**ANOTHER ADVANCE  
IN MEDICAL SCIENCE**

**Wisconsin Man. Discovers a  
Cure for Lockjaw**

Jeffries Goes to Europe—French Govt.  
Regards the Pastal Strike as Over—  
Employees Failed to Make Good  
Their Threats

MILWAUKEE, Wis., May 15.—What is believed by medical men to be a cure for the hitherto intractable tetanus or lockjaw, has been discovered by Prof. J. A. Loventhal, University of Wisconsin, who for several days has been co-operating with Milwaukee physicians in the case of Albert Johnson in St. Mary's Hospital.

While the result in this instance was not a cure it warrants the opinion that a significant step has been made in the direction of a cure for this disease. Prof. Loventhal has found that a substance which he produced in the laboratory was capable of destroying the toxin or poison produced by the germ bacillus in laboratory experiments outside the body and when the disease occurs in animals.

**JEFF GOING TO EUROPE.**

CHICAGO, May 15.—Jim Jeffries will follow Jack Johnson to Europe in about three months, but his grand will be simply to wind up his theatrical engagements.

**THE STRIKE IS OVER.**

PARIS, May 15.—The government today regards the strike of the government employees, particularly the post-men, as virtually ended. The bombastic speeches and resolutions delivered at the strikers' meeting of yesterday have had no sequel and the threat of a railroad strike is considered as a pure bluff. More strikers returned to work this morning. They entered the movement from professional motives, but they are now alarmed by the revolutionary designs of the leaders. Members of the federation body perceiving that the psychological moment had passed and that the movement is doomed to failure, no longer anxious to themselves with a loss cause.

The cabinet today considered the strikes of the postmen and approved the dismissal of 313 additional employees accused of inciting to revolt.

The text of a new bill definitely regulating the right of state employees to form associations, but specifically excluding the right to strike, will be at once submitted to parliament.

Moreover the cabinet has agreed to ask the senate to recall statistics 331 postmen in Paris returned to work today. This leaves 1,817 still on strike out of a total of 2,148. There are less than 300 men out of work in the provinces.

**FEMALE AZEFF IN PAY  
OF RUSSIAN POLICE**

While Posing as Extreme Terrorist She  
Exposed Secrets and Betrayed  
Comrades.

PARIS, May 15.—A Russian revolutionary tribunal is now sitting in Paris to investigate the extraordinary case of the woman Azeff, who has just been arrested at Nice in company with a terrorist named Alparosa, on suspicion of being concerned in an alleged plot against the President of the French republic and M. Clemenceau, the premier, during their visit to the Riviera.

The woman Maitouisse has long been a member of the Russian revolutionary societies, but is now discovered to have acted as a police spy and have played the role of a female Azeff.

A few weeks before Azeff was sentenced to death by his Terrorist comrades for treachery a revolutionary named Minor, a member of the central committee, left Paris for Moscow.

No sooner had he crossed the Russian frontier than he was arrested by the police. He had been betrayed, and the treachery was placed to Azeff's account.

Some time later suspicion fell upon a young woman, who since January has been a member of an advanced group, and who distinguished herself by the violence of her opinions and her violent words for treachery to Azeff's comrades.

Two Terrorists fell in love with her, and a few weeks ago another revolutionary accidentally overheard a quarrel between the rivals. He considered it his duty to inform his comrades.

Mlle. Maitouisse subsequently paid a visit to the Riviera, and on her return made proposals to a well-known revolutionary, which confirmed his suspicions that she was in the pay of the Russian police.

When pressed to explain certain acts and movements, she became troubled, and acknowledged that she was a spy. She has since made a complete confession, and admits having sold Minor and several other Terrorists to the police.

Mlle. Maitouisse was well known in revolutionary circles in London, Paris, Brussels and elsewhere. She is now the object of a secret inquiry on the part of the Terrorist organization.

**WOULD NOT PERMIT

**Police Told Miss Goldman She  
Might Talk to Herself**

Civilization Increases Insanity in Japan  
—A New Gun Silencer—Senale  
on Steel Duties

NEW HAVEN, Conn., May 15.—Emma Goldman was booked to deliver a lecture here last night on "Anarchists." The police decided that if she insisted upon speaking she must talk to herself. Accordingly she was admitted to the hall where the meeting was to be held but her would-be audience were not allowed to enter. After waiting for some time she disgustingly left the hall and returned to her hotel and the hall and returned to her hotel and the hall and returned to her hotel.

