Our new government, with limited supplies and little clothing for its army, finds the situation desperate."

NEW PENALTY FOR THOSE WHO CAN'T PAY TAXES EARLY

Amendment Passed by Legislature Last Spring Provides For Payment of Interest on Amounts Outstanding After Discount Period

Few citizens are aware of the full extent of the penalties which must be borne by those who neglect or are unable to pay their taxes before the expiration of the discount period, which falls this year on September 10. In addition to the loss of the five per cent. discount and the payment of a constant fee of fifty cents, the delinquents also will be liable for interest on the unpaid taxes. The last named penalty is the new feature which goes into effect this year and which seems to have received little public recognition. It is an amendment to the act "relating to the levying and assessment of rates and taxes in the City of St. John" which was passed at the session of the legislature this spring. The section containing the amendment reads as follows: "The said common council may also, by resolution, in any year determine interest at the rate of one-half per cent per month or part of a month shall be paid on all city taxes and water rates on such part thereof as is unpaid after the day which has been fixed by resolution of the common council as the day on which such taxes or water rates shall be payable and payment of such interest may be enforced by the same remedies as are provided for the collection of taxes and water rates under section 21 of this act." It is expected that this provision will have considerable effect on the payment of taxes outstanding after the discount period has elapsed. Formerly the person who held off until after the last discount day had no further incentive for prompt payment. He had incurred the cost fee, and the natural tendency was to stand off the payment as long as possible in order to have something to show for the extra payments. Now the delay of each month or part of a month will cost one-half per cent of the total amount of the bill, and the earlier the taxes are paid the less interest there will be to be added to the total. This is an eminently satisfactory arrangement for the city's finance department, but the complaint which was made by citizens when the new rule was proposed was that it was too one-sided. The suggestion was made at that time that, if the persons could not pay their taxes in full before the discount date, there should be some encouragement for the persons who could pay at least part of their taxes early and that the discount should be allowed on part payments as well as to those who pay their taxes in full.

INDUSTRIAL SITUATION IN MOTHERLAND LESS GRAVE

(Continued from page 1.)

Much will now depend upon whether the coming winter brings a serious advance in the cost of living. Such an upward movement is already overshadowed in increased prices of staple foods such as bread, meat, milk and tea, and if prices continue to rise new demands on the part of labor with a renewal of the strike movement, will undoubtedly develop.

AGAINST USING NATIONAL STRIKE AS A WEAPON

London, Sept. 5.—Among scores of resolutions which will be submitted before the Glasgow congress of trades unions which will open on next Monday, there will be two outstanding subjects which have been topics of the liveliest debate at all labor gatherings in recent months: the use of the national strike as a weapon to enforce political demands. It is now virtually certain that the policy of direct action will be rejected. It was originally advocated to compel the government to abolish conscription, withdrawal from the Russian military enterprise, liberalize conscientious objectors and abstain from employing troops in industrial disputes. The government has already promised these reforms, and since the sense of the whole country with the exception of the extremists is against direct action, it is quite improbable that it will be adopted. The miners will advocate it and will contend with justification that the mere threat of its employment suffices to influence the government policy in the desired direction, and now, in fact, the actual motive in the decision to liberate the conscientious objectors and withdraw from Russia. Arthur Henderson, leader of the labor party, speaking in London last night admitted the workers must retain the right to strike for industrial purposes until such time as their organization is made substituting direct action for the constitutional measures which are provided.

Mr. Henderson said they had to "envisage the possibility of organized labor being called to form a government and ask themselves whether in that case they would allow a minority in opposition to labor's programme for social and economic betterment to defeat that policy by unconstitutional means."

PADEREWSKI SAYS HUNS ARE SEEKING VICTORY IN THE EAST

(Continued from page 1.)

To human endurance. We believe for a speedy ratification of the treaty and pray for the speedy influence of Allied troops in harassed districts, where plebiscites are to be held to determine the future status of those regions.

Roumanian Situation

Paris, Sept. 5.—Premier Bratiano of Roumania has advised Nicholas Misu, Roumanian representative here, of the receipt of the letter's dispatch advising him that the supreme council of the peace conference had prohibited shipment of arms and war material from Hungary to Roumania. The telegram declares that notes sent to Bucharest by the supreme council have not been received, and asks M. Misu especially to call the attention of the supreme council to the dangerous and perilous character of the policy it has adopted toward Roumania.

