G.W.V.A. PICNIC WILL BE A HUMMER

If Present Plans Do Not Misarry, and They Should Not, with the Crowd of Energetic Hustlers Back of the Enterprise—Whole Town Should Give Generous Support

That the G.W.V.A. picnic next Monday will be a grand and glorious success is just as sure as the day is fine. There are several reasons why it will be a success. One of them is that those particular lads who are interested in the enterprise learned overseas what real determination to win means, and they learned that hard work and keeping busy was what brought around an Armistice Day. Viewed from The Observer office it appears that the boys have a lot of this fighting spirit still inside 'em and they are using it absolutely to make one big day out of their picnic. Picnics mean a lot of hard work for every one connected with them, and the boys need and deserve assistance from all the people of the town and especially their lady friends, who are expected to cook stuff for the crowd and to help serve it.

The object of next Monday's big thing is to make a real start for a real fund for a really praiseworthy Memorial Hall. It will be a Hall a fitting memorial for those poor lads who did not come back. It will be a fine building everlasting as the hills—a worthy addition to the town. The school district gave a lot, on Maine street, and it is proposed to build a fine public hall, a meeting place for the Veterans' Association, and a first class up-to-date gymnasium.

In the object worthy the people will see it in the program of sport and fun, races of all kinds and some others, including the human race—the funniest of all; merry-go-round, orchestra; plenty of lawful refreshments; a grand old feed, the place-dead-beans, of which will be real bean-sauce beans. In the evening there will be a big entertainment at the Star Theatre. To learn more about it read the ad in this part of the paper, and also get in touch with the Vets themselves.

Hatchford Lloyd of Larwick

Death has again visited this place and removed from our midst one of our most respected residents in the person of Hatchford Lloyd. The deceased had been seriously ill for some time so his death did not come unexpectedly yet it was a great shock to his wide circle of friends that they had lost so good a neighbor. He leaves to mourn their loss a sorrowing widow who very untiringly and lovingly attended her husband during his very painful illness and has the sincere sympathy of the community in her great bereavement, also two brothers, Wilbert of Lindsay, and Marshall of Saskatchewan, and three sisters—Mrs. Edward McQuade of Medford, Mrs. Geo. Curtis of Bristol and Mrs. London of Lindsay.

Mr. Lloyd, was 64 years of age and had lived the greater part of his life in this place. In politics he was a lifelong Conservative and during that party's term of government carefully served as care taker of the Blue Ball Tract in this county and in this capacity made the acquaintance of a host of people who will long remember the many acts of courtesy and kindness shown them by Mr. Lloyd.

The funeral which was largely attended was impressively conducted by S. E. Currie of Tilley, interment taking place at the Tilley burying ground.

Big Bridge at Edmundston

The building of the substructure of the Madawaska-Edmundston bridge, across the St. John River by the United States government, the State of Maine and the Dominion of Canada, will probably be let to D. C. Burpee & Sons, South Devon, N. B., at a bid of \$122,204, while the erection of the superstructure will probably be let to the Dominion Bridge Company, Montreal, for \$147,200. These were the lowest bids received, some of the bids being very much higher.—Fort Fairfield Review.

Mrs. Joseph Milbury

At Jacksonville the death occurred on Aug. 19 of Mrs. Joseph Milbury after a lingering illness of cancer. Deceased was 50 years of age and leaves to mourn their loss, a husband and nine children, four sons and five daughters, one sister, Mrs. Allen Burpee, many relatives and a host of friends.

The funeral service was held at their residence conducted by the Rev. H. V. Bragdon assisted by Rev. Harry Harrison. Pall bearers were nephews

of deceased, Isaac Burpee, Hugh Burpee, William Nelson and Clayton Yerxa. Special revival services are being held at Everett, Victoria Co., by Rev. H. V. Bragdon with marked success. A good many going forward in the ordinance of baptism.

