The Sheep Importation As a GRIRO

[The Globe and Sir Wilfrid Laurier are asking the Canadian farmer to vote for reciprocity because it means "a wider market for his natural products," and by "wider market" higher prices are meant. The World said that this can't be true as to sheep, because the farmers of "the wider market" (the United States) are selling sheep in Canada and paying a dollar a head duty to come in here.

Why American sheep are being slaughtered in price and why they'll be sent into Canada in millions, not thousands, is set out in this article which follows. The Globe has another answer, attempts at cheap ridicule of and personal attacks on W. F. Maclean. The Globe is welcome to this line of argument.

But does the "wider market" put up the price of sheep, and is the "wider market" in the line of the facts below likely to put up the price of sheep to Canadian farmers?

We ask our readers to take the trouble to go thru this article. They will be repaid by the conclusions that are reached toward the close.]

From his Alpine summit President Taft has thrown his

Storm Signal

From his Alpine summit President Taft has thrown his reciprocity snowball which is now rolling down the mountain accumulating into an avalanche that appears likely to submerge much of the valley beneath.

The sheep imports from the U. S.—for calling attention to which the Canadian public should be thankful to The Toronto World-is an important matter, not so much because of the proof it furnishes that the advantages of the proposed treaty will be questionable to the Canadian farmer, but as a weather sign of the profound economic disturbances now beginning to be felt in the neighboring Republic. It is remarkable that in all the great tariff movements in the U.S. in the last hundred years the duties relating to wool and sheep have been the crux of the problem, and in the present wide-reaching revolution wool and sheep will prove to be again the vortex of the

To make clear what is now pending in the United States et us recall the last great tariff revision-that of the Cleveland regime. Raw wool had been dutiable at practically the same rates as now, and there was a stiff rate of duty on woolen goods going into the U.S., but the Democrats came into power on the cry that the cost of the poor man's clothing must be reduced, and even the farmers who were generally protectionists were made to believe that they would not only hold their own market but ship more wool, sheep and other products to foreign countries if Cleveland's policy was adopted. It was also generally believed that the quality of U. S. manufactures would be improved. Cleveland was elected and when he was able to secure a Democratic majority in the senate the duties were taken off wool and those on woolen manufactures greatly reduced. What was the effect? The imports of wool and woolen goods suddenly increased, the price of wool dropped along with the price of mutton and in the three years from 1893 over ten million sheep were slaughtered and many farmers dropped sheep raising altogether. The actual figures were that there were 47,000,000 sheep in 1893 and 36,500,000 in 1896. This slaughter of sheep only ceased when McKinley was elected in 1896. During these three years approximately one-half of the woolen, worsted, carpet and knitting mills were closed down, and every other industry was depressed in sympathy. It is now generally admitted that during this time the people of the U. S. passed thru the worst industrial depression they suffered in seventy-five years. It was literally true, as predicted, that the cost of clothing was reduced one-half, but of what avail was cheap clothing when the average man had no steady employment and little or no money with which to buy goods?

One remarkable thing about that depression was that in the first four months of the Wilson Tariff, which came into full force in 1894, the imports of shoddy into the U.S. were over four times as much as in the preceding eight months, and by 1897 the shoddy imports amounted to 44,505,000 lbs., an increase of over 9,000 per cent. The reason was that the U.S. woolen manufacturer had to fight shoddy with shoddy. The accompanying diagram illustrates the effect of the Wilson Tariff on the use of shoddy and shows the sudden drop in shoddy imports when the Wilson bill was repealed:

EFFECT OF FREE WOOL, ETC., ON SHODDY IMPORTS OF UNITED STATES.

During this time U. S. wools dropped to the lowest price in the history of the country. Again in 1883 the duty on wool was reduced ten per cent and again there was a period of disaster among the farmers, for the number of sheep fell from 50,500,000 in 1884 to 41,500,000 in 1888.

Once more in 1911 the reduction of wool duties is produc-ing a panicky feeling among U. S. farmers and they are now slaughtering off their sheep and lambs, which are being dumped on the Canadian market.

To understand why this indicates a commercial disturbance of wider range than the mere sheep raising branch of farming we have to bear in mind that the textile industries of the U.S. employ a capital of over \$1,500,000,000 (\$1,343,324,605 was the amount at the census of 1905) and more hands than any other group of industries, not even excepting the iron and steel and allied industries. The hands employed in the textile and allied trades made the enormous total of 1,156,305 in 1905. It is the king-pin of the industrial fabric of the country and the present wool tariff, which seems now certain to pass, will make reductions in woolen and cotton manufacture which will gravely affect the other staple industries of the country as before. The cotton trade, taken by itself, can probably stand it, but with the woolen textile it is a more serious matter. The textile mills of New England have been running half time for two or three months and many of the knitting and carpet mills of the Philadelphia district are either running short time or are closed.

What appears to be coming is this: A period of low prices in the U.S. as the result of the sudden reduction in the tariff on textiles and other staples, this reduction being accompanied. as before, by a flood of foreign goods. The unemployment in U. S. industrial centres is likely to bring with it more than usual social unrest, due to various causes which sober-minded men of that country are becoming clearly conscious of since such phenomena as the hundred or more dynamite outrages are being traced to their sources. As The World has pointed out. President Taft has in the reciprocity scheme started into action forces which neither he nor his cabinet can now control. That these forces are already beyond his control is proved by the fact that the new tariff board, which was created for the express British Columbia Has

Identification of Knife Found Near Tarro's Body a Strong Link in the Chain of Evidence - Photograph Iden-Several

the jurors in the case, believe to be

Witness after witness identified the murdered with the picture of Griro, as taken by the police department. Slowly his route of escape is being worked A witness, last evening, Herbert Eastough, a street railway conductor, gave evidence to the effect that he got on his car at Front and John-streets in a very nervous condition, getting off again at Bathurst-streeet, and strik-

ing down over the tracks. It is believed that he boarded an eastbound freight train. Oran Benson gave evidence that he had passed the man in Yonge-street shortly after the murder. P. C. Craig (124) told the story of the fruitless chase. He was at West Mar-ket and Front-street when he heard shots fired. Running to the scene, he started in pursuit of the fleeing assassin, but a man shouted at him to come back. Still he ran on, but again the man shouted, telling him as he thought. that the fugitive was returning. He

came back, but found that he meant Continued on Page 7, Column 4.

ELECTRICAL DEVICES COMING Hon, Adam Beck Has Purchased German Machinery for O.A.C.

Hon. Adam Beck has made arrangements for the purchase of a number of wonderful electrical devices, which he and Chief Engineer Sothman of the hydro-electric commission saw in everyday use in Germany during their recent investigations in that country With small motors the farmers pumped all the water used, cut the wood, milked the cows, sowed the seed and Hoyette to go before the convention. threshed the grain.

McBRIDE NOT A CANDIDATE

Decided Not to Enter Federal Politics, But Will Take Active Part in the Coming Fight.

sistent with my position, to aid in vic-tory, which I feel sure will crown federal Conservatives in this campaign."
Premier McBride made this statement in an interview prior to his wel-come here to-day by members of the come here to-day by members of the Conservative party, which took the form of a public reception.

In reply to an address which approved his stand against reciprocity, the premier repeated his view that such a measure would lead to the exploitation of Canada by the United States. Furthermore Canada would be a broken

thermore, Canada would be a broken link in the chain of empire. did feloniously, wilfully and of his malice aforethought, kill and murder Frank Tarro,"

"I believe in one king, one flag; we must fight this measure to the end."

Cr'tic'zing Laurier's theory advanc-Frank Tarro."

The coils of circumstantial evidence have been surely tightening around the Missing Frank Griro, or Grissio, alias Rossaro, for whom the police are add wars of wars. Premier McBride asked "What would we think if Britain announced that she would be neutral while Can-

Rossaro, for whom the police are searching for the murder of his compatriot, Frank Tarro, last Sunday, and last night, at the conclusion of the inquest, the chain of evidence was practically completed, and the foregoing verdict returned.

Witness after witness identified the by William Sloan, former M.P. for the same constituency, insist that McInnes is the only man able to ensure victory for his party. It is said that his will be the only name submitted to the party convention to be held next week. The date of the convention will be an-

nounced to-morrow.

