"Federal and provincial governments," he explained, "are both undertaking to provide employment in various ways and municipalities and manufacturers are expected to meet the situation in like manner. This government's policy in the matter of the cost of relief measures required to meet immediate and pressing needs, is as follows: The organization for determining where emergency relief must go and for distributing the same will be provided by the municipal authorities, and in each case before relief is given, and as relief is continued, a certificate must be obtained from the government employment service, showing that the applicant cannot be given employment. The general system and details and the safeguards adopted must be approved by or on behalf of the provincial government. If this is done the provincial government is willing to contribute in places where relief on any substantial scale appears to be necessary, one-third of the amount actually disbursed on this report, provided the other two-thirds is borne by the municipality or paid by the municipality and the Dominion jointly."

CLOTHING MAKERS REDUCE WAGE SCALE

Workers Will Average Fifteen Dollars a Week Less Than in Past Year.

New York, Dec. 20.—Wage reductions averaging about 20 per cent. under the union scale prevailing in the men's clothing industry since November, 1919, were announced today by the Clothing Manufacturers' Association, which made public its new piecework wage schedule.

Under the piecework rates, the announcement stated that the workers will average approximately \$15 a week less than they received under the union scale during the past year. Approximately \$5,000 clothing workers in New York are affected by the new wage scale. Practically all of these are either "on strike" against the proposed piecework system or have been "looked out" by the manufacturers.

The Amalgamated Clothing Workers of America, representing the union employees of the clothing industry, and the manufacturers' association broke off relations several weeks ago. Picket lines have been established about many shops in the garment district here in an effort to persuade workers against entering the mills under the piecework system.

Under the new piecework system, it was stated, the clothing workers would be able to earn from \$22 to \$50 a week.

Figures announced showed that the new rate still gave the workers an average of 36 to 72 per cent. over the scale prevailing February 1, 1919.

The piecework rates, it was stated, will be fixed for each factory upon the basis of production of the average experienced operators, and calculated to produce average earnings for the 70 different classes of workers.

SMALL LONDON BANK SUSPENDS PAYMENTS

Difficulties Due to Losses in Trading Extending Over Many Years.

London, Dec. 20.—Farrow's Bank, an institution doing business largely with small depositors in the suburbs of London, where it had numerous branches, posted a notice this morning that payments had been suspended. The bank, which has a capital of £1,000,000, and deposits unofficially estimated at possibly from £2,000,000 to £3,000,000, gave no immediate explanation for its step.

Suspension of payments, it is believed, will not have any effect other than sentimental on the stock exchange owing to the comparative smallness of the bank. The announcement caused little surprise among financiers, since it had been rumored that something of the kind might occur.

The bank has 4,000 shareholders and 73 branches.

The board of trade states that the difficulties of the bank were due to losses in trading extending over a series of years, and not to any causes due to general or particular conditions at the present time.

The bank was founded in 1904 and was the outgrowth of a crusade by its founder, Thomas Farrow, against money lenders and their alleged usurious practices. Farrow had established a national reputation by his war against usury, and finally established the bank which, it was intended, would compete with usurers on their own ground and lend money to the public on equitable terms. He was warmly supported by numerous prominent persons.

The bank offered the small depositor all the advantages given to wealthy customers by the larger banks. Accounts could be opened with as little as one pound, and a great majority of the depositors are said to be persons with small or moderate means.

U. S. MAY EXPORT COIN OR BULLION TO RUSSIA

Washington, Dec. 20.—Restrictions on exportation of coin, bullion and currency to Soviet Russia, on dealing or exchange transactions in Russian rubles, and on credit or exchange transactions with Soviet Russia, were removed today by the treasury and federal reserve board, acting with the approval of the state department.

The treasury and federal reserve board in announcing removal of the restrictions, said the action was taken "to give force and effect to the decision of the state department, as announced several months ago, to remove barriers in the way of trade and communication with Soviet Russia."

G. H. HILL, of Brattleboro, Vt., who says he never felt better in his life than he does now, although before taking Tanlac he was in such a run-down condition he wasn't able to do a day's work for three months. Says he has gained thirty pounds.

"It may sound unreasonable, but when I began taking Tanlac I only weighed 114 pounds and had not been able to work for over three months. Today I have as much strength and energy as I ever had and have actually gained 30 pounds in weight. In fact, I have never felt better in my life, and I owe the remarkable change in my condition to Tanlac and Tanlac alone."

"To tell you the truth, I don't know what would have become of me if it hadn't been for this medicine, for I had just about lost my health completely and the treatment I was taking was doing me no good. In fact, I hardly had strength enough at times to walk across the room."

"My principal trouble was indigestion, and I also suffered from catarrh and nervousness. My stomach was in such a weakened condition that I rarely ate any breakfast and had to live on a very restricted diet."

"After reading about Tanlac I decided one day to give it a trial, and it seemed to suit my case perfectly, for in only a short time I was able to go back to work. I just want to be eating all the time now, and everything—even onions and pork—agrees with me perfectly. I shall always praise Tanlac."

The above statement was made recently by G. H. Hill, a well-known and highly respected citizen of Brattleboro, Vt.

Tanlac is sold in Toronto by Tamblin Drug Stores and by an established agency in every town.

CHRISTMAS RUSH AT ELLIS ISLAND

Authorities Expect to Handle Biggest Holiday Influx in History.

New York, Dec. 20.—Immigration officials at Ellis Island are preparing for the greatest Christmas rush of immigrants in the history of this port. Special plans have been made to expedite the movement of between 20,000 and 30,000 newcomers during the few days preceding the holiday.

