Last Entente Ultimatum Must Be Given Unqualified Acceptance.

TO STOP EQUIVOCATION

"Reservations" in Greek Answer Must Be Removed, Says Allies.

Athens, Jan. 15 .- Via London -- The entente powers thru the Italian minister, have insisted on unqualified acceptance of the last entente ultimatum, considering the Greek Government's reply equivocal. It is stated in government circles that while maintaining that the observations accompanying Greece's reply in 'no wise constituted reservations vitiating the fulles acceptance of the ultimatum, the gov ernment is willing to repeat its acceptance categorically, as desired.

"The magnificent majority obtained by Mr. Allan, the government candidat in West Simcoe, is very satisfactory, and is a strong endorsation of its progressive policy as well as its action in giving every assistance possible to the prosecution of the war. The ma-jority of Mr. Allan exceeded the highest expectations of our workers and shows conclusively that public opinion in the province is very strongly with the government. The attempt that was made to show that the elections

in North Perth and Southwest Toronto indicated lack of confidence in the government by the people of the pro-vince has been proven to be unwarranted. The conditions in both these ridings were abnormal and the verdict was in no way a correct indication of public opinion. The votes were taken when the agitation against the government in connection with the temper-ance legislation of last session was at its height. The election of today amply confidence of the people, and that public opinion on the temperance issue has largely turned in the government's favor, owing to the splendid results flowing from the operation of the act." **BEAT GERMAN PICKET** 

Gen. Byng's Troops Greatly Damage Foe Trenches by Bombardments.

London, Jan. 15 .- The following onmunique was issued today from the Canadian war records office:

The past week has been marked by increased artillery and trench mortar activity on both sides. It is not possible to say what losses our bombardments have inflicted, but the damage done to the enemy's trenches has been very great, judging by the number of Germans who expose themselves while evidently trying to pass along their rulned and waterlogged trenches. Their trenches have apparently become quite impassable as the men are seen using overland routes, giving our enipers opportunities which at other times they could not hope for.

In spite of unfavorable weather conditions our partols have continued ac-

from carrying out any reconnaissance work. To this they add the task of preventing the enemy from working in front of his trenches and of harrassing him in every possible way.

A good example of this occurred

during the past week. One night one of our patrols located a strong enemy wiring party. A Lewis gun was brought up and fire opened at point-blank range. This particular patrol fired on not less than 11 other small continue during the night.

Foe Ricket Beaten.

Shortly before daylight early in the week an encounter took place between one of the pickets of a Mounted Rifle battalion and a party of Germans, who appeared to have lost their bearings and approached our lines. The enemy party, altho considerably outnumbering the picket was immediately attacked and dispersed, one prisoner falling into our hands.

and dispersed, one prisoner falling into our hands.

After a day of unusual hostile artillery and trench mortar activity on the front of a Montreal battalion a party of thirty of the enemy attempted to raid our trenches. As the Germans approached our lines they were seen and fired on by a Lewis gun. This hostile raiding party made three separate efforts to reach our lines, but on each occasion they met the same fate and finally retired, leaving their dead lying in front of their own wire.

This incident speaks for itself as an example of the vigilance of our troops.

F. B. McCurdy, M.P., the parliamentary secretary of the militia department accompanied by Colonels McInnes and Thompson, spent four days in the Canadian corps area. During their visit they spent a long day in the trenches, as well as seeing many of the troops in billets and at the various schools of instruction and training centres.

Montreal, Jan. 15 .- Lieut, -Col. R. H Labatt, of Hamilton, Ont., a membe of the board of pension commissioner for Canada, in an address before th Canadian Club of this city. Windsor Hotel today, said that the an-nual pension bill of Canada, based on an overseas army of 300,000, would be about \$21,000,000, and with an overseas army of 400,000 men, the annual pension bill was expected to be about \$28,000,000. Col. Labatt stated that the case of every wounded soldier would be considered without a reference to whether the subject for a pension had been making \$10,000 a year or \$1,000 before the war. Up to December 30 last, 6.320 pensions had been granted he said, and this number would be increased to 10,000 by the end of March. DENIALS BY EDITORS.

Winnipeg, Jan. 15.—The Winnipeg ninisterial association at its session this morning, took a unanimous step in favor of national government for Canada in passing a resolution urging such a step in the interests of the country. The resolution was supplemented with another cailing on manufacturers to turn over their wan profits to the common cause.

"If the political leaders who have not so far shown a spirit of personal

The second resolution reads:
"Resolved, that inasmuch as this decisive hour when the allies in a sacred cause have been braced and consolidated anew by unfalling association of their rights, it would be intolerable, miserable and humiliating if the call for fuller consecration of either manpower or wealth-power should be embittered or folled by mutual recrimination and distrust or if the supreme national effort required should be dragged down to the lower level of compulsion.

"We therefore would express the conviction that if in this struggle which has dislocated so many Canadian homes and ded enormously to the burdens of the poor, those to whom it has brought increased profit would refuse to be content with the compulsory surrender of a quarter, but would voluntarily give to the needs of the nation the whole of their unusual profits, they would make a sacrifice not indeed so heroic as that of the humbiest soldier or soldier's wife, but which would stir Canada to its depths, dissolve party and class feuds and create such an atmosphere of patriotic devotion as would render all resort to conscription superfluous. ion superfluous.
"We make this appeal with the keenes sense of its unprecedented character, but persuaded that we express the deepest soul of the Canadian people and the spirit of the sacred symbol of our flag."

