ITALIAN GOVERNMENT APPEALS TO ALLIES TO ARRIVE D'ANNUNZIO OUT

Naval and Military Authorities Frustrate Attempted Landing of Jugo-Slav Forces—D'Annunzio Will Not Leave Fiume Dead or Alive.

London, Sept. 22.—The Italian government has appealed to the allied powers to send an allied force, exclusive of Italians, to drive D'Annunzio out of Fiume, according to a report here tonight, which is considered reliable. It is understood that the American naval authorities here, who control the operations in the Adriatic, have declined any assistance whatsoever, pending the final decision from Washington of the peace delegates in Paris.

The Italian government is reported to have pointed out that it is difficult for Italy to handle the situation in view of D'Annunzio's popularity with the Italian people, and also because of the fact that the Fiume decision has been a thorn in the side of the Italians.

Italy Deplores Situation. It is understood that the Italian government declared that it deplored the situation and did not wish to make the slightest move against the decision of the peace conference, but pointedly inferred that if D'Annunzio's hold on Fiume was to be weakened it must be done by other than Italian troops.

An attempt by the Italian navy to land on the Dalmatian coast is reported in official despatches reaching here regarding the Adriatic controversy, in which Fiume is the storm centre. The landing was frustrated by the Italian naval and military authorities.

At Fiume itself, the situation is still quiet, the advices state. Blockade Increases Prices. Rome, Sept. 22.—The cost of the necessities of life in Fiume gives some idea of the food situation in the blockaded city. Flour is bringing 80 cents a pound and sugar, \$2.00. Oil is \$4.00 a pint and lard, fat, \$9.00 a pound.

Gen. Robilant, chief of the Italian forces maintaining order along the line of demarkation. Here, the armistice, has been replaced by Gen. Badoglio, chief of staff to Gen. Diaz, and second in command of the Italian army.

Gen. Robilant was unpopular, having been a member of the inter-allied military commission which asked the withdrawal of Italian troops from Fiume, the substitute for the guard of Fiume by Maltese policemen and dissolution of the national council at Fiume.

It was these proposals, it is said, which caused Gabriele D'Annunzio to (Continued on Page 7, Column 3).

AMERICAN SENATOR ANGRY AT BRITAIN

Galleries Hiss Violent Disapproval After Four-Hour Attack on Treaty.

Washington, Sept. 22.—At the end of a four-hour attack on the league of nations by Senator Reed of Missouri, a Democrat who has refused to stand with his party for unreserved ratification of the peace treaty, of which the league covenant is a part, the senate galleries late today stated a situation that had to wear itself out and then hissed violent disapproval when the cheering was condemned from the floor.

The principal part of the speech was an argument against the league covenant, with a bitter assault on the clause giving Great Britain six votes in the league assembly in one for the United States. President Wilson was sharply and severely attacked by Senator Reed, who declared he had counselled with kings to transfer to them the sovereignty Washington had won with the sword.

Original Plan. It was six o'clock when Senator Reed concluded his address and the original plan to proceed with formal reading of the treaty was abandoned. There was some uncertainty as to how far the reading might proceed tomorrow, as it was intimated that Senator Johnson of California, who will return to his seat then, after his speaking tour, might ask that the vote be taken on the treaty in the afternoon and take up his amendment, which would equalize the British and American voting power in the league. In that event they would face about a week's discussion.

Conferees Continue. Senator Lodge, in charge of the treaty by virtue of his position as chairman of the foreign relations committee, and Senator Hitchcock of Nebraska, leader of the fight for ratification, as drafted, said they were ready to go on with the reading if nobody was ready to speak and if Senator Johnson did not wish to call up his amendment. The treaty will be regarded as the first real test of strength, meanwhile the "mild" reservationists continued their informal conferences, without disclosing how they would line up as a group on the amendment.

CONSERVATIVES MARKING PERMANENT HOLIDAY OF ARMISTICE DAY

Fix November Eleventh for Thanksgiving—Consider Housing and Electrocution.

Canadian Press Despatch. Ottawa, Sept. 22.—Private members had an innings in the commons today. Mr. I. E. Fedlow's bill, to make the second Monday in November each year a permanent Thanksgiving Day was one of the matters under discussion. On motion of Mr. R. L. Richardson, the bill was so amended as to make Nov. 11, Armistice Day, the holiday of thankfulness. This is the object of Mr. Fedlow's bill, but the South Branch member favors the second Monday of the month because the first work day of the week has in Canada now come to be regarded as more suitable for the celebration than any other day. In recognition of this feeling, it was decided to allow the bill to stand in committee until objections can be heard from.

There was an academic debate on a motion moved by Mr. J. H. Burnham, dealing with the cost of production, and calling upon the government to lay a definite plan of government in this respect before the people at the next general election. Mr. Burnham wanted a committee named to deal with the matter, but the government would not agree, and the motion was declared lost.

Housing Motion. H. M. Mowat's resolution, advocating government assistance for the erection of houses in model townships for returned soldiers was withdrawn, on the promise that this matter would be considered by the committee to which the soldiers' civil re-establishment bill has been sent. At the evening sitting, Mr. Mowat's bill to substitute electrocution instead of hanging as the death penalty, was debated, and Mr. McMaster, seconded by Mr. Fedlow, moved by way of amendment that the death penalty should be abolished.

The bill was under discussion when the house rose. A tribute to the late Hon. Frank Cochrane was paid in the house this afternoon. Hon. C. J. Doherty, acting leader of the house, referred to Cochrane as a man of sturdy reputation, one who in every action was inspired by a desire to do his duty and do it in full measure.

Mr. McKenzie, house leader of the opposition also expressed the profound regret for the loss of Cochrane. His opposition had not always agreed with Mr. Cochrane, they believed he followed a conscientious line of action in (Continued on Page 5, Column 3).

PRINCE OF WALES NOW IN VANCOUVER

H.R.H. Honored by Big Civic Luncheon—U. S. Admiral is One of Speakers.

Canadian Press Despatch. Vancouver, B.C., Sept. 22.—The Prince of Wales concluded his first morning in Vancouver when at 1.15 this afternoon he set down to luncheon in his honor at the Hotel Vancouver, which was attended by 400 representative citizens. The speaking was brief. The prince responded to the toast in his honor proposed by Mayor Gale, and Admiral Hugh Rodman, commander of the United States Pacific Fleet, replied to the toast. This afternoon the prince opened the new quarters of the Navy League here and then he resided for the dinner and ball this evening.

The prince was greeted by Mayor Gale, the aldermen, General Leckie, Dr. O. C. Admiral Rodman and others. Passing in the front of the station, the prince reviewed the guard of honor which was composed of Seaforth Highlanders, all veterans of the great war and most of them wearing decorations. Then, amidst cheering and great enthusiasm, and escorted by a squadron of mounted police, the prince set out for Stanley Park. He was cheered through and his response displayed his appreciation of the reception which was given him.

