THAW'S MOTHER EAGER TO BRING UP PROBS.

Dismissed After Breaking Down Twice in Story of Son's Marriage, She Anxiously Tries to Give Insanity Evidence.

New York, March 6.—Another dramatic chapter was added to the Thaw trial today, when the grey-haired mother of the defendant took the witness stand to tell what she might toward saving her son.

Mrs. Thaw's story was brief. When Delmas M. Delmas had deftly limited her examination to the change she noted in her son's condition following his return from Paris in 1902, after Evelyn Nesbit had told him her life story, Jerome, with the greatest respect and consideration, conducted a short and ineffectual cross-examination.

Then the mother-lover welled strong in Mrs. Thaw and she felt she had done her all. She was loth to leave the witness chair.

"There is still the question of heredity," she protested, when Delmas and Jerome told her she might step down.

"I have asked you, meantime, all that is considered necessary," said Thaw's attorney, with the utmost deference.

Mrs. Thaw half rose, hesitated and was about to begin again, when the leading counsel for the prosecution handed her to assist her from the stand.

CENTRAL BOARD FOR LICENSING

Possible Remedy for Present Ills—Toronto Enquiry Occasions Lively Discussion in Legislature.

It is generally recognized in downtown circles that the Whitney government has encountered its first serious storm in the Toronto license scandals. Whatever has been revealed of the public suspect, and insiders are aware, that matters are much worse than appears on the surface, and those who have longer municipal memories than usual will recall the civic investigation of three years ago and reflect on what was covered up as well as what was exposed.

The present licensing system is the product and result of Liberal politics, intent on evolving an effective campaign instrument, and the evils that surround and accompany it are inseparable from it, and not to be avoided by its otherwise gained.

A central board, which would be composed of representatives of the various interests, is suggested, which would be composed of representatives of the various interests, is suggested, which would be composed of representatives of the various interests, is suggested.

The situation in Toronto demands prompt and drastic action. The disreputable and unbusinesslike manner in which the present licensing system is conducted is one of the first measures that will be looked for, but it is not the only one.

The opposition kicked up its heels yesterday afternoon and there was a skittish time in the political paddock in Queen's Park for a quarter of an hour. The Toronto license investigation was abruptly dragged into the proceedings by D. J. McDougall of Ottawa, who moved for a return of all correspondence concerning certain license matters of the present chief license inspector of the city.

EVIDENCE "MADE" IN CAYUGA CASE

Witnesses Admit Crown Attorney and Detective Asked Them to Give Testimony, Which Seems to be Against Mrs. Perkins.

Cayuga, March 6.—(Special.)—At the preliminary hearing of Mrs. Mattie Perkins for the alleged murder of her husband, E. F. B. Johnston, K.C., today, forced Henry Wilkinson of Cayuga, a witness, to admit that Crown Attorney Murphy and Detective Greer had asked him to say that he had seen Thomas MacDonald leaving the Perkins home "dozens of times."

Mrs. John MacDonald testified that Detective Greer urged her "to own up to things that were not true, but I refused to do so."

It was announced that startling facts would come out, and that neither I. A. MacDonald nor any member of the Curry family would be called.

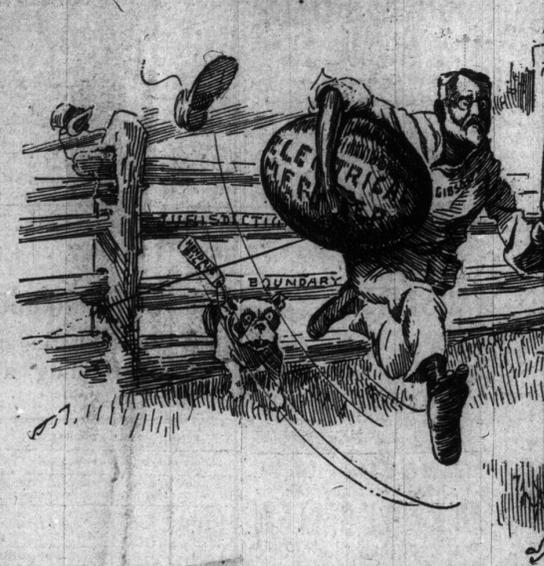

That the case will go to a jury seems to be assured by the appointment of George T. Harrison of Toronto, and a crown counsel to conduct the trial at the assizes on April 15.

Startling Facts Promised. It was announced that startling facts would come out, and that neither I. A. MacDonald nor any member of the Curry family would be called.

John S. Darragh of Cayuga, lessee of the farm on which the body of the deceased was found, testified that he had seen Mrs. Perkins on the farm on Sunday morning, Dec. 23, 1902, suffering severely.

