## PHOTOGRAPHY REVOLUTIONIZED

BY NEW INVENTION.  
Films, Plates and Dark Room Made Unnecessary.  
New Camera Takes Finished Pictures in Two Minutes.

Mr. Edmond F. Stratton, of New York City, has invented a camera which takes and completes pictures ready to see in two minutes. It does away with the expense of buying films or plates and the trouble, expense and delay of having them developed and pictures printed by a photographer.

This camera, which is called the Gordon Camera, is being manufactured by the Gordon Camera Corporation, New York. As they are desirous of making it known in every locality, they are making a special offer to our readers. For a limited time they will sell Model H at \$5.00 and Model B at \$7.00. The regular price of Model H, which takes pictures 8 1/2 x 11 1/2 inches, is \$10.00. The regular price of Model B, which takes pictures 8 1/2 x 11 1/2 inches, is \$10.00. Whichever one you order, enclose 90 cents additional to cover express and postpaid cards and developing powder.

The sensitized cards are wrapped for daylight loading, and the powder makes the developing process so easy that the developing tank, which is inside the camera. Model H is 5 1/2 x 10 inches in size and weighs 3 lbs. 7 oz. Model B is 6 1/2 x 11 1/2 inches and weighs 4 lbs. The cost of taking pictures with the Gordon camera is almost nothing in comparison to all other cameras. Extra sensitized cards for Model H can be bought for 2 cents each (cards for Model B, 3 cents each), and 10 cents worth of developer will develop over 40 pictures. The Gordon Corporation sells flash-light lamps for \$1.00 which will enable you to take pictures at night in your own parlor or out-of-doors.

The operation of this new camera is so simple that any person of ordinary intelligence can easily take pictures with it after reading the directions sent with each one. There is no custom duty to be paid as the Gordon Corporation has a ship to you from their Canadian branch which is near Toronto. All orders and letters, however, must be sent to their office, which is 781 St. Nicholas Building, New York, N. Y. When ordering a camera under this special offer be sure to mention you are a reader of The St. John Semi-Weekly Telegraph and News.

## TIME FOR VACCINATION AND STAGNANT WATER

Dr. Melvin Serves Notice on Children and Warns Campers Against Deadly Typhoid Germ.

Of the total of fifty-eight deaths in the city during the month of June, twenty-six were from contagious diseases, according to the bulletin of the medical officer, Dr. G. G. Melvin. This figure, though slightly higher than the average for the last three years, when considered with the estimated population of 48,064, shows a death-rate of 16.84 throughout a year, which is not high compared with the rate of other cities.

In his report Dr. Melvin dwells at some length on the necessity for vaccination in view of the fact that it is in the month of July that the greatest number of children entering the public schools for the first time are vaccinated. During the last three years nearly 1,200 children have been vaccinated by the public health authorities of the city and this summer was probably equalled by the work of private physicians.

Dr. Melvin also warns children to beware of the danger of drinking from brooks or springs in the neighborhood of the city as there is strong evidence that two or three cases of typhoid fever in the city at present are due to this cause.

In summarizing the monthly health bulletin of Dr. G. G. Melvin, medical health officer, in yesterday's Telegraph, it was stated that there had been twenty-six deaths from contagious diseases during June out of a total of fifty-eight. This was, of course, an error. What Dr. Melvin reported was that of the fifty-eight deaths during the month from all causes only one was due to a contagious disease. There was one death from diphtheria and six from tuberculosis.

## IMMIGRATION TO CANADA SHOWS BIG INCREASE

Ottawa, July 4.—The total immigration to Canada during April and May, 1913, was 146,060, made up of 69,640 British, 88,507 American and 8,913 from other countries.

During April and May, 1912, the total was 129,453, composed of 46,279 British, 80,580 American and 2,594 from other countries.

The increase is thirteen per cent.

## PUGWASH MAN DROWNED IN NASHVAK RIVER

Fredericton, July 5.—James Locke was drowned in the Nashvak River at Marysville last evening. He was aged thirty-two, and was employed in the Marysville Cotton Mill.

## WIRELESS STATION AT NEWCASTLE

### 500 Foot Tower Will Be Erected

### To Be the Receiving End of Round the World System

### Universal Radio Co. Buys Great Block of Land on Which to Construct Big Plant—Has Contract With Canadian Government—Work to Be Commenced at Once.

Newcastle, July 10.—Newcastle is to be the Atlantic terminus of the Universal Radio Syndicate, which will establish a wireless service from Britain to this town as a link in an all-British world-wide radio system. The existing Pacific cable will be used and so on westward back to Britain.

The company has purchased 57 acres of land here including the whole block from the rear of the building lots in High Street to I. C. R. track and between Adams Lane and Hogan Lane. Alderman Falconer has sold 21 acres, Mr. Woodworth, of Marysville, about 19 acres of the Craig property, Edward Hickey four acres, the St. James Presbyterian church four acres, and Alex. Morrison his house and barn and nine acres.

The land purchased is about in the centre of the town and comes on the I. C. R. freight office, while the I. C. R. is not far from the river and the I. C. R. deep water terminal.

The money was paid over yesterday, and the day before and the contractor is expected to arrive to begin work next week. Newcastle being the receiving station a vast tower will be constructed on the permanent staff is expected to be 40 to 50 men.

The publicity of the chief station being here and in a most valuable way to the town from an industrial standpoint.

The company's surveyor in New Brunswick was Wm. E. Fish, of Newcastle. Mr. Fish went all over the province and finally selected Newcastle as the station site. The company agreed to purchase the land for \$175,000, but the instant were paid for the same.

It is understood that the town council will deal liberally with the Radio Syndicate in the matter of taxation. The land purchased by the syndicate is assessed at about \$4,400, but the price paid is understood to be about three times that amount.

If the new company gets the same terms as the Canadian Gear Works recently established here they will be taxed for twenty years at present assessment of \$4,400, no matter how large the works they erect.

A Montreal contract has been awarded to build and install the plan. The steel tower will be grouped six other towers each one hundred feet high connected by copper wire with the central tower. A dynamo to operate the plant will need a 250 horse power engine to drive it.

The Canadian government's arrangement with the syndicate is for five years at the end of which the government has power to take over and operate the service as a government work.

