Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been resampled to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

The copy filmed here has been reproduced thanks to the generosity of:

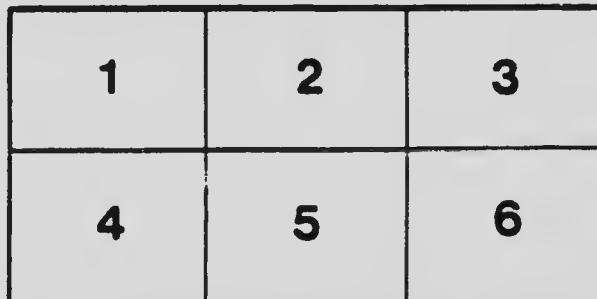

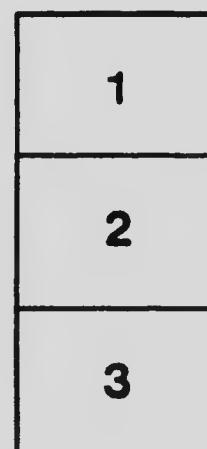

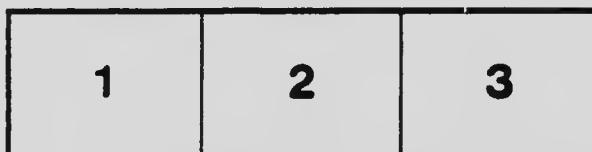

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec la plus grande soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

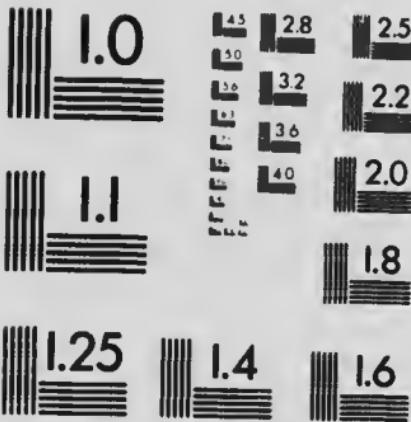

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Entered according to Act of Parliament of Canada, in the office of the Minister of Agriculture,
by W. J. GAGE & COMPANY, Limited, in the year one thousand nine hundred and five.

PREFACE.

The following pages endeavor to teach the principles of Bookkeeping by a rational method. The antiquated rule, "Debit what is received and credit what is given," cannot successfully be applied to all business transactions; the efforts to make a forced application of this rule have led to much straining of the imagination, noticeably in such a transaction as, "Bought from T. Brown on account, Mdse. \$200." This rule requires that *Interest* and *Rent* be called *use*, and that *Wages* and *Commission* be called *services*. In the Introduction, reasons will be given for discarding its general application as irrational.

The useless and unmeaning "To" and "By" have been entirely omitted throughout this work. New points and difficulties have been introduced gradually.

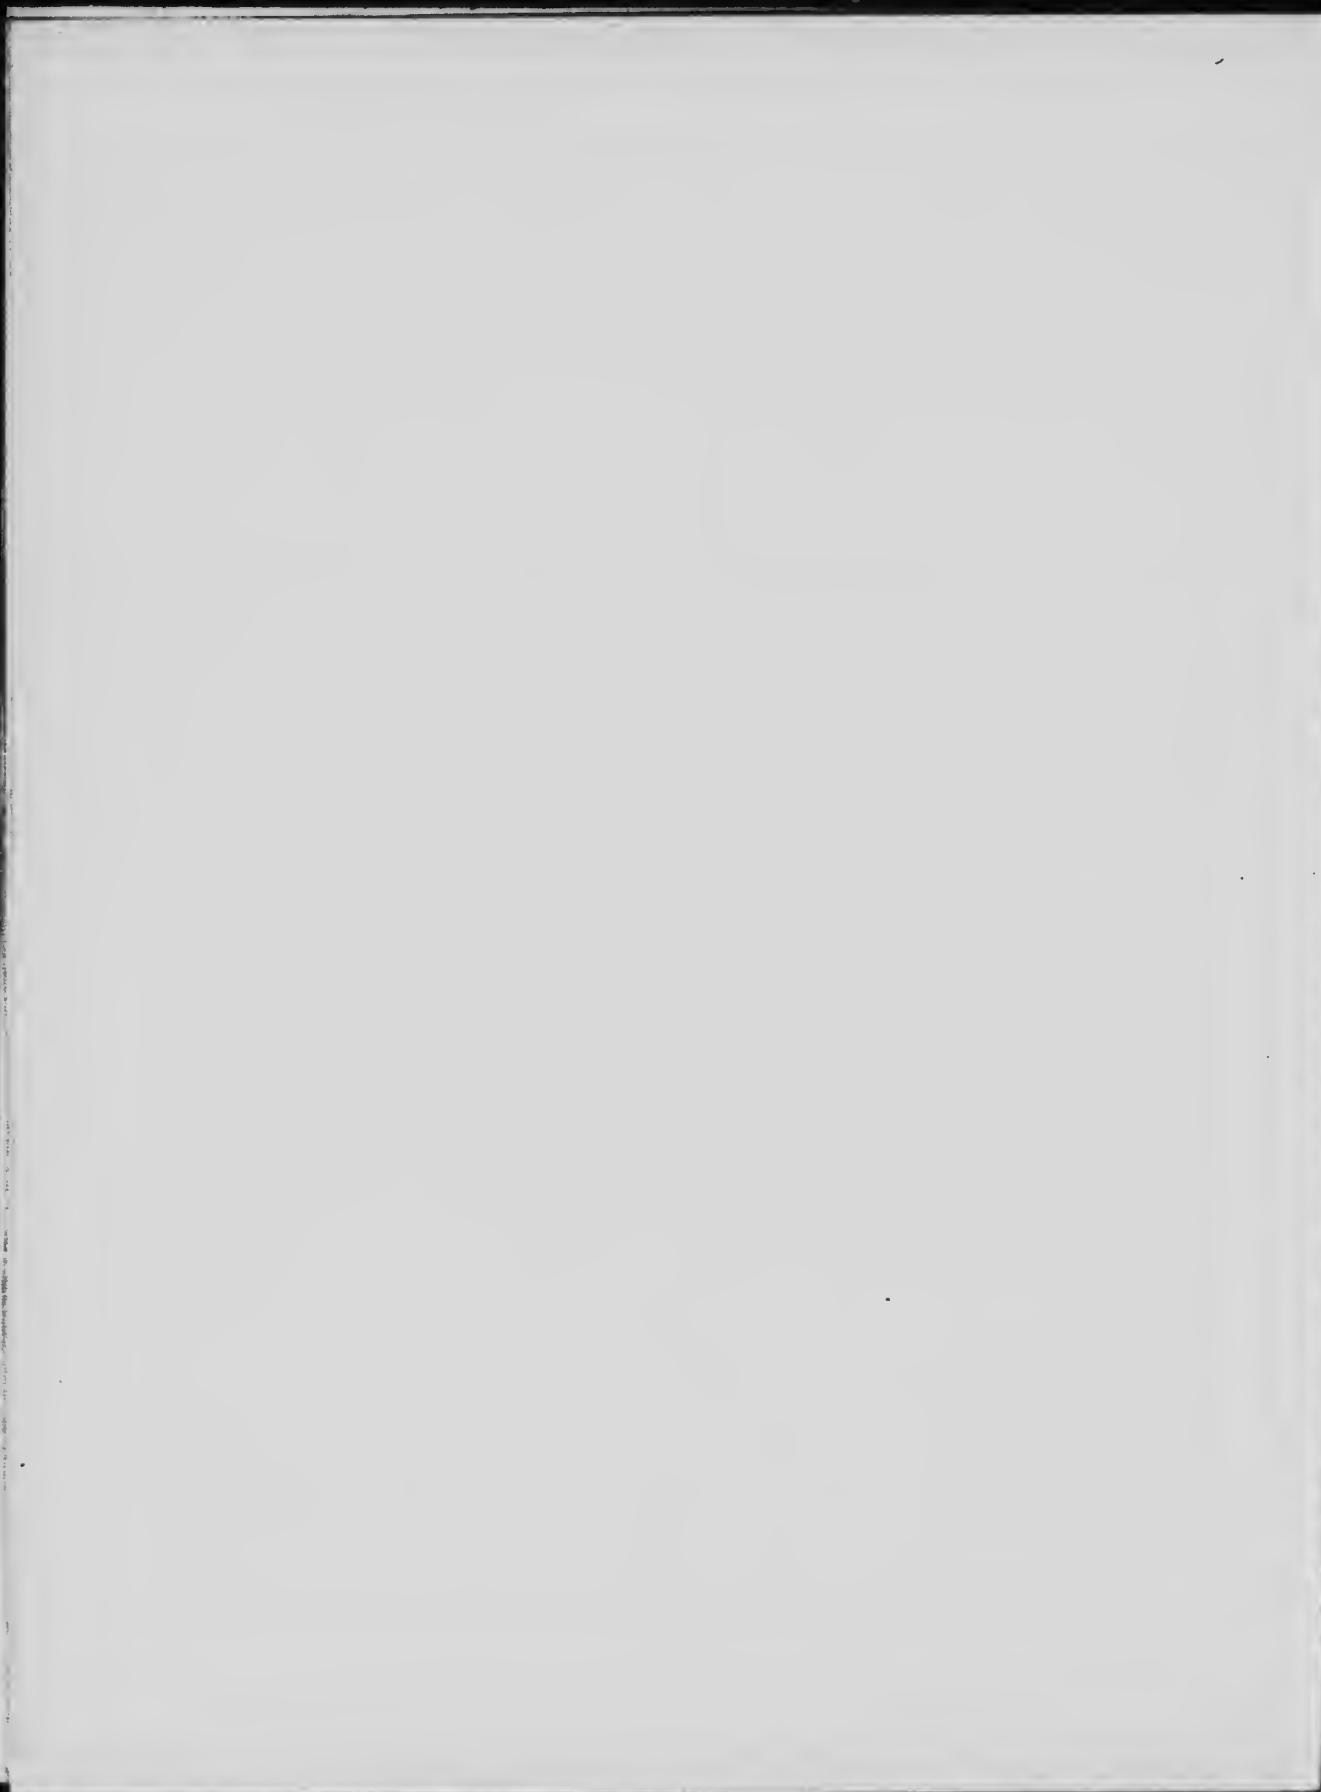

The meaning and application of the terms "*debtor*" and "*creditor*" can be best presented to the learner by teaching accounts, first separately, and afterwards together, first through a *partial* journal entry and afterwards through a *complete* journal entry.

In the Ledger the explanation space is left blank, unless some useful information is obtainable therefrom, as from, "Goods at 30 days," in a personal account. Statements of Losses and Gains and of Assets and Liabilities are made for the proprietor from the trial balance and inventories, before the Ledger is closed; these are made as separate statements, in accordance with practical usage, little stress being laid on the columnar form of statement. The Ledger is closed, only for the purpose of separating the losses and gains of one business period from those of the succeeding one; for this purpose, only the loss and gain accounts and the proprietor's account are closed, at the time of closing the books; all the asset and liability accounts are left unclosed, unless it be Cash Account and Bank Account which are necessarily balanced frequently, and are usually not kept in the Ledger.

The attention is confined for some sets to the Journal as the only posting medium, the Cash Book and the Bill Book being introduced, first as auxiliary books, and later as principal books. As business offices differ very much in the forms and ruling of such books, only some of the most general forms have been illustrated, but sufficient to enable the young bookkeeper to adapt himself to the various forms he may meet with in actual business.

The *proprietor* whether he be a single proprietor or a partner, is distinguished from his *business*, and is considered much the same as an outside person, being debited when he *receives* from his business on account, and credited when he *gives* to it. The business is thought of, as buying and selling, receiving and giving. The proprietor is a debtor to, or a creditor of, his business as much as any other person; when the business becomes insolvent, he is a debtor, and owes to the business from his private means, the amount of the Net Insolvency; when the business is solvent, he is a creditor, and the business owes him the amount of his Net Capital.

Bookkeeping, as a *science*, is unchangeable—the principles are fixed; but bookkeeping, as an *art*, is constantly undergoing change. The teacher should endeavor to thoroughly impress the principles on the mind of the learner; the learner will then himself become the inventor of new forms to suit special circumstances.

READ THE
INTRODUCTION

1. There are various ways of approaching the subject of Bookkeeping, so that it may be well to discuss certain points in an introductory chapter, without bringing them to the attention of the beginner.
2. **Division of Accounts.**—Accounts may be divided into three classes: (1) Personal Asset and Liability Accounts, as Jno. Simpson, Jno. Simpson & Co., The Dominion Bank; (2) Impersonal Asset and Liability Accounts, as Cash, Bills Receivable, Bills Payable; and (3) Loss and Gain Accounts (all Impersonal), as Merchandise, Expense, Real Estate, Interest, Discount.
3. **Rules for Journalizing.**—Journalizing may be stated in three rules to suit the three classes of accounts—(1) For Personal Asset and Liability Accounts: Make a person debtor when he receives value on account, and creditor when he gives value on account; (2) For Impersonal Asset and Liability Accounts: Make the account (say Cash) debtor for amounts received by our business, and creditor for amounts given by our business; (3) For Loss and Gain Accounts: Make the account (say Mds.) debtor for costs and creditor for proceeds.
4. **Reasons.**—Consider the first rule, which applies to persons alone. The account "Jno. Simpson" certainly does not mean that we *receive* and *give* John Simpson; it is certainly far-fetched to say we receive and give his name; and it is forcing the question to say that the Dr. side shows John Simpson's oral promises received, and the Cr. side John Simpson's oral promises given back, since John Simpson may have given no oral promises at all, which would certainly be the case when we buy goods from him on account. No, the meaning of the account is simply, that John Simpson has received, on account, the amounts on the Dr. side, and is our debtor; and that he has given, on account, the amounts on the Cr. side, and is our creditor. It is in this class of accounts only, that the terms *debtor* and *creditor* have their true meaning.

Consider the second rule, which applies to things alone, and only to those things which belong to asset and liability accounts, such as Cash, Bills Receivable and Bills Payable accounts. In this class of accounts the terms *debtor* and *creditor* have not their true meaning; in Cash Account, for example, the debtor side shows the amount of cash received by our business, and the Cr. side the amount given by our business; it does not show that anyone or anything, is a debtor to, or a creditor of, our business. Hero alone is where the old rule "debit what is received and credit what is given" has its true significance.

Consider the third rule, which applies to *things, services and uses*, but only to those connected directly with loss and gain accounts, such as Merchandise and Real Estate accounts, Wages and Commission accounts, Rent and Interest accounts. Now, the term *Bills Receivable*, as an Asset and Liability account, and as a ledger heading, really means *values of Bills Receivable*, and these values are received and given; but the term *Merchandise*, as a Loss and Gain account, and as a ledger heading, means *price of Merchandise*, the debtor (Dr.) side showing the *cost price of Merchandise* and the creditor (Cr.) side showing the *proceeds price of Merchandise*. And so with Real Estate, the Dr. side shows the *cost price of Real Estate*, and the Cr. side shows the *proceeds price of Real*

RATIONAL BOOKKEEPING.

