**Fire**, supposedly of incendiary origin, completely destroyed the fine barn and buildings of Mr. Malcolm McPhail, of concession line, Brooke, on Monday night of last week. The origin of the fire is unknown, as none of the family had been near the barn since noon of the same day, and the fire was first noticed about 5.30 in the evening when the roof became ignited. It is presumed that it started in the peak of the barn as that was the portion to first burn. When the fire broke out the family were sitting in the house, and by the time that they were aware of it, it was too late to save anything from the barn except a hay-loader. One calf was burned in the barn. All the machinery was in the machinery sheds, and this was all destroyed, together with all their threshed grain and hay. The loss will be a heavy one, as nothing was insured except a little on the barn.

## THE MORRISON GIRLS

"Stories and Songs of Today and Yesterday," by the Morrison Girls in the Lyceum, Tuesday next, will be an entertainment long to be remembered and cherished in the minds of all who hear them. **Then** suddenly out of the "Long Ago" step four charming girls bewitchingly attractive in hoop skirts, hand mitts and "bunnits." In minute they sweep aside the work-day worries, cares and troubles by carrying you back with them thru story and song to the olden golden days.

## THE VISIT OF THE PRINCE OF WALES

**The** Prince of Wales will end his Canadian tour in a few days much to the regret of all Canadians. He has certainly endeared himself to all who have had the good fortune to meet him. A splendid portrait of the Prince size 16x22 inches and bearing a copy of the Prince's autograph, has been issued by the Family Herald and Weekly Star, Montreal. Every subscriber for 1920 is to receive a copy of the portrait free. The Family Herald and Weekly Star has been vastly improved lately and is with-out doubt the greatest value for the money the world over. The subscription price is \$1.25 a year including the Prince's portrait. To old and young, rich and poor, the Family Herald and Weekly Star is a great favorite and the publishers are to be congratulated in supplying such a handsome portrait of the Prince. As might have been expected the Family Herald and Weekly Star's circulation is increasing by leaps and bounds. It is in the highest sense a great paper.

Guide-Advocate

WATFORD, OCTOBER 24, 1919

EAST LAMBTON TEACHERS' ASSOCIATION

The East Lambton Teachers' Institute was held in the schoolroom of the Methodist church, Petrolia, on Thursday and Friday, October 9 and 10. There was a record attendance of the teachers of the Inspectorate, thus showing their loyalty and devotion to the profession.

The following resident clergymen kindly took charge of the devotional exercises at the beginning of the sessions—Rev. Mr. Richardson, Rev. Joseph Yule, Rev. J. D. McKee and Rev. Canon Hill.

Two excellent addresses were given by Mr. T. E. Clark, B.A., B. Paed., of the London Normal School, one on "The Art of Questioning," and the other on "The Future of Grammar."

He said that two classes of people use the art of questioning, lawyers and teachers. The lawyer's object is to bring out evidence, while the teacher's object is the development of the pupil. To question well is to teach well, as well as to learn well. He would divide questions into testing, training and recapitulation questions. Begin the lesson with a few testing questions leading up to the lesson proper. Recapitulate at frequent intervals. Give pupils frequent opportunities of self-expression, oral and written. There should be one dominating question in each lesson, some question that requires a solution. Keep this clearly and constantly before the class.

Whether using testing or training questions, be direct, avoid interferences, and use as few words as possible. Distribute questions among class wisely. A good question is short, brief and pointed.

In dealing with his other subject "The Future of Grammar," Mr. Clark said that Grammar was in a state of transition. He compared the "grammar" of to-day with the books of the last century, thus showing what marvellous changes have taken place in dealing with the subject. Grammar and Composition are so closely related that in all probability a new book would be prepared shortly combining these two subjects and one suitable for use in all classes. Do not teach the right forms of words by using the wrong ones, as first impressions are most lasting. Teachers should be careful in using terms so as not to mislead pupils, for instance in speaking of nouns or names do not use the word object.

