## No Serious Clashes Mark Irish Independence Meetings in Ottawa

### LABOR CONVENTION AGAINST RAILWAY ORDER ON POLITICS

Annual Session in Toronto Deals With Many Problems of Importance.

### SUGAR ORDER SCORED

Interesting as indicating the combination of progressive ideals and well restrained purpose was Saturday's session of Toronto Independent Labor Party, the fifth annual convention, which enunciated policies consistent with the most advanced thought in the labor movement and the well ordered organization of constitutional activity. Proportional representation, public ownership of all public utilities, direct legislation, referendum, recall and re-establishment bonus, equal pay for equal work, abolition of election deposits, government control of cold storage, the eight-hour day, creation of national reserves of coal and timber, pensions for the aged and helplessness, abolition of the Canadian senate, and a free and full privilege of education for all children, all these were planks in the I.L.P. platform, which remained unamended.

### IRISH LIBERATORS PELTED AT OTTAWA

Eggs and Tomatoes Thrown at Delegates in Front of City Hall—Complete Police Force Outside Place of Meeting Prevents Counter-Demonstrations—League Passes Self-Determination and French Language Resolutions.

Ottawa, Oct. 17.—(By Can. Press.)—Resolutions of sympathy for the French minority in their fight to maintain the status of their language in Canada, and of support to Ireland in its struggle for freedom and self-determination, were passed at the two-day conference of the self-determination for Ireland League, which concluded here tonight. There was little in the way of organized counter-demonstrations, though a large crowd in front of the hall where the meetings were being held on Saturday night, and hurled a few eggs and tomatoes as a greeting to the delegates. A mass meeting held in one of the theatres tonight was the wind-up of the convention. At this meeting, Armand Lavergne and Lindsay Crawford were the chief speakers. There was expectation of a clash between the delegates and anti-Irish police force, but almost the entire city police force, including the traffic corps and mounted squad, had been recalled to duty for the occasion, and uniformed and plain clothes police lined the sidewalk in front of the theatre entrance to keep the crowd in hand. As a consequence, while there was much crowding about the doors during the early hours, there was no disturbance. "Sinn Fein" prominent. The resolutions were passed amid wild cheers. Some of these extended thanks to the mayor of Hull, who had offered accommodation for the holding of the convention there; to the mayor and city council of Ottawa for allowing the convention here; and to the main resolutions setting forth support for the French language and for the Irish freedom cause. Sinn Fein colors were prominently displayed during the convention (most of the delegates also wearing the "Irish republic" button or one with the words "Sinn Fein" printed across it.

### ORGANIZED WAR IN IRELAND MEANS QUARREL WITH U.S.

Present Trouble Better, Says Churchill, Than Leaving Ireland to Fight It Out.

### WILL BREAK UP GANG

Dundee, Scotland, Oct. 17.—(Canadian Press.)—Danger of embroilment with the United States if the North and South of Ireland were left to fight out their own differences was predicted by Winston Churchill, the secretary for war, in his speech here last night, in which he referred at length to the Irish situation. Mr. Churchill, after asserting that such a course would lead to civil war "on such an organized scale that it would be disastrous and more terrible than could be imagined," declared that it would mean that in England sympathy would develop in favor of Ulster. Influential persons in the United States, he said, maintained with the South of Ireland, and while volunteers would leave England for the North of Ireland, reinforcements would come from the United States for the south. That, added the war secretary, would create such tension that Great Britain would be faced with the greatest danger it could be confronted with, namely, a quarrel with the United States. "Two or three years more of what we are going through," he added, "would be a disaster." (Continued on Page 6, Column 3).

### ONE OF GREATEST UPHEAVALS IN INDUSTRIES OF COUNTRY NOW HANGING OVER BRITAIN

### REPRISAL THREATS FREE MAGISTRATES

Mullinger, Ireland, Oct. 17.—Magistrate Moore and Magistrate Hyde, who were captured Friday by Sinn Feiners, while motoring to petty sessions at Castle Pollard, have been released following upon threats of reprisals by the police and military. They were not ill-treated during their detention.

### DASTARDLY MURDER OF GIRL AT SARNIA BY UNKNOWN MAN

Ten-Year-Old Child Is Strangled and Thrown Into the Lake.

### WAITING NEAR PARK

Sarnia, Ont., Oct. 17.—(By Canadian Press.)—A brutal and dastardly crime was uncovered late last night by the discovery in Sarnia Bay of the body of ten-year-old Dorothy Buchanan, daughter of Mr. and Mrs. Buchanan, Buchanan, Michigan avenue. Point Buchanan, partially dressed and with the horrible prints of a man's hand on her neck, telling the terrible tale of her death. She had been strangled and thrown into the bay by some person whose identity is not known, and whose name had been the name of a woman who had been successful. The girl had disappeared only a few hours before and was discovered by members of a search party.

### HUNGER STRIKER DEAD IN PRISON

Cork Jail Doctors Permitted to Give Him Treatment at the Last.

Cork, Oct. 17.—The first death among the hunger strikers in Cork jail occurred tonight. Fitzgerald died at 8:45 o'clock, having fasted 68 days. The condition of Fitzgerald and Murphy had become so grave today that, with the consent of the other hunger strikers, the prison doctors were permitted to give Fitzgerald medical treatment. A Cork specialist also was called.

### MAIL IS STOLEN AT BROCKVILLE

Brockville, Ont., Oct. 17.—(Canadian Press.)—The police here are investigating the disappearance of three mail bags from the Canadian Pacific Railway wharf, where they had been left to be taken across the ferry for connection with the New York Central train. The carrier deposited the bags on the wharf and as the approaching boat was in sight, drove away, thinking they would be safe, but before the boat touched the wharf the bags had been stolen. One of them, containing a valuable registered package of bonds consigned to Morrisstown, N. Y., was later found in the Canadian Pacific Railway yard near the wharf. It had been slit open, but its contents apparently did not interest the thief, as they were intact. There is as yet no trace of the thief or of the other two bags.

### TRINITY COLLEGE PLANS.

Work is to be started this fall on the new building of Trinity College on Hoskell avenue, Queen's Park. The removal of Trinity College to Queen's Park is now set for early in 1922.

### GOOD NEWS FOR MEN.

A drop in the price of Men's Overcoats is announced at Dineen's, 140 Yonge street. An event of importance not seen since the war will take place tomorrow, at 8 o'clock, when one hundred and seventy-two high-class fall and winter overcoats will be placed on sale at prices unheard of for some years. The large display advertisement inside this paper tells the story and the reason for this big drop in prices. Look it up and read it.

### MORE SLAUGHTER OF IRISH POLICE PERFORMING DUTY

Sergeant, Called From Tipperary to Identify Body, Shot Dead.

### REPRISALS IN GALWAY

Dublin, Oct. 17.—Sergeant Roche of the Royal Irish constabulary, who had just arrived here from Tipperary to identify the body of Mr. Tracey, who was shot during the disturbances in Tubbot street on Friday, was shot dead this afternoon on the Ormond quay. A man and a girl also were wounded by the shots of his assailants.

### MACHINE GUN CORPS IN ROSEDALE BARRACKS

Kingston, Ont., Oct. 17.—(Special.)—Kingston loses the headquarters of the permanent machine gun force this week, as the corps occupying the Barrfield barracks is under orders to leave at once for Toronto, and the men are now packing their kit and preparing to return to their command posts. The barracks unit will occupy St. Andrew's College, Rosedale, Toronto. It is understood to be temporary, as permanent headquarters will be established in the west.

### Designates Next Sunday as Day For Reading League Covenant

Albany, Oct. 17.—Gov. Smith in a proclamation made public tonight, designating Sunday, Oct. 24, for the reading of the covenant of the League of Nations "by all citizens who desire this great national question disposed of in a manner that will promote the best interests of the United States."

### A Delightful Fall.

Sunshine, soft air and soft hazings, trees turning into their rich colorings without dropping many leaves, the ground mellow for fall plowing, altogether another month well thru of the most wonderful year ever seen by the present generation of Ontario. A year of big crops, of good prices, of work for everybody; a year for thanksgiving to many, and yet a year of sad memories for those who went to the war and will not return!

