HIGH SCHOOLS TO GRADUATE 178

138 FROM UNION
ST. BARNABAS;
45, ST. VINCENT'S
Names of Successful
Students Are An-
nounced Today

CLASS LEADERS
Donald Fraser at S. J. H. S., Eli
Tokach at Cliff Street
Boys' School

ON NEXT Friday, 178 students
in the three High Schools of
Saint John will be graduated.
There are 133 at the Union
agent building, 20 at the St.
Vincent School for boys, Cliff
street, and 25 at the St. Vincent
School for girls, Cliff street.
The names of the graduates
and of the leaders in the several
schools were announced this
morning, and are here given,
together with the programs of the
exercises arranged for the closing
hours of the school year.
Holidays will begin on next Friday
and will continue, so far as the Saint
John schools are concerned, until
August 30.

HIGH SCHOOL
The full list of the graduating class
of the Saint John High School, made
public today by the principal, Dr. W.
J. S. Myles, contains 138 names, head-
ed by Donald B. Fraser and Miss Mil-
dred Sage. The Grade XI honor list
contains 80 names. The graduating list
in 1925 contained 140 names and in
the year previous 136. Dr. Myles
announced that the results of the ex-
aminations for the alumnae gold medal
in Grade IX, and for the Government
general's medal in Grade X, will not
be known until after the return of the
High School teachers from the Beaver-
brook trip to England.

THE LEADERS
Donald Fraser is the son of Dr.
Fraser of Hatfield's Point, but has
taken his high school education here.
He is a grandson of Wellington
Green, of Winter street, and has re-
sided with his grandfather while at-
tending school. His mother is a gradu-
ate of the Saint John High School.
He has been a consistently brilliant
pupil, and last year was the winner
of the Governor-General's silver medal
as leader of Grade IX.

MISS SAGE is a daughter of Edward
Sage of 147 Orange street, a member
of the Telegraph-Journal's composing
room staff. She went to the High
School from Victoria school. Like
Donald Fraser she has a number of
standing pupils and Dr. Myles spoke
very highly this morning of their
work. The graduates of the Saint
John street High School will be held
in the Imperial Theatre, commencing
at 11 o'clock on Friday morning.

Three Party Leaders To Take Part In Debate On Customs Probe Report

Scribbled Message Thought
Key To Fate of Family of 5,
Missing In Ohio Since March

TOLEDO, O., June 22.—A mes-
sage written on tissue paper
and enclosed in a corked bottle
has been cast up on the lake shore,
and it is thought that it may have
some bearing on the tragedy of the
James Phipps family, all five of
whom, husband, wife and three
children, disappeared on the lake
last March 1.

\$20,500 ESTATE IS
IN CAPITAL COURT

WILL OF MISS MARY QUINN PRO-
BATED—Nephew is Sole
Heir
Special to The Times-Star
FREDERICTON, N. B., June 22.—
The will of the late Miss Mary Quinn,
of this city, has been admitted to pro-
bate before Judge Harris G. Penney,
C. L. Dougherty is proctor. The estate
is valued at \$20,500. Of that total
estate amounts to \$10,500 and personal
property to \$10,000.

Coolidge Predicts A
\$390,000,000 Surplus

WASHINGTON, D. C., June 22.—
Announcing a probable \$390,000,000
treasury surplus for this fiscal year,
ending June 30, and promising com-
fortable balances for the next two
years, President Coolidge last night
warned that another tax reduction must
await a full test of the new
President Coolidge said the treasury
should end next year with a surplus
of \$188,000,000, and the foreign fiscal
year with a margin of \$20,000,000.

IS SHOT FOR DEER

NOVA SCOTIAN KILLED IN HUNTING
Mishap Near New
Glasgow
NEW GLASGOW, N. S., June 22.—
Following a report that a deer had
been seen in the vicinity, William Mac-
intosh and William Fraser of Garden
of Eden, near here, unknown to each
other, set out to stalk it. About eight
o'clock in the evening on the Mac-
intosh farm, Fraser thought he saw the
deer and fired. He shot Macintosh
through the head killing him instan-
taneously.

PIT BOYS STRIKE

No. 14 Colliery, New Waterford,
Idle on Account of Two
Discharged
GLACE BAY, N. S., June 22.—Num-
ber 14 colliery, New Waterford, was
idle today, the result of a strike among
the pit boys. On Friday two boys
had their lamps stopped for leaving
off work before the regular hour. Sat-
urday and Monday a number of boys
refused to go to work but the mine
was operated. This morning, when the
boys found that their two discharged
fellow workers had not been reinstated,
they all returned home with the
result that the mine shut down.

TRIAL IS DEFERRED

CHICAGO, June 22.—To give pros-
pective jurors time to adjust their
business affairs, the sanity trial of
Russell Scott, condemned Chicago
murderer, was deferred yesterday until
today. Scott, convicted of killing a
drug clerk in a holdup, was saved
from the gallows when found insane,
only to be declared sane recently by
alienists and returned here for exami-
nation. A jury is now to inquire into
his mental status for the second time.

\$30-a-Week Insurance Clerk
Gets Million Dollar Legacy

BOSTON, June 22.—A \$30 a week
insurance collector went shopping here
Monday, bought a \$50,000 house, five
automobiles and booked passage for a
"round-the-world" tour.
The shopper was Cornelius Sullivan,
of Newton, one time Georgetown
quarter-back, who had inherited a mil-
lion dollars over night.
He bought the palatial estate for his
parents and the motor cars for his
brother and four sisters. The world
trip ticket was for himself.
Since the death last month in West-
chester, N. Y., of Mrs. Ethel Pennell,
Sullivan's aunt, he had continued col-
lecting insurance with no intimation
he was to be sole heir. Lawyers fur-
tively dropped the million in his
name.

IRISHMAN SAYS HE WAS
DELEGATED TO BLOW
UP CHURCH

William Skelley, Taken in To-
ronto, City Hearing
and Remanded
TORONTO, June 22.—Arrested
in Toronto yesterday on a charge of attempting to blow
up with dynamite St. Mary's
Roman Catholic Church at Barrie,
an Irishman, aged 30, alleged that
he has been "set apart by the
Ku Klux Klan to do the work."

CHURCH GROWTH
IN CANADA TOLD
AT CONGRESS

CHICAGO, Ill., June 22.—Six of the
12 bishops of the Roman Catholic
Church here for the 28th international
Eucharistic congress are here today
leading parts on today's program,
which includes a general meeting of
the congress at Soldiers' Field with
Cardinal O'Connell of Boston, presiding,
and addresses by Cardinals Char-
les, Archbishop of Reims, France,
and Phil, Archbishop of Vienna, and
by Justus Deshaies of California, U. S.
States Supreme Court.
Dr. J. J. E. Guerin, M. P., St. Ann,
Montreal, Governor of the Province of
New York, Mayor William E. Dever of
Chicago, former Senator David A. Walsh,
Massachusetts, and other lay Catho-
lics stressed the note of tolerance in
addresses at a banquet of the English-
speaking Knights of St. Gregory last
night. Dr. Guerin suggested that some
kind of an organization of knights be
formed.

WOULD LIMIT POWER
OF PRIVY COUNCIL

Report to Church Assembly
Would Abolish Ecclesiastical
Jurisdiction
LONDON, June 22.—Far reaching
proposals to endow the bishops of the
established Church of England with
unfettered powers to pronounce upon
what is "doctrine, discipline and
usage" in the church, is the main fea-
ture of the report to be submitted to
the Church Assembly when it meets on
July 5.
The report suggests that the ecclesi-
astical jurisdiction of the judicial
committee of the Privy Council should
be abolished and that various acts of
Parliament dealing with church dis-
cipline should be repealed and clergy
who offend against the rules laid down
by episcopacy should be liable to de-
privation of their livings or even to
discommunication by order of the court
of bishops.

NEW YORKER FINED
\$250 BY FREE STATE

Patrick Garland Convicted of
Conspiracy to Spread Sedition;
Denies Charge
DUBLIN, June 22.—Although he
claimed that he was ignorant of the
contents of documents found within
his possession, Patrick Garland, of
New York, yesterday was fined \$250
on charges of conspiracy to spread
sedition throughout the Free State.
Garland, who was arrested last
April on his arrival at Queenstown,
entered a plea of guilty through his
counsel, but maintained that he was
an innocent messenger, and that his
real purpose in coming to Ireland was
to visit his sick mother.

ASHORE IN MACINAC STRAITS BUT
CREW OF 25 BELIEVED
SAFE

MACKINAC CITY, Mich., June 22.—
The United States submarine chaser
302 with a crew of 25 Green Bay, Wis.
naval reserves on board, early today
was being lashed by waves while fast
on the rocks of Mackinac Island in the
Straits of Mackinac. There was a possi-
bility that the boat might be pounded
to pieces. The craft went on the rocks
late yesterday during a gale which
swept Lake Michigan. There was little
anxiety for the safety of the crew. The
U. S. S. C-412 and the cutter Triton
were standing by, and coasguards were
at the scene.

SMUGGLER FINED

Toronto Man Assessed \$80 For
Bringing Two Cartons of
Cigarettes
WINDSOR, Ont., June 22.—For
smuggling two cartons of cigarettes
across the international boundary and
for evading customs officers at the
Windsor ferry dock, William Campbell,
Toronto, yesterday was fined \$80,
including costs by Magistrate Gundy.

W. L. Jennings Gravely
Ill At Fredericton

FREDERICTON, June 12.—The
condition of Walter L. Jennings today
is reported very serious. Mr. Jennings,
who is a former Alderman and associ-
ated with Lemont and Sons, furni-
ture dealers, has been ill for some
weeks. A stroke of paralysis compli-
cated his illness.

CITY TAXPAYERS

ON page 3 of today's issue
of The Times-Star will
be found the first installment
of the names of Saint John
citizens whose tax bills are
above \$100. The list will
be continued from day to
day.

Rubber Banded
Dogfish Cause
Mystery in N.S.

HALIFAX, N. S., June 22.—Fish-
ermen along the eastern shore
of Nova Scotia have been mystified
by the discovery on numerous oc-
casions, of dogfish with white rub-
ber bands encircling their necks.
Thinking they were identification
marks placed there by government
officials for research purposes, in-
quiries were made, but it was
found that local officials could
offer no explanation.

