe the water from our eyes,
And we heard the voice of Jesus,
Whisper "Be not afraid, it is I."

'Tis I that called your darling,
And folded her in my breast,
Safe from sin and sorrow
Your Madeline is at rest.

Dry your tears ye mourners,
And from such sobs refrain
We would not call her back to earth
To suffer grief and pain.

Among the angelic throng,
She waits our coming now,
And we beseech the Father's will
In week submission bow.

Give us the strength to pass
Beneath Thy chastening rod,
Kiss the hand that gave the blow,
Oh! Thou compassionate God.

Hast Thou not borne our grief
And for our sins atoned
Essential tears we weep
Oh Lord, Thy will be done.

A few more days on earth,
A few more days to wait,
Then we will join our darling
Within the peony gate.

She was so bright and winsome
We loved her so well,
The music of her laugh,
Sweet as a chime of bells.

Our Madeline is with Jesus,
And we bow beneath His rod,
For we know our darling is happy,
In the Paradise of God.

COOK'S NEW BLOOD PILLS.

Partition of China.

London, March 1.—The Daily Graphic which is well informed in Government matters, says that Sir Claude Macdonald the British Minister to China, acting under instructions from Lord Salisbury, has informed the Tsung-li-Yamen that Great Britain will hold China to the terms of her contract with the Hong Kong and Shanghai bank regarding the Northern railway extension lease. The Minister assured the Tsung-li-Yamen that Great Britain would support China in resisting any aggression intended to force her to renounce her obligations.

The Graphic says it understands that the British Government does not admit that the terms of the contract conflict with the Tsung-li-Yamen's assurances to M. Pavlov, the Russian representative or violate the understanding between Great Britain and Russia, by which Russia waived her position to the loan. Notwithstanding Lord Salisbury's action, the crisis is not regarded as serious. The deadlock will be settled by further negotiations, which will now be resumed after a temporary suspension, with every prospect of an amicable arrangement being reached.

PEKIN, March 3.—The demand of the Italian Government upon the Government of China for a lease of San-Mun bay as a coaling station and naval base on the same conditions as those under which Germany holds Kiao-Chau bay, including a demand upon the part of Italy for the concession of three islands off the coast of the province of Che-Kiang, with the right to construct a railroad from San-Mun bay to Po-Yang lake, and preferential mining and railroad rights within a sphere of influence covering the southern two-thirds of Che-Kiang province, has caused great excitement here, not only among the Chinese, but also among the diplomats.

The Chinese are firmly convinced that Great Britain is chiefly responsible for the Italian demand, and that it was made in order to emphasize Great Britain's displeasure at the turn which the Northern railway question has taken. They declare in proof of this assertion, that Great Britain has determined upon a sphere of action and the abandonment of the "open door" policy. The diplomats openly say that the new development is the beginning of a policy of partition upon the part of the powers.

The representation of a great power during a conversation, is said to have suggested that the moment had now arrived for international control of China, and it was added that if the policy of the "spheres of influence" should be really inaugurated, the United States would be expected to have a say in the matter, and further said that there were indications that America would be likely to prefer the Province of Chihli.

ROME, March 4.—In the Chamber of Deputies today Admiral Decanavaro, Minister of Foreign Affairs, replying to a question on the subject, confirmed the report that the Government is taking steps at Pekin to secure a lease of San-Mun bay, Province of Che-Kiang, China, and has given notice of its intention to the other nations interested in China, all of whom, the Minister said, were friendly to the Government's project.

THE MITTEN. The night was frosty, bright and clear, And Bessie, cozy as a kitten, Was snuggled at my side, her dear Small hand held in mine, for fear It might chill through her mittens. The sleigh bells tinkled, I absurd, With Bessie's charms was deeply smitten. But still I slipped her hand like a thief: Of love I uttered not a word. "The love that makes the world go round," No truer words were ever written. My tongue and Bessie's lips I found; And when we parted, on the ground I found her tiny mitten. I have it yet. It's treasured, With my dear little Bessie, who was smitten. 'Twas long ago, you understand, Some other fellow got her hand, And I-I got the mitten.

