TWENTY DIE IN FIRE IN NOVA SCOTIA LUMBER CAMP

A. A. Sutherland Outfit At Aivin Siding Wiped Out; Only Four In Camp Escape

Men's Sleeping Quarters in Flames Before Any Knew Of It—Wife And Six Children of One of the Victims Among Those Who Lost Lives

Truro, N. S., Mar. 16.—One of the worst accidents in the history of lumbering in Nova Scotia took place last night at Aivin siding on the Canadian Government Railway, four miles from Riversdale and about fifteen miles from Truro, when the lumber camp of A. A. Sutherland was burned to the ground and twenty people were burned to death. Of those in the camp, only four escaped, and two of these are in a very serious condition.

The camp was owned and operated by A. A. Sutherland of Oxford and his son, Max Sutherland, both of whom escaped practically unharmed. The names of the other two men who got out alive are not ascertainable. They were in a bad condition and were forwarded immediately to Aberdeen hospital, New Glasgow.

Mr. Sutherland and son were aroused at 12:30 when the camp was in a mass of flames. They were sleeping in a separate apartment, upstairs, from the men and this accounts for their escape. The sleeping quarters of the men had evidently caught and burned quickly before any one became aware of the flames.

Dr. W. R. Dunbar, coroner, of Truro, left on the morning train and will hold an inquest this afternoon. J. C. B. Olive, undertaker, of Truro, left on the same train taking twenty caskets to take care of the dead.

The dead are: Alfred Guthrie, wife and six children; Benjamin Matheson, Pughash (Robert McLeod, West River); Clarence Gratto and Edgar Taggart, Fort Right; George Low, Sault Harbor Road; William Wilson (colored), Truro; George Ayler, Maccora, Miller, Hawley, Cape Breton; John Moore, Halifax; Lester Moore, Halifax; Edwin Reesley, Kempton.

TURMULT IN THE AUSTRIAN PARLIAMENT

Czech and German Members in Wild Scuffle Over The Matter of Food Supply

Copenhagen, Mar. 16.—Czech and German members of the lower house of the Austrian parliament engaged in a wild scuffle in which several were injured this morning during a speech by the Czech Deputy Soukup, according to a Vienna dispatch to the Hamburger Fremdenblatt. The disturbance became so serious that the chairman had to dissolve the sitting.

Deputy Soukup complained that Prague, the capital of Bohemia, had been for several days without food, including potatoes.

Deputy Wolf, a German member, jumped to his feet and shouted:

"The Czechs have not given out proper quantities of food. The Czechs will starve us. They are the allies of the British."

The German deputy's harangue was interrupted by Deputy Elyades, a Czech, who threw a chair at the German.

Other members began to rush through the house.

Condemn German Peace Terms While Accepting Them

The Russian Situation—Conflict of Maximalists and Social Revolutionists—Trouble in German Fleet Off Aland Islands

London, Mar. 16.—(Delayed)—The most critical stage of the whole history of the war has been reached in the opinion of Arthur Henderson, secretary of the labor party. Speaking in London at a woman suffragist celebration today, Mr. Henderson added:

"I have been imagining during the last few days, having regard to what has taken place in Russia, that some German emissary might come along and say: 'Why do we fight? Why cannot we settle it? We are prepared to come to a compromise with you regarding colonies and we are prepared to make considerable concessions to France with reference to Alsace-Lorraine.'"

"That would be a cynical peace, containing the seeds of future war. It would not be a clean peace and it would not be an honorable peace. It would be the desertion of Russia and the women of this country must stand against it like firm."

"We are anxious for peace and the sooner it comes the better. But let me say it must be a peace consistent with the ideals for which we entered the war. No one deplores more than I the collapse of Russia, but I believe that that does not represent a majority of the Russian people. The Russian people were very anxious for peace. I am anxious for peace, but never in any speech that I have made or in any suggestion that I have privately made I committed myself to a position similar to that in Russia. 'By all means let us try for peace, a peace based upon international justice and deal with it.'"

With the American Army in France, Mar. 16.—(By the Associated Press)—Active artillery firing continues on the western front, especially in the Verdun region, is reported in the official statement from the war office tonight.

A German raid in Lorraine was repulsed and a large number of bombs have been dropped by French aviators.

British Report. London, Mar. 16.—(By the Associated Press)—Violent artillery fire along the whole front, especially in the Verdun region, is reported in the official statement from the war office tonight.

A German raid in Lorraine was repulsed and a large number of bombs have been dropped by French aviators.

British Report. London, Mar. 16.—(By the Associated Press)—Violent artillery fire along the whole front, especially in the Verdun region, is reported in the official statement from the war office tonight.

Most Critical Stage in History of The War

Speech of Arthur Henderson Secretary of British Labor Party—Peace Must be Consistent With Ideals For Which Britain Fights

London, Mar. 16.—(Delayed)—The most critical stage of the whole history of the war has been reached in the opinion of Arthur Henderson, secretary of the labor party. Speaking in London at a woman suffragist celebration today, Mr. Henderson added:

"I have been imagining during the last few days, having regard to what has taken place in Russia, that some German emissary might come along and say: 'Why do we fight? Why cannot we settle it? We are prepared to come to a compromise with you regarding colonies and we are prepared to make considerable concessions to France with reference to Alsace-Lorraine.'"

"That would be a cynical peace, containing the seeds of future war. It would not be a clean peace and it would not be an honorable peace. It would be the desertion of Russia and the women of this country must stand against it like firm."

"We are anxious for peace and the sooner it comes the better. But let me say it must be a peace consistent with the ideals for which we entered the war. No one deplores more than I the collapse of Russia, but I believe that that does not represent a majority of the Russian people. The Russian people were very anxious for peace. I am anxious for peace, but never in any speech that I have made or in any suggestion that I have privately made I committed myself to a position similar to that in Russia. 'By all means let us try for peace, a peace based upon international justice and deal with it.'"

Field Marshall Haig Has a New Son

London, Mar. 16.—A son was born last night to Lady Haig, wife of Field Marshal Douglas Haig, commander-in-chief of the expeditionary force in France and Flanders.

UNCLE SAM IS MAKING SURE

Holds Dutch Ships to Prevent Escape Pending Requisition on Monday

Washington, Mar. 16.—With the exception of two steamers, the United States is holding all Dutch ships now in American ports to prevent their escape pending probable requisition on Monday. No bunker licenses will be issued for their sailing until they have been taken over either by commanding or by negotiations.

NOVA SCOTIA MINE WORKERS JOINING U. M. W. OF AMERICA

Sydney, N. S., Mar. 15.—By a vote of nearly 98 per cent of the membership the Amalgamated Mine Workers of Nova Scotia have decided to affiliate with the United Mine Workers of America, an organization with half a million members. The Nova Scotia miners who thus merge with the larger organization number about 10,000, and it is thought probable that they will soon be followed by the miners of Inverness and Pictou counties, numbering about 4,000.

SENT OUT TO STREET TO GET MEN FOR JURY

Montreal, Mar. 16.—A start was made yesterday on the trial of ten men held in connection with the dynamiting of the Cartierville home of Lord Althorpe. The jury panel was exhausted before twelve were selected and Judge Pelletier sent officials to bring in men off the street. Twenty were gathered in, amongst them being two reporters, who assured the judge that they had formed opinions on the case and were excused from duty.

HABEAS CORPUS NOW FOR CAPTAIN OF MONT BLANC

Halifax, N. S., Mar. 16.—This afternoon Mr. Justice Russell will hear the habeas corpus application on behalf of Captain Aime Lemerde, master of the steamship Mont Blanc. The application was made yesterday afternoon by Hector McInnes, K. C., following Judge Russell's granting of a similar application in the Pilot Mackay case.

EX-SPEAKER OF NORTHWEST ASSEMBLY PASSES AWAY

Saltcoats, Sask., Mar. 16.—William Bakin, a former speaker of the Northwest Assembly, died on Thursday in his ninetieth year. Last Friday Mr. and Mrs. Bakin celebrated their sixty-fifth anniversary of their marriage.

WALL STREET TODAY

New York, Mar. 16.—(Wall Street)—Eastern railways, notably Canadian, were further strengthened at the opening of today's stock market on the increased freight rate announcement. Canadian Pacific developed fresh weakness.

If True, May Have Serious Consequences

Hundred and Fifty Japanese Said to Have Been Murdered by Maximalists in Siberia

London, Mar. 16.—Maximalists in Siberia have murdered 150 Japanese at Blagovistchensk, capital of the Amur province, according to a report printed in the newspaper Hoshi Shinbun on Friday and forwarded by Reuters' Limited. A despatch from Tien Tsin, China, to the Daily Mail says that the Japanese embassy at Peking has been informed that during recent disturbances at Blagovistchensk, three Japanese were killed and seven wounded while defending their property against Bolsheviks.

HIS 31st. ENEMY AIRPLANE

Paris, Feb. 4.—(Correspondence of Associated Press)—Lieutenant Nungesser, who became the French "ace of aces" after the death of Captain Guynemer, has just brought down his thirty-first enemy machine. News of his latest exploit is hailed with delight by the French press, because it comes after months of comparative inactivity on his part during which he has been recuperating from the effects of his injuries received in an automobile accident.

Nungesser's ability as an aviator, coupled with his numerous injuries and remarkable recuperating powers is rapidly gaining for him the title of "super-man." He has been repeatedly injured since the beginning of the war and twice the French army physicians have classified him as "unfit for further service," but his robust constitution and strong will power have enabled him to overcome all obstacles and he has steadily found his way back to the cockpit. During one of his periods of "convalescence" at Dunkirk he brought down nine enemy machines.

CASE DISMISSED

The police sheet read nil at the police court this morning. The magistrate dismissed the case in which receiving money under false pretenses was preferred against Henry S. Wetmore in connection with an automobile, by J. B. Crane. In making his judgment, His Honor said that there was absolutely no foundation for the former charge. W. R. Pitt appeared for the complainant, and E. S. Ritchie for the defendant.

TWENTY DEATHS

Twenty deaths were reported at the board of health for the week; three from pneumonia, three from endocarditis, two from heart disease, two from Bright's disease, two from pulmonary tuberculosis, and one from each of the following disorders: Inanition, marasmus, malnutrition, premature birth, cerebral emolion, tubercular meningitis, bronchopneumonia and membranous croup.

More than 100 names were contained in a casualty list published to Washington yesterday by General Pershing. The number reported killed was comparatively small.

Newfoundland Regiment is "Royal" by Grace of King

Bravery of Troops From "Ancient Colony" Given Recognition by His Majesty

St. John's, Nfld., Mar. 16.—The highest possible recognition of the Newfoundland regiment has been accorded by King George. He has conferred the prefix "Royal" upon the body of troops representing this colony because of its bravery on the battlefield of Gallipoli, France and Flanders.

The distinction was suggested by Sir Walter Davidson, former governor of Newfoundland, who visited the regiment on the western front, where he broached the idea to Field Marshal Haig. Later, in England, he took up the matter with Premier Lloyd George and was granted an audience by the king.

