PUBLIC MEETING WELL ATTENDED

The Public Meeting of the rate-payers, of the Town of Newcastle, held in the Town Hall, on Friday evening, 8th inst, was a well attended and enthusiastic one. The meeting was called to order at 8 o'clock with Mayor D. P. Doyle in the chair and Mr. G. M. Lake as Secretary.

Ald. R. W. Crocker asked for an explanation of the calling of the meeting and Ex-Mayor Chas. E. Fish in answer said that the reason for calling the meeting was for the purpose of getting the rate-payers together to discuss town matters. They did not mean to criticize the present Board of Aldermen, as he felt they had done their best, but still there were many matters such as the Streets, Electric Light Plant, Taxation System etc., which were all subjects in which the rate-payers were interested and thought that a discussion of these matters by the rate-payers would not be out of place. He felt that the citizens should get together and do their utmost in finding a solution to the present unsatisfactory condition of affairs.

Mr. E. A. McCurdy, stated that the calling together of the rate-payers was a good method of talking over the many matters of interest to all. Instead of holding meetings of the rate-payers occasionally it should be done frequently and in this way the spirit of co-operation, which was badly needed, would be generated. Many improvements in civic matters needed attention and the getting together of the citizens to talk matters over would facilitate the work. The Power Plant question was an important one and he would be pleased to hear from the members of the present Council Board.

Ald. W. L. Durick, said that the Power Plant was the main problem which the town had to grapple with and he personally would be pleased to hear of any remedy which could be used to place it on a better basis. Wages and fuel had greatly increased and it would be necessary for the Town to continue operating the plant at a loss until such time as some other more favorable proposition was secured. He understood that the Government had given their assurance that they would give Newcastle, electric power at as early a date as possible.

Ald. Durick spoke of the work on the roads during the past year and thought that considering the small amount of money at the disposal of the Public Works Department that they had done as well as could be expected.

Ald. R. W. Crocker, Chairman, of the Light and Water Dept. said that he had no apologies to make in regard to the management of the Power House during the past year, as he had endeavored to run the plant as economical as it was possible for him to do under the existing conditions. He compared Newcastle with Chatham in respect to their Power plants and thought Newcastle had not done so bad.

Mr. H. H. Ritchie who is an aspirant this year for civic honors, did not think that Newcastle was in such a bad plight, considering the prevailing conditions and thought it was our duty to carry on in future as best we could.

Ald. Atkinson hoped that four good strong business men would be elected at the coming election to assist the remaining four aldermen, as the town needed the assistance of the best men that could be procured.

Mr. E. A. McCurdy suggested the publishing, in the Town's Annual Report each year, of the default list in its entirety, showing the arrearages of each defaulter in the different years. The rate-payers who paid their taxes were entitled to this information and if printed in the Annual Report each year the necessary information desired by them would be ascertained.

He also suggested that the System of Town Manager be fully looked into by the Town Council as it had proven successful in other towns, having been found

STATEMENT FROM REV. W. D. WILSON

Rev. W. D. Wilson General Secretary, of the Temperance Alliance of N. B. who was in Newcastle to-day on his way to Campbellton was asked concerning a report appearing in several newspapers concerning James Dickison, a former Inspector under the Prohibition Act, stated that the Temperance Alliance stood for the strict enforcement of the Prohibition Act.

That anyone found violating the Law, ought to be punished, much more so one whose duty it had been to carry out above law.

Concerning any recommendation that may have been made by some party or parties connected with the Alliance on Mr. Dickison's behalf, these recommendations may have been given, but if so, it would be in the belief or assumption that this officer had given efficient service, moreover nothing to the contrary had ever come to me while Chief Inspector nor since vacating that office, until this affair was brought to my attention last week through the newspapers.

desirable on account of its advantages.

Ex-Ald. Capt. John Russell said that he had his siege in conducting the Power Plant, and assured the meeting that it was a big problem. He also advocated the citizens of our town to get together and start industries with our own capital, and if this were done and we could supply cheap power, outside capital would speedily come in.

Ex Ald. Thos. A. Clarke said it was a very easy matter to find fault, but much more difficult to get a remedy. However he did a lot of travelling and was sorry to admit that Newcastle did not measure up to some of the other small towns which he visited.

Police Magistrate J. R. Lawlor stated that the present Town Council was not responsible for the present deficit or high taxation. The town had too many knockers and the best men possible should be elected to co-operate with the remaining four aldermen who have had some experience, and the business of the town should be conducted as economically as possible.

(Continued on page 4)

HAPPY HOUR ON WEDNESDAY

Be a good crook, Flossie. Don't let the cops forget the name of Golden!" are the dying words of Flossie Golden's father. With this heritage, Flossie Golden, daughter of one of the cleverest crooks who ever piled his trade while posing as a policeman, is left alone in the world to win her way by crooked means or straight. Flossie chooses the turn to the left. Her father, having been a crook before her, she decides to uphold the Golden tradition. Thus, working in conjunction with Larry, a former associate of her father's she tries out her charms with blackmail as the object, on a young man who has nothing to recommend him but a tremendous bank account. Flossie plays the game skillfully. She attempts to extort money from the rich young man. But the latter's lawyer, who is over six in the ways of the world spikes the guns of Flossie and her henchman, Larry. Then the lawyer falls in love with Flossie, and just as she finds she has him completely at her mercy, she is unable to pursue her plans further. What happens after this complex and powerfully dramatic situation is thrillingly unfolded in this brilliant comedy drama starring the adorable Viola Dana at the Happy Hour Wednesday.

PULPITS EXCHANGED

The pastors of the local Protestant Churches exchanged pulpits last Sunday morning.

LABOR MEETING

A mass meeting was held last night in Chatham to discuss the labor problems existing on the Miramichi River. It is said that no solution of the troubles was effected.

SEED WHEAT

Arriving To-day—100 bushels imported "Marquis" Seed Wheat. Also a full variety of Field and Garden Seeds.

STOTHART MERCANTILE CO LTD

NEW CIRCUIT

The New Brunswick Telephone Co. Ltd. have a crew of men busily engaged installing a new line between Newcastle and Blackville. When completed, a much better service will be given throughout this section which under the present system is in a badly congested condition.

CAUSE FOR ACTION

The following is a summary of the assessment, made in the Town of Newcastle from the year 1900 to date, giving the name of the Mayor of the Town, and also showing the surplus and deficit in the Water and Light Department for each year. The summary is one which speaks for itself and shows the manner in which we are drifting each year. The question "Where are we going, and when do we get there"?, may be fittingly asked in this instance. After perusing this summary, it is sincerely hoped that our business men will take heed and come to the rescue.

| Year | Amt. of Assessment | Mayor | Water & Light Dept. | |
|------|--------------------|-------------------|---------------------|-----------|
| | | | Surplus | Deficit |
| 1900 | 7,898.00 | D. Morrison | | |
| 1901 | 9,200.00 | " | | |
| 1902 | 10,120.00 | " | | |

Of 900 ratepayers, 330 are defaulters, of whom only 95 are owners of real estate.

