HEAD IN HONGKONG TYPHOON

REDS CLASH WITH POLICE AT ALTDORF

Disorders Continue in Aix La Chapelle and Surrounding District.

25 FATALITIES

Two Hundred Civilians Are Sworn in to Reinforce Police.

(Canadian Press Cable)

Aix La Chapelle, Aug. 18.—Eight Communists were killed and 50 wounded in an encounter with the police yesterday at Altdorf, seven miles north of this city.

The disorders here continue, and 200 civilians have been sworn in by the authorities to reinforce the security police.

Fifteen German civilians, wounded in Monday's disorders, have since died, bringing the total number of fatalities to 25.

Chauffeur Driven to Refuge by Mosquitos

Cape May, N. Y., Aug. 18.—Swarms of mosquitos today forced John H. Backner, a traveling salesman, to abandon his automobile in the woods between Tuckaboe and Dennisville and to run two miles to a farm house, where he found refuge from the pests.

GOOD POTATO CROP IS ANTICIPATED

Less Disease Than Usual is Word From Inspectors—Another Survey.

(Special to The Times.)

Fredericton, Aug. 18.—The Dominion Plant Pathological Laboratory here received several reports on the condition of the potato crop in New Brunswick.

The general report is that the crop is good with diseases less prevalent than usual. The reports from the inspectors on their first round are not complete but the chief potato growing areas are covered.

Carleton and Victoria Counties which produce a large proportion of the total crop of the province are reported to have good crops.

Westmorland is reported to have a considerable acreage and also being important in the seed-potato business.

Northumberland is reported to have a crop of potatoes in sections in the vicinity of Newcastle and Chatham.

Twenty per cent stand in good condition and it is expected that the crop will be good and yield as good as the average.

Two inspections are made on behalf of the Pathological Laboratory.

The result of the second is forwarded to Ottawa as a basis of certification.

The first inspection was two weeks late on account of the backward season.

The second will begin in the district in which the potato fields this season.

This is probably the result of the lack of rain in the early summer and the cool weather which has characterized the entire season.

HOPE TO RETAIN HARVESTERS

Colonization Association to Consider Scheme to Hold British Workers.

Winnipeg, Aug. 18.—Consideration of a scheme for retaining in Canada the 10,000 harvesters brought out from the British Isles to help in the harvest fields, will be one of the principal subjects for discussion at a meeting of the directors of the Canada Colonization Association to be held in Winnipeg Monday morning.

This organization has been formed for the purpose of assisting the directors of the organization since the re-organization two months ago.

Another important step to be taken will be the appointment of a superintendent of agriculture who will have charge of welfare work of the association.

One of them, Harbell, was Mr. Harding's mouth for several weeks, when, two years ago, on advice of his physician, he took up horseback riding.

He soon gave up riding in favor of golf, but later he returned to horseback riding.

The decision to return the horses to Mr. Firestone was made known to Mr. Harding, who remained at the White House, going over the personal effects left by his husband.

Mr. Firestone was immediately withdrawn from Tulsa, was received at the executive office yesterday, according to an announcement from Aldrich Blake, the Governor's counsellor.

Unless troops are withdrawn once your fate will be the same as that of the others," Blake said the letter read.

Blake declined to divulge the place it was posted.

Balloon Knocks Over French Chimneys

Troyes, France, Aug. 18.—A low-flying balloon, swept down by a sudden gust of wind, knocked over a row of brick chimneys.

Several of the bricks landed on the head of Gaston Geoffrey, who was working in an automobile. Geoffrey awoke with a start and then fell unconscious, apparently from fright, as he was only slightly injured.

COMIC ARTIST A SUICIDE.

"Life Is Too Great," Says Oliver Dickman in Last Note.

St. Louis, Aug. 18.—Oliver Dickman, 21 years old, a comic artist who is said to be on the staff of the New York Evening World, committed suicide at the home of his parents here, by inhaling gas. He left a note to his mother, saying "Life is too great."

The young artist was spending his vacation here.

IRISH TODAY ARE NAMING CANDIDATES

Week of Turmoil May Start Tomorrow After Morning Services.

DE VALERA MOVED

President Cosgrave Billed to Speak Sunday at the Scene of Arrest.

Dublin, Aug. 18.—Nominations for the Parliament of the Irish Free State are being made today. There are between 400 and 500 candidates in the field for the 185 seats but it is unlikely that all of these will be able or willing to furnish the required deposits of 150 and it is therefore expected that several will retire.

The pro-Government party has put forward 111 candidates but it is possible that this number will be increased before the end of the day.

Republican aspirants for seats in the cabinet number 85, however, there may be more before the balloting is over.

In addition, there are many representatives of the Farmer and Labor party to be nominated and perhaps independent as well.

On Sunday, after the morning mass, will begin a week of intensive electioneering, during the course of which there is likely to be considerable turmoil inasmuch as excitement over the contest is already running high.

President Cosgrave is scheduled to speak at Ennis Sunday.

Northumberland is reported to have a crop of potatoes in sections in the vicinity of Newcastle and Chatham.

Twenty per cent stand in good condition and it is expected that the crop will be good and yield as good as the average.

Two inspections are made on behalf of the Pathological Laboratory.

The result of the second is forwarded to Ottawa as a basis of certification.

The first inspection was two weeks late on account of the backward season.

The second will begin in the district in which the potato fields this season.

This is probably the result of the lack of rain in the early summer and the cool weather which has characterized the entire season.

Some of the action prophets aver that the De Valera issue will help the Farmers and the Laborites whose candidates, they say, will in many places defeat the Republicans.

Doctor Buried In Furs Worth \$35,000

Texarkana, Tex., Aug. 18.—In accordance with requests said to have been made prior to his death here yesterday, the body of Dr. Fred M. Spiers, reported to have formerly served as United States Commissioner in Alaska, was wrapped in a great coat of Russian sable, furred boots and a fur cap when it was prepared for burial today.

POPULATION OF BIG CITIES DECREASING

Drift is Away From the Crowded Centres to Suburbs.

NOTABLE SHRINKAGE

London, Paris and New York are Most Conspicuous Losers.

(Special to The Times.)

New York, Aug. 18.—London, Paris and New York are declining in population. Far from being alarmed or mortified by this backward movement, the city officials in each case are delighted.

Of course, it does not mean greater London, or greater Paris or greater New York. London's "outer ring" outside of the London County area has grown tremendously.

It is the suburbs around Paris which have drained away her population. And the fact remains that the people are migrating to the country in all three great capitals as rapidly as transport facilities permit.

It is even possible that the "current opinion" in Paris would shrink.

As the Mayor of Paris, who is also more accurately the Prefect of the Seine, declares today: "All my efforts during the coming year will tend toward the disorganization of Paris."

He shall, as in New York and London, break the underground railroad out of the city. We shall increase the tramway and auto bus lines.

It is even possible that the "current opinion" in Paris would shrink.

ANGLO-JAPANESE ALLIANCE ENDS

Pact Terminated by Approval of Arms Conference Treaties At Washington.

DR. BANTING BACK ON THE MONTCALM

Insulin Discoverer Evades Reporters—Several Maritime Provinces Aboard.

Quebec, Aug. 17.—Two Canadian Pacific steamers arrived at Quebec yesterday, the mono-class 10,000-ton Montcalm from Liverpool, in command of Capt. Rennie, O. B. E., and the Burton from Southampton.

The Montcalm brought 1,682 passengers, 406 cabin, largely composed of returned Canadians, and 1,276 third class, out of which were 876 British harvesters en route to the Prairie Provinces.

Among the prominent cabin passengers on the Montcalm was Dr. F. G. Banting, an insulin discoverer who is on his way to Toronto.

Germany's First Woman Glider

Carola Drechman is the first woman in Germany to take up gliding since the experiments in motorless flying have started. Here she is starting on a flight in the Rhine Mountains.

Firpo's Manager Says Promoter Skipped With Funds; Uproar Results

Indianapolis, Ind., Aug. 18.—Luis Firpo, Argentine aspirant for Jack Dempsey's heavyweight championship crown, and Joe Downey of Cincinnati met here last night in a scheduled ten round boxing contest.

The bout was delayed for more than two hours due to a disagreement over the amount of money due the South American.

The principals finally ended the ring at 11.25 p.m. Due to the Governor's orders the bout would be a four-round exhibition.

The contestants wore 16-ounce gloves. Hughie Gartland, business manager for Firpo, announced that the promoter had disappeared with most of the gate receipts.

The crowd was in an uproar and Mayor Shank of Indianapolis climbed through the ropes to restore order. He announced unless the boxers and promoters went on with the fight immediately he would order their arrest.

Drifted in Lake for Three Days

Hungry Duo Picked Up In Disabled Boat By Searchers For Body.

Toronto, Aug. 18.—The crew of a lifeboat on cruising in the lake yesterday in search of the body of young Price, the deckhand who was drowned from the steamer Kingston about two weeks ago, sighted a cabin cruiser some 15 miles southeast of the city.

When they picked the boat up they found two men in it who had been drifting since Tuesday night with a stalled engine.

The boat was the "Say When" of Toronto, and Don Matthews, of Port Hope and John N. Beck, of Toronto, were the two on board. They were in bad shape from hunger.

The boat broke down while they were on their way to Rochester.

Many Jews Emigrate To The United States

London, Aug. 18.—The rush of Palestine Jews to the United States continues, according to the Daily Mail's Jerusalem correspondent. He says that every evening lines of prospective emigrants form outside the American consulate to wait throughout the night in order to obtain visas when the office opens in the morning.

More than three hundred visas were granted between Monday and Friday of this week.

Veal Poisons Three Convicts in Sing Sing

## ROTARIANS AT PLAY; HAD GREAT AFTERNOON AT ONONETTE PICNIC

**Found Necessary to Get Minister as Umpire — Cooks Kept Busy.**

The annual Rotary picnic was held yesterday afternoon. So notable an event, as might be expected, brought out sunshine, showers and a rainbow. The latter appeared opportunistically, just as District Governor Spangler called forward the winners of prizes in the sports. You remember the story about getting your hat under the end of the rainbow and having it filled with gold. We used to believe in that, but now we are very young. The Rotarians athletes no doubt had such vision as they proudly accepted their names. What some of them got had more colors than the rainbow, but that is another story.

There must have been close to seventy Rotarians, including visiting presidents and secretaries, who assembled at two o'clock at Pythian Hall and marched to F. A. Dymek's home, so charitably ministered and cooked for a party of about thirty. The car that contained Rotarian Bob Lennox—you have to call that follows by familiar names or get hurt—Lou LeLacheur, Bob Reid and the Times man, was overloaded with genius, and had to stop and change a tire somewhere on this side of the other side, and the wild raspberries were plentiful and of good flavor in that region. Also the golden rod and wild aster were beginning to flame by the roadside with many another touch of lovely color. And it was to the other fellows who fixed the tire.

At the cottage Rotarian Dymek in finishta welcomed the guests to the side verandah overlooking the river, but the last of battle was strong with them. Lou LeLacheur had two baseballs as big as turkeys, and there was a small field, partly mowed and partly in grass, behind the garage, with a fringe of trees and bushes on two sides.

**Clerical Refused.**

There was much debate about the umpire, but Canon Armstrong was finally selected, being the congregation talk back. That did not, however, prevent certain of the Rotarians from pushing or get held at frequent intervals, and saying vain things to him and lamentations may have been heard at Pancake Hill beyond the river. Several rolls of bills were produced, but the credit the umpire was firm—except when he was otherwise. Consider this line-up of married and single men for the occasion:—

**Married**  
 Ken Haley, c. Jack Manson, Lou LeLacheur, c. Ralph Macbride, Hugh Reynolds, c. George Hamlin, Reg. Schofield, 2b. Jack Flewelling, Ed Jones, s.s. Harry Pile, Frank Lewis, s.s. Harold Haley, Jack Merris, c. D. W. Puddington, Ernie Smith, c. Harry Dyer.

In addition the Married Men, captained by Reg. Schofield, had Russell Holt and Neil Augustine as pinch-hitters, while the Single Men had two LeLacheur (Captain), Walter Leonard and Lloyd Farquhar, Charlie McKee was named umpire, but he was of course good. The pitcher found the plate an error on each occasion. Some of the fellows are going to be sore because they are not featured in this veridical chronicle, but they were playing to the gallery. The gallery was one bench out of a circle of voices in the grass, and some were out for exercise and getting it.

The game proceeded furiously for four innings, when the weather could stand it no longer. The clouds had been frowning more and more ominously every minute, and suddenly

sent down a shower that impelled the game and did for shelter. The score was then eight for the Married Men and five for the Single Men. Jack Manson, who made a home run, and Lou LeLacheur each scored two runs. The others who circled the diamond amid loud clamor were Ken Haley, Reynolds, Lennox, McInerney, Flewelling, Jost, Puddington, Leonard and Farquhar. The last named struck out once, and the things they said about a team who could miss a ball of that size were really distressing.

The weather changed as soon as the game was called. The sun began to struggle out again, and succeeded. Then it rained, and the game was called. It was amusing to note the number of aspiring athletes. The officials had a terrible affair. It was Al. Mastel, starter; Sid Jones, announcer; judges, Charlie McKee and Walter Pierce; clerk of the court, Ken Mitchell.

The running score was fifty yards, and the sand of a yielding nature. For the bachelors Jack Manson took first; Ralph McInerney, second; and Leslie Hale third. Ken MacCrae made a noble start but fell on the second or third attempt. The married men were led by Reg. Schofield, Fred Dyer and Bert Foster lined up for the married men's race it could be seen before they started that this would be a desolate affair. It was Ron McAvity won, with Fred Dymek second and Bert Foster third. The rest got their breath—after a time.

Bob Vandine of Fredericton easily ran away from the rest in the touch of lovely color. And it was to the other fellows who fixed the tire. At the cottage Rotarian Dymek in finishta welcomed the guests to the side verandah overlooking the river, but the last of battle was strong with them. Lou LeLacheur had two baseballs as big as turkeys, and there was a small field, partly mowed and partly in grass, behind the garage, with a fringe of trees and bushes on two sides.

**Local News**

**CHALLENGE ACCEPTED.**  
 The Thistles announce acceptance of a challenge of the Imperials for a game of baseball on Rockwood Park diamond on Monday evening.

**GRAND BAY SPORTS.**  
 The annual field sports of the Grand Bay Outing Association are to be held this afternoon on the club grounds, and those attending are promised a fine afternoon's sport.

**Babe Is King In All Departments**

**Now Leading Majors in Homers, Total Runs and Extra Base Hits.**

Chicago, Aug. 18.—Babe Ruth is now the real king of the having at last established his supremacy over all major league players in all departments of batting statistics. Roger Hornsby leads him by only a few runs in home runs, extra base hits, and is with the select 10 in stolen bases.

Ruth has taken the batting lead from Harry Hellman, of Detroit, with 2945 runs to Hellman's 2899, according to averages including games of last Wednesday, September 16 to December 31, both dates inclusive. In Yarnouth and Shelburne, October 15 to January 31, both dates inclusive. In Nova Scotia, Geese and Brant and Ralls—In P. E. Islands: September 1 to December 31, both dates inclusive. In New Brunswick, except the islands in the Grand Manan group, September 15 to December 31, both dates inclusive. In the islands in the Grand Manan group, October 15 to January 31, both dates inclusive.