Field Marshal Haig, in a letter to Colonel Woodruff, commanding the Newfoundland contingent, wrote:

"I have much pleasure in informing you that His Majesty the King, in view of the magnificent bravery and resolute determination shown by all ranks, has been graciously pleased to approve the grant of the title 'Royal' to the Newfoundland regiment. Please accept and convey to all ranks my warmest congratulations that your achievements have met with such well-earned recognition."

HILARIOUS SCENES AS SALOONS CLOSE

Handed and Sixty in St. Louis County, Minn., Go Out of Business

Duluth, Minn., Mar. 16.—One hundred and sixty saloons in this (St. Louis) county closed their doors last night as a result of the county option election of last September. Duluth joined the prohibition cities last July. People came from points as far away as the head of the lakes to attend the farewell celebration at Virginia, where forty-four saloons closed amid scenes of great hilarity. Thirty saloons closed their doors at the town of Ely and thirty others at Eveleth had disposed of their stock and were ready to close at 10 p. m. the hour fixed by law.

STOLE \$3,500,000 WORTH OF GOODS

New York, Mar. 16.—That three gangs of thieves have stolen \$3,500,000 worth of merchandise from trucks and piers during the last year was asserted by the district attorney yesterday, when he asked for high bail for five men suspected of being members of one of the gangs. The quantities were held in \$500,000 bail each.

FRIEND OF GERMANY IS SENT TO JAIL

Baltimore, Mar. 15.—Accused of being a dangerous enemy alien and with trying to foment a strike in a factory working on government contracts here, Carl Anton Joseph Goussinn, thirty-two years old, who came to this country from Bremen, Germany, four years ago, was arrested today by federal authorities and after being questioned was sent to jail.

AMUNDSEN DOING A SHARE IN THE WAR

New York, Mar. 16.—Ronald Amundsen, discoverer of the south pole, arrived here today in lectures to American audiences, especially those containing persons of Norwegian descent, on behalf of the American and British war aims. He recently made a tour of the western front.

SEALS ARE FOUND

Halifax, N. S., Mar. 16.—A wireless message today from Captain Farquhar of the Halifax steamer Sable I, now with the Newfoundland sealing, reports having sighted seals yesterday. The ice was very heavy, the message said, and a severe storm was raging.

WILL BE 10,000 FLYERS IN ONTARIO CAMPS

Four Thousand Will Have Returned From Texas by April 15

Toronto, Mar. 16.—By April more than 4,000 members of the Canadian branch of the Royal Flying Corps will have returned from the camp in Texas. At least 75 per cent of the officers of the United States Flying Corps will come here for preliminary training. There will be at least eighteen squadrons in operation.

A new camp will be added at Sarnia, Ontario, purely a school for aerial gunnery and aerial fighting. The officers to command the camps are tentatively appointed as follows: Camp Borden, Lieut. Col. F. A. Wanklyn; Armour Heights and Leaside, which are included in North Toronto, Lieut. Col. G. W. Wesley; Deseronto, Major E. K. Kyle and Beausville, Major F. M. Ballard.

At least 75 per cent of the officers of the R. F. C. in Canada are Canadian. Brig. Gen. Hoare is in command of the United States. His headquarters are in Toronto.

SAYS GERMANY MUST FACE ECONOMIC WAR WHEN FIGHTING DONE

London, Mar. 16.—Germany must count as accomplished the fact of an economic war after the war and control by Great Britain and the United States of sea borne traffic in raw materials, declares the pan-German Tagliche Rundschau, of Berlin, according to a despatch from the Hague to the Daily Mail. The Tagliche Rundschau adds: "Germany must therefore exploit Persia and Siberia, Bremen and Hamburg, which so long have strained their eyes earnestly seaward, must for some time turn their gaze landward. Germany must make up her mind to exploit the countries available to her and these are the Balkan and Black Sea districts, followed by the Caucasus, the Trans-Caspian district, Persia and Siberia."

WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service

Synopsis—The weather is fair throughout the dominion and very mild in the west. The heavy gale which has been blowing in the maritime provinces is now subsiding.

Ottawa and Upper St. Lawrence—Fresh west to south winds, fair and milder

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, MARCH 16, 1918

The Evening Times and Star

ST. JOHN, N. B., MARCH 16, 1918.

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

TIME TO WAKE UP.

Citizens generally should read and preserve for future reference the recommendations of the housing committee, of which Mr. W. F. Burditt was the chairman and hardest worker, and which are printed today's Times.

Mr. Burditt has made a study of the housing problem. He is able to present very clearly the difficulties in the way of reform, as well as the need there is for reform. We cannot hope to get the people in the slums to move to the suburbs. The best we can do is to make and enforce laws which will improve the conditions where poor people now live, so that the places they call homes shall be made really fit for human habitation.

St. John must grapple with this great housing problem. For the sake of the public health, for the sake of the good name of the city—above all for the sake of the children—we must face the problem and solve it. The change cannot be made in a day or a year, but very great improvement can be made within a comparatively short time if a proper housing code is devised and adopted.

The city council would be doing a great public service if it engaged the services of a small commission of men who have studied the problem on the spot, to prepare a housing code, to be published, considered, and either adopted or made the basis of satisfactory legislation along the lines suggested by Mr. Burditt. If such organizations as the Board of Health, Board of Trade, Rotary Club, Evangelical Alliance, Women's Council and many others which might be named would pass resolutions in favor of such action the city council could undoubtedly do its part. We need not wait till the end of the war. The whole matter could be dealt with this year and the desired housing code approved by the legislature next winter. Perhaps in the meantime the Board of Health staff could be enlarged and through its agency a considerable improvement made. It is a live question. Keep it alive till results are achieved.

ROADS AND TOURISTS.

A contributor to the Halifax Herald writes that the state of Maine anticipates a great tourist business this year, and all experience has shown how profitable this business is to a state or province. Because the railroads will be taxed with freight and there will be fewer teamers it is expected most of the tourist traffic will be by automobile, and Maine counts on its good roads as a magnet to draw the tourists to its resorts.

The Foster government is proving its business capacity. It has thus early in the session brought down bills of the greatest importance relating to the roads and the forests and to workmen's compensation. It is a pleasure to record the fact that the province has a government which takes itself seriously and applies business principles to public affairs.

Rumors of a great German offensive on the western front are revived. They claim to be superior in strength to the Allies on that front. This claim is denied. Von Hindenburg and Von Ludendorff have been boasting again of what they will do, but the Allies are confident and unshaken.

Sir Auckland Geddes says that men in enormous numbers are still needed for the British army, and that men up to fifty years are needed for home defence. He believes Germany will strike not only at France but at England.

It would not be surprising if the parliament which assembles at Ottawa next week should show a less disposition than its predecessor to regard tariffs as sacred emblems.

WESTVILLE HOTEL MANAGER KILLED

A. E. Craig Dead as Result of Collision Between Street Car and Sleigh

Halifax, Mar. 15.—A. E. Craig, manager of the Arlington Hotel, Westville, was killed at Westville last night. He was in a sleigh, driving with three others from Westville to Stellarton when a car of the Pietou electric railway ran into the sleigh. None of them saw the car till too late. Mr. Craig's companions escaped with a shaking up. The sleigh was driving on the tramway track because of the bed going on the road.

The people of St. John are paying for gas output of which 25 per cent is lost through leakage. They pay for the leakage as well as the gas.

WOMAN SUFFRAGE.

At the last session of the legislature Hon. Dr. Roberts introduced a bill granting suffrage to women on equal terms with men. The bill was defeated, although it was supported by most of the members of the government and by the leaders on the opposition side of the house. Hon. Mr. Murray has now given notice of motion that in the opinion of the house the franchise should be extended to women. This will get all the support given to Hon. Dr. Roberts' bill last session, and doubtless more; for it is expected that the federal franchise will be given to women at the session of parliament beginning next week, and in Nova Scotia, where a bill was thrown out last year the government has brought in a new one this year. Moreover, England has within a year granted woman suffrage, and the great state of New York and some others did likewise. The legislature of this province should not be the last in Canada to recognize the rights of its women. Both parties in the house should now get together and pass the bill which failed to pass last year.

THE FOREST COMMISSION

The facts set forth by Hon. E. A. Smith in introducing his forestry bills in the legislature yesterday prove the urgent need of legislation to conserve the forest wealth of the province. Our white pine has been practically exhausted, the spruce is going, and now the formerly despised fir is an object of desire in many lumbering operations. While there has been great waste, however, the adoption of right methods of forest control will render it unnecessary to go extensively into reforestation for many years to come. The crown land survey now in progress will be of great value when completed, for it will not only show the extent of the timber wealth of the province, but will show where lumbering operations can best be carried on, which lands are best suited for agriculture, and which for reforestation. The bills introduced by Hon. Dr. Smith provide for the appointment of a forestry commission to make all appointments and have extensive jurisdiction in matters relating to lumbering operations, fire protection and reforestation. The measures, when they have been perfected and adopted will, if properly carried out, put a stop to needless waste and place the administration of the forest branch upon a satisfactory basis. Hon. Dr. Smith has given the whole subject most careful study and the bills presented are an earnest effort to meet an urgent need. The forests of New Brunswick are so great a source of revenue that they must be conserved. The province has already squandered too much of the capital they represent.

Sir Frederick Williams Taylor, general manager of the Bank of Montreal, speaking of the New Brunswick loan of which the opposition press is now shrieking, said: "Referring to your letter of the 16th inst., advising the sale of the whole issue of \$1,000,000, province of New Brunswick bonds, the government are to be congratulated on having disposed of their securities on terms that cannot but be considered reasonable under all circumstances."

The Foster government is proving its business capacity. It has thus early in the session brought down bills of the greatest importance relating to the roads and the forests and to workmen's compensation. It is a pleasure to record the fact that the province has a government which takes itself seriously and applies business principles to public affairs.

Rumors of a great German offensive on the western front are revived. They claim to be superior in strength to the Allies on that front. This claim is denied. Von Hindenburg and Von Ludendorff have been boasting again of what they will do, but the Allies are confident and unshaken.

Sir Auckland Geddes says that men in enormous numbers are still needed for the British army, and that men up to fifty years are needed for home defence. He believes Germany will strike not only at France but at England.

It would not be surprising if the parliament which assembles at Ottawa next week should show a less disposition than its predecessor to regard tariffs as sacred emblems.

WESTVILLE HOTEL MANAGER KILLED

A. E. Craig Dead as Result of Collision Between Street Car and Sleigh

Halifax, Mar. 15.—A. E. Craig, manager of the Arlington Hotel, Westville, was killed at Westville last night. He was in a sleigh, driving with three others from Westville to Stellarton when a car of the Pietou electric railway ran into the sleigh. None of them saw the car till too late. Mr. Craig's companions escaped with a shaking up. The sleigh was driving on the tramway track because of the bed going on the road.

The people of St. John are paying for gas output of which 25 per cent is lost through leakage. They pay for the leakage as well as the gas.

