**ORTHODOXY HAS NEVER BEEN DOUBTED**

Rev. George Jackson Replies to Sensational Attack Made Upon Him by Rev. Dr. Carman.

A precise theory of the origin of the universe and of man and of sin was surely no essential part of the Christian faith. The early chapters of Genesis contained no sober summary of the real beginning of things. If they could lay aside their theological prepossessions they would never accept the story of the creation of man and the fall as a record of actual fact, but say it was myth, legend or allegory. Similarly, in the light of science they could not accept the story of the flood as a universal deluge, of which Noah and his progeny were the only survivors. At one point in a people's intellectual development myths constituted their intellectual stock, and why, then, should it be surprising to find a universal phenomenon utilized as a vehicle of Divine truth? The modern interpretation of the Old Testament did away with the need of apologists, and cut the ground away from beneath the feet of the scoffer. —Words attributed to Rev. George Jackson, which have aroused Dr. Carman's wrath.

Rev. Dr. Albert Carman, Methodist pontifex threw a torpedo into the quiet waters of the connexion yesterday. No doubt the doctor would regard himself as an angel coming down to trouble the waters of the pool, but already there are the most divergent views on the hallowed or unhallowed nature of the disturbance.

The torpedo took the form of a letter to The Globe, which Dr. Carman seems to regard as next to the Bible in authenticity. This is not necessarily to give the organ apocryphal rank, but merely indicates a point of view.

The letter itself was an attack on Rev. George Jackson, one of the most highly esteemed Methodist ministers in Great Britain, who has journeyed to Toronto for a few years. Mr. Jackson has been called to the chair of Bible study in Victoria College and is therefore a shining mark for the practice of ecclesiastical thuggery.

Nothing quite so brutal as Dr. Carman's letter has appeared in the Canadian press for many a long day. Rev. Mr. Jackson is a man trained in the school of the late Henry Drummond, a very apostle of the love of Christ, gentle, earnest, conscientious, profoundly studious. Dr. Carman goes to the Old Testament for his model and rules by fear, coarseness, obstinate prejudice, and traditional dogma.

**How Dr. Carman Writes.**  
 This is the way the head of the Methodist Church refers to a courteous Christian gentleman attached to one of the churches under his care, a gentleman, too, of international reputation:

"It ought to be understood that Mr. Jackson is neither a minister nor member of the Canadian Methodist Church. Nor is he amenable to any of our conferences or courts, but a 'free lance,' not responsible to anybody in particular, and it is something of a problem to say who is responsible for him.

"He came to us in Canada as a minister from Britain, hired as an assistant, it seems, to a church in this country, under some such arrangement as I trust may never be repeated in our Methodism, dishonoring and submerging the regular pastorate, and throwing wide open the doors to all manner of irregularity. The annual conference must have put some confidence in him, for it exacted no bonds. The esteemed brethren who employed him, generally careful of church order, must, I think, have trusted him or surely they would not have entered into so unmethodical and so utterly an anti-conventional complication. How their employe has observed the claims of hospitality and kept the precious trust recent disclosures demonstrate.

"To cast upon the conference that gave him shelter, and so upon the body of brethren the imputation of insincerity in their opinion, cowardice in their utterances, and deceit even in their

Learned and Respected Theologians Who Sympathize With Mr. Jackson's Views.

The Methodist Ministerial Association will meet in the Y. M. C. A. Building on Monday morning and will then discuss fully the Carman-Jackson controversy. Until then they prefer not to be quoted.

Others are not so reticent. Chancellor Burwash of Victoria College, to which college Rev. Mr. Jackson has been appointed as professor of the English Bible, made the following statement:

"I think, in all fairness, that Mr. Jackson should not be judged until the full contents of his lecture before the Y. M. C. A. are before the public. The newspapers gave the negative side, which concerned the outside form of the revelation. The divine contents are, of course, the important matter."

Dr. Carman is a member of the Victoria College Board of Regents.

The pulp supply committee of Sherburne-street Methodist Church met yesterday and passed a resolution of confidence in their pastor.

A. E. Kemp, a member of the trustee board of the church, said:

"Dr. Carman appears to be under the impression that a man who may be considered theologically sound to the British Wesleyan Conference may not be acceptable to the Canadian Conference. I imagine that the British Conference is just as careful on this point as we are in Canada. The people of Sherburne-street Church have every confidence in Mr. Jackson, and my own opinion is that it is not necessary for a man to be a Methodist and at the same time take as literally true, in the most superficial way, every word in Genesis. I am glad to listen to a man like Mr. Jackson, who can throw a little light on these matters, and also, in my opinion, the day has gone by when it is necessary for Dr. Carman to try and shove down the throats of everyone the literal interpretation of every-thing contained in the Book of Genesis."

The World was accorded the privilege of interviews with Rev. Prof. McCurdy and Rev. Dr. Milligan last evening, who both supported Rev. Mr. Jackson.

**Prof. McCurdy Endorses Mr. Jackson.**  
 Prof. J. F. McCurdy of the department of oriental languages in the University of Toronto, himself a writer of note on Biblical criticism and allied subjects, spoke freely to The World of Dr. Carman's attack on Rev. George Jackson.

"Dr. Carman," he said, "fails completely to understand the teachings of Mr. Jackson on these subjects. Mr. Jackson is a most reverent man. He is one of the most able and scholarly. I may say of the best expounders of the Bible we have in Toronto to-day."

"Moreover Dr. Carman grossly misrepresented the position of modern scholarship. No thinking student of the Bible to-day holds such views as he puts forward. Mr. Jackson came here to preach the truth as he understands it, the truth which, as we know, is revealed to diverse persons and in diverse ways. To the apparently Dr. Carman thinks it was revealed only in one way."

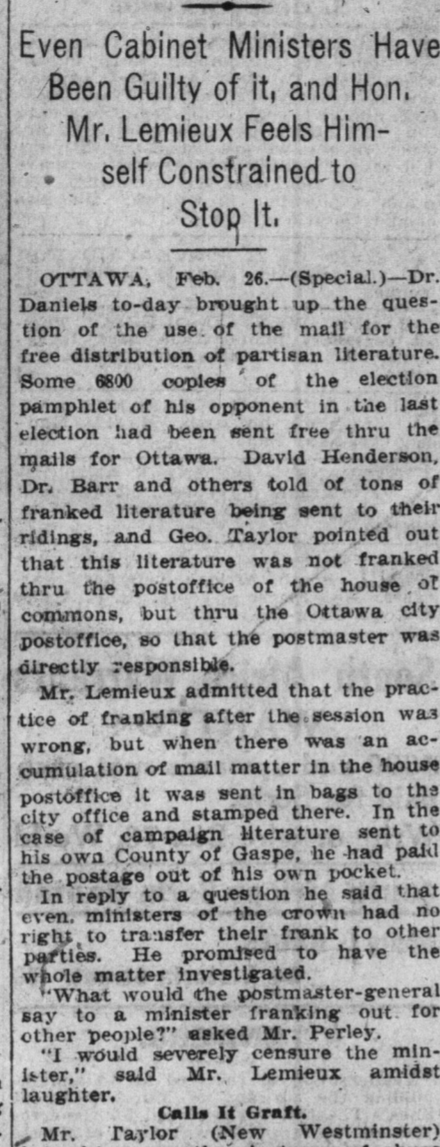

"It might also be noted that these subjects are apart from the general line of Mr. Jackson's teaching. He speaks on them rarely, and it was not at his own instance that he delivered the now famous address before the Y.M.C.A."

The insinuations of insincerity in Mr. Jackson's position at Sherburne-street church, Prof. McCurdy regarded as quite unworthy and unjustified. The animus for the attack he found in a desire to hold Mr. Jackson the dissident himself from the justice of Methodism in view of his approaching connection with the staff of Victoria College. He thought the staff of Victoria would be united in Mr. Jackson's favor.

He recalled how some 20 years ago a similar attempt was made in the Presbyterian Church in the United States, with the result that to-day views were being openly taught in

**HAMILTON DETECTIVES NOT AFTER A TRAMP**

Chief Smith Promises Developments for the Inquest—Provincial Detective Miller to Assist the Case.

HAMILTON, Feb. 26.—(Special.)—There are now three rewards aggregating \$2000 for evidence leading to the detection of the murderer of Miss Ethel Kinrade. The family are offering \$1000, and the city and the government have supplemented with \$500 each. Provincial Detective John Miller has been detailed on the case. He arrived in the city this afternoon, but did not receive instructions until tonight to work on the mystery. The request for Detective Miller's assistance was made to the attorney-general's department through Hon. John S. Hendrie, who to-night telephoned Mayor McLaren objects to the way he was reported in connection with the case. What he says he said is: "My belief is that it was not the deed of an ordinary tramp."

The police are receiving alarms constantly about tramps answering the description given by the family, but have failed to obtain anything satisfactory. A belated report reached the chief this evening that a tramp bearing resemblance to the supposed murderer had been seen in the east end of the park under the mountain at 5 o'clock yesterday afternoon.

The inquest will be held next Wednesday evening, and Chief Smith spoke hopefully this evening of being able to throw important light on the mystery before that time. The detectives who are investigating admit that they are not looking for anyone of the hobo order.

Some speculation is being indulged in as to what Mr. Kinrade had in mind when, yesterday, while his daughter was telling him of the shooting, he said:

Got Inundated With Notifications and Decided He Would Throw Up the Job.

Henry Sheard was appointed license commissioner by the government and didn't know it.

Henry Sheard has resigned as license commissioner, and the government doesn't know it.

That's evening up.

He declines to give reasons for so doing beyond the fact that too many invited notifications concerning the office were being heaped upon him all at once.

At 8.30 Thursday morning he received the notice of his appointment, and in the same mail came a registered letter from the city clerk's office, containing a copy of the by-law and officially sealed instructions regarding its purport, with broad emphasis on the fact that the number of licenses should be reduced to 10. When he went home that afternoon at 2.30 he found a notice of the first meeting to be held the following day, requesting his presence and enclosing the agenda.

He concluded it was coming pretty strong; so he will resign. He didn't attend yesterday's meeting.

Neither Hon. W. J. Hanna nor Eudo Saunders had seen Mr. Sheard's resignation last night, so the question of filling the vacancy had not been considered.

NASHVILLE, Tenn., Feb. 25.—That 13 members of the state senate have fled the state to defeat the purposes of the recent election laws passed over Gov. Patterson's veto is asserted in well informed circles to-night.

The 13 members were declared in contempt of the senate by that body to-day and the sergeant-at-arms was instructed to go in pursuit of them.

**HARD TO REMOVE LEVEL OF THE COMBINE**

Dominion Grange Wait on Government With Request for an Investigator and a Public Commodity Commission.

OTTAWA, Feb. 26.—(Special.)—Two suggestions were made to-day to Hon. Mr. Fielding and Sir Richard Cartwright by E. C. Drury and other members of the Dominion grange for the curbing of combinations in restraint of trade.

One was that an officer or board be appointed by the government to investigate the combines, and that where these were shown to restrain trade and work hardship on small independent dealers, the tariff should be so lowered as to compensate a return to fair prices; and that in the case of tariff or application to have the tariff on certain articles reimposed the onus of proof that the market conditions have been removed must be on the party applying.

The other suggestion was that the government create a commission similar to the railway commission to fix prices on commodities.

The first suggestion came from Mr. Drury, and the second from J. W. Curry, K.C., of Toronto, who gave the ministers some concrete instances of the existence of combines, and an account of what he did to prosecute some of the combines when he was crown attorney.

