## NEW BRUNSWICK TROOPS ARE IN IT

Men From This Province, Central Ontario, South Saskatchewan and Alberta Participated in What Is Strategically Regarded as Perhaps Best Piece of Work Canadian Corps Has Done.

Canadian Fourth Division Make Direct Assault on Bourlon Wood, Near Cambrai and Are Gloriously Successful—Thrilling Charges Carried Out.

With the Canadian Forces in the Field, Sept. 30—(By J. F. B. Livesay, Canadian Press correspondent)—In continuation of his despatch of yesterday Mr. Livesay cables: The Canadian Fourth Division was intrusted with the direct assault of Bourlon Wood. To troops from New Brunswick, central Ontario, south Saskatchewan and Alberta went the honor of leading the assault against the canal and passing on to the first objective in front of Bourlon Wood. They carried scaling ladders and won the locks by hand bombing. Other troops made an enveloping movement on the wood itself which was smothered in smoke, the barrage from our batteries reducing the loss from machine gun fire to a minimum. Amongst the opposing troops were the First Prussian guards reserve division. Many of these surrendered two days before this battle. Enemy aircraft dropped propaganda among our men. "Spare this terrible bloodshed," the leaflets read. "It is time for peace. Canadians, you will only be slaughtered if you go up against our terrible Guards."

## ENEMY RECEIVES TERRIFIC BLOWS

Foch Has Extended Battlefront Until It Extends More Than 125 Miles Over 50,000 Prisoners Taken Since Thursday — King Albert in the Field in Person.

By Arthur Draper. Powerful as were Ludendorff's drives, they were small compared with the blows that Foch is raining on four distinct fronts. Except for a few small sectors the battlefront is almost continuous from Rheims to the sea, and eastward to the Meuse. Considering the battles in four separate struggles the situation is as follows: The Cambrai front has now become the battle of the Hildenburg line. When Haig struck Friday he found the greatest opposition to his right in the region of Gouzeaucourt, on his left and centre he made remarkable progress after crossing the Canal du Nord, from which apparently depended a powerful defence. Having advanced to within less than two miles of the northwestern outskirts of Cambrai it was necessary to widen the front of attack. On Saturday the Germans reacted strongly in the region of Gouzeaucourt just as they did last December. (Continued on page 3)

## TEN THOUSAND TURKS CAPTURED

Part of Second Army Corps in Palestine Surrenders. London, Sept. 30.—A Turkish force of ten thousand men has surrendered to the British in Palestine, according to an official announcement made this evening. The text of the statement follows: Palestine during September 29th northward movement of our cavalry and armored cars from the Tiberias-Damas area continued. A large Turkish force, including elements composing the Turkish garrison on the Hedias Railway between Hama and Masas, surrendered at its position. This force is said by its commander to number 10,000 men and to be part of the 2nd Army Corps of the Turkish Army.

## THE BELGIANS ARE CLEARING THE WAY

Cities of Lille and Tourcoing Likely To Be Liberated As Enemy Line Weakening. By Arthur S. Draper. (Special Cable to the New York Tribune and The St. John Standard.) London, Sept. 30.—King Albert's army has won splendid success. Roulers was reported captured this afternoon. The Flanders push is developing magnificently, all the enemy's rear communications in Northern Belgium being threatened, while the British on the Belgium right are drawing near to Comines, Wervicq and Menin, this important line and the whole salient containing Lille and the whole salient containing Tourcoing, Lept and Douai. Along the whole Flanders battlefront rapid progress is reported. The maximum depth of the salient now exceeds nine miles.

## TURKEY AND THE BALKANS

## Bulgaria Out of War As Allied Forces Sweep On

Turkey Cut Off From Her Allies Will Be Forced To Withdraw Soon.

MORE BIG VICTORIES OVER TEUTON ARMS. Enemy Front Almost Everywhere Crumbling Before Allied Blows.

(By Associated Press) New York, Sept. 30.—Bulgaria is definitely out of the war, and Turkey, virtually cut off from communication with her allies and almost annihilated in Palestine, likely soon will be forced to sue for a cessation of hostilities against her. Meanwhile the Entente Allied forces from Belgium to Verdun, on six battle fronts, are registering victory after victory over the Teutonic arms, and the enemy front almost everywhere is crumbling, notwithstanding the desperate resistance that is being offered on various sectors. Seeing eventual defeat staring her in the face through the swift progress of the Serbian, Italian, British, Greek and French troops in the reclaiming of Serbia, and the invasion of Bulgarian territory, the Bulgarians begged for an armistice, reserving to themselves no conditions. All the territory now held by King Ferdinand's men is to be evacuated; the Bulgarian army is to be immediately demobilized, and all means of transport inside the kingdom, even along the Danube, is to be given over into Allied hands. Invasion of Austria Easy. Thus, in addition to the isolation of Turkey, the back door to a direct invasion of Austria-Hungary is being wide open to the Allies, and doubtless the time is not far distant when advantage to the full will be taken of the new avenue through which the enemy can be rescued. With the debacle in Serbia and Bulgaria complete, the Austro-Hungarians in Albania soon will be put to the test, and when their evacuation to their own borders is accomplished, the Allies will have welded an iron semicircle about the Central Powers from the Black Sea to the North Sea. Viewing the situation in all its aspects—the success of the great offensive in Belgium and France; the blotting out of the war zone in the Balkans; the cutting off of the Turks from intercourse with Germany and Austria-Hungary, except by the long road through the Caucasus and Southern Russia, and the steady gains that are being made by the Allies in making Russia once more a factor in the struggle—the darkest days of the war seemingly are faced by the Austro-Germans. Uskub Captured. Although it had been officially announced that hostilities against the Bulgarians ceased at noon Monday, the French official communication on Monday night said that French cavalry had entered Uskub, one of the most important communication centres in Serbia. It is not improbable that the French reached the town before the armistice became effective. (Continued on Page Five)

## BELGIANS CAPTURE TOWN OF ROULERS

Field Marshal Haig Reports Capture of Thorigny, Le Tronquoy and Gonnelleu — His Men Reach Scheidt Canal — Heavy German Resistance North of Cambrai.

London, Sept. 30.—Roulers, a Belgian town, thirteen miles northeast of Ypres, was captured today by Belgian troops, according to a despatch received by the Evening News from the Belgian front. London, Sept. 30.—(By The Associated Press)—British troops advancing in Belgium today captured Gheleu inside the kingdom, even along the Danube, is to be given over into Allied hands. (Continued on page 2)

## A REVOLUTION IN GERMANY LATER

Such Is Prediction of Ex-Ambassador Gerard, Who Wants No Peace Now. San Francisco, Sept. 30.—Sounding a keynote of "no negotiation without occupation," James W. Gerard, former United States ambassador to Germany, declared in an address today there must be no thought of peace until troops of the Entente have forced their way into German territory. Mr. Gerard was speaking for the Fourth Liberty Loan at the San Francisco Commercial Club. "There must be no negotiation without occupation," he said. "The United States and her Allies must force their way well into enemy territory despite all attempts at peace, and must keep on going until Germany bows to their will. German Man Power. "We must not allow Germany to increase her man-power. It would be easy for her to Germanize the peoples of Estonia, Latvia and Poland. Fifteen per cent. of the population in the Baltic provinces is made up of Germans who exercise a complete influence over the ignorant population. Mr. Gerard predicted a revolution in Germany after the war, "that will make the French revolution look like a Sunday school picnic. "There is no one in Germany to start a revolution now," he said, "but the returning soldiery will demand an accounting, and having so lately emerged from savagery, they will strike hard. Mr. Gerard said the defection of Bulgaria from the Central Alliance was a "splendid augury for the re-establishment of an east front."

## WATSON TO LEAD CANADIAN TROOPS

Toronto, Sept. 30.—It is reported from an authoritative source that General Sir Arthur Currie, commander of the Canadian corps in France, will be given command of a British army, and that Major General Sir David Watson, O. C. of the 4th Canadian Division, will succeed General Currie as corps commander. It is stated that the rumor is well founded and that an announcement will be made in the near future. Sir David Watson was the last Canadian officer to be given command of a division, and it is stated he has shown exceptional ability in directing the operations of the Fourth Division. He is a Quebec newspaper publisher.

## SEVERE FIGHTING BEFORE CAMBRAI

Canadians and British Capture Northwestern, Western and Southwestern Suburbs and Town Will Be Clearly Up Shortly — British Forces Continue Their Advance.

King Albert's Troops and Second British Army Make Rapid Progress in Flanders — British Take Ghelume and Are Two Miles From Menin.

London, Sept. 30.—Fighting is going on in Cambrai. The northeastern, western and southwestern suburbs have been captured, and the town probably will be cleared up shortly.

The British troops in the St. Quentin - Cambrai sector continued to advance today despite heavy resistance, according to Field-Marshal Haig in his report from British headquarters tonight. Among other villages they captured Thorigny, Le Tronquoy and Gonnelleu, taking many prisoners.

The statement says: "In spite of the unfavorable weather and strong hostile resistance, important progress has been made today on the St. Quentin-Cambrai battlefield. "The First Division south of Bell' took this morning gained the high ground and the east side of Le Tronquoy, taking many prisoners. Here it joined troops of the Thirty-Second Division who, during the night, carried the defense of the tunnel on the eastern side and captured Le Tronquoy village. (Continued on page 6)

## BRITISH BAGGED 120,000 BOCHES

Since July 12 Troops of Empire Have Captured 1,000 Square Miles of Territory and 250 Villages.

London, Sept. 30.—Andrew Bonar Law, chancellor of the exchequer, speaking today at a meeting opening the autumn war savings campaign, said that since July 12 troops of the British Empire had captured 1,000 square miles of territory, 250 villages and more than 120,000 German prisoners. Bonar Law said that a Bulgarian convention had been signed, by which hostilities ended today at noon. Bulgaria, by the terms of the agreement, gives up completely the control of the railways, the chancellor stated. "This convention seems," said the chancellor, "that communication between Germany and the east in that direction has been cut off, and that the German dream of a German middle-eastern empire has gone forever. Control of the Bulgarian railways, the chancellor pointed out, gives control of the Palestine campaign. Mr. Bonar Law said: "The magnificent success of our armies in Palestine has resulted in the extinction of the greater part of the Turkish army, but something more is going to follow. "There is no changing of metal here at the wonderful rate of progress this week," the chancellor remarked, "but joy bells are ringing in all our hearts."

## AMERICANS ARE AIDING JAPANESE

Co-operated in Occupation of Blagovestchensk. Vladivostok, Friday, Sept. 12.—(By the Associated Press).—American troops co-operated with the Japanese in the occupation Thursday of Blagovestchensk, the capital of the Amur province. The Allied forces entered the city on the heels of the departing Bolsheviks. Eugene Regnaud, French commissioner on the Allied conference at Vladivostok, has arrived here. In an address to the Russian population he declared that France desired to give relief to the Czech-Slovaks and extend economic aid to Russia. This is the first report that American units are at Blagovestchensk. The capture of the city was reported in a despatch from London last Tuesday.