The president, Miss J. Ford, and Miss Gertie Lucas, the delegates to the O. E. A., last spring, gave very interesting papers on the work done at that meeting. The present Readers were severely criticized by many teachers, the lessons too difficult. Readers should contain lessons on lives of great men, also a brief biography of writers at the end. Consolidation of rural schools was strongly emphasized, as was also the teaching of agriculture.

On Thursday evening the out-of-town teachers were entertained at a social function in the parish room of the Anglican Church by the Women's Guild. A very pleasant time was spent by all present. Vocal solos were rendered by the Misses McDougall and Hoham and Mr. H. McDougall, also brief addresses were given by Revs. J. D. McKee and J. Yule, and by Mr. N. McDougall. After the program, refreshments were served.

On Friday morning the first business was the report of the nominating committee, with the result the following are officers for the ensuing year:—Hon. Pres.—Mr. N. McDougall B. A. Hon. Vice-Pres.—Mr. Bruce Leckie B. A. Mr. A. B. Steer B. A.

President—Miss M. Reid. Vice-President—Mr. W. J. Kelly. Sec.-Treas.—Mr. W. H. Shrapnell.

Executive Committee—The officers and Mr. W. Kelly, Mr. R. Henderson, Miss S. Main, Miss A. Ross and Miss J. Ford. Physical Training Committee—Mr. N. McDougall, Miss Gorman, Miss F. Edwards, Miss Jessie Truan, Miss A. McDonald.

Auditors—Miss J. Leach, Miss M. Waugh. Delegates to the O. E. A.—Miss McGuire, Miss N. Harper.

A discussion followed on the advisability of having uniform promotion papers from Junior III to Senior III and from Junior IV to Senior IV in urban schools. The Association instructed the inspector to prepare suitable question papers and that Mr. W. J. Kelly, Miss N. Harper and the Secretary compose a committee with the inspector to set a proper course for such examination.

Mr. N. McDougall was then called upon. He was pleased to see such a splendid attendance. He advised the teachers to inculcate thrift in their pupils. This could be done incidentally. He was glad to learn that so many rural teachers were teaching agriculture, about 35 out of the 88 rural teachers. In order to secure the grant, teachers must make satisfactory report to the Department on blank forms issued, also pupils in the third and fourth classes must keep daily record of work done.

Teachers should exercise oversight in regard to school premises, heating, lighting, ventilation, etc., the equipment should be carefully looked after. Maps should be used daily in teaching geography. Teachers should be cheerful, tactful, conscientious, firm, leaders in the community as well as in the school. Aim towards general proficiency. Keep pupils busy. Carefully oversee all work done. Teachers should give more attention to spelling and composition in the first book classes. Department should receive careful attention.

Messrs. W. Kelly and R. Henderson dealt with the Entrance geography paper of 1919. Judging by answers given by candidates, many teachers were neglecting this subject. The subject demands more attention. They emphasized the use of maps in every lesson. Use the

"I Hope Every City and District Will Win My Flag"

When Edward, Prince of Wales—eager, bright eyed, smiling and sincere—arrived in Canada in August, and when he voiced his great admiration of the wonderful achievements of Canadians, on the fields of battle and at home, once again we were thrilled with joyous pride.

He asked concerning Canada's reconstruction programme, and when he was told of the Victory Loan 1919, he graciously consented to the use of his Coat of Arms on a flag, which is to be the prize of honour for districts achieving their quota in the loan.

In dedicating "The Prince's Flag" at Ottawa on Labor Day, His Royal Highness said in part:—

"It is a great joy to me to be associated with the loan, which is the bridge between war and peace, and which is finishing off the job."

"I hope every city and district will win my flag."

Striking and beautiful in design, this flag will form not only a unique memento of Victory Year, but a lasting and outstanding souvenir of the visit of His Royal Highness—a visit which will remain as one of the most memorable events in Canada's history.

The reproduction above shows the design of the flag. The body is white, the edge red; in the upper left hand corner is the Union Jack, and in the lower right hand corner the Prince of Wales' Coat of Arms.

The flag is made in two sizes, 4 feet 6 inches by 9 feet for small cities, towns and villages, and 7 feet by 13 feet 6 inches for cities of over 10,000 population.

