#### MORMON COLONY STILL GROWING

People Have Founded Five Towns.

Are Arrogant and Law-abiding, But Strange Belief Makes Them Undesirable Citizens.

The Mormon is a religious coloniser. For the sake of his faith, he is ever ready to obey the mandate of his superiors and move to fresh fields. For the sake of the power, political, social, religious—that is involved, he is an earnest advocate of a policy of territorial extension.

Hence it is that the Mormon power has invaded Western Canada, and is already causing some apprehensions there. In the newly organized Province of Alberta, bordering the foothills of the Rocky Mountains, the Mormon stake of Zion. There eight thousand troopers from Utah are farming and ranching, and incidentally building up a strong cause of Latter Day Saints in the Dominion, as an integral part of the army of three hundred thousand that constitute the sect of the world over.

No less than eighteen hundred Mormon missionaries are scattered over the globe, zealously propagating their faith, without remuneration from the home centre. It was this ruling thought of expansion that led a small company of eight or ten families to leave Utah a few years ago, under the guidance of C. O. Card, who thus became one of the pioneers of his people in the Dominion, Canada, and who has had his reward of fame by having a town named after him.

There were a delegation appointed by the Salt Lake hierarchy to spy out the land, and their report must have been favorable, judged by the emigration that resulted and that is still under way.

A few miles north of the international boundary line Card and his company pre-empted Government lands and laid the foundations of their practice homes. They were the first agriculturists to settle in what had up to that time been looked upon as exclusively a ranching country. In fact, it was manifestly in the interests of the settlement to circulate such a report. But the Western Mormons, who have overcome the seeming obstacles of nature in cultivating the unpromising soil of Utah, were just the type of workers to solve the problem in Alberta, and hundreds of farmers are now making satisfactory living in the region.

Thus it happens that where, scarcely more than a decade ago, there were few signs of the wandering cowboy and his roving herds, now there are a score of towns and villages, each the prosperous centre of a grain and stock-raising region.

The Mormon has brought it to pass. As an industrious, law-abiding, frugal settler he is a welcome addition to Canada's Western pioneer population, where the dominant need is men, to cause the soil to bring forth its abundance, where, according to the Celtic fancy of Lord Dufferin, when Governor-General of Canada, one has only "to tickle the prairie with a plow to have it laugh back with a harvest."

But many thinking Canadians are, nevertheless, not so certain about the value of this human inflow, judged by their history as a religious-political organization. In numbers the Mormons are steadily increasing in influence and wealth. The first town, Raymond, was founded in 1901. In the period since then several other populated centres have come into existence—Cardston, Magrath, Stirling and Taber are each of which large districts are tributary. Heretofore Letbridge has been the northern gateway of this Canadian Mormonland, but the movement is spreading northward in the direction of Calgary. The Town of High River has recently been started between Macleod and Calgary.

Further evidence of Mormon activity in this "Stake of Zion" under the British flag is found in their recent purchase of the famous Cochrane ranch, composed of 60,000 acres of the choicest land in Southern Alberta, for \$4 an acre. A large beet sugar factory is in operation at Raymond, and this industry bids fair to be an important feature of their industrial life.

chairman, Coun. Vanwart, Dean, Fox, Connolly.

Hard labor committee (to act with the sheriff)—Coun. Lewis chairman, Coun. Bullock, Lantaulum, Sprout, Hooley, Connolly, Adams, Corcadden, Willet.

For relief of indigent ratepayers—Coun. Holder chairman, Coun. Sprout, Spragg, McEwan, Fox, Corcadden, Cochrane, Black, Selcton.

Lancaster ferry—Coun. Hooley and Fox.

Coun. Fox moved in amendment to the appointment of Mr. Anderson as tax collector of Lancaster that Jas. Bryant receive the position. Some discussion followed, the amendment being lost.

Coun. Sears moved that Constables Rawlings and Amos be appointed to patrol Bay Shore—Carried.

The highway assessment was then called. St. Martins, \$1,000; Simonds, \$1,500; Musquash, \$500; Lancaster, \$4,000.—Carried.

The loans granted were: St. Martins, \$400; Lancaster, \$1,200; Musquash, \$200; Simonds, \$500.

Coun. Fox asked why Lancaster wanted to borrow \$1,000 if \$8,000 was on hand.

Coun. Hooley explained there were a number of bills to be paid and the amounts were not on hand.

On motion of Coun. Baxter a telephone was ordered placed in the registry office, to be on the same line as the phone in the sheriff's office.

Coun. Kelly moved that the jail prisoners be taken to their work in conveyance, as the present system of taking them shackled together marching through the streets was a disgrace. Coun. Lantaulum seconded the resolution.

Coun. Lewis, Donovan, Shillington and Adams were appointed to have the road to Fernhill cemetery repaired by the jail prisoners.

#### Queen's Rollaway

Another great crowd of spectators and skaters were at the Queen's Rollaway last night, it being ladies' night. Over thirty couples took part in the grand march and the different formations were gone through in fine style, with Floor Manager Fells as instructor.

This is going to be a feature of every ladies' night, and will no doubt go with a snap. The management intend to have a one and two mile race in the near future, with other attractions to follow. The Queen's rink is a fine place to spend a pleasant evening. Band tonight.

ST. JOHN, N. B., MAY 15, 1907.

THE RUSSIAN DUMA.

