The Canadian Troops Take Villages Of Damery And Parvillers, Defending Roye

CANADIANS ALMOST IN TOWN OF ROYE

Boys From Dominion Capture Damers and Parvillers, Villages Which Constitute Outer Defences of Important Centre of Roye—British and French Both Make Some Progress During Thursday.

London, Aug. 15.—The Canadians have taken the villages of Damery and Parvillers, a short distance northwest of Roye, according to Field Marshal Haig's official communication issued this evening. The British line south-east of Proyart, just south of the Somme has been advanced a short distance.

Paris, Aug. 15.—Further gains have been made by the French in the wooded region between the Mats and Oise rivers and just north of the Oise and Ribecourt, according to the French official communication, issued this evening. For the most part, however, the operations have been of a minor character.

London, Aug. 15.—The proportion of the German losses to those of the Allies since August 8, is greater than at any other period of the war. It was announced here tonight. It is said that the total Allied casualties probably will not be as large as the number of Germans taken prisoners.

ALLIES CHASING THE ENEMY IN RUSSIA

More Entente Troops Make Landing Southwest of Archangel—British Soldiers Reach Baku in Caucasus To Assist Armenians in Defending Seaport Against Turks—Important Teuton Conference.

(By The Associated Press) The situation in Russia again is looming large. With the Soviet leaders having fled from Moscow, the Bolshevik capital, to Kronstadt, the Soviet troops now are declared to have begun the evacuation of Moscow. American troops have begun to disembark at Vladivostok to aid the Czech-Slovak army in its campaign in Siberia; an Allied force is chasing the enemy more than a hundred miles south of Archangel on the railroad, further allied troops have made a landing southwest of Archangel and are endeavoring to cut off the retreat of the Soviets while British troops have arrived at Baku in the Caucasus, on the Caspian Sea, to assist the Armenians in defending this important seaport against the Turks, to whom it was given by the Brest-Litovsk treaty.

Thus it will be seen that the Allied forces now are operating jointly on

three important sections of Russian territory, on the north with a base in the White Sea, in the east with a base in the Sea of Japan, and on the south in Trans-Caucasia.

Probably realizing the seriousness of the situation as it now affects the Central Powers with defeats on the eastern front and their military positions in the other theatres more too secure; with the feeling in Russia daily growing more intense against the Bolshevik and German rule, and with the spectre of more than a million American already in France and more millions of them soon to be in readiness for overseas duty, important conferences are in progress at German headquarters. The German and Austrian emperors and their suites and field marshals Von Hindenburg and General Ludendorff are the main conferees.

CAR DERAILED AT ST. STEPHEN

Special to The Standard
St. Stephen, Aug. 15.—A thunder storm and heavy rainfall passed over St. Stephen Wednesday evening, but little damage was done. A street car passing up Water street after the storm skidded from the rails on the sand and gravel that had washed from the hill at Watson street and was well on the sidewalk before it could be stopped.

The twenty-five passengers on board were tossed about considerably and some were alarmed for a time, but fortunately all escaped without sustaining serious injury.

ONTARIO MEN BOUGHT VESSELS

Captain G. H. Solery, Toronto, and A. B. Mackay of Hamilton are in the city, having arrived yesterday from Canning, N. S., where they purchased the four-masted schooner General George C. Hogg. They also purchased the Vincent A. White and Meredith White, two fine schooners built at Alma, Albert county. The Letitia L. Mackay, Adam B. Mackay and Alfred Hedley are also owned by these gentlemen. Another vessel called the Rothsay, bought in Liverpool, owned by them made a record trip from New York to Brest, France, in twenty-seven days.

While here Messrs. Solery and Mackay purchased lumber to be shipped to Rexton, where they have a vessel on the stocks.

To succeed Rev. W. Tomalin, recently removed to Shediac, several names were considered, but a unanimous call was extended to Rev. Percy Cotton of New Glasgow, and today a telegram was received, accepting the call.

Rev. Mr. Cotton is a young man of much vigor in Nova Scotia, and it is expected will assume the directorship of Trinity at an early date.

GERMANS ARE CONTINUING TO FALL BACK NORTH OF SOMME

Enemy Has Given Up Towns of Beaumont-Hamel, Serre, Bucuoy and Puisieux-Au-Mont and At Several Points Have Crossed the Ancre River With the British Closely Following in Their Trail.

Germans Apparently Have Decided To Place the Ancre River Between Them and Their Foes—Bebuterne Salient Has Virtually Been Obliterated By the Retirement of the Invaders.

(Undated war summary by The Associated Press).—The fighting on the Somme-Oise battle front still continues, of a minor character compared with that of the early part of the week, when the Germans reinforced their line and stopped the eastward sweep of the Allied forces.

Nevertheless the British and French again have been able to gain ground on two important sectors—the Canadians a short distance northwest of Roye, where they took the villages of Damery and Parvillers, and the French on the southern wing of the battle front where they have captured two farms in the process of clearing the hilly and wooded district around Lasaigny of the enemy.

North of the Somme between Albert and Arras the Germans are continuing to fall back, and the British are keeping in close contact with them. Thus far the Germans have definitely given up the towns of Beaumont-Hamel, Serre, Bucuoy and Puisieux-Au-Mont, at several points have crossed

the Ancre river, with the British following closely on their trail.

New Enemy Ground.

No official explanation has yet been advanced of the retrograde movement of the Germans over this front, but it is not at all unlikely that the operations on the Somme front and the harassing tactics the British recently have employed made the enemy desirous of establishing himself on new ground eastward, with the Ancre River a barrier between him and his foes. At any rate, the Bebuterne salient has virtually been obliterated by the retirement of the Germans and seemingly they now will be compelled to make a readjustment of their line between the Somme and Arras.

In the week of fighting on the Picardy front 30,244 prisoners have fallen into the hands of the British fourth army and French first army, according to an official announcement of this number the British captured 21,844.

MILLS BURNED IN MARYSVILLE

Fredericton, Aug. 15. Marysville had the second disastrous fire within the past few months shortly before 4 o'clock this afternoon.

Fire was discovered in an old saw mill which completely destroyed that building and the old grist mill adjoining, and burning shingles jumped across the Nashwaak river, seriously damaging three double houses on White Row just within a few feet of the Canadian cotton mills. The barns adjoining these houses were also destroyed and two barns on the hill back of the cotton mill caught fire but were extinguished before much damage was done.

Nothing could be done to save the old mills, but the houses were in the district covered by the water system of the Canadian Cottons, Ltd. A call was sent into the Fredericton fire department shortly after 5 o'clock and Assistant Chief Clarke sent a detachment of men and the motor chemical engine. The Canadian Cottons motor chemical and their employees also helped fight the flames. The two mills destroyed were owned by the Nashwaak Pulp and Paper Company and had not been used for years.

The houses were owned by the Canadian Cottons Ltd. It is presumed the loss will run into the thousands, it being hard to estimate it at present.

MAN DROWNED

Sydney, N. S., Aug. 15. Encountering a violent squall before he had sailed more than a few hundred yards off shore on his way to the fishing grounds, William Wadden was drowned off New Waterford yesterday, almost within sight of his home.

PART OF HYDROPLANE IN BAY OF FUNDY

A despatch from Westport, Digby County, says that what is believed to be the float of a hydroplane has been found by fishermen of that place about two miles out from the Bay of Fundy shore and towed into Westport.

The float is described as of very superior manufacture, coppered, and having six watertight compartments, one side being stove in.

MONTREAL ROBBERS ARE UNDER ARREST

Montreal, Aug. 15.—Four men alleged to have been concerned in a series of robberies in Montreal and district were arrested today. The men whose names are Raoul Lacoste, Adolphe Duval, Joseph Belanger and Albert Boudreau, appeared in police court this afternoon and pleaded not guilty to charges of highway robbery while one of them was also charged with outraging a woman. They were remanded to prison. Wednesday next. This case clears up the charge against Joseph Lamoureux, who was charged in court last Saturday with robbery and outrage. He was honorably acquitted.