Duncan Ross, ex-M.P., Yale-Cariboo was recently prominently mentioned in connection with this nomination, but dicate that Ross is not anxious to seek parliamentary honors, as he is occupied carrying out a large contract on the Grand Trunk Railway near Haz-

A WELCOME RELAY.

purpose of investigating tariff conditions before recommending changes, has had its functions usurped by the headlong zeal of congressional iconoclasts who are doing the revision first and leaving the tariff board to do the investigating afterwards. If these changes had been left to the tariff board—and it would not be too late yet if it were not for the reciprocity complication—the industrial re-adjustment would take place without a repetition of the rude shock and the widespread suffering that resulted from the rash experiments of the Cleveland regime.

One does not take pleasure in foreseeing evil, but we should not blind our eyes to the economic effects which the approaching different social conditions Canada has a partial shelter from the storm. It will be for the people to decide at the coming elections whether these sheltering structures shall be torn down, of the building was burned down, the Esplanade.

vancouver, B. C., Aug. 3.—"I do not intend to enter this election as a candidate, but will do my utmost, con-Fight for Reciprocity in the Home of the Late John Movement - Some Near Political Parallels.

> OTTAWA, Aug. 3 .- (Special.) -The Laurier decision to open his reciproof the late John Charlton, is causing ciprocity in and out of Canada, in and out of parliament, whose later years were embittered by repeated slights put upon him by Sir Wilfrid Laurier, and who died an unrecognized and dis-

propointed man.

The Laurier reciprocity policy is the Charlton policy revived, with Charlton no longer alive to get the credit, if credit there be. For Sir Wilfrid at this late day to trade upon the memory of John Charlton, is looked upon here as tactless and in bad taste. When the prime minister selected the date for polling, he narrowly missed an election polling, he narrowly missed an election whom he didn't know.

A lady came up to congratulate him against the rise in the ground to secure a proper start. Then, near the upper end, there was a knoll which bad Just.

This was to Mayor Geary who came of the limit and ended the flight. The cause are decident was unevenness and an upoprime minister selected the date for ment of a crowd of people most of whom he didn't know.

A lady came up to congratulate him against the rise in the ground to secure a proper start. Then, near the upper end, there was a knoll which bumped the machine into the air when it was traveling at a speed of about dently expecting a huge majority on the reciprocity basis, on Sept. 2, 1878.

Sir Wilfrid, 33 years later, takes the admiringly. count on the 21st.

In 1878, as in 1911, there was change of governors, with a member of the royal family coming to Rideau Hall.

BOSTON, Aug, 3.—The New England Shoe and Leather Association, representing some three hundred of the leading individual firms and corporations engaged in the manufacture of leather, boots and shoes and kindred products, with an aggregate invested condition. The next day he got his dissociation, representing some three hundred of the limperial conference, including the decision in regard to naval matters, he went thru the form of moving that these documents be printed for distribution. The next day he got his dissoward was standing in the grounds.

The Conservative members have no guarantee that they will get the print-ed record, if, indeed, the printing is done at all, and Sir Wilfrid Laurier free to go about in Quebec and Ontario giving his own version of what hap-

pened in London.
Tons of Liberal literature are going out of Ottawa, addressed to all parts of Canada. The franking privilege for and to get over this difficulty the stuff is going out under the evergreen frank of the absent minister of railways. The voters' lists are being sent out alphabetically. This works out to the disadvantage of the men whose ridings

gets out of Ottawa.

Aerial Service For English Postoffice

LONDON, Aug. 8.—The postmaster-general is arranging with Graham-White, the aviator, for an experimental aeroplane postal service between Lon-don and Windsor.

King George is greatly interested in the project and has given permission to use Windsor Park as the terminus of the route. The service will start during the present month.

ASYLUM PROPERTY SOLD Hon. Dr. Reaume Confirms Transfer to Massey-Harris Company.

That the Massey-Harris Company have acquired the Queen-st, Asylum property from the Ontario Government was assured in the public mind some time ago, and a remark made by Hon. Dr. Reaume yesterday indicated that the impression wasn't a wrong one. When asked about the fact that the company had lumber stored on the asylum grounds, he replied that, in so doing, the Massey-Harris Company were not acting the part of trespassers.

It is expected that the government will announce the terms of sale to

BOYS' MYSTERIOUS DEATH Circumstances of Gordon Haggerty's Passing WII Be Investigated.

Mysterious circumstances still sur-round the death of Gordon Haggerty, the boy who was found dead in the kitchen of John Thomas' farm house near Lowville, Halton County, where he was employed. According to the autopsy, death was due to strangulation, and the strangulation is believed to have been caused by strychnine, some of which was found near the

Provincial Detective Greer of the On-tario department of criminal investition, is making every effort to clear up the mystery.

FIRE IN PARLIAMENT BUILDINGS. Fire in the parkiament buildings in Queen's Park did about \$50 damage at

AMERICAN FLAG ORDERED DOWN

Citizens of London, Ont., Protested Against an Undue Display of Stars and Stripes For Old Boys' Celebration.

of American flags that were put up in conspicuous places about the in honor of next week's Old Boys' celebration, were to-day ordered down by Ald. Mitchell, chairman of the decoration committee.

The flags were put up to honor the Americans at the celebration and to show a feeling of good-fellowship, but a number of prominent citizens protested against the "flaunting of the Stars and Stripes in the face of Canadians," with the result that Ald. Mitchell ordered an investigation, to discover who directed the placing of the

A great chorus of criticism is arising on all sides and many of the citizens are wrathy over the treatment accorded to the Stars and Stripes. However, the majority favor Mitchell's action. The alderman ordered all the flags taken down and no more put up.
At a meeting of the East London Progressive Association, held last night, the matter was discussed, and

instance of going to Detnoit with a Foresters' celebration and of having to remove Canadian flags, which the men were wearing on their coats, be chines in shape.

Everything points to big crowds and a good course and an excellent program from day to day till the mest closes. There were several thousand people there yesterday, but the bulk of these were those who came in their motorsuch expressions as "It will soon be all American flags," and "We are not go-ing to give ourselves to Taft yet for

> The meeting finally closed by instructing the secretary to write the city council approving Alderman Mit-

chell's action.

This is the second time the American flag has been interfered with it this city. The first time was three years ago, during an Orange celebration, when a flag was torn down from the balcony of the city hotel and

Now American citizens residing in the city are becoming indignant and there is some talk of withdrawing the float which they were going to put in the parade next week.

WILL BUILD UP BUFFALO.

The show bill of Shea's Theatre carries an advertisement in which the following sentences appear: "Buffalo gets five new branches of Canadian industries in five months. Why? Because the Dominion's march toward industrial independence is almost ended. Buffalo is at the gateway to Canada's supply of raw material." The advertisement bears the name, and is paid for by the Chamber of Commerce and the Manufacturers' Club of Buf-

LOOKS FOR AN 18-MIL D. D. Reid Figures Out a tractive Plan.

Toronto?" said The World Reid over the telephone la "the finance comm

who is an immense favorite with Toronto theatregoers. This is her first band is thoroly understood by Toronto people. One of the noticeable features of the Scarboro Beach Park this year is the large preponderance of women and children in the crowds. The management is catering especially to them and is apparently meeting with their approval.

LAMBERT'S BODY RECOVERED.

SAULT STE. MARIE, Aug. 3.—(Special.)—The body of Lorne Lambert, who was drowned in the river a week ago while operating the gasoline launch of the Model Dairy, was recovered to-day at the New Ontario dock, about half a mile from the scene of the accident. The tug Laura Nickler passed the dock and apparently stirred the body up. It was removed to Simpson's star Theatre this week under the discussion of two continents.

who is an immense favorite with Toronto theatregoers. This is her first vaudeville appearance since her triumph with Mme. Sherry.

The special attraction for the week will be the Master Marksman, Chevalier de Loris, who has been the sensation of two continents.

Other features included in next week's bill are Reaiff Bros. and Miss Clayton in their comedy singing and the general rate system of paying, instead of the foot frontage plan, I repeatedly wrote letters to the press quoting numerous figures to show that and the valet and the Kindle provided and still maintain an 18-mill rate.

