GAYNOR CHEERY; CASE IS HOPEFUL

Barring Complications All Looks Favorable

BULLET THERE YET

X Rays Show it Has Been Split in Two—Police Close Street in Which Hospital is Situated—Gallagher Regards Himself as Hero

New York, Aug. 10.—The following bulletin on the condition of Mayor William J. Gaynor, who was shot and dangerously wounded yesterday by James J. Gallagher in the steamship Kaiser Der Gross, was issued at 7.30 o'clock this morning:

"The mayor has rested comfortably since 5 o'clock. He has taken nourishment and at the present time his condition, in the opinion of the attending physicians, is satisfactory."

(Sgd.) ERNEST J. LEDERLE.

An encouraging symptom displayed by the stricken executive was the development of a pronounced appetite. The nourishment mentioned in the official bulletin was chicken broth which the mayor took about 7.15 o'clock. The mayor's secretary, Robert Adamson, who was with his chief at the time, said that the mayor related greatly the limited quantity of the broth which the doctors allowed him, saying that it tasted fine.

"In going to have more of that later because I am hungry," the mayor confidently told his secretary. The patient had some difficulty in swallowing the broth, owing to soreness of the muscles of deglutition, near the point where the bullet entered, but this seemed to interfere little with his enjoyment of the food.

While the mayor's condition is admitted to be still very serious and the physicians would not commit themselves on any statement as to the outcome, Secretary Adamson, who was one of those who remained with the mayor all night, said that he considered the outlook very hopeful. Mr. Adamson, however, was careful not to impress the possibilities of danger from infection of the wound, which will remain until the bullet is removed. There was also danger, it was indicated by those who had watched the case closely, that the shot from Gallagher's revolver had passed so close to an artery that hemorrhage might be brought on from an attenuated arterial wall.

Bullet Split in Two

The passage of time lessens the probability of this, however. Mayor Gaynor has not been afflicted with any hemorrhage since yesterday noon after he was first brought to the hospital.

One of the first announcements made by the physicians today was that there would be a consultation of all the medical men in attendance upon the mayor at 10.30 o'clock this forenoon, when it would be decided whether or not an operation to remove the bullet should be attempted in the immediate future. The X-Ray examination last night showed that the bullet had been split soon after it entered the head just below the right ear, one section apparently lying in the floor of the mouth near the left wing of the jaw bone, while the other remains near the entrance point of the wound, behind the ear.

The mayor's physicians showed by their course through the night that they considered him in no immediate danger. Those who spent the night near the mayor's bedside were Mrs. Gaynor and her son, Ernie; Dr. Ernst J. Lederle; Dr. W. J. Arlitz; Dr. Charles N. Dowd; and Secretary Adamson.

The mayor's condition seemed to the physicians so satisfactory that Dr. Dowd wired early in the evening to a newspaper room, while Doctors Arlitz and Lederle, after sitting up with Secretary Adamson until after midnight, also took occasion to get some rest, leaving the patient in the immediate care of the nurses. The physicians remained all through the latter part of the night within call, but there was no emergency which demanded their ministrations.

"Feeling Fine"

The mayor slept intermittently and when questioned as to his feelings declared that he was "feeling fine."

The mayor's sufferings thus far have been light. He has not been unconscious at any time, and is allowed to talk all he cares to. He is not likely to overdo his privileges in this respect, however, for according to the attendants, he realizes that he may have to put up a good fight for recovery and is content to husband his resources.

In a talk with Dr. Arlitz this morning after a sound sleep of about four hours, the mayor spoke of the many pleasant outings he had had in the Maine and Quebec woods, and said that his unexpected decision to go to Europe rather than to his old hunting grounds in the north this year had led to this trouble.

"I had anticipated much pleasure from this vacation," said the mayor. "I've only tried to do my duty. This strife and responsibility were forced upon me and that is what has come of it."

IRISH FISHERIES TURN OUT POORLY

Disappointing Reports Are Received—Best News from South and East

Cork, Aug. 10.—Irish fishermen are having a bad year. That is clear from the reports from fishery centers. The past quarter's fishing in the Derry district was disappointing, especially as regards the herring fisheries. Salmon fishing on the Foyle and Shannon was also far from encouraging. As regards the herring fishing, it was badly off. The season was not so successful as last year, and dealing with a complete failure for the last three months, many of the herring boats, in fact, give up completely after the first fortnight.

From Galway district the first reports were unfavorable, but there was some improvement later. The river Shannon salmon fisheries have been by no means so successful as last year, and dealing with the Skibberden district, it is said that the season opened unfavorably but improved during the greater part of May, only to fall again in the following month. The best reports come from the south coast and east districts, where the herring and mackerel seasons have been somewhat over the average in yield and the demand was good.