He Can Now Eat Pork And Beans

J. Murphy, Aged 76, Says He Knows From Experience Tanlac is Good for Old Folks Too.

"You can tell them that Tanlac is the right medicine for old folks, too, for I have tried it and it has done me more good than anything else I ever took combined," said John Murphy, of 46 Charlotte St., Halifax, N. S. Mr. Murphy is now seventy-six years of age and a life long resident of Halifax. He is employed as night watchman by the Halifax Tram Co.

"For a long time I have been troubled with indigestion and took a great deal of medicines. Everything I ate disagreed with me. Food felt like a lump in the pit of my stomach and caused me to bloat all up with gas and I felt sick at my stomach nearly all the time I had no appetite and the more nourishing foods, like beans, fat meat and things cooked in grease, I could not eat at all.

"I also suffered with severe pains in the small of my back. I had frequent headaches and was terribly nervous all the time and could never sleep well. Last August a friend of mine told me of the fine results he had gotten from Tanlac, so I started taking it myself and it has done me a world of good.

"It gave me a great appetite and fixed my stomach up so I can eat three good meals a day, including pork and beans and other foods that I would not dare eat before. I am no longer troubled with the pain in my back and I sleep very much better. I have taken the Laxative tablets along with the Tanlac and have been helped wonderfully in every way. I am still taking a dose or two a day and it keeps me in good trim. Tanlac will always get a good word from me."

Will Retain The C. N. R.

Ottawa, April 11th In reply to a question today by Hon. Dr. H. S. Beland, the prime minister said that the government did not contemplate handing over the national railways to private ownership.

D. D. McKenzie (Cape Breton North) asked if it was correct that the Grand Trunk had defaulted on certain bonds.

The prime minister replied that the government had no information that the default had taken place.

GENUINE ASPIRIN HAS "BAYER CROSS"

Tablets without "Bayer Cross" are not Aspirin at all

Get genuine "Bayer Tablets of Aspirin" in a "Bayer" package, plainly marked with the safety "Bayer Cross."

The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for nineteen years and proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally. Made in Canada.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

Miramichi Boom Bill Discussed

FREDERICTON, April 6—The Committee on Corporations met this morning. Mr. Robichaud was elected chairman.

The committee considered bills to amend a bill relating to tolls of the Southwest Miramichi Boom Company, to amend the Church of England Act, 1912, and to incorporate the Sussex Amateur Athletic Club, and agreed to them with amendments.

The committee also considered a bill to amend the act to incorporate the Southwest Miramichi Boom Company, P. J. Hughes, Fredericton, and J. W. Brankley, Chatham, appeared in support of the bill.

Mr. Hughes explained the various provisions and said that none of the lumber operators on the river were opposed. It was asked that the action of the company in regard to the method of issuing bonds be confirmed. It also was asked that persons who had paid money into the company for property required on the river be entitled to reimbursement upon retirement from lumbering. It also was requested that the fixing of the tolls be placed within the power of the company and not be referred to the Lieutenant-Governor-in-Council.

Hon. Dr. Baxter said that the cost of property acquired on the river really was passed on to the consumer and he did not see why members of the company retiring from business should be entitled to reimbursement. As far as getting away from the Lieutenant Governor-in-Council was concerned, why not have the Public Utilities Commission act in the matter.

Mr. Hughes said that the company was not wedded to a change in regard to the Lieutenant Governor-in-Council, but regarded the matter of tolls as private business which could better be settled by the company itself.

Hon. Mr. Foster said that the company might just as well be declared a public utility.

Mr. Pickett said that the small operator, who was not entitled to a vote in the company, should not be at the mercy of others in the matter of tolls and rates.

Mr. Baxter said that the objection could be avoided by inserting the words "tolls shall not be discriminative."

Mr. Hughes said that with regard to placing the matter of toll under the Public Utilities Commission he was unable to make a statement without consulting members of the company. The company really was a partnership and its members might prefer to have the matter remain as it had been. The bill was reported with amendments.

Plunges In Well To Save Her Son

Amherst, April 5—While Mr. and Mrs. Vernon Troopre, of this town, were visiting the latter's parents, Mr. and Mrs. Benjamin Chase, Pughwash, their two-year-old son, Vaughan, who was playing in the yard, pulled the cover off the well and fell in. The well is about fourteen feet from the top to the water and seven feet of water. Fortunately someone was near who heard the splash and immediately gave the alarm.

The mother, on looking down the well, saw her little son disappear out of sight, and immediately jumped in to rescue him. She went down in the water to her neck, and reaching down got hold of her child's clothes, pulling him up in arms, holding on to the pipe of the pump to keep herself and Vaughan from drowning. Several men arrived and the heroic mother and her child were rescued. The baby boy escaped unharmed, and the mother with the exception of a few bruises and a nervous shock, is none the worse for the trying experience.

Moncton For The Shiretown

Dorchester, April 5—At a special meeting of the municipal council this afternoon held for the purpose of considering legislation asked for by the city of Moncton providing for the separation of the city from the county, the council passed a resolution praying the legislature to amend the Moncton bill so as to make Moncton city the shire instead of making it a separate municipality. This action on the part of the majority of the council was satisfactory to the Moncton representatives present.

The Dorchester councillors and two others from the eastern end of the county opposed removing the shiretown from Dorchester.

A Big Whale Has Close Call

St. George, April 4—The big whale that has been disporting itself in the bay for the past month came up the Magaguadavic recently and only the high run of water saved it from the fate of another who several years ago found himself stranded on the flats and was captured by local residents and placed on exhibition. The latest visitor, it is said, ploughed a good size trench over one of the bars down river in his efforts to get to deep water. The presence of the whale is taken by the fishermen as a good omen. They say it means a lot of herring near the shore.

Mild Weather Due To Sun Spots

NEW YORK, April 6—The suggestion that the unusual mildness of the past winter may be due to spots on the sun is attracting considerable attention in scientific circles. The recent appearance of unusually large spots recalls the fact that these spots put on an appearance in larger numbers than usual every eleven years or so. Why they do so is not known.

Dr. Archibold, director of the Berlin Observatory, has announced the discovery of a sun spot said to be fourteen times as large as the earth, and to be constantly changing in shape. The largest spot ever photographed at Greenwich Observatory was that of February 4, 1905, which covered an area of many millions of square miles. Such giant spots are distinctly visible with the naked eye. The earth in one of them would be like a pea in a pint.

There are many mysteries connected with sun spots which the astronomers have yet to solve. It is generally agreed, however, that the spots are caused by whirling masses of gas on the sun. The gas rushes up

from the sun's interior with an appalling speed and appears dark only in comparison with the sun's brilliant outer atmosphere.

A BLIZZARD IN THE WEST
Idaho Falls, Idaho, April 5—More than two feet of snow covered the streets today following the worst blizzard of the year, which struck here late yesterday and continued all night with unabated fury. The storm followed the mildest spring on record.

A Quick Relief for Headache

A headache is frequently caused by badly digested food; the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the brain. Causes painful symptoms such as headache, neuralgia, rheumatism, etc. 15 to 30 drops of Mother Seigel's Syrup will correct faulty digestion and afford relief.

NERVE When You Need It

In a trying situation, where quick thought and co-ordinated action is demanded—does your nerve "hold"?