Countess To Wed

VERA, Countess of Cathcart, is reported to be the prospective bride
of Gideon Bolesvain, an American banker whose business keeps him
much in London, where he is said to bear the title of "best dressed man-
about-town." Bolesvain met the countess in New York at the opening
of her play, "Ashes of Love." Here with it one of the first photographs
of the Countess and her fiance together.

NUMERICAL STRENGTH FORGING
AHEAD, SAYS MON-
TEAL M. P.

Dr. J. J. E. Guerin, M. P., St. Ann,
Montreal, Governor of the Province of
New York, Mayor William E. Dever of
Chicago, former Senator David A. Walsh,
Massachusetts, and other lay Catho-
lics stressed the note of tolerance in

BREWSTER CHOSEN
BY MAINE ELECTORS

PORTLAND, Maine, June 22.—
Maine Republicans yesterday re-nom-
inated Governor Ralph C. Brewster as
candidate for governor in a state-wide
primary in which the governor was
opposed by Major Arthur L. Thayer,
and at the sympathy extended to it.
He called it "a magnificent evidence of
civic tolerance" and an example for
the entire country.

GIANT SEA ANIMAL
Seen Near Ottawa

OTTAWA, Ont., June 22.—A strange
looking aquatic animal, reported to be
half the length of a canoe, and be-
lieved to be a giant sturgeon of a
species known to abound in northern
waters was seen in the Ottawa River
near here last evening. It was first
thought to be one of two pet alligators
which escaped from Aylmer, Que., last
fall, but naturalists claim an alligator
could not survive a winter in a frozen
river.

W. L. Jennings Gravely
Ill At Fredericton

FREDERICTON, June 12.—The
condition of Walter L. Jennings today
is reported very serious. Mr. Jennings,
who is a former Alderman and associ-
ated with Lemont and Sons, furni-
ture dealers, has been ill for some
weeks. A stroke of paralysis compli-

AMENDMENT OF
CENSURE LIKELY
LATE TONIGHT

Speeches Expected To
Be Strenuous and
Brief
MERCIER OPENS
Possibility of Motion by Pro-
gressives May Usenet Present
Calculations
OTTAWA, June 22.—The stage
is all set for the debate on the
report of the customs probe,
which opens in the House this
afternoon.
Keenest interest in political
circles is manifested in the prob-
able outcome of the discussion,
but while the debate promises to
be one of the most strenuous of
the session, it is expected to be
brief. Should the sitting be ex-
tended after midnight, the vote
on the Conservative amendment
of censure, to be moved by
Hon. H. H. Stevens, who made
the charges, probably may be
taken some time tomorrow
morning.
This eventually will depend en-
tirely on developments as another amend-
ment is under consideration in the
Progressive camp.

WIVES WHO IN DEBATE

Paul Mercier, Liberal, St. Henri,
who was chairman of the customs com-
mittee, will open the debate, and will
be followed by Hon. H. H. Stevens.
Other members of the committee
who will speak are Donald Donaghy, Lib-
eral, Vancouver North; C. W. Bell,
Conservative, Hamilton West; A. J.
Doucet, Conservative, Kent, N. B.; and
D. M. Kennedy, Progressive, Peace
River.
Premier W. L. Mackenzie King,
right Hon. Arthur Meighen, Conser-
vative leader, and Robert Forke, Pro-
gressive leader, will participate in the
debate.

GETS 5 YEAR TERM

Subject of Recent Identification
Test is Jailed in Van-
couver
VANCOUVER, B. C., June 22.—
Magistrate Shaw, in police court yester-
day, sentenced L. E. Ward, convicted
on a statutory charge, to serve five
years imprisonment in the penitentiary
at New Westminster.
Ward was the central figure in the
recent identification test that followed
his denial that he had ever been con-
victed on a similar count in Regina.
Finger prints and a scar on his face
were submitted as positive identifica-
tion. The accused, however, admitted
serving a term in Alberta on a statutory
charge.

HOW TAX MONEY WILL BE USED IS SET FORTH

Percentage of Allotment to Various Services in City and County

Now that the assessment for 1926 has been filed in the assessors' office the staff is preparing to send out the tax bills. A study of the percentage of taxes going to the various purposes shows increases in some and reductions in others. In the amount for county purposes there is an increase in the percentage allotted to contingencies and debenture interest, and decrease in the percentages for board of health and General Public Hospital.

In the city increases are noted in the allotment for streets, fire, police, ferry and schools, and decreases in the amounts for grants and debenture interest. The largest increase is in schools, which this year will be \$124,000 and last year for 98 cents. Of the amount for schools this year about 10 1/2 cents is for the vocational school.

Following is the comparative apportionment of the levy by the assessors:

GATHERING OF ROTARIANS IN DENVER NOTABLE

A. L. Foster, Home Today,
Speaks of Some
Features

The geniality of the people and the welcome extended to the Rotarians who attended the Rotary international convention held last week in Denver reminded him much of the people at home, said A. L. Foster, president of the local Rotary Club, who returned today from Denver. There were 9,000 registered at the convention from practically all parts of the world, Mr. Foster said, and the marvelous reception extended and the way in which the gathering was entertained and accommodated was wonderful. A regular "Wild West" welcome was extended, including a full-fledged rodeo.

EMPIRE DINNER
A feature of the gathering was the British Empire dinner at which there were 800 guests from such widely separated parts of the Empire as Canada, England, Ireland, Hamilton, Bermuda, and other places.

BUFFALO BILLS GRAVE
The weather in Denver was cold at night and the climate somewhat similar to Saint John. While the scenery was impressive and much admired, Mr. Foster said that it was no better than what we had in New Brunswick. Mr. Foster visited Lookout Mountain and the monument placed there.

Your Smile will show dazzling clear teeth in a few days if you do this

This simple, NEW method removes the stubborn film that hides the natural beauty of your teeth and imperils healthy gums

TEN years ago dull and dingy teeth were seen on every side. Today they are becoming a rarity. Note the gleaming smiles you see now wherever you eyes turn.

Please don't believe your teeth are "different"; that they are naturally off color and dull. You can correct that condition in even a few days. Modern science has discovered new methods in tooth and gum protection. Leading dentists advise them. In fairness to yourself, make the test offered here.

Do This—Remove that dingy film; it invites ugly teeth and fosters gum disorders

Run your tongue across your teeth, and you will feel a film. That film is an enemy to your teeth and gums. You must remove it. It clings to teeth, gets into crevices and stays. It absorbs discolorations and gives your teeth that cloudy look. Germs by the millions breed in it, and they, with tartar, are a chief cause of pyorrhea.

Tooth and gum troubles and decay now are traced largely to this film. Old-time methods could not successfully combat it. That's why tooth and gum troubles increased.

Note the difference in teeth and gums

In Pepsodent dental science has discovered two effective film combatants. They curdle the film and remove it, then firm the gums.

Now what you see when that film is removed—the clearness and whiteness of your teeth—will amaze you.

Old methods of cleansing fail in these results.

Thus the world has turned, largely on dental advice, to this new method.

It will give you the lustrous teeth you wonder how other people get. It will give you better protection against tooth and gum troubles.

A few days' use will prove its power beyond all doubt.

Mail the coupon. A 10-day tube will be sent you free. Use it three times daily—morning, evening, at bedtime—when note the remarkable difference in your teeth and gums.

Temp't wayward Appetites with the goodness of whole wheat

Children love Puffed Wheat, it tastes so good—is so good

Wholesome whole wheat;—puffed to eight times normal size;—with the taste of nut meats;—the lure of a confection.

So different and enticing, it temp'ts the wayward appetites of little ones;—yet good for them because it is the whole wheat grain.

—satisfies young appetites without overloading little stomachs.

Quaker Puffed Rice—like Puffed Wheat—crisp and delicious. For variety, get a package of each.

Quaker Puffed Wheat on ice-cream or fruit

It all comes down to the Congoleum Gold Seal—

The whole question of getting low-priced, dependable floor-covering comes down to getting rugs which bear the Gold Seal. It's an infallible sign of superior beauty and proved value.

Still more, it is the emblem of the outstanding durability and quality for which Congoleum Gold Seal Art-Rugs have been famous for many years. This record of satisfactory service is without duplicate among labor-saving floor-coverings.

And when you become acquainted with the wearing qualities and convenience of these charming, easy-to-clean rugs you realize that the value represented by the Gold Seal is well worth seeking out and insisting upon.

The Food Of Mystery

The three mysteries of food science, called Vitamines A, B and C—which have not yet been seen or "taken apart" by chemists—must be in our diet, doctors tell us, or we are not well nourished.

It is a blessing to know of one food with all three Vitamines in plentiful supply. That food—there is only one with all three—is Bread as baked by Robinson's. Butter-Krust Bread is truly the health loaf. A big one, too.

CITY TAXES

After the first cold shudder on realizing that the local taxes are up twenty-six cents the murderous desire to take it out of somebody passes and we can review the situation with less disturbed mind. We find that the number of taxpayers is practically unaltered and the total levy is increased by \$76,676. The following table gives a review of the situation in brief:

Rate	Increase	Decrease
Real	\$88,250.00	
Personal	\$87,750.00	
Income	\$24,900.00	
Special, banks, super-tax	6,277.00	
Rates—		
County04	
City (excluding school)09	
School31	

There is an increase in real estate valuation, but the decrease in personal income and special assessable property is very marked—nearly \$825,000 in income alone. The cause of this is not under review and reflection on what it means is not exhilarating. Nevertheless it is evident that the Council's task was by no means an easy one, and this curtailment of assets available for taxation.

Notwithstanding this the combined county and city (excluding school) rates are reduced five cents and it is the jump of the school tax which has entailed a net increase of taxation of twenty-six cents per hundred dollars to meet the increased levy. So it all comes down to school expenses. Education is a priceless asset and if it can be shown that the taxpayers of Saint John are receiving full value for all they are called on to contribute, that not a cent is wasted by the School Trustees, that the schools are conducted on business principles, that education provided is of the kind necessary—neither more nor less—and that the financial arrangements for meeting capital and recurring expenditures are in accordance with sound practice, there is no more to be said. Can all this be demonstrated to our satisfaction? That is the question to which the citizens of Saint John have every right to know the answer.