BALL TEAM IS STILL ADDING TO ITS LAURALS

Dealt Crushing Blow to Grand Falls and Defeated Limestone Team

Hartland base ball team is still going strong and giving the town good advertising as a genuine winner. On Tuesday they played a return game at Grand Falls in an endeavor to determine which team was really the stronger, for it will be recalled that when they played here two weeks ago the score was tied 2 to 2. On Tuesday Hartland appeared to have baffled the upriver town all to pieces and secured 16 runs against 2. It was a good game from the Hartland standpoint and the Grand Falls team is no easy mark either. Paynter, in the box for Hartland, was hard to hit and what hits were made were cleverly handled. Hartland team is a heavy batting combination, and Paynter, to bat four times drove out four safe ones. Others got in three runs and all did creditably.

On Friday evening Limestone team scored defeat on Hartland diamond in a five-innings game. They took 3 runs in the first but their burst of speed immediately subsided, Hartland thereafter scoring 4.

COOK-SWIM

A quiet wedding was solemnized at the home of Mayor Keith yesterday afternoon, when Miss Nina Swim became the bride of Roy Page Cook of East Coldstream. The ceremony was performed by Rev. Ernest A. Trites in the presence of a few relatives and intimate friends. After the ceremony the young couple took the express for a brief tour to Fredericton and St. John. The bride, who was unattended, wore a travelling suit of navy blue serge and a hat of black velvet. The wedding march was played by Mrs. Kenneth Keith.

The bride, who is a daughter of Edward Swim of Coldstream, has lived with Mr. and Mrs. Keith for five years and has a host of friends in the community. The groom, only son of the late Jed. Cook of East Coldstream, is one of the most prosperous young farmers in the parish.

Were These Real Burglars?

Two men entered The Observer office about three o'clock on Saturday morning and prowled around until they awakened the occupants of the apartments up stairs who called to them to "beat it," which advice they lost no time in following. These must have been amateur burglars or they never have sought loot in a country newspaper office.

A few nights ago an attempt was made to get away with one of the finest cars in town. As in the foregoing instance their noise aroused the occupants upstairs and the hasty retreat of the miscreants followed.

Expected this week at Carr's—black and colored velvets, various shades; also new prints, dress goods, etc.

POTATOES WORTH \$2.50 A BARREL

Local Market Opened at \$3.00 But the Price is Dropping—\$2.50 the Price Reported From Large Centres

Potato digging and buying commenced last week and the market opened with \$3.00 as the price from the field. A local firm bought six carloads at this figure, but there was a drop of 25 cents on Tuesday.

Farmers will lose money if they have to sacrifice at much lower figure. During the growing season rumors were many that the price this year would equal or pass that of last year. But these wild reports seemed to have emanated among the big selling interests who wished to stir the farmer's hopes up to a point to where he would become prodigal of the money he made last year. It may have been the automobile manufacturers that sent out the reports that potatoes were being bought up at 16.00 a bushel.

The following report will be read with interest: Ottawa, Aug. 30.—There is little prospect of potatoes again reaching a seven dollar level as they did last season, according to statements by local whole salers today. All reports indicate that the potato crop is in excellent condition both as to quality and quantity.

Reports reaching the city from the outlying districts state that the farmers are offering their crop to brokers at \$1.00 a bag, but that the supply exceeds the demand. Local wholesalers are quoting \$1.75 to \$2.25 a bag.

One dealer said today that in his opinion potatoes would not go as low as \$1.00 a bag, but that they would be cheap and decidedly plentiful. Reports from the maritime provinces indicate that the crop is likewise in excellent condition and that there is little dry rot. Potatoes are worth \$2.50 in New Brunswick. In Quebec reports are equally favorable to the consumer, and in the neighborhood of Rimouski cars are being loaded at \$1.00 a bag.