DREAM WITHIN A DREAM. Story Told by a Broker That Terrified an Attentive Listener. They were discussing the subject of dreams, says the Detroit Free Press, and the broker, after hearing from most of the others, decided to offer an opinion, but said he would relate a dream he once had, and leave his hearers to draw their own conclusions. "I was a young man of active habits and anxious to get rich by the shortest possible method, with honesty, I found myself in the western part of what is now the State of Washington. I met a rough miner who said he was about to depart for the section where the Blewett gold mines are now being operated, and wanted me to go along. His inducement was that we could realize 50 cents a pan at placer mine, which was a dazzling bonanza. I also met a man whom I have known in the East, and he advised against the project, because my proposed partner was a dangerous character. He had started out on half a dozen expeditions with some landrover, and always returned empty-handed. But I rejected all opposing advice and went. The third night out we spread our blankets early and laid down, but were wakened by a storm. I must have been about midnight when I had the most blood-curdling dream. As plainly as I see you gentlemen now I saw that rough miner, who was accustomed to losing men when he took out, standing over me with a drawn bow and about to plunge it into my breast. "I could not scream or move to offer resistance. The very terror of the situation must have awakened me. The cold sweat was pouring from every pore, and it was only when I realized the immediate safety of my position that I could move. Stealthily I moved with my trapline, where my nose was tethered, hastily prepared bin for the journey, and soon went galloping over the back trail. I imagined pursuit, but no shots were fired, and my escape was assured. "What man turn out to be a murderer?" "What man? The whole thing was a dream, I told you. There was a dream within a dream. I was never west of St. Louis in my life."

A Way to Test Your Knowledge. You may be your own oculist, and in a very practical and simple way. All you need is a stereoscope and a photograph. That arrangement in which the picture holder slides up and down in its frame, trombone fashion, is the best sort of stereoscope for the purpose, although you will find the photographic apparatus that will give the best results is a cabinet size view of some locality, with people in it. You put the photograph in the holder and focus it just so that you can see the faces clearly. Then close the left eye and look at the picture intently with your right eye, while you count thirty slowly. Now close the right eye and look at the picture with the left eye for the same time. Then open both eyes and stare at the picture without changing the focus. Something queer will happen. The figures on the one side of the view will seem to move toward the view and group themselves with those on the other side, and this is the point of the experiment—the figures will always move away from the weak eye. Moreover, they move with a very precise relation of speed to the weakness of vision. If the left eye, for example, is quite weak, the figures will move very quickly across the plane of sight. If the right side, while if there is but a slight defect, the movement will be gradual, and so on.

A Queer Thing About This Experiment is that, simple as it seems, it will bring out defects of vision that have never been suspected, and another queer thing is that it will demonstrate the cases in which both eyes are of equal power to be surprisingly exceptional. THE FORT TAY. A British sailor being a witness in a murder case, was called to the stand and was asked by the counsel for the Crown whether he was for the plaintiff or defendant. "Plaintiff or defendant?" said the sailor, scratching his head. "Why, don't know what you mean by plaintiff or defendant. I come to speak for my friend," pointing to the prisoner. "You're a pretty fellow for a witness," said the counsel, "not to know what plaintiff or defendant means." "Later in the trial the counsel asked the sailor what part of the ship he was in at the time of the murder. "Aha! the binnacle, me lord," said the sailor. "Aha! the binnacle!" replied the barrister. "That's that part of the ship is that?" "Ain't you a pretty fellow for a counsel," said the sailor, grinning at the counsel, "not to know what the binnacle is!" The court laughed.—Harper's Round Table.

A Venous Bird. New Guinea is the home of the most wonderful feathered creature known to the student of ornithology—the awful r'p'd'oo, or "bird of death." The venom of this bird is more deadly than any other known to man. In fact, no antidote for the bite of the creature is known. A wound from its beak causes excruciating pain in every part of the body, loss of sight, speech and hearing, convulsions, lockjaw and certain death.—Philadelphia Ledger.

Barbed Wire Telephone. Clarence and John Taylor, living a mile apart, on the Taylor farm, in East Dickinson County, Kansas, have solved the communication problem. Attaching fine telephone instruments to the barbed wire fence that connects their places, they have an easy method of communication. During the recent storm, when weeds and debris were piled on the fence, it made no difference in the transmission of sound and they talked with ease. They will extend the line two and a half miles to Pearl Station, on the Rock Island, and receive market reports and news by telephone. The whole neighborhood is fenced with barbed-wire, and several other systems have been put in, making a large prairie system.—Correspondence St. Louis Globe-Democrat.