THOUSANDS PAY TRIBUTE TO THE DEAD CHEFTAN

ronto, the body lay in state during the afternoon. Had it not been for the special Lenten services at the Cathedral the body would have lain in state and the funeral service been conducted at the Cathedral.

When the memorial service in the evening was commenced the body lay in calm and natural repose in front of the platform. The casket was covered with black and thru the glass lid Oronhyatekha lay, like a warrior, in his full and undimmed armor.

Rarely is such respect paid to the departed as was yesterday evidenced in Toronto, when thousands of citizens joined with members of the Independent Order of Foresters in silent tribute to the dead supreme chief, Hon. Dr. Oronhyatekha. The thronged streets of the city were lined with Union Station to Massey Hall, where, during the afternoon it was estimated that 10,000 people, passed the pall whereon reposed the casket.

The massive casket arrived from Buffalo shortly before 11 a. m., being accompanied by Dr. Acland Oronhyatekha, Miss Bayly, his secretary, and W. W. Dunlop, who had journeyed from Savannah with the remains; and Past Supreme Chief Ranger Victor Morin, P. W. Greer of London, and Albert Stevenson of Detroit. On the platform were the mayor and aldermen, the executive council of the order, and a number of local Foresters.

MORGAN AND HILL OPEN WAR ON HARRIMAN

Fight Planned Since Northern Pacific Struggle Actively Began in Sensational Buying of Reading Stock.

WALL STREET IN AN UPROAR

Overthrow of Ruthless Railroad King in Revenge For Interference Believed to Be the Aim of Victims.

New York, March 6.—(Special.)—A fight that has been coming for a long time and for which preparations were in the making since the Northern Pacific struggle and panic of 1901, developed in sensational buying of Reading to-day, and promises to become one of the most desperate in the history of Wall-street.

The most exciting situation in six years broke in the middle of a session made dull by manipulation believed to have been planned by J. Pierpont Morgan to destroy E. H. Harriman's rapidly growing power, and, incidentally, average James J. Hill for the defeat of 1901.

Wall-street doesn't profess to know the details, but the state of the market for the last few months, developments of the last few days and Morgan's peculiar tactics indicate that the present conflict is the direct result of the Northern Pacific fight, in which Harriman spoiled Hill's plans for the control of the railroad situation in the Northwestern states.

Up to the close of the market there was nothing official to show the source of the purchasing orders, but a persistent rumor was in circulation that E. H. Harriman, with the object of acquiring control of the property, was taking all the stock offered, besides the holdings of H. C. Frick, which he was said to have purchased privately.

WOMAN'S WORLD.

SPRING MILLINERY.

Every year, with the waning of our era of prosperity, grows our extravagance of taste.

Some years ago, the woman who paid \$10 for a hat, looked out of the corner of her eye to see if anyone was

watching her slight expenditure. To-day, a hat and parasol to match are

tried on in one up-to-date establishment, while \$25 and \$35 chapeaux are most ordinary.

Certainly, however, the array of hats this season is unusually beautiful

and nowhere more so than at Murray's.

On entering the store, one is immediately attracted by the pretty little fountain with running water, water

lilies and gold fish in the centre of a lilies and gold fish in the centre of a

CATTO'S.

As usual, Catto's millinery display is distinctive. The hats here always seem to excel in that simplicity which is the essence of good style.

One pretty mushroom effect in tan rustic straw was faced with heavy spotted net and adorned with huge pink roses. Another in the yellow shade, which is so popular this year, was wreathed with brown pansies and a "fox-tail" feather, a beautiful thing

which shaded from pale yellow to deepest brown drooped on the hair. A Copenhagen blue straw was simply trimmed with masses of shaded blue flowers and a bunch of green grasses, while another smart little hat was a "crooping sailor" of black chip, with touches of pink, jet ornaments, and some exquisite shaded roses.

A black mohair picture hat had pink roses and two very long "willow" plumes and a stunning little street hat in brown and a simple scarf of Roman stripes with long, artistically bent quill at the back.

Going upstairs, one scarcely knows the millinery department in its new garb of green and gold with artistic portieres concealing the doors of the "trying-on" rooms and restful settees to invite repose.

Under the capable management of Miss Armitage, a splendid assortment of hats is shown for feminine choice. One beautiful little coat of pale blue velvet, having, to top it, an artistic pale blue hat of mohair with long pale blue plumes. The parasol to match this set was of pale blue silk

laced with motifs of Arabian lace and adorned with a huge velvet ribbon bow. A purple hat, in helmet shape, was very smart with its swathings of shaded tan silks and a handsome pair of wings that shaded from nutmeg to deep yellow. This was a Borococo mode, and a Hearn hat, a huge cream leghorn, with tan crown was equally effective, too much more picturesque. It was faced with pink silk and long pink "willow" plumes and trails of "straw" jessamine" adorned it.

