GERMAN SWEEP DOWN ON ISLAND IN GULF OF RIGA

Under Cover of Ninety Warships Land on Oesel Island and Start In to Take Possession

KERENSKY'S APPEAL

Asks Baltic Fleet to Defend the Nation in This Hour of the Nation's Trial

STRATEGIC POSITION

But There Is No Immediate Menace to the Russian Capital, the Russians Believe

With the armies in Flanders inactive, except for bombardments, interest centers on the operations of the German fleet in the Gulf of Riga and the entrance of the Gulf of Finland.

At last accounts the Germans who landed under the cover of a great array of warships, were steadily pressing back the Russians toward the southern part of the island and also toward the coast.

The small detachment which was landed on Oesel island was forced to return to the ships while the Russian fleet, which had sailed from the Gulf of Riga, was hindering the German war craft in the waters between Dago and Oesel islands.

Nothing has come through to show that the enemy has attempted to attack the island of Oesel, and it is understood that there has been any indication that the Russian front in this region has been moved.

German Sweep Over Islands—The fleet which landed on Oesel island in the Gulf of Riga, under the cover of 90 warships, had occupied up to 10 o'clock Sunday morning, the island of Oesel and the eastern part of the island and were within 10 miles of Aerenburg, on the southern coast of the island.

Premier Kerensky's appeal to the Baltic fleet, to defend the fatherland in this hour of trial, divulged the fact that the garrison of Kronstadt, the chief fortress and military port of Russia and the station of the Baltic fleet, 30 miles west of Petrograd, is already in a weakened state.

For the redoubtable Baltic fleet that the hour of trial has arrived. Russia now for her safety a violent effort by the navy, and, in general, to demand that the sailors make sacrifices.

As the result of a misunderstanding arose on board the Russian battleship Petropavlovsk, out of the action of the general assembly of the Democratic bodies on calling upon officers of the army and navy in Finland to sign a pledge of fidelity to the Russian provisional government, four officers who refused to sign were shot at Helsinki last month. TO CONTROL SALE OF COAL

Ottawa, Oct. 14.—Regulations are being framed by C. A. Magrath, fuel controller, for the fixing of profits on the sale of coal by brokers, wholesalers and retailers throughout Canada. It is understood that retail profits will be limited to 50 cents a ton, and wholesale dealers' and brokers' profits will be on a still lower scale. It is also likely that provision will be made to restrict undue accumulation of coal in the hands of consumers. Complete machinery will be provided for the prosecution of any infractions of the regulations, which are said to be very drastic in scope.

CHICAGO WON FIFTH GAME IN REGULAR COMEDY OF ERRORS

Giants Had a Good Lead When Team Blew Up and White Sox Won Out

GAME IN DETAIL

It Was Anything But Brilliant Contest; Sixth Game Played in New York Today

Chicago, Oct. 14.—In a game that thrilled and enthralled some 32,000 people Saturday afternoon, the Chicago Americans scrambled into the world's series lead again by defeating the New York Giants 8 to 5, and swinging to the fore three games to two.

It was a contest that ran the gamut of baseball from sensational and brilliant to mediocre, but never during the two hours and thirty-seven minutes of battle did it lose its intense hold on the fans, and as its conclusion the fans were almost as exhausted as the players.

For more than two hours the adherents of the Sox roared and cheered without a moment's intermission, while the players, once the Chicago team went into the lead, became frantic with joy and performed antics in front of their dugout that would have made a college chess leader despair.

Abounded With Errors

While the enthusiasm and thrills developed the contest with the glamor that had been entirely missing in the preceding games, the fifth meeting of the White Sox and the Giants will not go down in a world series history as a diamond battle of either outstanding skill or baseball perfection. It abounded with errors of both omission and commission, and was marred by misplays which would have brought censure on school boy competitors. All this was forgotten, however, when the American league champions finally wrested the lead from their rivals and

gained a position of advantage nearly as commanding as the two straight victories at the opening of the series had given them.

The two clubs left soon after the game for the Polo Grounds, at New York, where the sixth game will be played on Monday, and the seventh, if necessary, on Tuesday, the Giants having won the toss and the privilege of naming the place of the deciding contest, should each team win three games.

While the players have ceased to take part of the financial proceedings of the contest the rivalry is none the less keen, for there is more than a thousand dollars difference between the individual shares that will fall to the winning and the losing combinations.

In many respects today's game developed features which had been foreign to previous diamond battles of the present series.

Twenty-five Players

Twenty-five players appeared in the line-up of the American and the National league pennant winners. After having gone 24 innings without scoring a run against the Giants, the Sox turned and piled up eight tallies, while the losers collected five, making a total for the day of thirteen, more than half as many as the entire scoring of the two teams in the first four clashes. Making these thirteen runs, the batter-piled up an aggregate of 26 hits, and nine fielding errors. Seventy-seven batters faced six pitchers, and while there were unlimited thrills and tense situations, there was no one player who could claim the spotlight of heroism in this massing of hits, errors, fielding flashes and sprints from base to base.

