GENERAL ELECTION COMING

The idea that a dissolution of Parliament and a general election will follow shortly after the close of the session is widely held. The Kingston Standard says on the subject:

"Against it are the reports that the Progressives do not favor an early one, but would prefer to delay the plunge as long as they possibly can. So far as the Government is concerned; it will hold the election; naturally; at the time which it considers will be most advantageous to itself. If it did such an unheard-of thing as to consider what would be the best and fairest thing for the country, it would have an election at the earliest opportunity. At present Canada is suffering from its ineptitude and the uncertainty of its policies. But the whole point about the matter is that the Liberal-Conservatives must perfect their organizations so as to be ready for an election which evidently will be sprung at any time."

BIG NEW BRIDGE WILL BE BUILT NEAR MONTREAL

Such progress has been made in connection with the construction of a new bridge between the Island of Montreal and the South Shore that it is learned that tenders for the construction of the first section of the bridge between Montreal and St. Helen's Island, will be asked in a few days by the Montreal Harbor Commission. The bridge will have a total length of about two miles and the section first referred to will have three-quarters of a mile, provided

Hon. J. E. Hejherington, M. P.
Provincial Secretary-Treasurer and Acting Minister of Lands and Mines

with eighteen piers, some of which will be 110 feet in height.

Up to now the cost of the bridge has been estimated at \$10,000,000. The cost of the construction is to be guaranteed by the Federal Government; the city of Montreal, and the last third by the Federal and Provincial Governments. The bridge will ultimately pay for itself on a toll basis. It is said that about \$1,500,000 will be sought from the Provincial Government, which will shortly wait on the Premier.

The bridge when completed, will include the fifth longest span in the world, the first one being at present the Quebec Bridge.

Engineers in charge of the work claim that in all likelihood the bridge will be completed in five years.

BOOMS SWUNG

The booms in the Miramichi River have been swung and all is now in readiness for the reception of the spring drives.

EASTER VESTRY MEETINGS

St. Andrew's Church, Newcastle, had its annual business meeting on Easter Monday. Owing to the unavoidable absence of the Secretary-Treasurer the meeting adjourned until Tuesday morning.

The Rev. W. J. Bate, presided. The W. A. Treasurer's report sent in by Mrs. C. Sargeant was read by the rector and received. Mr. J. E. T. Lindoa, the Churchwarden, read his annual report, which after discussion was received and adopted.

Officers for ensuing year are: Churchwardens—W. H. Teed, H. H. Ritchie.

Vestrymen—J. G. Kehro, E. F. Benson, W. H. Davidson, F. Uncles, J. W. Davidson, H. S. Miller, James Sargeant, H. W. Brightman, D. Ritchie, Horace Kehro, A. J. Ritchie, Ivan Chapman.

Delegates to Synod—W. H. Teed, H. H. Ritchie. Substitutes, W. H. Davidson, D. Ritchie. Secy.-Treas.—J. E. T. Lindoa. Auditors—J. W. Davidson, Thos. Matby.

Votes of thanks were tendered the W. A. for their continued support; Mr. Bryant Keable for his services as organist and to the Rev. W. J. and Mrs. Bate.

St. Mark's, Nelson, held its annual Vestry meeting on Tuesday evening, the Rev. W. J. Bate presiding.

Treasurer's statement presented by Mr. Thomas Drillen, was received and adopted.

Miss Mable Hubbard sent in the W. A. report which was received and adopted.

Officers elected were: Churchwardens—Robert McLaughlin, Warren McKenzie.

Vestrymen same as last year. Delegate to Synod—R. C. Flett. Substitute, Robert McLaughlin.

A hearty vote of thanks was expressed to the ladies of the W. A. for their valued assistance.

MR. JOHN RUSSELL ELECTED MAYOR

Very little interest was displayed this year in the election for the Aldermanic Board. Last Friday was nomination day and up to fifteen minutes of the time for the closing of nominations only two citizens had filed their papers. These were Messrs George Stables and Wm. F. Smallwood. At the last moment Messrs D. S. Creaghan and Chas. Sargeant were persuaded to file papers, rather than allow the election to go by default and as there were only four nominations received the Town Clerk declared the above named gentlemen elected by acclamation.

There was, however, a contest for the mayoralty between Messrs John Russell and R. W. Crocker, which resulted in a victory for Russell. The vote stood as follows:

FOR MAYOR

CROCKER, R. W.....	86
RUSSELL, JOHN.....	181

CHURCH OF ENGLAND'S EASTER SERVICE'S

The Easter Services were bright, beautiful and joyous and large congregations were in attendance, especially at the 8 and 11 o'clock morning services, when the Holy Communion was administered.

The Church was trimmed with its chaste, white, festival hangings. Memorial flowers were given by

Mr. and Mrs. J. W. Davidson and Mr. W. H. Davidson; Mr. and Mrs. W. Morell, Mr. and Mrs. Ivan Chapman, Mr. and Mrs. A. J. Ritchie, Mr. and Mrs. H. H. Ritchie, Mr. and Mrs. D. Ritchie, Mrs. A. Gray, Mr. Wilson Treadwell and sisters, Rev. W. J. and Mrs. Bate; and from outside the parish flowers or contributions for the Baptistry brass tablet were sent by Mrs. E. Lee Street of St. Andrew's; Mrs. and Miss Harley of North Sydney, Miss Jennie Morell of Montreal, Mrs. John Argyle and Miss Edna Benson of Montreal and Miss Muriel Bate of New York.

The rector, in the course of his morning service, alluded to the fact that Mrs. E. Lee Street had sent her usual Easter contribution almost immediately before her recent sudden death.

The congregation made a generous offering in response to the Churchwardens' usual Easter appeal. Next Sunday afternoon at the children's Eastertide service the Sunday School scholars will present their Lenten self-denial contributions for missions and other objects.

At St. Mark's, Nelson, the Easter Service was as usual in the afternoon when the inclement weather did prevent the faithful from being present.

The altar flowers were given by Miss Dora Flett of Boston in memory of her mother, Mrs. Lambert Flett, of the parish of Derby.

MIRAMICHI GOLF CLUB NOW A CERTAINTY

Matters pertaining to the formation of a Golf Club for the Miramichi are going ahead nicely and at a meeting held last Saturday, it was decided that application be made in the immediate future to apply for Letters Patent, under the name of "The Miramichi Golf Club Ltd". The capital stock is to be \$9875 divided into 395 shares of \$25.00 each. The incorporators are: Messrs R. Corry Clark, J. W. Brankity and L. J. O'Brien. The new company has made arrangements to lease the late Judge Wilkinson property at Bushville, which will be an advantageous site for the entire Miramichi district. Committees have been appointed to make arrangements for the laying out of the course, to sell stock and to secure additional members. It is the desire of the new company to get as large a membership as possible and the sooner the stock has been subscribed for, the sooner will the course be ready for play. The course proposed is a nine hole one, although it may not be possible to complete it this year. This is a good opportunity for those, who are largely confined to offices etc., to enjoy a real pastime, coupled with exercise so sorely needed by people of this type and will further assist the residents of the Miramichi district to come into a closer contact with each other and consequently become better known; something which is very desirable and will ultimately work out for the better interests of the community. The public will be solicited by the committee shortly, for stock subscriptions as well as memberships and it is hoped that the committee will receive a generous support.

S. OF T. CONCERT AT MILLERTON

If Millerton continues to be so enthusiastic over some of its evening social functions a new hall with greater accommodation will soon be required for the place.

On Monday evening the hall was crowded to an almost alarming extent when a concert was given under the auspices of the Nelson Division No 99 of the Sons of Temperance with Mr. John Betts presiding. The programme was as follows:

Chairman's Remarks. Opening Chorus, "How Do You Do", Recitation by Miss S. Bryenton, Solo by Miss Olive Brodie, Solo by Miss A. Millar, Recitation by Miss F. Parker, Musical Selection by Miss J. Campbell, Dialogue "What Rosie told the Tailor", Musical Selection.

