EASTERN LEAGUE FINALE.

The Most Successful Season
in Its History.

ONLY 2 GAMES ON LAST DAY

Montreal Made it Three Straights
From the Torontos.

Providence and Scranton Each Scored Six
-Springfield and Wilkes-Barre Did
Not Play-The Circuit for Next Year
-Montreal's Poor Claim to the Cana-
dian Championship.

The most successful season in the history
of the Eastern League is being played
at Toronto, Ontario, closed yesterday.

The Irvines, in the absence of their
chiefs, and as the result could have no effect
on their standing in the race, took it easy
in Montreal and dropped their hand
straight. Providence and Scranton played
ten innings without result, each scor-
ing six. Springfield and Wilkes-Barre did
not play, and thus the Torontos are lucky
to stay in third record for the season, giving
three straights from Toronto they could
naturally claim the championship of Cana-
da, forgetting, of course, that the Torontos
lost four straight in Toronto Aug. 6,
7, 8, and 9, playing a roughout on Aug. 7.

The series between Toronto and Rochester
Montreal resulted 10-8 in Toronto's favor.
Jersey City will likely be in the Eastern
League next season, making the circuit as
follows: Toronto, Buffalo, Rochester, Syra-
cuse in the west and Montreal, Jersey City,
Springfield and Providence in the east.

Providence, Springfield and Wilkes-Barre
did not play. Montreal's poor claim to the
Canadian Championship.

FOR THE GOLF CHAMPIONSHIP

Clever Strokes by Toronto
and Rosedale.

W. A. H. KERR AND G. S. LYON

With Henderson of Montreal Are
Choice Against the Field.

Hunter and Kirk Also Left in the Com-
petition-Second Round and Sat-
urday's Final to-Day, and the Final on
Friday-A Field of Twenty Entries and
Played Under Favorable Circum-
stances.

Montreal, Sept. 23.-The competi-
tion for the amateur golf championship
of Canada took place today under favorable
circumstances. There was a large field
of entries, the result being to leave Lyon,
Henderson, Hunter, Kirk, Kerr and Lyon,
Hunter and Kirk, who play off to-mor-
row. Who will be successful? Is the ques-
tion agitating the golfers' minds this eve-
ning, and there are to be found many sup-
porters of each, but it is possible that
Henderson and Kerr will be successful.
This championship for 1917 will be
played by the Governor-General, and will
be a gold medal; second prize a silver med-
al. The feature of this year's international
is the participation of the present holder
of the championship, G. S. Lyon, of Rosedale,
and Henderson of Montreal being the
choice against the field.

There were 20 entries for the contest,
which is open to all bona fide amateur mem-
bers of the Royal Canadian Golf Association;
eighteen-hole, 36 holes, and 72 holes.
The first prize is the Aberdeen Cup, pre-
sented by the Governor-General of Canada,
and to become the property of anyone win-
ning the championship. The second prize
is a gold medal; second prize a silver med-
al. The feature of this year's international
is the participation of the present holder
of the championship, G. S. Lyon, of Rosedale,
and Henderson of Montreal being the
choice against the field.