If you are not in good physical condition—if your stomach is not functioning properly—the effect is reflected in your nervous system—and you are due for a wreck.

HAWKER'S Nerve and Stomach TONIC

cleans and regulates the digestive system, correcting all stomach disorders and aiding food assimilation, producing a soothing and strengthening effect on the nerves.—This means good health.

C. H. Dearborn, Merchant, St. John, writes:—"I have used Hawker's Nerve and Stomach Tonic for several months and have received much benefit from it. I find it especially beneficial as a nerve tonic."

A trial bottle will convince you. At all drug and general stores.
The Canadian Drug Co., Limited, ST. JOHN, N. B.

Thirty Lives Lost In Furious Storm In Southern Japan

Tokio, April 5—Great property damage was done and thirty lives were lost in a terrific storm which swept the southern coast of Japan on Sunday night. Telephone and telegraph lines are prostrated throughout the southern part of the empire.

Tokio is still in darkness and a number of houses were destroyed here. The storm was especially severe in the harbor of Yokohama. The Japanese steamers Alabama Maru and Atlas Maru dragged their anchors and went ashore. The former vessel was about to sail for Seattle and had her passengers aboard.

Belated despatches received from the provinces report inundations in many prefectures, and is said many houses were demolished by the wind. A naval cutter capsized near the port of Nagoya, and an officer and eight blue jackets were drowned. Eight workmen were buried when a tunnel collapsed near Fuhushima.

The Ibi, Hida and Tenryu rivers, in the province of Gifu, overflowed their banks and three thousand houses were flooded.

The famous bridge across the Tenryu river was destroyed.

Robert Nolan, charged with theft of \$520.10 from Messrs. Fraser Company, Limited, was tried before Judge McLatchy under the Speedy trials, in the County Court here on Tuesday. Accused pleaded guilty and offered to make restitution of the amount taken, but His Honor sentenced him to two years in Dorchester with hard labor.

Ottawa Won Stanley Cup At Vancouver

Vancouver, B. C., April 4—Ottawa champions of the National Hockey League, tonight retained the Stanley Cup, emblematic of the world's professional hockey championship by defeating Vancouver, champions of the Pacific Coast Hockey League by a score of two to one, the final for the series of five games being: Ottawa 3; Vancouver 2.

The game was played under seven men hockey, Western rules governing the contest. About ten thousand people saw the Easterners retain their supremacy as world's champions.

why wait—

—if you are Nervous, have Headaches and Attacks of Indigestion, why wait and hope to get better and still suffer, when you can get sure relief by taking

Dr. Wilson's HERBINE BITTERS

A tonic made from the curative principles of Dandelion, Mandrake, Burdock and other purifying herbs. Perfectly harmless, but very invigorating. It purifies the blood—clears the complexion and removes all those nasty pimples and blotches.

Try a bottle—At most stores. 50c. small size. Family size, four times as large. \$1.00

Lime As A Soil Builder

Fertile soils contain sufficiency of the three most essential elements for growing plants, nitrogen, phosphorus and potash. Should any of these be lacking, plants cannot grow satisfactorily. The two latter elements are found in the mineral soil particles and also in the vegetable matter that is the soil. The former-nitrogen is found in the vegetable matter only. Thus it will be seen that a soil deficient in vegetable matter is lacking in nitrogen.

Nitrogen we find when buying commercial fertilizers is that most expensive plant food element costing at least 25 cents per pound. If the fertilizer contains 4 per cent of nitrogen the cost for this element in one ton would be \$20.00.

The legumes when fully established have the power to obtain nitrogen from the air through a soil organism which forms nodules on the roots of plants belonging to this order. The principal leguminous plants are the common red clover, alsike clover, alfalfa sweet clover, vetch and peas and of these the common red clover is probably of greatest importance.

There are approximately 70 pounds of nitrogen in 1 1/4 tons of clover hay and the production of this amount of top growth leaves a root system containing at least 1200 pounds of vegetable matter, furnishing say, 30 pounds of nitrogen, in the soil. Of his 105 pounds of nitrogen in the entire plant it has been estimated that about 70 pounds comes from the air and 35 pounds from the soil provided that conditions favourable to the activities of the bacteria exist. It will be seen therefore that the 70 pounds of nitrogen at the lowest market value is worth \$17.50 or nearly as much as that 1 1/4 tons of clover extracts from the air nitrogen equal to that contained in one ton of our best fertilizers. True, some of this may be lost by careless handling of the manure from stock, but for the most part it should ultimately go back to the soil, if the hay crop is not sold.

It has been found that the soil organism which furnishes the clover with nitrogen from the air does not thrive in an acid soil or on one lacking in lime, consequently if we wish to build up a soil through the clover plant it is necessary, where soil acidity is found, to correct this condition by an application of lime in some form.

Ground limestone is the most popular and effective form of lime. If applied at the rate of 2 tons per acre when seeding to grain, at which time the clover is usually sown, best results will be obtained. Subsequent applications of one ton every three years usually suffices to maintain freedom from acidity.

Among the many tests conducted at the Experimental Station, Kentville, N. S., the one carried on in half acre plots is of particular interest. There was little apparent difference in the crop of grain on the plots and the average of four half acre plots which were limed when seeding down at the rate of 2 tons per acre was 42 bushels and 15 pounds of oats, and on the two, half acre plots not limed, 39 bushels and 31 pounds per acre. After the oats were out there was a noticeable difference in the clover growth in favour of the limed areas and the yield of hay the following year averaged 4560 pounds per acre from the four limed plots, and 2480 pounds per acre from the two plots not limed, a difference in favour of liming amounting to 2080 pounds of clover hay per acre. When this land was plowed there was a decidedly marked difference in the amount of root development in favour of the limed areas thus greatly increased store of vegetable matter and nitrogen carrying materials.

Lime, therefore, is most valuable as a soil builder because it produces a suitable environment for the clover plant through which farm soils can be built up most economically.

THE TEN HOUR DAY

The Editor Union Advocate, Newcastle, N. B.

Dear Sir:— With reference to the dispute between the Mill Owners and the Mill Men regarding the 10 Hour Day I would refer you to the report of the Dept. of Labour, Ottawa, on Wages and Hours of Labour, issued as a supplement to the Labour Gazette March 1921. This report shows that in the Provinces of Quebec, Ontario and B. C. in 1920 the hours per week in Saw Mills were 60, or in other words a 10 hour day was in effect. None of the other provinces are reported except N. B. which worked a 54 hour week, or a 9 hour day. However, the writer understands that in Nova Scotia some of the mills worked 9 and some 10 hours, but every mill will return to the 10 hr day this season.

Now it is a well known fact that the Lumbermen of this province who sell lumber in Ontario and Quebec, also to the American market, have to compete with the Mills of Que. and Ont., and it is useless to argue that they could do so with any chance of success should the mills here only work the 9 hour day, when mills in the other provinces are working 10 hours. This would be too severe a handicap to overcome, and the lumber business could not stand it. As it is there is a big difference in the freight haul as between here and Que. and Ont. Markets, which those mills have the advantage of. At present freight rates it costs nearly \$11.00 per M to freight lumber to Montreal, and needless to say this is a big handicap to overcome in competing with Que. and Ont. mills.

