

Miscellaneous.

The tax on whiskey in the United States produced last year 67,800,000 dollars.

Four thousand subscribers to the Centennial stock, on which there is a dividend of seventeen per centum, cannot be found.

John Rhodes, of Houslow, dressed like a tramp, and denied himself the necessaries of life, has just died, and left over \$100,000 to various metropolitan charities.

A dentist tried his first operation with gas upon a robust colored woman. After he had used up all that was in the office, she wheeled in the chair and shouted, "Hurry up, boss, and bring on another bag of dat sweetened wind."

Ottawa, March 1.—It is possible that the Government will grant a subsidy to a line of steamers to run between Nova Scotia and Toronto in order to develop, and encourage trade between the Eastern and Western Provinces.

The St. Petersburg "Golos" says that typhus fever is increasing rapidly among the Russian troops in Roumania, and the Roumanian railway carriages are infected. It is absolutely necessary for the army in Turkey to return by sea and not through Roumania.

Mr. Spurgeon gave a curious lecture in London the other evening called "Sermons in Candles." In the course of it he exhibited to his audience for purposes of illustration an old candle-box, a rush light, a dirty old lantern, and a candle lit at both ends.

Havana, March 1.—Yesterday afternoon the insurgents in the Central Department defied before General Martinez Campos, at Puerto-Principe, surrendering their arms. The insurgents in the neighborhood of Trocha also surrendered their arms at the same hour.

The "Daily News" special from St. Petersburg says the nomination of Lord Napier, of Magdala, to the chief command, is producing great excitement here. It is believed the Treaty of Peace will be signed on Saturday, the anniversary of the Czar's accession.

A curious accident took place at Grand Rapids, Michigan, the other day, when John Coleman was instantly killed by the premature explosion of a blast, which blew a piece of stone about as big as a walnut in at his mouth and out through the back of his head.

A. H. Shimer, of Wilkes bars, was last fall interred in Pike county, Pa. With him were buried a very valuable pin, a set of studs, and a ring heavily set with diamonds. The coffin-plate was of solid gold and unusually large. It has now been discovered that the grave has been opened and the valuables removed.

Intelligence from Constantinople, Feb. 27, says: "Russian plenipotentiaries manifest irritation at the slow progress of the peace negotiations. If the negotiations are not completed in a few days, it is expected the plenipotentiaries will present an ultimatum, fixing the date when the treaty must be signed."

The "North German Gazette" attacks the territorial waters jurisdiction bill now before the British Parliament, and charges the English Government with seeking to claim jurisdiction over foreign merchantmen passing the Straits of Dover, which the "Gazette" claims to be an international water way for the trade of the whole world.

USUAL.—Mr. G. T. Irving, of Maitland, states that on Monday, 18th ult., accompanied by Rev. A. D. Jamieson and Mr. Isaac Douglas, he visited a bird's nest which had been discovered about three miles from the village. It is built in a hemlock shrub about eight feet high, and contained a young bird and one egg. The old birds were about the size of a sparrow, and appeared to be of the Finch family.—Trove Times.

Mr. Phillips, of New York, has invented the cornetto, a new musical instrument on which anybody can perform. It is only necessary to sing, or rather hum, into it, and the quality of the voice is entirely changed, so as to imitate the resonance of a wind instrument. The cornetto is neatly made of polished wood, and can be carried in the pocket. The manufacturer states that a number of good singers by its aid can easily produce the effect of a "full brass band."

The "Daily Telegraph's" Vienna correspondent learns that the Russians will begin upon entering Constantinople with or without the Porte's consent, and that England has informed Gortschakoff if the latter course is pursued to quit St. Petersburg. The news of Austria's going to war are not more than ever. The Government only command a majority of two in the vote of credit in delegations. It is not surprising if the idea was abandoned at the last moment.

Telegraphic News.

The climate of Japan is very changeable and provocative of lung and bronchial diseases. Doctors declare it to be one of the worst in the world in this respect.

Messrs. Wyman Brothers' factory at Carleton, Yarmouth County, and two other mills, have been destroyed by fire. The factory was an extensive affair and turned out large quantities of furniture, and it is said the whole loss is upwards of ten thousand dollars.