## Waters of Courtenay Bay Give Up Dead

**Body of Ervin Appleby, Drowned Tuesday Night, Is Recovered.**

The body of Ervin Appleby, who was drowned on last Tuesday night when he fell overboard from one of the fishing scows of the St. John Dry Dock and Shipbuilding Co., in Courtenay Bay, was recovered this morning about 8:30 and fifty feet from where he is supposed to have fallen into the water.

The company has been carrying on grapping operations since Wednesday morning. It was said at the office of the company that Coroner Porter had been notified and visited the scene of the fatality and after viewing the remains got permission to remove the body to the morgue. The body was recovered from the lumber-land undertaker's parlors and this morning will be taken to Bellisle on one of the company's tugs for burial at his former home, Stewarton.

## Meeting of Civic Power Commission

A meeting of the Civic Power Commission was held this morning, with J. N. Flood presiding. Mayor Fisher brought up the matter of the estimate of cost, \$600,000, and asked for information. Barry Wilson said the estimate was as good as any and could not be improved upon. In some instances they ran a little below, but in others a little above the estimate.

The matter of a minimum rate for light and commercial power was discussed. It was pointed out that when the schedule of rates had been drawn up, this item had been omitted. It was suggested that the rate be 10 cents per 100 watts of installation, with 10 cents for the complete year of 1922. The Mayor thought that by establishing this rate the commission might be upholding the rate of 10 cents a month for lighting and domestic lighting, as adopted in imitation of that prevailing in Ontario. Mr. Fisher was called in and after some discussion it was moved that the minimum rate for commercial lighting be 10 cents a month for 100 watts of installation, with a minimum of 50 cents.

Mayor Fisher moved as an amendment that the subject be deferred for one week, and in the meantime a report and recommendation be prepared. A letter was read from the Municipal Council stating that they would like to see no action in the matter of appointing another contractor for the distribution system. Mayor Fisher moved that an estimate be prepared by August 15, and that the contractor be appointed by August 15.

**NINE REPORTED FOR SPEEDING**

**Placed at Head of King Street.**

This was a field day for speeders at the junction of Charlotte and Union streets, nine having been reported for offences there within the last two days. As a result of complaints a man was placed there to watch the traffic and report offenders. Those reported were William Allen, Roland Johnson, Percy Slattery, Cecil Stocum, Miles Innis, Albert Moore, Fred L. Roderick, Charles Robinson and John Flood. Fines of \$10 were struck against Messrs. Allen, Johnson, Moore, and Flood. The reports were made by Policeman Storey who had been detailed to watch the intersection of the streets.

**Official of Home Bank Dismissed**

**Not Sufficient Funds in Reserve to Cover Losses—Loan Floated.**

Toronto, Aug. 18.—A. E. Calvert, for some years manager of the Toronto branch and for the last few months assistant manager in the absence, through illness, of the late General Manager, Col. J. Cooper Mason, took the first steps which brought about the crisis precipitated in the affairs of the Home Bank yesterday.

When he took hold of the bank's affairs he made a personal and exhaustive examination and it was said last night that as a result of what he found, one official, who had signed the checks sent to the Finance Department at Ottawa on the bank's affairs, had been dismissed. Mr. Calvert, in cooperation with the auditor for the banks, canvassed the bank's loan accounts and found losses which had so accumulated that the auditor, for the re-adjustment of capital or reserve could cope with the losses incurred. Reserve Too Small.

## OTTAWA FIGURES AUGUST TO N. B. ON MORTALITY

**Percentage of Reduction in This Province is Nearly Twenty-five Per Cent.—The Largest Percentage of All.**

Local health authorities point out that in just one month the percentage of reduction in infant mortality for the month of January recently issued from Ottawa by the Dominion Bureau of Statistics and published all over Canada. In that report it prominently set forth that the infant mortality in New Brunswick was the highest in Canada of the eight provinces reported. This is true but the natural inference from such a statement is somewhat misleading and hardly does justice to what has been accomplished in this province in the matter of the reduction of infant mortality since 1920—that is, since the present system of vital statistics collection was instituted here.

In the first place the dispatch referred to covers only one month and nothing is better known in vital statistics than that figures for short periods are fallacious unless based upon very large populations.

This applies to New Brunswick and indeed to all the provinces. For instance for the complete year of 1922, the infant mortality of Ontario was 82.9, while for January last it was 116.0, a percentage of increase of 39.3 for January. New Brunswick's infant mortality for the complete year of 1922 was 102.4, an increase of 37.8 a percentage of increase precisely the same as for Ontario. Yet no one, with any knowledge of these matters would take it that these monthly increases presaged a like increase during the whole year of 1923.

New Brunswick suffers by the promulgation of these figures and the notions likely to be deduced from them when it is recalled that during the past three years the infant mortality in this province has been largely reduced, the figures being for 1920, 138 per 1,000 births; for 1921, 113 per 1,000, and for 1922, 102.4 per 1,000. This is a reduction of nearly 25 per cent, and one which will compare favorably with the reduction in other provinces of Canada during the same period. Indeed, it is quite the largest percentage of reduction known in any of the provinces. It is pointed out, further, that to compare January results in British Columbia, does not do this province justice.

Dr. and Mrs. J. V. Anglin leave today for Campbellton on a motor trip to be gone for a few days. They will visit friends and see the country in all its late summer loveliness. Master Norman Anglin will accompany them.

Mag. Joseph Thompson, of Grand Bay, has been visiting her daughter, Miss Rae Thompson, at Hillsboro, and returned home this week.

Miss Grace Wilmet, who has been spending her vacation in Petticoat with friends, has returned to the city and resumed her duties on the staff of W. H. Hayward Co. Ltd.

## LOCAL NEWS

**CHALLENGE ACCEPTED.**  
 The Thistles announce acceptance of a challenge of the Imperials for a game of baseball on Rockwood Park diamond on Monday evening.

**GRAND BAY SPORTS.**  
 The annual field sports of the Grand Bay Outing Association are to be held this afternoon on the club grounds, and those attending are promised a fine afternoon's sport.

**Babe Is King In All Departments**

**Now Leading Majors in Homers, Total Runs and Extra Base Hits.**

Chicago, Aug. 18.—Babe Ruth is now the real king of the having at last established his supremacy over all major league players in all departments of batting statistics. Roger Hornsby leads him by only a few runs in home runs, extra base hits, and is with the select 10 in stolen bases.

Ruth has taken the batting lead from Harry Hellman, of Detroit, with 2945 runs to Hellman's 2899, according to averages including games of last Wednesday, September 16 to December 31, both dates inclusive. In Yarnouth and Shelburne, October 15 to January 31, both dates inclusive. In Nova Scotia, Geese and Brant and Ralls—In P. E. Islands: September 1 to December 31, both dates inclusive. In New Brunswick, except the islands in the Grand Manan group, September 15 to December 31, both dates inclusive. In the islands in the Grand Manan group, October 15 to January 31, both dates inclusive.

**Meeting of Civic Power Commission**

A meeting of the Civic Power Commission was held this morning, with J. N. Flood presiding. Mayor Fisher brought up the matter of the estimate of cost, \$600,000, and asked for information. Barry Wilson said the estimate was as good as any and could not be improved upon. In some instances they ran a little below, but in others a little above the estimate.

The matter of a minimum rate for light and commercial power was discussed. It was pointed out that when the schedule of rates had been drawn up, this item had been omitted. It was suggested that the rate be 10 cents per 100 watts of installation, with 10 cents for the complete year of 1922. The Mayor thought that by establishing this rate the commission might be upholding the rate of 10 cents a month for lighting and domestic lighting, as adopted in imitation of that prevailing in Ontario. Mr. Fisher was called in and after some discussion it was moved that the minimum rate for commercial lighting be 10 cents a month for 100 watts of installation, with a minimum of 50 cents.

**NINE REPORTED FOR SPEEDING**

**Placed at Head of King Street.**

This was a field day for speeders at the junction of Charlotte and Union streets, nine having been reported for offences there within the last two days. As a result of complaints a man was placed there to watch the traffic and report offenders. Those reported were William Allen, Roland Johnson, Percy Slattery, Cecil Stocum, Miles Innis, Albert Moore, Fred L. Roderick, Charles Robinson and John Flood. Fines of \$10 were struck against Messrs. Allen, Johnson, Moore, and Flood. The reports were made by Policeman Storey who had been detailed to watch the intersection of the streets.

**Official of Home Bank Dismissed**

**Not Sufficient Funds in Reserve to Cover Losses—Loan Floated.**

Toronto, Aug. 18.—A. E. Calvert, for some years manager of the Toronto branch and for the last few months assistant manager in the absence, through illness, of the late General Manager, Col. J. Cooper Mason, took the first steps which brought about the crisis precipitated in the affairs of the Home Bank yesterday.

When he took hold of the bank's affairs he made a personal and exhaustive examination and it was said last night that as a result of what he found, one official, who had signed the checks sent to the Finance Department at Ottawa on the bank's affairs, had been dismissed. Mr. Calvert, in cooperation with the auditor for the banks, canvassed the bank's loan accounts and found losses which had so accumulated that the auditor, for the re-adjustment of capital or reserve could cope with the losses incurred. Reserve Too Small.

## COAL PEOPLE TO CONFER AGAIN

**Union Officials and Operators Agree to Meet Week of U. S. Commission.**

New York, Aug. 18.—At the direct demand of the U. S. coal commission, miners' union officials and representatives of mine operators in the anthracite region yesterday agreed to go back into joint conference to seek terms for a new wage contract that may become effective Sept. 1.

The whole complicated fabric of the controversy which has separated the mine operators and the spokesmen for their employes was temporarily set aside by the decision.

Coal commission members held themselves free from expressing any optimism as to the prospects of compelling the anthracite mines running after Sept. 1. John Hays Hammond, its chairman and his associates, it was said, would return to Washington and reveal the results achieved.

**PRISONER PRIESTS ESCAPE BANDITS**

**Disguised Themselves in Chinese Clothing—100 Orientals Are Held.**

Hankow, Aug. 18.—The Rev. Michael McHugh and the Rev. David Ward, Catholic priests, who were kidnapped Thursday at Tsaoohi by Chinese bandits, who looted the town, have escaped, according to a dispatch received here early today.

It was said that the priests disguised themselves in Chinese clothes and eluded their captors.

Late dispatches from Tsaoohi state that the bandits burned the London Mission Hospital and its adjoining buildings instead of the Catholic hospital.

With the escape of the two priests, it is now believed the bandits have no other captives, although they are holding more than 100 Chinese prisoners.

Cause and Effect.

Ancient Mariner—"Once I was shipwrecked on an island where there were only men and women with tongues." Seaside Visitor—"Wonderful! And couldn't they speak?" Ancient Mariner—"No, that's what made them dead"—Reynold's Newspaper (London).

## NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50 CENTS

## IN MEMORIAM

**KIRKPATRICK**—In loving memory of my dear father, George Kirkpatrick, who died on August 18, 1922. Today brings back sad memories. DAUGHTER, MRS. FRID CAMPBELL, AND FAMILY.

## Halifax Man Wins The Gowksi Cup

Connaught Range, Ont., Aug. 18.—The hardest competition of the Dominion Rifle Association met for the Gowksi Cup, was staged yesterday when Major S. G. Bacon, of Halifax, with a total score of points to the number of 46, won the cup. The competitors, dressed in full military equipment, fired three shots, two lying prone on the ground, two kneeling and two standing up. In between shots they have to run a distance of 100 yards, starting from 600 yards and ending at 100.

## CAUSE TO CURE

CHIROPRACTIC is based on fundamental natural laws of the organs of the body are the motors, the nerves are energy lines which carry vital energy or life to all parts of the body. Impingement or pinching of the nerves interferes with their life-carrying power and disease is the result. The Chiropactor adjusts with his hands the misaligned vertebrae and the impinged nerves are freed. The flow of life enters the part diseased, normal functions are resumed and health restored. The Chiropactor way is Nature's way.

THE CHRISTIE WOOD WORKING CO. LTD. 65 ERIN STREET

COTTON MILLS FACE HARD TIMES

Oldham, Lancashire, Aug. 1.—A. P. By Mail).—The British cotton trade is dull, and shareholders in Lancashire spinning mills are having hard days.

Time was when these fortunate holders received dividends of from 20 to 80 per cent. with reasonable regularity, but today a list of 74 mills shows these concerns facing losses, on capital and profit and loss accounts, of \$60,000,000.

To offset this situation an effort is being made to develop cotton growing within the empire.

About 85 boys of the Wiggins Oshplan Asylum were entertained at a picnic on Thursday, at Land's End, the guests of Mrs. Skinner and Miss White. The boys traveled by motor boat. Meals were served on the grounds, and the afternoon was spent in games, races and swimming.

The Healthiest Baby in the District

CAN you make that proud boast about your baby? Is he thriving as he should? Read this letter from an Ontario woman. It will give you some idea of what "ALLENBURYS" Foods are doing, not only for this baby but for hundreds all over Canada.

"I have a seven months old baby. The doctor told me at first that my baby could not possibly live as it had no constitution. However, the nurse (an Englishwoman) advised me to try 'Allenbury's' Food. I got a tin of your No. 1 Food and today I can say without hesitating, that you cannot find a healthier child in the district. I hope I am not trespassing on your time, but I wanted to let you know what 'Allenbury's' Food has done for my baby."

The 'Allenburys' Foods for Infants

Sold by all druggists. A sample of these foods, and our valuable book on "Infant Feeding and Management," will be sent on receipt of this coupon.

To Allen & Hanburys Company, Limited, - TORONTO. Please send sample of "Allenbury's" Food and book on Infant Management.

FORWARD NEW BRUNSWICK

The opening of the new paper mill at Bathurst marks a most important industrial advance for New Brunswick, and is a welcome proof of what our own resources can do for us when they are properly utilized by men of faith and enterprise.

Perhaps one fault of many of our people in the Maritime Provinces is a tendency to recognize far off opportunities, inviting chances at assessing at the proper value the opportunities which we have here at home.

THE PERIL IN THE STREETS

Spread across half a page in a recent issue of the Chicago Tribune are forty-eight portraits. Many of them are pictures of little children, but all eyes are attracted to the portraits of the children who have been killed during the past year.

Actually the number of deaths from motor car accidents in and near the County during the seven months was in excess of 400. Since 1913 the fatalities have been steadily increasing.

In Detroit where a judge some months ago took a party of convicted speeders to the hospitals and compelled them to inspect patients who were the victims of traffic accidents, other measures have been tried of late.

WHAT GERMANY CAN PAY

The two chief obstacles to a settlement in Europe are French pride and German lack of self-respect, according to the Wall Street Journal, which says: "A settlement may be nearer than the world supposes and will certainly come when it is really desired."