With reference to the British market it will be no doubt quite interesting to the Public to know that at the present time Deals are selling in England at a price which nets the Canadian Shipper about \$28 to \$30.00 per thousand alongside vessel here. With logs costing the mill owners over \$30.00 per M at the mills this year, when you add the cost of sawing of from \$5.00 to \$7.00 per M, you can see what a serious situation is confronting the lumbermen today. Every manufacturer of lumber on the Miramichi today knows quite well that if he operates his mill at all, that it will be at a loss, there is nothing else to look forward to; and it is to be hoped that the Mill men realizing the situation, knowing that they have not been unreasonable in the past, will be inclined to look favorably on the proposals suggested by the Mill Owners.

I remain, yours truly, MILL OWNER

BETTER LATE THAN NEVER

The Public meeting of rate payers held last Friday evening in the Town Hall, for the purpose of discussing Town Affairs, has been designated as "The Annual Spasm."

Spasm or no spasm, it is about time the citizens of Newcastle had awakened to the condition in which our town is in. If the meeting results in a spasm, the blame for such is not in any way traceable to those, who wished the meeting called. If a little more interest were taken in the Town Affairs, and if the assistance of those, who by their lethargy make public meetings,— spasms,— was given to those citizens who are anxious and desirous of holding public meetings, to assist the civic rulers to run the town along economic lines, we might then get somewhere, but just so long as people are knocked for trying to better conditions, then we will get nowhere and "Spasms" will continue to be.

The meeting proved a decided success. It was largely attended by re-

"Cold in the Head"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Make Sure Of A "Perfect" Meal

representative ratepayers and it was conducted in such a gentlemanly manner, that it might well be held up as a precedent for future Public gatherings. No one was criticized and none of the mud-slinging tactics, which are usually resorted to, were indulged in. A lot of valuable information was derived, a number of good suggestions were offered, and it is to be hoped that many more similar meetings will be held. This is the only way that enthusiasm in civic matters can be attained and no doubt, considerable good will come out of the meeting.

If our ratepayers would "get together," oftener, and "pull together," more, we would very soon have an altogether different community than we now have.

Nervous People Need A Tonic

Dr. Williams' Pink Pills Enrich the Blood, Thus Increasing Your Nervous Energy

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession, often have great trouble in finding relief. Irritation, headache, sleeplessness, nervous indigestion. All these discomforts make life miserable, but are endured rather than run a doctor's bill.

Such sufferers should know the danger of such a condition, which if allowed to persist, may result in a nervous breakdown. In this condition what is needed is rich, red blood. As a tonic for the blood and nerves, Dr. Williams' Pink Pills have been used with much success. They have a direct action on the blood, and through it carry to the nerves the elements needed to restore their normal function, at the same time improving the general health. The benefits that follow the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Norman Seifried, West Montrose, Ont., who says, "It would be hard for me to overstate the benefit I have derived from the use of Dr. Williams' Pink Pills. Before I began taking the pills I was very nervous, weak and run down. I could hardly do my housework, and there is a great deal of work to do about a home a farm, I felt very much discouraged. One day while reading a newspaper I saw an advertisement of Dr. Williams' Pink Pills and decided to give them a trial. I could notice beneficial effects after taking a box of the pills, and by the time I had taken a few boxes, I could again do my work with ease, was no longer weak or nervous, slept well at night, and awoke in the morning feeling well and strong. I am happy to say that the pills so greatly benefited me."

Dr. Williams' Pink Pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Brown Rot of Orchard Fruits

Brown rot is one of the most serious fungous diseases of the orchard. It is most destructive on plums and cherries. Peaches in Canada are usually not seriously affected. Brown rot may also occur on apples, pears and quinces. In addition to the damage done by brown rot in the orchard it is the most important rot of the fruits above mentioned while they are in transit or on the market. Losses in the orchard results from the

following: in cherries from blighting of the blossoms, and rotting of the green, half ripe or ripe fruit; in plums from blossoms blight, rotting of the ripening fruits and occasionally blighting of the twigs; in peaches and apricots from blossom blight, twig blight, rotting of the ripening fruit and as an important primary cause of peach canker; in apples and pears occasionally causing a rot of the ripening fruit.

The fungus causing brown rot hibernates in many places in the orchard. It may live over in the blighted twigs and cankers or in the hanging and fallen mummified fruits. From all these sources there is an abundant production of spores in the spring. These are wind-brown rot are high humidity and temperature. Twenty-four hours more or less of these air conditions which are suitable for spore germination lead to wide-spread rotting of the fruit if it is in the susceptible stage. The grower can probably not eliminate enough of the over-wintering material to effect adequate protection by this method alone. However, it is advised that blighted twigs and hanging mummies be removed from the trees before the buds start and that the fallen mummies be plowed under or otherwise removed. All this material should be removed from the orchard or burned. In addition to such eradication measures spraying will furnish fair protection against brown rot. Spraying the fruit while it is ripening has been objectionable because it could not be marketed in a stained condition. Dusting with sulphur may furnish a means of making a late application which will protect the fruit in its most susceptible condition, while it is ripening and in transit. The public would then need to be educated to receive such fruit. Spraying for brown rot in cherries and plums should approximate the following schedule; Lime sulphur 1-40, first application just before the blossoms open to prevent blossoms blight, second application just after the shucks have fallen and before the fruit enlarges to more than half size, third application just as the fruit begins to colour. The insecticide should be added to these spray applications. For brown rot in peaches lime sulphur must not be used because it will burn the leaves. Self-boiled (not home-boiled) lime and sulphur of the formula 8-8-50, that is eight pounds of stone lime, eight pounds of sulphur and after this has been thoroughly mixed while lime is slaking it is made up to fifty gallons by adding water. Make three applications, first just after the blossoms fall, second about three weeks later and third about one month before the fruit will be ripe. Lead arsenate, 2 pounds to 50 gallons, should be added to these spray applications to control curculio. Late applications of sulphur and arsenate of lead dust (90-10) should be experimented with on susceptible varieties.

Mr. D. S. Creaghan said that a number of children from outside points received their education in the Newcastle Schools, and asked the Chairman if it was not possible to have the parents pay for the education of the children.

Mr. E. A. McCurdy, who is a member of the Board of School Trustees said that this matter had been looked into some time ago by the town of Campbellton, and he was rather of the opinion that it was not a matter over which the School Board had any jurisdiction, while at the same time he personally did not think it would be wise to impose a levy on these people, when the accommodations in the schools were such that the education could be given without any further expense to the people.

Ald. W. L. Durick also stated that the Board of School Trustees had no jurisdiction in this matter as it was entirely in the hands of the Government.

On motion of Ex-Mayor C. E. Fish the meeting was adjourned.