"The Roumanian government is absolutely convinced," the telegram continues, "that in destroying Bolshevism in Hungary, it has rendered eminent service to the Allied cause. As a consequence of the conditions imposed upon Roumania, without taking account of her sacrifices of men and materials, the Roumanian government may be obliged to consider the advantages of withdrawing her troops across the Dvina, in Southern Russia, and declining all responsibility for the chaos to which that part of Europe may be reduced by the dissections of the Bolsheviki, royalists and reactionaries."

Berlin, Sept. 5.—(By the Associated Press.)—Former Crown Prince Rupprecht of Bavaria has written the president of the Bavarian Diet announcing his intention to visit Bavaria's coast, and thanking the president of the diet for his assurance of the government's moral protection in the event his extradition is demanded by the Entente. Rupprecht says he will avail himself of the promised protection if it should become necessary. It is reported that the engagement of Rupprecht to Princess Antoinette of Luxembourg has been broken.

As far as the steel situation is concerned, the independents seem to be far more certain than the corporation that their plants will not be tied up. They have assured their agencies in this country that the chances for trouble are becoming more remote each week. There are signs in Canada, especially those building boilers, that have a fine line of business just now. They are buying very heavily and have orders that run well on into the future. In fact, in referring to one of these concerns a Toronto warehouse stated that: "We have sold more material to them in the last week than in any similar time since we have known them." There have been no price changes during the week except for a slight desire on the part of many in the trade to leave prices alone as far as possible. The claim is made that further increases simply tend to keep up and increase the agitation that is going on against the cost of materials. The United States points state that the exchange rate is hindering business there, especially anything that looks like export trade, as nations can purchase their needs to much better advantage in other markets where their money is worth more. The scrap metal market is passing through a peculiar era, for when there seems no good reason, unless it be that there is some manipulation going on in the larger centers, there was a slight breeze in New York about ten days ago and so far there has not been a corresponding recovery. Local dealers have not marked down their lists but they state that orders that are being quoted are only nominally correct and may change very suddenly. SALVAGE OPERATIONS BRING TO SURFACE OLD SPANISH COINS London, Sept. 5—The salvage operations on the Spanish galleon which sank long ago off Toborno, Scotland, have been partly successful during the last few days. Spanish silver coins recovered from the deep have been treated with acid, and of five submitted to an expert three have been declared to be in pieces of eight. An American has offered to buy all plates and salvers that can be recovered from the galleon, and pay 150 guineas an ounce for them, if they are in a good state of preservation. Should any of the plate be sacred pieces used by the priests on board in the celebration of mass, the purchaser is prepared to offer a much higher price. DODGE BROTHERS

APPOINT DEALER

Victory Garage and Supply Co., Ltd. Will Sell Popular Detroit Car in This Territory

Announcement is made by Dodge Brothers, Detroit, of the appointment of The Victory Garage & Supply Co., Ltd., 92-94 Dalhousie street, as their dealer in this city with a complete salesroom and service station.

The remarkable popularity of the Dodge Brothers motor cars has caused automobile men all over the country to clamor for sales privileges, but Dodge Brothers' policy of quality in selling methods, as well as quality in the cars, requires a painstaking investigation in every instance before a selection is made.

In this company Dodge Brothers have a dealer on whom they believe they can rely for both progressiveness and fair business methods.

The prompt manner in which Dodge Brothers assumed on the part of the position in the automobile industry is regarded as a striking testimonial to the high regard in which their name was held by the public ever before they did.

Prior to that time Dodge Brothers had built the vital parts for more than a half million other cars, establishing a reputation for thoroughness and mechanical skill.

This reputation has been more than upheld. It is said of Dodge Brothers that they spare no money or effort in building a car to suit their particular ideas of thoroughness in manufacture. What their ideas of this subject mean to the purchaser of their product may be imagined from the fact that they have a staff of more than 700 inspectors who do nothing but check up on workmanship in the various processes of manufacture. In addition there are several large departments devoted entirely to similar work, such as the physical and finished materials are subjected to tests so thorough as to leave no doubt of the quality.