BOVRIL Take it as Soup before Meals

LIGHTER VEIN.

As the football crowd was pushing and struggling to get out at the game's end, a small boy bored his way to the fence and began to climb over it. "Hi, there, kid," yelled a policeman, "none of that! Go out the way you came in!"

By this time the youngster had reached the top of the fence. "Ain't I doin' it?" he said, as he vanished on the other side.

An old colored man named Zeno had a savings account in a Southern bank. One day the bank failed and Zeno was very much perturbed—though he didn't know it by that name.

He hung around the bank, just to be near his money, and when the receiver examined before any of the depositors could get their money? Banks have failed before. This isn't the first time that a bank has busted.

"Shore, Ah knows dat; Ah's heard tell of banks bustin' afore dis, but dis bank am de fust time dat a bank bust-ed right squah in mah face."

Finally the receiver announced that the depositors would be paid in full in alphabetical order. Unfortunately, a mistake had been made in figuring and when they got down to the W's the money gave out and Zeno lost his savings.

However, he wasn't discouraged. After a couple of months he had some more money saved up. He took it to another bank, where he was known, and told the cashier he wanted to open a savings account.

"All right, Zeno," said the cashier warmly. "We will be glad to open an account for you."

"Mah name ain't Zeno no mah, mah name's Aaron."

CHALLENGE.

A bowling team from the retail department of W. H. Thorne & Co., Ltd., known as the "Minotes," wish to challenge a team from S. Hayward & Co., Ltd., to a game to be played in the Victoria Academy on next Thursday night. The Minotes will line-up as follows: Olsen, McColgan, Cooper, McCarthy and Ewelling.

New Baseball League. Toronto, Mar. 15.—It is said that the formation of a six team baseball league to replace the defunct International, is now practically assured. The cities named as likely included are Buffalo, Toronto, Baltimore, Newark, Jersey City, and Rochester.

The hull of the first concrete ship, a 3,000 tonner, being built at Redondo Beach, Cal., will be completed in a hundred days.

RUN OVER BY TRAIN; WILL LOSE HIS LEG

Slipped While Getting on Train—Had Narrow Escape from Losing His Life.

Bridgetown, N. S., March 15.—What almost proved a fatal accident occurred about a train's length west of the Bridgetown station at 2.15 this afternoon. Guy Marshall, aged 21, son of Alfred Marshall of Antigonish, a village in the North Mountain, just east of Bridgetown, was a passenger on the express from Bear River. The train stopped

for water as usual at the tank just west of the station. After the train stopped at the station, parlor car conductor Clark noticed a man lying with his foot across the opposite rail from the station and about a car's length from the rear of the train. He and Conductor Margeson carried him to the station, from which he was immediately conveyed to Dr. M. E. Armstrong's office. He is now in a semi-conscious condition.

As near as can be learned he had got off the wrong side of the train while it was stopped at the tank and was getting on again to ride up to the station when he slipped and fell, the parlor car going over his left leg which will have to be amputated. He will probably be sent to Halifax on Tomorrow's train. His other injuries do not appear to be serious, and it is thought he will recover. It appears quite evident that no blame can be attached to the railway.

Three negroes were lynched by farmers near Delhi, La., as the outcome of a hog stealing charge.

Chicago, Mar. 15.—August Kieckhefer of Chicago retained his title of world's three cushion billiard champion tonight by defeating Robert Canefax of St. Louis, 64 to 42 in sixty-four innings. Kieckhefer's total for the three blocks was 100, against Canefax's 148.

Use The WANT AD. WAY

BEGIN TO THINK NOTHING TOO EARLY BY OFFENSIVE

Still No Indications, Says General Maurice

BRITAIN'S PART IN WAR

He Effectively Answers German Attempt to Create Belief That England is Using Her Allies and Saving Her Own Strength

London, Mar. 15.—(Montreal Gazette Cable)—"Disbelief in an early development of the much-talked-of German offensive on the western front is growing owing to the fact that after a period of weather favoring the air work preliminary to an offensive there still are no indications of the opening of operations on a big scale," said General Sir Frederick B. Maurice, director of British military operations, in his weekly talk this week.

General Maurice added that the recent aerial activity had been in favor of the British, whose aerial operations against the German air force had been steadily extended.

"The German raids on Paris, made under the guise of reprisals for British operations in the field, during the period of British preparation for the French and British fronts, were a clumsy attempt to create friction between the French and British. This was on a par with the German propaganda which sought to depreciate Great Britain's efforts in the war."

"America could now appreciate the fact," continued the general, "that it took time to create and place armies in the field. During the period of British preparation France had to bear the brunt of the war."

"Now look around on the various theatres of war and consider the part Great Britain is playing. Over and above its naval contributions, Great Britain's military efforts are greater than could have been anticipated by anybody four years ago. Half the German forces between the North Sea and Switzerland are arrayed against the British front. The German propaganda is using slightly compared the length of the British front with that held by the French, but geographically the British front is not the supreme test of importance."

"At no period of the war have the German forces opposed the British so great as they are now, either absolutely or relatively."

General Maurice referred to the British assistance to Italy and to the British forces engaged against Turkey and against Bulgaria in the Balkans, the operations which was clearing the Germans out of their last colonial possession in East Africa. He emphasized the fact that he drew attention to these matters merely because of the German efforts to create the belief that Great Britain was saving her allies and saving her own strength.

GREATER USE OF PORT OF ST. JOHN DURING THE COMING SUMMER

(Montreal Gazette.)

Ottawa, Mar. 15.—Statements by the prime minister, the minister of marine and fisheries, the Hon. Mr. Balfour, and the minister of militia, the Hon. Mr. Newburn, as to the probable transportation requirements during the coming season, were made at a conference

AT ONCE! STOPS STOMACH MISERY AND INDIGESTION

"Pape's Diapepsin" Makes Sick, Sour, Gassy Stomachs Feel Fine

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyseptic, get this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back. You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

FIFTY HORSES ARE POISONED; GERMAN WORK IS SUSPICION

Covington, Ky., Mar. 15.—Fifty horses are dead of poisoning in Covington and many more are expected to die out of a government shipment of 700 horses from Camp Grant, Rockford, Ill., consigned to Newport News, Va. Belladonna and cotton oil were used.

Deaths of the horses generally are said to be ramifications of German plots, and it is said that every movement of the consignment after it left Camp Grant until the horses commenced dying will be traced.

Blotchy Skin

Many a time you have looked into the mirror and wished that your skin would be like other people that you know—without a blemish. This wish can be yours for the asking. Wash D. D. D. the lotion of healing oils, over your pimples or blotches tonight—and wake up in the morning to find them gone.

NO TURNING BACK

Federated Union of Greater New York Strongly Against Premature Peace

New York, Mar. 16.—The central federated union of Greater New York declared itself against premature peace in resolutions adopted last night following addresses by W. A. Appleton and John Butterworth, members of the British labor mission in this city.

In pledging loyalty to the United States and the Allies the men expressed their earnest and sincere determination to continue with our whole efforts until the great war is brought to a conclusion which will forever safeguard democracy for all people."

It also was asserted that "there must be no turning back" and that "the organized trades union movement of the United States is inherently loyal to the national aspirations for a victorious war against autocracy."

In celebration of their thirteenth wedding anniversary, an enjoyable gathering was held at the home of James A. Whipple & Whipple street, West St. John, last evening, in honor of his nephew, Walter J. Whipple, recently returned from France, and Mrs. Whipple.

A. B. Gilmour received word yesterday which led him to believe that his son, Lieut. Claire, is a prisoner of war. The word was that Lieut. Gilmour was last seen falling behind the German lines.

Representatives were present, among others, from the C. E. R. A., G. I. R., C. N. R., Canadian Government Railways, Dominion Marine Association, Robert Reford Company, Purves Withy Company, White Star Dominion Line, Canada Steamship Lines, Hudsons Bay Company, Elder Dempster Line, Cunard Line, Shipping Federation and Montreal and Quebec harbor commissions.

The conference was presided over by the prime minister. Other ministers present were Sir George Foster, minister of trade and commerce; Hon. Dr. Reid, minister of railways; Hon. C. C. Balfour, minister of marine and fisheries; Hon. S. C. Mewburn, minister of militia.

It is considered likely that the discussion between the members of the government and the interests represented will tend to a solution of the overseas transportation problem by bringing about a greater co-ordination of effort than has existed up to the present time.

The conference was presided over by the prime minister. Other ministers present were Sir George Foster, minister of trade and commerce; Hon. Dr. Reid, minister of railways; Hon. C. C. Balfour, minister of marine and fisheries; Hon. S. C. Mewburn, minister of militia.

Representatives were present, among others, from the C. E. R. A., G. I. R., C. N. R., Canadian Government Railways, Dominion Marine Association, Robert Reford Company, Purves Withy Company, White Star Dominion Line, Canada Steamship Lines, Hudsons Bay Company, Elder Dempster Line, Cunard Line, Shipping Federation and Montreal and Quebec harbor commissions.

DR. McNEIL WRITES OF HUN BRUTALITY

Amazed at Their Wanton Destruction of Hospitals and Homes

Kill Wounded and Dying—Bangor Man in Charge of Bomb-proof Hospital, 1,500 Yards from Germans on the British Front

Mrs. Harry D. McNeil, of Bangor, has received letters from her husband, Dr. McNeil, who is now in charge of a hospital on the western front. Extracts follow:

"I am located less than 1,500 yards from the Germans. Am in charge of a hospital which originally was an old chateau. It has been made bomb-proof and is well guarded with sandbags. My patients are safe from harm, as they are in an excavated part beneath this chateau. I have two smaller places up the line but I must look after they are located in the trenches. The construction of the trenches is wonderful. You would be surprised to see what remarkable work has been accomplished in them and how they are maintained.

"I was going up through the trenches today to visit an aid post that I have charge of, I passed close to a cemetery of the French people. There is a large crucifix there and one arm of the Cross has been shot away, leaving the arm of the Saviour extended, without support. Isn't that rather remarkable?

"Before coming here I finished a course in the advanced school of surgery given by the Royal Army Medical corps. The way surgery, medicine and sanitation have advanced in this war is marvelous. The attention given to the wounded men is something to be commended on. It is a case of constant care and most careful attention to him all the time.

"French fever is now being studied by the most famous bacteriologists. Cases have been studied and noted scientists have discovered means to counteract the terrible effects from these gases, which certainly is welcome news to the Allies.

"The Germans spare nothing. They destroy hospitals, where the helpless and wounded are—and oh! the country! Village after village with nothing but brick walls left. The houses all gone, the land bearing the look of abject despair everywhere. Awful to behold this terrible destruction inflicted on the poor peasants. Why the Germans do this to the hospitals, women and children is something the human mind cannot comprehend.

"I have witnessed many airplane battles and what a sight they are—very spectacular—away up in the air firing at each other. Today I saw one—the German got his and over and over went his machine in flames to be dashed to earth. My shoulder and arm are practically well now. I suffered a great deal for a while, but I had good care. The British use me fine. I do not see any Americans as I am many miles from where they are.

