TRIAL A FARCE, SAYS SULZER TRIBUNAL RULED BY TAMMANY EXECUTED 'POLITICAL LYNCHING'

Deposed Governor Says Horse Thief in Frontier Days Would Have Received Squarer Deal—Believes Light Thrown on Murphy's Methods Will Mean Doom of Machine.

ALBANY, Oct. 18.—(Can. Press).—Wm. Sulzer ceased to be governor of the state of New York on noon today. He was removed from office by the high court of impeachment, by a vote of 45 to 12, two members not voting.

The verdict of the court was that Sulzer was guilty of falsification, perjury and an attempt to suppress evidence against him. Of all other charges he was acquitted, the court today unanimously voting him not guilty of the four remaining articles of the impeachment not passed upon when it adjourned last night.

By a virtually unanimous vote also, the impeachment tribunal decided that Sulzer should not be punished by disqualification to hold office of honor and trust in this state in the future. This would have been the extreme penalty under the law.

The ousted executive was served with a copy of the verdict of the court at the executive mansion, at a few minutes before six o'clock tonight.

"Good, I thank you," he said to the sergeant at arms of the senate, who delivered the document.

Political Lynching.
"Mr. Sulzer, private citizen," will leave the capitol probably on Sunday—wherefore he has not disclosed.

The outgoing executive issued a statement in which he denounced the tribunal which had removed him as "Murphy's high court of infamy."

Sulzer declared that his trial was a political lynching as far as the Tammany part of the court was concerned—the consummation of a deep laid political conspiracy to oust him from office.

"A horse thief in frontier days," he says "would have received a squarer deal."

"Had I but served the boss with half the zeal I did the state, Wm. Sulzer would never have been impeached," he said.

Trial a Farce.
The Sulzer statement follows in part:

"In response to requests from friends throughout the state, for some expression from me, I can only say at this time that I am glad my trial is over."

"By virtue of a power, beyond the present control of our electorate, I now hand back to the people the commission they gave me, and I hand it back to them untarnished and unswayed."

Mme. Tchuberlak began vehemently to reproach the boy for telling "such shameful untruths," but was stopped by the president.

MURDER TRIAL REPORTS FALSE

Stenographers at Kiev Warned Against Garbling Evidence to Create Wrong Impression.

KIEV, Russia, Oct. 17.—(Can. Press).—At the opening of today's session of the trial of Mevdel Belles for the murder of Andrew Yushinsky, the president of the court complained that the stenographic reports of the trial organized by the Kievsky Myel and used largely by the Russian and European newspapers were garbled accounts of the proceedings.

The stenographers were warned that if their alleged practice of misrepresentation was persisted in the president might be obliged to withdraw his sanction for the taking of shorthand notes.

Among today's witnesses was a schoolboy named Zarudsky, who, contrary to the testimony of the play-fellow, and insisted on the accuracy of his previous statement that in the witness room on the opening day of the trial Mme. Tchuberlak had tried to persuade him to testify that he had seen Belles dragging off Yushinsky.

Mme. Tchuberlak began vehemently to reproach the boy for telling "such shameful untruths," but was stopped by the president.

HIGH PRAISE FOR CARMANIA'S CAPTAIN

Attacks on Captain Barr Classed as Gross Libels by Skipper of Rappahannock Who Says Barr Did Not Attempt to Gain Glory for Himself.

By a Staff Reporter.
HALIFAX, N.S., Oct. 17.—Charges that Captain Barr of the Carmania did not do everything that lay in his power to rescue the passengers of the Voltorno were characterized as "grossly unjust and untrue, and the product of malicious ignorance" by Capt. Hernden of the Furness liner Rappahannock, in an interview with The World tonight.

Capt. Hernden, whose lifeboat was the first to get underway, the Voltorno, and who landed the first survivors on this continent, declares that Capt. Barr's judgment and work all day cannot be too highly praised, and by keeping the Carmania out of the final rescue, Capt. Barr materially aided in the work of saving the survivors, and showed himself a big enough man to stand by and let others who were in a better position to do the work carry it out rather than attempt to gain glory for himself.

Gross Libels.
When shown a number of American papers which attacked Capt. Barr for not saving more than one person after being the first ship to reach the Voltorno, Capt. Hernden declared these were gross libels on the Carmania's skipper. "All through that day," said Capt. Hernden, "everything that possibly could be done was done by Capt. Barr. It is utterly foolish to say Capt. Barr should have saved more people. He was too big a man to enter into a competition to see who could save the most passengers, and by keeping the big, unwieldy Carmania out of the way he materially aided the smaller and handier steamers which could get in closer to the Voltorno."

"If more people understood the circumstances under which the rescue was carried out, there would be no criticism of Capt. Barr."

"In the sea that was running at the time, no boat could now against these waves. They had to drift with them, and the only way in which any of the steamers could possibly get boats to the Voltorno was to get as close as possible to the windward of the boat, drop down to the Voltorno and steam down to the leeward of the immigrant ship and watch out for the boats to drop away leeward of her, then try and pick it up as she drifted past. That involved a lot of manoeuvring, and when ten or eleven ships were

GRAIN EXPORTS BREAK RECORDS

More Than Sixty Million Bushels Will Be Shipped From Montreal, Say Harbor Commission.

MONTREAL, Oct. 17.—(Can. Press).—The export of grain from the Port of Montreal for the present season will be from 60,000,000 to 65,000,000 bushels, according to an estimate made at the offices of the harbor commissioners. This output will be double, or more than double, the quantity exported last season. Grain reported in the elevators this season to date is 40,000,000 bushels. At present there are but 2,250,000 bushels in the harbor commissioner's elevators, and not more than about a quarter of a million bushels in the Grand Trunk elevator, so that there is space for the accommodation of another million and a half bushels.

That the spare space will be needed before the end of the season and will probably be overtaxed is evident from official reports received from inland points. There were 20,000,000 bushels in the elevators at Fort William on the 27th inst., and the quantity is now almost certainly greater, while the elevators at Timm, Goderich, Depot Harbor, Midland, Owen Sound, Point St-Bar, Fort Colborne and Fort McNicoll are packed. Grain is being sent down to Montreal as speedily as possible.

WORKMAN FELL NINETY FEET

Harry Fenton, Tinsmith, Fatally Injured at the New Veterinary College on University Avenue.

Harry Fenton, of 376 Bariat street, a tinsmith in the employ of Douglas Brothers, of 123 Adelaide street west, fell from the roof of the new Veterinary College on University avenue, to the ground, a distance of 90 feet, at 4:30 yesterday afternoon. Both arms and a number of ribs were broken, the skull is fractured, and the man is undoubtedly internally injured. He is not expected to live many hours.

Fenton was one of a number of tinsmiths from Douglas Brothers, contractors for the galvanized iron work on the new building. When the accident occurred, the workmen were engaged in erecting the metallic cornice around the eaves of the building. In reaching over, Fenton lost his balance, and before the eyes of three or four fellow workmen, fell over the edge of the roof.

A passing motor car conveyed him to the General Hospital.

MILLIONAIRE SHOT DEAD BY HIS SON

Tunisian Banker Paid Penalty for Threatening to Disinherit Young Man.

Special Cable to The World. Copyrighted by The Toronto World and N. I. World.
PARIS, Oct. 17.—A Tunisian banker named Rhandan ben Mohammed Ben Rhandan, described as a British subject, was shot dead in front of the Cafe de la Paix, Boulevard des Capucines, this evening by his son.

The dead man was one of the richest men in Tunis, and was said to be worth nearly six million dollars. The murder is ascribed to the fact that the millionaire had threatened to disinherit his son in favor of his children by another wife. Disguised in a false beard the son came behind his father and shot him in the neck.

WILSON DECIDES ON A NEW POLICY

Will Make an Announcement Concerning U. S. Attitude Toward Mexico if Huerta Persists in Holding the Elections Next Month—May Lift Embargo.

(Special to The Toronto World.)
WASHINGTON, Oct. 17.—President Wilson, it is expected in official circles, will announce in about ten days a new Mexican policy. The principal feature of this policy will be the lifting of the embargo on the revolutionists obtaining arms and ammunition in the United States, a continuation of the interrupted relations with Huerta and a refusal to the Huerta faction of the right to obtain arms in the United States.

This became known today following the receipt of a despatch from Nelson O'Shaughnessy, which gave in detail the meeting of the foreign representatives in Mexico City on Wednesday afternoon.

The meeting was called by the Spanish minister, dean of the diplomatic corps, and was held in the German legation.

According to The World's informant all the representatives at the meeting, with the sole exception of Great Britain, expressed the belief that the United States ought to intervene in Mexico. Great Britain today announced that it did not regard intervention as necessary or desirable. Because of its great British interests it would not withdraw its recognition of Huerta.

Send Warships.
None of the representatives advised the withdrawal of recognition of Huerta. All informed their governments it would be inexpedient to do so at this time. All advised the sending of warships to Mexican waters for the purpose of protecting their nationals and interests.

President Wilson was not surprised at the feelings of the majority of the representatives. He will not, however, allow the action of the representatives to influence him. He has to consider his belief that the election will have no further dealings with Huerta. The plan to wait ten days before taking any action toward defining a new policy has been adopted. It is to allow Huerta an opportunity for resignation. If he permits the holding of elections on Oct. 25, as he says his intent will be to resign, the election will be the signal for the adoption of the new policy.

Make Him Resign.
Of course, such a policy as outlined will not be adopted. In the event Huerta does resign before Oct. 25, such action would be necessary to the adoption of some other policy by the American government.

Permitting the revolutionists to obtain arms and ammunition in the United States would carry with it recognition of their belligerency, but it would not mean recognition of de facto power. In the opinion of many, the revolutionists, with the support of the United States, and assistance to the extent of permitting the purchase of arms and ammunition in the United States would be sufficient help, and with the assistance the revolutionists could march into Mexico City, or so close to it as to force Huerta to resign and turn the government over to some one else pending an election.

MADOC MYSTERY GROWING DARKER

Body of Edward Frank, Adopted Brother of Recent Victim, Has Now Been Found.

BELLEVILLE, Oct. 17.—(Special).—The tragic death of Miss Minnie Frank, which occurred in Madoc Township on Sat. Sept. 20, has been recalled by the finding of the body of her adopted brother, Edward Frank, in a discarded mine, near Madoc village. On the day of the tragedy, the two were at home alone, and when the family returned the evening, the body of the girl was found in the house, a bullet wound in the heart having caused her death.

At the time, the lad, who disappeared along with the gun, was suspected by many of having committed the crime. Yesterday his remains were found and an inquest will be held to determine how he met his death.

The boy was from England, and was adopted by the Frank family seven years ago. He was about 17 years of age.

INCH WILL HAVE NEW COMMAND

Unwritten Law of Sea Will Not Stand in Way of Gallant Captain.