BIG OTTAWA FIRE

Ottawa, Aug. 15.—Commencing with an explosion in a freight car, fire broke out at the G. T. R. freight sheds near the central station this evening and completely destroyed them with fire spreading with lightning rapidity. The shed and cars seemed to break into a mass of flames at once, the fire being attended with several explosions.

Fredericton, Aug. 15.—"Unless something is done to secure labor for the farmers of this province within the next five or six weeks a large portion of this season's crop will be lost. Many industries might well be closed down and the employees turned out into the fields." These were the words with which Hon. J. F. Tisdale, Minister of Agriculture, concluded an interview on the labor situation, as regards the farms, today.

CONTINENTAL CO. OWES PROVINCE JUST \$4,666.59

Hon. J. B. M. Baxter and A. T. LeBlanc Make Their Arguments on Charges of Defrauding Province Against Speaker Currie, Before Commissioner Friel at Moncton—Hon. Dr. Baxter Contends That Charges Are Proven by Hon. Mr. Currie's Statement and by Testimony of His Own Witnesses—Defence Completely Demolished.

Special to The Standard.

Moncton, Aug. 15. Hon. J. B. M. Baxter in his argument before Commissioner Friel tonight completely demolished the defence set up by A. T. LeBlanc, M. L. A., in the case against Hon. William Currie and showed beyond contradiction that the Continental Lumber Company, of which Mr. Currie was manager, cut a much larger quantity of lumber on the crownlands of the province than they paid stumpage upon and what is of more importance that this payment on the reduced cut was made with the knowledge of Mr. Currie, the speaker of the legislative assembly. Mr. LeBlanc labored zealously and well in behalf of his colleague, but he was unable to upset the facts of the case. The statement of facts in this case did not depend upon the evidence of Scaler Murchie, but upon the company's own figures as produced by witnesses called in their behalf. Beyond the possibility of refutation it was shown that the company had cut as follows: the figures being taken from the record of Mr. Purvis, the company's accountant: Spruce and pine 1,586,805 feet at \$1.50, \$2,379,207.50; fir, 4,760,415 feet at \$1.20, \$5,712,440; cedar, 2,586,805

feet at \$1.50, \$2,380,200. Total, 7,934,025 feet, \$10,472.89.

What Was Paid.

This was the amount the Continental Lumber Company owed to the province and on account of this it was shown that Hon. William Currie had paid stumpage on spruce and pine, 1,922,000 feet at \$1.50, \$2,883,000; fir, 2,819,000 feet at \$1.20, \$3,382,800; cedar, 1,047,000 feet at \$1.50, \$1,570,500; total, 4,488,000 feet, \$8,836,300, and the balance due to the province from the Continental Lumber Co. is \$4,466.59, which amount the province lost through the action of the man who is speaker of the House of Assembly.

On this point Hon. Mr. Baxter was quite severe and his castigation of Mr. Currie drew from Mr. LeBlanc the remark, "You don't like Mr. Currie," to which Mr. Baxter replied, "No, I do not like to see ignorance and partisanship combined in the one individual."

The hearing opened this afternoon shortly after five o'clock. Mr. LeBlanc, who appeared for the commissioner, was the first to address the court. He contended that the company paid stumpage on practically all the lumber it had sawn out of its cut and that the evidence of Scaler Murchie on this point was not dependable as Murchie had shown himself to be unreliable on other occasions and was not more worthy of credence on this.

HON. DR. BELAND IS WELCOMED

Grand Demonstration At Which Sir Wilfrid Laurier Speaks Held At Three Rivers.

Three Rivers, Aug. 15.—Three to four thousand people gathered in the open air before the City Hall tonight to welcome the return of the Honorable Dr. Beland from a German prison to Canada. With Dr. Beland on the platform were Sir Wilfrid Laurier, Hon. Rodolphe Lemieux, Hon. Sydney Fisher, Hon. Jacques Bureau and others who had been prominently associated in the 1911 elections.

Although Dr. Beland studiously avoided political references in his speech, the other speakers continually interpolated them. Second only to the reception given Dr. Beland was that accorded Sir Wilfrid Laurier, who received an old-time ovation from the crowd.

Hon. Jacques Bureau introduced Dr. Beland, who expressed his thanks for the welcome given him. He referred to his old student days in Three Rivers and to his many friends still living there. During his interment he had thought often with affection of Three Rivers.

"I know the value of liberty more than most of you here, because I have been without for so many years," he said. "You who listen to me have never been deprived of it and cannot therefore feel so deeply as I do in this matter."

Dr. Beland expressed again the pleasure and pride he had taken in the exploits of the French-Canadians at Courcellette and elsewhere in France.

RUSSIAN REPUBLIC HELD TO BE IN GRAVE DANGER

Armed Peasants Reported to Be Marching on Petrograd.

GERMANS ENGAGED IN CONSCRIPTING RUSSIANS.

Soviet Troops Are Evacuating Moscow—Petrograd Soviet Goes to Kronstadt—Berlin Social list Paper Warns Germany of Eastern Menace.

LONDON, Aug. 15.—The Soviet government has issued a proclamation declaring that the Russian republic is in danger, according to telegrams from Helsingfors received in Stockholm and quoted by the correspondent of the Times there.

The Petrograd Soviet has removed to Kronstadt owing to the insecurity of the city. Bands of armed peasants are reported marching on to Petrograd from surrounding districts. They declare they are starving and that the Red Guards have stolen all their food.

Dissatisfaction with the Soviets is said to prevail everywhere in Russia.

London, Aug. 15.—Reuter's Limited learns that the British troops on their way to join the Czech-Slovaks on the Usuri front-

iers received by the Czechs with the greatest enthusiasm at Nielak and elsewhere.

The Usuri River joins the Amur near Khabarovsk, north of Vladivostok. The Czechs have been engaged with the Bolsheviks in this region for several weeks.

LONDON, Aug. 15.—A despatch to the Daily Mail from Vladivostok dated Sunday says the Germans already are conscripting Russians on a small scale.

"According to stories of prisoners taken by the Czech-Slovaks," says the despatch, "German flying columns are impressing males from 18 to 45 years of age and are bringing those who disobey the mobilization order before Germanized revolutionary tribunals, which condemn them to death."

"These conscripted units have

German company and platoon commanders and are stiffened by twenty Germans or Magyars to every sixty Russians."

Amsterdam, Aug. 15 (British Wireless Press)—Soviet troops have begun to evacuate Moscow. The gold reserves which had been in the basement of the Kremlin already have been removed to an unknown palace.

Amsterdam, Aug. 15.—Discussing the machinations going on in Finland and the Baltic provinces to provide thrones for German princes, the socialist newspaper, Vorwaerts of Berlin gives out a note of warning.

London, Aug. 15.—The Czech-Slovaks in Siberia are in a dangerous position and are liable to be cut off altogether, says the corres-

GEN. VON BOEHN NOW IN CHARGE OF SOMME FRONT

SIGNIFICANT ACTION OF GERMAN ARMY LEADERS

Von Boehn, "Retreat Specialist," Given Command of the Somme Front.

GERMANS SUFFER HEAVILY FROM ALLIED AVIATORS' FIRE.

Tanks Paralyze the Enemy—Aerial Losses Large—Bridge Across the Somme Attacked—Parisians Feeling Relieved.

PARIS, Aug. 15.—(Havas Agency)—Gen. Hans von Boehn, the German "retreat specialist" has been appointed to the supreme command on the Somme front. The newspapers believe that this change in the German command is highly significant. The German withdrawal north of Albert is looked upon as the first application of his tactics.

In phrases tempered with joy the morning newspapers outline the great change that one short month has brought. The enemy, who was at the gates of Amiens, Rheims and Compeigne, has been soundly beaten and out-generalled at every point, and the initiative has been wrung from him by the military genius of Marshal Foch.

