EXCESS APPROPRIATION

The convention now at work upon a new constitution for the State of Ohio has adopted a provision which will permit the cities of that state to appropriate more land than is actually needed for any specific purpose and to hold the excess lands so appropriated for re-sale at a future date. As the World has already pointed out, this power is possessed and freely exercised by many European cities. Its exercise enables the city which expropriates land for a park, a public building, or an improved street, to acquire territory contiguous to the improvement, and to obtain the benefit of the rise in value coming by reason of that improvement.

The increased value in the land from which the city is to reap a profit is not an unearned increment, as it is in the case of private individuals who happen to own lands suddenly appreciated in value by civic action. As now proposed the increment created by the city itself will go to the city. Such a power would be a great boon to Toronto and other Ontario cities, even under the safeguards which might be imposed upon its exercise in the case of Ohio municipalities, to wit, submitting the expropriation, by-law to the people and making the debentures issued for such purpose a charge upon the land so expropriated "instead of upon all the property of the city."

IDLE STEEL

A railway company constructing a line 100 miles long would from time to time begin operating various sections of the road, as they were completed. The Ontario Government followed this course in the case of the T. & N. O. and did not defer running trains to Cobalt until the road was completed to James Bay. The Dominion Government, however, refrains from taking possession of a single mile of the National Transcontinental until the last spike is driven on the completed line between Moncton and Winnipeg.

Fully 1000 miles of track are finished between these points, but they remain in the hands of the contractors. For nearly two years the Grand Trunk Pacific Railway Company has been operating the line between Winnipeg and Superior Junction, not by any arrangement with the Dominion Government, but by arrangement with Mr. J. D. McArthur, the contractor. The company so far as this line is concerned is not subject to the railway commission, and the same is true of the various contractors who are running passenger and freight trains between Quebec and La Tuque and east, and west of Cochrane. The line between Moncton and Lewis is not being operated by the contractors, and is said to be disintegrating from lying idle.

It is probably better business for the government to have the road operated by companies over which it has no control than not have it operated at all, but either policy seems unbusinesslike. True, the government has a contract with the Grand Trunk Pacific, which obliges that company to operate the road for a time rent free and then to pay for it an annual rental which, according to Hon. Mr. Cochrane will amount to about \$7,500,000. That any such rent can ever be paid is unlikely and eventually the road may remain in the possession of the government, possibly with running rights accorded to all railways which desire them. But even if the G.T.P. could carry out its stupendous undertaking three or four years must intervene before the government can carry out its part of the contract by turning over the completed railway to the company. In the meantime something should be done toward operating those portions of the road which are completed. The rolling stock purchased for this could be utilized at the expiry of three or four years by the new government railway, now in construction from the Pas to Hudson Bay.

OFFER A REWARD

The police are now in receipt of an anonymous communication which supplies a hint of valuable information in connection with the shooting of Rebecca Berger in Chestnut-street. The communication declares that he does not wish the publicity connected with coming forward to make his explanation full and complete. If such information is in his hands, this appears to be one particular case, as is the Rosebud murder, where the offer of a substantial reward would be exceedingly likely to bring in just the information which would wipe out another man's name in the shape of an unpunished murder, of which the city has at present all too many.

SHOULD HAVE CHARTER

Editor World: Your view as to the legislature giving but scant consideration to Toronto in her application to amend certain acts in her Municipal Act, seems to all fair-minded citizens perfectly just and right. Why have a city the size in population of Toronto, to go before the provincial legislature to amend her municipal laws?

QUEBEC ELECTIONS IN MAY

QUEBEC, April 8.—It is announced semi-officially that the general provincial elections will take place by the end of May, probably on the 21st.

QUEBEC BUSINESS MAN'S DEATH

KINGSTON, April 8.—(Special.)—J. Y. Parkhill, dairy produce merchant, was at business Saturday, took ill during last night and died this morning. He was 66 years of age, and a leading business man here for over 30 years. His wife, four sons and two daughters survive.

verse. To-day this remains true, tho the majority is not nearly so pronounced; but it is no longer in the power of the peers to compel a dissolution by an absolute rejection of the measure. There is now only a suspensory vote and its expected exercise will sustain instead of weakening popular interest.