SOME LOCAL INITIATIVE

Near the head of the Kennebec River lives a woman who has wrought magic out of vegetables. Margaret Lowrie is her name and her perseverance and initiative have brought about a striking step forward in cottage handicraft.

Her achievement has been the converting of ordinary vegetable waste products such as onion and apple peeling, beet water and rhubarb skin, and of such ordinary things as birch bark, hay moss and leaves, into dyed articles which all the colors of the rainbow can be produced at little expense.

New Brunswick should be proud that Miss Lowrie's success has been recognized by her capture last year of first prize with her exhibit of dyed articles at the exhibition of the Canadian Handicrafts Guild in the Montreal Art Gallery.

The story of how her interest in this sort of work was created and of her experiments is interesting. Having often heard of the handicrafts exhibition and encouraged by a friend, Miss Lowrie decided to create colors for herself as a hobby. With infinite patience she experimented with everything that lay at hand, sometimes with disastrous results, and sometimes with amusing results.

Her equipment consisted only of a few coffee cans set on the kitchen stove. Out of these came miracles of azure, emerald, golden yellow, henna and all the other colors. Into the cans producing these results, she placed various herbs, barks, leaves and petals, eventually ascertaining which combinations produced the best dyes.

Her industry and patience show that can be done in the way of producing useful and profitable articles from waste products which otherwise would be of little or no value.

ECENTRIC WILLS

If a man fails to obtain notoriety in his lifetime and yet has a hankering for headlines on the front page of a newspaper he can die, satisfied that his desire will be gratified by exercising his ingenuity in framing an eccentric will. In fact, when one reads the provisions of certain wills one is inclined to wonder if the testator's aim were not perhaps to obtain posthumous fame. We recall to mind a will that came under our notice which contained in its provisions bequests from a well stocked cellar, to a number of friends, of certain brands which those friends never seemed to have on hand to treat the testator during his lifetime; another where a box of matches was to be delivered daily to a certain "matchless" individual who had been a source of much annoyance.

A rather celebrated eccentric will was that of Benjamin Dodd, a London linen-draper of the eighteenth century,

who instructed his executors to invite twenty-four persons to be present at his funeral, to each of whom there was to be presented a pair of white gloves, a ring of ten shillings' value, a bottle of wine and half a crown, the latter to be used on the night of the funeral in drinking to the health of Dodd's soul. He also appointed that his corpse should be carried in a hearse drawn by six white horses with white feathers. After enumerating a number of bequests he concluded with this clause—"I will have no Presbyterians, moderate Low-Churchmen or occasional Conformists, to be at or have anything to do with my funeral. I desire to have a tombstone over me, with a Latin inscription; and a lamp or six wax candles to burn seven days and nights together thereon."

There have been many cases where the last will and testament has been used for the purpose of delivering one last spiteful or revengeful dig, of which these are a few instances.

"I, Stephen Swain, of Southwick, give to John Abbot, and Mary, his wife, 6d. each, to buy for each of them a halter, for fear the sheriffs would not be provided for."

"I, David Davis, of Clapham, Surrey, do give and bequeath to Mary Davis, daughter of Peter Delaport, the sum of 5s., which is sufficient to enable her to get drunk for the last time at my expense."

"I, Philip Thicknesse, formerly of London, but now of Bologna, in France, leave by my right hand, to be cut off after my death, to my son, Lord Audley; and I desire it may be sent to him, in hopes that such a sight may remind him of his duty to God, after having so long abandoned the duty he owed to a father, who once affectionately loved him."

"I, Charles Parker, of New Bond street, Middlesex, bookseller, give to Elizabeth Parker, the sum of £30 whom, through my foolish fondness, I made my wife, without regard to family, fame, or fortune; and who, in return, has spared me most unjustly, to accuse me of every crime regarding human nature, save highway robbery."

But perhaps the unkindest cut of all was that of the Scotsman who bequeathed his bagpipes to his upstairs neighbor, an Irishman.

A SPANISH VIEWPOINT

The secretary of the English Society for the Prevention of Cruelty to Animals was shocked, on a visit to Barcelona, to find that this Spanish city had no S. P. C. A. Being a true Englishman, the visitor, with the assistance of the British Consul and some well known residents of Barcelona, organized a meeting. The opinion of the meeting was unanimously in favor of establishing a branch of the S. P. C. A. in New Spain, the place where Don Quixote once charged a windmill so that one might expect almost anything to happen in wine-drenched Aragon or in the hills of Castille, but even in Spain one would hardly expect a meeting of citizens to do what this meeting did. It was necessary to raise funds to establish the Society for the Prevention of Cruelty to Animals so the meeting decided—the English secretary being dumb with amazement—to achieve this very desirable objective by holding a bull-fight.

Odds and Ends

Preposterous
(Boston Post.)
In an article setting forth the food value of various fishes, an esteemed contemporary says:
"The eels are very destructive, being especially fond of the spawn of the sturgeon, whitefish and trout. Whenever the suckers get a foothold, the other fish decrease."

The writer of the above may think he knows an amazing lot about fish, but he has a thing or two to learn.

If anybody ever convinces me that a sucker has feet, it will have to be done at the point of a pistol, that's all. If anybody should take me by the hand, lead me right up to a sucker and show me its feet—well, I wouldn't believe it even then—No six, instead of believing it, I'd go to an oculist and have my eyes examined.

"Wherever suckers get a foothold—!"
The idea! The ridiculousness of such an absurd statement is simply preposterous.

First Hand Information.
(Toronto Mail and Empire.)
A negro went into a fish store, picked up a rather decayed looking fish and began to smell it. The proprietor, fearing that the negro's action would influence other customers, called out, "Hey, there, you rascal, what do you mean, smelling my fish?" "I'm not smelling the fish," the negro replied. "I'm only talking to him." "Oh, you are," sarcastically rejoined the proprietor, "and what do you say to the fish?" "Why, I just ask him about news of the sea; that's all." "And what does he say to you?" "He says he don't know. He ain't been there for two weeks."

POEMS I LOVE

"Bid Me to Live," by Robert Herrick.
I HAVE already quoted one of Herrick's delicate lyrics—all of them cry out for a hearing. One that has always taken my fancy is this, with its oft-quoted opening lines. Herrick is what we might call "the happy poet," a minstrel in love with love as much as with the divine accident of his passion.

Bid me to live, and I will live
Thy Protestant to be;
Or bid me love, and I will give
A loving heart to thee.

A heart as soft, a heart as kind,
A heart as sound and free
As in the whole world thou canst find,
That heart I'll give to thee.

Queer Quirks of Nature

HE HAS MADE GOOD WHERE HARDSHIP COUNTS.

By ARTHUR N. PACK
IN THE FAR NORTH, where the mail must be delivered to lonely fur-traders' posts or the native Eskimos, or the death-defying serum must be sent to sufferers in the distant mining camps, the dog proves as nowhere else the friend of man.

Though no man can trace his origin, he has made good in a land where performance counts more than pedigree. On the mid much of the northeast has been explored; he played a big part in solving the mystery of Sir John Peary, and the dog companions by his help Peary reached the north pole.

And for long, though steam on land and sea, or motor car, or airplane, has most of the transportation problems of the world, the faithful dog will be the sturdy and sure friend of man.

But of a creature who needs only one meal a day; who even in the bitter cold of the arctic night needs no bed but a corner in a snow drift; who hauls through the trackless waste for 50 miles a day (if so be his driver can stand the 100 or 200 pounds of weight for souls starving in the wilderness; or who, perhaps, takes to the mission hospital the crippled or sick who otherwise would perish alone. Such is the faithful Eskimo dog.

Easy To Gain Weight With Yeast and Iron

New Combination of Yeast With Vegetable Iron Quick Way to Build Up Weight

Thin, run-down and underweight men, women and children can now improve their health, increase their energy and regain normal weight in a surprisingly short time.

A new combination of yeast vitamins with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and supplies the system with the vitamins that build up weight.

For years yeast has been known as a rich vitamin food, but not until we perfected "ironized yeast"—which comes in concentrated tablet form, was it possible to take yeast and iron in the proportions that build weight.

Vegetable "Iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized, becomes just twice as beneficial as fresh or cake yeast.

Ironized Yeast tablets are composed of concentrated food elements, therefore they are pleasant to take and free from drug-like effects. If you are under weight, do not enjoy good health, lacking in energy and force, "ironized yeast" tablets will pick you right up, and if they fail, you get your money back.

Sold by druggists at \$1.00 for a 60-tablet package or sent direct from Laboratory on receipt of price. Ironed Yeast Co., Fort Erie, Ontario, Canada.

RAIN
WHY do ya kick when it rains a bit, and why does it make ya throw a fit? Just wait—while, all the clouds have gone, and then take a look at the old front lawn.

Think of the trouble it saves ya, man. Helps ya to get back the sprinkling can. Think of the growth that the garden's gained. How 'bout the muscles that are not strained?

Maybe ya planted some seeds last week—waitin' and hopin' to see them peek. Eat 'em up, then, in its garden cup; the rain comes down an' the seeds come up.

Nature, ya know, has to have a drink. Maybe a man doesn't stop to think. Cut out the frettin'—cause what do ya gain? The most you can do is—just let it rain.

SLAIN GANGSTER FOUND IN AUTO NEAR BROADWAY

Body Slumped in Car With Two Bullet Wounds in Breast

NEW YORK, June 22.—Traffic policeman Dennis O'Connell was standing near 134th street near Broadway at 1 p. m. and had just raised his hand to signal north-bound traffic to stop, when Albert Danning, who lives at 49 West 10th street, tapped him on the shoulder.

"Officer," Danning said, "there's a drunk lying in a machine down the street. I've yelled in his car, I've shook him, I've done everything, but he won't wake up."

"I'll soon move him," said O'Connell. At that moment a patrolman off duty crossed the street. O'Connell asked him to direct traffic for a few minutes, and then followed Danning.

O'Connell found the head of a man resting on the rear seat of the car, the body slumped down on the floor. O'Connell lifted the body up and covered two bullet wounds in the breast, one over the heart. The man was dead.

NEIGHBOR HEARS SHOOTING.