A distinctive hat is the "Belle of Mayfair," a leghorn in poke effect with pink roses and lilies of the valley. Among the many smart tailored ef-

We Couldn't 'Corner' Corn So We 'Cornered' the FLAVOR

SANITAS Toasted Corn Flakes was the first flaked Corn—it is the original. When we produced it, we knew that it would have imitators. We knew that we could not stop these, because we could not stop the use of corn for that purpose. So we set about to produce a flavor—so good—so different—that it could not be copied. It has taken several years of hard work to do this; but we did it and it was well worth our while. The wonderful success of this food has brought out many attempted imitations. They have succeeded in copying the "name." They have made so-called "Corn flakes." But the original—Sanitas Toasted Corn Flakes has the flavor. It has the light, crisp, tender nature that is all its own. As predicted the genuine has many followers, but no real imitators. Get the original and you get the best—the only Taste. Look for the signature of K.K. Kellogg on the package.

IN SOCIETY. Mrs. Alex. Carr, 139 Winchester-street, will not receive this month, nor again this season.

Holy Trinity Church was the scene of a pretty wedding yesterday afternoon, when Miss Beatrice Maud Brown, daughter of the late Albert Brown of Napanee, was married to John B. McQuig, of the Canadian Bank of Commerce, by the Rev. Marmaduke Pearson.

The bride was gowned in white embroidered mull, much inserted with Irish lace and the customary veil and orange blossoms. She carried a showery bouquet of lilies of the valley and roses.

Mrs. Alexander McConnell, as matron of honor, wore cream lace and cream picture hat with long plumes. Miss Winnifred McConnell, the bridesmaid, wore white mull, with insertions of valenciennes and a pink mohair net with pink feathers. Each carried pink roses. John Orr was best man, and the ushers were Charles E. Chambers and George Miller. The wedding march was played by Mr. Blackburn, and during the signing of the register Miss Lillian Wilcocks sang "The Marriage Day."

After the ceremony a reception was held at the residence of Mrs. Alexander McConnell, 91 Spencer-avenue, where Mrs. Piper, mother of the bride, received in a pretty gown of mauve silk with hat to match. Mr. and Mrs. McQuig left for a trip to the south, the bride traveling in a smart tailored suit of cream with black and green checks and a hat of reseda green mohair.

Among the guests were: Mr. and Mrs. E. Miller of Montreal, Mr. and Mrs. H. Bell of Ciscousin, Mr. and Mrs. Chas. Dummy of Napanee, Mrs. Thomas Dummy, Mrs. Edwards, Napanee; Mrs. E. Monroe, Mrs. J. Henry, Mr. and Mrs. J. Weatherston, Mr. Maudson, Mr. Barwell, Mr. and Mrs. James Ash-bourn, Frank Atherton, Mr. and Mrs. Macdonald of Hamilton, Miss Lillian French, Mr. and Mrs. James McMillan of Guelph, Mr. and Mrs. Buchanan, Mr.

and Mrs. Allan Baggs, Mrs. Thomas Hill, Miss Jessie Hills, Miss Margaret Dummy, Mr. and Mrs. Frederick Hinggan, Mr. and Mrs. James McMillan, Mr. and Mrs. Kingdom, Mr. and Mrs. John Chubb, Mrs. Arnold, Mrs. Miss Annie Smith, Dr. and Mrs. Elliott, Mr. and Mrs. Jacob, Mr. and Mrs. W. A. Cooke, Mr. and Mrs. W. Inglis, and many others.

Cards are issued for a drawing room meeting to be held at Government House, by kind permission of His Honor and Mrs. Mortimer Clark, in the interests of the Labrador Deep Sea Fishermen Mission, on Tuesday afternoon next, at 4 o'clock. His honor the Lieutenant-governor of Ontario will take the chair, and the meeting will be addressed by Dr. Wilfrid Grenfell, C.M.G.

The Peter Pan Thimble Club will meet at the home of Miss Lena Symonds, 568 Euclid-avenue, this afternoon at 3 o'clock.

On Saturday afternoon in Central Methodist church at Arthur Ingham's organ recital, a number of solos will be rendered by Miss Margaret Bruce McCoy, soprano, of Hamilton, recently of Bloor-street, Presbyterian church.

The monthly meeting of the board of management of the Hospital for Incurables was held yesterday afternoon. Twelve applications for admission were dealt with. Great regret was expressed that a number of cases which prevents the institution from opening its doors to many deserving people that need special care and attention, several of whom have been seeking admission for over a year. The graduates' exercises in connection with the nursing school will be held on Friday evening at 8 o'clock under the patronage of the Lieutenant-governor and Mrs. Clark.