A Trifle Cold

A perfect autumn day greeted the players as they stepped on the diamond for the opening play. It was clear and just a trifle cool, but the fans did not appear to notice the ting in the atmosphere. Here and there were vacant spaces in both stands and bleachers and there were no crowds upon buildings overlooking Comiskey park.

Little time was lost by the two teams in getting into action, and the Giants, first to bat, rolled up a two run lead before the Sox could check their rush.

Giants Score Twice

Burns, the initial New Yorker to face Russell, was sent to first on four straight balls, when the Sox left-handers found it impossible to locate the plate. Captain Herzog came next with a single to right, and Benny Kauff followed with a right field blunder, scoring Burns. With Zimmerman waving his hat menacingly, Russell was called to the bench after weaving just eight balls, and Cloutte

was sent in to hold the Giants in check. Zimmerman hit Weaver and Herzog was nipped at the plate. Fletcher drove to McCullen, whose quick throw caught Kauff at home and the thousands roared their applause of the White Sox splendid defensive play. Zimmerman who had moved up on the outs, scored on Robertson's single to center and with two out Cloutte grabbed Holke's hit and tossed him out at first.

Sox Score a Run

It was not until after the third that the Sox were able to get a runner home. After McCullen had filed out to Robertson, Eddie Collins worked Sallee for a pass. Jackson raised a fly to Robertson. Felch was more fortunate, however, his double to left field sending Collins home with the Sox first run.

Giants Feel Secure

The Giants increased lead, scoring another two runs in the fourth and appeared to feel that they had the game won. Rariden singled to right and Sallee sacrificed him to second. On Burns' single to right and Collins' error in funneling the ball Rariden scored and Burns took second. Weaver followed with a fumble of the bat, but he was safe, and Burns scored. Zimmerman, who had moved up on the outs, scored on Robertson's single to center and with two out Cloutte grabbed Holke's hit and tossed him out at first.

White Sox Begin

The White Sox got their artillery working in the sixth and began the fuellade. They finally got the game for them. Cloutte hit to center, Sallee singled to left and Schalk hit to center and the rotators began to lift their voices for Sallee was in trouble. Cloutte hit. Manager Rowland sent Risberg to bat in place of Cloutte. McGraw made a double that Sallee caught, but apparently changed his mind. Risberg slammed the ball to right, scoring Weaver. J. Collins and McCullen left their marks as Sallee was stranded by going out on infield plays.

Williams, a southpaw, succeeded Cloutte on the mound and the Giants doubled to left and Robertson attempted a sacrifice. His effort resulted in a pop fly which Williams caught, but dropped as he fell. Holke was injured when the ball glanced from his bat to his face, but pluckily resumed and fanned. Rariden came through with a single, scoring Fletcher and the Giants had finished their day's running.

Not so with the White Sox After E. Collins had filed to Fletcher Jackson hammered out a single and Felch slammed another to the right, while the crowd roared with an ever increasing volume. Chalk and Robertson were the emergency with a double that Fletcher caught, but dropped as Robertson and Jackson and Felch scored with two runs. Weaver went out. Fletcher and Holke and Schalk got a free trip to first on Sallee's wildness. Russell was sent in to hit for Williams. Before he could hit the ball Schalk stole second, and the Giants' lead went up to three. After throwing the ball about for several seconds, Fletcher hurried to Rariden to catch Gandil. The heavy was wild, and the White Sox, although never having across the plate with the tying run. After this nightmare Lynn ended the inning by fanning.

With the score tied at 5-5, the Chicago players went after Sallee again in the eighth and won the game with another two runs, although never having across the plate with the tying run.

John Collins opened with a one-base walk to right. Sallee sent him home on a single to center. Jackson put his fielding in this inning, and Sallee's wildness late to get Collins, and when the Giants' third baseman whipped the ball wildly back to second, Sallee made a bad throw and Jackson raced around to third. Sallee pitched one ball to Felch, and then Manager McGraw decided to remove him for the day. Perritt's substitution, and Felch greeted the new pitcher with a Texas leaguer to center on which Jackson scored. Sallee pitched two, three order, raced for their train, and soon were on their way to New York, where they hope to repeat again on Monday.

THE NEW PREMIER

The selection of Hon. Charles Stewart to be the third premier of the province of Alberta will meet with the approval of a large majority of the electorate, regardless of party affiliations.

"Charlie" Stewart is one of the best liked men in the Alberta legislature, and enjoys to an unusual degree the esteem and confidence of his associates on both sides of the house.

Observers are primarily impressed with his sincerity and the conspicuous lack of political guile in all his dealings.

With Carvell, Rowell, Sifton and Calder in the cabinet, no Liberal need fear that the Liberals will have no influence in the new government.

If any person can tell of better autumn weather than Alberta has had this year, The Albertan would be pleased to get his name and address.

The union government will greatly strengthen its position among the people when it announces some plan for the effective conscription of wealth.

If the formation of the new union government does away with the patronage evils, as has been suggested, it would be worth while for that alone.

The motor rules in the city must be strictly enforced, and violation of them must be met with the sternest punishment. Reckless driving must be checked in this city.

The worth of Premier Stewart is indicated by the fact that in each of the four elections, his opponent has lost his deposit. That is what his neighbors think of him.