"Remember me to all the good old Bangor friends."

The Star of the East Knitting Club met last evening at the home of Mrs. J. Woodland, Union street, and spent a very pleasant evening with knitting and music. Mrs. Spencer presided at the piano.

A FINE PROGRAMME

One of the best programmes which had been given to date for the entertainment of soldiers and sailors was arranged and successfully carried out in the Red Triangle Club in King square last evening by the ladies of the Loyalist Chapter, I. O. O. E., when about 125 men were present. The programme carried out was as follows: Mrs. Allan McAvity, piano solo; Frank Hazel, solo; reading, Lieut. Francis Walker, of No. 9 Siege Battery; accordion solo, Robert Carr; solo, Mr. Rendie; sailors' romps, Miss K. Sturdee; violin solos, songs, etc., by Miss Evelyn Bates, now playing at the Opera House; plectre dance, Miss K. Sturdee and Miss Mary McLaren; Digger duo, black faced artists, Mrs. Hyder and Miss Knight, and address, Captain Best. The accompanist for the songs was Mrs. Allan McAvity. The programme finished with the singing of the National Anthem and three hearty cheers by the men for the ladies and those who assisted in making the evening a most pleasant time.

List Hun as Bad One.

New York, Mar. 16.—Dr. Frederick Hiller, who is said to have escaped from internment camps in India and Japan, was sent to Fort Oglethorpe, Ga., yesterday as a dangerous enemy alien.

CASCARETS SELL TWENTY MILLION BOXES PER YEAR

Best, safest cathartic for liver and bowels, and people know it.

They're fine! Don't stay bilious, sick, headachy or constipated

WORK WHILE YOU SLEEP

Enjoy life! Keep clean inside with Cascarets. Take one or two at night and enjoy the nicest, gentlest liver and bowel cleaning you ever experienced. Wake up feeling grand. Your head will be clear, your tongue clean, breath right, stomach sweet and your liver and thirty set of bowels active. Get a box at any drug store and straighten up. Stop the sad, bilious spells, bad colds and cold days—Brighten up, Cheer up, Clean up! Mothers should give a whole Cascaret to children when cross, bilious, nervous or if tongue is coated—they are unwell—never grip or sick.

CATARRH

New and Curious Remedial Discovery

That Never Fails to Give Immediate Results

Here is a safe and easy method for getting at catarrh that invariably surprises chronic sufferers because of the immediate and pleasing effects it produces.

The Sam Katz method which this gentleman and thousands of others have used, is different from anything you have ever known of.

The exact remedial combination of this method is a secret known only to myself and my associates, although I will say this much: it is based on the modern scientific discovery that the nasal case germs carrying catarrh must be destroyed and dislodged from the fastened tissue in order to effect a radical and permanent cure.

Banish Your Catarrh, Restore Your Health and Organic Vitality

Catarrah, as you know, gradually works downward from the nose, throat and head, through the entire system, weakening vision, sore eyes, hoarseness, dizziness, deafness, head noises, confusion of thought, impairment of the memory, weakness of brain, sore throats, nervousness, general languor, rheumatism, lame back, neuritis, stomach, liver, kidney, bladder disorders, weakness of the vital organs and many other maladies and ill effects, any or all, be due to the ravages of the disease we call catarrh.

Full Box Sent On Trial

Don't send any money, not even a stamp, but simply your name and address on a postal or in a letter, and I will arrange to forward to you, postpaid, a full box of the Sam Katz Catarrh Materials, the same that I have sent to tens of thousands all over the world.

SAM KATZ, opt. H. C. 1165, 142 Mutual St., Toronto, Ont.

ON THE VICTORIA ALLEYS

In a match game between the C. P. R. Checkers and the Overseas Transport Checkers, the latter won by seventy-four pins.

My Son Was Afflicted With Eczema

The following letter is a testimonial to the power of Swalens. This case was one of a woeful family who had spent no expense.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before you take into the stomach, nearly an ounce of waste material must be carried out of the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, kidneys and bowels.

Wash yourself on the inside before you take into the stomach, nearly an ounce of waste material must be carried out of the body.

Notes of the Game. Lamont is some rooler (with his low ball).

Plect was surprised when he found out he made 100. So were others.

It took Baillie a long time to start, but he's some finisher.

Casey was there in the pinches, even if Griffin is the inventor of that slow ball, Scribby should have started earlier.

Did Conlon hear about the cow-bell? Chase was surely there. He's some old timer.

Lunenburg had a weight on his head going home. At least his head was lowered.

Lunenburg was thinking of his pay, which accounts for his low score. Better luck, Bob next time.

It was some game; some played and some didn't.

McAvity's League. No. 4 team, representing the Vulcan Foundry, won three points from No. 2 team for the Finishing Department of Water street.

The game was well contested, only twenty-two pins separating the teams, and these pins were won in the first string. No. 2 team won the second string by four pins, but lost the

ALL PART OF BIG GERMAN PLAN

Baltimore, Mar. 16 - Dr. Frank J. Goodnow, president of Johns Hopkins University and former legal adviser to the Chinese government, in an address at the university last evening warned that Germany's operations in Russia, the subjugation of Serbia and the sacrificing of Turkey, were all part of a big plan to enable the empire to carry on economic development throughout a vast expansion of territory through the construction of railroads.

At the same time Germany would aim to keep the sea lanes closed through ruthless use of submarine warfare, which, he emphasized, has not been defeated and now threatens the sea route through the Suez Canal and around the Cape of Good Hope.

Unless Germany's power on land is broken, he pointed out, this will not only cause conflict with European powers, but also with the United States for economic relations could not then be continued.

The railroad lines proposed by Germany would, he said, be so arranged as to reach China and Japan, with the Bagdad-Berlin railroad as one of the most important links in the line.

The roads are being built away from the coast so that they cannot be attacked from the sea.

A REMARKABLE INCIDENT

(London Times.)

A member of the Mesopotamia Expeditionary Force, in a letter referring to the death of General Maude, says:—

"On the day of the funeral there was an enemy aeroplane over Bagdad, and the firing of the anti-aircraft guns formed an appropriate requiem for the dead soldier. Whether the Turks were then aware of General Maude's death is unknown, but two days later an enemy aeroplane again appeared over the city, and coming unscathed through the gunfire and eluding two attacks in the air, swooped down over the British residence to drop a message of condolence.

"Of course it was not war, but it was a gallant action, and our acknowledgement of it, I understand, was conveyed in the same way. The Turks admire a good soldier, and had reason to respect General Maude."

DRIVE CHILLS AWAY WITH MAJESTIC HEAT

Glowing, genial warmth, just when you most feel the need of it, is especially grateful and comforting these March days when it is so hard to regulate the general heating system of home or office, which is often chilly and cheerless. The MAJESTIC ELECTRIC HEATER is exactly what you need; the turn of a switch will bring you quickly an abundance of clean, dry, odorless heat—pure and healthful as the sun's rays. The Majestic comes in many styles, from the table or desk type to the Majestic Electric Fire Log.

COME AND SEE THE MAJESTIC—FEEL THE HEAT.

LOCAL NEWS

MARRIAGES AND BIRTHS
Four marriages and eighteen births—nine girls and nine boys—were reported to the registrar during the week.

IN SOUTHERN PORT
The schooner Arthur M. Gibson arrived recently at a port in Florida from Cuba in ballast. She will load lumber.

DEATH OF CHILD
Sympathy goes out to Mr. and Mrs. Arthur Robson of 88 Rodney street, West End, in the death of their infant son, Gordon Eric, aged four months, which occurred yesterday.

TRAINS DELAYED
As the result of a very heavy snow storm west, the trains arriving in the city west of the city were delayed. G. R. Montreal train which was due to arrive here last evening will not be in until tonight. The scheduled Boston trains in the C. P. R. are boarded three hours late.

HITS THE SUBURBANITES
After twelve o'clock this evening the new passenger train which was due to arrive here last evening will not be in until tonight. The scheduled Boston trains in the C. P. R. are boarded three hours late.

OH, TO BE THERE
Miss Ella Smith, daughter of J. Willard Smith, who is on the faculty of Sweet Briar College at Sweet Briar, Virginia, writing to her father tells of beautiful weather with the violets blooming and the rose-bushes commencing to blossom.

EXCELLENT WORK
Mrs. J. H. Jenner, one of the committee of the endowment fund for the Halifax School for the Blind, returned last evening after giving a lecture in Dochester and Sackville on the Halifax disaster. She was successful in raising \$500 for the fund. Mrs. Jenner, since becoming a member of the committee in January, has raised a total of \$1,500 for this fund.

A ZERO DAY
According to an official statement from the Meteorological Observatory in Douglas Avenue this morning the lowest point registered on the thermometer last night and today was zero. A gain of thirty degrees was registered in this morning thermometers showed three below zero, and at Westfield it is said the mercury dropped to nine degrees below.

DENTISTS MONTHLY MEETING
The St. John Dental Society held its monthly meeting at Bond's restaurant last evening at 7 o'clock. The meeting took the form of both a social gathering and also a technical instruction meeting. Lunches were served from 7 to 8 o'clock after which the dentists present listened to an instructive address illustrated with lantern slides on the subject of "Gingivitis and sialic omentia," by J. D. Muselman of Toronto, the representative of a prominent manufacturing company in the city. During the evening vocal and instrumental music was rendered by Drs. P. L. Bonnan and J. L. Levesque. A vote of thanks was extended Mr. Muselman at the close of his lecture.

NEW DRIVING CLUB
A meeting of Sussex housing association was held on last Wednesday evening. Those present were Dr. D. H. McAllister, G. P. Fenwick, Sheriff McLeod, W. B. G. Weather, W. H. Holdman, George Dyck, Dallas Carleton, W. McD., Campbell and others. It was decided to lease the Sussex race track from the Driving Park Association and proceed as soon as the weather would permit to put the track in condition and provide suitable stabling accommodation. An organization was formed to be called the Sussex Driving Club.

CHILD GOES TO MOTHER
Application was heard before Chief Justice McKeown this morning in habeas corpus proceedings of Mrs. Hazel McCavour to recover the custody of her child. The parents were living apart, and the child, who has been left in the care of the grandmother during the absence of the mother, was taken away to the State of Maine by the father, subsequently sent back by the authorities of the United States. Habeas corpus proceedings were then taken, and this morning His Honor decided that the mother should have the custody of the child. Francis Kerr appeared for the mother, and Dr. J. B. M. Baxter, K.C., for the father.

APPEAL IN LIQUOR CASE
In the case of the King vs. Hon. Robert J. Ritchie, police magistrate, ex parte Galbraith, hearing was to have taken place before His Honor Chief Justice McKeown this morning on return of a writ of certiorari, to show cause why the conviction should not be quashed. The police magistrate fined the defendant \$200 for violation of the provincial prohibition act under section which authorized a penalty of "not less than \$100." His Honor holding that this permitted him to impose a penalty of a greater amount. The appeal was taken on the grounds that the magistrate had no jurisdiction to impose a heavier penalty than \$100. Owing to other business coming up before the chief justice, hearing was postponed until Friday morning at eleven o'clock. W. M. Ryan is appearing for the appellant, and Dr. W. B. Wallace, K.C., for the attorney-general.