He proposed that the prices fixed by the commission should not be put into effect until the market had been investigated by the government. He showed that in many cases the combines lowered prices to force a competitor out of business.

"Do you think we could devise any scheme to prevent them lowering their prices?" asked Mr. Fielding.

Mr. McColl, M.P., said that the proposed board might prevent a return to the higher prices if it could be shown that they had been removed to squeeze out competitors.

**Disastrous to Remove Tariff.**  
 Mr. Woods of the Gordon, Mackay Co., Eganville, declared that it would be disastrous to remove the tariff. The blanket men, he said, were suffering from internal competition, and not from competition from abroad, and the tariff should not be increased. The secret of affording relief to the woolen industry was not in increasing the duty, but in admitting the tariff raised in this country was not suited to the wool industry.

Mr. Woods exhibited some samples of kitchenware articles imported in Canada being from 40 to 80 per cent higher than the same articles produced in the United States after the duty on the latter had been paid.

Mr. Drury made a strong anti-protection speech, claiming that the farm population had been decreasing since 1878, largely owing to the adoption of the principle of protection.

Mr. Fielding suggested that this was due to the natural tendency to drift into the cities, and that it would be while Sir Richard thought that exodus to the northwest had a good deal to do with it.

**Reply to the Request of the Deputation for Board of Investigation.**  
 Hon. Mr. Fielding said that it was not desired that a result should be the existence of combines, but it pointed out that in his first budget speech of 12 years ago he had made an effort to meet this difficulty by inserting an anti-combine clause in the tariff of that year, to the effect that the government might reduce the tariff or remove it altogether on certain articles, if it had been represented to the government that it was taking a dangerous power into its hands. A great many of the manufacturers were of the opposite political faith and the moment the government took advantage of its powers it would be said it was doing so for political purposes, and that the operation of the clause might mean the ruin of the manufacturers aimed at. These representations were so strong that it was decided that there should be a judicial investigation before the powers were exercised.

Mr. Fielding also reminded the delegation that there was an anti-combine clause in the criminal code which any person was free to take advantage of. He thought that it would not facilitate the pursuit of the combines by creating a board. Valuable as had been the railway board it very often required weeks and months to reach a conclusion, and what the public wanted was speed in dealing with the combines. However, he promised to lay the views of the deputation before the government.

**Sir Richard's Free Trader.**  
 Sir Richard Cartwright's idea, was that the remedy lay in rooting out the protective system. He had not, however, succeeded in convincing his colleagues of that.

**THE INAUGURAL BALL**

Great Preparations Being Made for Brilliant Event.

WASHINGTON, Feb. 26.—In preparation for the inaugural ball on the evening of March 4, the transformation began to-day of the barn-like court of the pension building, the largest brick building, it is said, in the world, into a veritable fairyland.

The decorations for the ball alone will cost about \$20,000, exclusive of the framework. There will be between 7000 and 10,000 incandescent electric lights used and miles of wire. In the court scheme there will be used 2000 blooming plants and hundreds of growing American beauties and crimson rambling plants, in addition to hundreds of dozens of cut flowers.

H. Westerbee Wins Two Bouts M. Dorsey Beaten in 1 Round

Preliminaries of City Amateur Tournament Decided Before Big Crowd in Rivendale Arena.

The preliminary bouts in the City Amateur Boxing Tournament were brought off last night before a good ringside and gallery crowd at the Rivendale arena, where excellent arrangements have been made since a good night's sport was witnessed.

The first bout was between W. Peaty, British United, and F. Judge, Crescent, in the 105 lb. class, and went an extra round, the decision going to Judge.

In the 112 lb. class A. Goodman, Reliance, could not make weight in the 105 lb. class, and put up a good fight against A. Willis, B.U., and winning with almost a knockout in the third round with a stiff right and left punch.

In the 118 lb. class W. Mara of the Dons did all the leading and won easily, the bout going the limit.

Ed. Doyle of the Reliance was over weight in the 105 lb. class, so went on with J. Cruise of the British United in the 112 lb. class. Both put up a good clean article, the bout going the limit, Cruise, having the advantage in reach, outpointed his opponent.

In the next bout of the 118 lb. class H. Westerbee, West End, easily disposed of K. McFadden with a clean knockout in the first round, a right swing to the jaw putting McFadden to the boards.

J. Lansdowne, British United, won his bout in the 118 lb. class against M. O'Brien, Dons, the bout going the limit, O'Brien, saving a knockout in the third round. Both mixed it up, but Lansdowne had the science, which won out.

Special Finals To-Night. -Bantam, 105 Pounds. M. Shea (Dons) v. F. Judge (Thistles). W. H. (Dons) v. J. Dixon (Thistles). -Feather, 112 Pounds. -Goodman (Reliance) v. J. Cruise (British United). S. McKay (British United) v. W. Still (East End).

STRAFORD 7 BERLIN 8 QUEEN'S CHAMPIONS

Laval Tie Varsity, While U.C.C. Defeat St. Andrew's—Queen's Wallop McGill.

BERLIN, Feb. 26.—(Special)—Stratford Juniors again defeated Young Dutch here to-night, but this time they had a narrow squeak, the score being 7 to 6, and until a very few minutes of time Berlin was ahead 6 to 5. In the last half particularly Berlin had the better of the play, but the visitors' big defence was too much for them. In size Stratford players were so much bigger that it looked like a team of boys playing against men. This was Berlin's first year in the Junior O.H.A. and they have nothing to be ashamed of in the record they have made. The team lined up as follows:

Berlin: (Goal) Reinhart; point, Boettger; cover, Baetz; rover, Schlegel; centre, N. Selbert; left, F. Selbert; right, Arnould. Stratford (7): Goal, Dillon; point, Richard; cover, Preston; rover, Rankin; centre, Dorland; left, Simpson; right, Bradshaw.

GRAVENHURST, Ont., Feb. 26.—In an exhibition Intermediate O.H.A. game here to-night, Gravenhurst defeated Orillia by 9 to 7. It was the fastest game seen here for years. The sensational rushes of Lavours and Chase were the feature of the game. Lafanier and Fielding starred for the home team. The score at half time was 4 to 3 in favor of Gravenhurst. The line-up was as follows: Gravenhurst (9): Goal, Russell; point, Kuhn; cover, Mount; rover, Fielding; centre, Lafanier; right wing, Hill; left wing, Bailey.

Orillia (7): Goal, Grant; point, Thompson; cover, Nichols; rover, Macey; centre, Chase; right wing, Kennedy; left wing, Layoung. Referee Duncan gave good satisfaction.

STIRLING, Ont., Feb. 26.—A fast game of hockey was played here to-night in the Trent Valley League between Stirling and Marmora, resulting in a victory for the home team by 7 goals to 1. The referee, F. Dillon of Trenton, was strict and impartial. The line-up: Stirling (7): Goal, Grant; point, Whitty; cover, Taylor; rover, Betts; centre, Fletcher; right, Kennedy; left, McMillan. Marmora (7): Goal, Grant; point, Chapman; cover, Brebber; rover, Langdon; centre, B. Scott; rover, Gross; right wing, Glebe; left wing, McEwen. Referee, A. Moncrieff.

U. C. C. v. St. Andrew's 1. Before a large crowd of enthusiastic supporters, in a game that was marked by much roughing, Upper Canada defeated St. Andrew's College in their annual school match yesterday afternoon at Mutual-street. By a score of 4 to 1 U.C.C. scored the only goal in the first half. Both schools were in force, the home rooting being tremendous, both before and during the match. However, U.C.C. were the better team, and deserved to win, although St. Andrew's held them well in hand in the first half, it taking twenty-five minutes for U.C.C. to get a try. The teams: Upper Canada (4)—Goal, Gallinger; point, Oughton; cover, Callaghan; rover, Carruthers; centre, Pontbriand; left wing, Burkhardt; right wing, Gouinlock. St. Andrew's (4)—Goal, Thompson; point, Raymond; cover, Kilgour; rover, Matheson; centre, McKinnon; left wing, McPherson; right wing, Duff; left wing, Hattie; left wing, McDowell. Referee—F. C. Waghorne.

The Summary. -First Half. U.C.C. v. Burkhardt 27-00. U.C.C. v. Caldwell 5-00. U.C.C. v. Carruthers 7-00. St. Andrew's (2) v. U.C.C. 2-00. U.C.C. v. Carruthers 4-00.

Deseronto 13, Napanee 3. -Deseronto Seniors easily trimmed Napanee Seniors in an exhibition game of hockey here to-night before a crowd of 150. The score at half time was 9 to 3 in favor of the local senior. There was a large crowd watching the game. Deseronto have played eight games this season and lost none. The teams were: Deseronto (13)—Goal, Sayers; point, Freeman; cover-point, Thomas; rover, T. Brant; centre, Dube; right wing, B. Brant; left wing, Jones. Napanee (3): Goal, Stacey; point, Wager; cover-point, McNeil; rover, Scott; centre, McLaughlin; right wing, Duff; left wing, Stacey. J. Walters of Napanee refereed the game.

Drumbo 6, Ayr 1. -DRUMBO, Ont., Feb. 26.—Oxford-Waterloo League game here to-night before Ayr and Drumbo, the latter winning by 6 to 1. The teams: Ayr (6): Goal, McLean; point, J. Blackie; cover-point, S. Morton; rover, W. Renne; centre, B. Love; right wing, H. Shoenberg; left wing, F. Watson. Drumbo (6): Goal, Gordon Burgess; point, J. Lillie; cover-point, A. Grievess; rover, Bert Wilkinson; centre, G. Avery; right wing, J. McTaggie; left wing, Andrew Laurie. Referee, W. Hearn.

Junior O. H. A. Finals. Stratford Juniors have drawn the bye in the Junior O.H.A. semi-finals, Barrie and Eureka playing with the first game here Tuesday and the return at Stratford on Thursday. The final game of the final is billed for Mutual-street Saturday night, providing Eureka win.

Winnipeg to Play Edmonton. WINNIPEG, Feb. 26.—The Shamrock Hockey Club members who have been anxiously awaiting a reply to their challenge for the Stanley Cup, have practically decided to call the games off on account of the delay in the return of the return Cup, which the westerners accepted a reply. However, they have challenged the Edmonton team for the return Cup, which the westerners accepted a reply. However, they have challenged the Edmonton team for the return Cup, which the westerners accepted a reply.

Grand 11th Trophy. The meeting of the Canada Life Trophy committee will be held to-night at 8 o'clock at Lakeview Club, Harrison-street.

George Bernard, a well-known Australian sporting man who has just arrived in London, tells a remarkable story about the Burns-Johnson fight, says The New York Sun. He says that before the fight began Johnson and his manager, Sam Fitzpatrick, received an offer of \$100,000 cash to throw the fight to Burns. In view of the fact that two of their players are not eligible for the Stanley Cup series, Galt has decided not to go after the cup and Manager Buck Irving therefore saved a lot of expense and the Ontario League a bad showing up.

Stratford Forty Shots Down in Afternoon. But Tie in Evening. -BRAMPTON, Feb. 26.—(Special)—Stratford curiers visited Brampton with their rinks in a friendly game. They played two games, one in the afternoon and one in the evening. A very enjoyable day was spent with the visiting curiers.

