THE PRIMITIVE BAPTISTS.

Held Their First Annual Conference July 2-4.

The first yearly gathering of the religious body lately incorporated as Primitive Baptists was convened at Hartland, July 2nd., 1898. Usual Conference or experience meeting opened at 2 p. m. There was a large attendance of members from the various Churches, with nine preachers and three licentiates, also from the Baptists Denomination we were favored with the presence of Revds. Hayward, Young, H. Shaw and Corey. The meeting was of good interest, with the time well occupied, and the remarks of the Baptist brethren very sympathetic and encouraging. The evening was spent in accepting and organizing under the act of incorporation as Primitive Baptists. The name was unanimously accepted and regular officers appointed. All the active churches were reported. Addition during the year 25 or 30 by baptism and letter. The communion was administered at the close of the afternoon meeting.

Sunday services commenced at 9 o'clock a. m. by prayer meeting conducted by Bro. Allen Stairs. Preaching at 10:30 by Elder S. E. Currie. The Baptist of Hartland village kindly tendered the use of their vestry, which was occupied Sunday morning by Rev. C. H. Orser accompanied by Kilcollins, Corey, Stairs and G. A. Giberson. Afternoon service at 2:30 led by Rev. D. E. Brooks, while Bro. Stairs served for Elder Hayward at Middle Simonds accompanied by Rev. S. W. Bennison. Evening services 7:30., preaching again by Elder S. E. Currie and at the Baptist vestry the same hour.

The whole of Monday and Tuesday forenoons were occupied in business routine connected with the new organization and measures calculated for the advancement of the cause of Christianity. Among the quite numerous resolutions passed was that this Conference heartily sympathizes with the effort to obtain an act of Prohibition against the manufacture and sale of intoxicating beverages. Also that we recommend to all members and followers to vote for it on the Plebiscite. A vote of thanks was voted to be tendered the Baptist people, particularly for household entertainment and church privileges, also to all others granting the like favors. Monday evening preaching by Elder C. H. Orser.

Dr. Chase cures Catarrh after Operations Fail

Toronto, March 16th 1897.
My boy, aged fourteen, has been a sufferer from Catarrh, and lately we submitted him to an operation at the General Hospital. Since then we have resorted to Dr Chase's Catarrh Cure, and one box of this medicine has made a prompt and complete cure.

Progress of the War.

Spain is beaten. The naval engagement of Admiral Sampson and the Spanish squadron on Sunday removes Spain's last vestige of hope. And again another remarkable record is made. Cervera's whole fleet was utterly destroyed, and serious injury was done to not one American vessel. The Spanish loss of life was terrible; the American, not any.

On land where severe fighting has been going on, the American loss of life has been heavy, but Uncle Sam is victorious.

The Cadiz fleet has sailed for the Phillipines, having just passed the Suez Canal. What they expect to do there is not known. Ere they reach port the Charleston will have arrived and her crew landed. Thus reinforcing Dewey he will be able to easily withstand the Spanish onslaughts.

Take Warning

A sad accident, which occurred in Fort Fairfield, is a renewed lesson to boys who are addicted to the careless use of such things as fire arms, cartridges, etc. A young son of Charles Lovely, aged about 12 years, found a dynamite cartridge and began to pick at it with a pin. The cartridge exploded, shattering both of the boy's hands so as to necessitate amputation. The accident is the more painful from the fact that the boy was the main reliance of his mother, and was just growing into usefulness in earning money to aid in her support.—Ex.

Seriously Hurt.

George Davis of this village met with a serious accident on Monday. He was driving C. Humphrey Taylor's peddling cart along the road at Grafton when going down a decline the pole of the wagon dropped. The shock caused him to fall from his seat to the ground beneath the forward axle. The horses kept on, now pretty well alarmed, until the rear axle caught Mr. Davis in such a way as to give his back a terrible wrench and inflicting many severe bruises. Medical aid was at once summoned by George Dewitt of Somerville and Rich. Morgan, who were him, and George's wounds were properly cared for. He came up on the express and since has been confined to his bed. Mr. Morgan also received some injury in the fracas.