Children Cry for Fletcher's **CASTORIA**

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

PERPLEXING SITUATION
A very perplexing situation has arisen for the city officials through an infant child being brought here about four months ago from Chatham by its mother, a resident of Blackville. The mother made an effort to give the infant to Indians but it was rescued by the Children's Aid Society, and found to be suffering from a malignant disease. A course of treatment was given and now it may become a ward of the city. To avoid this the city solicitor has been advised to take steps to send the child back to Chatham—Mail

OBITUARY

MRS. THOMAS GOULD
On March 29, Mrs. Thomas Gould of Nelson, died after a long illness of tuberculosis. She leaves seven children, the youngest only a little over a year old.

PERCY LINDON
The death of Percy Lindon the little eight year old son of Mrs. Ruby Lindon occurred at his home on Monday morning after a two weeks illness of pneumonia. The little fellow who was of a kind and loving disposition will be greatly missed by all who knew him. He leaves to mourn his sorrowing mother and little sister Nan.
The funeral will take place tomorrow afternoon interment in St. Mary's cemetery.

VINCENT JOSEPH MCCARTHY
The death of Vincent Joseph McCarthy occurred at the home of his mother, Mrs. Angelina McCarthy, Blackville, N. B. on Thursday evening, 7th inst. at 7:30 o'clock. Deceased was 21 years of age and was well and favorably known and had been ill for the past year, heart trouble being the cause of his death.
Besides his mother, he leaves to mourn four brothers, Ernest, Francis, Severa and Lorne, and three sisters, Mary, Jennie and Belle, all living at home. Deceased was stationed during the years of the war at the Wireless Station, Newcastle, N. B. The funeral which was one of the largest ever seen in Blackville was held on Saturday, 9th inst. at 9 o'clock. Interment was made in Blackville.

The pall-bearers were—Frank Quinn, Earle Donahue, James D. O'Brien, Fenton McLaughlin and Crumbley Burns, Ralph Quinn.

MRS. LAMBERT W. FLETT
The death of Mrs. Lambert W. Flett, of Millerton, N. B. occurred at the Miramichi Hospital Tuesday, 12th inst. at 10 o'clock a. m.

Deceased was taken to the Miramichi Hospital on Wednesday, 6th inst. and operated on, on Thursday 7th inst. and succumbed early Tuesday morning. The late Mrs. Flett was 60 years of age and her remains were taken to her home in Millerton today (Tuesday). She leaves to mourn her husband and the following children.—Ethel and Warren at home; Thelma, Ethelbridge, Alberta; Helena and Lillian Edmonton, A. L. McGuerite (Mrs. W. G. Challis) Dod's Land, Sask.; Leslie, Amherst, N. S.; Thomas, Springfield, N. S.; Dana, Boston, Mass.; Max, nurse in training at Massachusetts General Hospital, Boston, Mass.

Mrs. Bert Brown of Nelson, N. B. is a sister of deceased.
The funeral will be held from her late residence at Millerton to the Church of England heaving ground in Kirkwood on Thursday afternoon at 2:30 o'clock.

Thankful Mothers

Once a mother has used Baby's Own Tablets for her little ones she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N. S., who writes:—"I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every mother to keep a box of the Tablets in the house." The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach; drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

FIRE THIS MORNING
The store and stock of Mr. Abraham Assouy of Bay St. Anne was totally destroyed by fire this morning at 6 o'clock. The stock was valued at \$7000.00, and only a small amount of insurance was carried.

BASKET BALL GAME
The C. G. I. T. of Newcastle left on the local last Friday afternoon for Campbellton, where in the evening they played a return game with the Campbellton Basket Ball Team. The game, which was fast and exciting throughout was won by the C. G. I. T. of Newcastle by a score of 18 to 25. The visiting team enjoyed their trip and returned home on Saturday's Ocean Limited.

Where's the Zam-Buk?

Is there a box of this famous herbal healer on the shelf ready for emergencies? It always pays to have Zam-Buk handy as it heads off skin trouble. Smears at once over any cut, bruise, burn or sore, it soothes and heals like nothing else can. It is Canada's swiftest, cleanest and most perfect antiseptic skin healer.
HERE'S A SCALD—Mrs. A. B. Lloyd of Ruby Creek, B. C., writes—"I have found Zam-Buk fine in injuries, particularly for a bad scald I got recently. The prompt use of Zam-Buk took the pain and 'fired' out of the wound. It left me fit to use my hand."
A CUT THUMB—Mrs. J. M. Small, Bonny River Station, N. B., writes—"My husband, who is a circus man, badly cut his thumb on the iron corner of a box-car door. Though the wound was severe, dressings of Zam-Buk healed it in about a week's time."
OR A SPRAIN—Mr. Clarence D. Black, Legal Dept., Transcontinental Railway, Ottawa, writes—"I have often used Zam-Buk and always with satisfactory results. The last occasion was when I fell from a street car and badly sprained my ankle. Zam-Buk speedily took out pain and inflammation and put me right in no time."
If you have not already tried this wonderful healer, send a 1c stamp (for return postage of sample) to Zam-Buk Co., Toronto. 50c. box all dealers.

Blackville, N. B.

Grandma is Their Doctor

"ON an old-fashioned bureau, in a house I know, lies a large-sized New Testament with the binding well worn, and with it a much-used old copy of Dr. Chase's Receipt Book. When the calves have the colic or the neighbor's baby the ear-ache, 'Grandma' hands out well-assimilated advice from the Dr. Chase Book. When 'Grandma' herself feels 'run-down,' Dr. Chase's Nerve Food stands ready on the dining-room table among the salt and pepper shakers."

In these few simple words Mrs. Bert Smith, Way's Mills, Que., beautifully describes the way in which many a grandmother is a blessing to her family and to

her neighbors as a guardian of health.

And what finer compliment can be paid to Dr. Chase's Receipt Book and Dr. Chase's Medicines than the approval of such mothers of experience as the one here described.

Just as in this home, Dr. Chase's Almanac hangs on the wall in the great majority of Canadian homes, and in the cupboard or medicine chest will be found one or more of Dr. Chase's Medicines ready for use in case of emergency.

If you did not receive a copy of Dr. Chase's Almanac it will be sent free by Ed-manson, Bates & Co., Ltd., Toronto.

Liquor Has Few Friends Left

Fredericton, April 11—Prohibitionists expressed the opinion today that the "home day" referendum resolution, which is to be introduced in the legislature, Tuesday, will pass without a vote being called.

Hon. Dr. Roberts will move the resolution, seconded by Mr. Tracey, one of the United Farmers members for Carleton. It will therefore not be a government measure.

The resolution is the same as that introduced last year by Hon. J. F. Tweeddale, then Minister of Agriculture, and calls upon the federation to hold a plebiscite under the provisions of the Canada Temperance Act upon the question of whether importations of liquor for personal use shall be continued or stopped.

Last year the resolution was defeated by a vote 22 to 18, but there is a new house now and the prohibitionists are most hopeful. In fact an officer of the N. B. Temperance Alliance said this morning that the House would adopt the resolution without a division, but he said that if a vote was called a majority as high as 17 was expected.

That would mean that more than a two-thirds vote in favor of the resolution as there are but forty-six sitting members as a result of Restigouche County being without representation. Of the 40 members who voted on last year's resolution twenty two are in the present house and the records show they voted eleven in favor and eleven against the resolution.