Various forecasts of Mr. Asquith's proposals have been published, the latest with sufficient precision to suggest a basis of authority. According to this anticipation the Irish legislature will enjoy only delegated powers, while the exercise of these even will be doubly and trebly supervised. In some respects it will have less scope than the provincial legislatures of Canada, and its acts will be under a control which is intended to be close and effective. Should the anticipation prove correct and the Liberal and Irish parties be both satisfied, the bill will reveal a very considerable recession from the original Nationalist demand. While it is not in the least likely that this moderation will placate the opponents of home rule, it will afford evidence that the mass of the Liberal party in parliament was not prepared to accord terms amounting to virtual independence or an impairment of the supreme jurisdiction of the imperial government and legislature.

Not till the bill reaches the committee stage will there be afforded occasion for the emergence of internal disagreement among the members of the coalition majority. Two of the principal issues raised may test its solidity—one, the position of the Irish members in parliament—the other, the nature of the financial arrangements. Unless these members are to be allowed to vote on questions affecting England and Wales or Scotland exclusively, the business of parliament will have to be separated and provision made accordingly. Yet Mr. Gladstone, who first excluded Irish members altogether and then retained Irish parliamentary representation, declared it to be beyond the wit of man to differentiate between all varieties of common and local affairs. It remains to be seen whether Mr. Asquith has found a practical solution of the vexed problem. Less difficulty may be found in settling the financial aspect of Irish self-government, over which to a substantial extent there is agreement.

CHANGING THE COURSE

The annual report of Herbert Knox Smith, U. S. Commissioner of corporations, was unquestionably submitted to the president before it was given to the public. Its conclusion therefore that the present course of the administration in regard to the trusts must be amended may be taken as expressing the views of Mr. Taft and the stand-pat element. These views are now in accord with those advanced by Colonel Roosevelt in his address at the Carnegie Institute, New York, in short, it is now agreed on all hands that the trust-evil will not be cured by judicially dissolving the aggregation of firms and corporations into its component parts, only to have them congregate into a new combination. Mr. Smith recommends governmental supervision, regulation and publicity. He speaks of an alternative policy of "Enforced Competition," but suggests the only way in which it can be brought about is for the government to enter the business field.

Governmental supervision of stock and bond issues of all corporations engaged in inter-state business, and control over prices charged by them for their products may, however, do much to mitigate the trust evil and there may be some advantage in adopting the rule prevailing in some states which requires all issues of stock to be offered for sale at public auction.

How to Reduce Automobile Tire Troubles

The man who buys an automobile is not long in finding out that his tires are the chief source of his troubles. The old car owner is wiser than the new one, and has discovered that a little care will save him money. Car owners make it a practice to examine their tires carefully at least once or twice a week, and if there are any cuts or injuries in the rubber they immediately fill them up with rubber cement. This is a very good method, but it is not sufficient. The tire should be vulcanized so as to make sure of a durable repair and the hole in the outer casing is carefully stopped up so that air will not get in. The steel studs are also provided an opening for dirt and moisture to get in, and cause considerable trouble to take such a car on a long trip. Some users prefer to use tire protectors called "Woods' Treads." These are made of leather they are stuck with rings, held on the tire by coil springs rings on each side. The steel studs are made of iron and are forth, which cut and injure the rubber tires, so that the rubber under them is kept absolutely dry. The steel studs are excellent to prevent skidding on muddy, wet and slushy streets, and the cost of the device is so low that considering the long life of the tire which are protected from wear in this way they are very economical.

OTTAWA BILL IS UP TO-DAY

Private Bills Committee Will Make Final Disposition of Requests for Legislation.

At 1:30 p.m. to-day the private bills committee of the legislature will give the finishing touches to the City of Ottawa Bill. What the result will be is a matter of much concern at the present time, for there is so much annoyance over the way the bill has been handled that many members are resigning their seats in the legislature. The bill in question is to raise money for the erection of a new smallpox hospital, the one in use at the present time being nothing more than a past-house on Foster's Island, right in the heart of the city's most congested district. The private bills committee decided that before granting the City of Ottawa the authority to build the hospital, the city should first undertake to raise \$22,000 with which to pay a certain disputed claim against it in the courts.

ITALY A VERITABLE PARADISE FOR THE TRAMP.

Italy, according to a writer in The Wide World Magazine, is a perfect paradise for the tramp. Save for a coat to his back and shoes for his feet, there is very little for him to worry about, as he wanders from one village to another in that country of sunshine and blue skies. Food is easily procured in the vineyards and on the fig-trees, drink is plentiful, and shelter is provided for him, without cost, by a benevolent government. "I was," continues the writer, "often struck during my recent journey in northern Italy, by the delightful public dormitories which are erected by the roadside (through the country, especially in the valleys leading from the Mediterranean Coast to the hill towns of Liguria. "I visited a dormitory publico on the highway near Camposasso, in the could not desire a more airy wayfarer's resting-place. The authorities have planted trees, so that under the shade of the olive, the footsore traveler can obtain his much-needed siesta in a perfectly cool spot. "It looked so attractive, standing almost temptingly in the shade, that I almost sought to escape from the miserable room and seek refuge beneath its hospitable roof."

