C.B.'S FIRST SESSION... DISTINGUISHED BY WORK

Feature of Autumn Meeting of British Parliament Will Be Education Bill Struggle.

London, Aug. 4.—The new Liberal parliament, which adjourned to-day, distinguished itself as a working parliament, and the ministers have every reason to be satisfied with the solid amount of legislation passed.

Besides passing the principal measure before it, the education bill, almost all the ministerial promises made in the King's opening speech, either were passed or reached an advanced stage in committee, which will allow of their being finished at the autumn session.

The Irish laborers' cottages bill, the colonial railways bill, T. P. O'Connor's musical copyright bill, and many minor bills were passed; and the colonial compensation bill, and the merchant's shipping bill are all in an advanced condition.

The Scotch crofters' bill, which, with the Irish laborers' cottages bill, probably will form the basis for eventually dealing with the land question in England also, was only introduced at the close of the session.

It goes to even greater lengths in the reform of land legislation than the Irish bills, and will be keenly contested by the Unionists.

The feature of the autumn session will be the struggle just opened between the two houses over the education bill. Lord Lansdowne, Lord Haldane and other peers are said to be determined to throw out the bill on its third reading if the house of commons declines to accept the amendments made to it in the hours of lords.

The government's enormous majority during the session did not show great cohesion and sedition was reduced to dangerous proportions thru the attitude of the labor section, and the disposition to divide itself into groups still remains one of the greatest dangers threatening the existence of the ministry.

OLD LADY INJURED

Car Started While Mrs. Grosberg of Chicago Was Alighting.

A cabdriver, who was the chief of police of Montreal had received no communication from England concerning the burial, and the funeral was delayed by S. Montgomery, master of L.O.L. 918.

The funeral will take place on Tuesday at 2:30 from 508 Spadina-avenue.

TORONTO CONSERVATORY OF MUSIC

The Toronto Conservatory of Music has issued its calendar and syllabus for 1906-7, which gives a very complete account of the objects of this institution and details of class work. Improvements are constantly being made, and during the past year a very complete telephone service has been installed, with phones in every studio. The Toronto Conservatory is now so well known throughout Canada that it is unnecessary to enter into a detailed account of its merits. Pupils desiring to attend will find much useful information in the calendar and syllabus, which is sent free of charge on application to several new departments.

CHICAGO ELECTIONS.

Senator Cullom Has Lead on Former Governor for U. S. Senator.

Chicago, Ill., Aug. 4.—For the first time in the history of Illinois, all the primaries of all the parties were held on the same day, and voters were given an opportunity to express their preferences thru the ballots for candidates for United States senator and to nominate by instruction other candidates from congressman down to sheriff.

The new primary law had its first trial and gave general satisfaction. In the tempestuous districts in Chicago the vote was large, but in the district where there were no local contests, apathy manifested, and in these precincts the vote was so light that it pulled down the total for the city to about 120,000 out of a total registration of 275,000 voters.

The greatest interest centered in the vote of endorsement of U. S. Senator, and of the nomination of Republican candidates in the second and the sixth districts, both in Chicago.

The voters cast their ballots for three candidates for U. S. Senator: Shelby M. Cullom, former Governor Richard Yates and Wm. G. Webster. The Democrats had no candidates for United States senator.

To-day's vote for U. S. Senator is morally, but not politically, binding on members of the legislature. In Chicago Senator Cullom received nearly twice as many votes as former Governor Yates, and from scattering returns thru the state the Illinois vote cast in Chicago for U. S. senator was: Cullom, 88,783; Yates, 21,297; Webster, 871.

Congressman Wm. Lorimer of the sixth district, and Congressman James R. Mann of the second district, both secured large majorities.

QUEEN ALEXANDRA'S LEAD

Mrs. Roosevelt Asked to Disapprove of Heron Plumes for Millinery.

New York, Aug. 4.—William Dutcher, president of the National Association at Audubon Societies, some time ago wrote to President Roosevelt, saying that Queen Alexandra had recently publicly made known her disapproval of the use of the heron plumes, and suggested that a similar expression from Mrs. Roosevelt would do more toward abolishing them than all the Audubon societies.

THAT WHICH IS GOOD.

Pat Not Your Trust in the Shoe of the Big Foot.