About six hours before O'Connell reported Danning's discovery to the West 102nd street police station, the operator at headquarters received a telephone call from Ralph Hicks, who lives at 142 Manhattan avenue.

"I heard a pistol shot a few minutes ago," Hicks said, "and then I saw several men carry a body out to an automobile, which drove off."

IDENTIFIED AS EX-CONVICT.

The man, who wore a light brown suit of good quality, had curly hair and weighed about 135 pounds. The police found \$10.70, a white gold chain, a Turkish coin and a cigar cutter in his pocket. Fingerprint records revealed, according to the police, that the man was Charles Caffery, alias "Burke," a gangster and ex-convict.

Caffery, who was 23 years old, had been arrested frequently, according to the record, for felonious assault, burglary and robbery. He made the neighborhood of Manhattan avenue one of his haunts, the police said.

The car, according to the police, had been stolen from Max Hart, of 59 West 119th street, last March.

FREAK JEWELRY IS LATEST IN LONDON

Barbaric and Massed Gems to Replace Simple Adornments Recently Worn

LONDON, June 22.—A revival of the fashion for wearing barbaric and massed jewelry is in the air, but in the morning and afternoon, is promised for the summer.

This is a reaction against the custom of the last three seasons, when a single pearl necklace, one diamond ring, or a solitary diamond chain was considered "chic."

Bracelets an inch and a half wide, made of massed square and "Baguette" shaped diamonds, alternating with square emeralds, are to be worn with hair-modes and luncheon frocks.

At a leading London jeweller's establishment it was stated that the favorite stones for this season are emeralds and diamonds. These are the most expensive stones, and they must be worn square-cut, which makes them still more expensive, as there is much wastage of the stone in cutting.

Faceted crystal, cut to resemble diamonds, carved emeralds, Japanese coral, and rose-pink pearls of the fashionable "nude" tint, are freaks of fashion in jewelry. All bracelets and clasps are flexible, and in many cases the massive bracelet can be used in the evening as a handbag.

Earrings are made in Chinese designs of jade, coral, and pearls, and have a story depicted on them, a different one on each earring.

Mental Lapse Frees Kansas Gridiron Star

NEW YORK, June 22.—Alexander Riley Hodges, Jr., former University of Kansas football star, escaped a prison term when Judge Allen, in General Sessions, suspended sentence on him for holding up Fischer's restaurant, of Columbus circle, on April 20, during a momentary psychological breakdown.

Judge Allen, in suspending sentence, said he could follow no other course after hearing the recital of how Hodges had worked his way through both high school and college, had landed here without funds or a job and had committed the hold-up in a moment of hunger-mad panic.

Girl Detectives Prove Successful

LONDON, June 22.—Miss Sherlock Holmes has made good. Young work-a-day detectives are proving their worth every day of the week to the great London shops that are employing them in increasing numbers against the ubiquitous shoplifter.

Sometimes the girl detective is that of an ordinary shop assistant, and she is able to play the part so well that customers seek her out to attend to their requirements. She is just as much at home, however, in the role of the fashionable fillet in indirect dress, and it is from one department to another, occasionally stopping to have a short conversation with one of the assistants while she scans the crowd.

London Bride Will Wear Medici Veil

LONDON, June 22.—Miss Dina Hilton, of Long Island, N. Y., who is to be married in London next month to Harry R. Lindsay, of Detroit, will wear a veil of exquisite Medici lace with her bridal frock.

Miss Hilton and her mother have been traveling in Europe for the past two months and succeeded in discovering a beautiful specimen piece of lace work that was made for Catherine Medici over 400 years ago. The lace is perfectly preserved and is of a deep ivory color.

LARGEST LACE CURTAIN MADE

One of the lace manufacturing mills in England has turned out in one piece a lace curtain 150 feet long and fifty feet wide. It is said to be the largest single piece of lace ever turned out in any of the factories throughout the world.

THE CAMPBELLS ARE BUILDING

A \$100,000 memorial to the Campbells throughout the world is being built at Inverary, a little Scotch town in Argyllshire, by Naill Darnie Campbell (right), Duke of Argyll. The tower, shown at the left, will stand 123 feet high.

Fisherman Lands Rabbit; Arrested Two Days Later

Victim of Circumstance Is Accused of Hunting Out of Season

LONDON, June 22.—A threestone misadventure recently befell an enthusiastic fisherman. He had gone to the heart of the country and was sitting peacefully engaged in his favorite sport, not in the least troubled, as is the way with the fisherman, by the fact that he had caught nothing, when he suddenly felt a tug at the line and discovered that he had hooked a rabbit.

It had been started by his dog which was playing about in a neighboring field, had been chased to the edge of the river, which it had entered in its flight, and swam on to the fisherman's hook.

SO far the affair had been rather an amusing comedy, but shortly a policeman came along. The unfortunate fisherman was questioned, and a day or so later was dragged before the magistrate on a charge of having hunted during the prohibited season. One thing at any rate should console him. He will have for the rest of his life a really original fishing story to tell to his friends.

SOCIAL SEASON IS EXTENDED BY STRIKE

August Expected to See Two Royal Garden Parties at Buckingham

LONDON, June 22.—It is now regarded as official that the London season will be extended until the end of August this year—and that King George and Queen Mary will probably bring the Court back to Buckingham Palace for a few weeks' stay after Cowes Week, the first week in August.

This is a move which London society has been hoping would take place for several seasons past, and its fulfilment is indirectly due to the eight-day general strike, which delayed the opening of the London season by about two weeks.

The extension of the season by another month will permit of less dash-offer months of important functions, and it is possible that August will see at least two Royal Garden Parties at Buckingham Palace—functions which are always popular.

MOVE FOR SAFETY AT LEVEL CROSSING

Local Committee of C. N. R. to Seek Co-operation of Auto- mobile Drivers

A decision to seek the co-operation of the motoring public, through the medium of the press, in their endeavors to decrease, and ultimately abolish, the number of accidents and fatalities at level railway crossings was reached at the monthly meeting of Saint John Safety First Committee of the C. N. R., held yesterday afternoon in the office of the terminal agent, C. S. Pugh.

Twenty-one members of the committee attended the meeting.

W. H. Tout, of Moncton, safety first engineer of the Atlantic Region of the C. N. R., was present yesterday and heartily congratulated the Saint John committee on their establishing an electric bell, warning pedestrian and motor traffic of approaching trains on this city.

Mr. Tout remarked to a Times-Star reporter yesterday that the local committee was one of the most energetic of the 28 similar organizations in the Atlantic Region.

The death occurred at the Home for Incurables yesterday afternoon of Mrs. Mary Jane Usher, wife of George H. Usher, Winter street. The late Mrs. Usher was 81 years of age and had been ill for the last five years.

The deceased was born in Saint John, a daughter of the late John and Mary McGowan, and spent her entire life in this city. Besides her husband, the late Mrs. Usher is survived by four nephews and two nieces. The nephews are Thomas J. Clark, of Saint John; M. Spence Clark, of Boston; George S.

Miller, of Rousesay, and Albert Miller, of this city. The nieces are Mrs. T. W. Barnes, of Saint John, and Mrs. H. Sinclair, of Glen Falls.

The late Mrs. Usher was a woman highly respected in the community and beloved by all who knew her. The funeral will be held tomorrow afternoon. Interment will be at Fernhill.

Joseph Reece

The death of Joseph Reece occurred at his home, Los Angeles, Cal., on June 11 after a short illness of pneumonia. Mr. Reece was a New Brunswicker and was born in Queens county, the son of Archibald Reece, of Cumberland Bay. He leaves to mourn his wife, formerly Louise Potter, of Los Angeles; also one brother, at present in Los Angeles, and one sister, Mrs. John Wadsworth of Camden, Maine.

Mrs. Rebecca Fawcett

SACKVILLE, June 20.—Mrs. Rebecca Fawcett, widow of the late Squire Fawcett, passed away at Upper Sackville on June 17, at the advanced age of 92 years. Her husband died about 15 years ago. She is survived by two sisters, Mrs. Avila Weidon and Mrs. Alfred Scott, Sackville, and one brother, Fred C. Harris, now of Boston. The funeral was held Saturday afternoon. Service was conducted by Prof. F. W. DesBarres. The pallbearers were: A. C. Fawcett,

Miller, of Rousesay, and Albert Miller, of this city. The nieces are Mrs. T. W. Barnes, of Saint John, and Mrs. H. Sinclair, of Glen Falls.

By Law the Man is Head of the House, But Too Often the Husband Defts His Authority at His Own Doorstep When He Should Bring His Business Talents to Bear on Home Problems.

A CORRESPONDENT asks: "Which should be the head of the house, the husband or the wife?" The law settles this question. The man is the official head of the house. He is the one who is held responsible for its upkeep. The wife takes the husband's name. He is liable for her sins and accountable for her conduct to a certain degree, and he legally dominates the home.

That is the theory. In actual fact, in this country, it is nearly always the wife who rules the roost. She elects her husband by her unanimous vote to the sinecure of being head of the household, while she runs the business.

In nine families out of ten it is the wife who picks out the home and decides in what style the family shall live; who establishes the family social status; who brings up the children according to her own plans and specifications; who picks out their schools, their religions, their clothes, their associates for them and settles every question concerning their welfare.

IN NINE homes out of ten the husband and father is little more than a figurehead, whose sole function is paying the bills. In the outer world he may be a man of great importance, a man whose words are pearls of wisdom, a man of whom other men stand in fear and awe.

But he defts his authority at his own doorstep and becomes a person of no importance in his own home, with none so poor as to do him reverence. Many a man who has led an army into battle and whose chest is covered with medals for bravery quakes in terror before the little two-by-four woman to whom he is married. Many a man who runs a trust can't make his little 15-year-old daughter hitch up her stockings and wash the paint off her face.

AND so, after one or two abortive efforts to assert his authority as head of the house, the average man saves his face by stepping quietly down and out and turning over the job to his wife.

This is a pity. And it may go a long way toward explaining what's the matter with the home and what's the matter with the present generation of youngsters.

Perhaps if the men who have the constructive genius that enables them to build up great enterprises would devote some of their time and talents to building up their own homes we should have better homes and fewer that are wrecked by divorce.