Estate. Again, instead of having one account for all *services* called "Services," and one for all *uses* called "Uses," which as before would mean *price of Services* and *price of Uses*, we have, not *Services of Workmen, Services of Buyer, Use of Real Estate, Use of Money*, as we would expect, but *price of Services of Workmen, price of Services of Buyer, price of Use of Real Estate, price of Use of Money*, crystallized into the terms *Wages, Commission, Rent, Interest*; so that *Wages* and *Commission* are not *services*, but the *price of services*; and *Rent* and *Interest* are not *uses*, but the *price of uses*. The term *Merchandise* as a ledger heading stands for *price of Merchandise*, but the term *Wages* really means *price of services*.

5. Service and Use Accounts.—From the foregoing and the following considerations, it will be seen that we cannot say, that *Wages, Commission, Rent and Interest* are debtor when they are received, and creditor when they are given. Consider the debtor side alone; *Merchandise Account* is debtor for the *cost price of Merchandise*; of course the merchandise is received as a commodity, but the *Merchandise Account*, as a loss and gain account, is intended to show, not *merchandise received*, nor even the *value of merchandise received* (for we are not dealing with values but prices), but to show the *cost price of merchandise*, and this cost price is not received by our business; *value* has to do with asset and liability accounts, *price* has to do with loss and gain accounts. This will be more evident if we consider *Wages Account*; the Dr. side shows the *cost of wages*, that is, the *cost price of services*; now, it is true that just as the merchandise is received, so the services are received, but just as the *cost price of merchandise* is not received by our business, neither is the *cost price of services* received by our business; so that the Dr. side of *Wages Account* does not show the *cost price of services* received, that is, does not show *Wages* received.

The term *Interest* does not mean *use*, neither as a bookkeeping term, nor in general commercial usage; *Interest* is the *price of use*, just as *Commission* is the *price of services*. If a person loan me \$200 at 6% per annum, I must pay him \$12 extra at the end of the year; the 6% is the price rate of use, and the \$12 is the full price of use. The price of the use may vary, or the lender may let me have it, as a favor, for \$1, instead of \$12, in which case \$1 is the interest; should the lender let me have the use of the \$200 for nothing, there is still the same *use*, but there is no *price of use*—no *interest*. The same may be said of *Commission Account*—the Dr. side shows costs, and the Cr. side shows proceeds, which teaches the learner directly and from the beginning that all such accounts are loss and gain accounts. The learner will grasp the idea of *cost* and *proceeds* in connection with *Wages, Commission, Interest, Rent* and all accounts connected with services and uses more readily than any far-fetched application of the terms *receive* and *give*. Thus the third rule, besides being rational, teaches from the beginning the true nature of the account, as a loss and gain account.

6. Summary of Rational Bookkeeping.—(a) Make three classes of accounts, (1) Personal Asset and Liability Accounts, (2) Impersonal Asset and Liability Accounts, (3) Loss and Gain Accounts. (b) Treat each class separately in the order given. (c) Treat each account separately at first, by means of a *partial* journal entry, from which the account is posted to the Ledger. (d) Treat the accounts in conjunction at a later stage, by means of a *complete* journal entry.

When the learner arrives at complete journalizing, he will do it by a process of reasoning, and not by a mechanical and uncertain application of the terms *receive* and *give*. He will be able to give to each account its true meaning and will understand their relation in the Ledger.

TO THE STUDENT.

BUSINESS PAPERS.

The Student should write out the Business Papers indicated in the various Sets and Exercises, as by so doing he will not only have a thorough acquaintance with such papers, but will have a more thorough knowledge of Bookkeeping. Suitable Blanks and a "Student's Outfit in Business Papers" have been prepared to accompany this text; the Student may, however, make up his own, if he so desires.

The Student should write all acceptances of drafts, and all indorsements of orders, checks, notes and drafts, both those which would be written by himself and those which would be written by other persons; he should not, however, write those indorsements and acceptances by other persons, which would never be seen by him, such as that of the draft on April 27 in Set VI. Drafts should be accepted, and orders, checks and sight drafts should be indorsed, at the time of writing the papers, since they are mentioned for this purpose but once in the Set; notes and time drafts should be indorsed at the time of payment or transfer. The Student will not forget to have his own checks properly indorsed, since they are returned to him at the end of each month by the bank.

This will make the work sufficiently like actual business for general interest and good progress in Bookkeeping.

DUE DATES.

The Sets and Exercises are all dated according to the following calendar. The Student should consult it when determining the due dates of notes and acceptances. When the last day of grace falls on a Sunday or a legal holiday, the date of maturity is the next business day thereafter. Sundays and legal holidays are indicated in darker type.

PAGES REQUIRED FOR THE SETS.

The following are, approximately, the number of pages of a Blank Book of about 27 lines to the page, which will be required for the various Sets. If the Student use the second method of entering the Day Book explanations in connection with the Journal, as shown on page 30, March 25 to 29, then he will require only about two-thirds of the number of pages for the Journal, indicated below. He will himself determine, from his Work Book, the pages he will need for Inventories, Trial Balances and Financial Statements. If desired, the Bill Book may be introduced in Set IV. or Set V.; see Section 85.

BOOKKEEPING

1. **A Business Transaction** is an exchange of values. This exchange may be a *present* exchange, as when goods are sold for cash, or it may be a *deferred* exchange, as when goods are sold on account, that is, to be paid for at a future time.
 2. **Bookkeeping** is the recording of business transactions in a systematic manner in suitable books. The main feature of this record is the **Ledger Accounts**, so that bookkeeping is sometimes called *accounting*.
 3. **A Ledger Account** is a number of items of the same kind collected under a heading. Each account has two distinct parts separated by a vertical line; the left-hand side is called the **Debtor (Dr.) side**, and the right-hand side is called the **Creditor (Cr.) side**.

(a) The following is the form of a Ledger Account in outline:

DEBTOR.	JOHN SIMPSON.	CREDITOR.
<i>He received on account</i>	\$ 80	\$ 75
" " "	110 50	40 25

(b) The following is the usual form of a Ledger Account:

Dr.		JOHN SIMPSON.				Cr.	
1907			1907			1907	
Jan.	2		Jan.	80		Jan.	5
	10			110	50		75 46 25

4. Debtor and Creditor, Debit and Credit.

We must remember that John Simpson's account, mentioned in Section 3, is an account in *our own* books, not in *his* books. John Simpson is our *debtor* (he owes us) for the amounts on the left-hand half of his account ; he is our *creditor* (we owe him) for the amounts on the right-hand half of his account. He is our *debtor* when he *receives* any value from our business *on account*, that is, without giving any value in return at the time ; he is our *creditor* when he gives any value to our business *on account*, that is, without receiving any value in return at the time.

The terms *debit* and *credit* indicate the effect of a business transaction on the financial relation between a *debtor* and a *creditor*, and therefore the effect on the *debtor* and *creditor* sides of an account. Apply the terms *debtor* and *creditor* to accounts or to the sides of an account, for example, "John Simpson, Dr.", "the *creditor* side of John Simpson's account"; apply the terms *debit* and *credit* to the items or separate entries, for example, "that is a *d-bit* entry," "*credit* John Simpson's account with \$75." Dr. is an abbreviation for *debtor* not for *debit*, and so with Cr.

5. Journalizing is the determining and indicating of the debit and the credit items of a transaction for their respective ledger accounts. The book in which this is done is called the *Journal*.

6. Example of Journal :

L. F.			Date line	Dr. column	Cr. column
	Debtor line	Creditor line		\$	c.
				\$	c.
TORONTO, January 2, 1907.					
	John Simpson Dr. :Mdse. Cr.			80	
			5		80
	Cash Dr. John Simpson Cr.				75
					75

7. Posting is transferring the debit and credit items from the Journal to their respective accounts in the Ledger. The *Ledger* is the book of accounts.

8. Assets and Liabilities.

An Asset is anything belonging to the business, which has a money value. A Liability is any debt owing by the business.

9. Losses and Gains.

A Loss is an excess of cost over proceeds. A Gain is an excess of proceeds over cost.

10. Classification of Accounts.

All accounts may be divided into three classes, namely, Personal Asset and Liability Accounts, Impersonal Asset and Liability Accounts, and Loss and Gain Accounts (all impersonal). The first two classes show, either values belonging to the business, or debts owing by the business; the last class shows either losses or gains, in connection with the business.

I. Personal Asset and Liability Accounts : as John Simpson, John Simpson & Co., The Imperial Bank, The Royal Fire Insurance Co., etc.

II. Impersonal Asset and Liability Accounts : as Cash, Bills Receivable, Bills Payable, etc.

III. Loss and Gain Accounts : as Merchandise, Expense, Real Estate, Interest, Discount, Commission, etc.

The first two classes are sometimes called Real Accounts, and the third class is sometimes called Representative Accounts.

PERSONAL ASSET AND LIABILITY ACCOUNTS.

11. Journalizing - Rule I.

In Personal Asset and Liability Accounts, make the person *debtor* for all the amounts which he *receives* from our business *on account*, and make him *creditor* for all the amounts which he *gives* to our business *on account*.

12. Instructions to the Student:

- (a) Think of the business as your own, and of yourself as the proprietor, in the exercises which follow. When another person is mentioned as proprietor, you will be the bookkeeper, and should still think and speak of the business as *ours*.
- (b) Always distinguish between the business, and the proprietor of the business. For the purposes of bookkeeping, consider that it is the business that buys and sells, and otherwise transacts business. The proprietor himself *gives* to his business on account when he *invests*, and is credited for the amount he so gives; he *receives* from his business on account when he *withdraws* for private use, and is debited for the amount he so receives.

13 (a). Business Transactions for John Simpson's Account.

Journalize and post John Simpson's account from the following transactions. Use the illustrations in sections 13 (b), (c), (d) as guides. Leave room enough in both Journal and Ledger to continue with the February transactions of section 14 (a).

Toronto, January 2, 1907.—John Simpson received on account, \$80.

5. John Simpson gave on account, \$75.
10. John Simpson received on account, cash \$110.50.
14. John Simpson gave on account, cash \$40.25.
17. John Simpson received on account, goods \$70.50.
21. John Simpson gave on account, goods \$90.
24. Sold John Simpson on account, goods \$25.
25. Bought from John Simpson on account, goods \$45.
29. John Simpson paid on account, cash \$10.75.
30. Sold John Simpson for cash, goods \$20.

(b) Journal for John Simpson's Account only.

(e) Remarks:

- Experienced bookkeepers recommend the following order in making entries in Ledger Accounts: (1) the amount, (2) the date, (3) the Journal page. Then enter the Ledger page of the account in the Journal, opposite the item posted, first noticing the amount in the Journal again, to make sure that the correct amount has been posted.
- In John Simpson's account we see that the debtor side is greater than the creditor side by \$25, therefore he is a debtor for that amount, and the balance is an asset.
- Make the small pin-head totals with a hard lead pencil.

14 (a). Business Transactions—John Simpson's Account (Continued)—

Journalize John Simpson's account; continue the posting under the January posting in Section 13 (d); balance and close the account as shown in Section 14 (b).

Toronto, February 1, 1907. Sold John Simpson on account, goods \$200.

- Received from John Simpson on account, cash \$100.
- Bought from John Simpson on account, goods \$175.
- Paid John Simpson on account, cash \$25.
- Sold John Simpson on account, goods \$80.25.
- John Simpson paid on account, cash \$30.50.

(c) **Remarks :**

1. John Simpson has received on account \$591.25, and has given on account \$566.50; therefore he owes \$24.75. We balance his account by placing the \$24.75 on the smaller side in red ink, indicating the red ink by an asterisk (*), when using a pencil or black ink. We then bring this balance down below the ruling in black ink on the debtor side, for the next month's business. The red ink indicates that the balance is on its wrong side, being placed there simply to balance the account; the black ink indicates that the balance is now on its right side, since it is a debtor balance.
2. In the page column in Section 14 (b), "10" is the Journal page from which the item came; "11" is a Ledger page, and shows in the red ink where the balance was transferred to, and in the black ink where the balance came from. This latter paging is used when the balance has to be transferred to a new page.
3. Personal Accounts should be balanced and ruled up, only when settled, or when the page is filled and the account has to be transferred to a new page. This is true of all Asset and Liability accounts, excepting Cash and Bank accounts, which are balanced at least monthly as a check against mistakes in handling the cash.

EXERCISES ON PERSONAL ACCOUNTS.**Exercise No. 1.**

Journalize and post M. Peters' account, leaving room both in the Journal and the Ledger account to continue with Exercise No. 2. On March 30, is M. Peters a debtor or a creditor? Is the balance an asset or a liability?

Ottawa, March 1, 1907. Sold M. Peters on account, Merchandise (goods) \$230.

5. Bought from M. Peters on account, Merchandise \$150.
9. M. Peters paid on account, cash \$70.
13. Bought from M. Peters on account, Merchandise (Mdse.) \$130.

23. Sold M. Peters for cash, Mdse. \$80.25.
26. M. Peters paid on account, cash \$100.
29. Bought from M. Peters on account, Mdse. \$175.
30. Bought from M. Peters for cash, Mdse. \$200.

15 (a). The Proprietor's Account.

This account is treated in the same way as any other personal account, until the close of the business period. The Proprietor is made debtor for what he receives from his business on account (called withdrawals for private use), and he is made creditor for what he gives to his business on account (called investments).

The only difference between the proprietor's account and that of an outside person is, that the *net gain* at the close of the business term is placed on the creditor side of his account; or, if there be a *net loss*, it is placed on the debtor side of his account. There will then be a debtor balance or a creditor balance just as in any other personal account; if the creditor side be the greater we name the balance "Net Capital," or if the debtor side be the greater, we name the balance "Net Insolvency."

The Proprietor may have two accounts—Capital a/c and Private a/c. For the present we shall use the first one only, as follows, "Proprietor (Capital a/c.)"

The Student will think of himself as the *bookkeeper* when another person is mentioned as *Proprietor*.

Exercise No. 3.

Journalize, post, enter the net gain, balance and close the Proprietor's Account. Compare your Ledger account with the example in Section 15 (b).

London, May 1, 1907.—The Proprietor gave to the business on account (invested), cash \$1000.

6. The Proprietor received from the business on account (withdrew), cash \$10.75.
10. The Proprietor gave to the business on account (invested), Mdse. \$1500.25.
15. The Proprietor withdrew from the business on account, cash \$30.
27. The Proprietor took for private use, Mdse. \$20.50.
30. The Proprietor invested in the business, cash \$500.

Net Gain on May 31, \$75.50.

Exercise No. 4.

Journalize, post, enter the net gain, balance and close the Proprietor's account—"G. Grand, Capital A/c." Is he a debtor or a creditor of the business? Is the balance an asset or a liability of the business? What is the balance as regards himself?

St. Thomas, June 1, 1907. G. Grand invested, Mdse. \$2000.

6. G. Grand withdrew from the business, cash \$50.
 10. G. Grand invested in the business, cash \$1500.
 18. G. Grand took for private use, Mdse. \$60.50.
 24. G. Grand invested in the business, cash \$500.
 29. G. Grand withdrew from the business, cash \$30.
- Net gain on June 29, \$120.60.

16. The terms *Debtor* and *Creditor* have their true meaning, only in the first class of accounts—Personal Asset and Liability accounts. The person whose name is at the head of the account is a debtor—he owes to our business the amounts on the debtor side of his account; and he is a creditor—he is owed by our business the amounts on the creditor side.