Thunder Showers.

The first thunder storm of the season passed over this vicinity Sunday evening. It was of short duration but of extreme violence, though little damage is reported. The rain fell in torrents and vivid flashes of lightning came in quick succession. At Bloomfield a large pine tree standing near the church was struck and split in twain. No further damage was done although a building was directly under it.

A Canvasser's Experience.

Suffered From Kidney Trouble and Rheumatism—Was Becoming Despondent When Aid Reached Him.

From the Journal St. Catharines.

One of the most recent witnesses about Fonthill and vicinity regarding the virtues of Dr. Williams' Pink Pills is John F. Price, who is widely known in the Niagara District as he has been on the road as an advertiser and canvasser for six years, and has thousands of acquaintances. His complete cure has aided his lustre to the reputation of this great medicine. Hearing of Mr. Price's sufferings and restoration, a history of his case was requested. His story is:—"I am 26 years of age and have been afflicted with rheumatism for seven years. At times I have been unable to get my clothes on or off without assistance, and have often been compelled to have my food cut for me at table. In the winter of 1897 I was attacked with la grippe which settled in my kidneys. I then became so ill that I was compelled to abandon all employment. At that time my kidneys and liver combined in what seemed to me their last attack. I used several medicines and doctored in Buffalo and St. Catharines without getting any relief, so my confidence in medicine was about gone. I was getting no rest day or night and was becoming despondent, finally I was persuaded to try Dr. Williams' Pink Pills. I did so and have used in all eight boxes, and am now able to state that I feel better than in the past ten years. These pills are the nearest to a specific of anything I ever used, and they are the cheapest and best medicine I ever tested, having thoroughly reached my case and effected a cure. I feel so gratified for the relief I have obtained that I think it my duty to publicly make this statement. If all who are suffering will give Dr. Williams' Pink Pills an honest trial, I am sure they will be as enthusiastic in their praise as I am.

A Solitary Way.

"To every one of us, from time to time, There comes a sense of utter loneliness, Our dearest friend is stranger to our Joy, And cannot realize our bitterness."

How true it is that each must live our life alone. Our dearest friends catch only the reflection of the brightness of our joys; they cannot see the high lights, nor feel our happy heart thrills. Their vision is too short to see the flower bordered avenue through which we walk, nor do they hear the tender lullabys that woos us to sweet sleep and happy dreams.

There is not one who holds the key to the darkened chamber of our heart's sorrow; not one who hears the snapping of our heart strings as we stand beside the grave of our buried hopes. They do not see the ghost of our dead dreams, that walk beside us ever, nor do they feel the vague unrest that haunts our waking hours, and fills our restless nights with longings for the day. They do not see the bridge of love and trust we build across the gulf of broken faith, and when it falls beneath the weight of shattered promises, they do not feel the shock.

When our feet grow tired of always following a careless round of duty, and turn aside for just a little, they cannot understand what prompted us: they do not see the hands that beckon us to walk in shady flower-strewn lanes, nor hear the alluring voice that gently woos us to forget awhile, the barren plane of work and worry, and come to bright high hills of pleasure: and when we follow for a little, they censure when we follow for a little, they censure when they should have pity, because they do not understand, and so—"Each heart, mysterious even to itself, must live its inner life in solitude."—Lucy VanTress.

DR. A. W. CHASE SENDING FREE ADVICE TO THE SICK.

REV. J. N. VANATTER, OF ALBION, WIS., WRITES A LETTER ON DR. CHASE'S OINTMENT.

Sufferers are at Liberty to Correspond with the Above Address and will Obtain Full Particulars Regarding the Great Cure.

HERE IS WHAT HE SAYS:

Gentlemen,—My wife was most terribly afflicted with protruding piles, and contemplated a surgical operation. A friend of ours recommended the use of Dr. Chase's Ointment, and less than one box effected a complete cure. We were so pleased with the ointment that I tried it myself, as I have been troubled with an unsightly skin affliction which covered the lower part of my face.