Because the makers insist on stamping the price on the shoe, many dealers will not handle the shoe. Dolly Varden shoes are made of genuine and stamped shoes on the bargain table, because they are never sold at twice their value. Only the maker who hoaxes you are Dolly Varden. Foot-rite shoes are sold at the price marked by the makers—\$3.50, \$4.00 and \$5.00 for Foot-rite, and \$4.00, \$4.50 and \$5.00 for Foot-rite. Stand by that which is good always.

ELECTRIC CARS COLIDE

TWO DEAD, SIX WILL DIE

Both Running at High Speed and Limited Telescoped Half Way Thru.

Vermillion, O., Aug. 4.—In a head-on collision between two passenger cars on the Lake Shore Electric Railroad this afternoon, two persons were killed, one is dying, six were fatally hurt, and forty-four seriously hurt. The dead: W. D. MOODY, Beach Park, O., mortally injured; FRED SMILEY, 22 of Lima, O. Fatally injured; JAMES YERRICK, Great Western Company, Milan, O., concussion of the brain.

The westbound Lake Shore Limited crashed into the regular No. 12 east-bound, three miles west of here, and the limited was telescoped more than half way thru its length by the west-bound car. Both were running at a high rate of speed, and the two cars met at curve about ninety persons comprised the passenger list of two cars.

The collision is said to have been caused by a misunderstanding of orders. St. Joseph's Hospital at Lorain is jammed with the injured, eighteen persons having been removed there on the first car moved from the scene of the wreck.

Witnesses of the accident and persons who rushed to the scene, attracted by the cries of the victims, say that it is a miracle that at least fifty persons were not killed. Both cars were limited to a speed of 15 miles an hour, in addition to its regular passengers, carried forty Lima Y.M.C.A. boys, who had just finished a two weeks' camp here, and were riding in the front vestibule with the motorman.

The passengers had no warning of what was coming. The car passed the siding under full speed. They did not know that they were to pass a car there.

LODGS BOW TO TIMES

Change Hour of Meeting to Get Their Speeches in "Thunder."

London, Aug. 4.—The London Times is now entering into competition with the other dailies in the delivery in the country, and consequently goes to bed at 11.30 p.m., instead of 3 a.m., as heretofore. The result was that this week the Times reports of the debates on the education bill in the house of commons closed at 11 p.m., omitting speeches made after that hour. Their lordships consider it so important to be reported in the Times, that they met yesterday at 10 noon instead of at 4.30 p.m., in order to finish the debate early to suit the Times' new arrangements.

Manager Star of the Star Theatre has received the full text of Judge White's decision in New York, refusing the injunction sought by Alfred H. Reeves against Sullivan & Kraus. He codified the laws respecting notes and bills of exchange in 1890, and assisted in codifying the criminal code of 1892.

PAID HIS OWN FINE.

Patrick V. Walsh, a local ball player, who engaged in a game at Wychwood, three weeks since, and who, during a squabble over a decision on a point in the game, was arrested and subsequently paid a fine, amounting to something over \$20 for his participation in the trouble, is much amused at the erroneous impression that his fine was paid by members of the ward in which he lives. He says he paid his own fine and any impression to the contrary is mistaken.

ENGINE TURNED ON END

FALLS OVER TROLLEY CAR

Obstruction on Rail Causes Peculiar Accident and Engineer is Fatally Hurt.

Syracuse N.Y., Aug. 4.—An old cog wheel, not more than four inches in diameter, lying unnoticed just inside a rail on the Lackawanna Railroad track, caused in the heart of this city just before noon to-day, one of the most peculiar railroad accidents ever witnessed here.

The engine was pulling a heavy freight into the yard when it was derailed at Onondaga-street. The front end of the engine caught in the gutter, and the momentum forced the heavy "mother Hubbard" engine into the cog in the rail, toppled it slowly to the left and it fell with a crash which could be heard for blocks, upon the end of a trolley car, which was standing at the crossing, waiting for the train to pass.

Querris is not to be interested in the prosecution of Finlayson.

SON ABSOLUTELY RIGHT

MRS. MANN THAN SAYS

Mother of Murderer Denies That There Have Been Disagreements.

New York, Aug. 4.—Mrs. Wm. Thaw to-day made this statement for publication while in the office of Clifford W. Hartridge, her son's attorney: "It was not on account of any influence on the part of my son that I changed my views about this case. When I came to New York I began to look into the matter and to study it. From my own observations from all that I could gather, I concluded that my son is absolutely in the right, and I have taken his views of the case."