EARLSCOURT RESIDENTS SAY POSTAL DELIVERY IS TOO LATE

Business Men's Association Will Endeavor to Have Earlier Morning Distribution.

For some months past considerable desatisfaction has prevailed in the northwestern district regarding the morning mail delivery.

According to the statement of the manager of one of the large banks the first delivery takes place at 10 o'clock and very frequently after that hour.

"Business people are very seriously inconvenienced by the delivery at this late hour." said the speaker, "and these is no reason why the mail should not be actived around 8 o'clock at latest," he said.

said.

"This section seems to be discriminated against in every way, and it is high time that the Bisness Men's Association and other organizations get busy and demanded that the postal authorities give the same service that the older districts of the city enjoy," said another business man. The matter of a postal station and an 8 o'ckck morning delivery will be brought to the attention of the postmaster-general by the Earlscourt Business Men's Association at its next meet-

**DEMANDS LARGE SUM** FOR SAND AND CLAY

Claims Unique Brickmaking Qualities for Land Expropriated for Canal.

As a result of government expropriation of 23 acres in North Orillia Township, Simcoe County, in making a course for the Trent Valley Canal, Frederick J. Beharriell, manager of the Contractors' Supply Co., of Toronto, has brought suit against the Dominion Government declaring that the sand and clay in the land exproprieted are worth \$300,000.

The issue is being determined by Justice Cassels in the exchequer court, city hall. Beharriell purchased a tract of 50 acres, including the 23 acres taken over by the government, and declares that brick made from the product of this land can only otherwise be obtained in Chile and the contractors of the contract declares that brick made from the product of this land can only otherwise be obtained in Ohio and Flo-rida. The land left by the government, the plaintiff declares, is practically useless for this purpose.

A four-day membership campaign will be commenced on Monday next, and it is the intention of the officials to take \$600,000 during the year of 1917. Many changes will be made in conducting this year's campaign. The city will be divided into two sections. The Rotary Club is going to canvass the factories, offices and stores, while the house-to-house canvassing will be conducted by fifty weil-known women to cover. They will have teams of fity girls, with the exception of the High Park district, where it is deemed necessary to have 100 girls on account of the large area they have been asked to cover. The young ladies will be instructed to make a note of persons not at home and call on them the following day. New System of Collecting.

There was some discussion as to a new system of collecting the money from members being inaugurated. It was the feeling of the meeting that a number of members did not pay up on account of having to journey down-town to the main office. It was suggested that the banks in each of the districts be asked to accept the monthly paymonts and forward them to the office. It was pointed out that many bank managers had expressed their willingness to do this, but some of the officers thought that the banking hours were too short and that drug

In the early afternoon Teutonic and Italian exchange worked still easier. Reichsmarks cables declined to 68%, a loss of 1½ from Saturday's final, and cheques were nominal at 681-16. The extreme low record for reichsmarks was 65 11-16, and the h'gh on last year's rally was 75. Vienna sold off this morning to 11.38 for cables and 11.35 for cheques. The extreme low record on kronen was 10 15-16. Italian exchange declined to the fo'l for cheques. Rubles were steady at 29.35 for cables and 29.30 for cheques.

While reichsmarks continued heavy at

the low point of the day, and Vienna came within 30 points of the extreme low record, the feature in the afternoon was a decline to a new low record in Italian exchange. Lire cables were quoted at 6.95 and cheques at 6.95½. This weakness was attributed to the large purchases for Italian account in this country and the almost nominal exports from that country to the United States. ## **NEW ROAD SYSTEM** FOR THE PROVINCE

Government Will Develop It, Minister Tells Ontario Motor League.

### ANNUAL MEETING HELD

For First Time in Three Years Revenue Exceeds Ex-

penses.

At the annual meeting of the On-taric Motor League, held last night in the King Edward Hotel. Hon. Finlay Macdiarmid, minister of public works and highways, announced that the government was ready to develop a provincial road system for the pro-vince of Ontario and that the necessary legislation would be presented at the coming session of the legislature. He made this statement, he said, with he full authority of Premier Héarst L. B. Howland, the retiring presidont, reviewed the past year and in a short historical sketch pointed out the great increase in membership since 1907, when it had 170 active and 56

associate members, until at present it had a total of 5,635.

During the past year the league has secured an interchange and i cured an interchange of license with 20 states. This has meant a great saving to Ontario motorists and a vast revenue from touring American motor Since the exchange of licenses went into effect over 50,000 cars have entered the province compared with

A reciprocal extension of customs privileges was also secured as a nese that motorists may tour the States or Canada for one month without bonding their cars, instead of being

restricted as under the old arrange-ment, to a period of ten days. As a result of deputations to the attorney-general and the county council, the fee system of paying magistrates and constables employed on automobile cases has been abolished in York County, and these men now receive a straight salary. In this connection the president paid a high tribute to the support received from Chief Magistrate Brunton, and the od employed by him in handling

Secretary's Report. W. G. Robertson, the secretary-treasurer, presented the financial report and reviewed the year's work in regard to legislation. He told of the touring bureau, legal department chauffeurs' bureau, thru which expersenced chauffeurs could be obtained by league members, and the arrangement with the license department of the

province by which members could of tain their licenses fro mthe league.
W. T. Marlatt, of Oakville, who was elected president for the ensuing year. reviewed the work of the road sign committee, of which hewas chairman. Thirty special signs were erected along the Hamilton-Toronto highway requesting motorists to observe the speed

laws and warning them of speed traps. The exchange of licenses he held had 200,000 people into the province and reckoning that the expenditure while in the province was as low as \$5 per head, which would amount to one million dollars. He told of the work of the special Toronto citizens' traffic committee regarding proposed traffic regulation and of their conclusion that pedestrians should be considered part of the traffic. The proposal of the committee that all vehicles should be lighted at night was

received with applause.

