TUESDAY MORNING, JAN. 9, 1911.

## THE MAYOR'S INAUGURAL.

Mayor Geary's inaugural was a businesslike document, and his program for the year is a satisfactory one. The most important point is the street railway declaration of faith which he makes.

"The council should not for one moment countenance any proposal tending to jeopardize or in the slightest degree weaken the city's grip on the ownership of the street railway franchise in 1921."

There must be no deals at all. The city has its chance to build its own lines, connected with a Yonge-street tube, which will accommodate the radicals, and give the city control of the situation.

Mayor Geary, among other matters, commended the harbor improvements, the widening of St. Clair-avenue, and the construction of other boulevards, the restoration of the old fort, regulating the milk supply and the issue of civic corporation stock.

## PARK LIGHTS.

While it is impossible to place ornamental lamps all over the city, it might surely be within the resources of the electrical department to make the public parks an exception. The city spends a good deal of money in making the parks attractive, and good light would be a decided advantage. There are other reasons also why there should be abundant light in such places as the Allan Gardens and Queen's Park.

Perhaps some compromise could be reached in these cases. The provincial government might assist in Queen's Park, and the residents in other places.

## GETTING CIVILIZED.

According to a recent despatch the secretary of the treasury of the United States will ask congress to pass a bill to stop the coinage of gold in that country and to authorize the use instead of gold certificates. The gold would be stored in the national treasury in bars and paper certificates issued against it; the certificates would pass current with the same facility that coined gold now passes and would be much handier.

This looks to us like a sensible reform, one which could be followed all the world over, and ultimately lead to a better and safer basis of values than even gold; for talk as you will, gold is steadily declining in value, altho we express it by saying that commodities are rising in price; but it is really the gold that is getting cheaper. Fortunately it is in the interest of the debtor that this is so. There are some commodities that are not rising, as in the case of wheat; but take the case of corn, and the Kansas farmer, who ten years ago borrowed a thousand dollars on his farm and hoped to pay it with 2500 bushels of corn at 40c a bushel, could easily pay it now with 1000 bushels at 50c, or perhaps he gets 60c some years for his corn.

If the gold does not go into circulation there will not be the extensive loss that occurs by use and friction, and this will tend to make it still cheaper.

Perhaps we have built our mint in Canada too late. We still need it, however, for our silver coinage. Silver coinage is used, not because it cannot be expressed in silver certificates, but for its fractional advantages.

## RUSSIA'S POPULATION.

Official figures recently issued state the population of the Russian Empire at 169,095,200, as on Jan. 1, 1910. This vast number comprises 116,505,500 in Russia proper, 11,671,800 in Poland, 11,685,400 in the Caucasus, 9,631,300 in the Central Asian provinces, 7,875,000 in Siberia, and 3,015,700 in Finland. Of pure Russians there are 65.6 per cent., Turco-Tartars 6.2 per cent., Poles 4.5 per cent., Finns and Estonians 3.9 per cent., Jews 2.4 per cent., and smaller percentages of Lithuanians, Letts, Germans and Swedes. Were the strength of Russia comparable to its population, the balance of power in Europe would be seriously disturbed. With a different system of government and internal policy the Russian menace might easily become what it was once held to be.

## BRANTFORD'S POWER AGREEMENT.

The Brantford Expositor recognizes the difficulties that may present themselves in securing the benefit of the clause in the city's agreement with the Western Counties Company, whereby Brantford is guaranteed rates 10 per cent. lower than those of any hydro-electric municipality similarly situated, provided that the latter is not selling power below cost.

"Probably," says the Expositor, "the most effective protection which Brantford enjoys is that the agreement with the Western Counties is only for a short period of time, and that, in any

event, no exclusive rights have been created. The company, consequently, will be on its good behavior."

Brantford will be fortunate should it find any provision equal to the task of keeping a corporation on its good behavior. The cities that have united under the hydro-electric commission have the security of their own interests and the protection of their own control to provide them with the most favorable rates that can be obtained.

## ABOLISH COUNCIL COMMITTEES.

Ald. Yeomans' motion to abolish all committees of the city council and refer their duties to the members of the board of control is the wisest and most practical reform suggested in the city council since the board of control was established.

There is nothing that lowers the quality of the members of the city council so much as the fact that the duties required from committee men take up so much time that solid men of affairs are unable to devote themselves to public life.

By abolishing the aldermen from any duties on committees their time would only be occupied to the extent of attendance at council meetings, and the employment of such of their leisure as they could give to the study of municipal business.

The proposal is in the direction of government by commission, and while short of that may be hailed as a decided improvement on the present state of things.

## BANISH THE CUP.

Dr. Hastings is to be commended for his decision about public drinking cups. Nothing has done more to spread disease among children than the promiscuous public cup. No one can ever tell where children catch the disease they bring home, but it is safe to say a large percentage might be attributed to the dirty cup.

The sanitary fountain jet is a delightful and sanitary substitute for the old cup, and good water never tastes more refreshing than from these little crystal streams.

## ANOTHER CHICAGO.

Nearly everybody can see the growth of Toronto in the next quarter of a century, but the people should be preparing for this expansion.

Bishop Fallows of Chicago, who has been visiting Toronto, remembers the city 35 years ago, when Chicago was about the size of the present Toronto. He thinks the conditions of the two cities very similar, and looks for a similar increase in the population of Toronto in 25 years will have much over a million population.

The statement of a fact of this sort is declared by The Star and The Globe and The Telegram to be due to a desire to boom the city. As well argue that a father wishes to boom his boy if he tells him he will have whiskers when he is 21.

Every city placed in a situation similar to Toronto should take steps to prepare for the future, and forestall the inevitable demands which can be cheaply supplied before they become imperative, but cost a fortune afterwards.