Perhaps if the men who have the skill and strength and firmness to guide and control hundreds of employes would apply some of their skill in handling men to their own children, we should not have so many girls and boys who are running wild, beyond all control.

OF COURSE, nobody wants any return to the old-fashioned head of the house, when the man did the heavy father stuff and turned his children out of his door into the cold and snows night if they dared to differ with him or resist his tyranny. That kind of autocracy is as dead as the divine right of kings.

Because a man stands in the relationship of husband and father to a woman and children, it gives him no right to oppress and suppress them, but it does lay upon him an obligation to be their friend, counselor and guide—to give them the benefit of the wider experience of life he has had, to supplement their weakness with his strength and to save them from the pits that he can see that they are digging for themselves.

Therefore I think it is a misfortune to the family for a man to resign his position as head of the house to his wife and to give her an absolutely free hand, with no interference, in rearing the children. For very often a mother is so blinded by her love that she is incapable of seeing what is best for her children and she ruins them by her tenderness.

I HAVE heard more than one father say of a weak, drunken wastrel son: "I knew he was bound to turn out as he has, because his mother spoiled him to death. She never controlled him. She never made him do anything he didn't want to do. She let him stop school whenever he got tired and she would always get the money for him to throw away, even if she had to pick the housekeeping allowance or do without things herself."

Such a situation could not occur where the man was the head of the house. The wise father would give the boy the discipline that the overfond and foolish mother could not give. He could hold the lad steady at the formative time of his life, and if all else failed he could send the boy away to school, away from the corrupting influence of the mother who was ruining him.

JUST because, as a general thing, men have had a wider contact with the world than women have, because they have been disciplined and taught self-control in business and because they have a broader outlook than most women, the husband is usually better fitted to be the head of the house than the wife is. But this is not always the case. Very often the woman is more intelligent than the man, has better judgment, a stronger character and would rule the family more justly and wisely than he.

The ideal condition would be for the head of the house to be the one who is best qualified for the position, and for the home to be dominated by the one who is most fitted to rule it.

BUT, alas, this seldom happens. When we look about us we see that in almost every home it is the weak who dominate the strong, the unfit who rule the fit.

We see homes in which a howling infant tyrannizes over a household of grown persons and destroys all of their happiness and comfort. We see silly, hysterical women ruling their families with a rod of iron through their fear of scenes. We see narrow-minded, ignorant, bigoted, fool men crushing the life and joy out of their wives and children by their tempers. We see querulous, senile old persons blighting their children's ambitions and ruining their chances in life by imposing their old-fogy ideas on them.

AND it makes us wonder if, after all, any one has the right to be the head of the house, and if the home should not be a democracy directed by an autocracy.

VELVET RIBBON FOR THE COSTUME SLIP

By Marie Belmont

Have you seen the new velvet ribbon trimming on underwear? At first glance, one might be inclined to think the slip was an ultra short evening frock, so decorative is its new trimming.

Shadow grey crepe de chine is the material of the slip which is designed for wear beneath a sheer summer frock. Coral ribbon velvet is applied over the set-in motifs of dyed grey lace and tiny silk roses. In various shades of pink and red, climb over the trellis of lace and velvet. Scalloped gossamer of grey silk add width to the bottom of this costume slip.

BEHIND THE SCREEN

By JACK JUNGMEYER.

SCREEN comics, maintains Charley Chase, are very decidedly changing the American idea and standard of humor. And Chase, producer of the two-reelers, speaks as an accomplished member of the film-making profession whose observations range far beyond the studio borders.

"Since comedy on the screen has had to meet the test of naturalness," says Chase, "there has been a noticeable welding together of a public good naturedly enjoying this mirror of themselves which slight none of the foibles or weaknesses, we all are heir to."

"A decided element of heart appeal has entered film comedies, with sympathy established at the outset for the hero. The figures of comedy have become human beings where once they were hastening creatures having little if anything in common with the normal man."

"Up to the present generation most parents tried to suppress comedy expression in their children as something that smacked of ill-manner or abominable taste. The youthful clown was perhaps tolerated, but usually set aside as rather undesirable."

"So, too, 'respectable' people resented comedy pointed at themselves, their class, their race and so on, as an insulting intrusion of a smart aleck. Only the yokel, the fool, could be the butt of ridicule."

"So, too, 'respectable' people resented comedy pointed at themselves, their class, their race and so on, as an insulting intrusion of a smart aleck. Only the yokel, the fool, could be the butt of ridicule."

"Up to the present generation most parents tried to suppress comedy expression in their children as something that smacked of ill-manner or abominable taste. The youthful clown was perhaps tolerated, but usually set aside as rather undesirable."

TODAY'S RECIPES
Spinach Salad—Boil spinach with no water until tender, cool, chop fine and add a little French dressing or vinegar. Have some hard boiled eggs ready, slice with egg slicer and place around the mound of spinach. Place one tender stalk of celery at the side of salad.

Oven-Browned Potatoes—Slice potatoes lengthwise into eights and place in shallow baking pan, add one cup of hot water, and one tablespoon each of butter and other shortening. Season well and bake in oven until brown and tender.

Doughnuts—Cream one tablespoon of butter, one cup sugar, one egg, one cup of sour milk, one teaspoon soda; flour to make a soft batter. Flavor with one-half teaspoon of cinnamon or nutmeg. Mix like cake but keep the batter soft when rolling out and

cutting. Too much flour or handling makes them tough. Drop into hot fat after testing it by dropping in a bit of dough. If it bubbles and browns quickly, it is ready to use. Fry a golden brown and drain on absorbent paper.

Whipped Strawberry Shortcake—One quart berries, one and one-third cup flour, two teaspoons baking powder, two tablespoons butter, one tablespoon sugar, little water. Mix and sift dry ingredients; rub in butter, cut water in with a knife, giving flour time to absorb the moisture, before adding more. Use just enough water

to make a soft dough. Water and butter are supposed to make it more tender than lard and milk. Do not roll but put in a buttered pie dish and bake fifteen minutes in hot oven. Split and spread with butter. Can also be made in individual rounds. Take strawberries and reserving a cup of nice whole berries, mash the remainder with one-half cup of sugar and then add the sugar of one egg unbeaten. Beat all together in large pan until it is stiff like whipped cream. Then pour over biscuits around which have been arranged some whole berries. Do not add berries until ready to serve.

ADVENTURES of the TWINS

OLIVE ROBERTS BARTON

THE STRETCHY POLICEMAN

"Did you see any sign of a china elephant and a toy clown?" Nick asked the corner policeman in the city of "Any Place At All."

The policeman started to answer, but as his voice began to get farther and farther away, the Twins looked quickly to see what had happened.

And there, if you please, was his head about half a mile up in the air, and keeping on going. At last there was no head to be seen at all—nothing but a long, long neck.

Then, as they looked, his head started to come down again, and finally it settled back where it belonged, on his shoulders.

"I beg your pardon," he remarked, "but I had to speak to a friend of mine on Jupiter. Now, what did you ask me, please?"

"We're looking for Inco, our china elephant, and a toy clown called Flops," said Nick. "We were told that he came to Droway Land on the Moon. Did you see him?"

"What did he look like?" asked the policeman. But at that his head was gone again and his voice trailed off in the distance. Not up this time, but sideways, his long neck stretching down the street and around a corner.

And then as the Twins watched, one of his arms stretched after his neck, and it, too, disappeared around the corner.

By and by the policeman's head and arm appeared again, and in a minute he was as good as new. But he had tight hold of an automobile which he pulled around in front of him.

"I'll not arrest you for speeding this time," he said to the driver, "but you mustn't do it again. Remember if you

do, I'll see you. I see everything, for I can stretch my neck over house-tops and trees and around all the corners. Now go, but remember what I told you. You are not allowed to drive over 100 miles a minute on the moon. Do you promise?"

"I promise," said the man, so the policeman let the poor trembling fellow go and he disappeared around the corner again like a flash.

"Now please tell me your troubles all over again," said the policeman to the Twins. "It was something about an elephant and a—"

But away went his head again, this time around another corner. His head kept disappearing and coming back until finally Nick said to Nancy, "Come on. Let's go. We'll never find out about Inco and Flops this way."

Nancy laughed. "Wouldn't it be great to have a stretchy neck like that," she said. "We could stand still and let our necks do all the running around for us."

"I should say not," said Nick. "It's more fun to have all of you go on an adventure instead of just your head."

"That's right," nodded Nancy. "But this city of Any Place At All keeps you on the jump too much. I don't think we'll find Inco and Flops here anywhere. We'd better go on to the next place, Goodness! Here comes that giant boy again. If we don't run, he'll pick us up again and squeeze us like he did before. And—"

But the giant boy had spotted them and it was too late to run. He picked them up, but this time he did not squeeze them. He whirled them around over his head three times and then threw them across a moon mountain. They did not know it, but they were in a place quite as queer as they had left.

BIRTH RATE IN
BRITAIN DROPS

Figures Lowest of Any
Country in World—Mar-
riages Also Decrease

British United Press.
LONDON, June 22.—England's
birth rate is the lowest in the world,
and is continuing to fall. For fifteen
months the births, relative to popu-
lation, in England and Wales, have
been less than those anywhere else,
and indications are that they will con-
tinue to fall.

Official figures for the first three
months of 1926 show that there were
174,061 births, a decrease of 100,000
from the corresponding quarter last year.
The 1926 figures correspond to an an-
nual rate of 18.2 births per 1,000 popu-
lation.

MARRIAGES ALSO
Marriages are decreasing also. Dur-
ing the last three months of 1926 there
were 154,088 marriages, a decrease of
28,228 compared with the preceding
quarter and of 2,234 compared with
the corresponding quarter of the year
before.

TEACHERS LEAVE JUNE 30
The provincial school teachers making
the trip to the Old Country, will leave
Saint John on June 30, going to Quebec
to sail from there on July 1. They will
land at Glasgow and will be met there
by Lady Beaverbrook, who will accom-
pany them on their tour through Eng-
land, which, it was said, would include
a visit to Lord Beaverbrook's summer
estate in Surrey.