THE KRUPP COMPANY EMPLOYS 69,000 HANDS

Berlin, Aug. 9.—The Essen Chamber of Commerce in its annual report for 1909, just published, gives some striking statistics illustrating the magnitude of Krupp. On July 1 of this year the Krupp payroll contained 69,000 names, an increase of 4,365 over the year previous.

The great bulk of these "hands" are employed at Essen where guns and armor plate are manufactured, the rest being distributed among the numerous mines and blast furnaces with the firm owns in Germany and abroad and the great "German" warship dockyard at Kiel.

SAYS SHE'S 126

Russian Woman Claims to be Oldest Inhabitant of the Earth

London, Aug. 9.—The claim of Frau Dantkiewicz, of Posen, born Feb. 21, 1785 to be the oldest woman in the world is now, according to the Berlin "Express" correspondent, contradicted by Mme. Baba Vasika. She was born in May, 1784, in the little Bulgarian village of Havlakovo, where she has lived ever since. The record of her birth is preserved in a neighboring monastery of the Orthodox Greek faith.

She is the daughter of a peasant, and has worked herself as a peasant up till a comparatively recent date. For more than 100 years she regularly worked in the fields, according to the custom of her country, where women are employed in all sorts of manual labor.

The events of her life up to the time when she attained the age of eighty are far more distinctly impressed on her mind than the happenings of the last forty years.

Her son, Todor, following the family tradition, has also worked in the fields as a peasant nearly all his life, but he has also taken part in various wars and rebellions in the Balkan Peninsula. He is not quite so fresh and vigorous as his mother, although he is still capable of doing a good day's work, and enjoying such small luxuries of life as a pipe and the strong spirits drunk by the Bulgarian populace.

The oldest woman in the world is said to enjoy fairly good eyesight and good hearing, and she is able to walk without support. She lives on a pension paid to her by many of her descendants who number more than one hundred.

A woman named Margaret Barns, of Milwaukee, about ten miles from Newry, celebrated her 100th birthday recently. She is still able to relate stories of many of the stirring events which occurred during the early part of her life, and can move about the house.

IN TANGLE OVER CLAUSE IN THE WILL

Equity Court Dealing With Matter of Bequest by Catherine Murdoch to Presbyterian Church

The case of R. Keltie Jones, executor of the will of the late Catherine Murdoch, plaintiff, and St. Stephen's church, The Board of Trustees of the Presbyterian Church in Canada, eastern section, and The Natural History Society of New Brunswick, defendants, came before the Hon. Mr. Justice Lacombe for hearing this morning.

The case is brought by the executor for instructions with reference to the construction of one of the charitable clauses in the will which reads as follows: "I give and bequeath the sum of \$1,000 to be paid by my said executor, to the Aged and Infirm Ministers' Fund in connection with St. Stephen's Presbyterian church in the city of St. John."

The Board of Trustees of the Presbyterian church in Canada, eastern section, contend there is no such fund in connection with St. Stephen's church; but that the board control the Aged and Infirm Ministers' Fund in connection with St. Stephen's Presbyterian church in the city of St. John.

There is one other alternative, namely, that neither the board nor St. Stephen's church can take the money under the will, and that therefore the bequest lapses, and becomes part of the residuary estate of the testatrix.

The corporate name of the Natural History Society is The Natural History Society of the Presbyterian Church in Canada; J. Roy Campbell for the trustees of St. Stephen's church.

The morning session was taken up with the reading of the will papers and the executor's application for instructions.

W. A. Doring, K. C., is for the plaintiff; H. D. Forbes, with M. G. Teed, K. C., as counsel for the Presbyterian Church in Canada; J. Roy Campbell for the trustees of St. Stephen's church.

The court adjourned until 2 o'clock this afternoon.

TEACHERS ARE TAKING WELL TO DRILL WORK

Make Excellent Progress in Course in Fredericton—St. John Man Gets York Contract

Fredericton, N. B., Aug. 10.—(Special.)—Edward McInroy, for more than thirty years an employee of Fredericton Boat Company, died at his home here last evening after a brief illness. He is survived by his wife and family.

The school teachers who are taking the military course at the Royal Regiment here are making excellent progress. They were recently examined in squad drill and rifle exercises, and all passed with good marks. They will be examined in company drill, and theoretical work next week, and will complete their course on August 20. They all show interest and the instructors say they adapt themselves to the work much more readily than the average militiaman.

Arthur Betsy, of this city, Rhodes scholar from Acadia, has been appointed to the staff of Wisconsin University.