Canada has been divided into canvassing districts by the Victory Loan Organization. Each city forms one district. Other districts have been determined according to population.

Each of these canvassing districts has been allotted a certain amount in Victory Bonds to sell. To win the Prince's Flag, therefore, a district has to sell its allotment. That is the one and simple condition.

Anticipating that many districts will buy far beyond their allotment, the organization decided that for each twenty-five per cent. excess of the quota one Prince of Wales' Crest be awarded. Thus the workers in a district doubling its quota will be the proud winners of four small crests for their Honour Flag. These crests will be sewn to the flag. The Prince's Crest—

the three ostrich plumes—is shown at the top of the coat of arms.

To every organization with fifty or more employees, where seventy-five per cent. of the enrollment invests a total of ten per cent. of the annual payroll in Victory Bonds, a supplementary Prince of Wales Flag in smaller form—48 inches by 34 inches—will be awarded.

The allotment for each district has been carefully considered, and is based on a conservative estimate of the purchasing power of the district.

Your district can sell its allotment and thus win the Prince's Flag, provided each person does his or her share.

You will gladly do your part and encourage your neighbour to do his.

Remember YOUR purchase may be the one that decides whether or not your district is to be the proud possessor of the Prince's Flag.

The Prince's Motto is "I Serve" Will You also Serve?

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

blackboard in work. Have pupils draw maps and mark rivers, cities, etc., in these. Tabulate answers where possible. This not only aids pupils in being neat but is a great help to examiner in reading the answers.

Composition to a second class was then taken by Miss Waugh. Begin with oral work gradually leading up to written. Use the black board freely, using short sentences from the reader. Bring all errors to be corrected to the black board and have this done before the class.

Picture stories form an interesting part also reproduction stories. Letter writing should receive attention in this class. Put model form on black board.

Miss M. Reid and Miss H. Brooks presented their methods of teaching writing to junior and senior classes respectively. Secure proper method of holding pencil

or pen, also proper position at desk. Begin with the easiest letters, using the exercises as outlined in the Ontario Writing Course. All pupils should be taught to write neatly and legibly.

Mr. McDougall closed the session by reference to the "Teachers' Reading Course." According to instructions from the Department, each teacher must read at least two books each year. Sets of books are distributed at the following centres: Petrolia, Oil Springs, Florence, Alvinston, Watford, Arkona and Rutherford, and are in charge of one of the teachers. Those desiring books can secure them through the teacher in charge. These sets will probably be interchanged in a few months.

A unanimous vote of appreciation to Mr. R. J. Campbell for his faithful and efficient services during the past ten

years as Secretary-Treasurer of the Institute was passed and the Secretary was instructed to forward a copy of same to Mr. Campbell.

During the recess on Thursday Miss Lotta Cameron rendered very acceptably a solo entitled "Rosebud", while on Friday Miss Buchanan's class gave several choruses in a pleasing manner.

The Friday afternoon session was brought to a close by the singing of the National Anthem.

Mr. H. T. Paddock of Florence met with a severe and painful accident one day last week. He got his foot caught in the knives of a cutting machine severing the arteries at the ankle, which required several stitches to close the wound beside the binding of the arteries.

**"Nelson Day" Drive Has Great Object**  
Appeal of the Navy League is Directed to all Classes of Citizens

Canadians all over the Dominion will remember how in September of last year the Navy League of Canada made an appeal for one Million dollars for the relief of the dependents of dead and injured seamen of the merchant marine who were the victims of the German submarine campaign.

It will be remembered how under the name of "Sailors' Week"—thanks to the thorough-going co-operation of the public with the workers—the campaign was a complete success and the objective was reached and passed.

The Navy League of Canada again appeals to all citizens for funds urgently required to carry on its work. The "Nelson Day" Campaign has been launched and on Oct. 24-25 the sum of \$500,000 will be raised by voluntary contribution.

The money will be devoted to the payment of the debt of gratitude to the Canadian seamen lost in the war; to provide protection and home comfort for seaman who come to Canadian ports; to educate the people to the need of a strong navy and a strong mercantile marine and to native-born lads for service in the navy and Canadian merchant ships. All the money accruing from the "Nelson Day" campaign will be spent in Canada.