SOCIALISTS BARRED
FROM BRITISH MEET

Dutch Labor Officers Unable to
Attend Conference on Im-
migration

Canadian Press.
LONDON, June 22.—It was revealed
in the House of Commons yesterday
that the British Government refused
to allow the Dutch Socialists Finmen
and Oudegeest to come to England to
attend the International Labor Con-
ference on immigration, now sitting here.
(Finmen is president of the Inter-
national Federation of Transport and
Oudegeest is head of the Dutch Labor
Federation.)
Replying to a question from Arthur
Henderson as to why the men were ex-
cluded, Sir Wm. Joynton-Hicks, the
Home Secretary, replied because he
had ascertained during the general
strike that they had tried to interfere
with British trade by arranging that
British ships should be held up in
foreign ports. He had decided not to
allow them to come here to concoct
further plans of that kind.

CROP OUTLOOK IN
WEST IS IMPROVED

General Rainfall Helps—Noth-
ing Adverse to Report Says
C. P. R. Bulletin

WINNIPEG, Man., June 22.—Precip-
itation has been general throughout
the west of Canada and the crop out-
look is now decidedly improved, ac-
cording to the weekly crop report of
the Canadian Pacific Railway issued
from the office of D. C. Coleman,
vice-president in charge of western
lines, here today.
Wheat on average is up 10 to 12
inches and there are occasional fields
showing stands up to 18 inches. Color
is good and grain is well stooled out.
Oats and barley are also coming along
fine and present indications are favor-
able. Fall 77s is headed out and on
the whole is promising. Taking the
western crop throughout there is noth-
ing of an adverse nature to report.

Weddings

Forbes-Duval.
In St. Matthew's Presbyterian
church, at 6 o'clock this evening, the
marriage of Irene Byrd Duval, daugh-
ter of the late Dr. J. L. Duval and
Mrs. Duval of Outremont, Quebec, to
Dr. John Campbell Forbes, son of Mr.
and Mrs. Allan Forbes, of Melford,
C. B., will be solemnized. Rev. Dr.
J. A. Morrison will perform the cere-
mony. The church is beautifully de-
corated, by friends of the bride, with
white lilies and honeysuckle and white
ribbon bows mark the pews reserved
for the invited guests, who number
only the immediate relatives and im-
mediate friends of the contracting parties.
Dr. G. G. Corbet will give his niece
in marriage and she will be attended
by her cousin, Miss Byrd Corbet, as
bridesmaid. Donald Forbes, of Mel-
ford, C. B., will be groomsmen.
The bride will wear lovely gown
of white chiffon, simply made, with
long tight-fitting sleeves. Her tulle
veil will be arranged in cascade with
coronet of orange blossoms, and she
will carry a shower bouquet of ophelia
roses. The bridesmaid will be dressed
in orchid chiffon, with picture hat to
match, and she will carry Columbia
roses.
Mrs. J. L. Duval, mother of the
bride, will wear cocoa colored crepe de
chêne, with a black hat and corsage
bouquet of roses, and Mrs. G. G. Cor-
bet, aunt of the bride, navy blue ge-
orgette over figured silk, and small navy
blue hat.
Neville Duval, Gordon Corbet,
Yvonne Dilmars and Morley Ewing
will act as ushers.
As the bride enters the church the
organist, Mr. Cochrane, will play spec-
ial nuptial music, and during the sign-
ing of the register Miss Frances Mur-
doch will sing "Because." Following
the ceremony a reception will be held
at the home of the bride's uncle and
aunt, Dr. and Mrs. G. G. Corbet,
Loburg street. The rooms will be de-
corated in flowers of pastel shades,
sweet peas predominating, interspersed
with greenery. The bride's table will
be centred with the wedding cake, and
will have for decoration small silver
vases of sweet peas. The bride and
her bridesmaid will leave this evening for
the Annapolis Valley and will spend
the summer months visiting in Nova
Scotia. In the autumn they will take
up their residence in Haverford, Penn.
The bride will travel in a motor coach
and will be accompanied by her brides-
maid, with cloth coat of the same
shade and sand colored French
silk, trimmed with rosewood taffeta.
The bridegroom's gift to the bride is a
fitted leather writing case, to the
bridesmaid a white gold bar pin, set
with amethysts, and to the ushers gold
tie clips. The bride, who formerly re-
sided in Saint John with her parents,
has many friends here who will join
in wishing her much happiness in the
future. Her father, the late Major J. L.
Duval, M. D., died overseas from
wounds received at the battle of
Ypres, during the Great War, since
which the family have resided in
Montreal.

Kitchen Life Changed
By Electric Cooking

The investigations con-
ducted by the experts of
Goodhousekeeping Mag-
azine, the Woman's
Home Companion and the
Domestic Arts Exhi-
bition in New York have
all had one unanimous
verdict about electric
cooking.
With rates like we
have here in our own
Hydro, all other ranges
show up as sheer extrava-
gance. Electric cooking
does little more than
double the meter bill—
saves \$5 to \$10 every
month. These authori-
ties found by tests that
the lower Hydro cooking
costs will cover a whole
month for the gas meter-
age quoted for but a
single week by the local
and other gas firms.
Nothing is so reliable
as Electric cooking heat,
so safe and easily con-
ducted to the degree
wanted. The result is
uniform success. The
wife doesn't have to stand
over the stove. She can
go downtown and return
with everything hunky
dory on the hour. The
enamelled interiors, and
enamel and porcelain ex-
teriors do away with pol-
ishing. Moffat Electric
Ranges also do away with
smoke, fumes, ashes, coal
and the dust that other
stoves float all over the
house. As easy to start
as electric lights. Clearly
electric cooking has
changed kitchen work,
gaining hours of spare

SOME LIVELY TILTS DEVELOP AT AMATEUR MEETING LAST NIGHT

RESULT OF VOTE ON N. B. BRANCH MATTER IS TIE

Status of Professionals As Club Managers Is Argued

A deadlock resulted last evening on the question of breaking away from the M. P. B. A. U. of C. and forming a separate N. B. branch at a special meeting of the amateur clubs of the province at which 25 clubs were represented...

The chairman explained that the Halifax Wanderers and other N. B. clubs were desirous of forming a separate branch, as they thought the business could be handled quicker. He stated that the meeting last night was to decide what recommendation the N. B. clubs would make at the annual meeting of the A. A. U. of C. in September.

It was pointed out that there would be an increase in fees to the A. A. U. of C. from \$100 to \$800 for the three branches, but the Maritimes would have 27 votes instead of nine as at present.

The result of the voting by clubs and the number of votes entitled to each club follows: In favor of a separate branch—St. John's 2, Water Department 2, Martello's 1, Y. M. C. 1, Wanderers 2, East Saint John 2, Trojans 2, Saint John's 2, St. Peter's 2, Y. M. H. A. 1, N. B. (Fredericton) 1, Woodstock 1, St. Stephen 1.

Against—M. A. A. A., Moncton, 2; C. J. A., Moncton, 3; C. N. R., Moncton, 3; Atlantic, Moncton, 3; South End, Saint John, 2; Saint John Baptist, Saint John, 2; Saint John Hockey Club 2, St. Peter's 1, Devon 1, Jersey 3.

Visiting delegates to the city were H. E. Blakney, A. M. LeBlanc, F. B. Kiever, J. Saworth, of Moncton; Heiler, Sackville, and A. Clark, of Fredericton.

Dr. F. Gordon Sanchez asked the chairman how a separate branch would affect playoffs in baseball and basketball. Chairman Stirling replied that it would not be interrupted, as the playoffs were between Nova Scotia and New Brunswick. Further, that if it

British Open Golf Title For Professionals Likely To Remain In Gt. Britain

NEW YORK, June 22.—(United Press)—The defeat of American professional golfer in Ryder Cup play with the British team at Virginia Water, Eng., proved disheartening to the hopes of this country for annexation of the British open this year.

While Americans were pleased, naturally, at the Walker Cup Victory of the amateurs, and Jess Sweetser's triumph in the championship at Muirfield, it was admitted that the professionals were expected to show the way in the open tournament.

Watts Gunn and Jones showed the way among the leaders in the British Open, especially Jones who is a demon at medal play, but Hagen and Barnes will have to improve considerably before they can be conceded a chance.

There are no alibis to save the American defeat at Virginia Water. When 10 golfers as good as Hagen, Barnes, Kirkwood, Armour, Watrous, McLeod, Walker, Stein, French and Melhorn go down to defeat in turn

was decided by N. B. clubs to recommend a separate branch it would have to be ratified at the Maritime meeting in Amherst in August and at the Canadian meeting in Saint John in September.

Dr. Sanchez said that he did not think the matter should be rushed through at the present time but should be taken up later.

STIR ARISSES J. O'Toole, of Fairville, asked if a separate branch was formed would it do away with discrimination and would it stop ball players receiving a salary while playing on amateur teams. It is well known, he said, that such is taking place, but the boys are not "squealers."

Mr. O'Toole stated that he had received promises from officials that he was not sure that anything would be gained by a split, it would cost more money but would give the Maritimes more votes, but the resolutions would go through the regular channel just the same. He did not think Prince Edward Island would be strong enough to carry on a separate branch.

MR. COVEY HEARD A. W. Covey then took the floor and received promises from officials that he was not sure that anything would be gained by a split, it would cost more money but would give the Maritimes more votes, but the resolutions would go through the regular channel just the same. He did not think Prince Edward Island would be strong enough to carry on a separate branch.

MATTER FOR ANNUAL MEETING. Chairman Stirling said that as the vote was tie there was nothing to do but let the matter come up at the annual meeting.

A representative of the Martello baseball club asked how it was that his team could not have a professional as a manager, and the name of James McLeod was mentioned as being a professional and managing the Water Department's team. Chairman stated that no professional manager could remain on the bench after the game started and the next time he found Manager McLeod on the bench, while the game was on, the Water Department team would be suspended.

The meeting then adjourned.

WATERMEN LOSE TO SAINT JOHNS IN FAST GAME

Martellos and St. Rose's Also Win Their Respective Games

Outfitting and outfitting the Maritime champions last evening, the Saint Johns handed the Water Department a 6 to 1 trouncing in the City League fixture played on the North End grounds.

L. Sterling's effective handling backed by excellent support by his teammates, proved too much for the Watermen. Hannah, the champion star twirler, was driven from the mound in the first three innings under a bombardment of hits which, coupled with errors, gave the Saints five runs.