## MORE RESIGNATIONS FROM POLICE FORCE

### Two Constables Gave Notice Saturday—Rumors of More Coming.

Hamilton, Oct. 17.—Two more resignations from the local police department were handed in on Saturday, when Constables R. Tugnet and J. Hewitt announced that they had secured more lucrative positions. Both men, who are well liked by officers and fellow-constables as well as by the citizens in general, it is rumored that several more resignations will be handed in shortly, owing to the present low wages given by the city and the desire on the part of many to secure inside employment during the winter months. It is expected that a special meeting of the police commissioners will be held in the near future for the purpose of making arrangements to cope with the present unsatisfactory feeling existing among the men in respect to wages.

## GANG OF PICKPOCKETS MAKE A RICH HAUL

Hamilton, Oct. 17.—That a gang of pickpockets are operating in the city is evidenced by the many robberies that have occurred during the past few days. ## HAMILTON EDITORIAL

### Thanksgiving Day.

Today is Thanksgiving, the one day set aside in each year when every citizen is called upon to be thankful for that which he has or that he has had, or is expecting to have. It is intended as a sort of second Sunday, a day of quiet worship, morning church services, and family reunions if possible.

And Hamilton has much to be thankful for. Mayor Booker will not be another candidate in the great stake race to be run on January 1st. The promised new post office that was to have been finished by this time, is still a dream, leaving more space to breathe the good fresh air that is wafted down to us from the mountain top. Our cellars are full of preserved fruit, the plentiful supply and at cheap prices enabling our citizens to stock up with an unlimited quantity, peaches especially, so much so that many could be entertained nightly without fear of any shortage.

## TIGER SECONDS AND DUNDAS TIE

### Bitter Struggle Results in Each Side Scoring Ten Points.

Hamilton, Oct. 17.—(Special.)—Reports of the outcome of the rivalry between Dundas and Hamilton in hockey were clearly demonstrated to be true in the intermediate O.R.U. game staged at the Dundas Driving Park between Dundas and Tiger Intermediates Saturday afternoon. These two teams battled like mad men for the duration of the match, only to have it end in a 10-10 tie. The officials decided that overtime should not be played owing to the approaching darkness. It was a great game to watch, and additional interest was aroused by the many struggles for positions of vantage on the icefield which took place among the spectators, several of whom were injured during the afternoon.

The play was about evenly divided throughout. With the Tiger team having a slight advantage over the Dundas team, the latter scored first through the efforts of their forward line, which was headed by their star player, Ed. Norrie. The Tiger team, however, responded by scoring three perfect drop kicks, and kicking behind for a rouge. He also prevented several apparently sure goals for opponents by returning under great difficulties, from behind his own line. Stove played a nice kicking game, and Tigers, netting four of the points. Edford kicked for another point, while Brydges secured the only touchdown of the game by his brilliant kicking.

## SHORTLY AFTER PLAY STARTED DUNDAS SECURED INTERFERING TIGER'S DRIVE

Shortly after play started Dundas secured for interfering Tiger's drive. The Dundas line, from where Norton kicked a drop for three points. Following nice runs by Hill and Cannon, Stove punted, scoring three perfect drop kicks, and kicking behind for a rouge. He also prevented several apparently sure goals for opponents by returning under great difficulties, from behind his own line. Stove played a nice kicking game, and Tigers, netting four of the points. Edford kicked for another point, while Brydges secured the only touchdown of the game by his brilliant kicking.

## LABOR SOCCERITES SCORE EASY WIN

### Stelcos Defeated in Semi-Final for the Challenge Cup.

Hamilton, Oct. 17.—(Special.)—Labor Party were easily the better team when they defeated Stelcos in the semi-final for the challenge cup here Saturday. The score being 5-0, and qualified to meet Westinghouse in the final. The goals were scored by Lawson, West (2) and Parker (2). In an H. & D. League game Westinghouse defeated the Ontario Hospital by 4 to 1. Labor Party and Westinghouse meet in the final of the Houlditch Cup this morning on Haven grounds. The big scores rolled up by both teams Saturday has put the crowd on edge for the game, which promises to be a thriller.

Thistles won the Dundas cup when they defeated the Dundas team in the first half, when they had a 1-0 lead. Dewar scored the winning goal in the second, allowing Thistles a score twice. Lawrance set the pace from the start and maintained his lead until within a few hundred yards of the finish, when Moorecroft by a splendid spur, managed to pass him. Harry Tressider, Black, Ellis, White and Scholes remained in the ranks of the leaders for most of the journey and finished third, fourth, fifth, sixth and seventh, respectively.

## BEAR GIVES SCARE TO ZOO VISITORS

### Animal Escapes From Cage, But Is Finally Rounded Up.

Hamilton, Oct. 18.—(Special.)—Closely following a complaint that the Dundas Zoo was the medical health officer, and that it was no fit place for children to visit, because of the alleged diseased condition of the monkeys, another event of even greater importance to the officials in charge took place Saturday afternoon when one of the bears broke loose, causing great consternation and terror among the visitors at the park. While one of the attendants was cleaning the cage the bear took it upon himself to emerge from his prison and enjoy the freedom of the grounds. After much chasing the animal was finally cornered and persuaded to again take his place behind the bars, where the pleasure-seekers once again resumed their rambles.

**Distinctive Wallpapers**

It is a well-known fact that the harmony of a room depends upon the beauty of its background, therefore, the most careful consideration should be given the selection of the wall covering. To-day it is possible to make a choice from an infinite variety of beautiful wall-papers, for in our Wallpaper Department are the most charming papers in a multitude of designs and a wealth of colorings. With such a range it should be a simple matter to select the best covering for each room and for all rooms, keeping in mind a unifying and linking up in the color scheme. There are rich, wonderfully designed and decorative imported wall-papers suitable for any room. The grass cloths are exquisite in their subtle color combinations, and give such a desirable background for any style of furnishing. Then the soft neutral-tinted papers with tropical birds, foliage and exquisite flowers find favor with so many. The conventional patterns that can be used to good advantage in so many rooms have delightful colorings, with nothing stiff and obtrusive that we commonly associate with this style of paper.

For cold north rooms there are the cheeriest kind of wall-papers in a wide range of yellows, warm tans and rose tints that would transform the dull-looking room into a most desirable one. Hand stippled and the plain jaspé paper are always good, and the cheery chintz designs would give a homelike look to even a hotel bedroom.

Consult our decorators for schemes of decoration and estimates, or if unable to come to the Store write for samples and estimates to the Shopping Service Bureau.

The Toronto World

FOUNDED 1853. A morning newspaper published every day in the year by the World Newspaper Company, of Toronto, Limited.

MONDAY MORNING, OCTOBER 18.

Credit and Charity.

Ambassador Geddes told the Canadian Club of Toronto not long ago that Continental Europe needed credit, not charity.

Everyone would shrink with horror at the idea of innocent children being allowed to perish for food in this world of plenty.

Nations no more than individuals like to be imposed on, and we might quote what Mr. Hoover said a year ago, namely, that this is positively the last time we will come to their aid.

Neither the Red Cross nor any other organization can expect individual citizens to go down in their pockets to buy food for the unfortunate people of Central Europe.

Thanksgiving Day.

Thanksgiving Day this year crowns a bountiful harvest, an autumn of singular beauty and a year of profound peace and general prosperity.

Holidays, however, cannot be made to order, but gradually work out their own peculiar destiny. Our Thanksgiving Day, at first a reflection of the English harvest home festival and to some extent of the American Thanksgiving day, is now developing an individuality of its own.

We wisely standardized the day of the week so that Thanksgiving now always falls on a Monday, and the time is ripe to agree upon the day of the month, the month by common consent being October.

portion of the population, but there seems to be no reason why the third Monday should not be chosen as a permanent date for Thanksgiving Day.

Remark in Passing.

New York and Montreal are partners in fighting deeper St. Lawrence waterways. It's a queer combination against Canada's best interests.

With Crown Attorney Corley at the head of the new "liquor squad" of Toronto's police, bootleggers are going to really earn some of the big profits they are reported to be making.

York and Halton county school teachers are organizing to secure an overdue raise in wages. Their pupils are reported to be spending sleepless nights as the result of their fears that a strike may temporarily close the schools.

It is on occasions like last Saturday when holiday crowds prove the utter inadequacy of the Union Station that Toronto citizens gaze at the new building and wonder how long it will be before it is put to use.