In the second and third classes of accounts mentioned in Section 10, the terms *Debtor* and *Creditor* do not have this ordinary meaning. In the second class—Impersonal Asset and Liability accounts, the debtor side shows the amounts of Cash, Bills Receivable, Bills Payable, etc., received by our business; and the creditor side shows the amounts of Cash, Bills Receivable, Bills Payable, etc., given by our business. In the third class—Loss and Gain accounts, the debtor side shows the cost to our business of Merchandise, Expense, Real Estate, Interest, Discount, Commission, etc.; and the creditor side shows the proceeds for our business of Merchandise, Expense, etc.

IMPERSONAL ASSET AND LIABILITY ACCOUNTS.**17. Instructions to the Student:**

- (a) We shall now deal with the second class of accounts—Impersonal Asset and Liability accounts—Cash, Bills Receivable, Bills Payable, etc.
- (b) Keep your mind fixed on the account under consideration, and think whether the business received, or gave the item mentioned.

- (6) When any of the accounts of Class II, or Class III, are mentioned in a transaction, you must make an entry for such, whether the transaction be *on account or not*. For an account of Class I, there is an entry for the person, only when the transaction is *on account*.

18. Journalizing Rule II.

Make Impersonal Asset and Liability accounts debtor for values received by the business, and creditor for values given by the business.

19. Cash Account.

Make this account debtor for all cash received by the business, and creditor for all cash given by the business.

The term *Cash* includes current money, checks, bank drafts, sight drafts, post office money orders, postal notes, and express money orders.

EXERCISES ON CASH ACCOUNT.

Exercise No. 5.

Journalize, post, balance and close Cash Account, leaving room in both Journal and Ledger to continue with Ex. No. 6.

Winnipeg, July 2, 1907. Received cash from the Proprietor as an investment, \$300.

1. Gave cash for Office Desk, \$50.
11. Paid cash for Mise., \$200.25.
18. Received cash for Mise., \$100.
30. Paid cash to T. Dunn on account, \$60.

20. Journal for Cash Account only.

22. Closing Cash Account.

*The Debtor side can never be less than the Creditor side. Why? Take the difference between the two sides, which will give the balance of cash on hand. Place the balance on the smaller side in red ink, rule and foot the columns, and bring down the balance on the opposite side in black ink. This debtor balance is an asset.

Exercise No. 6.

Journalize, post, balance and close Cash Account, making it a continuation of Cash Account in Ex. No. 5. Why is the balance always an asset?

Winnipeg, August 1, 1907. Received cash from P. Monk on account \$250.

8. Proprietor withdrew for private use, cash \$20.
14. Sold Mr. Spence on account, Mdse. \$100.
20. Bought from T. Dunn for cash, Mdse. \$80.50.
24. Sold R. Gray for cash, Mdse. \$150.70.
28. Paid cash for August rent, \$30.
30. Gave cash to the Children's Hospital, \$10.

28. Ledger for Cash Account - closed twice

Exercise No. 7.

Journals, post, balance and close Cash Account, leaving room to continue with Ex. No. 8. What amount of cash was received? What amount of cash was paid out? What is the balance on hand?

Kingston, September 2, 1907. Received cash from Student as an income tax at \$1.00.

9. Gave cash for Mdse., \$200.50.
17. Received cash from D. Smith on account, \$300.
23. Gave cash to R. White on account, \$100.
27. Gave cash to B. Saul for Mdse., \$50.25.
30. Received cash from A. Dame for Mdse., \$300.50.

If Cash account include Bank account, then the creditor side of Cash account may be the greater owing to an overdraft.

Exercise No. 8.

Journalize, post, balance and close Cash Account, making it a continuation of Cash Account in Exercise No. 7. What is the balance called?

Kingston, October 1, 1907. Student invested extra, cash \$600.50.

8. Gave R. Moore on account, cash \$100.
15. Bought Mdse. for cash, \$300.
22. Sold Mdse. for cash, \$200.50.
26. J. Mason paid on account, cash \$100.
28. Paid R. Potter on account, cash \$200.
31. Paid clerk's salary in cash, \$50.

24. Bills Receivable.

Other persons' notes and acceptances are called Bills Receivable. The following is K. Spiers' promissory note, in which he promises to pay the amount specified:

\$200.60.

London, November 1, 1907.

Ten days after date I promise to pay
to the order of Proprietor
at The Imperial Bank
Two Hundred $\frac{60}{100}$ Dollars
for Value Received.
K. Spiers.

Instead of giving the foregoing note, K. Spiers might have given the following acceptance or accepted draft.

\$200.60.

London, November 1, 1907.

1907. Ten days after date, pay
to the order of myself
Two Hundred $\frac{60}{100}$ Dollars
for Value Received, and charge to the account of
To K. Spiers Proprietor.
London, Ont.

The Proprietor writes the draft and addresses it to K. Spiers, asking him to pay the amount specified; K. Spiers agrees to do so, by writing "accepted" and his name across the face of the draft. It is better also to write the date of acceptance and a place of payment, across the face of the draft.

25. Bills Receivable Account.

Make this account debtor for other persons' notes and acceptances received by our business, and creditor for other persons' notes and acceptances given by our business.

We receive them on account or for something we sell; and we give them back, when they are paid, or otherwise disposed of.

The first entry in this account is made on the debtor side, and the difference (if any) between the two sides must always be a debtor balance, and therefore an asset. This balance is the amount of other persons' notes and acceptances on hand.

EXERCISES ON BILLS RECEIVABLE ACCOUNT.

Exercise No. 9.

Journalize and post Bills Receivable Account, leaving room to continue with Ex. No. 10. What amount of other persons' notes was received? What amount was given back? What balance is still on hand? Is this balance an asset or a liability?

Stratford, November 1, 1907. Received K. Spiers' note, \$200.60.

- 6 Received S. Parks' note, \$300.
- 14. Gave back K. Spiers' note, \$200.60.
- 26. Received B. Clark's note, \$400.
- 30. Gave back S. Parks' note, \$300.

Exercise No. 10.

Journalize, post, balance and close Bills Receivable Account, making it a continuation of the account in Ex. No. 9. Close in the same manner as illustrated in Sec. 14 (b). What is the balance called?

Stratford, December 2, 1907. Received from N. Shore on account his note for \$250.50.

- 10. Sold K. Spiers on his acceptance, Mdse. \$275.
- 13. N. Shore paid his note of Dec. 2 in cash, \$250.50. (Gave it back to him.)
- 21. Sold S. Parks on his note, Mdse. \$150.
- 24. B. Clark paid his note of Nov. 26 in cash, \$400.
- 28. Received from D. Hart on account, his acceptance for \$100.
- 31. K. Spiers paid his acceptance of Dec. 10 in cash, \$275.

Exercise No. 11.

Write out the notes and acceptances on Jan. 4, 7 and 20. Journalize and post Bills Receivable Account, leaving room to continue with Ex. No. 12. Find the balance on hand.

St. Catharines, January 2, 1907. Received from the Proprietor as an investment, A. Dame's note \$200.75, and R. Smith's acceptance \$300.

4. Sold T. Marshall, Niagara Falls, on his note at 10 days, Mdse. \$230.25.
7. Received from B. White, Hamilton, on account, his acceptance at 30 days for \$160.
15. A. Dame paid his note due to-day, \$200.75. (Gave it back to him.)
17. Received cash for T. Marshall's note, \$230.75.
20. Sold C. Hurst, Toronto, on his acceptance at 60 days, Mdse. \$150.60.
31. R. Smith paid his note due to-day, \$300.

Exercise No. 12.

Write out the notes and acceptances on Feb. 1, 5, 18, 23. Journalize, post, balance and close Bills Receivable Account, making it a continuation of the account in Ex. No. 11. What is the balance called?

St. Catharines, February 1, 1907. Sold M. Roberts, Grimsby, on his note at 10 days, Mdse. \$130.56.

5. Received from G. Teagle, Dundas, in full of his account, his acceptance at 20 days for \$270.20.
9. B. White paid his acceptance of Jan. 7 in cash, \$160.
12. Sold T. Marshall on account, Mdse. \$200. (Why no entry for Bills Receivable?)
14. M. Roberts settled his note of Feb. 1 in cash, \$130.50.
18. D. Foster, Hamilton, settled his account with his acceptance at 10 days for \$90.
23. Sold R. Smith, Welland, on his note at 1 month, Mdse. \$70.50.
28. G. Teagle paid his note of Feb. 5 in cash, \$270.20.

27. Bills Payable.

The Proprietor's own notes and acceptances are called Bills Payable. They are signed by him as Proprietor, but are payable by the business; if, however, the business cannot pay them, the law compels him to pay them out of any private means he may have. The following is the Proprietor's note, in which the business promises to pay the amount specified.

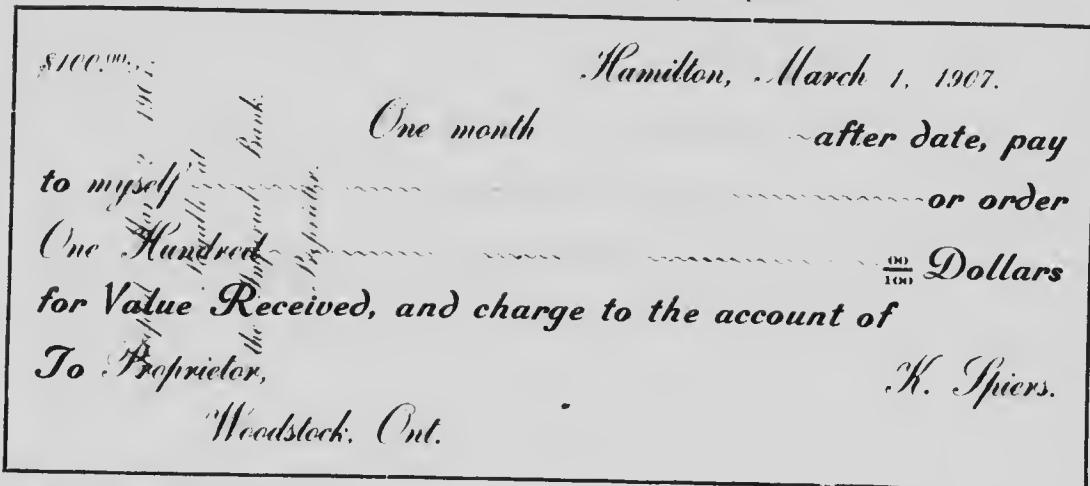

\$100.00.

Woodstock, March 1, 1907.

One month after date I promise to pay
to K. Spiers or order
at The Imperial Bank
One Hundred $\frac{00}{100}$ Dollars
for Value Received.
Proprietor.

The expression "to K. Spiers or order" has the same meaning as "to the order of K. Spiers," and either may be used. The word *order* requires K. Spiers to indorse the paper, that is, write his name across the back, when he receives payment.

Instead of giving the foregoing note, the Proprietor might have given the following acceptance, in which the business agrees to pay the amount asked for by K. Spiers.

28. Bills Payable Account.

Make this account debtor for all of our own notes and acceptances received (back) by our business, and creditor for all of our own notes and acceptances given by our business.

We give them on account or for something we buy; and we receive them back when they are paid or otherwise redeemed.

The first entry in this account is made on the creditor side, and the difference (if any) between the two sides must always be a creditor balance, and therefore a liability. This balance is the amount of our own notes and acceptances outstanding.

EXERCISES ON BILLS PAYABLE ACCOUNT.

Exercise No. 13.

Make a copy of the foregoing note and acceptance. Journalize and post Bills Payable Account, leaving room to continue with Ex. No. 14. What amount of our notes were given out (issued)? What amount was received back (redeemed)? What amount is still outstanding or unpaid? Is this balance an asset or a liability?

Woolstock, March 1, 1907. Gave our note for \$100 to K. Spiers, Hamilton, on account.

4. Gave our note for \$200 to J. Robb for Mdse.
8. Bought Mdse. \$150 and gave our note in payment.

28. Gave P. Spence on account my note at 1 month for \$30.
31. Settled my acceptance of May 18 in cash, \$120.50.

Exercise No. 16.

Journalize, post, balance and close Bills Payable Account, making it a continuation of the account in Ex. No. 15.

Montreal, June 1, 1907. Bought from P. Spence on my note at 10 days, Mdse. \$75.60.

6. Accepted R. Proctor's draft at 15 days for \$130.
14. Paid my note favor of P. Spence in cash, \$75.60.
17. Gave N. Prior on account my note at 30 days for \$65.
24. Paid my acceptance of June 6 in cash, \$130.
29. Bought from C. Rogers on my note at 10 days, Office Desk \$35.

Exercise No. 17.

Journalize and post Bills Receivable Account and Bills Payable Account. Leave the accounts unclosed, but find the balance from pin-head totals, and determine whether they are assets or liabilities. "His note" is a Bills Rec.; "my note" is a Bills Pay.

Brantford, July 2, 1907. Student invests N. Mott's note, \$30.

4. Sold D. Powell on his acceptance, Mdse. \$50.
8. Gave A. Martin on account my note, \$60.
11. Received from N. Mott on account his note, \$20.
15. Bought from A. Martin on my note, Mdse. \$100.
18. N. Mott paid his note of July 2 in cash, \$30.
20. Settled my note of July 8 in cash, \$60.
23. Sold D. Powell for cash, Mdse. \$200.
25. Received cash for N. Mott's note of July 11.
29. Accepted A. Martin's draft on account, \$300.
31. Paid my note of July 15 in cash.

LOSS AND GAIN ACCOUNTS.**30. Loss and Gain Accounts.**

This third class of accounts includes Merchandise, Expense, Real Estate, Interest, Discount, Commission, and any other account in connection with *things, uses or services*, which cost or produce value to our business. They are all Impersonal Accounts.

31. Journalizing—Rule III.

Make Loss and Gain Accounts debtor for costs, and creditor for proceeds.

32 (a). Merchandise Account.

Make this account debtor for the cost of goods, and creditor for the proceeds from goods. *Cost* includes purchases, goods returned by customers, freight paid on goods, &c.; *proceeds* includes sales, goods returned by us, etc.

EXERCISES ON MERCHANDISE ACCOUNT.**Exercise No. 18.**

Journalize, post and close Merchandise Account, leaving room to continue with Ex. No. 17.
Guelph, August 1, 1907. Bought Mdse. \$300.25.

5. Sold Mdse. \$200.50.
9. Bought from R. Graham, Mdse. \$400.
12. Sold to L. Parker, Mdse. \$100.
16. Sold to T. Sampson on account, Mdse. \$250.
19. Bought from D. Adams for cash, Mdse. \$100.
28. Sold to R. Henry for cash, Mdse. \$150.
31. Sold balance of Mdse. by auction for \$200.

Caution.—Although the later illustrations show only the Ledger, still the Student should faithfully journalize the account dealt with in each exercise, as illustrated in Sections 13 (b) and 20. You are learning to journalize and post each account by itself; soon you will be required to consider *all* the accounts in each transaction.

1. In all *loss and gain* accounts, either side may be the greater. If the debtor side be the greater then the result is a loss; if the creditor side be the greater, then the result is a gain.
 2. In the foregoing Merchandise Account, the result is a *gain*. The gain is placed on the smaller side—the debtor side, to balance the account; it is written in red ink to indicate that it is on its wrong side. Do not bring the “Gain” down below the ruling, as nothing but assets and liabilities are brought down.