The Durham Old Boys and Girls held their annual reunion at the Grand Union Tavern last night with a large attendance of ladies and gentlemen. The toasts were spoken by (Col.) Sam Hughes, M.P., J. J. Boston, Mr. J. Dyer, J. M. God-frey, Mrs. Brown (Pat Fenton) and Miss Jean Graham.

An excellent program of solos, music and songs was given by Mrs. Scribner, Maudie, Mrs. Cawker, Miss Ethel King, Miss C. Beacock, Dr. Brown and Mr. Mas-ko.

Woman's Health. Every woman may be attractive. Bright eyes, pink cheeks and red lips are her nature-given right. A sallow skin, lack of animation, low spirits and weak nerves may be avoided by the use of Beecham's Pills, a remedy that well deserves the confidence of every woman. Again and again they have proved to be invaluable at those recurring times when so many women feel debilitated and suffer from nervousness, headache and depression. It is wonderful the way these pills assist Nature and relieve the suffering. Every woman who values health and good looks should become a user of BEECHAM'S PILLS. Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold Everywhere in Canada and U. S. America. In boxes 25 cents.

Public Amusements. Theatregoers will have a chance to demonstrate their admiration for the higher types of the drama when Thos. E. Shea comes next week to the Grand with such pieces as "The Bellis," "The Fool's Revenge," "Othello," "Dr. Jekyll and Mr. Hyde," and his latest success, "Napoleon the Great."

Public Amusements

The return engagement of Forbes-Robertson and Gertrude Elliott at the Princess Theatre next week is made particularly interesting for the reason that they will present, besides "Hamlet," which has been seen for a limited number of times in Toronto, their greatest London success, Madeleine Lucette Ryley's romantic comedy, "Misses and Men." The sale of seats will open at 3 o'clock this morning.

Will Cressy and Blanche Dayne are as big favorites as ever, and are playing the best of the Cressy sketches, "Grasping an Opportunity," at Shea's next week. Others are McMathan and Chapelle, the Minstrel Maids, Willis Holt Wakefield, in a musical monolog, Duffin-Bedway Troupe and the Ray-fayette dogs.

One of the most sensational melodramas of the day, "Midnight Escape," is the attraction for the majestic next week. The action takes place in New York City, and in this play the playwright has made many demands on the mechanical ends of stage stories and there are countless opportunities for light and color.

If you feel like shaking off that tired feeling, your ray should lead you to the Star Theatre, where "The Americans" are billed to entertain next week.

Two hundred years ago to-day the treaty of union between England and Scotland was signed. It closed a long period of fierce contention and conflict which then threatened to take on a new lease of life.

all material advantages. With the unrestricted freedom of trade and intercourse guaranteed by the treaty of union, it was natural to fear, however stringently the church and laws of Scotland were safeguarded, that the inevitable pressure of a wealthier, more advanced and more populous community would ultimately sweep the nationality and efface the personality of the poorer and weaker country.

For the feared disappearance of Scottish nationality did not come. The fact that Scotland was poor and her people regarded with aversion and a measure of contempt by her more prosperous and civilized neighbor, prevented the influx of Englishmen.

Like the civil service the licensing authority ought to be not only independent of political influence, but beyond even the suspicion of it. More than almost any other board it ought to be strong and free and composed of men whose position, character and public spirit enable them to command respect and confidence.

It is said with some authority that the government contemplates a revision of the licensing law and the reconstitution of the board of administration in a form which will ensure its complete political independence.

Bishop Du Moulin, in his noonday sermon at St. James' Cathedral, yesterday, referred to the Thaw trial, saying:

"The reports of this trial, with all its filthy details, have been read with an avidity which is amazing, with an appetite that is terrible to contemplate."

"Newspapers have attained an enormous circulation for grossly untrue reports of this disgusting case, and have been bought with an eagerness, and read with a diligence, which men would never think of applying to their Bibles."

"If this must be so, and at every corner, and in every street car, these things must be gone into, for God's sake let us teach our children that the judgments of the Almighty fall more swiftly and with certain doom, upon this class of sinners, than upon any other, and that no riches can save from His unerring judgment."

CEMENT CITY

Buy These Lots Now at \$25.00 Per Lot and Let Your Money Make You 200 Per Cent. on the Investment.

CEMENT CITY is positively the future Industrial Centre of Western Canada, situated half a mile north of Pilot Butte, 350 miles west of Winnipeg and eight miles east of Regina on the main line of the C.P.R., where sand and gravel far exceeds in quantity and quality that found in any other part of the Infant Province of Saskatchewan, where crystal water flows from springs giving forth the best water found on the extensive prairie.