It was announced by the president that representatives have been roquested to attend the an-nual convention of the Good Roads Association, in the county offices, on March 1, at 9.30 a.m., and afterwards go as a deputation to the parliament buildings regarding a road from Windsor to the Quebec boundary, along the morth shore of Lake Ontario. This will be part of an interprovincial from Montreal to "There is no doubt good roads is what ovince needs, and we feel that we can do a great deal to influence the government," said the president.

A. L. Caron, president of the Auto-mobile Club of Canada, told of the place of good roads in the Bonne Entente, and outlined the work of his lub in securing 2000 miles of road in Quebec, at ar expenditure of \$29,000,-000. "Good roads are forerunners of nappiness and prosperity," said he They were necessary to bring the city nearer to the country.

Herbert W. Baker, of Albany, New

York, secretary of the automobile association of America, said that his sympathies were with Canada in the world struggle, and were he fit, he would be with his only son—in the 148th Battalion. He told of 8000 miles of good roads in New York on which \$82,000,000 had been expended out of an appropriation of \$100,000,000, and oredited Ontario with having the best highway in the world in the one fron nto to Hamilton The following officers were appoint

**Toronto Policemen Looking** For an Increase in Wages

At their next meeting the police commissioners will consider the application of the members of the Toronto police department for an increase in wages. The men have not received an advance for three years, and owing to the increased cost of living it is generally agreed that more salary is needed. At the present time first-year men receive \$850 per annum. During the next five years the salary is \$950 per ammum, after which this sum is increased to \$1150. Out of these amounts seven per cent, is deducted for the pension fund. The policemen generally are of the opinion that their request is just, and are confident that, after due consideration has been given the matter by the commissioners, they will receive a substantial increase.

Mr. McPherson, who spoke first said that it might have been thought that even the minority might have felt proud to have their representative elevated to the cabinet. He hoped the objection was not to him personally. (Cries of "No, no; the seven sleepers.") He hoped that nothing would transpire in the heat of the contest, if it attained heat, that would upset his personal friendship for Mr. Dewart and other members of the Liberal party.

An aftermath of the Ottawa separate achool case was heard before Mr. Justice Middleton at Osgoode Hall yesterday, when, with the consent of all parties, an application by the Quebec Bank to add the attorney-general or minister of education, as representing the crown, and the members of the late Ottawa Separate School Commission, Dennis Murphy, T. D'Arcy McGee and Arthur Charbonneau, as defendant parties in the action brought against the bank by the Ottawa Separate School Board, was enlarged indefinitely.

Mr. Cane said that he would have contest itself were not unnecessary, and if the government had not "thrown down the gauntlet." He accused the government of "weakness, extravagance and incompetency," and said that it had profited by the "prodding" it had received in North Perth and Southwest Toronto, and needed more of the same sort of thing in Northwest

Toronto.

Taxation was the most important thing in the province, and the nickel industry the most important thing in taxation. He supported prohibition, with a referendum in 1919, and lent his support to the hydro radials. If wanted more labor legislation, and amendment to the Workmen's Compensation Act. coercion of the house of commons, and by ousting the Hearst government in favor of Rowell. The two first had falled and with West Simcoe and Northwest Toronto they commenced their last effort.

"The old Liberal machine is working here," he concluded. "They have abundant funds and already they have canvassed this riding, and know every man in it."

W. D. McPherson, M.L.A., the Conservative candidate, declared that the Liberals themselves bould not justify their opposition to his re-election. He believed that it was not so much Mr. Cane who wanted to run as it had been hounded and persecuted at the had been hartley Dewart who gave the word. "By the time Mr. Cane pays attention to the two heads of the Liberal party, Dewart and Rowell," he said, "and then votes as Mr. Bowman the Liberal whip instructs him, he will not know on which side he is fighting."

Crime is Less.

He believed the Hearst government was not getting its due credit for enacting the temperance legislation. They weren't going with the tide in bringing it down. They had to swim of the side of the candidature of James G. Cane, at Brady's Hall last night. The rally was sparsely attended and it is believed that the result of the West Simcoe election was largely responsible for the drop in enthusiasm.

In a spectacular address brimful of invective and delivered with intense feeling, James Williamson declared that he had been hounded and persecuted at the instigation of the attorney-general's department. He charged that he had been thrown into prison and incarcerated for twenty-six days, and he had "never dome anything to anybody." Numerous letters had been written to Hon. Mr. Lucas, in which it was pointed out that he was blameless, but no notice was taken of them. Because of his "outspokenness" an attempt was made to drive him out of public life. Mr. Williamson went so far as to impeach the honesty of Mr. Lucas and stated that he was willing to meet him.