It is significant that the first Dodge Brothers' motor car ever built was made up exactly as a car is made in the regular line of production. Ordinarily the "experimental job" as the first car is known, is built of castings because of the great time and expense involved in preparing dies for forging. Dodge Brothers, however, decided that their experimental car should be like the car they expected to build, in every detail, so that neither they nor the purchaser would be "fooled." So they spent almost a year in making these dies, and preparing otherwise for a completely manufactured car. As a result, when the first Dodge Brothers' car was built, it was built of the regular material of their product. As a further result this first car, although only an "experimental job," stands up as well as any of the hardest runs—experimenting under all sorts of road conditions—and with a record of more than 150,000 miles.

This is not an illustration of the many things unique in the history of Dodge Brothers as manufacturers.

Public approval of their product has been seen in the rapid expansion of Dodge Brothers Works made necessary by public demand. In December, 1914, when the works were only a few acres, today Dodge Brothers' Works cover ninety acres of floor space.

OLD INDIAN CHIEF PRESENTS ADDRESS

St. Marie, Ont., Sept. 4—The visit of the Prince of Wales was the occasion of a festival of peace and goodwill in the Soo. Of the town's 20,000 inhabitants a negligible number today failed to participate. The drive around the city covered all the principal streets and they were all lined with cheering people. Massed choirs of children sang patriotic songs on the passing of the royal visitor and the address from the city read by the mayor and the presentation of medals to war heroes of the town. In the course of his reply to the mayor's text the Hon. the Indian Highness said: "The further I travel in Canada the more reverence do I feel for the pioneers who first claimed to be civilized men and the foundations of this great Dominion of today."

Flawless weather made perfect the arrangements for the entertainment of the prince, who drove to the pulp mill at Spanish River, inspected the great locks, which join the inland seas of Superior and Huron and watched the process of locking through some passing vessels. The steel mills of the Algoma Company were viewed by His Royal Highness from the great international bridge, over which the prince walked to the centre, which marks the dividing line of the Canadian and the United States.

His Royal Highness enjoyed in the bright sunshine the broad view of the Canadian and American towns, the locks and the river of this beauty spot.

The visit to the Indian Reservation had to be cancelled on account of illness amongst the Indians. One old chief, however, journeyed down to the station armed with an address of welcome and loyalty to the throne from the redmen. His manuscript was carefully rolled in a mass of old newspapers.

MAINE PAIR ELUDE PARENTS AND MARRY

Head and Marion Gould Flee to Somerville—Young Farmer and Teacher—Bride Now Awaiting Forgiveness

(Boston Globe.)

The romance of a young Maine couple who eloped and were married despite the objections of their parents is revealed in the arrival in Somerville of Donald J. Heald, son of Fred H. Heald, a farmer of Lincolnville, Me., and his bride, who was Miss Marian Anne Gould of Belfast, Me. Heald is twenty-three years old and his wife nineteen.

They met last summer in the most approved summer fashion and the young man, who was visiting at Lake Megallowagoose, went out in a canoe, striking a sunken bowlder and being thrown into the water only to be rescued by a fisherman who was camping on the shore of the lake. The association thus formed rapidly ripened into love.

The bride is a graduate of the Belfast High School and the Normal School at Castine, Me., and has been a teacher at Northport, Me. The elder Heald felt that his son should continue his law studies at the Rockland branch of the Northwestern College and the parents of the young woman were of the opinion to send their son to the home of Rev. Edwin H. Sanborn, a Congregational minister, the marriage was performed.

Mr. Heald and Mrs. Gould reached the Rockland steamship wharf just in time to see their son and daughter standing on the deck of the steamship Camden as she pulled out from the wharf on her way to this city.

They arrived in this city Saturday morning and immediately went to the home of Mr. Heald's brother, Howard F. Heald, 19 Windmill street, West Somerville, where they will remain a few days awaiting word from their parents.

Young Heald said last night that he intends to continue his business of poultry raising at Camden and if possible, to also keep up his law studies.