Given Cordial Welcome. More crowds filled Stanley Park, where Mayor Gale read a civic address, giving a most cordial welcome to the visiting royalty. The prince's graceful reply referred to the part Vancouver had taken in the war, and spoke of his pleasure in visiting the city.

A visit to the military wing of the general hospital followed and then a hurried trip to Point Grey, where the (Continued on Page 4, Column 4).

SEAMEN ON LAKE BOATS WILL STRIKE

Chicago, Sept. 22.—Union seamen employed on the ore-carrying lake boats of the United States Steel Corporation today completed their balloting, and have voted almost unanimously to strike in sympathy with the steel workers, according to a statement tonight by Patrick O'Brien, secretary of the Chicago local. He said the executive board would meet soon at either Detroit or Chicago to canvass the votes and decide on a date for the strike.

FEDERAL BILL TO RE-ESTABLISH GRATUITOUS QUESTION

Calder Made Ruling Last Night—Receive Veterans' League Message.

Canadian Press Despatch. Ottawa, Sept. 22.—The question of gratuities and all other matters affecting the re-establishment of soldiers in civil life will come before the special committee of the commons on soldiers' civil re-establishment action, according to a ruling of Hon. J. A. Calder, chairman of that committee, made shortly after the session opened tonight. The question arose as to how far the committee was competent to go into matters outside of those set forth in bill number 10, on soldiers' civil re-establishment. Mr. Calder said in his opinion it was quite competent for the committee to recommend any amendments to the bill creating the department of soldiers' civil re-establishment, which it might see fit, and if the committee found that the objective for which the department was created was not being attained under the present act it had every competence to recommend alterations. Mr. F. F. Pardee asked if the committee had the right to take up the question of gratuities. Mr. Calder replied in the affirmative, and said they would also take up any other scheme in regard to placing soldiers back in civil life. "It is perfectly competent for us to call anyone who can enlighten us on these plans or subjects," the chairman ruled.

PARADE WOULD AID MAY BE HELD

Mr. Pardee raised the question that a certain amount of unrest was due to the fact that many returned soldiers in many cases found themselves unable to maintain their families. If a man had suffered loss of earning power as a result of wounds overseas, Mr. Pardee thought it was the duty of the state to assist him either by placing him on the land or by supplying him with a trade. Again, when making communications from branches of the G.W.V.A. and other returned soldiers' organizations.

BOTH SIDES CLAIM ADVANTAGE AFTER FIRST DAY'S SKIRMISH AMERICAN STEEL ENCOUNTER

Fear Struggle Faced Will Be Lengthy and Bitter One

Union Secretary Satisfied With Reports Received From Leaders—Employers Declare Men Sufficient to Operate All Important Mills.

By Associated Press. At the end of the opening day of economic war between organized labor and the great part of the industry of the country, both sides rested tonight, apparently satisfied with reports received from the far-flung battle line, reaching into twenty states and affecting directly or indirectly half a million workers.

After the first test of strength, industrial leaders and commanders of labor's legions were willing to admit that they faced a struggle which might prove long and bitter. Grim evidence of preparations made for the industrial conflict were seen in the armed guards surrounding all the mills but the first day of the strike ended with no signs of disorder, except in Newcastle, Pa., where seven persons were shot in rioting following an alleged attempt to prevent workers from entering a plant.

Until the first smoke of battle rolls away, an accurate estimate of the number of workers who marched out in obedience to the strike order and the number who remained at their posts is not obtainable. From strike headquarters in Pittsburgh came claims that 234,000 men had taken their places in the ranks of the strikers, but no statement was forthcoming from the steel corporation's headquarters in New York, which said the men in the zone of action hastened to challenge the estimate of labor leaders.

INQUIRY REVEALS STORING OF SUGAR

Manager Coca Cola Co., Winnipeg, Admits Firm Has Quarter Million Pounds.

Canadian Press Despatch. Winnipeg, Sept. 22.—Evidence submitted today to the Board of Commerce headed by James Auld, showed that the Coca Cola Company has at present 240,000 pounds of sugar in storage, while wholesalers and retailers cannot begin to supply the demand. Harry White, C.C. stated he would wire Ottawa immediately in regard to this discovery.

Asked by Commissioner Auld if authority would be requested to seize the supply for distribution, Mr. White stated that the facts would be brought before Chief Commissioner Judge Robson, and he would decide as to what would be done. Clarence Rainard, manager of the Coca Cola Company here, testified that there were 240,000 pounds of sugar stored in the warehouse, that the company had released six or seven cars of sugar during the past six weeks to wholesalers to relieve the shortage. He said there had been no interruptions in the supply of sugar contracted for last January by his firm.

Cause Loss of Fruit. A. MacDonald of MacDonald, Chapman, Limited, wholesale grocers, stated that his firm had received in the past three days three cars of sugar which had been immediately shipped to meet a very small fraction of the waiting orders. Ten cars are needed to fill present orders and the business declared the shortage of sugar has resulted in serious wastage of fruit.

KOLCHAK ADVANCES AGAINST BOLSHEVIKI

Soviet Government in Moscow Appeals to Followers to Chase Denikine.

Washington, Sept. 22.—Advices to the state department today from Omak told of a general advance of the Kolchak army against the Bolsheviks in western Siberia. No details were given, but officials at the department expressed the belief that Admiral Kolchak had improved his position. No credence was placed by the department in reports that Kolchak had decided to retire in favor of Gen. Denikine.

Soviets Issue Appeal. London, Sept. 22.—The following appeal addressed to its followers has been issued by the Russian soviet government at Moscow: "The Red armies have abandoned Khar'kov, Bieloostok, Ekaterinodar, Tsaritsyn and Kiev, the counter-revolution in the region of the Don is extending, and we have withdrawn from the region of the Caucasus. Russia could receive coal and firewood.

"We need not fear Denikine (the anti-Bolshevik ruler in the south). Workers and peasants, you know how Kolchak advanced. We stopped him and again are pursuing him in the Urals region. We shall follow him still further into Siberia.

"Our weakness, as concerns Denikine, is in not having finished quickly enough with the drunken bands of Gen. Grogorieff. Those traitors have disagreed on our rear and troubled our front, while we on the other hand have not attached sufficient importance to the southern front.

"We had to meet them in time of Denikine's offensive. He who sleeps puts himself voluntarily into the hands of his enemies.

"We need not peasants, conquer the coal and the factories, which will give us the indispensable. Defeat Denikine and the Bolsheviks, and the country will be free from the smoke and the locomotives and trains of wheat will circulate."

Is No Rush by Citizens. To Get on the Voters' List. Hamilton, Ont., Sept. 22.—There appears to be little interest here among the people as to whether or not their names are on the voters' lists for the coming referendum. A sitting of the revision court was held this afternoon, but there was absolutely nothing doing and as a result there will be no session tomorrow. The final sitting will be held on Wednesday afternoon. The court at Gage Avenue School, presided over by Martin Malons, will be opened all day Friday and Saturday.

ONTARIO ELECTION WRITS OUT TODAY

Ferguson Tells Ottawa Friends Date of Voting Draws Near.