BRITISH RULER TO HAVE ALDERSHOT RESIDENCE

London, Aug. 10.—King George is spending much time in the inspection of troops and the announcement comes that the king and queen intend to spend part of each summer in the midst of their troops in the permanent military camp at Aldershot; and for this purpose a new royal residence is being built in the camp itself.

Plans of the new building have been prepared and were submitted for his Majesty's inspection and approval during his stay. He has approved of these, and the building of the place will be taken in hand this summer. It is to be two stories high and lighted by electricity from the military electricity station.

Washington, Aug. 10.—Four cents a hundred is the price which has been placed on the heads of flies in the District of Columbia. This is the stimulus by which Washington boys have been aroused by their mothers to abolish the typhoid-breeding house fly.

The boys, it is reported, have started in on their work of slaughter with great glee.

TWO MORE DIPHTHERIA CASES AT CAMPBELLTON BUT TYPE IS MILD

Fire From Stove Pipe Sets Tent Ablaze and Causes Excitement—Permits Necessary Now Before Structures Permanent or Temporary, May be Started—Relief Fund Now \$65,000

Campbellton, N. B., Aug. 10.—(Special.)—Two additional cases of diphtheria developed yesterday and were immediately isolated. Both cases are of a very mild type and the patients are comfortably settled. A case of Newcastle disease broke out last night and is looking into health matters in the interest of the provincial board of health.

Excitement was created yesterday in the tented city when one of the large square tents caught fire from a stove pipe. The fire department quickly put the fire out and saved the contents of the tent.

Notices have been posted forbidding the erection of temporary or permanent buildings without a permit from the building inspector and that official has been busy issuing permits. The total amount of subscriptions received up to this morning is about \$65,000. Many applications have been received for assistance to build, but as yet no definite action has been taken in this matter.

Joe Gans, former light weight champion pugilist, died of consumption yesterday in his hotel in Baltimore. He was brought here last week to die. He was thirty-four years old.

Joe Gans' true name was Gant, the name Gans having been fastened upon him early in his ring career by a mistake of a referee.

He began his ring career in 1894, but prior to that time he had made a name for himself as a fighter about a fish market in this city where he was employed. His first fight for money is said to have brought him only 80¢. The largest purse for which he ever fought was \$3,000, in his last bout with Nelson. Of this Gans received but \$1,000, he having agreed to receive Nelson the remainder, \$20,000, as a referee.

Gans' won the title of light weight champion from Frank Erne, in Fort Erie (Ont.) in one round in 1902, and lost it to "Battling" Nelson in 1908 in the 17th round.

Renewed Effort in England to Have Barriers Lowered—Australia Providing for £7,000,000 Federal Note Issue—Mr. Root Continues Address at the Hague

Times' Special Cable

London, Aug. 10.—The Morning Post, reviewing the history of the ownership of Hudson Bay says that Canada possesses an indisputable and clearly defined claim to the bay and adjoining regions.

The Times' Review in a lengthy article, discusses the anticipated Canadian timber boom and says the prospect of such issues in London are not particularly alluring.

The Leader says that the growth of free trade feeling in western Canada is exceedingly awkward for tariff reformers who have invested large sums in the hope of subsequently fleeing the consumer.

Belmont, Aug. 10.—At the request in connection with the Kelvin Hotel by today, it was stated, that there were no fire appliances to the house and the only exits were the front and back doors. The fire brigade officers said the engines were on the scene within three minutes after the alarm.

Melbourne, Aug. 10.—The government has decided to invite the British Association to meet here in 1913 or 1914.

In the Australian house of representatives yesterday, Premier Fisher moved the second reading of the bill providing for a federal note issue. It provides for maintenance of a gold reserve of 20 per cent for the total issue of £7,000,000.

Cattle Restrictions

The London Northwestern Railway is making special preparations for conveyance of the Queen's Own Rifles to Aldershot. While in London they will be quartered at the Duke of York's schools, Chelsea.

The Canadian Associated Press understands that renewed effort will be made to induce the government to remove the restrictions on Canadian cattle. The chambers of commerce throughout the United Kingdom are being memorialized to support a formal resolution urging this policy. This will be submitted at the autumnal meeting of the association of chambers of commerce.

In the course of an interview regarding the cattle movement here Lord Dunsford said that General Lake, in a recent report to the Canadian government entirely agreed with the views previously expressed by himself. There had been a great change of opinion in Canada lately on the question.

Mr. Root at the Hague

The Hague, Aug. 10.—Continuing his argument in the fisheries case today, Hon. Mr. Root contended the assertion that, after conclusion of the treaty of 1818 the United States, in certain cases, acknowledged her fishery rights were subordinate to British fishery legislation. He maintained that Lord Balfour, in 1915, Lord Almoncy, in 1881, and Lord Salisbury, in 1889, admitted the rights of Americans were unlimited and absolute and in the present case Britain could not uphold the idea that she could draw up any regulations she liked for the fisheries, because she had herself acknowledged such regulations should be reasonable, necessary and equitable.