EAGLES WIN THREE
In the Y.M.C.A. senior bowling league last evening, the Eagles took three out of four points from the Falcons. The scores follow:

Falcons	
J. McGrath	91 89 91-275 912-3
McDonald	91 81 81-271 901-3
Nixon	94 84 85-263 872-3

IN CANADA'S SENATE
Ottawa, March 15—Senator Levesque will move the address in reply to the speech from the throne in the upper house, and it will be seconded by Senator Michener, one of the new members from Alberta. Senator Boldue will be re-elected speaker of the senate.

FORMER LAW PARTNER OF SIR ROBERT BORDEN IS DEAD IN ST. JOHN

John T. Ross, K.C., Brother of Rev. James Ross and Senator W. B. Ross.

The many friends of John T. Ross, K.C., will learn with regret of his death which occurred here at an early hour this morning after a lengthy illness. For many years he practised his profession in the city of Halifax. Previous to the entrance of Sir Robert Borden into the arena of politics he was partner in the firm of Borden & Ross. Senator W. B. Ross of Halifax and Rev. James Ross of this city are brothers. A brother and sister are on the east coast in Colchester, N. B., another sister is at present in California and a brother in Vancouver.

Funeral services will be held at the residence of his brother, Rev. James Ross, 71 Waterloo street, on Tuesday afternoon at 3 o'clock.

EMPHASIZES NEED IN HOUSING MATTER HERE

What Visit to Basement Flat Yesterday Revealed—Health Officer Recommends it be Closed

On Friday afternoon Rev. George Scott, agent for the children's Aid Society, chief medical health officer, paid a visit to one of the basement flats of the city. The flat consisted of three rooms between six and seven feet under the ground. The tenant said that when it rained or the water ran down the steps from the yard and collected under the floor, making the place damp. There were two windows on a level with the sidewalk each about fourteen inches high. One was in the kitchen and the other in the living room. There was no window in the bedroom, the only light in which was borrowed from the kitchen. All the fittings, flooring, etc., were in fairly good condition but owing to the surroundings Dr. Melvin said the place was unfit to be inhabited exclusively and he would recommend to the board of health that it be closed up. Besides the father and mother, three children lived in these rooms.

Next week Rev. Mr. Scott expects to visit several other buildings in the city in company with Dr. Melvin to determine as to their fitness as homes.

HARD WINTER ON THE GOVERNMENT RAILWAYS

G. R. officials report that never before during this time in the railway service has the winter storms effected the train services so during this winter. In the Cobequid Mountains, N. S., the train passed through a tunnel of snow for several miles. It is reported that at Moncton fearing some accident, have issued an order to all trainmen to the effect that they have to see the all ways down the cars and also the vestibule doors are closed while the train is passing through the Cobequid Mountains, as the ice and snow are so close to the cars that passengers are liable to accident.

RAISE IN FREIGHT RATES ALSO IN U. S.

Washington, Mar. 15—General commodity freight rate increases of fifteen per cent asked by carriers in eastern territory was granted yesterday by the inter-state commerce commission.

Increased rates of fifteen cents a long ton on anthracite coal also were granted. The advance applies to all territories not included in the general rate increase granted last June.

Commodities benefiting in the rate advance are coal, live stock, fresh meats, petroleum, petroleum products, grain and grain products, cement, lumber and other stock commodities.

Action Regretted.
Winnipeg, Mar. 15—The Winnipeg board of trade, which has championed the fight against increased railway rates for Canada, issued a statement yesterday expressing a regret that the government, instead of granting the increase, did not see fit to adopt the board's plan to take over the railways for the period of the war. The board points out that there is some commutation, however, as a good sum will be collected from the C. P. R. by the special tax provided.

Officials of the board are awaiting more details before pressing the matter further.

The statement says there is some cause for satisfaction in that the order is now made under the war measures act, fixing the time within which the increase in tolls will continue in effect.

Winnipeg Board of Trade Regrets Government Did Not Take Over Roads During War.

KING HONORS NEWFOUNDLANDERS

St. John's, Nfld., Mar. 15—Lady Margaret Davidson, and Food Controller Patrick McGrath are honored with knighthood in the first list of appointments for this colony in the recently created Order of the British Empire.

A commandment in the order was awarded to Augustus Clift, vice-president of the pension board. Other honorees were announced for various Newfoundland men and women.

DUTCH FEELING GLOOMY.
Amsterdam, Mar. 15—The demands made by the Entente on Holland are bitterly hard, says the Nieuwe Rotterdamse Courant. It adds: "Moreover, to grant some of them, as appears from the resume of the discussion with Germany, would lead to Germany refusing to renew the economic agreement with Holland. The future can only be regarded as very sombre."

Important Measures Are Introduced at Fredericton

Government Alive to Forest Conservation—Hon. Mr. Smith Introduces Bills—Woman's Franchise, Workman's Compensation

Fredericton, N. B., March 15.—New measures of the utmost importance were introduced by the government at the session of the legislature this afternoon. These were the Workman's Compensation act, the Forestry Advisory Commission act, and the Forest Protection act. These with the Highway act make an imposing array of legislation for the first week of the session.

The bills introduced today bore evidence of careful preparation to meet conditions which demand attention and are illustrative of the determination of the government led by Hon. Mr. Foster to safeguard the interests of the people of the province and of its natural resources.

In introducing the Workman's Compensation bill, Hon. Mr. Byrne said that it was of such importance that it should not be dealt with in a partisan spirit. He told of the appointment of a commission in January, 1911, to secure evidence regarding conditions and to report thereon.

The attorney-general reviewed the status of workmen and their rights to compensation in the past and quoted modern legislation improving their status, the compensation act making the hazard of an industry a burden on the industry instead of on the individual.

This doctrine has been recognized by nearly all European countries and most of the provinces of Canada and in the United States. As compared with the Employers' Liability act, it gives the worker greater protection and relieves the employer of a heavy personal liability.

The principles of the bill have been approved by the Federation of Labor, and he believed they were acceptable to employers also. Provision is made in the bill for compensation for death, injuries and disease, and for medical first aid.

The scope of the bill is wider than any legislation now on the statute books. Compensation shall be paid in every case except when the injury is brought about intentionally by the person injured, when the latter is intoxicated, or when injury occurs as the result of something not connected with the workman's employment.

A long list of industries affected is given, those specially included being commercial travelers, clerks, members of the employers' family and some other similar classes. Compensation is affected by the number of children surviving in case of death of the workman, and the allowance to a widow would cease on her remarriage upon the payment of a lump sum equal to two years' allowance.

The act is to be administered by a compensation board of three members and its expenses will be paid by an accident fund raised by an assessment on the industries of the province. The past year the value of conservation has been recognized for many years, he said, its vital necessity was not forced home until the present war had taught the lesson. It had been the impression in past years that the natural resources of the province were unlimited but present conditions have shown the error of this.

PLANT STEELE BRIGGS' SELECTED SEEDS. For Sale by reliable dealers everywhere. STEELE BRIGGS' SEED CO. LIMITED. CANADA'S GREATEST SEED RAISERS. TORONTO.

Rough, Red Hands Softened and Whitened with Lemon Juice. Girls! It costs but a few cents to make a quarter pint of wonderful lemon beauty cream! Surely try it!

To soften, smoothen, and whiten the face, neck, arms and particularly the hands when chafed, red or rough there is nothing better than lemon juice, but pure lemon juice is too highly acid and often irritating. A splendid lotion is prepared in a moment by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Be sure to strain the lemon juice through a cloth so no pulp gets into the bottle.

electric light or power line, water works, gas works or sewerage plant or system for other public utility, operation of refrigeration, storage or terminal warehouse, elevator or plant, operation of any passenger or freight elevator, or of any platform or place of public amusement, scavenging or street cleaning, horse shoeing, operation of any lumber or fuel yard, stevedoring or navigation and employ cut inside late here. The act will not apply to persons engaged as traveling salesmen or in clerical work, or to those to whom employment is of a casual nature. Neither will it apply to persons employed by a city or municipality as members of a police force or fire department.

The manner of paying. In regard to compensation, the speaker quoted from the bill to show that where personal injury or death is caused by accident arising out of employment in any industry, compensation shall be paid to the workman or his dependents, unless such injury was, in the board's opinion, intentionally caused by such workman or was wholly or partly due to intoxication or serious willful misconduct on the part of the workman, or to a fortuitous event connected with the industry. As he had pointed out, the compensation to be paid is limited to \$3,500 in any event. In case of partial disability, continuing for more than seven days after the accident and diminishing the working capacity of the workman, payments are to be made at a rate equal to fifty-five per cent of such diminution, calculated on a basis not exceeding \$125 per month.

In cases of permanent partial disability, payments are to be made on a scale to be established by the board, and are not to exceed \$1,500. In case of death of the workman, there would be allowed expenses of burial, not exceeding \$75. Where the sole dependent is a widow or invalid widower, payments during the lifetime shall be made at the rate of \$20 per month. In cases of a widow with children under the age of sixteen years, an additional \$5 per month would be added for each child.

In cases of permanent partial disability, payments are to be made on a scale to be established by the board, and are not to exceed \$1,500. If All Played Out, Try This Prescription. When that overpowering weariness and a never-rested feeling comes over you, it shows some serious disorder is undermining your health. The cure is simple. Build up the system and nourish the body back to health by pure wholesome blood.

The one sure means of doing this is with Dr. Hamilton's Pills. They are a marvelous aid to appetite—convert all you eat into nutriment and tissue-building material. Thus a weak body is supplied with new nerve fibre, hardy muscle and firm flesh. Lasting good health is sure to follow. If you really want to get well and stay well, use Dr. Hamilton's Pills, 25c. per box at all dealers.

port of these bills, the minister of lands and mines said that conservation was a subject which had been receiving much attention in recent years, and on account of the war people generally were realizing the vital importance of the economical utilization of all resources. Up to the present New Brunswick had been dilatory in making the best of her great asset and principal source of revenue, the forests. For many years the idea prevailed that the timber stand in this province was unlimited and inexhaustible.

Naturally little attention was paid to conservation. Lumbering operations were carried on in a most wasteful and careless manner, and without any regard for the future. The result was the depletion of the forests had been interfered with. The casual observer could note that the forests are falling. It would take only a visit to the rivers or mill ponds to see the change that had taken place within a comparatively short time in the size and quality of the saw logs. Fir, which a few years ago was left standing in the forest, had come to com-

Whatever your income may be, a certain amount of it is vital to your existence. Let us say this vital sum is only fifty dollars per month. That you must have.

Why not Insure it? "How can I" you say, "make sure that I and my family will be certain to have Fifty Dollars a month?" We have a way.