NEW YORK, Oct. 18.—(Can. Press).—The unwritten but almost inexorable law of the sea, which bars a captain who loses his ship from being given another command will not be applied to Captain Francis Inch of the Voltorno. The officials of the Uranium line made it known today that the heroism of the young skipper—his desperate, the losing fight to save his vessel and the brave part he played in the battle which resulted in the saving of such a large proportion of the Voltorno's passengers and crew—will preserve him from the fate of many a master whose ship the sea has claimed.

"The line needs men like Inch," said Manager E. O. Thomas today. "He will be given another command and we will be glad to keep him in our employ."

WAR MINISTRY FORGED THE ACT

C. P. R. Incident Significant of Determination to Keep Reservists in Austria.

LONDON, Oct. 17.—(C.A.P.).—The Vienna correspondent of The Daily Telegraph says the C.P.R. incident has attracted considerable attention, in view of yesterday's disclosures. "It is now known," he says, "that the Austrian War Ministry was responsible for the district enquiry which was undertaken into the company's affairs. The military authorities were astonished to discover numerous cases in which recruits have granted orders doing their military service. The emperor himself, who had reports filed before him, enquired repeatedly how the investigation was progressing, and a fortnight ago War Minister Ritter von Kroschitz appeared in audience at the palace and laid an extensive report before the monarch."

ZEPPELIN DIRIGIBLE DISASTER WIPED OUT ADMIRALTY BOARD

Twenty-Eight Passengers Went Up on Test Trip and All Lost Their Lives When Explosion Occurred—Death Instantaneous in Every Case But One.

BERLIN, Oct. 17.—(Can. Press).—Twenty-eight persons were killed near Johannisthal today in the explosion and fall of Count Zeppelin's latest dirigible balloon, the "L-II."

The twenty-eight men represented the entire personnel of the admiralty board which was to conduct the final trial of the dirigible looking to its acceptance by the government as a pilot unit of the German aerial navy, the pilot and crew and invited guests. Every person that went aloft in the big airship is dead.

Twenty-seven of them were killed almost instantly by the explosion of the gas in the ballonettes, or burned to death as the flaming wreck fell to the ground from a height of 900 feet and enveloped them. One man, Lieut.

NEW CHANCELLOR WELCOMED TO VICTORIA

Rev. Richard P. Bowles Inaugurated at Convocation Hall Last Night Before Faculty, Graduates and Students—Chancellor Burwash Delivered Address of Farewell.

Unique in its simplicity was the ceremony at Convocation Hall last night when the retirement of Chancellor Burwash of Victoria University, and the inauguration of the presidency and chancellorship of Rev. Richard P. Bowles came about, in the presence of 1200 students, and prominent Methodists of Toronto. Goodwill was expressed on all sides by representatives of the graduates, and of the faculty of Victoria, of the University of Toronto and of the Methodist Church of Canada.

Prominent on the platform were Rev. A. Carman, general superintendent of the Methodist conference; Rev. F. H. Wallace, Rev. J. W. Graham, Professor J. C. Robertson, Rev. S. D. Chown, Mr. Justice MacLaren, President R. A. Falconer, Mr. Justice Riddell, and N. W. Rowell, K.C. The students of Victoria were there, and besides tendering an address of welcome to the new president, they rendered their college song in a very rousing manner.

An eloquent tribute to the life and work of Chancellor Burwash was voiced by Rev. S. D. Chown, who in the course of his remarks declared that the ordinary man has as his ideal the creation of a profound influence for good upon one generation, but the retiring chancellor of Victoria University has made a lasting impression upon no less than three generations of Canadians. The bequest which he has made to Canadian citizenship thru his influence upon the thousands who have graduated from Victoria was spoken of as immense.

Chancellor Burwash, in his reply, welcomed the man who was to take up the duties which he had laid down. He prayed that the beautiful blessing of the inland west, proper his soil in university which has made its influence felt upon Canadian life.

The new president's speech was a masterly elaboration of the wonderful progress made by Victoria University since its founding in 1842. He went on to emphasize the importance which is being attached by the nation at large to the advantages attendant upon higher education. President Bowles described in detail a similar occasion to that of last night, when on June 21, 1842, the college had had its opening ceremony. The influence which each of the successive presidents had diffused was traced, and the speaker trusted that he could in his own way do all that he was capable of doing toward the achievement of the college ideals.

Mr. Justice MacLaren presented the new chancellor to the meeting. President Falconer, on behalf of Victoria University, extended a welcome to Chancellor Bowles. Just Lo Riddell in a masterly address welcomed the president on behalf of the graduates of Victoria, both old and new. For the Methodist Church, N. W. Rowell, K.C., extended a welcome.

An Revolt But Not Goodbye.
With today's matinee and tonight's performance at the Princess, Miss Billie Burke, Tommy Belturbet, the Tomboy, of Sir Arthur Pinero's "The Amazons," bids an revoir to her delightful Toronto audiences. It may be truly said her characterization of Lady Thelma has given Pinero's old comedy a new lease of life. In simply saying an revoir Miss Burke looks forward with pleasure to coming back to Toronto ere long to portray the principal feminine role in Somerset Maugham's new comedy of Canadian life, entitled "The Land of Promise."

Thanksgiving Clothes

Smartness, when applied to clothes, is difficult to define in words. It is expressed to a complete understanding and recognition, however, in the clothes we are showing here now, and the men who are dressed by us this season will have much cause for thanksgiving. We have fabrics in our overcoats this fall that are irresistible; you just want to keep running your hands over them to feel that soft warmth, suggesting comfort in them. We have tried hard to anticipate the needs of all types of men—and we honestly believe we can fit you—no matter whether you are short, tall, stout, or just the ordinary figure. Even the forward man can be fitted here. We mean the man who is inclined to lean forward, and who finds it difficult to get fitted with regular style. First of all, please fasten this in your mind, that ours is an ALL-CLOTHING Store. We devote all our time to the study of man and his clothing needs. We haven't any hats or gent's furnishings or anything outside of clothing to detract our attention from the all important matter of making good clothes and giving good value. Every salesman we have is a trained expert and knows the full meaning of the word COURTESY, insuring to you prompt and efficient service at all times. PRICE is a mere matter of figures, but we put VALUE into our garments before we put the price on. So that when we tell you our price range for suits is \$10.00 to \$38.00, and our overcoats \$7.50 to \$45.00, you will understand that full value is here for every dollar marked.

Will Miss Neely

The news of the death of Geo. W. Neely, M.L.A., came to Sir James Whitney last evening at his home, on his return from a brief holiday in the north.

"The knowledge of his death has come upon me very suddenly," said the premier. "I can hardly express myself properly. As all who knew him were aware, Mr. Neely was a man of broad capacity, a man whose judgment was always good.

"At the present moment, having just heard of his death, I can hardly say more than I have said. Added to this he was a wise party counselor and the government will miss him indeed."

Sir James spoke of his trip as having added to his vigor and given him a new conception of the splendors of Northern Ontario.

"Like many other people I never realized what a reserve we have up in Algonquin Park and the surrounding territory," he said.

HIGH PRAISE FOR CARMANIA'S CAPTAIN

(Continued From Page 1.)

engaged at this task, it was a ticklish job.

Stamed in a Circle.

"All night long the feet were steaming in a circle a quarter to half a mile away from the Voltorno. The Carmania, the biggest steamer there, is equipped with turbines which cannot be reversed nearly as quickly as reciprocating engines, and this made it additionally difficult to handle her in a confined sea-way. The Carmania's master undoubtedly took the correct course when he sent the marconigram: 'To all ships around Voltorno: We have tried a lifeboat, also rafts. Any suggestions? This is difficult to manoeuvre. Will keep clear. When the size and unhandiness of his ship forced Capt. Barr to stand about twice as far off as the other vessels, it would have been an entirely unnecessary risk for him to have sent boats away.'

"Having twice the distance to travel that other ships' boats had, they would be exposed to twice the risk of capsizing and they were not needed.

The other ships which were standing in close had boats enough to take off five times the Voltorno's list could they get alongside. If Captain Barr thought the Carmania's boats were needed they would have been sent away.

Gave Them a Chance.

"Barr wasn't looking for glory. He saw that other more easily-handled ships could do better, and he kept out of their way and gave them a chance to do it. The sale was at its worst when he got there at noon, but he put a boat over at once, and nearly lost it, incidentally. I didn't know until I saw the papers here that he backed the Carmania within one hundred feet of the Voltorno in the effort to pass a line. A man who has the nerve to take a ship's boats in the size that close to a derelict in a sea-way is not deserving of imputations of cowardice."

SONS OF SCOTLAND.

The Nineteenth Annual Scottish Concert, to be held in Massey Music Hall on Thursday evening, October 23, should draw a crowded house. To prevent a crush the plan opens on Monday morning at 9 o'clock.

A feature of this year's concert is the appearance of Miss Jessie Maclellan, Scottish prima donna, the world's greatest ballad singer. Scottish music has its peculiar charm, but its interpretation is a gift which but few possess. The songs of our childhood, the songs of the heather, mountain and glen, as she sings them, appeal to the heart as no other music can. With George Nell, Scotland's peerless tenor; Mrs. Campbell, the popular contralto; Mr. H. Ruthven Macdonald, favorite baritone; and Miss Jessie Alexander, Canadian elocutionist, who will introduce entirely new features, the committee may be congratulated on the talent they have arranged to introduce to their patrons.

Tickets have been fixed at the popular prices of 50 cents and 25 cents and all seats are reserved.

Novelties Promised.

The rehearsal now being conducted tri-weekly for this season's concert by the National Chorus of Toronto reveal striking beauties in the large number of novelties that are to be presented. Dr. Ham's programs are always marked by their cosmopolitan character, and this characteristic is more in evidence this year than ever before.

The Final Dash for the Roof

We are in sight of the shingles. All our debt is paid, and we hold our Thanksgiving services this Sunday. Our land is all clear. We have paid \$50,000.00 on this building and material on hand for further construction. We do not owe a copper to any man, and have \$6,420.00 cash in the Bank. Out of this amount Rev. J. D. Morrow has collected \$1,600.00 singing and speaking on the street corners.

Nineteen thousand more to raise and the long struggle is over, and we go into Dale Church free from debt. A downtown church can never carry debt and minister successfully to a down-town people. Send your Thanksgiving dollar and help us to put on the roof.

Prof. Mulveney Known: All Over the World Proprietor of World's Famous Tape Worm Exterminator

Tape worm is bred from a parasite, it is of pear shape, having two, four and six suckers. It lays the eggs, which are connected together. They develop and form a body, which is the worm. Each section is an individual, having a sucker or mouth. The worm grows much longer than the bowels where it is located, and sometimes a whole colony of them are found, enough to fill a quart jar. It is warm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the host, and remains there to breed another. It is an internal demon, and causes its victims to suffer all the symptoms of disease imaginable. The clearest physicians are led to believe the patient is suffering from some other disease, as nearly every person has different symptoms. Some have been treated for diphtheria, consumption of the lungs, chronic dyspepsia, nervous prostration, melancholia, hypochondria, hysteria, inflammation of bowels, appendicitis, and other complaints, when one or more of these worms were eating their lives away.