YOU NO DOUBT APPRECIATE UP-TO-DATE TRAIN SERVICE.

Particular attention is called to the Canadian Pacific North Toronto-Ottawa-Montreal service. Leave Toronto 9:30 p.m. daily, West Toronto 9:30 p.m., North Toronto 9:40 p.m., leave wait at North Toronto enabling passengers to become comfortably settled before departure of train, arrive Ottawa 6:50 a.m. and Montreal 7 a.m. This is the only train out of Toronto operating the celebrated "Compartments Cars" in addition to this, modern coaches are carried. Lighted trains carry 30,000 passengers (as compared with 10,000 in the preceding year) in 13,412,130 tons of merchandise (13,412,130 tons in 1910).

Jewish Faith and Farming.

The twelfth annual report of The Jewish Agricultural Society discloses the idea that the Jewish immigrant keeps close to the Atlantic seaboard. The report shows that Jewish farmers are in every State in the Union. This society encourages Jewish immigrants to take up farming and helps them in every way. It establishes co-operative credit unions. It conducts educational and "uplift" work among the hands of the country life. It provides scholarships in agricultural colleges to sons and daughters of Jewish farmers. Out of five prizes offered for poultry judging, three were taken by Jewish students. A girl at the same college won the prize for the highest average fruit growing and market gardening.

"I visited a dormitory publico on the highway near Camposasso, in the could not desire a more airy wayfarer's resting-place. The authorities have planted trees, so that under the shade of the olive, the footsore traveler can obtain his much-needed siesta in a perfectly cool spot. "It looked so attractive, standing almost temptingly in the shade, that I almost sought to escape from the miserable room and seek refuge beneath its hospitable roof."

YOU NO DOUBT APPRECIATE UP-TO-DATE TRAIN SERVICE.

Particular attention is called to the Canadian Pacific North Toronto-Ottawa-Montreal service. Leave Toronto 9:30 p.m. daily, West Toronto 9:30 p.m., North Toronto 9:40 p.m., leave wait at North Toronto enabling passengers to become comfortably settled before departure of train, arrive Ottawa 6:50 a.m. and Montreal 7 a.m. This is the only train out of Toronto operating the celebrated "Compartments Cars" in addition to this, modern coaches are carried. Lighted trains carry 30,000 passengers (as compared with 10,000 in the preceding year) in 13,412,130 tons of merchandise (13,412,130 tons in 1910).

Jewish Faith and Farming.

The twelfth annual report of The Jewish Agricultural Society discloses the idea that the Jewish immigrant keeps close to the Atlantic seaboard. The report shows that Jewish farmers are in every State in the Union. This society encourages Jewish immigrants to take up farming and helps them in every way. It establishes co-operative credit unions. It conducts educational and "uplift" work among the hands of the country life. It provides scholarships in agricultural colleges to sons and daughters of Jewish farmers. Out of five prizes offered for poultry judging, three were taken by Jewish students. A girl at the same college won the prize for the highest average fruit growing and market gardening.

PREACH ANARCHY IN WEST

Leaders of I. W. W. said to be Urging Policy of Destruction.

KAMLOOPS, B. C., April 8.—(Can. Press.)—"Sabotage" that form of industrial warfare which the French syndicalists have perfected, is now being advocated, it is said, by some of the Workers of the Camps of the Industrial line of the World strikers along the coast of British Columbia. These leaders explain that the costly machinery of contractors is wholly in the hands of the workers, and that it is the easiest thing in the world to see that some important belts disappear and that the machinery be allowed to shake itself to pieces.

A PORTABLE CHURCH.

Woodbine Heights first church arrived from Bradford yesterday for the Methodist Social Union. It is one of three portable structures for rapidly growing districts, to be moved through the country as permanent structures are required. It will be located on the corner of Goldview and Woodbine-avenue. It cost \$1000 and is 20 x 50 feet.

**FEDERATION OF CHURCHES IS FAVORED**

Methodist Mission Executive Will Urge Speedy Action at Meeting on Thursday—Western Mission Fields Will Be Divided Between Methodists and Presbyterians.