ROMAN ALTAR FOUND IN ENGLAND

London, Aug. 1.—(A. P. By Mail.)—Used for years as a jumping block in children's games, a large white Roman altar, 2,000 years old, has been found in the garden of a house in the village of St. Albans.

OUT-DOORS

My house is carpeted with grass—For roof it has the sky, Green walls and overhanging eaves Tree branches are, screened thick with leaves, To shelter where I lie.

IN LIGHTER VEIN

An Old Billiard Drinker. One of those little migratory stories that pop up now and then concerning a youth who has been in the country over the holidays.

FRENCH PROGRESS

Financial experts are impressed in their efforts to bring about economic restoration. The foreign trade showing of that nation in 1922 is regarded as primarily attributable to the willingness of the French people to devote themselves to production work in a manner hardly approached anywhere else in the world outside of Great Britain.

The commercial activity of France is due in large measure to the industrial expansion in the liberated districts which are gradually resuming their place in the country as reconstruction progresses.

FAMILY HOTEL SUGGESTED FOR USES IN HOLIDAY

Plan is Urged to Afford a Real Vacation for Mothers. "The mother of a young family the yearly migration to sea or country is anything but uneventful and pleasant."

IS COFFEE SEED OR BEAN? DEALERS DISPUTE BOTANIST

Scientists' Contentions Backed Up By Webster and Encyclopedia Britannica. Of course, it's a seed, say botanists. It's a bean, say dealers and wholesalers.

WHY EMIGRANTS LEAVE HOME

Pittsburgh, Aug. 18.—(By A. P.)—Immigrants into the Pittsburgh district are astonished at the prosperity of the country, and express their desire to meet their weekly income bids far to meet their expenditures.

MR. DOOLEY AT A SUMMER RESORT

By FINLEY PETER DUNNE

"I see by th' pa-spers," said Mr. Hennessy, "that ivybody is out iv town, th' only vedy lady i cud see was wan iv about me own age an' figure who was settin' in a rockin' chair rockin'."

got married an' went to Sheboygan to live. On th' spacyous veranda, or front stoop, th' only vedy lady i cud see was wan iv about me own age an' figure who was settin' in a rockin' chair rockin'."

"I want to go to th' Wild Waves Hotel," says L. "This way," says Mike, "isn't it th' arm?"

"None iv th' was in th' class with me little frind. She was on th' thrack at o'clock, an' with th' exclamation iv a few minyits out fr' refreshments th' river passed th' lights were doused, I figured out that she had done about a hundred miles a day."

"I want to see a pitcher iv this hotel," says L. "Here, Mike," says van iv th' charioters, "here's another fellow iv th' fallin' fr' ye dump!"

Arriving at the Stately Palace. "We passed th' heart iv th' city," I've often heard iv th' heart iv a city an' wondered why it was so called.

Secretary of Treasury Mellon knows his business. He has gone to Europe, where our treasure lies.—Seattle Star.

view this commonplace landscape to conceive "what it was like then." Well, coming to Ypres has not helped them. The spick-and-span village of Passchendaele, snug Zillebeke, the miles of thriving country dotted with countless red roofs, to be seen from Hill 60, the gray chateau at Hooge, Ypres itself with few more ruins in most of the streets than in Regent street—these are a new world; and I am told there is much appreciation here of the modern household conveniences now installed by Ypresians who might have had to live in mediæval houses all their lives.

AND THE CHILDREN STARVED. (New York Tribune). Here is a current drama in New Jersey. A man who for some years had failed to support his family was sent to jail for some offense. His wife, with a three-month-old baby and three other small children, was unable to get steady work and the family drifted into starvation.

ANOTHER LOOK AT YPRES. (Richard Capell in London Daily Mail). Ypres—My first was towards the end of October, 1916; and thereafter, for eleven months, here and thereabouts, wherever it was, was mine of looking my fill.

This is a dubious privilege here today, the privilege of a ghost allowed to revisit his lifeline's scene. Paradoxically lingers at least would have been passed since 1917, and I painfully recognize but the barest contours of the land, and only in a few neglected corners preserve relics of yore.

Amid the marvellous, patient work of these Flemings, at their trading, men of cleaning up their land after other people's wars, there are to be seen in the memory of us ghost-like wanderers! The station there on the Roulers railway is called Kruisstraat-somping. Peace has been busy as war.

These Prices Can't Last For Ever! Fact, we're just about through. Only a few days left during which you will be able to get some of these good shoes at our special Sale Prices, so you better get busy.

ENGLAND SPENT £29,000,000 IN OCCUPATION OF TURKEY. London, Aug. 1.—(A. P. by mail.)—It has cost England £29,155,000 sterling for the occupation of Constantinople and the adjacent area since the Armistice in 1918, Premier Baldwin told the House of Commons recently.

**RECENT WEDDINGS**

**McFadden-Gregan.**  
Mr. and Mrs. William M. Pearson, 301 Princess street, have received word of the marriage of their nephew, James P. McFadden, in Greenville, Maine, on Wednesday, August 15. The bride was Miss Dorothy Kerr Gregan, daughter of Mr. and Mrs. James Gregan, and the groom is a son of Mr. and Mrs. James W. McFadden. The bride, who lately has been living in Greenville, formerly resided in Harcourt and is a very popular young lady. The groom was formerly of this city and now is with the Great Northern Lumber Company at Greenville. He is a returned soldier who enlisted with the 115th Battalion. While in the service of his country he was slightly wounded. On his return from overseas he located in Greenville. St. John friends will unite in extending best wishes for much happiness to Mr. and Mrs. McFadden.

**Kirkpatrick-Boyle.**  
A wedding took place at 9 o'clock on Wednesday afternoon, August 15, when Rev. C. W. Follett, united in marriage Miss Mary Jane Boyle, daughter of Mr. and Mrs. W. T. Boyle, of Upper Golden Grove and James Herbert Kirkpatrick of this city. The bride, who was given away by her father, was charmingly dressed in a suit of sand triotone, with white ermine tie and hat to match, and wore a corsage bouquet of roses and sweet peas. After the ceremony a luncheon

was served at the summer home of Mr. and Mrs. G. A. Stephenson, Loch Lomond, at which friends were present. Mr. and Mrs. Kirkpatrick left on an automobile trip through the province. They will reside at 112 Robesay Avenue. Many useful and costly gifts were received.

**Wallace-Warwick.**  
A quiet wedding was solemnized in St. Mary's church at 9 o'clock last evening, when the rector, Rev. R. Taylor McKim, united in marriage Miss Beatrice Hope Warwick, daughter of Mr. and Mrs. John Warwick, of 148 Victoria street, and Charles Percy Wallace, of this city. The sister of the groom, Miss Carrie G. Wallace attended the bride and the groomsmen were the bride's brothers, William A. Warwick, a barber in the city and both the bride and groom have many friends who unite to wish them all happiness. They will reside in St. John.

Fine Furniture.

**"The Way Sagless Spring"**

Sold in St. John by M. R. A. Ltd. Exclusively

The "Way Sagless Spring" is undoubtedly the most comfortable bedspring made.

It conforms itself to the shape of the body and prevents waking up in the morning with aching shoulders and back. It adjusts itself automatically to every movement you make and gives equal support to every part of the body. This permits you to relax every muscle and relieves your nerves from tension. The result is sound, natural, refreshing sleep—and restful sleep means better health.

A night of luxurious sleep on a "Way Sagless Spring" will fit you for the work of the following day. No other bedspring so fully meets every condition of perfect rest.

Make a visit to our furniture store and let us explain more fully.

(Furniture store, Market square.)

**Manchester Robertson Allison, Ltd.**

Cross, Mrs. Sydney Munroe, and Miss Teresa A. Tatton. The funeral took place on Wednesday afternoon, service being conducted by Rev. Mr. Beckett, pastor of the United Baptist church, of which the deceased was a member. The pallbearers were James Dickson, Nelson Wright, Charles Embury Paul, Floral tributes were: Pillow from brothers and sisters, wreath from Mr. and Mrs. David Johnson and Mr. and Mrs. W. J. Campbell, cut flowers, Miss Amanda Eldridge, and spray of roses from Mrs. R. J. Barry.

William J. Wilson, of Steeves' Mount, passed away at the Moncton Hospital this morning after a short illness. She was taken suddenly ill on Thursday and underwent an operation from which she failed to rally. She is survived by her husband and five children.

**Household Recipes**

**Blackberry Dumplings.**  
Heat to the boiling point 1 quart of ripe blackberries and sweeten to taste. Sift two cupsful of flour with 1 teaspoonful of baking powder into a basin and 2 tablespoonfuls of sugar and a pinch of salt, rub in 2 tablespoonfuls of butter, then add enough milk to make a stiff batter. Drop by spoonfuls into the hot fruit and cook slowly uncovered until done. Serve with milk or cream.

**Peach Sauce.**  
Dilute 1-2 tablespoonful of cornstarch with 1 tablespoonful of cold water. Add to syrup remaining in saucepan, bring to the boiling point and heat 2 minutes; then pour slowly, while stirring constantly, over the yolks of 2 eggs beaten until thick and lemon colored. Add 3 teaspoonfuls of lemon juice and a few grains of salt.

**Cantaloupe Bavarian Cream.**  
Cover 1-2 box of gelatin with 1-2 cup of cold water, and let stand for 1-2 hour; dissolve over hot water. Whip 1 pint of cream to a stiff froth, turn into basin add 1-2 cup of pulverized sugar, a pinch of salt, a teaspoon vanilla, 1 tablespoon sherry and the gelatin. Stir from the bottom toward the top until it begins to foam a little, add 1-4 cup chopped candied fruit and continue stirring until the cream forms. Turn into a mold previously wet with cold water and stand away to harden. Serve with lady fingers.

**Blackberry Charlotte.**  
Make a boiled custard with one quart of milk, yolk of six eggs and three quarters of a cupful of sugar; flavor to taste. Line a large glass dish with slices of sponge cake dipped in sweet cream, then a layer of blackberries well sweetened, then another layer of cake and berries as before. When the custard is cold pour it over the whole, then beat the whites of the eggs to a stiff froth, add one-half cupful of sugar and flavor to taste. Heap up on the top and decorate with large berries.

**Snow Pudding.**  
One pint of boiling water, 2 tablespoon of cornstarch, 1-2 cup of sugar. Mix sugar and cornstarch together, wet with 2 tablespoonfuls of cold water and stir into boiling water. Cook 10 minutes. Take off fire, add 1 teaspoon lemon extract. Pour into very shallow tin and set on ice until it slightly jells or thickens. Beat to a stiff froth the whites of 2 eggs and a pinch of salt, then beat the above mixture until light and frothy. Put on ice until ready to serve.

**Custards.** Beat the yolks of 2 eggs, 2 leaping tablespoonfuls of sugar and 2 teaspoon of cornstarch. Scald pint of milk and line into the bowl, etc. Heat until thickens, stirring all the time. Add vanilla and pinch of salt, and let cool.

**Graham Fruit Pudding.**  
Mix together 2 cups graham flour, 1 cup milk, 1 cup molasses, 1 teaspoon salt and 1 teaspoon dissolved soda, stir

**Fur Fashions that Reach New Heights**

SAYING it in a few words, it is going to be an extraordinary Fur Season, with the most beguiling collar, sleeve and lining effects ever thought of. And, while all Coats are six to eight inches longer, they cost no more.

Forty-two to forty-five inches is what you think of for your coat length now. Straight lines prevail and with that generosity of skirt hem that keeps the coat from opening when you take a chair. The bloused back and buttoning over to the left influence some models.

The collars are a picture. The Paris puff collar is a new one. Gathered above a hand it rises round the neck into quite a ruffle. But you have a real ruffle in the Queen Elizabeth collar, a sort of shawl that gathers into a round roll like they wore in Shakespeare's time. Next come the square collar and variations of the crush cape.

Sleeves are wide and open out. There's wide armhole one, the Kimono, the set-in with flared cuff and perhaps a bell. Always ease and comfort along with newness. Cuffs have their turn at novelty. One may be shirred half way to create opposite flares, another may be attached above the regular sleeve end. Sounds interesting, doesn't it?

**The Linings Alone—Marvelous**

And now to linings. Expect a whole lot! A positive new note in figuring—not so much of multi-colored blossoms, but single and two-tone effects, self-stripings. And then—brilliant hand dyed heavy Silk Crepes. Richest Sky designs in sunset tints contrived by tying every few inches and dying by hand. Tourists rave about them and say only one American Furrier has managed to have anything like them. Ask to see the Zinzari Crepes. Then have an eye to the Egyptians.

Capes are with us in regal array, so are exotic fastenings. And the Furs are marvels of lustre and texture. Many stripings and reverse peltings, seven skin borders, new ideas in drop skin work, and three new Furs. Zealand Seal, Zealand beaver and Brazilian Mink. The Zealands are soft and gleaming and have stood rigid tests—beauties that cost only \$135 to \$185. The Brazilian Mink is just a shade darker than our Mink, but a very close cousin in everything but price. Much lower.

Come to the new Pageant of the Furs.

**Manchester Robertson Allison Limited**  
KING STREET GERMAIN STREET MARKET SQUARE

**THE LAURENTICS GOLD.**

(Toronto Globe.)  
Digging for pirates' hidden gold has been surpassed by the British Government's efforts to salvage the Canadian steamer Laurentic, which was sunk by a German mine or torpedo on January 28, 1917, off the coast of Ireland in twenty fathoms of water. She carried a heavy shipment of gold from London for New York which was estimated at \$20,000,000, although the total was never officially declared.

The British Admiralty and Treasury almost immediately after the loss of the Laurentic sent a joint expedition to the scene of the wreck. This first expedition, as well as several others undertaken in war times, suffered from submarine boat attacks, and the supposition was that the Germans were attempting to recover the lost treasure.

The report that they had succeeded, however, was disproved by divers who examined the wreck in 1919. After the armistice the Admiralty and Treasury renewed their joint effort and employed for the purpose the steamship Racer, a new type of salvage vessel.

In the House of Commons Sir William Joyce-Hicks, Financial Secretary of the Treasury, recently reported that gold bullion to the amount of \$2,817,285 (about \$10,000,000) had been recovered from the wreck. It is probable that this will end the operations, because the remains of the steamer are sinking rapidly beneath an accumulation of sand.

**MORNING NEWS OVER THE WIRES**

The opinion is officially expressed in Quebec that the census of the New England States has completely stopped and many who left the province are returning.

Owing to representations being made by the State Department of the United States to the Canadian Government, the gunboat Gopher, libeled recently by the owners of the Soulanges Canal for \$5,000, alleged amount of damage done to a lock, has been released and allowed to proceed to Montreal.

**ACCIDENT VICTIM DEAD.**  
William Lawlor, aged 25, of Fredericton, accountant in the Parrsboro branch of the Canadian Bank of Commerce, died in the Amherst Hospital last evening, following injuries received when an automobile in which he was driving with F. W. Wetmore of Port Greenville went over a steep incline at Partridge Island. He was thrown from the car and his spine was fractured. The accident occurred in a thick fog.

Last Dalton Boy Sheds Bullets of His Bandit Days

Once Noted Robber Goes to Sanitarium For Relief— Issues Warning.