In explaining the seven dollar figure prevalent last winter, dealers state that this was due in the main to extensive buying by United States firms, owing to the bad crop in many states. Estimates in Aroostook are worth \$2.50 a barrel. They state, however, that the crop across the line is generally quite as good as that in Canada, and that there is little likelihood of a recurrence of the buying from the other side.

There is a possibility of a further material drop in the near future.

[It will be noticed that the foregoing was written entirely for the benefit of the consumer. Observer readers are all interested in seeing potatoes sold at a price that will bring the farmers a fair profit on their big investment and enormous risk.]

Hatfield & Scott Co., Ltd., Reorganization

The well known produce firm of Hatfield & Scott Co., Ltd., is no more. In a recent reorganization F. G. Scott of Montreal withdrew his interest and the firm will now be known as Hatfield & Co., Ltd., and all the stock will be held locally, Mr. Hatfield being, as formerly, holder of the controlling interest.

ST. JOHN WOMAN ALMOST GAVE UP

Was So Weak Had to be Helped
Out of Bed—Gaining Thirteen
Pounds Taking Tanlac

Just think of it! Only a few weeks ago I was so bad off as to be almost helpless, but since taking Tanlac I have gained thirteen pounds in weight and am enjoying the best of health," said Mrs. Leonard Miller, 124 Water St., St. John's, Newfoundland, a few days ago.

"No one knows what I have gone through during the past nine years, for I have suffered from a complication of troubles," she continued. "My digestion was so bad that no matter what I ate it would disagree with me and keep me in misery for hours afterwards. I was troubled a great deal with heartburn and after every meal I would have a stuffy, distressing feeling. My heart palpitated so bad I thought I would smother, and I became so dizzy I had to catch hold of the nearest thing to keep from falling. My back was weak and lame and at times it pained me so bad I just had to take to my bed, and whenever I wanted to get up I always had to have someone help me. Severe headaches often came on and I was so restless and miserable I could never sleep good at night. My nerves were terribly upset and even the children playing would nearly run me wild. I was afraid to be alone, for several times I thought I was going to die. Then rheumatism set in and my hands and feet would swell up and pain me so bad I could hardly stand it. I gave up my housework entirely and was so weak, that as I now look back over my condition, it is hard for me to understand how I held out as long as I did.

"But now things are different, for Tanlac has overcome all my troubles and I am feeling like a young girl again. I enjoy my meals now, because I can eat anything I want and not suffer one bit afterwards with palpitation or heartburn. My back never bothers me in the least and the headaches are a thing of the past. My nerves are steady and I can sleep all night long as sound as a child. The rheumatism has completely disappeared and I have gone back to doing my housework all by myself. I feel stronger and better than I have for many years and I am overjoyed for what Tanlac has done for me.

Tanlac is sold in Hartland by Estey & Curtis Co., Ltd., in Grand Falls by Wiley Drug Co., in Bloomfield by E. L. Field and by the leading druggists in every town.

The doctors had no hope of my recovery, and every medicine I tried proved useless until a friend induced me to take "Fruit-a-lives".

I began to mend almost at once, and never had such good health as I have enjoyed the past eight years. I am never without "Fruit-a-lives" in the house". JAS. S. DELGATY, 50c. a b. x. 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

One of the largest funerals seen in Lakeville for years took place on August 11, when Deacon Willard Jones of Brookville was laid to rest in the Baptist cemetery in this village. It could truly be said of him that everybody had lost a friend and no one got rid of an enemy.

VOCATIONAL SCHOOL NOTES

The good woman is a good housekeeper. Whatever other accomplishments a young woman may attain, she must become a good home maker or fall in her real mission. No matter how many exceptions be taken to the rule, no matter in what form you put the case, the precept was so stated long ago in sacred writ, and it remains true to this day. The good woman "looketh well to the ways of her house hold, and eateth not of the bread of idleness."

The mother who allows a daughter to come to maturity without adequate knowledge of domestic science, and measure of explicit training in practical housekeeping, commits a most egregious blunder that cannot be well repaired.