"If Mr. Lucas will give me a chance," said Mr. Williamson, "Til talk him into oblivity."

enacting the temperance legislation. They weren't going with the tide in bringing it down. They had to swim against the current for a long time. And since September 16, he said, crime statistics were lower and the new Guelph prison, built for future requirements, was almost empty and could accommodate 500 returned soldiers. He asked his hearers which party they believed had proven most loyal to the hydro and Sir Adam Beck. It was Sir James Whitney who picked out Sir Adam for the job. And the Hearst government had supported him in every demand. The government had endorsed the radial railways project, and within three or four years Optario was to be griditoned with cheap transportation. him.

within three or four years Ontario was to be gridironed with cheap transportation. He stood for rigid enforcement of rule 17 in Ontario schools.

Ex-Mayor Hocken opined that the electors could search the city from High Park to Riverdale and not find a better candidate than Mr. McPherson. The Hearst government, he believed, had done more for the workingman than any other government had ever done.

Hon. Thos. Crawford, A. E. Donovan, M.L.A., and Controller Cameron also spoke.

How was was on.

Complained of Bitterness.

In Simcoe, he declared, the Liberals entered the fight to contest it fairly and squarely. He was sorry to state the reverse was true of the Conservatives. The campaign against Mr. Scott he considered was the meanest and most remarkable in the history of provincial politics.

"On the first day that Hon. Mr. Lucas and Hon. G. Howard Ferguson appeared in onterio," declared Mr. Bowman, "and the villalmous attack, made upon the Liberals of Ontario with the consent of Mr. Lucas and Mr. Hearst is of great concern to the electors of Northwest Toronto.

SAYS ACCIDENT CAUSED HAIR TO BECOME GRAY

Miss Lillian Adair Sues Street Railway Co. for Ten Thousand

That her hair had turned gray as 3 result of the accident was one of the complaints of Miss Lillian Adair, whose suit for \$10,000 damages from the Toronto Street Railway following her recovery from injuries sustained when she was struck by a street car and run over by a delivery wagon, was heard by Justice Latchford in

the assize court yesterday.

Miss Adair removed her hat in the courtroom to show the jury the pres-ent color of her hair, contending that before the accident she had no signs of gray in her hair. The accident oc-curred about noon on March 8, when the plaintiff after alighting from a car at Yonge and Gerrard streets, was struck by a northbound Avenue road

car.
She was struck again while prone on the ground and then run over by a wagon. She sustained concussion of

wagon. She sustained concussion of the brain and other wounds besides having part of her foot amputated.

STANDING GRANTED.

By special arrangement of the Ontario Matriculation Board, high school students physically fit last year, may now enter the Royal College of Dental Surgeons. A demand for dental sergeants has arisen in England. The freshman class who volunteered in a body a few weeks ago, are likely to leave early in February to take up their duties.

## The Story Of 1916

THE business of the London Life Insurance Company showed continued remarkable progress in 1916. The new business written, entirely in Canada, was \$2,000,000 greater than in the previous year-a gain of 18 per cent. The increase in business in force was \$3,000,000 greater than in the previous year--making the total in force at 31st December 1916, 20 per cent greater than at the end of the previous

The following comparative statement shows the progress

The Company's action in waiving all restrictions as to Active Service under policies issued prior to the declaration of war has meant a very considerable additional strain, which however, has been fully met out of the earnings of the Company, in addition to the amount required to maintain the present liberal profit scale. Quinquennial distributions of profits in 1917 will be larger than ever.

Deutschland for export to Germany. There was a man with both legs gone; In the face of this, which is said to be and another lost an arm and leg; anan authoritative statement, it is in-teresting to recall that an Ontario and arms and hands and feet are real cabinet minister referred to The Pro- sacrifices, greater, indeed, to some vidence Journal, one of the best and than life itself. most reliable newspapers in the United | What sacrifice can we make to equa States, as a "yellow rag" for giving these? publicity to the same fact.

These men who have of-by German interests signing a strin-fered their lives held life as dear as gent guarantee in regard to anything, any of us who have stayed behind. Prussia signed about as stringent a But they held hondr and duty dearer guarantee in regard to the neutrality than many of us have done. They have of Belgium as has ever been put on been willing to justify their faith in paper, and we all know what it the cause they espoused, and the land amounted to.

The above only goes to prove what It is not possible for any man with The World has said for months and a heart or ordinary human sympathy will continue to say, that the precau- to consider what others are doing with tions taken to prevent Canadian nickel their bodies, their hearts and souls, getting to Germany are absolutely in- and not be constrained to do something adequate, and that the war might have to adjust the balance in the feeble way been ended long ago if the government that money can balance personal efhad had the courage to handle the fort. The campaign that will occupy matter in the way Australia did, and four days next week affords take under its control and direction an opportunity to do something tothe entire metallic output of the Do- wards catching up on the big debt of minion.

### Canadian Decorations

In the report of the decorations won to date by the Canadians at the front there is the nucleus of a great national possible now that many Americans repossible now that many Americans re-main with the old idea that Canadians . It is but a trifle that these patriots were in some way thrall to Britain no. The glory of the Canadian army has been its true nationality, eager merely to a national, not merely to an imperial demand, but to the imperative and then we would have had to yield words of liberty, justice and truth.

So the record of V.C.'s, of D.C.M.'s is no empty recognition of the mechanical valor of those who honor the iron cross and fight for a leader they cannot choose. These bonors speak to the world of the glory of freedom, the courage that flourishes by its own right, the valor that springs out of its own nature. Our heroes are modest, but the land that bore them must everlastingly be proud.