Exercise No. 19.

Journalize, post and close Merchandise Account, making it a continuation of the account in Ex. No. 18.

Guelph, September 2, 1907. Bought from R. Graham on account, Mdse. \$320.

10. Sold L. Parker for cash, Mdse. \$60.25.
 16. Sold T. Sampson on his note at 10 days, Mdse. \$50.
 20. Bought from D. Adams on our acceptance at 30 days, Mdse. \$260.50.
 24. Sold R. Henry on account, Mdse. \$130.
 30. Sold Mdse. for cash (Petty Sales for the month), \$270.60.

Inventory taken Sept. 30.

Merchandise on hand, \$120.50

33 (a). Ledger for Merchandise Account.

Total proceeds.....	\$510.85
Inventory—goods on hand.....	120.50 add.
Total value, Cr	\$631.35
Total cost, Dr.....	580.50 subtract.
Gain.....	\$ 50.85

(b) Remarks.

1. The foregoing Merchandise Account shows August closed without an Inventory, and September closed with an Inventory.
2. The Inventory is placed on the creditor side to find the gain, but being a part of the cost, is on its wrong side and is written in red ink. The difference at this stage is the gain on Merchandise, and is placed on the smaller side to balance the account; and being on the wrong side (the loss side) it is written in red ink. The Inventory is brought down below the ruling on its right side (the debtor or cost side) in black ink, as a cost for the next month.
3. Instead of adding the Inventory to the proceeds, the same result would obtain if we should subtract it from the cost. It is more convenient in the Ledger to show it as an addition.

Exercise No. 20.

Journalize, post and close Merchandise Account. Is the difference between the sides a loss or a gain?

Montreal, October 1, 1907. Student invested Mdse. \$300.

2. Bought from R. Quail on account, Mdse. \$200.50.
5. Sold to F. Somers for cash, Mdse. \$100.
10. Sold to K. Spencer on account, Mdse. \$50.75.
14. Bought from E. Galley on my note at 30 days, Mdse. \$300.
16. Sold to M. Peters on his note at 15 days, Mdse. \$400.
23. Bought from E. Galley for cash, Mdse. \$250.
31. Sold to F. Somers on his acceptance at 10 days, Mdse. \$75.

Inventory taken Oct. 31.

Merchandise on hand \$450.

84. Expense Account.

Goods bought for the purpose of selling again are called "Merchandise." Goods or service for the use of our business are called "Expense."

Make Expense Account debtor for costs and creditor for proceeds.

EXERCISES ON EXPENSE ACCOUNT.**Exercise No. 21.**

Journalize, post and close Expense Account. What is the amount of loss?

Brandon, November 1, 1907. Bought a set of books for office, \$15.

5. Paid for painting store, \$15.
9. Bought fuel for store, \$10.

RATIONAL BOOKKEEPING.

- 12. Paid clerk's salary in cash, \$20.
- 18. Paid for repairs to store, \$25.
- 25. Paid gas bill in cash, \$8.
- 30. Bought stamps and stationery for cash, \$2.

Inventory taken Nov. 30.

Fuel on hand \$3.00.

Exercise No. 22.

Journalize and post all of the accounts. Write the Journal entry for each transaction as in Section 6. Close only Cash and Expense Accounts.

Vancouver, December 2, 1907. Student invested cash, \$100.

- 3. Bought office desk for cash, \$35.
- 6. Bought fuel for store from E. Rogers & Co. for cash, \$20.
- 9. Paid for cleaning store, cash \$2.
- 12. Paid S. Moore for repairing counters, cash \$10.
- 19. Bought wrapping paper for cash, \$12.
- 23. Sold office desk for cash, \$34.
- 30. Paid rent of store in cash, \$25.

35 (a). Rules for Journalizing.

- I. For Personal Asset and Liability Accounts.—Make a person debtor for what he receives on account, and creditor for what he gives on account.
- II. For Impersonal Asset and Liability Accounts.—Make these accounts debtor for what is received by the business, and creditor for what is given by the business.
- III. For Loss and Gain Accounts.—Make these accounts debtor for costs, and creditor for proceeds.

(b) Remarks.

1. Steps in making a Journal entry: (a) Determine which of the accounts, mentioned in the transaction, are concerned, and which are to be rejected; (b) Select first the debits and then the credits.
2. Make no entry for a Personal Account, even though the name be mentioned, unless the transaction be on account; but make an entry for Cash, Mdse., etc., when they are mentioned, whether the transaction be on account or not.
3. When opening the books at commencement the foregoing rules still apply: (a) Persons are debtor for what they owe, or *have* received on account; and they are creditor for what is owed them, or what they *have* given on account. (b) Cash, Bills Rec., etc., on hand or invested, are debtor, because they *have* been received; Bills Pay., etc., are creditor, because they *have* been given. (c) Mdse., etc., on hand or invested, are debtor, because they are a cost to the business.

In short, when opening the books, make the Assets debtor and the Proprietor creditor for the amount of his Assets, and make the Proprietor debtor for the amount of his

Liabilities and the Liabilities themselves creditor; or make the Assets debtor, the Liabilities creditor and the Proprietor creditor for the difference between his Assets and Liabilities. (See Section No. 59).

36. Business Papers—Receipts and Promissory Notes.

Various forms of receipts can be made from the example (a) following, by changing "on account" to "in full of account," "in full of all demands," etc. In the example (c) the expression "to the order of G. Grand" may also be written "to G. Grand or order" without change of meaning; the word "order" makes it necessary for G. Grand to indorse the paper (write his name across the back) before transferring, or parting with it in any way. In the example (d) if "bearer" be written instead of "order," then there is no need of indorsement.

(a) Receipt on Account.

\$50. ⁰⁰	Peterboro, January 15, 1907.
Received from T. Game	
Fifty	$\frac{00}{100}$ Dollars
on account.	G. Grand.

(b) Receipt for Rent.

\$30. ⁰⁰	Woodstock, February 1, 1907.
Received from L. Proctor	
Thirty	$\frac{00}{100}$ Dollars
for Rent of House No. 27 Princess St., for the month ending	
January 31, 1907.	
H. Pearson.	

Instead of a receipt on a separate piece of paper, as in the foregoing examples, a receipt may be written on a bill or invoice, as in Section 71, or on a check given in payment.

Business courtesy demands that the person receiving a payment should give a receipt for the same without being asked. Anyone making a payment of any kind should ask for a receipt, if the receiver neglect to offer one.

(c) Promissory Note.

\$100.⁰⁰

Peterboro, January 7, 1907.

Three days

after date, I promise to pay

to the order of G. Grand

One Hundred

⁰⁰₁₀₀ Dollars

for value received.

J. Dame.

In the printed form of a promissory note, the maker or any holder may cross out "bearer" and insert "order"; but only the maker may cross out "order" and insert "bearer," and he must place his initials near the change.

(d) Promissory Note with Place of Payment and Bearing Interest.

\$175.⁰⁰

Woodstock, February 11, 1907.

One month after date I promise to pay
 to J. Anderson or order
 at the Dominion Bank here
 One Hundred and Seventy five ⁰⁰₁₀₀ Dollars
 with interest at seven per cent. per annum
 for value received.

James Scott.

Exercise No. 23.

- (a) Journalize all the accounts, writing them as in Section 6; you need not do the posting.
- (b) Make out receipts for Jan. 15 and 16; and promissory notes for Jan. 7, 10, 11, 18, 23, 24 and 25.

Peterboro', January 2, 1907. G. Grand commences business, investing (giving on account) Cash \$2000; Mdse. \$1500; Store and Lot (Real Estate), \$1800.

25. Gave to P. Kerr on account, our note at 16 days, \$240.
26. S. Dame returned the money loaned him on the 12th inst.
28. Returned to P. Kerr the money borrowed on the 18th inst.
29. Paid cash for advertising, \$3.
30. Redeemed our note of the 23rd inst.
31. Paid Student his month's salary.

Exercise No. 24.

- (a) Journalize and post all the accounts.
- (b) Find the gain in Mdse. account and the loss in Expense account; enter the difference, which is the *net gain*, in the Proprietor's account, and balance it. What is this balance? (See Sec. 15.) Leave the other accounts unclosed.
- (c) Write out receipts for Feb. 20 and 28; and promissory notes for Feb. 5, 14, 20 and 26. Write each business paper when journalizing the transaction.

Montreal, February 1, 1907. G. Grand commences business, investing Cash \$1000, Mdse. \$500.

- He engages Student as bookkeeper at \$20 per month, and rents store No. 29 Notre Dame St., from F. Smith at \$25 per month.
2. Sold K. Morris on account, 250 bush. Wheat @ \$1.
 4. Sold K. Morris for cash, 200 bush. Oats @ 30c.
 5. Sold K. Morris on his note at 10 days, 4 tons Pressed Hay @ \$15.
 7. G. Grand withdrew from the business, cash \$20.
 9. Bought from K. Morris on account, Mdse. as per Invoice No. 1, \$180.
 12. Bought from K. Morris for cash, Mdse. as per Inv. 2, \$70.
 14. Bought from K. Morris, on our note at 10 days, Mdse. as per Inv. 3, \$40.
 18. K. Morris settled his note of the 5th inst. in cash.
 20. Received from K. Morris on account, his note at 2 months, \$50.
 23. G. Grand invests cash, \$100.
 25. Paid for stationery in cash, \$2.
 26. Borrowed from K. Morris on our note on demand, cash \$250.
 27. Settled our note of the 14th inst. in cash.
Paid Student his month's salary, \$20.
 28. Paid F. Smith for August rent in cash.
Sold the balance of Mdse. on hand for cash, \$500.

37. Two Kinds of Bookkeeping—Double Entry and Single Entry.

Double Entry Bookkeeping deals with all the accounts of a transaction—both Personal and Impersonal. Single Entry Bookkeeping deals with Personal accounts only.

In Double Entry, there is always one or more debits and also one or more credits in connection with each transaction; the debits are always equal in amount to the credits, and they are written together as one journal entry, so that a transaction is said to be entered *double*. In Single Entry, each journal entry concerns but a single account, and that a Personal account; if a transaction has two Personal accounts connected with it, then a separate entry is made in the journal for each, so that a transaction is said to be entered *single*.

In Double Entry, an entry is made in the Journal whether the transaction is on account or not. In Single Entry, an entry is made in the Journal, only when the transaction is on account or partly on account.

38. The Journal Day Book.

This book is a combination of the Journal and the Day Book or Blotter. The Journal portion arranges the debits and credits ready for posting, and the Day Book portion gives an explanation or history of the transaction.

Double entry bookkeeping is said to have originated with the Italians. Lucas di Vergo was the first, or among the first, to state the general principles. Since his time there have been many changes and much advancement in the application of these principles.

The old form of Day Book and Journal, as two separate books, has been superseded by the Journal Day Book, a combination of these two, generally now called simply the *Journal*. At first the student will post to the Ledger from the Journal Day Book only, but at a later stage he will use other Journals, such as the Sales Journal, Purchase Journal, Cash Journal, etc.

39. Set I.—Illustration Set—Double Entry—Dry Goods Business.

To the Student. Study the illustrations, and then work this set out for yourself. Write out the business papers mentioned in (c), either before commencing the set, or with each transaction as it is journalized. In the sets that follow, you will be keeping books or doing business in various towns and cities throughout the Dominion.

Special Features. This set is worked out to illustrate Journal Day Book entries, posting, trial balance, financial statements, and the closing of the Ledger.

Instructions :

- (a) Books to be used—Business Papers, Journal Day Book and Ledger.
- (b) Business Papers—Notes on Mar. 24 and 25.
- (c) Make out Business Papers and journalize; post to the Ledger; take a Trial Balance; take stock; make a Statement of Losses and Gains, a Summary of G. Grand's Acc and a Statement of Assets and Liabilities; and close the Ledger.

43. Index to Ledger - Illustration Set.

The Ledger Index enables the bookkeeper to turn readily to any account in the Ledger. Enter the account on the ledger page as shown in the following illustration, which is part of a simple form of Index. An account should be indexed before it is opened in the Ledger, so that it may not be opened twice, or that the indexing may not be forgotten and the account temporarily lost sight of. When forwarding an account to a new page in the Ledger, enter the *new* page after the *old* page in the Index.

45. Balanced Accounts.

Whenever an account is settled or balances, particularly a personal account, it should be ruled and footed on that date. If there be but one item on each side, it should be ruled only, as in F. Hunter's account. Any subsequent entries for the closed account should be placed directly under the ruling.

46 (a). Trial Balances.

In Double Entry Bookkeeping, the Journal shows as much in the *debtor* column as in the *creditor* column. There is, therefore, as much posted to the *debtor* side of the Ledger as to the *creditor* side, so that the total of the *debtor* side must be equal to the total of the *creditor* side. If we wish to test the accuracy of the posting, we make a trial to see if the Ledger is in balance, called "taking a Trial Balance."

There are two methods of taking a Trial Balance.

I. *By Totals.* Total the Ledger accounts in pin-head figures with a hard lead pencil, make a list of these accounts with their respective *debtor* and *creditor* totals, then find the two grand totals, which must be equal in amount. See the pin-head totals in the Illustration Ledger.

II. *By Totals and Balances.* Write the totals of the loss and gain accounts, and the balances only of the asset and liability accounts. The two grand totals must be equal.

The second method is preferable, since financial statements are made from the Trial Balance and Inventories. The balances of asset and liability accounts are more convenient than the totals; but in loss and gain accounts, the totals are necessary to obtain the percentages of loss or gain in the respective accounts.

(b) Trial Balance by Totals—Illustration Set.

(d) Trial Balance Out of Balance—Finding Errors.

1. Test the addition of the Trial Balance by adding it both upward and downward.
2. Next take the difference between the Dr. and Cr. columns of the Trial Balance, and look in the Journal for this amount unposted. Then divide the difference by 2 and look for this amount posted to the wrong side.
3. Add the Ledger accounts again. Then see if the footings have been correctly transferred.
4. See if previous Ledger balances have been brought down correctly.
5. Go over the posting again, placing a lead pencil dot (.) or check mark (x), in both Journal and Ledger, opposite the verified items. Then look for the unchecked items in the Ledger.

47. Closing the Books.

This includes (1) taking a trial balance; (2) stock-taking; (3) making financial statements; and (4) closing the ledger. The books are closed annually or semiannually for the purpose of determining the net gain or the net loss, the net capital, the percentage of gain, etc.

48. Stock-taking.

This consists in making inventories or lists at the time of closing the books: (1) Of Merchandise, Real Estate, Office Furniture, etc., on hand, of Rent and Salaries prepaid by us, of Interest Receivable accrued, etc.; and (2) of Rent and Salaries due by us, of Interest Payable accrued, etc.

In the first class, the inventories are in our favor and are called *Asset Inventories*; in the second class, the inventories are debts against us and are called *Liability Inventories*. Any loss and gain account may, or may not, have an inventory; asset and liability accounts do not have inventories. These lists are made on separate sheets called stock-sheets, or in a regular Inventory Book.

49. Inventory—Illustration Set.

Copy the following into your Inventory Book, or on some special pages of your Journal Day Book reserved for Inventories.