Britain, he contended, could not be the sole judge of the necessity or equity of the fishery laws. He declared that America by no means based inviolability of her right on an analogy of this right with the "servitude" of the Roman law, but on the rules of interpretation constituted by international law, and applied to the treaty of 1818. The right, he claimed, belonged to this category of rights whereof the essential character was to limit the favor of an independent state or sovereignty on another independent state as regarded the use of its territory. The tribunal could not reject this conception without rejecting at the same time the general opinion concerning international law prevailing throughout the world.

Mr. Root expressed his confidence that the tribunal would decide the laws governing the fisheries should not affect American fishermen without their consent of the United States with the right of appeal, in case of disagreement, to an arbitration tribunal. The way would thus be smoothed for mutual regulation of the fisheries.

CHOLERA SWEEPS PEOPLE AWAY BY THOUSANDS

St. Petersburg, Aug. 10.—Professor Rein, of the medical faculty of the university, who is an authority on infectious diseases, describes the present outbreak of cholera in Russia as an imperial danger. He estimates that the death list for 1910 already numbers 57,000, as compared with Russia as an imperial danger. He estimates that the death list for 1910 already numbers 57,000, as compared with 28,000 in 1909 and 17,000 in 1908.

The danger is intensified, he says, by the fact that the epidemic has spread from the towns to remote rural districts, where it is difficult to combat.

\$400,000,000 IN THE AUTO INDUSTRY

200,000 Employed in Manufacture of Motor Cars GREAT BUSINESS

Motor Factories Pay \$60,000 for Rubber and \$50,000 for Hoop Bands Displaced Half Million Horses

Boston, Aug. 10.—Much has been said and said regarding the magnitude of the automobile industry, but figures prepared by some of the leading automobile authorities really give a much more concrete idea of the extent of this latest industrial development than can any general descriptive terms.

It is estimated that there is today invested in automobile plants about \$400,000,000 and that at least 200,000 men are employed in the manufacture of automobiles and their accessories. The automobile makers are paying \$60,000,000 for rubber and \$50,000,000 for hoop bands annually for freight and consume over 800,000,000 of rubber, steel, and aluminum.

There are in daily use in the United States at present approximately 350,000 automobiles. The 1909 production may be placed at 450,000 cars with an approximate value of \$240,000,000.

Large as these figures are they are estimated by the automobile makers to be only a small part of the total value of the automobile industry. Reliable authorities estimate that there are over 7,000,000 of these vehicles used daily in the United States, while the total number of horses and colts in the country exceeds 21,000,000, besides 3,600,000 mules and American manufactures produce yearly about 1,750,000 vehicles, of which 960,000 are passenger conveyances, with an estimated value of \$110,000,000.

Displaced 500,000 Horses
Automobile makers claim that already the automobile has displaced 500,000 horses and wagons, the average upkeep of which is 65 cents a day, compared with the average upkeep for an automobile of 30 cents a day.

THREE TIE WITH 96 IN SHOOT AT SUSSEX TODAY

Sussex, N. B., Aug. 10.—A tricky fall-tail wind blew at morning and prevented very good scores at the R. A. meet. There were three men in the first place in the Association match, with scores of 96. One St. John man, Sgt. J. F. Archibald, of the 3rd R. C. A., captured fourth place with a score of 95. Capt. Forbes of the 7th regiment and P. Price of Grand Falls both made possible at the 500 yard range. Although there were three ties for first place, one of them, L. P. Clark, gets first money, \$10. The association cup will have to be short for later. The match was not finished at about 1:30.

LANGFORD BEGAN AS A JANITOR

Seventeen Dollars From His First Ring Contest SERIES OF VICTORIES

Five years ago, in Boston, there approached Joe Woodman a slender boy who would do anything in the world for a place to sleep which would accommodate him and his yellow dog. Woodman, ever given to the goodness of the heart, was then running a boxing club, and he gave the stranger permission to sleep in the club with his yellow dog as a bedfellow.

The stranger thanked him and Woodman, but he disliked the idea of a good janitor in appreciation of the night's care, the janitor of the yellow dog who was in the cleaning of the club-house the next morning. He gradually drifted into the grass to Woodman and was the janitor of the club, but he never forgot the yellow dog, which was, by the way, his first recommendation to Woodman.