MacFadden, secretary and treasurer of the Ontario Curling Association, of Toronto, came out on the 2 o'clock train and spent the day with his fellow-curiers from his old home. The afternoon game was won by Brampton curiers by 40 shots, and the evening game was a tie. The following were the scores: -Afternoon Game.—Brampton—Meyers, 10; Shreve, 6; Baker, 10; Allan, 10; Cash, skip, 12. Stratford—Steele, 10; Maynard, 10; C. Turnbull, 10; Ballantyne, skip, 6. W. W. Story is Denied. CARLISLE, Pa., Feb. 26.—The story given out to-day in Spokane by Albert Payne, a former member of the Carlisle Indian football eleven, to the effect that several members of the Carlisle eleven had left the Indian institution, is emphatically denied by the authorities here. The authorities say that Payne was dismissed from the school several weeks ago for intemperance and will be barred from the team. It is denied by the school officials that any of the other players have had any trouble, and they say that the opening of the football season will find the team intact.

FRED DIVER PRESIDENT OF MASTER PRINTERS

Head of Central Press Given Distinguished Honor at Association's Annual Meeting.

The election of Fred Diver as president of the Master Printers' and Bookbinders' Association for 1909 is an honor conferred upon one of the most successful and prominent business men of the city.

For the last thirty years Mr. Diver has been owner of the Central Press Agency, and has been brought in touch with the newspaper fraternity of nearly every Canadian city and town.

The occasion on which Mr. Diver was yesterday chosen to this important position was the annual meeting and banquet of the association, at which W. P. Gundy, past president, presided.

The other officers elected are: Vice-president, F. H. Stearke, secretary-treasurer, R. H. McBride, executive, A. F. Rutter, Atwell Fleming, Richard Brown, S. R. Hart, George M. Rose, H. L. Thompson, T. Blaber, J. M. Robertson, R. T. McLean, Dr. William Briggs, W. P. Gundy, Douglas Murray, Richard Southam, A. McComb, S. E. Hall, J. E. B. Littlejohn, A. E. Chatterton and James Acton.

Mr. Diver was not present at the meeting, being unavoidably absent in Montreal.

Postal Rates Satisfactory Among those who have addressed was S. R. Hart, who informally proposed the toast of "The Craft," which was responded to by James Acton, who referred to the postal service for newspapers, periodicals and other publications as very satisfactory.

In regard to changes, however, he believed there were some needed. He suggested, however, that the executive consider those needed and interview the postmaster-general.

Rev. Dr. Redditt, A. F. Rutter, Atwell Fleming and R. Carswell were of the opinion that the school system of the day did not equip boys for the trade in the days of old. The subjects taught to-day were too general, and not particular enough.

A Bubbling Favorite. Steadily growing in popularity among all classes of the community is that bubbling, sparkling, invigorating and refreshing water, radnor.

The spring from which radnor gushes forth is situated in the foothills of the Laurentian Mountains, where the water has undergone a blending process of the manipulation of the great hands of nature.

When drinking radnor one can be sure that the water is pure and natural and makes the best of all mixers with whiskey, wines or milk. 67

A COUNTRY WITHOUT PEOPLE'S NO GOOD

Every Man Goes Into the Country Worth Silver. "On Sunday it seemed as though the man in the camp was drunk," said J. B. Tyrrell, the well-known mining engineer, who has just returned from Gowanda. "Unquestionably large amounts of liquor are being smuggled into the country. We are in need of a system of provincial police for the north country, who will have summary powers such as are given to the North-west Mounted Police. As it stands now there is no method of bringing to justice summarily the man who is detected selling liquor and weeks may elapse before his case is brought to trial. If the culprit is dealing in liquor illegally the three weeks before he is detected and his appearance in court at Halleybury give new opportunity for further breaches of the law."

Mr. Tyrrell went in over the government road from Elk City and came out by way of Sellwood. The weather was bad on Wednesday and rain was falling. A plow has been sent out over the Sellwood road to keep it in good condition. He stated that there must be five hundred teams operating on the two roads and the rush into the country continues unchecked.

Mr. Tyrrell is of the opinion that the government is not devoting the attention to the country that it should. "For years," he said, "we were trying to induce people to go into that country and the T. & N. O. was projected as a colonization road for this purpose. Now that the people want to go in they are checked in many ways. The government should do everything possible to encourage this movement, and give the people to feel that their presence is desired. Every man who goes into that country is worth so much to it. A country without people is no good. Complaints should be listened to courteously and sympathetically at the parliament buildings."

In mining, whatever is done must be done quickly. It is during the period that interest is running high that capital can be interested, and if this is allowed to pass, the opportunity to bring in outside money for development may pass. Capital and population are needed in a country such as this and the movement into western Ontario should meet with fullest official appreciation.

Mr. Tyrrell is not given to extravagant utterances with respect to mining, a fact that very well known to those who have the honor of an intimate acquaintance.

It is regarded as quite sufficient with respect to Gowanda, that the people want to go in. "I am favorably impressed," "In a few more weeks the roads will be impassable," said Mr. Tyrrell, "and traffic into the country will be stopped. This is a serious problem and one which the government must face quickly. There is no blinking at the fact that if the road is built from east to west miles of corduroy will have to be laid, for the route is a succession of hills and depressions from Elk City. A route from the south is practicable, but the fact is that only about four weeks remain before hundreds of men will be isolated except by pack trail, for the canoe routes are not usually open until well on in May."

peace, of the purity and power of Holy Scripture, and of the power and work of the Holy Spirit. This is the Christian faith. He will know that the Christian faith is not a matter of a few years or a few centuries—a matter of a few months or a few days—but that it is a matter in the plans and purposes of the all-wise God thru all the infinities and all the eternities.

Dr. Carman's metaphor drawn from the bagno is suggestive of a mind habitually working on a low level. The suggestive passage about losing "himself in the drapery" is simple obscenity.

Whether the theological merits of the question, and Mr. Jackson is quite able to defend himself, is it not a huge loss to Canada that such a leader as Dr. Carman might ever fail utterly to exhibit the spirit of Christ at a juncture when this is especially necessary? As one Christian to another, as a Canadian to one born over seas, as a man to a man, Dr. Carman had a chance to show

Instead of scornful pity or pure scorn. Such fine reserve and noble resolution. Matters so kind, yet stately, such a grace

Of tenderest courtesy, that the greater cause might have been and the less in no way weakened.

Rev. Mr. Jackson Replies. Rev. Mr. Jackson, who has arisen every my recent address at the Y. M. C. A. A few trusted friends whom I consulted—including Chancellor Burwash—fully concurred in my opinion. My silence was on every ground the wisest course. But the letter of Dr. Carman in your issue of yesterday morning compels me to speak more fully.

"Let me say, in the first place, that since the publication of the report of my address I have had no communication of any kind whatever from Dr. Carman. It is not for me to instruct the general superintendent in matters of procedure, but I cannot help feeling that he should at least have shown a more generous spirit if before assailing me in public he had given me the opportunity of talking the matter over with him in private."

"Still more do I regret the terms of contempt in which Dr. Carman has chosen to refer to me. I am, he tells your readers, a minister from the gale of His Son; nor has He left me in this country, to whom the Toronto conference 'gave shelter.' If I had been some poor clerical vagrant peddling knockings at the door of Canadian Methodism, the language might have been pardoned. But does not Dr. Carman know that for 18 years I held in Edinburgh an honorable position under the British Wesleyan Methodist Conference, and that it was only at the call of the Sherbourne Street Church, Toronto, that I left my work in Scotland to come to this city? The general superintendent cannot be ignorant of these things. Why, then, should he speak of me as if I were some nondescript wanderer for whom nobody was responsible? This, however, is a matter which affects the honor of the Sherbourne Street Church officials, to whom I may safely leave to speak for themselves."

Trust His Will. "But even this is not all. I am guilty according to Dr. Carman, of an 'abused trust, a violated hospitality,' and what is if possible still worse, of 'debauching the public mind' by my religious teaching. Well, I do my best to keep a sharp eye upon myself, and I must be remembered that I have never in my life labored in any sin, private or ministerial, is laid upon me, I shall have much to answer for, but in all honesty I cannot see how I can be held responsible in regard to Dr. Carman's language. Let my brethren whom I meet every fortnight in our congregations and in the night in our preachers' meetings and in the day in the public press, judge for me every week say whether or not it is deserved."

"And now let me add a few words regarding the address, the report of which has so stirred up Dr. Carman's indignation. It was not a new address; it was given first in my own church in December, 1907, and repeated at the Toronto meeting and repeated by request at the Y.M.C.A. If it was wrong to deliver such an address in such a place, I am not to be held responsible for it. I have nothing to retract. They were not meant thoughtlessly, but deliberately and after due consideration. But, let it be noted, it is by the whole address that I stand, not merely by the brief scraps of it that appeared in the public press. Every public speaker knows from painful experience what a very different look his words often wear when they are read without the balancing and qualifying statements for which the exigencies of the press leave little room, and if Dr. Carman had but given me half an hour to read him some of the things which were in my address, but were not in the reports of it, I will do him the justice to believe that he had written at all it would have been in a very different strain."

"To restate and defend my belief concerning the Old Testament, in the course of a single letter, is obviously impossible, nor do I feel that I am under any obligation to any man to discuss matters of this nature. But in order, if possible, to allay uneasiness in the minds of some of those whose good opinion I entertain in high regard, let me attempt something of the nature of a brief personal confession of faith."

Orthodoxy Never Challenged. "For nearly twenty-two years I have been a minister of the Methodist Church. Year by year in our annual district synod at home, when the usual question was put concerning each minister, 'Does he believe and teach our doctrines?' I have answered, as I answer still, with an unreserved and unhesitating 'Yes,' nor has my orthodoxy once been challenged. I believe, I have never doubted, I have never once called in question, the inspiration and authority of the Scriptures, both Old Testament and New. At this moment I have in preparation an address to be delivered at our next monthly men's meeting on the subject: 'Does the Old Testament contain a Divine Revelation?' and the address is intended to be from first to last one long, emphatic, unequivocal affirmative."

"And within the compass of that answer, let it be clearly understood, I include the early narratives of the book of Genesis. Indeed, in my address to the Y.M.C.A. I distinctly stated (quoting and endorsing the words of Dr. Denney) that the man who cannot hear God speak to him in the story of Creation, and the Fall, will never hear God's voice elsewhere. Where, then, it will be asked, do I differ from some of my brethren?"

JAP SUGGESTS LIBRARIES AS AN AID TO PEACE

Ambassador Takahira and Ethel Root Address an Important Assemblage in New York.

NEW YORK, Feb. 26.—The Peace Society of New York brought together around the banquet table at the Hotel Astor to-night a most notable gathering of men prominent in national, state and city affairs.

The dinner was in honor of Senator-elect Ethel Root of New York and Joseph H. Choate was toastmaster. President-elect William H. Taft, Governor Charles E. Hughes, Right Hon. James Bryce, the British ambassador, General Lord Curzon, ambassador from Japan, and Jonathan Nabuco, Brazilian ambassador, were the speakers, and the guests numbered about eight hundred.

Ambassador Takahira, in his address, paid a tribute to Ethel Root, "the great peace-maker of the world," and said: "The peace which is under the presidency of a great philanthropist—Mr. Andrew Carnegie."

"We are very often surprised by the rumor of war," he ambassador said, "sometimes not without some cause, but in most cases the cause is the fact that there were a desire in some quarters for such a bloody struggle."

"I cannot help referring to this unpleasant subject, not only because it has a direct bearing upon the question of peace, but because Mr. Ethel Root himself had a trying experience with that falacious clamor in connection with the relations between the United States and Japan and stood out against it calmly and firmly through the two years' time of constant uproar. We are happy to see that the public has become convinced with the fact of propagation of that impossible story."