**HEARST WAS DEFEATED**

No Party Strong Enough to Form Government.

United Farmers Will Have the Largest Representation in the Ontario Legislature, With Liberals and Conservatives About Even—Labor Made Gains in Cities—Many Surprises in Provincial Elections.

TORONTO, Oct. 21. — In one of the most remarkable elections Ontario has ever experienced the Hearst Government went down to defeat on Monday, Sir William Hearst and all but one member of those of his Cabinet who were not elected by acclamation went under in the landslide, and of the strong following of 70 members who sat behind the Prime Minister in the last Legislature only 26 members remain. The defeat of the Conservatives was due almost entirely to the tremendous vote rolled up by the United Farmers' candidates and by the Labor men. The Liberals, despite their win of five seats in "Tory Toronto," stand in the new Legislature practically as they were in the last House. In fact, when all the returns are in Hartley Dewart, K.C., the Liberal leader, will probably have a smaller following than did Wm. Proudfoot, the former leader.

The largest single party in the new House will be that of the farmers who, by an alliance with either of the older parties and the Labor members can command a large working majority. Just what will be the next Government of Ontario it is impossible to foresee at the present time. Even Sir William Hearst, in his statement to the press at Sault Ste. Marie, was evidently unable to figure out the situation. It is doubtful if that point will be settled until the new Legislature meets. As the matter stands the Government of Sir William Hearst will remain in power until the House meets.

If in the intervening time the Prime Minister has not succeeded in reaching a working agreement with any other party in the House, he

SIR WILLIAM HEARST.

will, of course, tender his resignation to the Lieutenant-Governor, who will then have to turn to either Hartley Dewart or to the United Farmer representation. But neither the Liberals nor the Farmers can form a Government, standing alone, and whichever is called upon to lead must form a union cabinet or give up the task. In the event of the farmers declining to join forces with either party, a new election would almost certainly be necessary to clear the situation.

It is possible, of course, that the Prime Minister might choose to tender his resignation before the House is called together, but it is quite possible that he will carry on until the House can pass upon the question of leadership.

Whatever may be the outcome, it is almost certain that Ontario's next Government will be a fusion of some sort, either one of Conservatives, Farmers and Labor, or Liberals.

Farmers and Labor, in view of their working alliance during the election it is taken for granted that they will stand together in the House.

The tremendous sweep of the Farmers and Labor men astonished everyone. The showing of the Independent Labor party being perhaps the most spectacular. It was conceded that the Farmers would gain twenty-five seats, but the most that close observers of the campaign were willing to grant the Labor forces was two or three seats. As it turned out the Labor men won practically every seat in which they had a good candidate and anything like an organization.

The defeat of Sir William Hearst in Sault Ste. Marie was an outstanding instance of the manner in which the workingmen of the province have become aroused. Cunningham, the Soo Labor candidate, was not regarded as a serious contender, and the only question in the election was thought to be the size of Sir William's vote. Yet Cunningham rolled up a majority of over 1,500. Even more inexplicable was the defeat of Sir Adam Beck in London. The Prime Minister's failure to hold his seat can be explained by the general sentiment running against the Government, but Sir Adam had separated himself from the Government, and was running as an Independent. It is possible that he lost the votes of many former Conservative supporters who did not like his action in breaking away from the Conservative Government, but that would not explain the tremendous shift that brought him defeat.

Sir Adam will feel his reverse keenly, and if he carries out the threat made during the campaign that defeat would be interpreted as a repudiation of his work for the Hydro, he would retire from the Hydro-Electric Commission. It is possible, however, that whatever Government is formed will endeavor to retain the Hydro chairman at his post.

"Mixed Farming" is the big money-maker today. Of course, grain and fruit and vegetables pay well—but beef and bacon, butter and cheese, are piling up the profits for the farmer.

Milk more cows—fatten more cattle—raise more hogs. If you need money to do it, come to The Merchants Bank. We are glad to assist all up-to-date farmers.