One night there was a disappointment at the club and the janitor asked the element to participate in the place of the absent boxer. He made his plea to Woodman, but he disliked the idea of a good janitor being in a position to watch the cleaning of the club-house the next morning. He gradually drifted into the grass to Woodman and was the janitor of the club, but he never forgot the yellow dog, which was, by the way, his first recommendation to Woodman.

On the next Monday morning Joe Woodman nearly keeled over when he saw the janitor of his club wearing a gold watch, the first prize in the tourney. Woodman had taken his janitor to a quarter an hour before the tourney and had loaned him fighting tools to wear, thinking he would return the game watch to him, but a slicker janitor.

The janitor stalked himself to the next tourney and he had made his name as a boxer and a fighter. He was the janitor of Woodman's club was not to be found, and when he did appear he was told out in a moment which would have sent Bert Williams' stage front look as against the cat's paw of Rome.

Woodman was more concerned at the climb of his janitor than he was serious in the thought that he would ever go higher in the game, but he had to beat Joe Gas and the rest of the top notchers, Woodman knew he had a wonder and prepared him accordingly. He was the janitor of Jim Flynn, Jim Barry, the "Dixie Kid" and many of the marvels of the ring left before the feet of Joe Woodman.

FUTURE OF CHINA

The future of China, and the relations of that country to the affairs of the rest of the world, is a fascinating subject of speculation. What influence will the 400,000,000 people of that empire have upon world affairs when they have become permeated with western ideas and risen to a high state of development?

EXPERT EVIDENCE

Mayor Frink has received the opinion of an outside engineer to the effect that the foundation of the Main street pavement is all right. The mayor has, however, already declared that he puts no faith whatever in expert evidence. Therefore he will not expect any citizen to accept the statement made by the engineer in question.

MR. ASQUITH ON PREFERENCE

The difficulties that must be overcome in any attempt to work out a practical system of inter-imperial preference were well stated in Mr. Asquith's reply to Mr. Balfour, when the subject was recently before the House. Mr. Lyttleton had said that at the Colonial Conference in 1907 the colonial premiers had asked for reciprocity. Mr. Asquith said in answer—

THE CALL

(By Robert V. Carr.) List, soul of youth, unto the call From where the mighty rivers fall Into a crimson sunset sea; Choose now for are thy company, "Lo," the answer, "We are three, Youth and Hope and Destiny."

The voice of Hope with joy replete, Thrilled thro' the silence low and sweet; Thy call hath stirred me wondrously, My star shall light the way for thee, Thus I answer, "We are three, Youth and Hope and Destiny."

Cried Destiny, "My word I wage, To win an empire's heritage; For Youth, I love the laugh of thee, And prize thy joyous company, Thus I answer, "We are three, Youth and Hope and Destiny."

Youth cried to Hope, "Behold the Dawn! To Destiny, 'Lead on! Lead on! We seek the land where dreams are true, Westward marched the matchless three, Youth and Hope and Destiny." —Man to Man Magazine.

HIS LUCKY DAY Bill Jones had a lucky day last week. His morning mail contained payments on two bad debts. He found a four leaf clover on his front lawn, and came across a stray horseshoe on his way to work. That evening he tasted his first slice of BUTTERNUT BREAD and just before retiring he saw a new moon over his right shoulder. The first day you taste "BUTTERNUT" will be your lucky day. DODD'S KIDNEY PILLS. You should always add a little vinegar to the water in which stockings are rinsed after being washed. The stockings should then be dried, wrong side out. Colored stockings will be unfaded and black ones will retain their original lustre. Instead of putting food into the oven to keep hot for late comers, try covering it closely with a tin and setting it over a saucapan of hot water. This plan will keep the food hot and at the same time prevent it from drying.

COMMERCIAL LEAGUE GAMES

The following is the schedule of the Commercial League games for the balance of the season. The games are played in the evening on the Every Day Club grounds:

Aug. 11—M. B. & Co vs Vassie.
Aug. 15—M. B. & Co vs B. & P.
Aug. 18—B. & P. vs Vassie & Co.
Aug. 22—M. R. A. vs Vassie & Co.
Aug. 25—Vassie & Co vs M. B. & Co.
Aug. 28—B. & P. vs Vassie & Co.

"Unless Sunday baseball is permitted in the New York State League it is extremely doubtful that the league will continue after this season," said President John H. Farrell, following a meeting of the league representatives in Utica, N. Y.

The meeting was called by President Farrell to consider the matter of application against Sunday games in the state and to consider the question of closing the present season earlier than scheduled and cutting salaries.

At the conclusion of the conference President Farrell said that the present season would be played out though some few changes would be made. He said he had a view to cutting down travelling expenses. No Sunday ball will be attempted in New York state, but the season will continue to play Sunday games on the home grounds. Where possible games scheduled for Sunday will be played as one of double-headers on Saturday.

