Both Island Light House.—We have been informed that the loss of the schooner Retriever, lately wrecked near Bear Island, may, in a great measure, be attributed to the improper site that has been selected for the Light House on that Island. Instead of being placed upon the highest point, where it could be seen by Mariners approaching it from any quarter, it is, we understand, placed in such a situation as to be of service only to vessels coming in or going out of the Bay of Fundy...

WOOD AND COALS. 30 CORDS HARD WOOD; and 30 CORDS Green and Loke COALS; for sale cheap for Cash, by WILLIAM MUMFORD, 17th January.

Three o'clock.—The Report of Saturday's Debate has just come to hand.—The lateness of the hour, and the length of the Report, (12 pages) prevent us from making any use of it today. The House was in Committee on His Excellency's Speech, and appear to have been chiefly engaged on the subjects of Agriculture and Roads.—Messrs. S. Hamblin, Simonds, Partelow, the Speaker, Canard, Kincaid, Chandler, and Slavin, took part in the discussion.

BARBADOS.—On Saturday last we were exceedingly engaged in describing the most excellent regulations. King had taken in the distressed situation of his faithful subjects in this Island, and in encouraging our countrymen to hope for some important aid from His Majesty's government. To day we have another most delightful employment in bringing before our readers a report of the deep feeling of commiseration expressed for the suffering people of this Island by persons filling the most distinguished and exalted situations in the mother country; and this feeling exemplified in an immediate and substantial aid of benevolence for our fellow-creatures. The communication to the Secretary of the Society for Promoting Christian Knowledge, which has been most kindly laboured in, and for which we beg leave to express our best acknowledgments,—will excite a feeling in the hearts of all our readers, especially those who long to see the houses of God, the residences of his Ministers, and the buildings for the education and support of the poor, shall be restored from the ruins in which they now lie. Besides the munificent donation from the Christian Knowledge Society (£2000) we are authorized to state for the satisfaction of the public, that £2000 more has been received from the Society for the conversion of the Negroes' besides a public contribution at the head of which is the Archbishop of Canterbury, £100; the Bishop of London, £100; Lord Godolphin, £100; Lord Vernon, £100; Lord Mansfield, £100; Lord Brougham, £100; Lord St. Leonards, £100; Lord G.