## MORE INFLUENZA DEATHS IN SYDNEY

Twenty Thousand New Cases of Disease in United States Army Camps. Sydney, N.S., Sept. 30.—All theatres, dance halls and schools will be closed tomorrow owing to the epidemic of Spanish influenza. Three additional deaths from the deadly disease occurred tonight, they being Denis Boutiller, Private L. E. Waters, an American soldier of Colonel S.D., and an American sailor. Many New Cases. Washington, Sept. 30.—More than 20,000 new cases of Spanish influenza were reported from army camps during the 48 hours ending at noon today. Pneumonia cases reported numbered 733 and deaths 277. The total number of pneumonia cases now is 6,765 and deaths 1,877. The total number of influenza cases in all camps was 72,337, said a statement tonight from the office of the surgeon general of the army. The new cases reported on Sunday numbered 2,300 and those on day 11,232.

# KING FERDINAND'S COUNTRY SIGNS AN ARMISTICE WITH THE ENTENTE ALLIES

## Germany Receives Crushing Blow in the Balkans—Terms Laid Down By the Entente Accepted By Bulgaria and Cessation of Hostilities With That Country Ordered—Action Expected To Have Far-Reaching Effect in Hastening Downfall of Germany and End of World War.

(By The Associated Press.)

Bulgaria has signed an armistice with the Allies and the first break in the alliance of the Central Powers has come. Terms laid down by the Allies were accepted by Bulgaria, **CENTRAL FIGURE IN BALKAN SITUATION**

KING FERDINAND OF BULGARIA

Hostilities between that nation and the Allied powers will cease. The Allied terms, it is reported from semi-official sources, included the demobilization of the Bulgarian army and Bulgarian withdrawal from Allied territory.

Far-reaching results probably will ensue from the signing of the armistice, the first step toward peace negotiation between Bulgaria and the Allies.

With Bulgaria under Allied control the position of the remaining Central Powers in the Balkans and the near east will be most serious. The main communication line between Berlin and Constantinople will be cut and Austria-Hungary will be open to invasion across the Danube.

**Signed Sunday Night.**—The armistice between Bulgaria and the Allies was signed last night, a Saloniki despatch states.

General Franchet d'Espèrey, the Allied commander-in-chief, in Macedonia, signed for the Allies and the Bulgarian delegates for their government.

Instructions have been given by the government to General D'Espèrey to proceed immediately to the execution of the conditions of the armistice. The armistice, La Liberté declares editorially, was signed with the full consent of King Ferdinand. It prints a denial of a report that he had taken refuge in Vienna. The king, it declares, has not left Sofia.

The Paris Bourse quickly showed the effect of the announcement of the armistice. Balkan securities were generally sought after.

**Suspend Hostilities.**—Paris, Sept. 30.—The announcement that an armistice has been signed with Bulgaria after that country had accepted all the conditions of the Allies aroused the keenest interest in Paris and the statement was widely commented upon as soon as it became generally known.

The announcement followed the return of Premier Clemenceau from the front, where he inspected the troops and had an opportunity of talking with General Petain and General Pershing on the military situation.

The actual suspension of hostilities immediately followed the signing of the armistice but it is noted that this suspension applies only to Macedonia. Hostilities against Bulgaria and that in the Balkans and Macedonia will continue until the Allied armies will continue to reach Vienna late last week they said that they expected their father to follow them soon. The princesses brought with them a large quantity of baggage.

**U. S. Out of It.**—Washington, Sept. 30.—Dominic Murphy, American consul-general in Sofia, who accompanied the Bulgarian plenipotentiaries to Saloniki, where they arranged the armistice has been ordered back to his post by the state department. No criticism of Murphy is made here, but it is made plain that he had no instructions to participate in the negotiations, and probably acted only as an observer.

## ANOTHER PEACE MOVEMENT BY THE AUSTRILIANS

An Ardent Desire For Peace Again Manifested in Vienna.

## FRENCH MAKE BIG ADVANCE

Petain's Men Begin New Attack Between Vesle and Aisne Rivers—Half of Chemin des Dames Taken.

London, Sept. 30.—The French today made a new attack between the Vesle and Aisne Rivers. The battle lines now run east of Jomberry. Half of the Chemin des Dames, from which the enemy is retiring, has been captured by the French.

Paris, Sept. 30.—Between the Aisne and the Vesle Rivers French troops made important progress on a front of about seven and a half miles, the war office announced tonight. Italian troops operating north of the Aisne carried Soupir. The statement says: "In spite of enemy resistance we have captured Revillon, Romain and Montigny-Sur-Vesle. Pushing further north we reached the neighborhood south of Meurville and Ventilly. Sixteen hundred prisoners were taken."

**Battle Continues.**—The battle continues today along the whole Champagne front. The enemy was ejected from St. Marie-Airy. We have passed beyond the village. "We have taken Aire and also the plateau and woods north of the village. We captured Marvaux and our lines have been extended beyond Monthois. "Italian units operating north of the Aisne have carried Soupir. Between the Aisne and the Vesle our troops this morning continued their attack, making decided progress on a front of twelve kilometers."

**Command Aire Valley.**—Paris, Sept. 30.—General Gouraud's troops fighting in Champagne this afternoon were only a thousand yards south of Monthois from where they command a view of the valley of the Aire eastward toward Grand-Pre.

The advance of the French and Americans on both sides of the Argonne Forest therefore appeared to have put the Germans into another pocket, from the valley of the Aire is the only avenue of retreat for the enemy, each is distant only about seven miles from Monthois.

The Germans are accumulating obstacles on the ridge north of the Aire, where the struggle is very intense. The French troops have conquered some positions around the village of Aure, which gives them a stronger foothold in the Argonne. The village of the Argonne in the valley of the Aire by way of Grand-Pre.

**Belgians Capture Town of Roulers.**—(Continued from page 1) Messines-Wytschate position. The Belgian army captured Dixmude, Zandvoort, and Moorslede. It repulsed strong counterattacks between Staden and Terrest and at the end of the day captured the village of Roulers. The Belgians captured the town of Roulers-Meulle as well as at Collemolleholk, four kilometers west of Roulers.

**Strong Resistance.**—General Plumer's army, after capturing the Messines-Wytschate Ridge, attempted vainly to defend the approaches to the River Lys and suffered very heavy losses, especially in Ploegsteert Wood.

"At the end of the day the British army had gone beyond a line from the eastern edge of Ploegsteert Wood, to the village of St. Julien, to Terhand and Dadsbeelle.

"During September 28 and 29 the Belgian and British forces took more than 9,000 prisoners, more than 200 guns, some of heavy calibre, as well as a very considerable quantity of material. The British army captured sixty-five officers, 5,800 men and ninety field guns.

"British bombing airplanes during the day of September 23 contributed very greatly to the success of the operations. They bombed without cessation enemy troop columns, transports and communication lines."

**Unconditional Surrender.**—London, Sept. 30.—News that Bulgaria had yielded to the Allies' terms was received here today. Reuter's Limited said that Bulgaria's surrender was unconditional.

The Serbian legation received an announcement of the Bulgarian surrender.

It is pointed out that the fact that M. Radoff, former member of the Bulgarian cabinet, and former Bulgarian minister at Berna, has been added to the delegation, shows that the Bulgarian government is in earnest in its offer. M. Radoff is one of Bulgaria's most skillful and experienced diplomats, and is an eminent writer and politician.

**Ferdinand to Go to Vienna.**—Amsterdam, Sept. 30.—King Ferdinand of Bulgaria has telegraphed to Emperor Charles of Austria, assuring him of his loyalty to the quadruple alliance, according to the Nieuwe Tri Press.

Paris, Sept. 30.—The Bulgarian king is expected to reach Vienna soon, according to a German despatch. When the two daughters of King Ferdinand reached Vienna late last week they said that they expected their father to follow them soon. The princesses brought with them a large quantity of baggage.

**U. S. Out of It.**—Washington, Sept. 30.—Dominic Murphy, American consul-general in Sofia, who accompanied the Bulgarian plenipotentiaries to Saloniki, where they arranged the armistice has been ordered back to his post by the state department. No criticism of Murphy is made here, but it is made plain that he had no instructions to participate in the negotiations, and probably acted only as an observer.

## FERDINAND LOYAL DECLARE GERMAN PRESS STILL REGARDS HIM AS FRIEND OF TEUTONS—GERMAN DENIAL OF TURKISH RUMOR.

Amsterdam, Sept. 30.—An outstanding feature of German comment on the Bulgarian proposals for an armistice is that virtually all the papers declare that King Ferdinand remains loyal to the alliance. Thus the "Lokal Anzeiger" says: "The attitude of King Ferdinand is absolutely unexceptional. As before, he is thoroughly loyal to the alliance."

The "Vostische Zeitung" says: "That the King of Bulgaria adheres to the alliance is confirmed by later reports from Sofia. It is also quite clear that Malinoff's action without doubt is directed against his personal interests."

This paper adds: "Certain rumors about Turkey's alleged resolve are quite base."

An "occasional contributor" in the same paper says the capitulation of Bulgaria would involve the capitulation of Turkey and the re-union of the Entente with Rumania, and, finally, the capitulation of Austria-Hungary.

A member of parliament in an interview in the "Lokal Anzeiger" says that General Lukoff, chief of the Bulgarian staff, is influencing the army in favor of the Entente.

**FRENCH CAVALRY CAPTURE USKUB.**—Field Marshal Von Mackensen With German Army Arrives in Sofia.

Paris, Sept. 30.—French cavalry has entered Uskub, according to official advices from Saloniki.

London, Sept. 30.—(By the Associated Press.)—British cavalry, operating in Bulgaria, are approaching Petrich, where they will cut communications between Seres and Sofia. Allied airplanes are bombing Bulgarian and Austrian magazines and stores, and are only 57 miles in an air line from Sofia.

Field Marshal von Mackensen's reported to have arrived at Sofia. He is said to be hurrying German divisions southward to help the Bulgarians and Austrians on defensive works at Nish.

The Serbian army is rapidly approaching Uskub, being today eight miles north of St. Nicholas. It is expected the Serbians will be in possession of the dominating heights south of Uskub today or tomorrow.

Another body of Serbian cavalry is advancing toward Kustendil, while the Serbian infantry in the valley of the Vardar is nearing Zelnikovo after severe fighting with the German rear-guard.

Amsterdam, Sept. 30.—German troops arrived at Sofia Friday night, according to a Berlin telegram to the "Weiser Zeitung" of Bremen, which says "they were received with great enthusiasm by the population."

Amsterdam, Sept. 30.—The three majority parties in the Reichstag at a meeting on Saturday arrived at an agreement to support the formation of a parliamentary government with a responsible ministry, according to Berlin advices. This is to be accomplished in the constitution. Autonomy will be granted to Alsace-Lorraine.

Emperor William has addressed the following to Count von Hertling: "Your excellency has reported to me that you no longer find yourself able to carry out your duties as chancellor of the government. I beg of you to terminate your work by continuing to conduct the government's business and preparing the way for measures desired by me, until I have found a successor to you."

## BOSTON REPORTS IMPROVEMENT INFLUENZA SITUATION BETTER IN CITY, BUT WORSE IN STATE AT LARGE.

Boston, Sept. 30.—Governor McCall tonight received from Lieut. Governor McCallum Grant, of Nova Scotia, the following telegram: "This province cannot fail to recall with gratitude the magnificent and immediate response Massachusetts made in the time of our urgent need at Halifax. Some nurses have already gone to help you and more both of doctors and nurses will follow as you may require them."