Emmett Dalton, the last of the Dalton boys, train robbers, who terrorized the Southwest years ago, has gone to a Battle Creek, Mich., sanitarium to complete his recuperation by having surgeons remove from his body the bullets he has been carrying as souvenirs of his last stand against law and order in 1892, writes "The Detroit News."

Already the surgeons have located

Ask for BRITISH NAVY None genuine without this tag BRITISH NAVY CHEWING TOBACCO

Now 2 plugs for 25¢

and removed two rifle bullets of large caliber which had been imbedded in his right arm since the memorable attempted hold-up of the First National Bank in Coffeyville, Kan., in which Dalton was wounded and captured and his brothers and other confederates killed.

How many bullets Dalton has carried about with him for thirty years he says he does not know. He suffered at least a dozen wounds in the pitched battle with the townspeople that followed the Coffeyville raid, but some of these were taken out before his trial and others in his fourteen years of imprisonment. Occasionally there is an ache or a pain in an arm or a leg to remind him that some bullets were overlooked.

Nurses at the sanitarium say they cannot imagine the gray-haired Dalton, now fifty-two years old, soft of speech, with mild eyes and kindly smile, as a member of a band of desperadoes of whom the entire Southwest stood in fear for three years and for whom rewards of \$540,000 were at one time outstanding.

"Why, he looks more like a lawyer or a banker," observed one nurse.

While reticent about his life as a bandit, Dalton will talk at length on the futility of attempting to grow rich by crime.

"When once a man has stepped over the indistinct line that divided right from wrong," he says, "there is no come-back. From that time on his life is not that of a man but of a hunted animal. And such an end generally does come to him, as it did to us at Coffeyville, suddenly and violently."

"The Dalton Boys" were the most notorious and reckless outlaws in the Southwest since the James boys. Emmett's two brothers had been Deputy United States Marshals. Finding the law's service unprofitable they turned the other way round and became the most feared and the most daring bandits of their time.

Emmett's brothers were Bob and Grafton. The other members of their little band were Texas Jack and Ollie Ogee. Their end came when they attempted a daylight hold-up of the Coffeyville Bank, which had just received a large shipment of gold. They had sworn never to be taken alive. Bob and Grafton and Texas Jack and Ollie were killed and Emmett was desperately wounded.

After his recovery Emmett was convicted and sentenced to life imprisonment. He served fourteen years when the Governor of Kansas, convinced that the last of the Daltons was sincere in his apparent reformation, pardoned him. Since his release he has preached in many parts of the country on the futility of crime.

A despatch from Ottawa announced that among the successful candidates for admission to the Royal Military College at Kingston announced by the Department of National Defence, are D.A.M. MacLaren, J.M. Robinson and J.L. Sparling. Mr. Robinson is a son of J.M. Robinson, of Robesay, and a graduate of Robesay Collegiate School. Mr. MacLaren is a son of Colonel Murray MacLaren, M.P., and Mr. Sparling of Lieutenant Colonel H.C. Sparling, D.S.O. They will leave

THE EVENING TIMES-STAR, ST. JOHN, N. B., SATURDAY, AUGUST 18, 1923

Fifty Years In Ministry

Sackville, N. B., Aug. 17.—On St. Bartholomew's Day, Aug. 24, one of Sackville's most venerable and beloved clergymen, Rev. Dr. C. F. Wiggins, rector of St. Paul's and St. Ann's (Anglican) churches, will have completed fifty years in the work of the ministry; and, despite the fact that he is on the verge of the octogenarian class, his voice still rings with the old-time fire of eloquence and earnestness both in the pulpit and on the public platform. It is but fitting that mention should be made of the invaluable assistance rendered the general doctor in his work here for the last forty-three years by his devoted, kindly and energetic helpmate, Mrs. Wiggins. This faithful priest's services to the church will be fittingly celebrated on Friday next, Aug. 24, when a special jubilee service will be held in St. Paul's church in commemoration of the fiftieth anniversary of the ordination of the Rev. Dr. Wiggins, who has been rector at Sackville for the last forty-three years. A banquet will be held in the Parish Hall at 2 p. m. preceding a service in the church at 4 p. m.

Sketch of Dr. Wiggins. The following is a brief sketch of a man of God, who has fought a good fight—and is still in active service. It will be of interest to note that the Rev. Cecil Frederick Wiggins, M. A., D. C. L., was born on St. Bartholomew's Day, Aug. 24, 1844, at St. Eleanor's, P. E. I., being a son of the late Rev. Dr. Wiggins and his wife, Helen Townsend, of Charlottetown, P. E. I. He was educated at King's College, Windsor, N. S., being graduated in 1868 B. A., and 1870, M. A. About seven years ago he received the degree of D. C. L. Upon graduating, Dr. Wiggins took the post of classical master at the Collegiate Institute, and subsequently was later tutor at the Bishop Lewis College, of Pictou, Ont. In 1872 he gave up teaching to complete his studies for ordination, under the Rev. J. D. Forsythe, rector of St. Eleanor's, P. E. I., and was ordained on St. Bartholomew's Day, 1873, by Bishop

REV. DR. WIGGINS

Binney in Halifax. For the next seven years the Rev. Dr. Wiggins was curate for the Rev. Dr. White at Shelburne, N. S., and in 1880 was appointed to the rectory of Sackville, N. B., which he still holds. He was also dean of Shelburne for two years. While in Shelburne the Rev. Dr. Wiggins met his fiancée, Miss Katherine Freeman, whom he married in 1880, when he came to Sackville. There were six children of the marriage, three sons and three daughters—Selwyn (deceased), John Keeble (at home); Reginald (student at McGill University); Nora, wife of Fred A. Fisher, manager of the Enterprise Foundry Co., Ltd., Sackville, N. B.; Helen, Mrs. Ernest Metville (deceased); Gretchen (died in infancy).

NOTED WRITER IS VISITING CITY

Mrs. Ewan Macdonald is Guest of Doctor and Mrs. Mahoney. Mrs. Ewan Macdonald, who is en route for her home in Quebec province, arrived from her former home in Prince Edward Island last evening on the seven train and was met by her hostess, Mrs. D. P. Mahoney. After dinner, Mrs. Macdonald and Mrs. Mahoney went to the residence of Mrs. W. Edmund Haymond, where a reception, which was delightfully informal, was held, the members of the Women's Canadian Club executive being asked to meet Mrs. Macdonald.

NUXATED IRON Helps make rich red blood and revitalizes weak nerves. A CAUSE OF WOMEN'S ILLS

Women Often Think They Have Heart Trouble, Indigestion, Nervous Prostration, Etc., When It's Simply Iron Starvation of the Blood. Many women believe they are weak and nervous as a result of age, worry and overwork; they think that their disturbed digestion, headaches, heart palpitation, shortness of breath, pains across the back, etc., are due to some serious disease instead of the real cause—iron starvation of the blood. This is proven by the fact that when many of these same women take organic iron for awhile all their alarming symptoms quickly disappear and they become strong, robust and healthy. Iron is absolutely necessary to enable your blood to change from ironless cells and tissue. Without it nothing you eat does you the proper amount of good—you do not get the strength out of it. If you are not strong and well do not wait until you go all to pieces and collapse in a state of nervous prostration, but take some organic iron—Nuxated Iron—once. But be sure it's organic iron and not metallic iron which people usually take and which is made merely by the action of strong acids on small pieces of iron. Organic Nuxated Iron is like the iron in your blood and like the iron in spinach, lentils and apples, and it often increases the bodily and mental vigor of weak, worn-out women in two weeks' time. Beware of substitutes. Look for the word "Nuxated" on every package and the letters "N. I." on every tablet. Your money will be refunded by the manufacturers if you do not obtain perfectly satisfactory results. At all druggists.

Experts Commend Liquid Oxygen For Cheaper Blasting

Is Extensively Used in Mexican, German and French Mines. Washington, Aug. 10.—(By Mail.)—The use of liquid oxygen as an explosive and cheap explosive in salt, metal and other non-gaseous mines and in quarry and other work recommended by the United States Bureau of Mines after a series of tests. Preliminary experiments in this new explosive, conducted at the bureau's experimental station at Pittsburgh, indicate that it may be used to advantage in shafts, drifts and galleries not present, but is especially useful elsewhere in lessening the cost of blasting.

Will Take Off All Excess Fat

Do you know that there is a simple, harmless, effective remedy for overweight that may be used safely and secretly by any man woman who is losing weight? There is, and it is none other than the tablet form of the now famous Marmola Prescription Tablets. You can well expect to reduce steadily and easily without going through long stages of tireless exercise and starvation diet. Marmola Prescription Tablets are sold by all druggists and cost over one dollar for a case, or you can secure them direct from the Marmola Co., 4612 Woodward Avenue, Detroit, Mich., on receipt of price.

SENDS CRAWFORD TO HIGHER COURT

Magistrate Henderson Commits Him for Trial in Auto Case. Thomas Crawford was sent up for trial, on a charge of manslaughter, by Police Magistrate Henderson yesterday afternoon. The charge arose out of the death of Owen McCann, who was struck by an automobile driven by Crawford, on the night of July 28th, Prince Edward street. E. J. Hennebry appeared for the defence and Detective Biddicombe conducted the trial for the crown. The evidence of Dr. Chestnut, of the G. P. H., Detective Saunders and plainclothesman Kilpatrick, was taken yesterday. In answer to the court, Crawford said that he had nothing to say. Magistrate Henderson said that under ordinary circumstances he would have treated the case as an accident, as defendant was driving on the right side of the road, had sounded his horn and had not been exceeding the speed limit, and apparently had taken all precautions, but when the evidence was brought out that the defendant was under the influence of liquor he had caused an unlawful accident, and this brought about the charge of manslaughter. While His Honor found the evidence strong enough to commit the defendant to trial at the next sitting of the Circuit Court, he did not find it strong enough to prevent him from accepting bail. Crawford was then sent up for trial, but allowed out on \$2,000 bail, \$1,000 in himself, and two others of \$500 each.

CHOLERA INFANTUM A FATAL DISEASE OF CHILDREN

Cholera Infantum or summer complaint of children is one of the most dangerous bowel complaints during the summer months. It begins with profuse diarrhoea, the stomach becomes irritated, very often accompanied by vomiting and purging and the matter excreted from the stomach has a bilious appearance. The child rapidly loses flesh, is soon reduced to languor and prostration, and in a great many cases death ensues. Mothers, if any of your children become sick with cholera infantum do not endanger their health, perhaps their life, by experimenting with some new and untried remedy; get one that has stood the test of time; one that will quickly offset the vomiting, purging and the diarrhoea. This you will find in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 78 years. In answer to the court, Crawford said that he had nothing to say. Magistrate Henderson said that under ordinary circumstances he would have treated the case as an accident, as defendant was driving on the right side of the road, had sounded his horn and had not been exceeding the speed limit, and apparently had taken all precautions, but when the evidence was brought out that the defendant was under the influence of liquor he had caused an unlawful accident, and this brought about the charge of manslaughter. While His Honor found the evidence strong enough to commit the defendant to trial at the next sitting of the Circuit Court, he did not find it strong enough to prevent him from accepting bail. Crawford was then sent up for trial, but allowed out on \$2,000 bail, \$1,000 in himself, and two others of \$500 each.

SAY SLING NOT LOADED RIGHT

Jury So Finds in Inquest Into F. A. Doherty's Death. An inquest into the death of Frederick A. Doherty, a longshoreman, was continued in the court house, Main street, last night before Coroner H. A. Porter. Several witnesses were heard, and the jury, after a deliberation of 35 minutes, returned a verdict to the effect that Frederick A. Doherty died in the General Public Hospital on Wednesday, August 15, 1923, as the result of injuries received when struck by a sling of sugar in the Atlantic Refinery premises on July 17, that the sling was not properly loaded, and the jury recommends that a safe equipment be used. The jury was composed of Dennis Burke, (foreman), Manford Day, Frederick Scott, W. E. Gale, Christopher Dennison, Charles Nixon, Walter J. Eagles. Arthur Anglin was present at the hearing in the interests of the Atlantic Sugar Refineries. William L. Fisher, Chester Norris, James Mills, Dr. Walter Chestnut, of the General Public Hospital staff, Harry McAndrews and John Kindred, gave evidence.

EGZEMA

You are not experimenting if you use Dr. Minard's Ointment. It relieves at once and gradually heals the skin. Sample box Dr. Minard's Ointment free if you mention this paper and send 2c. stamp for postage. See it all dealers or Schumann, Sales & Co., Limited, Toronto.

POULTRY MEN ELECT OFFICERS

W. E. B. Talt, Dorchester, was elected president; Leslie Wood, provincial poultry superintendent, Fredericton, secretary-treasurer; and A. T. Reid, Rolling Dairy, Charlotte County; James W. Stickers, and Mrs. George Danley, Devon, directors, at the annual meeting of the New Brunswick Poultry Producers Association, held in Fredericton yesterday. Several addresses were delivered. Professor C. E. Ford, of Ottawa, in showing the advantage of egg-grading, said that the annual loss to Canada in stale eggs amounted to \$2,000,000. He is in favor of ungraded poultry for the market.

MINARD'S "KING OF PAIN" LINIMENT

MINARD'S "KING OF PAIN" LINIMENT. PAIN-RELEASER. It cures all pains, aches, rheumatism, neuralgia, toothache, headache, earache, lumbago, neuritis, rheumatoid arthritis, sprains, strains, and all other forms of acute and chronic pain. Price 25c per bottle. Sample box free if you mention this paper and send 2c. stamp for postage. See it all dealers or Schumann, Sales & Co., Limited, Toronto.

GLASSING SUN, DUST AND HEAT STRAIN AND WEAKEN EYES SAYS DR. LEWIS

Tells How to Strengthen Eyesight 50 Per Cent in a Week's Time in Many Instances. Philadelphia, Pa.—Dr. Lewis, an eye specialist of many years' practice, says summer time is hard on the eyes because of the glare of the sun, heat and dust, strain, injury and weaken them. He says it is possible to strengthen eyesight wonderfully in a very short time by using Bon-Opto. He prescribes it freely and further says: "A patient came to me suffering from inflamed eyelids and impaired vision. Her eyes had the dull, expressionless condition so common to those who have had their eyes so long. She used Bon-Opto and not only overcame her distressing condition, but so strengthened her eyesight that she was able to dispense with her distance glasses. In this instance I should say her eyesight was improved 100 per cent." The doctor's advice has proved of great value to many eye sufferers. Many whose sight was failing say they have had their eyes restored. One man writes: "I was almost blind; could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would tingle and burn; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this Bon-Opto for fifteen days everything seemed clear. I can read fine print without glasses." It is believed that thousands who wear glasses can discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following these simple rules: Go to any drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time. NOTE—Another prominent physician to whom the above article was submitted said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent. in one week's time. It may be obtained from any good druggist and is one of the few preparations I feel should be kept on hand for regular use in almost every family. It is sold in this city by all leading druggists.