THE KLONDIKE FOR CANADIANS.
The newspapers are still full of glowing pictures of the fabulous wealth of the Klondike, but these reports may be greatly exaggerated. On the other hand, it is just possible that even the exorbitant reports have not exaggerated the wealth of this wonderful country. The United States District Attorney for Alaska, Mr. B. F. Bennett, who has just returned from there, confirms the general impression that the Yukon is fabulously rich. "There is gold," says he, "every body of water, big or little, in the Yukon country. Why, the people wish all the newspaper talk, do not know what the rush will be in the coming spring." Practically all who will get into the Klondike this year are there already. The passes are now closed for six months or longer. There will be a beautiful spell during that period. The Government will have ample time to look over the situation and lay out its policy for next spring. It is said 10,000 more citizens of the United States will be in Alaska within six weeks after the spring rush has commenced. Now, we Canadians should not forget this fact, that we are under no obligation, moral or legal, to afford these 10,000 foreigners access to our gold mines. While this is true, it is equally true that it would be wrong for us to allow them to go to the Klondike without giving them public notice of what our policy is going to be. The Government must seriously consider this question and declare its policy as early as possible. Provision must be made to protect the country and its wealth for the benefit of the people whose inheritance it is. Canadians must not be swamped by countless hordes from a hostile country. It is our own territory and we have just as much right to refuse admittance to a United Statesian as the Government of the United States has to deport a Canadian workman crossing the bridge at Niagara in search of work. If the Government does not decide on keeping the Americans out altogether, it should at least discriminate very decidedly against them and in favor of Canadian subjects. In the meantime the Government ought to issue an official bulletin, giving us the latest information it has acquired about the country. The Government has officials on the spot, who must now be aware of the actual and prospective possibilities of the district. An official statement of the Klondike up to date would fill a long-forgotten want.

LORD KELVIN AND NIAGARA FALLS.
Lord Kelvin believes that all the water flowing from Lake Erie to Lake Ontario by the Niagara River will, in time, pass to the lower level through machinery instead of tumbling over the falls as at present. He thinks that the machinery thereby set in operation will do much more good to the world than the "great benefit which we now possess in the contemplation of the splendid scene which we have presented before us at the present time." He wishes it were possible that he could live in a great grand metropolis, Lord Kelvin believes thoroughly that the metamorphosis will come and there are many who share his belief. The Ontario Government, however, has staked its last copper on the theory that the beauty of Niagara Falls will always be there for our contemplation. It has laid out a beautiful park, from which the tumbling waters may be seen to advantage. The entire revenue derived from the company that holds the monopoly of the water power on the Canadian side is devoted to the maintenance and beautification of the park. The Government, in short, looks only to the artistic side of the Falls. Its economic value is a secondary consideration. Every cent of rent the Government derives from its franchise is devoted to ornamentation. Not a cent is spent to further the industrial possibilities of the district. If Lord Kelvin's theory is to prevail, then the Ontario's beautiful park will lose its chief and only charm. While it may be many years before the metamorphosis foreseen by Lord Kelvin is actually accomplished, yet it undoubtedly will take place in time. The Ontario Government has itself admitted the principle of converting the falls from a thing of beauty into a useful mechanical agency, while at the same time it is spending a fortune every year to maintain the natural features of the place. The Government is inconsistent in its theory and practice in regard to Niagara Falls. On the one hand it detracts from their beauty, on the other it seeks to enhance it. The Government has appointed a commission to look after the artistic end of the business, while it has made no effort whatever to make Niagara Falls, Ontario, a great industrial centre, such as exists on the other side of the river. What a different policy would have been adopted if Lord Kelvin occupied Premier Laurier's place! Instead of spending \$50,000 a year on maintaining the park, he would have put it into machinery, thereby affording employment to thousands of workmen

and conferring a lasting benefit to humanity at large. The World believes that for many years the industrial and artistic aspects of Niagara Falls may flourish side by side. But we decidedly object to the policy of the Hardy Government in view of which the industrial side is made completely subsidiary to the artistic.

SIR WILFRID LAURIER'S BLUNDER.
Sir Wilfrid Laurier lays it down as a principle that Canada should extend a trade preference to Great Britain from mere gratitude. The theory appears to be that Canada occupies a dependent position in the Empire, that it should not presume to ask any equivalent for the advantages it is conferring on the Mother Country. We are surprised that such a theory should emanate from Sir Wilfrid Laurier, who glories so much in nationality, and is so proud of his country. If we are free, if we are a nation, why should we occupy a secondary position? Why should we not deal with Great Britain as an equal rather than as an inferior? The people of Great Britain themselves do not expect that Canada should give them something for nothing. Sir Wilfrid Laurier's theory is regarded as absurd by the very people who would benefit the most from it. The British Trade Journal represents the merchants of Great Britain generally, and it can be taken for granted that it voices the sentiments of the merchants and manufacturers who have dealings with Canadian business men. In a recent issue it showed and the following is a summary of the article: "We have frequently directed attention," says the Journal, "to the fact that every trade journal in England contains the names of the colonial preferential tariffs on the part of the colonies involve an equivalent preference on the part of Great Britain. During the grand Jubilee celebrations in England it may have been all right and proper that the accomplished and eloquent Premier of Canada should dilute on the loyalty of the Canadians, their affection for Her Majesty and their attachment to British institutions; it may have been quite fair that Sir Wilfrid Laurier should claim credit for the fact that Canada granted preferential tariff treatment to England without any stipulation for an equivalent on our part. So it was with him to the British Government. Mr. Laurier's act was a blunder, for he did not desire any preference for its products in the markets of the Mother Country."