There is a possibility of James Garden swinging into line and running for commissioner or mayor. Mr. Garden was not a bad commissioner, his only fault being that he didn't size up to the impossible program that his unwisely supporters promised in his election campaign.

Twelve years ago Hon. Charles Stewart came to this province, quite unknown, without friends and without influence. Today he is premier of the best province in the Dominion.

The Dominion government would be well advised if it went to the country at once. The people are anxious to get the election over with, and the government is as strong now as it is likely ever to be, with the extremes of both parties watching it, prepared to criticize every move.

The union government is making a great mistake by not having a strong labor representation in it. There can be no union government without labor representatives.

Peace River is the most up-to-date district in the whole Dominion just now, and its latest accomplishment is the striking of oil.

Despite wars and such like, the baseball game is giving the American people and the fans beyond the border more than the ordinary number of thrills.

There are many Conservatives in this city who would be quite satisfied with the union government if there were no Liberals in it, and there are many Liberals who would vote it a success if the Conservatives were eliminated from it.

There is some criticism these days of the fact that there are so many lawyers in government affairs. It is interesting to note that only one of the four western premiers is a lawyer.

A SYMPATHETIC RECEPTION

The small number of newspaper opponents of the new government, without waiting for its policy or the completion of its membership, have characterized it as a government of the Big Interests.

It may be noticed also that the Liberals who have been associated most closely with the financial interests of the country are now in opposition to the new government, and the Liberals who have been regardless of the large railway corporations are either in the new government or are supporting it.

With Sir Robert Borden as leader of the government, it is not surprising that the opposition should endeavor to fasten upon it the many mistakes of the previous administration.

This is a new government, composed largely of new members, organized for the purpose of administering the affairs of the country during the continuation of the war.

The Albertan believes that Canadians sincerely interested in the proper administration of the war will give a sympathetic reception to the most genuinely patriotic move made by party leaders since the beginning of the war.

If there are to be union candidates here in Calgary for the Dominion elections, now would be the right time to start the conventions.

With Carvell, Rowell, Sifton and Calder in the cabinet, no Liberal need fear that the Liberals will have no influence in the new government.

GERMANS SWEEP DOWN ON ISLAND IN GULF OF RIGA

(Continued from page one)

Officers Were Shot on the Baltic later was condemned by the Heistings revolutionary committee and all the sailors who took part were arrested.

Pressing the Russians Petrograd, Oct. 14.—Fighting between the Russians and the German troops which landed on Oesel island, in the Gulf of Riga, continues, according to the official statement issued today.

The fight with enemy troops which landed, still continues. Enemy advanced detachments are pressing our troops in southerly direction.

"The landing of German troops on Oesel island continues. The region where the debarkation is taking place is guarded from the sea by very large enemy naval forces.

"Simultaneously with the landing on Oesel island, several enemy ships engaged our shore batteries on Dago island. According to the information to hand, four of the enemy torpedo boats were sunk by the fire of our batteries.

"Our batteries were completely destroyed by the overbearing gunfire from the enemy ships. This enabled the enemy to land a small detachment on Dago island, which, however, was unable to maintain its position and the troops promptly returned to their ships.

"Since yesterday, which, however, was successfully hindered the enemy's naval forces entering our waters between Dago and Oesel islands. In the last two days our ships suffered no appreciable damage. While he continues the usual mine-sweeping along the coast and shores of Irbau strait.

"The Russian minister of marine, in a supplementary communication issued this evening, says: 'The Russian navy, in the two days' bombardment of the islands of Oesel and Dago were trifling. Our crews gave proof of their courage, initiative and self-sacrifice.'

How Germans Put It Berlin, Oct. 14.—German troops which landed on the Russian island of Oesel on Friday quickly broke the resistance of the Russian garrison, the German general staff announced today, and are now advancing towards the southeastern coast. Aerial attacks on the island, and Serel, on the Svorc peninsula, are in flames.

HEAVY RAINFALL ON FLANDERS FRONT; SMALL ENCOUNTERS (Continued from page one)

craft were restricted. One of our fighting patrols during the forenoon shot down an enemy machine over Ostend, the machine falling in flames.

AVIATORS BUSY IN BAD WEATHER London, Oct. 13.—The following was office statement concerning aviation action was issued tonight: 'Yesterday the weather could not have been less favorable for the operation of our airplanes with our infantry in their attack.

"The enemy's artillery was active during the night northeast of Ypres. Hostile reconnoitering parties were repulsed west of Boesers and north of Poelcapelle.

"We carried out a successful raid in the region of Hulluch.

ATTACKED ENEMY PATROLS Paris, Oct. 14.—The text of the French statement reads: 'In the course of the night our reconnoitering parties attacked enemy patrols on our new front in Belgium and brought back about 30 prisoners, including one officer.

"On the Aisne front, the artillery duel was lively at times, notably in the region of the Pantheon and on the plateau of Valenciennes and Calonne.

"On the rest of the front there was intermittent cannonade.

ARTILLERY FIGHTING ONLY Paris, Oct. 13.—The official communication issued by the war office tonight, reads: 'The two artilleries were active in the regions of Croonne and Ladfaux, in Champagne, in the sector of Mont St. Eloi, and on the right bank of the Meuse, in the region of Samogneux, Hill 94, and the Bois de Chaume.