REGULAR MEETING TOWN COUNCIL

The regular monthly meeting of the Town Council of the Town of Newcastle was held in the Town Office on Thursday, April 16th 1925 at 8 o'clock, p. m. Present Mayor Creaghan, Ald. Atkinson; Crocker; Ritchie and Russell.

A request from Sumner Co. for literature for distribution by their bureau for motorists was read and the Town Clerk was authorized to furnish any literature available.

Permission was granted the Bora Motor Fuel Co. Ltd., of Moncton to install a gasoline tank on the C. N. R. property; about 300 yards south of the Freight Shed.

The following bills were passed and ordered paid:—

FINANCE COMMITTEE	
Miramichi Publishing Co. Ltd.—	\$185.90
POLICE COMMITTEE	
Stohart Mercantile Co. Ltd.—	\$8.06
Lounsbury Co. Ltd.—	79
PARK AND FIRE COMMITTEE	
T. McAvity and Sons Ltd.—	\$6.34
Stohart Mercantile Co. Ltd.—	5.84
Lounsbury Co. Ltd.—	13.40
PUBLIC WORKS COMMITTEE	
Stohart Mercantile Co. Ltd.—	41.94
Maritime Produce Co.—	19.60
LIGHT & WATER COMMITTEE	
Stohart Mercantile Co. Ltd.—	15
Maritime Produce Co.—	19.60
Michael Hall—	28.80
LIGHT & WATER COMMITTEE	
Stohart Mercantile Co. Ltd.—	15
P. Hennessy—	39
Can. Gen. Electric Co. Ltd.—	160.50

Ald. Atkinson presented a petition signed by 42 business men asking that the Town Council pass a bye-law making it compulsory that all places of business represented by the petitioners close at 6 o'clock p. m. on Mondays, Wednesdays and Fridays and on all public holidays and gave notice that he would at next meeting introduce a bye-law to comply with the request.

Ald. Ritchie stated that he understood that the Canada Croosoting Co. Ltd. proposed to make an early start at the installation of a water main to their property and moved, seconded by Ald. Crocker that the Mayor appoint a committee to confer with the Company, with the object of arranging the new main laid on the highway, instead of going along the C. N. R. track. This motion was carried and the Mayor appointed Ald. Ritchie, Atkinson and Mackay as such committee.

The Chairman of the Finance Com. reported that he had taken up the question of proposed legislation to change the manner of taxation of automobiles with the Town Solicitor and the latter had advised that it would be wise to defer action until the matter had been more thoroughly investigated.

The Mayor thanked the Council for the Co-operation and assistance of its members during his term of office and on motion of Ald. Ritchie seconded by Ald. Russell the Council adjourned.

Vol. 2 No 16 NEWCASTLE, N. B. APR. 21 1925 FREE

Printer's Ink

The most important magazine in its field the world over devotes a page to Moirs Bridge Box, praising its "attractive and colorful cover" and the idea of enclosing playing cards and score sheets with a pound of

chocolates.

Presidents of large American corporations, managers and other officials have written to Moirs ordering the Bridge Box as a gift for bridge friends and a prize at games. So occasionally a Maritime industry can pioneer not merely for Canada, but the continent. Of course Moirs Chocolates themselves proved that long ago.

election by Miss Olive Brodie, Solo by Miss F. Parker, Negro Dialogue "A Day in Court", Solo by Mrs. Burgess. Recitation by Miss Ruby Carter, Chorus "Peter Pan". During the evening enjoyable numbers were given by the orchestra, the accompanists being Miss J. Campbell and Mrs. Burgess. It is expected the plays will be repeated.

**Looks For Leaks
In Water Pipe But
Gets Grand Opera**

**Unique Radio Experience of
Ontario Town
Engineer**

Bridgeburg, April 11—Edward B. Hubbard, Bridgeburg's Town Engineer, claims the most unique of all radio experiences. Engineer Hubbard has a head-telephone which he uses to attach to water pipes in the Bridgeburg municipal system to locate leaks. While testing out a pipe on Courtright Street recently he was surprised to hear radio concert coming along the water pipe. Some person apparently had grouched a wire on the water pipe.

ECZEMA You are no experimenter when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. 60c. a box; all dealers or Edmanson, Bates & Co., Limited, Toronto.

**PROROGATION
TWO WEEKS OFF**

The legislature will not reach prorogation before April 29th or 30th, Premier Veniot predicted last week.

The House adjourned Friday afternoon shortly after 5 o'clock until Tuesday, with but a comparatively few of the estimates passed, for routine matters.

Friday morning the work of the committees was practically at a standstill and a good many of the members had already gone home for the week-end.

The public accounts committee was the only one in session and it has not produced anything in the way of sensation this year, in fact the session so far has been in many ways unlike those which usually precede an election. The budget has now been passed and there has not even been a division called upon party lines so far. The initiative for a division must naturally come from the opposition and their failure to divide the house seems to be that so many of the Farmers' Group are now willing to give a reasonable measure of support to the government and that calling for a vote would show the opponents of the administration smaller in number than ever.

When the session of the legislature will be finished an prorogation reached is dependent largely upon Grand Falls legislation. Premier Veniot announced that he would not allow any criticism to be made over the Grand Falls legislation being introduced late in the session until every member said that ample time and opportunity had been given to study discuss the estimates and plans which would be placed before the House.

**REGULATIONS FOR
NEW SETTLERS**

Ottawa, April 13—Regulations for the settlement of the three thousand selected immigrants who are being brought to Canada under the Empire Settlement Act, has been made public. They provide for the setting aside of land for new settlers, the allocation of the lands to the immigrants, at a price to be fixed by the independent advisory settlement committee for the district in which the farms are situated, and that all buildings on land for soldier settlers shall be placed in good repair in order to leave the farms ready for immediate occupation.

The regulations set forth that the total advances of all descriptions to any immigrant, including the value of the land the British advances, shall not exceed \$7,500 in the case of any one settler.

The advance to settlers are to be paid in twenty-five equal annual payments, and the first installment is due twelve months after the October following the date of his taking the land. The rate of interest charged shall not exceed five per cent.

**Reclaim Automobile Oil
General Electric Device Removes Impurities So That the Same Lot May Be Used Indefinitely.**

No longer will motorists need to discard the oil from their crankcases and buy a fresh supply if a new apparatus for reclaiming it developed at the Research Laboratory of the General Elec. Co.; comes into use. Three years of experimentation by Charles Van Brunt and P. Schuyler Miller have at last culminated in success; and it is expected that the new apparatus will soon be in commercial use. It has already proved its practicability.

When in ordinary use the oil in an automobile collects impurities, such as road dust and products from the combustion of the gasoline, which diminish the oil's efficiency. If they can be removed the oil is as good as ever. In fact it is better than when fresh, because the most easily decomposed components are broken down when the oil is first used and are removed by the reclaiming process.

First the oil is clarified by shaking with a small amount of water glass and other chemicals, and then it is allowed to pass in a thin film over a heated plate. A continuous reclaimer has been developed which has a capacity of nine gallons a day and with its use the oil for thirty machines, each with a capacity of five quarts can be kept in use indefinitely. One of the inventors has used the same oil in two different cars for three years, travelling during that time a total of 16,000 miles. The oil is still in use and promises to remain so indefinitely.

Several other investigators have reported success in reclaiming old automobile oil by other processes within the past few months.

**FORMATION OF NEW
HOCKEY LEAGUE**

Applications Have Been Received for Ten Franchises

TORONTO, April 13—The Mail and Empire carried the following story in their sporting columns today. A statement of progress made by the new International Hockey League organizers to date reads. Applications have been received for ten franchises in the new hockey league, not including Montreal or New York. The ten franchises applied for are from nine different cities in Canada and the United States; two of the ten from Toronto. The smallest city of the group is Ottawa.