PEACE TREATY DISCUSSION TO LAST FOUR DAYS

D. D. McKenzie and J. H. Sinclair Find Fault That Campaign Against Profiteering Has Been so Long Delayed—Premier Defends Cabinet Ministers.

Ottawa, Ont., Sept. 4.—Perhaps the most welcome utterance which fell from the lips of any member in today's debate on the address, came from the acting leader of the opposition, D. D. McKenzie to the effect that only four days would be allotted to the debate on the peace treaty, this decision having been reached at a conference of the parliamentary leaders, it also being arranged to take up the treaty discussion on Monday. Meanwhile the debate on the address proceeds. Mr. McKenzie, today devoted a great deal of time to criticism of the new board of commerce, which he scored for having gone to Washington for information and for having done nothing as yet to reduce the high cost of living. He criticized the government for having done nothing to pass legislation for an eight hour day in Canada. The premier was lauded for the references to labor in the peace treaty with which he was said to have been concerned but while he was busy at that work his lieutenant, Hon. Mr. Meighen was directing the prosecution of labor in Winnipeg.

The premier replied and twitted Mr. McKenzie vaguely about the result of the race for the leadership of the opposition. He explained that the delay in regard to the board of commerce was due to a desire to get proper men. The municipalities of Canada were long ago armed by the government with power to act against profiteering, of which they had not taken advantage. High prices were world-wide. Mr. Crerar had had the matter of high food prices under his attention for eighteen months but had been able to effect nothing yet. He, the premier, had heard no reasonable criticism of him for this. The court of commerce had already taken active steps in several instances notably that of sugar.

Mr. Sinclair, of Guysboro followed. He noted that the speech from the throne intimated that the session would be short. Why should this be suggested when the country was settling with unrest. He referred to the matters dealt with at the Liberal convention and said the abuses referred to there had yet to be investigated. He said the Canadian government railway dining cars, were the worst example of profiteering, where they charge sixty-five cents for a portion of coffee which they buy at Mulgrave for two cents.

Mr. Pedlow presented his bill in the House this afternoon to make Armistice Day, the second Monday in November, a permanent Thanksgiving Day. The bill was read a first time. Mr. Armstrong, of York, asked the minister of militia if he had any further statement to make with regard to the charges made that the overseas pay lists of soldiers had been padded with thirty thousand names? Did the government intend to take any action?

Major General Newburn said he had no personal knowledge of the matter, but he proposed to call upon Mr. McMillan, who had made the statement to give information whereby the investigation could take place. If Mr. McMillan was not prepared to substantiate his statements the matter would have to be dealt with in the proper way. Sir Robert Borden added that he had conferred with General Ross, the Paymaster General, and asked him for information on the subject. General Ross had replied that there was no foundation for Mr. McMillan's statement.

Sir Sam Hughes remarked that as he had felt the statement to be a reflection on his own term as minister of militia, and that he, too, had conferred with Gen. Ross. Although satisfied there was no foundation for the statement, Sir Sam Hughes said that he would like an investigation to be held.

In answer to the question by Hon. Jacques Bureau, Sir Robert Borden stated that the resolution on the order paper regarding the peace treaty was not there as the basis for a money bill, but merely to give the House the opportunity of expressing approval or disapproval of the treaty. If legislation was required in connection with the treaty it would be introduced later.

Arthur Trahan asked the prime minister whether the Canadian delegates at the Peace Conference had protested against Article Ten of the League of Nations covenant. He did this, he said, in view of the fact that Sir Robert had stated in his speech on Tuesday that the Canadian delegates had taken exception to certain provisions of the treaty. The prime minister replied that he had nothing to add to his speech on the subject.

Mr. Trahan pressed his question. Finally the speaker told him that it was not one which could be answered on the orders of the day. It should wait until the treaty was being discussed.

A very interesting lecture on his travels around the globe was given by J. A. Goodwin, second steward on board the S. S. Dorington, which is now in port at the Salvation Army Citadel, Charlotte street, last evening. There was a large number in attendance and the address was greatly enjoyed.