"Eastern theater Oct. 12.—The artillery fighting was spirited at the Cerna bend. There was less activity on other parts of the front.

THE BELGIAN REPORT Havre, Oct. 13.—An official statement issued this evening by the Belgian war office announces the following: 'On the day of October 12th, our artillery directed a destructive fire on the German works at Dixmude, and to the south of that town.

"Today, the enemy artillery was very active. German batteries bombarded our trenches, principally in the region of Hamcapelle. We again took under our fire enemy works near Dixmude and Womun.

"On the morning of October 11, one of our aviators, while flying at a height of 5,000 or 6,000 metres over Stades, struck an Albatross belonging to a German

squadron. The enemy machine was disabled, and fell. Today an enemy machine was engaged in battle and defeated by one of our aviators who then went in pursuit of another battleship in the direction of Dunkirk.

AUSTRIANS WERE CHECKED Rome, Oct. 12.—The official statement issued by the Italian war department today follows: 'Thursday night, in the Cortabella region, an attempted attack by the enemy was promptly crushed. Yesterday on the Julian front our patrols harassed an enemy working party and took prisoners.

There was great fire from the Rombon to the sea. On the Carso our batteries dispersed machine gun detachments of the enemy east of Castagnavizza and fired an ammunition dump in the San Giovanni region.

THE GERMAN REPORT Berlin, Oct. 14.—Reporting military operations on the battlefield between the Baltic sea and the Black sea, today's statement says there was no change in the situation. Concerning the Macedonian front, the report says: 'As the result of violent downpours of rain there was only artillery action near Monastir and in the Cerna bend.'

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

CANNED VEGETABLE
EMBARGO FOR THE
DOMINION LIFTED

Withdrawn Some Time Ago
 in Prairie Provinces and
 Now Whole Dominion
 Is Clear

Ottawa, Oct. 14.—"Canned vegetable" may now be sold without restriction in any part of Canada. An announcement from the food controller's office states that the embargo of August 24 upon the sale and purchase of peas, beans, tomatoes, beets, celery, corn, spinach, rhubarb and pumpkins preserved in cans, glass jars or other containers has been raised.

The lifting of the embargo applies to the three maritime provinces. Ontario, Quebec and British Columbia. In the three prairie provinces the prohibition was withdrawn some time ago. The announcement adds that the embargo has been effective in stimulating the consumption of fresh vegetables and increasing the supply of canned vegetables available for the coming season.

H. W. WOOD SPEAKS
AT FORUM, "TRUTH
AND DEMOCRACY"

Interesting Address on Two
 Vital Subjects; Present
 Government Is Empty
 Form of Democracy

In what was termed by Miss Coutts, the president of the Forum, as the best speech that has been delivered at the Forum since it has been connected with the institution, H. W. Wood, president of the Canadian council of agriculture and the U.F.A., dealt with the subjects of "Truth and Democracy," yesterday afternoon. In a clear and comprehensive manner Mr. Wood set forth the fact that the growth and spread of democratic ideas and democracy itself was dependent upon the co-relation with the increase of the knowledge of truth and the spread of that knowledge. Mr. Wood believed that the skeleton of bare bones of democracy. But he has great faith in the belief that these bare bones can and will be covered with the flesh of true democracy.

Mr. Wood said: "I believe that a sincere, independent search for the great laws of life is the noblest enterprise in which a woman or man or group of men can engage. The Great Prophet has said: 'We shall know the truth, and the truth shall make us free.'"

"Ever since men began to gather themselves together in groups to discuss social matters, there has been a continuous search after truth, and I do not believe that at any time this search has been entirely fruitless.

Slow Development
 "The development of social conditions and government was very slow at first, but we have reached a condition where there is a speed as never before in the general progress of affairs. But that progress has not been more rapid than our skill has increased. Unless we can increase our skill by a better understanding of the laws of life, we have no assurance that we shall not meet with absolute disaster.

"Civilization has two fundamental parts. First, people, and secondly, institutions. The people are the raw material brought together, working under the true laws of life, constitute a true civilization. But unless the institutions are used so as to serve all the wants of humanity, we have no true civilization. We have institutions sufficient to serve these wants, but they are not used for this purpose.

"There have been three stages of development. All the first stages of development were along the lines of autocracy. When men first began to form national units they formed them along the line of autocracy.

"At first this autocracy was confined to individuals. The king was supreme. But soon this individual found himself under the necessity to increase the powers behind him. So the autocracy was broadened out to first include the nobility, and afterward the aristocracy. But it had not included the people, and the people were being treated, and began to search for a way to better their condition. The regenerated social condition was very limited. First they began to seek for concessions from autocracy, but never dreamed of abolishing it. Then they began to demand to be further and saw the need of a change of government. They began to aim for a democratic form of government."

Only an Empty Form
 Mr. Wood continued: "We have only an empty form. Dry bones not yet clothed with flesh." The speaker then told the story of Ezekiel's vision of the valley of dry bones, in which the prophet saw the bones of men and women, then the bones came together, becoming skeletons, and later took on flesh and became a mighty army. Then he added: "Can these bones live? I say yes. These bones can live, and these bones will live.