Church federation will be pushed forward at the meeting of the Methodist Mission executive on Thursday. The federation policy will be stimulated by the action of the Presbyterian Church Union Committee in last week endorsing federation as the immediate alternative to amalgamation. The Methodist Mission executive is pronounced in favor of federation, and the big Methodist vote for union is felt to be strong. The Presbyterian policy of dividing up fields with the Methodists, already in full operation in Alberta where railway divisions are set apart for either Presbyterian or Methodist effort, is certain to be freely extended.

Rev. Dr. Carman and Rev. Dr. Chown, leading members of the alliance as chairmen, Rev. Dr. Woodworth is also expected from Winnipeg; Rev. Dr. Rockman, Kingston; W. H. Gordon, Montreal. The executive will fix the place and time of meeting of the general board of missions, which approximately view the public interest with the meetings of conference.

**MR. DINEEN HAS RETURNED.**

Extensive Trip Thru Europe.

Mr. William Dineen, the president of the W. & D. Dineen Company, returned from a tour of the old country yesterday morning. The trip embraced all Southern Europe and Germany, Russia and the British Isles. It was principally of a business nature as far as the northern districts were concerned.

Mr. Dineen reports that the prospect for a further rise in the price of furs seems more than apparent. The demand for the highest grades of Canadian pelts such as Labrador Mink, Hudson Bay Sable and Canadian Fox is very great, and will no doubt make these native products quite expensive next season.

Chatham's Knotty Tangle

CHATHAM, April 8.—(Special.)—Adolphus Reaume, a charity patient at the General Hospital, suffering from paralysis, was carried to the police court this morning to answer to a charge of assaulting one of the nurses by kicking her in the abdomen. The charge against Reaume was dismissed by the magistrate and he is now lying in the police court with no place to go.

Under the present law, the magistrate cannot direct him to be sent to a hospital and he is not a fit subject for a jail or a house of refuge.

**Toronto Man Arrested.**

BROCKVILLE, April 7.—(Special.)—The police here located John Henry Harrison of Toronto, who has been soliciting orders here for a carpet cleaning preparation which was nothing more than sand and coal oil. When caught before the magistrate he explained how he had run shy of the genuine material and had used the sand and the oil to complete his orders. His story was accepted and he was allowed to go.

**WERE KILLED THRU IGNORANCE**

Petro Rossi and His Son Asphyxiated by Not Being Instructed About Turning Gas Off Properly

That Petro Rossi and his son came to their death by asphyxiation, caused by their ignorance of the correct method of turning the gas off, was the verdict returned last night at the morgue. Coroner Greig spoke to the jury about the large number of deaths by asphyxiation during the past three months, and in returning their verdict the jury added a rider that hotels and lodging houses should be lighted by electricity, and that where gas is used instruction should be given to the inmates regarding the care required.

John Rossi, brother of the dead man and uncle of the lad, claimed that he was not the one who turned out the gas. He stated yesterday morning that he had turned the light out, but this he contradicted at the inquest.

The jury was satisfied that Petro Rossi had turned the gas off and then turned it on again, not knowing that the fumes were injurious.

**Light-house Keeper Dismissed.**

BELLEVILLE, April 8.—(Special.)—John C. Weil, who has been light-house keeper here for some time, has been dismissed from the office and Henry J. Smith of this city has been appointed to the position.

Construction work on the new C.P.R. line thru this city will, it is expected, be commenced in the near future. A building office has been secured, and already members of the construction party are here.

**CHATHAM CARRIES BY-LAW.**

CHATHAM, April 8.—(Special.)—The industrial bylaw submitted to the ratepayers of Chatham to-day was carried almost unanimously. This by-law the St. Mary's (Ohio) Machine Co. of St. Mary's, Ohio, will take over the Swift Motor Car Co. of this city and go extensively into the manufacture of gas, oil and gasoline engines.

Only 18 ratifiers recorded their votes against it and 1485 voted in favor of it.

**NATURALIZATION LAW NEEDS CHANGING**

R. B. Bennett Says All Immigrants Should Go Before a Proper Tribunal—Should Be a Business Administration of Transportation Problems of Canada.

R. B. Bennett, M.P. for Calgary, gave an address to the Canadian Club at a luncheon in McCone's yesterday. "The Relation of the Western Provinces of Canada to Confederation" was his subject. He said the law should be amended so that all immigrants should become naturalized citizens before a proper tribunal. Before every alien boat participant and emigrants to gather in all the naturalized citizens at the expense of the political candidates. These foreigners know nothing of Canadian history. Some of them could not speak a word of English, but still by such means they were granted the full powers of citizenship. He urged that the law be amended immediately and a great wrong rectified. The law should be as strict in Canada as it is across the line. "Why should a few Italians or Austrians, ignorant of our laws and customs, determine the balance of power?" he asked.