Thousands of immigrants timed their departure from Europe so that they might spend Christmas with relatives in this country and the immigration authorities have speeded up the inspection machinery to make this possible.

Despite the extra efforts, officials say thousands will be disappointed. Christmas Day is expected to find Ellis Island overflowing with immigrants and several ships awaiting to unload their human freight. Recently, immigrants have been arriving at the rate of more than 2,000 daily, and more than 20,000 have been in transit on the ocean at one time.

Welfare organizations have offered their co-operation to the island officials to bring a bit of holiday cheer to the newcomers who may be there Christmas Day.

With the high tide of incoming Europeans, there has also been a large emigration from this port during the past month. The outgoing are mostly persons who were returning to Europe for a visit and to pass the holidays with the "old folks." A small proportion announced their intention of remaining abroad, using their savings in the rebuilding of business under new conditions.

REVERT TO WAR METHODS IN FIGHTING HIGH PRICES

Chicago, Dec. 20.—Reversion to war methods in fighting high food prices was adopted in Chicago today, when Russell J. Poole, secretary of the fair price committee of the city council, announced that "fair price" quotations for meats will be issued daily by the council committee.

Wholesale prices quoted by packers at the stock yards will be made the basis of the "fair price" schedule, he said. To this will be added overhead charges and a fair profit.

The plan was adopted at the suggestion of Everett C. Brown, of the Chicago livestock exchange.

"The meat dealers' profits are greater now than at any time during the war," said Mr. Brown. "The meat dealer could cut meat prices 10 to 20 per cent. and still make a bigger margin of profit than before the war."

Spain Warned Not to Strangle Foreign Enterprises by Allies

LIBERTY BONDS AT LOWEST ON RECORD

Tightness of Money in U. S. Centres Causes Outpouring of Securities.

New York, Dec. 20.—The urgent financial requirements of many corporations and individuals caused fresh unsettlement in the stock market today, the reaction extending to bonds of the Liberty and Victory issues, several of which registered lowest quotations in their history.

Liquidation of bonds was not effective until the final hour, when heavy transactions in the several 4 1/2 per cent. issues overshadowed other operations. Net losses of 1.60 per cent. were made by the second and third 4 1/2s, the fourth 4 1/2s closing at a decline of 1.32 per cent., after having registered an extreme fall of 1.62 per cent.

Brokers and banking houses stated that a large proportion of the selling originated out of town, especially in the middle west, where money, even for the short period, has been almost unobtainable in the past fortnight.

Liquidation in stocks, so far as could be ascertained, also was of an enforced character.

The reaction in the securities market was moderate but almost continuous. Sentiment was rendered increasingly bearish by cables from London which reported the failure of Farrow's bank. Further reversals in the grain and cotton markets was another factor in the depreciation of security values.

Canadian dollars reached the new low record of 84.55.

ROCKEFELLER SUED ON HIS INCOME TAX

Failed to Include a Number of Shares in Computing Figures.

New York, Dec. 20.—The United States government today brought suit against John D. Rockefeller for \$292,678, charging that his income tax report was "incorrect, misleading and false."

The complaint alleged that in his return filed March 28, 1916, Mr. Rockefeller failed to include in it as part of his income 50,104 shares of Illinois Pipe Line Company and 67,176 shares of the Prairie Pipe Line Company.

A penalty of five per cent. interest thereon at the rate of one per cent. from June 30, 1916, and costs, also were sought.

- 1. The immediate evacuation of Anatolia and Thrace by the entire Greek forces.
- 2. The unconditional return of Smyrna to Turkish control.
- 3. An immediate plebiscite in Thrace under the control of a neutral power.

- 5. Modification of the financial and economic clauses of the peace treaty of Sevres.

SURRENDER OF COWS DISASTROUS TO GERMANY

Berlin, Dec. 20.—Surrender to the allies of 800,000 milk cows, which have been demanded under the terms of the Versailles treaty, would have disastrous results, says a letter to the women of France from a committee of German women. Continued deprivation of the German people of the milk supply, represented by these cows would result in weakening public stamina and individual resistance, and, therefore, operate to reduce the ability of Germany to fulfill treaty obligations thru necessary production, it is said.

For nearly six years the populations of German cities have not had milk, pasteurized, and owing to this fact, the death rate from tuberculosis has doubled since 1913, and 38,000 more children died in 1918 than in 1913. In Prussia alone there has been an increase in child mortality of 100 per cent.

London, Dec. 20.—Canadian bacon will be decontrolled in the British Isles at the end of February. CHRISTMAS TREE IS JOY FOR CHILDREN

Central G.W.V.A. Gives Seasonable Pleasure to Hundreds of Kiddies.

Central G.W.V.A. yesterday afternoon and last night provided hundreds of little children and, tired mothers with one of the most delightful and comprehensive Christmas trees G.W.V.A. enthusiasts have seen in several years. All manners of presents, useful and ornamental, strung down and rested upon the various branches of the huge tree, and Allan Cowan officiated as Father Christmas. The women's auxiliary worked hard in conjunction with the branch. Two movie shows featured the occasion, one from four to six for the smaller, and the other from seven to nine for the larger kiddies, coming being the mainstay of this section.

Mrs. Birtles, president of the women's auxiliary, stated that the branch and the auxiliary owed much to the kindly feeling of the merchants, many of whom had been very generous in their donations to the cause, giving presents totaling easily \$300 in value. This was an event, she said, in which giving was pre-eminently the slogan. Unlike the concerts and dances, money went out instead of coming in, but it was noteworthy that scores of homes were made the happier, and were temporarily lifted above the cloud of misery and want. By six o'clock 450 little tots had received their presents, witnessed their movies, enjoyed their banquet and gone home. By the time the entertainment was concluded, easily a thousand had passed thru the hands of the committee.