"Already efforts which have met with great success have been put forth to clothe this skeleton. From Adam Smith until Lloyd George, political economists have been seeking to find flesh to put on the bones of this unregenerated society. The great political economists have contributed much. Much remains for us to do.

"A man will discover an evil which he thinks he can remedy. He will hug this remedy to himself, thinking it is a cure-all. He finds this flower of truth on the prairie and fences it about and builds a house near it and camps there. Take for instance free trade. How many of you are camped about the flower of free trade? I believe in free trade, but it is not a cure-all. This is only one of many flowers of truth. Now, we have another cure-all. That is the building of another political party. I do not mean the party ever been a political party built for reform purposes but what has been helpful. Yet that in itself will not clothe the dry bones with flesh.

Parties Do Not Control.
 "The new political movement grows out of the idea that civilization consists of common people and political government and that the political government is the great evil. The political parties do not rule Canada. Politics is but one of the institutions of Canada. We must get control of all these institutions, including the commercial, financial, educational and even the religious institutions. If we can control the other institutions it will be easy to control the political institutions."

The speaker here gave a few rules to guide in the search for truth. "First you must realize that you do not know the truth. Next, you have got to be absolutely honest with yourself. You must not be governed by any kind of prejudice, preconceived ideas or by the things you have learned to love or to hate. Then you have to be absolutely fearless. Whenever the truth leads you must follow. Every truth in the universe wherever found is in absolute harmony with every other truth. Truth is harmony.

A Spirit of Harmony.
 "Every man or woman who comes here searching after truth must lay all prejudices, all preconceived ideas, all must get myself under the spirit of harmony, not of discord. If I am going to give and receive, the people have to learn to rule. They cannot learn to rule under the spirit of truth until they have themselves got under the spirit of truth, which is harmony.

"There are two forces in Canada today, money and humanity. Which is exercising the greater force? Money, because it is mobilized. Money does not represent real power as mobilized as you have your strength as soon as you have your power as mobilized against it.

"A man in search of truth finds one little flower of truth, and says this is

ORPHEUM
WAR PICTURES THIS WEEK
 While history is being made upon the battlefields of Europe, the British government is recording it on the film that the present war may be retold accurately and vividly in the future. Wm. K. Vanderbilt organized the British Picture Pictures, Inc., and brought to this country the pictures of the retreat of the Germans at the battle of Arras, and arranged for their presentation. The highest bidders for these pictures proved to be the vaudeville powers, and therefore they are to be seen exclusively in the theaters controlled by these powers, the entire proceeds for their rental going through Mr. Vanderbilt to the British Picture Pictures, Inc. The Orpheum Theater and Realty Co., Inc. are presenting these pictures in Calgary, and they are the real thing and by all odds the greatest war pictures that have ever been made, and the most sensational that have ever been exhibited. The terror and excitement of the colossal struggle with one army of millions every detail of that stirring battle to your realization probably for the first time just what modern warfare really means.

The usually splendidly balanced bill of vaudeville will include Nan Halperin, who has an entirely new program, which is in the form of a song cycle, and permits of her appearance in a number of characters and affords her an opportunity to interest her own wonderful personality into the offering and her effervescent humor has an outlet.

Nellie and Sara Kouns are lyric soloists and heard in a song recital of solos and duets of a most charming harmony.

Paul McCarty and Elsie Faye will be seen in their unique comedietta, "Suicide Garden"; Dierro will render some pleasing selections on his piano accordion, and pictures from "The Hunt" posed by living models which have even been made, and the most sensational that have ever been exhibited. The terror and excitement of the colossal struggle with one army of millions every detail of that stirring battle to your realization probably for the first time just what modern warfare really means.

 While history is being made upon the battlefields of Europe, the British government is recording it on the film that the present war may be retold accurately and vividly in the future. Wm. K. Vanderbilt organized the British Picture Pictures, Inc., and brought to this country the pictures of the retreat of the Germans at the battle of Arras, and arranged for their presentation. The highest bidders for these pictures proved to be the vaudeville powers, and therefore they are to be seen exclusively in the theaters controlled by these powers, the entire proceeds for their rental going through Mr. Vanderbilt to the British Picture Pictures, Inc. The Orpheum Theater and Realty Co., Inc. are presenting these pictures in Calgary, and they are the real thing and by all odds the greatest war pictures that have ever been made, and the most sensational that have ever been exhibited. The terror and excitement of the colossal struggle with one army of millions every detail of that stirring battle to your realization probably for the first time just what modern warfare really means.

The usually splendidly balanced bill of vaudeville will include Nan Halperin, who has an entirely new program, which is in the form of a song cycle, and permits of her appearance in a number of characters and affords her an opportunity to interest her own wonderful personality into the offering and her effervescent humor has an outlet.

Nellie and Sara Kouns are lyric soloists and heard in a song recital of solos and duets of a most charming harmony.

Paul McCarty and Elsie Faye will be seen in their unique comedietta, "Suicide Garden"; Dierro will render some pleasing selections on his piano accordion, and pictures from "The Hunt" posed by living models which have even been made, and the most sensational that have ever been exhibited. The terror and excitement of the colossal struggle with one army of millions every detail of that stirring battle to your realization probably for the first time just what modern warfare really means.