CHICAGO, May 15.—Advancing civilization is bringing increased insanity in Japan, according to Dr. K. Saito, director of the Aojami Hospital for the insane at Tokio. "Fifty years ago," he said, "insanity in Japan was very rare. Thirty years ago it began to increase and after the China-Japan war there was further increase. The increase was even more marked after the war with Russia. I believe that as civilization advances in Japan insanity becomes more general day to the struggle for existence." Dr. Saito is making a tour of the world inspecting hospitals for the insane.

**A NEW GUN SILENCER.**

PARIS, May 15.—Col. Humbert, a former artillery officer, has patented a gun silencing device similar to that of Sir Percy Maxam's. The silencer is now being tested in Paris gunsmith shops and Col. Humbert is negotiating with the French War Department in an endeavor to have the Government adopt the device.

**SENATE ON STEEL DUTIES.**

WASHINGTON, May 15.—The steel schedule will again be before the Senate today and it is expected that the action of the body in upholding the recommendations of the committee of finance in respect to the duty on round iron will be repeated when other paragraphs are voted on. Each vote that is taken on the measure appears to verify the confident statement that has been made by Senator Aldrich and others to the effect that the committee is simply sustained by sentiment in the Senate and that the bill when completed will be practically in the form that the committee desires.

**TO TAKE THE BAN  
FROM CATHOLICS**

William Redmond Has Bill to Change King's  
Oath—300,000 on Petition.

LONDON, May 15.—A comprehensive bill for the removal of Roman Catholic disabilities and providing for an alteration in the accession oath taken by the British sovereign, was introduced by William Redmond in the House of Commons today and gave variety to the customary dullness of Friday's debate.

The Roman Catholics never have ceased to grudge against the "inimicable" references to certain beliefs in the monarch's accession declaration as superstitious and idolatrous. The same objection has hitherto been defeated again showed up Friday, when a petition signed by 300,000 persons, demanding the removal of Roman Catholic disabilities was handed in just before Mr. Redmond arose.

Mr. Redmond's bill not only deletes what is regarded as the objectionable portion of the oath of accession but it repeals the act prohibiting residence of Catholics from filling the office of lord chancellor of Great Britain and lord lieutenant of Ireland.

Premier Asquith spoke early in the debate and gave his cordial support to the objects of the bill. He declared that the exclusion of Roman Catholics from the lord chancellorship and the lord lieutenantcy was unjustifiable on the grounds of other logic or policy.

Regarding the oath of accession the premier said that this declaration was dated during the worst period of British history. The language therein could not be justified and the time had come to put an end to it.

He suggested that parliament were opposed to the entire abolition of the declaration that a committee be appointed to devise a form of words that would be mutually satisfactory.

**Drunkard Works for the City  
for Nothing**

And Maiming His Wife and Helpless  
Children Starve—Case of Fred Lean,  
Now on the Chain Gang.

As the result of Fred Lean's drunkenness his wife and two small children are left destitute in an old house at the end of Duke street.

The case is such a pitiful one that the police patrolling that section of the city were moved to sympathy. They had awarded the decision in the first encounter, the second was a draw and in their third meeting, which was called a draw, until last night the odds were at even but before midnight Papke was installed a 10 to 8 favorite probably because the German is considered stronger, a harder puncher and better able to fight three hours should the bout be prolonged to the limit. There will be no preliminary and then at 2.30 the old rivals will be called upon to settle their dispute.

On Monday night last Lean was arrested on Union street about 10.30 o'clock and when searched at the central station the contents of his ragged clothing amounted to 25 cents and a flask part full of whiskey. On Tuesday morning he was sent into jail for a term of one month in default of paying an eight dollar fine, and while he daily toils breaking stones for the city, the only pay he gets is jail food and his lodging in a cell. In the meantime there is no hearthstone for the unfortunate wife and children who are depending at present on the kindness of neighbors in the vicinity of Blood Alley.

The house in which they exist is the property of the city and with others is to be torn down. It is possible that they will be left without a home.

**GOVT SUGGESTED  
RECENT MASSACRES**

**Governor at Aintab Received  
Message Hinting Slaughter**

As Protestion Against Possible Insurrection  
—Plan Failed—Many Refugees  
in Adana are Dying.

AINTAB, Asiatic Turkey, May 15.—It was learned here today that the local governor received from Constantinople on the day following the outbreak of anti-Christian rioting at Adana a message suggesting the killing of Armenians as a precaution against insurrection. The identity of the sender of this communication has not been disclosed but he was closely connected with the official life of the administration then in power.

The governor communicated this idea to certain important persons of Aintab, who called a meeting of the Beys to consider it. The Beys almost to a man refused to have anything to do with the proposed massacre, whereupon the governor let the matter drop.