With The British Army in France, Aug. 14.—(By the Associated Press)—In addition to a continuous harassing fire from the artillery, the Germans are suffering from the hands of the British air force as they drop bombs on their towns and villages behind the line have been hit. Bridges across the Somme at Peronne and elsewhere have been bombed heavily.

Prisoners are unanimous concerning the effectiveness of the low flying British airplanes. They say the airmen have caused tremendous material losses and frequently have blocked roads completely by direct hits. They also have done heavy execution by pouring streams of machine gun bullets into enemy masses at close range.

All the prisoners mentioned the work of the tanks and seem to have stamped on their minds visions of steel monsters spitting death. One German company commander concluded his remarks about the tanks by saying: "They are a magnificent weapon, and I can't understand why we have none to speak of." A German aviator shot down within the British lines declared he was positive the German aerial losses in recent weeks had been much greater than is admitted officially. He said he knew of one instance where five German two-seaters crashed to earth well inside the German lines; but, he added, there was no mention of them in official reports.

PARIS, Aug. 15.—Just four weeks ago to-day the residents of Paris were awakened by the sounds of such a cannonade as they never had heard before. It was Gen. Mangin's "counter preparation" against the great German attack which the enemy believed was to bring him to the gates of Paris.

CASUALTIES

Montreal, Aug. 15.—Indications that the Canadian Pacific is planning a strong shipping programme is shown by the appointment of George M. Bosworth, as chairman of the Canadian Pacific Ocean Services, he has resigned the position of vice-president in charge of traffic, to devote his whole time to the shipping interests of the Canadian Pacific. He is succeeded in the vice-presidency by Wm. R. MacInnes, formerly freight traffic manager.

Part of Penistons Crew Are Missing

Men in One Boat Lost—and Others Injured—Schooner-Dorothy Barrett Sunk—Bombs Sent After Submarine.

SCHOONER SUNK.
Washington, Aug. 15.—The American schooner Dorothy Barrett, was sunk by shell fire from a German submarine yesterday near Cape May, N. J. Seaplanes and submarine chasers sent to the spot dropped depth bombs on the spot where the submarine was believed to have submerged.

A report to the navy department to-day says when the submarine appeared and opened fire on the schooner the crew took to the small boats and have landed at Cape May. The schooner was set on fire by the shells.

SURVIVORS LANDED.
Boston, Aug. 15.—Four survivors of the fishing schooner Progress, sunk by a German submarine Saturday, were landed at Boston today, after being adrift in a dory 72 hours without a compass and with little water and food. Others

of the crew were landed earlier in the week.

KELLOG AFLOAT.
Washington, Aug. 15.—American tank steamer Frederick B. Kellogg, torpedoed Tuesday evening, is still afloat 16 miles off Barnegat, N. J.

Boston, Aug. 15.—25 survivors of crew of British steamer Penistons sunk by a German submarine off the Massachusetts coast Sunday landed at Cape Cod ports to-day and reported that another boat containing members of the crew had been lost. Four of the survivors were badly burned and injured, which indicated that the vessel had been attacked before the men were in two boats, which had drifted since Sunday. They were well-nigh exhausted from exposure and lack of food.

MONCTON COUNCIL TURNS DOWN THE GREAT WAR VETERANS

Soldier Boys not Permitted To Have Show in Sacred Precincts of That Wonderful City—Capt. Barton Tells Why—Fredericton Treats Fighters Better.

Moncton, Aug. 15.—Considerable comment has been caused by the drastic action of Mayor Toombs, Aldermen Robinson, Chapman, MacLeod, Steeves, Milton and Wetmore in voting in the city council against permitting the Great War Veterans to bring a travelling show to Moncton for the benefit of the association. Alderman Myles was the only member of the city council to champion the cause of the veterans. Capt. Barton, president of the Great War Veterans, could not understand why the council permitted a travelling show to come here last summer. Capt. Barton pointedly told the council that every veteran in the city felt that the show was not allowed in because the veterans were asking for it.

This the aldermen denied, but nevertheless they turned down the veterans. The same show will be given in Officers' Square, Fredericton.

The Robert and Richard was torpedoed off the Maine coast by a German submarine and the articles floated this way. The vessel, which owned the wreckage and crew are safe.

SMUGGLE SUGAR FROM NEW BRUNSWICK

Some of the Maine people have been crossing over to New Brunswick and purchasing supplies of sugar. The United States federal authorities are putting a stop to this practice. George W. Lincoln

and A. B. Benjamin of Mars Hill hiked over Florenceville way recently and were detected taking back 115 pounds of white sugar, 38 1-2 pounds of brown and a bundle of binder twine. Some of the officials heard of the importations and the United States marshal at Portland, James Cleary, was directed to proceed to Mars Hill and arrest the two. They were given a hearing yesterday at Bangor and held for trial.

BOTH SIDES PREPARING FOR FURTHER HEAVY FIGHTING.

Enemy in Thiercourt Section Shows Signs of Giving Way--In the Roye Area Are Nervous But in Strong Positions--Australians Straighten Out Their Line.

PARIS, Aug. 15.—Allied troops have captured 73,000 prisoners and more than 1,700 guns. This is a greater number than the Allies have taken in four weeks since the beginning of the war.

Both sides are gathering strength for a resumption of heavy fighting. That, however, does not prevent the French from hammering away at the Laasgny-Noyon line and doggedly struggling onward through gas choked woods. General Humbert's men have carried Ribecourt, which barred the road running toward Noyon between Thiercourt Ridge and the Oise and protected the Germans in Ourcamp Forest, east of the river. It is a useful success, that seriously endangers both Thiercourt Ridge and the Ourcamp salient.

The enemy in the Thiercourt position, already severely shaken by the attacks of Gen. Humbert's left, is reported to be showing signs of giving way. With the British Army in France, Aug. 14—(By the Associated Press)—In the battle area between Fouquetcourt and Roye, the enemy appears to be in a fairly strong position in the old trenches behind the rusty wire erected prior to July, 1916. This area is strongly garrisoned. However, there are no immediate signs of a counter-offensive here or elsewhere. The enemy seems to have accepted defeat, preferring not to attempt any operations which might cost him heavy losses. It is believed that the Germans themselves are somewhat nervous. According to the talk of prisoners, which may or may not be correct, at least five, and probably more, enemy divisions were withdrawn from the fight in an exhausted condition. There have been only a few real developments on the British front in the past few hours. The Australians have cleared the enemy from Cateaux Wood, just south of Bray, straightening their line at the river and eliminating an enemy strong point. Southeast of Bois Leux St. Marie, south of Arras, the Germans attempted a raid on the Allies' positions. Four managed to get in, and one was killed and others wounded. The Germans have not existed from the practice of leaving man traps in the territory from which they have been chased. The body of a British officer, found in a wood, had a German grenade attached to the wrist in such a manner that it would explode had the body been moved incautiously.

SALMON SEASON ON THE ST. JOHN RIVER CLOSED YESTERDAY

The season for netting of Salmon in the St. John, river closed yesterday under the regulations of the federal department of fisheries. A petition from a large number of residents of the parish of Kingsclear was presented to the department some days ago praying that the season be extended on account of the unfavorable weather of the early summer. The department refused to grant the extension.

THREE DEATHS ARE REPORTED

Including Lieut. J. W. Holly, Killed in Action.

There will be general regret at the announcement received to-day by Mr. J. W. Holly, German Street, of the death of his son, Lieut. J. D. Holly, in action, who is officially reported to have been killed in action in France on August 8th. Lieutenant Holly was twenty-one years of age, and had been employed in the Bank of British North America previous to emigrating. Over two years ago he joined the 4th Siege Battery, was later transferred to the 100th N. S. Rifles, and finally drafted to the 25th Battalion in France. Two months later he was invalided to England—he was ill at the time of the battle of Courcellette—and after a lengthy period in the hospital returned to the firing line, where he had been for about eight months at the time of his death. Deceased was a grandson of Shadrach Holly.