Prof. Mulveney has made the discovery to free the victim without injury to the system, destroying the parasite as well as expelling the worm with one dose of medicine without any previous starvation. Visit his office, where he has in his possession the most wonderful collection of these parasites which have been secured from hundreds of people by his famous remedy, some bottles containing colonies of worms, and anyone seeing them cannot imagine how a person could possibly live with them in his bowels. It is surprising the number of people that have them. Thousands have them and are not aware of the fact. The letters and testimonials are enough to convince you of this alarming fact. Some of the most prominent symptoms are: ravenous appetite, dizzy spells, headaches, cramps in the bowels, a feeling of something moving in the bowels. Segments may be in evidence at any time, and this is complete proof of the presence of tape worm. There are many other feelings of distress which would take too long to enumerate. Strange to say some people of strong constitution have very little distress.

Prof. Mulveney's world famous Tape Worm Exterminator is safe, sure and harmless. No starvation, no danger, is not disagreeable to take. One dose nearly always effects a cure. Information free. Phone Park 4830, 187 Dundas street, Toronto. 671

Prof. Mulveney Known: All Over the World Proprietor of World's Famous Tape Worm Exterminator

Tape worm is bred from a parasite, it is of pear shape, having two, four and six suckers. It lays the eggs, which are connected together. They develop and form a body, which is the worm. Each section is an individual, having a sucker or mouth. The worm grows much longer than the bowels where it is located, and sometimes a whole colony of them are found, enough to fill a quart jar. It is warm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the host, and remains there to breed another. It is an internal demon, and causes its victims to suffer all the symptoms of disease imaginable. The clearest physicians are led to believe the patient is suffering from some other disease, as nearly every person has different symptoms. Some have been treated for diphtheria, consumption of the lungs, chronic dyspepsia, nervous prostration, melancholia, hypochondria, hysteria, inflammation of bowels, appendicitis, and other complaints, when one or more of these worms were eating their lives away.

Prof. Mulveney has made the discovery to free the victim without injury to the system, destroying the parasite as well as expelling the worm with one dose of medicine without any previous starvation. Visit his office, where he has in his possession the most wonderful collection of these parasites which have been secured from hundreds of people by his famous remedy, some bottles containing colonies of worms, and anyone seeing them cannot imagine how a person could possibly live with them in his bowels. It is surprising the number of people that have them. Thousands have them and are not aware of the fact. The letters and testimonials are enough to convince you of this alarming fact. Some of the most prominent symptoms are: ravenous appetite, dizzy spells, headaches, cramps in the bowels, a feeling of something moving in the bowels. Segments may be in evidence at any time, and this is complete proof of the presence of tape worm. There are many other feelings of distress which would take too long to enumerate. Strange to say some people of strong constitution have very little distress.

Prof. Mulveney's world famous Tape Worm Exterminator is safe, sure and harmless. No starvation, no danger, is not disagreeable to take. One dose nearly always effects a cure. Information free. Phone Park 4830, 187 Dundas street, Toronto. 671

TWENTY-SIX LIVES ARE LOST IN ZEPPELIN DIRIGIBLE EXPLOSION

Members of Admiralty Board Among Victims of Disaster to Huge Air Craft Which Enveloped in Flames, Plunged Downward From Height of Nine Hundred Feet.

BERLIN, Oct. 17.—(Can. Press).—A disaster in the air, involving the destruction of another great Zeppelin dirigible and the loss of the lives of 26 out of the 27 on board, occurred this morning near the Johannisthal aerodrome, when the new dirigible "L 12" was making its trial trip before acceptance as a main unit of the aerial fleet attached to the German navy.

An admiralty board, consisting of a number of officers, including Lieutenant-Commander Behnisch and Senior Lieutenant Freyer of the German naval flying corps, was on board. The pilot was Capt. Gluth, a veteran steersman in the employ of Count Zeppelin, and Lieutenant Baron Von Biele of the Queen Augusta Grenadier Guards, was making the trip as a guest, and was the only survivor of the wreck. He was injured very seriously and is in a dangerous condition.

Many of the bodies of the members of the crew were burned to such an extent that they were not recognizable. "Coming so shortly" after the destruction of the "L 1" in a hurricane in the North Sea on Sept. 5, when 15 men were killed, today's disaster gave rise to a feeling of consternation in Berlin whose public had within a week been saddened by the loss of many German passengers on board the burned and wrecked Volturno and by the accounts of the terrible mining catastrophe in Wales.

Surmise as to Cause.

Other possible causes for the fire and explosion were that old gasoline was carried on board, or that a spark of atmospheric electricity was developed by the friction of the balloons rubbing together inside the outer framework, as occurred in the case of two of the predecessors of the "L-12". These theories are regarded as the most probable owing to the improvements made in the design of the airship to meet such contingencies.

The loss of the dirigible will apparently fall on the German admiralty, which practically accepted the airship on Sept. 20. Count Zeppelin being held responsible only if the dirigible failed to meet the requirements of the navy department in the tests conducted by its own officers.

The catastrophe might have resulted in a longer list of victims, as fifty school girls from the Johannisthal elementary school were playing in a field when the airship exploded above them. The headway of the airship, however, carried the hull beyond the children, who fled back into the school in a hysterical condition. Their parents had to come to the school afterward to escort them thru the streets.

Hundreds Saw Tragedy.

Hundreds of persons witnessing the flight suddenly heard an explosion evidently in one of the motors in the centre gondola. A flash shot out and the next instant the whole ship was on fire and plunged downward from a height of 900 feet. Every inch of the canvas covering and the balloons disappeared in a moment. A second and a more violent explosion was then heard, the fire having reached the gasoline tanks, filled with about a ton of explosive liquid fuel, and the debris fell into the public highway.

Recovering the Dead.

Pioneers armed with axes backed at the wreckage for two hours before they could extricate the last of the bodies. One man died as he was released. The six inmates of the centre gondola had been blown thru the sides of the car by the first explosion, and their bodies fell four hundred yards away from the wreck of the balloon, which was traveling at forty miles an hour.

Friend of Emperor.

Naval Constructors Neumann and Pictel, and Naval Chief Engineer Busch were among those on board. Commander Behnisch was a personal friend of the emperor. He was formerly navigating officer of the Imperator yacht. Hohenzollern, and later commander of the cruiser Panther. Lieutenant Freyer was formerly personal adjutant of Prince Adalbert, one of the sons of the emperor, and served with the prince on board a torpedo boat.

Lieut. Trenk, who was second in command, Chief Engineer Haussmann, and three engineers, secretaries from the admiralty, were also on board. The pilot was the only civilian.

The "L 12" was larger than the "L 1", which was the pride of the navy until the evening of Sept. 5, she was blown away to sea by a violent gale, and when she struck the water of the

The published plans for the construction of a German naval air fleet provide for the construction of two squadrons of five ships each, between the years 1914-18. The "L 12" is the eighth dirigible to meet disaster.

FLY FROM FIGHTING ZONE

SAN DOMINGO, Oct. 17.—(Can. Press).—The government today issued instructions that the Clyde steamer, Santa Inola, be permitted to call at Puerto Plata to take on board foreigners and natives who desire to leave the republic before military measures are taken against the revolutionists. A large force of troops has been sent from here to attack the rebels.

A special meeting of the Ward Five Central Ratepayers' Association will be held in Clinton Street School on Saturday evening at 8 o'clock to consider the best method to pursue in preventing the city council granting a part of Bickford Park to the Toronto Housing Commission. A large force of troops has been sent from here to attack the rebels.

NO REDUCTION MADE ON C. N. R. ASSESSMENT

King Street Property Still Valued at Two Thousand Per Foot.

Alleging that his neighbor's property was only assessed at \$500 per foot while his was rated at \$1000 per foot, John W. Nettleton, southeast corner of Church and Queen streets, appealed to the court of revision yesterday afternoon. The court reserved judgment.

Mackenzie and Mann objected to an assessment of \$2000 per foot for their property at King and Toronto streets, but the board declined to make any reduction.

The board reduced the assessment on 58 East King street from \$1150 to \$1100.

The Toronto Club, at 107 West Wellington street, appealed against an assessment of \$172,500 for the club, stated that the real value of the premises was about \$60,000, and he thought certain parts of the building, such as sleeping quarters and reception rooms, should be exempt from taxation. The board laid the matter over until a later session, and in the meantime it is expected that the assessment department and club officials will arrive at an understanding.

Robert Parsons, manufacturers' agent at 64-66 Wellington street, appealed against an assessment of \$1500. This was \$200 less than the rate was assessed last year, and the rate was confirmed by the board.

Because he married since his last assessment for income, Arthur Mitchell secured a reduction from a taxation of \$2500 to \$1000.

STILL BIG DEMAND FOR FOREIGN LABOR

Immigration Figures Continue to Increase, But Work is Plentiful.

The number of immigrants to Toronto during the first half of October, according to the records of Dominion Immigration Inspector Birmingham, is 1693, which is somewhat in advance of the same period last year. "Despite this fact," said Inspector Birmingham, "there is still a great demand for foreign labor. We have received plenty of good applications for men and have had no difficulty in placing all the foreigners who have come to us."

MATCHES RESULT IN YOUNG BOY'S DEATH

The Seven-Year-Old Son of Cornwall Parents Succumbs to Terrible Burns.

CORNWALL, Oct. 17.—(Special).—Walter John Robertson, the seven-year-old son of Mr. and Mrs. John Robertson of Cornwall, is dead, as the result of burns received yesterday. The parents of the boy went to the barn to milk the cows, leaving the children asleep in bed. The young lad awakened, started playing with matches and set his night clothes on fire. His screams attracted his parents, who hurried to the rescue, but the unfortunate boy was so terribly burned before the flames were extinguished that he succumbed this morning.

THE TORTURES OF RHEUMATISM

Driven From the System by Dr. Williams' Pink Pills.

The sufferer from rheumatism who has not gone about curing himself in the right way must expect a return of the torture with every change in cold or damp weather. It is not the change in the weather that causes the rheumatism, but it does start the aches and pains. Rheumatism is a deep-seated disorder of the blood. You cannot possibly cure it with outward applications or hot fomentations as so many people do in their ignorance of the real cause of the trouble try to do.