There are two things which might affect or entirely destroy your income. First, accident or ill health which leaves you totally and permanently disabled. Second, your own death. Both are provided against by our new Special Indemnity Policy.

Suppose some day before you reach age sixty you meet with a mishap and become totally and permanently disabled through accident, paralysis, a nerve attack, electric shock, blindness, rheumatism, or one of those many forms of ailment which might leave you unable to earn a living.

Such a thing might happen the day after you secure this new Policy of the Canada Life. Immediately the payment of premiums would be cancelled. The Canada Life would become responsible for sending you \$50.00 a month (or more, as you may have arranged) for the rest of your life.

No matter how long you might live to receive these monthly cheques, the Canada Life would still pay the full face of the policy—\$5,000, and profits—upon your death, to your beneficiary. Surely you will look into this at once. It is impossible to state here all the advantages of this new Policy nor can we impress upon you too strongly how comparatively small is the premium required to place this barrier between you and possible disaster.

That vital \$50 a month

(Guaranteed to you by the Canada Life)

A Man's Income

\$50 a month, and satisfied—

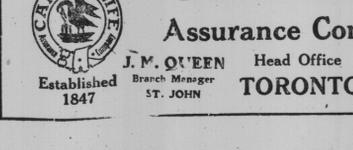

\$100 a month, and married—

\$300 a month, and prosperous—

Back to \$50 a month, and an invalid.

The Canada Life will pay the proceeds of the Special Indemnity Policy to your Beneficiary either as an income for a stated number of years or in one sum.

Canada Life Assurance Company, Toronto. J.M. QUEEN Head Office. Branch Manager ST. JOHN TORONTO. Established 1847. Dear Sir—Without obligation on my part, please send me particulars of your new Special Indemnity Policy. Name Address Born day of 19

The Grandmas Sage Tea To Darken Her Hair.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By smearing on gray hair disappears, after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a legitimate toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

price thirty or forty per cent. of the operations. This was prima facie evidence that the spruce was being depleted rapidly.

White Pine Gone. In the early days of New Brunswick, white pine formed the most valuable part of the forest, and huge quantities of that timber were exported to Great Britain.

Later spruce was in demand. Large mills and scores of portable mills were operated to meet the demand for spruce, and in consequence of the indifference and the wasteful methods of the jobbers, spruce fast was going the way of the pine.

This was proof that the province had been grazing and if not feasting upon its capital stock, and no country, any more than company or private individual, could afford to trespass upon its capital.

The report of the forestry department shows that up to October 31 last the field parties had surveyed and examined 1,200,000 acres of crown lands. The drafting of plans and compiling of timber estimates had been completed for 800,000 acres, of which the percentages were as follows: 77.8 per cent. supporting merchantable timber suitable for saw logs, 10.2 per cent. burnt over land on which there is sufficient reproduction to assure a future timber crop, 8.07 per cent. covered with hard wood stands, etc.

By applying these figures to the total crown land area of approximately 7,200,000 acres it will be found that 23 per cent., or 1,657,500 acres, does not support merchantable timber. It is burnt over land, burned land, etc. The 1 per cent. covered by hardwood has present value, but this wood may be a demand in the not distant future.

The averages quoted would give the crown land a timbered area of 5,542,500 acres. Applying the softwood stand per acre to this an assumed commercial stand of soft wood of 5,200,000,000 feet will be secured.

Scalers returns from 1910 to 1911 inclusive give a total cut of 2,228,387,215 feet, an average cut of 278,500,000 feet per year. This would indicate that the present assumed commercial softwood stand is about eighteen times the average cut of the last eight years.

This did not mean that the softwood would be exhausted in eighteen years, because the annual growth was applied against the annual cut.

An annual growth could be expected on the greater portion of the timber estimate given before, and also an under-size spruce and fir which would be in the vicinity of 8,000,000,000 feet.

Some of the under-sized timber would reach commercial size in eighteen years. Much of the timbered land contained barrens and growth was low, while other areas had never been cut over, and the timber was over-matured the annual growth being low on account of loss from deterioration. Other areas had been very severely cut over and the annual growth was largely offset by wild fire, decay and insect damage.

In pure hardwood stands little soft wood growth could be looked for, because hardwoods form such a complete shade that softwoods are suppressed.

For the various reasons offered, the average annual growth would apply to not more than 5,000,000 acres. Inventions into the annual growth were not

THAT BOND ISSUE

General Manager of Bank of Montreal Congratulates Government on Having Disposed of Securities on Such Favorable Terms

Fredericton, N. B., March 15.—While opposition critics have been questioning the terms of the recent provincial bond issue, no less an authority than Sir Frederick Willoughby, general manager of the Bank of Montreal, entertains quite a different opinion from those of the financial experts of the opposition.

This opinion is that the province is to be congratulated on the favorable terms arranged. Sir Frederick's views are quoted in a letter from the manager of the Bank of Montreal in Fredericton, under recent date, addressed to Premier Foster, and reading as follows:

"I beg to convey to you the congratulations of this bank on the recent sale of \$1,000,000 Province of New Brunswick securities. In this connection our general manager writes as follows: "Referring to your letter of the 16th inst., advising the sale of the whole issue of \$1,000,000 Province of New Brunswick bonds, the government are to be congratulated on having disposed of these securities on terms that cannot but be considered reasonable under all circumstances."

yet complete and it was expected that the conservation commission would cooperate to continue this important work during the summer. Mr. Caverhill, former chief of the forest survey, found from examination of some 2,600 trees in various parts of the province, that the annual growth per acre was in the vicinity of fifty board feet. On the same basis an annual increment of 25,000,000 feet was looked for. From the figures given it would appear that the annual cut had exceeded the annual growth, but he must state further, Mr. Prince, present head of the forest survey, from investigation had learned that several of the most valuable woods to rot through carelessness in logging operations.

The minister stated further that if there had been an indifferent scaling it would form an additional loss to the province. Facts such as these should awaken the public to the serious peril of the loss of this great source of revenue, and it is patent that immediate measures must be taken to save and protect the present and future forest growth.

The forestry branch. Speaking of the forestry branch of his department, the minister of lands and mines said, that in his opinion the establishment of this branch was a step in the right direction, and the late government deserve much credit for having taken an important division to the department. The work done by this branch, under the able direction of G. H. Prince, and begun in 1910 by P. Z. Caverhill, would be of the greatest benefit to the province in arriving at the extent, condition and value of the growth upon the crown lands as well as in determining where agricultural lands are located. In the past little attention had been paid to the condition of soil. Under the labor act settlers had been allowed to take up lands which were unfit and unsuited for farming purposes. The unfortunate result was that hundreds of the abandoned farms existed throughout the province. These should have remained in the crown for tree growing, for which purpose they were suited.

Members of the outside service under the forest act would be appointed on their qualifications and merits. Practically all the examinations would be held by a board of examiners of the commission. The examinations would be partly oral and partly written, and he did not believe would be too difficult. Physical ability and good character of the applicants would be taken into consideration. The speaker took the opportunity to apply for appointments would be given every consideration.

The forestry commission would not be an independent commission, but rather an advisory board of five members, two or whom would represent business of the crown land and owners of wilderness land respectively. It was expected to receive \$20,000 annually to be levied as a special tax on lumbermen and owners of wilderness land and in return for that those lands would be protected from fire. On that account it was desirable that both classes be represented on the commission. He hoped that the protection from fire would be afforded and that the act which he had introduced would be the most comprehensive forest fire act in the dominion. The annual cost of maintenance and operation of the commission would be in the neighborhood of \$100,000. Part of that would be received by special taxes on wild lands and lumbermen and the balance from consolidated revenue. Heretofore \$72,000 a year had been spent in this department. Under the new act the cost would not be any more and perhaps not so great. With the efficient staff contemplated a good return would be given the owners of lands.

The minister said he believed the existing fire protection act to be a back number and not workable. The new act would be efficient. It was based on existing legislation in Canada and upon data secured from the United States and Europe. In the past railways had caused much serious forest fires. Since 1908 the railway commission had done much to improve protection. However, the Canadian government railways had not come under the operation of the commission and he believed that in the past these railways had displayed indifference. Recently he had been informed from Ottawa that the provincial representatives would endeavor to have the Canadian Government Railways placed under the railway commission, in so far as fires are concerned. A short time ago he had conferred with C. A. Hayes, general manager of the C. G. R., who had promised an efficient fire protection system.

In other provinces permits were required before settlers could set fires for the clearing of land or the disposal of debris. In New Brunswick settlers' fires in the past had caused enormous damage. Under this act a permit system was to be applied to this province. Under it, when a fire was permitted, a ranger or fire warden would be on hand to watch. Recently in British Columbia and Ontario forest fires resulting from settlers' fires had burned over 10,000

square miles of land and cost 255 human lives. Within recent years New Brunswick had escaped, but there was no guarantee that she could escape. He believed that with the proposed efficient system of protection to serious fires could occur.

The bill was read the first time. The house went into committee with Mr. Leger (Westmorland) in the chair and took up further consideration of the bill to amend the Towns Incorporation act relating to the sale of coal and wood. The bill was agreed to.

The committee then took up further consideration of the act relating to short-hand reporting in county courts. Hon. Mr. Byrne expressed the opinion that the bill as drafted made ample provision for the proper qualification of court stenographers. He moved that the bill be reported as agreed to.

Mr. McCraith objected to the section, which empowers the judge to enter a verdict against the party failing to pay the stenographers fees. Mr. Messerieu thought the view of the honorable member for Northumberland should be met by amending the bill so that payment of the fee should not be made compulsory for each party.

Mr. Tilley said that the employment of a stenographer in county courts by shortening the term of such courts would lighten the burden on the litigants. The provision complained of appeared in every similar act and he did not see why the time of the house should be taken up in discussing it.

Mr. Messerieu said he proposed to take up all the time he wanted in discussing the bill. The committee next considered the bill to provide an annuity for Jane Dickson, widow of Joseph Howe Dickson, and agreed to the same.

Hon. Mr. Robinson introduced a bill to amend the warden and vestrymen of St. Paul's church, Moncton, to sell certain lands. Hon. Mr. Byrne introduced a bill to amend the registry act. He explained that the bill, although a short one, would have far-reaching effects. It particularly affected soldiers overseas who might have to execute certain documents. There had been complaints of excessive fees now exacted in cases of this kind, and the bill proposed to permit administration papers in future to be taken by officers commanding units in which the men are serving, and make the usual certificate.

Mr. Tilley wanted to know if any provision was made with regard to soldiers owning real estate. Hon. Mr. Byrne said the bill would meet such cases but would have nothing to do with the making of wills.

Hon. Mr. Foster moved that when the house adjourned it would stand adjourned until Tuesday at 8 p.m. To make up the time, it was proposed to hold a sitting of the house on next Friday evening. He called attention to the fact that Good Friday would fall in the following week and it would be necessary for the house to adjourn on the previous Thursday. He said that private legislation, although extensive, was not coming along very rapidly and intimated that it would be necessary to enforce the rule.