Chairman of board of commerce says his famous sugar order is now "sub judice" and must not be talked about. It's good thing for most of Canada's population that they can't be jailed for talking about this forbidden subject.

Keep the Board.

The man who, on being served with a writ, shot the sheriff, was a little mixed in his orientation. He knew somebody ought to be shot, but beyond that his powers of reasoning did not go.

The board of commerce having issued an absurd, oppressive and illegal order regarding the importation of sugar, a "good" idea is to abolish the board.

The Sugar Case Next Wednesday.

Ought not the consuming public, as represented through the municipal government of Toronto or the provincial government of Ontario, be represented at the public hearing on the sugar embargo before the governor in council at Ottawa on Wednesday next?

FINES FOLLOW PROBE OF FORT WILLIAM NIGHTS

Fort William, Ont., Oct. 17.—Fines, amounting to \$1700, and a six months' sentence for keeping a disorderly house were imposed in the local police court yesterday as the result of a visit to this city of two alleged liquor "spotters."

GREAT UPHEAVAL MENACES BRITAIN

The strike which has been in progress since Oct. 30 has put men and other employees who are sticking to their jobs should be called out.

Troops Held in Readiness.

It is indicated tonight that Premier Lloyd George will take no hand in the matter before Tuesday, when parliament meets, and undoubtedly will discuss the situation. No disturbances are reported and no troops have been sent to the mining centres, but they are held in readiness.

Notwithstanding the food ministry's assurance that there will be plenty of food, even the strike lasts some time, London provisions report that housewives are having to buy in supplies. The sugar ration will be cut fifty per cent. Monday.

The strike began at some of the coal fields Friday, the men bringing their tools up when they had finished their shifts. Nottinghamshire, Durham and South Yorkshire were the first thus to respond to the strike call, while a large section of the men in some of the coal fields welcomed the call, it is evident that elsewhere the strike is not only unpopular, but unexpected, the men having felt confident that, notwithstanding they voted against the "atum line," a settlement would be made.

This attitude is partly explained by a member of the miners' executive, who said: "A large number of the men who entered the industry as boys just before the war had no trade union experience and had become so accustomed to ready concession of their demands in wartime that they had no conception of the real meaning of negotiation."

Notwithstanding their surprise, however, there is no indication of weakening. It is foreseen that every mine will join with the extremists, who are largely responsible for the position of affairs.

With respect to the action of the railwaymen, it is said that considerable numbers of these workers are discontented and are inclined to cease work without the consent of their leaders. It is also declared that many of the transport men are equally ready to join the belligerents, the more so as many of them are already unemployed owing to the restricted coal exports.

The question is to how long the miners can hold out, in the absence of any agreement, is causing much speculation, but it is difficult to estimate. It is recalled that the last coal strike in 1912 continued for five weeks, but the calculations for the most part fix a shorter period as the limit of resistance now.

It is believed that South Wales is the best equipped in the matter of strike funds, which, it is estimated, will allow each miner to be paid one pound a week for three weeks. But it is doubted whether many other districts are in such a favorable position.

The effect of the suspension of the transportation of the coal abroad is regarded as most unfavorable to Italy, which is almost dependent upon British coal, and the fear is expressed that the already disturbed conditions there will be shortly augmented.

IF YOU'RE GOING TO JUMP, JUMP!

ORGANIZED WAR IN IRELAND SERIOUS

(Continued From Page 1) pears better to me than that we should leave Ireland to herself and thus open the floodgates of organized war, and later embroil us with the United States."

Mr. Churchill previously in his speech had declared that the reign of terror in Ireland would be suppressed, and that it would then be time for a complete and permanent settlement of the Irish question.

Will Break Up Assassins. Referring to an earlier speech in the city, the secretary for war declared that the soldiers serving in Ireland, far exceeded that of the soldiers who served in the trenches during the recent war.

"But," he added, "we are going to break up this murderous gang and it will be broken up absolutely and utterly, as sure as the sun will rise tomorrow."

Mr. Churchill said that when the reign of terror was suppressed it would be time for a complete and permanent settlement of the Irish question. He stated that the plans of Viscount Grey and Mr. Asquith did not agree, but that this did not matter much since De Valera would accept neither.

During a denunciation of Bolshevism, Mr. Churchill declared that representatives of Bolshevism in Great Britain had tried to teach labor leaders how to run a revolution. There were Lenin and Trotsky here, he said, waiting for reports of their delegates to Russia.

Sugar and Paper Famines.

(From The Sunday World.) The supposed famine in sugar was suddenly discovered to be a myth when shipping was available to bring out the accumulations in Java, Brazil and other places. The paper famine promises to end in a similar revelation. The output all over is being enormously increased, and one printer in the city told The World that he had sold some stored paper at a loss of six cents a pound, and since the idea of any shortage is dispelled it will be surprising to see the amount of paper that will be brought sight from hoarding. The paper stock bulks may get a dose like that given the bulls in Atlantic Sugar.

LABOR CONVENTION AGAINST RAILWAY

(Continued From Page 1) governed by this decision of the convention. Several resolutions were passed, one calling for the cancellation of D. B. Hanna's order prohibiting employees of the Canadian National Railways from engaging in political activities, and another requesting the government to rescind the order of the board of commerce prohibiting importation of sugar from the United States.

An important announcement was that respecting the splendid progress of the co-operative movement in Toronto, fully co-operating with the U.F.O. Roland Palmer is the presiding genius of the party in this connection.

The officers elected for the ensuing year are as follows: President, James Simpson; first vice-president, John Doggett; second vice-president, John Macdonald; third vice-president, Dick Russell; secretary-treasurer, Mrs. Dickson; recording secretary, J. W. Buckley (who is also president of the Ontario Independent Labor Party). The executive will be elected by the various branches. An interesting note in connection with the elections was the fact that in the case of two offices, those of secretary-treasurer and recording secretary, twelve to fourteen names were put up for nomination, but in each case all but the elected officer declined nomination, thus electing these two officers by acclamation.

Strong Finance Committee. Dick Russell, who is one of the "Old Contemplatives," with service records going back to the very beginning of the great war, advocated the need of a strong finance committee, and it was finally decided to appoint a committee of six, three women, three men. This committee will consider ways and means of dealing with the financial end of the party, and it is anticipated that either quarterly or monthly dances will be held with a two-fold purpose in view, increased finances and increased membership.

The campaign for Northeast Toronto is now in full swing, and James Higgins, Soldier-Labor candidate for this riding, was one of the principal speakers. He stated that there was much promise in the situation, and that the ex-service men were gathering the clans behind him with enthusiasm. He hoped that the I.L.P. would prove loyal to its best principles, and

State Capitalism.

Alfred Mance expressed the opinion that such an order constituted state capitalism of the worst kind. John Loan pointed out that the same rule had been in effect among Dominion employees for many years. James Higgins stated that he had understood that the order related only to salaried employees, and not to those working by the hour, but he always understood that returned men had fought for the principle of democracy, but it was evident the wheel had slipped a few years. He believed that the Dominion minister of labor should not be permitted to hold place in the old men's home of the Dominion House—the senate. A resolution finally carried to protest against the order, and to request its cancellation, and to send this protest on to the Massey Hall meeting of Sunday afternoon, as well as to the Trades Council and other representative bodies.

Another resolution which occasioned strong feeling was that proposed by Joseph Marks, general organizer for the party in Ontario, to protest against the recent order of the board of commerce, prohibiting the importation of sugar from the United States into Canada. In this connection, James Simpson stated his opinion that the real issue was not that the real issue was the corporate interests and in the house of commons. As a matter of fact, the government appeared to be the executor of the corporate interests, conscientiously believing that the interests of the commercial combinations should be rigidly protected against the interests of "undue" competition and possible bankruptcy. The resolution and possible bankruptcy, said Mr. Simpson, "that while we ourselves are urged to be constitutional in our methods of procedure, the corporate interests, aided and abetted by the Dominion government, do all in their power to make unconstitutional that which was enacted as constitutional and that these members of the labor party of Sunday afternoon, as well as to law." Finally, the resolution was carried by a vote of 100 to 50.

The last resolution passed by the party was that which endorsed the stand of Rev. Canon Scott who had been reported as charging the Dominion government with offering a \$3,000,000 bribe to hush up the Ross rifle scandal. In this connection, James Simpson, touching upon the commercial institutions of the country, stated his opinion that the presiding genius of these institutions were nothing less than gamblers, gambling for those things which meant life or death to the women and children of the nation. They were the curse of civilization, and the Bolsheviki of the North American continent.