Ottawa, Sept. 22.—Hon. G. Howard Ferguson of the Ontario government assured Conservative members of the Ontario legislature tonight that writs for the coming Ontario elections would issue tomorrow. "It is understood that the election will be held on October 20, with nominations two weeks earlier.

When asked about the above despatch last night, Premier Hearst replied to The World, "I have nothing to say. I very much doubt it."

ELECT W. A. CROCKETT

Austin O. Smith is First Deputy Reeve—It Was an 'Acclamation' Contest.

Hamilton, Sept. 22.—Barton township will not hold an election to fill the vacancies in the council. Today W. A. Crockett was elected reeve by acclamation, and Austin O. Smith was appointed first deputy reeve, after he and C. S. Bird had flipped a coin to determine which one would drop out. The procedure was agreed upon when R. J. Passmore, who was also nominated for the reeveship, failed to put in an appearance and qualify before Township Clerk Bryant.

Electing the above two members to the council by acclamation saved the township \$250 election expenses.

BIG LABOR CONGRESS GETS DOWN TO BUSINESS

Is Officially Opened and Passes Resolutions Favoring Home Rule and Clemency for Military Defaulters ---O. B. U. Condemned.

That the subject should not have been introduced at all. Finally, after a lengthy debate, the amended resolution was adopted by a small majority.

The question of clemency for deserters and defaulters also resulted in a heated discussion, which at times became bitter as delegates spoke of their personal sufferings thru the loss of relatives at the front. Other delegates, however, maintained that labor was unalterably opposed to war and those who had consistently refused to fight had upheld the spirit of strongest principles. The committee refused to concur in the resolution and its recommendation was finally upheld by a very small majority.

A "get-together" gathering was held this evening in the I.O.O.F. Hall.

Appluses for Gomers. Mayor Booker, in his address of welcome, called attention to the great questions the delegates would be called upon to consider, urging them to do their utmost to allay the spirit of unrest prevailing at the present time. During the course of his remarks the mayor referred to Samuel Gomers, and the mention of the president of the American Federation of Labor evoked cries of "No" from a few members. The storm of applause drowned the cries of those who protested, however.

Premier Sir William Hearst, speaking on behalf of the provincial government, deplored the fact that such conduct, while others held the opinion

H. H. WILLIAMS & CO.,
28 King Street East, Main 8450.

Canadian Press Despatch. Pittsburgh, Pa., Sept. 22.—The opening of the strike in the iron and steel industry of the United States found both sides in the bitter struggle claiming the advantage after the first day's skirmish. The Steel Corporation, against whom the brunt of the attack was made, was able to operate most of its plants in the Pittsburgh district, according to officials of that concern. What tomorrow will bring they could not say, but they expressed confidence in their ability to operate. The fact that the steel workers did not cause a general tie-up, as was predicted in some quarters, they would have more men at work on the second day than the first.

The union leaders at headquarters of the national committee of the steel workers, declared that they were highly pleased with the answer made by the thousands of organized and unorganized men engaged in the industry. William S. Foster, secretary of the national committee, predicted that the intensive campaign to unorganize men not only of the steel corporation but independent men, would result in bringing many more thousands out on strike.

Secretary Foster gave out figures based, he said, on reports received from union leaders in all steel districts of the country, indicating that approximately 234,000 men out of the half million engaged in the industry would observe the strike call. In the Pittsburgh district alone, he said, 71,000 men were out.

While corporation officials refrained from going into figures, their statements on the situation did not agree in any particular with the figures issued by Secretary Foster. It was claimed in some quarters that not more than 15,000 workers in the district answered the call. It was admitted by officers of the Carnegie Corporation, the steel corporation's largest subsidiary here, that some of the plants were short-handed, but that sufficient men reported on the day and night shifts to permit all of its important mills in the district to operate almost at one hundred per cent.

It was also admitted by steel officials that blast furnaces, which are said they had already regarded as badly crippled by a failure to operate the furnaces was expected to be taken over by the steel corporation. Men who reported were concentrated on other furnaces. No houses were sent home, but was given something to do, if he cared to work, officials said. In the city of Pittsburgh the steel corporation plants were fully manned, it was given out.

At Homestead, Duquesne and Braddock where the steel corporation has immense plants, there was a sharp conflict of claims as to the effective number of the strike. The Carnegie Company thru a representative, said that little difficulty was experienced in operating the works at those places. This was denied by Secretary Foster and organizers sent into those places. Mr. Foster claimed there were 6,000 men on strike at the Homestead works, the same of several bitter labor struggles in years past. The company said this was not true as there were not many more men employed there than 9,000 and that the works was not crippled.

Mr. Foster said his reports showed 5,000 men idle at Braddock and 12,000 in all the plants at McKeesport and Duquesne.

There were many idle men noticed on the streets of Homestead, McKeesport, Duquesne and Braddock during the day, but whether they were largely strikers or men working on the night shifts could not be definitely determined.

Majority Foreign Born. According to officials of the Jones and Laughlin Steel Company, that concern was but little inconvenienced by the strike today. There were a few defections, followed by a few more at the noon hour, but representatives of (Continued on Page 9, Column 3).

Taking Everything Into Consideration

We have the most exceptional showing of **BOYS' CLOTHING** in Toronto.

You have heard that old expression many times "You can't get blood out of a stone," and by the same token it's hard to get fabrics where none are produced.

The clothing problem is perhaps the hardest today of them all---go where you will the cry is the same---no materials. Can't get the yarns necessary for manufacture, and so on till you wonder where on earth you are going to get a supply of clothes at all. On top of all that comes the agitation for cheaper clothes. Good clothes are not possible today at low prices, but there is a heap of difference between a fair profit and extortion. We are willing to show any customer our margin of profit and also to prove to them that at no time have we advanced our profits one cent over our legitimate margin. What's worrying us most just now is getting the garments fast enough to supply the demand. Last week we were fortunate in securing a good big shipment of Boys' Suits, and our Overcoats will be all here in about two weeks, although we have a goodly showing just now.

Reefers 2 years to 10. Overcoats 6 years to 18. The illustration shows two of our Smart Suit Models that are bound to win the fancy of the boys. Our price range starts at \$10.00 and goes up to \$30.00 and higher.

Taking everything into consideration you'll find our showing and values unbeatable. Of course we have always specialized in Boys' Clothing and do things a bit different from any other house, that's why we have so many boy friends, young and old.

We have a nice lot of Boys' Fixings, including the following lines :

BOYS' PURE ALL-WOOL STOCKINGS—Sizes 6 to 10½. Price 75c to \$1.50.
BOYS' JERSEYS—Fine worsted. Colors well assorted. Sizes 20 to 32. Price, \$2.50 to \$4.00.
BOYS' SHIRTS—Smart patterns. 12½ to 14. Price, \$1.50, \$2.00, \$2.50.

BOYS' IMPORTED HANKERCHIEFS—With colored initial. Very special, 25c each.
BOYS' DOGSKIN GLOVES—\$1.50 to \$2.00.
BOYS' CAPS—A special line. Good heavy Caps for \$1.00 each.