It was announced in the Globe on Wednesday that Pte. Doves White, 53 Thorne Avenue, was ill in an Australian hospital in France, suffering from gunshot wounds. Later reports show that death followed the injury. Pte. White leaves a widow. Pte. John Gibson, Thorne Avenue, is also reported to have died of wounds. He leaves a wife and one child.

Paris, Aug. 15.—According to a Barcelona despatch to the Temps, the captain-general at Cartagena caused the arrest on Monday at midnight of the German officer in charge of the German submarine interned at Cartagena. The arrest was made at the German officer's hotel and was ordered, the message said, on the ground that the hour expired for the officer to renew his word of honor that he would not escape which he was required to do on Monday.

LIEUT. S. DAWSON ROYAL AIR FORCE REPORTED MISSING

Is Son of Rev. Geo Dawson, Pastor of Exmouth Methodist Church—Was in the Service over three Years

Lieut. Stephen Dawson, of the Royal Flying Corps, is reported missing since August 10. He had been in the service for nearly three years with the Navy Flying Corps, but had only been in France about a month when he was reported missing during one of the recent big drives.

The young officer is a son of Rev. George Dawson, pastor of Exmouth Street Methodist Church, and besides his parents he leaves four brothers and two sisters. The sisters and one brother are at home, while the three other brothers are in the air service.

In Old Age

Health and comfort in old age depends largely on keeping the liver and kidneys in healthful action.

Pains and aches, stiffness of the joints, lumbago and rheumatism tell of poisons left in the blood by sluggishness of the liver and kidneys.

People in advanced years hold Dr. Chase's Kidney-Liver Pills in high esteem because of the promptness and certainty with which they awaken the action of kidneys, liver and bowels.

"Barber's Itch"

Annoying, isn't it? But you can soon get rid of this form of eczema by applying Dr. Chase's Ointment after shaving.

This soothing ointment heals the irritated skin and keeps it soft and pliable. By its antiseptic influence it prevents the spreading of skin trouble.

You will not suffer from tenderness of the skin if you apply Dr. Chase's Ointment after shaving. It acts as a food for the skin, keeping it smooth and velvety.

Be Careful What You Wash Your Hair With

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

GAS ON STOMACH SOUR STOMACH INDIGESTION HEARTBURN

Instantly Relieved by BISURATED MAGNESIA IN 5 GRAIN TABLETS AND POWDER FORM

BISURATED MAGNESIA is Magnesia especially prepared for the safe, speedy and certain correction of dangerous stomach acidity. It comes only in the form of five grain tablets and powder in sealed packages. Do not confuse with commercial magnesia, milk of magnesia or citrate of magnesia. Look for the word BISURATED and get the genuine from DRUGGISTS EVERYWHERE.

GARDEN PARTY ON THE WEST SIDE LARGELY ATTENDED

Yesterday afternoon the garden party held in the West End by the West Side Soldier's Comforts Association was largely attended. The grounds near the corner of Ludlow and Tower Streets were gaily decorated with flags, attractive articles were on sale, and a luncheon was served.

The City Cornet Band rendered a choice programme of music during the evening. The different tables and games were in charge of the ladies of the association and a neat sum of money was taken in, to go towards sending comforts to the boys in the trenches.

COMMANDERED THE MURDER SHIP

Captain Foote of New York and formerly of Nova Scotia is in the city enroute to the peninsula on business. Captain Foote was commander of the Margaret Rouse when torpedoed off Monte Carlo. This vessel was formerly the Herbert Fuller of Harrington Me., and was known as the "murder ship" as the mate N. Brahm, awakened one night and killed Captain Nash, his wife and the second mate. The murderer was sentenced to twenty years imprisonment but is now on parole.

Wife and Little Boy SAVED BY DR. FOWLER'S EXTRACT OF WILD STRAWBERRY Both Had Dysentery.

Dysentery comes on very suddenly and is one of the worst and most dangerous of all bowel troubles. The pains in the bowels become intense, the discharges occur with great rapidity, and are very often accompanied by blood. Unless these discharges are checked, the sufferer becomes weak and languid, and very often death ensues. There is only one remedy to use in all cases of dysentery or any other looseness of the bowels, and that is "Dr. Fowler's Extract of Wild Strawberry."

It will cure where all others fail. It has been on the market for 73 years. Mr. W. J. Metcalfe, Tonfald, Alta., writes: "I wish to state that we have used Dr. Fowler's Extract of Wild Strawberry with good results. I will say that it can't be beat. It saved my wife and little boy last summer, when they were very low with dysentery. We always have a bottle of it in the house, and would not be without it if it cost five dollars a bottle." The genuine "Dr. Fowler's" is manufactured only by The T. Milburn Co., Limited, Toronto, Ont. Price 25c.

LIBERTY BONDS SOLD

New York, Aug. 15. The stock exchange announced today that it had sold all its non-taxable 31-2 percent Liberty bonds in order to subscribe to the next liberty loan. This step was taken by the governors of the exchange as an example to other institutions, corporations and individuals to take similar action and reinvest in taxable war bonds. The amount of 3 1-2's sold by the exchange was not disclosed.

A GERMAN CONVERSION.

The Staats Zeitung, of New York, probably the most influential German newspaper published in the United States has seen a great light. That newspaper, formerly owned and edited by the late Hermann Ridder, was, when the war broke out strongly pro-German and even went to the length of defending the murderous policy that resulted in the sinking of the Lusitania. As outrage after outrage and indignity after indignity continued to be heaped upon the United States by the Kaiser's lustful war-hounds the Staats-Zeitung moderated its tones and when the American people finally decided to cast in their lot with the Entente Allies that newspaper, once the most powerful propagandist of Germany in America endorsed the action and called upon all German-Americans to take up arms for their adopted country against the land of their forefathers.

The most pronounced utterance the Staats Zeitung has yet made however is found in a recent edition in which it sums up what Germany has gained and lost and once more calls with all the power at its command for German-Americans to unite in an effort to overthrow Prussianism—the curse of Germany. That newspaper says: Germany has all of Belgium, a diminishing part of Northern France: rich booty, many prisoners; "enslaved the now helpless Russian people"; with Austria-Hungary, she has well-nigh destroyed Serbia and Montenegro and crippled Rumania; she has aided Bulgaria and Turkey to increase their territory; she has encouraged the Turkish military leaders to "massacre 1,000,000 Armenians and other Christian inhabitants of contiguous territory"; she has sunk millions of tons of shipping and destroyed property worth billions, "showing no regard for the lives of non-combatants and not even for those of women and children."

"Germany has sacrificed the lives and the health and the well-being of millions of her sons; she has lost her African colonies and put upon her people a burden of debt under which they will groan for decades to come; she has destroyed her foreign commerce and brought her people to want and hunger; the acts of her army and commanders and statesmen have brought the German name into disrepute in America.

"For a long time German-Americans were unable to see the peril, and rude was their awakening. Their sense of duty showed them the right course to pursue. They point with pride to their sons and grandsons fighting for them under the Star-Spangled Banner. And they will fight on until every danger is removed and the world relieved of a burden which lies upon it like an incubus, for it is only through the overthrow of the present German government that the repetition of a similar world catastrophe can be prevented.

TROUBLES OF OUR OWN.

The modern newspaper is a machine-made product. Those engaged in the mechanical portion of its manufacture are not the old style printers who stood at the case and set type by hand. They are skilled operators on type-casting machines, and as a rule know very little about the science of the case. Thus it comes about that when any untoward circumstance interferes with the successful operation of the type-setting machinery, the newspaper of today faces a very difficult problem.

Such a difficulty confronted St. John offices yesterday when as a result of the ridiculous Power Company strike, the supply of gas used in the operation of newspaper machinery was cut off. It at once became necessary to set by hand such news as was of importance and this in offices where individual type is not in use and where there are but few employes capable of satisfactory accomplishment along this line of unaccustomed work.