## ONTARIO REMAINS DRY

Prohibition Endorsed by People of Province.

Although a Few of the Cities Went "Wet," the Vote on the Whole Showed a Large Majority in Favor of the O. T. A. — Rural Districts Overwhelmed Those Who Voted "Yes."

TORONTO, Oct. 21.—The result of the vote on the four questions of the referendum shows that the Canada Temperance Act is sustained by a majority of two or three to one, a few cities and towns, notably, Hamilton, Toronto, Kitchener, Ottawa, Waterloo and Windsor voted for repeal, but all the rural municipalities rolled up big majorities for a dry Ontario. Late Monday night Rev. Ben. H. Snence, of the Ontario Referendum

Committee, issued the following statement:

"The victory seems to be a substantial one. It looks now as if we would have a majority of six figures on every question, which is a magnificent vindication of the Ontario Temperance Act, and a mandate to the Government of the Province to improve and enforce that law to the limit of their power. So far as the Referendum Committee is concerned, it was a good, straight, clean fight. We sought to facilitate in every way the expression of the opinion of the electors and they have spoken."

"There is a lesson in the returns for Ottawa that they can't go too far or too fast in regard to prohibitory legislation to suit the Province of Ontario. It shows the utter folly of the proposition now being put forward there to bring on another vote in this or, indeed, any province in the Dominion."

"The Ontario Legislature, now backed up by the electors, have gone as far in the direction of prohibition of the beverage drink traffic as the constitutional powers of the province will permit. The Dominion Government should go as far as its legislative power."

"The organized temperance forces of Canada will not be satisfied with anything less than the enactment of a Dominion law supplementing the provincial legislation now in force in eight out of the nine provinces, which will prohibit the manufacture in, the importation into, the exportation from and the inter-provincial shipment within the Dominion of intoxicating liquor for beverage purposes. That, and that only, will solve the temperance problem, and we are out to solve it. The battle is still on. We have won. The war is still on."

#### Death of Pioneer

There passed away at his home on the 3rd con. Brooke, on Wednesday Oct. 23, James Mungan Sr., in his 88th year. Deceased was confined to his bed for about two weeks, but his end came suddenly at last. He bore his great sufferings with all patience and Christian fortitude and his end was very peaceful. The funeral was held Friday morning to St. Matthew's R. C. Church, where solemn high mass was celebrated by Rev. Father Finn of London and Rev. Father Tobin of St. Thomas and from thence to the Roman Catholic Cemetery, where he was laid to rest beside his wife, son and daughter, who predeceased him a few years ago. He leaves to mourn his loss, three daughters, Mrs. Hugh Kennedy, Mrs. Wm. McAuliffe of Brooke, and Mrs. Mary Coleman at home, also three grandchildren and five great grandchildren. Deceased came from the county of Mayo, Ireland. About 60 years ago he came to Brooke and built his comfortable home of to-day after hard toil of cleaning up the forest, having no roads or any accommodations at that time. He also assisted the surveyors to survey the M. C. Railroad over fifty years ago. In politics he was a staunch conservative. He was a loving husband and a kind neighbor, and of him it can be truly said, "He has fought the good fight and has gone to reap his reward."

**THE GLORIOUS DEAD**

To the Editor of the Guide-Advocate:  
Sir—Could you find space in your valuable paper for a few words on this all important matter.  
Since my return from overseas just over a month ago, I have not heard anything with regard to the erection of some monument or building in honor and to the everlasting memory of our glorious brothers and comrades who made the supreme sacrifice; beyond a word or two in your issue to the effect that the Council would not give a grant for this pur-

pose. If anything is being done I should be glad to know of it so that I could try and help a little in some way. But if not done it is not seen about time it was done. Shortly before the Great Victory march of the Allied troops in London, England, I was dispatched there for duty, and it was my privilege to get a view of it. But what struck me most was the cenotaph or monument erected in Whitehall, a plain structure resembling Cleopatra's needle, and painted a plain white; and just four words written on it.