Rheumatism can only be driven out of the system by driving out the poisonous acid in the blood. This can only be done by making the blood supply rich, red and pure. It is in this way that Dr. Williams' Pink Pills cure rheumatism, even after other remedies have failed. These Pills make rich red blood; they go right to the root of the trouble, and the pains and aches are driven from the system and will not return if the blood supply is kept pure. That is the whole secret of curing rheumatism, and if you are a sufferer begin to cure yourself today by taking Dr. Williams' Pink Pills. Among the many sufferers from rheumatism who have been cured by this medicine is Miss Mary D. Kelly, South Durham, Ont. Miss Kelly says: "Some time ago I had a very bad attack of rheumatism. At times I would be confined to bed for a couple of days and would seem almost paralyzed with the intense pain in my back and legs. At such times I could not walk, and my joints were stiff and swollen. I consulted different doctors and took their medicine, but did not get more than temporary relief. At this time a neighbor advised me to try Dr. Williams' Pink Pills and I got a supply. After taking a few boxes I found they were greatly helping me, and I continued their use until the trouble completely disappeared. A can strongly recommends this medicine to others who suffer as I did from the pains and tortures of rheumatism."

You can get Dr. Williams' Pink Pills thru any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-Time Recipe That Anybody Can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wych's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known hair-dresser and druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully glossy, soft and abundant. Agents, Robert Simpson Co.

THEY GLIDE AWAY THE IDLE HOURS

London Society Turns to the Tango for Relief From Boredom.

BRIDGE LOSES GROUND While the Chaste Ecstasy of Grecian Rhythm Rules in Its Stead.

Special Cable to The World. Copyrighted by The Toronto World and N.Y. World. LONDON, Oct. 17.—Tango has completely triumphed over outraged British delicacy. The dancing professors who solemnly declared in convention last July that this barbaric dance could never become popular here, being foreign and repulsive to English sensibility, and they must teach it or go out of business. Tango teas are interfering with the bridge clubs, which have been compelled to combine tango with bridge to retain their popularity.

The craze is affecting all grades of society. Dancing rooms are multiplying all over London, and ordinary dances rarely or never are seen. Night clubs, which had become almost extinct, are appearing in all directions owing to the "deplorable fascination" exercised over the stolid Briton by these new steps.

A Single Garment. In ultra society one very artistic and soulful set it is whispered, is going to better anything possible on the stage or any public dancing room. To the pure form of the tango, these fortunate ones have been able to refine themselves to a point at which the dancing and classic posturing of beautiful young women in a single slimy, flowing, transparent garment means nothing but a passionless, aesthetic ecstasy. The dancers, both men and women are possessed of a perfect proportion and natural grace which triumphs over the ordeal of the practically nude.

Embryo Ballet Idols. These young women, some of them titled and all of them noted society favorites, have gone Pavlova-mad, while the men like to imagine themselves potential Nijinsky's. The dances are directed by the artist brother of an earl whose studio has been transferred into a Greek interior. The emblems, lawn and velvet, red and classic couches.

HAMBURG CONCERT SOCIETY.

The program for the first pair of concerts of the Hamburg Concert Society, to be held on the 20th and 21st of this month at Foresters' Hall, is of very high order. The opening number will be the famous Tchaikovsky trio for violin, cello and piano, played by Ethel Leginska, Jan and Berta Hambourg. Miss Hambourg, who has recently triumphed in England this summer, will contribute the "Sonata Locatelli," and other pieces. Senior Moreno, who makes his first appearance since the Arena festival, will sing an aria from "La Boheme," of Reggiero Leoncavallo. Miss Ethel Leginska, one of the foremost young pianists of the day, will play a group of pieces which will give scope to illustrate her hair-raising technical dexterity and artistic appreciation for which she has become noted. The solos will include a prelude and etude from Chopin, and in lighter vein, the well-known "Blue Danube" waltz. Jan Hambourg's violin solos will be "Meditation," from "Thais," the "Serenade d'Ambron," and "The Swan." Variations. Members of the society will be glad to be informed that Miss Mary Campbell, the talented and charming accompanist, who has been with Edward Lanford, of the Metropolitan Opera, will return in time for the first concert of the society.

WHISKY HOLDS ITS VICTIMS

Until Released by Wonderful Samaria Prescription.

Liquor sets up inflammation and irritation of the stomach and weakens the nerves. The steady or periodical (new) drinker is often forced to drink even against his will by his unnatural physical condition.

Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually tasteless and nauseous. It is tasteless and odorless and can be given with or without the knowledge of the patient. Thousands of men and women have been saved from misery and disgrace by some devoted wife, mother or daughter through this wonderful Canadian remedy. The money formerly wasted in drink has restored happiness, home comfort, education and respect to the families formerly in want and despair.

Read the following, one of the numerous unsolicited testimonials received: "I can never repay you for your remedy. It is worth more than life to me. My husband has been offered liquor several times, but would not touch it. He said it has no charm for him now. May God's choice blessings ever rest on you and yours as my prayers ever do. No one knows it but those who have tried it, and soon as I can I will see others that I know would give anything to stop their husbands from drink. I will give them your address."

Mrs. K. (Name withheld on request), Devon, Alta. Now, if you know of any family needing this remedy, tell them about it. If you have any friend or relative who has formed or is forming the drink habit, help him to release himself from the awful clutches of Samaria. Prescription is used by physicians and hospital.

A FREE TRIAL PACKAGE of Samaria Prescription with booklet of interesting full particulars, testimonials, price, etc., will be sent absolutely free and postage paid, upon receipt of package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write today. The Samaria Remedy Co., Dept. 102, 142 Mutual Street, Toronto, Can. Also for sale in Toronto by G. Talbly Limited Stores.

THE SATURDAY STORY.

(Continued from last Saturday.)

But Wishie was getting much too frightened now to enjoy the fun any longer, she stood gazing with awful looks at the broken mirror. Oh, if the cross old housekeeper should find it out! She thought the best plan would be to steal out of the room, but, on turning around, she perceived that the door had become most unaccountably shut—there was no getting out. What was to be done? While she was turning it over in her mind, down came the ball directly upon Wishie's tall with such a thump! Wishie thought her poor tail must be utterly demolished. She heard an odd sort of chuckling laugh up in the air, and, looking up, saw that the ball had seated itself very quietly in the old place on the top of the cabinet. How her tail smarted! It was worse a great deal than the sting. She was just trying to curl it around to tickle when the door opened and in came the housekeeper! She had not advanced many steps when the broken china caught her eye, her back was toward the mirror, so she did not see that—but she did see Wishie, and exclaiming, "You naughty little kitten, you have been throwing the china!" she flew toward Wishie, and if she could have caught her would, no doubt, have given her a dreadful whiplash; but as she had luckily left the door open Wishie contrived to slip past her and dart out of the room. She flew along the gallery, down the staircase, and jumping out of an open window was soon safely hidden among the shrubs in the garden, before her enemy had descended the stairs. Poor Wishie! the pain in her tail was terrible; she dared not go to her mother, to tell her misfortune, for she knew that if she did her mother would be sure to cuff her soundly. So she lay still under the bushes, licking her tail, and trying to forget her troubles as well as she could. Evening came on, and by and by she began to feel very hungry, and she thought if she could find contents she could beg a bit of her supper, for, of course, nobody else would give her any. So she crawled out of the bushes and stole into the hall. No one was there. She began to grow rather thirsty, and she thought how nice a great dish of cream would be.

LAVISH DISPLAY FOR THE FASHION SHOW

Decorations of Arena Are Artistic and Elaborate—Living Models to Parade Daily.

Elaborate preparations have been under way this week at the Arena, Mutual street, and the huge building has been completely transformed in readiness for the opening of the first Canadian Fashion and Home Exhibition on Thanksgiving afternoon at 2.30 with formal opening by Lady Gibson in the evening.

The decorations are artistic as well as elaborate. The immense dome is covered for the first time with canopy of bunting and the sides are gracefully draped. There is a lavish display of flowers, ferns and palms and brilliant display of electric lighting.

Each afternoon there will be a free reproduction of the New York Fashion Show Parade, in which are shown upwards of two hundred of the finest productions of Parisian and New York designers. A rehearsal is being held Saturday

My Dear Toronto-Orient: Max Blumenthal, one of the proprietors of the Triangle Whist Company, whose ramshackle old factory was swept by fire two years ago last March, when lives were lost, has at last been found guilty by the courts, of having the doors of his factory locked, thereby breaking the regulations of the fire department.

In imposing the minimum fine of \$20, Chief Justice Russell stated that "in view of the fact that the defendant had expressed his intention to abide by the law in the future, he would be lenient."

I shall never forget the horror of that day in New York, nor my interview with a reporter for the Associated Press, who "covered" the fire. It was a week after the terrible catastrophe that I met the man so big game, so wild-eyed that I hardly recognized my old friend.

"What on earth has happened to you?" I asked him in amazement. "You look twenty years older than you did a week ago."

"I feel older than the world," he said. "I haven't slept since the last week. Oh, it was terrible, terrible! I have been thru two wars, as war correspondent, and I have seen horrible sights—men blown to pieces by shells—but I have shared their danger with them—and always they were fighting for a cause; and you had a cause, and fighting; but those poor little girls! They were burned like rats in a trap—burned to a cinder—and they jumped every time I close my eyes. I see it over and over again—the scurrying firemen putting up their nets, and the surging crowd of women, and shouting encouragement to the women, to jump—and then—half a dozen jumped together. The height was so great, the momentum so ter-

rible that they went thru the nets. Did you ever drop an egg on the floor?—well, their little womanly bodies were smashed just like that, and lay just as still. Oh, it was terrible, terrible!"

The tears poured down the man's cheeks, and he half-sobbed: "God knows it wasn't necessary that those poor girls should be martyrs to the carelessness and greed of rich men. Those inhuman cowards should be made to suffer for the lives they have thrown away for the broken-hearted families in the east-side tenements."

Certainly it seemed that public opinion would force punishment upon the guilty men; but the case has been kept in the background for more than two years, and now, one of the men (where, by-the-way, is the other?) is free.

There is a line in Bayard Veiller's play, "Within the Law" call it a "Court of Law" we have no "court of justice" in this country!

It is my firm belief that if the women of New York State had the vote, the chief justice who has, in the face of the womanly humanity, handed down this monstrous decision, would be recalled, even as the corrupt California judge was recalled from office last April after his work and influence in California.

Is there a court of justice in New York State? And did it cost Max Blumenthal only \$20 in cash to go scot-free? Perhaps an investigation would prove the fallacy of both these ideas.

A twenty-dollar fine!—in view of the fact that the defendant had expressed a disposition to abide by the law in the future."

And so it is made safe and easy for other factory owners with the greed of money in their hearts to house their employees in fire-traps.

Do you wonder that socialism is growing in the United States? RAGGS.

METHODS AND MEASURING

EXPERIENCED cooks always measure their ingredients, not so carefully as the novice, but with estimating hand and eye and with knowledge gained by familiarity with the work in hand.