By the interchange of men and material, all the city papers have managed to appear in some form or other, but under the gravest difficulty. The supply of gas which failed early on Thursday morning was not restored in time to be of any service last night and because of this, THE STANDARD has been compelled to omit much of its news. At the same

time, considering the seriousness of the situation it is a matter for congratulation that the paper appears at all. And for this production this office is indebted to the staffs of other newspaper and job printing offices who very willingly lent their services for as long as required.

THE RAILWAY STRIKE.

The street railway strike was a short lived affair. Its principal result was inconvenience. For something more than half a day the cars stood still. At no time was light or power cut off. People walked, which undoubtedly did them good. They had no need for light and would never have missed it anyway, during the daylight hours. The shortage of gas was a different matter. Many have grown into the habit of depending on gas for their ranges; some industrial establishments foolishly put their trust in the same unsatisfactory product. These suffered annoyance but no particular hardship, although in certain cases unnecessary expense has been involved.

By securing a loan from the city, the New Brunswick Power Co., a five million dollar corporation, was able to raise the ten or fifteen thousand dollars necessary to pay the wages asked by the men. This payment, covering the increase dating from the first of April, was the only point in dispute. Neither party to the transaction had the slightest share of public sympathy.

CANADA AND SIBERIA

Canadians should feel a distinct pride in the knowledge that Canadian troops as a separate and distinct unit, under command of a Canadian officer, are to participate in the struggle against German aggression in Siberia. The Allies have committed themselves to send military assistance to the Czechoslovaks, and it is gratifying to know that the formation of a Canadian force is one of the first steps taken. As this structure it may be pardonable to think that the splendid record made by the Canadians wherever and whenever they have been called upon to do service for the Empire has something to do with the decision to give them an opportunity to participate in the Russian adventure. For it is an adventure calculated to stir the imagination of all peoples. There is something grand in the thought that Canada, which four years ago, had no thought of war, has been selected to send her men to stand beside the older nations with their greater populations and more important military resources.

That a new military front should be established against Germany in the east has been decided upon by the Allied council as an absolute necessity. Obviously such a decision will aid the Canadian lines in France as it will relieve the pressure the Germans are certain to exert in that area.

It is interesting now to note that a new spirit is sweeping over Russia. Six months ago it appeared as if the Bolsheviks would sweep that country into an abyss of anarchy and ruin. The affairs of the once great Empire were absolutely committed to the care of German puppets like Trotsky and Lenin. They reigned supreme, liberty was blasphemed by license and the ill-advised Bolsheviks with their tendency to excesses, robbery and crime, threatened the political destruction of a once great and powerful nation.

There are many signs today that the Russian people, aghast at the havoc wrought by mob license and perceiving the pro-German tendencies of the Bolsheviks, are awakening from their nightmare, and turning once more to the nations with whom, in the early days of the war, they struck gallant blows for liberty and freedom.

Lenine and Trotsky have been denounced even in Moscow and everywhere the power of the Bolsheviks is on the wane. Allied forces, supported by the local Russian population, have landed at Vladivostok and Arcangel, have occupied Murman coast and are stretched along the railway from that coast to the interior. A Japanese army of size and power, acting with the approval and co-operation of London, Paris and Washington, has already joined the Czechoslovak forces and is in a position to put up a resistance against aggression. These various activities are

THE GREAT QUEBEC BRIDGE

"In the annals of engineering triumphs of the world, the construction of the Quebec bridge, for its magnitude, uniqueness of design, excellence of detail and boldness of organization has rarely been equaled and never excelled."

These words are well worth weighing. They convey tersely and without undue emphasis a fitting tribute to a remarkable achievement. For, after years of propaganda and persistence against disappointments and misfortunes amounting to national calamities, it stands there, this great bridge, completed at last as our greatest monument to the vision, the sagacity and constructive skill of Canada.

The Quebec bridge connects the Canadian Government lines on the north, and is the link which shortens the distance between Halifax and Winnipeg by two hundred miles. It is the connecting link also between two vast transcontinental systems, and the railways reaching the Atlantic seaboard.

Ten important railways are seeking interchange of traffic at Quebec—the bridge will be the means to that end. On the south side of the river are the two Government Railways, The Grand Trunk, the Quebec Central and the Delaware and Hudson railways. On the north side are the Government Railways, the Canadian Pacific, the Canadian Northern, the Quebec and Lake St. John, and the Quebec and Saguenay Railways.

It gives the shortest connection between the immense pulp mills and pulp forests of Northern Quebec and the markets in the Eastern States.

So intense has become the traffic over the Victoria and Lachine bridges at Montreal, that in recent years both have had to be rebuilt and double-tracked.

Already approaching a thousand cars a week are crossing the bridge, and passenger trains via the Canadian Government Railways are using it between Quebec and Montreal. What then when the world turns from war to peace. With the development of Canada and the vast expansion of Canadian trade which is confidently expected, no very optimistic vision is necessary to foresee the important part the Quebec bridge will perform in the immense increase of traffic which must necessarily result.

One of the Engineering Triumphs in the World's History. The Connecting Links between the Canadian Government Railways North and South of the St. Lawrence.

POLITICAL AXE FALLS AGAIN

naturally setting a limit on Germany's plans for expansion in the east but the end is not yet. It is hoped that the plans for resistance to the Bolshevik movement in Russia will develop almost to a point where that unhappy country will once more become a factor in the war to which consideration must be given. Whether this hope is or is not realized the fact that Canadians are to play some part in the restoration of order in Russia and the thwarting of German plans should be received with gratification by all our people.

A California Sheriff Solved Grim Mystery

Startling Murder of Bachelor Worth \$100,000,- 000 Forty Years Ago This Month Puzzled West For Days.

The famous Hanter murder mystery was the case that first drew attention to the remarkable detective ability of Chief Inspector Byrnes and gave him an international reputation.

Louis Hanter, owner of a French wine shop on West Twenty-ninth street New York, was found dead in the hall-
way of his establishment with a 38-cal-
ibre bullet in his heart. The front door
had been jammed and Hanter's money
had been rifled. There was no doubt
but that he had been murdered for
his money. The usual inquiries were
made with the usual results. The
prospect that this case might go to
swell New York's long list of unsolved
murders aroused both press and pub-
lic and brought forth a storm of criti-
cism regarding the supposed inefficacy
of the police.

So Inspector Byrnes—then known
famously as "Tom" Byrnes—look hold
of the case. He was hard-headed and practical,
but he had imagination, too. Without
that he could never have made a suc-
cess as a detective. His first move was
to order a search of all pawn shops. He
wanted to find the revolver which had
fired the bullets into the Frenchman's
head. He suggested that if the crime had
been committed by a novice he would
try to conceal the pistol, but that a pro-
fessional would heartily seek to in-
crease his wealth by selling the weap-
on.

The pistol was found as was also the
pawnbroker who had paid two or
three dollars for it. He was at once
through the Rogues' gallery for the
purpose of identifying the man who had
sold the pistol. It was a long and
arduous job. The pawn broker exam-
ined several thousand pictures without
avail. He was about ready to give up
when suddenly he pointed to one of
the prints—

"That's the man!" he exclaimed—
"the man who pawned the pistol."
The man proved to be Mike McGloin,
a character well known to the police.
He was located without difficulty, but
was not arrested. Before locking him
up Byrnes wanted to find out some-
thing about his movements prior to the
time of the murder. He learned that
on the night of the murder McGloin
had been out on a spree with three of
his pals—Moran, Banfield and Morris-
sey. That was glib for Byrnes' mill.
He had all four of them shadowed for
many weeks, and at a given time they
were taken into custody on various
trivial charges.

Now came the real detective work.
All of the evidence was, was circum-
stantial. It was flimsy. It would not
convince a jury. Byrnes resolved to
make McGloin confess that murder. He
brought him to the station and kept him
long time—long enough to get his nerves
on the ragged edge. One morning
he sent for him, and the released pris-
oner coming into the detective's room
was not in a very good humor. That
was just what Byrnes wanted. He had
his office set, as one sets a stage for a
play. There was a chair which in-
vited him to sit. The light was in his
face. And beyond him was a big win-
dow, looking out into a courtyard. Mc-
Gloin sat down.