A curious headstone stands in the old burying ground at Newport, R. I., which chronicles the death of a son and daughter of William and Desire "Tripp," "also his wife's arm," amputated February 20th, 1770. A representation of the severed member is cut upon the stone.

A colored boy in the employ of a man in Cumberland, Pa., had a narrow escape from a frightful death the other morning. He went down stairs to start a fire in the great furnace which warmed his employer's store, and stepped within to warm his hands for a moment at the slowly starting flames. At that instant a gust of wind slammed together the iron door, and the fire, under the influence of the draught, sprang up rapidly. The boy called for help, but nobody heard him, when by a superhuman effort he kicked the door off its hinges and made his escape, more dead than alive.

[For the Monitor.] "HONOUR TO WHOM HONOUR IS DUE."

IN MEMORIAM.

James Wiswell.—Well-known in these parts, as a most sincere and devoted Christian and temperance gentleman, quietly departed this life, at his late residence, on the 28th ult., in the 78th year of his age. Our esteemed brother leaves behind him an unspotted life record worthy of imitation. For honesty and truthfulness he was proverbial. From the "Aylesford Temperance Festival" period, under the Rev. Mr. Owen to the present advanced stage of "total abstinence" Reform—Brother Wiswell has been a consistent and constant adherent, exerting his influence to mould public opinion. So that today the generations unborn at the first period named now arise "to call him blessed."

Bro. Wiswell's untiring zeal in Sabbath School and Temperance Work has justly won for him the grateful remembrance of old and young. His wise counsels and timely admonitions at both temperance and religious meetings, were always kindly received.

His brothers and sisters, who for years, were associated with him in the Sabbath School Work of this section of the Annapolis Valley, are also kindly and affectionately remembered (by all denominations) for their good works and benevolent acts, though they now all sleep quietly in the Church-yard. Today, in nearly all parts of the world may be found individuals, who have attended the Sabbath School at the "old Wiswell place," therefore, though dead, the good influence of this family continues to go on, and on. As a leader in music, Mr. Wiswell enjoyed a degree of success. In the early days of the Wiswells' there was the only piano-forte within miles, and to listen to the sweet tones of that instrument by the music teachers, the Miss Wiswells, was considered an honor and a treat; but now pianos or organs may be seen in nearly every dwelling, and the youthful inmates able to perform on them. To-day, in the late residence of Bro. Wiswell has sprung into existence a Piano and Organ Factory, the only one combined which Nova Scotia can boast of. The proprietors, Messrs. Gates Brothers, were born on the farm adjoining the Wiswells'. Prof. C. E. Gates probably received his first lesson in music from the deceased—but has since studied the subject for years in America and Europe, and has returned, to the honor of his Old Leader, to manufacture and send forth to the world the results of his researches, thus widening the influence of music so early received from this aged admirer of the science. I love to call public attention to these, the fathers and mothers of our present advantages, rendering (this with a feeble pen) "honour to whom honour is due," and tribute to whom tribute is due."

As a mark of esteem, "Enterprise" has devoted nearly an hour to the delivery of addresses on the "Life and acts of Bro. Wiswell's Family." The speakers were:—Major Boyd Magee, Capt. Chas. Jacques, Prof. C. E. Gates, Capt. Shippy Spurr, P. G. W. C. W. J. Gates, from Bridgewater, J. D. Munro, W. C., with a closing address by C. Willard Gates, of Boston, on behalf of the young men. Messrs. Magee and Jacques, and Miss Annie Parker, were delegated to convey to the bereaved family the sympathies, etc., of the Lodge.

The Rev. W. E. Hall performed the funeral obsequies in a most solemn and impressive manner, after which the "sands" gradually hid from view the mortal remains of one good man long to be remembered.—"Let me live the life of the righteous." Let me die like his death." "Let my last end be like his."

Brother Wiswell's—your tolls are o'er, Now you're at rest on "Canaan's Shore." May we all meet you, in that land, And praise our God—a happy land.

In F. H. & C. VERTAS. P. S.—The above addresses were delivered without previous preparations, yet, were very appropriate, covering a period of some forty years of the rise and progress of this part of our fine County, showing the important part the Wiswell family took in public matters—there influence as seen to-day, as well as that of their compatriots. Melvern Square, March 4th, 1878.