WELL-KNOWN TORONTO WOMAN PASSES AWAY

Mrs. Mary Casey Was Prominent Social Worker With Many Other Activities.

Mrs. Mary Elizabeth Lloyd Casey, aged 58, wife of James Casey, contractor, died at her home, 207 Jarvis street, Sunday. Born in Wisconsin, the daughter of George Lloyd, she came to Toronto 38 years ago, shortly before her marriage. She attended the Metropolitan Church. Surviving are her husband and two daughters, Mrs. I. P. Marshall, Toronto, and Mrs. A. J. Mackay, Goderich. Two brothers, C. D. and G. A. Lloyd and two sisters, Mrs. Hugh Kennedy and Mrs. Albert Cummer, also survive.

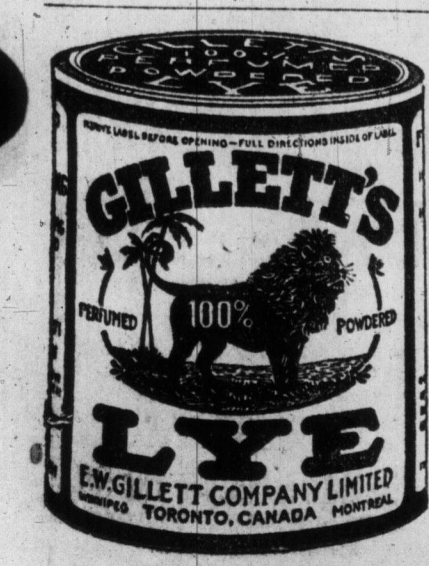

Mrs. Casey was the first vice-president elected in Ward 2 Conservative Association. She was a prominent social worker and was also a member of the Ward 2 Women's Association. During the war she held eucharistic parties in aid of the Red Cross, raised several thousand dollars toward the fund. She sat on the board of management and board of finance of the Women's College Hospital, and was an honorary life member of the Canadian Red Cross. Mrs. Casey was instrumental in raising funds for six ambulances that left Toronto for the front during the war, and assisted the Belgian relief committee in many ways. Her activities were not confined to Red Cross work alone, for she was an active member of the Dickens Fellowship, the Big Sister Movement, and was attached to several branches of the I.O.D.E., in addition to being a member of the National Council of Women and the Women's Canadian Club.

CLAIM VETERANS BEING EXPLOITED

Householders Throught City Asked to Pay Exorbitant Prices for Goods.

Complaints are being made by householders in various parts of the city respecting solicitors for alleged publications and salesmen for socks and other articles said to be worth only one-third the sale price. Robert M. Scully, assistant secretary, Toronto G.W.V.A., stated to The World yesterday afternoon that all kinds of dodges were being put over the public, and that there is no doubt that the ex-service man was being exploited for this purpose. He recalled several instances of householders being asked to subscribe for a publication which was unknown to the market, and which he believed did not exist. The system apparently was to take one or two streets for this purpose at a time, the location then changed to another miles away. One young man, an ex-service man who had no idea of retail selling, respecting socks and stockings, and who was selling little children's wear at a cost stated to be twice the real price, was being exploited, said one North Toronto citizen to The World yesterday.

It was easy to imagine the procedure, as it was making when on its salesmen a commission of between one-third and a half of the total price.

Mr. Scully asked if there was any information concerning a Christmas tree at Massey Hall. Many men were visiting the Christmas tree and soliciting for subscriptions to an all-ages Massey Hall Christmas tree. He stated that the district committee invariably warned the public when anything of this nature was being put over the residents, and also warned ex-service men of the possibility of exploitation, these being contrary to the best interests of returned men. There was nothing else to do, the law not being in a position to deal with this phase of business deals.

URGES PREACHERS TO STICK TO DOCTRINE

Rev. Dr. W. T. Graham, addressing the Baptist Ministerial Association yesterday afternoon on the preparation and presentation of the Christmas message, expressed the belief that there should be more doctrinal sermons and less "more or less" topical sermons. "Some people," he said, "miss the Gospel in the sugar-coating. Preachers are not to indulge in politics. There are other subjects which are social and political subjects, but they should be distinguished and should devote their time solely to the teaching of the Gospel."

APPEAL AGAINST CITY DISCUSSED BY JUDGE

An interesting judgment is handed by Judge W. J. Aldrich in dismissing an appeal against the city of Toronto for the proceeds of the sale of the property of the late Charles Mitchell, 1818th Baiting, who was killed in France, June 16, 1917. His honor holds that Charles Mitchell, who was deceased, was not in loco parentis to his son, Charles Mitchell, who had a specified amount of board money. Mrs. Mitchell, wife of the deceased, was the beneficiary under a life insurance policy and his will, but neither she nor her husband were dependent on him.

APPEAL ALLOWED IN HYDRO ELECTRIC ACTION

The appellate division has allowed the appeal of J. J. Albright of Buffalo, from the decision of Justice O'Brien in favor of the Ontario Hydro Electric Commission. Justice O'Brien held that under the Ontario Power Act, most of the stock of which was held by Albright, he had to make certain payments from time to time, according to the power developed for the creation of a sinking fund to meet certain debentures. The amount involved was \$100,000. As a result of the appellate division's decision the action is dismissed and the commission will have to pay all costs.

NEW TORONTO PASTOR.

Rev. Arthur Hall will assume the pastoral care of the Baptist Church, this city, next month. He has been four years pastor of Memorial Church, Stratford, in which time the membership has been doubled. He has also been president of the Stratford Ministerial Association. One son is a medical student at the University of Toronto; the other is at McMaster University.