## German Diplomacy

Maximilian Harden is still at large the Liebknecht has just been handed in our pockets? an additional sentence of four years and a half of hard labor to the four years already meted out to him by his loving emperor. Harden writes with some daring in

his paper, Die Zukunft, but he tempers his censures of German methods with sufficient hatred of England to pass the censorship. He thinks Germany stupid to have proposed peace with the idea that anyone would take it seriously after the actions that preceded the proposals. He mentions the proclamation of the Kingdom of Poland, which President Wilson has wisely declined to recognize till after the war; the deportation of Belgian workers, and the continual bragging of German victories.

Harden thinks the entente nations rejected the peace overtures because they did not believe that such offers could serve to prepare a lasting peace. This was so obvious and will remain so obvious that one wonders no longer why the French speak of their neighbor enemies as Boches-thickheads.

German diplomacy has been as ineffective as German tactics. It has blundered along from one error to another, in a way that can only be explained as being due to the falsity and deceit which never permits logical and consistent action. If Germany had intended peace there would have been no doubt about her position, and not the slightest ambiguity about her proposals. As it is we all know, as Harden practically confesses, that Germany was jockeying for a better position in the war that her rulers have in mind

for days to come. Harden's advice is that the kaiser stagger the world with submarines, which will be another egregious blunder, and having won the confi- ing water off the stove yesterday morndence of neutrals and all her enemies.

The Toronto World alliance against England, who will then the driven out of existence. Harden does not seem to be so muc everer than the kalser after all.

Toamong equals to prove its loyalty, not ronto would not have escaped under call of humanity itself, the old watch as slaves what now it is open to us to use as we please as freemen.

Can any freeman fall to resolve that D.S.O.'s, of military crosses and he will make his contribution worthy to be thought of beside the contribution of those who have freely given life and limb and grudged not? For the rest of our lives the war will be a nightmare and a horror to us if we carry out of these years the conviction that we did not do as much as we night have done, that we missed the opportunity to take our place in the ranks of those who gave worthily when it was needed.

### CORRECT INFORMATION FOR PASSENGERS.

Editor World: The necessity for having men at the railway stations who are correct in their knowledge as to the movement of trains was made apparent when a man who had been spending the Christmas holidays in Toronto was about to return to-the other side. His berth had been secured and he with friends was at the station some time in advance of the hour in which he was informed his man if that were the train for Boston and the official told him no, that the train in question was for New York. Turning back, the traveler asked another official what time the Boston train would start, and he was told that the Boston train was just pulling out—the train which he had intended to board. Owing to the mistake the traveler had to spend nearly twenty-four hours in Buffalo before he could make connections. It also put him back in his business arrangements to a considerable extent, and lastly, when he sent back his berth ticket there was quite a demur before the price was returned. The fact that many of the best trained men have gone to the front ought to make instructions to those who take their places most explicit. Citizen.

described as the rebuff to Presiden Wilson's peace efforts given in the re-ply of the entente, the president could take any further action for the present, adding that the entente answer ex-cluded, for the present, any possibility

of peace.

Expressing a profound conviction that the program of the entente powers could never be carried into effect, at a second peace of the program of the profession of the program of the peace of Dr. Zimmermann intimated at a failure of the entente's offensi e this year, which he expected, might again year, which he expected, might again make it possible to approach the sub-ject of peace on reasonable terms and with some prospect of success.

Await New Offensive.

"Do you think that after an interval there will be any possibility of an offer of mediation for peace being accepted by both sides?" the minister was asked.

"Yes," he replied. "The desire for peace of all the peoples—peoples, mind you, I say, not governments—is so strong that after the entente has had another try with a new offensive; after it has seen the fruitlessness of all the endeavors to crush the military strength of the central powers, there may be a better possibility of negoti-ating a satisfactory and reasonable

"Of course, if the entente powers persist in trying to execute their program the war must be fought out to the bitter end. There is not a German who would not rather die than see the accomplishment of the announced intention of the entente powers with respect to Germany, to see German provinces with predominant German populations torn from the German Empire, and united Germany, which our fathers so labored to achieve, torn asunder and the country reduced, as the allies have plainly announced as

their ambition, to a condition of sub-logation to rival great powers of Fate of Kaiser's Allies. "The conditions for Austria-Hungary are even more difficult. Its dismemto satisfy the passion territorial aggrandizement of Russia. Italy, Serbia and Rumania, would leave the state not even a third rate while who can say what would

power; while who can say what would be the fate of the "redeemed small matteralities" when brought under the away of Russia? Bulgaria, of course, would be bitterly punished and Turkey would practically cease to exist if the plans contemplated in the entente's answer were attained.

"The entente tries to justify its

alms of conquest by what it calls liberation, instead of pillaging. Charity begins at home. Why does not England give a practical example of her idea of liberty by setting Ireland free?" ONTARIO AUTHOR IS DEAD

## WONDERFUL ILLUSIONS

Variety marks the excellent bill presented by the management of Shea's Theatre this week. Illusion, singing, dancing and athletics find a place on the program and the entertainment is one which will satisfy the most fastidious of vaudeville patrons. In Debeire, who makes his initial visit to Toronto in an elaborate presentation of mystery, is found a worthy successor to the great Lafayette. His illusions are performed with an adept. illusions are performed with an adept-ness that is bewl dering, while his "exposures" only serve to show the mester hand and more deeply mystify the aud eace. "The Sculptor's Vision." in which is told the story of Leda and the Swan, is perhaps the best of the act. It discloses a clever piece of

living statuary on the part of a mem-ber of De Beire's company.