The most optimistic westerner does not claim that the West will ever be generally industrial, but freely admits that most industrial wares which require power for their manufacturing will be manufactured chiefly in Ontario, where the raw material and power elements side by side. The Westerner does claim, however, that the West will manufacture its own building material and that the building material of the future will be cement, sand and gravel in their various forms.

Frame buildings are too expensive, temporary and dangerous for the modern Westerner to consider as he contemplates replacing his shacks with substantial improvements, stone and brick are too expensive and must stand by and see the evolution of Cement Blocks as the building material of this active age and country. In the rush and push in developing this wonderful fertile area, the people of the West have not had time to consider permanent improvements until now and with this wide area to have constructed the required buildings. Is there any one who can comprehend the magnitude to which the cement block business will attain? Cement blocks will be manufactured on a very large scale at one great centre and in this way they can be manufactured at a minimum of expense. CEMENT CITY WILL BE THIS CENTRE.

SOME CONDENSED FACTS:

The Montreal Nursery has located adjacent to the Town Site.
The proposed G. T. R. Regina Branch runs at the north end of the Town Site.
The present demand for Cement Blocks far exceeds the supply.
Three Cement Block, Tile and Cement Post Factories are seeking location there.
Just think of the 600,000 cement farm buildings to be constructed in the next thirty years.
Cement City will be the bee-hive city of the West.
Cement City will have the dinner pail parade.
Cement City will be the home of the laborer, artisan and engineer.
Cement City will grow very rapidly. Now is the time to purchase real estate.
The Californian Tile Company are seeking a location there.
Block one sold to Dr. W. E. Thompson, St. Clairsville, Ohio, purchased to manufacture Cement Posts, etc.

WHAT PEOPLE ON THE SPOT SAY:

Regina, Nov. 29, 1906.
C. R. Morden, Esq., Regina, Sask.
Dear Sir—In answer to your inquiry re the plant now being installed at Pilot Butte by the Inter-Ocean Pressed Brick Company (limited), I take pleasure in submitting to you the following particulars: The plant when completed will cost \$65,000. The plant will run 25,000 to 27,000, and operations will continue all winter. These are the required elements necessary for the manufacture of cement blocks for building purposes. There are manufacturing plants for these blocks, and also bricks located here at present, adjacent to this property, which is less than a mile from Pilot Butte, and only eight miles from Regina, the capital of Saskatchewan.

Regina, Sask., Nov. 6, 1906.
To Whom It May Concern:
I, W. E. Thompson, M.D., of Regina, Sask., am pleased to say I have purchased from Mr. C. R. Morden one block (36 lots) of Cement City, after investigation and found very fine sand and also gravel and an abundance of fine water on adjacent land. These are the required elements necessary for the manufacture of cement blocks for building purposes. There are manufacturing plants for these blocks, and also bricks located here at present, adjacent to this property, which is less than a mile from Pilot Butte, and only eight miles from Regina, the capital of Saskatchewan.

Regina, Nov. 23, 1906.
C. R. Morden, Esq., Regina, Sask.
Dear Sir—I have visited Pilot Butte and drove over the property you have laid out for a town site. I found excellent sand and gravel of various grades adjacent to your property, and there appears to be almost an unlimited amount. There is an abundance of spring water.
The cement industry has apparently selected Pilot Butte as the centre for its operations, as a new factory is now under construction which is owned by the Morden family. I have heard that other concerns have Pilot Butte in view as a location. The Pilot Butte sand and gravel is in use throughout the province for building purposes, and as such building sand is not plentiful, this point will be the centre for the industry.
A nursery company begin operation on adjacent property in the spring and it looks as though this point will soon come before public as an important place. Yours truly,
(Sgd.) W. E. THOMPSON,
Mgr. Traders Bank of Canada.

SHALL CITY BUY GAS STOCK? MAYOR ONLY ONE OPPOSED

Cannot See Use For Additional Holdings—C.N.R. and Don Lands.

CITY HALL TO-DAY, 11 a.m.: Board of Control, 2:45 p.m.: Property Committee.

The board of control, with the mayor opposing, declared itself yesterday in favor of taking advantage of the opportunity to be afforded by the new issue of Consumers Gas Co. stock for the city to increase its holdings. Controller Harrison introduced the subject. He believed in the city's continuing to increase its control.

"You mean that the city should buy up the whole new issue," suggested the mayor.

"That is my position," returned the controller.

Controller Hubbard said the city would lose nothing on the investment. "It is a move in the right direction, and in line with public ownership."

"I must say I am entirely opposed to purchasing any more gas stock, because I don't think the city ought to go into that kind of business, when the possibility of controlling the company is so far distant, and the policy of controlling the company has not been decided upon," said the mayor.