New Soubrette at Star,
Miss Gracie Whitman last night assumed the soubrette role with "The Gay World" Company playing at the body up. It was removed to Simpson's Star Theatre this week under the distance of the cot four the stimates for three or four hours, till fond the estimates for three of four heating the master of the week will be returned in the first care flowers and the set marksman, Chevalier de Loris, who has been the set matters for three of four hours, till fond in the first comedy and in the first comedy mail was struck a 20 mill rate. "Considering the installation of severage, electric lighting and the set marksman, Chevalier de Loris

"Most decidedly I do. I will not give you exact figures, but in round nu bers. The sewerage bylaw calls for \$265,500; the interest and sinking fur is \$16,000 per annum; the interest is 4 1-2 per cent., payable every six months; the sinking fund is payable at the end of each year; the debentures were advertised for sale and to date from Aug. 1, 1911. This date was fixed when I was in the hospital, or I would have persisted in having it Oct. 29, 1911, the date our taxes

"We have borrowed \$100,000 to meet with the sewerage and electric light-ing. About one-half of this amount wholesome sort that the fastidious has been paid out. The interest on the amusement seeker relishes. will be about \$250-that is, until Aug.

the daring of Jack Singer in attempting greater things than all of the others engaged in promoting in his special line, in a two act musical comedy, "The Girl From Broadway," which is a sequel to the "Girl From Rectors." For classification it is a nondescript totally away from any thing room is a sequel to the great at least one month's interest; consequently, all this year's taxes should be called on to pay is four months' be called on to pay is four months' interest, or one-third of the \$16,000, or \$5833. But granting that the debentures are sold to date from Aug. 1, the first instalment of interest becomes due on Feb. 1, 1912. Therefore \$6000, instead of \$5333, should be provided for this year, which takes 1 1-2 mills.

"The next payment would come due Aug. 1, 1912, and would be \$6000 interest, plus \$4000 sinking fund, making \$10,000. The committee, clerk and treasurer claim that we must add 2 1-2 mills this year to pay this \$10,000, exactly one year hence, and put this \$10,000 in the bank at 3 per cent. interest while we are paying 4 1-2 per cent. on the debentures." "What excuse do they give for collecting this money this year to pay

"Because the bank will not loan the \$10,000 for three months until Oct. 30, when the taxes are payable." "That's absurd; if one bank will not advance it, surely another will."
"Most decidedly. Besides, there are dozens of men in the town who would give security for the three months if necessary, for everyone knows that 'taxes are as sure as death,' so there

is no risk."
"Then you infer that 1 1-2 mills instead of the four would cover this to the widow. year's interest? "Yes," said Mr. Reid, "it more than

covers it, but I would be satisfied to call it two mills and thus have our rate at 18 mills. Besides, this same argument applies to the \$20,000 for covers it, but I would be satisfied to call it two mills and thus have our rate at 18 mills. Besides, this same argument applies to the \$20,000 for electric lighting, which would reduce the rates another quarter of a mill.

"An 18-mill rate provides for the first instalment of interest, due Feb. I, 1912, leaving a balance of \$2000 to apply on the \$10,000, coming due Aug. I, 1912, consequently, all that would be reference months until next year's taxes are months unti which she is capable, and of which the months until next year's taxes are public have seen too little. Special due," said the chairman of the water,

Barney Dreyfuss' \$22,500 pitcher, O'Toole, joins the Pittsburgs on Sept. 2. If he can show the phenomenal skill that made Dreyfuss plunge for the limit. Smoky City fans say, Fred Clerke's men will capture the permant in a final spurt to the wire. There is so much enthusiasm in Pittsburg over O'Toole that wildeved fans are talking of meeting him at the railroad depot with a brass band and as many as twelve open carriages. O'Toole has the honor of being developed by a former Toronto manager, viz., Mike Kelley.

They are using the big score Caps made against Toronto Saturday in the press work for the game at Montreal Saturday with the M.A.A., but Blisky's team will hardly get into the win column this week. Shamrocks have a hard game at Cornwall, but the real game is billed for Scarboro Beach between Toronto and Tecumsehs.

A point which seems to worry a lot of lacrosse people in the west is whether an extra series would be required to determine the ownership of the Minto Cup in case the league series ends in a tie. The claim is made in some quarters that Westminster will keep the cup without an extra series in that event, but there is a precedent for the league to act on in the event of a tie. The Shamrocks and Montreals had to play off for the championship of the National Lacrosse Union and the right to challenge for the Minto Cup two years ago, while several years previously the Capitals and Shamrocks had to play an extra series for the cup at the conclusion of the league series.

an extra series in that event, but there is a precedent for the league to act on in the event of a tie. The Shamrocks and Montreals had to play off for the championship of the National Lacrosse Union and the right to challenge for the Minto Cup two years ago, while several years previously the Capitals and Shamrocks had to play an extra series for the cup at the conclusion of the league series.

They are still talking of the last wicket stand made by Dr. Dean's tourists, the final game in Philadelphia. The finish game in Philadelphia sporting writter in describing the match, had 212 runs to make and two hours to make them in. They looked like losing. The stand between Pacey (one of the recruits picked up in New York), and Lambe, however, saved the day for them, and they were enabled to squeeze out of a tight corner. H. A. Reid played a very attractive innings of 48. Pacey was unconquered at the finish mame, anal Lambe was also undefeated with a hard-hit 27 to his credit.

Cricket is advancing rapidly in Winnipeg. They have a league of eight clubs.

Cricket is advancing rapidly in Winnipeg. They have a league of eight clubs playing thru a summer schedule. Saturday's games resulted in the first three teams winning. By losing their game with the Wanderers the Winnipeg Atteam just about passes up its chance of capturing the initial position in the league at the end of the season. This leaves the first three teams on the list. Wanderers, Savages and Civics to fight if out between themselves for the championship. The Wanderers not only have a lead of two points, but they have a strong team to back it up with and that says a lot when a team is ahead. The standing:

A new sort of a story respecting game-cocks comes from Kingston, N.Y. As an an accommodation train was slowly approaching the station, the men in the engine saw that ahead of them on the track, were two gamecocks engaged in a pitched battle, and they kept at it until the train came to a standstill on the very verge of the field of battle. Then they called a truce and flew at the cowcatcher of the engine. Brushing the birds away without injuring them, the train went its way, but the trainmen noticed that as soon as the last car had passed the battlefield, the birds resumed their conflict. The fissue of the fight is one of the lost things of-current history.

AMERICAN LEAGUE.

At New York—By a score of 11 to 10 Gueh Hamistory in the sories with the Highlanders. During the game 13 Highlanders were third of the game 13 Highlanders were the condition of the game 13 Highlanders were and the green passes to first, Hemphill Scope.

PADDLERS OFF TO OTTAWA.

Toronto paddlers left last night for the C.C.A. meet at Ottawa and it looks like another clean up of championships. The T.C.C. sent down 21 men for the following crews: (War canoe 15), two senior fours, two junior and intermediate fours, three junior and intermediate singles, two senior singles and a junior, intermediate and senior tandem. Kew Beach are sending down a junior four and junior tandem, and the I.A.A.A. junior tandem, single and fours,

the Newark Baseball Club from blame in confiction with an oincident of last Sunday's game in Newark, when Umpire Wright was hit by a ball. Pres. Barrow says that the testimony of both umpires, as well as several Toronto players, shows that there was no intention on McClinnity's part to injure the umpire. A ball had here were the umpire for the Newark bench at the factors of the umpire for the newark bench at the factors of the umpire for the new present the the umpire. A ball had he request from the Newark bench at the request from the Newark bench at the request of the umpire for a new bail, and same time another ball that had fouled over the fence was tossed back. One of the balls hit Wright in the calf of the leg without hurting him. An automatic fine of \$10 for being put out of the game has been paid he McCinnity.

LACROSSE CHAMPIONSHIP

Note and Comment LEAFS LOSE IN THE

Tesreau Had Better of Pitchers Battle With Doescher a Southpaw-Other Games.

JERSEY CITY, Aug. 3.—Jersey City celebrated their return from the northern circuit to-day with a victory over Toronto in the 12th inning by a score of 2 to 1. Tonneman's triple and Kocher's error in the curtain act, landed the bacon for the Skeeters. Doescher and Tesreau had a sharp tussie on the mound wit hhonors about even.

Had Bradley touched home plate in the third innings of the game here today the Leafs would have scored a victory, but it developed into a twelve innings struggle with a victory for the Skeeters.

The first score of the game came in the first half of the twelfth. With one out Bradley singled to left, Kocher flew out to Deininger, but Tony Smith doubled to right and Bradley scored.

The Skeeters came right back in their half when Breen, the first batter, singled, and scored on Tonneman's triple. Tonneman also scored, as the throw from the outfield got away from Kocher.

Only Three Starters in Feature at

Fort Erie-Gossip From the Track.