Charles Cartmell and Laura Har-ris, in "Golfing With Cupid," a sing-ing and dancing skit, find much favor with the audi nce for their fine work, while Dorothy Granville, assisted by Austin Mack in "Types of Women." presents impersonations that are novel and amusing. The Avon Comedy Four, a quartet of splendid singers, present their version of rhapsody in a manner that thoroly amuses and earns deserved encores. Lou Lockett and Jack Waldren, the musical comedy boys, are very clever dancers and their eccentric steps are neatly executed. Clair-mont Brothers, a duo of sensational gymnasts who perform difficult feats on the revolving ladder, and the kinetograph with a set of new picture features complete.

ing adjourned from lost month, was completed.

President E. G. Barrow said that the players' strike was not discussed, but that in his opinion all the players would report on time when called upon. There was no mention made of the Brooklyn Club's claim or the award decided upon by the National Commission for the Newark franchise, which the International Leegue refused to pay at its previous session here.

The regular schedule meeting of the league will be held at Newark about the middle of February. The playing season will end on Aug. 5, and the lister-league series with the American Association will open Aug. 7, and finish about Sept. 24. The player limit of 16, exclusive of the maneger of each club, will be enforced from May 17 until the completion of the inter-league series.

A resolution was adopted prohibiting any club taking a player on option subject to recall before the end of the regular season and the inter-league games.

College Fixture.

St. Andrew's College made their first appearance of the season in the junior O. H. A. college group yesterday afternoon. University Schools, who made such a good showing against the strong De La Salle seven last week, were the Scotchmen's opponents. U.T.S. had better combination and won, 10 to 5.

Boulter, White and Jeffrey were the best for the winners. Gordon and Yuill played nice hockey for the losers.

University Schools led, 4 to 2, at the end of the first period, and stood 8 to 3 when they rested the second time.

The winners had much the better attack, and did more effective back-checking. St. Andrews, who have only one of last year's team, in Yuill, miss Harry Watson's effective work in and around the net. When the Scotchmen get a little more team-play they will be hard to beat. Ross is a trifle nervous on the long shots.

Elmira, N.Y., Jan. 15.—John (Red) Murray, for many years outfielder for the New York Glants, last season with the Toronto International Leegue team, today signed a contract with the McGraw team for the coming season. He will go to Marlin with the Glants in February.

Murray came to Toronto last week and secured his unconditional release from the Leafs on the understanding that he was to become manager of the Elmira team in the State League. This looks as if Red put a nice one over on the local club. What will the club do?

## THREE MACKMEN JOIN

Philadelphia, Jan. 15.—Three star members of the Athletics lave failed to sign contracts for 1917 because their salaries were reduced. They were J. Leslie Bush, "Wally" Schang and Amos Strunk. These men have told friends that they would refuse to sign contracts unites the documents provided the salaries received last year. They have banded together with an agreement to this effect, it is said. Connie Mack said this afternoon. "I am not worrying." Contracts stipulating salaries have been sent to all the players and if they do not return them signed, what can we do?"

A general reduction of the salaries of all players on the Athletics has been made, it is declared.

Archer and Demaree Say They Are, While Roth Thinks There'll Be No Strike.

Chicago, Jan. 15 .- A letter setting forth the views of David L. Fultz, president of Baseball Players' Fraternity, in re gard to calling a general strike, is to read at the meeting of ball players to heid nere tomorrow night. At Demarce, a member of the Philadelphia National League Club, announced today. Demarce said, however, he could give no bint as to the contents of Fuitz's letter. Demarce issued the call for the meeting at the request of President Fuitz, and has appealed to major league players residing in and near Chicago to attend. Between twenty and thirty are expected to be present. He said:

"The fraternity members are back of Fultz. They believe in Fultz, notwithstanding reports to the contrary."

Bobby Roth of the Cleveland Americans, a member of the fraternity, does not regard the proposed strike movement seriously. Roth said today that, aitho he had not signed his 1917 contract with the Cleveland Club, he expected to do as quickly as he could come to terms with James Dunn, president of the club.

"Striking is the last thing I would think of." Roth said. "I admit that I am unwilling to sign the contract sent me, but I am not being guided by Fultz's orders not to sign until he gives his consent."

The action of Fultz in applying to the American Federation of Labor for a charter met with the favor of the dozen or more members of the fraternity residing in and near Chicago.

Catcher Archer of the Chicago Cubs expressed himself as highly in favor of the action.

REPORT OF THE AUDITORS TO THE SHAREHOLDERS OF THE

UNION BANK OF CANADA.

In accordance with the provisions of sub-sections 19 and 20 of Section 56 of the Bank Act, we report to the Shareholders as follows:

We have audited the above Balance Sheet with the books and vouchers at Head Office and with the certified returns from the branches.

We have obtained all the information and explanations that we have required and are of the opinion that the transactions of the Bank which have come under our notice have been within the powers of the Bank.

In addition to our verification at the 30th November, we have during the year checked the cash and verified the securities representing the investments of the Bank at its chief office and principal branches and found them to be in agreement with the entries in the books of the Bank relating thereto.

In our opinion the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Bank according to the best of our information and the explanations given to us, and as shown by the books of the Bank.

Conditions generally throughout the country are far more satisfactory than could have been foreseen. The remarkable harvest of 1915 gave freights to our railroads, a market to our mannfacturers and merchants, employment to our people, and showed the Empire what Canada is capable of doing towards supplying food for the world.