Another impression that I wish to contradict is that there has ever been any disagreement or misunderstanding between Harry's wife and myself. We are all on the best of terms, and are working heart and head together. I really do not see why I should be asked to deny all these silly stories of disagreements. Evelyn and myself have often visited Harry and myself together. I am sure that neither of us had any ill-feeling existing between us. If I have appeared otherwise, I am sure that must be understood as I am burdened with the greatest sorrow of my life."

Mrs. Wm. Thaw and Mrs. Harry Thaw drove to the Catskills this forenoon and spent about an hour with Thaw.

MAUD FIGHTS FOR CHILD

Major McBride, However, Likely to Get Possession.

Paris, Aug. 5.—Mrs. John McBride's suit for divorce—she as Miss Maud Gonno, "the Irish Miss of Arc"—has developed into one of the most remarkable duels of forensic courts in the annals of the French courts. Maitre Cruppi, counsel for Mrs. McBride, and Maitre Labori for the major, of whom she would rid herself as a husband.

Labouri in his fine flights of eloquence, implied that the suit is a conspiracy of the French law on the ground that both parties are domiciled in France and that Major McBride, having recently taken the oath of allegiance to the British crown, could not claim to be judged by British law. Maitre Labori accepted the challenge, and asked Judge Ditté to take into account the British law in the interest of the unhappy couple's young son, born a French subject.

With the view of getting control of the child, Major McBride asks for a separation from his wife. He is foreseen he will get the judgment. For Judge Ditté asked Labori whether Mrs. McBride, failing a divorce, would accept a separation and Labori said she would.

Bannister of Winnipeg supported the groom. Mr. and Mrs. Rapp will reside in their new home, 417 Maryland-street, Winnipeg.

WOMAN'S WORLD

Which Hat is Yours? A woman is known by the hat she wears. The French sailor on the head of anyone over 15 indicates a lack of good taste. The turban proclaims a total absence of coquetry.

The picture that bespeaks the philosopher, and the toque, which is the sign of a woman of common sense. More than half a peck of flowers on any one hat betrays extravagance and conversational alliteration.

If the turban is the maiden aunt among hats, the harsh alpines is the bluest woman's delight. Beware the woman who wears an alpines. She has sharp elbows, and a sharper tongue, and she will justify the name of the car without a sang-troid born of the belief that the world and all that therein was made to accommodate itself to her wishes.

Newest Wrist Bags.

The very newest wrist bag is a square of silk, heavily lined and stiffened, but absolutely as wide as it is long. It is embroidered on the outside of the flap, and is fastened with a handsome button. It hangs from the wrist by a wide satin ribbon, which exactly matches the gown.

Another of the new bags is the leather bag, made of soft suede and hand-worked. It is whispered that women are taking the tops of the legs for the front of the bag, while the back is made of satin. The bag shape is deep, six inches wide and four inches long.

Yellow in Dress.

Yellow is, indeed, a remarkable color, serving, in its different shades, both blonde and brunet, says The Washington Times, and just a shade of yellow on the cheek, clad in a gown of softest yellow, with billows of cream or snowy lace about her neck, is a sign of loveliness. A warmer tone of the "sunny" color has a ravishing appearance worn by a beauty, just what is required to bring out its artistic excellence.

And everybody knows that a serviceable shade is the yellow brown, for knockabout and country wear, some tone or other of which is drawn in to add to every grade of stature and complexion.

English Earrings.

Earrings are another revived form of ornament that is now very fashionable, and they quite long ones are being bought and worn. They are very becoming to most women. They are barbaric in their fashion in order to imitate a jewel, no doubt, but what does that matter?—London Illustrated News.

Auto Hood.

One of the most practical hoods for automobilists is made of chiffon in any desired color. It is very large and has a drawing-stripe run thru a narrow casing down one side about an inch from the edge. This is the front edge of the hood, and is hooked to the hat, it is hooked to the back of the face, drawn down to just frame the face, and then the back, which is fitted with a drawing-stripe, is drawn in and another drawing-stripe is drawn in and then the back of the neck when worn. These hoods are really very pretty, and when made of light blue or pink colored auto coats, are most attractive. Chiffon and worn with white or ecru-colored auto coats, are most attractive. They are the smartest of hats, and protect from the smartest of hats.