Miss Boissineau Tells How Cuticura Healed Pimples

"About three years ago I was bothered with pimples on my face. The pimples were hard and small and feasted, and my face was disfigured for a while. They sometimes caused me to be awake hours at a time as the irritation was so great. I tried different remedies but without any relief. I began using Cuticura Soap and Ointment and after the first application I could see an improvement. I continued using them and was completely healed after using three boxes of Cuticura Soap and two boxes of Cuticura Ointment." (Signed) Miss Rose Boissineau, 12 Bellevue Ave., South St. Marie, Ont. Give Cuticura Soap, Ointment and Talcum the care of your skin. Sample box free if you mention this paper and send 2c. stamp for postage. See it all dealers or Schumann, Sales & Co., Limited, Toronto.

9 FORMER MAYORS OF ST. JOHN LIVE IN CITY

RECORD IS SET BY LAST 9 MEN ELECTED TO CHAIR OF CHIEF MAGISTRATE HERE

St. John is Oldest Incorporated City in Canada—First Mayors Named by Government.

Comparatively few people in St. John realize that this city is the oldest incorporated city in the Dominion and has had its own Mayor since the year 1785, a period covering 138 years.

CITY WATER PIPES MANY MILES LONG

On East Side of St. John Alone More Than Hundred.

FIRST SYSTEM 1838

On West Side of Harbor 27 Miles Travelled by Supply.

A plentiful supply of water is one of the things to which the citizens of St. John have become so accustomed that they will probably be surprised to learn that more than 100 miles of water from Loch Lomond to the users on the east side of the harbor and about twenty-seven miles of pipes on the west side of the harbor bring water from Spruce Lake.

The first water system was operated by a company formed in 1838 and the first water passed through the pipes in 1838.

The 10 inch main in Prince Edward street was replaced in 1919 with 16 inch pipe and the Carmarthen street portion was renewed in 1922 with the same size pipe and the pipes in King and Prince William streets were renewed with 16 inch pipe in 1920 and 1921.

From Little River.

As the demand for water was greater than the supply the company in 1861 purchased the site for the Little River reservoir and laid a 12 inch pipe to the city.

In 1864 the city took over the supplying of water and the maintenance of a sewerage system and a commission was appointed to administer the work.

These Twelve Charter Members

In connection with the 48th anniversary of the St. John Council, No. 83, Royal Arcanum, celebrated this week, it is interesting to note that the following were the charter members of the Council, instituted in August, 1875.

It is doubtful if any other 24-year period in the history of the city will show that nine of the men who had filled the office of chief magistrate are still alive and with the exception of one, Mr. Sears, who has been ill for several months, active in business and professional life.

The nine former Mayors who are still living are—

- Edward Sears, 1885 to 1900; 1900 to 1906. Hon. J. W. Daniel, 1900 to 1902. Walter W. White, 1902 to 1906. Thomas H. Bullock, 1906 to 1910. James H. Frink, 1910 to 1916. Robert T. Hayes, 1916 to 1920. E. Allan Schofield, 1920 to 1922. Harry R. McLellan, 1922 to 1923. G. Frederick Fisher, 1923 to 1924.

- Appointed by the Government: Gabriel G. Ludlow, 1785; William Campbell, 1792; John Robinson, 1816; William Black, 1823; Lauchlan Donaldson, 1832; William Black, 1832; John N. Wilnot, 1834; Benjamin L. Peters, 1835; William H. Street, 1835; John Robertson, 1837; Robert F. Hazen, 1840; William Black, 1840; Lauchlan Donaldson, 1842; John E. Partelow, 1844; William H. Street, 1848; Robert D. Wilnot, 1849; Henry Chubb, 1850. Elected by the Council: Thomas Harding, 1851; William O. Smith, 1852; James Olive, 1853. Elected by the citizens: James Olive, 1854; William O. Smith, 1855; Thomas McAuliffe, 1859; Isaac Woodward, 1863; Aaron Alward, 1866; Thomas M. Reed, 1870; A. Chipman Smith, 1874; Sylvester Z. Earle, 1877; Simon Jones, 1883; James McGregor Grant, 1884; S. Bois DeVeber, 1885; Henry J. Thorne, 1887; George A. Barker, (Died July 6, 1889), 1889. A. Allen Jack (Recorder) from death of Geo. Barker, until 9th August, 1889 (under Charter). W. Albert Lockhart, Elected by Citizens: 1889; Thomas W. Peters, 1891; George Robertson, 1894; Edward Sears, 1900; John W. Daniel, 1900; Walter W. White, 1902; Edward Sears, 1906; Thomas H. Bullock, 1910; James H. Frink, 1916; Robert T. Hayes, 1920; E. Allan Schofield, 1920; Harry R. McLellan, 1922; G. Frederick Fisher, 1922.

EDWARD SEARS, 1885 to 1900; 1900 to 1906.

HON. J. W. DANIEL, 1900 to 1902.

WALTER W. WHITE, 1902 to 1906.

THOMAS H. BULLOCK, 1906 to 1910.

JAMES H. FRINK, 1910 to 1916.

ROBERT T. HAYES, 1916 to 1920.

TELLS TALE OF CHOLERA VISITATION

John V. O'Brien Recalls Story Told by His Father.

TERRIBLE DAYS OF '54

Plague Here Ascribed to Germs in Wood on the Sch. Blanche.

John V. O'Brien, 296 Germain street, writes to The Times as follows: "Having read with pleasure, in your August 4 issue A. M. Belding's splendid item 'St. John Tales of Immigrant Bands Dead at Our Gates,' I was glad to see that a contribution regarding another plague, the cholera of 1854, was just some pages away. It occurred to me that a contribution regarding another plague, the cholera of 1854, was just some pages away.

"During the early spring of 1854, my father while residing in Cardiff, Wales, decided to take passage on a vessel for Canada, and upon inquiry found that some few hundred passengers were to leave Liverpool, England, within a few weeks on a certain vessel. He accordingly journeyed to Liverpool and on arrival learned that an accident had happened the vessel, but that another known as 'The Blanche' had been chartered to make the trip. This was quite satisfactory to the eager voyagers, and they immediately set out to the New World.

"The trip was uneventful for the first few days, except that a child became ill and within a few hours, great anxiety was caused, and upon investigation it was found that the vessel, which had been chartered for such haste, had been in service in the East Indies and the plague was found to have come from the baggage (the wood used for stowing cargo) as much of this old wood still remained in the hold of the vessel.

E. ALLAN SCHOFIELD, 1920 to 1922.

HARRY R. McLELLAN, May 1922 to 1923 and 1923 to 1924.

G. FRED FISHER, November 1922.

East St. John Would Give City 1,630 Acres and 1,000 to 1,500 More People

Review of Proposal For Union With City, History of Negotiations, and Outline of What Would Be Involved—Real Discussion Now Looked For.

(By A. M. Belding.) If East St. John were united to the city the area of the latter would be increased by 1,630 acres, including the dock area, and the population would be increased by 1,000 to 1,500 more people.

"Should East St. John become a part of the city? What would be the cost? Should it be one now or later? Is it worth while for the City Council to give the matter serious consideration? Would the Council that brought about the union be biased or antipathetic in later years?

"East St. John is a growing community. Each year sees new houses erected and a growth of population. Some time prior to 1920 the residents foresaw that they would soon take on the proportions of a town, and that such services as streets, water and sewerage, fire and police protection and light would have to be provided. Thus it came about that a proposition involving village or town incorporation was studied and found considerable favor.

MUSEUM OF CITY RICH IN OLD COINS

Dr. McIntosh Shows Some of Them to The Times.

BOOKS ABOUT THEM

Curator Pleased to Identify Doubtful Ones for People.

About a month ago a man digging in his garden in a small town in Maine found a coin and showed it to a newspaper man. The record of the finding was noted in 'The Times' and then the deluge began. From all quarters of the city coins and tokens have been produced and interest in the age and denomination was stimulated.

"The principal object of the suggested union being, as stated in the foregoing introductory remarks, to provide necessary sanitary services, it would be expected that in the event of such a union being accomplished, the city would, as with as little delay as possible, provide a water and sewerage system to serve that portion of the district which has been developed for building purposes and built upon to such an extent as, in the decision of the Board of Health, to require such services, and it is suggested that the owners of abutting property on each street be assessed proportionately according to foot frontage for interest and sinking fund to cover the cost of such sewers as would be necessary to serve each particular street, whom so served; and that the cost of trunk sewers for conveying the sewerage of the district to tidal water, also the extra cost due to the larger size of such sewers as are required to convey sewerage from streets and districts other than the one incidentally served, should be borne by the city at large.

USE FUNDS FOR PROFITS IN WHISKEY

Caribbean Area Trades People Have Neglected Industry.

REPORT PRESENTED

Jamaican Commissioner Reviews Situation—Stagnancy in Haiti.

closed in the last issue of the Commercial Intelligence Journal of Ottawa. For example, Trade Commissioner Stevens of Kingston, Jamaica, in referring to industrial developments in the Caribbean area, points out that the prosperity attendant upon the liquor traffic has been an evil thing for Jamaica as it has had a concentration of local capital upon the purchase and sale of whiskey. Unless a collapse of bootlegging activities should take place, the trade commission cannot see any immediate chance for recovery of these industries.

"The proposed basis of negotiations thus submitted was as follows, the boundaries to be subsequently defined: (1) To overcome the objection, generally expressed, that assessment value would be largely increased by the present valuation under county assessment, it is suggested:— 'That the city might accept the present valuation of sub-divided property as rated by the county assessors and base the current city rate of taxation upon such valuation for a period of five years from date of amalgamation; that rural or farm property within the area annexed will be assessed at such value as will not increase the present rate of taxation—or as an alternative that it will be assessed upon a similar basis as that which is applied to the rural portion of Stanley Ward of the city—until such time as it may be subdivided and appropriated for building purposes.

3-Month-Old Pullet Sets Laying Record

Brattleboro, Vt., Aug. 17.—What is believed to be a record for laying eggs in the pullet class is that of a white leghorn owned by J. C. Gray of Vernon.

The bird was hatched May 8. Two months and 18 days after, it laid its first egg, and in the next 20 days it laid 16 eggs. The first 12 eggs weighed a pound and six ounces.

The pullet is one of a lot of 600 day old chicks, brought up on cracked corn, oats and chick-growing mash.

TEACHES CLERKS TO STUDY GOODS

Bullock's Plan Stimulates Them to Find Out for Themselves.

All store managers know that one of the most effective ways to increase the individual clerk's sales is to increase their knowledge of the merchandise he handles.

"The closing of the King George, Alexandria, East End, Allison and Central playgrounds will be held on Monday. The closing of the King George and Alexandria was postponed from yesterday to give the members of the Association an opportunity to see all of the exercises on the same day.

Pharaoh's Daughter Dressed Her Hair With Wooden Comb

Cedar and Cypress Obtained From Distant Points Were Eagerly Sought.

The tresses of a Pharaoh's daughter were dressed with combs of wood, says Professor S. J. Record, of Yale University, who recently made a study of the different kinds of woods used by the ancient Egyptians.

As one wooden object after another from the tomb of Tut-Ankh-Amen has been described and pictured in the public press, many questions have arisen.

Mr. Record's studies included the woods representative of the period from 2800 B.C. to 1200 B.C. Wood played an important part in the lives of these Egyptians and it had to be hauled very long distances.

The Egyptians used cedar extensively for coffins, boxes, large effigies and for such general purposes as we use white pine. They also used cypress, another wood of great durability.

The yew, a tree noted for its durability as the cedar and the cypress, was used by the Egyptians in the making of bows, carvings and small implements.

That these woods used by the Egyptians have endured the centuries, Professor Record attributes to the fact that they were not treated by preservatives employed by the Egyptians.

Indians To Honor Life Long Service Of Devoted Friend

New York, Aug. 16.—(By A. P.)—Five thousand Sioux Indians will do unique honor to a pale faced brother in the heart of the South Dakota prairie on August 19, when Rev. Dr. Edward Ashley, friend of Roosevelt and Custer, of Rain-in-the-Face and Sitting Bull and the long line of Dakota warriors who were famous in Indian warfare, will round out his fiftieth year of service as a missionary among the Red Men.

Dr. Ashley is the sole survivor of the framers of the treaty of 1876 which opened the Black Hills country to gold seekers, stripping the Indians of their hunting grounds and incidentally leading to the Custer massacre at Little Big Horn. Later he was present on the Cheyenne River reservation during the Ghost Dance, Messiah Crazy, which culminated in the battle of Wounded Knee, where the Federal troops avenged the slaughter of Custer and his men.

Here for four days these Christian Indians will hold daily worship, discuss the business affairs of their church, make their annual donations for its support, consider tribal affairs, and on the final day of the convocation will give fitting observation of the

Bloodless Operation by Brooklyn Doctor Gives Spanish Prince Hearing

PRINCE DON JAIME, DR. MUNCIE DEMONSTRATING AT HIS CLINIC IN THE HOTEL MAJESTIC, PARIS, WHERE THE PRINCE WAS TREATED.

BROOKLYN, N. Y.—How Prince Don Jaime, second son of King Alfonso of Spain, was cured of congenital deafness in twenty minutes by a few simple manipulations with the index finger of the hand of Dr. Curtis H. Muncie, Brooklyn osteopath, was told in recent despatches.

Dr. Muncie, who withheld the name of his royal patient on ethical grounds, declared that before the operation the young prince could hear only shouted conversations, but that tests made immediately after the operation showed he had been restored to normal hearing.

half century of service of the man whose life has been devoted to their temporal as well as their spiritual welfare. In large measure, it will be a final meeting of the past and the present, for the Indian whom Dr. Ashley knew when he first went among them has passed on.

COOLIDGE SETS TWO FREE. Commutes Walsh and McLane's Sentences for Liquor Theft.

Buffalo, Aug. 18.—William J. Donovan, United States Attorney, has received word that President Coolidge had commuted the sentences of John J. Walsh and James McLane, sentenced to five to seven years in Atlantic Prison in connection with the theft of \$1,000,000 consignment of liquor from the Black Rock yards of the New York Central Railroad.

COTTON BROKERS ACCUSED. South Carolina Planter Charges Barrett & Co. With Fraud.

Aiken, S. C., Aug. 18.—A warrant charging "obtaining goods on false pretenses" was issued here against Frank H. Barrett, Thomas Barrett Jr., Julian Barrett and Tom Getzen of Augusta, Ga., members of the cotton firm of Barrett & Co., on complaint of C. R. Lybrand of Wagner, S. C., a merchant and planter.

British Women Fail To Win Equality in Vows at Marriage

House of Laity Votes Down Proposal to Omit Word "Obey"

London, July 12.—(By Mail).—Matters of considerable human interest were introduced in the recent Prayer Book discussions in the House of Laity concerning new proposals for the marriage service, according to "The London Daily News."

Instead of the words addressed to the woman, "Wilt thou obey him and serve him?" the following to be substituted: "Wilt thou love him, comfort him?"

As a substitute for the "giving away" of the woman, the omission of the word "obey" by the wife when she takes her wedded husband.

Women Equal Elsewhere. Miss Royden stated that there was no marriage service except in the Anglican Church and those associated with it where the promise to obey occurred.