"For I said, dear, dear, will ye give me 'ye heart'?" she said, "don't ye know it is Lent?"

At first me heart never failed me. 'Till suddenly I thought of her reason; Sure she meant the dear little life, Och, 'twas only the state of the season. So now, I am savin' me dollars. And before this fair land is green, I mane to bring from auld Ireland 'That darlin' little colleen."

W. T. Sted on Public Speaking. "I must draw to a close this discursive gossip about the art of speaking and the great speakers whom I have heard, with one or two practical words of advice based upon considerable experience as a speaker, and still more as a listener."

"1. Never speak without having something to say. 2. Always sit down when you have said it. 3. Remember, speech is dumb show when it is not audible. 4. Think definitely, pronounce clearly, stand naturally, and do not speak too fast. 5. Welcome articulate interruption, no matter how it comes. 6. Two things should never be lost: your temper and the thread of your discourse. 7. Remember that the eyes are as eloquent as the tongue. 8. Never hesitate to let yourself go, at the right time. 9. Never read your speech, but always have heads of discourse handy. 10. And never forget Cardinal Manning's words of wisdom to myself: 'Be fair to your subject and forget yourself.'—The Windsor.

A Danger Averted. Mr. Root was given a remarkable demonstration when he made his way to the speaking pulpit. Among other things he said: "The gentlemen who introduced into the legislature of California, Montana, and Nevada the legislation regarding the treatment of the Japanese in those states doubtless had no conception of the fact that they were doing to that great nation of gentlemen, of soldiers, of scholars and scientists, of statesmen, a nation worthy of challenging the respect, the honor and the homage of mankind, an injury by an insult that would bring on private war in any private relation in our own country."

"Thank heaven, the wiser heads and the sounder hearts, instructed and enlightened upon the true nature of the proceedings, prevailed and overcame the inconsiderate and thoughtless."

"President-elect Taft when called on, said: 'The pleasure, the honor, of having served the country in association with Ethel Root and Theodore Roosevelt will continue to be the greatest honor I have ever enjoyed.'"

OF INTEREST TO WOMEN

Toronto Suffrage Association

The regular monthly meeting of the Toronto Suffrage Association will be held on Tuesday evening next, March 2, at 8 o'clock, at the residence of Dr. Margaret Gordon, 726 Spadina-avenue. All interested are cordially invited to be present.

Battle Won in England. NEW YORK, Feb. 25.—Lady Cook, prominent in the advocacy of the cause of woman suffrage here and in England, arrived here to-day from Europe. She declared that woman's battle for the suffrage was already won. Only the working out of minor details was left, she asserted, the principle having been established. She said her work here would be principally in giving advice in the suffrage movement and aiding in administering its affairs.

Nurses' Home Humbug. Arrangements have been completed for the rummage sale and concert under the auspices of the ladies' board of the Western Hospital at St. George's Hall. "MILLIONAIRE COP" GETS AN ITALIAN MURDERER

Cleverly Trails and Assuming Disguise Pluckily Captures Him—Had Boasted of Crime.

NEW YORK, Feb. 26.—John Barbuoto, 38 years old, was taken into custody here to-day charged with the brutal murder of two men and the assault of a woman at Middletown, N.Y., on Jan. 26.

The arrest was made by Patrolman Henry Spitz, of Union Hill, N. J., known as the "Millionaire Cop." Spitz, who is an enthusiastic police man, got his cognomen from the fact that he owns considerable property in his home town. He was on duty there on Sunday, Feb. 14, when he heard a group of Italians talking. One boasted of a double murder and an assault he had committed in Middletown, N.Y., and Spitz had this man trailed to a rooming house in this city. Then he set about to verify the man's story, and this came to-day, together with the statement that the man wanted for the crime had a missing finger.

Spitz came to New York to-day, told his story at police headquarters, and had detective assistance to help him make the arrest. He then disguised himself as a painter, with bespattered overalls, pot and brush and then went to the home in the city where his man was located. His disguise enabled him to gain entry to the man's apartments, where, after a brief struggle, he overpowered Barbuoto and placed him under arrest.

DO AWAY WITH CO-EDUCATION

Important Decision Arrived at by Wesleyan University.

NEW YORK, Feb. 26.—Co-education at Wesleyan University, Middletown, Conn., was abolished at a special meeting here to-day of 30 of the fifty trustees of that institution. The action was taken after a prolonged discussion, and as the result of the long continued opposition of the undergraduates of the institution. A proposition to establish a separate college for women was referred to a special committee.

RECEIVED STOLEN GOODS

Charge on Which Two Men Are Sent for Trial.

James Fisher and Garnet Titus were arraigned in police court yesterday charged with receiving stolen property. Both were committed to jail. Titus is charged with receiving a bundle of fur coats recovered by Detective Armstrong at his place at 205 West Richmond-street, and which he said he got from Fisher. The furs had been stolen from John Dowling, 42 Elmer-avenue.

While searching the house, Armstrong found a receipt for a trunk placed in storage. This was found to contain a quantity of watch cases stolen from the chief of police, and taken from Robert Rosser's place which was entered by the Wylie gang sent to Kingston a month ago. This was said to be the work of Titus. Fisher is serving a term for vagrancy and when arrested other stuff given him by Wylie was found.

LIFE FOR BURGLAR.

NEW YORK, Feb. 26.—For the first time in New York County a life sentence was imposed to-day on a man convicted of burglary. The defendant, a 25-year-old man, was charged with the burglary of a jewelry store in the city. A companion received a 20-year sentence.

Two Firemen Hurt.

CHICAGO, Feb. 26.—Two firemen were injured by a falling wall during a fire which destroyed the Albert Dickinson seed storehouse to-day. Three girls were knocked down in the rush of fifty others for the stairway, but rescued by policemen. Loss \$150,000.

Suicides in "L" Station.

NEW YORK, Feb. 26.—Because he could not live on a remittance of \$75 a month from his relatives in Austria added to what he could earn as a drug clerk in this city, David Ruiser, aged 18 years, committed suicide by shooting in the Webster-avenue elevated railroad station to-day. The boy is said to be a son of wealthy Austrian parents.

Darting Pains Around Shoulders and Spine

Brocton Merchant in Hospital for Weeks Cured of Rheumatic Pains by "Nerviline."

"It would be impossible for me to tell how much I suffered with a sort of travelling rheumatism. It wasn't confined to any particular spot, but wandered over all that area from the neck to the small of the back. Sharp, shooting twinges and dull, gnawing aches finally stiffened out my muscles and left me so helpless I had to give up work and go into the hospital. I stayed there three weeks and felt better. Still I wasn't cured, and as soon as I started back to work again the pain was as bad as ever. "I fortunately read of the strange, powerful effect Nerviline has over such cases, and at once got five bottles. Four times ALL PAIN was rubbed over the seat of the pain and I could feel it sinking deep into the muscles and sinews that were stiffened and sore. In a short time I was limber, active, free from pain and perfectly cured. "No other liniment could have cured me but "Nerviline" and I strongly urge its use for Rheumatism, Neuralgia, Sciatica, Lumbago, Strains and Swellings and all other muscular affections." (Signed) A. McLelland.

Remember: This "Nerviline" is five times stronger, far more penetrating, possesses more pain-relieving power than any other known remedy. For fifty years its use has been universal. Beware of cheap substitutes. Ask for and get Nerviline only. Large 25c bottles at all dealers.

CONCRETE EXHIBITION

St. Lawrence Arena Being Transformed in a Unique Way.

A disinterested pedestrian wending his way thru St. Lawrence Arena yesterday could easily have imagined himself transported back into the monolithic age. Every vestige of the magnificent automobile display had been removed, the elaborate decorations had been demolished, and workers were busy erecting buildings, booths and machinery for what promises to be a most interesting industrial exhibit next week.

The Canadian Cement and Concrete Association will be in convention in Toronto, and the cement and concrete exhibition will be an important adjunct.

The Roman Stone Company, Toronto; John Concrete Machinery Company, London; Canadian Art Stone Company, United States Steel Products Export Company, Hamilton; The Brick Company and many others are busily engaged arranging attractive process displays of concrete construction.

DESERONTO HAS NO PAPER.

The Tribune Announces That Publication Will Cease.

DESERONTO, Feb. 26.—(Special.)—It looks very much as though the Town of Deseronto is to be without a local newspaper in future.

W. J. McKinnis, of the Deseronto Tribune, told that today would be the last issue of the paper, which has been published for 25 years. The Tribune was under the able editorship of Samuel Russell, now registrar of deeds for the County of Hastings. Ten years ago McKinnis took his place. He intends to still continue job printing in the same office.

ARSON AND FRAUD

Charge Which Peel County Farmer Will Have to Defend.

Charged with arson and fraud, James Francis Ruston of Brampton was arrested yesterday by Detectives Archibald and Tipton.

John Fisher, employed as a carpenter by Ruston, told Inspector of Detectives Duncan that Ruston had offered him \$500 to set the place on fire. He refused and coming to Toronto, told the London Mutual Fire Insurance Co. of the matter.

About a week ago there was a fire and the place had to be burned down. The company, having given a \$700 policy on the buildings, upon which the Peel Mutual Co. also had \$1000, brought about the arrest.

Detective Tipton and County Constable Burns are in Brampton laying the matter before Crown Attorney McEwen.

TWO BOYS ARRESTED.

Aged 9 and 10, Accused of Vagrancy and Theft.

Percy Prince, 131 West Wellington-street, 9 years, and Freddie Doyle, 10, Windsor-street, 10 years, were arrested by P. C. Burns at the Union Station yesterday afternoon as they got off the train from Hamilton. They are charged with vagrancy and with being implicated in breaking into Frank Bush's cigar store at 52 York-street Sunday last, in which four other youngsters are now held at the Children's Shelter.

News Stand Takes Fire.

George Washington Smith, colored, a blind newsdealer, with a little boxlike stand at Spadina-avenue and Queen-street, was burned yesterday morning when he went to light his little oil stove and a splash of sulphur from his match set fire to the newsstand. Being blind, it was some moments before Smith knew that the place was on fire.

City Servants See Tompkins.

VANCOUVER, B.C., Feb. 26.—(Special.)—A deputation of outside civil servants, introduced by W. W. B. McInnes, waited on Hon. Mr. Tompkins to-day and asked his co-operation in securing at least \$200 per annum for the salaries of the city servants. The deputation is expected to return to Vancouver on September 1st, and continuing until such time as the Civil Service Act passed last year shall be extended to the entire service.

China's Regent Writes to Taft.

PEKING, Feb. 25.—The regency of the empire has written to President-elect William H. Taft, a communication in the form of a private letter, in which his ideas and the attitude of the regent and its advisers on the most vital questions now before the empire are set forth at considerable length.

One Loses His Life.

WINNIPEG, Feb. 26.—(Special.)—Excepting Sergt. Donaldson, who was drowned at Marble Island last fall on the way to Fullerton, Inspector Pelletier has the record for the most deaths in the force. Sergt. Donaldson was a native of Ontario.

A WOMAN'S BACK WAS NOT MADE TO AGHE.

Thousands of Women Suffer Untold Misery Every Day With Aching Backs That Really Have No Business To Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life. It is hard to do housework with an aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause. But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others. Mrs. O. Warren, Radisson, Sask., writes: "I was troubled with very severe backache and severe pains in my back for years. I tried everything I could think of, but they did me no good. A friend told me about Doan's Kidney Pills and after taking two boxes, I have not been troubled since. Price 50 cents per box, or 3 for \$1.35, all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. When ordering specify "Doan's."