He said there was a lack of transportation facilities, there being only one funnel for western products, namely, the C.P.R., and he urged that the east and west in finding more and wider markets. He said "There should be a business administration of the transportation problems of Canada."

The prosperity and development of the west was being retarded against serious obstacles thru the fact that too many get-rich-quick methods were employed in real estate speculation. This was a severe detriment to farmers.

He said that 74 per cent. of the settlers in Alberta last year were Americans from insurgent states. They had accounted for some of the social unrest. These men were dissatisfied with conditions in the States. They had sought to escape the money trust which was throttling their lives. Thru the preaching of some of these men had come to believe that Canada was in the grip of the money power. This made them discontented here. If they had grievances against the States, they should have fought them there. He urged the press to preach the gospel of Canadian industry and create a common bond of feeling between east and west. He said sectionalism should be eliminated. The history of this country in the most important position of history and one geography in Canadian schools so that children could be taught completely about their great heritage.

**ROOSEVELT HITS RECIPROCIETY NEVER AGAIN SAYS THE COLONEL**

He's Fighting Hard for His Political Life and To-day's Primaries in Illinois Will Largely Shape His Destiny.

LAFAYETTE, Ind., April 8.—(Can. Press.)—All day long Col. Roosevelt fought as hard as he could fight for victory in to-morrow's presidential primary in Illinois. In his opinion, as he expressed it to-day, the result of the fight will be of first importance in determining the outcome of his presidency. When it was all over power, will I ever sanction the re-introduction of such an agreement.

"I am perfectly willing, and I am sure I speak for the farmers, when I say it, that the farmers should pay their fair share, but they are not to be required to pay everything for an agreement like that.

"And in any future tariff arrangement I wish to see it made a square deal in the interest of all."

They Came to Support Taft But are Now for Roosevelt.

ALEXANDRIA, La., April 8.—(Can. Press.)—Six Taft delegates from the state at large, instructed to vote as a unit for the president as long as his name is before the Chicago convention, were elected at the Louisiana Republican state convention, controlled by the Herbert-Loiselle faction, here to-day. All the negroes said they came here instructed for Taft.

After the convention adjourned, John L. Rogers, who heard the negro delegates from Caddo parish, declared his constituents would send a rival delegation to Chicago from the fourth district of Louisiana instructed for Roosevelt.

Steamer Ontario, Beached off Montauk Point, May Yet Be Saved.

MONTAUK POINT, N.Y., April 8.—(Can. Press.)—The fate of the steamer Ontario of the Merchants' and Miners' Transportation Co., which was beached here this morning, was still in doubt to-night. With her passengers safely gotten off, the steamer's crew of fifty men stuck to the ship, and at a late hour were still on board, fighting the flames in the hold. The fire, which had raged all day, appeared, however, to be slowly getting the better of the men and from the shore to-night flames could be seen bursting occasionally thru the forward deck.

Despite the doubt as to the eventual quelling of the flames, no fear was felt for the safety of the crew. The rescue cutters Atchafal and Mohawk and two wrecking tugs stood by to take the crew off in case the flames got completely beyond their control. The revenue cutter Seneca was also nearing the scene to give assistance. A wrecking barge lay alongside, into which the cargo, consisting mostly of cotton, was being off-loaded. There was, however, a considerable quantity of whiskey, turpentine and resin in the afterhold, which was being removed as rapidly as possible.

**W. W. DIES TREATY REINSTATED**

Important Announcement Expected To-day After Concluding the Conference.

OTTAWA, April 8.—(Special.)—The final conference between the Canadian and West Indies delegates on closer trade relations will be held to-morrow, when the final touches on the negotiations will be made. The three Canadian representatives, Hon. George E. Foster, Hon. W. T. White and Hon. J. D. Reid, spent a large part of today going over the proposals of the West Indians.

No official announcement as to the outcome will be made until to-morrow, but it is understood on the best authority that, unless something unforeseen happens to-morrow, the negotiations will be highly successful, and a treaty advantageous to both sides will be signed.

It is rumored that the agreement will follow the lines suggested by the commission headed by Lord Balfour of Burleigh.