FORT ERIE, Ont., Aug. 3.—To-day's races at Fort Erie were run over a heavy track. It was the first time during the meeting that the mudders had a chance of showing their merit and some of the winners came from most unexpected quarters. The feature race was the Grand Canadian Steeplechase, over the full course. It proved little better than a good gallop for St. Abe, who beat Dr. Koch six lengths. There were only three starters. The Welkin made a bad landing at the first fence and lost her rider at the second jump.

Among those present were many prominent turfmen from different sections, who came on to attend the sale of the Sanford horses this morning. Three of the choice ones were bought by Canadians, Joseph E. Seagram securing the star of the sale in Rockville, for whom he paid the top price, \$200. Mr. M. MacFarland, a prominent shoe manufacturer of Montreal, bought Moss Rock for \$1400 and Cliffstream for \$1800. The twenty-two head sold realized \$30,025.

All of the big owners are entering liberally in the stakes offered at Woodbine and Blue Bonnets this fall, which will close to-morrow.

Jockey Davenport, who was suspended by the judges yesterday, will be permitted to ride in the Canadian Sportsman Handicap on Saturday.

Weather showery; track heavy. Summaries:

FIRST RACE—Purse \$400, maiden 2-year-olds colts and geldings, selling, 5 furlongs:

1. James Dockery, 102 (Gordon), 12 to 1, 5 feet and \$20.

Farry, 112 (McCahey), 5 to 2, even

3. Yorkshire Boy, 107 (McCahey), 4 to Father also ran.
FOURTH RACE—Grand Canadian
Steeplechase, \$1200 added, 4-year-olds and
up, handicap, full course:

1. St. Abe, 146 (Boyle), 8 to 5 and out.
2. Dr. Koch, 137 (Dupee), 7 to 2 and out.
The Welkin lost rider.
Time 5.08 3-5. Only three starters.
FIFTH RACE—Purse \$500, handicap,
for 3-year-olds and up, mile and 70
yards:

SECOND RACE—Five furlongs:

1. Lady Etna, 107 (Dreyer), 3 to 2.

2. Temmerarie, 109 (Murray), 3 to 2.

3. Coal Shott, 102 (Howard), 15 to 1.

Time 1.04. Scar. Pimpernel, John A.,

Wonder Worker, Sugar Loaf, Billiard
Eall, Dolly Maddis, Steve Baldwin also 2 and out. 2. Sager, 107 (Loftus), 5 to 1, 8 to THIRD RACE—Six furlongs:

ADMIRAL TOGO HERE SOON.

THE FETISH OF CHEAPNESS.

(By Vincent Basevi.) Among a certain school of politicians and economists, an idea would seem to prevail that the aim and object of any nation should be to secure for its people the requisites of life at the lowest possible cash value. Food should be cheap, clothes should be cheap, and one Toronto newspaper which suffers from this obsession, even want so far as to get economic theories cheap, for they recently secured their fiscal opinions from a boy scout. That the price of cheapness may be excessive has been proved in England. where there is, at last, a strong movement against the existing school of economics. Twelve million people on the verge of starvation, municipal rates varying from \$2 to \$3 on every \$5 rent, and a permanent unemployed problem; this is the cost to England of her cheap

ought to have an zero club under distinguished patronage, somewhat like the ones they have now in the States and in Europe, that would take charge of aviation and give it legitimate encouragement. Such a club would have men on the reciprocity and would see that proper fields were provided, would arrange for exhibitions and contests and do everything possible to, foster the science, extend its influence and take care of it as a public spectacle.

Aviation seems to be one of the greatest discoveries of the age, but is attended with more or less risk, and has ahead of it difficulties that must be overcome by perseverance, by encouragement and by a liberal expenditure of money. Such a club should be supported at the correction of the government inspector, that the company and expedience of money. Such a club should be not affailed to the situation. It is necessary to make a live to thoroty appreciate the situation, it is necessary to make a live to thoroty appreciate the situation, it is necessary to make a live to thoroty appreciate the situation, it is necessary to make a live to thoroty appreciate the situation, it is necessary to make a live to the organ bumps into organ bumps into organ bumps into more in the situation, it is necessary to make a live to the organ bumps into more in the situation, it is necessary to make a live to the organ bumps into more in the situation, it is necessary to make a live to the situation, it is necessary to make a live to the recent facal instory of England. allegiance to the national ideal of freedom and equality for all citizens."

Does even Senator Jaffray believe this?

ANNEXING VACANT LAND.

It is declared by some that the vacant lands in North Toronto are a reason not to proceed with annexation to the city, as they come into competition with vacant lands in the city. This view can only be advanced by real estate speculators in the suburps. If there are vacant lands in North Toronto, they will compete much more keenly while they remain outside the oncerning the interpretation of Scriptist than if they were included and had to pay city taxes. North Toronto

stermy scenes, political, electoral and will, in all probability, terminate as corruption, and that the Conservatives such like, but to-day's was in a class did the Eigin-Marcy treaty, that is of the rest of Canada are opposing the by itself. My companion confided to when convenient to the States, with and Canada will then have to readjust

the connection, in which they appeared, were pulled to pieces with avidity.

RECIPROCITY WILL CHECK CANADIAN FACTORIES.

The Newark (N.J.) News has sized

up the Canadian election situation for certain manufactured articles sold in this country, but the home manufacturer and his employes must suffer in consequence, and when the day came for the termination of the agreement, prices would rise higher than their present level on account of the home mpetition having been killed. Looking at the matter as a pure

question of barter and exchange; what ials which she is hoping to secure in ratified? The States will only want our wheat until, by more intensive oultivation she has recovered the ground lost in past years by profitigate farming. Then we may look for recorded and the recovered to the ground state farming. Then we may look for recorded and the station was erected in 1871. greater quantities and at reduced recrudescence of the state of affairs which prevailed after the termination of the Elgin-Marcy treaty, and once more Canada will have to build up a trade from east to west. This will be the cost to Canada of her bid for

We have this duty to perform to posterity; to build up industries in this country so that future generations, the sons and daughters of the immigrants we are now tempting to the country as well as the children of these born in Canada, shall find tolerable living conditions, and ample employment. We cannot perform this duty if we barter our natural resources for the shado of a transient cheapness.

Mr. and Mrs. G. H. Orr and Miss Marjorie spent a delightful week end

The Federal Campaign

Again, the Fielding-Knox agreement the ground of the navy and general out consideration of Canada's position, procity pact and general corruption, and Canada will then have to readjust If the movement against Laurier in her commercial cuttook as she had to do in 1866; it will then require a statesman with the gifts of Sir John Macdonald to pilot the country thru the accruing difficulties. Such statesmen donaid to pilot the country thru the accruing difficulties. Such statesmen are not to be found in every genera-Canada is young as a manufacturing evidence that thousands of Liberals are

Montreal Medical Expert Wants Municipal Authorities To Establish One.

MONTREAL, Aug. 3 .- Dr. J. E. Laberge of the infectious disease department, has presented an application to the city council for the inauguration of a sanatorium on the mountain for ineipient sufferers from tuberculosis.

His scheme would provide a building wherein the patients would be able to wherein the patients would be able to have suitable diet specified by the medical officer of health, and sleep out in the open at night. Special carswould bring them down to work in the city during the day. This idea, he is convinced, would have a great tendency to lessen the spread of the disease, which is alarming the city.

REFUSED TO TESTIFY ARRESTED FOR CONTEMP

O. Lewis in Trouble For Con testing Jurisdiction of Manitoba Investigating Board.

WINNIPEG, Aug. 3.—Acting upon the instructions of his counsel, A. J. Andrews, K.C., J. O. Lewis declined to give evidence before the royal commission investigating the sale of St. Peter's reserve to-day.

He was committed for trial for con-

tempt.

Lewis was one of the Ottawa agents engaged in the land turnover. His re-fusal to testify was based upon his H. Dewart, K.C., and N. F. Davidson, counsel's contention that the provincial commission has no jurisdiction to investigate the sale of what was a

Dominion tract.

Mr. Andrews raised this point prev-United States." The News admits that eastern Canadians do not like armer compare in value with the raw mater. sult of the arrest of Lewis.

BEATTIE MAY RETIRE

Major of London Has Expressed Himself as Tired of Public Life.

LONDON, Aug. 3.—(Special.)—The Conservatives will meet Saturday to decide on a candidate for the federal elections. Major Beattle has repeated ly expressed his opinion that he did not care to run again, so his name may not go before the members of the association. Billy Gray is the popular choice, and it would be like Major Beattle to retire at this time and give Billy his long-delayed chance of representing this city. Billy Gray has made money in business and mining recently and is qualified to fight an election here. The major rather feels out of the swim in a public ownership town such as this.