"The league," said President Farrell "is now costing \$24,000 a month. To go on with this season's schedule, which will close September 17, will without the Sunday games, cost the league a loss of at least \$25,000. But the league cannot exist without Sunday baseball and without it no games can be had after the close of the season."

A Legend of Capt. Kidd
According to Arthur Hawkes there is a pile of gold hidden in Nova Scotia. It isn't at the end of the rainbow either. In August Canadian Monthly (formerly known as the "Pit") tells of a rumble "With Captain Kidd in Acrey," and of the treasure the old buccaner hid in the Oak Island Money Pit.

My name was Captain Kidd,
As I sailed, as I sailed,
I had heavy bars of gold,
And dollars manifold,
And riches uncontrolled,
As I sailed.

GOVERNMENT EYE ON MEAT PACKING

Rigid System of Inspection Will Apply to Export Business
(Ottawa Press.)

The Dominion government has adopted new regulations in connection with packing establishments, the slaughter of animals and the packing of meats in them. Previous rules and regulations are superseded.

Provision is made for a general system of governmental inspection, the numbering of factories and a Canada approved stamp. Weekly reports are to be made to the department by the packers to ensure the cleanliness of all establishments, and of those employed about them, and inspectors are to forbid the export of outputs where such rules are not lived up to. People who have any communicable disease are barred from working around such places. Weekly reports are to be made to the department by the packers to ensure the cleanliness of all establishments, and of those employed about them, and inspectors are to forbid the export of outputs where such rules are not lived up to.

A Legend of Capt. Kidd
According to Arthur Hawkes there is a pile of gold hidden in Nova Scotia. It isn't at the end of the rainbow either. In August Canadian Monthly (formerly known as the "Pit") tells of a rumble "With Captain Kidd in Acrey," and of the treasure the old buccaner hid in the Oak Island Money Pit.

My name was Captain Kidd,
As I sailed, as I sailed,
I had heavy bars of gold,
And dollars manifold,
And riches uncontrolled,
As I sailed.

Abel Kiviat, the phenomenal middle distance runner of the Irish-American A. C., who is now at the zenith of his sensational running career, continued on his record-breaking rampage last week when he established a new record for 100 yards at the games held by the County Cavan men at Celtic Park, Andrew Gibson's excellent figure of 2 minutes 11.5 seconds was wiped off the record book by Kiviat's 1:59. The Olympic hero darted over the distance in 1 minute 57.5 seconds, clipping 4 seconds off the former record.

MR. CARLETON MAKES STRONG STATEMENT

Ex-Inspector Convinced There Are Many Weak Spots in Main Street Paving

James L. Carleton, ex-inspector of paving said that, in his opinion, it was necessary in investigating the paving work in Main Street to dig up a block of the concrete. All that they had to do was to remove the granite from a section near the curb. If his charges were not substantiated, he would replace, at his own expense, the block of concrete which was dug up. He would much prefer, however, not to confine himself to any particular spot. What he thought ought to be done was to get some indifferent person to go over the whole work and dig at random and see if there were weak spots here and there where the Hassam foundation would be found perfectly good. The foundation, however, was not stronger than its weakest link, and that there were many such links he was convinced.

Mayor Frink said that last week without authority from the council he had employed an engineer to go over the whole work. He refused to divulge the name of the engineer, but said that his reputation was such that the most critical would be satisfied. He said that in his opinion Mr. Murdoch was quite justified in approving of the work. The only thing with which he found fault was that the broken stone was a little too large for the purpose.

AMUSEMENTS FOR OURSELVES AND OTHERS

STAR.
Tonight and tomorrow at the Star Theatre in North End the late Selig melodrama "The Phoenix," will be shown for the first time in St. John. It is one of the masterpieces of this now famous studio and is expected to stir up a lot of favour.

UNIQUE.
The Unique's patrons find it a pleasure to visit this popular place of amusement these fine summer nights, as it is always nice and cool, having plenty of ventilation, good music, and always a wholesome picture bill.

PERSEVERANCE REWARDED.
Special attention is announced to the programme for today and tomorrow, which includes an imp. rural comedy drama, "The Fallen Idol," an interesting story of a country girl who leaves her home to take up life in a city. The scenery was picked from famous spots in and around New York.

LYRIC.
This evening will be the last opportunity of seeing "The Aerial McGinleys" at the Lyric, as they will leave for Tracy tomorrow. Elevated to the top of the procedure arch on a trapeze, these people perform various sensational feats of strength and daring, assisted by a clever "Prop."