ADANA, Asiatic Turkey, May 15.—A total of 2,500 refugees were fed in this city yesterday. Three hundred wounded persons are being cared for at the American and other hospitals established in Adana. It is estimated that four thousand out of the total number of refugees are ill and four hundred of these are suffering from measles, dysentery and typhoid fever. On account of under-feeding and exposure there is much mortality among the children.

**AMERICANS PREPARE  
TO INVADE EUROPE**

All Best Cabins in German Liners Booked  
for the Summer.

BERLIN, May 15.—President Plate, of the Norddeutscher Lloyd Steamship Company, states that, despite all rumors to the contrary, there is no foundation for reports of amalgamation between the Hamburg-American Line and the Norddeutscher Lloyd.

Although the question of a German shipping trust has been broached in German shipping and financial circles, the Norddeutscher Lloyd will continue, as hitherto, to work independently.

The death of the director, M. Wiegand, led to the rumor that he was supposed to be the sole opponent of the scheme.

At the general meeting of the Norddeutscher Lloyd held at Bremen on Saturday it was stated that there was a marked improvement in the traffic lately. During the last five months 46,000 storage passengers had shipped for America, as compared with 54,000 for the whole of last year.

All cabins in the best boats were already booked for the summer. This, together with the fact that the Hamburg-American line have registered unprecedented advance bookings, points to a record year in the American invasion of Europe.

**Fourth Attempt to Find Out  
Which is the Better Man**

Johnson and O'Brien in Good Shape for  
Their Bout on Wednesday Night  
—Golf Tournament.

SAN FRANCISCO, May 15.—Hugo Kelly and Billy Papke are scheduled to fight forty-five rounds at Colma this afternoon in a fourth attempt to settle the question of superiority that has puzzled fight followers for years.

In their previous battles Papke was awarded the decision in the first encounter, the second was a draw and in their third meeting, which was called a draw, until last night the odds were at even but before midnight Papke was installed a 10 to 8 favorite probably because the German is considered stronger, a harder puncher and better able to fight three hours should the bout be prolonged to the limit. There will be no preliminary and then at 2.30 the old rivals will be called upon to settle their dispute.

O'BRIEN AND JOHNSON.  
PHILADELPHIA, Pa., May 15.—Confident that he will be in fine physical condition for his bout with "Jack" O'Brien, at the National Athletic Club in this city next Wednesday night, Jack Johnson, the negro pugilist, today began the final preparations for the fight. Johnson arrived here last night and after greeting friends went to the home of Geo. Cole, the old time pugilist, at Merchantville, N. J., near here where he will do his training until Wednesday afternoon. O'Brien has been in training for several weeks at King of Prussia, Pa., a few miles from this city and is in good condition.

**GOLF TOURNAMENT.**

WASHINGTON, May 15.—With every assurance of another ideal day for golf devotees of the game and Washington society in general looked to the Chevy-chase Club today to witness the finals in the spring open tournament. The laws were liberally dotted with humanity when Walter J. Travis, the former amateur champion of the United States and Allan Leach, the Chevy-chase man who was to strive to keep the cup in Washington, took their positions on the initial tee in their contest for the first prize.

**THE COURSE OF TRUE LOVE**

The life of a fire department driver is not all one of sunshine and his mode of living is seldom of the usual kind. When a driver wishes to see his best girl he cannot go far from his station for fear of an alarm coming in, so the next best thing is for the young lady to call on her best fellow. This plan was working splendidly last night. A young driver was enjoying a talk with the fair one when there came a big surprise. Two companions from his fire station took hold of him and without ceremony hustled him back to the station, leaving the poor girl standing alone, frightened and bewildered on the sidewalk. The affair proved a good joke for those about the station, but not for the kidnaped driver, who, when allowed his liberty, discovered that his steady had gone home disgraced. It will take some time for matters to be squared up, and the next date will be kept by the driver where the others cannot butt in.

Reade stipulates that the race be for 15 miles, to start at Barnhill's corner, run to Spruce Lake and the last mile to be finished on Market Square, Carleton. For this race Mr. Charles Tilley of the West Side has offered a medal. The race is to be run on July 1st. Reade wishes an answer to his challenge through The Star not later than next Wednesday.