The kind of suffering endured by the wives she could not refer to without seeming to be sentimental. It was a very real and sometimes a very tragic one. She pleaded that the man and woman should be placed on terms of equality.

LIKE ARMY

Girls are just as good in the army as boys any old day. So say these two Charles City (La.) misses—Perry Paine (above), 14, and Alletta Carey, 16.

Caterpillar can eat twice its own weight in leaves in 24 hours. Fruit is being branched by the use of an automatic machine.

Opponent Quotes St. Paul. Lord Hugh Cecil, who entered into an acute philippic against the proposal and quoted St. Paul, claimed that the obedience of the wife was a qualified obedience and that the subordination did not necessarily express inferiority.

Both Lord Selborne and the chairman dissented emphatically from Lord Hugh Cecil's view of "qualified" obedience, which seemed to them to vitiate the sacredness of the service.

The mad college graduate tells the men who wrote "Yes, We Have No Bananas" made \$50,000. Good news from Seattle. Woman stabbed her husband. Maybe they are running out of ammunition.

EGYPTIANS WERE FAMOUS FOR THEIR SOUND TEETH. Balanced Ration Kept Them Away From Dentist.

Egyptian mummies, dead for two thousand years, have better teeth than moderns, because they subsisted on a balanced ration," declared Dr. E. D. McCallum, director of the school of hygiene and public health of Johns Hopkins University, in a lecture at Wheeler Auditorium, University of California, on the recently discovered vitamins and the effect of their discovery on the future physical development of the human race, writes The San Francisco Chronicle.

It is only within the last fifteen years that real progress toward solving man's food problem has been made," he pointed out. "Until fifteen years ago we thought chemical analysis of food could determine its relative value for human consumption, but recent discoveries have proved that such analysis is useless."

He traced the successive steps in scientific investigation that led to the discovery of the five vitamins. "During the course of these investigations we found that scurvy, the scourge of seafaring life for centuries, was caused by the lack of vitamin in the diet. This vitamin is to be found only in fresh fruit. We also discovered that by cooking the fruit this vitamin was destroyed.

A cure and preventive of rickets in children was also found in a diet containing all the vitamins in a right proportion. Rickets, a disease of the bones of children, often leading to deformity, we found was caused by the lack of vitamins contained in the leaves of vegetables, such as spinach, lettuce, mustard greens, Swiss chard and cabbage." He advocated feeding children green vegetables as early in infant life as possible. Dr. McCallum praised the diet of the

# St. Peter's Y. M. A. Celebrates Its Golden Jubilee Sunday

## HIGH MASS TO BEGINS ANNIVERSARY WEEK OF NORTH END SOCIETY

### Father Borgmann, Organizer of Present Association to Attend Exercises—Much Done For Youth in Mind and Body as Years Have Rolled On.

The golden jubilee of St. Aloysius Society and the silver anniversary of its successor, the present St. Peter's Y. M. A., will be celebrated next week. Starting tomorrow morning in St. Peter's church solemn high mass will be celebrated and the Y. M. A. service flag blessed. A happy feature of the ceremony tomorrow will be the presence of Rev. Joseph Borgmann, C. S. S. R., founder of St. Peter's Y. M. A., and spiritual director of that organization for eighteen years. He will be the celebrant of the mass and all former St. John boys now in the Reformatory Congregation are expected to be present. On Monday a reception will be tendered Rev. Father Borgmann in St. Peter's auditorium, and on Wednesday evening all past and present members of the St. Aloysius and St. Peter's Y. M. A. will be guests at a banquet and smoker in their rooms in Douglas avenue. Arrangements are also being made to entertain Father Borgmann during his stay here.

Fraternal visits from local Catholic societies were also joyfully reciprocated. The Saint Peter's Young Men's Association was organized on November 15, 1868. The late Rector Michael Corduke, C. S. S. R., entrusted the direction of the institution to Rev. Joseph H. Borgmann, C. S. S. R. Essentially it was the paramount object that every endeavor, at all times should be directed towards the intellectual and moral uplifting of its members, with a view to stimulating and sustaining their temporal and spiritual advancement. At the outset, a census was undertaken, and many eligible young men brought into definite action. As time progressed, it was found that those who at every successive meeting applied for membership, the interest manifested became so keen that within a year or two the society was able to establish itself in commodious new quarters in Douglas Avenue, which they still occupy.

The first officers had been chosen, a well defined constitution laid down, and the real work of the society advanced. Ample inducement was granted for entertainment and recreation, and adequate features adopted that would tend to the sharpening and strengthening of the intellect. In order to give the members an opportunity of continuing their education, the founder was to make the association not only a temperance organization, but also a school of instruction where its members could be educated, and the training along intellectual lines was a decided advantage to many in later years. Inter-society debates were also introduced, and were always of a high standard of logic and oratory. A series of lectures was also arranged every season and proved both interesting and instructive. Special lectures by men of learning were the predominant idea in the educational platform of the institution. Ecclesiastics, physicians, lawyers, men of letters and men of affairs, unselfishly lavished their talents upon the society, and great value accrued from the wholesome entertainment they produced, and the amount of knowledge disseminated.

The various committees were ever on the alert, and their plans for entertainment and recreation were well thought out and efficiently carried out. Periodical reunions and monthly smokers, frequent inter-society gatherings, sleigh drives, recreations in annual homes, are all affairs of pleasure reminiscence. Hand in hand with the society, an excellent orchestra added to the various private and public entertainments, and musically, might well be considered the great framework of the association.

While manifesting a keen interest in the moral and intellectual welfare of members of the Association, the great benefits derived from participation in sport had not been lost sight of. St. Peter's Y. M. A. has not only made a mark in their home town, but have gone throughout the Maritime provinces, year after year, winning laurels and building up a good reputation. The "green and white" boys have always been popular, whether participating in baseball, track meets or skating, and in home or abroad have been a much sought after attraction. Their record has been an enviable one. While in years gone by members won individual honors on the track, or while participating in speed skating championships, their greatest achievements have been on the baseball diamond. In this branch of sport the colors of the society have been emblazoned with that one great word, "championship." Always considered good sports, determined fighters, and showing nerve and aggressiveness, St. Peter's baseball teams have reached the pinnacle of their ambitions and have kept the society to the fore.

Baseball during the period from 1915 to 1917 was practically dead in St. John, but in 1918 a number of St. Peter's boys joined a team called the Giants in West St. John, and through their efforts they assisted in bringing victory to the society's allies. It was always a former member of the society, in 1919 a city league was formed and games played on Queen Square, West St. John. Their efforts met with success and as a result large silver trophies emblematic of the championship now grace the rooms of the Y. M. A. In 1920, through the great interest manifested by Rev. William Hogan, C. S. S. R., Rector of St. Peter's the present ball park was built. It was a grand undertaking, one that required foresight and determination for the task was a big one. The results are there, a splendid place in which games are contested. Time went on changes continued to take place, and in 1922 baseball-professionals were introduced.

Bowling has been one of the most popular winter pastimes among the members of the Society. Year in and year out the game has flourished and many an interesting match was rolled on the society's alleys. From the days when the Inter-Society League was organized until the present time, interest has been maintained, perhaps a bit spasmodic at times, but nevertheless alive. Judging from the interest manifested last season this line of athletic endeavor is due for a big revival on the Y. M. A. alleys. On the whole St. Peter's Y. M. A. has more than held its own in athletic endeavors.

Present Officers. The officers of St. Peter's Society this year are as follows: Arthur Codrue, president; Arthur Howard, chairman of the literary and dramatic committee; John Russell, chairman of the sporting committee; Ray O'Connell, treasurer; Bartholomew McIntyre, assistant treasurer; Edward Martin, secretary; John Rolston, assistant secretary; Urban Bollard, custodian.

## East St. John Would Give City 1,630 Acres And 1,000 to 1,500 More People

(Continued from page 9.)  
(3) To provide an immediate measure of fire protection it would be necessary that water hydrants should be installed along the main pipe line on the Red Head road at each street junction with as little delay as possible; that other hydrants would be installed at suitable points as the water system was extended and that a general system of fire protection to cover the district would be established to correspond with the development in building, under existing conditions.  
(4) In the event of the district becoming a part of the city, it would be expected that a system of street lighting would be established, such as of any other similar portion of the city. An estimate having been obtained, it is thought that about 80,000 T. W. lamps would be sufficient to commence with, under existing conditions.  
(5) To facilitate communication with the central portion of the city it would be desirable that a road including that portion of the Old Westmorland road within city limits, should be improved with asphalt paving, and that the improvement of residential streets might be carried out gradually under the local improvement law.  
(6) To facilitate communication with the central portion of the city it would be desirable that a road including that portion of the Old Westmorland road within city limits, should be improved with asphalt paving, and that the improvement of residential streets might be carried out gradually under the local improvement law.

The latest move in the matter has been the appointment of the committee by Mayor Fisher to meet on Monday at 8 o'clock at the City Hall to discuss the matter. The committee will meet at 8 o'clock at the City Hall to discuss the matter. The committee will meet at 8 o'clock at the City Hall to discuss the matter.

Having sent forward this communication a large delegation of East St. John ratepayers waited on the Mayor and Council and expressed their views in favor of the proposed amalgamation. The Mayor, in behalf of the Council, promised careful consideration, but the hydro controversy and civic elections intervened.

On May 28th, 1922, the committee sent a letter to Mayor McLellan, enclosing copies of correspondence, but the Council took no action thereon. It was another year, however, and Mayor Fisher was installed at City Hall. The committee took the matter up with him in November, 1922, and some time later he wrote, asking for the boundaries of the proposed area. The tentative boundaries as set forth in reply, were as follows: "Commencing at the city boundary line at the One Mile House, following the Marsh Road to the southern boundary of Fernhill Cemetery, following the boundary of Fernhill Cemetery to where it joins the Old Westmorland Road, following the Old Westmorland Road to the new Cemetery, following the line of the property to where it strikes the beach and another turn of the beach, following the beach to the new breakwater to its junction with the city boundary line in Courtney Bay. It was the residents of this area of 1,630 acres who were called in public meetings and in a referendum approved of the basis of negotiations already set forth.

In June last the committee again addressed the Mayor, but the matter rested until quite recently, when the Mayor appointed Commissioners Prine, Wigney and Thornton a committee to discuss the whole matter with a committee from East St. John. In conversation with The Evening Times it has been pointed out that East St. John has now a population of one thousand to fifteen hundred, not including the dry dock employees, and is constantly growing. The existence of the dry dock and ship repair plant, and prospective co-related industries, should cause continued growth. Whatever affects East St. John, in regard to public health and other conditions, will to some extent affect the city. The prestige of the city would be enhanced by the larger population. Dealing with the whole area of city and suburbs, the various public services could be carried on more economically, because of less overhead expenses, than if it were a separate organization. It is common experience that suburban areas are sooner or later absorbed in cities. If that is desirable, and experience seems unquestionably to bear out that view, then the union can be consummated at much less expense to all parties now than at a future date. The benefits derived would be mutual. It is pointed out in behalf of East St. John that the facilities could be provided by degrees; that the people are ready to adopt the local improvement plan, which would involve far less cost to the city for sewers, for

## MUSEUM OF CITY RICH IN OLD COINS

(Continued from page 9.)  
New York, Aug. 14.—A scientific analysis of President Coolidge has been made by Jessie Allen Fowler, noted phrenologist, who has traced and named the qualities which she says are proof of the power he is destined to show in the White House. Miss Fowler, for many years noted as a lecturer, writer and editor, has prepared a diagram and the following article especially for NEA Service: (By Jessie Allen Fowler, vice-president, American Institute of Phrenology, editor-in-chief Phrenological Journal, author "Practical Phrenology," etc.) The country is particularly fortunate in having a man of the ability, courage and foresight possessed by Calvin Coolidge to take up the duties thrust upon him so suddenly, of president of the United States. He has the mental-motive type of temperament, which makes him a student, thinker and planner rather than an ease-loving man. He is quite original, preferring to work out his own ideas rather than those of others, when he believes that he is right and others are wrong.

His head is exceptionally high, which gives him a keen conscientious spirit and inclines him to see the mark himself and expect others to do the same. He is a law-abiding man and he sees no reason why others should not be law-abiding, too.

His posterior lobe is large, and he loves his home, his family, his country and his friends tenaciously. Hence

## CAVE GIRL LONGS FOR RETURN TO WILDS

(By NEA Service.)  
Topeka, Kas., Aug. 15.—Emma Adams, 15, was offered a far better education than she enjoyed, educational advantages and feminine finery. But she tearfully begged to be allowed to go to a cave on a river island, to eke out an existence selling fish and cutting wood. Which proves, by anything that sentimentality or sentimentality can do, that the girl is a cave girl. Strangled from his wife, Emma's father lost his position several years ago. He could not get new work. Finally, with Emma and her 17-year-old brother, he moved to an island in the Kansas River, 10 miles from here. They have made an uncertain living selling fish and cutting wood, while in the cave. The home of Kansas' capital was always in sight of the girl. Civilizing influences were almost at her elbow. But, clad in overalls and barefooted, she was reveling in her freedom when probation officers visited the island and brought her here for a hearing.

"Dresses feel queer," she told the judge. "I'm used to boys' clothes and being barefooted. I love my chickens and ducks. And I was able to help daddy, too, in keeping house. In town I'll be a laughing stock. Let me go back."

The girl wept. So did her shoeless and hatless father, who fears his daughter will be both unhappy and unhealthy in restricted new environments. So, too, did a number of spectators. But the law was adamant. Meantime, investigation shows the girl had several years of school before she went on the island—so a debate is arising as to whether she should be forced to leave a healthy life she loves for the superficialities and confinements of what is called civilization.

EMMA ADAMS.

STIFF PENALTY FOR HOLDUP. Two Payroll Robbers Get Long Terms in Sing Sing.

New York, Aug. 18.—Two payroll robbers were sent to Sing Sing by Judge Charles C. Nott. They were Peter Olivetti, 19, of 230 First Avenue, who was sentenced to serve from eight to fifteen years and Arthur Dantony, 18, of 454 East 119th Street, sentenced to not less than five nor more than ten years.

Olivetti, a chauffeur for the A. J. Apton Supply Company, was driving a bookkeeper from a big job with \$1,500 in pay roll money when it was held up and robbed by several men. Olivetti aroused the suspicion of the police and he was arrested. Dantony was caught soon afterward. Dantony was sentenced to a term of years. Judge Nott said he imposed a heavier sentence on Olivetti because he was an employee of the concern and it was his duty to protect his employers' property.

The best way for big business to keep on the upgrade is to stay on the top. —Newark, Virginian-Pilot.

Home Bank of Canada Suspends Payment

Bank Bills, However, Are Still Good—Association Now In Charge.

Toronto, Aug. 17.—The following statement was issued from the head office of the Home Bank of Canada, Toronto, this afternoon: "The board of directors of the Home Bank of Canada announce that they have received from the recently appointed assistant general manager of the bank an official report of a serious character as to the amount of bad and doubtful debts among the assets of the bank, and as the extent of appropriations necessary to be made in respect of several large loans and investments."