The president of the syndicate is A. S. Barendse, consulting engineer, Dr. Erskine Murray, with Dr. Paulson and Professor Peterson, technical directors. The syndicate owns the Paulson and Barendse wireless patents, the chief rivals of the Marconi system. The British wireless station will be on the west coast of Ireland.

Own a Bicycle or Motorcycle—It's Great Sport.

Have you often thought how helpful it would be if you had some means of quick and inexpensive transportation? You should have a Bicycle or a Motorcycle. They will go anywhere quickly and are ready whenever you are. If you would like to secure one cheaply, doubtless one of our little Want Ads will find you a machine to sell or your little Want Ads will find a buyer. A small thing to suggest, but a big thing to remember.

Use "The Want Ad Way"

## UNDERWOOD BILL BEFORE SENATE NEXT MONDAY

### Republicans Claim to Have Discovered a Flaw in Print Paper Schedule.

Washington, July 10.—That the provision of the Underwood tariff bill levying a duty of 12 per cent ad valorem on print paper valued at more than four cents a pound and not more than four cents a pound, may repeal a portion of the Canadian reciprocity act of 1911, is contended in the analysis of the measure prepared under direction of Senator Smoot, Republican member of the finance committee. If it does not operate to repeal the law, it is contended that there will be two rates in controversy on this grade of paper.

Besides the duty of twelve per cent ad valorem, the bill would impose a countervailing tax in retaliation for export license fee or other charge imposed by a foreign country.

"An interesting point to consider," the Smoot analysis sets forth, "is the effect of the enactment of this paragraph on the portion of the Canadian reciprocity act which admits to entry free of duty paper imported from Canada valued at not more than four cents per pound. With respect to printing paper valued at more than 2 1/2 and not more than 4 cents per pound, it is manifest that there is a complete repugnance between the two statutes, for by the terms of one, the act of 1911, it is free of duty, and by the terms of the tariff bill, it is subject to a duty of twelve per cent ad valorem. Nor can the two statutes be construed as to stand together.

"Under such circumstances the rule of law is that the statute of later date must prevail over the earlier statute, as being the latest expression of the legislative will, and that consequently the earlier statute stands repealed by implication."

Republican leaders will make a point of this on the floor of the senate.

Nothing can be predicted at the moment as to how events will shape themselves, the Romanian invasion of Bulgaria having brought an entirely new factor into the problem.

Russia and France are devoting their efforts to persuading the allies to adopt a moderate attitude in order to facilitate a peaceful settlement. The Serbian press is quoted in the Vienna Neue Freie Presse as declaring that the new war is completely set aside, all treaties of alliance and the option of the Balkan states are being negotiated on an entirely new basis.

50,000 Bulgarians Surrender?

London, July 10.—Rumors were published in Berlin yesterday, and according to the Daily Telegraph correspondent at Athens were current there, that General Frantsevich, with 50,000 Bulgarians, was forced to surrender near Dimitrisar, where fighting was proceeding for the possession of a railway bridge over the Struma river.

A later despatch from Athens to the Telegraph says that no confirmation of this can be obtained, as an official report issued at Athens although it mentions the fighting at Dimitrisar says nothing of any surrender.

Despatches from European capitals published in London yesterday indicate Premier Danef's overbearing policy as being the cause of the Bulgarian defeat, and his speedy downfall is predicted.

According to the Constantinople correspondent of the Telegraph, Dr. Danef adopted the same policy with Turkey. The correspondent adds that unless M. Natchevitch consents immediately to evacuation of the ports will after twenty-four hours' notice, after the Ottoman troops to drive the Bulgarians out.

It is expected that Roumanian troops will be the occupation of the 2,000 square miles of territory which she claims from Bulgaria as compensation for her neutrality in the war was, by strip extends from Turbulark to Baitchik, on the Black Sea, and includes the city of Silistria.

To Invade Bulgaria Today.

Bucharest, July 10.—The Roumanian government has issued orders to the army to invade Bulgaria tomorrow and has instructed the Roumanian minister at Sofia to notify the Bulgarian government of this intention.

Bulgarians Routed.

Athens, July 10.—Despatches report the continued pursuit of the Bulgarians and a desperate battle in the passes of the Bolis, said on the main road from Dolos to Strumitza, which resulted in complete victory for the Greeks and the routing of the Bulgarians, because it enabled the Greeks to attack the rear of the Bulgarian fourth army, which had its front fortified against the Serbians. The Bulgarians hastily abandoned their fortifications in front of Lulup and fled headlong from the furious assault of the Greek infantry, who captured nine guns. The Greeks pursued the enemy unchecked as far as Strumitza.

On the extreme left the Greeks today attacked the Bulgarians near Dimitrisar.

## BULGARIA CRUSHED, IS ASKING FOR PEACE

### Requests Powers to Intervene

### Greeks Rout the Bulgars With Great Slaughter and Are Relentlessly Pursuing Them—Roumania to Invade King Ferdinand's Country Today—End of Balkan War Seems in Sight.

Waterloo, N. Y., July 10.—Five men were seriously injured, and a barge belonging to the Montreal General Contracting Company valued at \$50,000 was wrecked when a bolt of lightning struck a steel derrick on a barge in the St. Lawrence River last night.

The accident occurred back of Grindstone Island, on the Canadian side and news was received here late today. The lightning striking the derrick, penetrated to big charges of dynamite sunk in a ledge in the bed of the river twenty feet deep. The dynamite was discharged wrecking the barge and blowing members of the crew in all directions.

The valuable machinery and all upper works of the barge were destroyed, leaving nothing but the hull, which has a large hole in the bottom.

At tonight's session, Rev. Francis E. Clark, president of the united society, appealed for special efforts for future activities beginning February 2, 1914, which date marks the thirty-third birthday anniversary of the endeavor movement. He suggested the setting aside of a week or revival to mark the beginning of the special day progress of the organization. William Shaw, general secretary of the society, reviewed the society's progress.

## LIGHTNING EXPLODES DYNAMITE CHARGE

### Five Men On a Barge in St. Lawrence Hurled in All Directions and Seriously Injured—Bolt Followed Drill to River Bottom Where Explosive Had Been Placed in a Ledge.