While New York is not being counted on as certain; as the club is flirting again with the National Hockey League; there is a chance of the Garden team being a member of the new professional circuit. Anl Newby Lalonde and his new French Canadian club proposition may be welcomed by the Montreal Forum people. The Forum Company and the Montreal Hockey Club are separate entities and the revenue from a second professional team may be welcomed by the Forum.

The latest application for a franchise came over the week-end from Hamilton. The syndicate behind the new arena for the ambitious city have obligated themselves to erect a structure to seat not less than 10,000 and have it ready for next season. They will be allotted a franchise subject to these conditions

How the C.N.R. 1924 Dollar Was Spent

THE full circle shown above represents the gross income dollar of the Canadian National Railways in 1924. The circle is divided into a number of segments each of which represents the proportion into which the dollar was broken up for expenditure in the directions named.

The total amount spent on these items, in dollars and cents is as follows:

Labor	\$127,216,017.40
Fuel	28,058,471.86
Materials, Supplies and other operating expenses	63,069,441.81
Taxes	4,588,593.56
Equipment and facility rentals, etc.	6,600,561.00
Balance available to apply on fixed charges	14,772,327.92
TOTAL	\$244,305,413.55

This chart is interesting in that it is a guide to the part which the dollar of the Canadian National Railways plays in the business of the country as a whole. It is not an idle dollar. Nearly all of it remains in circulation and finds its way into every channel of industry and commerce.

As can be seen, wages paid to employees constitute, by far, the greater portion of expenditure. There are almost 100,000 employees who get their share of the company's revenues twice a month, and this money, therefore, circulates from one end of Canada to the other. None of it remains unproductive, but aids directly in the stimulation of trade and commerce in every centre where the distribution takes place. The greater part, of course, is immediately diverted into the channels of trade, but a considerable portion goes into savings banks, building and loan associations, insurance and other forms of investment. These are communities that are almost

completely dependent upon the money which the System distributes in this way.

No enterprise in Canada is such a large purchaser of supplies as the Canadian National Railways. Wherever it is possible to do so, these supplies are purchased in Canada from products manufactured by the Canadian workman or grown or mined in Canadian territory. The store rooms of the company resemble a well-stocked department store. They contain thousands of separate items from elastic bands to pile drivers. The dining car commissariat is a steady customer of the Canadian farmer and fisherman. The enterprise is one that is intimately associated with every phase of industrial activity in the Dominion from the publisher of a newspaper to the builder of locomotives. The purchases of the Canadian National Railways stimulate every branch of commerce and industry and their service provides an adequate and dependable agency for the transportation of people and their goods from place to place.

The Doctor Knows

Doctors who know Minard's by the work it does are hesitating in their praise of its healing and soothing qualities.

Dr. Jos. Aug. Sicola, of St. Isidore, Que., writes:—
"I have frequently used Minard's Liniment and also prescribe it for my patients always with the most gratifying results, and I consider it the best all-round Liniment."
C. A. King, M.D. also recommends Minard's in the following words:—
"I have used Minard's Liniment myself as well as prescribed it in my practice when a liniment was required, and have never failed to get the desired effect."

MINARD'S
"KING OF PAIN"
LINIMENT

The Early Spring Indicated By The Fire Precautions

Fredericton, April 16--While a proclamation published in the Royal Gazette to-day named May 1st., as the date when registration certificates will be necessary for all persons entering the woods in New Brunswick, except those covered by official exemption. Hon. Dr. J. E. Hetherington, Acting Minister of Lands and Mines, said this morning that reports from the Forest Service indicated that the forest fire menace was again becoming imminent in Charlotte County and elsewhere in southern New Brunswick where the country has been drying up. To-day the closed season for fires went into effect automatically for six months and under regulations no slash burning within one-half mile of wood is allowed.

The fact that the spring season in southern New Brunswick is several weeks earlier than usual was emphasized when the Department of Lands and Mines to-day ordered patrols to go on duty the first of next week in railway lines leading south east and north from McAdams as well as on the Shore Line sub-division of the Canadian Pacific Railway. Lee and S. Webb, Acting Chief Forester, also drew attention today to the fact that it was April 25th. last year.

Guides Assoc. Wants No Close Season On Bears

The New Brunswick Guides' Association at their annual meeting held in Fredericton Wednesday elected officers and passed a number of resolutions which will be laid before the Provincial Government by a committee which was selected by the Association.

The Guides' Association asks for a number of things some of which are already in line of accomplishment and others of which are in opposition to what the provincial authorities propose. The guides was a special license for deer-hunters, the size of the moosehead which may be legally taken increased from six points to ten points the bounty on wild cats increased from \$3. to \$5., no protection for bears and an open season for foxes from October 15 to February 1.

A bill already introduced provides for protection of bears during the summer. The provision is to keep hunters out of the woods during the fire season and to protect the forests to a greater extent.

The Association elected officers as follows: President, H. W. Allen; Vice-presidents, Upper Miramichi, Miller Norrad; Lower Miramichi, Arthur Pringle; Northern Section, P. J. Landry, S. Inbury County; Wellington Phillips, Carleton County; Dr. R. S. Wilby; Tobique, Bert Moore and Henry Ogilvie; Restigouche, William Craig; York County Robert Craig and William Griffin.

SCALDS AND BURNS

In this article we do not propose to consider the severe type in burn in which life is at stake, but rather to discuss what is best to do in the case of those minor accidents by fire to which we are all subject, such a burn, for example, as may result from the hand's coming in contact with a hot iron or from boiling fat splashing over while cooking or from water gushing too hot from faucet.

With a small burn or scald the immediate symptom is intense pain, which too frequently induces the sufferer to lose his head and jump up and down or perhaps hold a burnt hand under a cold tap. It is important that either the victim or some one present should keep calm, for the burn will heal much sooner if the right thing is done for it at the outset, to say nothing of the immediate pain.

To illustrate, suppose that while frying in boiling fat of some kind you make an inadvertent movement that causes a generous spoonful to splash over your hand. Boiling fat is much hotter than boiling water, and the sufferer's first thought may be that a very grave accident has occurred, and he may resort to the cold water faucet. But the corrective thought should be: first exclude the air; second, exclude it with something that will help the inflammation. A box of bicarbonate of soda is almost sure to be handy, and its contents should be used generously. A comfortable way to handle this kind of scald is to cover it with a moist dressing of absorbent cotton over the thickly spread bicarbonate of soda and then over, all put a binding of surgical linen. Relief will not be instantaneous, but by and by it will gradually steal in. Then the hand may be dressed again, this time with some good ointment; vaseline is perhaps as good as any. The surgical bandaging should be again applied and the hand let alone for a day or so, unless it seems unduly uncomfortable; if so, it should be examined. If blisters have then formed, they too should be let alone, unless they produce tension; in that case a sterilized fine needle may be run under the side. Finally zinc ointment covered with a lint dressing and a thin rubber glove will complete the cure.

Seed Potatoes Are Shipped To Pacific Coast

O. C. Hicks, Supt. of the Soils and Crops Division of the New Brunswick Department of Agriculture, has received word of the safe arrival at Prince George, B. C. of a shipment of seed potatoes from New Brunswick forwarded through him. Eleven days were required to cover the distance March 28th to April 8th. The shipment arrived in good condition. There is a possibility of a seed potato business being worked up with British Columbia. The varieties taken were Early Rose Bliss and Green Mountain.

During the past week there also have been shipments of seed stock to points in Maine where New Brunswick potatoes are well thought of as seed stock.

THIS SHIELD was taken from one of the Gates of QUEBEC at the time that a Conquest was made of this CITY by His Majesty's Sea and Land Forces in the memorable year 1759 under the Command of the Admirals SAUNDERS and HOPEWELL and the Generals WOLFE, MONCKTON, JOHNSON, and MURRAY, which latter being appointed the first British GOVERNOR thereof made a present of this TROPHY of War to this CORPORATION, whereof He then was one of the JURATS.