In spite of the almost hopeless prospect existing at the convocation of Russia's sacred Duma, this body has so far succeeded in accomplishing its purpose for which it was elected. It has not indeed been able to put through any notable reforms, nor have the members, following the example of their predecessors, attempted to work a revolution all at once. On the contrary the policy of the second Duma has been chiefly to establish itself as a permanent feature of the Russian system of government, to retain that almost insignificant measure of power granted under the imperial manifesto, and by calm and judicious legislation to gradually acquire greater influence. Yet in spite of what might be called a stand-pat attitude the second Duma is a more potent factor in the life of Russia than the first assembly could ever have been. When under the emperor's authority, the first Duma convened, the majority of members, elected by a suffering people and flushed with what they regarded as the acquisition of power, endeavored to work miracles. They demanded, and insisted upon, wholesale reforms of a nature such as would at that time not be seriously considered by an autocratic government. During the elections, if the system instituted by the Czar can be called elections, there had been ample evidence that the revolutionary party as a whole was not in close sympathy with the Duma. Besides this there were in the latter part of 1905 a series of industrial strikes which so weakened the working classes that they were unable to actively support their representatives. Such being the case, the Emperor felt no hesitation in dissolving the Duma when its demands became too insistent and when it refused to bow to the will of his officers. The dissolution was followed by a series of minor disturbances, but not by anything approaching a general movement. Since that time, however, many things have happened. There has been a very material change in the make-up of the body. In the first assembly the party of the Left, the Social Democrats, Social Revolutionists and Party of Toil, numbered 116; the Constitutional Democrats, known popularly as the Centre, had 152 members; and those on the right, including Monarchists, Octobrists, Regenerates, Polish Nationalists and non-partisan, numbered 124. The left has increased in the second Duma to 132, the Constitutional Democrats now number only 116, while the Monarchists and allies have fallen to 154. The balance of power which still rests in the hands of the Socialists, is gradually swinging to the centre as the present representatives come to recognize more and more the abilities of their better educated colleagues. And not in the Duma alone, but in the empire as a whole, is this taking place. The revolutionists who, as a body, withheld their support from any party in the first Duma, are now strengthening the hands of the Socialists and Democrats, thus menacing the government. It is altogether probable that in the event of dissolution, the solid revolutionary party in Russia would organize a campaign against the government. This is feared by the Emperor for the probability of bringing on such a catastrophe which could result only in great loss of life. The danger of such a rising is augmented by the fact that the working classes are not now weakened as formerly through strikes, but have enjoyed a year of comparative prosperity and are better prepared to take the offensive. Beyond a few skirmishes over rather unimportant questions of policy the second Duma has not had any disagreement with the government, but has accepted the legislative programme laid down, and while steadily progressing toward the goal of reform is exercising much better judgment than did the first body.

THE ETERNAL QUESTION.

The eternal question of Coventry in England is facing a most perplexing problem. Some time ago it was decided to hold a Godiva Pageant and committees comprising the social leaders of the burg were selected. A certain member of the nobility, a countess by the way, has been chosen to represent Lady Godiva. But now the eternal question arises "What will she wear?" Lady Godiva's raiment on her historic career through the streets was painfully limited, and the ladies of the nobility, swelling in an abundance of costly and beautiful gowns, feel that it would be extremely undignified for one of their number to appear as did Godiva. They insist on a costume consisting of a blouse and skirt, but the historical committee will not listen to any such suggestion, maintaining that the pageant must be historically correct. There is not even a chance of compromise. This question of dress is always making trouble.

BRINGING HOME THE BODIES OF THE DEAD SHRINERS

Funeral Train With 28 Victims of the Wreck Will Probably Reach Buffalo on Sunday. SAN FRANCISCO, May 15.—The special train containing the bodies of 28 of the Shriners and others killed in the South Pacific wreck at Honouliuli last Sunday reached the Oakland pier at 1 o'clock this morning. After a change of engines, it immediately left for Buffalo and Pennsylvania points over the Southern and Union Pacific, St. Paul, Wabash and Pennsylvania lines. It will run a special time, and reach Buffalo Sunday noon, where a committee from Reading, Pa., Shriners of Balah Temple, will meet the funeral party. The train consists of a baggage car containing the 28 bodies, a composite car, a diner and one Pullman. The train left Santa Barbara with 19 bodies and took on 9 more on reaching San Luis Obispo.

EVERETT HOLDING FIRST PLACE IN CUP CONTEST.

Yesterday's test in the arithmetic contest, at the Currier Business University, developed some very exciting changes in the standing of the leaders. In the final tests a special premium is placed on speed. Yesterday, A. R. Everett, son of H. D. Everett, of this city, succeeded in wresting the leadership from Baird, the Hampton champion, and Harry Lockhart, of Norton, loomed up among the leaders, like a dark horse in the race, jumping to sixth place. The standing of the leaders yesterday was as follows: Points. A. R. EVERETT, CITY, ... 159 Murray W. Baird, Hampton, ... 159 Chas. E. Sharpe, Hampton, ... 791 Laura Aude, West End, ... 781 Arthur W. Kyle, Fredericton, ... 531 Harry Lockhart, Norton, ... 525 Harold Sullivan, Douglas Avenue, ... 503 A. Miller, North End, ... 483 Harry Seeley, North End, ... 481 John T. Trainor, North End, ... 403

THE WHITE MAN'S BURDEN.

What is the White Man's Burden? We'll tell you if you wait. It's beating dusty carpets, it is as sure as fate; It's taking down the stovepipes and cleaning out the soot; It's pulling tacks from oilcloths for many a weary foot. It's lifting down the pictures and hanging them again; It's seeing desolated his own peculiar den; It's eating frigid victuals in weariness and woe; It's lugging some things upstairs and others down below. It's helping with the housework, it's raking off the lawn; It's crooning to the baby what's got its nighties on; It's spanking of the big ones and putting them to bed; It's hustling at business to earn the daily bread. It's digging in the garden and planting sundry seeds, And later on it's going and extirpating weeds; This is the White Man's Burden he totes upon life's road. Say, aren't you sorry for him with such a heavy load?

CURIOUSE.

As an example of what men in the railroad business have to endure, a conductor on the Seaboard Air Line relates that while he was passing through a coach a few days ago a woman stopped him and asked how far they were from Weldon. He replied that they were about fifty-five miles from Weldon. She then asked: "This side of the other side?"

SO SWEET OF HIM.

"Hello, old man!" exclaimed Dudley at the Literary Club reception. "It's a pleasant surprise to meet you here." "Good of you to say so, old chap," replied Brown. "Yes, you see I was afraid I wouldn't find anybody but bright and cultured people here."

A SLIGHT JOKE.

It was 1.30 p. m. according to the indications of the cuckoo clock. "There is something the matter with my watch," remarked DeBore. "It doesn't go." "Perhaps," rejoined Miss Wearyun, as she vainly tried to strangle a yawn, "it is due to the unconscious power of personal association."

CIVILIZATION OF ANCIENT EGYPT

Valuable Discoveries Made by Prof. Petrie—People Wore Ornaments. LONDON, May 13.—Prof. Petrie, of Flinders, in a lecture Saturday to the British School of Archaeology, in Egypt on the first four months of last season, at Gizeh, and subsequently four months in the region of Assut, said the results represented the first and to some extent the second and third dynasties, as well as a period from the ninth to the twelfth. In the first thirty 49 graves were found in the Royal tombs of Abydos. The objects disclosed showed that the civilization of Assut was of the same character as that of Memphis. There were stone vases, bracelets, blue glass ornaments similar to those at the Royal house, but of a cheaper kind. There was a slate palette for painting. Wands were discovered with elaborate ivory carving, and knives of the first and second dynasty. The work had been mostly destroyed by the 28th.