Waterloo, N. Y., July 10.—Five men were seriously injured, and a barge belonging to the Montreal General Contracting Company valued at \$50,000 was wrecked when a bolt of lightning struck a steel derrick on a barge in the St. Lawrence River last night.

## SOLDIERING OF MORE USE THAN BASEBALL

### Sir Ian Hamilton So Expresses Himself to Halifax Militia—Praises the Work of the Combined Forces—Col. Hughes Says for Being a Soldier a Man is a Better Citizen.

Halifax, July 10.—The Halifax garrison was inspected by General Sir Ian Hamilton, inspector general of the overseas forces, and Col. Sam Hughes, minister of militia, in the armories tonight and made an exceedingly creditable showing. About 1,000 men were on parade comprising three units of the permanent forces, the permanent force and militia together, and it was a sight he would not soon forget.

Col. Sam Hughes, in a short speech expressed his pleasure as minister of militia, in the fine turnout, and commended himself with Sir Ian Hamilton's congratulations. The work the militia was doing for the country was a great pleasure to see such a large and smart turnout on such a disagreeable night. He had the opportunity during the day of seeing some of them doing practical work, firing guns, etc., and he understood that as many as possible of them were going into camp to further equip themselves. They were not fatigued in play, but in real work, and though some might think that playing baseball was of more importance he believed that soldiering was of greater service to the country.

This was the first occasion on his tour, although he had inspected over 100 units in which he had seen the permanent force and militia together, and it was a sight he would not soon forget.

## LEWIS DRY DOCK CONTRACT AWARDED

### CANADA AFTER NEXT CHRISTIAN ENDEAVOR MEETING

### Winnipeg and Toronto Making Strenuous Efforts to Capture International Convention.

Los Angeles, July 10.—Canada wants the next International Christian Endeavor Biennial Convention. Winnipeg and Toronto have sent strong delegations to the Manitoba capital distributed today 3,000 buttons inscribed: "Meet me in Winnipeg in 1915."

Other cities active in the fight are Chicago, St. Louis, and Niagara Falls. The board of trustees will decide the matter tomorrow.

At tonight's session, Rev. Francis E. Clark, president of the united society, appealed for special efforts for future activities beginning February 2, 1914, which date marks the thirty-third birthday anniversary of the endeavor movement. He suggested the setting aside of a week or revival to mark the beginning of the special day progress of the organization. ## M. P. Davis & Son Will Construct It

### Cost Approximately \$2,600,000 and Be Ready in 1915

Ottawa, July 10.—The contract for the new government drydock at Lewis was awarded today by the cabinet council to M. P. Davis & Son. The cost is approximately \$2,600,000.

The drydock will be 1,150 feet in length, one of the largest in the world, and will provide accommodation for the repair of the largest ocean liners, that meeting a long wait in connection with the St. Lawrence route. Construction will be begun at once and it is hoped to have the dock in operation for the season of 1915.

This is the first step towards the construction of a series of big government drydocks and ship repairing plants for both the Atlantic and Pacific shipping of Canada.

Plans are being prepared for a dock of similar size at Esquimalt and the enlargement of the Halifax dock to the same length.

These drydocks will also have a special feature since they will be suitable for any British battleships in Canadian waters in time of war.

## BLAME ENGINEER'S INEXPERIENCE FOR STAMFORD DISASTER

### Interstate Commerce Commission Find Railway Official Responsible for Putting Such a Man in Charge of a Fast Train.

Washington, July 10.—Engineer Doherty's inexperience in handling high speed passenger trains was the principal cause of the New York, New Haven & Hartford wreck at Stamford (Conn.), on June 12, in which six passengers were killed and twenty were injured.

The Interstate Commerce Commission's report of its investigation of the accident, made public

# I. C. R. TRAIENEN ARE SATISFIED

## Manager Accedes to Most of Requests

### Will Keep Full Crews on All Express Trains

### Train Agents Likely to Be Dispensed With—Men Offered Increase of Pay to Make Longer Run and This is Being Discussed in Committees.

Moncton, July 9.—The joint committee of the Brotherhood of Railway Trainmen and the Order of Railway Conductors for the Intercolonial system held a very satisfactory session with F. P. Gutelius, general manager of the I. C. R., at his office here this evening.

A number of the demands of the men have been granted outright, while in other matters Mr. Gutelius has offered a compromise which will be fully considered by the trainmen.

The members of the committees express themselves as very much pleased with the treatment accorded them by the new general manager, who evidenced a desire to work with the men for the mutual welfare of the road and its employees. He assured the committee that no reductions would be made in either the number of passenger crews nor in the number of men in each crew.

This finally knocks on the head the proposal of Mr. Brady to reduce the number of crews on some of the trains, and it also ends the trouble caused by an alleged proposal to take a brakeman off each crew of a train carrying a train agent, and compelling the conductor to do part of a brakeman's work. It is understood that train agents are shortly to be taken off altogether as unnecessary to the service.

In regard to the question of increased mileage, Mr. Gutelius offered the men an increase in wages aggregating \$80 per month to conductors and \$29 per month for brakemen, provided they agree to make the increased mileage. This proposition is being considered by the committee which will remain here a few days for that purpose.

The question of freight crews running through from Moncton to Truro and vice versa, is allowed to stand pending the action of the committee in regard to the mileage question.

A number of minor matters were also successfully dealt with, such as the granting of \$600 back pay to a brakeman on the P. E. I. Railway, who was discharged for political partisanship, a charge which he was able to disprove.

## COAL LADEN SCHOONER SINKS, CREW ESCAPES

### The Maud Carter, From Louisbourg for Charlottetown, Foundered During Gale off Cape George.

Halifax, July 7.—While running under bare poles before a heavy gale the schooner Maud Carter, 92 tons register, coal laden and bound from Louisbourg to Charlottetown, foundered about four miles off Cape George, Antigonish county, at about 3 o'clock this morning.

The captain and crew launched a dory with great difficulty and reached shore safely. The schooner caught a heavy breeze off Cape Jack and soon the crew were compelled to take in all canvas. Heavy rain and pitch darkness made the situation even more trying to the crew.