**Minstrel Show To-morrow Night**

The first performance this season by the Underwood Minstrels will be given to-morrow evening. The entertainment is only for photographers and their friends, and tickets may be obtained at the office of the United Typewriter Company, 7 East Adelaide-street. The entertainment is complimentary, and only a few tickets are now available.

**A Blow at The White Plague**

Just think what it would mean if even half the deaths from consumption could be avoided. It is surely too much to claim that at least this many cases are directly due to neglect to "cure colds."

It is a simple matter to control a cold when you have Dr. Chase's Syrup of Linseed and Turpentine in the house for prompt use when the first symptoms appear. Many thousands have found this out by experience, and this is why no treatment for coughs and colds has anything like the sale in this country that this well-known medicine has.

Croup, bronchitis, whooping cough, sore throat and chest colds soon yield to the healing, soothing influence of this great medicine. You can readily prepare this and still then understand why this treatment is so popular.

WE all advertise.

A man advertises his character by his deeds, his wisdom by his words or by his silence. A merchant's store, stock, and windows speak either well or ill of his business.

So when a man says "No, I do not advertise," he knows not what he says. What he really means is that he does not publish printed advertisements.

Some proclaim this as though it were a virtue—yet spend much effort and invest much money in advertising their business through mediums other than the printed word

Opinion, you build good will for your product or service—a good will that results in profit.

If unrepresented at this Court, your interests are as unprotected as though, when involved in a law suit, you failed to "enter an appearance" and the case is decided against you—by default.

So it is clear you pay for advertising—one way or the other. If you pay it wages, it will work for you.

If you refuse its offers of service, it will work against you, in just the measure of its employment by your Competitors.

They may make their wares fit for a king—yet hesitate to introduce them to Brown or Smith.

This is inconsistency.

The truth is, printed advertising is a vital force in every business, just as is the "silent" advertising of a product's quality or a merchant's service.

## ERRATIC FLUCTUATIONS IN CHICAGO GRAM MART

### Sudden Collapse in May Wheat Option Started Timid Holders

—Favorable Crop Reports Inspired Easier Tone—Small Declines in All Grains.

CHICAGO, April 8.—An eccentric downward whirl of more than two cents a bushel in the price of May wheat to-day was taken by many speculators to indicate that the former bull leaders had been deserted by the trade and the public. Nevertheless, at the end of the session the nearby option was but little more cheapened relatively than either of the new crop futures. The close was steady at 1-8c and 1-4c to 1-2c lower than Saturday night. Corn finished 1-2c to 5-8c and 3-4c down, oats off 1-8c and 1-4c to 1-2c, and provisions less expensive by 1-2c to 1-4c.

## ST. LAWRENCE MARKET.

Receipts of farm produce were seven loads of hay and one load of straw. Hay—Seven loads sold at \$24 to \$25 per ton. Straw—One load sold at \$18 per ton.

Grain—Wheat, fall, bushel \$1.00 to \$1.07. Wheat, goose, bushel .93. Rye, bushel .91. Oats, bushel .65. Barley, bushel .63. Barley, for feed .62. Peas, bushel .13. Buckwheat, bushel .63. Seeds—Price at which re-cleaned seeds are being sold to the trade: Aleske, No. 1, bush .15.00 to \$15.00. Aleske, No. 2, bush .14.00 to \$14.00. Red clover, No. 1, bush .15.00 to \$15.00. Red clover, No. 2, bush .14.00 to \$14.00. Timothy, No. 1, cwt .18.00 to \$18.00. Timothy, No. 2, cwt .17.00 to \$17.00. Alfalfa, No. 1, bush .12.00 to \$12.00. Alfalfa, No. 2, bush .11.00 to \$11.00.

## HOGS IN PRIME DEMAND IN MONTREAL MARKET

Prices Advance Again—Cattle Firm But in Slow Demand—Trading Dull.

MONTREAL, April 8.—At the Montreal Stock Yards west end market the receipts of live stock for the week ending April 6 were 600 cattle, 120 sheep and lambs, 1200 hogs and 3000 calves. The offerings on the market for sale were 400 cattle, 25 sheep and lambs, 700 hogs and 2000 calves. There was no important change in the condition of the market for cattle, prices being firm, owing to the very small offerings, which is usually the case every year at the first market after the Easter trade. Butchers generally have sufficient beef on hand to supply their wants for two or three weeks, and consequently the gathering of buyers was small, and as the demand from the large packing concern was also limited, the trade on the whole was slow. A few choice steers sold at \$12.75 and top quality cows at \$10.50 to \$11.00 per 100 pounds, but the demand for all kinds of common stock was almost nil.