Labor Leaders in Trieste Call Off General Strike

Trieste, Oct. 17.—The general strike called here Thursday, and which ended in disorder throughout the city, is proclaimed yesterday ordering all the workers to resume their duties. The proclamation says that "unreserved support is needed for the future plan of action."

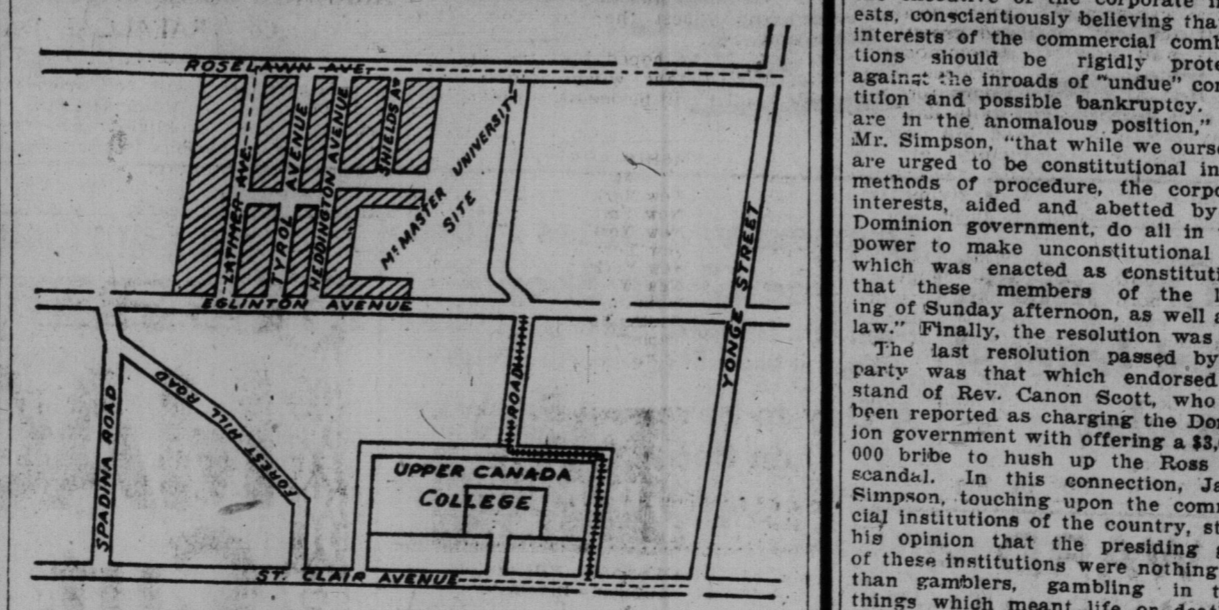

Strike in Dresden Over.

Dresden, Oct. 17.—The strike of municipal workers which, since October 12, has disrupted the electric, gas and water service, has ended.

IS KILLED BY EXPRESS.

Chatham, Ont., Oct. 16.—William Huckle, a fruit-grower of Cedar Springs, was hit by a C.P.R. express at a Chatham township sidroad today and instantly killed.

THE HOUSE 'ROUND THE CORNER

By GORDON HOLMES

CHAPTER X. Continued.

"Yes," she cried, "that is so correct that it is quite wonderful. My father had a half-hunter gold watch and a chain of twisted leather which he wore as long as I can remember. Both had gone when he came to us in Paris; when I missed them, he said they were lost, much to his annoyance, and he had been obliged to buy a new watch in London."

"There is nothing wonderful in treating a watch and chain as the first objects which would lead to a man's identification," said Armathwaite. "Now, don't let your admiration for the excessive wisdom of the court tempt you to interrupt again, because the court has not fully made up its own mind, and is marshalling its views aloud in order to hear how they sound. Where were we? Still in Section D, I think. Well, granted that an obdurate policeman or a perplexed doctor refused to admit that Stephen Garth was dead, the letter would clinch the matter. Indeed, from the report of the inquest, we see that it did achieve its purpose. The remaining heads of the argument may be set forth briefly:

E.—Stephen Garth is buried at Bellerby, and Stephen Ogilvie steps into new life in Paris, wearing a literary cloak already prepared by many years of patient industry, the no one in Elmdale knew that its well-known resident was a famous writer on folklore.

F.—After some months of foreign travel, it was deemed safe to return to England, and Cornwall was chosen as a place of residence. The connection between rural Cornwall and rural Yorkshire is almost as remote as the influence of Mars on the earth. Both belong to the same system, and there would be trouble if they became detached, but, otherwise, they move in different orbits; they have plenty of interests in common, but no active cohesion. In a word, Stephen Ogilvie ran little risk in Cornwall of being recognized as Stephen Garth.

G.—Mrs. Ogilvie, a most estimable lady, and quite as unlikely as her scholar-husband to be associated with a crime, was a party to all these mysterious proceedings, and the combined object of husband and wife was to

keep their daughter in ignorance of the facts for a time, at least, if not forever. "I don't think I need carry the demonstration any further tonight. You are not to retire to your room and sob yourself into a state of hysteria because your coming to Elmdale has threatened with destruction an edifice of deceit built with such care and skill. I am beginning to recognize now a fatalistic element in the events of the past 24 hours that suggests the steady march of a Greek tragedy to its predestined end. But the dramatic art has undergone many changes since the days of Euripides. Let's see if we cannot avail ourselves of modern methods, and keep the tragic denouement in the place where it has been put already, namely, in Bellerby churchyard."

The girl stood up, and gave him her hand. "I'm almost certain, Bob, that if you and I had five minutes' talk, there would be an end of the mystery," she said.

"And a commencement of a long friendship, I hope," he said. Their eyes met, and Meg's steady gaze faltered for the first time. She almost ran out of the room, and Armathwaite sat many minutes in utter stillness, looking thru the window at the dark crest of the moor illuminated against a star-lit sky. Then he refilled his pipe, and picked up the book he had taken haphazard from the well-stored shelves of that curiously constituted person, Stephen Ogilvie.

It was a solid tome, entitled, "Scottish Criminal Trials," and lay side by side with "The Golden Bough," which Marguerite had spoken of, and a German work, "Geschichte des Teufels." Turning over the leaves, he found that someone had marked a passage with ink. The reference had been noted many years ago, because the marks were faded and brown, but the paragraph thus singled out, had an extraordinary vivid bearing on the day's occurrences.

It read: "A statute of James I., still in force, enacts that all persons invoking an evil spirit, or consulting, covenanting with, entertaining, employing, feeding or rewarding any evil spirit, shall be guilty of felony and suffer death."

Continued Tomorrow Morning.

**SALVATION ARMY NEW CITADEL OPEN**

**Commissioner Richards Performs Ceremony Before Capacity Congregation.**

Commissioner Richards officially opened the new Salvation Army citadel on South Dufferin street, Saturday afternoon, and as he turned the key of the new building, said that this building was dedicated to God and the advancement of his kingdom. A capacity audience filled the hall, many being unable to find standing room.

In his address the commissioner congratulated the Earlecourt corps on the success of their work in building this splendid new citadel, especially when he reminded them that other parts of Toronto were also clamoring for new halls. He gave an earnest address on "The Open Door," describing the door as one of hope and happiness. The only fault that the commissioner found in the hall was that it was too small, as he said he had predicted.

Col. Miller, headquarters architect, quoted figures of the cost of the new hall, and said it took some tall thinking these days considering the cost of materials. The land cost \$4,500, the building, \$22,550, and the furnishings, \$1,080, a total of \$38,550. He said the credit side was the lot on St. Clair which had been sold for \$10,000, and subscriptions when completed, another \$10,575, leaving a mortgage debt of \$16,885. Among the speakers were, Rev. Peter Bryce, Alex. Gordon, secretary of the Earlecourt corps, Ensign Percy Parsons, Commandant Morehen, Aid. Brook Sykes. Earlecourt will go out for a drive to collect \$5,000 within the next few days aided by the local business men's committee. Col. McMillan presided.