The tendency of all educational and industrial thought today is towards equal rights, equal opportunities, equality in all things for mankind. At the same time that other wise precept holds good: "Whatsoever thy hand findeth to do, do it with thy might." And it applies also to the artisan, the bread-winner and the housekeeper. Domestic Science, home-making and household arts were never more in evidence, never were given a more prominent place in the economic welfare of mankind than they hold today. Food and its conservation, ever regarded the chief factor in the development of the races, has now swiftly become of paramount importance. The occupation of the housekeeper is secondary to no other.

Family and food are the chief products of a farm, and while the world can not endure without food we must also remember that civilization can not endure without sound, well-moulded character. We do not think, therefore, that any farm can be said to be truly successful unless it can show efficient children and character among its prize crops.

There is offered at the Carleton County Vocational School, free to young ladies, residents of the county, between the ages of 14 and 25, starting on Sept. 20 and ending June 30, 1921, a course in Home Making, embodying the following phases of Domestic Science: Cooking, laundrying, household chemistry, foods and food values, sewing and dressmaking, invalid cookery, home nursing, home management and house planning. Applications for enrolment should be made immediately. Address all correspondence to R. W. Maxwell, Director, Woodstock, N. B.

PROBLEMS SOLVED BY ANTS.

Ant-hill is an Example of Pure Democracy.

The insects have solved many problems that still vex the human race, writes Edward Step, F.I.S., the famous naturalist, in Tit-Bits.

In the ant hill we find an example of pure democracy. It may consist of many thousands of individuals without a monarch or leader of any sort; without a Government. Each ant does exactly what it pleases, without other instructions or permission to do it. But what it does is just what is best for the entire community. There is no self-seeking, no profiteering. Each one does what needs to be done when it needs doing, the welfare of all being the inspiring motive.

A score, or a hundred, or a thousand workers are engaged on some big piece of work. A worker ant comes in from foraging expedition. "Here, Polly," she says, to one of the miners or masons, "let me take a turn at that while you rest awhile." The resting one asks for food, and the newcomer at once shares what she has gathered on her journey. Some others come along and notice that the resting worker has become coiled with labor. They immediately set to work to clean and refresh her by washing and brushing. Nobody tells or asks them to do it; they merely see that it requires doing, and at once set about their self-imposed task.

During some extensive mining operations a stone is dislodged from the roof and falls upon a worker, injuring her so that she can scarcely crawl. Several rush to her aid, and bear her away to a quieter gallery, where her hurts may be properly tended.

Ants are full of resource to meet extraordinary situations, and they have invented so many ways of getting a thing that, in the course of time, they have branched off into more than 2,000 different species.

Could Not Sleep

Mr. Ernest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine cured me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Dr. Chase's Nerve Food, 50 cents a box, 5 for \$2.75, all dealers. Edman, Bates & Co., Ltd., Toronto.

Dr. Chase's Nerve Food

with distinct form and habits.

So important are they in the scheme of nature that they have brought about numerous modifications of plant life—many flowers have had to invent hair fences to prevent the ants from stealing nectar intended as a bribe for the pollen-carrying bees; other plants have produced glands, from which a sweet liquid flows, to induce the ants to patrol their leaves and stems and destroy caterpillars and other nuisances.

They have also set up alliances with various small creatures for mutual benefit. Some like the green-fly, supply them with sweet food (all ants have a "swee tooth"); others, like certain beetles, become their domestic pets; others are scavengers, encouraged or tolerated in their nests because of their usefulness from a sanitary point of view.

Their industry in construction shows a considerable amount of varied ingenuity. Some are miners in the earth, and tunnel wonderful galleries of great extent, whilst others tunnel in wood. Some construct paper-mache nests on the boughs of trees and pens for their domestic insects, whilst some, instead of laboring in these ways, frankly avail themselves of the provision made for them by plants.