LARGE BOYS' COMBINATIONS—English natural wool. Medium weight. \$4.00 a suit. Regular \$7.50 values.
BOYS' COMBINATIONS—Tiger brand. Winter weight. Sizes 24 to 32. Price, \$2.50 to \$3.00.

Taking everything into consideration you'll find this a good place to shop in for the boys

QUEEN'S INITIATES NEW DEPARTMENT

Commerce and Administration Courses Will Lead Up to Degree.

Queen's University has established a department of commerce and administration leading to a degree, and the Hon. Dr. Cody, minister of education, has given general approval of the courses which are the result of a suggestion made to the universities of Ontario a year ago by the minis-

ter. Queen's has been the first to respond to this suggestion and an adequate curriculum has been arranged with courses in general business, banking and finance, accounting and auditing, commercial specialist, foreign trade and public service. The new courses which are being arranged in harmony with the work of the department of economics, under Prof. C. D. Skelton, will be available during the coming session and it is intended in addition to the regular staff to arrange for addresses by leading business men and public men on topics on which they speak with special authority. Queen's has also added to its staff for the purpose of carrying on the work. Dr. Cody has given interim approval of the commercial specialists' course as the academic qualification for high-

school specialists' certificates in the commercial subjects and has congratulated Queen's upon its enterprise in establishing the new department.

TWO YEARS' SENTENCE FOR BANNED PAMPHLETS

Three Russians were found guilty of having banned literature in their possession, and in the police court yesterday morning were sentenced by Judge Cohen. A. Swigach was given two years less one day at Burwash, Adam Emolinetsky 18 months and W. Mitoff 6 months. G. Grigoriel, a fourth prisoner, was allowed to go. Counsel appearing for Mitoff stated in court that the case against his client would be taken to a court of appeal.

WARNING RE COAL

Administrator Urges Importance of Prompt Unloading to Avert Embargo.

The warning issued by the Canadian war board re delay in unloading cars is one which must be seriously regarded. Freight equipment of the United States railroad administration will not be sufficient to supply the car demand during the fall and winter and unless the stock is kept rolling, embargoes on shipments to any and all points where accumulation occurs will certainly follow.

The fuel controller for Canada caused to be promulgated under order-in-council (P.C. 1887) certain regulations to promote the prompt un-

loading of cars. Regulation 5 provides: "Whenever it comes to the knowledge of the fuel controller that any freight car containing coal or coke has remained under load at its destination for a longer period than six days or has been held at any point for furtherance order for a longer period than one day after notice of its arrival has been given to the consignee as aforesaid, the fuel controller may notify the consignee by registered mail or by telegram that unless the said car is unloaded or a furtherance order given, as the case may be, within two days from the date of such notice, the fuel controller may thereupon authorize the agent to seize the contents of the said car and summarily offer the same for sale to any coal or coke dealers at the point at which the said car is seized. The company shall pay the balance (if any) of the proceeds of such sale to the original owner or to the consignee as their interest may appear."

Several importers have expressed the opinion that the strike at the steel works will release a large quantity of bituminous coal, particularly slack.

In this they are doomed to disappointment, as the steel operators, fully alive to the danger of coal shortage, will take in and stock as much coal as possible. No relief either from coal scarcity or car shortage may be looked for in that respect.

Importers and users of fuel must help by prompt unloading of cars. If this is not effected, the above regulations will be strictly enforced.

DAILY WORLD WANT ADS BRING RESULTS

O'CONNOR'S BOARD LACKS PRODUCERS?

R. W. E. Burnaby Demands Farmers Replace Distributors in Milk Probe.

Interesting in various ways, the session of the board of commerce held at the city hall yesterday afternoon established the fact that there were not enough producers on the board whose duties include the fixing of fair prices for commodities, milk being the chief commodity under discussion. R. W. E. Burnaby was the speaker who set a match to the conflagration which resulted in the decision to remove J. H. Locke of the retail distributors' association from the board to make way for a producer who will be appointed at this morning's session. It was also Mr. Burnaby who proposed that farmers today were selling milk to distributors at a loss of a dollar a can. D'Arcy Scott, secretary of the national dairy commission, was also present for the statement that W. F. O'Connor's order prohibiting increased prices for milk during the next 40 days had created great confusion and might be attended with serious consequences.

Chief Witnesses.
 The chief witnesses of the day were E. C. Stonehouse, president of the milk producers' association, and Professor Leach of O.A.C., Guelph. Mr. Stonehouse in the course of testimony as to the general condition of the market and the effect of the middleman upon that market, stated that Toronto used 6,000 cans of milk in the summer and 4,000 during the winter. During 1918 the price per can to distributor was \$2.50, the producer paying transportation charges. During the following winter this price was increased to \$2.80, but during the summer of 1919 the price averaged \$2.45 the can, figures showing as follows: May at \$2.40, June at \$2.25, July at \$2.25, August at \$2.55, and September at \$2.55 the can. The grading of the price was dependent upon production, which was practically the whole factor. In reply to Rev. Peter Bryce, witness stated that concentrates were used every month, except May and June, and they were used in greater proportion during the winter months. Milk was dearer during winter because production was at a lower ebb and more consideration was necessarily paid to proper stabling and other matters which added to the loss side of the profit account. Hired help was decidedly not among the latter considerations, being unobtainable at any price.

Feeds Nearly Double.
 Continuing, witness stated that local townships paid the same price for milk as the cities. He pointed out that the dairy cow as a milker was accounted worth \$10 more than the "beef" cow; \$250 was a high figure, but \$150 was the average price for dairy cows. Touching upon the factors which made for more and better milk, Mr. Stonehouse stated that concentrates, such as oil cake, bran and shorts, gluten and other foods, had almost doubled in price. Oil cake was \$53 a ton in 1918 and \$95 in 1919; bran and shorts were \$27 and \$48 a ton last year and \$45 and \$55 this year, \$60 in small lots, while hay, which had sold cheaply before, was almost \$20 a ton today.

Mr. Stonehouse set \$3.35 as a fair price of milk by the can, which would give \$3 net to the producer. He further stated that the producers' association had not reached the point where it had any profits to consider.

Professor Leach stated that there were exact figures on 134 Dumas farms which were shipping their milk to Montreal firms. The costs included \$500 for farm labor. Of the 134 dairymen 72 were winter dairymen. These 72 produced from September to April 5,776,808 pounds of milk at an average of \$2.44 for a hundred pounds, delivered at the railway station.

Cost of Production.
 Seventy-eight thousand, nine hundred and twenty dollars was the cost of the feed used to produce the five million pounds of milk shipped to Montreal. The feed cost of producing 100 pounds of milk was \$1.37. The average production per cow was 5,107 pounds of milk per annum. The average amount of feed to produce 100 pounds was grain, 35 pounds; hay, 80 pounds, and silage, 100 pounds. At the prices in 1917, the cost for grain was 79.7 cents per 100 pounds of milk. The hay cost was 30 cents, the silage 25 cents, or a total of 1.35 cents per 100 pounds. All other costs were \$1.07, which included the cost of the cow, 7 per cent on investments, repairs, etc.