Controller Hocken asked if the city could have more control by buying more stock.

"Not legally," returned the mayor.

Controller Hocken replied that gas was a public utility and he wasn't sure that the city wouldn't be justified in buying out the company entirely.

As the sale will not be held until June, the matter will wait over.

Mission for Ex-Mayor. The recommendation that ex-Mayor Urquhart should accompany the city solicitor to Ottawa to press the city's application for the building of long-street bridge, was made by Controller Harrison. The mayor said the city did not need money for the bridge, but if it should be someone of high standing like E. F. B. Johnston, K.C. Controller Hubbard recommended that assistance should come from the corporation counsel, and thought the city had already spent too much this year on the bridge.

Controller Hocken argued that Mr. Urquhart would have more influence with the new mortgagee, and was drawn out by Mr. Shepley, as suggested by the mayor. Motion carried.

Judge Winchester's ultimatum to the city was that it was to build and maintain the city for maintaining a nuisance in not taking proper steps to have the new mortgagee drawn attention to by Controller Hubbard, who declared that the city had done all possible to expedite the construction.

The C.N.R. Deal. A meeting of the Riverview Business Association will be held in the R. C. B. building to-night to protest against the selling of Don Valley lands to the Canadian Northern. Controller Hubbard stated that the railway would dedicate the road proposed to the city and asked that the city should not be taken in by the railway.

John Poucher intimated that the meeting to-night would consider taking out an injunction. Controller Ward moved that the meeting be adjourned.

Controller Hocken supported, with the mayor, Controller Hubbard and Controller Harrison opposing.

Ex-Ald. Richardson, for the water, said he had a petition, signed by 99 per cent. of the business men on East Queen-street, in favor of the contract being made.

Tenders Opened. The lowest tender for firemen's clothing was \$1,200. The lowest tender for coats, \$17.70; trousers, \$3.40; vests, \$2.10; winter clothing, coats, \$12.50; trousers, \$3.40; vests, \$2.10.

There were five tenders for the new pumping engine and boiler for the island waterworks, the lowest being \$495 and the highest \$594.

The Polson Iron Works were the sole tenderers for the contract for the hydraulic dredge, the figure being \$22,825.

In order to avoid the dangers of the precedent established in the decision of Justice MacMahon, invalidating the purchase by the city at a tax sale of land on Carlaw-avenue, the board of control will make application to the legislature for an act to validate all the city tax sales. Hundreds of private purchasers have been aggrieved in the same way fear the loss of their titles.

A communication that the sale of Victoria Park to H. P. Eckhart had been confirmed by the courts, also instructed that Mr. Eckhart might be asked to consider an offer from the city.

ALLIANCE AND DR. SMELLIE. The Lord's Day Alliance of Port William have passed a resolution by which the attitude of Dr. T. S. T. Smellie, M.L.A., in regard to Sunday contracts will make application to the provincial representative of the Lord's Day Alliance, and emphatically affirming "that Dr. Smellie does not represent the public sentiment of the municipality of Port William upon the Sunday car question."

IMPOSSIBLE TO STOOOP OR BEND SEVERAL DOCTORS COULD DO NO GOOD. PAIN IN BACK AND KIDNEYS.

People often say, "How are you to know when the kidneys are out of order?" The location of the kidneys, close as it is to the small of the back, which is not affected materially by other organs, renders the detection of kidney trouble a simple matter.

The note of warning comes from the back. Backache is the signal sent out by the kidneys the minute they become overtaxed. Those who heed the warning when it first comes usually have but few kidney troubles. The danger lies in delay. A few doses of Doan's Kidney Pills taken in time, often saves years of suffering, and in many cases life itself. They stimulate the action of the kidneys, enabling them to perform their duty perfectly.

Miss S. C. Fry, Egan Secum, N.S., writes: "For the past three years I have been troubled with backache and kidney troubles. It was so bad it was impossible for me to stoop or bend. Several doctors attended me, but I got no relief until I picked up one of your Egyptian Dream Books, and found out about your remarkable remedy, Doan's Kidney Pills. I procured two boxes and their action surprised me. I am completely cured now. I don't think they have an equal for kidney trouble. Doan's Kidney Pills are 50 cents per box or \$1.00 for six boxes. Sold everywhere or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont."

NO MORE SUNDAY CARS IS GOVERNMENT POLICY

Premier Whitney Makes Announcement in Connection With Port Arthur's Request.

In a letter addressed to Mr. Lucas, chairman of the private bills committee, Premier Whitney yesterday ruled, on behalf of the government, against allowing any more Sunday car privileges in Ontario. The announcement was in connection with the application of Port Arthur to be allowed to operate such a service. The letter read:

"The government spent a great deal of time last year in preparing the Ontario Railway Act of 1906. The provision relating to Sunday traffic received a great deal of attention. There can be no doubt that the act, as finally passed, represents the feeling of a large majority of the people of Ontario.