The aid extended by federal and other outside workers in Massachusetts to the state authorities in organizing the campaign against influenza led the state department of health tonight to express the expectation that the epidemic would be checked before gaining further headway. The department reported conditions in Boston today as improved, but the disease was more prevalent in cities and towns in the metropolitan district and throughout the state.

State Health Commissioner Eugene R. Kelley in a telegram to Surgeon General Blue of the United States Public Health Service, covering the situation up to one o'clock today said: "Reports from 66 cities and towns outside Boston total 5,500 new cases of influenza. There are at least 75,000 cases of influenza in Massachusetts today excluding the number in cantonments. Nurses and doctors are most urgently needed."

**ENEMY RECEIVES TERRIFIC BLOWS.**—(Continued from page 1) following Byn's break-through. The attack in which the Americans are attacking with the British extends on the front southward from Goussacourt to St. Quentin. This attack was against the main Hindenburg line, except in the region of Pontrout, where a slight breach had been previously made.

**The Canadians.**—On the Cambrai front, the British are battering the enemy's last defensive line, which runs through Masnières and Sully. The Canadians have reached Cambrai, which is dominated by the guns of Bourban Hill. Unless the Germans are able to launch a more successful counter-attack than they are doing so far, Cambrai will soon be cleared out.

In the Argonne battle the Americans east of the forest, continue their steady progress without suffering anything but momentary checks. Their salient averages seven miles in depth and the front of attack measures eight miles. East of the forest they are driving near Grand Pre.

**Praise Pershing.**—Pershing's push is winning the praise of all military observers, who admire it more than the St. Mihiel engagement. The Champagne battle continues a terrific struggle over a country which lends itself to defensive operations. The Germans have reacted many times against the French right wing and are fighting to save the railway line from Challerange to Grand Pre, which is feeding the forces in the Argonne and the front opposite the Americans. Gouraud's army will probably reap a rich reward after a couple more days' fighting. The total bag of prisoners east and west of the forest now exceeds 20,000.

**Battle for Laon.**—In the battle for Laon, after nearly a month, Mangin has smashed the German Prince's defence and has driven him back to the Chemin des Dames line, which he occupied when the offensive was launched on May 27. This is a very great victory, and in the present state of the German armies may mean the early fall of Laon and the final collapse of the enemy's whole defence system. Laon is the pivot of the northern and southern forces.

The Anglo-Belgian push, in which navy units co-operated, is proving just as successful as the drives in France.

**King Albert Leads.**—By the capture of Houbaert Forest the Belgians eliminated one of the chief obstacles north of the Passchendaele Ridge. They struck along the sector where the enemy had little reason to expect an attack, because it is merely ground. Their first strike carried them over the most difficult part of the road to Roulers, and although the Germans have countered heavily, the advance continues.

The chief objective in this push is the clearing of Ostend and Heerbrugge, and Allied leaders won't be satisfied to spend the winter on the ridge.

King Albert is directing his greatest offensive effort of his countrymen.

**More Hard Smashes.**—From Cambrai to St. Quentin the British and Americans again have delivered successfully hard smashes against the German strong points all along the front, including the remaining portions of the old Hindenburg line. The Germans here are offering most strenuous resistance, and in counter-attacks compelled the British in one or two sectors to withdraw for slight distances. The British are in the process of cleaning up the town of Cambrai, having penetrated its suburbs from the northwest and southwest. In the region of St. Quentin, where the Americans are fighting with the British, the old Hindenburg line has been cut and penetrated to a depth of three miles over a front of eight miles.

## SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet less often; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Clinchmont authority.

He says that a few drops of a drug called Treosone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, falls right out.

This drug is a sticky ether compound, but dries at once and sticks shrivels up the corn without burning or even irritating the surrounding tissues. It is claimed that a quarter of an ounce of Treosone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Out it out, especially if you are a woman, wear your well-made shoes.

# THE ARMY BELIEVES THE BATTLE HAS TURNED BACK TOWARDS RHINE

## THE ALLIED ARMIES GAINING IN THE HEAVIEST FIGHTING OF THE ENTIRE WAR GERMAN HOUSE IN ORDER

### From the North Sea to the River Meuse Allies Are Pressing Vigorously and Successfully Through the Main German Defences — Cambrai, Lille, St. Quentin and Laon Gradually Passing Into Hands of Allies—Canadians at Gates of Cambrai.

(By The Associated Press.)

On the western front from the North Sea to the Meuse the Allied armies are pressing vigorously and successfully through the main German defences. The suburbs of Cambrai have been entered by the Canadians and the Allies are closing in on Lille, St. Quentin and Laon, while the French and American drive northward west of the Meuse against the German communication lines continues.

Germany's hard-pressed armies are fighting desperately to stay the Allied onslaughts, but the Canadians, British, French, Australians, New Zealanders, Americans and Belgians are fighting their way steadily into the German defence system, the overthrow of which probably will result in German retirement to the French border, if not to the Rhine. The heaviest fighting of the war on the western front now is in progress and the Allies on all sectors are moving ahead.

**Fight Five Battles.** Paris, Sept. 30.—Marshal Foch is fighting five battles simultaneously and successfully—a feat unparalleled in the history of war. Each battle is so timed and placed that each army supports another, all forming an indispensable part of the whole effort.

There may be more battles tomorrow, all inter-related and working as smoothly as the cylinders of a well-adjusted automobile engine. All are directed to the same end—to wear down the enemy's strength. Marshal Foch alone knows when the Allies will strike the decisive blow. The enemy is still fighting well. He is still offering splendid resistance west of the Argonne; but how long can he keep it up?

Expert commentators agree that the enemy's withdrawal to a shorter line, probably that of Antwerp, Brussels, Metz and Metz, is imminent. Some believe he has hung too long, and that he will have great difficulty in preventing his retreat from degenerating into a rout.

**French Resume Attack.** Paris, Sept. 30.—French troops in the Champagne resumed their attack at daybreak today. The Germans violently counter-attacked last night southeast of St. Quentin, in the Villers region, south of St. Quentin, an attempt to recapture Hill 88.

All these efforts were broken up by the French defence. Rather violent artillery fighting occurred between the French and the Germans at the Champagne there was no infantry action during the night. The battle began about daybreak.

With the French Army on the St. Quentin Front, Sept. 30.—(Reuter's)—French forces attacked and captured the culminating point in the German line of resistance between St. Quentin and the Oise River yesterday. The line follows along the ridge parallel to and immediately in front of the Hindenburg line.

Urvillers was its strongest point. From there the line ran over Hill 120 to the south. This was captured by assault. The village of Cerisy was also taken and the French troops advanced in the wood between Urvillers and Cerisy. Then Urvillers fell.

By the capture of this vital sector, especially Urvillers, the investing line around St. Quentin advanced an important step. It now also forms a semi-circle around the western and southern sides of the city.

**British Drive On.** London, Sept. 30.—British, Australian and American forces pushed forward last night to the front between Bellecourt and Gonnelleux, in the face of the severest opposition, Field Marshal Haig so announced today.

On the front southeast of Douai, the British have withdrawn from Arleux and Aubechaut-Au-Bac. Heavy rain has fallen during the night and the weather is still stormy. Four thousand prisoners were taken.

### NOTE TO THE POWERS PREVENTED UPRISINGS

Berlin Reported Nervous Over Precise Peace Conditions of the Allies.

By H. W. Smith.

(Special Cable to The N. Y. Tribune and The St. John Standard.)

Amsterdam, Sept. 29.—There appears to be fast developing a situation in which the plight of Austria-Hungary and the show made by her of resuming independent action may have a direct and possibly a determining effect upon Germany's outlook in the war and conditions of peace.

Count Burian's statement that there is no difference in view between the two governments in regard to the time at which a peace note should be launched, leaves it open to belief that the objection was to it being sent at all. I believe this because the opposition is coming chiefly from the Higher Command.

The important fact is becoming daily clearer that the Vienna government, for the first time, urged its point of view with such insistence that Germany was obliged to give way or face the less pleasant alternative of Austria's departure from her wonted attitude of subservience. This I learn from a well informed source.

The sequence of events in both countries is explained only by the highly critical situation in the Austro-Hungarian Empire, and the fact that the powers sent out in the hope of preventing or at least delaying serious uprising. The danger has not even now passed.

In the same connection I hear that Vienna is pressing Germany to set her own house in order, being convinced that general peace can only follow the concession of a real parliamentary government. It is evident that the oscillatory attitude of Austria has caused nervousness in Berlin, where the view is taken by a section of opinion, that what is called the Allies' "cavalier" treatment of Burian's note really saved the situation in Germany.

The Berlin correspondent of the "Nieuwe Rotterdamse Courant," an agreement has already been concluded between Serbia and Italy, which has for its object the dismemberment of the Austrian Empire. Will Serbia and Italy, with the present outlook and order to save the world, be willing to renounce something of their national demands and yield Austria on her side prove ripe and yielding enough to submit to an operation. The Austrian note may have been a surprise of light of every kind. Probably this is nowhere more clearly envisaged than in Berlin.

Should Austria, as it here plainly suggested, be now considering further approach to the Allies with proposals less vague in character and holding out the prospect of territorial adjustments in favor of Italy and Serbia, it must of course vitally affect her ally's whole outlook.

"The sense of statements made to me this week in a quarter which should secure them attention because of the belief that at a time when the Berlin papers are already talking invasion and the need of national defence, Germany is a month to make large concessions and regards it as an urgent need of the situation to ascertain the precise conditions on which the Entente Powers would be willing to grant peace."

### ENEMY IS PAID BACK WITH SOME INTEREST

Chancellor Bonar Law Announces That Germans Have Been Punished For Bombarding Defenceless Towns.

London, Sept. 30.—In his speech at the Guildhall today, Chancellor Bonar Law said it had been promised that if the enemy continued to bombard defenceless towns, he would be paid back with interest, and that the promise had been kept. The British air force, he declared, had had a great deal to do with breaking the enemy morale.

### PURE RICH BLOOD PREVENTS DISEASE

Bad blood—that is, blood that is impure or impoverished, thin and pale—is responsible for more ailments than anything else and function. It affects every cell and function. In some cases it causes catarrh; in others, dyspepsia; in others, rheumatism; and in still others, weak, tired, languid feelings, and worse troubles. It is responsible for run-down conditions, and is the most common cause of disease.

## BULGARIA QUITS.

Official confirmation of the signing of an armistice between Bulgaria and the Allies was received in last night's despatches from the war zone and at the same time there came an intimation from London that a similar request from Turkey would soon be forthcoming. Following Bulgaria's striking of her colors such a move on the part of Bulgaria would be but natural, for with Bulgaria out of the war and the Allies in control of that country the Ottoman Empire, already approaching dissolution, would be completely cut off from her Teutonic allies and her elimination as a war factor would be a development of a very short time.