**HOLD SUCCESSFUL HARVEST SERVICES**

**Churches in Northwest District Tastefully Decorated for the Occasion.**

Thanksgiving services and harvest festivals were observed in many of the churches in the northwest district yesterday. At St. David's Presbyterian Church, Harris and St. Clair, Rev. Dr. Byron Stauffer preached to a crowded congregation on "Mother's Love," Ruth, chap. 1, verse 2; and the name of his wife was Naomi. Love and affection for mother was the theme of the preacher's subject. "One mother was worth a hundred schoolmasters," he said, "and while we count our blessings, let us show our gratitude to her who brought us into the world. The fruits of the soil from this blessed country we should ever be thankful for," said Dr. Stauffer.

The preacher scored those who would ignore the mother and the child, for Jesus Christ never lost an opportunity of praising the goodness of those people who were not of his own race. There is, he said, a good in all peoples as in other things, and there is a little bit of Christianity everywhere, as there is a little bit of gold, silver and iron in every rock. The preacher asked the congregation to give a hearty welcome to the immigrants who were coming to this district from the old country. Special anthems were rendered by choir, and Rev. C. A. Mustard is the minister.

Thanksgiving services were conducted at the new Salvation Army citadel, when the morning preacher was Canon Paterson of Grace Church, Casco Plumptre, of St. James' Cathedral, was the evening preacher. The church was tastefully decorated with flowers, vegetable and autumnal leaves gathered in the district. The choir rendered appropriate anthems. Rev. A. J. Reid is rector.

**HERBERT HOOVER**  
 Who spoke at the Canadian Red Cross dinner at Toronto Saturday night, on behalf of the British Empire War Relief Fund to combat the disease and distress in the war-stricken areas of Europe? Mr. Hoover commended very earnestly the Canadian Red Cross appeal for funds to fight disease and to save the children in the war-stricken poorer countries of Europe. He said that the American children's Relief Administration in Europe would co-operate in every possible way to aid in the distribution of supplies for the children thru approved national and local agencies in the name of the Canadian Red Cross.

**DECLARES GAMBLING A NATIONAL MENACE**

**Minister Declares Spirit Had Been Widespread Thruout All the Ages.**

"Gambling—a national menace," was the subject of a forceful Thanksgiving sermon preached by Rev. J. A. Cranston, pastor, at the evening service in Kew Beach Presbyterian Church yesterday before a crowded congregation. "Among the causes or incentives to gamble were the love of gain, the love of chance, sport athletics and even the general routine," said the preacher. "Widespread thruout all ages and countries in many different forms it was practically the same thing. The war as far as Germany was concerned was a gamble at the outset, because they thought they would win. Gambling extends to all classes of society and to the church and philanthropic societies in their endeavor to raise money."

"How can any young man distinguish between the church and the gambling houses?" queried the preacher, who deprecated the custom which was both humiliating and demoralizing. Legitimate speculation in business was quite a different matter from gambling. "Race tracks are to a very great extent owned and supported by Americans who have been driven out of their own country," said the preacher. "By the laws of their country, which makes gambling illegal. Gambling is taking something for nothing and destroys legitimate business and is a non-producer, adding nothing to the wealth of the country. It is most unsettling to the mind, nerve wrecking and a home-destroying and soul-damning business. Who can say at this Thanksgiving time that he is thankful for the race track gambling in our country or for the imported gambler from across the line?"

"Horse racing is not associated with gambling, but gambling has been permitted to the detriment of real horse racing." In concluding his remarks, the preacher appealed to the young men for the sake of their dear ones to cease the gambling habit, as hundreds had already fallen by the wayside. The wise man was the one who ceased gambling to the detriment of his dear ones and the wisest the one who never commenced.

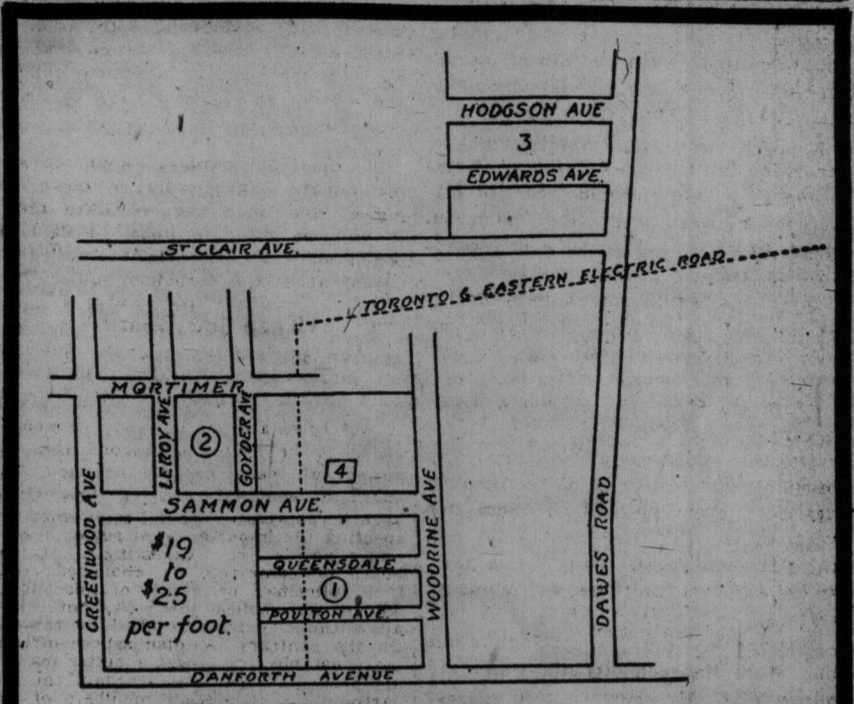

"It is to be hoped that the time is not far distant when gambling at race tracks will be legally prohibited," he said.

# TORONTO GRATEFUL ON THANKSGIVING DAY

### Sunday Services Were Largely Attended—Crowds Leave City and Arrive—Delightful Weather Favors Ushering In of Last Public Holiday Until Christmas—Thousands Out Walking and Driving.

This is Thanksgiving Day, when the people of this highly-favored land are expected to be, and undoubtedly are, mindful of being vouchsafed an abundant harvest, to be grateful for other privileges enjoyed, and, incidentally, to make all the innocent phrases they can out of this, the last public holiday before Christmas. The latter festival, by the way, is only about nine weeks away, and, moreover, it falls on a Saturday.

The beautiful autumn foliage, seen nowhere better than in Canada, also reminds the people that the year is "falling," but the delightful weather with which the holiday has been ushered in certainly does not flavor very strongly of the cold spells which must sooner or later tell of the advent of winter.

Yesterday, opening rather dull, turned out a regular peach, making outdoor life a genuine pleasure. There were thousands out walking and driving, thus making the most of the delightful spell. The churches were well attended, and there was a note of thanksgiving in all the services. The various outgoing trains were well patronized, while the arrivals were also on the extensive scale. Given the weather today, there will be ample opportunity for enjoying Thanksgiving. Football matches will no doubt attract large crowds, the boats should be well patronized, and, then, of course, despite the farmers' cry of "turkeys being scarce," there will be many happy family and other reunions around the festive board.

### High Rates No Dampener.

In the face of increased railway fare, thousands of persons passed thru the union station yesterday to catch weekend trains. From the time of the regular 1 o'clock Saturday closing until the late trains pulled out, the station presented an animated appearance. The height of the crush was at about 4 o'clock, many travelers scheduling their holiday trip to arrive home for the evening meal. Station masters declared, though, that the early afternoon

trains were very popular and more than crowded, hardly a car leaving the station that was capable even of an S.R.O. sign.

### Streams of Passengers.

Around the gates the throng was densest. Two men were on duty, urging him to get the public properly ticketed and on the right platform. In the course of a ten-minute waiting, a continual stream of passengers, usually loaded with parcels, asked only for such places as Orillia, London, Hamilton, Stouffville, and so on. A grim humor kept everybody in good spirits during the rush for the train.

The platforms were crowded and it seemed as though, as soon as one train was filled and pulled out, another would be coming. The prevalence of showers of colored confetti, near the tracks, showed that bridal parties had passed that way. In fact, "I've got two couples in my car," remarked one conductor, as he mopped a hot brow. The crowd individually, was, as always, interesting in its holiday make-up. There were engaged couples, groups of girls, families headed by a worried paterfamilias and many young men, probably going home to see something over Thanksgiving.