The cause of the sinking of the schooner was the breaking away of the watch tackle of the main boom, the swaying vessel then got into the trough of the sea and soon her stern was pounded to pieces.

The vessel was owned by Captain Weatherbe, of Louisbourg, and others, and was party insured in Lloyd's. The crew were: Tremaine Cook, Isaac Harbord, Jas. MacPherson, Louisbourg, and William J. Morgan, Newfoundland. They all left Antigonish for their respective homes today.

The Chinese As Engineers. (Harpers Weekly.) One of the most remarkable signs of the awakening of China is afforded by the spread of European engineering methods in that country. The railroad between Pekin and Kaigan, opened a couple of years ago, was constructed exclusively by Chinese labor under the sole direction of native engineers. The Chinese do not hesitate to construct cuttings and tunnels in the modern fashion. One of their tunnels passes under the famous Great Wall, the country of which was begun a short time ago. It has been observed that, while the Chinese students of engineering resort to America and Europe for instruction, as soon as they return to China they emulate themselves from foreign tutelage and attack their problems for themselves. They show wonderful capacity in comprehending the practical sciences of the Occident and are especially notable for their mathematical ability.

# LADY SACKVILLE AND HUSBAND

## TORY LEADERS IN BAD SHAPE

### Premier Borden and Finance Minister White Seek Quiet

### SESSION TOO STRENUOUS Both Have Nervous Attacks as Result of Worry of Office—Sir Richard McBride Going to England for His Health—Cabinet Business Neglected.

Ottawa, July 9.—The cares of office are beginning to tell upon some of the most important Conservative leaders.

Premier Borden and Finance Minister White and Sir Richard McBride are all suffering in health to such an extent that their friends are genuinely concerned.

Premier Borden and Hon. Mr. White have become the victims of serious nervous disorders. It is the traditional custom for a government at the close of each session to spend from three weeks to a month in daily council disposing of business which piles up in the departments during the last months of the session when pressure in the house compels ministers to neglect routine.

This year the day after parliament prorogued the ministers scattered to the four corners of Canada after a brief half dozen meetings. It was found that the pressure upon them from postscript committees and job hunters, the anxiety over the threatened rebellion among the government members in the house and the very severe strain to which the government had been subjected by the opposition had been too much for them.

Premier Borden is in the maritime provinces taking a holiday and health-seeking journey. Bright's disease is said to be his trouble.

Finance Minister White is in England, where he had, in the past, West and when his plans were changed there was a good deal of speculation as to the nature of the business which so suddenly called him to the States.

It is now learned that he has no business there beyond seeking absolute quiet to soothe his nerves.

Sir Richard McBride is going to Britain within a fortnight on a holiday and health-seeking journey. Bright's disease is said to be his trouble.

## WOODSTOCK BOY WHIRLED TO DEATH

### Harley Dunlap Sat on Moving Shaft in Mill and His Clothing Got Entangled—No Blame to Anyone.

Woodstock, N. B., July 9.—A boy named Harley Dunlap, about sixteen years of age, was whirled to death in Frisip's carding mill this morning and instantly killed. He, with other boys was under the mill fishing, when his body became entangled in the machinery, nearly every bone in his body being broken.

An inquest was held this evening by Coroner Lindsay.

Allie Tepley, who was with the unfortunate boy, testified that Dunlap was sitting on a shaft in the basement of the mill while the shaft was in motion. His sweater caught and his clothing was wound tightly round, throwing him with great force to the floor. He notified the mill hands who stopped the machinery. The boys were looking for pigeons' nests in the mill. Chief of Police Kelly cut the boy's clothing and released the body. He was dead, and no doubt was killed instantly.

The jury returned the following verdict: "We find that Harley Dunlap came to his death by being caught in a revolving shaft in the carding mill, run by Aaron Clark, on the 9th day of July, 1913, and we do not attach any blame to any person. The death of Harley Dunlap was accidental. We recommend that the attention of the factory inspector be called to the open and dangerous condition under the mill."

LADY SACKVILLE ENTERING HER CAR FOR THE COURT.

# MONTREAL EMBEZZLER TRACED THROUGH WOMAN

## Former Bookkeeper Arrested in New York, Admits He Stole Several Thousand Dollars—Was Caught in Front of Apartments of the Girl With Whom He Fled—Willing to Return.

New York, July 9.—J. Alfred Lapierre, formerly bookkeeper for the Fashion, Craft Company, of Montreal, was arrested here tonight by detectives on a warrant issued in Montreal, charging him with larceny to the extent of \$1,200.

Lapierre, who is a dapper, well-dressed young man, was traced through Miss Marie Lane, who according to the police, accompanied him from Montreal, and the arrest took place in front of the apartment house where the young woman lives.

According to the police, Lapierre not only admitted that he had taken the amount charged in the warrant, but added that their best efforts were frustrated by the public. Even a watchman would be powerless sometimes to keep off trespassers.

"They do not want a watchman," remarked the chairman, "they want an army. If a watchman tries to stop people trespassing, too often he receives no support from the people. In fact, some municipalities are compelled to keep policemen to prevent people climbing over railway gates."

It was decided that a survey of the local conditions should be made by Mr. Lalonde, and that his report would be acted upon.

To the milk people. They played together for some time. The next day the weather was equally nice and warm. Again the convalescing little boy was taken out into the yard by his mother, and again he played with the youngsters next door. This time they played longer.

That same night the youngster from next door, the shoemaker's son, fell ill. In the morning a physician was called. "Diphtheria," he said, and ordered the child to the contagious hospital immediately, or else, he said, he would have the place quarantined inside of an hour. The youngster was taken to the hospital. He died a few days later. He had contracted diphtheria from the child next door, because a doctor was "obliging" to the milk store people, and sold lots of antitoxin to them. The milk woman hushed up. Her doctor hushed up. The shoemaker's little boy hushed up—forever. A case of diphtheria was suppressed from the health department on the front door. It would cost "do something" for them. The doctor thought a moment, and then figured a moment, and then he said, "Just as good as a diphtheria case was hushed up. Customers and neighbors were told that the child was suffering from kidney trouble. One warm day the little patient who was convalescing was taken out into the back yard by his mother. The boy was greeted by his playmate, the little son of a shoemaker who lived next door method.