CHRISTMAS IN ALGONQUIN PARK

There is an increasing desire among many city people to escape, during the Christmas and New Year holidays, from the cares of housekeeping and of life in the large centers and seek the hospitality and good cheer to be found at the resort hotels. The Grand Trunk Hotel system is enjoying the desire in keeping open its Grand Hotel in the Algonquin Park of Ontario, the Highland Inn. This hotel is easily accessible from Ottawa, Toronto, and offers warm, cheery public and private rooms, excellent cuisine and the companionship of guests who find a common aim to enjoy the healthful winter sports and invigorating climate that the great unspoiled wilderness of Algonquin Park affords. For rates, etc., apply to any Grand Trunk Railway agent or write to Mr. N. T. Clarke manager, Highland Inn, Algonquin Park Station, Ont.

WOMEN PROVIDING SOLDIERS COMFORTS

Over Three Thousand Boxes of Christmas Cheer Are Being Sent Out.

Only those who have visited the quarters of Soldiers' Comforts at 287 West Queen street can visualize the amount of labor involved in packing and sending out over 3,000 boxes of Christmas cheer for the men in the military hospitals and other institutions. During the past three weeks, Mrs. Arthur VanKoughnet and her assistants—all voluntary workers—have been busy on the labor of love, sometimes as many as 20 taking part in the day's work. The boxes in themselves carry the Christmas suggestions, being covered with holly paper, and they contain real Christmas cake, nuts, candies, cigars, socks and other articles that are sure to be acceptable. Decoration is part of the outfit. Great cedar wreaths, hoops of brilliant scarlet, Christmas trees, dainty vases and balls all the handiwork of the women, some of whom were working four years ago for the men overseas and have never since wavered in their services.

Soldiers' Comforts have records of every hospital and every institution in the nine provinces where soldiers are, and any not otherwise provided for will be remembered by the Toronto headquarters. Toronto will be especially represented at the Club for Amputated Cases, 7 College street, on Wednesday evening, when 41 gifts will be distributed. The quarters will be decorated, and the mayor and a chaplain of the I.O.D.E. will assist. Soldiers' Comforts in the distribution and entertainment. Decorations for Christmas trees have been sent to Isabella, Rodan and Dovecourt institutions, together with 200 gifts, which will be distributed to soldiers' widows as a tribute of remembrance from Soldiers' Comforts. Dinners will form part of the Christmas cheer and any who might be overlooked will be seen to by the latest Mrs. VanKoughnet and her earnest staff of assistants.

EDUCATION BLOCK HAS BIG SUPPORT

Three Committees Will Confer on Division of Site Agreed Upon.

Three committees will confer at the administration building of the board of education this afternoon on the division of the site for the \$2,000,000 educational block between Donlands and Greenwood avenues. The project has been discussed by representatives from the Toronto Board of Trade, Toronto Trades Council, and the unanimous support of the board of education trustees on the industrial and commercial education advisory committee.

The extensive site at present is only occupied by the Wilkinson public school which fronts on Donlands avenue.

Edmund Gunn, chairman of the advisory committee on commercial education, said that the representatives of the Toronto Board of Trade, is taking the leading part in promoting the proposition. Mr. Gunn's reasons for securing a portion of the big site is that a branch high school of commerce is needed for the eastern district, and that the new location is ideal.

The proposal includes the opening of a new street south of the site, from Greenwood to Donlands avenue, a short distance north of Danforth avenue.

The joint sub-committees will divide up the site to provide for the erection of the branch technical industrial high school, and high school of commerce so as to leave space for the expected training institute to be erected by the Ontario government for technical industrial education instructors.

Work on the branch technical industrial education high school is expected to start as early as possible in the spring. W. W. Peares, business administrator of the board of education, is having the detailed plans prepared for the letting of contracts as early as possible.

KILLING OF PRIEST CAUSED BY DRINK

Cadet Was Absolutely Mad at the Time, Says One of Policemen Witnesses.

Cork, Dec. 20.—It was brought by an auxiliary policeman at the military court, which is holding an enquiry into the shooting of Canon Magner and Timothy Crowley at Dunmanway, that Cadet Harte, who fired the shots, had been drinking steadily and that he was "absolutely mad" as the time.

The auxiliary policeman who was in the car of which Harte was in charge, said Harte had stopped the car, got out, walked two hundred yards and addressed the civilian and searched his pockets. The cadet, according to the policeman, then assaulted the civilian, who later proved to be Timothy Crowley's farmer's son, while presenting a revolver. He fired and the man fell.

Harte next went to the priest, meanwhile two other cadets stepped out of the car, but were waved away by Harte, who is declared to have snatched the priest's hat from his head, and, throwing it on the ground, made him kneel. He fired twice, killing the clergyman. Afterwards he went thru Canon Magner's pockets and scattered the contents on the road. Harte finally was prevailed upon by the district inspector to re-enter the car.

Other auxiliaries who were in the party led by Cadet Harte, testified to this testimony. The result of the enquiry is to be announced later.

The military enquiry into the Cork case and looting opened at the military barracks Saturday. It was strictly private, witnesses being admitted only one by one.

Maurice Healey had been instructed by the chamber of commerce and the employers' federation to represent them at the enquiry, but was informed that no lawyers would be admitted. In consequence, these two bodies have declined to give assistance to the court.

BARRING CANADIAN WHEAT A DOUBTFUL EXPEDIENT

Washington, Dec. 20.—The president of the United States is without power under existing law to prohibit wheat imports, but he apparently has certain powers under the Lever act to stop future trading in wheat, the federal trade commission says in a special report to President Wilson, made public today at the White House. The commission says it is questionable whether the barring of Canadian wheat "would have the effect its advocates expect," and while making no recommendations one way or the other, it believes this move would be inadvisable.