It required more than a year for Bulgaria to make up her mind whether to enter the war and if so on what side she would cast her lot. There was a belief for a time that she might join Turkey and Montenegro on the side of the Allies, but Teutonic influence at Sofia proved too strong and on October 9th, 1915, a proclamation from the Bulgarian government announced that Bulgaria had decided to send her armies against Serbia. This with Turkey coming in gave the Teutons a strong position in the east which it has taken three years of hard fighting to overcome. Now that Bulgaria has quit and Turkey, beaten by her knees, is almost certain to follow suit, with the German owned Bolshevik influence in Russia weakening, and the Germans, themselves, facing a thorough whipping on the western front there is no development that could come that would cause more than a ripple of surprise. Events are moving rapidly in the war zone. The effect of the Bulgarian surrender upon Austria-Hungary, coupled with the rapidly increasing seriousness of the economic situation in the dual monarchy, cannot but exercise a powerful influence upon the future course of Kaiser Karl who has already made one suggestion that the warring nations should get together in a peace conference.

The relations between Berlin and Vienna have not been of the best. Vienna has felt, and with much reason, that when she became militarily exhausted and no longer able to play Germany's game her more powerful ally would leave her to shift for herself. She may decide to move first. Given free access through Bulgaria and Roumania, where there are already signs of revolt, the way would be open for the Allies to launch a determined attack upon Austria from the south-east. The elimination of Bulgaria from the war cannot but add fuel to the Roumanian revolution. Realizing that Germany is now powerless to prevent anything the Roumanians may attempt it would not be surprising to see the discontent in that country take the form of a strong pro-ally movement in which event Austria-Hungary would be in most difficult plight.

The quitting of Bulgaria marks the first breach in the walls of the Teutonic Alliance. Foch's hammer blows in the west, Allenby's successful pounding in Palestine, and the general realization that the Teuton cause is lost may cause the whole structure to collapse much more rapidly than most people believe possible.

## CAMBRAI NEXT.

The British and Canadian troops now occupy the suburbs on three sides of the City of Cambrai and the complete capture of that city is regarded as the next important development on the western battle line. The doom of Cambrai was sealed when British and Canadian troops captured Courlon Wood as that placed them within short gun distance of the city and virtually put that important railway junction and military point within their grasp.

The fall of Cambrai will mean the severing of valuable lines of communication serving the Hindenburg front and there is no doubt that the Germans will put up the most violent resistance before they allow it to go. At the same time the enemy situation at St. Quentin is rapidly becoming untenable and it is regarded as certain that St. Quentin will shortly share the fate of Cambrai. Should this occur as expected, the Allies will be in undisputed possession of the two main bastions of the Hindenburg line and Ludendorff will have nothing ahead of him save another retreat, with the British, Canadian, French and Americans pressing him hard. In fact it is the opinion of competent war reviewers that he has already held on too long, and that he will now have the utmost difficulty in carrying out a retreat that will not develop into a rout.

The struggle on the western front now is vastly different from that on the German in 1918. Then the gigantic machine struggled for a week for the

New Brunswick troops participated gloriously in the fighting in the vicinity of Cambrai. Unfortunately the long casualty list is almost certain to follow.

All that is now required to fill the Allies' cup of happiness is for the German High Command fleet to venture forth to the open sea. But no such luck.

Foch is fighting five battles and winning all of them. "Der Tag" for the Germans appears to be at hand.

## THE NEWSPRINT SITUATION

(Ottawa Journal Press.)  
The Paper Controller for Canada, Mr. R. A. Pringle, K. C., has announced a new price for newspaper which will create a critical condition among the weaker of the newspapers of Canada. He fixes \$69 per ton as the price which the paper mills are entitled to get, not only for the next two months, but retroactively back to the beginning of the year. The average price of paper up to July 1 was \$57 a ton, so that the increase in price is \$12 a ton, or a little over 21 per cent. At the outbreak of the war the average price of paper in Canada was \$40 per ton. The price of \$69 now fixed, therefore, to date from July 1 last, is an increase upon pre-war price of \$29 per ton, or 72 per cent. A newspaper whose paper bill before the war was \$100,000 has now, at the same circulation, to pay \$172,000 more.

The price now fixed by the Paper Controller looks a gross injustice if the Controller's action is tested by the principle on which the Government appointed him, namely to require sale of newspaper by the Canadian mills to Canadian newspapers at merely a fair profit. All can sell at a profit, taken as a whole, are selling 83 per cent. of their product in the United States or elsewhere abroad, at a profitable figure. The Canadian newspapers, however, are selling only 11 per cent. of their output. As regards cost of manufacture, the enquiry which has been incomplete, and favorable to the mills, because of the Controller's refusal to allow full enquiry, and his violation of undertakings given to the Canadian Press Association, has shown that while some Canadian mills seem to be manufacturing at a high cost, probably near the Controller's figure, most are manufacturing at a lower cost. All can sell at a profit, and in the latter case they are protected by a "differential" arrangement between the mills, established under Government pressure, whereby the mills which export all or most of their manufacture.

Thus the Paper Controller's problem was simplified by two notable conditions: 1. He had to deal with only 11 per cent. of the output of Canadian mills. The price of that 11 per cent. sold in this country was protected by compensation (if necessary) from the profit of the 89 per cent. of Canadian mills which must sell newspaper at home. We do not imagine that the Government's action in instituting an enquiry into the necessary cost of manufacture of paper in Canada contemplated taking the worst-managed and most unsuccessful paper mills in Canada as a proper basis of cost; and even if the Paper Controller decided to do that, he might at least have conducted a thorough enquiry—which he has not done. And his failure to do so has been accompanied by such unwarrantable utterances as would "zone have created any confidence in his findings.

The Government has provided for a judicial tribunal to which an appeal may be taken from the Paper Controller's figure. No doubt, the Canadian Press Association will lodge an appeal. However, the obvious solution of the problem now is for the Government to take over one or two of the larger mills and operate them, charging the newspapers a fair profit on the cost. The newspapers will cheerfully pay that. All that they are trying to make sure of is that they shall not be soaked in war time by either the greed of some mills or the inefficiency of others.

The Master Fisher was aboard, and Ho the tempests raised,  
The fishermen of Gloucester to ancient faith are keen,  
With Master Fisherman aboard, they'll beat the submarine!

The fishermen of Gloucester for generations past  
From Cape Ann clear to Iceland defied  
The raging blast:  
The fishers' wives of Gloucester have kept the fires of home  
Ablaze to welcome heroes from seething billows' foam.  
Unflinching and unconquered by warfare with the waves,  
The Gloucester fisherman, his boat, his catch, his comrades save;  
Mid hurricane he hurries on, his beacon light his wife,  
Death races him, he crows on sail, and wins the game of life!

He fishes where the linn swift with keen keel cuts his craft,  
He rows to port in cocklebeils the landsman would call daff;  
No fog too thick to steer through, no No Gloucester boat too small, too frail, to brave the growing gale.  
Food from the sea for you, for me, he brings, this fisher bold,  
In blazing heat of summer, in winter's biting cold;  
He risks his life for fellow men, his service for man's health,  
He's Nature's truest nobleman, no profiteer for wealth.

His useful avocation the tyrant war lord hates,  
And skulking submarines now lurk where Gloucester fisher baits;  
To drive the fishers from the sea and fill Cape Ann with dread,  
The pirate vipers wait below, nor dare to show their head,  
Valiant, defiant, fearless, the Gloucester fishers sail,  
They'll ne'er surrender Freedom to tyrant's lattle halibut  
If fleet's sunk, fit anchors, sail on, and fish for cod,  
The ocean is creation's, and the admiral is God!

God lives, and so does Gloucester: Its spirit never dies;  
Each Gloucester boat the Stars and Stripes in pride and glory flies;  
From Land of Liberty they sail, and every boat is leal,  
The Ship of State their flagship, Democracy its keel!

Brave hearts that sail from Gloucester, brave hearts of wives that wait, United States salute you, all heroes true and great;  
The U-boats cannot conquer against men such as these,  
And Gloucester'll share the triumph for Freedom of the seas!

The fishermen of Galilee were victors in their day,  
The Master Fisher was aboard, the storm and stress to stay;  
The fishermen of Gloucester trust in the selfsame Lord,  
And the fishers' God that made the cod will break the tyrant's sword!

It drenches so naturally that nobody can tell it has been applied—it's so easy to use, simply draw a comb or brush and damp it through your hair one strand at a time. By the gray hair disappears in other application or two, it is to its natural color and looks soft and beautiful. This is a delightful lot, requires not inhaled for the cure, or prevention of disease.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach and bowel poisons before breakfast.

To feel your best day in and to feel clean inside; no sore coat your tongue and sick breath or dull your head; no colds, rheumatism or gassy, achy, you must bathe on the inside, you bathe outside. This is very important, because the skin does not absorb impurities into while the bowel pores do, so a known physician.

To keep these poisons away, well flushed from the stomach, kidneys and bowels, drink breakfast each day, a glass of water, with a teaspoonful of phosphate in it. This will clarify and freshen the entire tract, before putting more into the stomach.

Put a quarter pound of phosphate from your pharmacy, inexpensive and almost. Drink phosphated hot water morning to rid your system of vile poisons and toxins; also prevent their formation.

As soap and hot water act on skin, cleansing, sweetening, drying, so timetimed phosphate water before breakfast, act on stomach, liver, kidneys and

**SAVE YOUR HAIR**  
**AND BEAUTIFY IT**  
**WITH "DANDERINE"**  
Spend a few cents! Dandruff  
disappears and hair stops  
coming out.

Try this! Hair gets beautiful,  
wavy and thick in few  
moments.  
If you care for heavy hair, that  
glistens with beauty and is radiant  
with life, has an incomparable soft-  
ness and is lustrous, try  
Danderine.  
Just one application doubles the  
beauty of your hair, besides it im-  
mediately dissolves every particle of  
dandruff; you cannot have nice, heavy,  
healthy hair if you have dandruff.  
This destructive scrub robs the hair of  
its lustre, its strength and its very  
life, and if not overcome it produces  
a feverishness and itching of the scalp,  
the hair roots famish, loosen and die;  
then the hair falls out fast.  
If your hair has been neglected and  
is thin, faded, dry, scraggy or too  
oily, get a small bottle of Knowlton's  
Danderine at any drug store or toilet  
counter for a few cents; apply a little  
to the scalp, and in a few minutes after you  
will say this was the best investment  
you ever made.  
We sincerely believe, regardless of  
everything else advertised, that if you  
desire soft, lustrous, beautiful hair  
and lots of it—no dandruff—no itching  
scalp and no more falling hair—you  
must use Knowlton's Danderine. If  
eventually—why not now?

a political character.  
Bulgaria agrees to evacuate all the  
territory she now occupies in Greece

immediately, and surrender all means  
of transport to the Allies.  
Bulgaria also will surrender her

Secretary States Five Hundred  
Names Checked on Recall  
Petitions—Chairman Camp-  
bell Calls For Faster Process

At a mass meeting of the labor  
organizations of the city, held in the  
Oddfellows building last night, C. H.  
Stevens, the secretary, stated that  
about 500 names had been checked  
on the petitions asking for a re-  
call of Commissioners McLellan and  
Hilyard and that a number of the  
lists had not yet returned yet.  
The meeting opened with P. A.  
Campbell, vice-president of the Trades  
and Labor Council in the chair. In  
his remarks he stated that the meet-  
ing was called to arrange for a fast-  
er process of getting the necessary  
names. He stated that a large num-  
ber of placards had been printed and  
would be distributed to various union  
shops with a man in charge to obtain  
the signatures. He stated that he had  
been called upon by the chairman  
of the Board of Trade concerning  
the meeting to be held at noon today  
in the city hall to see if a settlement  
could not be arrived at.  
C. H. Stevens advocated that the  
ward system be adopted to facilitate  
in procuring the names, with a booth  
in each ward. He explained that there  
was some delay in getting the names  
as only one petition could be handed  
by each canvasser, and as the sheets  
were held on an average of twenty  
names it needed a large force of can-  
vassers to carry on the work. He  
elected a chairman in each ward  
with a committee to help him.  
Concerning the meeting today the  
chairman remarked that the council  
would have to meet every day if the  
labor man if they expected a set-  
tlement. One of the men present  
stated that the men who had paid  
their taxes and were eligible to vote  
still had a red line drawn through  
their names on the returning officers'  
books. It was then moved and car-  
ried that a committee be appointed  
to enquire into the matter.  
The rest of the meeting was taken  
up in organization matters.