P. E. Island Delegates to Ottawa Will  
Pleased With Results of Their  
Visits—Change in Montreal  
Service

CHARLOTTETOWN, P. E. I., May 15.—Hon. Joseph Head and William Stewart, delegates from Summerside Board of Trade to Ottawa, in reporting the results of a meeting, said they had interviewed the various departments on supplying the railway at Summerside with water from the town system, on alterations in the post office building, steamboat services between Montreal and Newfoundland with the mainland. Deputy Minister Butler said the first matter would be recommended to the minister and the post office work would be undertaken next summer. Sir Frederick Borden promised to recommend an appropriation for an armory. The contract with the Montreal steamer stands for this year, but when renewed would include Summerside as a port of call. As to winter communication it had been decided by the department that on the arrival of the new steamer Earl Grey, one of the present steamers would be employed on light house service in the Bay of Fundy. A solid island delegation, including Premier Haszard and four cabinet members and Senator Ye asked for one of the steamers on the western route between Summerside and Fortinville as long as the Earl Grey and Minto remained on the Charlottetown-Pictou route after the Stanley would go to the Bay of Fundy.

The second lobster hatchery to be erected on the island began operations today at Georgetown. It will collect spawn from thirty factories. Work is to be started today by Capt. Reid, of the Reid Wrecking Co., at floating the steamer Turret Bell, stranded at St. Peter's. He worked at her all last season with good results.

**PROVINCIAL LEAGUE.**

Amateur was held in White's restaurant last evening and as a result a provincial baseball league was formed. It is proposed to have the schedule in operation early in St. John. The league is constituted of Moncton, Fredericton, Marathons and Clippers.

The Marathons club entertained the visiting delegates at dinner at White's restaurant. Arthur Finnmore represented the Fredericton team, George Trites, Moncton; D. B. Donald, C. P. Tilley, J. Bradbury and E. Hamsey, Marathons. After a fitting repast had been done justice to the business of the meeting was proceeded with.

The election of officers was then proceeded with, resulting as follows: Hon. Frank Sweeney, Moncton, honorary president, C. H. Thomas, Fredericton, president; Frank White, vice-president; H. K. Clawson, secretary-treasurer.

An executive committee consisting of the president and the following members from each of the clubs was chosen: George Burden, Fredericton; D. B. Donald, Marathons; Wm. Gillespie, Clippers; George Trites, Moncton.

The umpires chosen are: Fredericton, Jas. Roberts; Clippers and Marathons, Jas. McAllister, and Moncton, Geo. McWilliams.

It was also decided that each club employ the services of an official scorer. C. Kitchen will score for Fredericton, and Geo. Maddison for Moncton.

It was decided to send a resolution to the M. P. A. A. seeking permission to allow professionals and amateurs to play together in the league.

**ANOTHER INCREASE.**

F. S. Thomas is today opening a first class Gent's Furnishing Department in connection with his well known and increasing Hat and Fur business, 53 and 54 Main street. It is Mr. Thomas' intention to make this department first class in every particular. He has taken the store next to his premises, which has been thoroughly renovated to suit this line of business. An archway will connect the two premises. The store has been gone in white and being lighted with new tungsten lamps will present a very bright appearance. It is Mr. Thomas' intention to pay particular attention to the higher class of goods in this line, while not neglecting the lower priced goods, as he will endeavor to present the best to be had at the lowest possible price, he has secured for that end of the city the famous American Barker Collars; also the Royal Shirts and a number of other leading lines. No doubt this store will be an improvement to that busy thoroughfare.

**AND THEY SAY HE'S A GOOD PIANO MOVER TOO**

CHICAGO, May 14—The pitching of Frank Smith of the White Sox this spring has attracted the attention of ball players and fans to this husky member of Comiskey's band of pennant pursers. Among the players, Smith's form is regarded as another demonstration of "Coney's luck."

Last year Walsh swept through the league like a patent reaper and blinder through a grain field, while Smith was having more trouble than the husband of a woman with a 600-button gown on Celeste's dav out.

This season Smith has set himself to duplicate Walsh's record of pitching 65 games and winning 40 of them. Already he has a splendid start, and if he can maintain the pace, stands a splendid chance of making good.

**MAKE IT THREE OUT OF FOUR FOR SERIES**

Cincinnati Defeats Boston in An Uninteresting Game

BOSTON, May 14.—Cincinnati won an uninteresting game from Boston today, 7 to 4, making it three out of four for the series. The visitors found White easy in the second inning and were aided by the poor fielding of the locals. Score: Cincinnati, 7; Boston, 4.

**WHEN IS AN INDIAN NOT AN INDIAN? WHEN HE IS WARHOP, HIGHLANDER**

NEW YORK, May 15—Just because he responds to the name of Warhop is no sign this New York pitcher is an Indian. Indeed, it is claimed by some that instead of being a red man, this young deceiver is a product of the soil and once removed, and votes as John Flynn, in Hinton, W. Va.