Last year the harvest was not so abundant, but the prices realized were so high that never in the history of Canada were our farmers, speaking generally, in such good shape financially. Every farmer has it now within his power to do a real service to the cause by bending his energies towards increasing his production of foodstuffs, which are so urgently needed by the world.

GENERAL MANAGER'S ADDRESS. In presenting the 52nd Annual Statement of the Bank to the Shareholders, there are but few changes in the balance sheet, in your hands which require explanations or comment. Owing to the exceptionally profitable harvest of 1915, the bal-ance of trade with Great Britain being greatly in favor of Canada, the tremendous expenditures of money in this country for war purposes, and the abnormally high prices obtained for an average crop in 1916, assisted by economy-money has been abundant and general trade conditions

satisfac'ory. Posperity in Canada has been clearly demonstrated by the ease with which money has been obtained the Federal Government for war purchases and the steadily increasing bank deposits.

Deposits.

The deposits amount to \$89,267,000, against \$72.685,000 in 1915, an appreciable increase of \$16,582,000, of which \$7,000,000 is in non-interest bearing, and \$9,500,000 in interest bearing deposits.

The percentage of quick assets to liabilities to the public has increased to 56.65 per cent. from 47.92 per cent. last year and 36.27 per cent, in 1914. The wisdom of maintaining strong liquid reserves will, I am sure, be commended.

REMARKS OF MR. F. E. KENASTON. OF MINNEAPOLIS.

The important change taking place today in the general management of the Bank whereby Mr. G. H. Balfour is resigning as General Manager, after forty-seven years of service, and the appointment of Mr. H. B. Shaw, who has so well served the Bank for a number of years as Assistant General Manager, to full Managership, has impressed me very strongly. When you take into account, Gentlemen, forty-seven of the best years of a man's life, devoted in the most loyal and faithful manner to the upbuilding of a business institution, and when advancing years bring him to reason with himself that it is better to shift the burden of responsibility on to younger shoulders and enjoy a well-earned rest after so many years of arduous work, we must conclude that the severing of the ties which bind men together in business life is a serious thing. I wish to endorse fully all of the words of eulogy which the preceding speakers have used in connection with Mr. Balfour's long years of service, and bis decision to now resign the burden of General Managership of the Bank, and to congratulate the Bank, at the same time, that he is to be

negotiations for suitable connections there, have been most extraordinarily fortunate in securing the services of Messrs. Stuyvesant Fish, Cornelius Vanderbilt and Gilbert G. Thorne as Members of an Advisory Committee These gentlemen are so well known everywhere on this continent that it seems superfluous to say a word in their praise, but I connot pass by the opportunity of saying that the names of these gentlemen, connected with any business institution or enterprise, is an absolute guarantee of conservatism, integrity and efficient manage-ment, and is an endorsement of the Union Bank itself, not only in New York City, but in the Dominion of Canada as well—a fact in which we, as Stockholders, should take great pride. In summing up the situation, gentlemen, I am free to say that the Union Eark is going into New York City with its Agency under the most fa-vorable auspices possible. On the 25th of August last, the Di-

On the 25th of August last, the Directors of the Union Bank, accompanied by a few invited guests, began a trip of 13 days of inspection of Western Canada, with reference to business conditions and prospects generally, and, specifically, with reference to its ern Canada, with reference to business, conditions and prospects generally, of the firm of Webb, Read, Regard, and, specifically, with reference to its lingham & Co., were re-appointed as auditors of the Bank. own branches extending throughout the Provinces of Manitoba, Saskatchewan and Alberta.

During the trip we met 192 Branch Managers, with whom the Directors discussed very freely their respective local conditions and prospects. The meeting of these Branch Managers (most of them young, vigorous, intelligent men) to some of us was a re-velation. We found them uniformly velation. We found them uniformly loyal and enthusiastic workers for the good of the Union Bank, well advised as to their own local conditions, and what was required for the betterment of these conditions as respects mixed farming. the farmers. We also found a very satisfactory condition prevailing in the larger towns and cities of the West with regard to commercial affairs, the matter will be brought up for fu operation and loyal support of a capable staff of officers, who have, at all times, devoted their best energies to furthering the interests of the Institution they served. I desire to take this occasion of expressing to the capable staff of officers, who have, which seem to have been reduced to dealings in staple articles and necessities of life rather than the luxuries. NEW YORK COTTON.

J. P. Bickell & Co., 802-7 Standard Bank Building, report New York Cotton Exchange fluctuations as follows:

## Americans Buy Boston Creek

Boston Creek was the strongest of the gold stocks in yesterday's mining markets. These shares sold up to a new high, advancing five points to 120 and closed at that price bid. The advance was due entirely to buying from the United States. Considerable information regarding the big property at Boston Creek from capable engineers, has been spread thru the leading American large centres and the campaign already started is expected to carry the stock well over two dollars a share before the buying demand is at all satisfied. The returns from the first shipment from the mine will be of a convincing character and will, no doubt, be responsible for much investment and speculative buying. For a gold mine of any pretensions the company's capital is considered small, viz, \$2,000,000, and of this half the stock is still in the treasury. stock is still in the treasury. Boston Creek has already given promise of being one of the most active trading issues on the Standard Mining Exchange, and already a big business in the stock has developed on the New York and Boston curbs.

### COPPER PROPERTIES ATTRACTING NOTICE

Ore Bodies in Sudbury District Easy of Access.