Ringworm on
Child's Head

Caused Great Distress and Spread to Neck and Ears—Cure Was Speedily Effected When Right Treatment Was Recommended

Grand Bend, Ont., Sept. 18.—There is no disease of the skin more obstinate than ringworm, and the mother who writes this letter does so fully realizing what it will mean to other anxious mothers to know about Dr. Cass's Ointment.

This remarkable cure was brought about two years ago, and as there has been no return of the distressing disease there can be no doubt that the cure is permanent.

Mrs. D. Stebbins, Grand Bend, Ont., writes: "I am going to thank you for your experience with Dr. Cass's Ointment. My little girl had sores come out on her head which looked like ringworms. They were spreading fast, and I tried home treatment, but nothing helped her. I took her to the doctor, and he opened some of the sores, which were as big as the yoke of an egg. The sores gave me the most agonizing pain, and the poor child would cry for an hour or more after an application. For six weeks it continued to spread all over her head, and came down to her neck and ears. She suffered terribly. At last some kind ladies told me about Dr. Cass's Ointment, so I got a box, and the first time I put it on she was relieved of pain, and the second time the swelling was all gone. Before we had finished the first box the sores were nearly all gone. I have told all the people around about your Ointment, and I cannot praise it too much. It is now two years since my little girl was troubled in this way, and she never came back, so you can see she is completely cured. You are at liberty to use this statement for the benefit of others who may be suffering in a similar manner."

Dr. Cass's Ointment, 60 cents a box, all dealers or Edman's, 230 St. Clair, Limited, Toronto. Be suspicious of the druggist who tries to talk you into accepting a substitute.

GERMANS NOW DEPENDING ON POTATO CROP

London, Oct. 14.—The Press Association, from a reliable source, publishes an economic review of the condition of the central powers, in the course of which it says that as a result of a special investigation, ordered by the chancellor, of the 1917 harvest it is estimated that the yield will be forty per cent. lower than in normal years for wheat and 48 per cent. lower for rye, oats and barley. The review considers that the food situation in Germany during the coming winter will depend mainly on the results of the potato harvest.
 At present potatoes are being delivered with fair regularity, but should frost, lack of labor or other reason cause a shortage in potatoes, it may well spell disaster. The situation in Austria-Hungary, it is declared, is worse than in Germany.

CANADIAN BOXERS MAY FIGHT FOR LONSDALE BELT

It is reported a movement has been started in London to change the rules governing the contests for the Lord Lonsdale championship belt. At present they are open for competition among the residents of that country only, but now several well-known sporting men of England have advanced the idea that the competitions should be open to all the colonies as well as on equal terms. This would permit the boxers of Australia, New Zealand, South Africa and Canada to take part in the championship events and to become the permanent possessors of Lord Lonsdale's belt. It is reported that the movement is intended to bring the boxers of the colonies into closer relation with the mother country and create more interest in the game.

NECESSITIES HAVE NOT INCREASED OVER ONE-TENTH

Cost of Living Commission Completed Work and Is Preparing Report; Intimated That It Will Declare Less Than Ten Per Cent. Increase

INCREASE OF WAGES

On This Report Will Largely Depend Granting of Increase of Wages to Alberta Coal Miners; Figure Appears Low to Average Householder

The Cost of Living Commission, which has been traveling through the province collecting data on selling prices of various necessities at different points at the instigation of Alberta coal miners had about completed its work of gathering information, and is at present busy completing the report which will go to the department of labor, Ottawa.

A member of the commission, when seen last night, stated that the complete report would be sent to Ottawa before being published, but he had little hope of the commission declaring as much as a 10 per cent. general increase in prices throughout the province. The miners of Alberta under the new regulations, when asking for an increase of wages due to the increased cost of living, have a right to ask for a commission to inquire into the prices. The present commission is the result of such a request and any advance in wages granted will largely depend on the report of the commission. The period covered in the investigation was five months.

When You Can't Sleep

Dr. Cassell's Tablets Will Soothe the Nerve Restlessness That Causes Insomnia, and Insure Rest

CAPTURE OF ISLE OF DAGO SERIOUS MENACE TO SLAVS

Feared That Germans Will Use Island as Base for Air Raids on Capital

Petrograd, Oct. 14.—The admiralty does not try to minimize the strategic seriousness of the capture of the Island of Dago, which will prove an important enemy base for operations against Revel and menace to the Russian right flank.

Proclamations have been sent to the army and fleet, calling attention to the growing danger of an attack even upon the capital, and exhorting the men to forget their political differences and turn their energy to the defending of the country.

The Germans had been bombing for several days, but with little damage, the Russian defending fleet. It is argued as not improbable, if they are successful in holding the island, air raids upon Petrograd would be conducted by the Germans from those bases.

THE FIRST SHOT

Ottawa, Ont., Oct. 13.—The first campaign shot for the new government will be fired by Hon. C. J. Doherty, minister of justice, at Huntingdon, Que., on Monday night. Mr. Doherty will then make a speech in support of the candidature of J. Morris, win-the-war candidate in Chateauguay-Huntingdon.