THE TURF.
For the latter part of the week, starting Thursday afternoon, Van Camp, magician and fun maker, with a trained pig and other animals will perform. It is claimed that this attraction has been built for laughing purposes only, and the pig is said to be a bit in itself.

THE GEM.
A lengthy bill containing many interesting and excellent features has been prepared for the Gem theatre, tonight and tomorrow, and those who attend are promised a genuine treat. It would be difficult to find a more pleasing film than that shown in the imp. production, "In the Mesh of the Net," dealing with the old story of "two men and that woman."

She Looked at Men
Despite the fact he locked his wife in their bathroom and kept her a prisoner there on bread and water for twenty-four hours, Mrs. Mary O'Brien, of Chicago, was ready to forgive everything. Judge Newcomer could not see it that way, after he had heard the woman's testimony in the South Chicago Municipal Court, and he fined John O'Brien, the husband, \$100 and costs.

CLEANLINESS IN DENTISTRY

If people knew the frightful risk they run of infection from unclean dentistry they would better realize the awful chances they take and what a mighty important factor cleanliness is.

No one has ever disputed the fact that there are no cleaner offices in Canada than ours. This is worthy of consideration.

LOCAL NEWS

Steamer Benin sailed early this morning for Montreal.

Steamer Pontiac arrived at West Bay from Philadelphia yesterday.

A meeting of the joint committee of the board of trade arranging for a visit of the royal commission on technical education will be held in the board of trade rooms at 3 o'clock tomorrow afternoon. The members are asked to attend.

After having been absent from his home for a period of nine years, G. Bridges, is visiting relatives in this city, in company with his wife and three children. He has prospered, and is now connected with a large piano and organ firm in Toronto.

The Rev. W. R. Robinson has shipped from the Ludlow street Baptist church to the Campbell relief committee the following—Six large packing cases of clothing and bedding, four barrels of clothing, linens and earthenware, and eight bedsteads.

It is expected that no harvesters' excursions will be conducted this year from the maritime provinces, although no definite word has yet been received at the local C. P. R. offices. The belief, it is announced, is that enough laborers can be had from Ontario, Quebec and the western provinces to supply the demand.

MISS NASE AND H. de V. PARTRIDGE MARRIED TODAY

Wedding Ceremony in Pretty Grove at Woodman's Point—Groom Son of Late Dean of Fredericton

Miss Anna Louise Nase, daughter of Mr. I. H. Nase, of this city, was married to Harold deVere Partridge of Rochester (Mass), son of the late Ven. Dean Partridge of Fredericton, this afternoon at 4 o'clock by Rev. W. B. Bellis, rector of Westfield. The ceremony took place in the grove adjoining the residence of the bride's sister, Mrs. A. M. Woodman, at Woodman's Point. The wedding march from Lohengrin was played by Mrs. W. B. Bellis. The bride was given away by her brother, J. H. Nase. The bride was attired in white crepe de Chine, with trimmings of rose, point lace and wore a veil and orange blossoms. She carried a shower bouquet of bride roses. Little Miss Frances Tilton, daughter of Mr. and Mrs. J. F. Tilton, acted as flower girl, and looked very sweet in a gown of pink mull. She carried a bunch of sweet peas.

After the ceremony, a reception was held at the house. Among the guests were: Mrs. Frances Partridge and Miss Charlotte C. Partridge, of Rochester, (N. Y.); Mrs. B. R. Lippincott, of Webster Groves (Mo.); Miss E. S. Tilton, of Boston; H. P. Nase, of New York; Mr. and Mrs. S. A. R. MacDonald; Mrs. C. F. D. Roberts; Miss Edith A. B. Roberts; Douglas H. B. Roberts; Lawrence S. Sherman of Fredericton.

Mr. and Mrs. Partridge left on a canoeing trip on the Upper St. John, after which they will leave for their future home in Rochester, where Mr. Partridge is connected with the editorial staff of The Rochester Herald.

The bride was the recipient of many beautiful gifts. Mrs. Partridge was for several years the leading soprano of St. Stephen's church.

Horgan-McManus.

In the Cathedral of the Immaculate Conception this morning Rev. A. W. Meahan united in marriage Miss Grace McManus and Cornelius Horgan, both of this city. The bride wore a very becoming dress of cream trimmed with baby Irish lace and picture hats to match, and carried white carnations. She was given away by her grandfather, Jas. A. Bowes. Miss Florence Quigley, cousin of the bride, was bridesmaid. Her dress was of Wisteria broadcloth with hat to match, and she carried pink carnations. The groom was supported by his cousin, Wm. Horgan, of Loch Lomond. A dainty breakfast was served at the home of the bride's aunt, Mrs. Quigley, 21 Clarence street. The bride received many handsome presents.