Firm principles are the base of all their processes; because when these are mastered they control the results.

Proper measurement is the most important part of cooking. It is not only an exact quantity of a given article, but the proper balance of proportion.

This must be understood, as foods are not always uniform in quality. One year flour will be moist and less water be needed for mixing doughs and batters than in another season.

Even eggs vary in size; an egg cake recipe may call for the whites of twelve fresh eggs and two cakes baked by it will vary in size, one being a third larger or smaller than the other because the eggs in it were larger in size, newly laid and more thoroughly beaten.

Proper measurements are mastered without difficulty and a table of proportion should be always in evidence at baking time.

A cupful of anything is a half a pint since the Boston measuring cup has been accepted as the standard. It may be had in glass or metal and a well furnished kitchen will contain one of each. The glass cup has the ounces marked upon it and is used for dry ingredients and cold liquids; the metal one is necessary for everything hot.

Many persons fear to use recipes measured by weight. If they will remember that "a pint is a pound the world around" and that a cup holds half a pint or half a pound, this bugaboo will vanish.

A spoonful of lard or butter or flour or anything means a spoon filled and rounded over with as much above the bowl as in it.

A level spoon of salt or spice requires that the material in the spoon be leveled off with a knife.

A triple measuring spoon is a new convenience that helps to uniform results on baking day; it consists of large, small and half-size teaspoons fastened together at the top of the handle with a pivot.

A tablespoon of liquid weighs half an ounce.

A tablespoon of solid matter an ounce.

A teaspoon of flavoring extract will flavor a quart of liquid.

Ten eggs weigh a pound.

A teaspoon of baking powder will leaven a cup of flour.

A level spoon of salt or spices is necessary to season a half a pint or half a pound of flour.

Two ounces or two tablespoons of gelatin will solidify three pints of liquid.

Four tablespoons of cornstarch are needed to every quart of liquid for heavy custard.

A teaspoon of soda is added to every cup of sour milk in recipes thus leavened.

A good proportion of mixed spice is three teaspoons of cinnamon, one of cloves, two of nutmeg and one of allspice. As this mixture is used in spice cakes, ginger-bread, molasses cake and many puddings you should be forehanded enough to have it ready mixed and at hand.

A cup of butter means butter broken in bits and laid in the cup lightly; when solid butter is called for it should be pressed down.

Evening by the three hundred girl Guides who will be present on Thanksgiving evening on a huge stage at one end of the hall.

On Thanksgiving also will be given the first display of gowns, cloaks, hats and furs on living models on a special stage. This will be repeated each evening with different garments. There will be a musical program and numerous other special attractions. The Women's Art Association of Canada will be at home in the tea-room on Monday.

Fifty Cents Buys a Piano. Ye Olde Firme of Heintzman & Co. Ltd., 193-195-197 Yonge street, are loaded up with Square Pianos that have come to them in exchange when selling their own famous uprights and grands. These have been thoroughly overhauled by their own workmen and are guaranteed in good condition. They are priced at from \$50.00 to \$125.00. Make your choice and the piano will be delivered to your home on agreement to pay fifty cents a week.

Stops Nasty Discharge. Clears Stuffed Head. Heals Inflamed Air Passages and You Breathe Freely.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and, instantly your clogged nose and stuffed-up air passages of the head will open. You will breathe freely, dizziness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils, penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't be awake tonight struggling for breath, with head stuffed, nostrils closed, hawking and blowing the catarrh or a cold, with its running nose, foul mucus dropping in the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm"—and your cold or catarrh will surely disappear.

THE GARDEN

CONDUCTED BY RACHEL R. TODD M.D.

Destroy Cocoons Now.

Notwithstanding the constant war that has been waged upon all garden pests by our amateur gardeners and others, also, and in spite of the sprays and fumigations and washes that we have advised from time to time in this department, let no one deceive himself; for, as sure as a garden is a garden, there will always be found a number of destructive pests hiding away in some obscure corner.

No one need be reminded that "prevention is better than cure," but it is much easier to quote oftentimes than to obtain the cure. As we have so frequently pointed out, "eternal vigilance is the price of success," by which constant quoting we simply mean to emphasize the truth that the truth that one eye must be ever on the alert, as far as any garden is concerned.

Now that so many of our young shrubs and specimen trees are beginning to stand skeletons in the clear autumn air, a keen eye will notice here and there, hidden in the crotches of the limbs, both large and small, small, dark shadows that, on closer inspection, will prove to be cocoons. These cocoons are also often attached by a strong, almost invisible thread to the ends of small branches and twigs. There they may hang not the faintest idea of winter, with their menace of sleeping life, ready at nature's own appointed time to turn loose upon a tender young world of pale green things, a swarm of hungry vermin.

It is an actual fact that thousands of people in this very city of ours have not the faintest idea of the nature of these cocoons; what they contain, what are their dormant positions, what the utter ruin lies within or what terrible havoc has already been wrought by one kind of cocoon alone being left to mature on the branches and twigs of the trees.

THANKSGIVING ENTERTAINMENT

At Mr. Campbell's annual Thanksgiving entertainment in Massey Hall on Monday night, an exceptionally interesting program will be presented. Mr. Frank Yeigh's beautiful views of what is most interesting in the British Isles, prove a very strong attraction, apart from the music of the 48th Highlanders' Band and the appropriate vocal numbers, to be rendered by three leading singers, Miss Barbara Foster, Mrs. Florence McVie-Craig and Mr. Donald C. MacGregor. The leading features in the program are: Musical selection, "English airs," by the band; "The Death of Nelson" (with band accompaniment); Mr. MacGregor, song, "The Dear Homeland" (with band accompaniment); Irish views, Mr. Yeigh; song, "The Dear Little Shamrock"; Mrs. Craig; song, "Come Back to Erin"; Mr. MacGregor; musical selection, "Scottish airs," by the band; Scottish views, Mr. Yeigh; song, "Down the Burn, Dear Lattie Shamrock"; Mrs. Craig; Miss Foster, song, "Cam Ye by Athol"; Mrs. Craig; song, "The

THE FALL WEATHER

HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next it is cold. These sudden changes bring on colds, cramps and colic unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"The Passing Show of 1912."
of all the plays of music offered
theaters here last year, none are
more pleasantly recalled than the big,
delightful New York Winter Garden
production, "The Passing Show of
1912," seen at the Alexandra last win-
ter. At that time this big combina-
tion of fun, color, variety, charming
melodrama, music, and superb travesty
artists gave such universal satisfac-
tion and scored such a success that
when then, efforts were made to retain
it for another week. This could not
be arranged at the time, however, so
a return booking was set for the com-
ing week.

"The Passing Show of 1912."
The "Passing Show of 1912" has
traveled across the country since last
seen here and is now on its way back
again to begin rehearsals for the new
entertainment which is to follow "The
Passing Show of 1913" at the Winter
Garden now in New York.

"The Whip."
Some of the most remarkable real-
istic stage pictures ever seen
on any stage are shown in
"The Whip." The Drury Lane
success, coming to the Alexandra
Theatre week of October 27, with mat-
inees on Thursday and Saturday. That
these will be unusual and exciting
character is apparent from the fact
that thirteen complete stage sets
are required for as many scenes,
dozen huge tread-mills, and five
electric-driven panoramas are neces-
sary for the race scene, while real
trucks, locomotives and rolling stock
are essential for the sensational col-
lision. Two trains are shown run-
ning at full speed in plain sight of
the audience.

Thurston, the Magician.
The mysterious Thurston, with a
new program of tricks and illusions,
will be the attraction at the Grand
Opera House next week, opening with
a special matinee Monday (Thank-
sgiving Day), and local theatregoers
will have an opportunity of witnessing
what is said to be the most varied
program given by this inimitable mas-
ter of magic. There are numerous
marvels in Thurston's program, but
perhaps the most elaborate and mys-
terious is the great donkey illusion,
"Balam and His Ass," followed by
"The Daylight Ghosts," "The Peikin
Pianist," "The Shadow People,"
"The Bangkok Bunglow," "The Slam-
bang Cabinet" and "The Chair of Asia."

Gus Edwards' Song Revue at Shea's.
Next week at Shea's Theatre the bill
is headed by Gus Edwards, the popular
song writer, with his song revue of
1913. Mr. Edwards is assisted by
Lillian Boardman and 30 youthful
singers, presenting the musical ex-
travaganza, "The Fountain of Youth,
in Six Spouts." The offering was
written and staged by Mr. Edwards
and the lyrics are by Will Cobb and
Edward Madden. Mr. Edwards has
added many of his new songs to the
revue since it was last seen here and
is also singing many of the old favor-
ites. The special extra attraction on
the bill for the week is Maria Lo and
her company, presenting "Purcellin,"
a living reproduction of famous Dres-
den figures shown in a series of artis-
tic tableaux. Maria Lo has presented
this offering in Europe and has every-
where met with success. It is one of
the most attractive novelties on the
American stage. A welcome feature
of the new bill is the Kaufman
Brothers in their "Dumbell Nonsense."
These black-face comedians are among
the best in vaudeville. They have ex-
cellent voices and always keep their
act up-to-date. Irving Newhoff and
Dode Phelps appear here for the first
time in a comedy sketch called, "In
Case of General Delivery." Wherever
the act has appeared it has been well
received and is sure to please Shea's
goers. Fisher and Green are new-
comers at Shea's and are presenting
James Horn's comedy, "The Partners."
The offering, in two scenes, is filled
with bright lines and clever situations.
Leon Sprague and Nellie McNece are
clever athletic entertainers on roller
skates. They make a pleasing picture
in their elaborate costumes and have
a special stage setting. Loughlin's
comedy dogs are clever canine com-
edians. They create an end of fun
for the grown-ups as well as the chil-
dren. They do all sorts of comedy
stunts and are among the best-trained
animals on the vaudeville stage. The
bill for the week closes with a new
picture on the kinetograph called, "The
Shop Girl's Big Day." Musical Di-
rector Augustus Nauman has pre-
pared a special musical program for
the week, to be played before each
performance by Shea's Theatre Or-
chestra.

The Popularization of David Bispham.
The Miss Schumann-Hink es-
sayed comic opera a few years ago,
she regarded the departure as a "dark"
of classical music. Doubtless Mr. David
Bispham, who is to appear at Shea's
shortly, regards in the same manner

his appearance in vaudeville. There
is apparently no diminution in the
great baritone's art. He still sings
selections from grand opera with the
most superlative virtuosity of the
experienced vocalist and with the in-
stinct of the born actor. And with
Mr. Bispham the more popular airs
are interpreted as with a new life and
in golden tones. Vaudeville has
claimed distinguished artists. Within
the past few seasons Bertha Kalisch
and Ethel Barrymore have wandered
from the exactions of the legitimate
into the paths of vaudeville dalliance.
But Mr. Bispham's advent means
something more. In the first place,
he is reaching a class of people to
whom his art was a matter of hear-
say, and, in view of Mr. Bispham's
temperament, he must regard such
acquaintance as a mutual pleasure.
Furthermore, his art becomes more
accessible to those who have admired
him, but have failed because of fi-
nancial considerations to indulge their
appreciation in any proportion to their
desire. Vaudeville has long been ex-
coriated for its sins. But it seems
also to have something to do with the
general uplift. There is a genuine
debt of gratitude from both the artist
and his hearers to vaudeville man-
agers for this delightful "popu-
larization" of David Bispham.