Warhop is a devil-may-care chap, as made a hit each time. He struck out seven men, had seven putouts, had one assist, scored a run and walked four batters. Not a ball was hit out of the infield by Oklahoma City and not a man reached second. And that's some pitching.

TORONTO, May 13.—The Valley Farm Stable of Hamilton loomed large in the eyes of rail birds at Woodbine today, when Shilmonese, candidate for King's plate, broke all records of the year by running plate distance in 2:12 1-8. per cent. One whom she remembered with disfavor was accustomed to let every fifth girl off with 50 per cent, but she was to act as spy on the other girls. "After this talk of course we realized the futility of attempting to refuse tips. We fell into line with the other waitresses and on the first day, though the dining room was less than half filled, I collected more than \$8 in tips. Several girls received twice as much. "As we were assured that this was an every day occurrence and later on we would take in much more we decided that our first move should be to open a bank account in the nearest town. You see the principal reason for our electing to go to this particular hotel was that the waitresses were expected to lodge out. This would give us an opportunity of lodging together and having a piano for practice when we were not required to be on duty in the dining room.

their fear of losing our positions in the hotel, for it soon began to fill up so rapidly that we all had as much as we could possibly do. The work of a waitress is not easy. A girl who is either delicate or unwilling to do strenuous work should never undertake it. "We went on duty at 7 in the morning and seldom got off before past 12. Of course these hours seemed very long, but when you remember that we have the afternoon to ourselves and every other morning I didn't feel that we had too much to do for what we got out of it. Excepting our room rent and two waitresses' dresses we had no extra expense. Our food, which was very good, we got at the hotel, and they also supplied us with aprons and caps. "Last year we had a large room in a very nice house near the hotel, for which we paid \$2 a week. Our piano cost us \$4 a month and each of us managed to get two hours a day practice. "Being three together we didn't need to make friends to keep ourselves from getting lonely, but as many of the waitresses were students working their way we have made some very pleasant acquaintances. Some summer hotels make a specialty of only taking students to wait in their dining rooms, but the hotel where we go takes any self-respecting young woman with the necessary qualifications. Those are the words used by the management when we applied.

largely depends on the character of the house. Even with ten cents a person which is the least I have ever heard of being given, the amount soon becomes worth while to the woman who is working for her living. "At our hotel each girl had assigned to her four tables seating four each. Even in a vague, indefinite way, the public knows that there is a "Mr. Grace George. But the public generally doesn't know that he is Wm. A. Brady. There's a baby in the Brady family, but Brady doesn't stay home and mind it while his wife is on the road. He delegates that duty to a nurse and busies himself with producing new plays for Miss George and other actresses on his pay roll, by no means a small one. Brady is rated the showiest man in the theatrical business, barring not even Shubert and the famous Klaw & Erlanger. He has come up from below, running the scale of call box, actor, promoter of prize fights, manager and now producer. He first really came into the public eye when managing Jas. J. Corbett, the erstwhile pugilist champion. It was while directing Corbett's destinies that he became rich and his principal famous. Then he went back to the world of the theatre, which before had known him as actor graduated from call box. It was a couple of years or so after that he married Miss George--in 1892. Brady's address is the Manhattan theatre, New York. "They were then regarded as one of the

A YEAR OF PROHIBITION IN A BIG ILLINOIS TOWN

Marion E. Pew Tells How It Has Worked in Decatur—Not a Dead Town—Arrests Have Been Cut in Half—Taxation and Business Little Affected—Divorces Increase.

DECATUR, Ill., May 15.—There is a deal of "fibbing" going on these days about whether prohibition is a good thing for a town. Advocates of the saloon, driven by financial motives, and anti-saloon men, altruists but sometimes extreme in their statements and often even fanatical, are battling in almost every state and their press bureaus are issuing enough highly-seasoned propaganda literature to wad the guns of history. Their claims are contradictory.

The situation seems to call for an impartial statement based upon actual conditions as found in a city which has been dry for at least one year. Decatur has 32,000 people and a little of almost every kind of life known to a city. It has been dry for a year and the people have just elected a new dry mayor, whose instruction is to see to it that the local option law is rigidly enforced. The town is normally a Republican, but the new mayor is a Democrat. His Republican adversary was an avowed wet and Decatur likes to be dry.

There are a whole lot of local and state questions which come in to involve the situation, but the following statement of conditions in Decatur is impartially written and may be taken to reveal the approximate fact. This is not a "dead town," financially or socially. The factories are running, every one seems to be busy and the writer does not remember of having visited a town wherein there are more pleasant-faced people to the city block, where the people seem to be having a better time in wholesome ways (a well-groomed horse is a popular luxury) and where so few ragged people are seen.