London, June 8.—(By Mail)—Dr. C. K. Clarke, professor of psychiatry in the University of Toronto, in the course of the "Maudsley Lecture," which he delivered in London, dealt at some length with the question of immigration into Canada.

Plea For Restricted Immigration

"It is all very well," he said, "for Rudyard Kipling and other enthusiasts to say that what Canada needs is to pump in the population. That is true; but at the same time it is necessary to put the suction pipe in the right place and in the right way."

"To show you that the danger is real, let us scan some accurate statistics regarding some 4,900 children referred for examination to a national mental hygiene psychiatrist. These were special cases and the majority subnormal, to such a degree that they were incapable of acquiring an ordinary school education."

Ask for Minard's and take no other.

rights and interests of its depositors and shareholders.

Hope to Avoid Heavy Loss. "It is with the deepest regret that the board of directors of the bank find themselves obliged to make this serious announcement to its depositors and shareholders and the public generally and it is their earnest hope, with careful administration and realization of the assets of the bank, material loss to creditors may be avoided."

Ottawa, Ont., Aug. 18.—In its last statement to the Finance Department, that to June 30, 1923, the Home Bank reported its current loans in Canada at \$15,877,288, and its call loans in Canada at \$2,022,913.

One of Smaller Banks. The Home Bank is one of the smaller banking institutions of Canada, but has branches at all principal Canadian financial centres. It has an authorized capital of \$2,000,000, of which \$2,000,000 is subscribed, with paid up \$1,064,747.87.

The Canadian Bankers' Association, having been notified of this action on the part of the board of directors, in accordance with provisions of the Bank Act, appointed a curator to supervise the affairs of the bank and protect the

SPORT NEWS GLEANED FROM WORLD'S CENTRES

START OF OLD ST. JOHN NATIONALS, FAMED IN BASEBALL YEARS AGO

Stories of Game in 70's and 80's—The First Professionals.

With the great revival of sport in St. John during the last few years there is keen interest in performance of the past and comparing the achievements of the then leading exponents of athletics with those of the present generation.

In the year 1873 baseball was one of the chief pastimes and St. John could boast of six clubs, the Invincibles, the Mutuals, the St. Johns, Shamrocks, Athletes and Royals.

The Shamrocks were organized in 1873 and played with teams representing St. Croix, Fredericton and Bangor. In the year 1874 the same clubs were in existence and many exciting and interesting games were played. Sport records of those days show that those teams continued to play for several seasons. In 1875 the personnel was as follows:

Mutuals—W. Snider, c.; H. P. Sand, p.; W. Hart, 1b.; W. Sprague, 2nd; J. Bennett, 3rd; W. J. Quigley, s.; J. Thomson, l.f.; A. O. Skinner, c.f.; C. F. Olive, r.f.  
Shamrocks—D. Costigan, c.; J. Keane, p.; T. Burke, 1st; J. Flynn, 2nd; J. W. Wilson, 3rd; M. Hill, l.f.; J. Mitchell, r.f.  
Atlantics—H. Sands, c.; M. Higgins, p.; W. Larkin, 1st; M. Keefe, 2nd; J. Healy, 3rd; W. Hutchings, c.f.; G. Wilson, r.f.  
Royals—F. W. Marsters, c.; C. Higgins, p.; W. Doherty, 1st; A. Turner, 2nd; H. R. McVie, 3rd; C. Crear, s.; W. Broad, c.f.; G. Warren, r.f.  
Thisles—W. Walsh, c.; J. Cole, p.; J. Doody, 1st; W. Fleming, 2nd; W. Havlin, 3rd; J. O'Brien, c.f.; G. Wilson, l.f.; H. McFadden, c.f.; A. Craig, r.f.

Empires—H. Howe, c.; A. Hunter, p.; M. Kilome, 1st; A. Barnes, 2nd; W. Gallagher, 3rd; S. Whittington, s.; J. Robin, l.f.; J. Black, c.f.; J. Griffin, r.f.  
In those days there was no professional ball and there was little gate money, for those who did not care to get under or over the fence. There was no such thing as an out curve, inshoot, drop or spit ball then. Strike-outs were rare. The batter had the privilege of asking for a high or low ball and was not obliged to strike at any that did not suit his fancy. The ball used was red—once was recently on exhibition in Emerson & Fisher's window in German street and somewhat resembled a cricket ball.

In 1874 the Shamrocks won the championship and had the privilege of flying the flag during the season of 1875.  
Original Nationals.  
Following the big fire in 1877 there were no games until late in 1878 when the Nationals came into existence. The line-up of the original team was as follows—Barker, c.; Williams, 1st; Watson, p. and l.f.; Cahill, p. and r.f.; Thomas, c.f.; Dorman, l.f.; Rankin, 3rd; Willett, s.; Bell, 2nd. The other clubs were the St. Johns, Imperials of Carleton, Smashers, Acadians, and Shamrocks. The style of pitching was then changed and a twister was allowed to throw any ball if the delivery was below the hip. This was said to have been instrumental in making the game faster and more interesting.

LOCAL BASEBALL ATTRACTIONS ARE STRONG TODAY

St. Peter's and the Vets will meet today in two games on St. Peter's park in the Two I League and should prove an exceptionally popular week-end attraction. Both games will undoubtedly be bitterly contested. It is expected that McElroy, the Vets' recent importation, will be on the mound in the afternoon, and there was some talk of a new pitcher being on hand for St. Peter's.

LAWYERS AS BUSINESS MEN.

(Toronto Globe.)  
The fact at lawyers made by Premier Stanley Baldwin at the Lord Mayor's luncheon in London yesterday was that Mr. Mellon, Secretary of the Treasury of the United States, was quite possibly intended as a joke, because he has been trying to persuade Mr. Reginald McKenna, a former barrister, to become Chancellor of the Exchequer. Mr. Baldwin said with regard to the debt due to the United States:—  
I believe that a great deal of credit, if credit there was, that was due to the negotiators for the rapidly with which that great question was solved arose from the fact that neither the Governor of the Bank of England nor I nor Mr. Mellon had ever at any stage of our lives been members of the legal profession.  
If Mr. Baldwin were serious, the facts are against him, for many lawyers have become heads of great financial and industrial corporations commonly known as "big business." In the United States three members of J. P. Morgan & Co. are lawyers, and lawyers head the First National Bank of New York, the United States Steel Corporation, the American Sugar Refining Company, colloquially known as the "Sugar Trust," the General Electric Company, the Anaconda Copper Company and many of the large insurance companies. Railways especially require able business men of prominent descent. In the Union Pacific, Mr. Harriman was succeeded by Judge Lovett. In Canada a notably successful railwayman was Mr. E. W. Beatty. B. A. K. C., president of the Canadian Pacific Railway, and lawyers appear among the directors of other important corporations.

As our entry in the Bok peace competition, we suggest a substitute for oil—Boston Post.

FRANK MEILKE IS GOLF CHAMPION

Frank Meilke of the Brightwood Club of Dartmouth, N. S. won the Maritime championship in Moncton yesterday by defeating his brother Gerald, former title holder, by one up at the end of the thirty-sixth hole. The match was all square at the thirty-fourth, but Frank won the thirty-fifth and halved the last. In the morning Frank Meilke played 74 to the champion's 77, and in the afternoon the new champion turned in a card of 74 while his brother had a 72.

The final in the first consolation was won by C. F. Gilmore, Moncton, who won from C. W. Robinson, Moncton, 4 and 8. In the second consolation a dance in the coming winter 5 or 6 will be "Blues." He said: "Blues" are played slower than a fox-trot. While a fox-trot is played at 48 bars to the minute, "Blues" are played at 35.

Only a good dancer can dance the old fox-trot to the "Blues." Consequently a new method of dancing the fox-trot with simplified steps—a modified fox-trot—is being introduced.

The new style of playing is more melodious than the old "jazz" and much easier to dance to. It does not make you so tired mentally as the "jazz" music.

The new music is a joy to the diner-out. Instead of the orchestra putting the "dirt" into "dinner" it is adding romance even to belted turbot.

The Alaskan Yak will be crossed with the cow to produce an animal that will withstand the cold.

Natives of interior Africa hoar cattle as their wealth.

Keep Minard's Liniment in the house.

# MOTORS And Their Care

## Practical Suggestions for Insuring the Longevity of the Car.

**An Accessory Worth While.**  
A handy device to be carried along with the equipment of a car is a clip for emergency use in case of a broken spring leaf. The clip consists of two small oblong pieces of steel, wide enough to use over and under the spring. These steel blocks are held in place by two bolts, thereby holding the leaves securely together. To adjust this clip to any part of the broken spring, the bolts should be not less than four inches in length and threaded all the way. The use of lock nuts on the bolts secures the clip against vibration and keeps it from working loose. This makes an excellent temporary repair, and will assure additional protection against having the entire spring collapse.

**Economy in Good Tubes.**  
"Bargain" tubes will ruin a high-grade casing. With a standard make of tire, it is wise to use a standard make of tube. A standard make inner tube is built of almost pure rubber and has a strength of one to one and a half tons per square inch cross section. This means that if the tube block were built up to a square test piece one inch thick and one inch wide, it would be strong enough to lift from 2,000 to 3,000 pounds. Inferior tubes do not have this strength and are highly compounded.

**For Better Batteries.**  
Do not use starter unnecessarily.

In case electrolyte is spilled, have a battery expert replace it.  
Test with hydrometer every week; 1.900 shows a full battery.  
Fill with distilled water every week in summer, every two weeks in winter.  
Watch ammeter to make sure the battery is receiving current whenever driving at 20 miles or over.

**Efficiency of Reground Blocks.**  
Not every job of having the engine equipped with new piston rings or new pistons and rings will work successfully. A badly scored cylinder or a cylinder that lacks uniformity of diameter must be rebored by a competent auto mechanic to be sufficiently free from ovalization and devoid of scores, before any new replacements in the cylinder will work perfectly.

**Value of Correct Assembly.**  
Note carefully just how parts of an engine are fastened on when it is necessary to remove any of the sections. Mark these parts with a punch so that there will be no doubt as to where they belong. This applies especially to such parts as valves, valve lifters, valve caps, etc., which look alike, but should be replaced in their original places.

**Color Tests for "Gas" Mixture.**  
When testing different gasoline mixtures by the color of the flame at the compression cocks, a rich mixture gives a red or yellow flame, while a weak mixture shows a light blue flame, almost invisible. The correct mixture is a reddish blue. These colors are best studied at night or in a dark garage; they are lost in bright daylight.

**Added Electrical Equipment.**  
While it is not advised to connect additional apparatus to the electrical system of a car, a parking or "stop" light is permitted, as these fixtures will not consume enough current to make a serious difference in the battery's keeping charged.

**Lubricate Valve Stems.**  
Give the valve stems a drop of oil occasionally. They are subject to severe

duty and wear badly unless lubricated. Occasionally one of them squeaks, which is as plain a call for oil as could be imagined.

**A Temporary Repair.**  
Painting a joint with schellac will sometimes temporarily repair a leaky seam in a gasoline tank.

A clean rag saturated with kerosene will make running boards look like new.

Shock absorbers can be rejuvenated by using a few drops of oil from time to time.

A little grease on the driving gear will save wear and permit easy running at all times.

An engine can readily be cleaned by spraying it with a mixture of gasoline and kerosene.

The spraying of water between the brake lining surfaces will temporarily stop squeaking at this point.

When filling the radiator allow enough water to pass in to bring the level over the end of the vent pipe.

A tube that falls to hold air is worthless.

Never allow the engine to labor in high gear.

A car should be revarnished twice a year—spring and autumn.

## BOOTLEGGERS IN STIRRING FIGHT

### Rivals Engage in 3-Hour Contest Over Thirty Cases of Liquor.

New York, Aug. 17.—C. Walker, second mate of the steamship Paria, was questioned by Edward Barnes, assistant solicitor in the Custom House. The Paria is operated by the Columbian Steamship Company, a subsidiary of the Clyde Line, and operates between the Caribbean and this port. The Paria was originally a United States Shipping Board boat. Mr. Walker will be asked to explain how he was able to sleep through a fight between two rival gangs of bootleggers. Hostilities opened at 3 o'clock and at 5 a decision was reached and one of the groups withdrew with thirty cases of liquor in their boat, part of a shipment of Benedictine, creme de cacao and old Scotch whiskeys later discovered by customs agents.

At 2 o'clock on Saturday morning the business of bootlegging was being peacefully conducted on board the Paria as she lay at her pier, 69 North River. About eight men had taken luncheon alongside and had agreed to buy thirty cases of liquor. The liquor was about to be lopered over the side when a larger launch with at least a dozen men aboard put in an appearance. These were "hijacks" who hold up the usual type of bootlegger.

## MAN DELIGHTS IN COLORS AS IN DAYS OF SAVAGE

Whid Tints Compared With Soft Shades Worn by Women at Henley

"Man is a savage in his delight in brilliant hues. It is considered that he is well content to make a dark background for wonderful woman, to be a foil for her fiery, but this is very far from the truth."

A visit to Henley is responsible for these reflections, which appear in this week's Tailor and Cutter, according to The London Daily News.

"At Henley woman was slimy and cool and dressed in soft shades, but it was man's time for splashing the palette with gay tints and bold colors."

Among the crowds the writer of the article says he noted a club group "clad in scarlet" jackets of the "deep purple of Tyre," blazers as "black as Erebus with edges of flame," pink caps and pink socks, cream coats with jazz edging.

The reason? Just that Henley gives man a chance to indulge his fancy for color without being conspicuous among his fellows.

"Whenever possible," continues the article, "man's fancy takes hold forms. In the privacy of his home the erstwhile sober citizen will wear a rich broadcled dressing gown or a sumptuous smoking jacket, while in his bedroom he filches from the dawn and the sunset for gorgeous stripes for his pajamas."

"Man is timid individually, but as bold as brass in company. Give man the assurance that he will not be conspicuously alone, and he will riot in such a manner that woman will pale her ineffectual fires."

thirty cases on board a lighter that was near. The man who commands the lighter crept quietly out to the thirty cases and appropriated one. The customs officers later recovered it. After a few minutes the twelve returned and took their twenty-nine cases.

The boatswain, called E. Olsen, went with the twelve, it was reported. All this would have remained mere gossip in the circles of those who trade in rum, but one of the defeated party told the Custom House about the affair. Seven men were sent to the Paria and there in the mail room, which is between decks, ninety-seven cases of outlawed drink was discovered. Captain L. L. Haywood was greatly surprised when he saw the liquor and said that he had searched the ship about three days before she docked and that the room at that time was devoid of any beverage. He said that he was not on board when the fighting took place. The Paria carries a crew of thirty.

## PRER, JAILED AS FRAUD, PROVES MODEL PRISONER

Duke of Leicester Ends Fortnight in Prison as Ordinary Remand Inmate.

London, July 18.—(By mail.)—Edward Fitzgibbon, Duke of Leicester and premier peer of Ireland, will shortly end his imprisonment in Brixton gaol, according to a news-item in The London Daily News.