Direct to Consumer.
 J. Stewart Lundy, who has been appointed by the provincial attorney-general to press any prosecutions launched against infringements of the laws covering profiteering in foodstuffs, stated yesterday afternoon there would be inquiries into the prices of various commodities such as boots and shoes and packers' commodities. It would not be difficult, he said, to regulate the retail men on the market. Many of them were being watched. Meat prices had dropped during the past two weeks, but were expected to drop more yet. Joint action with the United States was foreshadowed. Among other things Mr. Lundy expressed the opinion that the farmer should sell direct to the consumer at the big markets, such as the St. Lawrence. It was still a regrettable custom among many farmers to deal with retailers when it was quite easy to sell direct to the consumer.

FALL OFF PIER ENDS IN WORKMAN DROWNING

Falling from a pier on the small out just east of the eastern gap yesterday afternoon, James Walsh, aged 29 years, of 181 Logan avenue, fell into the bay and was drowned. Walsh was not missed by workmen for ten minutes from the time that he fell in. A number of men were engaged in dredging and filling operations at this point. None of them, however, said they saw Walsh leave the spot where he had been working. He was an employee of the Canadian Stewart Company. Five minutes from the time a call was given the body was recovered. It was moved to the morgue, where an inquest will likely be held.

BOMB TO THROW WITH PIN PULLED

President Flynn Has Surprise Ready for West Toronto G. W. V. A.

President H. J. Flynn of the United Veterans League will address a mass meeting of returned men tonight in the city park on Bloor street, near Lansdowne avenue.

DENY THAT OFFICERS RETAINED WITH PAY

Ottawa, Ont., Sept. 22.—The militia department today issued an unqualified denial of the statements contained in a news despatch from St. Catharines, Ontario, and said to have been made at a mass meeting of veterans at Merritt, Ont., the departmental statement in parts follows:

SECRETARY CONROY EXPLAINS

J. V. Conroy, secretary G. W. V. A. (Toronto district), writes The World as follows: "I would be obliged if you will be good enough to correct the statement which appeared in The Toronto World on Saturday, Sept. 20, which in large headlines, quotes me as saying at a meeting of the East Toronto branch at Snell's Hall as stating: 'No alternative but to lead an immortal life.'"

HON. H. J. CODY TO SPEAK

Hon. H. J. Cody, minister of education, will be the principal speaker at the Ward 2 Liberal-Conservative Association meeting tonight in Victoria Hall.

RUN DOWN BY TRUCK

Norman Ludford, aged seventeen years, 23 Kippendavie avenue, had his light touring car run over by a motor truck on East Queen street near Princess.

ACCIDENTAL DEATH

Accidental death was the verdict of the jury at the morgue last night in investigating the death of Robert Kniseley, aged 88 years, who died from injuries sustained when he was struck by a street car on Danforth avenue.

CHARGED WITH FORGERY

Wesley Cowech, a soldier living on Louisa street, was arrested last night by Detective Sergeant Cronin on a charge of forgery.

A SOLDIER CANDIDATE

Charles O'Leary, barrister, of 506 Tenth building, and a returned man, said yesterday he proposed running as an Independent Liberal in Southwest Toronto at the next provincial elections.

MAKING A HOLE IN THE WALL OF JUSTICE

(Continued From Page 1.)

The best interests of Canada as he saw it, were always respected. Mr. Cochrane because he believed him to be a firm party man, and representing what is best in his party.

The solicitor-general presented a bill to amend the Dominion by-elections act of 1919. The bill provides that where there are any disqualifications as against any particular race, that disqualification shall be continued in the case of a by-election.

The house then took up a resolution of H. M. Mowat, advising government assistance for the erection of houses in modern town or garden cities for returned soldiers.

W. E. SUTHERLAND NORFOLK NOMINEE

Conservatives of North Riding Choose Him as Provincial Candidate.

Simcoe, Ont., Sept. 22.—At a largely attended convention held here this afternoon W. E. Sutherland of Delhi was chosen to be standard-bearer of the Liberal-Conservatives of North Norfolk at the coming provincial election.

S. GRANT IS CHOICE IN EAST HASTINGS

Hold Conservative Convention at Plainfield—Lucas is Chief Speaker.

Special to The Toronto World. Belleville, Ont., Sept. 22.—At the Liberal-Conservative convention of East Hastings, held at Plainfield village today, Mr. Sandy Grant, of Tweed, the present member in the Ontario legislature, was unanimously selected as standard-bearer at the next election.

CONFIDENCE IN HEARST

A resolution of confidence in the Hearst administration was adopted as was also a resolution pledging a united support to the government by doing all in their power to secure the election of the government candidate selected at the convention.

REPORT PROGRESS

An amendment made by Mr. Mowat to his bill was adopted. The amendment proposed to strike out of the bill all the clauses relating to the one of the changing the system of execution to that of electrocution.

The Globe advertisement featuring a portrait of Robert Jaffray and the text 'Robert Jaffray Strong, Courageous, Upright'. It includes a testimonial from George Brown and details about the newspaper's history and ownership.

THE memory of Robert Jaffray is still green. Following George Brown, his personality dominated The Globe. From 1888 to 1914 his presidency of The Globe emphasized its leadership in Canadian journalism, and laid broad and deep the foundation of The Globe's commercial success.

Robert Jaffray's devotion to Liberalism was conditional on that party's devotion to policies for the development of Canada and the betterment of Canadian life.

In this, and in his generous attention to the up-building of The Globe's news gathering organization, Robert Jaffray carried on the task the founder set for himself in 1844.

The Globe is not, and never will be, a party or political organ. It is a Great Family Newspaper. Throughout its long career it has possessed strong, courageous, upright men to carry on its policy of unwavering advocacy of the rights of the people.

As the principal stockholder of The Globe, Robert Jaffray showered his care and attention upon the paper—building up its departments, giving them greater scope, being constantly in touch with its editors on all matters relating to The Globe's policy on political and general questions.

When death called Robert Jaffray, on Dec. 15th, 1914, he left The Globe bigger and better for what he had done to further George Brown's ideal.

To-day its President, Mr. W. G. Jaffray, and The Globe directors and staff, are carrying on its affairs with a view to increasing its wide circle of influence—giving it more and more a place in every Canadian home.

The Globe is free to speak the thing it believes without consideration of any interest in finance or politics, other than the interest of the Canadian people.

The actual ownership of an important semi-public institution such as The Globe necessarily is a matter of public interest and the question frequently is asked: "Who owns The Globe?"

Mr. W. G. Jaffray, as President of The Globe Printing Company, in the 75th Anniversary Number, March 5th, 1919, said:—

"It is my conviction, as publisher of The Globe, that I should hold aloof from any financial investments the advancement of which possibly might conflict with the public interest. As chief owner of The Globe, it has been urged upon me to state in the first place, that the control of the capital stock of The Globe is in the hands of myself as the largest shareholder, and that the remaining shares necessary to constitute the majority holding are held by other members of the family of the late Senator Robert Jaffray; in the second place, that my holding of stocks other than Globe stock is limited to a very few shares of small value in two or three privately owned companies, which shares have been and still are for sale at the first reasonable market. This statement should convince readers of The Globe that there are no financial relationships to influence its direction and its policies."