Blanch Baird's Big Show.
Patrons of the Star Theatre are
looking forward to the next week
when Blanch Baird's Big Show will
be the attraction. Miss Baird has
long been a favorite with burlesque
lovers and now that she is at the head
of her own company they expect a
company of the highest order. In the
two instances of "The Pink
Lady" and "Oh! Oh! Delphine." The
interest naturally turns to the third
effort, "The Little Café." Now in re-
hearsal and the question is can they
make it three in a row? There will
likely be the regular matinees on Wed-
nesday and Saturday.

Classical Dances.
Wide interest is being taken in the
national evening of classical and na-
tional dances which has been arranged
for Wednesday, Oct. 22 (Preventionium
Hall). The program is in charge of
Arenia, Miss Sternberg in charge
of the program, and Miss Rita
Haynes will repeat the Cossack dance
"Will of the Wisp" in which she
made such a success at Miss Stern-
berg's recital last May. Miss Haynes
will also dance a Chopin waltz with
classical group. The program will
be appropriately and prettily cos-
tumed, the black and silver of Will
of the Wisp, blue chain and chain
with rose garniture of the classical
waltz, adding to the effectiveness of
the dances.

Miss Zoellner's Recital.
Miss Valborg M. Zoellner, a dis-
tinguished pianist, and pupil of W.
O. Forst, will give an evening de-
voted to the compositions of Clara-
e de Luca, who, it may be remember-
ed is a Canadian composer, whose
works are little known by our
public, yet who has a large reputation
in Europe and the United States, as
a composer of fine creative power. The
recital will take place in the Inter-
national Foresters' Hall on Saturday
evening, Nov. 23, with Mrs. Elizabeth
Pawlowska accompanying by singing
several of Mr. Lucas's songs.

Pawlowska Coming.
Pawlowska and her company will
be seen in Toronto before the end of
the year.

Coming Attractions.
Manager Solman of the Alexandra
Theatre, has just received from New
York a list of attractions, which will
be seen at this popular playhouse
this season. Among them are some
old favorites, and many new ones,
which will be seen in Toronto for
the first time. These include "The
Romance," with Doris Keane; the Inter-
national Triangle of Stars, Gertrude
Hoffman, Madame Polaire and Lady
Richardson; "The Winter Garden,"
from the New York Winter Garden;
"Sir Johnstone Forbes-Robertson,"
with Gertrude Elliott; "The Pass-
ing Show of 1913," with 30 young
loves; Lew Fields, in "All Aboard,"
who comes direct from his long run
in Chicago; "Believe Me, Xantippe,"
Robert B. Mantel, in Shakespearean
repertoire; "Family Cupboard," "The
Bird of Paradise" (return visit); "The
Tik-Tok Man"; the Lillian Russell
Company; "High Jinks," a musical
farce, by the author of "The Fire-
bird" and "Sweet Pa Lady"; "For-
everham; Anna Held, the National
Grand Opera Company; "Fanny's First
Play," Sam Bernard, in "All for the
Ladies," James T. Powers; "At Bay,"
with Chrystal Hearn; Lewis Wal-
lace.

Forrester's "American Beauties."
B. F. Forrester's big burlesque "Amer-
ican Beauties" will be the attraction
next week at the Gaiety Theatre. The
company, which is headed by the
most famous of all tramp comedians,
Edgar Bixley, includes such well-
known favorites as Charles A. Ellis,
and burlesque as the Lillian Russell
Company; George S. Banks, Zella Clay-
ton, Dave Mallen, May Holden, Ger-
trude De Vere, and a chorus contingent
of thirty-five beautiful and shapely
young women.

The Benson Players.
The tremendous ovation given to F.
R. Benson and the Stratford-on-Avon
Players at Montreal this week just-
ified Sir Johnstone Forbes-Robertson
in his prophecy, made at the luncheon
tendered to Mr. Benson prior to his
departure for this country, that he
would be enthusiastically welcomed.
Mr. Benson will open a week's engage-
ment at the Princess Theatre on Mon-
day, October 27.

Thanksgiving Church Concert.
With two popular artists furnish
the program on Monday evening, the
Ladies' Auxiliary of College Street
Presbyterian Church are likely to have
a big crowd. Miss Jessie Alexander

groups of songs.

The concert in Massey Hall on
Friday night will be his third since
arriving in New York. The ad-
vance sale has been very heavy.

Klaw & Erlanger's musical comedy
success "Oh! Oh! Delphine" comes to
the Princess Theatre for one week
beginning next Monday with a main-
tenance. The company that helped to
make it famous in Broadway remains
intact and the original production has
been on tour. "Oh! Oh! Delphine"
holds all records for musical comedies
in America in the way of sustained
popularity during its first year. This
time was exclusively devoted to New
York, for it began its metropolitan
tour with the Knickerbocker Theatre,
and in the middle of that run was
transferred to the New Amsterdam
Theatre, and finished out the season
there. It was then touring in the
United States, and the combined work
of the same people who gave us
"Destiny" and "The Pink Lady,"
C. M. S. McLellan adapted the story
from a French farce, "Villa Prim-
rose," by Georges Feytaud and Marcel
Guillemaud. He also wrote the lyrics
and outlined a great deal of the hu-
morous business of the production.
The piece will be presented in a
cheerful and as well as directing the
early presentations of the piece. Klaw
and Erlanger mounted it in their lav-
ish manner, and the result was a
looked after the staging of the story,
while Julian Mitchell put on the
rich and colorful costumes. The
Anderson designed the color schemes
and brilliant costume effects. This
show that it has been very successful
in the two instances of "The Pink

What "breaks the ice?"
Wrigley's SPEARMINT It brings smiling thanks. It starts conversation.
It's the little-cost but popular offering. Smokers or non-smokers enjoy it - old and young enjoy it - women and men - grown-ups or children - all are glad to get it.
This tasty offering is liked for its flavor as well as for its benefits to teeth, breath, digestion, appetite - flatulence, heartburn, sea or car sickness. It's a mighty handy thing to have around.
Chew it after every meal

The Overcoat Shop

Hop to it! Your chance for a London Tailored Top-Coat

Look to London for your styles in gentlemen's dress, says a noted sartorial authority. You are doing so, and you are demanding London style and London tailoring; and it's right you should, for these London tailors just seem to have the "edge" on all the other tailor folk the world over.

Today, if you stepped out into a fashionable West End thoroughfare over there, you would see the best dressed men wearing just such coats as we're offering in this clearing lot of fifty light and medium weight overcoats in Harris Tweeds, Scotch Cheviots, Irish Homespun and Covert Coatings.

They're the correct thing for now in cut, color and weight—they're shower-proof weaves—they're \$30.00 values—they're yours while there's your size in 18.50 the lot at

Men's Hats. That reminds me. Most men would as soon let Easter go by without a new hat as a Thanksgiving Day.

Most men appreciate the quality that is guaranteed them in selecting their head-dress here, for such names as Christy, Peel, Glyn, Knox, Youmans, Malory, Moissant, Vallon and Argod and Borsalino are any man's guarantee.

These are the famous makers we ask you to choose from. Silk Hats \$6.00 to \$10.00. Opera Hats \$6.00 to \$8.00. Derby Hats \$2.50 to \$5.00. Soft Hats \$2.00 to \$6.00.

Men's Gloves Special—This is a lot of real leather gloves in grays and tans; a comfortable, serviceable and dressy street glove—a \$4.00 value—a special offer at \$2.00.

THE PROPOSED WINNIPEG STOCK OF BROCKTON SHOES NOW ON SALE

All \$4 Shoes To Be Sold at \$3 the Pair

New Fall Stock
All Styles All Leathers All Sizes

THE REASON WHY: It was our intention to open a chain of stores in Western Canada. We had ready for shipment upwards of \$100,000 worth of shoes. At the last moment we decided this year not to invade Western Canada as two of the leases we had the intention of getting were not very advantageous. This leaves us with a large surplus stock which must be sold this season.

This fresh stock of \$100,000 will be divided up between our two Toronto stores—264 Yonge Street and 119 Yonge Street—and will be sold at \$3.00 the pair, smashing our \$4.00-No-More-No-Less standard price.

We guarantee every pair to be our Brockton \$4.00-No-More-No-Less shoes and to be stock fresh from the factory. We have all leathers, all sizes and upwards of 50 different styles. This is an opportunity to secure a pair of Brocktons at a desirable price to test their worth. Remember, this is not a clearing sale. This is a sale of new stock which was meant for a chain of stores in Western Canada.

This Fine Old Gentleman Answered 187 Letters in Regard to "Fruit-a-Tives"

People in All Parts of Canada Wanted to Know More About These Wonderful Tablets Made From Fruit Juices.

N. JOUBERT, ESQ.

"I heartily recommend 'Fruit-a-tives' to all who suffer from Constipation and the painful consequences—Piles. I am now over 74 years old and suffered for over twenty years with Constipation and Piles. I tried all kinds of remedies, saw the doctors and took their medicines, but nothing cured me. About four years ago I tried 'Fruit-a-tives'—found they were doing me good. Then I procured an additional supply and was much gratified at the wonderful good they did me. After taking four boxes, I felt well—my bowels were regular and the Piles had disappeared. My wife was troubled for three years with Asthma and Eczema on the hands, which made her hands almost useless. The doctor gave her several ointments to use, none of which had any effect. He also advised her to use rubber gloves (she wore out three pairs). I persuaded her as a last resort to try 'Fruit-a-tives'. The effect was marvellous. Her hands are cured and the Asthma has also left her. We both attribute our present good health to 'Fruit-a-tives'."

Whether it was the fine, honest, straightforward facts that made so many people think over this letter, is hard to say. But the fact remains that one hundred and eighty-seven persons have written Mr. Joubert to enquire more fully about 'Fruit-a-tives'. And this delightful old gentleman, who is now 74 years old—happy in his release from pain—grateful for his cure—took the time to answer every enquiry. Take his advice and try 'Fruit-a-tives'.