Before long the people of Canada will realize the full significance of what the World has termed the Great Blunder of the Jubilee.

THE FARMER AND THE WHEAT BUYER.
The World's reporters have investigated the complaints of the farmers who state that they are not being fairly dealt with by the wheat buyers on the Toronto market. After looking into the matter they are forced to the conclusion that the farmer is not receiving a square deal. The dealers have a standard which they apply when it tells against the farmer, but which they do not apply when it would tell in his favor. The farmer does not fully understand the buyers' system of measuring and weighing wheat. Furthermore, the scale used in weighing is all done by the buyers, and the farmer is obliged to accept the figures of the purchaser, no matter what they may be. The farmer certainly has a grievance in this matter. He frequently finds himself getting as much as twelve cents per bushel less for his wheat than he believes he should get. The buyers work together with all the harmony of a well-organized firm, and the farmer finds himself pretty much at their mercy. However, the farmers have it in their power to remedy the grievance. They should demand that the bargain for the purchase of their wheat be completed at the market, before the wheat is taken to the mill or elevator. The testing should be done in their presence, and the standard should be applied to the wheat as well as to the poorer grades. A little organization on the part of the farmers will secure them fair play, which we are satisfied they are not now obtaining.

YELLOW JACK'S RAVAGES.
One New Case and Two Deaths at New Orleans Reported Yesterday Morning - Ten Deaths in All.
New Orleans, La., Sept. 23.—One new case and two deaths were reported to the Board of Health this morning. Four of the sick are considered still to be in a dangerous condition. The others are all doing well, and the sanitary officers and health authorities expect to be able in a few days to announce that the fever has been completely stamped out. THE LOSS OF "THE BALTIC"

Interesting Trial at the Civil Assizes.

ACTION FOR THE INSURANCE.

Why the Companies Decline to Pay
the Fire Policies.

The Boat Was Mysteriously Burned at Collingwood—List of the Companies and Their Respective Insurances—Conflicting Testimony as to Her seaworthiness—Some Spicy Evidence—Great Interest Manifested in the Trial—The Case Will be Resumed This Morning.

A big fight commenced yesterday in the Civil Assize Court before Chief Justice Armour and a jury, between the Great Northern Transit Company, represented by Danton McCarthy, Q.C., and six insurance companies, represented by Messrs Wallace Nesbitt and W. W. Riddell.

The question at issue is the insurance money of the steamer Baltic, destroyed by fire on Sept. 6, 1896, and insured as follows: Alliance Assurance Company, \$2000; London Assurance Company, \$2000; National Assurance Company, \$1500; Atlas Assurance Company, \$2000; Klagenfurt Assurance Company, \$1000; Commercial Union Assurance Company, \$2000; Waterloo Mutual Assurance Company, \$1500.

The boat was originally the Francis Smith, built in 1866, purchased and rebuilt by the Great Northern Transit Company in 1887, when she was christened the Baltic.

The company claim that the loss was greater than the insurance, which the companies refuse to pay on the following grounds: That the Baltic was rotten, unseaworthy and unable to proceed to sea.

The witness called in that the loss was greater than the insurance, which the companies refuse to pay on the following grounds: That the Baltic was rotten, unseaworthy and unable to proceed to sea.