"TO THE GLORIOUS DEAD"  
The mightiest men in the world halted before this and saluted, for one moment their heads bowed in silent homage and then with flashing eye and still at salute they rode or marched, passed, emotion written on their faces. And the citizen

stood with bared head, the women bowed low, and many the floral tribute was placed on and around. That monument still stands and will remain until it can be replaced by one of a more lasting material, it being of wood and temporary, and to this day people come from all over to lay their tribute at the foot.

Now, we must not forget the mighty dead, and to help us not to forget, let us have something that will be always before us. Just these couple of lines from a poem and finish.

Went the day well, or ill?  
They died, and never knew,  
But well or ill,  
They died for you.  
Thank you, Mr. Editor,  
Yours faithfully,  
S. WELCH.  
Watford, Oct. 12, 1919.

**NATURE'S MIRROR**

When a woman's health is well and healthy, there is a sparkle in her eyes, a rose tint in her cheeks, and she has rich red blood. There is elasticity in every movement and a spring in her step. Love comes to every woman who has bounding health—but when she is pallid, dull eyed, languid, she has no magnetism nor does she appeal to any man.  
Such a change in feelings and looks!  
After suffering pain, feeling nervous, dizzy, weak and dragged down by weaknesses of her sex—with eyes sunken, black circles and pale cheeks—such a woman is quickly restored to health by the Favorite Prescription of Dr. Pierce. Changed, too, in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump. It is purely vegetable, contains no alcohol.  
Druggists sell it in tablets or liquid. Send Dr. Pierce, Buffalo, N.Y., 10c for trial package.

**A Business Proposition for Farmers**

**WE** want you to size up Delco-Light as you would a new farm hand before you hired him.

Will Delco-Light do a good day's work on the farm every day? Will it cost much to keep? Will it earn money for you? Will you get along pleasantly with it?

Over 75,000 Delco-Light users have answered these questions for themselves and for you.

Delco-Light gives them all the electric light and power they need.

**As a result—**

They do chores before daylight or after dark, because house and barns are well lighted.

They have stopped working small machines by hand—milk machine, churn, separator, grind-stone, washing machine, fanning mill, water-pump. They have running water wherever it is needed. They no longer hamper themselves with a lamp or lantern while working. There are no lamps to clean and fill. The ironing is done by electricity.

All this means time saved for every member of the farm family. It means more time spent at money-making work. On some farms it means doing away with hired help.

And the money now spent for coal oil will operate Delco-Light. Four times as much light from a gallon of coal oil is the record of Delco-Light over oil lamps. A few cents a day for all the electric light and power you can use.

Where there is a boy on the farm he looks after Delco-Light. A few minutes each week is all the attention it needs. Note these exclusive features of Delco-Light construction. They insure care-free, long-lasting service for you.

It is direct-connected. There are no belts to slip, break or be replaced.

It is self-cranking. Pressing down on a lever starts the engine and it stops automatically when the batteries are charged.

It is air-cooled. There is no water to carry, to freeze, or to boil away.

There is only one place to put oil. There are no grease cups.

A simple mixing valve regulates the fuel supply. There is no complicated carburetor.

Ball and roller bearings cut down friction and increase efficiency.

Thick-plate batteries are long lasting.

You can see that on every point Delco-Light is a good business proposition—that it pays for itself. It does a lot of work for you. It saves you time. It gives you time for money-making work. It costs little to operate. It is easy to look after.

BESIDE ALL THIS, Delco-Light gives you the wonderful comfort and pleasure of electric light in the home. Floods of clear, bright light at the pressing of a button. No matches; no danger. Lots of light. Pleasant evenings; happy mother and children. You can't know the untold benefits of electricity until you try it.

Delco-Light users know all these things. They have written us letters telling us. We quote from some of these letters. We have printed some of them in a little folder. Illustrated with photographs. We want you to get this book and read it. It will open your eyes to the possibilities for greater profit and greater comfort on the farm. Write your nearest distributor for a free copy.

(a) DELCO-LIGHT has made it possible for us to do without one man, whose wages and keep amounted to \$50.00—he would cost us more now.