"Mike," said the Inspector suddenly
"tell me all about the Hanter murder."
There was no response. The trick
had failed. The man might have turned
pale at having the subject so abruptly
brought to his attention, but that
was not much. The Inspector passed
the question.

"I never heard of it," was the surly
reply.
"What you a native of New York,
and living here all the time and the
papers full of the tragedy, and yet you
say you never heard about it?"
The man realized that he had made
a false step and tried to correct it by
saying that while he had heard of the
murder, he had not paid special atten-
tion to it in the newspapers.
For ten minutes after that Byrnes
cross-examined McGloin about the af-
fair—kept at him incessantly until Mc-
Gloin was ready to scream with anger,
frustration and nervousness. It was the
first application in this country of what
has since become known as the Third
Degree.

Presently a messenger entered the
room and noisily threw on the table
the revolver which Hanter had
been shot. The prisoner took one
glance at it and almost jumped out of
his chair. The Inspector was satisfied
that he had the murderer now, but his
experiment was not finished. He talk-
ed in a casual manner for some mo-
ments and managed to direct the atten-
tion of the victim to the window.

"We've got some important wit-
nesses," he said, "men who know all
about that murder."
McGloin looked out of the window
and into the courtyard below. He saw
his pal, Moran, walking between two
officers and talking in an excited man-
ner. The suspect clutched the arms of
his chair. He could hardly remain
seated. It looked as if his pals had
been squealing on him. Little did he
know that he had been staged for
his benefit. Once more there was
some inconsequential talk, and for the
second time the attention of the fellow
was drawn to the window. He saw his
other pal, Banfield, being led away be-
tween two officers. By this time the
cold sweat was out upon his forehead.
But Byrnes was merciless. A few min-
utes later Morrissey was led across the
courtyard by two policemen. It was
then that McGloin broke down. He
jumped from his chair and put out
his hands pleadingly.

"For the love of Heaven stop!" he
begged. "I did it. I killed the man,
and if you will let me up I'll tell you
all about it."
There was a trial and a conviction,
followed by the usual execution. Jus-
tice had been vindicated and Inspector
Byrnes given a reputation that lives
long after his death. Many other de-
tectives and policemen have followed
his method, but it is safe to say that
few will ever attain his fame.

HOW TOM BYRNES
MADE REPUTATION
In his day Aaron M. Tullis was one
of the wealthiest men in the West. It
was estimated that he was worth \$100,-
000,000. He was a bachelor and lived
a lonely existence on Grand Island, in
the Sacramento River. He was regard-
ed as a decent in every way and had
many friends in that section of Califor-
nia. Also, so far as known, he had no
enemies.

Yet on the morning of August 2,
1878, he was found in his or-
chard, it contained two bullet wounds,
one in the neck and the other in the
small of the back. Nothing had been
stolen either from his person or his
house so that it was difficult to find a
motive for the cowardly crime.

An investigation made it evident that
the millionaire had been working in
his orchard when the crime was com-
mitted. He was found or hiding the

mented the famous saloon were not
noted for high morals. Indeed, it was
the headquarters for thieves and other
criminals. Men had been known to go
into it and never come out alive. There
was a story told of one young man who
had gone there and whose body was
afterward found in the Tivoli Pond, a
short distance from Sacramento. The
day before he disappeared he had
handed over his money to a frequenter
of the saloon, who had afterward given
it to Dye.

In view of all these facts Sheriff
Drew felt that he was on the right
track. He desired to get a complete
case before acting and he continued his
investigations for some days. Among
other things he found the expres-
man who had hauled the boat down to the
river. After that Dye was arrested and
taken into custody. On the same day
Anderson was placed under lock and
key. The brother of the murdered man
had by this time arrived on the scene
and the work of rounding up the evi-
dence began. Sheriff Drew and Public
Prosecutor Blanchard, co-operating, be-
gan with the bit of board, and follow-
ed it up until it was made into the
completed boat. After that they pro-
posed to introduce Dye and Anderson,
and follow their movements hour by
hour until their landing at the wharf
of the orchard of Aaron M. Tullis. They
did this by means of a score of wit-
nesses including the lumberman, the
expressman and the Chinese at the
orchard. It was a complete network
of evidence from which it was practi-
cally impossible for the suspects to
escape.

Dye realized this, and, breaking
down, made a complete confession. He
said that if it had not been for the lit-
tle bit of board he never would have
been caught. Anderson also weakened
and admitted that he was in the
scheme, and both men paid upon the
scaffold the penalty for the crime.

WALL STREET IS UNINTERESTING AND VERY DULL

Leather issues and Marine Preferred only stocks showing life.

GENERAL TONE IS BARELY STEADY.

Canadian Pacific strong. Advancing 15-8 points.

New York, 15. Barring some strength and activity in the leather issue and Marine P'd this afternoon's market has been dull and uninteresting. There were no new developments to account for the activity in the latter shares, though it is known that trade conditions in this industry are favorable and earnings are running large. This was undoubtedly sufficient to warrant activity on the part of the pools which have controlled these stocks.

In Marine P'd there seems to be an underlying feeling of confidence that we are close to an adjustment of the matter of the sale of the British assets to an independent company. The directors hold their regular meeting this afternoon and the buying may have been due in part to expectation that action might be taken today to that end. Of the railroads, Can. Pac. showed a strong tone, advancing 15-8 on the day on very moderate transactions.

The balance of the list, both rails and industrials, while showing an advance from the low points of the day, generally closed with net losses for the day. Call money was still in demand at 6 percent. Just before the close a slight covering movement started in the market which created a little more activity in the final dealings, but the tone was barely steady.

MONTREAL STOCK MARKET AGAIN DULL

Demand For Investment Securities Good — Montreal Cottons at 100.

(McDOUGALL & COWANS) Montreal, Aug. 15. Trading in Montreal today was quiet. The active securities showed fractional declines from yesterday. Most issues on the list showed small losses from the high prices reached during the last two weeks. Forgings showed strength, advancing from 194 to 196. Considering the activity and the advance the market has had, it is holding very well. The demand for investment securities is good, a large block of Montreal Cotton P'd was today traded in at 100.

GOLF AT ST. ANDREWS.

"From all parts of Canada," writes Ralph Raville, editor of the "Canadian Golfer," comes word of the holding of Red Cross matches in Golf links. One intensely interesting match has been arranged for Saturday, August 17th, over the beautiful seaside course at St. Andrews-by-the-Sea, N. B. This will be participated in by the well-known Montreal professionals, C. R. Murray, of the Royal Montreal, twice open champion of Canada; his brother Albert Murray, of Kahlwaki, Montreal, who also has two open championships to his credit; A. Woodward, of the Country Club, Montreal, and the local pro, John Peacock, of St. Andrews.

There are a number of prominent golfers from all parts of Canada and the United States sojourning at St. Andrews, and this match is provoking very great interest indeed.

Those from the maritime provinces who wish to go down to St. Andrews to see the exhibition games played by these crack professionals will find excellent train service on the Canadian Pacific, and a first class hotel in the Algonquin. For particulars as to train service, consult N. R. DesBrisay, district passenger agent, Canadian Pacific Railway.

TAX CONFUSION HOLDS UP THE STOCK MARKET

American Hide and Leather Preferred Gains 3 3/4 Points.

GENERAL MOTORS ADVANCES FOUR

Call and Time Money Continues to Rule at 6 p.c.

New York, Aug. 15.—Lacking more obvious or convincing reasons, traders attributed the further contraction of stock dealings today to firmer money tendencies and growing confusion over the war tax situation.

Call money continued to rule at six per cent, and time funds held at the same figure on a paucity of offerings. Local banks again called loans to meet the final installment on the third liberty loan.