The Globe can give no greater guarantee of its integrity than this, not that it doubts its readers' belief in its sincerity, but its publishers wish to impress upon all readers and prospective readers that their sole ambition is to produce a newspaper in keeping with the wishes of its founder, and thereby continue to deserve a place in every Canadian home.

The Milk Producer and Distributor

Dwellers in our cities and towns have to depend for food on supplies that come from farmers about them. The farmer sells his live stock for meat, supplies the people in the town with butter, eggs and milk; the gardener supplies the vegetables and the fruit grower the fruit.

What, then, is the problem as to milk, and it applies almost equally to all the other farm products involved? The problem is how to distribute the product of the farm to the family that consumes it without doubling the price.

Not to Be Waved Aside

Colonel Pratt's speech at St. Williams is not to be so lightly put aside as the government may imagine. Sir John A. Macdonald's old joke about having no use for the man who only supported him when he was right and wanted the man who stuck to him when he was wrong, is all right for the peccadilloes of politics, the errors that are merely mistakes, but to erect this into a standard of political morality was not in Sir John's mind, and it will not do for Hon. B. L. Lucas and his colleagues at all.

It was no peccadillo but a serious sacrifice of principle and a change of policy when the nickel mines of Ontario were alienated from the province by order-in-council. There have been similar violations of principle, as Sir James Whitney had defined it, in dealing with various waterpowers, pulp limits, fishing rights and other matters, and Colonel Pratt is not to be put off with rhetorical questions as to whether certain gentlemen believe that certain things are possible.

party instead of recognizing that the party is the source of all their power, and beyond this, that the party is only a source of power insofar as it represents the dominant feeling of a majority of the people.

The old classical myth of the man who had to touch earth to renew his strength may be commended to Sir William Hearst and his elect company. Perhaps Dr. Cody could expound the advantage of getting down out of the pulpit and mingling with the people occasionally.

P. R. Again Endorsed

Proportional representation was given a weighty endorsement by the national industrial conference in Ottawa last week. The proposed conference by the federal government on the subject was supported and commended to the government for early action.

The conference is to be a "Speaker's conference," and the present Speaker is not only familiar with the P. R. movement and literature, but is also a member of the P. R. Society of Canada, of which Mr. Ronald Hooper, Ottawa, is secretary.

There is no political disagreement over P. R. It favors no party more than another, but ensures absolute justice to all. No political party can afford to oppose it, because to do so is to perpetuate the chance of loaded dice being used in the election itself. The comparative failure of democracy up till now has been due to the loaded dice of machine politics.

A Hint for Toronto

New York Morning Telegraph, Sept. 19: Mayor Hylan is mistaken when he says that an increase of \$150 a year in pay will satisfy the police of this town. It will not in its way, more to the point, will not satisfy the people who will not let the policeman be any one thing but a policeman. If there is any one thing the people want more than another in their municipalities, it is adequate police protection.

Railway Festoonings For the Grand Ball

Montreal, Sept. 21.—The railway situation grows interesting as the taking over of the Grand Trunk by the government comes to pass. The Gazette, doubtless speaking for the Canadian Pacific, says "an adjustment of terms is all that is necessary to complete an agreement." And then it proceeds to deplore the awful mess into which Canada has gotten into over the Grand Trunk.

People here are asking who are the men who are already considering means of obtaining control of the wrecked? Are they of the Canadian Pacific? Likely. Strange things are going on. Strange to say a line, a cluster of lines, that are no good, are "irremediable commitments" should have attracted the consideration of men who want to get control of it. The Gazette is saying too much.

Elizabeth McDonald, Aged 104, Passes Away in Alexandria

Corwall, Ont., Sept. 22.—The oldest resident of the county of Glenora, Elizabeth McDonald, relict of the late A. B. McDonald, is dead at the home of her son-in-law, John McMartin, in Alexandria. Her passing severs a link between the distant past and the present.

SMUTS APPEALS FOR CO-OPERATION AMONG SOUTH AFRICAN RACES

Capetown, South Africa, Sept. 22.—The momentous special session of parliament concluded Wednesday night with another stirring speech by the premier, General Smuts, who appealed for a new start in South Africa without dividing South Africa on racial lines.

POLITICAL NOTES

The death of Frank Cochrane and the announcement of Col. Pratt that Sir Adam Beck would not run in London as a supporter of Sir William Hearst, gave a new shift to the political compass, especially when, up to eight o'clock last evening, no announcement was forthcoming as to whether the provincial election was to be held on the same day as the referendum or not.

HON. F. COCHRANE PASSES AT OTTAWA

Death of Former Cabinet Minister—Borden and Hearst Pay Touching Tributes.

Ottawa, Sept. 22.—Hon. Frank Cochrane died at 3:30 o'clock this morning after a lingering illness. The flag on parliament buildings in the city was at half-mast in honor of the former cabinet minister. Although a man of quiet habits, who rarely spoke in parliament, Mr. Cochrane was exceedingly popular with the members of parliament, and their regret because of his death is sincere. In 1917 Mr. Cochrane's health was not the best, and when Sir Robert Borden was forming the Union government he placed his resignation in the hands of the prime minister in order to make way for a Liberal-Unionist. Sir Robert, however, ever anxious to retain his ripe judgment and advice, insisted on his remaining in the cabinet with portfolio. Since then, however, his health failed rapidly, and those who were most intimate with him say that the early death of his favorite son who had served overseas, hastened his end.

Mr. Cochrane's illness has really covered a long period of years and compelled him to take long rests when he was a member of the government. Since his retirement in particular, Mr. Cochrane has been chairman of the government railway board. He was the connecting link between the government railways and parliament. Mr. Cochrane's remains will be taken to Toronto for interment tonight, and the funeral will be from the residence of Mrs. Cochrane's brother, 212 Roseland avenue, Roseland West, at 3:30 Wednesday afternoon.

Premier's Tribute

Mr. Cochrane's death was a great loss to the government, and a member of the cabinet of Sir James Whitney. The deceased, who had felt somewhat better during the early part of last week, expected to go to New York on Saturday to consult a specialist, but on that day he took a turn for the worse, and soon became unconscious, sinking rapidly until he died.

ITALIANS ASK FOR TO CLEAR OUT FIUME

(Continued From Page 1.)

Two Plans Submitted. From conversations which several senators and deputies have had with Premier Nitti and Foreign Minister Tittoni, it seems that two plans were submitted to the Italian cabinet...

According to one, Fiume would be given to Italy, but its hinterland, together with eastern Istria, would be given to Jugo-Slavia.

The second plan, which would give Fiume an absolutely independent city and the hinterland, together with eastern Istria, would become an independent state, ruled by an international commission or by the league of nations.