Corn suffered on account of the principal commission houses on the Bull side selling heavily and being followed by several of the foremost operators who had recently been investing with enthusiasm. The main incentive aside from seasonable weather, was the fact that, as in the case of wheat, the Danube had furnished a surprise, shipments from there being of remarkable bulk, to some extent, had a weakening influence on provisions.

Flour in the south, which are interfering with the cash meat trade to some extent, had a weakening influence on provisions.

Receipts of wheat cars at primary centres were as follows:

Receipts of live stock at the Union Stock Yards were 46 carloads—229 cattle, 12 hogs, 13 sheep, 13 calves and 23 horses. As a rule the quality of the cattle was good, with a few very choice loads. Owing to the light receipts and one or two dealers having orders from outside points, together with nearly all the local buyers being on the market, caused a sharp trade, which in some cases was not very long, as nearly everything was cleaned up at 10 a.m. The top price reached for one extra choice load of export steers was \$7.40, the same was paid for the present heavy market. Butchers' cattle, generally speaking, averaged from 10c to 15c per cwt. higher, as will be seen by the many sales quoted, which, when weights are taken into consideration, shows a larger percentage of high prices in proportion to the number of cattle on sale than at any previous market. But drovers must remember that it was the heavy market, and an outside demand for a shipment of cattle, that caused the present heavy market.

Should there be a heavy run next week, which many of the dealers and drovers anticipated, it is doubtful if these prices would hold good.

Exporters.  
Mr. Howard bought for Swift & Co. 24 steers, 1200 lbs. each, for Liverpool, at an average of \$6.00.

UPWARD MOVE IN STOCKS MET WITH SUDDEN CHECK

First Reaction in Some Days in New York Market—Wall Street Took Its Profits—Securities Held Up in Splendid Style.

NEW YORK, April 8.—While London and the continental exchanges continued their observance of the Easter holiday, the local stock market resumed its activity and advance. The rise was very irregular, however, being punctuated with frequent pauses and setbacks from profit-taking and renewed aggressions by the short interest.

Steel Report on Wednesday NEW YORK, April 8.—U. S. Steel Co. will publish its March unfilled tonnage figures on Wednesday. General impression is there will be small shrinkage due to fact that shipments of steel were smaller than in February.

WALL STREET POINTERS Receivers appointed for Allis-Chalmers Co. Pennsylvania miners hope for peace this week.

U. S. Steel and Union Pacific were the leaders of today's early movement, with gains of one to two points in the statements of railway traffic managers, and in another advance in prices of steel bars and tinplate. In the west, especially, revival of trade was shown in the further hardening of money rates.

Announcement that the "money power" investigation is to begin on Wednesday and that some of the foremost financiers and capitalists in the country are to appear before the congressional committee appeared to exercise no adverse influence in banking circles. As for the anthracite strike outlook, the best and most impartial opinion is that the operators will be induced to make further concessions, and that President Taft may be appealed to for arbitration.

Steel and U. P. Leaders U. S. Steel and Union Pacific were the leaders of today's early movement, with gains of one to two points in the statements of railway traffic managers, and in another advance in prices of steel bars and tinplate. In the west, especially, revival of trade was shown in the further hardening of money rates.

Call money did not get above 4 per cent. today, and supply was in excess of demand. Time rates hardened, partly in response to out-of-town withdrawals, and some further strengthening of local reserves. The cash movement since Friday shows a loss by

CONFIDENCE GROWS AS ADVANCE PROCEEDS The advance in the stock market has been compared to that which culminated in November, 1911, its similarity consisting in its continuous character. After the November rise and during the early days of December the market fluctuated irregularly around the high levels and then began a steady decline. That advance, however, followed the low swing of August and September, when the business situation was at its gloomiest under government prosecution, with the Steel suit and its sensational brief in the limelight. The swing up was the natural reaction of a wave which again, after the upward impetus was exhausted, inevitably swept slowly downward.

OUTLOOK IS FAVORABLE Chas. Head & Co. to J. E. Osborne: The market started the week with a continuation of the strong and active speculation that was the feature of last week's business. This was followed by reacting sales and prices dropped back from 1-2 to 1 point, but considerable irregularity developed. Closing was strong at near highest, tho a little irregular with the Rock Island booming. The outlook is still for activity and higher prices.

Railroad Earnings. Increase. Del. & Hudson, net for last year, \$2,811,900. Twin-City, March, 20,000 decrease.