U. E. PLOW TO GET WATER STREET READY FOR THE PAVING

It Does Cut in Under Pull of Street Roller—A Jam of Teams

The work of digging the foundation in Water street for the new pavement is being proceeded with in a manner new to St. John. Instead of putting a crew of men to work with picks, a large steel plow of the pattern used by farmers, is brought into position, being drawn along by the steam roller to which it is attached by a powerful chain. Some half a dozen workmen guide the "digging," and the way it opens up the rocky places is favorably commented on. A number of teams will be put to work tomorrow hauling out the material and it is figured that the street will be ready for laying the foundation almost immediately. When Water street was closed between Princess and Duke streets, about 8 o'clock this morning there was a big jam for a time. The police were busy untangling drays and sending them on the roundabout route by Prince William street. Things were finally straightened out.

A MAN OF MANY WATCHES GETS INTO HANDS OF POLICE

When Henry Phillips, an Englishman, aged 24, dropped into Gilbert's second hand store in Mill street last night, he was not aware that the proprietor had been told to be on the watch for him, and consequently was greatly surprised when Mr. Gilbert called in Policeman Belyea to arrest him. Phillips had several articles of jewelry on his person, among them three gold watches, one silver and two nickel time pieces, one gold ring and two silver ones, besides other articles. He had already pawned in the store a gold watch chain and two rings, identified later as the property of Wm. E. Dean, a boarder in the Lorne hotel, Indiantown, whose trunk was broken into last Friday, and these with \$8 in cash were stolen, amounting in all to about \$30.

A charge of obtaining money on false pretences has also been made against the Englishman, it being charged that a false check was passed upon Chas. S. Goggin of the Metropolitan hotel.

Phillips said this morning that he had been fourteen years in this country, and with his wife had just returned from the west.

NEW CONSUL AWAY TO OHIO TO REST FOR FOUR WEEKS

Mr. Culver Has Not Been Well and He Will Leave Tonight or Tomorrow on Furlough

Henry S. Culver, the new United States consul here, has been granted a month's leave of absence on account of ill health, and will leave this evening or tomorrow morning for Columbus, Ohio, where he will rest at the home of his son. Mr. Culver has been ill for some weeks, and it was with difficulty that he was able to come here to take over the affairs of the office. He expects, however, that with the four weeks' rest he will be himself again. The consul's family, his wife and two daughters and one son, are now on their way across the Atlantic from Ireland. One son remained there in the American consulate office.

FOUR THOUSAND TICKETS OUT FOR FAIR GROUND VIEW

There'll be a Big Gathering on Exhibition Grounds This Afternoon

Judging by the great demand for tickets and the large number issued, there should be a big crowd of people at the exhibition grounds this afternoon to view the work which has been done in the last few months, and the many changes which have been effected in the appearance of the buildings and grounds.

Nearly 4,000 people have been given free tickets for the public reception opening this afternoon at 4, and lasting until 6, and it is thought that a great many more will take advantage of the opportunity and visit the place.

Only another fortnight remains in which the books of five tickets may be bought, as they will be called in in the afternoon they will be on sale on the grounds.

HEAD BOUND UP; BLOW FROM PAVING BLOCK THE CAUSE

Wm. Allan Tells Police Court of Attack Upon Him in Main St.

With the blood-stained bandage around his head, concealing a painful wound, William Allan, an employe of Sayre's mill, appeared in the police court this morning and gave evidence to the effect that his injuries were inflicted by David Hennessy with a paving block picked from a pile in Main street, put there by the Hennessy Paving Company. Allan said that he suffered severely from his wounds last night. He told the court that he was standing in Main street near Long Wharf yesterday, about noon, talking to some men, when, suddenly, he was struck a heavy blow on the head, and was brought to his knees.

Dr. Broderick attended him.

Allan said he did not see Hennessy throw the granite block, but bystanders told him Hennessy had done so.

Hennessy was remanded until other witnesses could be brought.

Alex. Breen and Edward Richards were fined \$4 and Richard Galloway \$8 on charges of drunkenness. Galloway was found in the Old Burying Ground, and this was the reason for the penalty being heavier in his case.

A fine of \$8 was imposed on Thomas Conboy, and damages ordered paid, on a charge of obstructing the sidewalk in Carleton street by driving a heavy stove across it.

The teamster Charles Haley, James Alexander and Leo Smith—supported for having no "bon" licenses, were instructed to secure them. Alexander said that the reason for their not getting the licenses was that they were framing a petition to the council to have a change made in the bye-laws, which they were in the habit of doing.

Hans Genterush, charged with absenting himself without leave from the steamer Cooley, was remanded.