50. Financial Statements.

There are three general kinds of Financial Statements, namely, Statement of Losses and Gains, Statement of Assets and Liabilities, and Statement of Receipts and Disbursements. The last one is generally used only by non-trading corporations, such as towns, cities, churches, hospitals, etc., which do not exist for the purpose of making profits. So that the term *Financial Statements* will, throughout this book mean, Statement of Losses and Gains and Statement of Assets and Liabilities, together with a Summary of the Proprietor's Account.

After taking a trial balance and stock-taking, and before closing the ledger, make Financial Statements from the trial balance and inventories. The following three forms are the statements in general use; they differ only in arrangement. The first and second forms are generally used by corporations and companies in their annual statements, because they are easily understood; they may be seen frequently in the newspapers. The third form is sometimes called the *bookkeeper's statement*, from which he afterwards prepares the simpler forms for the proprietor or for the shareholders.

51. First Form of Financial Statements—Illustration Set.

(a) STATEMENT OF LOSSES AND GAINS, March 30, 1907.

<i>Losses</i>			<i>Gains</i>		
<i>Expense</i>					
* <i>G. Grand's Net Gain</i>			65		
			* 20		
				85	
					85

The Merchandise gain and the Expense losses are found from the loss and gain accounts, marked thus (\checkmark), in the Trial Balance in Section 46 (e), and the Inventory in Section 49. Add the Mdse. Inventory to the Cr. side of Mdse. account, and then take the difference: $(\$305 + \$2180) - \$2400 = \85 . There is no Expense Inventory, so that the loss is \$65. The difference between the gain and the loss is G. Grand's Net Gain: $\$85 - \$65 = \$20$.

(b) SUMMARY OF G. GRAND'S ACCOUNT.

* <i>G. Grand's Net Capital</i>		* 3520		<i>G. Grand's Net Credit</i>		3500
				" " Gain		20
						3520

This Summary is made from G. Grand's account in the Trial Balance, and the Statement of Losses and Gains.

(c) STATEMENT OF ASSETS AND LIABILITIES.

<i>Assets</i>			<i>Liabilities</i>		
<i>Merchandise</i>				<i>Bills Payable</i>	
<i>Cash</i>		2180		<i>G. Grand's Net Capital</i>	
<i>J. Speller</i>		1420			200
<i>Bills Receivable</i>		80			3520
		50			
		3720			3720

The Statement of Assets and Liabilities is made from the Asset and Liability Accounts, marked thus (\times), in the Trial Balance in Section 46 (e), the Inventory in Section 49, and the "Summary of G. Grand's Account." Debit balances from the Trial Balance are assets, and credit balances are liabilities. The Merchandise Inventory is an asset. The Net Capital from the Summary is a deferred liability; the business owes this amount to the proprietor, but in case of closing up the business, it is paid last of the liabilities.

The Summary may be combined with the Statement of Assets and Liabilities and written as a part of it. The difference between the ordinary assets and liabilities is always equal to the Proprietor's Net Capital, or Net Insolvency in the event of bankruptcy.

This third form is sometimes called a *Balance Sheet*, but since this term is used by many, as a name for the Statement of Assets and Liabilities alone, we have avoided its use altogether, using instead the term *Financial Statement*.

In all three forms of the Financial Statement, the Loss and Gain Statement and the Asset and Liability Statement are each made from the Trial Balance and Inventories, both of which are shown in the third form only. The loss and gain accounts are marked thus (/), and the asset and liability accounts thus (x). In loss and gain accounts, debtor balances are losses and

creditor balances are gains ; in asset and liability accounts, debtor balances are assets and creditor balances are liabilities. All loss and gain accounts may or may not have inventories, but asset and liability accounts never have inventories.

Loss and Gain Statement.—Since we are making a statement for G. Grand, we shall not use his account until we come to the Summary.

1. Merchandise Account : add the asset inventory, \$2180, to the creditor side and then take the difference, which is a gain, \$85.
2. Expense Account : There is no inventory, and the difference is a loss, \$65.
3. The difference between the two columns is the net gain, \$20.

Asset and Liability Statement.—For this statement, besides dealing with the asset and liability accounts, we must look to the inventories from the loss and gain accounts, which inventories are either assets or liabilities.

1. Merchandise Account : the Inventory, \$2180, is an asset.
2. Cash Account : the balance is an asset, \$1420.
3. J. Speller's Account : the balance is an asset, \$80.
4. Expense Account : there is no Inventory.
5. Bills Receivable Account : the balance is an asset, \$40.
6. Bills Payable Account : the balance is a liability, \$200.
7. The difference between the assets and the liability is the net capital, \$3520, which agrees with the net capital found in the Summary. The business owes this amount to the Proprietor as a deferred liability.

54. Purpose of Closing the Ledger.

Since the Loss and Gain Statement shows the details of losses and gains, and the net gain or the net loss for the year, there would seem to be no need of closing the Ledger. It is necessary, however, to close the Ledger : (1) to have a permanent record of the gains, the losses, the net gain or the net loss, and the net capital for the year or the period under consideration ; and (2) to make a separation, in the loss and gain accounts, between the entries of successive years, so that the facts mentioned above may be determined for each year. It is quite evident that there is no need of closing asset and liability accounts for this purpose ; they are closed only when they balance, or are settled, or transferred to a new page.

55. Steps to Close a Double Entry Ledger.

After stock-taking, taking a trial balance, and making financial statements, proceed to close the Ledger as follows :

1. Open Loss and Gain Account.
2. Close the loss and gain accounts, such as Mdse. and Expense, transfer the gains and losses to the Loss and Gain Account and bring down the Inventories.
3. Close Loss and Gain Account and transfer the net gain or the net loss to the Proprietor's Account.
4. Close the Proprietor's Account, and bring down the Net Capital.
5. Do not close any asset and liability accounts except Cash Account and Bank Account. These two accounts are not usually kept in the Ledger, but when they are, they should be closed and the balances brought down, so as to tally with the balances of the Cash Book and the Bank Pass Book respectively.

1. In all red ink entries, enter the page *to* which transferred; and in the corresponding black ink entries, enter the page *from* which transferred. In the case of an inventory or balance brought down on the same page, the paging may be omitted.
2. Make the pin-head figures neatly with a hard lead pencil and leave them for future reference.

57 (a) Closing the Ledger—Illustration Set.

- I. *Open Loss and Gain Account.*
- II. *Close the loss and gain accounts.*

Merchandise Account:

- (a) Enter the Inventory (an Asset Inventory¹) on the Cr. side in red ink², thus, "Mar. 30, Inventory, \$2180."
- (b) Find the difference between the sides, which is a gain, and enter it on the smaller (Dr.) side in red ink, thus, "Mar. 30, Gain, \$85," to balance the account.
- (c) Rule and foot the account.
- (d) Transfer the gain to the opposite (Cr.) side of the Loss and Gain Account in black ink, thus, "Mar. 30, Mdse., (page of Mdse. Acct.), \$85."

RATIONAL BOOKKEEPING.

(e) Turn back to Mdse. Acct.; see if you transferred the right amount, called *checking back*; and then enter the page of Loss and Gain Account, called *check off*.

(f) Bring down the Inventory on the opposite (Dr.) side, below the ruling, thus, "April 1, Inventory, (page from which taken), \$2180," for next month. *Check back and check off.*
Expense Account:

(a) There is no Inventory.

(b) Enter the difference, which is a loss, on the smaller (Cr.) side in red ink, thus, "Mar. 30, Loss, \$65," to balance the account.

(c) Rule the account; it needs no footing this time.

(d) Transfer the loss to the opposite (Dr.) side of Loss and Gain Account in black ink, thus, "Mar. 30, Expense, (page of Expense Acct.), \$65."

(e) Turn back to Expense Account and *check back and check off*.

III. Close Loss and Gain Account.

(a) Enter the difference which is the Net Gain on the smaller (Dr.) side in red ink, thus, "Mar. 30, G. Grand, \$20," to balance the account.

(b) Rule and foot the account.

(c) Transfer the Net Gain to the opposite (Cr.) side of G. Grand's Account, in black ink, thus, "Mar. 30, Net Gain, (page of Loss and Gain Account), \$20."

(d) Turn back to the Loss and Gain Account, and *check back and check off*.

IV. Close G. Grand's Account.

(a) Enter the difference, which is his Net Capital, on the smaller (Dr.) side in red ink, thus, "Mar. 30, Net Capital, \$3520," to balance the account.

(b) Rule and foot the account.

(c) Bring down the balance on the opposite (Cr.) side, in black ink, thus, "April 1, Net Capital, (page from which taken), \$3520," for next month. *Check back and check off.*

V. Close Cash Account.

Balance it, rule and foot it, and bring the balance down. Do not close any other Asset and Liability Accounts. (See Section 54.)

(b) Remarks:

1. Asset Inventories are placed on the Cr. side, and Liability Inventories on the Dr. side, in red ink. They are afterward brought down in black ink, on the opposite side to the red ink entry.
2. Red ink may be said to indicate that the entry is on its wrong side, and black ink that the entry is on its right side. Inventories are placed on their wrong sides in red ink, that the true gain or loss may be found; all other red ink entries are so placed, simply to balance the accounts. In each case, the entry is afterwards transferred to its right side, in black ink.

58. Real Estate.

This term includes land and anything attached to the land by nature or by man, such as houses, wells, mines, etc. This account is treated in the same way as any other loss and gain account, being made Dr. for costs and Cr. for proceeds.

59. Opening Entry and the Proprietor's Account.

The opening entry is a transaction between the proprietor and his business. He invests (gives) his assets for which he is made Cr.; the assets are made Dr. He withdraws (receives back) part of his investment, when the business assumes any liabilities he may have, and for this he is made Dr.; the liabilities are made Cr. Suppose D. Scott's Assets at commencement to be \$3000, and his Liabilities \$200; either of the following opening entries may be employed:

Principal books are those from which posting is done, together with the Ledger; auxiliary books are those which are used as memorandum books, and not as posting mediums. In Set III, we shall continue the Journal as the only posting medium, and introduce the Cash Book as an auxiliary book, and at a later stage as a principal book.

61. Books of Original Entry.

These are books of account in which transactions are first recorded, and are the only ones admitted as proof of an account in courts of law. They may be either principal or auxiliary books, since a principal book, say the journal, may have its origin in an auxiliary book, say a Blotter or Counter Check Book.

62. Cash Book.

The Dr. side of the Cash Book shows the receipts, and the Cr. side shows the payments; the difference between the two sides shows the balance of cash on hand.

There are four parts to an entry in the Cash Book (1) the date, (2) the name of the account opposed to cash, (3) the explanation, and (4) the amount. The account opposed to cash, on the Dr. side, shows from whom the cash was received, if on account, or for what received, if not on account; on the Cr. side, it shows to whom the cash was paid, if on account, or for what it was paid, if not on account.

64. The Cash Book a Cash Journal.

Notice that when Cash is Dr. for a certain amount (say \$61 on Feb. 1), the opposing account (Mdse.) is Cr. for the same amount; and when Cash is Cr. for a certain amount (say \$300 on Feb. 2), the opposing account (Mdse.) is Dr. for the same amount. So that we might omit the cash transactions from the Journal and enter them only in the Cash Book, as together form a balance.

In Sets III. to VII. the student will use the Cash Book as an auxiliary book, and by making the comparisons suggested he will thoroughly appreciate dropping the cash transactions from the Journal Day Book when he comes to use the Cash Book as a principal book in Set VIII.

There are other "short cuts" in connection with the Cash Book which will be taken up as the student advances, from which he will learn to look upon this book as one of great importance in shortening the work of bookkeeping.

65. The Cash Book a Ledger Account.

Compare the sides of the following Cash Account (See, 66), from the Ledger of Set III, with the corresponding sides of the Cash Book (See, 63) of the same set. You will find the amounts the same item for item, so that we might dispense with the Cash Account in the ledger, and let the Cash Book take its place. Remember this fact while working Sets III to VII, and when you come to Set VIII, you will be asked, not only to post from the Cash Book, but to have your Cash Account in the Ledger show only the Dr. and Cr. Cash Book totals; and later you will be asked to omit the Cash Account altogether.

67. Purposes of the Cash Book.

(1) As an auxiliary book, besides being a record of receipts and payments, it serves as a check on the cash drawer; the balances of the Cash Book and the cash drawer should always agree; and if they do not, a mistake has been made or the drawer has been tampered with. In actual business, this comparison of balances is made daily or weekly, and the Cash Book footed and ruled at the same time or at longer intervals.

(2) As a principal book, it serves as a posting medium, thus lessening the work of the Journal Day Book. It may also serve as a ledger account.

Set III.—D. E.—Grocery Business.

69. Bank Pass Book.

Student, as A. Weir's bookkeeper, hands the cash to be deposited and the deposit slip to the Receiving Teller, who counts the cash, initials the deposit slip and hands the slip to the Ledger Keeper. Student then presents the pass book to the Ledger Keeper, who first enters the amount in the bank ledger and then in A. Weir's pass book; he at the same time enters any of A. Weir's checks that have been paid by the bank. At the end of the month student is required to leave the pass book to be balanced; when given back to him he also receives A. Weir's checks that have been paid by the bank, and is asked to sign a book acknowledging the correctness of the balance and the receipt of the paid checks.

72. Business Papers—Orders.

An Order is a written request drawn by one party, called the drawer, on a second party, called the drawee (the payer or giver), in favor of a third party, called the payee (the receiver).

Kinds of Orders: (1) Orders requesting the payment of money or the giving of goods, commonly called *orders*; (2) bank checks; (3) inland or domestic bills of exchange, commonly called *drafts*; (4) foreign bills of exchange, commonly called *bills of exchange*; (5) bank drafts; (6) post office orders; (7) postal notes; (8) express money orders. (See Sections 103 and 104.)

The last set exemplified bank checks. In this set we shall take up orders for money or goods; this class of order is seldom used, but the student in bookkeeping should know how to deal with them. A farm laborer or other employee buy goods and give an order on his employer, because his employer has not the ready money in his wages; the merchant receives the order and charges the goods to the employer; or the employer may himself give the order, asking the merchant to let his employee have goods on his account, and in this case also the merchant will charge the goods to the employer. Orders may, however, be used between business men themselves.

A promissory note is a promise to pay; a draft is a request to pay.

The parties to a promissory note are: (1) the *maker*, who signs the note and promises to pay it, (2) the *payee*, who is to receive the payment; when the payee writes his name across the back of the note he becomes the *first indorser*. In the following note, S. Cleaver is the maker, B. Pearson is the payee and first indorser.

The parties to a draft are: (1) the *drawer*, who makes the request and signs the draft, (2) the *drawee*, who is requested to pay, and afterward becomes the *acceptor*, (3) the *payee*, who is to receive the payment; when the payee writes his name across the back he becomes the *first indorser*. In the following draft, Student is the drawer, M. Sinclair is the drawee (and afterward the acceptor), and R. Bruce is the payee and first indorser.

(a) PROMISSORY NOTE

\$125.⁵⁰

Bruden, April 1, 1907.

Three months after date I promise to pay
to the order of R. Pearson
at the Dominion Bank here
One Hundred and Twenty-five $\frac{50}{100}$ Dollars
with interest at seven per cent. per annum
for value received.

I. Cleaver.

(b) DRAFT "AFTER DATE"

\$275.⁰⁰

Halifax, April 1, 1907.

Thirty days after date pay to
the order of R. Bruce
Two Hundred and Seventy Five $\frac{00}{100}$ Dollars
for value received, and charge to account of
J. H. Sinclair.