LIBERAL LEADER NOMINATED IN PRINCE EDWARD ISLAND

Prince County Convention Unanimous—Local Men Mentioned as Aspirants Move Nomination—Mackenzie King Announces Acceptance

Summerside, P. E. I., Sept. 4.—The Liberals of Prince county are feeling greatly elated, today, over the fact that they are to have as their candidate for the seat vacated by the death of Captain Joseph Read such an influential and outstanding figure as the new Liberal leader, Hon. W. L. Mackenzie King. The convention which gave him the unanimous nomination here today was not only one of the largest which the county has known but one of the most enthusiastic. Every prominent leader of the county, including the premier and local M. P. P.'s were in attendance and all were in great fighting fettle determined to roll up a record majority for Mr. King if a contest is brought on.

The Conservative press has endeavored to stir up dissension in the Liberal ranks by asserting that the offering of the nomination to Mr. King would be resented by the three local men who were previously in the running for the nomination but at the convention today these men, Messrs McLean, Saunders and Gallant warmly supported the nomination and in enthusiastic speeches rang the changes on the great honor and benefit which would come to the county if the coming premier of Canada was the representative.

There was only one name before the convention and that was Mackenzie King and the mention of the name was followed by applause and cheers. The feeling at the convention is but a reflection of the feeling among the people and that is that Prince county has everything to gain by what transpired today. It is significant that Mr. King was offered the candidature by two of the local aspirants who were delegates to the Ottawa convention and the third who was then on the island at once fell into line when the suggestion was made.

A Liberal County. The late Captain Jos. Read had a majority of 224 in Prince in 1917, including the soldiers' vote, or 767 with civilian vote only, so that Mr. King's opponent, who may be ex-Premier Arsenault, will have no easy undertaking especially in view of the Liberal provincial sweep last July when eight out of ten Liberals were returned for the county.

It is understood that locally there is no strong desire for a contest, but Ottawa may insist upon it in view of the effect which acclamation here might have on other constituencies in Canada. Every parish was fully represented at today's convention. Dr. J. J. McNeill, who moved the nomination today, was the spokesman of the delegation from Prince county, who invited Mr. King to run just after he was elected leader at the Ottawa convention. Summerside is preparing to give Mr. King the greatest reception ever tendered a public man when he arrives here to begin the campaign. J. H. Bell, who accepted the nomination for Mr. King today, leaves tomorrow for Charlottetown to take over the government which Premier Arsenault gave up today.

Had Choice of Four. Ottawa, Sept. 4.—With opportunities to seek election to parliament from vacant constituencies in four provinces, Hon. W. L. Mackenzie King today decided to accept the unanimous nomination tendered him by the full Liberal convention in Prince Edward Island now vacant through the death of the late Captain Read.

NO INQUEST INTO DEATH OF HAGHEY

Dr. F. L. Kenney, coroner, announced that no inquest will be held into the death of Henry Haghey, who was injured when struck by a street car in Main street sometime ago, and who died at the General Public Hospital on Wednesday. Dr. Dolan, of the General Public Hospital, speaking to The Telegraph last evening, said that death was due to chronic pulmonary tuberculosis. The inquest into the death of Marion Crawford will be held in the Masonic Temple, Germain street, tonight. Marion Crawford was struck by an automobile driven by Robert Hickey, in the Loch Lomond road a week ago last Sunday. She was brought to the General Public Hospital last Tuesday afternoon and died twenty minutes after being admitted. An autopsy was performed by Dr. Abramson, provincial pathologist, and Dr. Dolan, on Wednesday, and it was found that there was a fracture at the base of the skull and also strong symptoms of lobar pneumonia and meningitis.

Join Maritime Board. The Fredericton board of trade executive has decided to affiliate with the maritime board of trade and has selected H. S. Campbell, J. D. Palmer and J. S. Neill as delegates.

GENERAL SMUTS TO SUCCEED BOTHA

Cape Town, Sept. 3.—General Jan Smuts has been asked by the Governor-General of the Union of South Africa to form a government. The choice of General Smuts as premier to succeed the late General Botha, has been a foregone conclusion.

THREATENED WITH GENERAL STRIKE BY LABOR LEADERS

Sydney, Sept. 4.—Unless the Winnipeg strike leaders now imprisoned in the west, are released on bail before the 17th of this month, Canada will be faced from coast to coast by a gigantic strike embracing every industrial concern under union control, according to a statement made to the Canadian Press today by J. B. MacLachlan, United Mine Workers' district secretary. Mr. MacLachlan represented the situation as serious in the extreme unless the authorities grant the strike in Sydney—if it should come off.