According to press despatches from London, Lord Willington, 1st Viscount Rattton, who was scheduled to sail from Liverpool on April 9th by Canadian Pacific steamship "Montreal" as special emissary from the Hastings Corporation to the Quebec City council, has postponed his visit for some time owing to the illness of Viscountess Willington. His Lordship's official mission, which will be carried out when the Viscountess recovers, will be to return to the City of Quebec the shield which was taken from its gates when it was captured by General Wolfe in 1759 and which was presented to the Hastings Corporation by General Murray who was present on that memorable occasion. Since that time the shield has hung over the door of the Council Chamber in the Town Hall at Hastings and Quebec has endeavoured to obtain its return, for years in vain, but at last Hastings has succeeded. Viscount Willington will be accompanied by his wife who before her marriage was the Hon. Marie Adelaide, daughter of 1st Baron Brassey, together with his son the Hon. Inigo Brassey Freeman-Thomas and his wife.

SPRING CLEANING

An exchange says: No sooner does April arrive than the flair for spring cleaning with all those emotional torments and triumphs at which prose grows too rough and poetry codges the issue altogether. Whence this heroic impulse arises it would be futile to speculate. It is simultaneous with the robin's fluted note, though having none of its music, and with rhubarb stalks thrusting through the clod, having the selfsame gift of setting the teeth on edge. Spring cleaning is a native shoot of the feminist soul. It is epidemic in scope. Nothing on earth could more sharply discriminate the antithetical sentiments of man and his better half. No male person can imagine a worse plague. During the reforming ordinance he experiences "all the horrors of home" and will make any excuse to stave off if possible the evil hour in which the house is turned top-sy-turvy and from cellar to attic becomes a "waste howling wilderness" of soapy odors, chilly draughts and slithery slops. Comfort there is none. One might as well talk of sitting at ease upon an earthquake. The hiss of the ubiquitous broom, the staccato solo of the diabolical tack-hammer and the flip-flop of wet rags make a combination of nerve-wracking tribulations that puts every man in humiliating pechacu and demands his utmost resolution to endure without protest or revolt. At such times he feels a myetic sympathy with the carpet being bastinadoed out on the lawn. Man has many talents, some few virtues and a mole-ty of tact. But if there is one thing the philosophy of house-cleaning demonstrates it is the utter impossibility of his making himself useful or happy what time the annual "tittivating" gets into full swing. Crayle is said to have gone for a holiday whenever Jene Welsh began the gallant shows that he was, in things that really count, a born diplomat.

Yet what is penury and woe to the lord of the household is to its fond mistress the climax of feminine witticism and the high festival of human delight. Let a man fume and rave as he may against puritanic hysteria and superfluities of household cares; spring cleaning is the antidote of human foibles; and there by the industrious mistress regains her sense of moral and intellectual superiority while the whole house

states and glares indignantly virtuous in testimonial of her pride. The tucked-up sleeves win the day.

Spring cleaning is not without compensations at that. Some transient volume or pamphlet which has sagged or lapsed out of sight is thus belatedly restored to daylight—blurred indeed by the dusky webs that bespeak its exile; but the renewed joy of sighting it once again more than compensates for the peppery disquisitions as to how and where and when it got astray. The detective broom is a first-class corrective of rampagious logic that misses the mark. Considered as a salvaging agency, house-cleaning has its good points. As an outlet for grumbling we know of nothing more accommodating. We thank heaven that it is; like spring-time itself; periodic. And although it seems much like a stinging wasp impishly dropped into the wine of life's pleasures once the "little beast" has been fished out of the glass the liquid itself tastes as good as ever.

THE FOOD VALUE OF SEAWEEDS

Facts of Importance to New Brunswick.

In 1912, Document 190 of the United States Government, page 269 contained the following words: "In general it may be said that there is no proof at present that any but a very few of the seaweeds have more than moderate food value. This is rather astonishing, since in Ireland, Hawaii and Japan enormous quantities of seaweed are consumed. However, they have, in each case, considerable value as stimulants of the appetite and as lettuce and cabbage."

Research into vitamins and the immense importance of iodine salts to the health and growth of the human organism, has since the above was written, removed any astonishment at the consumption of seaweed by those who felt its beneficial effects though not knowing why. The real reason for the food value of seaweed apart from the proteins and other chemical ingredients common to other articles of diet is the iodine content. As a recent writer says: "Seaweed contains the largest percentage of iodine of any food that comes on our table." As we are not accustomed to seaweed salads or seaweed jam, the only seaweed food that "comes on our table" must be in the form of seaweed isinglass, which holds together our blancmange or thickens our soup, except we include the substitute for citron, orange and lemon peel, produced on the Pacific Coast from a certain variety of kelp.

Nor need we any longer feel surprised at or pity for the sheep which on many sea-coasts, literally graze on the seaweeds of a rocky shore, for here is a perennial pasture providing the essential elements of the greenest of early summer grasses. In Norway and Scotland, the herds visit the shores at low tide to feed on the common fuel. These are gathered by the Norwegian and Scottish peasants and boiled and mixed with meal, and the resulting mixture is fed to pigs, horses and cattle. Cattle in Alaska feed on kelp, and in Nova Scotia enterprising farmers corral their sheep in the winter on nearby islands, where they feed on the seaweed washed up on the shore.

In view of the utilization of kelp or other seaweeds as human and animal food; the following quotation extracts from official re-

ports are of interest.

"Along the beach near the Indian mission of Ypkutat, Alaska, five Indians were engaged in sacking dulse which had been spread out to dry. In frosty weather it is washed upon the beach in sufficient quantities for a man or woman to gather two or three sacks of it in an hour. The Indians are very pains taking in gathering up every leaf, no matter how small, but as the dried leaves are worth \$2.00 a sack and 3 sacks of the fresh plant make one of the dry, this care is only natural. After a storm an unusual amount of dulse is washed upon the beach and the Indians gather and clean it, after which they dry it by spreading it out thinly along a gravelly beach, or hang it over poles. It is used as an article of diet by the Indians as well as by many white-men. It is also used as a medicine."

The dulse above mentioned (Rhodymenia palmata) is the same species as used on the Highlands of Scotland and is a different species from that of the southwest of England. Before tobacco was easily obtained the Highlanders and Irish were in the habit of chewing it.

The so called Irish moss or carrageen (chondrus crispus) is perhaps the most expensive used for dietetic purposes of the seaweeds of Europe at the present time. In New England it is used as a food in the preparation of a dietary jelly, which is layered and resembles blancmange. To extract the jelly, the weed is placed in a cloth bag and boiled in water. On the New English coast the Irish moss is gathered from the rocks with special rakes. It is then cleansed and cured by spreading on the beach in the sun. It is marketed in 100 lb barrels. The output in 1902 was 710,000 lbs. valued at \$320,000.

As dulse and other gelatinous seaweed abound on the shores of the Maritime Provinces, says the Natural Resources Intelligence Service of the Department of the Interior, the increased importance now attached to the presence of iodine salts to the human and animal systems may attract to the seaweed industry the industry it deserves.

In the above notes on the food value of seaweed, no mention is made of its use as a fertilizer from the earliest times, and its continued value for potato and other crops on the coast of Scotland, Cornwall and Devon or in the islands of the Hebrides, Scilly or Jersey, nor is mention made of the production of iodine from kelp to supply the war-time demand, nor of other by-products of seaweed, such as agar-agar, algin, potash and cellulose.

The vegetable gardens of the sea, below high-water mark may one day be of importance in other countries beside Japan.

Bill Provides For An Annuity

FREDERICTON, April 17—Provision for an annuity to be paid by the province to Mrs. Sarah Anna Tibbits, widow of Deputy Provincial Secretary and King's Printer, Richard W. L. Tibbits, is contained in a bill which was introduced in the legislature as a government measure by Hon. Dr. J. E. Hetherington, Provincial Secretary, yesterday.