In view of Sterling's work this was more than enough margin to win as for the first six innings Lloyd pitched unhittable ball.

Nelson played a sensational game for the winners, both in the field and at the bat, while Hazelwood, with three hits and a shoestring catch in the outer garden, was another star.

Latham, for the losers, also had a neat catch in the middle garden. Last night's win reduces the champions' lead to two games.

ST. ROSE'S WIN. In the City and County League, the fast traveling St. Rose's increased their lead on the East End grounds to four full games by taking the Shamrocks into camp by the score of 6 to 2.

The game in the South End League last night was rather one-sided as the Martellos romped away with an easy victory from the Royals.

Joseph T. Coughlan, representing the Y. M. C. I. said that he was in favor of a separate branch and made a motion to that effect. Dr. Sanchez moved an amendment that the matter be deferred until a later date.

When asked what he thought of separate branch A. W. Covey said that he was not sure that anything would be gained by a split, it would cost more money but would give the Maritimes more votes, but the resolutions would go through the regular channel just the same.

He did not think Prince Edward Island would be strong enough to carry on a separate branch.

To Increase Size Of Comiskey Park

CLEVELAND, June 22.—The seating capacity at Comiskey Park, home of the Chicago White Sox, is to be increased from 30,000 to 50,000. This became known here today when the Osborne Engineering Company announced that plans it submitted for enlarging the seating capacity have been approved.

There will be a double-tier grandstand in the right and left field. Work will start after the close of the American League schedule.

NATIONAL LEAGUE

Cincinnati, 6; Chicago, 5. CINCINNATI, Ohio, June 21.—Cincinnati won the most exciting game of the season here today, beating Chicago 6 to 5, in 16 innings. Eppa Rixey and Miltstead started the game but by the time the winning run was scored there had been six pitchers on the mound. Carl Mays and Val Picinich were banished from the game for disputing a decision.

U. S. Tennis Stars

Howard Kinsey and Vincent Richards will carry America's hopes in the coming international tennis championships at Wimbledon, England.

In 1923, it will be recalled, "Little Bill" Johnston won the singles title, and in 1924 Richards, paired with Fred Hunter, took the doubles crown.

Last year France, with its two young stars, Rene Lacoste and Jean Borotra, carried the honors. Lacoste annexing the singles and teaming with Borotra, to bag the doubles.

This year, Kinsey and Richards, fresh from their starting doubles triumph in Paris, hope to carry the colors of Uncle Sam successfully, something which Ray Casey and Jack Hennessey failed to do 12 months ago. The French, with Lacoste, Borotra, Brugnon and Cochet, will again offer the most dangerous opposition.

CUBS AND REDS STAGE SIXTEEN INNING CONTEST

League Leaders Finally Win Out—Use Four Star Pitchers

NEW YORK, June 22.—Batting records for the National League—staging one of the greatest races in its history—cover many yards of paper today, and many a pitching arm is weary.

Seldom do five games in any circuit create the imposing figures that came from yesterday's combats in the Heyler wheel, and the American, playing only three contests, was not so far behind. In eight major league battles 200 safe hits were scored, accounting for 192 runs. Two hundred names appeared in the box scores, 34 of them belonging to pitchers.

A 16 inning struggle at Cincinnati in which the league leaders rallied to the Chicago in the ninth and eventually, helped to swell the averages. Jack Hendricks used four of his best noundsmen in winning the game, Rixey, Mays, Nehf and Donohue.

It was a hectic day for Pittsburgh and St. Louis, each team driving out 15 hits in a 13 to 11 victory for the world champions.

Brooklyn and Boston divided a double bill, the first contest going to the Braves in 11 innings 8 to 7, and the Dodgers winning the second 6 to 4. Sixty-one hits came from the afternoon's play.

Jack Scott showed the best pitching anywhere in either league to beat Philadelphia 10 to 3, ably supported by the Giants' bats.

In the American League the Mackmen downed Boston 7 to 6 in 11 innings, using Zamke, Willis and Rommel to accompany 10 innings for Detroit to topple the St. Louis Browns, 5 to 4. Warner of the Tigers featuring with a triple, double and single.

The Cleveland Indians gained full possession of second place by beating Chicago, 5 to 2, with Shaefer pitching strongly in the pinches.

Local Scullers To Row At Newcastle NEWCASTLE, June 21.—Three of the Maritimes' fastest scullers will compete in the old home celebration here. Harry Giesey, of Saint John, three times eastern champion; Willie Logan, of Saint John, ex-intermediate skating champion; Arthur O'Connell, champion of Halifax and junior rowing champion, will compete in the big race of the aquatic meet to be held in Newcastle July 1 and 2.

OILS AND RAILS FEATURED IN WALL ST. MOVE
Prices Go Irregularly Higher at Market Opening Today
TRADING SLUGGISH ON MONTREAL EXCHANGE
Values, However, Display Fairly Steady Tone; Brazilian is Leader
NEW YORK, June 22.—Strength of the oil and railroad shares featured the irregular higher movement of prices at the opening of today's stock market. Union Oil of California and Wheeling and Lake Erie common each opened about a point higher and most of the other issues in those groups improved fractionally on initial sales. Union Pacific touched a new top at 151 3/4. U. S. Steel common and General Motors were heavy.

MONTREAL MARKET
JUNE 22.—Trading on the local stock exchange during the first half hour this morning was very sluggish with values, however, displaying a more or less steady tone. Brazilian, the leader, gained a half at 9 1/2, and Smelters sold unchanged at 210. Other changes included Besco 1st preferred off a half at 1 1/2, and Laurentide off a quarter at 8 1/4.

Would you buy Canadian Government Bonds at 17% of their Normal Value?
"Yes, if the opportunity were available," is undoubtedly your answer. While you cannot buy Canadian Government Bonds at 17 per cent of their normal value you can purchase French Government 5% Bonds at 17 per cent of their normal value. This is a unique opportunity for investors to acquire high quality securities at a price that is well below their face value. The opportunity will last for a limited period only. The French Government is offering these bonds to raise money for the reconstruction of France. The bonds are guaranteed by the French Government and are considered one of the most secure investments available. The interest rate is 5% per annum. The bonds are payable in gold or in French francs. The minimum investment is \$100.00. The bonds are available in denominations of \$100.00, \$50.00, and \$25.00. The bonds are available until June 30, 1926. The interest will be paid semi-annually on June 30 and December 31. The bonds are available in all major cities. For more information, contact the Investment House of C. M. Cordasco & Company, 282 St. James Street, Montreal, Canada.

2,000 Attend Mass Said By Rev. Wm. Duke
CHICAGO, June 21.—The Saint John delegation of more than a hundred, under the leadership of Rev. W. M. Duke, spent another busy day here today. Father Duke celebrated an early mass at St. Thomas the Apostle, nearly two thousand pilgrims, mostly Canadians, quartered in neighboring hotels, attending.
After the mass the delegation was taken by special motorbus to the stadium, where Monsignor Quille, secretary of the Congress, had reserved them a separate and choice block of seats. This arrangement saved the group from the battering that most attending got, when it was found that only 150,000 of the 500,000 seating admittance could actually get in the stadium.
This afternoon the Saint John visitors went sightseeing, visiting the Holy Name Cathedral, where the Blessed Sacrament services will take place. They also visited the national shrine of the Little Flower at St. Clare's church, seeing the venerated relics there.
On the way back to their hotel, they were taken through the University of Chicago buildings and grounds by William Scott, secretary to the president, and a dean in the university.

Morning Stock Letter
NEW YORK, June 22.—Industrial gains considerably in yesterday's market, all shares rising through the day for the year. This took place despite the fact that 17 per cent of the market shows a rather remarkable ability for absorbing selling pressure after big advances. Radio showed a good tone and looks as though it will sell through on this move. Eventually, we believe this stock will sell close to twice its present value. Eventually, we believe this stock will sell close to twice its present value. Eventually, we believe this stock will sell close to twice its present value.

Brokers Opinions
NEW YORK, June 22.—Clark Childs—There are evidences through list of rails, steels, oils, motors, coppers and manufacturing specialties that many of the best stocks have not yet fully discounted the probable improvements they will show in the near future.
Farr & Blythe—"The trend is still upward with public participation increasing."
Brumley Chamberlin—"The action of the market shows stocks are in strong hands and we would take advantage of recessions for purchases."
Hornbaker & Weeks—"As matters now stand, the extent of recovery in industrial stocks is decided shift in speculation to some other direction, either rails or oils, and it should prove of interest to observe the action of industrial stocks in the near future."
Bache—"Those of the rails we continue to favor include So. Pac., N.Y.C., Atchafalaya, Wabash, B. & O., So. Ry and New Haven."

LAST SEASON'S POTATOES NOW NEARLY ALL GONE
Up River Shipper, in City Today, Speaks of Business
Potatoes, which at one time during the winter touched \$9 a barrel, in Carleton and Victoria counties, are now quoted at \$2. A. D. McCain, of Florenceville, a prominent produce shipper, who is at the Victoria Hotel, said this morning that the old stock in the warehouses and on the farms had been nearly all disposed of. The associated shippers of the Saint John valley district finished loading their last boat of the season yesterday, and the vessel, the Norwegian steamship Bescooggen, Capt. Hassel, sailed from this port for Havana, taking 11,000 packages of potatoes and several carloads of hay.
Regarding this year's crop in Carleton and Victoria counties, Mr. McCain said that planting had been finished in most sections, but that in some places seeding had not been quite completed. The acreage this year was about the same as last, but the season was three weeks later.
Mr. McCain said that there had been

BOYS REPORTED
Five West Side lads reported by Sergeant O'Neill and Policemen Gill and McInnes for playing baseball in the Market Place, West Side, on the evening of June 21, appeared before the magistrate this morning and were let go with a warning. It was said that while children played there with a soft rubber ball no notice of the matter was taken, but when a hard ball was used by the boys they were told to desist by the police. Some of the lads heeded the warning and others did not, so were reported.