Time Limit Modified. General Badoglio's ultimatum to the D'Annunzio soldiers, giving them until Friday night to leave Fiume, is said to have been modified so that the time limit would expire last night, an additional 48 hours being given.

Fiume is closely invested, but in spite of this fact, numbers of volunteers have managed to elude the vigilance of the guards and have joined the forces of Captain Gabriele D'Annunzio in the beleaguered city.

Reports reaching this city from Fiume state that food for 45,000 persons must be distributed there daily.

D'Annunzio to Appeal. Fiume, Sept. 22.—Gabriele D'Annunzio declared in an interview here today that he was making ready an appeal to the king of Greece...

"I cannot believe there will be any such thing as a French or English appeal to the king of Greece," said the poet-commander...

"My men here are ready to die for our cause, while I will not leave Fiume either alive or dead, having already chosen in a fine cemetery, dark with cypresses, a small hill looking toward the sea, covered with laurel, where I wish to be buried."

The convocation of the chamber of deputies, which was to have taken place Thursday, has been postponed until Saturday.

Harper, customs broker, 35 West Wellington street, corner Bay Adelaide 4622.

BRANTFORD REWARD OF FIREBUG CAUGHT

and navy, will discuss the Fiume situation.

"No conflict is possible with the Italian troops, as I do not have there is a single soldier who would fire against my men."

Councillors Vote Money To Aid Soldiers' Housing Scheme.

Special to The Toronto World. Brantford, Sept. 22.—Without discussion, the city council this evening voted \$200 reward for the conviction of the firebug believed to be working here.

The Army and Navy Veterans asked for a grant of \$3000 for furnishing their new quarters.

The council approved of the conversion of the Cockshutt toll road to Scotland into a government road, but declined to assume any part of the cost.

The city engineer was authorized to prepare specifications for a new Lorne bridge, which will enable West Brantford to secure street car service.

The housing commission enabling bylaw was changed to allow of loans

Uncle Wiggly's Big Jump

BY HOWARD R. GARIS. Copyright, 1919, by McClure Newspaper Syndicate.

"Uncle Wiggly! Uncle Wiggly! You'll have to get up early this morning!" called Nurse Jane outside the rabbit gentleman's bedroom in the hooped stumpy bungalow one day.

"Get up early! What's the matter? Is the house on fire?" asked Mr. Longears, as he jumped up.

"Oh, no, no, no," answered the busy lady housekeeper. "I am going to do a lot of sweeping and dusting today, and I want to air your bed. I'm going to take the sheets and mattress down and let them stay in the sunny yard until night. That will make them nice and fresh."

"Is there anything else I can do for you?" he called to Nurse Jane, as he stuck his head out of the window and looked down at the muskrat lady in the yard near where his bed had been placed in the sun.

"Just throw me down your wash bowl and pitcher," said the muskrat lady. "I'll give them a good scrubbing while I'm at it. Throw them down to me."

"Throw them down!" cried Uncle Wiggly. "I guess you mean bring them down, don't you? My wash bowl and pitcher are made of stuff like dinner plates. If I throw them down they'll break!"

"Oh, no," laughed Nurse Jane. "Throw them down one at a time, and let them fall on the bed spring and mattress right under your window. Then they won't break."

So Uncle Wiggly first threw down the wash bowl and next the pitcher. He let them fall on the soft bed springs and mattresses that were airing in the yard, and nothing was broken.

Then, leaving Nurse Jane to dust the bungalow, the bunny rabbit gentleman started off over the fields and thru the woods, looking for an adventure.

Uncle Wiggly was thinking of how he had fooled the Eskozicks and the Pipsisewah the day before, by thumping the pillows, and he was sort of laughing to himself, when, all of a sudden, there was a rustling in the bushes, and out from behind them jumped the bad old fox.

"Oh, ho!" barked the fox, just like a dog. "So we meet again, Uncle Wiggly. I am very glad to see you!"

"Well, I'm not glad to see you, and you needn't think you can bite any sense off my ears!" answered the bunny rabbit gentleman. "Here I go! A fly with that Uncle Wiggly gave me, back toward his hollow stump bungalow."

"Oh, ho! Two can play at that game!" barked the fox, and putting his big tail straight up behind him, away he ran after Uncle Wiggly. Over the fields, thru the woods, up

STEEL STRIKERS CLAIM ADVANTAGE

(Continued From Page 1.)
The company said these were about the normal number of men who lay off each day.

Setting aside the question who is nearest to the accurate number of men, the company's report is the one that the strikers probably would prove a bitter and possibly a long one. Both sides, it was said, had to stake as high as the principles involved were vital to be brushed aside in a short strike unless it was decisive in settling the questions at issue.

Steel Corporation Quiet.
New York, Sept. 22.—No comment whatever on the strike which began today in the steel and iron industry was forthcoming from the headquarters here of the United States Steel Corporation.

No Disorder in Chicago.
Chicago, Sept. 22.—The big steel strike went into its second day today without disorder. Some of the largest plants were forced to close, but others operated on a reduced scale through the day.

Effect on Auto Industry.
Detroit, Sept. 22.—A week or ten days without a general strike of steel workers would be noticeable in the automobile industry here, according to an official of one of the big plants.

Make Menage Response.
Birmingham, Ala., Sept. 22.—Every steel plant in the Birmingham district is closed today, and the men reported for work are not working.

Those Who Fought Endorse the Citizens' Liberty League

Extract from Toronto Star Sept. 10th, 1919

VETERANS ASK SALE OF BEER AND WINES

Oppose Return of Open Bar, But Would Learn From French System. Denouncing the License Act as "stupid" and the Ontario Temperance Act as "atrocious" and "a maker of criminals" and affirming their intention of resisting "the tyranny of pettifogging government," Parkdale G.W.V.A. went on record last night as favoring the sale of beer and wine, and advocating an affirmative answer to all four questions on the forthcoming referendum, as the means of attaining that end.

Vote "YES" on all Four Questions

Remember, every voter must vote on every question or his ballot will be spoiled. These great Organizations of men who were the first to answer the call in the fight for liberty are endorsing the platform of the Citizens' Liberty League because they know, with the League, that the Ontario Temperance Act unduly restricts the liberties of the citizens of the Province.

The Citizens' Liberty League is proud to state that the following Organizations of Veterans have signified their approval of the League's objects and are supporting it in the endeavour to obtain sane, moderate temperance legislation.

Great War Veterans' Association—Toronto Branches: Parkdale, Central, Riverdale, West Toronto, Earlscourt, The Grand Army of Canada, His Majesty's Army and Navy Veterans' Association, The Naval Veterans' Association, The Originals' Club, 75th Battalion Association, 83rd Battalion Association.

These men ask,—and what men in the Province have such a right to ask?—that you vote "YES" on questions 2 and 3 on the Referendum Ballot—and so assure to the citizens a beer containing 2.51 per cent. alcohol by weight, absolutely non-intoxicating—the Beer of the Ballot.