The commission says that "while evidence is not available that future trading is responsible for the decline in wheat prices, it does not appear that future trading in wheat as at present operating is of indispensible service to the grain trade."

However, that if regulatory action is to be employed, the question be considered by congress and that legislation "not connected with war powers be enacted."

CHINESE CUSTOMS RAISED FOR RELIEF OF FAMINE

Peking, Dec. 20.—The Chinese foreign office has notified the foreign legations that a ten per cent. increase in the customs duties, to be applied to foreign relief in the districts where millions of Chinese are hunger sufferers, will become effective January 16. The proceeds, it was stated, would be dispersed by the Chinese government, attached to the ministry of the interior.

The principal powers are reported to be in favor of the proposal. The plea, although Great Britain and France were said to have made it a condition of their approval that there be adequate supervision over the disbursement of the funds.

STILL AWAIT WORD OF MISSING BALLOON

Likely to Have Dropped in Some Inaccessible Place in Northern Quebec.

Ottawa, Dec. 20.—(By Canadian Press).—No information has yet been received by the department of the naval service in regard to the balloon which escaped from its moorings at Long Island, nearly a week ago, and has not been located since. The department was requested by the Washington authorities to keep a watch for the balloon, which is supposed to have one or more men aboard. News that no word has been received from any individual who saw the balloon is thought by some to indicate that she passed over inhabited sections at night. No further communication has been received from Washington in regard to it.

PONZI TURNS LYRICIST IN SECLUSION OF JAIL

Boston, Dec. 20.—Chas. Ponzi, whose slogan last summer of "50 per cent. profit in 45 days," won him the confidence of thousands of investors and ultimately a five-year prison sentence in the jail at Plymouth, has written words for a song. In a letter from the jail received today by a Boston newspaperman, Ponzi asked for information as to the necessary copyright procedure. The title of the lyric was not mentioned, but Ponzi announced that the lines had been composed for the tune of "Casey Jones."

SHOWER OF PRAISE FALLS ON OTTAWA Merchants in High Feather Over Removal of Obnoxious Luxury Tax.

Ottawa, Dec. 20.—(By Canadian Press).—Telegrams are being received from many parts of Canada this morning congratulating the government on its decision to abolish the luxury tax, except on certain articles. The order abolishing the tax came as a surprise, but apparently it was a welcome surprise for buyers and sellers alike.

Since the taxes came into effect there has scarcely been a day on which one or more messages of criticism and complaint had not been received by some member of the cabinet.

Luxury tax stamps which are in the possession of merchants will be redeemed by the department of customs and inland revenue, Hon. R. W. Wilmot, minister at the head of that department, stated. The license fee of two dollars, which was charged all merchants, when the luxury tax regulation became effective, will not be rebated.

The dropping of the luxury tax will mean a reduction in the staff which had been engaged for the purpose of checking these collections. While in most cases transfers were made from one branch of the department to another, in order to handle the luxury tax collections as economically as possible, there were of necessity some new appointments of temporary employees for this work. These will all be dispensed with, except for the number actually necessary to look after the collection of the sections which remain.

Brought in Nearly \$50,000,000. The taxes in question, since they became effective, brought in nearly \$50,000,000 in revenue. Wines and other spirituous and fermented liquors brought a total of \$14,822,110; confectionery, \$76,427; chewing gum, \$33,512. These articles are still taxable. Matches, \$1,977,023. For the period, April-November, 1920, revenue on domestic articles was: Sales tax, \$77,248,918; manufacturers' tax, \$14,828,050; stamps, \$5,106,024. From imports: Sales tax, \$6,515,886; excise, \$4,801,822.

The tax on playing cards, still effective, brought in a revenue of \$142,420.

In the manufacturers' tax, which is abolished, the chief item of revenue for the period was only five millions, but how would they deal with England with its population of thirty-six millions? Were they to divide England into provinces, or have a separate parliament for England? If they had a separate parliament for England it would be so important that it would be only less important than the imperial parliament. The argument for federalism was so clear that he did not see why anybody would resist it, the premier added. But when they came to deal with the practical difficulties, there was a great deal of propaganda to be done in securing some sort of an agreement, even among the advocates of federalism.

POPE ORDAINS NEPHEW OF CARDINAL RAMPOLLA

Rome, Dec. 20.—Pope Benedict yesterday gave another proof of his unflinching gratitude to the memory of the late Cardinal Rampolla, under whom he worked for many years, by personally conferring holy orders upon Mariano Rampolla, a nephew of the cardinal. This ceremony is seldom performed by a Pontiff, and the action of the Pope shows his peculiar interest in the young priest. Many guests were present when the rite was performed.

C., Dec. 20.—Premier John Oliver has been informed by Premier Meighen that the federal government is hearing in mind the claim advanced two years ago at the Ottawa conference on behalf of British Columbia for the return to the province of the land within the railway belt and the Peace River block.

The telegram in part said: "We understand that millions of dollars collected for Ireland during the bond sale are deposited in American banks in your name and remain in your personal control. We believe the suffering people of Ireland are entitled to the use of these funds at once. Therefore, at a regular meeting of the state council it was voted to respectfully urge you to send all available funds to Ireland. As a large part of the fund in your possession was subscribed in Massachusetts, thru the instrumentality of the Friends of Irish Freedom, we know that we speak the sentiment of the Irish people of this state when we urge you to act on this suggestion at the earliest possible moment."