JUNE and Joyous Freedom
Care-free days
Enchanting nights
IT'S A CAR for June—the freedom of summer days, and the enchantment of moonlit nights—this companionable Big Six Sport-Roadster built by Studebaker.
Only seven American cars equal it in rated horsepower. That means flashing get-away, ability to travel all day at sustained high speed, performance that brings a new thrill even to the keenest roadster enthusiast.
And its performance will last. Studebaker standards, the highest in the industry, guard every detail in its manufacture.
Smart design
Low-slung body is richly finished in two tones of green-gray, in pleasing contrast to the natural wood wheels and the nickel-plating of the radiator, windshield frame and rear deck rails. Upholstery is genuine leather; the seat back is adjustable.
Three sit comfortably in the wide front seat—two in the rumble seat beneath the rear deck. Snubbers, full-size balloon tires and long, resilient springs assure unsurpassed riding ease.
Spark is automatically regulated by the speed of the engine. The spark lever is thus made obsolete and is replaced by the safety lighting control on the steering wheel.
Complete equipment
This Big Six Roadster comes to you completely equipped with windshield wipers, boot for collapsible top, front bumper and rear bumperettes, gasoline gauge, stop light, automatic windshield cleaner, oil and gas filters, air cleaner, motor, coincidental lock to ignition and steering controlled by the same key locking the tool compartment in the left door and the spare-tire carrier at the rear. Spare tire, tube and cover are standard equipment.

One-Profit value
These facilities enable Studebaker to manufacture quality cars on a One-Profit basis, eliminating outside profits. The savings thus effected are passed on to Studebaker owners in the form of higher quality and lower price.
Unit-Built construction
Studebaker facilities result, too, in cars designed, engineered and built as units. The hundreds of parts in a Studebaker function as a smooth-working unit, resulting in scores of thousands of miles of excess transportation, greater riding comfort and higher resale value.
Always kept up-to-date
Direct manufacturing control enables Studebaker to keep cars constantly up-to-date. We add improvements regardless of the calendar—we do not save them up for spectacular annual announcements which make cars artificially obsolete.

IMPERIAL OPENER IS EXCELLENT BILL

Week Starts With "The Splendid Road" and Solos by Kathryn Gallivan

"The Splendid Road," latest of the Frank Lloyd-Fox National releases, which opened a run at the Imperial yesterday, has its hilarious moments and its moments of suspense and thrill—and also its moments of sorrow and despair.

With Anna Q. Nilsson, Lionel Barrymore and Robert Frazer featured in a romance of the California gold rush days of '49, the master of entertainment is something to be taken for granted.

Miss Nilsson as Sandra, has probably never been seen in a sweeter, more demure character role. Robert Frazer as Hankley is a delight. Lionel Barrymore as Dan Cleobell gives a sterling performance in a part which might easily be unappreciated.

Edward Earle as Dr. Edgewell is superb as is Pauline Garon as a jealous dance hall girl with considerable fire. Gladys Brockwell puts her heart

BEAUTY AND THRILL IN "THE WHITE MAN"

Unusual Jungle Story Enacted by Talented Cast at Unique Theatre

An afternoon or evening spent today or tomorrow at the Unique Theatre will be well invested from an entertainment standpoint. Last night "White Man," one of the most unusual films shown in this city in many a day was presented.

The film version has preserved all the picturesque atmosphere of the book and has graphically brought to life many thrilling moments. An aristocratic English girl flies in an aeroplane with an aviator she has never seen, rather than marry a man she does not love.

"White Man" contains some extraordinary acting by known film favorites. Alice Joyce convinces all that she still holds a conspicuous place among the supreme artists that the screen has produced.

Man-Eating Leopard Claims 125 Victims

ALLAHABAD India, June 22 — A terror of East Garhwal, a man-eating leopard, which in seven years has disposed of 125 human beings, has been shot at last.

Both British and Indian waged continual war against the brute which mercilessly escaped from bullets, traps and poison. Captain Corbett shot the leopard after 10 weeks' preparation.

True Hospitality finds faithful expression in Benny BREAD. FIRST served—the mainstay of the meal—the staff of life—BREAD makes the all-important "first impression" which is delightful—always when "mine hostess" serves Benny Bread. Tempting, appetizing, milk-sweet of flavor, creamy and even of texture, Benny Bread takes its place as a perfect food—perfectly made, perfectly baked, perfectly protected as it comes to you clean and fresh in its wax-paper wrapper. THIS WOMAN NOW WELL

Her Suffering Relieved and Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I am certainly very grateful for the benefit I have received from Lydia E. Pinkham's Vegetable Compound, also the Sensitive Wash and the Liver Pills. In the early spring I was suffering so much from loss of blood that I thought I would never be any better as doctor's medicine relieved me only for the time being. I saw the Vegetable Compound advertised in the "Toronto Star," and I find the Vegetable Compound Tablets the best for me. I have been taking them since Spring, and I intend keeping them by me all the time. After reading your private letter-book I saw it was necessary to use Lydia E. Pinkham's Sensitive Wash, and I can safely say I feel a different woman. My friends remark how well I look. I am a very bony woman, but I am as trim as all times to boost your medicines."—Mrs. CHARLES GIFFIN, 945 Lansdowne Avenue, Toronto, Ont.

S. S. Governor Dingley arrived this morning at 10:45 o'clock from Boston via Lube and Eastport, with 210 passengers, the largest number she has carried here thus far this season. She also brought 40 tons of freight and one automobile. The passenger travel thus far has been about on a par with the corresponding period last year in spite of the cold weather prevailing along the Atlantic seaboard. It was reported this morning at the local office of the Eastern Steamship Co.

As Hiram Sees It

THE SETTLEMENT — We haven't had no ottomobed accidents out here yet—but Hanner he's here and he's got a car. We was kind of hopin' yesterday that she'd be a chance to use it when a feller went speedin' along about fifty mile an hour and come mighty nigh goin' over on a turn in the road. I callate most all the fools in town is busy now drivin' ottomobeds. They ha'nt got no sense at all. If they had a chance to use it when a feller went speedin' along about fifty mile an hour and come mighty nigh goin' over on a turn in the road. We wa'nt hev no road soon if them there speed-hounds don't stop racin' along in all kinds of weather. We'll be glad when Mr. Ford gits them there cheap ottomobeds. Then the chance fer these edgits gittin' their necks broke 'll be a lot better—an' the rest of us kin go our ways in peace. A feller needs eyes an' ears all over his head when he goes along the road these days—yes, sir.

HYDRO PLANT AT MUSQUASH IS INSPECTED

Important Recommendations Looked for Following Visit to Plant

The first official inspection of the Musquash system by the members of the New Brunswick Electric Power Commission, appointed by the Baxter government, is being made today and tomorrow. The members of the Commission, accompanied by the chief engineer, S. S. Weston, left this city at 9 o'clock this morning for Musquash. They are spending today on the west bank of the river and will have a camp dinner in the woods at the head of Log Falls pond. Tomorrow, it is expected they will go over the east bank and its storages.

It is understood that at the next regular meeting of the commission there will be some important recommendations to deal with following this inspection trip.

Those making the trip are Hon. E. A. Reilly, M. L. A., Moncton, chairman; D. E. Palmer, Fredericton; A. D. Gagnon, St. Stephen; F. J. Robideaux, Shediac, and E. A. Schofield, Saint John.

NO CRIMINAL CASE FOR JUNE CIRCUIT

NOTED WORKERS AT ROTHESAY SCHOOL

China, Japan and India Represented at Summer Classes of Church of England

China, Japan, and India will each be represented at the Church of England summer school to open at Rothesay tomorrow.

From China comes Miss E. W. McIntosh, B. A., who has been working in the Diocese of Honan since 1915, and is now stationed at Kweitch. Miss McIntosh's home is in Fredericton. It is interesting to know that one of her fellow-missionaries at Kweitch, is Dr. Catharine Davis, sister of Miss Travis of Hampton.

Miss Audrey DeBlais of Charlottetown, P. E. I., is working in the Diocese of Nova Scotia. She has been there since 1912, and has many friends in this province who are eagerly looking forward to seeing her at Rothesay this week.

Rev. J. Cooper Robinson, D. D., has the distinction of being the veteran missionary of the Canadian church. Ever since 1888 he has been working in the Island Empire of Japan. He comes rich with experience. His illustrated talks on Japan are being looked forward to with keen interest. And seeing that Japan is Canada's nearest non-Christian neighbor, and one with whom she is likely to have many dealings in the future, what Dr. Cooper Robinson says to say will appeal to a wide audience.

TWO FROM TORONTO

From Toronto there are coming an old friend and a stranger. Canon Vernon is well known in this province. Previous to his appointment as secretary of the Council for Social Service, he was stationed in the neighboring diocese of Nova Scotia. He is a graduate of King's College, where he was a contemporary of Bishop Schofield and Archbishop Scovill. For many years he edited Church World.

Canon Savers is a stranger to these parts. Previous to becoming rector of St. Matthew's, Toronto, he was rector of Peterborough, and then of Coburg, Ontario. He served as chaplain during the war, and is known as a good organizer, and a forceful preacher. His lectures on training boys and girls in worship are expected to arouse keen interest.

The summer school will open on Wednesday night at 7.45. It is anticipated that it will be well attended.

Local Wrestler Is Winner In Match

Word has been received here of a wrestling match held last evening in St. John's, Nfld., in which Walter O'Toole of this city, defeated James, of Newfoundland, in two straight falls. The local lad won the first fall after 23 minutes of wrestling and then came back strong and took the second one in four minutes. O'Toole weighed 145 pounds, and James weighed 135. The scales at 170. O'Toole hopes to meet Seely of Newfoundland in about ten days.

FAIRVILLE FIRE

The Fairville fire department was called out this morning for a blaze on the roof of the building owned by S. C. Tippetts, corner of Main street and Church avenue. The blaze was quickly extinguished and little damage was done.

St. Lawrence Mills Bonds Hold Common Stock Option

Extensions under way in the plants of the St. Lawrence Paper Mills which this year will be \$700,000 over and above all Bond Interest. On final completion this expansion of production will increase this figure to about \$1,200,000.

A most promising situation for the 60,000 shares of Common Stock. A two-year warrant reserving 3 shares at \$50 goes with each 10-year 6 1/2 per cent. Mortgage Debenture. The increasing success of this concern in its fortunate location at Three Rivers, with raw material, power and cheap transport at hand offers exceptional investment opportunities in these Debentures.