This is a "dead town," socially. If a "sporting town" may be called a live one, it is 10 o'clock at night and the writer is looking from a hotel window down upon the main business street. It is deserted. There are no sounds there is no ribaldry there or in the hotels. Some 22,000 people are somewhere; I suppose they are at home, many of them asleep. In an hour or two more people will leave the theaters, "Ben Hur" and vaudeville are the rival attractions. The people who score people attend the moving picture shows. The morning newspaper scheduled social, musical or religious meetings at the various churches for every night this week. The town is base ball mad.

I suppose 200 men are at their clubs. Those who drink may drink there. Members keep bottles in lockers. In one club at least, it is possible to take a warm bottle from a locker and exchange it for a cool bottle to be found no "hardship" on tipping club members or people who can buy booze in quantities and drink from saloons. The mail houses in Louisville, St. Louis, Chicago send spirits in, while beer, shipped in potato or flour in from unsuspicious boxes, comes in from nearby wet towns, such as Springfield, Bloomington and Peoria. The poor man who cannot afford to buy a bottle or a case may go without or take a trolley ride.

The train arriving here on Saturday night at 11 o'clock is called the "booze special," because it brings into the city from Peoria, parkways, boxes of barrels, unmarked and consigned to 25 to 50 Decatur citizens. These people meet the special and cart their packages home for Sunday week consumption.

There are 32 "soft drink" parlors in the town, converted saloons, where pop, ginger ale and "water wagon beer" are dispensed. The latter tastes like the real thing, but it is said to contain less than one-half of 1 per cent alcohol, the alcohol having been evaporated at the brewery. The drys object to this, because it is a malt beverage, and they have taken their case into court. There have been in a year nearly 100 arrests for illegal selling, bootlegging (peddling from a bottle or so), blind tiger, or selling in soft drink parlors. The drys said this, like some that is imported, is said to be of poor quality. Jim Shotts, a farmer, drank one two-finger "smile" in

BUILDING COMMITTEE'S REPORT SATISFACTORY

Annual Report of Building Committee of Seamen's Institute

The Seamen's Institute is advancing in leaps and bounds. The report of F. W. Daniel, chairman, has been sent in, which is very satisfactory. It is as follows: St. John, N. B., May 12, 1909. In submitting a report from the building committee a great deal of satisfaction may be expressed for the wonderful progress in the affairs of the Seamen's Institute during the past year. When we look to the fact that it is only a year ago since ground was broken for this splendid building, we almost wonder where the means have come from which has made it possible to proceed with the work, so that the building was ready for the occupation of the society during the past winter, and now a comparatively small outlay will complete the finishing of the upper rooms. The whole expenditure on the building and lot up to date in round figures, and including the land, is \$12,070.00, deducting from this amount \$4,000 on the mortgage, we have the large sum of \$8,070 actual cash generally supplied by the citizens of Saint John and from other sources for this work. The contracts now entered upon to complete the plastering and woodwork of the upper rooms amount to \$2,300, besides these contracts, however, we will eventually need about \$100 for sundry painting, sheathing, cornice, etc. This brings out total requirements up to \$8,000, against which there is about \$900 cash on hand, so that \$2,100 will yet have to be raised. We hope to get this amount in during the coming year, and then our Saint John's Seamen's Institute will be one of the best on the continent.

Your committee in making this report also wish to express their satisfaction with the work and attention of details given by the architect, G. Ernest Fairweather.

Respectfully submitted, F. W. DANIEL, Chairman of the Building Committee.

ELEVEN GIRLS, 80 YEARS YOUNG, IN CLUB TO SPREAD SUNSHINE AS SHADES OF LIFE GATHER

MRS. SARAH GOTT, 83. MRS. MARGARET DINSDALE, 83. CINCINNATI, O., May 15.—Eleven Cincinnati girls have formed a Sunshine club. Nothing startling in that, you say? But listen—all of these girls are at least 80 years old. They are inmates of the Cincinnati Widows' and Old Men's Home. The passage of time has brought sorrow and privation to them. Checks that once bloomed with the roses of youth now are wrinkled and wan. The tired old eyes gleam pathetically beneath the silvery hair, the feet falter, the hands tremble, the forms are weak and drawn, but the age-worn bodies bear hearts that will ever be young. In the sunset of their lives, these 11 girls—their girls in heart and spirit of not in years—would gladden the remaining days of their existence.