It was said today that if the resolution passed the Temperance Alliance expect the plebiscite will probably be held in the month of June, the act calling for the federal government to take cognizance of the passage of the resolution within three months. If the vote at the referendum should then be against the continuance of personal use, importations then would be prohibited, probably about three months after the holding of the plebiscite or early in autumn.

Was Adopted Without Division

FREDERICTON, April 5—In the Legislature to-day Hon. Mr. Roberts introduced a bill for the purpose of winding up the Association of United Baptist Church of New Brunswick; also a bill relating to the general public hospital, St. John; Hon. Mr. Byrne a bill to amend the Schools Act; Hon. Mr. Foster a bill to amend the act relating to the provincial hospital, providing for an increase in the amount to be paid by municipalities for the support of patients from \$1 per week to \$2.50; Hon. Mr. Veniot a bill to amend the Highway Act of 1918.

Hon. Mr. Roberts, seconded by Mr. Tracey, moved the following resolution:

"Resolved, That under the provisions of part IV., of the Canada Temperance Act as enacted by chapter 8 of the statutes passed at the second session of the parliament of Canada held in 1919, this legislative assembly doth request that the votes of electors in all the electoral district of the province may be taken for or against the following prohibition, that is to say:

"That the importation and bringing of intoxicating liquor into this province for beverage purposes may be forbidden."

The resolution was adopted by the house without division.

The House then went into supply, and passed many items of the agricultural department.

Members of the opposition and farmers' party objected to an item of \$2,597.12 in the public accounts, being the amount paid the R. D. Robertson Publishing Company for subscriptions to the Maritime Farmers for members of the agricultural societies.

Hon. Mr. Messereau stated that the provincial exhibitions at Fredericton and Chatham will receive \$5,000 each, the balance of \$13,083 going to smaller fairs.

Mr. Fawcett brought up the matter of school rates claiming that there were remote parts of the province where schools were a serious problem. He approved of a new rate for raising money, saying there were parts where it ran to \$3 and \$4, while in Moncton and Sackville it was under one dollar.

Hon. Mr. Foster said there was an appropriation of \$5,000 to aid the consolidated schools.

Mr. Plinder said some provision should be made for assisting the poor school districts, and he thought it might be done by cutting off extravagant expenditures.

Mr. Scully said that some of the difficulty might be due to the fact that valuations were only taken once in ten years. In St. John nine men at an expense of \$75 per day were employed to take the last valuation, and when the work was completed the assessors did not accept it, preferring to go along in the same old rut. He thought it might be wise to have the government appoint a board of valuers for the whole province.

Hon. Mr. Robinson on the item \$50,000 for the Forest Service, made a statement in regard to the operations of his department dealing with the work of forest survey, the ravages of the spruce bud worm and game protection. He said that the total lumber cut last year the total was estimated at 200,000,000 feet, including pulp wood and railway ties.

Life Imprisonment For George Drew

In the St. John Circuit Court, Wednesday morning, with Mr. Justice Crockett presiding, sentences were pronounced upon George Drew and William Nairn.

Drew, who was found guilty by a jury of criminal assault upon a little girl, last December, was sentenced to life imprisonment.

When asked by the Court if he had anything to say before the sentence was pronounced, he replied that he was innocent, and that he was not given a fair trial.

The prisoner was unmoved while the sentence was being pronounced.

Mr. Justice Crockett, in imposing the sentence, reminded the prisoner that the crime of which he had been found guilty was hideous and revolting. It was his opinion that the accused was the guilty one, and that the severest sentence should be given him. The law calls for in a case of this kind the penalty of death or life imprisonment, and after carefully considering the evidence submitted at the trial, and the finding of the jury, he decided that the sentence should be life imprisonment.

William Nairn was sentenced to two years in the penitentiary and one whipping, the least being eight strokes, and in the second charge was sentenced to two years, the terms to take effect one after the other.

G. T. Defaulted On Their Interest Payments

Ottawa, April 5—Right Hon. Arthur Meighen, Prime Minister, stated in the House of Commons today that while the Government had no official intimation that the Grand Trunk Railway had defaulted interest payments on April first that this probably was the case. Mr. Meighen said

that owing to the dilatory methods employed in preparing and conducting the arbitration proceedings, the Government felt that a further extension of time, involving further Government financing of the road with the Grand Trunk in control should not be granted, unless control of the road was handed over to the Government within the time contemplated in the original agreement. Arrangements provided that the arbitration proceedings were to be completed and the award made within nine months from the commencement of the proceedings.

PILE Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required. PURITY FLOUR

"More Bread and Better Bread"

Lower Your Coal Bills

With **'HECLA'** PIPELESS FURNACE

It will cost you less for coal to heat your whole house with this furnace than it will to try and heat it with stoves. It will cost you less for coal with a "Hecla" Pipeless than with any other heating system!

The "Hecla" Firepot has three times the heat radiating surface of any other furnace because it is ribbed with flanges of steel. For that reason it gives quicker heat—and more heat.

Owners say that this exclusive "Hecla" feature applied to pipeless heating means wonderful fuel economy.

At today's price of coal you do not need to save many tons to pay for a "Hecla" Pipeless.

Patented Fused Joints are another superiority of the "Hecla" Pipeless. They are proof against leaks of gas and dust.

And in the "Hecla" Pipeless you get an extra big water-pan—that runs all around the furnace. Thus, every room in the house is supplied with air that contains a healthful degree of moisture.

It takes but a day to install a "Hecla" Pipeless. Our booklet "Buying Winter Comfort" describes all the other advantages fully—tells why it keeps the cellar cool for vegetables, why it heats every room properly, why we guarantee it absolutely. Write for it now. There's lots of zero weather ahead. Why not enjoy the comfort a "Hecla" Pipeless gives, and begin saving your coal bills now—this winter.

Political Letter From Ottawa

Ottawa, April 5th, 1921—Decisively defeated in its attempt to get a snap verdict over the Government after the Easter recess, the official opposition has reverted to its old tactics of guerilla warfare on a small scale. Thus while little or no attempt is being made by Mr. King to challenge the Government on broad national issues, the House is being daily inflicted with carping, haphazard criticism the only result of which is to give rise to hectic, purposeless debate and to impede the progress of business. Meanwhile, and herein lies the real weakness of the Opposition's case, no attempt has been made to call the committee on Public Accounts. The Committee on Public Accounts comprises a select list of parliamentarians from all parties who hold what is practically an audit of the public accounts. Its duty is to pass upon the reports of the Auditor General, in which is given specific, detailed accounts of all Government expenditures for the year, to check them, to examine them, and, if deemed necessary, to challenge their accuracy. It is the one great check which Parliament has over the Government's administration. In the old days, this Committee was almost constantly in session, and too often transactions were unearthed which, serving as a deterrent upon future Governments, revealed recklessness and waste in public expenditure. Today, there is a change. While the anti-Government press and members of the two Oppositions delight to make insinuations and irresponsible statements reflecting upon the Government's integrity and efficiency they do not dare to put their charges to the test of an inquiry by the Public Accounts. During the whole of the war, when hundreds of millions of dollars were being expended, and opportunities for graft abounded, the Opposition, which dealt in innumerable innuendoes about the Government's dishonesty, never as much as once called for an audit by this Committee. And even today, when expenditure is still on a colossal scale, when the country is embarked upon all kinds of new enterprises, so confident is the Opposition that an inquiry would reveal neither dishonesty nor waste that they have not even asked that the public Accounts Committee be called. It is much easier and safer, to be critical without the facts.