The Forty Immortals. The French Academy was founded in 1735 by Cardinal Richelieu, and is the first of the five academies constituting the "Institut de France." It is composed of forty members, usually referred to as the "forty immortals," and placed on its role is eagerly sought. It was formed for the purpose of refining the French language and style, and after its period of idolatry for Cardinal Richelieu had passed, it became the leading literary society of Europe. Its duties are now the composition of the historical dictionary of the French language and the examination of important literary, historical and scientific works. Each of the 40 members receives 1500 francs a year, and the six members of the "dictionary commission" receive an additional 1000 francs each.

A Cure for Compulsivity. A physician who makes a specialty of physical culture and the reduction of obesity tells a rather amusing story of a sidewalk peddler who came to him for some remedy to cure his growing compulsion. The man was a dealer in toy balloons, and the most prominent portion of his frame was his abnormally large abdomen. The physician prescribed no drugs, but advised the man to change his line of goods, and to offer for sale some mechanical toy that would be displayed on the sidewalk. The new prescription obliged the patient to lose over two or three hundred times a day, and the doctor declares it to be a fact that in three months' time this exercise, without diet or medicine, had reduced the man's waist 11 inches.—Harper's Bazar.

KEEP CONSTANTLY ON HAND. Fine Drugs and Chemicals, Materia Medica, Druggists' Sundries, Dye Stuffs, Perfumery, Soaps, Brushes Combs, Etc., Etc. Farming in the Maritime Provinces. Differs materially from farming in Ontario and the West. Conditions are different and our markets not the same. A product profitable in those sections would not pay the tillage here, and a suggestion valuable to a westerner, would prove disastrous if followed by our farmers. In subscribing for our agricultural publication it is well to bear this in mind. There's only one paper that treats of farming from a Maritime Province standpoint. It is the Co-operative Farmer. PUBLISHED SEMI-MONTHLY AT SUSSEX, N. B. Sixteen handsomely printed pages every issue, with frequent illustrations of local interest, and, oftentimes, with several additional pages. Be sure you get our brand, as other Canadian Wines are sold as Pelee brand. Brand—Pelee Port, Dry Catawba, Sweet Catawba, Isabella, St. Augustine, Old Port Concord, Unfermented Grape Juice, Chateau Pelee Claret. GAGETOWN, JULY 27th, 1897. E. G. SCOVILL, Agent Pelee Wine Co. Dear Sir—My wife has been afflicted with nervous prostration for several years, using every kind of medicine recommended, but obtaining no relief until I procured some of your Pelee Wines, which I am delighted to say, has had the desired effect. It is the greatest tonic of the age, I think too much cannot be said in its praise and no house should be without it. We have recommended it to several suffering from the grippe debility, with like good results. I am, yours gratefully, JOHN G. CLOVA. E. G. keep money and run off the election grounds? Where did we find our Clergy, have they performed their duties as Watchmen on the Walls of Zion? If not they know the result, the blood of their fellow beings shall be required of them. Now, let the priest and people wake up to a sense of their responsibility and use our influence to prevent another repetition of the disgraceful acts that was witnessed at the different polling places in our County brought about by the use of Free Ram and Money that was furnished and used in the interest of our Candidates, and largely sanctioned by our so-called Christian Teachers. It is a Holy Mockery to preach one thing and practise another, for a man is known by the company he keeps.

Where are we drifting? To whom shall we look for a guide?

No doubt you have heard that war has been declared against the English sparrow. Well, it is true the little bunch of brown feathers has got to get, and by order of Mayor, as there will be no let up until they are all exterminated, but I will bet a dollar to a doughnut that this time twelve months will find the sparrow more plentiful in Mass. than silver dollars in the State treasury. It is claimed, by a few, that the sparrow is a great pest, while a great many say he is a grand success, as a grub destroyer. But the most interesting part of it is how are they going to destroy them. Some say traps, others poison, one veteran of the 9th regiment suggested to feed them some of the embalmed beef such as was used at Santiago. Pretty good, wasn't it? But what will they do with the dead ones. Perhaps they will start a new cemetery. It is claimed that one solitary old lady started the war, giving as a reason that her old father, who was 40 years of age, was shot at Bunker's Hill by an Englishman and she vowed to get square with the English. Hence the sparrow war. An old gentleman said they made so much noise he could not sleep in the morning. It has been found out that he has been deaf for 20 years, these are a few samples of the element who are against the birds. It is claimed, and I believe it quite true, that they keep the song birds out. Our robin and black bird are not in it when it comes to fighting, a single sparrow has been known to chase a pigeon to England, you know. Well to sum it all up I think it is disgraceful, but the pets must have a job.