Tried to Burn a Church.

OSHAWA, Ont., Feb. 26.—George Hunt, of this town, was yesterday sentenced to three years in the Kingston Penitentiary with hard labor by Police Magistrate L. K. Murton, for attempting to set fire to the Oshawa Christian Church at an early hour yesterday.

Just a Coincidence.

A remarkable coincidence—two doctors issuing independent affidavits in the same words, said Chief Justice Meredith in chambers yesterday when an appeal was made before him from the judgment of the master postponing E. Kenyon Stone's case against the Otisne Mining Company et al.

A Woman's Sympathy

Are you discouraged? Is your doctor bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but I learned how to cure myself. I want to relieve your burden. Why not end the pain and stop the doctor's bill? I will cure you and you will be cured. Your letters held confidentially. Write to-day for my free treatment. MRS. F. E. CURRAN, Windsor, Ont.

THE TRAGEDY WHICH HAS STIRRED ALL HAMILTON

MISS ETHEL KINRADE. Who Was Shot and Killed by a Burglar at Hamilton.

MISS FLORENCE KINRADE, Who Had Narrow Escape.

WARD. The Ontario government yesterday decided to offer \$500 reward for the murderer of Miss Ethel Kinrade. Her father has offered \$1000 reward and Hamilton City Council \$500. Provincial Detective Miller has been six months to assist his former colleagues of the Hamilton detective department in their investigations. The man wanted is thus described: Thick set, about 35 years of age, about 5 feet 8 inches in height, dark complexion, heavy dark wavy mustache, rooping over, thin lips, black, black overcoat, black slouch hat, pulled down over eyes; actions would indicate that he is mentally deranged.

CUBA ALL UPSET

President Gomez Not a Success, Says Returned Torontonians.

"It is only the other day that the U. S. troops were withdrawn, and there are ominous rumblings already," said Chas. T. Cocking of 266 Carlton-street, who has just returned from Cuba where he is interested in orange growing in the west of the island. "There is intense dissatisfaction with President Gomez, and those in power because there are not enough offices to go round. They are a nation of office-seekers. Every Cuban wants an office, and if he can't get it, he goes out with his machet and down with the government. "Cubans will never govern themselves. The very large majority of the better class are strongly in favor of American rule. The government may hold out till next election; some give them six months. When the end comes it will be the end. "As an illustration of the grafting system in vogue a contractor told me on board ship that they are putting in a fine water system in Cienfuegos, but the mayor, being refused \$30,000, which he demanded from the contractor, has done all in his power to block them in their work, encouraging strike after strike until the contractors are wishing they had paid the money. "At present there are parties of the general depression, and are moving quietly, but there cannot be the slightest doubt as to the ultimate outcome. The value of the tobacco industry is known to all, while citrus fruits can be grown to perfection. The question of frost is entirely eliminated. "Mr. Cocking brought back specimens of pineapples and oranges, which may be seen in the G. T. R. ticket office. One pineapple weighs nearly 10 lbs. and gives a fine idea of how an orange grove grows in value, he mentioned that at one grove of 300 acres the fruit has been sold as it hangs on the branches at \$1.50 per bushel, while citrus trees, the smallest tree bringing \$4. With 90 trees to the acre this figures out a tidy sum for the year's crop. "The value of the tobacco industry is increasing. More could be done with our northern fruits, of which the Cubans are very fond."

PEOPLE WASTE POWER

PORT ARTHUR, Feb. 26.—(Special.)—Evidence was given at the civic investigation to-day that one-third the lighting power is wasted by a flat rate. It will likely mean introducing meter system, which should further reduce rates, which are now the second lowest in Ontario.

THE TOBACCO COMBINE IN U.S.

WASHINGTON, Feb. 26.—Herbert Knox Smith, commissioner of corporations, to-day made public sub-divisions of the Association of St. John on the tobacco industry in which he says: "In the tobacco combination are the American Tobacco Co. and its three great subsidiary combinations, the American Cigar Company, the British-American Company besides 82 other subsidiary concerns doing business in United States, Porto Rico and Cuba. "The combination represents a total net capitalization of over \$316,000,000. A very small group of ten stockholders controls 90 per cent. of the outstanding voting stock of the American Tobacco Company, thru which company the entire combination is controlled. "Many weaker concerns have been virtually driven out of business, or forced to sell out to the combination."

TORONTO ORCHESTRA DELIGHTS PETERBORO

Symphony Club Give a Splendid Concert, and Assisting Artists Also of Exceptional Talent.

PETERBORO, Feb. 26.—(Special.)—This city woke to the fact to-night that out of Toronto comes something else besides the finest choral music on the American continent. The fact that surprised the citizens of Peterboro was the superb musicianship of this Toronto Symphony Orchestra. Many had heard the famous Mendelssohn Choir, and they thought that this was the apex ultra of musical culture in the Dominion. All the greater, then, was their pleasure in hearing concerted instrumental music that thrilled them and won their heart to enthusiastic appreciation.

The Grand Opera House to-night contained only a fair-sized audience to hear the initial inter-city performance of the Toronto Symphony Orchestra, but the audience was composed of genuine music lovers and the elite of Peterboro society. The mayor was detained from being present by pressing business engagements, but the best families of the city were represented, and there was only one expression of opinion from them, namely, that the Toronto Symphony Orchestra is a superb organization.

All this, indeed, was true, for the orchestra played as if the members were on their mettle to do the best that was in them. That they accomplished this was evident from the hearty and continuous applause, as well as from

TOO LITTLE BLOOD

Responsible for Nearly all of the Misery Women Endure.

Anemia is written on the features of ninety women out of a hundred. Unmistakable are the signs of "too little blood." The weaker sex is assailed at all ages by the evils resulting from bloodlessness, from the girl who is weak and languid, with dull eyes, pale lips, fitful appetite and palpitating heart, to the woman who feels "ever well" with pains in the back and across the shoulders, fainting fits and aching limbs. And later at life's turning point, nervous disorders and heart troubles make great calls on a woman's strength. At all ages Dr. Williams' Pink Pills are especially valuable to the female sex, for they alone possess the power of making in abundance the rich, red blood of health. They fill the starved veins with new blood, so that enfeebled bodies are strengthened, weak nerves are fortified, and robust health is restored.

Mrs. E. Smith, Windsor, N.S., says: "A few years ago my health began to fail. I suffered greatly from inward troubles, and in about a year's time my whole system was almost a wreck. My blood had turned to water, and my heart had become so badly affected that I could scarcely go about. In fact, life had almost become a burden, and there seemed little hope for me. One day a friend told me of a medicine which she had been in almost the same condition I was and that the Pills had restored her to her present splendid health. I took courage from what my friend told me and began to take the Pills. I took them regularly for several months, constantly growing stronger, and the internal troubles with which I had been afflicted were disappearing, and my whole system seemed to have gained new strength. I wanted to make certain that there would be no return of the trouble and continued to take the Pills for a time after I had really fully recovered. Since I have proved for myself what Dr. Williams' Pink Pills can do, I have recommended them to a number of suffering people, and those who have given them a fair trial have had good results. Dr. Williams' Pink Pills are just what they are recommended to be."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ALBERTA IS IN EARNEST

IN OWNING ELEVATORS

EDMONTON, Alta., Feb. 26.—(Special.)—A resolution was moved by the premier in the legislature to-day that whereas the farmers of Alberta are dissatisfied with the present arrangements for storing grain, at initial points, the legislature call the attention of the governor-general-in-council to the desirability of the government of Canada making provision for government ownership and operation of grain elevators in Alberta, or by having conferred upon the province by the Dominion or Imperial legislation, power to fully deal with the question of the storage transportation and grading of grain.

CRITICIZE RECORDER DUPUIS

MONTREAL, Feb. 26.—The announcement of Recorder Dupuis, from the bench yesterday, respecting the session, apart altogether from his attacks on Rev. Arthur French. A legal authority points out that the recorder is appointed to apply the law, not to make it. It is claimed that Recorder Dupuis has no right whatever to condone the evil in any way, nor to make rules for its regulation or restriction.

### SANITARY TENEMENTS

Mrs. W. K. Vanderbilt to Care for New York Consumptives. NEW YORK, Feb. 25.—Following up five years of active interest in the work of the tuberculosis clinic of the Presbyterian Hospital, Mrs. W. K. Vanderbilt is to devote \$1,000,000 to the erection of four model tenement houses in East 77th and 78th streets, where tuberculous patients and their families will be able to live under conditions similar to those provided at the most up-to-date sanatoria. While no definite decision on the rents to be charged has yet been reached, Dr. Henry L. Shively, head of the clinic which has led to Mrs. Vanderbilt's action, said that they would compare favorably with those charged in the poorest and cheapest East Side tenements. The tenements, when erected, are to be known as the Shively Sanitary Tenements. They will consist of four units, will be able to house from 275 to 400 families, and will occupy eighteen full city lots. Dr. Shively regards four features of the new tenements as particularly important. First of these is the complete elimination of inside stairways. Each tenement will surround a central court, and between the backs of two units, in 77th and 78th streets, respectively, is an arched passage-way alley. At each of the corners of each court will be a stairway, entirely in the open air, giving access to the apartments on that side of the house. There will be no hallways or corridors of the buildings, direct entrance being afforded to each apartment from the stairway. The entrance from East 77th-street is an arched passage-way two stories in height. At the other side of the court is a similar passage-way and directly opposite in the rear of the corresponding East 78th-street unit is another, faced again by the arched passage-way leading into East 78th-street. Thus an open passage for air draft is assured between the two streets, supplying both courts with constantly changing fresh air. The other features have to do with the apartments themselves. All the rooms are outside rooms, having light and air, and balconies are provided with windows extending from the floor to ceiling. Sleeping practically in the open air is thus made possible.

### TRAPEZE PERFORMING HEALTHY

So Says the Young Woman Who is Astonishing Gayety Audiences. "This is one of the most fascinating pursuits in the world, and I am sure if I left it to-day I would be back almost immediately." By these words Miss Ani Hill, the trapeze marvel of the "Vanity Fair" company at the Gayety, paid great tribute to the lure of the stage. "Yes, occasionally I have had some falls, but not very often, and then they were always caused by the trapeze being improperly fastened together, for one will not take any risk at a height of over 20 feet, and knowing a fall means a clear drop straight to the floor. "No, I never feel nervous, not even after an accident. I was brought up, you see, in practically an acrobatic atmosphere, my father being an acrobat, and he used to make my brother and myself learn three hours every morning before breakfast, preparing us for this mode of life. "And it is one of the most healthy as well as dangerous in the theatrical profession. All the time I have been at it, and that is over 20 years, I have never been under a physician's care once, although one or two accidents did occur, but I managed to get a shot at the ducks in the rice beds unless it is done from a concealed canoe.