# EXPECTS IRISH HOME RULE IN EFFECT IN 1915

## London Daily News Also Hopes the Duke of Connaught Will Be Lord Lieutenant Then.

London, July 9.—The hope is expressed by the Daily News, supporter of the Liberal administration, that the Duke of Connaught may be Lord Lieutenant of Ireland when the home rule bill, passed for a second time by the house of commons on Monday, becomes law.

The Daily News adds that Redmond's policy will be conservative, and "will respect the susceptibilities and pay due honor to the high character of the Protestant counties."

After scouting the idea that Ulster opposition will be serious the Daily News concludes: "It is anticipated that the royal assent to the home rule bill will be signed about the month of June next year. The act comes into operation on the first Tuesday in the eighth month after that date, which will be the first Tuesday in February, 1914, but by an order-in-council the imperial government can antedate the operation by seven months or post-date it seven months. It may be assumed that the operation of the act will not take effect until after the general election of 1915 for the United Kingdom."

# CANADA'S WAR MINISTER AND PARTY AT SYDNEY

## Hon. Mr. Hughes Hints at a New Armory—Impressed with Vastness of Steel Works

Sydney, July 9.—Colonel the Hon. Sam Hughes and Sir Ian Hamilton arrived here this morning, completing their tour across the dominion. The party were met at the station by civic, military and judicial authorities, and taken for a tour of the principal points of interest in the city. Colonel Hughes examined the armory and equipment at Victoria Park, and expressed himself as much pleased with the showing made by the Sydney battery, C. F. A., in field manoeuvres.

The need for a new armory was pointed out by the Hon. J. B. Macpherson, commander of the 3rd Brigade, C. F. A., and Major Gunn, and Col. Hughes intimated that one would be built in the near future.

The steel plant was the last place visited. Both Col. Hughes and General Hamilton expressed great surprise at its magnitude, the former remarking: "It would do the people of Ontario good to come down here and see the vastness and extent of the steel works and the general industrial development of Sydney."

The party left at 11 o'clock to continue their journey through the provinces.

# TERRIBLE TALES OF BALKAN BUTCHERY

## FORETOLD FATE IN LETTER TO WIFE

### Captain Feared His Steamer Would Never Reach Port Again

### ALL HANDS LOST Master and 24 Men With British Vessel Went Down—Communication Read at Inquiry Said Owners Refused to Dry Dock Leaking Craft as Requested by Commander.

Newcastle, England, July 9.—Foreknowledge of the fate of his ship, the Mount Oswald, which with her crew of twenty-four men was never heard of after her departure from Baltimore for Hamburg on Feb. 18, 1912, was shown in a letter from Captain Stannard, to his wife, read during the board of trade inquiry into the loss of the vessel, which opened here today.

The Mount Oswald, a trans-Atlantic freight steamer belonging to Lunn & McCoy, of Newcastle, dropped the pilot she had taken on board at Baltimore, in Chesapeake Bay, and Captain Stannard sent ashore with him a farewell letter to his wife. It said: "We have twelve feet of water in the forepeak, and are not yet out of harbor. God knows whether we shall ever reach home. The sailors are now working at the pumps. I wanted the ship to be drydocked at New York, but the owners would not allow it."

London, July 9.—Out of the writer of conflicting stories from the Balkans it is impossible to sift the truth. This was markedly illustrated tonight, a despatch from the Daily Telegraph's correspondent at Uskup, dated Tuesday night, reporting that there had been no fighting in the last few days, while Bulgarian despatches received reported further Serbian victories, the latest advised from the Serbian capital asserting that all the Bulgarians who had invaded Serbia had been driven back across the frontier.

There seems to be little doubt that General Ivanoff's army is steadily retreating before the victorious Greeks, and it is reported that the Bulgarians have evacuated both Kavala and the Greek fleet is operating and Dedeagach.

Whether there is any truth in the reports that the Bulgarians have evacuated Kavala, it is not known, but it would appear unlikely, since clearly things are not going well with the Bulgarians and the outbreak of cholera at several points in the field of operations, combined with the exhaustion of the army, the fierceness of the struggle, is calculated to prevent some of the Bulgarians from retreating. This is especially so because of the uncertainty of the policy of Roumania, which is the international law of war. It is to be expected that the Bulgarians will demand in order to prevent a disturbance of the Balkan equilibrium.

# GOVERNMENT MAY TAKE OVER THE T. & O. RAILWAY

## Will Form Part of Intercolonial in Its Extension to the West.

Toronto, July 9.—Hon. Frank Cochrane, dominion minister of railways and canals, was in conference with Sir James Whitney, the provincial premier, for some time in the parliament buildings yesterday.

Mr. Cochrane reiterated the statement of Sir Donald Mann that there was no intention of taking over the Toronto and Ontario Northern system to be taken over by the dominion government. The federal minister of railways has just returned after a trip over the Intercolonial system, however, and admitted that his interest was largely centered in the branch line problem.

The bill passed by the commons giving him the right to acquire such branch lines as were considered to be profitable acquisitions to the system and to enter upon railway construction where desirable, if not profitable, did not pass the senate. It is evident, however, that the minister is making further plans along these lines and the impression grows in well-informed circles that the purpose is to develop and expand the Intercolonial into a dominion system of railways which will serve the west as well as the east.

# THREE BUILDINGS BURNED AT NORTON

## Blacksmith Shop, Tenement House and Barn Destroyed—Hard Fight of the Bucket Brigade Stopped Further Damage.

Norton, July 9.—A destructive fire occurred here yesterday afternoon, when W. R. Carson's blacksmith shop and barn adjoining, were completely destroyed.

The fire was first discovered issuing from the rear end of the blacksmith shop near the chimney. The village was soon alarmed, a large crowd gathered and the men worked hard and vigorously with buckets of water, but soon it was apparent that the shop would go. Then they directed their attention to the adjoining buildings owned by Mrs. Cecelia Byrne and occupied by Miss Crossin, but this too was burned. Immediately it was thought the whole block would go, but the men still worked hard on the next building, Mrs. Byrne's residence, and by continually pouring water and putting on wet carpets, blankets, etc., succeeded in saving it, although badly damaged inside and out.