NEW GUN PRACTICE FOR BRITISH FLEET

Tests Much More Difficult Than Heretofore. Such Good Scores Made Last Year That It Became Imperative to Make Conditions Harder. LONDON, May 13.—The new conditions are published under which the British fleet's heavy gun-layers and light eight-setters will be tested in 1907. For light, quick-fire guns and destroyers' battle practice the men will fire for 35 seconds, with the ship steaming at 12 knots an hour past a target 633 feet. The distance for 12-pounders will be 1,000 yards at the start and end of the run down to 920 on the beam. For 6-pounders, 2-pounder Vickers, and 2-pound automatic guns the conditions will be the same, except that the extreme beam, distances will be 800 and 700 yards respectively. Each ship will be allowed to use any colored sails, with a view of getting better results. The test of heavy guns covers a variety of weapons as diverse as the Dreadnought's 12-inch turret, guns of 1888. The test is made much more difficult, as in 1906 several ships made such good scores that it became imperative that the conditions should be more difficult. The admiralty state that in view of the great increase in the rapidity and accuracy of fire generally the target will be reduced in order to train the gun-layers to still greater accuracy of aim at the sacrifice of some rapidity. Rectangular bulletpoints are to be painted on canvas of all the old targets. Only hits and bulletpoints will be counted, but a record of the hits on the canvas outside the bulletpoint will be kept for the purpose of comparison with former years. The bulletpoints will be 12 feet square for turret guns and 10x3 for broadside armament, reducing the danger by one-half to three-quarters respectively. The fire started in the dry room of the gun was found that the use of Lord cordite charges produced much smoke, but after a hard fight the target before the smoke cleared away, and effectively preventing the gun-layers from seeing the fall of the shot, on which so much depended. In order to minimize this difficulty the range is to be increased to 2,500 yards at the beginning and end of the run and 2,400 yards on the beam. New target patterns have been issued to all ships, thus doing away with the outcry raised three years ago. The village has no fire protection, and the general stores of Victor Jordan and F. H. Becker, the first ten extended to the post office building and crossing the street destroyed the old Calvin Baptist church, Oddfellows' block and a small building owned by Eugene Duddy. All these structures were destroyed in saving their stock. The dwelling houses of Howard Sampson, Ralph Burnham, and B. L. Jones were slightly damaged. The fire was placed under control at the Dudley building shortly after 10 o'clock. The village has no fire protection, and help was sent from Bridgeton, about five miles distant, but when the aid arrived the local fire fighters had succeeded in stopping the fire. The embers set fire to the woods just outside the village and they are still blazing briskly at a late hour tonight.

MAINE VILLAGE BURNED

HARRISON, Me., May 14.—Nine building including those occupied by the industries in the village were burned tonight, entailing a loss of \$20,000. At one time the entire village was in flames, but after a hard fight the townsmen were able to check the flames before they destroyed the residential section. The fire started in the gun-layer plant and spread rapidly to the company's saw mill nearby. The Whitney plant was situated on the banks of a small stream directly across from the business place on Main street. A high wind carried the fire across the stream to the blacksmith shop and carriage factory of George Ross, and from Ross' building it spread to the large general stores of Victor Jordan and F. H. Becker, the first ten extended to the post office building and crossing the street destroyed the old Calvin Baptist church, Oddfellows' block and a small building owned by Eugene Duddy. All these structures were destroyed in saving their stock. The dwelling houses of Howard Sampson, Ralph Burnham, and B. L. Jones were slightly damaged. The fire was placed under control at the Dudley building shortly after 10 o'clock. The village has no fire protection, and help was sent from Bridgeton, about five miles distant, but when the aid arrived the local fire fighters had succeeded in stopping the fire. The embers set fire to the woods just outside the village and they are still blazing briskly at a late hour tonight.

A LA CARNEGIE.

"Prisoner, you are accused of stealing three revolvers and a gun, what have you to say?" "I am a public benefactor, your Honor." "How do you make that out?" "I am a self-appointed member of the disarming committee of the International Peace Society, your Honor."

NO MAN'S LAND IN NORTH FINLAND

On It Lives a Voluntary Exile With His Family—He Pays No Rent or Taxes. STOCKHOLM, May 12.—The newspaper Mellemhand says that on the Paavik River, Northern Finland, 69 degrees north latitude, at a point where Russia proper, Finland and Norway meet, there is a triangular piece of land which legally belongs to none of the three countries. It is a sort of no man's land. On it lives a voluntary exile, a young Swedish nobleman, who is a fugitive from justice, with his young Norwegian wife. He has made a comfortable little blockhouse, where the couple with two children live undisturbed by rent or tax collector or officials of any sort. Game is abundant, and there is plenty of fish in the river. The exile quietly awaits the time for the legal period of his prosecution to expire. The paper, without the nobleman's name and crime, but states that both are well known in Skania, his native province.

BOX OF JEWELRY

STOLEN FROM MRS. BERRY. Mrs. Sampson Berry reported to the police yesterday the loss of \$250 worth of jewelry which she claims was stolen from a dress suit case. Mrs. Berry with her husband, Capt. Berry, has been living with her mother, Mrs. McMackin, Orange street, and the two planned to leave yesterday for Nova Scotia. While packing a dress suit case, Mrs. Berry found that a box of jewels had been stolen. She notified the police and to work on the case. Two colored women who were working at Mrs. McMackin's house were taken to central station where they were put through a thorough examination. Mrs. Berry says that one of these women was sent up stairs on Monday, and she believes she entered her husband's room and committed the robbery. The stolen box contained a diamond ring, a gold watch, a silver watch, several valuable pins and a ring of peculiar design brought to Mrs. Berry by her husband from Buenos Ayres. Mr. and Mrs. Berry left today for Nova Scotia. If any arrests are made they will return to the city.

Just Because it is. Moving pictures and illustrated songs is the form of entertainment that is pleasing the public taste, now. Judging from the enormous crowds that are attending these shows all over the country—and the Nickel here is certainly holding its own, if not more, in point of remarkable attendance. For each picture mechanical effects are being introduced which considerably aid to the realism of the stories told and dramas enacted. Today will be the last opportunity to see the five pictures that have made such a hit with week, entitled Flat Dwellers, Prince of Wales at Lahore, Whirl Fishing, Peashooters for the Army, and the Witch's Day. The performance commences each day at 12 o'clock noon and runs continuously until 8 p. m., and from 7 till 10:30. One noticeable feature is the particular attention that is being paid by the Nickel force of employees to make it comfortable for the ladies and children.