### ENTERTAINED BY ELKS

Ward and Vokes the Guests of the Buffalo Lodge of Popular Society. BUFFALO, Feb. 26.—Notwithstanding the Lenten season the attendance at the theatre here is the largest for several seasons. This is especially noticeable at the Lyric, where Ward and Vokes are presenting their reunion offering "The Promoters." The theatre has been taxed to capacity all this week, and the two comedians have received a reception which recalls their visits to Buffalo in the old days. To-night the Elks attended the theatre in a body, and after the performance entertained the entire company of sixty people. "Casey" Baldwin's University Lecture. No development of modern science so appeals to the human imagination as the airships. The keenness of the race between German, French and English inventors adds to the interest which the public will greet Fred W. Baldwin, who lectures to-night on "The Airship" in the university physics building at 8 o'clock. As assistant to Dr. Graham Bell, he has an intimate practical knowledge of the new craft, and a host of his old friends of the football field will wish to hear of his exploits in the regions of the air. Alf Shrubbs at a Concert. A concert social is being given by the British Welcome League artists this evening at Association Hall, at 8 o'clock. Tickets are at the popular price of 10 and 5 cents. It is hoped the members of the company, the audience, such as the league encourage to emigrate to Canada. The proceeds will be devoted to providing uniforms for the League Brass Band. Alf Shrubbs, the great English runner, will be present, and will speak. German Political Situation. BREHLIN, Feb. 26.—The internal political situation in Germany is approaching a crisis over the proposed revenue measures, and unless the ministry is successful in its stand in the matter of the death duties, it is declared in political circles that the Reichstag will be dissolved. Further action should now be taken in an attempt to bring Chancellor Von Buelow to resign.

### TO CHANGE CAR ROUTES THE CITY NOW OBJECTS

Yonge St. Merchants Say Business Will Suffer, Mr. Fleming Says Complaint is Too Late.

Altho the board of control was swayed by a deputation of Yonge-street merchants into agreeing that the city shouldn't consent to the diversion of the College, Winchester and Bloor and McCaul cars from Yonge-street, the street railway declines to depart from the arrangement, and, beginning Monday, the cars will be switched to other routes. Mayor said it had been understood that the Yonge-street merchants favored taking the lines of Yonge-street to relieve the congestion. Manager Fleming says the company has arranged its schedule, and that the test must go on. Mr. Fleming has informed the city engineer that the company will construct a double line of tracks on St. Patrick-street, from Bathurst-street to McCaul-street, and another double line on Anderson-street, from McCaul-street to and across Queen's-avenue and University-avenue to Agnes-street, provided the city will allow tracks to be laid on Bay-street.

### BOND MARKET IS FIRM ST. CATHARINES POSITION

City of St. Catharines is Without a Council at the Present Time

The municipal bond market this week has shown no signs of a set-back in prices. Local bond houses report that the demand is still greater than the supply, and some are of the opinion that a further upward movement will take place. Money continues easy at 4 per cent., and no hardening tendency in the money market is looked for at present. Corporation railroad, traction and industrial bonds still continue to be frequently enquired for. The various bonds listed on the Toronto Stock Exchange are firm, with an upward tendency. The attention of investors is directed to the offer now being made by Messrs. J. A. Macrae & Co. of Montreal, through the Bank of Toronto, of \$300,000 of the Montreal & Lambert Terminal Development Co. These bonds are 5 per cent. first mortgage coupon bonds, due March 1, 1929. With each purchase of these bonds there will be given a bonus of 50 per cent. of the interest on the investment is thereby secured by property holding, over which the bonds will be a "first charge."

### The Reasons for Stevens Duryea Light Weight

The light weight of Stevens-Duryea Sixes has always been notable. They are decidedly lighter than other cars of the same power and size. In the Big Six the difference is sometimes 1,000 pounds or more. There are several reasons for this, but most of them are concerned directly with the Unit Power Plant and the Three Point Suspension. The elimination of the sub-frame and most of the crank-case and gear-case feet means less weight. Since all parts of the power plant are protected from road strains, they need not be made so strong. This saves more weight. Since the frame does not have to be made heavy and rigid, more weight is saved. Forty-five pounds are saved in the Big Six Flywheel—six cylinders do not require a large flywheel. The two Sixes, however, have an additional advantage, in that for a given power the engine is lighter than that of the Four, and the parts that are affected by the impulses of the engine may be made lighter also. It is true that there are two more cylinders in the Six, but they are about 50 per cent. smaller than in the corresponding Four. And obviously, lighter gears, shafts, bearings, etc., are needed to withstand 2,000 pound blows than 3,000 pound blows. As a matter of fact, the impulses of the 60 horse-power six-cylinder engine are no greater than those of the Four of 40 horse-power.

## The Curative Powers of DR. McLAUGHLIN'S ELECTRIC BELT

and the way youth, vigor and lost vitality are restored to weak men by the use of this life-giving appliance. The men who had given up hope, who thought there was no cure for them until they came upon Dr. McLaughlin's Electric Belt, are now full of life and overflowing with joyous spirits. Pains are gone, weakness has gone, and full vigor is in every action. Do you want to feel like that? Then wear this grand life-giving appliance for two months at night. It will charge every nerve with electric life, and you will feel rejuvenated and invigorated. It puts strength into your manhood, and it is claimed by promoters that a change in life. I don't ask you to take any chances. I am willing to do that, because I know my Belt will cure any case I undertake if given a fair chance. All I ask is that you secure me while you are using it. Remember, you can Take This Belt, Wear it Until Cured—Then Pay Me My Price. Be true to nature, be true to yourself and friends. Regain your health. Give the color of vigor to your cheeks, the sparkle to your eyes. What use has the world for a man who has not the courage to face the battle of life? Such courage comes from system greatly endowed with the vital force of electricity. Regain your vitality for good by using this wonderful Electric Belt. It's easy to be cured my way. You put my appliance on when you go to bed; you feel a glowing warmth passing through your body, and the electric power gives you new life. When you wake up in the morning you feel bright, lively and vigorous, and you wonder where your pains and aches have gone. My Belt has removed to remove and they will never return. That's a better way than making a drug store of your stomach. And who ever saw anybody actually cured by drugs? I tell you drugs don't cure, and if you have tried them you know it. Nearly all my patients tried drugs first. I can give you the proof in abundance. Here I give you a few samples of the kind of letters that I receive every day by the score. Dear Sir,—I received my Belt some time ago. It is a good Belt. It is good for weak backs and nervous people. I have got stronger since I got it. Your Belt is certainly good, and you ought to send more of them. Yours truly, JOSEPH McGINNIS, Cobourg, Ont. MR. M. LAVERY, 530 Crawford Street, Toronto, Ont., writes:—Regarding the Belt which I got from you last spring, I had tried all kinds of medicine first for my sciatica, and, as you know, had been in my bed for some time before getting the Belt. I noticed quite a change in the first few days of using it, and was soon able to go to work, and have been able to attend to business ever since. I am an enthusiast you say. Why should I not be? I have the gratitude of thousands of people who have been cured by my Electric Belt after the failure of every other remedy. I am an enthusiastic because I know that I offer suffering humanity the surest cure for the least expenditure of money. I have gained my success by learning how to treat my patients and then curing them. I understand the art of the cure, and I charge nothing for my knowledge, knowing that it helps me. My patients are my friends. They are advertising my business.

### THE PAVING QUESTION

The city works committee yesterday decided against the city engineer's suggested solution of the difficulties arising out of the signing by property owners of petitions for more than one kind of paving material for roadways. Mr. East suggested applying for legislation whereby any signature to a petition for or against a work could not be withdrawn, unless on complaint to the county judge, and that names had been obtained by fraud or misrepresentation. The aldermen thought it would not be fair to place the onus on taxpayers in this way, and that it would be sufficient to have the prices of the different materials placed in bold red letters on the petition. The city engineer pointed out that the annexation of districts north of the city meant the inclusion of a number of dangerous level crossings along the railway line from West Toronto to Yonge-street. It was up to the city to consider applying to the railway commission to have the tracks elevated a few feet and streets depressed at points where they crossed. He was instructed to make a report.

### Expert Hosen Here

Dr. Allan Hazen, the New York expert on filtration, is in the city. The specifications are completed, and will be submitted to the board of control to-day or Monday. The city engineer says the city will have to use the plans which were held up at Bridgeburg for customs duty of \$175. The city engineer says that a cost of \$100,000 to complete the sea wall from Indian-road to the Humber, if sheet piling is used, or \$108,000 for rock fillings in a marine, is due to the fact that the specifications for a brick sewer called for four rings of brick, while only three were necessary. The city engineer will be asked about it. The Bricklayers' Union was given permission to have another special engineer inspect the relative virtue of brick and concrete.

### WOULD EXCLUDE ALL ASIATICS

SACRAMENTO, Cal., Feb. 26.—The state by a vote of 25 to 7 passed a resolution favoring the exclusion of all Asiatics from the United States. Several senators expressed surprise when the Asiatic immigration question came up.

### From Alliance to Poverty

LOS ANGELES, Feb. 26.—Portius R. Wear, at one time a power in the business world of Chicago, and later a noted actor, died here at the age of 61. He was virtually penniless.

### GOV'NMENT FREIGHT

The Canadian Northern Ontario Railway announces that the Gowganias less than the other lines of the province. The number of their teams hauling freight over the sleigh road, to such an extent that not more than the horses of Dr. MacFarlane of Dover, to George V. V. is solving a seven-year term at Kingston for this offence. The authorities here consider the letter only a bluff.

### Says He is the Thief

CHATHAM, Feb. 26.—William Rilye, a long-time stow-away on the horses of Dr. MacFarlane of Dover, to George V. V. is solving a seven-year term at Kingston for this offence. The authorities here consider the letter only a bluff.

### B. RLIN RIPPER CAUGHT

36th Attempt at Maiming Women Ends in Arrest. BERLIN, Feb. 26.—The man who during the past fortnight has been delivering a series of attacks on women on the streets of Berlin was captured this morning. He made an attempt to stab a woman on the Friedrich Strasse, one of the crowded shopping streets of the city. She screamed and her assailant fled into a house on an adjoining street, where he was at once seized. He is a young man. To-day's attempt was the thirty-sixth "ripper" case since the beginning of the outrages.

### GAVE HIS SON A CIGARET AND IS HAILED AS COURT

Because he divided a cigarette among his three sons, all under 16 years of age, Alfred Strong was charged in the police court with giving minors tobacco which is contrary to the criminal code. "It's funny a father can't give his own sons what he pleases," said the magistrate. "I'll adjourn the case till tomorrow as it is under the criminal code and the crown attorney should be present." Because he used a white or ticket, which was an employes ticket and discontinued last December, W. H. Hunt, 61 years old, was charged with non-payment of car fare. At the trial the conductor a yellow ticket in the court and the case was dismissed.

### RESTRICT MORPHINE HABIT

SHANGHAI, Feb. 26.—The international opium commission has practically concluded its work here. Nine resolutions were adopted. One recognized the unwavering sincerity of the Chinese Government's efforts to suppress the opium traffic. In another resolution the commission finds that unrestricted morphine traffic constitutes a grave danger.

POSTAL FACILITIES FOR THE GOWGANDA DISTRICT

Matter Again Brought to the Attention of Mr. Lemieux—A Western P. M.'s Salary.

OTTAWA, Feb. 26.—(Special).—The postoffice estimates were under review to-night. W. F. Maclean again called attention to the lack of postal facilities in Gowganda.

This he said, was the most active centre for business in all Canada to-day. The minister had been good enough to establish a service to Elk Lake and South Gowganda, but Gowganda itself, which was being erected into a town, had been for weeks seeking a service. At least one hundred teams a day were engaged in hauling supplies between Gowganda and the railway; three banks had been established; stores were being built, and capitalists were going in, and he ventured to say that the customs revenue was greater than in many cities of 20,000 people. The government ought to be in advance of the public.