It is only just recently that there has been any activity in the Canadian copper properties in spite of the remarkable c ndition of the copper market, the inactivity in Canadian properties being due to certain financial difficulties which have to be overcome. It is well known that the Sudbury region is extremely rich in copper deposits and that the ore bodies are so situated that mining 's a comparatively simple matter. A case in point is the Cheney property, which was operated under private ownership and opened up by means of open cuts and trench's with one shaft down about 100 feet. From this property one shipment was made which yielded the company a return of about \$23,000.

It has also been proven that large sized ore bodies running as high as 25 per cent. in copper are existent on this same Cheney property. This is only one of a number of properties that are of high known values and it is likely that some offering will be made to the public of the Canadian copper properties now that some activity has developed in this find.

### TOMMY BURNS COM. MADE INITIAL BOW

The Tommy Burns Gold Mining Co common shares were introduced to trading on the New York Curb, Standard Stock Exchange of Toronto, and the Boston Curb market, where the company was officially listed yester-day. In view of the large public interest displayed in the offering of these shares, a strong and active market is anticipated. On the New York Curb the common stock opened at 50, sold up to 62 and closed at 70 bid.

## LONDON STOCK MARKET.

London, Jan. 15.—The money market was only slightly affected by applications for the new loan today, as numbers of treasury bills are falling due. Discount rates were quiet.

Banks and other institutions are busy with the loan details, and the stock market was distinctly dul. Even dealings in the old war loan slackened, and it is expected business will net improve for at least a month. Rubber, diamonds and a few industrial shares were supported, while American were idly steady.

## Notice to Stockholders

TOWNY BURNS GOLD MINING COMPANY

As our distribution campaign met with unusual success and the cost was not as much as we had anticipated and with a view of having all of our customers become better acquainted with our open and above board method of doing business and with the object of inducing shareholders to further thoroughly investigate and possibly visit the camps and see for themselves the development work that is being pursued by the Tommy Burns Gold Mining Company on each of its Mining Properties: Properties;

Pope Brothers & Cheppu Co., Ltd. have decided to have distributed from their own personal holdings gratis to all stockholders of record as of Thursday, February 15th, 1917, the following bonus of Common Stock in the Tommy Burns Gold Mining Co.

One Share of Common Stock for each Five Shares of Common Stock.

THIRTY THREE and ONE-THIRD (33-1/3%) PERCENT One Share of Common Stock for each Three Shares of Preferred Stock.

All certificates must be properly registered and transferred on the books of the REGISTRAR AND TRANSFER COMPANY, 120 Broadway, New York City or on the books of the IMPERIAL TRUST COMPANY, 15 Richmond St. W., Toronto, Canada, not later than February 15th, 1917. Stock bonus certificates will be mailed to each registered holder as shown by the books of the above mentioned register and transfer companies on or before March let,

Stock held on marginal account with other brokers should be taken up and certificates secured without delay so that proper transfers may be made. Stock held on deferred or partial payments should be paid up and certificates obtained in order that share holders may participate in this stock bonus distribution.

Participating preferred shareholders are respectfully requested to make all inquiries, regarding this issue, to F. K. SMART Specialist, 50 Broad St., New York City.

The Participating Preferred shares have met with a highly appreciative market on the New York Curb, Standard Stock Exchange of Toronto and the Boston Curb Market where the company is officially listed. Beginning Monday January 15th, 1917 the Tommy Burns Gold Mining Company Common Shares will be initiated to trading in the same markets.

Respectfully,

2,000 lately.

Porcupine Crown was easier in tone, and sold back on the close to 79. Vipond held around 50. Since the amalgamaticn of this property with the North Thompson was ratified there has been a demand spring up for the stock from New York houses with English connections. Thompson Krist was active around 30, and West Dome Con. changed hands at 30 to 30¼. Newray was a firm spot at \$1.40.

Kenabeek was a feature of the silver issues. The opening was steady at 40, and this was followed by the liquidation of a large block of stock, which caused a slump to 33, the inside support. In the afternoon, however, inside buying appeared again, and a Porcupine Crown was easier in tone,

support. In the afternoon, however, inside buying appeared again, and a sharp recovery to 38 was made.

Hargraves held at 18% to 19. Quiet accumulation is reported to be going on in this issue, and higher prices may possibly result. Gifford displayed renewed strength, advancing a point to 5%. This company has been refinanced, and with aggressive development about to commence apparently appeals to traders as a good speculation. Timiskaming held quietly at 61 to 62, and Pete Lake was unchanged at 10½ to 10%.

## **SLOW DISINTEGRATION**

Two Reasons Assigned for Movement in Mackay-Brazilian Encounters New Liquidation.

A little more strength in Mackay common was the only feature in the semi-speculative stocks on yesterday's Toronto market. The movement in this issue is taken to mean an advance prior to an increase in the dividend or a spasmodic movement to distribute a little stock collected at lower prices. It is not generally thought that there will be any increase in dividends, and the activity in the shares on the New York Exchange between the morning and afternoon boards here was believand afternoon boards here was believed to be for the purpose of creating a local demard. The shares were quoted on Wall street as high as 88 2-4, but there was a plentiful supply here at 88. Brazilian was under renewed liquidation, sold down to 44½ and there are many who think that the liquidation is not yet completed. There was no snap to any of the trading and no inventive to try and advance prices. The war loan was again in good demand and should continue so at much higher prices. Slow disintegration in the prices of specialties is regarded as the surest outcome of the present situation.