"It is possible that in some respects, and from some points of view, the act may be regarded as a hardship on certain localities. Under the circumstances, however, having in view the care bestowed upon the preparation of the act, the government feels that it would be taking a distinct step backwards to allow within twelve months of the passage of the act, a new exception to be made which would open the way to a large number of similar applications in the future, and thus practically destroy the effect of the act as finally passed.

"The members of the committee will agree with me that any exception such as is mentioned in Bill No. 18, should not be entertained and cannot receive the endorsement of the government."

Before the letter was read, Mr. Keefe, solicitor for Port Arthur, declared that the town (now city) two years ago voted for Sunday cars, and that by oversight Port Arthur had not been included by the government in the list of places where Sunday cars were sanctioned. Public sentiment favored Sunday cars.

Rev. T. Albert Moore of the Lord's Day Alliance, denied allegations made last week that he had interfered in the matter, and that the Port Arthur branch of the alliance approved of his attitude and had declared that Dr. Scoble, M.L.A., should not represent their feeling, and added that the plebiscite taken had been "positively and absolutely in favor of legal value."

The chairman announced that Port Arthur could petition for general legislation, thus permitting a discussion of the matter. Mr. Keefe and Mr. Douglas pressed for a vote by committee, but were not obliged.

Port Arthur had also to fight for its rights in the bill to incorporate the Current River Power Co., a company promoted by George T. Marks, and that the bill had been introduced by Mr. Keefe, and that the Port Arthur branch of the alliance approved of his attitude and had declared that Dr. Scoble, M.L.A., should not represent their feeling, and added that the plebiscite taken had been "positively and absolutely in favor of legal value."

The chairman announced that Port Arthur could petition for general legislation, thus permitting a discussion of the matter. Mr. Keefe and Mr. Douglas pressed for a vote by committee, but were not obliged.

FREE TO MEN UNTIL CURED

Not One Penny in Advance Nor on Deposit

To any man suffering from debility, loss of memory, vasculosis, or from lame back, rheumatism, etc., who will call in person or apply by letter, I will give absolutely free one of my world-famed Dr. Sanden's Electric Belts until a cure is completed. This is my faith in my treatment, as nearly 40 years' experience has proved that my method will cure any curable case of debility, and I am prepared to take the risk of a trial. This offer is made to all sufferers, but I especially solicit those who are tired of useless drugging for their troubles, as I have demonstrated in so many thousands of cases that my method of electrical treatment cures where all known drugs fail. I don't ask one cent in advance or on deposit. If you have faith to write me or call I will at once arrange to give you a belt suited in strength to your ailment, and trust you to pay me when cured or satisfied. In many cases low as \$4. My greatest success has been with many imitators, and I must caution the afflicted that the genuine can only be had at address as below.

I have two best little books ever written upon electricity and its medical uses, and if you don't need or wish to try my treatment they would interest and instruct you. I send them free, sealed, by mail.

Expected Liquidation Enters the Canadian Markets—Wall-St. Highly Irregular.

Washington, March 6.—When the report from New York to the effect that the Rio Grande and New York Central Railroad stocks were shown to him, Mr. Harman, secretary of the Interstate Commerce Commission, was surprised to find that the attention of traders was confined to the early dealings. The Rio Grande stock was particularly confined to specialists which have been put to market. The Rio Grande stock was particularly confined to specialists which have been put to market. B.C. Fish Cannery Object to Using Government Label.

Ottawa, March 6.—(Special).—In the Senate this afternoon the Meat Inspection Bill was taken up in committee.

Sir Richard Cartwright said there had been objection from the lobster-packers of the maritime provinces and the salmon-canniers of British Columbia to the provision requiring a Canadian label on all cans.

HE'S LIEUTENANT NOW.

Charles Gordon was yesterday promoted to the rank of lieutenant in the fire department, to succeed Arthur Busted on the water tower at Bay-street.

Lieut. Gordon has been stationed at Lombard-street for many years, serving with the salvage corps and on Truck I. He was also for a time connected with the fire alarm telegraph service.

J. R. Nicholls and John Sheppard have been assigned for service with Truck I and Aerial L, Lombard-street.

YORK COUNTY AND SUBURBS

EAST TORONTO LACKS A SUPPLY OF WATER

Freezing of Mains Causes Closing of High School and Brings Danger from Fire.

Toronto Junction, March 6.—It would be well for the teachers in town to take out their licenses. The chief of police said to-day that they were very slow and that if it was necessary he would bring them before Magistrate Ellis if they did not comply with the law.