They plan to spread joy among themselves—to live again the happy, carefree days of the girlhood which has passed in a girlhood that has come anew. Mrs. Sarah Gott, who will be 80 the last of the month and whose going to have a big birthday party to celebrate it, is president of this unique girls' sunshine club. Mrs. Margaret Dinsdale, 83, is secretary.

St. Andrew's Church will on Sunday observe its 125th anniversary and a splendid programme has been drawn up. The services tomorrow will be at 11 a. m. and 7 p. m., and will be conducted by the Rev. W. Allen in the interests of the Laymen's Missionary Movement. At all the services special music will be rendered.

It is contemplated to continue the observation of the anniversary on Monday, Tuesday, Wednesday and Thursday. Special music will be rendered each day at 2.30 and 7.45. The public are extended a cordial invitation to attend the services.

CANADIAN WATCH DOG GATCHES FRENCHMAN

Fishing Schooner Committed the Offense Last Year. NORTH SYDNEY, N. S., May 14.—The revenue cutter Gladiator, Capt. Gordon, effected the seizure of the French fishing schooner, Dictator, this morning, for violation of customs regulations committed last year. Capt. Gordon saw the Dictator coming out of St. Ann's one day last summer. Upon being interrogated the master of the Dictator said he had entered at St. Ann's, but it was afterwards discovered that he had not done so. Capt. French schooner ever since, but it was only this morning that he succeeded in finding her. The seized vessel is lying up here with a watchman on board and the matter reported to Ottawa.

The Newfoundland fishing schooner Cora, Capt. Lee, arrived in port last evening and reported the loss of two of her crew, Theodore Davnie and George Omond, both of Grand Banks off Seatarie on Monday. The men left the schooner to take in trawls and shortly after dense fog came on. After searching for some time, the men were unable to locate the trawls and started to return to the schooner, which also they were unable to locate. They then set out on their own, but were unable to find their way until noon, the next day, when they were picked up by the French fishing schooner Dictator which brought them to this port this morning. The Cora remained off Seatarie for two days in the hope of finding the men, when Capt. Lee decided to return to North Sydney.

When You Can't Sleep.

There is many a man and woman losing night after night upon a sleepless bed. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system, that it cannot be quieted.

Or again, you have a sinking sensation, a feeling you are going to die; or perhaps you wake in your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. If you allow these conditions to continue for a short period even, you will begin to feel your health declining. It is the nerves and heart not acting rightly, and they can only be set right by the use of Milburn's Heart and Nerve Pills. They soon induce healthful, refreshing sleep, not by depressing the nerves, but by restoring them to healthy action.

Mrs. E. Nutt, St. Mary's, Ont., writes:—I can gladly recommend your Milburn's Heart and Nerve Pills as I was greatly troubled with my nerves. I was so had I could not sleep at night without the lamp burning, but after taking four boxes of the pills I became all right again. Price, 50 cents per box; 3 boxes for \$1.25, at all dealers or The K. Milburn Co., Limited, Toronto, Ont.

MRS. DICKIE HONORED

A repetition of the floral cantata at St. Stephen's church school room was a greater success, if possible, than on the first night. At the conclusion the bachelorette buttons presented Mrs. Gordon Dickie with a bouquet of red and white roses. Mrs. Dickie, who organized the cantata, deserves the very highest praise for her artistic and beautifully carried out conception.

FIVE BREAKS IN ONE NIGHT

BRANTFORD, May 14.—The police made an important capture at 2.30 this morning, when a French-Canadian giving the assumed name of Joseph Smith was arrested for burglary. There were two burglaries here Tuesday night and five last night, all of which were attributed to the prisoner. Last night reports of burglaries started to come in about 11 o'clock, and from these the police were able to trace the movements of the man, a half dozen policemen being assigned to the task. At last he was seen entering a house on Lawrence street. Constable Borthwick went in after him, grabbing the marauder in his bare feet while he was getting through a rear window. A struggle ensued in which the officer was dragged through the window. Smith got loose, and running through the house leaped through a large window at the front doing himself considerable injury by glass. The man, on his and stated that he came from Montreal but for some time had been in Hamilton. At the police court this morning Smith was charged with eight burglaries, five last night, one Wednesday night and two Tuesday night. He pleaded guilty to all and said he had been in town only three days.

STRIVING TO MAKE TWO NATIONS FRIENDS

Campaign for Better Relations Between France and Germany Begun

BERLIN, May 15.—The movement in favor of establishing better relations between France and Germany, to which great importance is attached in German political circles, official and unofficial, was inaugurated yesterday evening by a lecture and banquet, at which the French senator, Baron d'Estournelles de Constant, the well-known advocate of arbitration, was the guest of honor.