The house adjourned at 8:25 p.m. Five hundred rifles have been issued to Chicago policemen to check the crime wave which is sweeping that city.

These are Anxious Days

NEVER in the history of this old world have the people lived under such tremendous nervous strain as to-day. Millions awake each morning in fearful dread of what the day may bring forth, and live each hour with nerves at highest tension. Nothing breaks down the nervous system so quickly as worry and anxiety, and this is why so many people are suffering from nervous headaches, sciatic and neuralgic pains, nervous indigestion and general failure of the vital organs to properly perform their functions. When you get so nervous that you do not rest and sleep well nights it is time to be alarmed, for it is very much easier to prevent nervous prostration, paralysis and locomotor ataxia than it is to cure these dreaded diseases. After years of testing under the most severe circumstances Dr. Chase's Nerve Food stands in a class by itself as the most successful nerve restorative to be had. This is being proven every day by new evidence. Ask your neighbors and friends about it and read the reports in this paper, from time to time, from persons who have been cured. The treatment most widely used is Dr. Chase's Nerve Food, popularly known as the food cure, because it feeds the exhausted nerves and stores up nerve force and nervous energy.

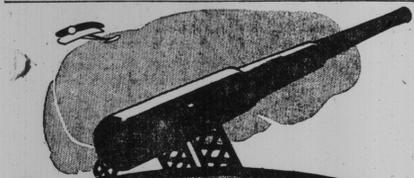

Dr. Chase's Nerve Food

Dunlop "Gibraltar RedSpecial" Belting

Abnormal Friction Pull vs. Elasticity of Friction

BETWEEN every ply of specially-selected, heavy Cotton Duck in Dunlop "Gibraltar RedSpecial" Belting is a layer of pure Rubber which, through a Dunlop calendering process, so permeates the fabric that it binds the several plies into one integral piece.

Some belt manufacturers offer to sell their product on the basis of "Heavy-Poundage in a Friction-Pull" Test. To obtain the latter result it is not necessary to secure such an expensive Rubber Friction as is used in "Gibraltar Red Special." This fact alone ought to be a pretty good gauge of the value of the "friction-pull" test.

In buying "Gibraltar RedSpecial" you get the advantage of years of careful laboratory work on our part with this result: The friction is of that "just-right" elastic quality which allows for the give and take necessary in rounding the pulleys; hence the reason "Gibraltar RedSpecial" is known for maximum Power, Speed and Service.

UNLIMITED capacity for service is an intrinsic quality with Dunlop "Gibraltar RedSpecial" Belting. The success of nearly a quarter of a century in the manufacture of Rubber Products is built into Gibraltar. The original Made-in-Canada Red Rubber, Frictioned Surface Belting, "Gibraltar RedSpecial" has stood the inflexible test of time in turning the wheels of industry in a multitude of Canadian plants from the Atlantic to the Pacific.

The Dunlop Unreserved Guarantee. If you have a difficult drive anywhere in your factory drop a line to our Head Office, or to our nearest branch, and we will send a man experienced in belt engineering to consider your requirements. If it is an instance where the "Gibraltar" Belting may be suitably employed we will recommend its use, and we will stand behind our recommendation with the fullest guarantee ever issued by a firm producing rubber products.

A Maple Sugar Enthusiast
Advocates use of Maple Sugar. Lady Hendrie of Ontario sets patriotic example for good Canadians

LADY HENDRIE.

"To put it in the simplest way—saving food means helping to bring the war to an end. There isn't a woman in Canada who could not work for that end, and surely any woman who has anyone near and dear to her over there will double her efforts to save and produce if it means that she can help to bring the war to an end. We must just trust to Providence that there will be enough for all courses in time to come. Meanwhile, there is our Allies' need, which cannot and must not be ignored."

Lena E. Hendrie

The son of the lieutenant-governor of Ontario was among the first to volunteer for overseas service, and he has passed something like three and a half years in the firing line. Naturally, his mother, Lady Hendrie, exhibits more than mere casual interest in the daily increasing problems arising in connection with the supply and distribution of foodstuffs.

She had just come from the kitchen, where she had been conferring with her cook, when an interviewer found her at Government House, Toronto.

Anxious to do all she can to help the Canada food board in whatever it decides is most essential, Lady Hendrie was one of the first women in Toronto to give impetus to the carrot and onion campaign recently conducted in that city. She thinks it is the solemn duty of every woman to do the little things that are asked of her in food-saving-service in the kitchen, she believes, being now as important in a sense as the work that the Red Cross nurse or

GIRLS!

Without money, how can you buy the things you need? The answer is simple. Buy the things you need on credit. The only way to do this is to buy the things you need from a store that will let you buy on credit. The only store that will let you buy on credit is the store that has the best goods at the lowest prices. The only store that has the best goods at the lowest prices is the store that has the best goods at the lowest prices.

whatever the food board asks of them—and to do it without compulsion.

"We are not suffering ourselves, and that is what makes it harder for us to realize what we should do, without having the way pointed out to us. In a country of such plenty, and accustomed as we are to be practically self-supporting, it is a difficult matter for us to understand the misery that can be occasioned by the scarcity of food. I don't think any woman who is anxious to help will think of hoarding. We must just trust to Providence that there will be enough for ourselves in the time to come. Meanwhile, there is our Allies' need, which cannot and must not be ignored."

Cincinnati Authority Tell How to Dry up a Corn so it Lifts Out

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of kerosene applied directly on the tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without pain.

A quarter of an ounce of kerosene costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and it said not to inflame or even irritate the surrounding tissue or skin.

MADE SUICIDE PACT

Man Kills Himself But Wife and Daughter Change Mind

Akeley, Minn., Mar. 16.—Wm. Peregrin, a Socialist leader in this section, committed suicide by placing a piece of dynamite in his mouth, lighting a fuse, and blowing off his head.

The Department of Justice had been investigating his activities in connection with agitation for repeal of the draft law last June.

After being questioned by government officials, Peregrin, according to the story told by his wife, declared he would have to go to jail sooner or later and that it would be better for him to kill himself. His wife agreed with him, and it was decided that she and their daughter would also commit suicide at the same time, using dynamite.

When Peregrin had secured the dynamite, Mrs. Peregrin said that his wife and daughter, who is twelve years old, withdrew from the agreement.

ROCKEFELLER MUST PAY \$38,400,000 IN INCOME TAX TO U. S.

Estimated Assessment on Yearly Revenue of \$60,000,000 — Fortunes of 30 Richest Big Surprise to Many

New York, Mar. 16.—Of the \$80,000,000 which the Federal government expects to derive this year from internal revenue sources, John D. Rockefeller will contribute about \$38,400,000. Henry C. Frick will pay the next largest income tax, \$11,000,000.

The twenty-nine wealthiest persons after Mr. Rockefeller will pay a total income tax of \$86,100,000.

The operation of the income tax as well as the excess profits tax has come as a great surprise to many, especially to the men whose incomes were increased by war activities last year. One of the most notable examples was discovered in a case in which a man who made \$100,000 last year had to turn over to the government in taxes \$68,000. Internal Revenue Collector William H. Edwards stands by the estimate that \$80,000,000 will be collected from the Wall Street district alone.

Though Mr. Edwards refused to give any information on the subject of the Rockefeller income or taxes, there is a method of computing which gives a reliable result. All incomes of more than \$20,000 must pay a surtax of 68 per cent. In addition there are normal taxes and the excess profits tax. Few of the richest thirty men will have to pay an excess profits tax, as their incomes are derived from securities on which that tax is already collected. The most authoritative estimate puts the Rockefeller holdings at \$120,000,000 and his income at \$60,000,000.

Incomes and taxes payable of the thirty richest persons are estimated as follows:

Name	Estimated yearly income	Estimated income tax
J. D. Rockefeller	\$60,000,000	\$38,400,000
H. C. Frick	11,000,000	7,100,000
And. Carnegie	10,000,000	6,400,000
Geo. F. Baker	7,000,000	4,800,000
Wm. Rockefeller	7,000,000	4,800,000
Edw. S. Harkness	6,250,000	4,000,000
J. O. Armour	6,250,000	4,000,000
Henry Ford	5,000,000	3,200,000
W. K. Vanderbilt	5,000,000	3,200,000
Edw. H. R. Green	5,000,000	3,200,000
Mrs. E. H. Harr	4,000,000	2,560,000
Vincent Astor	3,750,000	2,400,000
James Stillman	3,500,000	2,240,000
Thos. F. Ryan	3,500,000	2,240,000
Chas. M. Swab	3,500,000	2,240,000
J. E. Morgan	3,500,000	2,240,000
Das Guggenheim	3,500,000	2,240,000

Fat That Shows Soon Disappears

Prominent fat that comes and stays where it is not needed is a burden; a hindrance to activity, a curb upon pleasure. You can take off the fat where it shows by taking after each meal and at bedtime, one Marmol's Prescription Tablet. These little tablets are as effective and harmless as the famous prescription from which they take their name. Buy and try a case today. Your drug-gist sells them at 75 cents or if you prefer you may write direct to the Marmol's Co., 514 Woodward Ave., Detroit, Mich. You can thus say good-bye to dieting, exercise and fat.

Green and there was a good attendance of the boys. The subject on which Mr. Green spoke was work among the returned soldiers and he told of the ways in which the returned men, who are unable to carry on the trades at which they worked before the war, are being fitted to earn their living by other means. The talk was illustrated by a number of excellent slides. The boys enjoyed the talk very much.

LATE CASUALTY LIST

Ottawa, March 15.—Tonight's casualty list of forty-eight names reports twenty Canadian soldiers killed in action, three died, three presumed to have died, one missing, two prisoners of war, ten wounded, four gassed and five ill.

The maritime names are:

INFANTRY.
W. Edmondson, Moncton (N. B.)
J. J. McGinnis, St. John West (N. B.)
Died.
Sergeant A. F. McNair, Apohaqui (N. B.)
B.
Prisoner of War.
Lieut. R. P. Steeves, Sussex (N. B.)
Sergeant Ill.
H. V. Brown, Tristown (N. B.)
J. Crossen, Stellarton (N. S.)

U. S. exports dropped \$286,000,000 during the first seven months of the present fiscal year.

PRINCESS MAHALIA
The World's Greatest Beauty

Beauty is more dependant upon a clear complexion than upon regular features. A woman may have a pug nose and a large mouth but if her skin is clear and her teeth good she will be attractive. The dentist can remedy defective teeth and a short treatment with our Alternating Method of an Oil Cream for use at night and a Vanishing Cream for the day will make a wonderful change in a few days. Ask your druggist for Seely's Double Cream. If he cannot supply you send us \$1.00 and we will mail to you. A postal brings booklet and samples of Mahalia Face powder and Seely's.

SEELY, Perfumer
Windsor, Ont. Detroit, Mich.