Clothes, for the most part, were dark, and raincoats and umbrellas much in evidence. A real holiday crowd animated chatter and the thought of the old-fashioned "eat" of the "morrow, in the setting of the old Union Station, would be a treat for the cynic who says the community spirit is dying out. Who said turkey?

### CORLEY TO DIRECT NEW LIQUOR SQUAD

"The Man Higher Up" to Be Hit Hard—Experienced Men Named.

(From The Sunday World.)  
The reported formation of a special liquor hunting squad, which will act independently of the Toronto police, but separately in conjunction with the attorney-general's department, created a sensation in police circles on Saturday afternoon. Attorney-General Raney is said to be the man behind the scheme.

Crown Attorney Corley, it was learned, had been given forty days leave of absence from his court duties, and it is understood that he will give up his duties as crown prosecutor in the police court and devote his time exclusively to advising the new squad.

Detective Bill Ward, of West Dundas street station, will be in charge of the squad, it is understood, and will himself select a special squad of men who will be handled by him, with the assistance of Patrol Sergeant Charlie Scott, of Court street station, and Plainclothesman Robert Greenley, also of Court street station. These three were on Saturday afternoon, given leave of one month by Acting Chief Dickson, and after tomorrow they will not be on the strength of the police force.

The squad will commence work tomorrow, but whether their activities will be confined only to Toronto, is not yet known. It is also understood that it is the intention of the chief of police to be hit, and hit hard.

In selecting Detective Ward and P.S. Scott, the authorities recognized two officers who, when they were plainclothesmen in West Dundas street station, were the terror of the liquor peddlers, dope peddlers and others in the ward. Greenley is recognized as a man who has done splendid work in Court street station.

### MOTOR STRUCK BOY AND BROKE HIS LEG

Struck by an auto driven by E. W. Gardner, 80 Glenholme avenue, on Saturday afternoon opposite 118 Yonge street, Herbert Reid, aged 9, of 28 Frichot street, had his left leg broken. He was removed to the hospital for Sick Children in the police ambulance. Gardner reported to the police and was not detained.

Gardner, the police say, was driving north on Yonge street when, opposite No. 118, he had started out from the sidewalk into the path of his auto. In an effort to avert the accident, Gardner swerved to the left, the rear end of the auto striking the boy's slanting blow, which threw him to the street, causing the injury.

### ANGLICAN CLERGY ARE POORLY PAID

### Canon Plumtre Appeals for Widows and Orphans—Ask Help for Europe.

"The salaries of most of our clergy in the country districts are such that it is impossible for them to insure their lives on an ordinary business basis," remarked Canon Plumtre at St. James' Cathedral yesterday morning in making an appeal on behalf of the widows' and orphans' fund of the Church of England in Canada.

"If a clergyman dies," added Canon Plumtre, "and leaves a widow and children, they are frequently placed in poverty which amounts to starvation. In order to do justice to these widows and orphans' fund is raised by the church."

Canon Plumtre went on to say that each church through Canada was given a certain amount to raise at special collections, which would be made on Sunday next. The sum needed for St. James' Cathedral was \$400, and he had confidence in appealing to the congregation to do what was required.

Canon Plumtre also put in a good word for the starving people of southeastern Europe. "Few if any people in the world today have greater cause for thankfulness than those of Canada," he said. "We know nothing about the appalling suffering in some of the large districts of Europe, and I do not suppose that anyone in this country, despite the high cost of living, today realizes what it is to want for the necessities of life. The people here had no such knowledge of hospitals, nursing, medicine, and everything almost that makes life tolerable."

Canon Plumtre said the people of St. James' would be afforded opportunities thru the Red Cross Society of helping these unfortunate people, and he had no doubt at all what the response would be.

The cathedral was tastefully adorned with flowers, and there were special "Thanksgiving" psalms, prayers and music. Canon Plumtre continued his series of Sunday sermons on the life and work of St. Paul, remarking that strong men today were needed in the religious, political and social world.

### GOOD ROADS WORK IS FAR ADVANCED

### Highways of Province Are Being Greatly Improved by Government.

Work on provincial highways is expected to cease on Dec. 10, by which time most of the contracts now under way will have been completed. All the heavy work between Highland Creek hill and the Quebec boundary, and on the Ottawa-Prescott highway, a distance of about 250 miles in all, will be done before the end of the year, also about 95 per cent. of the culverts and bridges on these roads.

"The policy of the department in dealing with the new provincial highways is first to put them in a reasonable state of repair, ready for immediate use," said W. A. McLean, deputy minister. "For the most part the highways consisted of old gravel and stone roads, formerly constructed as toll roads or county roads. The first repair is followed by the building of culverts and the widening of culvert approaches. This is necessary to prevent the grading of hills and the opening of ditches for drainage. While the earth work and other construction is in progress, it is the policy of the department to keep the road in a reasonable state of repair."

"The effect of this policy is to produce a system of highways of standard cross sections having a width of from 28 to 30 feet between the shoulders, and a surface of gravel or macadam 20 feet wide. It is the policy of the department to secure, in the first place, a well-drained, well settled foundation before any permanent surface is put on."

### LEGAL OFFICES IN NEED OF REFORM

### Civil Service Commission Unearth Some Strange Doings.

The Ontario Civil Service Commission, after a tour thru western Ontario, have returned and report that they were greatly struck with the efficient organization of the Detroit police court, which is known as the municipal court and has five judges, appointed for six-year terms, with an annual salary of \$11,500. These judges have full jurisdiction in all cases such as appear before our police court, and, in addition, those which are appealed to the county judge. The probate court and the land titles offices were also inspected.

### Reduce Division Courts.

Most of the judges who appeared before the commission expressed their opinion that the number of division courts should be largely reduced. There was also a general expression of opinion that no one should be appointed to a county office hereafter unless personally qualified to perform the work of the office.

An exception to this was taken by T. H. Fardon, of London, who held that offices should be maintained for the furnishing of rewards for those who had rendered political service.

At one place it was found that the individual holding the office of clerk of the county court and registrar of the surrogate court, and who had no training for the office, had as his deputy a lawyer to whom he paid \$17 a week, while he himself retained \$60 a week.

### Nice Little Nest-Egg.

A registrar of the surrogate court who carried on his private business visited his office once a day to sign papers, paid his deputy \$800 a year, while he retained \$3,500 for himself.

In another case the registrar of deeds received \$1,700 a year and paid his deputy \$5 a week. This woman had been in the service for forty years, and the local bar expressed their opinion that she was "the most efficient deputy registrar in Ontario."

General exceptions were made in the paying of police magistrates and constables by fees. Police magistrates, it was held, should be properly qualified men receiving an annual salary, who could devote the whole of their time to the duties of office. There should also be a well-trained, appointed by the county or the provincial government.

It was generally favored that a place should be prepared in each community where lunatics could be confined during the time between their commitment and their removal to the asylum. At present, in nearly every case, they are kept in the county jail, which is totally unsuitable. An unannounced inspection of the lunatic asylums, and the removal of those who were confined to the jails of municipalities.

### Peddled Marriage Licenses.

In one instance it was stated that the issuer of marriage licenses, prior to a trip to England, signed a number of blank forms which were taken to be handed out during his absence. In another case signed forms had been handed to a person who peddled them to foreigners, receiving as his commission 50 cents each, while the remaining fee went to the issuer.

One police magistrate said he thought that a police magistrate should have the right to perform the marriage ceremony, as a number of persons objected to being married by a minister, and were living together unmarried, with the result that the number of illegitimate children was increasing.

The justice of the peace came in for a good deal of criticism, and it was recommended frequently that no J. P.'s be appointed unless their fitness were certified by the county judge, the sheriff and the crown attorney. It was recommended that J. P.'s should try no cases, except those for a breach of municipal by-laws, and as few of those as possible.

### LONDON STREET CAR MEN EMPOWER STRIKE ACTION

London, Ont., Oct. 17.—At a mass meeting of the London Street Railway employees, held this morning, the executive was empowered to call a strike at any time it was deemed necessary to enforce a demand for 52 cents an hour pay. No strike is looked for till the end of the week at the earliest.

## When The Sea Gives Up Its Dead

A Talk On Thanksgiving

### Do you really give thanks?

What does Thanksgiving mean to you? Has it any spiritual significance, or is it merely an occasion for feasting?

It is not our purpose to preach, but it is our purpose to bring home to you some things for which, as a Canadian, you should give thanks.