We are having some of the strangest weather of late, one day like spring the next like winter. Snow is all gone and the robins have made their appearance which is encouraging. I remain,

We are having some of the strangest weather of late, one day like spring the next like winter. Snow is all gone and the robins have made their appearance which is encouraging. I remain,

week we have had a series of north-east snow storms with the mercury dropping as low as eight below zero.

Rev. Mr. Patterson and Mr. McVicar are at present assisting Mr. Henderson at his special meetings. The services continue to be well attended. The "gold fever" has reached this place at last, and threatens to carry off our young men to the far west, this spring. Mr. Allen Purvis thinks of running a boarding house at Roseland, during the summer months.

Mr. Clyde Elmwood, while crossing a field one dark night last week, received a severe blow from a post that happened to be situated in the field.

Elfin Coal Mines.
March 14.—The weather the present month has been very disagreeable, and the roads in this vicinity, are in a poor condition for those who are engaged in hauling coal from these well-known mines.

The young people of this place and the surrounding neighborhood, who have been attending special meetings at The Range, for the past two weeks, are much grieved to think that the good work is now at an end, as it afforded some of them a grand opportunity to display their natural abilities and vocal attainments, and they all unite in expressing their thanks to Mr. Geo. Branscombe, who kindly and liberally provided a very suitable way for their conveyance.

We are proud to say that we have in one of our districts, two young ladies who can walk through the Pines of Waterbury and Chipman in one hour and three and one half minutes. Can any one beat this?

The many friends of our clerk, Mr. Howard Ryan, will be pleased to know that his valuable horse, which a few weeks ago received slight injuries, is now better and able once more to trot a mile in three minutes.

We believe the people of Coal Creek should express their hearty thanks to Mr. Howard Elkin, our ex-boss, for his kindness and liberality in delivering to them their fish from our market, free of charge.

Mr. Norman Smith, of Cape Breton, who came here last May, has made many friends for himself by his affability and is highly esteemed by all who know him.

We are sorry to announce that Mr. Peter Spooner, of Illinois, who has been here but a few months, has expressed his intention of leaving us in a few days. We are always glad to see him among our number, as his smiling countenance and jocular performances add much in the way of entertainment. We wish him every success in the future wherever his lot may be cast.

Messrs. Medley Perry and Earnest Dyer, two of our former workmen, intend leaving their parts in a few days, to seek their fortune in the far west. Their departure will be deeply regretted.

Mr. John McDonald, our famous cook, is frequently visited by the ladies of Chipman and Coal Creek. We know that they could not be otherwise than pleased with the cordial manner in which they were entertained.

Dance rumor reports that we shall soon hear the sound of wedding bells, the parties concerned being a promising young gentleman of Coal Creek who is engaged in digging coal here, and a fair young lady of this place. Our loss will be his gain.

Narrows.
March 21.—Mr. and Mrs. Walter H. Barton are receiving congratulations on the arrival of a young daughter.

Master Freddie Cromwell has been suffering from the effects of Diphtheria, is recovering under the skillful treatment of Dr. McDonald.

Rev. Donald Patterson, who has been conducting revival meetings at Perry Point, F. C. B. church, is now holding special meeting at the Narrows.

"Oh, George, said a nervous lady to her husband, "do you think we shall have a safe voyage?" "Perfectly safe, my dear," replied George. "I have been talking with the captain and he tells me he has never been drowned yet, though he has been crossing continually since he was a cabin boy."

Spley News Items Gathered by Gazette Correspondents

Coal Creek.

March 12.—Mr. L. R. Lunney and Mr. M. L. H. Hawks of this place are running a rushing business, the former runs a lumber operation at the head of Coal Creek stream.

Mr. W. Pace of this place received a flying visit from Mr. J. Babine and family accompanied by Mr. G. Stilwell.