VENEREAL DISEASES

Toronto, Oct. 13.—A deputation from the Toronto board of health with Chief Constable Henry Grassett, provost marshal, Capt. Sinclair and Dr. Gordon Bates waited on the Ontario government this morning to ask that venereal diseases be put in the same category as other contagious diseases under the same legislation as regards necessity of being reported.

LAURIER PREPARED FOR OPPOSITION TO NEW GOVERNMENT

entailed on the minister in connection with the defense of Canadian shores on both oceans and the patrol of the adjacent waters has involved constant and effective co-operation with the admiralty.

Hon. Mr. Hasen is to be succeeded as minister of marine and fisheries by Hon. C. C. Ballantyne, the first Liberal to join the union government. Mr. Ballantyne, as minister of public works, is succeeded by Hon. Frank B. Carvell.

Dr. Clark Declined
 It is understood on very good authority that the prime minister asked Dr. Michael Clark, formerly Liberal member for Red Deer, to accept a position in the cabinet. Dr. Clark, however, felt that he would be of more service in the coming election if he were unfettered by any official responsibilities.

Change in Methods

In arranging this portfolio, it is interesting to note Sir Robert Borden has reverted to the practice of Sir John Macdonald in one important respect. In recent years the prime minister has been president of the privy council, but in the administration of Sir John Macdonald, of 1873 to 1891, the presidency of the council was filled in the first place by Hon. John O'Connor, then, in succession by Hon. Mr. Masson, Hon. Mr. Moussau, Hon. Mr. McLaughlin and Hon. Mr. Cobly. In 1878 Sir John Macdonald became minister of the interior, and during the two years immediately preceding his death he was minister of railways. During recent years the amount of work of a detail or routine character in connection with the privy council has greatly increased and much of the time of Sir Robert Borden

For Your Sons and My Sons

The noble work of the British Red Cross knows neither race, creed nor colour. Its "Quality of Mercy" is not strained.

But its financial burden has become more than the Motherland alone can bear. That is why October 18th has been set aside as a day to receive generous offerings to enable the British Red Cross to "carry on."

Sons and Daughters of the Empire, wherever they may be, are once again urged to give generously to this cause.

And it is most earnestly hoped that, as was the case last year, the contributions from Canada will set a standard in generosity that will be a pattern to the World.

Give Nobly and Generously

A Few Facts about the Work of the British Red Cross	SENT OUT OF GREAT BRITAIN	\$3,750,000 spent on work in Mesopotamia, India, Egypt, Salonica, Malta and Near East. The Hospital Ship "Nabla" sent to Mesopotamia. 65 Motor Launches sent to Mesopotamia, Egypt, East Africa and Malta. 22 Hospitals and Convalescent Homes in France, Egypt, Malta and Salonica. \$125,000 to French Red Cross Society.
The British Red Cross Society is the only institution which carries voluntary aid to the Sick and Wounded of the British forces on land and sea in every region of the War. Its work is therefore the concern of all classes of British subjects, whether living in the British Isles, in the Dominions and Colonies beyond the seas, or in foreign countries.	\$5,500,000 for purchase and upkeep of Motors. 2,500 Motor Ambulances, cars, cycles, wagons and soup-kitchens sent abroad. 4 Hospital Trains running in France, each carrying 450 wounded, have cost over \$300,000 to build and run. \$2,800,000 spent on British Red Cross work in France and Belgium.	

has been taken up with such matters and with the administration of the Royal Northwest Mounted Police. In addition to this, he has discharged the duties of secretary of state of external affairs, the work of which department has enormously increased during the past three years. For this reason Sir Robert Borden requested Mr. Rowell to undertake the duties of president of the council and thus the demands upon the time of the prime minister will be correspondingly reduced. Sir Robert Borden has conferred with Mr. Rowell as to needed improvements in dealing with the routine work of the privy council, and Mr. Rowell will devote himself in the first instance to the consideration and carrying out of such improvements.

The War Committee
 Mr. Rowell, as president of the council, will also take over the administration of the Royal Northwest Mounted Police, but notwithstanding these engagements, he will be able to devote the majority of his time to his duties as a member of the war committee of the cabinet which is to be immediately constituted.

Laurier's Position
 Toronto, Oct. 13.—Discussing Sir Wilfrid Laurier's position with the new regime, the Globe says editorially: "The position of Sir Wilfrid Laurier and his attitude to the new developments will be a matter of deep concern to all Canadians. He has announced through the Canadian Liberal Monthly that if returned to power his policy would be: (1) A supreme effort, by a systematic and thorough national war organization to secure by voluntary enlistment the necessary number of recruits; (2) a referendum on this effort fails; (3) the acceptance of the verdict in every part of Canada if the vote favors conscription; (4) a resumption of recruiting efforts if conscription is negative. This means that the operation of the Military Service Act would cease, pending a referendum even if only a portion of the first draft of 200,000 were called to the colors before the election as

will probably be the case. Not many candidates outside of Quebec will frankly support this program. It may safely be assumed, however, that in the next parliament, if Sir Wilfrid is not able to form an administration of his own, he will be a friendly and helpful critic of the new government in all its war measures, except insofar as they conflict with his ideas on compulsory service.