Special Dispatches to the Morning Chronicle.

EUROPE.

LONDON, Feb. 27.—The Standard publishes another article discussing the probable landing places of the British near the Sea of Marmora. The writer thinks Besika Bay the most probable place. This, of course is a mere surmise, but the article shows a very warlike tone. It says: "The first army corps would probably proceed to the seat of war without waiting for the second, which is now strenuously preparing. It is possible, of course, that even now we may not have to go to war. Russia may pause in time before she provoke it."

The morning papers repeat yesterday's announcement of the appointment of Lord Napier and General Woicely, now giving it an authority. The Post says: "The brigade of Guards has been raised to its war strength. There is great activity in the brigade, which is completing arrangements necessary for active service. All manufacturing centres report great activity."

The Standard's leading article says that all that is really implied by the selection of Lord Napier of Magdala, as commander-in-chief, and Sir Garnet Wolsey as his chief of staff, is that the terms of peace if not modified, cannot be sanctioned by England. We have been brought face to face with war by the arrogant and aggressive conduct of Russia.

Thus far 600 sets of field ambulance fittings and 500 tons of material have been ordered in Sheffield. The Woolwich authorities purchased 500 miles of telegraph wire for use, together with torpedoes and material necessary to construct a temporary railway for conveyance of stores and mounting of heavy guns in siege works. The War Office has ordered that no soldiers be transferred to the reserve until further instructions.

The Electric Ordinance works at New-Castle-on-Tyne were recently ordered to manufacture one hundred torpedoes for the Government with all possible speed. The order is now increased to eight hundred.

LONDON, Feb. 18.—It is confidently stated that forty-five thousand troops are ready to start for Bombay at shortest notice.

An important ministerial statement is expected to be made in Parliament to-day. The opposition leaders in Parliament have determined not to embarrass the government while the present critical position lasts. They have been informed that it is desirable in the interests of peace to avoid ministerial statements in the House of Commons to-night.

In the House of Commons to-night Sir Stafford Northcote, replying to a question, stated that the Government was still unformed of final terms of peace, but if they injuriously affected British interests Government would take proper course to vindicate those interests.—This declaration was greeted with loud cheers.

LONDON, March 2.—General McDougall will, in May, take command of all the forces in Canada. It is understood that, in the event of war, General McDougall will have authority to raise 10,000 Canadian recruits for service in Europe.

Vice-Admiral Inglefield will, in May, assume command of the fleet on the North American and West India stations. All officers on leave yesterday received orders to hold themselves in readiness to rejoin their regiments and depart immediately on receipt of telegraphic notice.

The report that Serbia will put herself under Austrian protection, and that she will be to seize and occupy Egypt with a large number of troops.

It is stated that secret orders have been issued relative to English military movements, but their purport is unknown.

The reported order of the Dardanelles to resist the entrance of any more foreign vessels, was the cause of much feeling in London in Anti-Russian quarters, as it is believed it was issued at the instance of Russia.

Advices from Australia, received by the newspaper Australasian, of this city, state that owing to drought the wool crop is 75-900 bales short of last year's production.

CONSTANTINOPLE, Feb. 27.—Great mistrust and uneasiness are felt respecting Russian designs on the Bosphorus. They can occupy the Chanki Forts at a moment's notice. Movements of the troops which are not apparent, are still progressing.

The position of the British ships at Tuzla is regarded as critical owing to the short run for torpedoes from Tcheke-rod or San Stefano. It is strongly suspected that Thorneycroft torpedoes and Whitehead torpedoes are being despatched to the sea of Marmora in defiance of the Dardanelles to guard the vessels against such a ruse.

BELGRADE, March 5.—There was an extraordinary Cabinet Council to-day. Prince Milan presided. All the military authorities were present. It is said it was resolved not to resign the territory which Serbia had conquered in New Bulgaria. The Serbian army will, for the present, remain on a full war footing. The artillery reserves are being organized. Prince Milan will return to headquarters at Nisch. It is hoped, however, that Russia will yield to Serbia's wishes.

WHAT THEY SAY OF IT. A FEW PARTS FOR THE PROVERB.