**ANNUAL EVENT**  
**IN LOCAL DOGDOM**  
**OPENS TOMORROW**

Vicinity of 215 Dogs Will Be  
Benched at Tenth Annual  
Show—Upper Canadian  
Kennels Represented By  
Their Best.  
The big annual event in local dog-  
dom will open on Wednesday morn-  
ing in St. Andrew's Rink, when the  
tenth annual bench show of the New  
Brunswick Kennel Club will be  
thrown open to the public. This year  
there will be in the vicinity of 215  
dogs benched, making the show a  
well-desired point of interest. One of the most  
important kennel events in Canada.  
St. John has always been noted for  
the large number of good dogs owned  
in this city. It being said that, gen-  
erally, local fanciers can hold their own  
with the best from larger cities. This  
year promises to be no exception as  
local entries have been coming for-  
ward in good shape, and there is a  
wealth of strong classes in Air-  
dales, Beagles, Basset Hounds, Har-  
terriers, Irish Terriers, Scottish Ter-  
riers, all lines of sporting dogs, Col-  
lies, Bulldogs and Bull Terriers. The  
St. Bernard class will also be larger  
than in previous years six crack-  
ing fine dogs having been entered up to  
last night.  
The Upper Canadian talent will be  
present with some of the best spec-  
imens in their kennels. Among the  
noted dogs already entered are the  
crack Collies Coltness Commander  
and Ormskirk Fleetfoot, owned by  
Siraclan of Kennerly, the celebrated  
cocker spaniel Oakley Major from To-  
ronto, and the wonderful greyhound  
International Champion Master But-  
ter, who will make a strong bid for  
best dog of any breed in the show.  
Two fine Airedales are being sent for-  
ward by Norman Mackenzie of Re-  
gina, in Newcastl Commander, and  
Champion Sunshine. Dog fanciers will  
recall that Mr. Mackenzie owned the  
celebrated Alfredales International  
Champion Polan Maxim and Cham-  
pion King Nobbler's Double. In wire hairs,  
Wallace Sheelan, of Dalhousie, form-  
erly a breeder of bloodhounds, will  
show West Park Timekeeper, "Billy"  
Laskey, and others from Fredericton  
will be on hand with good entries in  
other classes.  
W. W. Cameron, of  
this city, will show a string of four  
Collies recently imported by him.  
Altogether the 1918 dog show prom-  
ises to be as good as any previous  
one of the New Brunswick Kennel  
Club, both in number and quality of  
entries. The judge, C. H. Davis, no-  
ted as a gentleman judge in Upper  
Canada, and the United States, will  
arrive today.

The new consul at Moncton, Bertil

trict.

**SLAVES WILL RISE**

"Formerly the Central Powers  
threatened to dominate the Balkans  
and the eastern Mediterranean, but  
the present Bulgarian debacle finds  
the Central Powers unable to save  
the Balkan fronts. The feeble Aus-  
trian garrisons remaining in Serbia,  
after Bulgaria's withdrawal, will be  
annihilated.  
"With the capitulation of the Bul-  
garians, the Austrian Slavs will rise  
against their despotic rulers, and the  
fate of the Hapsburgs will be accom-  
plished. An uprising in Bosnia and  
Herzegovina is a necessary sequel to  
the freeing of Serbia.  
"Turkey must follow the example  
of Bulgaria, and the Berlin  
Bagdad dream disappears."

**MORE MONEY NEEDED**

That he intended to ask for \$25,000  
with which to restore in terra cotta  
wooden sewers which are in a state  
of disrepair, the Hon. Commissioner  
announced by Commissioner Hilyard.  
The commissioner said a great number  
of wooden sewers were in bad condition  
and that it was necessary to have  
that owing to the great area of rock  
which was encountered at Lake Fitz-  
gerald and on account of the increased  
cost of labor, the work at Lake Fitz-  
gerald would cost \$15,000 more than  
the original estimate of \$40,000.

Spreading in Lower Hills-  
boro and Vicinity.

Hillsboro, Sept. 30.—A serious epi-  
dem resembling Spanish influenza,  
has broken out in Hillsboro, creat-  
ing a situation which resulted today in  
the Albert County Board of Health  
taking action to close the schools and  
churches and forbidding all public  
gatherings. Some fifty five cases of  
illness of a more or less serious type  
were reported today, and new cases  
are constantly coming to light.  
So serious is the situation that the  
county board of health held a meet-  
ing here today and decided upon the  
drastic action above referred to.  
So many of the Albert Manu-  
facturing Company's employes are in-  
fected with the malady that the company  
has difficulty in keeping the works  
operating. Local physicians find dif-  
ficulty in treating the patients, and out-  
side assistance may be necessary if the epi-  
dem is not soon checked.  
No deaths from the disease have  
been reported yet, but a number are  
very serious and the worst in several  
instances is feared. The greater num-  
ber of cases exist in Lower Hillsboro  
or Surrey.

**MAN HIT BY FREIGHT**  
**TRAIN NEAR MONCTON**

E. H. O'Donnell, Deaf, Stepped  
in Front of Engine, But Will  
Recover.  
Special to the Standard,  
Moncton, Sept. 30.—A man named  
E. H. O'Donnell was struck by a  
westbound freight near Gayton's  
Crossing this evening, but fortunately  
escaped with his life, being bruised  
and badly shaken up. O'Donnell  
was walking beside the track, and  
just before the train reached him  
stepped in front of the engine.  
He was picked up and brought to  
Moncton hospital. He is suffering  
from a bad scalp wound and injury to  
his chest. O'Donnell is deaf, which  
may account for the accident.  
Rollie Norman, who was in the  
Royal Air Force, arrived in Moncton  
tonight from overseas.

**MARRIED**

A pretty wedding was solemnized  
last evening at the home of the bride's  
parents, 135 Victoria street, when  
her sister, Mrs. A. F. Belding, for-  
merly Miss Hattie Miller, gave in mar-  
riage Miss Hattie Miller, daughter  
of Mr. and Mrs. F. P. Galop, and  
Stanley Short. The bride, who was  
gowned in white satin, and carried a  
bouquet of carnations, entered the  
parlor on the arm of her father, while  
the wedding march was played by  
her sister, Mrs. A. F. Belding. The  
ceremony was witnessed by members  
of the family only. The young couple  
will reside at 87 Adelaide street.

**HOTEL MAN DEAD**

Paul Bourque, Who Conducted  
Royal, Drops Dead in  
His Garden at Cape Baild.  
Sheddac, Sept. 30.—Paul Bourque,  
a well known resident of Cape Baild,  
while working in his garden this  
morning, dropped dead of heart fail-  
ure. Deceased formerly conducted  
the Royal Hotel in Sheddac, and was  
quite well known to the travelling  
public. He was 35 years of age and  
is survived by a wife and three chil-  
dren.  
William Tait.  
The death of William Tait, watch-  
maker, Dock street, took place early  
last evening at the General Public  
Hospital at the age of 67 years. Mr.  
Tait was born in the Shetland Islands  
but came to Canada when a young  
man. He is survived by his widow,  
one daughter, Mrs. Robert Smart, of  
Westport, and three sisters, Mrs.  
Misses Tait of Brookville, and  
Mrs. B. Nice, of West St. John.  
The funeral will be held from the  
residence of his son-in-law, Reuben  
Smart, Methodist pastor at West-  
field Centre, on Wednesday morning  
at eleven o'clock. At half past two  
Wednesday afternoon there will be a  
service at Exmouth street Methodist  
church. Interment will be in Fern-  
hill.

**GOOD MEETING**  
**LAST EVENING**

Boys' Work Committee Held  
First Session in Y. M. C. A.  
Rooms—Considerable Busi-  
ness Transacted.

The first meeting of the Boys'  
Work Committee of the Y. M. C. A.  
was held in the association building  
last night with the chairman, H. R.  
Crulshanks, in the chair. R. S.  
Stephenson was elected recording  
secretary, and a policy for the year's  
work was presented by A. M. Gregg,  
boys' secretary, outlining the various  
activities for the boys' division.  
It was decided that the Canadian  
Standard Efficiency Test be the basis  
of the year's activities, as it is the  
recognized programme of the boys'  
work in Canada, and the co-operative  
plan of community in boys' work, as  
passed by the committee last spring  
will be the plan of work.  
It was decided that the Mentors'  
Association of last year will this year  
include the Mentors of all the city  
churches, and will take up a course  
on teacher training. The High Y of  
High School club will continue their  
attention, and the social activities  
will be enlarged. It is also planned  
to hold a "find yourself" campaign  
among the older boys, thus assisting  
them to find their vocation in life.  
The night school, which was started  
last season, will be continued and it  
is likely that a paid instructor will  
be in charge, so that better results  
will be attained.  
It was suggested that a Father and  
Son week be held, the idea being to  
have meetings for fathers as well as  
for the sons, and also to have a Father  
and Son Sunday in the churches.  
It was decided to discontinue the  
Boys' Council and to substitute in its  
place a city wide council composed of  
representatives from the various  
churches who have linked up with  
the co-operative plan of work.  
During the meeting eloquent ad-  
dresses were given by E. J. Arnot,  
maritime town and country secretary,  
and L. A. Buckley, maritime boys'  
work secretary.

## CANADIAN PACIFIC STOCK ADVANCES SEVEN POINTS

After Opening at 164, Shares Drop to 162 3/4, Then Shooting to 170 1/2.

## STOCK CLOSES QUITE STRONG AT 169 3/4

Another Peace Movement in Wall Street Is Pulled Off on Time.

(McDougall & Cowans)  
New York, Sept. 30.—Another peace movement in the stock market took place in the early afternoon, and gained headway until the close. It took on the appearance of a runaway bull market in certain sections of the list. The oil stocks and motors led the movement. Texas Oil and Mexican Petroleum made gains for the day of 10 to 14 points, and several of the motors advanced three or four points. Standard Oil was active and strong. Canadian Pacific opened at 164, sold down to 162 3/4, and then shot up to 170 1/2, closing at 169 3/4, thus holding practically all of its seven point rise. General Motors advanced from 115 to 124.