Some of the men were badly burned about the face and hands in their gallant efforts in fighting the flames. The greater part of Mr. Carson's tools were saved, also most of Miss Crossin's furniture. But the loss is considerable, and it should be a warning as to how unprotected the town is against fire.

# Bulgarians Guilty of Barbarities

### Slay Defenceless People and Leave Trail of Desolation

### Conflicting Reports About Results of Battles But General Opinion is That Bulgarians Have Met with Crushing Defeats—Turkey Proposes to Occupy Lost Territory.

London, July 9.—Out of the writer of conflicting stories from the Balkans it is impossible to sift the truth. This was markedly illustrated tonight, a despatch from the Daily Telegraph's correspondent at Uskup, dated Tuesday night, reporting that there had been no fighting in the last few days, while Bulgarian despatches received reported further Serbian victories, the latest advised from the Serbian capital asserting that all the Bulgarians who had invaded Serbia had been driven back across the frontier.

There seems to be little doubt that General Ivanoff's army is steadily retreating before the victorious Greeks, and it is reported that the Bulgarians have evacuated both Kavala and the Greek fleet is operating and Dedeagach.

Whether there is any truth in the reports that the Bulgarians have evacuated Kavala, it is not known, but it would appear unlikely, since clearly things are not going well with the Bulgarians and the outbreak of cholera at several points in the field of operations, combined with the exhaustion of the army, the fierceness of the struggle, is calculated to prevent some of the Bulgarians from retreating. This is especially so because of the uncertainty of the policy of Roumania, which is the international law of war. It is to be expected that the Bulgarians will demand in order to prevent a disturbance of the Balkan equilibrium.

The problem of dealing with the dead and wounded is proving a very serious one. The nursing resources in Belgrade are woefully insufficient and all accommodations there are distressingly overtaxed. It is stated that the Greeks have permitted a pause in the operations to allow the removal of the wounded and the internment of the dead, as well as the carrying out of sanitary measures to prevent a spread of cholera. The Greek government had made urgent representations to the European governments against massacres, and atrocities in the international law of war. This appears to be the case in the event of defenseless Greek populations being left to take their fate, Greece will be obliged to take the state of affairs last autumn.

A Greek official statement asserts that instead of 80,000 as alleged by Bulgarian sources, the Greek army consisted of 120,000 men.

Turkey to Improve Her Opportunity. Constantinople, July 9.—The reply of Bulgaria to the request of the sublime Porte agreeing to evacuate the Marmara coast, intimates that the Bulgarian delegates, who arrived at Tehaltz today, is empowered to negotiate a settlement of the Marmara question.

The Greek government has determined immediately to proceed with the military occupation of all the territory in the Marmara coast. This appears to be the case in the event of defenseless Greek populations being left to take their fate, Greece will be obliged to take the state of affairs last autumn.

TALES OF BUTCHERY

Bulgarians Guilty of Barbarities

Slay Defenceless People and Leave Trail of Desolation

Conflicting Reports About Results of Battles But General Opinion is That Bulgars Have Met with Crushing Defeats—Turkey Proposes to Occupy Lost Territory.

London, July 9.—Out of the welter of conflicting stories from the Balkans it is impossible to sift the truth. This was markedly illustrated tonight, a despatch from the Daily Telegraph's correspondent at Uskup, dated Tuesday night, reporting that there had been hardly any fighting in the last few days, while Belgrade despatches received reported from the Serbian capital asserting that all the Bulgarians who had invaded Serbia had been driven back across the frontier.

There seems to be little doubt that General Ivanoff's army is steadily retreating before the victorious Greeks, and it is reported that the Bulgarians have evacuated both Kavala, where the Greek fleet is operating, and Dedeaqak. Whether there is any truth in the Vienna reports to the effect that Bulgaria has applied to the powers to arrange peace, is not known, but it would appear not unlikely, since clearly things are not going well with the Bulgarians and the outbreak of cholera at many points in the field of operations, combined with the exhaustion of the armies by the fierceness of the fighting, calculated to render some such solution welcome to the combatants. This is especially so because of the uncertainty of the policy of Roumania, which is now reported to be equally ready to attack either Serbia or Bulgaria as the occasion may demand in order to prevent the disturbance of the Balkan equilibrium.

Pause to Bury Dead.—The problem of dealing with the dead and wounded is proving a very serious one. The nursing resources in Belgrade are woefully insufficient and all accommodations are being strained to the limit. It is stated that the Serbians have permitted a pause in the operations to allow the removal of the wounded and the carrying out of sanitary measures to prevent a spread of the cholera. The Greek government had made urgent representations to the European governments to furnish them with the necessary material, but these requests are alleged to have been committed by the Bulgarians and irregulars on unarmed villagers at Bogranitsa, Gouvghele, Nitica and are anxious to see the Greek army in the event of a defeat.

A Greek official statement asserts that instead of the 100,000 men, as alleged by the Greeks, General Ivanoff's army consisted of 120,000 men.

Turkey to Improve Her Opportunity.—Constantinople, July 9.—The reply of Bulgaria to the request of the sublime Porte agreeing to evacuate the Marmara coast, intimates that the Bulgarian army of M. Natchevitch, ex-former minister, who arrived at Tchatalja today, is empowered to negotiate a settlement of the Greek question.

In the meantime the Porte without waiting for this settlement, has determined immediately to proceed with the Greek occupation of all the territory up to the Enos-Midra line, in accordance with the peace protocol signed at London. The bustle of military preparations has been increased in consequence of the Bulgarian report of the evacuation of Kavala by the Bulgarians.

Bulgarians Claim Victories.—Sofia, July 9.—Semi-official reports issued tonight say the Greeks on Tuesday attacked the mountain passes towards Strumitsa. The Bulgarians re-pressed, peremptory from Iatip, offered vigorous resistance, but were steadily driven back. The Greeks occupied some of the passes, but the fighting was stopped by darkness, with the expectation that it would be resumed Wednesday. Other bulletins declare that the Bulgarians are in a position to attack the Greek forces, the Greeks having made a night frontal attack on Strumitsa, forcing the Bulgarians to abandon their positions with heavy losses, including five guns and other war material. Private despatches report the evacuation of Kavala by the Bulgarians.