Mrs. Reid Slipp.
Central Hampstead, March 15.—The death occurred at her home in Central Hampstead today of Mrs. Reid Slipp, a well known and highly respected resident. Mrs. Slipp was aged eighty-one years and four months. She was the mother of four children, all of whom

survive. They are W. Judson Slipp of Hampton; Hon. A. R. Slipp of Fredericton, former minister of lands and mines; Bruce Augustus Slipp and G. Bayard Slipp, both of Central Hampstead. She is also survived by six grandchildren. The funeral will be held Sunday afternoon at 2 o'clock at the Central Hampstead church.

Grandmother's Pies are done

HOW luscious they look as she takes them from the oven. Here is a kind well worth your attention, made from dried apples, small raisins and brown sugar. "Spring mince pies" grandmother called them. She had many other delicious pies and pudding made from brown sugar.

—in fact she hardly used any other sugar for cooking.

Lantic Old Fashioned Brown Sugar

is just like the sugar that Grandmother used to use. It comes in *Light, Brilliant* and *Dark Yellow*, but the *Brilliant Yellow* is about right for most of the things Grandmother made and for your own favorite brown sugar dishes.

You should keep brown sugar in your pantry and you should use it often. It has a delicious characteristic flavor essential to the success of many dishes. It is economical, too, costing less per pound than granulated.

If you don't know how to make Grandmother's good old-fashioned dishes, no matter. We have just printed a delightful new booklet called "Grandmother's Recipes." It is devoted entirely to brown sugar goodies. Send for it to-day enclosing 2 cent stamp to cover cost of mailing and please add the name of your grocer.

Lantic Old-Fashioned Brown Sugars are made by the same firm that makes the famous Lantic "FINE" Granulated.

BOWLING. Western Union Wins. In the Y. M. C. A. commercial bowling league last evening the team from the Western Union won from the Ames Holden McCready, Ltd. team by three points to one.

Table with bowling scores for Western Union, Ames Holden McCready, Ltd., Owens, Murphy, Clark, Paterson, and McDermot.

Table with scores for a Double Header match between Western Union and Ames Holden McCready, Ltd.

Mother and Children Had Awful Coughs

WERE CURED BY DR. WOOD'S NORWAY PINE SYRUP. Mrs. Arthur Appleyard, Novar, Ont., writes: "This past winter my children and I had awful colds and coughs which we got by being in drafts. I tried a number of different remedies for us, but got no relief. I thought I would try Dr. Wood's Norway Pine Syrup, and I found it a most excellent and sure cure. It gave relief to the tickling in the throat and stopped the cough, and with a few bottles we were all cured."

WAS OFF WORK 4 or 5 MONTHS A YEAR WITH CONSTIPATION

If the truth were only known you would find that over one-half of the ill of life are caused by allowing the bowels to get into a constipated condition. When the bowels become constipated the stomach gets out of order, the liver does not work properly, and then follows the violent sick headaches, the sourness of the stomach, heartburn, water brash, etc.

PALACE SPECIAL PROGRAMME FOR MON. and TUES.

Violet Messereau and Harry Benham in a 3-Act Drama of the African Jungles, Entitled "SOULS UNITED"
Dave Morris in a 2-Act L-Ko Comedy "BULLETS AND BONEHEADS"
Shorty Hamilton in "BUCKING SOCIETY" A 2-Act Comedy Hit

of Willard. Colonel Miller had been in conference since yesterday with Collins trying to reach an agreement. Collins at the final conference rejected Miller's flat offer of \$15,000 and declared that to reach an agreement Fulton would have to be guaranteed one-fourth of the sum Willard would receive.

ATHLETIC Sports at Y. M. C. I.

In the Y. M. C. I. last evening one of the finest and most successful sets of sports that has been witnessed since the founding of the institute was carried out before an audience of ladies and gentlemen that fully taxed all available room. The gymnastic exhibition was arranged by J. A. McNamara and it is a matter of much congratulation to him to know that so many contestants appeared on the floor and also that such a large audience turned out, despite the cold weather, to see events that were well worth the trouble.

HOUSING IN ST. JOHN

Revival of Interest in Subject of Great Importance—Recommendations That Were Made as Result of Survey in Section of City

The discussion of the housing problem by the Associated Charities this week will revive the interest in the housing survey and report made jointly by the board of trade housing committee, headed by W. F. Burditt, and the board of health, through the hearty cooperation of Dr. G. G. Melvin, the medical health officer, who superintended, with Mr. Burditt, a housing survey of the area bounded by Union and Brussels street and Courtney Bay.

RECOMMENDATIONS
Garbage Collection. The facts stated in a paragraph under the heading "Yards and Garbage," point forcibly to the need of a municipal system of garbage collection and removal. It is evident that the law prohibiting the accumulation of garbage and refuse is not enforced, and cannot reasonably be enforced against poor people who barely have the means of subsistence and cannot afford to pay for garbage removal or buy fuel for its incineration.

Model Houses. To those who have studied the housing problem more or less superficially, the first remedy for existing evils which suggests itself is to provide, either in model tenements or separate cottages, a better class of dwellings for working people in which every necessary requirement for life and health will be provided at a minimum cost. The idea being that if such provision were made the slums would be deserted, the insanitary and dilapidated quarters now occupied by the poor would become untenable, and the evils complained of would speedily disappear.

The Walmer. Study the smart style lines on this garment. 20th Century Brand of course. Exclusive Agent: Gilmour's 68 King Street

The medical health officer should have power to determine the number of occupants, sleeping, which any room may accommodate, and to enforce his mandate except on permit from medical health officer after ascertaining that suitable provision is made therefor.

BAKER'S BREAKFAST COCOA. The food drink without a fault. Made of high grade cocoa beans, skilfully blended and manufactured by a perfect mechanical process, without the use of chemicals. It is absolutely pure and wholesome, and its flavor is delicious, the natural flavor of the cocoa bean. The genuine bears this trade-mark and is made only by WALTER BAKER & CO. Limited. Montreal, Can. Dorchester, Mass. Established 1780

PURITY FLOUR (Government Standard) A Dependable Flour For All Your Baking. MANUFACTURED BY Western Canada Flour Mills Co. Limited

GOOD THREE TIMES A DAY. Parched corn, during the United States Civil War, dry and unpalatable as it was, furnished many a wholesome meal and sustained the endurance and courage of many a brave soldier. Corn contains all the elements for tissue building and energy making. Put up as Kellogg's Toasted Corn Flakes, it is a delicious, appetizing, three-times-a-day food—not merely a breakfast food. Sold only in the original red, white and green package. Kellogg's TOASTED CORN FLAKES. LICENSED BY THE FOOD CONTROLLER UNDER NUMBER 2-055. ONLY MADE IN CANADA BY The Battle Creek Toasted Corn Flake Co. Head Office and Factory: London, Ont.

the construction of buildings, which embody the provisions of the building regulations, provides solely for the structural strength of buildings and protection against fire. Doubtless these building regulations enacted in the year of the great fire, 1877, need revision to better adapt them to present day conditions, even to the purpose for which they are intended, but recently modern cities embrace many matters that it was not thought necessary to deal with at the time the St. John law was framed. The object and purpose of a building code or set of building regulations is to better adapt them to present day conditions, rather than with their habitability and the health and comfort of the occupants.

Under the first heading (A) relating to the construction of buildings, a housing law should provide: 1. For prevention of land overcrowding, by limiting the proportion of the lot that may be occupied by buildings. 2. For adequate light and ventilation of dwellings, by prescribing minimum dimensions of rear yards, side yards and courts, and a minimum space between buildings. 3. For room lighting and ventilation, by providing a minimum proportion of window area to floor space, that windows must open directly upon street, yard or court, and must have movable sashes. 4. For rooms of adequate size, by fixing minimum floor space and height. 5. For lighting and ventilation of halls and staircases of multiple dwellings. 6. For adequate means of egress from each floor of multiple dwellings. 7. For lighting and ventilation of water closets. 8. For separate water closet accommodation for each family. 9. For the prohibition of cellar water closets, except under special conditions approved by health officer. 10. For adequate and convenient water supply for each family. 11. For effective drainage of courts, yards and areas. 12. That no multiple dwelling shall be erected and no building be occupied as a multiple dwelling where no connection can be had with proper sewerage system.

adequate force of inspectors, and that the prosecution of offenders should be made in some cases mandatory upon rather than optional, with the officials who are responsible for the enforcement of the law. The law should also designate what particular official is to be responsible for the enforcement of its several provisions. For certain regulations it would be the building inspector or similar official, for others the chief medical health officer, and for others the chief of the fire department; but the law should definitely place the responsibility upon one particular official for the enforcement of each of its provisions. It is not pretended that the foregoing suggestions as to what a housing law should provide for, are by any means complete or comprehensive, but they indicate in barest outline some of the more important matters with which housing legislation should deal. They result mainly from a study of the English Housing Act of 1909, and "A Model Housing Law" by Lawrence Veller, to whom acknowledgements are due for most of the information upon which the suggested remedial measures are based. No better authority can be consulted by any one interested in housing reform, or one might safely follow very closely the Model Law which Mr. Veller has prepared as a result of many years experience in dealing with housing problems.

Education should go hand in hand with legislation. There are responsibilities of the tenant as well as those of the landlord, but tenants frequently fail to recognize that fact, and many a landlord who has been willing and desirous

to provide for the comfort and convenience of his tenants, has been discouraged by their failure to appreciate the value of property and their disregard of the owner's rights. This is often due to lack of knowledge rather than to wanton destructiveness; and experience has shown that when improved conveniences and appliances have been provided for people previously unaccustomed to them, it pays to furnish at the same time some measure of training and education in the proper use and care of such improvements. It was the recognition of this fact which many years ago prompted Octavia Hill in the City of London to start that system of friendly rent collecting which has since become associated with her name and has been found in many cities to be so beneficial in bringing about a recognition of the mutual interests and the mutual responsibilities of landlord and tenant, incalculating at the same time lessons in domestic economy, frugality and cleanliness; a plan which wherever adopted, has had the effect of vastly improving the condition and circumstances of the tenants, while facilitating compliance with sanitary laws and largely increasing the net returns from property. An Octavia Hill Association, properly organized, would find in St. John ample scope for its activities, and would accomplish a great deal of good, not only for the particular subjects of its care, but for the entire community. In submitting this report the committee realizes that the war in which our country and empire are engaged, and the outbreak of which occurred while this report was in preparation, must necessarily absorb the attention of every British community to the almost complete exclusion of all other matters until it is over, but it is hoped that a happy conclusion of the terrible conflict in which the nation is now engaged, may before long enable our people once again to turn their attention, with renewed interest and the enhanced spirit of self-sacrifice born of war, to the subject of community welfare. Respectfully submitted on behalf of the committee, W. F. BURDITT, Chairman.

CROWN BRAND CORN PURE SYRUP. has all the sweetness of the Golden Corn from which it is made. Try it! Children Love It! A wholesome spread for a piece of Bread. "Crown" Syrup is a pure, delicious Table Syrup—much less expensive than butter. Fine for homemade Candy. All grocers sell it in 2, 5, 10 and 20 lb. tins and 3 lb. "Perfect Seal" Glass Jars.