Mrs. J. A. Stratton of this place came near her death the other day by the effects of Diamond Dyes, but was soon rescued by the timely arrival of her husband and is now out of danger.

Mr. G. W. Stratton a respected citizen of this place is just recovering from effects of lagrippe.

Miss C. D. Stratton of this place will shortly make a visit to her sister who resides in Bangor.

Mill Settlement.

March 14.—Lagrippe has been very prevalent here this winter, whole families being prostrated at once.

Alex. Wooden who was very sick is recovering.

The boys are returning from the woods; among the latest arrivals are Wm. McCrackin and J. W. Knorr.

Rev. Horace Dibles held service at the hall last evening.

Miss Annie Thompson of Harvey has charge of the school at Mill Sett., West, and J. A. Patterson of Tweedside, at Mill Sett. East.

Mr. S. McCrackin is getting out a quantity of logs. He has engaged J. Shaaks to help him a short time.

Mr. Roberts of New York and Mr. Penper of Australia were here on a hunting expedition last week.

The Range.

March 15.—Owing to the cold weather, the roads in this section are in much better condition for driving and hauling than they were the first of the month.

The Quarterly meeting of the Baptist Church was held at this place on Friday, Saturday and Sunday, especially on Sunday. There were four ministers in attendance, Rev. Mr. Henderson, of Upper Gagetown, Rev. Mr. McIntyre, of Chipman, Rev. Mr. Coombs, of Cumberland Bay, and Rev. Mr. Patterson, who is at present laboring on this field. The ordinance of Baptism was administered to two candidates on Sunday morning, by Rev. F. W. Patterson. The Quarterly

sermon was preached by the Rev. Mr. Henderson. Owing to a slight illness, Rev. Mr. Coombs was unable to attend service on Sunday evening but he has since recovered and returned home.

Mr. Chas. Slipp who has been absent during the winter has lately returned, and we are glad to see him around, accompanied by Mrs. Slipp, who has been confined to the house for some time from the effects of slow fever.

Lagrippe which has been so prevalent here this winter, seems lately to have met with a check. No new cases are reported and those who have been prostrate through its effects are slowly recovering.

Messrs. Wm. Watson and Fred Fowler of Chipman were visiting friends here last week.

Miss Lillian Barton, who has been visiting her sister, returned home on Friday last.

Mr. Arthur Branscombe had a narrow escape from being killed, or at least seriously hurt, a few days ago while endeavoring to break a colt to harness for the first time; he had it hitched to a sled and it became frightened and while endeavoring to get it by the head he slipped and fell between the shafts where he became fast almost directly under the colt's feet, another man who happened to be near by rendered timely assistance by catching the colt by the head, while Mr. Branscombe extricated himself with his face somewhat skinned and bruised.

Our young men are beginning to leave us for a home on the rolling waves during the summer. Messrs. W. E. Barton and Harry Conners left a few days ago, P. M. Barton and Robert Barton intend going tomorrow, others will follow soon.

Brunswick.

To-day, March 10th, is very fine, scarcely a cloud to be seen in the sky, some people call it a weather breeder, if so, I hope that they will all be weather breeders.

Farmers in this place are busy getting up their frowood, they have about ceased from talking politics and gone to work, in spite of the fact that Emerson still holds the reins of power.

A large number of teams of Messrs. West and Parker have left the woods, where they have been hauling for these parties this winter.

Mr. Cyrus Humphrey, an old and respected residence of this place, died Feb. 19th and was interred in the Baptist burying ground on the 23rd. The funeral services were conducted by the Rev. John H. Hughes. Mr. Humphrey was a liberal in politics, and was 73 years of age.

Mr. Calvin W. Clarke, who had the

misfortune to fall and fracture several of his ribs, about 5 weeks ago, and has been very poorly since, is now getting around and expects to be able to walk in a short time.

Mr. George L. Kierstead has been quite ill with lagrippe, but is improving.

Willie Ryder, son of Mr. Asa F. Ryder, cut his foot very bad and will be confined to the house for several weeks.

Roland H. Corey, who bought the lumber land in Mill Brook, known as the Price land, has finished putting the lumber in the stream and moved out.

This place at present is favored with the presence of two gentlemen from Young's Cove or vicinity, who are not at all anxious to give evidence on a certain Scott Act case pending in Queens Co.