In New Government
 Ottawa, Oct. 13.—Frank Carvell definitely joined the union government shortly after 1 o'clock today. He was sworn in as minister of public works, the portfolio taken by Col. Ballantyne last week. The first Liberal to enter the new government in all its war measures, except insofar as they conflict with his ideas on compulsory service.

103RD SERGEANTS WIN MASON TROPHY AT CALGARY RANGES

Splendid Score Made at the Butts on Saturday When Two Competitions Were Shot Off

Favored with splendid weather for this season of the year, the Mason-Stewart trophy was competed for at the East Calgary ranges on Saturday. The trophy was presented to the regiment by Lt.-Col. Mason and Major Reg. Stewart for annual competition between teams composed of five officers and five sergeants exclusive of the staff.

The inter-company match was for the shield presented by Lt.-Col. Mason, and is also an annual competition between teams of five men from each company, including one officer.

Individual batting honors for the two teams rest with Dave Robertson, the Giants' right fielder. He is the only player on either team who has double figures in the hit column, having slugged the ball safely 10 times in 19 times at bat, for an average of .526. Haridon, substituting for the hard-hitting McCarty, and whose catching has been of a high order, comes next to Robertson with an average of .508—five hits in 10 times at bat. Kauff and Zimmermann, the Giants' clean-up men, are batting under an average of .444. Rishers, the pinch hitter, has an average of .500, coming through safely once in his two tries to the plating. Wagner is hitting at a .333 clip; John Collins has averaged .333 and Jackson and Felsch .316 each.

St. Andrew's "A" Country Club "A" won by 4 points.

KEEP YOUR HOLIDAY HEALTH

Make it your business to always look and feel as well as you do at the end of your vacation. Sunshine, fresh air and exercise are nature's great restorers and the health gained during a holiday should carry you well along to the next vacation.

It is most important that the blood be kept cleared of impurities. This is the business of the Kidneys. One hour's activity on the part of these Kidneys and the blood begins to get clogged with poisons which are carried to all parts of the body, giving rise to one or more of the following symptoms:

Rheumatism follows the crystallizing of uric acid in the muscle tissues and joints. Uric acid poisons should be eliminated by the Kidneys.

Swollen joints and ankles indicate the immediate need for Gin Pills. Pains in the sides and back and through the groins, constant headache, restless nights, derangements of the urinary system, stone and gravel, puffiness under the eyes and frequent chills—all these symptoms are relieved by the use of a treatment with Gin Pills taken at once.

MICHAELIS MUST GO
Copenhagen, Oct. 13.—The German Reichstag adjourned, leaving behind it a latent crisis which political observers believe will lead, sooner or later, to the retirement of Dr. Michaelis, the chancellor, without a following. Although other parties are less actively in opposition to Mr. Michaelis than the Socialists, not a voice has been raised against the Vorwaerts slogan, "Michaelis must go."

Cool Generalship Pays

Particularly at this time in The Albertan Automobile Contest. Back up your own previous good work.

Now—today and tomorrow, and every remaining day, for that matter—is the time to do a little good generalship in the contest.

Every contestant in the list, when soliciting subscriptions, has been assured of support if needed, at the close.

Sometimes these premises are made to put the candidate off, but usually the intention is to wait and see if the one soliciting makes good as a contestant.

Almost anybody interested in your success will risk a short-term subscription, and will be willing to increase it before the close of the contest. If you can't get a year, or two years, or three years, take all the short-termers you can get. When the second payment is made you will set as many votes as though the entire payment had been made at one time.

But explain that where you lose out is in the club votes—the extra votes. While you get as many regular votes when a payment is made on the installment plan as though it were all paid at once, these additional payments count for extra votes the week the subscriptions are turned in—and there is thus a great loss in extra votes for all these deferred payments.

100,000 Extra Votes \$50.00 Special Prize

For each \$18 of subscription money turned in for the week ending tomorrow evening. Get as many as you can—they will come in handy at the close of the contest. Will take \$21 the following week.

\$2,000 SEVEN-PASSENGER CHALMERS TOURING CAR—On exhibition at Their Garage, Sixth Avenue West.

THE ALBERTAN (Daily)
For each \$21, for week ending October 22.
For the next three weeks, for each club of \$25 in subscriptions, the following extra votes will be given:
50,000 EXTRA VOTES—Week ending October 29.
50,000 EXTRA VOTES—Week ending November 5.
75,000 EXTRA VOTES—Week ending November 12.
During the last week of the extra vote offer, after the first \$25 club, 2,000 extra votes will be given for each club which is included in the subscription collection.

It is not necessary to send in a completed subscription as you get them, and as soon as sufficient for a club is received, the club will be included in the ballot. Candidates are not limited to the club but may have as many as their subscription collections call for. Any surplus over an even club will be included in the club for the next week. Each special offer runs for the week when the list is published. NO EXTRA VOTES WILL BE GIVEN THE LAST WEEK OF THE OFFER.

NO OTHER EXTRA VOTE OFFER WILL BE MADE DURING THE TERM OF THE OFFER.