Word has been received in the city that the First Presbyterian Church of Chicago will expend \$100,000 for missionary work this year. This church is under the pastorate of Rev. Dr. D. A. Morrison, formerly of St. David's Church here. There is excitement among the members of the Westfield summer colony caused by the report that the Methodist contemplate establishing summer camp grounds in that vicinity. The prospect of having the landscapersingers is naturally disquieting. The site will be definitely decided upon at a meeting of the camp ground committee which will be held on Thursday morning. Brandy Point has been suggested as a desirable spot, but it is understood that Rev. Thos. Marshall, the chairman of the committee, would not stand for the selection of a place with a name like that and Ingleisle near there, will likely be the spot selected.

ANNUAL MEETING OF THE SONS OF TEMPERANCE.

The executive of the New Brunswick Temperance Federation met in the V. C. T. U. rooms yesterday afternoon. A communication was read from Rev. J. H. Daggett, of Florenceville, expressing regret at being absent. The government's answer to the Federation was read. Correspondence with Hon. Wm. Pugsley regarding the proposed commission was read by Rev. Thomas Marshall. The government's request that the Federation appoint one of a commission consisting of three members to visit Prince Edward Island and inspect the working of the prohibitory law, was discussed. The following resolution was passed: "This Federation having before it the intimation from the New Brunswick government that we will be asked to appoint a member of a board of commissioners to inquire into the working of the prohibitory law...

TEMPERANCE BEING HELD AT GAGETOWN TODAY.

The Grand Scribe's report is as follows: The propagation work has drawn somewhat heavily upon our resources especially during the last quarter, but the work is now beginning to yield such returns as promise to make it very productive in every way.

The change in the Grand Scribe's office incurred in various ways, considerable expense, but this provides for the next six months at least. I refer to various printed supplies for the office which will be sufficient for some time to come.

The following Divisions sent in returns for the quarter ending Dec. 31, 1906: Howards, 10; Guttery, 5; Queens 21; Northumberland, 37; Sackville, 40; Richibucto, 42; Newcastle, 45; Westmorland, 50; Golden Rule, 51; Dalhousie 64; Bala Verte, 65; Granite Rock, 77; Moncton, 183; Britannia, 255; Gordon 275; Gloucester, 284; Louisbourg, 297; Campbellton, 306; Millstream, 305; Mt. Middleton 318; Silver Stream, 330; Ever Onward, 332.

Since the annual meeting, the following Divisions have been re-organized: Riversdale, 47; Coatesville, Kent Co., Charlo, 253; Charlo Sta., Restigouche, 254; McCarthy, Scotch Settlement, West Co., Curran 48; Westfield, Kings Co., Roquelin, 312; Poquetois, York Co.; Nevers Despair, 45; Weiford, Queens Co.; Garthside, 13; Benton Car, Grand View mond, 43; Debec, Car. Co.; Grand View 423; Sinder Mt., Kings Co.; No. Millstream, 407; No. Millstream, Kings Co. All of these had not been removed from the list of Divisions but had been dormant for a greater or less period of time and therefore were sending in no returns. Negotiations are now in progress for the re-organization of North Star, No. 37 at Salmon Beach, Gloucester Co., and Wilberforce, No. 3 at Milltown, Charlotte Co. and also for the re-organization of new Divisions at Bay du Vin, Northumberland Co., Teagouche, Gloucester Co. and St. Andrews, Char. Co. From Teagouche many have received an application with 32 names attached, and applications are being signed in other places named. The experience of the last few months in the Grand Scribe's office confirms the conviction previously held that to secure the best success for the order a man is needed whose entire time can be given to work among existing Divisions and organizing new Divisions at Bay du Vin, Northumberland Co., Teagouche, Gloucester Co. and St. Andrews, Char. Co.

Two new Divisions have been organized during the half year, and have sent in excellent reports for the last quarter. Corn Hill 778, Cornhill, Kings Co. and Waterloo, 238, Waterford, Kings Co. Into details concerning Temperance legislation, the steps recently taken in this matter and the place reached are familiar to you all. Some of you have seen many repetitions of the experience in past years.

Quite as much has been achieved in the last venture as in any other, and until conditions are produced from which it can and will issue. The pain in the neck and the headache have been but the finished fabric will finally be developed.

From the returns that have come in hand for the last two quarters the following summary may be of value. Initiated 158 257 441. Joined by card 1 1 13. Reinstated 1 1 13. 453. Withdrawn 26 14 40. Expelled 1 5 24. Suspended 156 81 249. Died 4 5 9. 238.

Net gain—170. In my report for the National Division for the year ending March 31st, '07, I state that the number of Divisions is 31 having a membership of 2,253, thus showing an increase in Divisions of 6 and in membership of 176 during the year.

It is a matter of gratitude that we do not have to record any invasion of our ranks by death during the past half year, and that so far as shown by the returns only five deaths took place in this time among our subordinate Division members. It is to be regretted that the increase in membership is so small. There seems to have been a tendency to abroad a suspension epidemic during the last two quarters.

In the six months ending Sept. '06, there were reported 107 suspensions and during the six months ending Mar. '07 there were 214. I assume that non-payment of dues has produced this epidemic. It is a serious matter to have our ranks depleted from any cause, but it is greatly to be deplored when it is regarded as outside form what appears to be on their part, either dishonesty, or careless business habits. Cannot some measure be adopted to lessen our losses through this cause.

REPORT OF LECTURER AND ORGANIZER. He said that in the prosecution of his work he had travelled about 4,000 miles. I have re-organized ten Divisions organized two new Divisions; have in hand 11 applications for re-organizations and three organizing out subordinate Divisions. My salary and expenses, not including printing, postage, etc., amounts to \$272.23, and my receipts from collections and donations amounts to \$183.08. This is only approximately correct. The report further went on to explain the necessity for good and thorough organization.

DOESN'T KNOW WHAT TO DO WITH \$12,000,000

"Silent" Smith's Nephew Bewildered by Sudden Fortune, and Has No Plans.

NEW YORK, May 13—George Grant Mason wants to know what to do with the \$12,000,000 suddenly thrust upon him by the death and will of his uncle "Silent" Smith.

And no wonder! Only three weeks ago he was merely a division superintendent of the Chicago, Milwaukee and St. Paul Railway, stationed at the little prairie town of Aberdeen, S. D. To-day he is a millionaire, and his temporary residence is at the aristocratic Yale Club.

His wife, who was a Miss Marion Peck of Green Bay, Wis., a small town, has gone back to her home at Aberdeen and to supervise the packing up of their household utensils and furnishings that might be all right in Aberdeen, but are scarcely the real thing for a mansion in New York or Newport.

It is more than likely that some of their neighbors in Aberdeen will secure many souvenirs in the shape of furnishings that might be all right in Aberdeen, but are scarcely the real thing for a mansion in New York or Newport.