The message was signed by Daniel Moran, president of the council. "We desire Irish independence as sincerely as you," the message said. "When you come with an army able to fight the enemy and defend the weak and unprotected, I will act as chaplain. It is scandalous for you to defend touch-and-run ambushes that do no political good, and expose the lives of the defenceless and unprotected to such dangers as murder in reprisals, and the homes of the city and country to reprobate destruction. The ruin of Cork is the result of your policy."

TO OUR CUSTOMERS:

We regret that owing to the policy of the Chevrolet Motor Company in dividing the city of Toronto into a number of independent dealers, we find it impossible to make a sufficient profit to protect the investment we made as their distributors, and have had to cancel our contract.

This investment was made a little over a year ago to show our faith in the Chevrolet product, keep pace with its growth in Toronto under the stimulus of our efforts and show our customer friends our appreciation of their support by anticipating our profits for some years to come in the erection of up-to-date premises to take care of their interests.

We will still continue to take care of repairs both on Chevrolet and other makes of cars, and cordially invite the public to inspect our service plant and equipment.

SHIPYARD WAGES STILL IN DISPUTE

Request Conference With Premier, Minister of Labor and Members.

Yesterday failed to bring forth any solution of the labor difficulties at the Dominion shipbuilding yards. A meeting for a review of the local Shipbuilders' Union held during the afternoon resulted only in a decision that a deputation from the union wait on the board of control at 10:30 this morning and request that a wire be despatched requesting a local conference of Premier Meighen, senator Gleason, Robertson, C. Allan, Lyne, and local parliamentary members. The firm stand of both parties to the dispute, which has been responsible for the delay, was reiterated during the day. President Smith of the Collingwood Shipbuilding Company declared that the concern's offer of 70 cents per hour was final. Business Agent Herb, Wright of the Shipbuilders' Union voiced with equal assurance the men's refusal to work for less than the present rate of 80 cents per hour which formerly prevailed. Operations at the yard, which have been progressing in the only most limited way, were asked to be still further restricted yesterday by the failure of several Collingwood employees to return to work. VARSAITY TO PROTECT OWN TEAMS FIRST

WHO'S WHO IN HOCKEY

No Permits for Outside Unless Players Turn Out for Practice.

The authorities in charge of hockey at the University of Toronto have the right idea. They want every player of senior calibre to get a chance to play in his own series, but at the same time they must protect Varsity teams.

Naturally if a player refuses to turn out and offer his services first to U. of T. he will not be given permission to play outside Varsity hockey.

FIRST ROUND FOR THE ENGLISH CUP

Cup-Holders Meet Bristol City at Birmingham - Northern Clubs Have Advantage.

The draw for the first round of the English cup was made yesterday afternoon at the Football Association offices in London, where some queer matches are out of the hat, and it must be admitted that the south of England fared rather badly, seeing that most of the teams have either journeyed to the north, where they are pitted against the best teams in England, or they are drawn together. Very few are playing on their own grounds, and this principle applies to both Bristol City and Birmingham.

PLAYERS WILL FIGHT TO STAY IN BASEBALL

One of the Indicted White Sox is Confident They Will Get Back in Game.

Chicago, Dec. 20. - Claude Williams, one of the eight White Sox players under indictment by the Cook County grand jury, today announced that he plans a fight to get back into the game.

SELECT CARPENTIER TO DEFEAT DEMPESEY

Having no proof that Dempsey didn't box on the level until the time arrived to end the bout decisively, it is the opinion of the champion never met a fighter of Brennan's equal. He built up his reputation by whipping heavyweights of no quality, and won the title from a false alarm.

DAVIS CUP TENNIS GAMES NEXT WEEK

Americans Make Themselves Favorites, While Australians Are Confident.

New York, Dec. 20.—On the turf course at Auckland, New Zealand, next week America and Australia are to meet in a Davis Cup tournament for the seventh time on Australian soil.

Perhaps the most noteworthy feature in the unemployment situation yesterday was the refusal of both ex-service men and civilians to work at the yards refused to offer the men more than 75 cents an hour.

On debating the question again, Mr. Hiltz argued that the addition of 150 men in one year was ample.

On the question of the second time was lost on a tie vote, Chairman Whetter voting against it.

On the question of the third attempt to get thru his recommendation for a 250 addition by presenting his motion when the adoption of board's report was before council.

On the question of the fourth attempt to get thru his recommendation for a 250 addition by presenting his motion when the adoption of board's report was before council.

In the eastern section, the reeve instructed Deputy Reeves Robert Barker and John A. Macdonald to start up all possible work, and a lumber were taken on for road mending, leveling, fixing culverts, etc., under the supervision of Road Foreman David Althouse and Henry Taylor.

Perhaps the most noteworthy feature in the unemployment situation yesterday was the refusal of both ex-service men and civilians to work at the yards refused to offer the men more than 75 cents an hour.

CATTLE TRADE WAS GOOD QUARTER UP

Lambs Had Bad Setback, and Hogs Unsettled.

Business at the Union Yards for cattle yesterday was good and active for practically all classes of butchering beef and a good size higher prices on this class of cattle. The run was light, hardly enough coming on the yards to make a good trade, but what there was sold well.

The Lamb Trade. The lamb trade, with a fair run of around 2,500 sheep and lambs, started out steadily on the lambs, a few of them selling at the market, soon weakened off at selling down to \$1.50 before it reached bottom and closing weak. Whatever the cause the bottom seemed to fall out of the lamb market. Bad reports from Chicago and Buffalo, and apprehension as to what the threatened embargo may do to all having its effect. Sheep are low and weak, from \$5 to \$4 per cwt. being asked for good quality sheep. Surely this is a chance for some enterprising farmer to get in and buy up these good ewes for breeding purposes.