Canadian Markets Closed Monday was a bank holiday throughout Canada, and the stock exchanges and mining markets were all closed. The London Stock Exchange, Liverpool grain market and all the old country financial institutions also observed the holiday. Across the border business was carried on as usual.

SETBACK IS DUE Erickson Perkins & Co. (J. G. Beatty) wired: With the undertone of stocks was extremely good, the weight of realizing sales produced some irregularity and weakness at times during the afternoon. A moderate setback would be a good thing and would bring in new buyers. It would increase the short interest. Stocks are acting all right, and will go to buy on sight. Avoid buying on sight. It will be interesting to note what effect the labor conference this week will have on stocks. The people have attached little importance to these developments. The money trust investigation begins this week; yet it is ignored as the market factor. The market is in the hands of conservative men and no one has any serious break to speak of.

ISSUE OF BONDS FOR WESTERN BREWING CO.

Company in Which Sir William Mackenzie is Interested Offers \$350,000 First Mortgage Twenty Year Sinking Fund Bonds.

Announcement of a bond issue on behalf of the Stanley Mineral Springs and Brewing Company of Winnipeg is made elsewhere in this issue today. The present bond issue is of \$350,000, first mortgage 20 year, sinking fund, gold bonds of an authorized issue of \$500,000 and \$500,000 of common stock, which will be given as a 20 per cent. bonus. The assets of the company, of an estimated value of \$600,000, are covered by a mortgage securing the bond issue. This is the company of which R. J. Mackenzie, a director of the Mackenzie, Mann Company, Ltd., is president. On the property of the Stanley Mineral Springs Co., half a million dollars is being spent in enlargements in order to add the manufacture of lager beer, ale and porter to the output of mineral waters, ginger ale and other soft drinks.

Estimated earnings are \$621,300, with the cost of operation placed at \$375,000, leaving a net income after deducting \$11,000 for bond interest and \$10,000 for sinking fund, of \$225,300, more than ten times the bond interest.

The present bond issue is for the purpose of providing funds for the improvements, enlargements and machinery. Additional bonds can be issued only for permanent betterments and for not more than 75 per cent. the actual cost of such betterments. The terms of the mortgage provide for annual sinking fund payments sufficient to retire the bonds at maturity.

RAILROAD EARNINGS IMPROVED IN MARCH Railroad gross earnings continue well above those of last year at this time, the total of all United States railroads reporting to date for the four weeks of March, as compiled by Dun's Review, aggregating \$9,777,841, a gain of 5 1/2 per cent. as compared with the earnings of the same roads for the corresponding period a year ago. This gratifying increase reflects the more favorable weather conditions in the United States, the following table are given the earnings of all United States railroads reporting to date for four weeks of March, 1912.

Table with columns: Road, 1912, 1911, Gain. Includes roads like Atchafalpa, Am. C. Line, Canadian Pac., etc.

Bank Clearings ACROSS THE BORDER Bank exchanges continue to show a substantial increase over both preceding years. Total last week at all leading cities in the United States aggregated \$3,811,822, a gain of 2 1/2 per cent. as compared with the same week of 1911, and of 10 1/2 per cent. in comparison with the corresponding week in 1910. New York City reported gains of 1 1/2 and 2 per cent., respectively. Average daily bank clearings below for three years:

## Carpets to Lay When the Mud Is All Gone

AN ANNOUNCEMENT OF UTMOST IMPORTANCE TO HOME FURNISHERS.

For some months we have been preparing for a very comprehensive and large spring display of entirely new carpets and rugs. It is now our pleasure to announce to you the completion of our stock. The entire Carpet Department has been re-arranged to facilitate the showing of goods to the best advantage. The stock is very large, and it has been our special aim to assemble both carpets and rugs, which are not only entirely new in design and color, but in weave.

We have unpacked a shipment of English Axminster Carpets and Brussels that are very attractive. Self blue centres with narrow chintz border, self greens with chintz borders, quaint art nouveau styles, old Persian reproductions, and small all over designs for the hardest wear.

The Axminsters are \$1.55 and \$2.15. The Brussels are \$1.10, \$1.45, and \$1.55. A specially heavy, serviceable Axminster Carpet, Superb hard-wearing Wilton Carpets in Oriental and self-color effects, at most moderate prices, \$1.55, \$1.75, \$2.00, and \$2.25 per yard.

A very good selection of useful and specially low-priced wool and union carpet, small self green, brown and well-mixed chintz, 36 inches wide cut, Heavy, per yard . . . . . 37c and 48c