There are but few preparations which have so long withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Electric Oil. Read the following: "I am convinced"—Thos. Robinson, Farmington Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any effect, until I tried Dr. Thomas' Electric Oil, since then I have had no attack of it. I would recommend it to all." J. H. Earle, Hotel Keeper, West Shefford, P. Q., writes, "I have for several years been troubled with Liver Complaint, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Electric Oil, which gave me immediate relief, and I would say that I have never since with the best effect. No one should be without it. I have tried it on horses in cases of cuts, wounds, etc., and think it equally as good for horse as for man." Messrs. Merchants, worth, writes, "I have sold some hundreds of bottles of Electric Oil, and it is pronounced by the public, 'one of the best medicines they have ever used.' It has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusan, Township Percy, writes, "I was persuaded to try Thomas' Electric Oil for some years that I had been troubled for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."

Beware of Imitations.—Ask for Dr. Thomas' Electric Oil. See that the signature of S. M. Thomas is on the wrapper of the bottle, and that the name of Lyman is blown in the bottle, and take no other. Sold by all medicine dealers. Price, 25 cents. NORTHERN & LYMAN Toronto, Ont., Proprietors for the Dominion.

NOTE.—Electric—Selected and Electro-eclectic. For sale by W. W. CHELSEA, Bridgetown, N. S.

MRS. L. C. WHELOCK, Lawrenceport, Feb. 20th, 1878.

The Great Cause of Human Misery.

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Inactivity, Impediments to Marriage, etc., resulting from excess.

Price, in sealed envelope, only 60 cents, or two postage stamps.

The celebrated author, in this admirable Essay clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Address: The Culverwell Medical Co., 41 Ann Street, N. Y. Post Office Box, 4586.

Miscellaneous.

HOW THE BRITISH FLEET PASSED THE DARDANELLES.

The London "Standard" publishes the following interesting letter, written by an officer on board one of the iron-clads, describing the manoeuvres of the fleet when ordered to make the passage of the Dardanelles...

A PLEA FOR THE LITTLE ONES.

Be kind to little children, not alone to the petted darling at home, but to the poor, dirty-faced little urchin in the street. Do not frown upon him...

When Charley comes home from school so boisterous after his long restraint, and forgets to wipe his feet, or slams the door, don't dive at him and box his ears, and order him out of your sight...

THE PETRYIFYING SILICATE PAINTS.

As supplied to the Admiralty, Board of Works, Austrian Lloyd's, Woolwich Arsenal, Cunard Company, &c., For House, Ship and General Use, Indoors and Out...

GLASS! GLASS!

1000 Boxes Glass, in all sizes, at cheap rates. White Lead, Oils, Brushes, Paper Hangings of all kinds, WHOLESALE and RETAIL.

HABITS OF SHEEP.

They perseveringly follow their leader wherever he goes; but if, in case of sudden alarm, any one of the flock runs forward to escape, and thus takes the lead, the rest generally follow him...

TRAPPED.

The mother seal builds her nursery beneath the surface of the ice in such a manner that it can enter it from the water below; here the young seal passes its infancy, and when the returning ice of summer has destroyed his igloo...

Joker's Corner.

YOUNG POSITIVIST.

Clergyman makes a pastoral call - Lady brings forward her son eight years of age, to be examined as to his theological sentiments. Pastor - What is a miracle? Boy - Dunno.

At length the terrible Chanak was approached, and then at the last moment a signal hoisted from the Salamis which told that the passage would not be disputed.

A PREVALENT VICE.

Surely profanity is one of the glaring vices of the day, and nowhere is it exercised more freely than in a country village. In cities, profane swearing is not common in the streets.

1877. } STOCK for } 1877.

Spring Trade

CONNOLLY'S CENTRAL BOOKSTORE.

Important to Boot Workers.

One Good Advice Agent WARRIS in every township to introduce the Victoria Boot Worker. Sample Machine free to Agents.

The Cunard steamer "China"

encountered a fearful gale at sea on the 9th inst., while on her passage to New York. The vessel lurched into the trough of a sea head foremost, and before she had time to right herself a wave struck her with terrible force, diagonally, which swept the deck, carrying away the bridge upon which were stationed the first and second officers. They were not seen afterwards.