LOYAL TO WIFE OF YOUTH. And right here he said that George Mason is no less a gallant gentleman than Joseph Choate, who, when American Ambassador at the court of St. James, endeared himself to every British woman by his response to a question at a dinner in London.

"Your's is a proud position, Mr. Choate, as ambassador from your magnificent country to the Court of Great Britain," said a woman. "Is there anything else you would rather be?" "Yes," he replied, "I would rather be Mrs. Choate's second husband."

So it is with George Grant Mason. He says that it was a lucky trip when he came to New York on an indefinite leave of absence from his post as division superintendent to attend the funeral of "Silent" Smith, but it was a much luckier when he went to Aberdeen and his neighbors there. There he met, wooed and won his wife.

NEW REGULATIONS FOR COAL MINING RIGHTS

Areas are Limited and Must be Worked—Development to Begin a Year from Date of Lease

OTTAWA, May 14—New and important regulations for the disposal of coal mining rights, the property of the crown in Manitoba, Saskatchewan, Alberta, Yukon Territory, and the Dominion lands generally, have been promulgated and will appear in the next Canada Gazette.

They provide that coal mining rights may be leased for twenty-one years at an annual rental of \$1 per acre, payable in advance. No applicant shall be allowed to lease more than an area of 2,560 acres. The tract must be contiguous and the area shall not exceed four miles in its greatest dimensions. Applications are to be made through the Dominion lands agent or a sub-agent of the district in which the territory the application must be made within thirty days after its being located. Where a dispute as to location occurs, the application will be decided by the minister of the interior upon hearing evidence.

Coal mining leaseholds embracing any portion of a township must conform to the Dominion lands system of survey. The lease shall include coal mining rights only, but the lessee may, upon application, be permitted to purchase, at the rate of \$10 an acre, whatever of the available surface rights the minister may consider necessary for the efficient and economical working of the coal mining rights granted in the lease. The lessee must begin operations in one year from the date of his being notified to do so, and shall produce the quantity of coal specified on such order. The order will not be given until the expiration of one year.

In no case will the maximum quantity required to be mined during each year be more than ten tons per acre leased. If this order is not complied with, the lease is subject to cancellation. The lessee cannot assign his rights without leave of the minister. Actual settlers shall buy at the pit's mouth whatever coal they may require for their own use, but not for barter or sale, at a price not to exceed 11 per cent, and the lease issued for coal rights shall be subject to such provision.

A fee of \$5 is charged for each lease. In addition to the rent, a royalty of five cents per ton of 2,000 pounds will be levied on the output of the mine. A sworn statement of the output must be given by the person operating the mine. In default of this, the lease may be cancelled.

In case of disputes provision is made for arbitration. The arbitrators will get \$5 a day and traveling expenses. Under these regulations, prepared by the minister of the interior, parties will be unable to hold coal lands for speculative purposes. They must be operated or are liable to cancellation.

GARIBO ADMITS CRIME AND PAYS HIS FINE. Appeal Against Conviction for Assault Has Been Withdrawn.

NEW YORK, May 15—The Herald says: Enrico Caruso, leading tenor in the Metropolitan Opera House, who was convicted of having annoyed Mrs. Hannah Graham in the Monkey House in Central Park and fined \$10, will take no further steps to fight his conviction. His lawyers have withdrawn their notice of appeal to the appellate division of the Supreme Court, and yesterday paid the fine.

Caruso was tried before Magistrate Baker, and although Mrs. Graham did not appear as a witness, the magistrate held that he was guilty. An appeal was taken to the General Sessions Court, which upheld the magistrate's verdict.

FROM EDITORIAL IN United States Trade Reports

We hear so much these days about the "Ground Floor" and yet very few realize how much has been accomplished in the building of fortunes by this Ground Floor idea, in fact almost every one of the great fortunes of today, originated from some lucky opportunity or far-seeing thought, which enables some one to know where to place a few dollars which will quickly jump into hundreds.

When we learn of an opportunity which is beyond the ordinary we feel we are doing a service to our readers in pointing it out. By far the best thing we have heard of for many months is the proposition of the Cove Hydro-Electric Co., whose offices are at 104 Tremont Bldg., Boston, Mass., and 128 Prince William St., St. John, N. B.

Our readers should look into this. The company is offering their shares at a price which is very low, and those who grasp the opportunity now will indeed be on the Ground Floor.

**REMARKABLE INVENTION FOR THE CULTURE OF HAIR**

**60 Days' Free Trial!**  
**THE COMPANY'S GUARANTEE**

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be directed to the hair roots, the effects of which are quickly seen in a healthy vigorous growth of hair. There is no rubbing and no drugs or chemicals of whatsoever kind are employed, there are no irritants or abrasion. It is only necessary to wear the Cap three or four minutes daily.

The eminent DR. I. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots) without resorting to any irritating process, the problem of hair growth could be solved. Later on when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfill and confirm in practice the observations he had previously made before the Medical Board.

DR. W. MOORE referring to the invention, says that the principle upon which the Evans Vacuum Cap is founded, is absolutely correct and indisputable.

An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.

**ANNUAL MEETING OF THE ROYAL SOCIETY OF CANADA OPENS AT OTTAWA**

OTTAWA, Ont., May 14—The annual meeting of the Royal Society of Canada opened today in the Normal School with an attendance of some sixty members from various parts of Canada. The presidential address by Dr. William Saunders was on agricultural progress. He gave a learned historical sketch of agricultural development from the earliest times and noted that a hundred and fifty years ago Great Britain not only fed all her own people but was a large exporter of cereals.

Now England annually imports and consumes two hundred million bushels of wheat. Analysis of the soil of the Canadian west showed that it was from four to five times as rich in the constituents necessary for the growth of crops as was the soil of many European countries. Canadian farmers were as well informed and more generally progressive than those of any country in the world, while the area under cultivation was relatively small it could be gazed with confidence that Canada would soon be one of the greatest food exporting countries of the world.

**SCOTT ACT APPEALS HEARD IN KINGS CO. COURT YESTERDAY**

HAMPTON, Kings Co., May 14—A number of Scott Act appeals were heard by his honor Judge Wedderburn in the county court of Kings county today, adjourned from the April sitting.

Appeals against three convictions against Hugh J. McCormack of Sussex were on the docket. Of these two were abandoned and his honor directed that the costs of the appeals be added to the amount of the convictions against McCormack. The other appeal stood over until after the hearing of the appeal of Edward Wilson of Heath Hall, Hampton Station. In this case A. A. Wilson, K. C., appeared for the Scott Act Inspector and Mr. Jonah for the appellant. The only witness was H. T. Cusick, the inspector, the informant, Joseph Farmer "skulking" as his honor characterized Farmer's non-appearance when called to the stand. Indemnities were made by the counsel that the witness required was being kept out of the way, and Judge Wedderburn expressed very strongly his condemnation of employing informers who were so unreliable that their attendance could only be secured by a bench warrant. He hoped that hereafter a different class of men would be employed.