Montreal, Que.

Student.

(c) DRAFT "AFTER SIGHT"

\$275. ⁰⁰	Halifax, April 1, 1907
<i>Thirty days after sight, pay to the order of the Dominion Bank Two Hundred and Seventy-Five ⁰⁰ for value received, and charge to account of J. H. Sinclair.</i>	
Montreal, Que.	Student.

Business men generally draw the drafts on their customers in favor of themselves, thus, "pay to *ourselves or order*," or in favor of their bank as in the foregoing example (c). When the draft is to be placed with the bank for collection or discount, the second method is preferable.

75. Acceptance of Drafts.

In the foregoing draft, M. Sinclair is not liable for the amount until he accepts it, that is, writes his name, with or without the word *accepted*, across the face of the draft, preferably in red ink; see the example in Section 27. By this act he *accepts* the terms of the draft—he agrees to pay the amount. The draft now becomes an *accepted draft* or *acceptance*; the term *acceptance* may mean either the writing across the face of the draft, or the whole draft after it is accepted. In the examples given, it is Student's *draft*, but it is M. Sinclair's *acceptance*.

76. Examples of Acceptance.

Form I. is sufficient to make M. Sinclair liable, but Form II. is the one recommended by accountants. "Thirty days *after sight*" means "thirty days *after acceptance*," so that the date must be added to the acceptance in this case, to fix the due date; "thirty days *after date*" means thirty days after the date of the draft at the top, and therefore the date of acceptance is not necessary to fix the due date. It is considered better, however, to add both date and place of payment to all acceptances. Form III. changes the amount, and Form IV. changes the time.

I. Accepted,
M. Sinclair.

III. Accepted, April 3, 1907,
For Two Hundred Dollars,
M. Sinclair.

II. Accepted, April 3, 1907,
Payable at the Dominion Bank,
M. Sinclair.

IV. Accepted, April 3, 1907,
Payable sixty days *after date*,
M. Sinclair.

77 (a). Kinds of Promissory Notes.

- (1). *Individual Note*.—One signed by a single person. See example in Sec. 74.
- (2). *Joint Note*.—One signed by two or more persons, each of whom promises to pay an equal share. In the *individual note*, change "I" to "we jointly," and add one or more signatures, and it becomes a *joint note*.
- (3). *Joint and Several Note*.—One signed by two or more parties, each of whom promises to pay an equal share, or the whole amount if the others fail to pay. In the *individual note*, change "I" to "we jointly and severally" and add one or more signatures; or leave the "I" and simply add more signatures, and it becomes a *joint and several note*.
- (4). *Marksmen's Note*.—One signed with a mark by a person who cannot write. There should be a witness to the signature, and the note should be read and explained in the presence of the witness.

Witness: R. Saunders.

his
P. X. Spencer,
mark

- (5). *Lien Note*.—One, which besides promising to pay, contains a clause giving the payee a lien or claim on the article for which the note was given. In case of failure to pay at maturity, the seller may regain possession of the goods, and the buyer loses what he has paid thereon. The buyer may not sell the article until the note is fully paid; the note is negotiable. (See Section 79 on negotiability.)

(b) Kinds of Drafts.

A draft commencing "Thirty days after date" or "Thirty days after sight" is called a *time draft*; one commencing "At sight" is called a *sight draft*; one commencing "On demand" is called a *demand draft*. We may also speak of time notes and demand notes.

78 (a). Days of Grace and Due Date.

The law allows three days, called *days of grace*, over and above the time specified, in all notes and drafts, excepting those on demand and those containing such words as *without grace*.

A note or accepted draft is legally due on the last day of grace, unless that day should be a legal holiday or non-judicial day, in which case it falls due on the next business day thereafter.

(b) Finding the Due Date.

- (1). *Time to Run in Days*.—Reckon the number of days to run, together with the three days of grace, forward from the date of the note, or from the date of the draft drawn so many days "after date"; but in the case of drafts drawn "at sight" or so many days "after sight," reckon forward from the date of acceptance. Drafts drawn "at sight" may be accepted, which allows the acceptor three days in which to provide the money; they are usually, however, paid on presentation.

- (2). *Time to Run in Months*.—Reckon as in the following examples: a note, dated Jan. 3 at 3 months, is nominally due on April 3, and legally due and payable on April 6; a note, dated Jan. 31 at 1 month, would be nominally due on Feb. 31, but as there are only twenty-eight days in February, it is nominally due on Feb. 28, and legally due and payable on March 3; a note, dated Jan. 31 at 3 months, is nominally due on April 30, and legally due and payable on May 3.

79. Negotiable, Non-negotiable and Assignable.

A business paper is negotiable when it can be transferred by the payee with full title. Promissory notes, drafts, checks, etc., having "or bearer" or "or order" after the payee's name are said to be negotiable; those having "or bearer" may be transferred by the payee without indorsement; those having "or order" must be indorsed by the payee before he can transfer them. The expressions "to James Hill" and "to the order of James Hill" are held in law to mean the same as the expression "to James Hill or order."

A business paper is non-negotiable when it cannot be transferred with full title. It is then said to be assignable; the payee can give only as good a title as he himself has; the paper is subject to any counter-claim which the payer may have against the original payee. A paper is non-negotiable or assignable when the word "only" or some such limiting term follows the payee's name.

If the word "bearer" be crossed out in, say, a bank check, the word "order" is understood and need not be written above. It is not allowable for anyone to cross out the words "order" or "only" and to substitute "bearer," excepting the payer, and he should initial the change.

80. Indorsement.

When indorsing paper, it should be turned over, with the left-hand end up, and the name written on the back, well above the middle. The purpose of the indorsement is twofold: (1) that the payee may be able to transfer the paper, and (2) that the payee may be held liable in case the maker or acceptor should fail to pay.

81. Collection and Discount.

Business men generally arrange with the bank to collect their customers' notes and acceptances. The bank charges a small fee of $\frac{1}{2}\%$, more or less according to circumstances.

If, however, business men need ready money they discount the drafts drawn on their customers or the notes given by their customers. The bank places the proceeds to their credit at once, and they may then draw checks on the amount. Discounting is more expensive than collection by the bank; but when placed for collection, the money is available only when the paper is due and paid. Drafts are usually discounted before they are accepted by the drawee; the bank obtains the acceptance afterward; if dishonored the bank charges them back to the drawer.

82. Dishonor, Protest and Discharge.

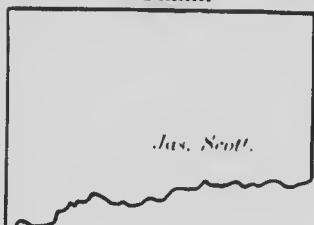

A note is said to be dishonored by non-payment, and a draft by non-acceptance or non-payment.

When a note or draft is dishonored, it is necessary for the holder to notify the indorsers of the note, or the indorsers and drawer of the draft, of the dishonor, if he wishes to hold them liable for the amount. He may do this verbally, by letter or by protesting; protesting is the notice given by a notary public. This notice must be given or mailed not later than the next business day after dishonor.

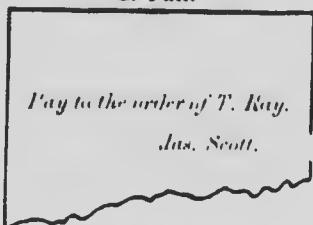

A note or draft is said to be discharged, when paid by or in behalf of the maker or acceptor.

83. Examples of Indorsement.

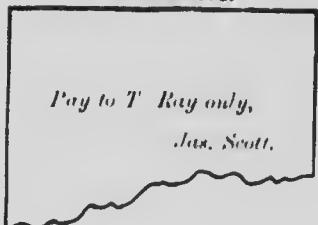

1. Blank.

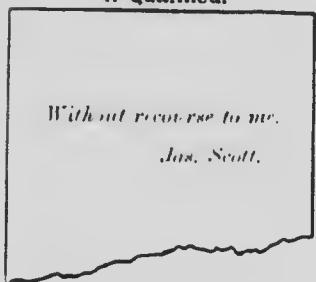

2. Full.

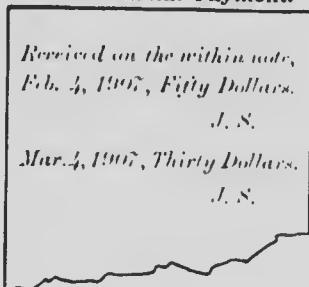

3. Restrictive.

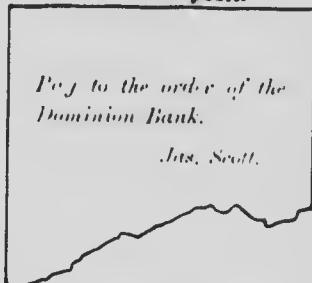

4. Qualified.

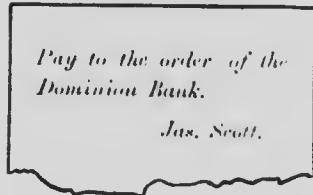

5. For Partial Payment.

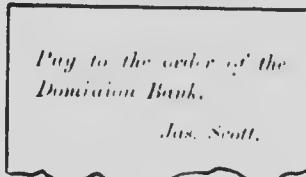

6. For Deposit.

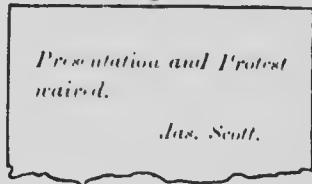

7. For Collection.

8. For Discount.

9. Waiving of Protest.

EFFECTS.

- Makes it payable to bearer and holds Jas. Scott liable in case the maker fails to pay.

Requires T. Ray to indorse before he can transfer, and holds Jas. Scott liable.

Prevents T. Ray from transferring it with full title; he may assign it only Jas. Scott is liable.

Makes it payable to bearer, and (Jas. Scott from liability.

Acts as a receipt for payment thereon. The initials should be signed; if the name were signed in full, it would be payable to bearer.

Prevents fraudulent cashing. It must be deposited. Banks object to the form "For deposit only."

Used when notes or drafts are placed with the bank for collection.

Used when notes or drafts are discounted and the proceeds deposited.

Holds Jas. Scott liable without protest or notice, in case the maker fails to pay.

JOURNAL OF

84. Bill Book.

The Bills Receivable Book is a detailed record of other persons' notes and acceptances received and afterward disposed of by our business.

The Bills Payable Book is a detailed record of our own notes and acceptances issued and afterward redeemed by our business.

These records should be made from the notes and drafts themselves as they lie before us, from bills receivable when received, and from bills payable when issued; the last column is filled in at the time of payment. Bill Books differ very much in form in the various offices, but the following general form is most suitable for the learner, as it will not only teach him the parties to a note or draft, but will enable him to understand any form of Bill Book; this form is used as an auxiliary book, that is, as a book of record from which no posting is done; through it the bookkeeper keeps track of the due dates, so that he may present the bills receivable for payment at the proper time, or have the necessary funds ready to meet the bills payable. In the form in Section 123, it is used as a principal book, and is really a Bill Journal from which posting is done.

85. Form of Bill Book—Used as an Auxiliary Book.

The Bills Receivable, recorded below, are from Examples 2 and 3 in Sec. 86, and April 2 in Set VI. The Bills Payable are from Examples 5 and 6 in Sec. 86, and April 8 in Set VI. In the "Begins to Run" column is placed the date from which the *Time to run* is reckoned; for drafts drawn payable "after date," enter the date of the draft as in Bills Rec. 1, and Bills Pay. 2; for drafts drawn payable "after sight," enter the date of acceptance, as in Bills Rec. 2 and Bills Pay. 1. An entry is made for "Indorser (note)," only when some outside party indorses as extra security; he is liable in case the maker fails to pay, just as the drawer of a draft is liable if the drawee fails to pay.

For the present, the student may omit from his Bill Book the heading "Indorser (note)," leaving the single heading "Drawer (draft)."

87. Interest and Discount.

These are loss and gain accounts. For a full discussion of these accounts see the introductory chapter. Interest is the price of the use of money; the Dr. side of Interest Account shows *costs* and the Cr. side shows *proceeds*. Discount is an allowance off a bill or an account for prepayment or for other reasons; the Dr. side of Discount Account shows the cost of these allowances and the Cr. side shows the proceeds:

Rule.—Make Interest Account debtor, when interest is a cost, and creditor when it is a proceeds. Make Discount Account debtor, when discount is a cost and creditor when it is a proceeds. These two accounts may be kept separately, or as one account—Interest and Discount.

91. Inventories.

All loss and gain accounts may or may not have inventories, of which there are two kinds—**Asset Inventories** and **Liability Inventories**. An Asset Inventory is a value belonging to the business, not shown in the Trial Balance, such as, Mdse. on hand, Real Estate on hand, Rent or Salaries prepaid, Interest Receivable accrued (on Bills Receivable, etc., bearing interest), Discount Receivable (on Bills Payable, etc., not yet due). A Liability Inventory is a debt owing by the business, not shown in the Trial Balance, such as, Rent or Salaries due by the business, Interest Payable accrued (on Bills Payable, etc., bearing interest), Discount Payable (on Bills Receivable, etc., not yet due).

Asset Inventories are placed on the Cr. side in red ink ; and after closing, are brought down in black ink on the Dr. side for the next month. Liability Inventories are placed on the Dr. side in red ink ; and after closing, are brought down in black ink on the Cr. side for the next month.

These Inventories are placed on their *wrong* sides in red ink, to find the gain or the loss ; they are afterward brought down on their right sides in black ink, as assets or liabilities.

92. Financial Statements—Treatment of Inventories.

The Statements in Sections 93, 94 and 95 show how to treat the two kinds of Inventories. They are made from two sources—the following Trial Balance and Inventories, which have no connection with any of the given sets. The student may select any one of the three forms, but should understand all : the columnar statement—Form 3, is not much used in actual business.

(b) SUMMARY OF STUDENT'S ACCOUNT.

<i>*Net Capital</i>	5388	65	<i>Net Credit</i>	4400	65
	"	<i>Gain</i>		988	
	5388	65		5388	65

(c) STATEMENT OF ASSETS AND LIABILITIES.

Remarks.

1. The Loss and Gain Statement is made from the loss and gain accounts marked thus (\times) in the Trial Balance; add the Inventories to the proper sides (see Sec. 91), and then take the difference; a Dr. difference is a loss and a Cr. difference is a gain. The Asset and Liability statement is made from the asset and liability accounts in the Trial Balance; a Dr. difference is an asset and a Cr. difference is a liability; an Asset Inventory is also an asset, and a Liability Inventory is also a liability; Student's Net Capital, from the "Summary," is a liability of the business, and when placed on the liability side of the statement, will balance it.
 2. Notice that the Loss and Gain Statement is the same as the Loss and Gain Account in the Ledger. The bookkeeper gives this statement to the proprietor, and then closes the loss and gain accounts and the proprietor's account in the Ledger so as to separate the gains and losses of one year from the succeeding one.
 3. Since the purpose of *closing the books* is to determine the Net Gain or the Net Loss, and the Net Worth or the Net Insolvency, there is no necessity for closing any of the asset and liability accounts in the Ledger, unless it be Cash and Bank Accounts. Cash Account is closed because the Cash Book is closed periodically, as a check on the cash drawer; Bank Account is closed as a check on the Bank Pass Book, which is balanced monthly. These accounts are not usually entered in the Ledger; the Cash Book is made to answer for the Cash Account, and Bank Account may be kept as indicated in Sections 111 and 112.