The bill states that in view of the excellent services rendered the province by the late Mr. Tibbits for upwards of forty years as deputy provincial secretary and for upwards of twenty-nine years as King's Printer, it has been deemed advisable to grant an annuity of \$400 to his widow. The annuity is to be paid monthly during her lifetime. The Public Accounts committee, this morning, decided to recommend to the House that in future the public accounts be submitted to the House within seven days after the legislature opens, instead of ten days as now provided for by the audit act. Amendment of the act in this respect will be recommended.

CONCERT & DANCE AT MILLERTON

Under the Auspices of the S. O. T. Was A Grand Success

A very enjoyable concert was given in Millerton Hall Easter Monday; April 13th by members of the S. O. T.; ably assisted by Miss Sadie Bryenton and Mrs. Frank Burgess. Mr. John Betts presided. The programme being as follows.

Chairman's remarks.
Opening Chorus "How Do You Do" (revised)

Recitation "The two Glasses"—by Miss Sadie Bryenton.

Solo: "I passed by your window"—Olive Brodie.

Solo: "I heard you go by"—by Audrey Miller.

Recitation: "Maggie and Jiggs"—Frances Parker.

Piano Selection:—by Miss Campbell.

Dialogue: "What Rosie told the Tailor."

Musical Selection—Miss Olive Brodie.

Solo "Can you bring back the heart I gave you."—Miss Frances Parker.

Farce—"A Day in Court".

Solo—"Where the Heart is"—Mrs. Frank Burgess.

Recitation—"Local Hits"—Miss Ruby Carter.

Chorus: Peter Pan.

"God Save the King"

During the concert, Mrs. Burgess and A. C. Crocker gave piano and violin selections. A very enjoyable dance followed the concert with supper at midnight and all present pronounced both Concert and Dance a decided success.

The management wishes to thank Mr. Wm. Power and Mr. Masterson for their musical assistance.

Will The Total Cost Be \$500,000?

Expense Of Organic Church Union

Toronto, April 17—Questioned regarding the total cost of effecting the organic union between Methodists, Presbyterians and Congregationalists, Rev. Dr. Laird, treasurer of the Presbyterian Church in Canada, was asked whether it was reasonable to put the figure at \$500,000. Dr. Laird refused to discuss the cost; stating that figures in this connection would be presented and

Here and There

Agents specializing in Irish business in Canada and the United States look for a big boom in steamship passenger traffic, according to reports received from steamship companies. The present outlook is said to be for the highest level of emigration to Canada since the war.

Sir William S. Glyn-Jones, Secretary of the British Pharmaceutical Society, is touring Canada under the auspices of the Canadian Pharmaceutical Association with a view to explaining the workings of the Proprietary Articles Trade Association of Great Britain. He is opposed to "cut-rate" methods of selling drugs.

With 3,630,000 milch cows, 300,000 dairy farmers, 1,500 creameries and many thousand cheese factories, Canadians are the greatest butter producers in the world with an annual average per capita consumption in 1923 of 27.43 pounds, according to Percy Scott, secretary and treasurer of the National Dairy Council of Canada.

The shield taken from the gates of Quebec City when the Ancient Capital was taken in 1759 and which was donated to the City of Hastings by one of the conquerors, General Murray, will be returned to Quebec after an interval of 165 years. Lord Wellington, First Viscount Rattien, will be the special emissary who will bring the Shield back to Canada.

Salmon-fishing in the Eastern Townships of Quebec will be one of the attractions of that region when the Gaspé salmon eggs brought to the provincial government hatcheries at Lake Memphremagog are developed. A number of trays packed in ice and holding some thousands of eggs recently passed through the Canadian Pacific Railway warehouse on the Montreal Windsor Station for St. Paulin and Mont Tremblant.

Miss P. Carlisle, an English authoress of repute, who recently took up ranching near Calgary, has become so enthusiastic about the West that she is planning to bring out girls from the Old Country to follow her example. She found plenty of them willing to try out this plan. She herself harvested 7,000 bushels last year from the 250 acres under wheat on her 800 acre ranch.

By winning the New Brunswick Provincial Trophy Competition of the St. John Ambulance Association in March last the Canadian Pacific Railway First Aid team from McAdam, N.B., now have a chance to compete this year for the Montisambert Trophy emblematic of the championship of Canada in First Aid. The team has a record of four championships to their credit since last June.

At a recent meeting of the Royal Society of Canada a gold medal for outstanding achievement in science was awarded to Charles Saunderson for his discovery and development of "Marquis" wheat. It is claimed that this variety has raised the Dominion to its present position as a wheat-growing country and has added millions of dollars to the pockets of farmers here and in the United States.

Exiled from Hungary of which he had been president, after the Communist revolution of 1919, Count Michael Karolyi toured the United States in March and April but was forbidden to address meetings or explain his political views in that country. He returned to London where he now lives, with Countess Karolyi, passing through Montreal and sailing on the Canadian Pacific S.S. "Montclare" from St. John. Interviewed in Montreal he expressed a great admiration for Canada and said he had once been on the point of settling either in Montreal or Toronto.

PERSONALS

Mr. C. J. Morrissy, M.L.A. spent the week-end at his home here.

Miss Edna Vye of Blackville has returned home from a pleasant visit with friends in Moncton and Halifax.

Miss Sadie E. Urquhart spent Easter with friends in Amherst and Fort Lawrence.

Mr. and Mrs. James Stewart of Moncton spent the week-end with friends in town.

Miss Mary Marjolin of Chatham spent the week-end with friends in town.

Mrs. Minnie MacTavish of Lawrence, Mass., is spending the summer with her sister, Mrs. George McKay.

Miss Marguerite Maltby has completed a commercial course in Montreal and has returned home.

Mrs. A. P. Metcalf, of Sunny Brae is visiting her parents Mr. and Mrs. A. C. Allyn.

Miss Jean Robinson is visiting in Woodstock the guest of Hon. W. P. and Mrs. Jones.

Rev. F. E. Bishop attended the meeting of the Baptist Home Mission Board held in Moncton.

Ruth Anslow of Campbellton spent several days of last week, with her grandparents Mr. and Mrs. Wm. Corbett Sr.

Misses Lou and Marjorie Henderson of Douglastown spent Easter with friends in St. John.

Mrs. J. D. Paulin spent Easter with her son Edouard, who is a student at Sacred Heart College, Bathurst.

Mrs. Chas. Gough was called home from New York last week owing to the serious illness of her mother; Mrs. R. L. Maltby.

G. Percy Burchill, accompanied by Mrs. Burchill sailed for England Friday, on the steamer "Montrose" from St. John.

Mr. W. J. Sutherland has severed his connection with Mr. Joseph Napke and has accepted the position as representative for Newcastle for the Sun Life Assurance Co. of Canada.

Mrs. Minnie MacTavish arrived here on Tuesday to spend some time with her sister Mrs. George C. McKay after an extended visit of over three years with her sisters Mrs. L. Bellnap of Lawrence and Mrs. H. Atkinson of Boston.

Hindenburg Drive Perturbs Britain

The candidacy of Field Marshal Hindenburg and the possibility of his election to the presidency of the German Republic in succession to Ebert is arousing the press of the country to state exactly what his election would mean.

The fears they express in these articles is not so much that Germany is about to embark on preparations for a war of revenge or of a return to the Monarchical system of government but the effect of his election on France and its incitement to demand even more stringent terms with the object of securing an even stronger feeling of security than they were demanding.

LITTLE ISLAND OFF NOVA SCOTIA OOZING WITH OIL

Cape Sable Island, a little two by four splinter broken off the southernmost tip of the peninsula of Nova Scotia and separated from the mainland by a stones-throw space of swift rushing Atlantic tide, is literally bubbling with oil. Whether the oil is "flowing gold" or valueless exudation peculiar to the soil of the island, remains to be ascertained as no scientific tests have been made. Another suggestion advanced by the

Tonic Treatment For Indigestion

The Surest Way to Relieve Stomach Trouble is Through Dr. Williams' Pink Pills.