SUPREME COUNCIL CONSIDERS THRACE

Also Decides Upon Repatriation of Czech Troops From Siberia.

Paris, Sept. 22.—The supreme council today considered the delimitation of the zones of occupation in Occidental Thrace. The Temps says. It seems to be agreed already, the newspaper adds, that Greek troops alone will occupy the zone between the Greek frontier of 1914, the new Bulgarian frontier and the Mediterranean Sea, extending to the east tip of the vicinity of Gumurlina. This comprises what is known as the Xanthi region.

To the east of this zone, according to the plan as outlined, Occidental Thrace would be provisionally occupied by international forces. This delimitation, The Temps says, it understands, would not prejudice in any way the final action of the peace conference regarding this region, which will be fixed in the conditions of the treaty with Turkey.

New Ontario Boy is Victim Of a Gun-Play Accident

Parry Sound, Ont., Sept. 22.—Another "didn't know it was loaded" accident occurred at James Bay Junction, about six miles southeast of here on Saturday. Two boys, Arnold and Irwin, Quebec, sons of Edward Quebec, took two rifles, intending to shoot ground-squirrels, but instead began playfully pointing the rifles at each other. Unknown to his older brother Irwin, the younger, had loaded the 25 and left it on the dining room table. Pointing the rifles at each other, the gun was fired and Irwin was shot in the abdomen. He died in the afternoon.

GRIMES-HARRINGTON Special to The Toronto World

Gravelly, Sept. 22.—Charles O'Connell, a well-known northern Ontario mining engineer, who managed the Tough-Oakes Gold Mines at Kirkland Lake for several years prior to the change in control of the company a year or so ago, died at his home in Halden yesterday afternoon. He had been suffering from heart trouble for a considerable time. He had been active in mining circles of the north during the past fifteen years, and was widely and favorably known.

LIVERPOOL COTTON Liverpool, Sept. 22.—Cotton futures closed firm: September, 19.32; October, 19.32; November, 19.32; December, 19.32; January, 19.32; February, 19.30; March, 19.28; April, 19.24; May, 19.20; June, 19.15; July, 19.10.

KERR LAKE DIVIDEND New York, Sept. 22.—Officials of Kerr Lake Mining Co. this morning stated that no action was taken on the 25c dividend due Sept. 25. In other words, it was passed. The share reduction dividend is payable today.

IS BADLY SCALDED Kitchener, Ont., Sept. 22.—Peter Constantino, a Bulgarian, fell into a vat of molten sulphur here today, and was severely scalded. Dr. J. F. Hornberger was called and after attending to the man's injuries he had him removed to the hospital. He will recover.

CHICAGO OFFICIALS WILL NOT EVADE LAW Chicago was surprised twice in one day recently. W. H. Malone, candidate for the constitutional convention, appeared before the board of review. "I see you have fixed my personal property assessment at \$150," he said. "That figure is ridiculous. It should be \$4500." And so was fixed. And Motorcycle Police Officer Louis Windleborn of Evanston stepped a speaker and said: "You're pinched. When he recognized the speaker as Hiram McCullough, a member of the suburban city council, and corrected himself: "No, you're not. Yes, I am," insisted the alderman. "I'm guilty and know it. Do your duty, officer." And he did it.

MINTYRE STEADY IN QUIET MARKET

Wasapika, Hollinger and Lake Shore Are Among Firm Spots.

Mining stocks did not show a great deal of animation at the opening of another week's trading, but there was a firm undertone to prices and confidence that the movement will later broaden out remains unimpaired. It is pointed out that there are several bullish developments in the mining market, including the increase in the Hollinger and McIntyre dividends and the resumption of distributions on Dome Mines shares. While it may be argued that the market prices of McIntyre and Hollinger have to some extent discounted the declaration of larger dividends, it is likely that when such action is seen to be actually pending, quotations will be marked up further. One encouraging sign yesterday was the slowing down of profit-taking sales of McIntyre, and it is likely that the decline had been definitely arrested around \$1.87, the closing at this figure yesterday being unchanged from Saturday. Wasapika repeated its former high record price of \$7, nearly 5,000 shares changing hands around this level. Hollinger firm up two points to \$6.75. Lake Shore advanced a point to \$1.07, and there were fractional gains for Porcupine, N. V. at 2 1/2, and West Dome at 1 1/2. Davidson was slightly easier at 66 and Atlas at 24.

The Cobalts were inclined to slightly lower levels, but the only noticeable weakness was in La Ronge, which sold at 2 1/2 to 3 1/2. Timiskaming, which sold at 2 1/2 to 3 1/2, showed fractional reactions, while Adanac firm up 1/2 to 1 1/2. Vacuum Gas had another busy day, and showed strength at 27 1/2.

It was not known yesterday just what the Kirkland Lake miners had voted to do on Sunday when a secret ballot on the strike issue was taken. Ballots were also taken by the strikers in the Boston Creek and Souris areas.

NEW YORK MARKET SHOWS FIRM TONE

Beginning of Great Steel Strike Did Not Cause Unsettlingment Feared.

New York, Sept. 22.—Trading in the stock market today was cautious, but the beginning of the long-heralded strike in the steel industry did not exert so great an influence on prices as had been feared.

MORE SHARP ADVANCES IN MONTREAL MARKET

Abitibi and Tooke Gain Nine and Six Points Respectively.

Montreal, Sept. 22.—Trading on the Montreal Stock Exchange today fell about a little over 8000 shares short of the trading on Friday, which was the most active day since the big market of the early summer.

One or two issues again made spectacular gains, with Abitibi, Tooke, Penmans, Atlantic Sugar preferred and Canners leading.

Trading in Abitibi was again light, only about 415 shares changing hands, and on this buying the stock mounted 9 1/2 points to 120, a new high price.

Fall Styles in the Simpson Men's Store Today

You Are Invited to Inspect the New Styles in Fall Suits and Overcoats for Men, Which Are on Special Display Today

The whimsical moods of fashion, the little style touches which add distinctiveness to dress, will be found accurately and definitely portrayed in these new suits and overcoats.

The productions of America's foremost tailors, this exclusive and superb assortment of clothing, which has been carefully selected and prepared, will be found representative of the newest and best both in design and fabric.

Styles are here to suit every age and every taste: for the young man who is satisfied with only the latest, liveliest and snappiest things, and for the older and more conservative dresser, who desires to eliminate all trace of the unusual from his clothes.

Conspicuous Among the Style Innovations

are the high shoulders, the smart curve of the back and flare of the skirts. There are also new ideas in lapels, pockets and pleats, which will find favor with the young man, as will also the neat waist seam, all-around belt and double-breasted models, so much in vogue this fall. The ever-popular single-breasted sacques are here also in a large assortment.

The predominating fabrics are finely-finished tweeds, chevots, worsteds and serges, in many new shades and patterns, too numerous to mention.

The long-established reputation of this store for dependability is a guarantee to all intending purchasers of the reliability of fabric and the authenticity of style of all goods exhibited in this department. Men of discrimination and good taste may select their individual requirements here with satisfaction and economy.