Mr. Jonah raised some questions upon which he based a motion for quashing the convictions, the legal points of which were reserved, and Edward Wilson went on the stand, claiming that he was in charge of the hotel until May 1st under arrangement with Mr. McIntyre, the proprietor. He took possession about Jan. 26th and found the liquor and bottles in the bar, the same which were seized by the inspector. He never sold a drop of intoxicating liquor over the bar, nor ever saw anyone take a drink in the bar. No one but he was ever in the bar. No liquor has been shipped or received by him since he took charge. He sells only soft drinks. Jas. M. McIntyre was called to prove that Stanley Lawton had a vendor's license, he having been instrumental in securing it for him. After Lawton left an effort was made to get it transferred to it or it had been "mislaid."

Mr. Jonah renewed his motion to have the convictions quashed and added that there was no evidence that intoxicating liquor had been sold on the premises within the period named in the information. Judgment was reserved.

The King against William Cummings was struck off, the informant being away in the states.

In the appeal of Joseph Brand there was no appearance, and his honor ordered the costs to be added to the conviction.

The case of Hugh J. McCormack was then taken up, and he was put on the stand, but Mr. Wilson could not get him to admit that he sold or kept for sale between the dates named in the conviction.

Court adjourned till 10 o'clock Wednesday.

**LOST \$1,300 IN GOLD BY MAKING GARDEN BANK Farmer Who Had No Faith in City Banks Robbed of Treasure.**

KOKOMO, Ind., May 13—Leonidas Pickett, a well-to-do Howard county farmer, admitted a loss of \$1,300 through a practice of burying his savings in the ground on his farm. Doubting the safety of banks, he put his money away in a sheet-iron box in a corner of his garden. The last time he made a deposit his cash on hand amounted to exactly \$1,300.

Not having occasion to use any of the money, he did not visit the place where it was buried for several weeks. One day he decided to make another deposit. Taking a spade he went to the place where it was buried for several weeks. At first he thought he might have missed the location of the buried treasure, and he made several other excavations. His search was in vain, the money was gone.

Pickett was so chagrined over his loss that he did not tell any one of it for several weeks. Recently, however, he employed detectives to try to recover the missing money. Through them the fact of Pickett's loss became known to some of his neighbors. The story was so remarkable that some of them questioned him regarding it, and he admitted it was true.

**KENTVILLE CASE BEFORE THE SUPREME COURT**

OTTAWA, Ont., May 14—In the supreme court today the application in re Townsend for discharge on habeas corpus was made. The applicant is confined in the common jail of Kings county at Kentville, N. S., on commitment under a conviction for an offense under the Canada temperance act, by E. M. Beck with, as stipendiary magistrate for the county. It is contended that the committing magistrate, at the time of the trial and conviction, had no jurisdiction to try and convict the prisoner and that the office in which he acted had not been abolished by implication by a provincial statute and other orders appointed in newly created territorial divisions who had superseded him in office and authority, each in their respective municipalities.

J. A. Power and J. A. Ritchie appeared in support of the application. Ritchie, K. C., contra. Judgment reserved.

**CREWS AT WORK HOPE TO HAVE REQUIRED AMOUNT BY SATURDAY NIGHT**

**Montreal Port Business Only Partially Tied Up**

At One Time Strikers Attempted to Interfere, But Were Routed by Police—Appeal to Labor Department

MONTREAL, May 14—The first day of the longshoremen's strike saw the business of the port only partially tied up, all the companies managing to obtain their crews for their vessels, the crews of which also lent a hand in the cargo shifting. In only one instance was there any attempt made by the strikers to interfere with the men at work, and that one did not amount to much. The police quickly dispersing the strikers, though no arrests were made. The feature of the day's news was the appeal made by the shipping federation to the Minister of Labor at Ottawa for the appointment of a board of conciliation under the Lemieux Act.

Last night it was proposed to arrest the leaders of the strike under the clauses of this act, but it was apparently decided that such a move might do more harm than good, as the act has not yet been tested in the courts, and there would necessarily be great delay in obtaining a full order.

The federation held a meeting this morning and another this afternoon, the outcome being the application to the labor department. The act provides that men shall not go out on strike or employers lock out their men pending the inquiry by a board of conciliation.

Three disregarded the law by quitting work and it would therefore appeal to the labor department to get them back to work before appointing the board. The minister of labor is very anxious to make the law a success and even influence possible before the men are employed, and the resumption of work. That this will be difficult is apparent from the fact that its men an increase of 2-1/2 cents per hour all round to return to work and the offer was rejected without consideration.

There are seventeen ocean going vessels in port at present.

OTTAWA, Ont., May 14—The steamship men of Montreal have asked that Scott Act appeals be applied to their dispute with the longshoremen adjourned from the April sitting. Robb, secretary of the Shipping Federation, has wired the department of labor that the federation is making a formal application for the appointment of a board of conciliation.

**HOPE TO HAVE REQUIRED AMOUNT BY SATURDAY NIGHT**

President Tilley in His Annual Report Stated that Only \$3,441.27 was Now Required to Complete Building Fund -- Contractor Maxwell Ready to Begin Work Next Monday -- New Board of Directors and Trustees Elected.

The annual meeting of the St. John Young Men's Christian Association was held last evening in the association's temporary rooms on King street. The annual reports of the president and treasurer were received and approved. The directors and trustees were also elected.

President L. P. D. Tilley's report was as follows:

During the past year the association work has been greatly curtailed, as you are all aware, by reason of the limitation of the association's quarters, and because of the lack of inducements to offer our members.

While the association work, with the exception of the boys' branch, has remained almost stationary, there is still a live interest felt by the members and subscribers in the association work. The needs of such an institution are as great, if not greater, today than they were ten or fifteen years ago.

It is with pleasure that I am able to report that the tenders have been awarded for our new building and the contract today signed by Robert Maxwell for the construction of the same.

The following is a statement of the building fund as it stands at present:

Land paid for.....	\$7,000.00
Cash on deposit in the savings bank account of the Royal Bank of Canada, the Bank of Nova Scotia and the Bank of New Brunswick with accrued interest.....	25,702.61
Unpaid subscriptions which are considered good and collectable as soon as the building is started.....	19,136.12
The Ladies' Auxiliary, cash on hand and to be collected.....	3,000.00
Leaving a balance of.....	\$54,838.73
.....	5,161.27
.....	\$59,999.99

On account of this balance, the board of trustees and board of management have instructed their personal subscriptions within the last week by \$1,470 and from other subscribers \$250, making a total of \$1,720, leaving a balance to be secured by Saturday midnight next of \$3,441.27.