When the stomach is feeble and food lies in it undigested, the poisonous gases distend the walls of the stomach and cause serious interference with the other organs; especially with the action of the heart and lungs. These poisonous gases have other ill effects. They are absorbed by the blood and so weaken and corrupt it as to cause aches in remote parts of the body and the formation of unhealthy tissue everywhere. Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words; it needs a tonic that will enable it to do the work of changing the food into nourishment. The tonic used ought to be one that will agree with the most delicate stomach and this is exactly what Dr. Williams' Pink Pills do.

Here is a bit of convincing proof given by Mrs. Chas. Ladner, Ellerslie; P. E. I. who says:—"For some years I was a sufferer from stomach trouble. Everything I ate caused distress; sour stomach; and belching I could not eat meat or potatoes; and I grew weak and very nervous. No medicine seemed to help me until I was persuaded to take Dr. Williams' Pink Pills; and these simply worked wonders. I took the pills faithfully for a couple of months; by which time every symptom of the trouble had disappeared; and there has not since been the slightest symptom of stomach trouble. No wonder I praise Dr. Williams' Pink Pills."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co. Brockville, Ont.

skeptical is that the oil has been jettisoned by some great oil-burning steamer and washed ashore by the tide.

The latter explanation of the oil's presence is considered unlikely however, as the deposits have all seemed to originate in a savannah or meadow that occupies the greater portion of the island and is ringed about by a ridge of high and dry land upon which the island residents have founded their homes.

Reports of oil discoveries on the island have persisted for months, the signs having been seen in several places, all in the vicinity of the Savannah and in some cases apparently oozing through the soil. Practical jokers were credited by some as being responsible for the "discoveries" but the people generally become convinced that the oil, whatever its composition or value has originated in mother earth and they are wondering if they are sitting on a storehouse of great wealth.

The latest and most convincing indication of the presence of oil came a few days ago when it was noticed that the waters of a small brook flowing across the island; was covered with an oily deposit or a dark thick and heavy substance with every appearance of oil. It was noticed where the brook runs under a bridge in the centre of the town of Clarke's Harbor, capital and only town on the island. Thoughts of a hoax came first to the spectators but when the substance increased in volume that thought was dismissed and some of the deposit was obtained for a crude test. It was found to burn readily and gave an oily reaction to ordinary tests.

The brook flows from the Savannah which at this time of year is always flooded and offers a great obstacle to a search for the source of the flow. The deposit in the brook has been continuously noticeable and citizens are con-

British Laborites Would Socialize Banks, Industries

Considering taking steps to have it investigated by experts. Cape Sable Island is an oblong piece of land seven miles long and two or three miles wide. It is connected with the mainland at Barrington Passage by a small steam ferry. Fishing and farming take up the attention of the few hundred people who inhabit the island chiefly fishing.

British Laborites Would Socialize Banks, Industries

Socialization of British industries and banks will be a major issue in the next general election. The Independent Labor party has before it a minority and a majority report from its financial committee. The former recommends confiscation of banks and industries; the latter urges seizure with compensation to the owners. It is practically certain that one of the two will be adopted by the I.L.P., which includes most of the ablest British Socialists including Ramsay MacDonald and members of his late cabinet.

Between them the committee reports represent the considered opinions of a large majority of the party.

After a long debate the reports finally were referred to the individual branches of the organization for further consideration. From the debate it must be assumed that those who favor the majority report believe Socialization of banks and industries should occur gradually, by a transfer of the properties from private ownership to public service.

FACTS ABOUT TEA SERIES—No. 4

The Two Types of Tea

There are two distinct types of tea, namely Black Tea and Green Tea. Both are made from the same bush and both are equally pure. The difference is in the process of manufacture which gives each a different flavour. Black Tea after it is plucked is withered and partially 'fired' or dried, then allowed to oxidize by being exposed to the air. This gives Black Tea its dark reddish colour when drawn. Green tea is immediately steamed after plucking, which prevents oxidization. There are delicious blends of "SALADA" in both of these types and also a unique blend of Black and Green Tea Mixed. All are sold in four qualities.

"SALADA"

FOR
Neuralgia

ASPIRIN

Proved safe by millions and prescribed by physicians for

- Neuralgia Colds
- Headache Pain
- Lumbago Toothache
- Rheumatism Neuritis

Safe → Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monosodium Salicylate (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the UNION ADVOCATE is to leave your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will you need have no compunctions of conscience.

Shop Where You are Invited to Shop

AUTO FOR EVERY FIVE PERSONS

Eleven states now have fewer than five inhabitants per motor vehicle registered nineteen have fewer than six; none have as many as twenty and only eight have in excess of ten, according to figure compiled by the Liberty Central Trust Company of St. Louis. These figures are based on the latest available registration data as of the close of 1924 and population estimates by the Census Bureau method. It is pointed out that also utterly accurate ratios can be arrived at only in census years, and the figures given therefore, must be regarded as only approximate.

California, in the matter of automobile density, appears to be in a class by itself leading the field with one vehicle for each three inhabitants. Next comes Iowa with one to four. Following in order, are Nevada, one to 4.2; Kansas, Nebraska and Oregon, all with one to 4.4.

Of the eleven States which have a ratio of less than one to five, all are west of the Mississippi except two; Indiana, 4.7, and Michigan, 4.8. Among the Eastern and Middle Western states therefore, Indiana is the leader. Vermont, with a density of 4.7, appears to lead New England and the Atlantic seaboard. Among the strictly Southern States, Florida, with a ratio of one to 5.5 is far ahead. The States having more than ten inhabitants per registration are all in the South. Alabama, with one to 15.6 is at the bottom of the list. It is noteworthy, however, that this territory continues to show a rapid rate of gain in automobile ownership, says the analysis.

BATHURST HAS AN OBJECTION

D. R. Bishop, captain of the Bathurst Intermediate Basketball team, takes exception to the Trojan Intermediates of Saint John playing off with Halifax for the Maritime championship, stating that the Trojans are not the champions of New Brunswick, as the Bathurst team has defeated Chatham and Campbellton and are champions of the Northern section of the province. Captain Bishop further states that he has sent telegrams to the Trojans, also to A. W. Covey, in Saint John regarding the matter, but had received no reply. He would like to have the Bathurst team play one or a series of games with the Trojans to decide the Intermediate championship of New Brunswick before there was a play-off with the Nova Scotia champions, and will protest against the games that are now to be played between the Saint John and Halifax teams for the title.

ASK THIS HALIFAX NURSE

She Is Willing to Answer Letters from Women Asking About Lydia E. Pinkham's Vegetable Compound

Halifax, Nova Scotia.—"I am a maternity nurse and have recommended Lydia E. Pinkham's Vegetable Compound to many women who were childless, also to women who need a good tonic. I am English and my husband is American, and he told me of Lydia E. Pinkham while in England. I would appreciate a copy or two of your little books on women's ailments. I have one which I keep to lend. I will willingly answer letters from any woman asking about the Vegetable Compound."—Mrs. S. M. COLEMAN, 24 Uniacke Street, Halifax, Nova Scotia.

Could Not Sleep Nights

Dublin, Ontario.—"I was weak and irregular, with pains and headaches, and could not sleep nights. I learned about Lydia E. Pinkham's Vegetable Compound by reading the letters in the newspapers and tried it because I wanted to get better. I have got good results from it and I feel a lot stronger and am not troubled with such bad headaches as I used to be and am more regular. I am gaining in weight all the time and I tell my friends what kind of medicine I am taking. You may use my letter as a help to others."—Mrs. JAMES RACHO, Box 12, Dublin, Ontario.