White Sox Off. CHICAGO, Oct. 17.—The White Sox Baseball Club, Chicago champions, left tonight for Cincinnati, O., where tomorrow they will meet the New York Nationals in the first game of a baseball tour around the world. The local players left aboard a special train, which is to be their home almost continuously until they board the steamer at Vancouver, Nov. 20, for Japan. President Connelley and a large number of reporters accompanied the team. Games have been scheduled to take place almost daily before the team embarks on the Pacific Coast.

Healthy Nerves

The Highway to Happiness—Let Sanguinol Put You in the Way. "I will never forget the benefit my wife received from Sanguinol. It is the way one thankful husband expresses it in writing of the wonderful cure made by this most excellent tonic. The Sanguinol treatment was not tried until her own physician had said of her that she was 'hopelessly run down.' She had also tried several other remedies which promised to cure, but failed. What Sanguinol did for this lady it will do for anybody. Are you anaemic? Has your energy left you? Are you nervous? Do you have indigestion? Are you sleepless? Are you easily irritated? Feel out of sorts generally? Any of these symptoms go to prove that the nerve centres have gone wrong and neglect of them will mean health disaster. Begin without delay with Sanguinol tonic treatment. It carries with it its own guarantee for relief and cure in the unsolicited testimony of those who have proved its efficacy. Sanguinol is an excellent nerve builder for the boy or girl who seems to be 'growing like a weed.' It is a natural nerve helper for the active and overworked in middle life, and a life and health prolonger for those of ripier years. It is universal tonic that tells for health."

TO REHABILITATE NORWAY'S FORESTS

The forest lands of western Norway are almost devoid of forests, except where protection is afforded from the sea winds. The bulk of the forests, consisting of pine, birch and spruce, are found farther in the interior, at the heads of the fjords and in the valleys.

An association known as the Berggren Green-Planting Society, which was founded in 1900, to rehabilitate the rapidly dwindling forests and main-

tain additions, made from time to time with the society's slender means, has undertaken a monstrous task, one that will require many years and large expenditure of money and labor as it proposes to cover the mountain sides and the unutilizable areas of western Norway with forests as they were centuries ago. Assisted by wealthy contributors and timely government aid, it has excellent prospects of succeeding.

Since the society started thirteen years ago 36,000,000 young trees have been produced of which more than 28,000,000 were planted on 10,000 acres within the borders of the two Berggren counties. The annual report shows that there are now 144 tree-planting societies in these counties, which last year planted 2,276,000 trees.

FIRED SIX SHOTS WITHOUT A MISS

In Fifty-Seven Seconds, Means New World's Record for Arkansas.

HOPES FOR PENNANT

Look for a Victory Over Dreadnought Idaho.

To the navy mind there is no greater game in the world today than the struggle for the fleet pennant for excellence in battery practice, a rivalry that extends from squadron to division, from division to ship, from ship to turret, and from turret to gun. The ship that wins this pennant claims it over all, and all of her complement are expected to carry pointer-pigeon breasts so long as the emblem floats above them.

For a long time the Dreadnought Delaware has borne the pennant, to be envied and coveted by the rest of the Atlantic fleet. Then, at the last battle practice, the battleship Idaho went to the ranges along with the champion and the rest of the fleet, and in the final count was awarded the pennant. This would have been plain sailing, and there is no trophy over the newer Dreadnoughts. What are Dreadnoughts for except to dread nothing and excel in everything?

With this in their mind, the Dreadnoughts of the Atlantic fleet have been out on the deep-sea target ranges for preliminary practice, and recently the First Division came into the harbor in enough room in the city for the crew of the Arkansas, particularly for that part of it which comprises the turret, to make a midship battery. For in the preliminary practice off the Virginia Capes they had broken the world's record for rapid firing, and if there is anything to stop them from getting the pennant they can't see it.

The record that this turret made is the most marvelous of any navy gun. In a world-breaking one of six shots fired from 12-inch rifles within a space of 57 seconds, each shot at the target.

There were 12- and 16-inch guns that belted from the ships at intervals of about 3 minutes between shots, with an average of 3 per cent of hits, even when the target range was 17 miles. This was a record for rapid firing, and if there is anything to stop them from getting the pennant they can't see it.

Regulation Moving Target.

The practice was at the regulation target used in preliminary practice—canvases oblong 12 x 14 feet, mounted on rafts and towed at a speed of five knots an hour. At the practice with reduced charges, the range was 17,000 yards, but at these reduced ranges the targets seem not much bigger than the tip of a seagull's wing. When it is taken into account that in this record firing there were three leading intervals of 10 seconds each, it will be seen that there were 32 seconds in which to revolve a 500-ton turret and to train two 20-inch guns to take shots from a moving platform at a moving target.

The Arkansas is kept up with this steam over its preliminary record, and between her first and second turret is a certain certainty of her winning the pennant in battle practice.

That practice, of which this one is preliminary, is to come early in October, when all the available ships of the fleet will be put to the range off the Virginia Capes. According to Washington despatches President and others will witness the struggle to take the trophy from the Idaho.

Who the keener rivalry has attended the former contests on the battery ranges and the ensuing practice will be to see all others in this respect. All the great new super-dreadnoughts, when these sombre giants open on the targets, will be an impressive spectacle when they will also be the gun. The who hits the target when the bullet-mouthed rifle roars.

INDIANS' METHOD OF MAKING CANOES

Primitive Type of Redman Had a System All His Own.

If an Indian of the old type wants to make a canoe, he follows a certain procedure, which is a matter of tradition. He takes a log of the dimensions he prostrate trunk of the dimensions he desires. In either case he proceeds to cut a notch in the log, and then, with a hatchet, he removes the bark and hollows out the log, leaving a smooth surface on top and bottom from end to end. Next the log is turned over and the outside fashioned.

The log is hollowed by burning and chopping. A fire is built on the top and so carefully watched and skillfully directed that when the burning is finished the big piece of timber is neatly hollowed, with wonderful symmetry, from bow to stern. The whole concave surface is left so even and nicely channeled that when the surface is worked down to the sound timber by the use of a buckhorn adze there remains but little alteration to be made.

The log is turned over, with the hollow side down. A slow fire is employed to shape the exterior, and once more the surface is neatly worked until the actual form appears.

When the interior and the exterior of the canoe have been finished to the liking of the builder, his next step is to "stretch." Without this operation the craft would be entirely unworthy. To make the canoe seaworthy, it is set level on a firm skid foundation and filled with water. A fire is then built and stones of a red heat are thrown into the canoe until the water boils. This boiling is maintained until the walls of the canoe which are more than an inch thick, become as pliable as sole leather and capable of being stretched at a foot or more beyond their normal width.

The builder's attention is now turned to the alignment of the properly fitting sticks put in transversely along the gunwale, increasing in length from the ends to the middle. By means of these stretchers a cordage is stretched a foot and a half in diameter will furnish a canoe of three or four feet in width. The width of the canoe varies of course, with the length.

The sides of the canoe having been brought to the desired curvature, the water is then emptied out and the shell allowed to dry thoroughly, but without cracking.

The finishing touches consist of a smearing inside and out with fish oil, together with artistic decorations in brilliant colors.

TRIAL A FARCE, SAYS SULZER

Continued From Page 1.

"I am not going to testify in this trial," said Mr. Sulzer, who was called to the stand by the defense, "because I am not a party to the case, and I am not interested in the result of the trial." Mr. Sulzer, who is a prominent lawyer, said that the trial was a farce and that the prosecution was a mere attempt to make a political statement.

He said that the evidence against him was so weak that he could not have been convicted, and that the trial was a mere attempt to make a political statement. LOSS OF THE GOVERNORSHIP WILL BE THE PEOPLE'S GAIN.

Mistakes are often blinding in disguise. If my undoing by an arrogant and corrupt and desperate boss shall be the humble means of forever destroying "bossism" in the State of New York, I shall be content and feel that I have not struggled vainly for better things.

Kept no Funds.

"Another thing, every dollar given me, which I deposited to my personal account, was subsequently turned over by me to the committee in my office or to an agent of Mr. Murphy, or to the state committee. The truth about this is known. I will go into details later on."

Such has been said about my financial affairs. I want to tell the public the truth about my financial condition so that there will be no more falsehoods about it.

"Before I was a candidate for the governorship I was in debt about \$70,000 and had more assets than I have at present. I had on deposit in the Farmers Loan & Trust Co. before my nomination, over \$11,000; I have on deposit there now not much more than that. All the money I possess today, in all I am poorer than I was before the fight for the governorship began last fall.

Thanks Supporters.

I want to thank Judge Cullen and the members of the court who voted for my vindication; the able lawyers who stood by me and gave me wise counsel; and the friends of good government throughout the state, whose belief in my honesty and whose faith in the rectitude of my intentions never wavered.

"I have fought a good fight against tremendous odds for honest government; I have kept the faith; I have been true to my official oath; I have stood by the people; I have dared to defy boss Murphy, and I did it in the face of threats of exposure and personal destruction.

"Had I but served the boss with half the zeal I did the state, Wm. Sulzer would never have been impeached.

"Those familiar with the facts can testify that Peck lied about me to save his job; that Morgenthau was fooled by the clever ruse of an unscrupulous enemy; and that Allan Ryan was in Albany several days under the tutelage of astute counsel to aid the prosecution at the psychological moment in any way desired.

"I suffice it to say that Allan Ryan came to see me; I did not go to see him, and I never asked him, or any other man, to request Senator Root or the Delancey Nicollet to see Mr. Barnes or Mr. Murphy, or anyone else for that matter, to do aught for me regarding the trial. These matters were afterthoughts of the prosecution to injure my cause with the public and prejudice

AT SOME FUTURE AND MORE OPPORTUNE TIME, I PROMISE TO MAKE A FURTHER PUBLIC STATEMENT.

I promise to make a further public statement, and I am inclined to the conclusion that I would rather express my views from the platform, where I can look into the eyes of the people and they can look into mine and judge for themselves whether I am telling the truth."

NEW CONVENIENT TRAIN TO WINNIPEG-CANADIAN PACIFIC.

The popularity of Canadian Pacific service, and excellence of that road's equipment, have been so greatly appreciated by the traveling public that it has been found necessary to put into service an entirely new through Standard Express Train between Toronto and Winnipeg.

Commencing Sunday, October 20th, the "Gate City Express" will run daily from Toronto at 2:30 p.m., and will run daily thereafter, arriving Winnipeg at 3:25 a.m. second morning. The train will consist of the highest-class modern equipment: Observation Compartment Car, Standard Sleeping Car, Tourist Sleeping Car, Dining Car, First-Class Coach and Colombine Car. This will be found the most convenient and best train between Toronto and Winnipeg on account of the daylight departure from Toronto at an hour when the Union Station is not badly congested, and also on account of the early hour of arrival at Winnipeg.

The present "Vancouver Express" will continue to leave Toronto at 10:20 p.m. daily and will consist of the same equipment as the "Gate City Express."