In the example in Section 97, which is the Cash Book for Set VIII., the Cash Book is used as a posting medium; previous to this it has been used as an auxiliary book (see Sec. 60.) Notice on the Dr. side, that *Cash* is Dr. (debtor) for \$4944.60, and that *Student, F. Simpson, Dry Goods, etc.*, are Cr. (creditor) for the amounts opposite to them respectively; notice on the Cr. side, that *Cash* is Cr. for \$4877.35, and that *Scholastic Bank, E. Denton & Co., Dry Goods, etc.*, are Dr. for the

RATIONAL BOOKKEEPING.

amounts opposite to them respectively. Cash is posted in two totals, and the amounts for the other accounts separately. Or the Cash Book may be considered as the Cash Account for the Ledger, in which case the cash totals need not be posted; the cash totals or the cash balance, would then be entered in the trial balance directly from the Cash Book. It will be well now to call the Cash Book by the name *Cash Journal*.

All purely cash transactions are to be entered in the Cash Journal only; for example, the entries on the Dr. side for June 7, 15, etc., will not be found in the Journal.

Transactions in which Cash and other accounts are jointly concerned are to be entered both in the Cash Journal and the Journal. The following, which are not purely cash transactions, are the journal entries for June 1, 6, 8, 18, 21 and 29; it will be seen that the *Cash* in the Journal is marked "C" in the folio column, and is not to be posted, since it will be posted from the Cash Journal; and also that *Student, J. Munro, S. Marks, etc.*, in the Cash Journal, are marked "J" in the folio column, and are not to be posted, since they will be posted from the Journal. Another method of dealing with these transactions would be to separate them each into two parts, one for the Cash Journal, and the other for the Journal; this method will be exemplified at a later stage.

(b) Exercise on the Cash Journal.

Make Cash Journal entries for the following, balance, foot, rule and bring the balance down.
Stratford, July 2, 1907. Student invested \$1,200.

3. Deposited in the Scholastic Bank, cash \$2700.
 4. Bought from D. Sparrow for cash, Mdse. \$250, as per Inv. dated June 29.
 5. Sold M. Dinnick Mdse. \$550; received in part payment, cash \$175, balance on ac.
 6. Paid for stamps and stationery, cash \$4.50.
 8. Discounted W. Parker's note; face \$200, discount \$5.30; proceeds received in cash.
 9. Received from J. Campbell in full of ac., cash \$110.60.
 10. Prepaid our note with cash; face \$160.50, discount \$4.10.
 11. Paid M. Robertson on ac., cash \$87.30.
 12. S. Gilmour paid his note due to-day, with check \$165.75.

98. Putting Discounts Through the Cash Journal

The transaction on June 27 may be put through the Cash Journal instead of the Journal. On the Dr. side, enter the total amount for Bills Rec. (\$26.60) as though it were all received; and on the Cr. side, enter the Discount (35c.) as though it were so much cash given back.

99. Purchases and Sales for Cash or Note.

It is usual in actual business to put a transaction through the Personal Account when paid with cash, note or acceptance, at the time of purchase or sale. The transaction on June 25 would be entered first in the Journal,—J. Munro Dr. \$25 and Groceries Cr. \$25; and then in the Cash Journal,—Cash Dr. \$25 and J. Munro Cr. \$25. The purpose of this is to have a record of all large transactions with regular customers, in case an order is to be duplicated, or some other information is desired. Of course petty cash sales are not put through the Personal Accounts.

100. Department Accounts.

Some stores—called *departmental stores*, keep many lines of goods, and separate their stock into several departments, such as Dry Goods Department, Boots and Shoes Department, Groceries Department, etc. For each of these departments they have a corresponding account—Dry Goods A/c, etc.; each account is treated in the same way as Merchandise A/c. When Expense A/c is separated into various accounts, such as Rent, Furniture, etc., each is treated in the same way as Expense A/c.

Set VIII.—D. H.—General Store Business.

Special Features.—Division of Merchandise Account into Dry Goods, Boots and Shoes, and Groceries Accounts; and Expense Account into Office Furniture, Rent, Insurance, and General Expense Accounts. Use of the Cash Book as a Cash Journal or posting medium.

Instructions :

(a) Books to be used—Business Papers, Journal, Cash Journal, Bill Book and Ledger.

(b) Business Papers:

1. Inward.—Notes on June 8, 14, 18; Checks on June 1, 7, 17, 18, 21, 27 (drawn on various banks); Drafts on June 7, 17, 21; Order on June 19.
2. Outward.—Note on June 1; Checks on June 5, 6, 10, 11, 12, 17, 19; Drafts on June 7, 14, 24; Deposit Slips on June 3, 22, 29; Invoices on June 4, 5, 6, 10, 13, 14, 19, 25.

(c) Make out business papers, and make entries in Journal, Cash Journal, and Bill Book; post; take a Trial Balance; take stock; make Financial Statements; close the Ledger.

101. Business Papers—Bank Draft, Bill of Exchange and Requisition Form.

Inland or Domestic Bills of Exchange are commonly called Drafts ; they are drawn and payable in the same country. Foreign Bills of Exchange are commonly called, simply Bills of Exchange ; they are drawn in one country and are payable in another. Bills of Exchange on the United States of America are, however, called drafts because of the similarity of currency and the proximity of the country. These names apply whether drawn by persons on persons, or by banks on banks.

When a bank in Canada draws upon another bank in Canada, the paper is called a Bank Draft ; but when the second bank is an English or other European bank, the paper is called a Bill of Exchange.

(a) BANK DRAFT

Scholastic Bank\$100.⁰⁰

St. John, N.B., July 3, 1907.

Pay to The Dominion Plating Co. or Order
 One Hundred $\frac{00}{100}$ Dollars
 and charge to the account of this Bank.

To The Scholastic Bank,
 Toronto, Ont.

J. J. Crabb, Manager,
 E. E. Switzer, Accountant.

(b) BILL OF EXCHANGE

The Dominion Bank

£100 Sterling.

Toronto, July 2, 1907.

On Demand of this First of Exchange (second unpaid)
 pay to the order of James Proctor
 One Hundred Pounds $\frac{00}{100}$ Sterling
 as advised.

The National Bank of Scotland,

R. Price, Manager.

London, E.C.

M. Parker, Accountant.

Suppose that D. Proctor of St. John, wishes to send \$100 to The Dominion Plating Co. of Toronto. He obtains a Bank Draft for the purpose, as follows: He steps into, say, the Scholastic Bank and fills in a Bank Draft Requisition Form, as shown in (c) on the next page; the amount of exchange and the total are filled in by a bank clerk. He presents this at the wicket, and on payment of the amount specified in the Requisition, a bank clerk makes out and hands him a form similar to that shown in (a) above; this he will mail to The Dominion Plating Co.

(c) REQUISITION FORM.

103. Remitting Cash.

1. *By Registered Letter.*—Registered letters are numbered and entered in special books so that they may be traced along the mail routes. Should a registered letter be lost or stolen, the post office authorities make a search for it, but if unsuccessful, the sender has himself to bear the loss.

2. *By Postal Note.*—A Postal Note is an order issued by one post office on another post office, requesting it to pay the desired amount. They are used for sending any amount up to \$10, to any place in Canada only. They are made for set amounts, 20c., 30c., etc.; for odd cents, from one to nine, postage stamps may be affixed to the face of the Postal Note. If a Postal Note or any of the following forms be lost, after being properly filled in, a duplicate can be obtained.

3. *By Post Office Money Order.*—These are orders by one post office on another post office and are used for sending any amount up to \$100, to any country in the postal union.

4. *By Express Money Order.*—These are orders by one express office on another express office.

5. *By Bank Check.*—Since Bank Checks are drawn by a depositor on funds in the home bank, they are intended for making local payments only. Should a check be sent to a person in another town he would have to pay exchange to any bank cashing it for him. Occasionally, however, a firm arranges to have its checks payable at par in other towns.

6. *By Bank Draft.*—These are orders by one bank on another bank at a distance. A person wishing to send money by this method, buys a Bank Draft; for this he pays the face amount and a small sum (1/4 or more) for the banker's trouble. A small sum is charged as commission or exchange, in the other cases also.

7. *By Bank Money Order.*—These are orders by one bank on another bank. They are intended for small amounts, whereas Bank Drafts are intended for larger amounts.

NEW YORK.</p> <p><i>D. P. Calder</i> <i>Peter McNab</i></p>

The Check above is called a *Marked* or *Accepted* *Check*, because of "25, A. Mc." written across the left-hand end; the "25" is the page of B. Thompson's A.c. in the bank ledger, and "A. Mc." are the ledger keeper's initials; the ledger keeper takes the amount from B. Thompson's A.c. and reserves it to pay the check. Notice that "Bearer" is crossed out; the word "Order" is understood and need not be written above.

105. Two Accounts for the Proprietor.

It is generally better to keep two accounts in the Ledger for the Proprietor—one for his investments and larger withdrawals, and one for small sums and goods taken for private use. Example: "D. Proctor (Capital A/c)"; "D. Proctor (Private A/c)". When closing the books, the Private A/c should be closed into the Capital A/c, before taking the Trial Balance.

106. Freight.

The cost of Merchandise laid down in the store or warehouse includes freight, as well as invoice price. Freight may be dealt with in two ways : (1) Journalize it as Merchandise ; (2) Journalize it as Freight, and close the Freight A/c into the Merchandise A/c, when closing the books.

107. Sales Journal or Sales Book.

All sales of Merchandise are entered in this book whether settled for at the time or not. It is used as a posting medium, from which each person named is debited in the Ledger for the amount sold him, and from which also Merchandise is credited for the total amount of the month's sales. When a person pays for the goods at the time of the sale, say with cash, he is debited through the Sales Journal for the amount of the sale, and credited through the Cash Journal for the cash payment; if he pay with note or acceptance he will be credited through the Journal, or through the Bill Journal when used as a posting medium. Notice that the Cash Book and the Bill Book are called respectively *Cash Journal* and *Bill Journal* when used as posting media. In the example in Section 108, the entries are for transactions in Set IX. Petty Cash Sales are entered in the Cash Journal only.

108. Example of Sales Journal.

Notice the two methods of entering the details: (1) By placing them even with the name, and (2) by indenting them an inch or less.

Notice also the two methods of dating: (1) By placing the dates at the side with an extra column for the Ledger Folio ; in which case the heading may then be "Merchandise Sales Cr.", or simply "Sales Journal." (2) By placing the dates between the entries, and leaving the column at the side for the Ledger Folio ; the heading should then be "St. John, July 3, 1907." The student may select any of these methods.

					Cr.			
		Merchandise					20.41	60

Remarks.

1. Notice that the Sales Journal is much the same as the Cr. side of the Cash Journal. Merchandise is Cr. (Creditor) for the total sales, just as Cash is Cr. for the total payments; and the other accounts opposite the dates are Dr. (Debtor) both in the Sales Journal and Cash Journal.
2. The date in the Sales Journal may be placed down the centre, as done in the last five entries—July 13 to 25, instead of down the left-hand side; the ruling, paging and dating will then be the same as in the ordinary Journal on page 30; in either case, be sure to leave a space between the entries.
3. The Heading at the top may be "Merchandise Sales Cr." or "Sales Journal" or "St. John, N.B., July 3, 1907." The foregoing form of Sales Journal will, however, be simpler as a first step for the student.

109. Purchase Journal or Invoice Book.

All purchases of Merchandise are entered in this book, whether settled for at the time or not. It is used as a posting medium, from which each person named is credited for the amount purchased from him, and from which also, Merchandise is debited for the total amount of the month's purchases. When we pay for the goods at the time of purchase, say with cash, the person we purchase from is credited through the Purchase Journal for the amount of the purchase, and is debited through the Cash Journal for the cash payment; if we pay with note or acceptance he will be debited through the Journal, or through the Bill Journal if it be used as a posting medium; see Section 99.

There are two forms of Purchase Journal in general use. One form is wider than the ordinary Invoice so that the Invoices may be pasted in, and leave room to rule a money column on the right; the amounts of the Invoice are extended into this column and totalled; each person is credited for the amount purchased from him, and Merchandise is debited for the monthly total. The other form, of which there are many variations, is illustrated in Section 110; the July entries are from Set IX., the August entries do not belong to any set.

Remarks.—1. The Purchase Journal is much the same as the Dr. side of the Cash Journal. Merchandise is Dr. for the total purchases, just as Cash is Dr. for the total receipts, and the other accounts opposite the dates are Cr. both in the Purchase Journal and the Cash Journal.

2. The heading at the top may be "Merchandise Purchases Dr." or "Purchase Journal" or "John, N.B., July 2, 1907."

" " Bookkeeper does not enter the details of the Invoices in the Purchase Journal, since he invoices themselves for reference. He places the Invoices of each firm together, sets them away according to number, or in order of their dates.

Such the terms may be *cash* or *note*, still the cash or note may not be received until days later. In the entry on Aug. 3, the invoice and goods were received on the date of purchase; the terms are *cash and note at 2 mos.*; now whether the cash and note are taken at once or some days later, the entry should be put through the personal account.

111. Partnership.

A Partnership or Co-partnership is an association of two or more persons, who agree to combine their money, labor or skill, or any or all of them in lawful business, and to share the profits or bear the losses, in certain proportions.

112. Partnership Accounts.

An Account is opened for each partner, as, "Student (Capital A.c)" and "A. Hamilton (Capital A.c)." A partner's account is treated similarly to that of a single proprietor, both in the opening journal entry and in closing his account in the Ledger. An entry is made in the Loss and Gain A.c for each partner's net gain or net loss, and the amounts are then transferred to their respective Capital A.cs. Each Capital A.c is then closed in the same manner as a single proprietor's account would be closed.

113. Bank Account.

In Set X. we shall not keep Bank A/c in the Ledger, but by the second method mentioned in Section 69, namely, on the stub ends of checks; or the student may keep it by the third method, by making a Bank Pass Book, as shown in Section 69, and recording therein the entries of deposits and checks, as they would be recorded by the bank ledger keeper; or he may combine both methods.

When either of these methods is used, no distinction is then made between the cash in the office drawer and the cash on deposit in the bank; both are considered as cash on hand. Payment by check is then treated as payment in cash, and an entry is made in the Cash Journal just as if paid from the office cash drawer. A deposit is considered merely as moving cash from one drawer to another drawer, and no entry is made in the Cash Journal.

The second method is illustrated on the stubs of the following checks. Deposits are added to the last balance and each check is subtracted, thus showing the balance in the bank. The balance in the Cash Journal includes this balance and the balance in the office drawer.

The Student should use the pad of Bank Checks in the "Students' Outfit in Business Papers," which has been prepared to accompany this work; or he may make a Bank Check Book from the leaves of his work book.

115. Financial Statements in Partnership.

The Statements of Losses and Gains, and of Assets and Liabilities differ from those of a single proprietor only in the closing. In the form shown in Sections 93 and 94, there would be two or more entries for the Net Gain, two or more Summaries, and two or more entries for the Net Capital—one for each partner. In the form shown in Section 95, there would be two or more Summaries—one for each partner.