Congress Of "Radio" Fans Meet In Paris

Radio "fans" the world over will follow with interest the proceedings of the first international congress of amateur radio telegraph operators, which has assembled in the French capital with delegates present from numerous countries. The congress had its formal opening today and its proceedings are expected to last for nearly a week. The organization meets under the name of the international Amateur Radio Union. The international congress is due largely to the efforts of Hiram P. Maxim, president of the American Radio Relay League, who took the initial steps for the present meeting during a visit to Europe last year. In response to an invitation from Mr. Maxim a preliminary meeting was held and a temporary organization effected. At this initial meeting representatives from eight different countries were present, and it was the unanimous desire that a permanent international association of amateurs be formed. Invitations were sent to all the representative amateur societies of the world to join the proposed organization. Because amateurs of the United States and Canada have taken the initiative in the development of two-way private international radio communication through the arrangement of short wave tests with amateurs in Europe, South America and Australia, they are expected to take a leading part in the affairs of the congress. In addition to President Maxim the American Radio Relay League has sent its secretary, Kennet B. Warner; to attend the meeting.

DAILY STRENGTH

Nature has admirably fitted the body to fight against weakness but there is need for a daily renewal of strength, which comes easiest through nourishment.

Scott's Emulsion

is a practical aid to health and strength. If you are pale, underweight or weak, Scott's is the restorative that builds you up Nature's way—through nourishment.

Scott & Bown, Toronto, Ont. 54-23

First Impressions Are Important

In a world where appearances are valued as indexes to character, **Your Stationery** should represent you worthily—always and everywhere. That atmosphere of character and refinement, which should distinguish all self-respecting correspondence is assured when you place your stationery order with us. If you allow us to furnish your

Letter Heads, Bill Heads, Shipping Tags, Office Forms, Envelopes, Statements, Etc.

they will reflect the dignity and self-respect of the discriminating, and be an excellent advertisement for your business, for a business man may be judged by the quality and style of his printed matter.

The Advocate Job Printing Department

is without doubt the best equipped on the North Shore, and consequently in a position to turn out all kinds of Job Printing **Neatly, Promptly and Satisfactorily**, at very reasonable prices. We are constantly adding new type and material to our already up-to-date equipment, and we have recently put in several of the newest type faces manufactured.

Let Us Prove

to YOU the truth of the above statement by giving us a trial order for any of the above mentioned office requisites, or an order for

Posters or Dodgers, any size Flyers, Circulars, Programs Menus, Display Cards, Business or Visiting Cards, Price Lists, Booklets

in fact, **ANYTHING YOU WANT PRINTED Neat, Artistic Two-Color Work a Specialty. Call on us when you need anything in our line. We assure satisfaction. Mail orders receive our careful and prompt attention. Write us for prices.**

Yours for Good Service

GRANT NOT GUILTY
SAYS JURY IN THE
KENT CO. CASE

Richbucto, N. B., April 17
Wm. Grant was today found "not
guilty" on a manslaughter charge
in connection with the shooting
of David Mitchell, at St. Nicholas
River, near here on March 30th.
The case was one of the most
memorable in the history of the
county, and was followed with in-
tense interest throughout the
preliminary hearing and the trial
by residents of all sections. The
case was one of the most expedit-
iously handled in the annals of
the Province, only occupying 19
days from the day of the tragedy
until the discharge by the Court
of Grant this afternoon.

The Court opened at 10 o'clock
Friday morning when E. R. Mc-
Donald one of the counsel for the
defense began his address to the
jury and which occupied nearly
two hours.

Mr. McDonald made a very
convincing and effective address,
emphasized strongly the fact that
Grant was defending the sanctity
of his home against a man who
had attacked it three times and
had threatened to kill him. This
counsel claimed, proved that
Grant's assertion that the shoot-
ing was in self defence was well
grounded and that there was so
other lesser means he could have
taken to save himself from the
hands of Mitchell, who was intox-
icated.

James Friel K. C. for the
Crown opened his plea shortly be-
fore the Court adjourned for lun-
cheon, his argument being to the
effect that the whole affair was
the result of a drunken brawl
brought about by the consump-
tion of "moonshine" obtained at
the Grant home and that Mitchell
would not have committed such
actions had he not been drunk.

Following Mr. Friel's address
which lasted about an hour, Judge
Byrne then addressed his charge
to the jury, after which they re-
turned and returned in about an
hour and through their foreman,
Robert Saunier, announced a Ver-
dict of "not guilty."

Following this Grant was dis-
charged and left shortly after-
wards for his home.
James Friel K. C., of Moncton,
represented the Attorney General
for the prosecution, while George
A. Hutchinson of this town and E.
R. McDonald K. C., of Shediac
appeared on behalf of the accused
William Grant.

Retirement Of
Sir Joseph Pope

In the retirement of Sir Joseph
Pope, the Civil Service of Canada
loses its most distinguished mem-
ber. A graduate of Prince of
Wales College, Charlottetown, his
native place, he turned in his
youth toward political and civic
affairs, and entered the Civil Ser-
vice. Winning the admiration
and confidence of Sir John Mac-
Donald, the Prime Minister, by
his capacity as a lesser Govern-
ment official, young Pope, in 1882
was made private secretary to
the Premier. In 1896 he was
Under-Secretary of State and
Deputy Registrar-General of
Canada. He was attached to the
staff of the British agent on the
Behring Sea arbitration at Paris
1893; was agent of the Canadian
Government in the proceedings
of the joint high commission
which met at Quebec and at
Washington. 1898-99 associate
secretary to the Alaska boundary
tribunal, London, 1903; plenipo-
tentiary at the Pelagic sealing
conference, Washington, 1911;
arranged the Canadian tour of
the Prince and Princess of Wales
in 1901, and, for similar service
on the occasion of the Quebe-
Tercentenary, received C. V. O.
in 1908.

10,049 Permits Given
For Brewing At Home

Return Shows Number of
Ontario People Reporting
in 1924.

Ten thousand and forty-nine On-
tario people gave notice of their in-
tention to brew beer for themselves
and families in 1924, it was stated in
a return tabled from the Depart-
ment of Customs and Excise, asked
for by B. W. Fansher, Progressive
member for East Lambton. Mr. Fan-
sner sought information about beer
and whiskey licenses. The return
explains that home brewing requires
no license but the possession of
utensils for that purpose must be re-
ported to the Department to secure
immunity from taxation or seizure.
This year 1,943 people had sent in
such notices up to February 20.
Last year, the biggest number of
notices 2,743 was sent from Toronto
The next biggest was from Hamilton
with 2,293. London sent 557 and
Ottawa only 71.

In 1922 and 1923 six distilleries and
21 commercial breweries were licens-
ed by the Federal Government. In
1924 the number of breweries in-
creased to 25. The return explains
that all these were renewals of licen-
ses issued before the Ontario Tem-
perance Act was enacted.

TUBERCULOSIS
IN GERMANY

Professor McKern writing in the
Zeitschrift für Hygiene und Infek-
tionskrankheiten, reports that the
mortality from tuberculosis in Ger-
many, which before the great war,
showed a gradual decrease has actu-
ally shown an increase since 1924
but especially since 1918. In 1919,
there were 26.4 deaths per 10,000
population; which was the highest
mortality reached since the war. In
1923 the mortality was 11.5 per cent
higher than that of 1914.

The number of children under 15
dying of tuberculosis in all Germany
in 1923, is estimated at more than
12,000 but the increasing mortality
has affected chiefly the 15 to 25 age
group. No reliable statistics of the
whole country regarding morbidity
have hitherto been available but in
Prussia; since Jan. 1 1924, every
case of pulmonary and laryngeal
tuberculosis has been reportable,
and during the first three months of
1924 14,000 such cases were reported

A Sweet Breath
at all times!

WRIGLEY'S
-after every meal!

Therefore the total number of cases
for the year may exceed 50,000. It
is further estimated that in all Ger-
many there must be about 1,000,000
persons suffering from pulmonary
or laryngeal tuberculosis.
"To the casual observer there
seems to be little need for surprise
at these figures, since anyone who
has visited the Continent of Europe
knows how practically all the Con-
tinental peoples have great fear of
draughts and do not encourage fresh
air," says American Medicine. "The
windows are kept down constantly
as soon as cold weather begins and
fresh air is not admitted until the
warm days of Spring. Tuberculosis
is an indoor disease or at least a dis-
ease which propagates very largely
among people who breathe an insuffi-
ciency of fresh air during the twenty-
four hours."