## MONTREAL CATTLE

Montreal, Sept. 30.—Prices for good cattle on the local market this morning were unchanged from last week, but the poorer grades were down about twenty-five cents. The price of hogs and sheep also sagged about twenty-five cents. Receipts at the east end market were: Cattle, 2,000; sheep, 2,500; hogs, 1,300; calves, 1,000.  
Quotations: Choice cattle \$13.50 to \$14; common, \$7.75 to \$8.75; butcher bulls, choice heavy \$10.50 to \$11; light \$10 to \$10.25; common \$7.25 to \$7.50; cows, choice, \$9.50 to \$10; common \$7.25 to \$8; Lambs, \$16.50 to \$18.50; Quebec \$12.75 to \$14.75; Sheep \$11.50 to \$12; Quebec \$9.75 to \$10.75.  
Calves, milk fed \$14.50 to \$15.50; good \$12.50 to \$13.50; grass fed \$10.50 to \$11.50; common \$7.00 to \$9.00.  
Hogs, select \$20 to \$20.25; stags \$15.75 to \$16.50.

## CUSTOMS RECEIPTS

Ottawa, Sept. 30.—Customs receipts for the past six months of the fiscal year show a decrease of \$6,823,223, when compared with the same period in 1917. The total receipts for the first six months of the present fiscal year were \$82,012,888, while last year they were \$88,836,111. The decrease for the month of September alone, when compared with September, 1917, is \$556,015.

## TORONTO CATTLE

Toronto, Sept. 30.—Receipts at the Union Stock Yards here this morning totalled 4,401 cattle, 345 calves, 2,466 sheep and lambs.  
Trade was very slow in all lines of live stock and the tendency of cattle was weaker.

## HAVE ENGAGED A RETURNED SOLDIER.

Mr. James Driscoll, who was invalided home from the front some time ago, has received his discharge papers from the militia, has been engaged as a clerk in the King Street Store of Waterbury & Riving Limited. Mr. Driscoll, before going overseas, had considerable experience in the shoe business, and Messrs. Waterbury & Riving, Limited, are very fortunate in obtaining his services. They will now have four male clerks in their King Street store, along with some well experienced and first class lady clerks. Their sole endeavor is to give the public the best service possible.

# SENSATIONAL GAINS STREET ON THE PEACE TALK

## Texas Co. Rises Fourteen Points, Mexican Petroleum Ten and Canadian Pacific 7 1/4 — Steel Stock Unchanged.

New York, Sept. 30.—Under the impetus of the portentous news from abroad, today's stock market developed unusual activity and strength, at least much of the large turnover centered in so-called peace issues, a few of which registered sensational gains. Oil shares were conspicuous from the outset. Mexican Petroleum made an extreme advance of 10 points, while Texas Company featured the final hour at a gross advance of 14 points. Moderate strength was manifested by United States Steel and kindred industrial and equipment shares. Early dealings, but profit-taking and short selling soon effected reactions of one to four points. United States Steel's gain of a point in the first half hour was succeeded by insistent pressure at an extreme reversal of two points, but the stock was again in demand later, closing unchanged at 112 1/2.

Canadian Pacific Rise. Investment bulls were backward during the greater part of the session despite the many favorable reports of earnings submitted by the Interstate Commerce Commission, but rose briskly toward the close. Canadian Pacific was leading at an advance of 7 1/4 points, most of which was retained. Motor shares became prominent at midday, gathering greater strength later on another drive against the shorts in General Motors, which held much of its 7 point rise while Studebaker, Maxwell and Chandler Improved from 2 to 4 points. Utilities, notable gas shares, leaders tobacco and fertilizers comprised strong stocks extensive short covering setting in at the close. Sales amounted to 735,000 shares. Bonds were variable, Liberty issues displaying moderate irregularity. Total sales (par value) aggregated \$8,650,000. United States bonds, old, were unchanged on call.

## CREAMERY BUTTER GOES TO BRITAIN

For Next Six Weeks Canadians Will Have To Rely To Large Extent Upon Farm Dairies.

Ottawa, Sept. 30.—For the next six weeks, Canadians will have to rely to a large extent upon the farm dairies for their supplies of table butter. The creamery butter is to go to Great Britain.

Official announcement to this effect was made today, the government having passed an order in council on the subject, at the instance of the Canadian Food Board.

There is a shortage of butter in the old country. It is the only food commodity which there is any particular scarcity, and an appeal has been made to Canada to help supply the deficiency.

Arrivals since last report, 2 cars Ontario and 1 car American mixed fruit, and 600 barrels Nova Scotia and New Brunswick apples.

QUEBEC: No change in prices since last report.  
MONTREAL: Nova Scotia Gravenstein No. 1 1/2, No. 2 cooking apples \$2.50 to \$3.50, No. 1 (red) \$4.50 to \$5 per barrel. Basket apples 40 to 50¢, cooking apples 25 to 40¢, plums (flat) 85¢ to \$1.25, pears (flat) 75¢ to \$1.25, tomatoes 45 to 55¢, 40 in quart baskets. Grapes \$1.75 to \$2.25 per bushel. New Brunswick potatoes \$2 to \$2.25 per bag in car lots. Quebec stock \$1.90 to \$2.15 per bag. Onions, Western yellow \$1.25 to \$1.50 per bag. Quebec red \$1.75 to \$2.

OTTAWA: Nova Scotia Gravenstein, No. 1 1/2 to \$5, No. 2 \$4.75 to \$5 per barrel.

THE CHANGES ON C.G.R. LINES Effective Sept. 29th. Service to P.E.I. via Cape Tormentine.

Time changes effective on September 29th, on Canadian Government Railway Lines, will only slightly affect trains leaving St. John. No. 14 "Express," which connects with No. 200 Eastbound "Ocean Limited" for Halifax at Moncton, will leave at 2:10 p.m. instead of 12:50 noon, and will not run on Sundays. No. 10, the "Night Express" will depart at 11:25 p.m. The "Maritime Express" will be the daily train between Halifax and Moncton after the change, and the "Ocean Limited" will run daily except Sunday out of Halifax.

Passengers for Prince Edward Island will make connection by taking No. 18 Express leaving at 7:10 a.m., connecting here at Sackville with train leaving for Cape Tormentine at 1:00 p.m. No. 18 will wait twenty-seven (27) minutes at Sackville for dinner, and the new restaurant in the station will cater to the needs of travellers desiring lunches or meals. Passengers for the Island will have ample time to enjoy a meal there.

There is practically no change in the time of trains arriving. No. 13 Express, the connection with the Westbound Ocean Limited, will arrive at 5:30 p.m. as usual, but not on Sundays. No. 337, 338, Saturdays between St. John and Hampton will be discontinued.

CHICAGO STOCKS. Chicago, Sept. 30.—(U. S. Bureau Market)—U. S. stocks: 29,393 market fully steady at Saturday's average. Butchers 19.50 to 20.00; H. Int. 19.00 to 19.50; packing 18.50 to 19.50; rough 18.00 to 18.50; pigs, good to choice, 17.75 to 18.50.

ST. JOHN CLEARINGS. The bank clearings for the month ending today were \$9,314,347; compared with last year \$7,877,827; corresponding month 1916, \$8,962,931.

## MYSTERIOUS DEATH IN YORK COUNTY

Mrs. Walter Prekham Found Dead and Investigation Has Been Ordered.

Fredericton, Sept. 30.—Mrs. Walter Prekham, 35, daughter of James McPherson, of Covered Bridge, York Co., died Saturday night, under circumstances which have caused the authorities to begin an investigation. She states to her sister that she was going to the post office for mail and was never seen alive again. She was not missed until yesterday, when friends going to her house found her dead. She had not undressed or gone to bed. Her husband is overseas.

## NEW BRUNSWICK TROOPS ARE IN IT

The intention was to encircle and not to penetrate Bourlon Wood, and at the appointed time the preparatory attack was made. It was in our hands, with its heavy quota of prisoners. The task given to the First Canadian Division was different in character. The assault was storming, which was done in brilliant fashion by troops from Quebec, Ontario, the prairie provinces and British Columbia, the front thereafter opened up in the fan-like fashion previously described and it became the work of the brigades engaged to drive into the northeast, keeping in touch with the Fourth Division on their right, but not letting their left be unduly delayed by the formidable enemy defenses along the east bank of the cut. This began to fall automatically, though not without sharp fighting so soon as the forward thrust passed their flanks out of all hope of support. This combined movement, throwing out a semi-circular salient into the heart of the enemy's defence between Cambrai and Douai, had its danger for ourselves for it created a vulnerable flank on our extreme left. Provision, however, had been made for this by the incorporation in the Canadian Corps for the occasion, of an English division which had proved itself on many hard fields, this battle being the eleventh in which it had been engaged.

Yesterday afternoon it moved up on our extreme left, storming what remained of the enemy defence along the canal, including the strong positions of Oisey-Le-Verser, and thus with great dash at once defeated any preparation the enemy might have intended for counter-attack on our flank. For this purpose he had hastily thrown in fresh troops from the south of Douai, but these were beaten off with the loss of many prisoners.

Such is the bare outline of what is strategically regarded as perhaps the best piece of work the Canadian Corps has done. Great risks were taken deliberately for great objects and the corps commander, Sir Arthur Currie, has the satisfaction of seeing his own judgment and his faith in the inconquerable spirit of his troops vindicated by a victory that unlocks yet another door into the enemy strong places in France.

Further north, English troops recaptured Villers-Guislain, together with the spur southeast of that village. Before midday also they had taken Gonnelleux and reached the Scheidt Canal on their front from Vendhuile northward.

North of Cambrai the enemy again resisted our advance strongly, employing considerable forces and counter-attacking frequently and violently. Successful minor operations were carried out this morning. English troops advanced their lines to the west bank of the Laves river between Neuve Chapelle and Ploegnin. At the same time progress was made by our troops southwest of Fleurbaix. Over fifty prisoners were captured in these enterprises.

Sergt. H. V. Hazlewood, of the Canadian Army Dental Corps, left Friday evening on the Montreal Express, en route to Victoria, B.C., to join the Siberian unit.

## THIRTY-FIVE HUN AIRPLANES DOWNED

Destroyed in Air Fighting of Sunday—Nineteen British Planes Missing.

London, Sept. 30.—Thirty-five German airplanes were put out of action and fifteen balloons destroyed in the air-fighting of Sunday, according to Field Marshal Haig's report on aerial activities tonight. Nineteen British planes failed to return to their bases. The statement reads: "On Sunday fifteen hostile balloons were destroyed. Twenty-five planes were brought down and nine others driven down out of control. Nine of ours are missing. Thirty-six tons of bombs were dropped on railway stations and junctions.

"The air force, in co-operation with the navy, bombed enemy destroyers and raided Zebrugga, Ostend and Bruges and airdromes in the vicinity of Ghent. Twelve hostile machines were destroyed and fourteen driven down out of control. Ten of ours are missing."

## CHANCELLOR VON HERTLING QUILTS

Amsterdam, Sept. 30.—Chancellor Von Hertling and Foreign Secretary Von Hintze have tendered their resignations to the Emperor. The Vossische Zeitung of Berlin says it so understands. ### MOBILIST MYSTERIOUSLY MURDERED NEAR COSTIGAN, ME. Bangor Commercial Traveller Slain and Body Found Lying in Woods Near His Car After Nearly Week — Jordan Lumber Co. Employee Makes Discovery.

Bangor, Me., Sept. 30.—An abandoned automobile by the side of the county or river road, about three miles above Costigan and seven miles from Old Town, led to the discovery, Saturday, of the body of Arno B. Cayting, of Bangor, who had been robbed and murdered, his body lying in the woods since last Monday.