A mass meeting of district 26 is being arranged for Sunday next at Glace Bay to be addressed by R. E. Blackstone, of San Francisco, and Mr. MacLachlan. It is probable that on the same day a similar meeting will be held in Sydney to discuss the Winnipeg situation. Mr. MacLachlan is authority for the information that four out of six of the board members of District 26 United Mine Workers are prepared at the present time to advise striking here, if bail is not granted to the western men before the time limit expires. The proposed strike is the most serious menace of the kind which ever threatened industry in Canada. If the plans of union officials as stated by Mr. MacLachlan are carried out, and the western authorities prove inflexible, there will hardly be a wheel turning across the whole breadth of the country from Vancouver east after the 17th. There does not appear to be any doubt that in Nova Scotia if the strike should be called the men of district 26 would respond at once. A majority of their leaders are known to be in favor of such action now, and the current of advice at the Sunday meeting will doubtless run strongly in the same direction. If the same spirit prevails among union men all over Canada it is hardly possible to exaggerate the tenacity of the situation.

T. & L. Congress Will Not Authorize It. Ottawa, Sept. 4.—Tom Moore, president of the Dominion Trades and Labor Congress, made the following statement today.

The executive of the Trades and Labor Congress of Canada has already interceded in an effort to secure the fixing of bail for the strikers incarcerated in Winnipeg. The minister of justice, speaking for the cabinet, has replied that the government declines to interfere with the decision of the judge who heard the evidence, asserting that he is the only one who can grant bail. This Congress is opposed to strikes for political purposes, and also to the European Syndicalist or One Big Union idea of a general national strike, or as it is explained in the press despatches stoppage of work, which, under these circumstances, is the same thing. The Congress, being a legislative body, has no power to authorize a strike.

Washington, Sept. 4.—Regret over the firing at an American army airplane on the border Tuesday, has been expressed by the Mexican government, it was announced today at the state department. Assurances were given that an immediate investigation would be made with a view to a satisfactory adjustment. The expression of regret was made after the United States embassy at Mexico City had formally called attention to the report of the incident by the American consul at Nueve Laredo.

Y. W. P. A. TO EQUIP KITCHENETTE IN G. W. V. A. BUILDING

A motion requiring all members to pay a stated fee was received with applause and passed with complete unanimity at the meeting of the Young Women's Patriotic Association in the G. W. V. A. rooms last evening. It was the general opinion of the meeting that such a step might reduce the membership but would give greater strength to the organization as at the present time a small number of the members are doing a great deal of strenuous work for which they receive no remuneration.

It was also decided at the meeting that should it be acceptable to the G. W. V. A. the Y. W. P. A. would equip a kitchenette in the building that might be used by either society as a convenience and economy for entertainments.

Miss M. Brock, the president, was in the chair, and the reports submitted were of more than usual interest.

In the absence of the secretary, Miss M. deSoyes, the minutes were read by Miss MacNeil. The treasurer, Miss H. Short, reported a balance on hand of \$1,248.80. It was announced that a gift of a silver card case with engraved monogram and inscription had been presented to Miss Helen Church as a token of appreciation of her valued and most efficient services and as an affectionate remembrance from her fellow-workers.

Report On Activities.
 Reports for the week of Soldiers' Day and the Prince of Wales' visit were then given. A card of thanks from the veterans for services in connection with the fair was read and Miss Upham reported on the ice-cream table. Miss Frink on the fortune-telling and Miss Sheldon on the fish pond. Miss Dodge and Miss MacNeil reported for the committee that had made sandwiches for the travellers' banquet to the soldiers.

It was said that \$84 had been realized through the sale of badges in the street and that Walter Goding had given two of the members who sold badges special prizes of pretty pins. Miss Brock spoke of having been appointed as one of the judges of the floats for Soldiers' Day. She said that Mrs. Kuhring had chosen her for one of the judges to be the president of the most representative of the young people's societies and that she had found her task by no means an easy one.