Foreign news was again favorable, but excited little interest and pools abandoned their bullish tactics in all but a few specialties, probably because of their failure to enlist the slightest outside support.

Exceptions to this rule were furnished by Marines and Leathers, Marine Preferred ignored the submarine menace by advancing an extreme of 2 3/4 points, the Common shares and six per cent bonds also scoring substantial gains.

Marine directors were scheduled to meet later in the day and the rise in the company's issues may have anticipated definite action on the sale of its British assets.

American Hide and Leather Preferred gained 3 3/4 points, the Common also coming forward in the last hour with Central Leather while General Motors make a sudden jump of four points.

U. S. Steel, Reading, Union Pacific and some of the usual favorites were irregular at best, rails and industrials as a whole lacking definite trend.

Oils and Tobacco were among the other uncertain quantities. Sales amounted to 275,000 shares. Domestic Bonds were firm, Liberty 3 1/2's again changing hands in round amounts at the year's top quotation of 100.08, but International were easier. Total sales (par value) aggregated \$5,375,000.

Old U. S. Bonds were unchanged on call.

WANTED—Coatmaker. Steady work. Apply to A. Wallace, Port Elgin, N. B.

GRAIN MARKET

Chicago, Aug. 15. Notwithstanding that further rains eased the corn market at the opening today, prices soon scored a material advance. Scarcity of offerings formed the immediate reason for the development of strength. Initial quotations, which varied from the same as yesterday's finished to 5 1/8 lower, with September at \$1.60 1/4 to \$1.61 3/4, and October at \$1.62 1/4 to \$1.63 3/4 were followed by a decided upturn all round. Firmness in oats resulted from the advance of corn.

A JOINT PROTEST MADE TO MEXICO

Great Britain and United States Object to Carranza Highway Robbery Policy.

Washington Aug. 15.—The United States and Great Britain have joined in a diplomatic representation to the Mexican government against the oil land decrees of President Carranza which it is contended amount practically to confiscation. Meanwhile the American and English oil companies have united in an agreement to refuse to meet the terms of the decrees, which they contend would take the properties from them and have agreed among themselves to depend upon their governments for protection of their interests.

Nature's Healing Herbs for Headache, A BLOOD FOOD, PRACTICALLY all headaches come from two causes - Biliousness and Nervousness. Biliousness means upset stomach, and constipation - with severe throbbing pains all over the head. Nervousness means that the nerves are exhausted and need rest and food.

Dr. Wilson's HERBINE BITTERS, Insure quick and lasting relief from those headaches. The simple old-fashioned herbs tone up the stomach, regulate the kidneys and bowels, purify the blood, and build up the whole system. A reliable spring tonic. Get it today and get rid of your headache. At most stores, 25c a bottle; Family size, 100c. Five times as large, \$1. The Bradley Drug Company, Limited, St. John, N. B.

An Incident of the Great World War. (By Lieut. J. B. Morton. Before the war the estaminet of the White Rose looked out over broad fields and a peaceful countryside. There were orchards, too, and the farmers of the neighborhood were prosperous men. The estaminet was always their meeting place in the evening. Men with heavy boots and tanned skins came in for a drink and a smoke, and the old patron's daughter served a hot Gâteau to the men sang quaint old songs in their hoarse voices, and the rattles shook with prodigious laughter.

The Germans were reported to be advancing, and one evening their guns were heard. The inhabitants of the village gathered on the balcony and left their homes. The last to leave were the old innkeeper and his daughter, for they knew no word but the little world of the estaminet.

The German advance wavered and broke before the fury of the British counter-attack, but the German guns had done their work. It was a sad little estaminet, windowless in rubble that looked out over fields scarred with shell-holes, and muddy wastes on every side. But the men in khaki were still there, singing their songs as if nothing had happened. The orchards were wrecked, and the church-spire leaned over, and in front of the village ran trenches with masses of barbed wire before them; and the roof of the little inn by candlelight; for the sandbags darkened the house.

One day a violent bombardment demolished nearly all that remained of the village, and the Germans attacked. Hardly one stone was left standing on another, and only the cellar of the estaminet remained. There was bitter and bloody fighting in and out of the village, and a great crater yawned in the main street. "A" Co. officers worked in the cellar, and in the evenings there were still songs. Sometimes one side gave a little ground, sometimes the other, and the cellar underwent many changes, but always there were men in khaki there, with their songs.

Then the British began to advance slowly at first. A Colonel slept there where there had once been rows of bottles. The line moved forward, and an Aid Post sprang up in the cellar; the wounded were brought in on their stretchers, and attended to by candle-light, and there were still the same songs. Then the sound of the guns moved further away, and an Engineer Dugout established in the village. The cellar was filled with coils of wire, and bits of wood, and the men sang as they worked.

One day, when the dump had moved forward, a party of men came to the village to build. A strange new house rose above the old cellar, and men gathered there again in the evenings. They were soldiers, and among them, many without an arm or leg, back from the Ardennes, and they sang their songs again, mingling them with the British songs; and the old woman and her daughter returned. "Mother" they called her still, until she grew to be at home in the new house.

Some men sunnaging in the rubble found the old signboard, discolored and chipped. They put it up over the door, and the estaminet of the White Rose, full of old songs, French and British, looked out once more over the newly ploughed fields.

WHY PORTUGAL AIDS BRITAIN, Two Countries Have Been Allies Since the Days of the Plantagenets. For centuries there has been a very close alliance between Great Britain and Portugal. It goes back to the days of "Merlin" when the Plantagenets ruled in England. The Spaniards were then in occupation of Portugal and a war of liberation was begun. Portugal secured her freedom largely through the aid of a British force under the command of John of Gaunt - the hero of many a hard won battle in France. This was in 1386. Portugal having gained her independence, an alliance was effected between England and Portugal in 1385. This alliance has practically existed until the present time. When Charles II was King of England, the Spaniards again attempted to overrun Portugal and 3,000 English soldiers were sent to Lisbon in 1662 and an English force was kept in that country for nearly five years, in that added materially to the defence against the Spaniards and to the freedom of Portugal. For long years, in that small country, there has existed the motto: "War with all the world, but Peace with England." It will be recalled too that in the days of Napoleon, British troops were sent to Portugal to prevent that country from domination by the French. The Great Peninsular War, which added so much to Wellington's fame as a military leader, was begun in Portugal and the campaign ended by the English driving the French forces back to the Pyrenees.

The cause of this close alliance between Great Britain and Portugal is the outcome of Portugal's foreign policy. In one time in its history, it owned extensive possessions in South America and still owns large possessions in South America and in other sections of the globe - possessions which are altogether out of proportion to the small spot that Portugal occupies on the map of Europe. Her alliance with England therefore, is based upon trust in British sea power. She wants her trade routes guarded and protected by the British flag and for a century, Great Britain has shown that Portugal's confidence has not been misplaced. If it had not been for Great Britain, Portugal would have long ago

HILLSBORO, Hillsboro, Aug. 10 - A very pretty wedding of much interest was solemnized at St. Mary's Church on Tuesday, Aug. 12, at four o'clock, when Miss Florence Ethel Howe Steeves, daughter of Mr. and Mrs. John T. Steeves, became the bride of Mr. Arthur W. Taylor of Halifax. The ceremony was

performed by Rev. Canon Smithers of St. John. The church was beautifully decorated for the occasion with ferns, daisies and golden rod. The bridal party entered the church to the strains of "The Voice That Breathed O'er Eden," sung by the choir, the bride leaning on the arm of her father and took their places under a floral arch. Miss Kathryn Thompson was maid of honor. Misses Marjorie Steeves and Mary Sherwood were flower girls, and Mr. George Irish of Halifax, acted as best man. After the ceremony Mrs. C. Allison Peck and Mrs. John L. Peck sang "O Perfect Love." The bridal party left the church to the strains of "The March from Lohengrin, played by Miss Eva Duffy. The bride looked charming in a gown of white Georgette crepe, with pearl and silver lace trimmings, veil and bouquet of white roses, and orange blossoms. The maid of honor wore pink silk, black picture hat and carried a bouquet of pink roses. The flower girls looked very pretty, Marjorie Steeves wearing a white over pink and Mary Sherwood white over blue. The ushers were Gunner Barry Blight and J. T. Ward. The out-of-town guests were Mr. and Mrs. R. D. Taylor, Halifax; Dr. and Mrs. Marten and daughter, Alice, Chatham; Judge C. A. Around the City

FAIR AND WARM.