The crime was brought to light by Walter O'Keefe, employed by the Jordan Lumber Co., who made daily trips over the road. Observing that the automobile, a Saxon runabout, had remained in the same place since Monday, he notified Chief of Police Tremblay, of Old Town, who told Deputy Sheriff James McNaughton. The latter went to the spot and, after circling for a time in the woods between the road and the river, found the body of Cayting, about 150 feet from the road.

A superficial examination disclosed wounds about the head. Sheriff A. L. Thayer and Medical Examiner Dr. E. T. Neely were notified. Sheriff-elect O. B. Farnandes was given charge of further investigations, and is working on the case.

The most important clue appears to be the murderer's weapon, a cheap .23 calibre revolver, hardly more than a toy, found about three feet from the body. Four chambers had been discharged, and two were loaded with .23 long cartridges, the ends of which had been cut off to fit the weapon, which was made for .22 short cartridges.

Three Wounds. An autopsy was performed by Dr. Neely, disclosing three bullet wounds in the skull, any one of which would not doubt have been fatal, the bullets lodging in the brain. One entered the forehead and the other two from the back of the head. The hair was singed in one place, indicating that the shot was fired at short range.

There was also a large contusion in the forehead as if from a blow with a club or some blunt instrument. A silver open-face watch which Mr. Cayting carried was missing, and it is also believed that a pocketbook containing a considerable sum of money was taken, although a bill-fold containing about \$15 was found.

AMERICAN TROOPS IN HEAVY FIGHTING Large Number of Germans Killed and Hindenburg Line Penetrated.

With the American Army on the St. Quentin Sector, Sept. 30.—(By The Associated Press, 4.30 p. m.)—The Americans on this front have been engaged in heavy fighting throughout the day. There was much hand-to-hand fighting and large numbers of Germans have been killed, many by grenades and bombs dropped into their deep dugouts of the Hindenburg system.

The Americans found it necessary to clear up portions of the Hindenburg line through which they smashed their way. They advanced so quickly in their operations of yesterday that many Germans were left in the dugouts and some of these proved a serious menace.

WEDDINGS. Wetmore-McDrien. A quiet wedding took place yesterday afternoon at the residence of the officiating clergyman, Rev. J. H. The happy couple were accompanied by Mrs. George Mott and Miss Florence McDrien, sister of the bride. Mr. and Mrs. Wetmore will reside in this city.

Doctor Tells How To Strengthen Eyesight 50 Per Cent. In One Week's Time In Many Instances. A Free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed heavy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple...

### COULD NOT STOP MUCH BAD NEWS HITS GERMANY'S PAPERS HARD

Press Hysterically Emphasizes Need For Cool Heads Never Stronger — President Wilson Abused. Amsterdam, Sept. 30. (By The Associated Press.)—The German press today is hysterically emphasizing that the need for cool heads never was greater than now. The possibility, never before entertained or visualized, is beginning to dawn on the people that Germany may lose the war, and the suddenness of this realization has had a bewildering effect on them. The "Zeitung Am Mittag" entirely approves as wholly appropriate to the occasion the sensational editorial printed in "Vorwärts" last week, dealing with what would happen should an enemy succeed in invading the fatherland. It makes an assertion remarkable for this newspaper, saying: "Our government throughout this terrible war has sedulously avoided hinting at this, and the other possibility, namely, that the war may be lost if every body and everything are not united in the utmost effort."

The government has thus itself contributed to veiling the real gravity of our position during these four years of war." The newspaper continues: "It has preferred to lead the nation in blinkers past the abyss of danger to our national life."

The "Rheinisch Westphalian Gazette" abridgerly contemplates the Bulgarian situation, "the last and highest wave," and suspects that the Bulgarians, after having got the Dobruja region of Rumania, have no further use for Germany.

The "Frankfurt Zeitung" expresses regret that the government failed to impress on friend and foe with "truth" that Germany did not go into the war out of lust for power.

This newspaper freely admits that the Bulgarians are justified in feeling war tired and thinks the Bulgarian people will stand by Premier Malinoff. Finally the "Frankfurt Zeitung" begs the government to make for peace, "unequivocally and sincerely."

Ukrainians Forming Entirely New Army Eight New Army Corps of Two Divisions Each Being Organized. Amsterdam, Sept. 30.—General Rogosa, the Ukrainian war minister, according to a telegram from Kiev, announced the plans for the Ukrainian army call for the formation of eighty army corps of two divisions each. The minister declared that the population regarded the plan sympathetically while Germany and Austria-Hungary are showing "extreme good will" toward the formation of a Ukrainian army and are promoting it "generously and energetically."

Ukrainian youths who will be 20 years old next January will soon be called to join the conscript army, but at present only those of the propered classes will be taken.

# For Thrift

TO win the war, Money is needed. So that—Thrift is a War Service. Every dollar you save instead of spending thoughtlessly, releases labour in some form—labour sorely needed for war purposes.

Thrift is enforced in the use of many things today, such as flour, sugar, and coal, by the simple expedient of limiting the amount one may buy.

But thousands of extravagant habits flourish unchecked, and these are contributory hindrances to an early peace. Such habits are accomplices of the Kaiser.

For instance, there is no excuse for a man hiring another man to shave him. It wastes time, money and vital labour. You can shave yourself better with a Gillette Safety Razor in five minutes.

Buy a Gillette and wipe out the dollar a week expense. At the end of a year you have saved practically \$52.

With such a saving you can buy a \$50 War Bond (the purchase of which enables the Government to produce 15,000 cartridges), and you still have the finest razor in the world, good for an unlimited number of inimitable daily shaves—shaves that leave the skin perfectly smooth. The touch of the Gillette is thoroughly agreeable to the most tender skin.

Thrift will help to win the war. Gillette Razors are doing their share—at home and at the front.

Any jeweler, druggist, or hardware dealer will be glad to show you his assortment of Gillette Razors today. The price is five dollars.

FAIR AND COOL.

PRICE OF BREAD. Commencing today bread advances one cent per loaf—wholesale twelve cents, retail thirteen cents.

SIX CENT FARE TODAY.

The six cent fare goes into effect on the St. John street cars today. There will be no additional charge for transfers.

COMMON COUNCIL THIS MORNING.

The weekly meeting of the common council will be held this morning at eleven o'clock instead of three o'clock in the afternoon.

THE NEW RATES.

The various departments at city hall yesterday received formal notice from the New Brunswick Power Company as to increased rates which will go into effect today.

FRESH STRAWBERRIES.

A box of fresh strawberries grown on Ralph McKinnon's farm at Hatfield's Point, was presented to Captain Bayle, of the steamer Hamilton yesterday.

BACK AGAIN.

Among the arrivals yesterday from Boston was Joseph J. McNamara, who will resume his duties as physical director of the Y. M. C. I.

IS IMPROVED.

Mrs. Edwin Dunham, of Bellevue avenue, received a telegram yesterday that her son Pte. William Gordon Dunham, wounded on September 8, suffered a fractured right thigh and is now improving.

NO COUNCIL MEETING.

Owing to the absence of the mayor there was no council meeting of the common council yesterday morning. Delegations from the Board of Trade and Labor unions were notified and therefore did not call at City Hall.

SPANISH INFLUENZA IN SYDNEY.

Spanish influenza has made its appearance in Sydney. A St. John business man received word last evening that the situation in the Cape Breton city had become sufficiently serious to cause the authorities to order the closing of the churches and schools, and to prohibit all public gatherings.

IN QUARANTINE.

In view of the threatened epidemic of Spanish influenza and by advice of the health authorities of the city, the shelter of the Children's Aid Society 110 Elliott Row will be quarantined against all visitors until further notice.

GLACE BAY BOOMING.

B. D. Morrison, of Glace Bay, who was in the city on Saturday and Sunday, brought the word that the Cape Breton coal town was commencing to experience a pronounced real estate boom. More new buildings have been started in Glace Bay in the last three months than in any other similar period since the outbreak of war.

THE NEW SCHOONER.

The new schooner Ada A. McIntyre, recently launched by Peter McIntyre was taken through the falls yesterday morning. The schooner is to be used as a tugboat for the Cape Breton wharf, and many persons took advantage of the opportunity to inspect the new boat in addition to the sailing fleet of St. John.

PTE. CAMPBELL WOUNDED.

Malcolm H. Campbell, 91 Queen St. West Side, has received official notification from Ottawa, that his son, Pte. Andrew G. Campbell, Mounties Services, had been admitted to General Hospital, Camiers, France, on Sept. 22nd, suffering from gunshot wound in the left thigh. Pte. Campbell is a twenty-one year old man and enlisted in the 5th Battalion. Two years ago he was shell shocked.

ONLY TWO MORE DAYS.

Only two more days remain in which to take advantage of the discount of five per cent on the payment of water rates for the present year. The chamberlain reports that up to date the amount received is not large as last year, but in view of the discount applied, and points out that the time in which the discount may be given has nearly expired. Yesterday was a fairly busy day for the stand and about \$10,000 was taken in.

THE ST. JOHN BRANCH.

The St. John branch of the Engineering Institute of Canada will hold a joint meeting with the St. John Board of Trade in the board's rooms on Monday, October 7th, for the purpose of hearing and discussing papers to be read by Alexander Gray and C. G. Kirby, the former on St. John harbor and the latter on St. John's railway terminals. These are the papers which were read at the professional meeting of the institute at Halifax. Lantern views will be used to illustrate the papers.

STABLE ON FIRE.

About four o'clock yesterday morning Jack Olive, who resides on Prince street, discovered a brick fire burning in Short Brothers' stables. An alarm was sent in from box 24 and the firemen had a two hour fight before the fire was out. Considerable difficulty was experienced in liberating the horses owing to the dense smoke, and a number of sleighs and carriages were destroyed. The damage is estimated at about \$2,000 with partial insurance.

STOCKDALE PROGRAMME FOR BALANCE OF WEEK AT BOARD OF TRADE ROOMS.

At the Merchants' Institute initial gathering last evening it was announced that Mr. Stockdale would open his discussions each evening at eight o'clock, and would take up the following subjects in the order named: Tuesday—How to Sell Morg with less Help. Wednesday—Sizing Up the Customer. Thursday—Opportunities in Retail Advertising. Friday—Cash-Drawer Value of Co-operation.

Chill Borden's Evaporated Milk and it will whip.

TWO ST. JOHN MEN HAD EXCITING TIME WHILE OUT HUNTING.

Big Bull Moose With Many Bullets in Carcass Turned on E. A. Adams—Was Finally Killed By J. B. Smith.

Two of the proudest men walking the streets of Fredericton yesterday were J. B. Smith, and E. A. Adams, formerly of St. John, but now of this city. They have a perfect right to feel proud and happy, because they have established themselves as hunters bold, and carry off the laurels for securing the first moose of the season. They got their prize in record time and had all the excitement they required in bagging their game. In fact, there was a little too much excitement at one stage of the hunt.