In referring to the canteen which the Y. W. P. A. conducted in the G. W. V. A. hall, during the two day celebration, Miss Brock declared it to have been the most strenuous of any work that the association had ever undertaken. The lack of equipment she said had made the task extremely difficult, even though an oil stove and a few other articles had been purchased. It was because of the inconvenience experienced on this occasion that the suggestion of furnishing a kitchenette in the building had arisen. Miss Brock said she had made the secretary of the G. W. V. A. if the rooms would still be available for the use of the Y. W. P. A. in the coming winter and he had assured her that the Y. W. P. A. would never be turned out of them. With this understanding and as a small return for the many kindnesses of the veterans the meeting declared in favor of furnishing a kitchenette should the veterans accept the offer. It was pointed out that both organizations would be able to use the equipment for entertainments. Each has already some of the necessary utensils and crockery.

Some discussion as to the canteen work in the Seamen's Mission during the coming winter took place. Attention was drawn to the fact that the Mission will be under the auspices of the Navy League and members were reminded of dues being payable to the League.

Fortnightly meetings.
 It was decided that meetings of the Y. W. P. A. should be held fortnightly and that new membership cards should be printed. The meeting had voted most enthusiastically in favor of a membership fee and the new cards were therefore an essential. The original motto: "Not for myself but for God and King" it was decided should appear on the new cards. Miss Irvine was appointed convener of the Thrift Stamp Society.

Arrangements were made for holding a rummage sale, Miss Alice Fairweather reported having promised Rev. Mr. Hooper that any special appeals for wounded soldiers would meet with a ready response from the Y. W. P. A. and said a letter of thanks had been received from him for a contribution for his fund from the Y. W. P. A. A letter of thanks was read from Miss Grady for a gift of flowers.

Stanley Harten, now awaiting trial on a breaking and entering charge, was acquitted when tried separately in connection with the wool stealing case last year, and did not owe his liberty to a disagreement of the jury as previously reported.

TRIP TO SPRINGS WAS A FAILURE

Mrs. Morgan Crossed the Continent Seeking Health, But Returned Discouraged—Tanlac Restores Her.

"I really crossed the continent—went from Calgary to Hot Springs, Arkansas and back—trying to get relief from my troubles but nothing helped me until I took Tanlac," said Mrs. Jessie E. Morgan, wife of a wealthy farmer living fifteen miles north of Calgary, Alberta. "Rheumatism has kept me crippled up for the past three years," she continued. "Not a day nor night passed that I haven't had terrible pains, running all through my lower limbs, and at times my feet would swell until I could hardly get a shoe on. I took all sorts of medicines that were recommended for rheumatism, and, if I hadn't had stomach trouble before, the medicines themselves would have done me good. I got to the place where I could hardly eat anything without suffering misery for hours afterward. When my appetite left me and I began to suffer so badly from indigestion, I began to lose weight and get weaker every day. At night I would sleep so nervous and restless that I couldn't sleep and I couldn't find any relief. I went to Hot Springs, Arkansas and took the baths there, but came home in as bad a shape as ever. Then I heard of Tanlac recommended so highly, and as I had taken nearly everything else I thought I might as well try it too. "I really took Tanlac hoping that it would straighten out my stomach, but didn't think that it would help the rheumatism too, but it was one of the happiest surprises I ever when I found that after my stomach began to get better the rheumatism was relieved. I kept on taking Tanlac and after a five weeks' treatment, I am not bothered anymore by either the indigestion nor the rheumatism. My appetite is wonderful, I can just eat anything I want and digest it. I can tell by the way my clothes fit me that I have gained several pounds in weight and I just feel myself getting stronger every day. My nerves are as steady as a rock, I sleep eight or nine hours every night and I only regret that I didn't know of Tanlac sooner, as it would have saved me a whole world of suffering and misery. "Tanlac is sold in St. John by Ross Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative.—(Adv.)