Mr. Lemieux said the department had not hesitated one moment in attempting to meet the demands of the public for service. Tenders had been called for the work, and as soon as the Ontario Government had settled where the townsite was to be, the service would be established.

Mr. Maclean said the legislature had on Thursday defined the townsite. Mr. Gordon (Nipissing) also spoke of the urgent need of a postal service for Gowganda.

Free Mail for North Toronto. Mr. Maclean also urged that a free mail delivery be established in the Town of North Toronto and the postmaster-general promised to look into it.

Claude Macdonell entered another plea for salary increases for letter carriers and railway mail clerks. There would be no cavil at this, so far as the opposition was concerned.

Mr. McKeighan (Portage la Prairie) asked what was the minimum salary paid postmasters, and Mr. Lemieux answered \$25 a year. Then Mr. McKeighan produced a cheque received by the postmaster at Makaroff, in the County of Dauphin. The postmaster was required to net trains at 11 a.m. and 4 a.m., and for this service he received a salary of \$1 a year, paid quarterly, and another charge of \$2 for negotiating the cheque it could easily be figured out what the man received.

Not for General Advantage. In the hour for private bills to-night, Sam Barker, Hamilton, raised a protest against declaring the Canadian, Liverpool & Western Railway to be for the general advantage of Canada.

It was intended by framers of the constitution that the house should satisfy itself of this, but the house had time and again put in acts statements which were absolutely false, and he believed the declaration in this bill was a false one.

Mr. Emmerson agreed with the general argument of Mr. Barker, but said the committee had threshed out this question, and it was represented that the promoters of this railway intended to do general transportation business, and that this parliament alone had the jurisdiction.

Dr. Spruille contended that a general principle should be laid down to guide the house. The bill was talked out.

George Bernard Shaw as an M. P. One would give much to have that cold and searching intellect of Mr. George Bernard Shaw, for example, brought to bear on the life of Parliament. He has just that dry light that we lack. And he is unaccountably the first debater of his time. He has every weapon at instant service. His wit lies at the tip of his tongue. He sees the whole life of a country at a glance, and leaps to the weak place in the defence instantly. When he and Mr. Wells thought of the soul of the Fabian Society, he pinned him on one unimportant clause in his indictment on which Mr. Wells was wrong, and from that one point of vantage secured the surrender of Mr. Wells' whole case.

He is the best explainer of his own theory about the Irish and the English. The common view is that the English are the practical hard-headed people, and that the Irish are the sentimentalists and dreamers. On the contrary, he says it is the English who live in a world of illusions, and the Irish who live in a world of lucid facts, and he takes the sentimental Nelson and the unromantic Wellington as the types of the two nations. It is all a matter of climate. The London fog is to him the symbol of the London mind. To Mr. Chesterton it is a cloak of mystery and romance. He loves the fog and has sung songs in its praise. Mr. Shaw hates the fog as the product of our dirty and wasteful ways. In the long way, Mr. Wells is a typical Cockney, with all the unrest and curiosity of the burban metropolis. He is a man who lives with a little sentiment as Mr. Shaw himself.—A. G. Gardiner, in Cassell's.

Delane's Fastidious Taste. A characteristic of the famous editor of the Times was the extraordinary thoroughness of his editorial revision. He watched with the utmost care not merely the substance and the general argument of an article, but every detail of expression. He could correct commas at 3.30 a.m., and would write one of his brilliant notes at that hour to warn a writer against an incorrect expression. I remember his once writing to me at that hour to protest against my using the word "action" to describe an act. "Action," he said, "is properly used only of a military action or an action at law." I think he was wrong, on the authority of the Scriptural expression: "The Lord is a God of knowledge, and by His actions are weighed"; but the vigilance which could insist on such a point in the heat and haste of editing illustrates the indefatigable conscientiousness of his work.—The Dean of Canterbury in The Cornhill.

A Scottish Marriage Custom. The quaint wedding ceremony of cutting up the bride's garters and distributing them amongst the wedding guests, which was recently revived during the wedding festivities of the kaiser's son, reminds one of the many quaint marriage customs that still survive in many old English and Scottish families.

One notable tradition of this sort still kept green by the Dukes of Athol and their heirs is that of the bridegroom carrying the bride across the threshold of Blair Castle, it being in accord with an ancient tradition that it is unlucky for a bride who enters the castle for the first time to walk in the ordinary way. This is only one of the many quaint old feudal customs that are observed upon this estate, which the Duke of Athol holds from the crown by one of those strange tenures which are occasionally to be found in Great Britain. Upon fear of forfeiture, the owner has to present his sovereign with a white rose whenever he or she visits the castle.—Lady's Realm.

Never Purge Your System

As you value life itself, never use medicine that racks the system. Costiveness is bad enough, but violent cathartics are the limit.

When the bowels are constipated and you have stomach trouble and headache, try Dr. Hamilton's Pills; they are so mild you can scarcely feel their action, yet so effective that the entire secretory apparatus is stimulated to healthy action.

Hamilton's Pills move the bowels gently. They tone the liver and kidneys. They renew the blood. Bilious turns are prevented. Headaches disappear. Stomach rumblings cease. Blisters are prevented.

Dr. Hamilton's Pills are more than a bowel medicine, for they act as a system cleaner and general tonic. For those who feel dull, heavy and morose, for those who suffer frequently from colds, biliousness and stomach disorders, there is no better medicine.

You risk the lives of your children by neglecting to cure. Made according to the formula of one of the greatest physicians that ever lived, Dr. Hamilton's Pills are bound to give your system just the aid it requires. Sold by all dealers, 25c per box, or five for \$1.00.

Why Are English People Dull.

The cause of shyness is the fear of showing to others what we feel. I think to hide our feelings is a national fault. We often speak of the Irish and the French as not being sincere, simply because they are apt to be expansive. I do not see that you are more sincere by hiding what you feel than by showing it. The thing that we most dread of all others is that if we hide our sentiments too much we often produce atrophy of them. There is nothing more dead-alive than that absence of feeling in our manner. Some say it comes from shyness. I believe it comes from the convictions that reserve is the proper attitude. We do not think that our neighbor has a right to know what we feel, and so we hide completely our sentiments. The dullness that we feel in going into society would vanish if we could only think that the people about us say simply what they really think about things.—Alice Corkran in The Girl's Realm.

CITY POLICE REQUESTED TO SCARE AWAY TRAMPS

Quite a Number of Calls Are Registered for Extra Protection Since Hamilton Shooting.

The tramp panic has fallen upon Toronto since the murder of Miss Ethel Kinrade in Hamilton Thursday. The police stations have been deluged with petitions for protection from the nervous.

In No. 5 police station, in the division which embraces the principal residential district to the north, at least a dozen calls from worried women were registered last night, and in that locality the beats are being patrolled with more than the usual vigilance with regard to skulkers in dark places.

Early yesterday the station was notified that a rough-looking character had called at an address on Lansdowne-avenue and asked the way to Prof. W. H. Fraser's house at 67 Madison-avenue, saying he was going there. Detective Miller was sent out, but the man never turned up at the other end of the journey.

At No. 2 station, in the central section of the city, four calls were received, and in two cases men were sent out, but nothing came of the enquiry in either case.

Secretary-Treasurer: E. A. MUMFORD, Montreal

The Montreal and St. Lambert Terminal Development Co. owns some Eight Million (8,000,000) square feet of land, to be improved for residential lots in St. Lambert, which is a growing town situated on the St. Lawrence River directly opposite to and connected with the City of Montreal by the Victoria Jubilee Bridge of the Grand Trunk Railway.

The terminal yards of the Grand Trunk Railway, plans of which have been fully approved by the Board of Railway Commissioners, will occupy about 100 acres of land, which is practically surrounded by the property of this Company. This makes the property a most desirable locality for home sites for the shop and terminal workmen employed by the four railways, viz.: THE GRAND TRUNK RY., THE INTERCOLONIAL RY., THE CENTRAL VERMONT RY. and DELAWARE & HUDSON RY.

The Delaware & Hudson Ry. is also contemplating constructing at St. Lambert a large terminal yard for its Quebec extensions.

All of this means a large influx of railway employes of the better class, such as skilled mechanics and clerks holding permanent positions and requiring dwellings in St. Lambert.

The Southern Counties Electric Ry., now under construction from St. Lambert to Montreal via the Victoria Bridge, will pass through the Company's property, and will give easy and rapid access to the centre of the City of Montreal. This should make this property considerably more attractive as the estimated run from St. Lambert to the centre of the City of Montreal will be about 15 minutes, and the rates will be as low as they are to and from other suburban sections around Montreal.

Manufacturers will also locate at St. Lambert, as every facility they would require is right at their door, such as light, power, transportation, street railway service and freight rates similar to Montreal.

The eight million square feet of land owned by the Company will be divided into about two thousand three hundred (2300) lots of two thousand five hundred (2500) square feet, and should sell at from 8c to 20c per foot, or approximately \$712,500.

#### APPROXIMATE ESTIMATE OF EARNINGS

Judging from results of similar companies, and estimating conservatively the earnings on sales of cottage sites, etc., would bring approximately the following:—

500 lots of 2500 square feet, at 8c.....	\$100,000
500 lots of 2500 square feet, at 10c.....	125,000
500 lots of 2500 square feet, at 12c.....	187,500
500 lots of 2500 square feet, at 15c.....	150,000
300 lots of 2500 square feet, at 20c.....	150,000
Total.....	\$712,500

Taking the above as the minimum value of the Company's property, these Bonds are amply secured as to principal and interest, together with a large surplus to apply towards dividends on stock.

Applications for these Bonds must be made to the Bank of Toronto, Board of Trade Branch, Montreal, Que., or the undersigned, who will furnish copies of prospectus and forms of subscription on application. No fractional shares of stock can be issued, so where an odd amount of Bonds is subscribed for, the subscriber will be entitled to the bonus of fifty per cent. of the next lower even amount.

#### Subscription List Opens March 1st, and Closes March 6th, 1909

All applications for Bonds must be accompanied by a deposit of Ten per cent. (10 per cent.), and the balance will be payable 15 per cent. on allotment, 25 per cent. in 30 days, 25 per cent. in 60 days and 25 per cent. in 90 days after allotment. Where a smaller number of Bonds is allotted than is applied for, the surplus paid on application will be credited in reduction of the balance due, and in cases where no allotment is made, the amount deposited on application will be returned.

### DINING ROOM GIRLS AT NEW GOWGANDA HOTEL

Billy Baxter's House the Skyscraper of the Camp—Work at the Mines.

"Baxter's Hotel, at Gowganda, is quite an imposing edifice when one considers the squat appearance of most of the present buildings at Gowganda City," said a representative of the Bartlett Mines yesterday.

This hotel is a log and lumber building, two storeys high, with a sloping roof, which provides a third floor for the accommodation of travelers.

The hotel will cater to the Gowganda of more expensive tastes, and the rates are to be \$3 a day.

Mr. Baxter is bringing in six dining-room girls from Cobalt and Toronto, and, if he can keep them from getting married, will have an excellent staff.

Already plans are being perfected for summer transportation on the lake. Several steam launches will be operated across the lake to carry supplies and passengers to the Bartlett Mines and the other leading properties along the west shore.

Camps are being erected by the Gowganda United Mines, a New Liskeard enterprise. On the Bartlett the camps are about completed, and things are shaping up for the installation of the machinery when it arrives.

Work is proceeding on the Boyd-Gordon and Mann-Ryan properties with the same excellent results which have characterized development since it commenced some time ago.