They left Fredericton Friday afternoon with Harry Smith's camp, four teen miles away on the Royal Road, as their base. They arrived there at dusk, but not in time for hunting. Saturday morning, about 9 o'clock, they struck for the timbers to see what they could find in the way of big game. They had not gone more than a mile from camp when they came upon two moose. One moose had the protection of law. The other didn't. The unprotected one was quickly the target for rifle shots. Mr. Adams took aim and let go from his 30-30. The moose was tickled by the bullet and started to run away. Adams began to run after him, all the time peppering away with his rifle. The moose got one bullet that angered him, and to show his disapproval of the treatment being handed him, turned and charged at Mr. Adams. The hunter didn't stop to argue the right of way, but turned and ran for all he was worth, with the moose in close pursuit. Mr. Adams had the bullet of a spritzer, but the speed of a Howard Drew couldn't have saved him from a ride on moose antlers. The moose was gaining on him and snorting forth his rage. Just as Mr. Adams was about to give up the ghost, his comrade, Smith, with a well aimed shot from his Mauser, sent the enraged bull toppling into the brook.

The animal showed that eleven bullets had entered the carcass. It dressed about 600 pounds and had a fine spread of antlers. The head is now at the taxidermy shop of Mr. Davis, on Queen street.

The boys say they had always been skeptical about the stories of moose turning on people, but from now on they will believe mostly anything about a moose.

LARGE ORDER FOR SPHAGNUM MOSS

Canadian Red Cross Has Received Order From Overseas for 50,000 Dressings—Enough Moss on Hand, But Scarcity of Sorters.

An order has been received by the Canadian Red Cross from overseas for 50,000 sphagnum moss dressings to be ready for delivery the 15th of October, and 10,000 dressings is the quota that New Brunswick has to supply. This is an emergency order and the dressings are urgently needed overseas, and the rooms of the Natural History Society are being put into readiness for an unprecedented rush of work. The whole building is to be used for the work, and the rooms will be open from 8 a.m. to 10 p.m. William McIntosh, who has charge of the work, stated yesterday that there was enough sphagnum moss on hand for the needed dressings, but there was a great scarcity of sorters and graders. He stated that the society had two carloads of the moss to work on, but in order to make up the dressings in the requisite time, hundreds of people will have to volunteer as workers.

He stated that any worker would be welcomed, even if they could only devote an hour or two to the work, and that there would be a large corps of instructors on hand to teach the novice how to sort and grade. About 75 workers can be accommodated in the rooms at one time, and as there will be different shifts, it is expected that there will be room for about 500 volunteers.

WILL TENDER LUNCHEON.

The local Council of Women will this afternoon tender a luncheon to Mrs. W. E. Sanford, President of the National Council Women of Canada at the Royal Hotel. The Ladies' Orchestra, Miss Hogan, and the Misses Lynch, will furnish a few selections and Madam Kathleen Furlong Schmidt will be heard in a pleasing solo.

AUTUMN OPENING TUESDAY. GOOD GOODS, GOOD SERVICE. STEALING VALUES ALL OVER THREE BRIGHT FLOORS.

It is a weakness of human nature to take the good things sent as a matter of course—and without comment it's only their short coming that affects us. Outside of a natural advance in prices, how few shoppers in this store realize the difficulties war-time has imposed, in assembling such magnificent stocks are to be seen here this week. Sources of supply have been curtailed, in some cases, cut off entirely, yet this store today is supplied with new, fine, and desirable merchandise as never before in all its history. Under war-time conditions this store has taken on a new disposition of service, enlarging the store, enlarging its sphere of usefulness. Good goods are here today, and here in plenty for autumn and winter wear, and at prices that are reasonable, right and natural. Every day you'll find this store ready with a bright good morning, and a right good will to serve you as you would be best served. Few stores that can say so much.

BOUND FOR SIBERIA.

Sergeant G. Harry McDonald and Sergeant Irvine, who have been connected for the last year with No. 7 C. G. R. at West St. John, transferred to the Siberian unit now at Sussex, N. B., and have left with an advance party for Victoria, B. C., where they receive further training before proceeding overseas. Sergeants McDonald and Irvine have many friends both in the city and West St. John who will wish them the best of luck on their safe return home. Sergeant W. V. Hain, of West St. John, who has been with the Canadian Army Dental Corps in St. John for the last three years, also left on Friday evening on route to Victoria, B. C., to join the Siberian unit.

Mrs. W. E. Sanford, President of the National Council of Women of Canada, will address a public meeting in the Grand Opera House at eight o'clock this evening.

Members of all women's organizations in the city are cordially invited to attend.

THE MARITIME PROVINCES BEAT ALL THE OTHERS

Munition Manufacturers in the East Ahead in New Shell Program, Also for Prompt Shipments.

Leo J. Gallagher, superintendent of the Imperial Munitions Board, arrived in the city yesterday from Ottawa and brings complimentary tidings to the different munition manufacturers in the maritime provinces. He was informed by the officials in Ottawa that the maritime provinces beat all others in Canada in the new shell programme, not only in the turning over from one class of manufacture to another, but in the prompt shipments.

This complimentary statement from headquarters shows that the great work accomplished in the lower provinces must certainly be appreciated by the imperial board, as the new style shell being greatly needed at the present time.

ST. JOHN SOLDIER GREATLY MOURNED

Daley Was Popular With Officers and Men—Letter To Father From Platoon Commander.

It was only a couple of weeks ago that John J. Daley, of Dock street, received an official telegram from Ottawa to the effect that his son, Private Christopher J. Daley had been killed in action in France. Another son, Joseph, is at present in France with a Nova Scotia regiment going strong in every big advance, and the father is justly proud of his brave son.

Yesterday Mr. Daley received a letter from France from the officer commanding the platoon in which the deceased private was when killed. The letter reads as follows: In the Field, France, Sept. 11th, 1918.

Dear Sir:—As your son was in my platoon, and I have known him for a long time, I am taking the liberty of writing you to offer my deep sympathy for your loss.

He was killed in one of the last large battles, and I am very glad to say that he was one of the bravest and most reliable of the boys. He was indeed, his death was greatly mourned by all, as he was very popular with all his comrades and officers.

With best regards, and again offering you my sympathy, I am, Yours respectfully, A. FRENETTE, Lieut., 36th Canadian, France.

LIEUT. HARRISON GOES TO FRANCE

Will Be Attached To An Eastern Ontario Regiment—Proceeded Overseas in Summer of 1916.

In a letter received recently from England from Lieut. S. L. T. Harrison, of Montreal, he stated that he expected to leave shortly for France to fight with an Eastern Ontario regiment.

Lieut. Harrison was chief recruiting officer at the Canadian Recruiting Depot, at Valcartier Camp in the summer of 1916. He proceeded overseas with a draft of unattached officers. Shortly after arriving in England he took a course of instruction at the Canadian military school, Shorncliffe. After finishing the course Lieut. Harrison was attached to the Reserve Battalion of the 22nd Canadian Infantry. Later he was transferred to another reserve in the same position. Lieut. Harrison made several efforts to go to France but as substitutes in the reserve were denied the privilege, he had to content to remain in England in an administrative position. However after persistent efforts he succeeded and his many friends throughout the province are pleased Lieut. Harrison holds a medal from the Government for his services as a prominent North Shore lad from drowning.

THE PRACTICE MUST BE STOPPED

Commissioner Bullock says it has been brought to his attention that many motorists have gotten into the habit of waiting until nearly time for the ferry boat, and then trotting their teams down North Rodney wharf in order to catch the trip. This practice results in wearing out the plankings very fast, and the commissioner wishes to call to the notice of all concerned the by-law which provides that no team shall proceed at a faster pace than a walk of this wharf, and announces that this practice must stop.

The schedule on which the ferry operates is as follows: It will be known to all the teamsters, and in future the by-law will be strictly enforced.

FRANK STOCKDALE ADDRESSED THE RETAIL MERCHANTS

Heard At Combined Meeting at Noon Yesterday—Changed Business Conditions Was His Subject Last Evening.

The Merchants' Institute, conducted by Frank Stockdale, under the auspices of the Retail Merchants' Association of St. John, had most successful opening yesterday. At noon Mr. Stockdale addressed a combined meeting of the Rotary Club, Canadian Club and Retail Merchants' Association, on the value of a man to his community, and in the evening he addressed a large gathering of business men on changed business conditions which the retail man of today had to meet. Mr. Stockdale is a pleasing speaker and made a deep impression on his audience. He told the men he did not theorize as to the proper way to run a retail business, but he did propose to make a report to them on what he had seen and learned during the past four and a half years spent in investigating conditions from one end of the continent to the other, and allow the merchants themselves to make the application.

Dealing with the value of a man to the community, Mr. Stockdale said the values were rated as follows: The value of a man who works in the community is ten per cent; the value of a man who lives in the community is 50 per cent; the value of the man who spends is 50 per cent, and the value of the man who saves is 10 per cent.

What any city needed was to develop the community spirit as this tended to forward business and other interests.

The evening lecture in the Board of Trade Rooms was well attended. A. O. Skinner, president of the provincial branch of the Retail Merchants' Association, occupied the chair. In introducing the speaker Mr. Skinner referred to the fact that practically all branches of trade were represented and voiced the hope that the speaker would not have already joined the ranks of the Retail Merchants' Association would do so in the near future.

Mr. Stockdale in opening his address referred in flattering terms to the Canadian Retail Merchants' Association, which he claimed was the best on the continent, in that there was only one organization for the whole of Canada, and this fact made it a power at the seat of legislation. He expressed the hope that in future meetings more ladies would be present as his talks on salesmanship and advertising were as applicable to them as to the male members of the selling staffs.

He assured his audience that he did not intend to apply any theory of business, but to bring to them a series of things as he had found them all over the country and tell them some of the things which had been done to alleviate certain conditions.

His address for the evening was changed conditions. The conditions under which business was being done of necessity were changing all the time.

First there was the peddler who brought the goods to the door of the buyer; he was followed by the general store; both of these were today practically extinct. Following these had come the specialty store, then came the department store, next the mail order house and the latest was the chain store.

The mail order house went back to the peddler, but instead of sending a man they sent a catalogue which was much cheaper. But the specialty store had one advantage which none of the others enjoyed, that of personal service, and service which was not a mere cost of doing business, but a mark of goods very carefully if he was to show a profit at the end of the year. It was essential that a proper set of books should be kept and an accurate record of every item sold, and the cost of that item, and the profit on it, should be as good as any of the larger stores.

In these days of increasing cost of doing business it was necessary for every merchant to mark his goods very carefully if he was to show a profit at the end of the year. It was essential that a proper set of books should be kept and an accurate record of every item sold, and the cost of that item, and the profit on it, should be as good as any of the larger stores.

In order to be a successful retailer a man must first get the right goods at the right price, and for selling he gave the three following requisites: salesmanship, display and advertising.

He strongly advocated the adoption of one price, marked in plain figures policy, for every retailer, as this tended to create confidence in the buying public.

At the close of his address a number of those in the audience took part in a discussion.

P. A. Dykeman called attention to the order 'in which Mr. Stockdale placed the requisites for selling, and said in his opinion display should come first. Mr. Stockdale was inclined to think his placing was correct.

Mr. Somerville referring to the one price policy contended St. John was a two price city, as many dealers allowed a discount for cash. This was objected to by some of those present, and Mr. Stockdale said that while technically this practice might be called a two price system it was not so regarded.

Mr. Stockdale gave a short method of figuring selling prices. This was to take the cost and subtract from it the amount of profit desired, then divide the cost by the remainder which would give the selling price. This article must be sold to make the desired margin.

St. John Business College evening classes will open next Wednesday evening. See advertisement on editorial page.