By operating the above mentioned appliances Mrs. Peck has been so relieved from her ordinary household duties that she is able to spend a great deal of her time helping to care for the milk, and we are now able to do all of our own work, which has solved the hired help problem for us, and securing help nowadays is the farmers' greatest problem.

(b) Delco-Light saves us every day about one hour doing the chores around the farm—this would mean for my son and I about 730 hours a year at 30c. per hour, which is, figuring very low, about \$219.00 saved.

(c) The time and labor saved every week over the old way is as follows:

Cream Separator	6	hours
Washing Machine	5	"
Flat-iron	2	"
Pumping water	4	"
Vacuum Cleaner	4	"
Power Stand on Fan	2	"
Mill and various things	2	"
<b>Total</b>	<b>25</b>	<b>" per week</b>

(d) I save about 2 hours a week on the washing, and 7 hours a week on separating. It saves one man about 4 hours to clip my team. On churning it saves my wife 3 hours a week. It saves about 30 minutes on grinding our sausage per hundred pounds.

(e) We figure that it has saved us in way of labor for pumping and milking not less than \$1,200.00 during the two years. The plant requires very little attention and only about \$2.00 per month for fuel. We could almost afford to buy a new one each year and still be ahead on labor and satisfaction, aside from the advantages of having the lights, of which we have 30 in the house and barns.

(f) I light my residence, a house of fourteen rooms and one of five, my garage, two barns and a workshop. I operate an automatic water pump, maintaining a pressure of 40 pounds for the entire water supply of the place, including hose for watering the garden. We have a 1/2-horse power Delco-Light Power Stand, which is used for churning and working the butter, turning the grindstone and running the washing machine. I expect to attach it later to the cream separator.

(g) This plant is paying for itself in several

different ways. The fuel saving alone amounts to about \$460.00 per year, as follows:

Where we formerly used 55 gallons of gasoline per week, at 25c. per gallon (\$13.75) to operate the milking machine and pump alone, we now use 35 gallons of kerosene per week at 14c. per gallon (\$4.90), which is a net saving of \$8.85 per week, or \$460.20 per year.

Also, in addition to this, we are lighting four houses, horse barn and cow barn and doing the washing and ironing.

Another instance of saving is that we save the time of one man (4 hours a day) handling lanterns alone in our cow barn. We figure this a saving of 30c. per hour, making \$1.20 per day, \$36.00 per month, or \$432.00 per year.

(h) "I consider my purchase of a Delco-Light plant one of the best improvements I have made on my farm."

DUNCAN MARSHALL,  
Minister of Agriculture, Alberta, Canada

(i) The plant has not given us a bit of trouble, there had been no repairs to date and the operating cost has been less than \$2.00 per month.

(j) Any child can run it and it beats any of your coal-oil lamps for light and safety.

Before acquiring a Delco-Light I could not rest good at night for fear of children lighting a match and thereby possibly setting fire to something. Now I sleep like a log because all that is necessary for the children to do is to press the button and the light is there, and a most excellent light at that. It is much cheaper than Coal-oil and no danger of upsetting a lamp.

## A TONIC FOR THE NERVES

The Only Real Nerve Tonic is a Good Supply of Rich, Red Blood.

"If people would only attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else."

The sort of thing which the specialist spoke of is the nervous run-down condition caused by overwork and the many anxieties of to-day. Sufferers find themselves tired, moose, low-spirited and unable to keep their minds on anything. Any sudden noise hurts like a blow. They are full of groundless fears, and do not sleep well at night. Headaches, neuritis and other nerve pains are part of the misery, and it all comes from starved nerves.

Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. Therefore to cure nervousness and run-down health Dr. Williams' Pink Pills should be taken. These pills actually make new, rich blood, which strengthens the nerves, improves the appetite, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. If you are at all "out of sorts" you should begin curing yourself to-day by taking Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### DEFECTIVE SIGHT CAUSES EYE HEADACHES

We harp on this because so many persons suffer needlessly. Just as sure as the sun rises, the proper glasses will at once relieve your eye headaches. All eye headaches do not need the same lenses, but all eye headaches do need lenses, and our one thought, if you come here in, to give you exactly the right lenses. Why suffer.