Pleasure Yacht Here. The yacht Sinbad IV, on a pleasure cruise from Boston arrived in port yesterday and is lying at Keegan's Point where she is taking on provisions preparatory to a trip up the St. John river. She is owned by Gardner B. Williams, of Boston, and in an interview with a Telegraph reporter, who was allowed to go on board and view the excellent appointments of the vessel, Mr. Williams spoke of his trip from Boston and mentioned his further plans. Mr. Williams is accompanied by his wife and Frank P. Munro and Mrs. Munro. Last night two other gentlemen, Lawrence S. Perival and Arthur Moody arrived by automobile from Boston to join the party, who are leaving today on a two week's cruise of the beautiful river with the intention of indulging in a little duck shooting. The ladies of the party intend to tour the province by automobile and join the yacht after the river cruise is over.

SENATORS ADOPT RESERVATIONS AS WILSON EXPLAINS

Washington, Sept. 4.—Four reservations to the German Peace Treaty were adopted late today by the senate foreign relations committee dealing with the Monroe Doctrine, withdrawal from the League of Nations, domestic question and article ten of the league covenant. By a vote of nine to seven, the committee adopted a reservation regarding article ten providing that the United States "declines to assume" any territorial obligation or mandate without express resolution of congress. The Monroe Doctrine reservation, adopted eleven to six, declares the United States shall be its interpreter. By the same vote, the committee adopted the resolution providing that tariff, immigration and similar domestic and political affairs of the United States shall be determined by that nation alone without intervention of the League of Nations. After adoption of these four reservations the senate foreign relations committee ordered the German peace treaty reported to the senate. A record vote was not taken. The reservations were incorporated in a resolution of ratification which will be the vehicle for disposition of the treaty by the senate. The withdrawal reservation was adopted by a vote of nine to eight and provides that the United States reserves the right under the provisions of the treaty to withdraw from the league. Chairman Lodge, of the committee announced that the treaty with the majority report would be presented to the senate early next week and that the minority report would be presented to the senate early next week and that the majority would be given three days thereafter in which to file its report. Consideration of the treaty in the senate probably will not begin until week after next.

SAY NEW TELEPHONE RATE SYSTEM IS EXPENSIVE

Halifax, N.S., Sept. 4.—The measured service system is in force this month for telephones of the Maritime Telegraph and Telephone Company in the business district of Halifax, having been ordered by the Public Utilities Commission. The Board of Trade and citizens generally are opposing the advance, asking instead that a flat rate increase be made. The new system went into force at the beginning of September. A delegation of the Board of Trade met the Public Utilities Commission today and urged that the measure rate be rescinded. They pointed out that in some cases the increase will be three and four hundred percent. The statement was made by the commission that only in one other city in Canada is a similar measured system in force, and that is in British Columbia. The commission was asked to rescind the order and wait at least a year, to see how it works out in British Columbia before experimenting with the plan in Halifax. The reply was that the request would be taken into consideration.

Action Needed. Guelph Daily Herald—Canada's Court of Commerce would do well to remember that procrastination is the thief of time.

and that profiteers need no time in which to still further hide the facts from an investigation. The individual rights of Canadians were not studied any too carefully during the war, and the individual rights of alleged profiteers should not be too carefully guarded now that peace is here. Use of the iron band and the application of speedy justice is the only thing that will save the Court of Commerce from the ignominy of the Cost of Living Committee.

DOG DAY IN THE POLICE COURT

In the police court this morning "dog day" was observed. One hundred and ninety-four cases were reported by the police and some have been served with summonses, while about forty or fifty have settled by paying the tax, \$2 and an additional fifty cents costs of the court, and seventeen appeared in the court this morning, while the other cases will come up later. Some instances have arisen where licenses have been taken out by those other than the persons who were reported for having the dogs on their premises, while some have moved out of the city.

The cases taken up this morning and disposed of were those of Isaac Webber, Arthur Colwell, John Sullivan, Frank Gordon, William Hawkins and Fred Bredo, all who paid the \$2.50 in court and their licenses will be provided in due course. One of this number asked the magistrate if they had to pay for dogs under age. To this the magistrate said, "It all depends what constitutes a dog under age, but I think that after a dog has been weaned it is eligible for a license." Andrew Grey, 165 Guilford street, was charged with having a dog which was not licensed. Policeman John J. Corr, 117 Brussels street, said the magistrate asked, "When did you see the defendant's house and there was a dog there, but when he went back again in September to serve the summons the defendant told him the dog was cross and they destroyed it. This was taken as a satisfactory explanation."