He estimates that 1,600 persons have been killed in this manner.

WANTED

WANTED—At once at Crossburn, N. S., 800 men for logging woods; good locations; steady employment; wages \$28 and up per month, including board. The Davidson Lumber Co., Ltd., Bridgewater, N. S. 7901-7-16.

WANTED—Second class female teacher for School District No. 14, Parish of Carleton. Please write stating salary. Daniel Sullivan, Sr., Secretary, Kouchibouguac, Kent Co., N. B. 1182-17.

WANTED—A first or second class female teacher is wanted to teach in School District No. 17, Centre, N. B. Apply, stating experience in teaching and salary wanted, to A. G. Dickson, secretary to trustees, Chatham, N. B. 7907-7-16.

WANTED—A first class teacher (Protestant preferred) for School District No. 6, Parish of Grand Manan. Apply, stating salary, to William Harvey, secretary, Seal Cove, Grand Manan, N. B. 7648-7-16.

WANTED—A second class female teacher for District No. 6, Parish of Carleton. Please write stating salary, etc., to F. W. King, Secretary to Trustees, Red Rapids. 7906-7-16.

WANTED—By August 6, a capable housemaid. Apply by letter to Mrs. James F. Robertson, care Massachusetts, Robertson, Allison, Ltd., John, N. B. 1089-17.

WANTED—Young women to work in a training school, as nurses for infants. Address: P. O. Box 1178, Worcester, Mass. 6746-8-9.

WANTED—Girl for general housework. References required. Apply, Mrs. A. C. L. Tapley, 129 Douglas avenue, St. John, N. B. 29-17.

GIRLS WANTED to learn the paper box and printing business. D. F. Brown Paper Box & Paper Co., Ltd. 961-17-16.

WANTED—Young men and women to take the training course for nurses at the Hartford, Connecticut. Retreat. Good wages. Good positions. References required. Miss Agnes M. Glen, Superintendent of Nurses, 80 Washington St., Hartford, Conn. 689-17.

WANTED—Housemaid; references required. Apply Mrs. J. M. Robinson, 70 Leinster street. 718-17.

AGENTS WANTED

RELIABLE representatives wanted, to take the tremendous demand for fruit trees throughout New Brunswick at present. We wish to secure three or four good men to represent us in every unrepresented district. The special interest taken in the fruit-growing business in New Brunswick offers exceptional opportunities for men of enterprise. We offer permanent positions and liberal pay to the right men. Stone & Wellington, Toronto, Ont. 27-17.

THERE is a boom in the sale of trees in New Brunswick. We want reliable agents now in every unrepresented district. For particulars, apply to Pelham Nursery Co., Toronto, Ont. 27-17.

TO LET

TO LET—For the summer months, a comfortably furnished house in central part of the city. Apply 842-17. Telephone Office.

FOR SALE

FOR SALE—Lvswards of 1,200,000 feet of timber, soft wood, level ground, mill site. Apply to W. J. Cowe, Hammond Vale, Kings Co., N. B. 7428-7-16.

No Summer Vacation.

We would greatly enjoy one, but as many of our students come from long distances and are anxious to be ready for stations as soon as possible our classes will be continued without interruption. Then, St. John's college summer months study during the warmest months just as pleasant as at any other time. Students can enter at any time.

Send for Our Catalogue. S. KERR, Principal.

In the Saddle.—The king has a perfect right to dictate rules of propriety for public places on state occasions conducted under his authority. Everyone must agree to such an arrangement as women riding astride would have been out of place in the royal equestrian parade which was one of the festivities marking the visit of the President of France. But probably neither the king nor the queen would wish to interfere with this mode of riding in private life. It may be true, as Miss Ruth Boyd contends, that side-saddle riding is cruel to the horse and unnatural to the woman, and that riding astride is to be preferred, if not generally, at least on long journeys. In the United States, where, perhaps, it arose in the ranch life of the west, it seems to have come to stay. In Canada, it is less popular. One would almost as soon think of stemming the tide for woman suffrage as of interfering any form of feminine liberty. Let every horsewoman be guided by her own sense of propriety, circumstances considered. "Happy is the man whose conduct condemns him not in that which whistles the aloweth."

Shade of the Telegraph Poles.—As for the midsummer heat of the Kachel plain, Denis Bray says: I have met trappers here in their prime of the telegraph service along the Nushki trail route; it was not the speedy despatch of messages that appealed to them, they have found at times an unimagined nuisance; it was the grateful shade shed by the telegraph poles all along the road.

Soup can be quickly cleared by pouring it, when hot, through a muslin cloth wrung out of ice water. Then heat again and serve.

NO SUMMER VACATION.

We would greatly enjoy one, but as many of our students come from long distances and are anxious to be ready for stations as soon as possible our classes will be continued without interruption. Then, St. John's college summer months study during the warmest months just as pleasant as at any other time. Students can enter at any time.

Send for Our Catalogue. S. KERR, Principal.

In the Saddle.—The king has a perfect right to dictate rules of propriety for public places on state occasions conducted under his authority. Everyone must agree to such an arrangement as women riding astride would have been out of place in the royal equestrian parade which was one of the festivities marking the visit of the President of France. But probably neither the king nor the queen would wish to interfere with this mode of riding in private life. It may be true, as Miss Ruth Boyd contends, that side-saddle riding is cruel to the horse and unnatural to the woman, and that riding astride is to be preferred, if not generally, at least on long journeys. In the United States, where, perhaps, it arose in the ranch life of the west, it seems to have come to stay. In Canada, it is less popular. One would almost as soon think of stemming the tide for woman suffrage as of interfering any form of feminine liberty. Let every horsewoman be guided by her own sense of propriety, circumstances considered. "Happy is the man whose conduct condemns him not in that which whistles the aloweth."

Shade of the Telegraph Poles.—As for the midsummer heat of the Kachel plain, Denis Bray says: I have met trappers here in their prime of the telegraph service along the Nushki trail route; it was not the speedy despatch of messages that appealed to them, they have found at times an unimagined nuisance; it was the grateful shade shed by the telegraph poles all along the road.

HOLDING COMPANY

Golden Ball Corner Now Property of Maritime Properties Limited—Sugar Refinery Company Buys More Land.