116. Credit Invoice.

A Credit Invoice or Credit Note is an acknowledgment of the return of goods, of an abatement in price, or of an error in an Invoice. It is much the same in form as an Invoice, but is usually printed in red ink; the writing is done in black ink.

Transactions for September—Set XI.

Winnipeg, Man., September 3, 1907. A. McIntyre and J. MacDonald have this day entered into co-partnership to carry on a Hardware Business at No. 194 Main Street, which premises they have leased for one year at \$480 per annum, payable monthly.

According to the Articles of Agreement the firm name is to be "McIntyre & MacDonald." J. MacDonald is to give his whole time to the business and is to receive $\frac{2}{3}$ of the profits, while A. McIntyre, who is otherwise engaged, is to receive $\frac{1}{3}$: in case of a net loss it is agreed that A. McIntyre shall bear $\frac{2}{3}$ and J. MacDonald $\frac{1}{3}$.

A. McIntyre's Assets: Cash \$5000; note for \$365 against P. Fellows, dated May 11 at 4 months, bearing interest at 6% per annum; interest accrued on this note to date, \$6.90.

RATIONAL BOOKKEEPING.

- A. McIntyre's Liabilities:* Balance due B. King \$2300; note for \$100, in favor of R. Wilkins, dated August 15 at 60 days.
- J. MacDonald's Assets:* Cash per check on the Dominion Bank \$1000.
Make the opening entry for A. McIntyre by the Net Investment Method. See Section 51.

INVENTORIES taken Oct. 31, 1907.

Asset Inventories:

<i>Merchandise saved from fire</i>	\$320.00
<i>Office Furniture</i>	190.00
<i>Interest accrued on Bills Rec. #3</i>	1.56
<i>Discount on Bills Pay. #5</i>	1.35

Liability Inventory:

<i>Interest accrued on Bills Pay. #6</i>06
Treat the Asset Interest and Discount as one Inventory, \$2.91.	

Results:

<i>A. McIntyre's Net Loss, \$1192.53; Net Insolvency, \$170.84.</i>
<i>J. MacDonald's " 795.16; Net Capital, 124.84.</i>

119. Net Capital and Net Insolvency.

The Proprietor's Capital Account may be considered as an Asset and Liability Account. If, after transferring the Net Gain or the Net Loss to the Proprietor's Capital Account, the Cr. side be the greater, the excess is called his Net Capital and is a liability of the business, since the business owes him this amount; if the Dr. side be the greater, the excess is called his Net Insolvency and is an asset to the business, since he must pay this amount to the business from his private means.

120. Dissolution of the Partnership.

How much cash will A. McIntyre require to pay into the business from his private means, so that he may retire from the partnership? Make the necessary Journal entry.

121. Cash Book and Bill Book—Special Forms.

Bookkeepers vary the form of the Cash Book and the Bill Book to suit different kinds of business. When used as *principal books*, that is, as posting media, they may be called Cash Journal and Bill Journal respectively.

The form of Cash Journal, shown in Section 122, illustrates the use of special columns. The check mark in the folio column indicates that Merchandise and Expense are not to be posted in separate items, but in totals from the footings of the Merchandise and Expense columns.

The form of Bill Book, shown in Section 85, is a general form and will teach the *parties* to notes and drafts. In the form of Bill Journal, shown in Section 123, a simple change is made from the form in Section 85; in the Bills Receivable Journal, the *items* are posted to the various accounts mentioned in the "Accounts Cr." column, and Bills Rec. Account is debited with the total of the "Amount" column; in the Bills Pay. Journal, the *items* are posted to the various accounts mentioned in the "Accounts Dr." column, and Bills Pay. Account is credited with the total of the "Amount" column.

In Set XI. the Student may continue the forms of Cash Book and Bill Book that he used in Set X., or he may use the new forms in Sections 122 and 123. If he use the new forms he will change the Ledger Lines as follows: Merchandise H + 6; Expense H + 2; Bills Receivable H + 5; Bills Payable H + 5.

If the Student understands the forms of Cash Book and Bill Book illustrated in the text, he will readily understand any special forms he may afterward meet with in his bookkeeping career.

122. Special Column Cash Journal.

PAYABLE.

Remarks.—1. By leaving the Bills Rec. and Bills Pay. out of the opening entry in the Journal, there would be no "J" in the folio column of the Bill Journal, and these items would then be posted from the latter book.

2. For Bills Rec. #3, the corresponding item (\$172.56) in the Journal must be checked "B" in the folio column to prevent double posting. If this entry be separated into two parts—one for the Cash Journal and one for the Bill Journal, or if it be put through the Personal Account—there will be no overlapping. See the following examples (a), (b), (c) on the next page, of journalizing for Sept. 14 of Set XI.

SINGLE ENTRY BOOKKEEPING.

124. Double Entry Versus Single Entry.

Double Entry deals with both Personal and Impersonal Accounts, whereas Single Entry deals with Personal Accounts only.

In Double Entry there are always one or more debits and one or more corresponding credits in each transaction; and the sum of the debits is equal to the sum of the credits, so that the amount is entered twice, or *double*. In Single Entry there are not corresponding debits and credits in each transaction; each entry concerns but a single account, and that a Personal Account, so that the amount is entered but once, or *single*. In Single Entry there can therefore be no Trial Balance to test the accuracy of the posting.

In a Double Entry Ledger there are Loss and Gain Accounts which give the details of the losses and gains. In a Single Entry Ledger there are no Loss and Gain Accounts, and therefore no details of the losses and gains. The only method of finding the Net Gain or the Net Loss in Single Entry, is by taking the difference between the Net Investment and the Net Capital at closing.

125. Books Used in Single Entry.

The books generally used in Single Entry are the Journal, the Cash Book, the Bill Book and the Ledger; the Cash Book and the Bill Book are used as auxiliary books, though indeed they could be used as principal books, from which payments of cash or notes on account might be posted to the Ledger. Many bookkeepers use an Order Book or a Counter Check Book in connection with the Journal, or even instead of the Journal.

126. Single Entry Journal Rule.

Make a person *debtor* when he *receives on account*, and *creditor* when he *gives on account*.

127. Transactions Entered by Single Entry.

There are three general kinds of transactions: (1) all on account, (2) part payment with cash or note, and balance on account, and (3) payment of the whole amount with cash or note, and nothing on account.

For (1). Make an entry in the Journal, debiting the person when he receives value on *accts.*, and crediting him when he gives value on *accts.*

- For (2). Make an entry in the Journal, debiting the person for what he receives on %, and at the same time crediting him for what he gives on %. Also make an entry in the Cash Book or Bill Book.
- For (3). Make no entry in the Journal. Make an entry in the Cash Book or Bill Book. Payments of cash may be included with the Petty Cash Sales and entered in the Cash Book daily or weekly. In the case of a payment all in trade, such as butter and eggs brought in by the farmer, no entry is made at all.

130. Journal—Single Entry—Illustration Set.

The opening entry has been made by two different methods; the checked items, in the entries by the first method, are not to be posted, since they are impersonal accounts; there will be but one posting from each entry by the second method. The transaction on the 11th has also been entered in two ways. The Student will make a selection.

The money columns are for items and totals respectively, and the posting is done from the "Totals" column only, excepting in the opening entry by the first method. The totals, in each entry, may be placed opposite the person's name or opposite the last item; for example, on Nov. 4, the total "\$9.65" may be placed opposite "R. Green, Dr." or opposite "2 gals. Coal Oil @ 20c., 40c."

- Remarks.*—1. The Student is advised to journalize the transactions by Double Entry first, and then to make separate entries by Single Entry for each personal account mentioned in the Double Entry. He will thus understand the Single Entry through the Double Entry and will readily see that Single Entry is, in the main, Double Entry with the impersonal accounts dropped out.
2. The money columns may be used as Dr. and Cr. columns respectively; but when this is done, it necessitates the placing of the price and the figures of the "Items" column, in the explanation space, which is neither convenient nor practical. The method of entering, shown on the previous page, is preferable.
3. The Journal is not much used in actual business. The Order Book and the Counter Check Book are used as posting media, leaving few entries for the Journal.

131. Order Book—Single Entry—Illustration Set.

The entries are made in the Order Book when the customer gives his order, and are usually made in lead pencil; from this book the goods are put up ready for delivery. In this set, we have transferred the *sales on account* from the Order Book to the Journal and posted them from the Journal to the Ledger. No entry is made for the *sales for cash* recorded in the Order Book, the money from these sales being put in the till and included in "Cash Sales for the Week." The Order Book may be used in Double Entry also.

Would it do to post the *sales on ac.*, directly from the Order Book to the Ledger? Would it be better to do so? Why? Compare the two methods of entering items on the 5th and 18th. The check mark (✓) indicates transfer to the Journal; if posting is done directly from the Order Book to the Ledger, this column is used for ledger pages.

- Remarks.*—1. The total (\$10.30) of the entry on the 18th may be extended to the "Totals" column, when the Order Book is used as a Single Entry book. When it is used as a Double Entry book, as in Set XIII., then the total of a cash sale should not be extended to the "Totals" column.

182. Counter Check Book—Single Entry—Illustration Set.

The Counter Check Book takes the place of the Order Book and is more generally used. Each slip is duplicated by means of a carbon sheet; the customer receives one copy, and the other is retained as a record of the transaction. The amounts of those slips marked "Paid" are included with the petty cash sales in the till; the amounts of those marked "Charge" are entered in the Journal, or posted directly from the Counter Check Book to the Ledger. Three leaves of the Counter Check Book are shown herewith. Which is the better method of record—in the Order Book or in the Counter Check Book?

188. Cash Book—Single Entry—Illustration Set.

The one-page Cash Book, illustrated below, is generally called the Single Entry Cash Book. But the two-page Cash Book is a better form, both for Single Entry and Double Entry, as there is less liability of making mistakes. The Student should use the following form in this set, for the sake of practice.

The Bank Account will be kept in this set and the next one, as in Sets X and XI. See Sections 111 and 112. Only two stubs will be required in this set; balance in Bank \$2850. How much in the till?

135. Bill Book—Single Entry—Illustration Set.

The Bill Book for Single Entry does not differ from that used for Double Entry. The Student will use the forms shown in Section 85; and from his Bill Book will obtain the following balances—Bills Rec. unpaid \$50, Bills Pay. unpaid \$200.

137. Financial Statement—Single Entry—Illustration Set.

This consists of two parts: (1) a Statement of Assets and Liabilities, and (2) a Statement showing the Net Gain or the Net Loss.

The Statement of Assets and Liabilities in Single Entry is made from four sources—the Ledger, the Cash Book, the Bill Book, and the Inventory Book, as follows:

- (1). Find all the balances of the personal accounts from the Ledger. Debtor balances are Assets ; Creditor balances are Liabilities.
 - (2). Find the balance of cash on hand from the Cash Book. This is an Asset.
 - (3). Find the balance of other persons' notes and acceptances unpaid, from the Bills Receivable Book ; this balance is an Asset. Find the balance of our notes and acceptances unpaid, from the Bills Payable Book ; this balance is a Liability.
 - (4). Find the balance of Mdse. on hand from the Inventory. This balance is an Asset.

STATEMENT OF ASSETS AND LIABILITIES

Assets										
S. Porter	Balance due by him	22	10
R. Green	" " "	4	65	
Cash	" as per Cash Book	2856	23	
Bills Receivable	" " " Bill Book	50	00	
Merchandise	" " " Inventory	1320	50	4253 48
Liabilities										
H. Dowd	Balance due to him	220		
Bills Payable	as per Bill Book	200		420
W. Sykes' Net Capital				3833 48

When there are a large number of personal accounts from the Ledger, they are entered as one item under the title "Personal Accounts Receivable" in the Assets or "Personal Accounts Payable" in the Liabilities.

The Statement showing the Net Gain is made from two sources—the Proprietor's Capital A/c, and the Asset and Liability Statement, as follows:

- (1). Find the Net Capital from the Asset and Liability Statement.
 - (2). Find the Net Investment from the Proprietor's Capital A/c.
 - (3). Find the difference between the Net Capital and the Net Investment. This difference is Net Gain if the Net Capital be the larger, and Net Loss if it be the smaller.

STATEMENT SHOWING GAIN.

188. Closing the Ledger—Single Entry—Illustration Set

This consists in closing the Proprietor's A/c only. The other Personal A/cs are closed, only when settled or when carried forward to a new page.

1. Determine the Net Gain from the Financial Statement.
 2. Enter the Net Gain on the Cr. side of the Proprietor's A/c.
 3. Close the Proprietor's A/c and bring down the Net Capital, as follows :

139. Changing from Single Entry to Double Entry.

A Single Entry Ledger contains only Personal A/cs; a Double Entry Ledger contains both Personal A/cs and Impersonal A/cs. To change from Single Entry to Double Entry, it is necessary, therefore, to open Impersonal A/cs in the Ledger, in addition to the Personal A/cs already there:

- (1). Make a Single Entry Financial Statement and close the Proprietor's A/c.
 - (2). Make a journal entry from the Single Entry Asset and Liability Statement : 1st Method—make a journal entry containing only the Impersonal A/cs. 2nd Method—make a journal entry containing both the Personal A/cs and the Impersonal A/cs; check the Personal A/cs and post only the Impersonal A/cs.
 - (3). Post this opening journal entry and take a trial balance. From the 2nd Method, it will be seen that all the Single Entry Ledger lacks of being in balance, is the Impersonal A/cs.
 - (4). Proceed by Double Entry, in the same way as you would after making the opening journal entry from the Assets and Liabilities in a Double Entry Set. Bring down the balance in the Cash Book, and continue the Bill Book.

140. Journal Entry to Change from S. E. to D. E.—Illustration Set.

141. Changing from S. E. to D. E.—Old Ledger or New Ledger.

When the *same* Ledger is to be used for the Double Entry as was used for the Single Entry, either of the foregoing methods may be employed. But when a *new* Ledger is to be used, then the second method must be employed, and without the checking; both Personal and Impersonal A/cs must be posted.

Set XIII. Single Entry and Double Entry.

Special Features.—*Changing from Single Entry to Double Entry. Introduction of Retail Statements of Account, and Wholesale Monthly Statements.*

Instructions for Part I.—Single Entry.

(a) *Books to be used—Business Papers, Journal, Order Book or Counter Check Book, Cash Book, Bank Check Book, Bill Book and Ledger.*

(b) *Business Papers:*

1. *Inward.—Note on Dec. 10; Draft on Dec. 14.*

2. *Outward.—Drafts on Dec. 1, 9; Checks on Dec. 4, 10, 11, 13, 14; Bank Draft on Dec. 4; Receipts on Dec. 5, 6, 13.*

(c) *Make out business papers; make entries in the Journal, Order Book or Counter Check Book, Cash Book, Bank Check Book and Bill Book; post to Ledger from the Journal and Order Book; take stock; make Financial Statements; close the Proprietor's A/c.*

NOTE.—Pages of the Journal may be used for the Order Book. If the Student wishes to use the Counter Check Book, he may use the forms provided in the "Student's Outfit in Business Papers," or he may fold sheets of his work book for this purpose, and rule like the Counter Checks in Section 132.

142. Statements of Account—Retail.

These are made out at certain regular periods, usually monthly; they give the items of the customer's purchases and payments on %, and the balance due. When Counter Check Books are used, the customer is expected to keep the bills given with each purchase; then a statement like that in Section 143 is sufficient.