The Debats regards the treaty as a praiseworthy effort to reduce the chances of war, tho, as it understands difficulties will be a powerful brake on dangerous national passions, but the real efficacy of the commission, the paper thinks, will depend vastly upon the merits of the men composing it.

Application Was Enlarged.

By consent of both parties, the application for an injunction made by the Toronto and Niagara Power Company against the Town of North To-ronto was enlarged for a week. The first injunction expired to-day, and as no new order has been made, either party is now at liberty to put up all the poles they wish as far as the courts are concerned.

are concerned.

The power company are relying in their application for a second injunction on the famous Bell Telephone decision for its authorities. cision for its authority.

both on the part of the farmers and the prosperous industrial centres like

flying so low, he was forced to swerve to the left to avoid them. Then it was that the lack of speed told most against him, for he had not enough to allow him to regain his balance, and when he had gone about 50 feet beyond the autos, his right wing touched the ground. That threw the 'plane completely over, so the runners were uppermost.

The birdman stayed with the ship and when everything had stopped he slipped head first to the ground out of his seat, the under side of which was facing the sky.
"Are you hurt?" was the first ques-

"No, not a bit." he replied.

Afterward he declared that "You couldn't get hurt in an affair like that.

couldn't get hurt in an affair like that.

No possfoility."

However, many were there who wondered how it was that he had not been at least injured when the 'plane turned over. How, they asked, did he manage to hang on to his seat instead of falling in front of the car?

How was it, they wanted toknow, that when the plane struck with a joit that could easily have thrown his forward onto his face in front of the turning machine, that he managed to stick to the machine, and the tail was of little sticks.

Hittle accident," there would be no more flying. So the crowd departed. well satisfied with their bargain, for they had had their money's worth of excitement.

The plane was broken completely in two, close to the engine on the right hand side. The nose was twisted around so that it was on top of the upper side of the machine, and the tail was wrapped around the middle, a mass of little sticks.

Suddenly the tail of the machine went up into the air, splintered parts of the frame flew upward and a cloud dust arose. Then the cry arose,

It was but a few seconds then be fore the first instalment of the crowd had reached the spot and the ambulance and doctors were on the scene.

A few minutes later the megaphor man anounced that "On account of this

To-morrow's Big Rally

The big Conservative rally in Exhibition Fark to morrow afternoon promises to be one of the greatest political demonstrations ever held in Toronto.

A galaxy of parliamentarians will do the speech-making, and reciprocity will receive strong'y worded condemnation. R. L. Borden will probably be present.

Some of the fastest of the Toronto motor cyclists have asked, and received, permission to do some speed racing on the track, and these speed shows will be held between 2 and 3 o'clock. The 48th Highlanders' Band will play before the grand stani, starting at 3 o'clock. The speeches will begin at 3.30 o'clock.

Besides the two candidates in whose interests the demonstration is being held — E. B. Osler and Claude Macdonell—speeches will be given by Sir James P. Whitney, Hon. W. J. Hanna, Hon. Dr. Pyne, and possibly other members of the Ontario Government cabinet; Hon. George E. Foster. Edmund Bristol, and likely A. E. Kemp; Major Sam Sharpe will also speak. George H. Gooderham, M.L.A.: Thomas R. Whiteside, M.L.A. and W. D. MoPherson, M.L.A. will attend to lend their aid by presence, and, maybe by voice also.

Arrangements are being made to have the autos meet in front of the Arbany Club and gy to the exhibition grounds in a procession.

Thos. P. Jackson, manager of Mc-Curdy and Willard, was relieved by the accident. "I had a hunch that some-thing was going to happen," he said, "and I am glad it was no worse. I felt all day that something was going to happen."

happen."
McCurdy's new machine arrived this merning and was taken out of the railway car and into the hangar. It will be quickly put into shape for flying and he will again buck the game. The machine that was wrecked was his own property. The new one belongs to the McCurdy-Willard Aeroplane Co. G. G. Hubbard's aeroplane also arrived this morning.

The rapid increase in value will place you on the road to independence. The lots are underpriced, but this is your gain. THINK OF IT.

\$600 to \$1500 for Lot 80 x 250 Feet

Where Are Eddy Gardens? Within easy access of the Centre of Toronto, they front on Bathurst St., and extend half-way to Yonge St. Deloraine Ave. on Yonge St. leads to the property. They are reached by Yonge St. Radial Radway; a line that carries a greater number of passengers than any suburban line in Toronto, showing the trend of development is that direction.

Why Should I Buy in Eddy Gardens?

Because the land is fertile. For seventeen years the Eddy Gardens have supplied vegetables and fruits for Toronto homes. Nearly every lot has from 40 to 60 fruit trees or an abundance of bearing berry bushes. Because their value is absolutely established as gilt-edged. Because the location, beauty and accessibility combine to lead the careful investor to conclude that homes of refinement will be established, and will rapidly enhance in value.

What Do I Gain? Independence! Independence from high rent, heavy taxes, cumbersome mortgages on your home. Home grown products will cut off your heavy grocery and vegetable account and rustic suburban surroundings ensures health. With these advantages you cannot but save

When Should I Buy in Eddy Gardens?

To-day you should see us, and make arrangements for Saturday and Monday, the Holiday OFFICE OPEN TO-NIGHT

Rains Interfere With Harvesters

NORTH TORONTO BRANCH

Cor. Glen Grove and Yonge

WINNIPEG. August 3 .- Heavy rains have fallen thru Manitoba and Saskatchewan for the past 48 hours, interfering with the harvest operations, and still continue. Persistent rumors of black rust in Saskatchewan are being vigorously denied. Some grain has been out, and there seems no basis to the report of rust damage. The

grain is over the average, NORTH TORONTO

NORTH TORONTO, Aug. 3 .- (Spe cial.)-At a meeting of the public school board, held to-night, Miss M. C. Spark, tendered her resignations as teacher in the Eglinton School, which was accepted. The better to demonstrate the economy of the school board, and incidentally show the town council what a careful body they are Trus. tee Cook stated that by building the school fence by day labor instead of contract work, they had saved the town \$55. They expect to save a similar amount on the Eglinton fence. Now that Bedford Park School is completed, they defined the boundaries. All the children on Glen Grove-avenue and northwest of Yonge-street, and all rence Park estate must go to Bedfore Park School. The Eglinton boundaries were not interfered with. There will be a big time when Bedford Park

School opens.
Accounts for \$673 were passed. The EAST TORONTO, Aug. 8.—The annual field day of the East Toronto Y.M.

RMY OF FOUR THOUSAND LEAVE TO GATHER GRAIN

Twas a Fine Husky, Well-Behaved Contingent That Entrained For the West,

ager for the work of pitching the aves of this year's record crop, 4000 by harvesters left. Toronto yesterfor the northwest. Many of them making their first trip, but the at majority have been there sevil times before and are well actived with the work. The experied men quickly fall into jobs when y reach the western provinces and into the frenzied hurry of getting the grain, but the new men soon into the ways and wages of the fit. especially if they are at all dy with horses.

Inustling, stalwart, and healthy ting contingent it was that left the fit of that prevails on the prairies, are a day's work means from sun to sun down. But the harvesters telt yesterday are mostly farmer sor boys with farming experience.

and they'il earn their \$2.50 or \$3 a day.

plus board, alright.

Altho harvesting only lasts about three months usually, this year it promises to extend right on to the first of December, for from present appearances it will be that time before threshing is completed and most of the harvesters will be coming back with \$200 or more in their pockets.

To those accustomed to getting down to the office at 9 o'clock, this plusging away at stocking and pitching sheaves from early morn to fresty eve may sound like hard, hard work, but after the first week of limbering up, the muscles and getting used to four big wholesome meals a day, harvesting becomes a great sport.

comes a great sport.

This year the trains are orderly tooking and the filled with a beisterous bunch of healthy youths, no trouble is expected on the way out. The harvesters are beginning to realize that the western trip is a business one, to many a good start on the way to independence on a farm of their own.

The first of the trains pulled out at 10 o'clock and the second at 10.30 o'clock yesterday morning; smaller ones followed in the afternoon, the Grand Trunk sending out a big train to go by way of Chicago.

RECIPROCITY WILL UPSET

Editor World: According to The Globe and Star, the reciprocity agreement is primarily for the benefit of Canada's farming community. That article in Wednesday morning's Globe entitled "The Farm Stands First" holds good material for argument against the agreement.