Local and General News

SAVE THE FOREST WEEK

The week of April 19th. to April 25th. has been proclaimed "Save the Forest Week".

MADE FIRST TRIP

The Str. "Max Aitken" made her first trip of the season to Redbank today.

CARD OF THANKS

Mr. Albin Johnston and family of Nordin, N. B.; wish to thank their many friends for kindness and sympathy shown; in their recent bereavement.

SEEKING LEGISLATION

The Fraser Companies, Limited, are seeking legislative authority to construct a large dam on the Tobique River, in order to promote a large lumber and other business. There appears to be a good deal of interest in industrial propositions of one kind and another.

GOOD ROADS

Many of the roads throughout the province are now open for auto traffic and thanks to climatic conditions, they are mostly in good shape, for so early in the season, having come through the winter in better condition than for many years and have dried up well under a long spell of beautiful weather.

WATER IS SCARCE

Although the recent rain helped out somewhat the water in the river is still very low and very little has been done in the way of stream driving. There is still considerable snow in the woods in some sections, and if conditions change driving operations on the small streams should be well under way by the end of this week.

INCORPORATED

M. Schaffer, Limited; is incorporated to take over and acquire the business now conducted in the village of Blackville by Moses Schaffer and to engage in a general lumbering and milling business. The capital stock is ninety-thousand dollars and head office at Blackville. Those incorporated are Moses Schaffer, Mrs. Bertha Schaffer, and Miss Bernetta Frieda Schaffer all of Blackville, Adolph L. Stern and Mrs. Janie Stern of City of Saint John.

BASEBALL NEWS

The Chatham baseball club held a preliminary meeting last Friday night to discuss plans for the coming season. The club will enter a team in the Miramichi league again this season but the appointment of delegates to attend the annual meeting of the Miramichi league was deferred. No date has been named for the latter but it is expected that G. Percy Burchill, of Nelson; President of the league, will call a meeting shortly.

STR. "MAX, AITKEN"

The Str. "Max Aitken" was launched yesterday and will be placed on the Newcastle-Redbank and Newcastle-Chatham routes at once. If ice conditions permit the steamer will make her first trip to Redbank today. The "Max Aitken" has had a new boiler installed this spring and has also been given a thorough overhauling and is in first class condition. Captain C. S. Amos is in charge again this year and is ready at all times to give efficient service.

All shoes are easily shined with

2 in 1
Shoe Polish

The standard in shoe care. Every shoe shines. Compare the quality. Compare the quantity.

SNOW STORM

St. John was visited yesterday by a fierce snow storm, some six inches of snow having fallen.

TAXES NEXT

A Coal dealer advises the purchase now of next winter's fuel supply, but unfortunately next month the tax collector will gather in all the spare-cash available.

ELECTED MAYOR OF CHATHAM

The only name placed in nomination for Mayor of Chatham was J. Kerr Loggie and the Town Clerk declared Mr. Loggie elected by acclamation.

SHIPPING NOTES

The Head Line S.S. "Kenbane Head", sailed from Belfast Ireland; on Thursday for Miramichi and is due here the 25th. inst. She will load for F. E. Neale.

BOARD OF TRADE

The Executive of the Newcastle Board of Trade met last Wednesday afternoon in the Town Hall and the officers for the year were installed.

25 YEARS AGO

Chatham—W. S. Loggie defeated Hon. L. J. Tweedie, Provincial Secretary; in the majority contest by 25 votes.

Donald Morrish was elected mayor of Newcastle and A. E. Alexander was elected mayor of Campbellton over G. G. McKenzie by one vote.

FIRE ALARM

The Fire Department was called out last Friday afternoon at 1 o'clock for a slight fire on the roof of the old Court House building, which is now used as a residence. The fire was quickly extinguished with little damage.

WHAT DOES HE MEAN?

Sackville Post: Attorney General Rand in his address on the budget Wednesday told the House that the recent delegation to Ottawa made itself ridiculous. And yet Premier Veale, Mr. McKenna of Sussex; and several other of Mr. Rand's colleagues were members of that delegation. Hon. Mr. Veale and Mr. McKenna were two of the principal speakers on that occasion. What does Mr. Rand mean?

TENTH ANNIVERSARY

Friends of Mr. and Mrs. George Lake gathered at their home Tuesday evening to celebrate the tenth anniversary of their marriage. A pleasant evening was spent in vocal and instrumental music and social chat. Delicious luncheon was served to the guests and before departing for their home the party wished the happy couple many more anniversaries.

GIRL GUIDES

A very interesting and profitable meeting of the Girl Guides Company No. 2 was held last Friday evening in the W. C. T. U. Hall. Nine of the recruits have successfully passed their "Tenderfoot" tests and have received their pins which recognize them as registered guides. Four patrols have already been formed and owing to the limited space for meetings it will be impossible to accept any further applications for membership in this company.

There are however, a few vacancies in the Girl Guide's Company No. 3, under the leadership of Miss Lyle McCormack, and as this Company is to be re-organized, any girls wishing to join are requested to do so at once, so that preparations may be made for the season's work and also for the church parade which is to be held on Sunday, May 10th "Mother's Day."

WITH THE BOY SCOUTS

SCOUT NOTES

Boy Scout Troop 119 met on Friday night as usual, at the Temperance Hall. The remainder of the report regarding the entertainment were received, showing net proceeds \$57.25; which with the small balance on hand from dues etc; puts the troop in a sound financial basis. The troop then had some drill to prepare for the church parade to be held on Mother's Day. Games were then played for the rest of the evening.

BUILDING ADDITION TO GARAGE

Last week Messrs. Somers & Ramsay, contractors, commenced work on the addition to The Lounsbury Co's Garage work-shop. The new structure will be built of brick and tile, size 58 x 20 ft. with a twelve inch wall. This addition will place the company in a better position to attend to their ever increasing auto business.

For Mothers Of Young Children

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of Mothers, throughout the country not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

A RUMMAGE SALE

Will be held in the Basement of St. James' Hall on Saturday, April 25th

Doors will be open at 2 o'clock in the afternoon.

A supply of clothing and useful articles will be for sale, Lowest prices for all.

Be there early so that you may have first choice. 16--1

MEN WANTED

\$6.00 to \$10.00 per day
Good Automotive Mechanical and Mechanical Dentists and Barbers are Electrical Experts, Bricklaying; always in demand at large salaries. Join our training institutions and become one of the many successful graduates. Short time taken to learn. Opportunities and salaries unlimited. Write to Dept. S., for special offer. Act now. Hemphill Training Institutions, 163 King St. W., Toronto.

"BUY AT HOME"

C. N. R. Service From Newcastle Will Remain

That no change will be made in the express trains on the Newcastle-Fredericton Subdivision of the C. N. R. was the word received by His Worship Mayor Phillips of Fredericton, in a letter from A. H. Baker of Moncton, Supt. of Transportation. Trains 27 and 28 are specified. The new timetable will go into effect May 3rd and the trains mentioned are not expected to be changed to any great extent as far as time of arrival and departure is concerned.

IF IT IS HARD TO BE PLEASANT

When you have to make an effort to be pleasant, you at least ought to know the reason why. Amiability ought to be as natural as eating and drinking, and in each individual case a struggle is necessary to speak pleasantly instead of disagreeably there is a reason for it. Sometimes the reason is just habit if you have indulged yourself in snapping and snarling, you cannot change to habitual pleasantness without making an effort. If all at once you find it difficult to speak pleasantly, however, the chances are that there is a physical reason. Overwork; or failure to take enough rest, eye-strain, teeth that need attention, or any of a hundred similar matters, may change the disposition over night.

If, without warning, you find yourself inclined to be irritable; find out if there is a physical reason, and if so; remedy the adverse conditions. If your attack of bad temper has no such excuse, then take yourself in hand.

Perhaps you are using good tea. We think "Red Rose" extra good. Won't you try it?