The Railway Situation
The railway situation still dominates the political state. There has been no new developments, outside of a great deal of friction with the Grand Trunk, but it is believed that important events are impending. The Grand Trunk directors in London have made a lot of the fact that they were compelled to default on bonds which the Government guaranteed, the London press, under the inspiration of Sir Alfred Smithers, have teemed with the matter, but there is reason for stating that when all the facts are disclosed, as they may be before this is in print, whatever discredit there is will rest not with the Government but with the Grand Trunk. Meanwhile cabled despatches from London hinting that the Government may abandon its project of taking over the road altogether may be dismissed as idle. The Government realizes that acquisition of the Grand Trunk is an essential step in the rounding out of the National Railways system and has not the slightest intention of turning back on its well-known and clearly-defined railway course.

The Financial Situation
The financial situation, unfortunately, shows little sign of improvement. International trade is still dislocated, exports are still on the decline, customs revenue is falling off and exchange, the most vital of all economic problems with which the country is faced shows no tendency toward improvement. Under the circumstances, Sir Henry Drayton's budget speech is being eagerly awaited. What new proposals it may contain in the way of taxation, nobody but the cabinet knows, but one thing at least is certain; that with exchange at its present rate, with the Canadian dollar worth not more than 85 cents in New York, tariff reductions, which would almost certainly have the effect of further decreasing its value, need not be expected. Cabinet reorganization is not dead, but sleeping. It is understood that nothing will be done until the Prime Minister returns from the London Conference of Premiers, which will be early in July. Meanwhile the sessional program will be carried out without a hitch the Ministry having established itself securely in the confidence and support of the House.

Canada May Have New 5 Cent Piece

If a resolution, notice of which was made in the house by Sir Henry Drayton, minister of finance, is passed, Canada will shortly have a new five-cent piece composed of pure nickel metal. It is proposed to have the coin weigh 70 grains and to make it the same size or very nearly the same size, as the new Canadian one-cent piece.
The American five-cent piece, which is popularly called a "nickle" and is generally thought to be composed of the nickel metal, is in reality only 25 per cent nickel and 75 per cent base metal.
As all Canadian metal money-pieces must have the same face the new piece will bear the familiar features of majesty and the words "Georgius V Dei Gra Rex Et Ind. Imp." There may be some slight variation in the under side of the coin.
If legislation is passed authorizing the minting of these new coins 7,000,000 would have to be run off in the first year. This is about the average number of five cent pieces issued yearly.
During the high price period of silver it was found that the face value of the Canadian five and 25 cent pieces was less than the intrinsic metal value. Consequently many coins were taken out of circulation by people and melted down. Such legislation as is now asked for is intended to forestall any such repetition in the future.

MAPLE GLEN

Maple Glen, Mar. 23—The dance held at Daniel Jardine's on Thursday night proved a success. The music was furnished by Edward Jardine and Jesse Street, and was very much appreciated.
Mrs. Janie Sobey and Mr. William Hayes are spending their Easter holidays in St. John, the guest of Miss Maude Steinhausen.
A number of our young people had a surprise party at the home of Mrs. Edward Curtis of "Curtis Settlement" a very enjoyable evening was spent.
Miss Sarah Sobey spent Sunday in St. John.
Mrs. Arnold Adams and Mrs. Herman McKay of Strathadam spent Monday with the formers parents Mr. and Mrs. Joseph Sobey.
Miss Nellie Sobey and Edward Jardine spent Friday in town the guests of Mr. and Mrs. Champion.
Jesse Street has returned from a visit to Trout Brook, and is being welcomed by his many friends.

PRICE OF MILK REDUCED
The price of milk in Newcastle has been reduced from 18 cents per quart to 16 cents, delivered at the houses.

IRISH RELIEF FUND
Returns show that, since the Irish Relief Fund was inaugurated a few weeks ago, more than \$5000 has been collected in New Brunswick. Newcastle contributed \$504.00.

HON. SIDNEY FISHER DEAD
Hon. Sidney Fisher, who has been ill for some time died early Saturday morning at Sherbrooke, Quebec. The late Mr. Fisher was minister of agriculture in the Laurier administration.

BAND AT RINK
Skating with Band in attendance was indulged in last Thursday night at the Rink. Considering the lateness of the season, the ice was in fairly good condition.

ALARM OF FIRE
An alarm of fire, for a small blaze in the Singer Sewing Machine Office was sent in last Tuesday morning at 5.50 o'clock. A few buckets of water soon extinguished the blaze.

SIR THOMAS WHITE RESIGNS
Ottawa, April 6—Speaker Rhodes informed the House Wednesday afternoon that he had received the resignation of Sir Thomas White (Leeds), as a member of the House of Commons.

REHEARSING
The G. W. V. A. and the Newcastle Band are faithfully rehearsing the entertainment which they purpose presenting to the public in the near future. The rehearsals are well attended and the different numbers are being rapidly put into shape.

CATTLE AT LARGE
A number of cattle at large on the town streets are a source of annoyance and expense to property owners. Why the owners allow them to roam at this time of year is unknown. If the pound-keepers would impound them, the nuisance probably would stop.

A USEFUL COMBINATION
An attractive and useful advertising medium has been placed on the outside of Mess. C. M. Dickson & Sons Drug Store. It comprises a number of advertisements of some of our local merchants with a time piece at the top and a thermometer and barometer in the centre.

DREW AND NEARN
AWAY TO PRISON
George Drew, who was sentenced to life imprisonment and William Nearn, sentenced to four years with eight lashes were taken to the maritime penitentiary at Dorchester, Thursday by Deputy Sheriff Armstrong Clifford and Policeman Garnett.

MOVING BAKERY
Mr. Ira B. Burley is moving his bakery to a larger and better premises, and is installing a new oven and machinery of the latest design. Mr. Burley started the baking business in Newcastle about six months ago and has increased his business with leaps and bounds, which speaks well for the large consumption of his Quality Goods.

FIRE AT BLACKVILLE
Fire Monday afternoon at Blackville, completely destroyed the building owned and occupied by Thomas Dunn as a general store, together with its contents and \$700 in cash belonging to the Canadian Express Company. The building was erected last fall by Mr. Dunn who was for many years the station agent at Blackville, and he carried on a grocery and ice cream business. The loss is estimated at \$2,000 with no insurance.

FISH DINNERS POPULAR
Served at Reasonable Prices on "National" Trains.
According to officials of Canadian National Railways the delicious fresh fish for which the Maritime Provinces are noted, is becoming a very popular item of diet with the public while travelling through the Provinces by the sea. So popular, that on January 24th it was decided to serve "Special Fish Dinners" on the Maritime Province Dining Cars.
These dinners are served at 75 cts. per order and include a liberal portion of fish with boiled potatoes and bread and butter. From January 24th, the day of their inauguration on the menu, until February 15th, 1492 fish dinners were served and officials of the railway state, that they are in as great demand as ever.