There are ants that store grain; ants that grow mushrooms, and prepare suitable beds for their growth; ants that keep dairies; ants that are "necé nomis" freebooters, sallying forth in their thousands, and killing and eating all other insects in their path, possessing no city of their own, but camping temporarily where their march of pillage and conquest has brought them.

When Brides Must Weep.
The wedding day in most countries is the bride's day, says Tit-Bits. It is her part to look happy, however long a face the groom may pull. Only in Lithuania is it a day of ostentatious gloom for her when, after being led through the lighted church by two young men, followed by her bridesmaids, she takes her stand in front of the altar, to be joined by the groom, also accompanied by several young men.

Behind the wedding party come the two mothers. While the priest performs the ceremony the bride must weep incessantly. If she is unable to hide her real jubilation and cannot squeeze out a tear, she is considered guilty of a serious breach of etiquette; and the ceremony is rendered more depressing by a vigorous scolding administered by the two mothers. Thus the maiden is expected to show the groom she is concurring upon mere man by becoming his wife.

This same attitude towards the Lithuanian woman is proved by all the customs of the little Baltic state that has declared itself a republic. It is shown, for instance, in old photographs. In these the woman is not standing with her hands on the shoulder of her seated groom, like our own photographs of a former period, but throned in state, with her husband and sons standing gallantly beside her.

Asked and Answered.
"Can a man lift himself by his boot straps?"
"I dunno."
"Why, the question answers itself."
"Well, teacher, that lets me out."

CHILDLESS WOMEN

Please Read This Letter And See What Normal Health Will Do For You.

Berwick, Ont.—"I had organic troubles, and after taking Lydia E. Pinkham's Vegetable Compound and Blood Medicine all my troubles passed away. I was made strong and well and have been ever since. Now we have a little baby boy six months old, and I know that I would not have this baby and would still be suffering if it had not been for your remedies. My husband and myself say that your remedies are worth their weight in gold, and I recommend them to my friends. One of my aunts is taking them now."
Mrs. NAPOLEON LAVICH, Berwick, Ontario, Canada.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct sterility in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published in these columns.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

"YOU'LL LIKE THE FLAVOR"

Ten Years After

Ten years ago the first packages of KING COLE TEA were packed and put on the market. The time that has elapsed since then has been filled with hard work and with many difficult situations to be met and overcome. But withal, it has been a period of unquestionable, steady and persistent progress. KING COLE TEA has never looked back. Every year has brought its increase. Today its sale is ten times greater than the first year's business. This is the public's remarkable tribute to the worth of KING COLE TEA. It speaks for unusual service.

The Maple Leaf Club went to Lakeville, Wednesday, August 18, to have their big summer picnic at the home of Mr. and Mrs. William Amies, formerly of Fort Fairfield. While in Fort Fairfield Mrs. Amies was a very active member of the club. The weather was fine, and big maple trees furnished shade for the picnic. During the day some of the party visited the big lake for which the town is named Lakeville. About 20 members of the club were present and all enjoyed a very delightful time.—Fort Fairfield Review.

When Home Seems Good

A BLIZZARD OUTDOORS—warmth and comfort within. There is nothing in the home so necessary as a good furnace. Stoves and base burners are unequal to the task—they choke the air with dust and only warm parts of the house.

And buying a furnace is a matter of knowing how. The warm air heating system is the least costly. It is the most effective and healthful too. The

**ENTERPRISE
BLAZER WARM AIR FURNACE**

will keep every corner of your home delightfully comfortable in all kinds of weather. It draws in the pure fresh air from the big outdoors, warms and moistens it and sends it on its way to you. Stoves and radiators can only heat the same air over and over.

Every part of the Enterprise Blazer Furnace is made just a little bit better than is necessary—the grate bars a little stronger—the fire-pot a little heavier. These are the things that enable us to guarantee that the Blazer Furnace will give you entire satisfaction.

Go fully into the matter with your dealer and write us for our free booklet "Warmth and Comfort."