St. Clair-avenue, from Keele-street west to the Junction limits, is in a very bad state for vehicular travel. The street commissioner has in many places dumped loads of sand and gravel in the middle of the street for the purpose of making a first-class crown, but there are many places, and particularly near St. Clair school, where the water lies on each side of the dump made by the commissioner, at least a foot deep.

The Toronto Junction Gun Club held their bi-weekly shoot on their grounds this afternoon. There were quite a number of shots present, who expected to shoot at five birds, but owing to yesterday's storm the supply of birds that had been contracted for by the club, was not delivered. Between 400 and 500 birds were expected from Geulph. The following are the scores:

Table with columns: No. of Birds, 1, 2, 3, 4, 5. Rows include names like Dunk, Vivian, W. Wakefield, Elliot, Smith, Harvey, P. Wakefield, Douglas, Burgess, Sheppard, Turp, Coulter, Fleming, Ross, Seager, Ingham, Roberts, Clayton.

In Magistrate Ellis' court J. V. Kerr put in a good word for Geo. Howard, a 15-year-old boy, accused of theft from him. Howard would like to help him from him. Howard would like to help him from him. Howard would like to help him from him.

North Toronto.

Application will be made to the York township local board of health for the establishment of a rendering plant on West York road, near the intersection of the road with the main road, near the intersection of the road with the main road.

East Toronto.

East Toronto, March 6.—A serious condition of affairs prevails in certain portions of the city, owing to the fact that the water supply is cut off in many places, owing to the fact that the water supply is cut off in many places.

Chester.

Rev. J. Maclean Ballard, the retired vicar of St. Anne's church, is taking up his residence in the parish. The Rev. A. J. Fiddler, rector of Grace church, Toronto, will deliver a lecture at St. Barnabas' church on Friday evening.

Doucasier.

Court Chester, 7319, Ancient Order of Popsters, was at home on Tuesday evening to its friends. It was the sixteenth anniversary of the court and five hundred invitations were sent out. Danforth hall was filled to the door and given. Refreshment of amusements was arranged in the evening.

Scarboro Old Boys.

The annual dinner of the Scarborough Old Boys' Association will be held at the Clyde Hotel on Friday evening next. Arrangements have been made to have a car leave the Woodbine for Highland Creek at 12.30 p.m., so that all who attend can get home without any difficulty.

Weston.

The evidence taken yesterday in the appeal against the local option vote in Weston, which is being fought out before Judge Winchester, went to show that there were three ballots put into the box after the count had been closed, and that all three were marked against the bylaw. It was on this account that the appeal was allowed.

Tanworth—Held & Co. captured all prizes.

Chester whites—Robert Clark, Ottawa, awarded all prizes.

Swearmaker—bacon hogs—J. E. Brethour.

The attendance in the lecture-room in the afternoon was of fair size. The addresses were all on the subject of hog-raising, dealing with the proper practical tests relative to the cost of producing bacon hogs, and a discussion led by W. H. McNish of Lynn on the advantages of raising bacon hogs in Eastern Ontario.

The first speaker was J. E. Brethour, Burford, who advocated most strongly that an air treatment be used if best results were to be obtained.

—HERR STATUS.—From the New York Times. When nature was so infant, in the ear-ly long ago, She had no devoted parents to restrain her acts, and so She monkeyed with the buzz-saw, or in other words, picked up The knack of making pyralthings of the chaos she'd kicked up.

At first she made a membrane, with a breath of air inside, And watched it go a-bobbing on the ocean's salty tide; Then by coddling it a little in her primal incubator, She turned out the gentle bivalve and the naughty alligator.

Her play was so amusing almost any one could see Progression humped its progress with a count of celerity; And thereupon the primal primate and the Man she called a human, There seemed to be a yawning, so kind Nature made Woman.

Now there are those who doubtless have the impudence to think Because of her position, Woman forms the Missing Link.

But, cut away Eve's parents, and it seems she must have had a She was capable of making quite a McKinley out of Adam.

—EXPRESS CHARGES.—Editor World: The Toronto World advocates two-cent fares, and I believe it is only a matter of time when we will have New York Central two-cent fares.

But what about express companies and corporations? They are extortionate robbers with a government license to fleece the public generally.

On a peck of chestnuts expressed from Virginia to Locust Hill the express receipt for express charges, prepaid in Virginia to Locust Hill, \$1.25. They were detained at the custom house, Toronto, where the Dominion Express Co. were paid \$1.50 more. The total amount re-

might take into consideration the desirability of such a proposal. Mr. Torrance withdrew his bill for the administrative control of pulmonary phthisis.

Duncan Ross and J. Gains were added to several of the standing committees.