APPOINTMENT
Andrew L. L. Flett, of South Nelson to be a Justice of the Peace.

DELIGHTFUL TEA
The C. G. I. T. held an afternoon Tea in St. James' Hall from 4 to 6.30 p. m. on Thursday. The affair was a most successful one and the members proved to be delightful entertainers.

TOTAL OUTPUT
The total output in the New Brunswick egg-laying contest, for the week among all pens was \$29 eggs. The total output since the contest began on November 1st, 1920 was 10,865 eggs.

AN ECLIPSE OF THE SUN
An annular eclipse of the sun occurred at 2.52 o'clock Friday morning. The pathway of the eclipse was over the North Atlantic ocean, north of Europe and Asia. Telescopes were not in demand in these parts.

APPOINTMENT
Northumberland County—Robert Murray, Esq., Chatham, to be Justice of Probate, Pro Hac Vice, in the matter of the estate of Jane Hutchinson late of Douglstown, widow; Andrew L. L. Flett, South Nelson, to be a Justice of the Peace.

TOO MUCH IDLE GOSSIP
The North Shore Leader is quite correct in its last issue, when it states that people making incorrect statements should be censured. It seems that people today are so much interested in other people's affairs, instead of taking care of themselves, that facts are enlarged to such a degree, it is almost impossible to secure reliable information to place before the public.

LETTER INCORRECT
We have been given to understand, by the officers of the Police Force that the allegations made by "Citizen" in his letter, contained in our issue of March 29th, are incorrect. The officer that arrested "Citizen" for drunkenness states that "Citizen" pleaded guilty to the offense before the Police Magistrate the morning after his arrest and paid his fine for such offense. The Police Force would advise "Citizen", that if he wishes to keep up his reputation as stated in his letter, he will endeavor to refrain from causing them to arrest him again.

TWELVE HORSES BURNED
On Saturday morning about 4.30 o'clock, the large horse barn of the Edward Sinclair Lumber Company Ltd. was destroyed by fire. The barn contained a number of horses, twelve of which were burned to death. Everything possible to get the horses out was done but there being about thirty horses all told it was impossible to save them all. A large quantity of hay and oats was also destroyed. The origin of the fire is thought to have been a defective wire. The loss is partly covered by insurance.

LUMBERMEN SAVE MANY DRIFT LOGS
During the past week the log situation has brightened up considerably. Many of the drift logs have been salvaged and are now secured in the booms and coves on both banks of the river. It is thought the greater portion of the drift logs will be saved. Several gasoline boats have been on the job through out the week and in this way a large number of logs were picked up. The tides assisted materially in the salvage of the logs, and while a large quantity will be saved the cost of picking them up will be high.

DELEGATION TO FREDERICTON
A delegation composed of Messrs. F. E. Locke, M. Sutherland, Alfred Sinclair, E. A. McCurdy, and Donald Fraser, met the Premier, Hon. W. E. Foster, Attorney General Byrne, and Minister of Public Works J. P. Veniot in Fredericton last Wednesday, in connection with an increased subsidy for the Str. "Max Aitken," which plys between Newcastle and Redbank. The delegation was assisted by Messrs. Vanderbeck, Martin and Fowle the local representatives and after presenting their case in a strong and forcible manner, the delegation was promised that their representations would receive the government's serious consideration. It is altogether likely that unless an increased subsidy is granted that this section of the river will be without any transportation facilities this year, as last year a large deficit was made by the Company operating the Str. "Max Aitken."

HARKIN'S ACADEMY OPERA
The Japanese Opera, "Princess Chrysanthemum," will be presented by the 1921 graduating class of Harkins' Academy in June. Professor Newton is in charge of the opera, and the rehearsals will begin on Wednesday evening of this week.

WILL OCCUPY PULPITS
Rev. W. D. Wilson, General Organizer for the N. B. Temperance Alliance will occupy the pulpit in the Baptist Church during next Sabbath's morning service, and will occupy the pulpit in St. James' Presbyterian Church at the evening service.

PLEADED GUILTY
James D. Dickson, of Chatham, formerly Prohibition district chief inspector for the North Shore Counties, pleaded guilty last week before Magistrate James F. Connors on the charge of selling liquor and was fined \$100 and costs. The information in the case was laid by Sub-Inspectors Stewart and Quartermain—(Gleaner)

ACKNOWLEDGEMENT
We acknowledge receipt of a beautiful calendar, design "Delawana" from the well known manufacturer of the household remedy MINARD'S LINIMENT. This celebrated medicine for all family ills has an immense sale in all parts of the Dominion and Newfoundland, and its merits are such that every family should have a bottle handy in case of sudden sickness.

RECEIVED SILVER CROSS
Mrs. Hiram H. Braynton of Cassilis has received the Silver Cross and Illuminated Scroll sent by the Militia Department, Ottawa to Mothers of Soldiers who made the Supreme Sacrifice in the Great War.

The Scroll reads as follows No. 445748, Pte. James D. Braynton served in the Canadian Gun Corps in the 6th Company from July 18th 1916 to May 4th 1917 with honour and distinction.

He died in Service of his Country. He sleeps in France with the Empire's best and noblest sons. These in the glorious morning of their days For Empire's sake lost all but Empire's praise.
Before going Overseas Pte. Braynton was on duty several months at the Wireless Station here.

Sir George Foster Scores Liberals

The Debates of the House of Commons which as a rule are on a dull, drab level, are occasionally relieved by clever little passages of words. One of these occurrences took place on Thursday last when Sir George E. Foster was endeavoring to pilot through the estimates of the Trade and Commerce Department. On an item of \$3,000 for cost of administration of The Petroleum Bounty Act that doughty Liberal and Free Trader, Mr. Andrew R. MacMaster of Montreal launched into a trade against the bounty. To use the most modest terms, he said, "the measure is most unwise." Sir George, once the possessor of the most bitter tongue in Parliament and now a mellow philosopher with an unsuspected fund of humour, had a card up his sleeve and, to enable him to play it properly, he mildly suggested to Mr. MacMaster that he might make his condemnation a little stronger. The guileless, Canadian from Montreal swallowed the bait without seeing the hook, and declared that the bounty was "rank, raging lunacy." Then, Sir George played his card. With a smile lurking in his historic, attenuated whiskers he said:
"In the interests of my hon. friend himself will he allow me to intervene for a moment? I have noted the hard language which he has applied to this policy of bonusing. Does my hon. friend know that that policy was inaugurated in 1904, that it was re-inaugurated in 1907 and 1908, that it is there on the statute books by virtue of the concentrated wisdom of the Liberal Government to which my hon. friend paid allegiance, and which he considers to be one of the finest Governments that ever existed in Canada? It is ungrateful of my hon. friend after all the prominence that his party has given to it to stand up behind his aged and revered leader (Mr. Fielding) and tax him with introducing a policy of rank and undiluted lunacy."
Mr. MacMaster was fairly caught and the House immensely enjoyed his discomfiture.

House Cleaning Time Again

And as usual, well stocked with everything necessary for doing the work easily and satisfactorily