Canadian exportations, according to The Globe, amount to an imposing sum and are principally natural products. It is apparent that under existing conditions, our producers are in no wise suffering for a market. Both

wise suffering for a market. Both wise suffering for a market. Both Great Britain and the United States have been liberal customers and our home popuation is buying and using on a generous scale and gradually getting accustomed to the high prices which are demanded for the products of the farm, orchard and garden. I fail to see that we are burdened with any surplus products of past seasons, nor do we hear of sacrifice sales or cut prices as applied to the class of goods in question. There is no reason to believe that increased production will not find equally as good chances of disposal as past experiences has proved.

equally as good chances of disposal as past experiences has proved.

On The Globe's own figures, Canada has a good healthy share of foreign rade, and her exports of farm produce are increasing fast. Well, what more does the farmer want? If our exports were refused and shipments returned, then we would naturally endeavor to rearrange our tariff affairs. Again, if we carry the export idea too far, our consumers at home will be compelled to stand further increases in prices.

The Globe and Star and their sympathizers would have rather better material for argument if they studied the condition of the Canadian consumer, who is certainly not getting his living who is certainly not getting his living necessities at what may be termed a moderate figure. On that point, how-

ever, our own government has the remedy in its hand by reduction of tariff schedules where advisable. The Star treats the discussion on sheep in a peculiar way, by assuming that because the U. S. takes off the import duty of \$1.25 per head, the Canadian shipper or farmer is going to have that \$1.25 presented to him by his

U. S. buyer. Mr. Buyer would more likely arrange to put this into his own The Globe article, concluding as it does with the prediction that Canada's farm product exports will be one hundred millions this fiscal year, convinces me that the Canadian farmer has as large a market as he wants and does not need any reciprocity.

It begins to look as the there will be an unparalleled invasion of Canadian domains by American fishing and hunting parties this summer and fall. The Canadian Pacific Railway has carried on an extensive advertising campaign in the States during the last four or five years, and each season sees more and more United States hunters and fishermen crossing the border in search of game. Advices received from Pittsburg state that already four hunting clubs from that vicinity have secured their transportation to northern points over the Canadian Pacific Railway. The Duquesne Hunting and Fish-ing Club is already on its way to Byng Inlet, Ontario, and the Millvale Hunting and Fishing Club will start Aug. 10 for the French River district. On Aug. 5 the Anglers' Club will leave for the same place, and they will be followed the next day by the Keystone Hunting and Fishing Club, which has also the same destination in view. All four of the 6hbs will take the C. P. R. from

SPONGE CULTIVATION.

Sponges are becoming scarcer and scarcer, the higher qualities fetching extraordinary prices, as compared with those of a few years ago. A writer in Harper's Weekly says that this condition has led to the suggestion that some artificial substitute for the sponge be devised, or that sponge cultivation take on a new and better' phase.

Experiments in the Mediterranean show that the cultivation of sponges may be rundertaken with excellent prospects of the French coast, and that such cultivation need not, as it was first each, be confined to the Tunisian shores. Sponges from the opposite shores of the Mediterranean have already been carried by cultivation, that dark tint becoming much clearer. It has not as yet been ascertained whether there is sufficient change in this respect to alter the commercial value of the product.

BRIGHT LIGHTS WANTED

Business Men Wonder Why Civic Electrical Department is Delaying Preparations.

Richmond-street business men, proprietors and occupants of the buildngs between Yonge and York-streets are wanting to know why the city elecrical department has apparently overooked the fact that Richmond-street has become a main street.

Between Yonge and Bay-streets not pole has been put up and between Bay and York-streets parts of the one-bulb lamps, attached to the power poles, have been placed in position. West Richmond-street, or rather con-

tral Richmond-street, is anxious to know why there has been such discri-mination. Whq, ask the managers of rms doing business on the street, is West Richmond-street without five-cluster lampjs as far as Bay-street, when Adelaide, as far as Bay, upon which no car line runs, and East Richmond-street, and many other streets, are provided with such lights? Efforts were made by The World yesterday to find out what kind of

ights the plans called for betfeen Yonge and Bay-streets. The officials were not absolutely sure, but one thought that the five-cluster lights were going to be installed in that block. But as for the rest of the districk as far as York, the single lights were going to reign.
Want Cluster Lights.

When seen by The World numerous business men on West Richmond-street declared that they thought the five-cluster lamps should be installed on hat street as far as York. Col. Thomas Henry, manager of the Gayety Theatre, is emphatically in

favor of the five-lamp poles. There is considerable pedestrial traffic along Richmond-street to his theatre alone. and the lights are suuposed to be where the people go.
A Busy Thorofare.

Within the past few years, say the people of central Richmond, that street has become one of the important parts of central Toronto. There are, it is true, some old buildings still standing between Bay and Yorke, but they are. it can easily be seen, being replaced by modern structures, which are a credit to the city. By having a m attractive street than scattered single lamps will make it, there will be a the five-cluster lamps, which are want-ed, the old buildings will disappear and fine ones will spring up in their

that can possibly be done to bring other fine buildings.

Nightly crowds on street cars go along central Richmond-street, and the orighter the lights the more advertising the occupants of buildings will get. which can be called lights and which do not give the impression that the street is a suburban residential part of the city instead of a central, wideawake business street, the passersby in the street cars wil take notice and learn about the firms that are doing business there.
No Sign of Activity.

The World wants to know, for the people of the block between Yonge and Bay, when the five-light poles will be up and holding lighted lamps? So far, apparently no move has been made in the matter. There does not seetm o be even a crack in the pavement to show that a pale will be put up. When so many of the other streets are now in full blaze, why is there not even a rusting pole lying in the Richmond-stree

Among the people seen by The World in regard to more lights between Bay and Work, were the Russell Motor Co. the Ford Motor Co., both of which firms have handsome salesrooms and garages there; R. J. Hanna, the liveryman and the manager of the Gayety

SEASIDE EXCURSION

Intercolonial Railway-Special Rates Quoted to Favorite Watering Places.

The annual Seaside Excursion via the Intercolonial Railway affords the opportunity for the most enjoyable trip at rates that are very reasonable. The fares quoted this year from Toron to to the favorite watering places or the lower St. Lawrence are very lov and the rates are even more reasonable to points in the Maritime Provinces, where midsummer is deliciously tempered by the bracing winds from the Atlantic Ocean, and the Gulf of St. Lawrence and the Bay of Fundy. The going dates out of Toronto are Aug. 8, 7, 8 and 9; return limit Aug. 31, giving an opportunity for a three weeks' sojourn at the seaside. Grand Trunk trains from Toronto make connections at Bonaventure Union Station, Mont real, with the finely equipped thru trains of the Intercolonial Railway. The Maritime Express leaves at 8.15 a.m., and the Ocean Limited at 7.30 p.m./ These trains are in the highest class with regard to sleeping and dining car service. Further particulars. tickets, sleeping and parlor car reservations. Toronto ticket office, 51 Kingstreet east. Phone Main 554. Worked on Sunday.

For converting flour and water into the staff of life on Sunday. Harry Reuben handed five dollars over to the police court cashler yesterday morn-ing in settlement, and Gavil Bearl, Max Bockner and Maurice May paid two dollars for assisting. Matthew and Mary Lamb were fined the same

Max Bockner and Maurice May paid two dollars for assisting. Matthew and Mary Lamb were fined the same amount for delivering the bread.

Four Storey Addition.

The long-expected addition to the Home Life building's five storeys, is about to happen. The plans have just been completed and it is stated on good authority, that the work of construction will commence in the near future. Engineers have reported that the foundations and walls of the present structure will carry ten more.

Mary Lamb were fined the same are feed to fine the general benefit of his creditors.

A meeting of creditors will be held at my office, 64 West Wellington Street, in the City of Toronto, on Tuesday, the 8th day of August, 1911, at affairs, to appoint inspectors, and for Creditors are requested to file their claims with the assignee before the date of such meeting.

And notice is hereby given that after thirty days from this date the assets will be distributed.

N. L. MARTIN To-night on Turbinia, 8.15 o'clock.

FRUIT MARKET.

rin of 22½c.

The news regarding the dublous prospect for wheat in Russia came from London and was for that reason not credited as fully as the from a source more direct. Nevertheless, the radical nature of the cut in the estimate of the probable foreign shipments from Russia aroused the

m shipments from Russia aroused the list.