In a five inning game on the South End grounds last evening the Franklins won from the Victorias by a score of 16 to 10.

Letters From England. The Board of Trade received two letters yesterday from England, both enquiring about the local sardine factory.

Market Quotations. Market quotations for the week have remained steady except for lamb which has receded from 33c and 35c to 30c and 33c.

The Case Adjourned. A man charged with a serious offence was before the Brookville court last evening and the case adjourned until Tuesday afternoon.

In Aid of the Church. A very successful garden party was held at Brookville yesterday by the ladies of the Methodist church at that place. The proceeds are for the church funds.

The Valley Railway. Thos. Cozzolino, contractor on the Valley railroad, was in the city yesterday for a short time on business. He reported great progress being made on the road at the present time. All steel rails were now on hand and two crews were at work laying tracks.

Safe in England. Thos. W. Melvin of St. Martins has received a cable announcing that his son, Sapper George H. F., has arrived safe in England. The soldier was in the employ of Wm. Lewis and Son of this city previous to enlisting.

Sgt. Fred Pike Well. A field card was received yesterday from Sergeant Fred Pike, who was with the artillery in France. He says he is well. His two brothers, Gunner Harry, a military medal man, and Joseph, are also in France.

Successful Entertainment. A large audience was present last night at an excellent entertainment which was given in City Hall, West Side, by members of the West St. John Field Comforts Circle. The proceeds will be used in the work of the Circle.

Deserters Arrested. John S. Paul, an Indian of the St. Marys Reserve, Devon, was arrested on the reserve by the Dominion police yesterday. He was sent to Sussex last night. Paul with two other defaulters named John Paul and James Jones broke out a guard tent last Thursday.

Fell Down Stairs. Mrs. Scott, a trained nurse was discharged from the hospital yesterday after she had undergone treatment and while proceeding up a flight of stairs in the home of Robert T. Worden, 55 Carmarthen Street she fell down and had to be conveyed to the hospital again. It was reported last night that she suffered no injuries.

Feast of the Assumption. Yesterday, the "Feast of the Assumption," was fittingly observed in all the Catholic churches of the city. Special prayers and masses were offered up in honor of the day. At the Cathedral a high mass was celebrated at 8 o'clock; and special services at 7.30 o'clock in the evening were well attended.

Died of Wounds. The home of Mrs. J. Edward White, 53 Thorne Avenue was saddened yesterday when she received an official telegram informing her that her husband had died of wounds on August 10, Private White was with the New Brunswick regiment fighting in France and had been there for many months. He was only twenty-four years of age and besides his wife he leaves one small child to mourn.

Admitted to Hospital. That Corporal Guy B. Lindsay was admitted to hospital in France suffering from gas burns and wounds was the message received yesterday by his father, H. L. Lindsay, of the C. P. R. freight offices. The young soldier joined the 286th Battalion when but 17 years of age. He has a brother, Harold L., in the fighting forces, who at the present time is recovering from wounds.

MARITIME EDUCATION INSTITUTE. The Maritime Education Convention meets in Moncton August 27, 28 and 29. A good programme has been prepared. Teachers in New Brunswick who attend the Institute are allowed the last week of August as teaching time. Those who purpose attending will kindly communicate with Mr. S. W. Irons, Moncton, N. B., re accommodation at as early a date as possible. Buy return tickets. No Standard Certificates issued by railways.

PETER FARREN ST. JOHN HORSE CAUSES SENSATION AT CHATHAM

Distanced the Field of 21 Class Horses in First Heat—Paced Exhibition Mile in 2:09 1-2 and Captured Track Record for the Province—Money Deposited for Match With White Sox.

Over two thousand people attended the second day's racing at Chatham yesterday afternoon and were treated to a real sensation when in the first heat of the 2.21 class trot and pace, Patrick Keefe's pacer Peter Farren distanced the field and covered the mile in 2:10 3-4. A named race was then put on to take the place of the other heats that were expected with the result that Doc Duncan won the first heat, and Evelyn B captured the next three heats and race, fastest time 2:20 1-4. James K. Noonan won third money.

STREET RAILWAY STRIKE ONLY LASTED A FEW HOURS YESTERDAY

City Advanced Power Company \$10,600 on the city lighting contract—Union men will receive back pay requested—Street cars only idle eight hours Absence of gas only inconvenience during the strike.

The much talked of street railway strike lasted but a few hours yesterday when Mayor Hayes, representing the city, advanced \$10,600 to the New Brunswick Power Company on the City's lighting contract with the company. This amount will go towards paying the back pay asked for by the Power Company employes. The men were agreeable to the terms and they returned to work and the street cars resumed the regular service shortly after two o'clock yesterday afternoon, having only been at a standstill for about eight hours.

When the motormen and conductors appeared at the car barns early yesterday morning they read a notice forbidding any cars to be taken out. The men then assembled in the Temple Hall, Main street, where the matter was discussed with them by Commissioner McLellan of the safety department. The commissioner requested the employes to endeavor to have the lights operated for streets, hospitals and munition plants, and the men agreed to do this for forty-eight hours.

WAS FEIGNING DRUNKNESS AND WAS ARRESTED

YOUTH THOUGHT IT FUNNY TO APPEAR INTOXICATED—WAS LECTURED AND FINED IN POLICE COURT—THEN ALLOWED TO GO.

Two prisoners appeared before the magistrate in the police court yesterday, one for being drunk and fined eight dollars, while the other, charged with being drunk and having liquor in his possession was remanded. A young man who was feigning drunkenness on Charlotte street yesterday afternoon was given a severe lecture and fined. The fine was allowed to stand against him.

ST. JOHN RETAIL MERCHANTS' DOLLAR DAY WEDNESDAY AUGUST 21st

Once again Dollar Day is with us—the merchants' treat, as it were—the day the merchant forgets his profit, as it were, and the customers get the benefit. Dollar Day does not necessarily mean that everything is to go at One Dollar; but it does mean that every offering in the Dollar Day stores is a genuine bargain. Each Dollar Day merchant has agreed to give real bargains on Dollar Day, and the public is well aware from past experience just what Dollar Day bargains mean. So read carefully the advertisements of the Dollar Day merchants and enjoy one full day away from the high cost of living. Wednesday, August 21, is the day. The names of the Dollar Day merchants will appear in this paper tomorrow.

HOMESTEAD AND TWO BARN ARE BURNED

Four miles from Cody's Station, Queens county, Wednesday evening, lightning struck a barn adjoining the homestead of the late George W. Perry. Two barns and the homestead and contents were totally destroyed. The loss is considerable as nothing was saved.

MILITARY FUNERAL OF LIEUT. MCLELLAN LARGELY ATTENDED

Late Jarvis Oldfield McLellan Buried With Full Military Honors—Accidentally Killed in England.

The funeral of Lieut. Jarvis Oldfield McLellan which was held yesterday afternoon with full military honors was largely attended by civilians and members of the militia. The burial services at Centenary Church and the grave were conducted by Rev. H. A. Goodwin, assisted by Rev. (Capt.) Kuhring, and were very impressive. The casket was draped with the Union Jack and the funeral procession was preceded by the Depot Battalion and a firing squad from the C. G. R. The young officer who is a son of Mr. and Mrs. Verner McLellan, was accidentally killed in England while doing patrol duty with the Royal Air Force. Among the floral tributes was a beautiful spray from the gunners on the ship which brought the remains to Canada.