This gathering took place under the auspices of the German organization called the central committee. Baron d'Estournelles delivered a lecture in French called "A Rapprochement between France and Germany and the most prominent business men in the government service and public life, in the Chamber and the Prussian House of Peers.

It was followed by a banquet in the Kaiserhof Hotel, at which the imperial secretary of state for foreign affairs, Baron von Schoen, the imperial secretary of state for home affairs, Herr von Bethman-Hollweg, and other members of the Prussian cabinet, the president of the Reichstag and other leading statesmen and politicians, as well as prominent bankers, merchants, representatives of science, art, literature and commerce, were present.

Beverly, Calif. (1898-1871) tells of early Italian surgery. He had got a bit of chipped steel in his eye, "so far to get it out, so that I was in very great danger of losing that eye. But the surgeon came to the rescue with a pair of forceps, making me lie upon my back, with a little knife opened a vein in each of my wrists, so that the blood ran into my eyes, and I was thereby greatly relieved. In the space of two days the bit of steel issued from my eye and I found that I had received considerable ease and in a great measure recovered my sight."

HANDCUFFED CORPSE THROWN UP BY SEA

Body That of a Man Dressed Entirely in Female Attire

CARDIFF, May 15.—A most extraordinary mystery of the sea, is puzzling the police at Penance. Between 8 and 7 o'clock last night a little boy, while walking on the shore of Mousehole, about two and a half miles from Penance, saw a body, apparently that of a woman, floating in the water, and gradually coming ashore with the tide. The boy ran at once to inform the coastguard, who proceeded to the spot with the necessary appliances, and the body was speedily removed from the water.

As soon as this was effected, the coast guards saw that they were confronted by a most remarkable problem. The wrists were secured with heavy handcuffs, and the lower limbs were fettered with manacles.

The man in and how he came to be so disguised and so fettered is a mystery upon which it is impossible to throw the slightest light.

WHEN FOOD POISONS!

You know how food builds up your body, but do you also know that even the choicest food can break you down? When your digestive organs fail to do their full duty, your food is not thoroughly digested, but turns sour in your stomach and gives off evil gases, which poison your blood. Then your health begins to break down.

MILAN, May 15.—The famous La Scala Opera House here is in the throes of a financial crisis.

The company issues policies of all the usual kinds including both the ordinary life and industrial life policies, as well as several forms which the other companies do not handle. The company has always advertised heavily and has a reputation as a hustler for business. It is likely to stir up things in insurance circles here when it gets started.

### FLYING YANKEE BARELY ESCAPED WRECK THURSDAY

Track Badly Torn Up—Train Met With Accident Near Vassalboro—Service Crippled for Several Hours.

(Bangor Commercial.)  
The passengers on the St. John Express, otherwise known as Train 102, which left Bangor at 1:45 p. m., had a very narrow escape Thursday afternoon from being in a train wreck of serious proportions. This train, which is made up of nine heavy cars and was drawn by one of the big Mogul engines, 422, when about a mile and a half west of Vassalboro, came so near being derailed that it was nothing short of a miracle that the engine and cars remained on the rails.

In some unaccountable way the forward trucks of the tender of the big engine turned and left the track, carrying up the sleepers for a distance of nearly 100 feet before the train could be stopped. The train was not running at a high rate of speed and Engineer Paul, who felt the shock as soon as the forward truck struck the sand, was able to bring the train to a standstill while the rear trucks remained on the iron. Several of the passengers and trainmen were slightly shaken up, but fortunately no one was injured.

The results of the accident were felt for miles on either side of the wreck. The most in the delay to traffic, as the forward truck struck the sand, was able to bring the train to a standstill while the rear trucks remained on the iron. Several of the passengers and trainmen were slightly shaken up, but fortunately no one was injured.

The regular trains could not get by, however, until late. A big crew was put at work immediately, making temporary repairs and getting the tender back on the rails.

The engine that was hauling the train was of the latest Pacific type, one of five passenger moguls in service between Bangor and Portland. A year ago last summer, it will be recalled, a tender of one of this same type of engines jumped the track near Oakland and caused a bad smash. It has been a matter for considerable discussion as to whether the road should support such powerful machines and the trouble Thursday afternoon did not cause much surprise.

The train due here at 4:50 p. m., from Boston, arrived on time, as it was held up at Waterville. Number 19, due at 6:10, didn't get here until nearly midnight when it ran in as an extra. The passengers in this train were forwarded in a special which was hastily made up and which arrived here shortly before 8 o'clock. Night trains from the west got by all right and the regular schedule has been resumed.