If every member of the board of trustees and board of management and our association members put their shoulders to the wheel, we should not only have this small balance wiped out by Saturday night next, but should have something additional laid by for any unforeseen contingencies.

I take this opportunity of making a personal appeal to the citizens of St. John who have not already subscribed to this fund, and to those who could increase their subscriptions, give the association a helping hand in the immediate reduction of this balance, so that on Monday next the sod may be turned and building operations commenced.

An inspection of the architect's specifications and plans will satisfy you that the building about to be erected will be in every sense of the word a credit to the city of Saint John.

The sub-basement will contain the heating apparatus and the bowling alley; the basement, a splendid swimming pool, shower bath, gymnasium lockers, business men's lockers and boys' lockers, all of which will be connected with the gymnasium building.

The ground floor as you enter, will contain a large cheery parlor or recreation room with an open fire-place opposite the entrance. Off it will be the reading room and other rooms.

The first floor will contain the assembly room, educational class rooms, etc. The second and third floors will contain a large cheery parlor or recreation room with an open fire-place opposite the entrance. Off it will be the reading room and other rooms.

**JUDGE MORSON GIVES IMPORTANT DECISION**

TORONTO, May 14—Selling ice cream, candies and oranges on Sunday is part of a restaurant keeper's ordinary calling Judge Morson holds. His honor today in a lengthy judgment quashed a conviction against John Devlin of Sunnyside, who was fined in the police court. He says it makes no difference whether confections are eaten on the premises or carried away, but if a candy dealer sold them he would be liable.

At Hallowbury yesterday Walter P. Wilkins, a prominent and wealthy brewer, was sentenced to four months imprisonment for violations of the Liquor License Act. As a result he promises to embark on a legal fight with the provincial authorities with a view to determining the powers and effect of their license laws. He claims to be a holder of a wholesale license in Montreal and says the sales were actually made there.

**WESTERN FARMERS ARE JUBILANT**

WINNIPEG, May 14—Excitement on the grain exchange here during the past two days has been unprecedented. Prices went soaring, and though there were many reaction brokers were making money and business was fast and at times furious. When the market opened this morning July wheat advanced to 97c, opening at 96c. When it reached 97c, mark it fluctuated up and down at Liverpool advices were received showing that the price of wheat had dropped there. Many local brokers this morning state that in their opinion the price has reached its height and they are looking for a slump. Farmers are jubilant over the rise in prices. They see in advanced prices a solution of many difficulties. Whether they will put their wheat on the market remains to be seen, as many will doubtless hold out for still higher prices. It is thought that in the west there are between 15,000,000 and 20,000,000 bushels of wheat.

**COURT HOUSE AND JAIL A DISGRACE**

Chief Justice Speaks Strongly at Burton.

Lieut. Governor Gives Silver Medals for High School Entrance Examinations at Fredericton

FREDERICTON, May 14—The lieutenant governor has offered 13 silver medals to be competed for by the pupils of the 8th grade at the High School entrance examinations in June next, and thereafter annually during his term of office. No others than regular pupils of the eighth grade are eligible for this competition. The examinations will be held in accordance with the provisions of regulation 46 at the several grammar schools and at such of the superior schools as submit suitable applications to the chief superintendent not later than the 1st day of June. One medal will be competed for by the pupils of each county, except that for the purposes of this competition Madawaska and Victoria will be reckoned as one county and Stanbury and Queens as one county. The medal will be awarded to the pupil making the highest aggregate marks in each case, provided that no candidate falling below the second division shall be entitled to a medal.

Sunday court opened at Burton this morning. Chief Justice Tuck presiding. The grand jury found true bills against the prisoners McLean and Adams, charged with theft and breaking jail. The prisoners are still at large.

The chief justice, in addressing the grand jury, spoke very strongly. He said that the court house and jail were a disgrace to the county and by far the worst in the province. He criticized in the strongest language the present condition of both buildings, and urged that the county should take steps to rectify the state of affairs as now existing. He referred to the case where a man once found guilty of murder was allowed to go free, as the municipality refused to undertake the expense of erecting a gallows. The grand jury recommended the erection of a new court house and jail at Grand Falls, and also the payment of fees to grand jurors. The judge instructed the clerk to forward the latter recommendation to the attorney general.

Raffling operations at the Mitchell hotel will begin tomorrow morning. Dr. Henry, late chief assessor, informs, leaving on the 27th of this month for the northwest, where he has bought property and will in the future locate.

**ST. JOHN LAW SOCIETY**

The annual meeting of the St. John Law Society was held yesterday afternoon in the Pugsley building. Several reports were heard, some routine business done and the council for the ensuing year elected.

The members of the new council are: Hon. C. N. Skinner, K. C.; Daniel Mullin, K. C.; E. J. Kaye; Attorney General Pugsley; Dr. A. W. Macleas; Silas A. Ward, K. C.; A. I. Trueman, K. C.; A. A. Wilson, K. C.; G. Sidney Smith, K. C.

President Daniel Mullin, K. C., was in the chair and in the absence of the secretary, A. A. Wilson, K. C., Dr. A. W. Macleas was secretary pro tem. The reports of the council, the secretary and the librarian were laid before the meeting. The two former were adopted as read and the last named was referred to the incoming council to report on the same at a postponed meeting of the society to be held on June 25th. The new council will also consider the condition of the law library and means of improving it.

**S. A. OFFICERS FAREWELL**

Farewell services were held in both the Brindley street and the Charlotte street S. A. barracks last night. At the former Ensign and Mrs. Ritchie bade adieu to their co-workers and will leave this morning on a brief furlough. It is not yet certain where they will be stationed in the future. They have been in charge of the work at the Brindley street barracks for some time. They will be succeeded by Ensign and Mrs. Jaynes, who are expected to arrive in the city on Thursday.

Adjutant and Mrs. Thompson are also leaving the city. Their farewell took place at the Charlotte street barracks. Adj. Thompson has done splendid work while in charge of the Metropolitan here, and will be much missed by his brother officers with whom he was very popular. His next post of duty will be at Montreal, where he will be in charge of the Army's immigration work.