Miss Ida A. Northrup has charge of the school at Caban Forks, Dis. No. 3, Miss Ethel Thorne has charge of the school in Dis., No. 2 and Mr. Smith has charge of the school in Dis., No. 1. Hunters Home and Brookville Districts have no school this term.

Narrows.

March 13.—The I. O. G. T., Queens County District Lodge was held with Guiding Star Lodge No. 200 at their Lodge room on the 11th inst.

There was a fair number of delegates present and the afternoon session was taken up mostly with routine work. Special attention was given to the progress that our Scott Act Inspector was making in the prosecution of violators of the Scott Act and different ideas were advanced concerning the administration of that law. Things moved on smoothly until a good brother erred in judgment and made some reference concerning the stand the Dominion Government had taken in regard to the Prohibitory Law. That idea changed the complexion of the meeting for it was evident that there were those present who were ready to defend their friends regardless of the moral consequences and were determined to put party above principle; and at the Public Meeting in the evening were willing to justify the Dominion Government for refusing to give the Dominion a Resolutive Law, because Quebec voted against it. That amounted to saying Quebec must rule.

It is humiliating to think that we have such men among us, and they are determined to force their views upon a long-suffering and patient people.

Now, I wish to ask a few questions:—How many sermons were preached previous to the late election warning the people against the sin of Bribery? How many of the Clergymen approached the different candidates and advised them to

AN EPISCOPALIAN.

Wickham.

Mr. Hugh McCrae has sold his gray mare, Molly Countess, to Alex. Webster, Belya's Cove.

Miss Susie Brooks, of Gagetown, is visiting her cousins Misses Susie and Minnie Foster, of this place.

Mr. Denton Reicker has been hauling wood for the past two weeks, at Hampstead, for Mr. A. D. Chase.

Mr. W. W. Wright, of White's Cove, has taken charge of the school here for the remainder of the term.

Misses Minnie Foster and Susie Brooks were the guests of Mr. and Mrs. William McCrae, on Thursday last.

The people of this community are glad to know that Mrs. John McCrae is able to be out again after a severe attack of lagrippe.

Miss Minnie McCrae, of this place, has gone to Belleisle Point to visit friends before taking a trip to Boston for her health.

Mr. Isaiah London fell from a load of hay on Saturday last and was severely injured.

On Saturday as Mr. Brail White was driving out to singing school at Shannan Settlement, his horse took fright and became unmanageable. The animal ran into Silas Rice's valuable four year old colt, and did damage by throwing him and his companion out.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or liver trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at any Drug Store.

Kars.

March 13.—A severe thunder-storm passed over this vicinity Sunday evening March 5th. The lightning was about as sharp as is generally seen.

Mr. and Mrs. George H. Jones of this place returned home from Golden Grove, where they were the guests of his sister Mrs. Robert Erwin, on March 6th.

Mr. and Mrs. Josh Shaw, of Wickham, passed through this place on the 11th inst., on their way to visit Mrs. Geo. Hutchins of Hampton.

Miss Helen Hetherington was the guest of Mr. and Mrs. Geo. H. Jones, on Sunday.

Mr. and Mrs. Melbourne Jones are enjoying a domestic event—a young son.

The school in this place is doing excellent work, under the skillful management of Miss Bessie Carson.

Most of the lumbermen are out of the woods having done a good winter's work. Special mention should be made of Francis Braman and Willie H. Jones, of this place who have cut and hauled over a thousand pieces, a distance of five miles, since December and had the work com-

Douglas Harbour.

March 9.—Spring is surely coming. Last Sunday night thunder showers passed over this place, the lightning being quite bright. This is very unusual for the time of year.

Lumbering operations have opened up again around the Harb.

Last week Rev. Mr. Springer, of Jemseg, assisted Rev. Mr. Henderson at his special services in the Baptist Church, Scotchtown.

Mrs. Jothan Belya, of Gagetown, returned home Saturday, after a short visit among friends and relations here.

Mr. Robert Palmer left for St. John to-day.

Col. Kelly passed through this place last Thursday on his way to Newcastle. A discussion, on the subject of "Co-operative Dairing," that appeared in this paper a short time ago, ought to be of more interest to the public than the foolish argument of a mailman whose faults and virtues (?) are well known.