Several more surface discoveries have been made. J. B. Tyrrell, who has just returned from the camp, brought down a splendid sample from one of the new discoveries, but declines to name the property from which it was taken, as the information in his possession is confidential.

### GOWGANDA WILL MAKE GOOD

Opinion of Canadian Northern Railway Construction Official.

SUDBURY, Feb. 25.—The Canadian Northern can, and will, at any time connect Gowganda by steel with the outside world as soon as the silver camp reaches the expectations we hold out for it. We have engineers on the survey now, and we know just how to go whenever we are ready. We are in shape to start at any time, and in three months from the start we can have our tracks into Gowganda.

This is what John Montgomery of the construction branch of the Canadian Northern said last night. Mr. Montgomery is up here perfecting plans for the new ten-thousand-dollar C. N. O. station for Sudbury, which will go up on May 1 without let or hindrance.

Mr. Montgomery refused to hold the belief that Gowganda prospects were merely problematic. He said his information was good and authoritative.

"Gowganda is not a flash in the pan," he said, "but a bounding reality."

### RUMOR IS FALSE

Teleskimming Company Will Pay the Regular Dividend.

A rumor in mining circles yesterday, that the Teleskimming Mining Company would likely pass the next quarterly dividend, was emphatically denied at the office of the company.

The officials state that the 6 per cent. quarterly dividend will be declared as usual within the next few days.

The idea is to carry on development work, in addition to that already done on the O'Kelly property, on the Pinder and Fairburn claims.

Some magnificent finds of native silver have been made on the Pinder property.

property, and by putting a gang of men at work cutting and cross-cutting on the west side of the Fairburn property, it is fully expected that the rich Reeve and Doby veins will be picked up.

These veins are probably some of the richest yet found in the Gowganda district. There are seven veins of silver, varying from one to four inches in width, and made up of solid silver, being extraordinary for the fact that it is not in calcite form, but just silver all thru.

# HORSE PRICES SOAR CLYDESDALES AT \$500 CAN. BRED AT THAT

The Tone of the Horse Market is Well Estimated by the Healthy Ring of the Auctioneer's Hammer at the Davidson and Cowie Sales This Week—Prize Team Sells for \$905.

Once more the excellence of Ontario-bred stock has been given decent recognition. This time it is not short-horn cattle, but Clydesdale horses, that have been sold for prices that bespeak still good figures for the good animals and a widening demand for draughters.

The big sales of horses at Cherrywood and Markham were well attended, despite the driest weather conditions prevailing for some time. Not only was the attendance in each case good, but the prices realized were fairly satisfactory.

At the sale of Marmora was one of the biggest purchasers, for himself and his son, F. Harman Cook of the same place. He secured Davidson's first prize mare, Queen Bess, for \$532 and Cowie's imported mare for \$515, making a fine span of mares as live stock in Canada. They are both bred to Baron Allister, imp. of Cairnbroe Stables.

DAVIDSON'S SALE.  
Train came down in torrents on Wednesday morning last. George Davidson & Sons of Cherrywood began to despair of a crowd, but when the parting clouds of noon allowed the sun to break through and to do their work, the crowds began to come in, while the train set in several from a distance, Nova Scotia and Quebec being represented.

The horses on this farm have been raised from the foundation laid by the father of the present owner, away back years ago. By the constant use of good sires, they have acquired a breed of animals that were good enough to win prizes at every show.

It is a big triumph for Canadian horse-breeding on the farms of Ontario, this kind of horse raising transcends all others and makes for the ideal form conditions.

Queen Bess was a mare that should have sold for \$700. She is hard to duplicate in the country. Her filly foal last year was good enough to command \$500 at the sale. The mare was retained by George Davidson, Jr., who never did a wiser thing than when he kept this money-maker for years to come. Together with three of her colts the combined sale price was nearly \$1800.

The following were the purchases made:  
Fair Queen, aged, to George Davidson, Jr. \$435  
Queen Bess, 8 yrs., to F. H. Cook, Marmora \$532  
McQueen's Flower, 1 year, to A. E. Major, Whitevale \$320  
McRobbie, 4 years, to W. Cook, Marmora \$500  
Team of geldings, 4 and 6 years, to Hal Forest, driver filly \$440  
Hal Forest, driver filly \$148  
Carlam Hackney, 2 years, to Graham Bros. \$170  
Sheehan pony, 2 years, to E. J. Poedil, \$105

# LUTHER BURBANK INC.

Naturalist's Brains Are Capitalized for the World's Good.

SAN FRANCISCO, Feb. 26.—In order that his discoveries may be more generally distributed, and incidentally, that his work may not be hampered by the business worries, the brains and genius of Luther Burbank, who has been capitalized for several million dollars by Hartland Law and his brother, Herbert M. Law, two well-known millionaires of this city, and Oscar E. Diner, a wealthy eastern capitalist.

Memorial to Clydesdale Breeder. The Clydesdale Horse Association of Canada is joining with the Clydesdale Association of the United States and both are contributing the sum of \$50 to a fund which is being raised to provide a memorial to Mr. W. Montgomery of the firm of A. & W. Montgomery of Scotland, the most famous breeder of Clydesdale stock in the world.

A BANQUET. The Trafalgar Agricultural Society held a banquet last night at the Hotel Decker at Oakville.

This active society is doing much to advance agriculture and farm life in Halton County, and these annual dinners are conducive of much enthusiasm. Messrs. Robert Miller, Henry Glendinning and J. E. Brethour were expected to be present and deliver addresses.

Compensation for Confiscation. Assessment Commissioner Forman has recommended the payment by the city to Allan G. Gow of \$3600 compensation for property at 614 Shaw-street required in connection with the extension of Harbour-street. The property has a frontage of 20 feet and a depth of 120 feet. There is a two storey brick house on it.

THE ROBERT SIMPSON COMPANY, LIMITED

SATURDAY, FEB. 27, 1909.

The Millinery Season Opens on Monday, March 1st

The ROBERT SIMPSON COMPANY, LIMITED, beg to announce the arrival of the PARIS HATS for the spring of 1909 and to extend an invitation to their first public exhibition on MONDAY, MARCH 1st.

MARCH the First ushers in the new Millinery this year, the era of the brimless crown and the pre-Victorian Bonnet.

'And yet it cannot be said that 1830 has been definitely settled upon as the foundation for the new styles. There are alternatives. The Directorate and the Empire still continue, and many hats have great wide "picture" brims, like in some of the old portraits. Always, though, the brims shade down over the face, helmet fashion, to quote a masculine comparison. One of the pleasing originalities is a compromise between the "bonnet" and the "hat" proper, a more youthful style, perhaps, than some of the others, and one which promises to suit the majority of pretty faces and graceful figures, and to idealize those to which nature, perhaps, has shown indifference. Hats for the present will be small, but it is predicted a tendency towards larger hats will develop later in the season. The colors will show many new and subtle shades—Bois Joli, Marjolaine, Mogul Browns, Gravier, Bosphor, etc. Garden flowers, like roses, phlox, verberna, geraniums, pansies—the flowers of our grandmother's gardens—and the ever-constant, ever-lovely roses—those are the trimmings most in evidence. Feathers strike smartly upward, making a definite note of contrast from out the mass of blossoms. Ribbons are broad with full bows, and in some cases with long streamers to tie under the chin or drape the shoulder. Two things we insist upon for Simpson hats—refinement and a high standard of taste. You will see all the true types of the Parisian for 1909 here, but nothing extravagant, nothing ridiculously extravagant, nothing but what a lady in the truest sense of the word would wear. We'll be ready to receive visitors at 8 o'clock Monday morning. The department has been refitted and re-decorated, and we'll auspiciously celebrate the return of Spring, "though wintry winds do blow or no."

Day's Doings in West Toronto North Toronto East Toronto YORK COUNTY

SUBURBAN DISTRICTS LOOK FOR BUSY SUMMER

Building Trade is Brisk—Norway Meeting—Odds and Ends in the County.

The incoming season in all the outlying suburban districts gives evidence of being a busy one in the real estate and building trade. In the east and in the Kew Beach and Balm Beach districts there are said to be indications of a good healthy boom.

On Lee, Hamby, Leuty and dozens of other streets in the east end many fine private residences are being erected, and the sound of the saw and hammer is heard on every hand.

The Kew Beach district is practically built up solidly from Queen-street to Williamson-avenue. This avenue is, thanks to the foresight of the original owners, 66 ft. in width with a gravel walk on the street line, making a thorough 106 ft. wide. "Vacant lots at the "Beaches," in East Toronto, and the "Midway" show an appreciable advance. In the latter district the annexation movement, now under way, and likely to be consummated on Tuesday before the municipal board, will, it is said, give big increase in suburban values.

"The Kew Beach district never looked better than it does to-day," said Mr. Burk of Burk & Co. yesterday to The World. Other real estate men confirm the statement. "Out here in Chester and Todmorden the outlook is reported to be equally bright, and the extension of the Blouet street viaduct will add enormously to land values here," said a leading resident there yesterday.

WEST TORONTO. WEST TORONTO, Feb. 26.—The local branch of the Toronto Co-operative Equitable Society, Ltd., corner of Dovecourt-road and Main-street, has assigned in police court this morning Russell Fell was charged with shooting at his father-in-law, Thomas Smith. NORWAY. Ratepayers Meet, But Everything Passes Off Smoothly. NORWAY, Feb. 26.—(Special.)—The meeting called under the auspices of the Norway Ratepayers' Association for the discussion of general district matters in the school room to-night, was characterized by the greatest harmony and an utter lack of old-time spirited discussion.

No contentious matters were in dispute, and a resolution favoring the adoption of the subject for two weeks to see what action the municipal and railway board may take with respect to annexation was adopted.

A resolution favoring the matter of compensation to Mr. Over, the secretary of the board, was left in the hands of the trustees.

NORTH TORONTO. Town's Water Shows No Sign of Improvement. NORTH TORONTO, Feb. 26.—The report of Dr. Amyot, provincial bacteriologist, on a sample of water supplied him for analysis by Dr. Jeffs, was not a sample of the town's water, but from a well on lot 12, plan 284, Jarvisville. The town's water has been analyzed only recently, and has been found absolutely pure.

TO AID COAL PROSPECTING. OHTAWA, Feb. 26.—(Special.)—The regulations in regard to coal mining rights in the Northwest have been changed. Heretofore such rights could only be obtained by lease, the lessee paying in advance \$1 per acre yearly. By the new regulation an applicant may have a two years' lease of 2300 acres of crown lands for two years by payment of \$100.

This is designed to encourage prospecting for coal when no known surface indications exist, the money to be returned upon proof of actual prospecting work having been done, and to be applied to rental in the case of subsequent lease. The government has decided to permit quartz mining to be carried on upon forest reserves, precautions being taken to prevent fires and destruction of timber.

The call which had come was that of the spirit of God, and the things wanted were for the effective management. We in Canada had the men and money, and he would be without faith if he did not believe we had the ability to effectively manage the undertaking. We were stewards of the gospel, and in the light of present conditions we have not done our duty in regard to missionary endeavor in the past. The call of the laymen was a call to the students, who were best fitted to carry on the work.

It is a new and strange thing to have the word "layman" on the program at a missionary meeting," said J. N. Shenstone in Convocation Hall last night. A few years ago this would not have been referred to, but during the past two years something has come into the minds and hearts of the laymen in Canada, United States, Great Britain and Germany to enable them to undertake this work.