The Hog Trade. Quotations were steady on yesterday's market, but the hog market may do as the course of the market for the week. The buyers for the big plants are not sending out any price yet, and yesterday 1200 The World they would not say what they could or would do. One thing is for sure, and that was with live hogs, they could not stay in business long if it were not for the hog market.

WHEAT DEPRESSED BY BANK FAILURE

Export Buying Falls Off, But Prices Have Good Rally Toward Close.

Chicago, Dec. 20.—Announcement of a bank failure in London has depressed export today on the wheat market, but sellers over-reached themselves and a rally took place in the last half hour. Prices closed firm 1-2c to 1-4c net higher, with March \$1.64 1-4 to \$1.64 1-2 net. May, \$1.53 to \$1.53 1-4. Corn gained 3-4c to 1-4c and oats 1-4c to 7-8c. In revisions the outcome varied from 13c decline to 20c advance.

Mixing of wheat by the British bank failures has been the great part of the day's market, showed less power to recover from the depression than has been the rule of late. A comparative lull in export buying was of some weight, also, but developments in Washington in regard to relief legislation for farmers were carefully noted, together with the fact that the wheat supply total, and were helpful in lifting prices at the finish when shorts had to bid up prices sharply in order to close.

Corn displayed independent strength as a result of a report that the purchase of an elevator in the West, and owing to export inquiries at the seaboard. Oats were steady, with a slight decline. Provisions averaged lower in sympathy with hogs.

WALL STREET NOT ABLE TO SHAKE OFF GLOOM

Houston Oil, With Break of Eleven Points, Is Weakest Feature, International Paper Being Also Under Pronounced Pressure—Trade Adverses Depressing.

New York, Dec. 20.—Entering upon the last fortnight of the year, the stock market today presented no material change of tone from the very unsettled and reactionary trend of the past few months.

The general tenor of advices over the week-end seemed in no wise conducive to a resumption of operations for a long account. Cables from London told of the suspension of Farrows Bank and foreign exchange was unsteady, especially to central European points.

Domestic, industrial and commercial conditions continued to be clouded by further falling off of tonnage at leading railway terminals, dividend suspensions and more cutting of wage schedules in the textile trade.

Prices were lower in a majority of instances at the active opening of the stock market, reactions making irregular progress before noon.

PAPERS STILL DROPPING ON CANADIAN MARKET

General weakness in the New York stock market and the rumored failure of an English bank gave the Canadian exchange a timorous opening yesterday.

The long decline has worn heavily on trade, especially those with speculative holdings, and yesterday added another shock to the already badly shattered confidence.

The paper issues felt the current of liquidation more than the others, but as the decline in these speculative issues was delayed it caused no surprise.

When the injected water into the capitalization of these issues is expected the declines already made are not at all momentous.

The speculative shares held close to the low prices all day and the only attempt of a rally came in afternoon, which, however, was not all held.

The moderate amount of selling was an aid to steadiness as existed and any buying of offerings with the limited buying power now in sight would further demoralize the market.

Bonds and other investment issues held their own. The war bonds are showing distinct signs of a slackened liquidation, and also the fluctuations are erratic the maximum changes are accomplished on purchases of \$50 or \$100.

A small recovery was made in the 1921 war bonds with sales at 91. Further improvement only seems to be assured in this section of the market.

MINES UNCHANGED AND VERY DULL

There was no change in the technical position of the local mining market yesterday. The same class of business prevailed and there was nothing to incite sales specially or to encourage buying.

Outside exchanges ceased to be a factor on the mining market and something really drastic will have to develop to promote any further liquidation. There is undoubtedly a small amount of investment buying, which is immediately reflected as was the case with McKinley.

Dividends were announced on Dome and Lake Shore yesterday and both issues were firm. In the other gold stock market was dull and without sufficient business to suggest a change in prices.

The silver was unusually dull and McKinley was the only issue to show any new strength.

There was no special feature in the day, but Ajax was stronger at 23.

AMES-HOLDEN DROPS TO TEN IN MONTREAL

Montreal, Dec. 20.—The slight improvement shown in the local stock market Saturday was a little accentuated today, there being more net gains at the close of trading. Silver was shown on Saturday, and in fact net losses only exceeded net gains by three. No particular definite movement was in evidence, stocks of the same group, as well as of different groups.

Windsor, Erie and Lake Shore were the weaker. Of these, Spanish preferred gained a point at 80, but was offered at the close at 77 1/2, with 87 bid. The common gained a fraction; Riorion moved up 2 points and Abitibi a fraction. Weymack lost 1-2 points. Laurier 2-4.

Ames-Holden, a weaker feature last week, rallied 2-4 points to 27 1/2, making a maximum advance of 41 earlier in the trading. Silver preferred held steady.

Ames-Holden, not traded in since the first of August last, when the last sale was made at 50, sold today at 20. Bonds were less active than usual and the trend, while still irregular, showed a slight improvement.

Total sales: Listed, 14,824; bonds, \$170,150.

Two Gold Dividends. Lake Shore directors have declared a dividend of two per cent. payable January 20 to shareholders of record December 31.

Dome directors have also declared a dividend of 5 cents a share, payable on January 20 to shareholders of record December 31.

These dividends will be paid in American funds.

CURTAIN RINGS DOWN ON CITY COUNCIL FOR 1920

Reports Justify Increase of Gas Company's Rates — Township Appeal for Sewer Connections Fails Again — Authorize Expenditure on Civic Works to Provide Employment.