The Bloor-street viaduct is a case in point. An effort is now being made to get York County to bear part of the expense. Should the county agree to do so, it will be found that the share to be assumed by the county will be no greater than the increased cost which the postponement of the construction of the viaduct will cause—an increase due to The Star, The Globe and The Telegram. Ten years ago the Bloor-street viaduct could have been built for less than half a million. The last estimate was about double the earlier one. About twenty per cent. a year is added to the cost by delay.

## LEADING IN PRAYER.

Dr. Hincks comments unfavorably on the fact that in a church membership of 900 not 20 were accustomed to pray in public, and he appears to think this to be a reflection on the church. The founder of Christianity appears to have held a different view. Here is what he says:

"And when thou prayest, thou shalt not be as the hypocrites are, for they love to pray standing in the synagogues and in the corners of the streets that they may be seen of men. Verily, I say unto you, they have their reward. But thou, when thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which is in secret shall reward thee openly. But when ye pray, use not vain repetitions, as the heathen do; for they think that they shall be heard for their much speaking."

This passage, Matthews vii, 5-7, and following verses, raises the question whether Dr. Hincks is on the right track. Perhaps there were more praying in the closet and less on the platform revivals would be less necessary.

## WATCH WALL STREET.

The story from New York that J. P. Morgan and the big banks and others were in session all Sunday to head off a run on smaller concerns is rather disturbing and more or less confirmation of the article in this paper on Jan. 3, that Wall-street had not yet been purged of its watered stock. The actual decline in Wall-street stocks during last year was over 300 millions! Somebody has lost this money. Either individuals or loaning concerns. We believe the latter largely; and therefore depositors and shareholders are getting more and more anxious. Until

## CANADIAN PACIFIC AT TEN PER CENT.

The Canadian Pacific is now on a ten per cent. dividend basis, independent of bonuses.

A reduction in freight and passenger rates, long ago due, will undoubtedly now be brought about.

At least, that is what the original charter calls for.

Dr. Chapman will need to work harder than ever. They are going to enlarge the senate.

A Frenchman has refused to buy a railway ticket that was not printed in French, and was put off the train. Some Englishman should now refuse to eat his dinner because the menu is not printed in English. And it's a bilingual outrage to ask an Irishman to eat pommes de terre.

## NEW P. S. N. CO. AGENTS.

Announcement is made that Sander-son & Son, New York agents for the Royal Mail Steam Packet Co., have been appointed agents of the Pacific Steam Navigation Company, Liverpool, to date from Jan. 1, 1911.

The transfer of the agency is no doubt due to the recent purchase of the Pacific Steam Navigation Company by the Royal Mail Steam Packet Company.

## NEW YEAR DINNER

Big, Pleasant and Enthusiastic Gathering of the Red Rose Tea Staff.

The New Year's dinner of the Ontario branch of the Red Rose Tea Co. was held at the offices and warehouse, this city, Saturday night. About 50 of the traveling, office and warehouse staffs and their wives sat down to an excellent repast, very tastefully spread by Coles in the board room. Marking the close of a very successful year's business and every indication pointing to a very large increase in the sales of "good tea" this year, much enthusiasm pervaded the gathering.

Mr. George H. Campbell, the manager, presided, and a telegram of greeting was read from Mr. T. H. Estabrooks, St. John, N.B., the proprietor, who was unable to be present, and his health was drunk with great heartiness. The progress of the toast list was enlivened with a race line of narrative and fact. There was a ball-throwing contest for the ladies, which created much amusement. It was an evening of great sociability and thorough enjoyment, presaging still greater success for Red Rose Tea.

## OPERATED ON AT SEA

Successfully Treated for Appendicitis Without Ship Being Stopped.

HALIFAX, Jan. 8.—Eleven days from Rotterdam, the steamer Uranium of the Uranium S.S. Co., Capt. Agassie, arrived this morning. One day out from Rotterdam, an operation for appendicitis was successfully performed on Gertra Geberich, 30 years of age, of New York, by the ship's physician, Dr. J. B. Connolly. The operation was performed under great difficulties, as the physician was not equipped with the proper appliances. So successfully was the operation performed that the patient will not need to be treated at the hospital here, but will be able to proceed on the steamer to New York. This is perhaps the first time that an operation for appendicitis has been performed on the Atlantic without the ship being stopped.

## Nervous Prostration For Three Years

"Dr. Miles' Restorative Nervine cured me of a period of nervous prostration of over three years' duration, and the Anti-Pain Pills are as necessary to us as the roof of our house. They have been household remedies with us for many years."

Philadelphia, Penna.

Much sickness is due to nervous troubles. Headache, dizziness, epilepsy and insanity are nervous troubles. Then there is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eyes, etc. Dyspepsia and indigestion are usually the result of nervous disorders.

## Do Men Believe in Bargains?

Business men are not more incredulous than when reading an announcement of "reduced," "special," or "half" prices. The Adams Furniture Company can assure those who read their offer below of Office Furniture at Half the Regular Prices, that the statement is based on absolute and unequivocal fact.

We are under the necessity of sacrificing over 50 per cent. of our stock of Office Furniture to obtain the space for other departments of our business.

Office Tilters that formerly sold for \$12.00 are to be sold for \$6.00; others that were marked \$8.00 are to go at \$4.00; \$10.00 Arm Chairs marked down to \$5.00; Directors' Tables, Steel and Wood Filing Cabinets, and other lines with the regular prices cut clean in half.

## Sale Starts To-morrow

These goods are on exhibition in the store and in the Queen Street windows to-day, where they may be seen at leisure. None sold before Wednesday.