Consider your welfare in contrast to the hopelessness of many Europeans, remembering that but for the spiritual and personal sacrifice of hundreds of thousands of our Soldiers and Seamen, Canada might be suffering as Europe is to-day.

Then consider those who still bear the loss of husbands and fathers and sons and who must continue to suffer this loss until the sea gives up its dead.

There are, in this country, wives and mothers and children whose husbands and sons and fathers just as surely laid down their lives for Canada's welfare and protection as did soldiers and sailors who died in battle.

Canada's Merchant Sailors—the unsung dead—the plain men of undaunted courage and spirit, who won for their grave the boundless deep. Cypress nor Yew shall weave for them their shade. Their memory is graven in the lonely hearts of waiting women and uncomprehending childhood.

During the war the people of Canada undertook to provide for such as these. They are the people's charge. The Navy League is merely their trustee—you are their hope and their refuge.

### Special Note.—

After this year, the League expects to cease asking for funds for the relief of the Canadian dependents of Merchant Sailors who were killed on Active Service. With the Trust Funds now in hand, together with the sum set aside in the Budget, to be raised by public subscription this week, it should be possible to establish an endowment, the income from which will be sufficient to provide for these dependents until the need no longer exists.

But as many of these dependents are young children, the endowment must continue for a number of years, until they become self-supporting.

Their Faith is in You. Ye cannot—ye dare not Break Faith.

BONNIE PRINCE CHARLIE'S SWORD IS NOW IN U. S.

Washington, Oct. 17.—The sword of "Bonnie Prince Charlie," worn by him at court, and one of the romantic blades of Scottish history has come to the United States. It is the gift of Lord Garloch, only son of the Earl of Mar of Scotland. Mrs. Clarence Crittenden Calhoun of Washington, one of the descendants of the house of Mar on her mother's side. The historic sword was delivered thru the British Embassy where it came in care of the ambassador, Sir Auckland Geddes.

HIS WIFE AN AMAZON. New York, Oct. 17.—Samuel Latrainik, known on the vaudeville stage as Senator Francis Murphy, said "his heart went out to any man who would dare place a finger upon his wife with menacing design," when answering a charge of cruelty preferred by his bet- ter half in a separation suit, recently.

MAN IS FOR PEACE; WOMAN FOR FIGHT

Democratic Candidate for Illinois Governor Makes Striking Contention.

Chicago, Oct. 17.—Woman, by nature, is not for peace and "is for a fight," James Hamilton Lewis, democratic candidate for governor of Illinois, declared the other night in an address before the banquet of the Illinois Equal Suffrage Association. "Man is for peace," he added, "but woman's nature is to demand conflict, if necessary, to establish principles she feels necessary to the government of home."

FARMERS OF U. S. PRESS DEMANDS

Return of Railroads to Government Ownership is Favored.

Washington, Oct. 17.—(By Canadian Press) Farmers of the United States represented in the national board of farm organizations are starting a drive to force thru congress a big agricultural program. Every candidate for the house and senate is to receive a questionnaire in which he is asked to go on record. Among the items on the program are the right of free speech and assembly, the railroad question, control of natural resources, the right of farmers to organize associations for marketing their products, creation of new rural credit system for short term loans, a practical farmer for secretary of agriculture, government manufacture of fertilizer, tariff legislation for agriculture, control of the big packers, stringent immigration laws and opposition to compulsory military training.

PRUSSIAN POLICE DISBANDED. Berlin, Oct. 17.—The Prussian security police, organized on a military basis, have been disbanded and have been replaced by a body of 85,000 civil police who are fundamentally local in character, under the control of the local civil authorities. The substitution was made in accordance with the demand of the entente powers.

NIAGARA BOULEVARD TO JOIN THE LAKES

Magnificent Extensions to Old Fort Erie and Niagara-on-the-Lake.

Bridgewater, Oct. 16.—(Special to The World)—The Canadian-Niagara boulevard, which now extends eighteen miles from Bridgewater to Niagara Falls, said to be the finest stretch of highway in Ontario, owing to its beautiful scenery, is to be extended thru to Niagara-on-the-Lake at one end, and to old Fort Erie at the other end. The boulevard now runs into Fort Erie proper, but is to be extended to the old fort ruins. To complete the extension of the other end of the highway the Canadian-Niagara Boulevard Commission has just completed the purchase of a right-of-way eight miles in length and several hundred feet in width.

FARMERS MAY MAKE MATCHES AND TOBACCO

Winnipeg, Oct. 16.—Telegrams are passing between the Grain Growers Association of the West and the United Farmers of Ontario, in regard to the lack of market for the tobacco crop of Essex and Kent in Ontario. The discussion turns on the starting of a farmers' tobacco factory, to make straight smoking and chewing goods for the farmers of Canada. They are also getting figures on matches. Figures have been got on an idle match plant, also an idle tobacco factory.

JUDGE NAMED OFFICER OF S. S. ASSOCIATION

Tokio, Oct. 16.—Justice Seth Leet, of the sessions court of Montreal, has been elected an honorary vice-president of the World's Sunday School Association at its convention here. The following Britishers were named as vice-presidents: Rev. Carey Bonner, London; Sir George Crolyon Marks, London; and Rev. J. C. Harlitzeth, Methodist Episcopal Bishop of South Africa. The convention decided to maintain international headquarters in New York instead of dividing it between New York and London.

CARUSO'S IGNORANCE

Omaha, Neb., Oct. 17.—Enrico Caruso, the famous tenor, did not know that Brooklyn had won the National League pennant and thought Babe Ruth was a singer, but confessed he had never heard "her" sing. PLENTY OF TEN-CENT SUGAR IN NEW YORK

(From The Sunday World.) New York, Oct. 17.—(By Canadian Press).—Following the announcement yesterday that a chain of grocery stores in this city had reduced the retail price of sugar to 10c a pound, came information today that a general reduction to this figure was likely within a week or ten days.

Both the grocers and the refiners are inclined to attribute the decrease in sugar prices to the frugality of the housewife, who buys in small quantities when the price is high. The American Sugar Refining Company and others said this custom was largely responsible for the surplus of sugar they had on hand. Prices were cut to get rid of the surplus.

SUGAR ORDER NOT DUE TO COLLUSION

Meighen Flatly Denies Cabinet Influenced Board of Commerce.

(From The Sunday World.) Ottawa, Oct. 16.—Statements current that the sugar refiners saw certain members of the cabinet in the absence of the prime minister, and induced them to refer the sugar situation to the board of commerce, are authoritatively described here as "pure invention." What happened it is stated, was this: the sugar refiners interviewed members of the government. The prime minister was present through the interview, which was terminated when Mr. Meighen left to take a train. Sir George Foster, minister of trade and commerce, and Hon. C. J. Doherty, minister of justice, did remain behind for a few moments, but there was no further discussion with the refiners, who, in fact, left when the interview terminated.

The prime minister was asked last night with regard to a report in a morning paper in which it was stated that the sugar situation had been referred to the board of commerce by the government. Mr. Meighen said that such a report was false.

There was no meeting of the government regarding the sugar situation to the board of commerce, it was stated today. The refiners made certain requests of which consideration was promised, but a government was not in any way responsible, and no members of the government, acting in the absence of the prime minister, were responsible for the reference to the board of commerce. In going before the board, the refiners acted entirely on their own initiative.

The following suggestions are made as general lines along which substantial economies can be effected without inconvenience and which will release power vitally needed.

In the Home.

Cut out heaters and other current consuming devices at times of shortage. Switch off every lamp not actually needed. Use the most efficient type of lamps procurable, and discard blackened or old-fashioned lamps which waste current and give poor light.

Commercial Lighting

Reduce display lighting to a minimum and cut out signs during hours of shortage. Use the most efficient type of lamps and switch off all not absolutely necessary.

Power Users

Cut out every possible idle machine, or lamp, not actually required in use. See that the plant is operating under most efficient conditions.

While it is impossible to predict with any certainty when shortage will be experienced during September and October, it occurs most frequently between 8 a.m. and 11 a.m., and 4 p.m. and 6:30 p.m., particularly on cold or dark days.