In the sentiment in favor of higher prices we materially as the day advanced, if at no time suffered a serious check. Sack rust rumors would not down. In a connection, one crop expert went on ord with an opinion that the three lef torthwestern wheat states would se less this year than for almost a cade. Then came statements that the nadian government station at Brandon de scientifically ascertained the existence of black rust on selected samples of real there. On top of this, Duluth rested the working of 45 boat loads for port. Altogether, it was decidedly a day for the bears. During the session september ranged from 30%c to be, and closed 1½c to 1%c net higher 192c.

The corn crowd had its own share of the crop news. For example, according to a leading authority, Nebraska promised less than half an average output, even with ideal weather from now on. In consequence several big Chicago houses made themselves conspicuous by the size of their purchases in the pit. September price changes ran from 64%c to 66c, with the close firm, 1½c up, at 65%c. Cash, grades were in better demand.
Oats advanced because of an improved call from shippers and on account of support from corn bulls. Higher and low figures touched by the September option were 43c to 41%c. The close 42%c to 42%c, showed a net gain of %c to %c.

Provisions averaged higher in view of the fact that for the first time in a long while the week's packing west exhibited a decrease as compared with the corresponding period a year ago. At the end of the day pork had risen 2%c to 5c, to 22%c. Lard was 2%c off to 2%c up, and ribs were strung out from 2%c decline to an advance of 20 cents.

Receipts at Primary Centres.

European Grain Markets. Mile Liverpool market closed to-day with higher than yesterday on wheat and wid higher on corn. Antwerp closed unhanged on wheat, Berlin & lower, and Buda Pest & lower.

Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 25 ars; No. 2 northern, 43; No. 3 northern, 6 No. 4 northern, 8; No. 5 northern, 7;

LIVERPOOL, Aug. 3.—The market pened with a steady undertone notwith-tanding the lower American cables yes-erday, with prices here unchanged. Folowing the opening there was covering y shorts and good speculative support duced by the further decline in conols, and the fact that prominent Lonon interests were good buyers of futures it this market. There was an improved %c to 1/2c. The continent was making enquiry for cargoes, which are more firmly held. The trade here is apprehensive regarding future supplies

FEAR CROP DAMAGE

Dakota and Minnesota -Brokers' Comment.

J. P. Bickell & Co. from Logan & Bryan:

Wheat—Sharp advances scored to-day, more favorable export developments, sensational news again sent from northwest and bullish Russian cables being the stimulating factors. News from northwest grows more bullish daily, and the losses undoubtedly has been of serious character. A dangerous feature of the situation is that the Canadian crop is so late that the spread of black rust to the Dominion is decidedly probable. Some reports indicate black rust already infests the wheat in parts of Saskatchewan and Manitoba. In Minnesota damage has been great, and plague spreading in the north of both Minnesota and North Dakota. Bearish conditions appear confined to the big states, and receipts at Chicago, while elsewhere conditions are much more favorable to holders both here and abroad.

Fineley Barrell wires:

more favorable to holders both here and abroad.
Finley Barrell wires:
Wheat—Bullish sentiment dominated today and bulls scored an easy victory in all cereals. While there were a number of factors which contributed to the strength in wheat, the most potent was the confirmation by Mr. Lecount of further deterioration of spring wheat by black rust. In addition to this ...ere were persistent claims that the plague has crossed into Canada. There were numerous denials, but they were ignored for the reason that Winnipeg was stronger than Chicago. Aside from profittaking reactions, we can see nothing to prevent wheat from continuing its upward course as the weather northwest is perfect for the spread of rust, and should the Canadian crop become infected to any great extent prices in our opinon will look cheap.

Erickson Perkins & Co. had the following:

for the reason that Winnipeg was stronger than Chicago Aside from profittaking reactions, we can see nothing to prevent wheat from continuing its upward course as the weather northwest is perfect for the spread of rust, and should the Canadian crop become infected to any great extent prices in our opinon will look cheap.

Erickson Perkins & Co. had the following:

Wheat—Opening showed sharp advance, tho proving the low of the session. Impetus was again given by news and those markets led the advance, as well as foreign situation. A development rather unlooked for took place in export demand, which occurred in Duluth and in the large flour sales reported a good demand. Pressure of supplies will probably be more or less important in the immediate future. But if our crop should prove to be in the neighborhood of \$50,00,000 our exportable surplus would be very shortly used up.

Corn—Opening showed a slight recession owing to rains, but a belief a material shortage in growing crop seemed to be spreading, not only by strength in this market, but increase in trade. Cash demand was better with good sales east. Receipts continue small. Prices may have some setback, but in our opinion the market is going in the importance in futures, and oftenings small. We look for some let up in receipts after sales made at higher prices. have been filled. We continue to advise the long side.

Chicago Markets.

Chicago Markets.

Chicago Markets.

Chicago Markets.

Chicago Markets.

J. P. Bickell & Co., Manufacturers' Life
Building, report the following fluctuations
on the Chicago Board of Trade:

when dry, hot weather is almost an essential to healthy growth of the crops, and fears of black rust damage spreading across the border line into Saskatchewan and Manitoba were the main influence. ...17.42 17.60 17.65 wan and Manitoba were the main influences governing an exceptionally strong wheat market yesterday. Crop damage claims were more insistent than ever, and the idea gained ground that from now on there were bound to be crop scares which would prove a decided influence in ruling market sentiment.

The Chicago and Winnipeg markets were both stronger, with advances running into one and two points in all wheat options. This fact brought about a strong tone here, and local dealers found it necessary to raise their quotations on ...16.22 16.30 16.37 16.22 16.37 Sept. Dec. Jan.

Winnipeg Wheat Markets. Close. Open. High. Low. Close.

Manitobas a full cent all round to conform with the advance in outside exchanges.

The market for oats proved another strong point, and in Winnipeg the September option got up as high as 3%c, over a cent a bushel above yesterday. This was followed in the local board, and by noon C.W. oats had advanced to 42c and 41c for Nos. 1 and 2, or over a point above last night. Montreal Grain and Produce. MONTREAL, Aug. 3.—There was an improved demand from foreign buyers for Manitoba spring wheat and oats at an Local grain dealers' quotations are as follows:

Oats—Canadian western oats, No. 2, 42c; No. 3, 41c, lake ports; Ontarlo, No. 2, 39c to 40c; No. 3, 39c, outside.

Wheat—No. 2 red, white or mixed, 80c to 82c, outside points, nominal. New wheat, 78c.

Bye—No. 2 88c to 70c outside nominal.

Randroba spring wheat and oats at an advance in prices for August-September shipment, but at the close bids were 9d per quarter out of line for old wheat and 7c per bushel on the new. The enquiry from European sources for spring wheat, 78c.

Political Play.

The Elusive Ice Cream Cone.

World Office.
Thursday Evening, Aug 3.
Porcupine stocks experienced one of
the worst days in their history to-day,
the mining market discovered to the control of the contr the mining market displayed a decidedly weak tendency, and prices recording a sharp break under the insistent selling which pervaded the exchanges from the very opening of business.

There was nothing in the news today to account for the remarkable slump in values, and the selling was selling was to the throwing away. set down as due to the throwing away of weakly held stocks, which were being liquidated by tired holders, who viewed the decline in yesterday's market with apprehension.

As during yesterday's session the de-

Preston ... 35
Rea ... 460 460 425 425
Swastika ... 51 52 51 51½
dio. b. 30 ... 53½
Vipond ... 55 55 54 54 and Hollinger making new low records for the movement and carrying the cheaper stocks along in their wake. There was undoubtedly a good deal of short selling also, and this probably added some weight to the already exceptional weakness.

Rea opened at 4.50, a drop of 28

points over night, and got as low as 4.00 during the slump which followed, this being a new low level for the stock. Hollinger was off to 10.75, a loss of 55 points from last night, but ooth of these issues came in for a reback to 4.40 and Hollinger to 11.00. Rock The net loss for the day in these shares

The cheaper Porcupines held up decidedly well yesterday considering the big decline in the leaders, but came in for their innings to-day, and slumped rapidly in most instances. Dome Extension was especially weak, the shares opening 4 1-2 points under last night and losing an additional 3 points at 77 during the day. This is the lowest figure reached by this stock in some

ance with the instance above cited, the to a lesser extent. Swastika dropped a full point at 51; Vipond was off 3 at 56, and Foley-O'Brien got back 6 ta 124

The Cobalts were in better shape han the gold stocks, but this was due | Kerr Lake | Ninter | Kerr Lake | Ninter | Ninte than the gold stocks, but this was due in great measure to the fact that the trading was decidedly dull, the silver mining was decidedly dull, the silver mining issues being practically left to themselves. Beaver moved up a fraction to 45 3-4, and Timiskaming got up to a like extent, touching 44 1-2, but losing a point later.