Full particulars from any Canadian Pacific Agent or write Mr. G. Murphy, District Passenger Agent, Toronto.

RHEUMATISM

Back Pains, Sciatica, Lumbago, Kidney Pains, Nervousness, Indigestion

My Electric Belt cures these troubles. It has cured thousands of cases in the past few years. It is curing scores every day. My mail is full of letters of gratitude from cured patients. Have you Rheumatism or any pain? If so, lay aside those drugs and plaster, which long experience tells you will never cure, and enjoy the warm, glowing from

DR. McLAUGHLIN'S ELECTRIC BELT

It will not fail; it cannot fail; for it pours life into the blood, loosens up the stiff joints, and limbers the muscles. Pain cannot exist where my Belt is worn. If you are in pain it will relieve you in a few weeks.

HAS THROWN HIS CRUTCHES AWAY

Box 225, Owen Sound, Ont.

Dear Sir—I am pleased to tell you that I am able to follow the team all day. The money I paid you for your Belt was the best investment that I ever made. When I got your Belt I had to use crutches, to get around, and now I am able to do all kinds of farm work. I remain, yours truly, GEO. STICKAY.

MR. JAMES ANDERSON, Let 3, Con. 2, London, Ont., says: "I am glad to say that the Belt I bought from you on the last day of July, 1908, cured me of Sciatica. I wore it about four months, and have not been troubled since."

Dr. McLaughlin: "Had I but served the boss with half the zeal I did the state, Wm. Sulzer would never have been impeached."

Dear Sir—Your Belt has entirely cured me of my troubles. The Rheumatism left my knee and back after only a month's use, and I believe your Belt, with proper care, will do all you can. I will certainly do all I can in recommending your Belt to anyone who is in need of treatment. Wishing you every success, I am, Yours truly, JOHN W. HALLIDAY.

Let me treat your case in my own way. Let me apply a steady current of Galvanic Electricity to your system with my Dr. McLaughlin's Electric Belt. Wear this application night after night, for a few weeks, and it will drive out all those pains and aches; it will restore equilibrium to your nervous system; it will cure you.

If You Are a "Rent Payer" Come With Us on Monday to

Regents Park

On Dawes Road---South of St. Clair Ave.
Near Store, Bank, School, Church and Street Cars

This shows a couple of the cottages in the process of erection and finishing. They are well constructed of Manitoba siding, tar paper lining, good heavy board siding and plastered inside; four rooms, all nicely arranged.

When you see the lots that we are offering there, and the comfortable homes we are erecting for those who want them, we think that you will spend many more Thanksgiving Days in Regents Park, but in your own home.

Many opportunities to own your home have been presented to you, but, frankly, we know of none that equals this opportunity either in the value offered or in the Easy Terms by which we are prepared to help you. For a first payment of \$15 you are given possession of the lot and the balance you pay at the rate of \$5 per month. We have sixteen houses ready and in course of construction (see illustration), which we will sell on a first payment of \$200, balance \$10 per month. Could anything be easier than that?

Here is one of the 16 cottages we have to sell. The price is \$1,200; terms \$200 down and \$10 per month. The price is wonderfully cheap for a house of this construction, and payments are much easier than paying rent, and all the time you are buying a home which will be yours forever.

This scene is on the corner of Danforth Avenue and Dawes Road, close to Regents Park. Here is a bank and a store. There are other stores nearby, also schools and churches. Cars will be running past this corner in a few days, and Regents Park is only 11 minutes' walk away.

\$15

down and \$5 monthly gives you possession of a first-class 25 foot lot, price \$20 per foot

It will not be long before they are worth considerably more than that. The Danforth Avenue Car Line will be running past Dawes Road close to Regents Park in a few days time. That will mark the beginning of a sure and steady increase in value. The time to buy is NOW.

How to Get to Regents Park

You will find it beautiful in Regents Park this season of the year. A trip there will make a good outing for Saturday or Thanksgiving Day. Go out Danforth Avenue to Dawes Road; there turn north past the railroad viaduct, and past the Massey estate, and Regents Park is the next adjoining property. There is a sidewalk all the way. We will be very glad to take you out in a motor. If you want to see these lots on Saturday or Monday, let us take you in our automobile. Fill in the coupon and mail it to us TO-DAY.

About 300 people have bought lots in Regents Park already, and they are more than satisfied. People who were paying \$15 or \$20 rent monthly now pay only \$10, have plenty of room, good neighbors, perfect independence, and their home is rapidly becoming absolutely their own.

NAME COMMISSION WITHOUT DELAY

Says Ald. Robbins in Reference to Street Railway Management.

WORK WITHOUT PAY

And No Political Influence Should Be Brought to Bear.

The three men who would be appointed commissioners to manage the Toronto street railway system, should the Toronto Railway Co. property be purchased by the city, should be selected without delay, said Ald. Robbins yesterday.

"Before the agreement of purchase is submitted to the city council for approval the names of the commissioners selected should be given to the public. Joint action along these lines is imperative. There is as much need for an assurance of a dependable commission as there is for an assurance of an agreement of purchase that will clean up all the franchises for public utilities within the city's limits.

"At the outset it should be understood that the commissioners would serve without salary consideration," Ald. Robbins said. "Only by getting men who will undertake the work from the standpoint of public spirit can the salary-hunting class be eliminated. Too many in the salary-hunting class are incompetents, who rely upon 'pull'.

"Also, as far as is possible, politics should be without influence in the selection of the commissioner, for political influence runs to party exigencies, rather than to the best interests of the city.

"Clearly, then, the selection of commissioners should be entrusted to the organizations that have the greatest stake in the city, organizations maintained by men who stand or fall by the commercial and industrial strength of the city. Three of these organizations stand forth as sufficiently representative of the public-spirited element of Toronto. One is the board of trade, another is the Manufacturers' Association, and the other is the Trades and Labor Council.

FIFTEEN THOUSAND DOLLARS HANDLED

By Ontario Sunday Schools Convention This Year—Double Convention Planned.

The last central executive meeting of the Ontario Sunday School Association was held last night, at which resolutions were unanimously passed to the effect that the reports of the year were the best that had ever been returned. The financial turnover for the year is about \$15,000.

The work in the field shows a big increase, over 200 conventions having been held. The elementary division which is superintended by Miss Bertha Laine has made great strides. There were nearly 1000 cradle rolls reported, with 20,000 babies entered.

The association is holding a double convention this year for the first time. The first part is in Ottawa next week, October 22-24. In Knox Presbyterian Church, and the second part in Owen Sound, October 28-30. Speakers will be Mr. Marion Lawrence, general secretary of the International Sunday School Association; W. C. Pearce, Mrs. Zillah Foster Stevenson.

ELECTS DR. NORTON AS NEW PRESIDENT

Baptist Convention Receives Many Reports—McMaster's Emolument Large.

PETERBORO, Oct. 17.—(Special).—Rev. W. E. Norton, D.D., Toronto, was today elected president of the Baptist Convention for Ontario and Quebec. Rev. J. R. Webb, Peterboro, and Mr. James Ryle, Toronto, were elected vice-presidents, and Rev. C. E. McLeod was re-elected secretary-treasurer.

The report of the senate and board of governors of McMaster University was presented by Rev. Prof. McLaughlin, dean in arts. This showed an enrollment of 272 in arts and 47 in theology. Deducting students registered twice, the net enrollment stands 270.

In Woodstock College there were 149 students and 15 in Mount Allison. These are the academic departments of the university. The total enrollment in undergraduate courses in arts was the largest in the history of the university. The graduates' class was the largest on record. The church-ess are taking greater interest in Christian education, contributors having increased 540 per cent. in five years.

When the money stringency passes it is proposed to enter upon a canvass for funds for the purpose of erecting university buildings upon a site already selected at a cost of \$125,000.

The financial statement shows that the receipts more than balance the expenditures. The expense of keeping up McMaster University during the year was \$48,466.94. Mount Allison College \$32,908.01 and Woodstock College \$35,836.90. Receipts from all sources were \$143,212.48.

The report of the western mission board, read by Rev. N. B. Tighe, showed that the western churches are giving \$219,000 for foreign missions this year. The treasurer's statement gave receipts of \$23,339.53 and disbursements of \$23,812.97. The church edifice board had receipts of \$687.93 and disbursements of \$953.45, leaving a deficit of \$265.52.

FUTURE BRIGHT IN HARDWARE TRADE

Demand Will Outstrip Facilities of Manufacture Within Six Months' Time.

"In six months' time the factories throughout Canada will not be able to produce goods fast enough to supply the demands made upon them," was the declaration made at the 14th annual banquet at the King Edward Hotel last night.

With more than a hundred of the leading hardware men of the Dominion present, including representatives from the Canadian Hardware Manufacturers' Association and the Ontario Retail Hardware Association, addresses on the general financial situation were delivered by Col. J. A. Currie, M.P., Hon. J. R. Stratton, Robert Johnson and C. A. Birge of Hamilton, R. Griffiths of Toronto, A. W. Clark, St. Catharines and A. Prudhomme of Montreal.

At the annual meeting held yesterday afternoon A. Prudhomme of Montreal was elected president; T. B. Williamson of Toronto, vice-president; and James Hardy of Toronto, secretary.

The wholesale hardware men go to Hamilton in a body today as the guests of the hardware manufacturers of Hamilton and will inspect the plant of the Steel Company of Canada and a number of the other industries of that city.

NEW YORK, Oct. 17.—Slowly and laboriously the stock market today made up some of the ground lost on the slump of the last two weeks.

New low records for nearly a dozen prominent stocks were made yesterday after the opening, on selling, which represented the closing out of impaired margin accounts.

Chicago Believes Glutted Conditions of European Markets Will Bar Imports. CHICAGO, Oct. 17.—Huge stocks of wheat in Europe, leaving no apparent outlet for Canadian shipments unless the market prices today on the down-grade. After an unusually active session, and violent fluctuations, the close was nervous, 3-8 to 5-8 net lower.

Persistently Bearish. Profit taking by shorts led to a couple of good rallies, but Wall street weakness, and bearish advices regarding growth conditions in the winter crop belt, proved a decided offset.

GOVERNMENT OWNS RAILROAD

Early History of the Panama Railroad Now Owned and Operated at a Profit by Uncle Sam. By Willis J. Abbot, Author of "Panama and the Canal in Picture and Prose."

Copyright, 1913, Syndicate Publishing Co., New York. All rights reserved. Just now, when the United States is considering seriously embarking upon railroad building in Alaska, where a rich territory is sorely in need of development, some information about the early railroad owned and operated by the government will be of interest.

The Panama Railroad, which is now owned and operated by the United States Government, was built by a private company, the Panama Railroad Company, in 1848.

Construction of the Panama Railroad was in its infancy it was a mere line of rails and wooden ties, but the swamp and jungle were unrelenting in their toll of human life.