The Last Word Re Oakoal Before Advance in Price

If a coal mine were discovered under the City of Toronto and YOU were offered stock in the mine—chances are you would invest every dollar in it you could spare. You would take that chance, wouldn't you? Yes, because that would be a gamble—a gamble in that you nor no one else could tell the extent of the mine—how deep or long or wide it would be—or when it would run out. But you hesitate when you see the top of the ground—mine—a real fuel industry—offers you something better than a mine. We know, as hundreds of others know, and as you know, that our raw material will not become exhausted—wastes of cities and mines increase with increased populations. These wastes enable us to produce two tons of OAKOAL per thousand of population, and at a good profit. Then, why hesitate to buy OAKOAL stock? Scores and scores of bank managers, manufacturers, wholesale, professional and scientific men are among Oakoal shareholders, because they know the Company—know the product—know the process—know the possibilities—know the demand for the product—know their money is going to make them annual dividends and multiply in value—therefore, you must appreciate OAKOAL'S value as an investment. You do yourself an injustice when you refuse to believe what we tell you of OAKOAL. If all men were afraid of good investments they would be mighty little industry, and no wealth. The world is full of wealth, and the reason you do not get your share is because you deny yourself the right to get it. You cannot get it by labor, or by bank savings. Some Real Estate investments are good, not all. Mortgages are good, but slow increase. Bonds are good, but interest is small. Nearly all the wealth that is made quickly and easily comes to men and women through industrial investments. You deny it? Then ask any rich man and hear his reply. The man who gets into a new thing that fills a long-felt want is the man who grows wealthy in proportion to his investment. If you are poor, it is your own fault, because you have had opportunity—and have it today. You hesitated, because you were afraid it might not turn out good. You must, of course, use judgment. Take the things that "do not turn out good." Do you find Bank Managers, Manufacturers, Wholesale and Professional Men behind them? No. Their promoters are usually exploiters or nothings. OAKOAL has the recognition of Government officials, Universities, Colleges, Industrial and Technical Institutions. It is headed by practical, successful business men, who have proven their ability to make OAKOAL a success. Nor is the stock held by promoters. Less than two per cent. of OAKOAL stock was used for promotion—an unusual record. No combination of selfish interests control its stock. It is a shareholders' Company, and it will remain such—so that there will be "no freezing out" by "financial hogs." Its plant and equipment are the finest among briquetting plants on this or the European Continent, as a visit to the plant at the foot of Booth Avenue will attest. There you will also see nearly 16,000 tons of No. 1 Anthracite screenings—this will insure an output of some 35,000 tons of OAKOAL within the next six months—representing nearly a half million dollars cash. A large amount of this will be profits—dividends for shareholders. You can enjoy a share of these profits, and if you get in now before the night of the 26th—next Wednesday—you will secure the Common Stock at just one-half what the price will be on Thursday, and we have every reason to believe, at one-quarter of what the price will be before Christmas. The present plant is only one of some thirty that will be operated by this, or its subsidiary companies, so you must appreciate OAKOAL'S possibilities and the opportunity that is yours now—the like of which the public will never get again in many years—because OAKOAL will be one of the greatest industrial of the world, and it is not often that the public is given the opportunity of participating in the world's greatest industrial. Nor would you have this opportunity if present heads of the Oakoal Company had accepted the offers of financial kings for their future. That's the story. Now, you have only three days more to get in—as others have done. Men who investigated—dir, careful, shrewd men—it is good enough for them, and they know what they are doing. Surely their judgment is good enough for you. If this article does not convince you and you desire to know more before losing this opportunity, or before investing, come in and talk it over, and be satisfied that you are serving your best interests by turning it down or buying as much as you can afford. All that we ask is that you appreciate this opportunity and investigate it now, before Wednesday—that you may start yourself on the road to multiplied wealth. In plain words—do not be prejudiced, do not confound us with other concerns, remembering this stock was never less than \$5.00 per share, and that this stock has never been offered for sale through small ads. in the daily papers. This stock is OAKOAL—the plant is at the foot of Booth Avenue—the office at 43 Scott Street, corner Colborne. OAKOAL is the only Company publishing the result of Government University and Industrial tests of its product. OAKOAL is Anthracite's best substitute. It is, in many respects, BETTER THAN ANTHRACITE—a statement that cannot be refuted. We have proof; call and see it.

Remember only three days more to buy at the original price, then the common stock advances from \$5.00 to \$10.00 per share. THE OAKOAL CO. (CANADA) LIMITED, 43 SCOTT ST., TORONTO H. J. A View of One of the Houses

The E. W. Goulding Co., Ltd., offer

19 New Houses at Bargain Prices

Semi-detached, solid brick and stucco, six rooms, ideally located, offered for three days only at \$5,500 and \$1,000 cash

This is, we believe, one of the most remarkable offers of small houses yet made in Toronto. The builders erected twenty-one houses. Two were sold as soon as completed, several more are completed now, and the others will be ready in a few weeks. In order to dispose of the entire 19 at once the builders have consented to accept a reduction in price and terms. The price of \$5,500 means an actual cash saving, as these houses are exceptionally good value at \$5,500. And to make it possible for almost any family to take advantage of this offer we will accept one-half of the usual cash payment—or only \$1,000—and the balance on mortgage at easy terms. For 19 families who are weary of paying exorbitant rent this is a wonderful chance to buy your own home, in the heart of the city, at an outlay no greater than rent.

Sale Lasts Three Days Only Apply on Grounds The Location

There are only 19 of these houses and they go on sale at this price Saturday noon. If any are left on Monday evening the price will be increased. Do not overlook this great chance.

Points About This Sale (1) You get a new house for \$5,500. (2) You need pay only \$200 cash and \$500 when completed. (3) Your total cost of upkeep, including taxes, fuel, interest and payments, is less than the rent of a six-room apartment. (4) You get a location not excelled anywhere in the city at near this price. A temporary office has been established in the only detached house in this group—No. 1383 Davenport Road, and our men will be in constant attendance to meet you at any time from Saturday noon until Monday evening. Of course there is some preference to the location of these houses, and the early comers get first choice. These houses are situated on the north side of Davenport Road, just west of Dovercourt, running to Northcliffe Blvd. They are ideally located, about fifteen feet above street level, backed by the hill and with southern exposure that affords abundant sunshine most of the day. Protected from the north by the hill, these houses will be easily and cheaply heated. Shade trees and terrace lawn add greatly to the attractiveness. Only a few minutes from Dovercourt, Harbord or St. Clair cars and close to Oakwood School.

JOHN P. GRIER 1 TO 10 IS BEATEN BY BLAZES AND DAMASK AT LAUREL

BIGGEST SHOCK OF THE SEASON

Blazes Wins Maryland Handicap, Damask Second and J. P. Grier Third.

Laurel, Md., Oct. 16.—The veteran Jimmy Butwell astounded an immense Saturday gathering at the Maryland State Fair course this afternoon when he piloted Rai Parr's Blazes to victory over John P. Grier and Damask in the \$10,000 added Maryland Handicap...

The defeat of John P. Grier was the biggest shock of the season. Reversed by the previous performances of the son of Whisk Broth II.—Wonder, the public had taken the task in which his stable entry had John P. Grier won he would have paid 10 to 1. The pari entry received \$100 for four tickets.

Blazes was a half over Damask. A length and six tenths in the van of John P. Grier. Paul Jones, coupled with Blazes, finished second, a length and a half over Damask. Samuel Ross' Herd Girl, continued \$10,000 for a \$2 ticket.

WATCH THIS MONARCH IN NEXT EPSOM DERBY. London, England, Oct. 16.—The Middle Park Plate, which is considered the autumn test of two-year-olds and an indication of the next Epsom Derby, was run at Newmarket Friday and won by Mr. Stiver's Monarch, a half-brother of the great Sir Barton, who finished second. A neck between them, Pole March half a length away, and Lemon and Thunder at their heels. The weather was perfect, hard ground still prevailed, and the attendance was abundant. Monarch was a popular victory. The field of thirteen was the best in many years, and the race a splendid one.

NEW RUNNING RECORDS. Paris, Oct. 17.—Maurice Delprat, a French athlete, broke the world record for the 500 metre run yesterday, covering the distance in one minute five and three-fifths seconds. The race was run at St. Cloud, under the auspices of the Sporting Federation of France before a large crowd. Delprat was favored by having a fast cinder track for his effort. The former record was one minute seven and six-tenths seconds, and was held by R. Rajz of Hungary. It was made in 1913.