KNIGHTS OF PYTHIAS ARE GETTING READY FOR BOZTON

A Mass Meeting to be Held This Evening—Big Crowd Likely to Go With Encampment

Tomorrow, Thursday evening in Castle Hall, Germain street, there will be a mass meeting of the Knights of Pythias of the city with the object of forming a Boston '08 Club, or in other words the inception of a large number of the brethren to attend the Supreme Biennial Encampment to be held in the autumn of 1908 in the city of Boston, which Encampment will be attended by upwards of 20,000 Knights of Pythias. There is a general movement on foot in this city to introduce the new American uniforms which are remodelled more closely upon military lines, than the showy broadcloth and plumed helmets now in use. Should this scheme carry it would result in a large number of North End Knights now banded in St. John Lodge No. 33 and Cyrenus No. 2 companies, already strongly established. Grand representatives A. Dodge and LeBaron Wilson returned from Fredericton today after having paid an official visit to the Knights of the capital city, in Fowler Lodge. They report enthusiasm among the Fredericton Knights of Pythias for the Boston project, which interest is also general in Halifax, Chatham, St. Stephen, Moncton and other Maritime Province cities. It is estimated that over 250 will take part in the trip to Boston from this section of Canada taking with them a regimental band or two and a large camp following.

WEDDINGS

STAPLES—MRS. LINDING. A quiet but pretty wedding took place in Germain street Baptist church at six o'clock this morning, when Rev. W. W. McMaster united in marriage Miss Mabel Louise Golding, daughter of Mrs. Emily E. Golding, and Mr. Allan Staples of Fredericton. The bride, who was unattended, was attired in a costume of pongee silk with black picture hat. Her travelling suit was of navy blue serge. Only the relatives and immediate friends of the contracting parties were present. Mr. and Mrs. Staples left for Halifax where they will spend a few days. They will reside in Fredericton where Mr. Staples is located as consulting engineer of the Coe Hydro-Electric Co., Ltd.

FOSTER-BARKER.

A fashionable wedding takes place at four o'clock this afternoon when Miss Emma Leontine Barker, daughter of Mr. Henry W. Barker, will be united in marriage to Mr. Frederick A. Foster of the firm of Robertson, Foster and Smith. Rev. E. B. Hopper will perform the ceremony at the bride's home, 219 Germain street. The rooms are beautifully decorated in yellow and white. The bride will be given away by her father. She will be attired in a costume of white chiffon and tulle with Princess lace and will carry a shower bouquet of white roses and lilies of the valley. Miss Beattie Foster, sister of the groom, will be bridesmaid. Her gown is of white silk, with white picture hat. Capt. Beverley H. Armstrong will support the groom. The newly married couple will leave on the six o'clock train for a trip to the States. The bride's travelling suit will be of brown cloth with hat to match. On returning from their wedding tour, the young couple will reside at the corner of Garden and Hazen streets.

CORONERS OBJECT TO ACTION OF THE COUNCIL

They Want Their Money for Views Held and Claim They Have a Right to be Paid.

The two city coroners, Dr. D. E. Berrynan and Dr. W. F. Roberts, are very angry with the action of the municipal council in turning down their bills for holding views. Coroner Berrynan says that he does not know who it is that is to judge whether or not an inquest is to be held if it is not the coroner, and how is this to be decided unless a view is made? The coroner does not go looking up these cases, there is a sudden death and the physician in charge of the case, or a policeman or any other citizen calls on the coroner, the latter must make enquiries regarding the death and decide whether or not an inquest is necessary. He has then to make out a certificate of burial to give the undertaker before the remains can be interred. When a coroner makes one of these certificates he should be paid for his services and the law further says that when the municipal council refuses to pay a bill it shall be taken to the attorney general who can order it to be paid.

Coroner Roberts says that he can't see why the municipal council should refuse to pay the coroners' bills for holding a view. The coroner is called to a case where the death of a person occurs without medical attendance. Only the coroner in this case can give a certificate for burial and there is no other person appointed to judge whether or not an inquest should be held. The law provides that a coroner should be paid for holding a view and making enquiries; the coroner might find that foul play had been committed in connection with the death and he cannot pay a bill to attend views, make enquiries and give certificates of burial without being paid for his trouble. Coroner Roberts says that he feels as he should not respond to the next call when he is not to be paid for it. The council can be taken to the attorney general. Coroner Roberts said that he tried this once and was only allowed half the amount asked for.

MAJOR WETMORE WILL GO ON THE BISLEY TEAM

Major O. W. Wetmore, of Clifton, shot in the Dominion Rifle League series last year and won 21st place in the Bisley aggregation. One of the twenty who secured leading places last year, was member of a Marksmen rifle club, and did not belong to the militia. Not being a militiaman he fails to qualify and Major Wetmore takes a place on the Bisley team. The latter in all probability will enter the competitions this year, and New Brunswick will be represented in the Bisley series. Major Wetmore thinks he can arrange to get away. The team will leave Canada about the middle of June.

EVERYDAY CLUB.

Anyone who saw the Victoria grounds just after the snow went off, with fences down, grand stand collapsed, doors and windows out of the house, and everything in the most dilapidated condition, will hardly recognize them at the sports on May 24th. The Every Day Club are not making everything new, but merely putting on new repairs as will make the place presentable, but that alone is a large contract, calling for much material and work. The fence will be patched up, the house fixed, part of the grand stand restored, repairs made to "the bleachers," and the grounds rolled. Last evening a lot of work was done, and hereafter it will be carried on all day as well as in the evening, to have it completed for the great sports on the 24th. Several runners have already been on the track preparing for the races, and the diamond was alive with ball players last evening. These grounds should be a great centre of attraction this summer. The dine entertainment in aid of the grounds fund, to be held in the Every Day Club hall on Friday evening, will be entirely different in its features from that of last week.

FRENCH PARLIAMENT DISCUSSES LABOR POLICY

PARIS, May 15.—The prolonged and heated debate in the Chamber of Deputies yesterday on the interpretation of the Government regarding its labor policy attracted intense interest, but ended as was anticipated, in a vote of confidence in the Government. The vote was taken after a strenuous attack from the extreme Socialists, led by M. Jaures, and stood 317 to 214.

BANK OF NOVA SCOTIA AND THE FURLONG PROPERTY

Although no formal announcement has been made it is understood that the Furlong property on the corner of North Market and Charlotte streets has been purchased by the Bank of Nova Scotia and Timothy Collins & Co. The price paid is said to have been \$60,000. Miss Furlong the former owner of the property does not care to say anything about the transfer just now, and manager Eason, of the Bank of Nova Scotia states that as yet there is nothing to be made public. It is understood that Messrs. Collins have secured that portion of the property fronting on North Market street on which their business is situated and will retain it for their own use while the bank will take possession of the large corner building now occupied by several firms. The present building will be left on the site but will be altered to suit the requirements of the bank.

Still no tidings have been received of the whereabouts of Robert McGill, and the general belief is that he has committed suicide, jumping over a wharf.