A historic site changed hands yesterday when Maritime Properties Limited, acquired the full ownership of the land at the Golden Ball corner on the southeast corner of the intersection of Union with Sydney and Waterloo streets for a price in the vicinity of \$28,000. Some time ago the company purchased the interest of Rev. J. W. Millidge in the property, but now they have secured the full ownership of the site, including the old R. Jack, of London (Eng.), the negotiations being conducted on his behalf by Dr. Russell Jack, of St. John.

The company is holding the lot for speculative purposes and has also an option in force on the adjoining lot in Sydney street. The corner lot has a frontage of eighty feet on Union street and fifty on Sydney. There is a wooden building on the property at present owned by the company.

The name "Golden Ball" came to be applied to this corner last year ago when a man named Hopley kept a tavern there, which was much frequented by country people. It was the scene of many merry gatherings and was the first amusement feature ever brought to the city were put on in a building which succeeded the inn, an indoor circus being one of these.

The purchasers of the property are confident that the site is a strategic one and are in a position to hold it until the price has risen to a high figure. The following transfers of freehold property have been recorded: John Haney to Mary A. Haney, property at corner of Summer and Winter streets.

Heirs of Thomas Morrison, per Master of the Supreme Court, to R. C. Bishop and Heirs of Brussels and Middle streets, \$4,700.

Ladies of the Sacred Heart to F. B. Godin, property on Mount Pleasant.

Rev. A. J. Archibald and family, of West St. John, expect to spend their vacation in Nova Scotia.

Rev. J. D. Spidle's preaching at Kentville is highly spoken of, especially his preaching at Wolfville with much acceptance.

Rev. G. Pincome, Jamaica, N. B., has been invited to preach at the annual conference of the Baptist Ministers.

Rev. H. B. Sloan, Connecticut, will spend August in New Brunswick, his native province.

Rev. G. F. Kierstead, Windsor, N. S., will spend at least part of his vacation in St. John, N. B.

Rev. J. D. Webber has returned to Wolfville, N. S., after three months absence due to severe throat affection.

Rev. J. A. Archibald and family, of West St. John, expect to spend their vacation in Nova Scotia.

Rev. J. D. Spidle's preaching at Kentville is highly spoken of, especially his preaching at Wolfville with much acceptance.

Rev. G. Pincome, Jamaica, N. B., has been invited to preach at the annual conference of the Baptist Ministers.

Rev. H. B. Sloan, Connecticut, will spend August in New Brunswick, his native province.

Rev. G. F. Kierstead, Windsor, N. S., will spend at least part of his vacation in St. John, N. B.

NO FISHING HERE

Fears of Ontario Fishermen Are Not Reflected by Angling Fraternity Here—Not Very Popular Anyway.

Although fishermen in Ontario are anxious about the scarcity of bass in waters usually inhabited by them, and the government there has taken action to prevent complete extermination of the fish, there is no cause for alarm in this province. Bass are reported to be very plentiful in the St. John river, Spruce Lake and other waters of the province.

Isaac Walton's followers here, speaking of bass fishing, said that the sport was not indulged in to any great extent by anglers of this city, although some do enjoy it. It is surprising, some say, why more do not participate in fishing this sport, little fish for it is not more than the trout and affords fully as much pleasure as catching a speckled beauty from the trout streams.

The cause for the scarcity in Ontario is the fact that the waters of that province have been polluted by anglers, and before they have had the opportunity of depositing their eggs in the right breeding places, the water is so polluted that the fish are unable to do so.

The company is holding the lot for speculative purposes and has also an option in force on the adjoining lot in Sydney street. The corner lot has a frontage of eighty feet on Union street and fifty on Sydney. There is a wooden building on the property at present owned by the company.

The name "Golden Ball" came to be applied to this corner last year ago when a man named Hopley kept a tavern there, which was much frequented by country people. It was the scene of many merry gatherings and was the first amusement feature ever brought to the city were put on in a building which succeeded the inn, an indoor circus being one of these.

MINERAL WEALTH OF PERU IS VAST

American Explorations in the Andes and Upper Amazon Jungles

PEOPLE OF THE HIGHLANDS Mines of Precious and Rare Metals Crudely Worked by Natives.

A Denver (Coln.) despatch says: Samuel J. Hallett, former state senator from Pitkin county, present general of the University of Colorado, mining engineer and explorer, has just returned from his second tour of South America. As on his previous journey six years ago, when he penetrated into the trackless jungles of the upper Amazon and explored the headwaters of that great river, with their stupendous expanse of mahogany and rubber forests, Mr. Hallett traveled far from the beaten paths of the white men and saw much that is valuable from an ethnological standpoint.

STREET RAILWAY LIES GOING TO ST. JOHN EAST BUT NOT TO LITTLE RIVER

County Councillors Have Assurances That Extension to Post Office Corner Awaits Only the Engineer's Survey—Coming Up in Council Meeting

Thursday, July 10. "The extension of the St. John street railway from Kane's Corner as far as East St. John post office is now definitely planned," said Councillor Henry Shillington...

OBITUARY

George Smith.

Many friends of George Smith will hear with regret of his death, which occurred at his home, Fairfield, St. John county, on Friday last, after a short illness...

James McFarlane.

The death of James McFarlane took place yesterday at his home 26 Long street, in the 84th year of his age...

Mrs. Margaret Heenan.

Mrs. Margaret Heenan, wife of William Heenan, of 48 Murray street, died yesterday at her residence...

Mrs. Gilbert R. Pugsley.

Many St. John friends were shocked to learn that Mrs. Gilbert R. Pugsley, widow of Gilbert R. Pugsley, died yesterday in Toronto...

Mrs. Margaret Crowell.

Word was received in the city yesterday of the death of Mrs. Margaret Crowell in Halifax...

Mrs. Isabelle Morton.

The death of Mrs. Isabelle Morton at her home at Penobscot on July 8, will be the cause of regret among her many relatives and friends...

WEDDINGS

Baxter-Adams.

Matrimonial, July 7.—On the evening of Monday, June 30, a pretty wedding took place at the home of Mr. and Mrs. A. Adams...

Mrs. J. P. Flood.