He was convicted at the last Old Bailey Sessions of obtaining credit without disclosing that he was an undischarged bankrupt, and Sir Ernest Wild, the recorder, without passing sentence, ordered him to be kept in custody until next sessions.

The duke has spent a fortnight in Brixton under the same conditions as a prisoner on remand. He will drive to the Old Bailey not in the prison van, but in a taxicab with a warder.

He has lived in a light, fairly well-furnished cell—as prison furniture goes. He has worn his own clothes

and has had his meals supplied from a restaurant at his own expense. He has been permitted to have newspapers and books, and to receive visits from friends and his solicitors.

No special privileges have been given to him. He is a duke outside Brixton, but in prison he is an ordinary inmate in the remand grade, known by a number. He keeps the prison hours, early to rise and early to bed. He takes exercise twice a day round a court-yard under the observation of warders. He has attended the prison chapel services on Sunday.

He has done no prison work. Neither does any other prisoner on remand. The cleaning of his cell is done by another prisoner on small payment. Any prisoner on remand, with funds, can secure similar service. The duke has been a model prisoner.

## NOBLES OF MIDDLE AGES LICKED PLATES AT DINNER

"How Our English Ancestors Lived" formed the subject of an interesting lecture delivered recently at McGill University, Montreal, by Professor Waugh, according to "The Cleveland Plain Dealer."

Noble families in the Middle Ages, he asserted, shared common plates and cups, used fingers instead of forks, licked their plates, wiped their teeth on the tablecloth and scrambled for the largest portion. Books on etiquette issued in the fifteenth century pointed

out that these things were not good manners. The art of cooking in the Middle Ages flourished, however, cooks excelling at artistic and rich confectionery.

Dancing in medieval times was true to its name. Dancers really moved with nimbleness and agility instead of slowly posturing round the room in a manner of modern dancers. The noble and his family and servants lived and slept in the great hall of the castle, with next to no privacy.

The labor shortage has become so acute that you seldom see more than a dozen idle men watching a sign-painter.—Birmingham News.

**What is True Tire Economy?**

30 x 3 1/2 Fabric	\$13.00
30 x 3 1/2 Cord (Universal Tread)	\$15.50
30 x 3 1/2 Cord (Non Skid Tread)	\$18.50
31 x 4 Cord	\$31.75
33 x 4 Cord	\$36.15
33 x 5 Cord	\$56.40
35 x 5 Cord	\$59.15

It isn't the first cost of a tire that determines its economy. It is the service a tire gives that fixes its cost.

The cost of Firestone Tires is less because they give greater mileage in proportion to the investment you make.

Twenty-three years experience in tire manufacturing goes into every Firestone Tire. From this experience the Firestone user receives comfort, safety and all-around riding satisfaction to a degree that fully confirms the wisdom of his purchase.

See a Firestone dealer and practice true economy by buying your tires on a most miles per dollar basis.

The New Studebaker Special Six Touring Car

## Before you buy any car, see the STUDEBAKER 1924 Models

Studebaker presents its complete line of 1924 models, with the conviction that they will increase the prestige of the name Studebaker which, for 71 years, has stood for the best in transportation, quality and value of product.

Into these 1924 cars are built every proved feature in design that makes for the comfort, convenience and safety of passengers, and many refinements that further enhance the value of a line of cars already highly perfected.

It is common knowledge in the steel industry that Studebaker uses only the highest grades of the finest steels. And the same is true of the electrical equipment, instruments, bearings, batteries, upholstery, finishing paints, tires and accessories used in Studebaker cars.

It is equally well known that Studebaker, with \$90,000,000 of actual net assets, including \$45,000,000 of plant facilities, is unsurpassed in ability and resources to manufacture economically and give maximum intrinsic value for a given price.

Produced under these favorable conditions, the 1924 Studebakers are distinctly the finest cars and greatest values Studebaker ever offered.

These are not careless statements. They are facts that reflect the honesty and integrity of the manufacturer and its product just as they do the truth of Studebaker advertising.

The public has placed its confidence in Studebaker by accepting these facts, supported by the performance of Studebaker cars in owners' use. That's why Studebaker sales for the past six years have increased progressively each year and sales for the first six months of 1923 of 81,880 cars broke all six months' records.

Studebaker never cheapens quality to meet competition. The name Studebaker stands for satisfaction and service.

Power to satisfy the most exacting owner

ASSESSMENT PROTEST HEARD

Lancaster Summer Residents Present Case to Council Committee. The protest of the summer residents of the Parish of Lancaster against the 1923 assessment for police protection and a request for the repeal of the police protection law was heard today by the assessment committee of the Municipal Council. Commissioner Bullock occupied the chair and called on R. T. Hayes, M. L. A., who said the summer residents were complaining that their valuations were too high in proportion to the values placed on the permanent residents of the district. They were also objecting to the assessment of \$1,000 for police protection this year and he would like to know how this assessment was made up. Commissioner Campbell said the assessment was made up by police district No. 1 for police protection in district No. 2 and not assessed because of the dissatisfaction on the part of the permanent residents. Mr. Hayes said in his opinion the assessment was illegal and he would take his chances on refusing to pay and take the matter to court. Councillor O'Brien suggested that some arrangement be made to settle the matter and that the amount of \$1,000 be spread over four or five years. He also suggested that the present law be repealed and special constables be appointed for certain sections. D. Ushers of Martinon said as one of the permanent residents he was opposed to paying for police protection which was not needed. The matter was referred to a special committee.

LOCAL NEWS

PICNIC SEASON.

Rev. A. P. Allen is holding his picnic, that of Peterville parish, at Ennis-killen today. St. John's people had planned to attend. Rev. Wm. Moore's picnic at Chipman will be held on Aug. 22 and that of Minto on Sept. 8.

DEATH OF CHILD.

The sympathy of friends will be extended to Mr. and Mrs. Frank H. Mason of 161 Erin street, whose seven months old son, Ronald, died yesterday.

FAIRVILLE SCHOOLS.

It was announced this morning that the Fairville public schools will be open for the fall term on Wednesday, September 3, the same date on which the city schools reopen.

THEY DID WELL.

Elizabeth and Frances Parks, two little girls of St. George's, West Side congregation, held a very successful sale of candy and home cooking on the lawn of Mrs. John H. Lee, St. George street, at which the sum of \$26 was realized. This amount has been turned over to the building fund of St. George's church hall.

THE TAX LIST.

An error in the types made the tax bill of Wm. J. Walsh, grocer, Prince Edward street and Haymarket square, much smaller than it is. The correct figure is \$798. The same occurred in the matter of Charles A. Clark, City Fuel Co., his bill being for \$889.50.

RUSH NEXT WEEK.

Tax collectors for the city are keeping about the same as last year it was reported at the chamberlain's office this morning. Up to noon today more than \$800,000 had been received. The big rush is expected next week.

A PLEASANT OUTING.

The rector, wardens and vestrymen of St. John (Stone) church were delightfully entertained yesterday afternoon and evening at the summer camp of C. W. deForest, Golden Grove Road and those present reported having a very enjoyable time despite the fact that the so-called unlucky 13 was the number in attendance.

HARVESTERS NUMBERED 800.

C. P. R. officials announced this morning that approximately 800 harvesters left here yesterday for the west in a special train and in extra cars attached to the regular Montreal trains. Of this number 189 arrived last evening on the C. P. R. Bay steamer Empress from Digby and other places in Nova Scotia.

SEVERELY CUT.

Albert Clarke, thirteen year old son of H. A. Clarke of Manawagonish road, was severely injured on Friday morning while he was assisting his father in shifting the knives of a mowing machine. The boy's hand became caught in the machinery and terribly gashed. He was attended by Dr. V. D. Davidson and taken to the General Public Hospital. It required fifteen stitches to close the wound. He is now at home again and doing well.

AWAY FROM CITY HALL.

The burden of carrying on the civic government will fall on the shoulders of Mayor MacDonald, Councillors Frink for the greater part of next week, as Commissioners Wigmore, Thornton and Bullock will attend the convention of the Union of New Brunswick Municipalities, which is to be held at Campbellton on Tuesday, Wednesday and Thursday. The county will be represented by Warden John Thornton, Councillors William Golding and John T. O'Brien and J. King Kelley, K. C., County Secretary. They will leave on Monday.

BLESSING OF STATIONS.

On next Tuesday evening at 7:30 o'clock the ceremony of blessing the stations of the Way of the Cross will take place in the new Church of St. Joseph, Rev. Harold L. Coughlan, pastor, Loch Lomond Road. Rev. J. J. McDermott, pastor of St. John the Baptist Church, will bless the stations, and a sermon will be given by Rev. Simon Oram. Rev. C. P. Carleton will be Master of Ceremonies. Benediction will follow. It is anticipated that the attendance will be large. A silver collection will be taken up.

PLAYGROUNDS CLOSING PLAN.

Monday will see the closing of the supervised playgrounds. In order to make it more interesting the children from Alexandra and Carleton grounds will go to St. George's school grounds for the day. The exercises there will begin at 3:45. This will be possible for those who have cars and desire to do so to the both closings. Members of the Playgrounds Executive will do this, and they hope to see many citizens at each ground.

FAIRVILLE FIRE.

The explosion of an oil stove this morning caused a fire in the Windsor Dairy, situated at 82 Main street, Fairville, conducted by Mrs. Margaret Maloney. The fire started by the burning oil spread rapidly and for a time it was feared that the blaze would assume serious proportions, but the prompt arrival of the new chemical engine and the effectiveness of its fire fighting work was quickly demonstrated and the flames were extinguished before much damage resulted. This is the same property which was damaged but not destroyed in the big fire of last May, when seven properties surrounding it were raised. Fortunately no one was hurt. The damage was covered by insurance.

A HAPPY EVENING.

Announcement of the intended departure of Miss Carole Lydon and Miss Annie Murray for New York to take up the study of nursing has been a sad event in their honor. On Thursday Mrs. J. P. Connor, 197 Charlotte street, entertained for her daughter and last evening a beach party was held at Red Head. A bonfire was made and supper served and the occasion thoroughly enjoyed by everyone present. On the return to the city the party went to the home of Mrs. T. H. Lydon, 30 Waterloo street, where the remainder of the evening was passed in games and dancing. The two young ladies will leave this evening on the Boston boat en route to New York.

HIBERNIANS IN BIG CONVENTION

Will Have Two-day Session Here Next Week—Parade to Cathedral.

A meeting of the members of the County Board of the A. O. H. was held last evening, John Stanton presiding, at which final arrangements were completed for the N. B. and N. S. convention, which is to be held here next week. Train and room committees were appointed and other business transacted. It is not known how many delegates will attend the convention, but it is expected that the numbers will be about 800. The sessions will be held in St. Vincent's Theatre and the Y. M. C. I. The official call outlines the programme for the gathering, which will be attended by some 200 delegates. On Tuesday morning at 9:15 delegates and members, headed by Hibernian Knights in uniform and City Cornet Band will start from Division No. 1 hall, Union street, and march to the Cathedral for high mass at 10 o'clock. At 11:30 a. m. there will be a public welcome to the delegates in St. Vincent's auditorium, with addresses by the county president and others. The opening of the business session will be in the Y. M. C. I. at 2:30 p. m. The meetings will continue until Wednesday. A sail up river on Wednesday afternoon and a reception in the Knights of Columbus Hall in the evening will be features. The local delegates are: Division No. 1—John Stanton, Peter Sharkey, Wm. T. Stack, Wm. H. Coates, James McCarthy, Alternates—Jas. F. McAndrews, Minto; Wm. J. Williams, James O'Brien, Wm. J. Sullivan, Thos. Griffin. Division No. 5, Fairville—Daniel Murphy, James Hanlon, Richard Mulaney, Louis Keenan. Alternates—Jos. McGinty, John W. Butler, David Delaney, Wm. J. Evans. A. O. H. Knights—Edward L. McLaughlin, captain; F. J. McInerney, lieutenant. The county board officers are: Rev. J. Five Dentists Get Registration

Dr. F. C. Bonnell, 189 Princess street, chairman of the New Brunswick Dental Examination Board, this morning announced the results of the recent registration examinations held in this city. Eight candidates took the examinations and the following five were successful and are now eligible to practise in this province: Dr. P. E. Robitaille, of Shediac, graduate of Baltimore University. Dr. Percy M. Clarke of Newcastle, graduate of McGill. Dr. W. W. Carter of Salisbury, graduate of McGill. Dr. D. C. Dolson of Shediac, graduate of Laval University. Dr. P. L. Murray of Lord's Cove, graduate of McGill. Dr. Clarke is at present in the employ of the Board of Health.

DRUNKENNESS CHARGE.

Three men were before Magistrate Henderson this morning charged with drunkenness. All pleaded guilty. One was fined \$8 and the other two were held for investigation.

As Hiram Sees It

"I hear," said the Times reporter to Mr. Hiram A. Hornbaker, "you had the Rotarians out to the Settlement." "Yes, sir," said Hiram, "Fred Dykeman, he went in an' ask 'em to come out—'an' I guess they was just waitin' fer a chance say—them fellers must be half-starved in town." "No, no," said the reporter. "They are very critical about their food." "Be they?" said Hiram. "Well, sir, you'd never think it. Why them fellers stood in line with wooden plates as big as a hog trough 'n' he'd get stew ladled out by the quart—'an' then grabbed bread 'n' cheese 'n' stuff 'n' sot down on the nearest stone 'n' went to it like hay-makers. One feller went back to the stew-kettle three times—'n' then went hikin' rosberties for dessert. I did hev some notion o' hirin' a town feller fer the hayin—but after seein' them Rotarians eat I come to the conclusion I better let the hay spile 'n' hang on to the sular 'n' the panty—By Hen!"

ANTIMO WHITE

Strictly Pure Metallic Oxide BETTER THAN PURE WHITE LEAD

ANTIMO WHITE is non-poisonous. Two coats will do the work of three coats of Pure White Lead. It covers 25% more surface than Pure White Lead. It will not turn grey or yellow on exposure, and stands severest weather conditions. ANTIMO WHITE is equally good for interior or exterior use. It takes 50% more oil than Pure White Lead and will hide the surface underneath better. ANTIMO WHITE when reduced with oil dries with a rich, durable gloss, which it retains. With Turps a restful flat finish is obtained. No "chalking" or "peeling." Flows beautifully under the brush. Unaffected by gas fumes or vapors.

PHONE Main 2540 McAVITY'S 11-17 King Street

Children's Barber Shop—4th Floor. Close Saturday at One.

New All-Silk Canton Dresses

Via Fast Express From New York \$25

An extremely smart array that you'll just love to see. They are in black or navy with just a touch of beading, contrasting shade bandings of silk or gold thread embroidery. Styles that misses and matrons both will delight in. Sizes 16 years to 46 bust and very attractively priced.

New Sport Sweaters in New Colorings

New weaves and colorings you'll really have to see to appreciate their novel attractiveness. Coat and Pull-over styles feature striking block checks and plaids as well as plain shades with contrasting stripes on sleeves and skirt—\$2.25 to \$7.25.