Traders were somewhat non-plussed at the action of the market and at the close were somewhat mixed in their losses were somewhat mixed in the losses were somewhat mixed were somewhat were somewhat were s

close were somewhat mixed in their opinions. The general ideas however, was that a recovery was overfue, and that a better tendency should follow after to-day's drastic shake-out.

Utah Copper Earnings. The quarterly report of the Utah Copper shows total net profit of \$1,-366,944; surplus after dividends, \$189,-932. Cost of production 8.02 cents a pound, compared with 8.43 cents for Balfour Gets After Asquith on the quarter of the year.

Nevada Consolidated Earnings. The quarterly report of the Nevada Consolidated for the quarter shownet earnings of \$886,266, decrease \$394. 432; surplus after dividends \$136,877, decrease \$397,342. house of commons, again to-day dis-

MONTREAL, Aug. 3.-As a result of the congested conditions existing est gold properties in the whole Lake of the Woods district is the Ophir Mine. It adjoins the famous Sultana and work is being done in opening up the same vein that assisted largely in the Sultana since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened, it is since the present season of navigation opened in the same vein that assisted largely in the same vein the sa the Sultana's record of a million and a quarter dollars' production.

This vein, as it shows on the Ophir, is absolutely a wonder. Big masses of for immediate transshipment to transsioners will shortly announce that in future no grain will be received in Atlantic ports. It is also stated that the period of 20 days' free storage at present allowed by the commissioners

ELDORADO LOOKS GOOD last few days, but all indications point to the fact that conditions are now ripe for an advance. This will extend thruout the whole list,

we believe it will only be a matter of a few days until the upward movement is inaugurated. We strongly advise the purchase of Eldorado shares at the market, believing that this issue will record a sharp advance as soon as development work has made a little further progress.

or of the past month.

As regards liabilities, very similar nparisons are made, aggregate in-otedness of \$12,150,707 showing a conderable decrease from the \$13,790,753 of July last year, an increase over the \$9,527,893 two years ago, and a considerthe corresponding month in 1908. The progressive contraction in the amount of defaulted indebtedness is very gratifying, inasmuch as it indicates a steady growth in general business stability.

ON WALL-STREET.

Beaty) wires: There was a sharp break which tended to exercise a restraining in stocks the last hour, with new low influence on bullish activity was the prices. The volume was heavy, but further weakness of Standard Oil on the port shortly before the close. On every cline of 21 1-2 points on unusually was from Washdeclining movement we get two or the successive plunges, as a rule, before the market turns. Should not be further develop of a disturbing further develop of character, the turn for the better ought quiry into the formation of a "securibanking holding concerns. But nished food for reflection. that is not sufficient to account for the recent weakness. A break in stocks was overdue and it came, with the olders. When the selling movement has run its course the market will be sounder shape, and after congress journs the way should be open for considerable improvement all along the line. Meanwhile look for a mixed situation. The market will be a trading affair, after things have quieted down. and it should be bought only on drives. The strength of grain to-day, with predictions of a poor showing, especially for corn, in the next government report, may have induced considerable selling of stocks. Chas. Head & Co. to R. R. Bongard:

The market to-day, after early firmness in which recoveries averaging about half a point for the leading issues, were scored, turning weaker and gold below the previous day's closing. There was nothing in the news to especially warrant bearishness, tho pesimsitic reports came from the so-callel crop experts, who are now traversing the west in the interests of houses long of grain. On the other hand, it the corn belt, where it is needed, so for money, which was thought to re- counts. interpreted in the same manner. In large, there is no reason why monetary Bear activity doubtless accounted for aconsiderable part of the selling, the shorts finding no trouble in depress- changed on call. bull support. In view of the fact that the professional element, which is in control of the market, is bearish, we would not bet surprised to see the mar-

LOWER PRICES FOLLOW DULNESS.

World Office

Thursday Evening, Aug. 3.

Lower prices have resulted in drying up most of the speculation on the local market. Nothing is cited to account for what appears to be a change in market sentiment, and the turn in values is accepted as one of the periodic waves of depression. The holiday season and the beginning of the campaign for the Dominion election leaves less opportunity to pay attention to the stock market, and dulness is, as in most cases, accompanied by lower prices. The Montreal exchange is feeling the effect of the change more so than Toronto, owing to the overextended speculation in the former market. Prices will likely drag until the turn is brought about

Selling Movement in Last Hour Forces Prices to New Low Level

Commercial failures in Canada during July, as reported by R. G. Dun & Co., show a pronounced expansion in the amount involved, but some falling

During the frequent periods of stagnation on the exchange gossip was busy with the causes or reasons which have brought about the feversal in the market. Rumor assigned the short selling to the operations of a western grain trader, while the liquidation was attributed in part to the precipitate offerings of a local operator, who is currently reported to have suffered severely in the bull side of the cotton market. Neither rumor was confirmed, altho both possessed the elements

Declining Prices in Montreal Market

Weak Points-Recovery at the Close.

MONTREAL, Aug. 3 .- The Montreal stock market continued weak and un-steady and further losses were regis-tered thruout the list. Steel Corporation stock, which was the most active ssue, with transactions of 2599 shares. recovering at 52 1-2, declined to 52, recovering to 52 3-8, with 52 1-4 bid and 52 1-2 asked at the close. Montreal Power was also under pressure and liquidation carried the price down to 163 1-4, but it recovered to 164 1-2, with the last sale at 164 1-4. Montreal Street 1cst 2 points, selling at 222, but it closed stronger, 223 being bid, with 224 1-2 asked. Toronto Beile sold off themply to 158 1-2, but recovered to 160, with 160 7-8 bid and 161 asked at the close. Richelieu, after selling off to 121, advanced to 122, with 121 3-4 bid at the close. Rio declined to 113. Mexican Nova Scotia Steel was weak, declining

Cotton Markets

Erickson Perkins & Co. (J. G. Beaty), 14 West King street, report the following prices on the New York cotton market:

lowing:
Heavy buying by local trade interests
hasty reconsideration of the caused a hasty reconsideration of the August condition report, which, the day belofe had been so bearishly construed. Prices showed good advances to-day. Buying was more general and the market on the advance was surprisingly bare of offerings. Reports from the belt suggested insect activity during the month. The average August deterioration for Aug. is 5 per cent, but it is a question if the market, with its enormous speculative short interest, can receive unfavorable reports without alarm. We continue our advice to buy on all sharp drives.

- SIMPSON

The great flight from Hamilton to Toronto is not the only soaring record that has been made this week. Our daily receipts from the sale of August Furniture are doubling and trebling last year's record---in fact our fifth floor is about the busiest place in the store.

After the Altitude Record Saturday Morning

Just seven items from the August Furniture Sale mentioned here for to-morrow, but the prices are so exceptional that our morning's business on the fifth floor should break all previous records. Come and see what else you want besides these:

Library Tables - A good colonial design; carefully made and well finished; made of selected quarter-cut oak, in fumed or early English finish; also in mahogany finished dull; the top is 42 inches long and 26 inches wide, and has large drawer; as to finish, style and construction, this is one of the most desirable tables we have ever been able to offer. Regular selling price \$18.00. August Furniture Sale special 11.90

House Desks-Made in selected oak and finished rich golden, early English or fumed oak finishes; good writing space, with cupboard above. Regular price \$12.75. August Furniture Sale 9.90

Jardiniere Stands-In solid mahogany, dull

Sliding Couches-A' comfortable couch for day; easily extended to a full size bed for night; mattress covered with green striped denim. Regular price \$9.75. August Furniture Sale ... 7.90

Folding Woven Wire Cot and Mattress -Closely woven wire fabric, with comfortable mattress. Regular price \$2.70. August Furniture Sale 2.09

Iron Bedsteads-In pure white enamel finish; in all standard widths; brass caps on posts; made strong and durable. Regular price \$4.50. August Furniture Sale 2.99

Woven Wire Bed Springs-Frames made of thoroughly seasoned hardwood, with triple weave. finish. Regular price \$7.90. August Furniture closely woven steel wire mesh. Regular price 3.95 \$3.00. August Furniture Sale 2.10