The city council of 1920 held its final business session yesterday and put through its final business. They will meet after the election merely for the post-mortem, before the new council takes charge. There will be four new faces among the aldermen after the election, as two are running for the board of control and two are dropping out.

Council yesterday authorized an addition of 150 men to the police force, and called for an investigation of the Ingenook farm situation. The grant of \$50,000 for relief was approved, as well as the grant of \$150,000 to the sanitarium for consumptives at Gravenhurst.

Report on Gas Rate.
Ald. Burgess, who has been on the trail of the Consumers' Gas Company, again failed to get through a motion calling for a report on the operations of the company by an expert, with particular reference to its facilities for economic production and for the profitable manufacture of by-products.

The report of the finance commissioner and the city auditor, justifying the increase of rates which the company is demanding, had been laid on the table, but the aldermen were not made aware of its presence. The report was substantially the same as previous reports on the gas company by city officials. The report endorsed the contention of the company that it should have an opportunity to rebuild its reserve fund, mentioned in the report of the finance commissioner, as a reason for the rate increase, and declared that the five per cent. deduction from profits for the renewal fund was not sufficient for maintenance.

The board of control was criticized by aldermen for authorizing an audit by an independent accountant some time ago without consulting council. Ald. Blackburn said he would refuse in future to be a rubber stamp for the board of control. He referred to the appointment of Henry Barber to make an audit at a cost of from \$1,500 to \$2,000. Mr. Barber is now preparing his report.

Ald. Burgess' motion to put an expert gas man on the job was lost on a vote of 10 to 10. For Burgess, Messrs. Cowan, Hiltz, Risk, Winnett, Rydman, Hamilton, Phinimore, Baker and Flewman; against—Mayor, Controllers Maguire, Cameron, Gibbons, Ald. Blackburn, Singer, Beamish, Maxwell, Birdsall and Whetter.

Charges Against Officials.
John Berry, who has launched a suit against the city for \$250,000 for an alleged infringement of his patent on a water-purifying process, appeared before council and asked for a hearing. He said, he said, to make a charge against certain city officials.

Controller Cameron said he was never in favor of hushing up charges, but he thought it was only fair that before making his charge openly, Mr. Berry should first lay a copy of his statement on the table. Council went then have something in writing.

Mr. Berry then went out and came back later with a sworn declaration, but announced that he would make his statement before the board of control instead of before council. He then departed for the minutes of council. In all, 1228 men enlisted, from the following departments: Police, 152; fire department, 42; parks department, 59; property department, 21; street cleaning department, 205; department of public health, 112; works department, 57; city architect's department, 1; assessment department, 17; legal department, 5; treasury department, 28, and city clerk's department, 6.

On motion of Controller Maguire, and also at the request of railwaymen, council decided to hold the poll for railwaymen this year in Ward 7. It was shown that all but one of the votes cast last

Appeal From Township.
An appeal was made to council by J. H. Spence, solicitor for York Township, and the township engineer, J. H. Roberts, for the right to connect up about twenty township sewers with the city sewer system. The township had been constructed, but the fact that the construction would proceed at once, and give employment to the men, was the basis of the main appeal.

About a month ago the works commissioner selected the township engineer to recommend to the commissioner, who claimed that the city sewers were already in excess of capacity. It was the same time adopted a resolution that no further sewage be accepted from the township. Council took the action, and the \$200 granted recently to His Majesty's Arms and Navy Veterans of Canada, was rejected, and an extra \$200 was voted to the veterans of Canada.

The recommendation that the transportation commission be empowered to expend \$100,000 on the construction of a road in Ward 7, was referred back.

Ald. Singer said the traffic commission had authorized the construction of a road in Ward 7, which he thought was in the report by mistake. The intention had been to refer the recommendation to the board of control.

The board's recommendation that the permit issued for the establishment of a "dry-cleaning plant in the rear of the Smith street, be canceled, was referred back.

Recommendations Adopted.

HANDLING CHRISTMAS PARCELS AT NEW DEPOT

The postal services department in the Union Station is being rapidly fitted up to facilitate the transfer of Station "A" at the corner of Bay and Front streets as soon as possible. The different departments will not be moved in blocks but according as the accommodation is available. Christmas parcels are being handled in the new wing, but no letters.

Postal officials plan the absorption of station "B" in station "A" as soon as it is totally transferred, station "B" having been moved largely into the northeast corner of the new wing. The Christmas mail this year will be quite as heavy as last year, officials believe, although sales do not warrant it, and in order to take care of the heavy mail about 200 temporary employees have been taken on at 40 cents per hour. As there is no time limit, the employees this year should receive a more substantial wage than heretofore.

Mayor Has Lone Opponent—Eight Out for Board of Control.

The candidates for civic and board of education honors will start in the big race today when the nominations take place. Heretofore, nominations have been held on December 23, but legislation was passed at the last session giving the city power to pass a by-law fixing the date earlier. Particularly suitable as a film for the week before Xmas is "Little Miss Rebellion," starring Dorothy Gish, which is appearing at the Strand this week. Her versatility will appeal to Strand patrons and the film is a certain cure for the blues. It is a screamingly funny, and the end, as in all first-class films, is totally unimpaired. As a duress under restraint, Dorothy romps thru scene after scene to the utter consternation and embarrassment of her funkeys and ladies-in-waiting. She scores a home run in a baseball game and has nerve enough to ride a donkey much against its will. Her revolution causes radical change in the life of this little Grand Duchess of Bulgaria, and she escapes to New York with her crown. The film is in the end, but gaining something in popularity, and is a most precious. "Little Miss Rebellion" will appeal to all people who are still young at heart and eager to forget the monotony of every-day life.