For 25 years I suffered untold agony, and was treated by the best medical skill in the United States. I consider Dr. Chase's Ointment worth its weight in gold for piles and skin disease.

Dr. Chase's large-size recipe book, cloth-bound, sent to any address on receipt of 50 cents, by addressing Dr. Chase's Company, Toronto or Buffalo, N. Y.

The Village Meeting.

Retiring Commissioner Boyer Re-elected.

The annual village meeting was held in the "town hall" on Monday evening.

It was not so largely attended as upon former occasions and everything went off smoothly and peacefully.

The estimates for the ensuing year were brought down and \$500. of our good money was voted to meet running expenses and the interest on the money loaned.

Commissioner Boyer, who, it will be remembered, was elected to fill the vacancy caused by the resignation of G. F. Burt, was unanimously re-elected for another term.

No new business of importance was brought before the meeting. On motion of D. H. Keswick, Commissioner Bradley was especially commended for the very excellent manner in which he fulfilled his duties during the past year. A special credit was also given the secretary for the neatness and precision shown in the keeping of the village books. Fifty dollars was voted for his salary.

OVER 500 PEOPLE DROWNED.

The most horrible catastrophe that has ever occurred in steamship traffic took place in the early morning of July 4th, near Sable Island, off Nova Scotia. The great French liner, "La Burgoyne" was run into by the iron sailing vessel, "Cromartyshire," a hole stove in her side, and in half an hour she lay in the bottom of the sea. She was bound from New York for Havre, France, and had on board 725 souls, of whom only 163 were rescued. It was during a dense fog that the accident occurred. Instead of heroic discipline, which so often has been the one bright feature of such moments, the crew fought like demons for the few life boats and rafts, battling the helpless passengers away from their only means of salvation, with the result that the strong overcame the weak, and the list of 163 saved contains the name of but one woman.

L. LeB. Miles will leave in a short time for Campbellton, where he will at once commence work on the Restigouche and Western railway that will run from Campbellton to Grand Falls. They will build the first twenty miles this year. Malcolm and Ross are building the whole road. Mr Miles is to be the chief engineer. The whole distance is 120 miles. The country is well timbered and watered. Fish of every kind abound in the numerous streams and the forests full of big game. The road will follow the divide between the Restigouche and the Upsalquitch rivers until it comes to the Victoria county line which it follows the St. John waters down to Grand Falls.—Woodstock Dispatch.

The Corporation Drive.

Mr. R. Aiken reached the booms with the last drive of the corporation lumber at noon yesterday. There was 20,000,000 feet in the drive. A rise of about four feet of water took place on the upper waters the last of last week, taking all the stranded logs off the shore, and making driving easy and rapid.—Fredericton Gleaner.

FIRES.

Joseph Pierson's residence caught fire from Campbell's mill on Wednesday. The roof was burned off, when the fire was quenched. The residence of Richard Clark of Mount Pleasant was totally destroyed by fire on the same day. There was some insurance and the fire is supposed to have caught from the roof. About all the household effects were saved. The out-buildings were saved with great difficulty.

FRED H. STEVENS, - Editor & Publisher
HARTLAND, Carleton Co., N. B.
P. O. Box, 17.

It is hoped that the proposed pork packing factory in St. John will speedily be in running order. The Sun says: "The president of the Board of Trade received a letter yesterday from a gentleman in Carleton County asking if the new pork packing factory would be in working order by August. If so he would be glad to supply them with two thousand hogs at that time. He further says that Carleton County will have a very large hog product for 1898, and all kinds of crops are immense."

There is pretty good prospect of the speedy installation of an electric light plant in Hartland. L. A. Somers of the Royal Electric Company of Montreal, was here this week, and local capitalist have the matter in hand so that in only a few weeks the matter will be decided.

Hartland lacks electric lights to make it an up-to-date place, and the citizens should interest themselves and do all in their power to aid the enterprise.

Farmers Institute Meetings.

Under the management of the New Brunswick department of Agriculture and the Farmer & Dairyman's Association of New Brunswick, meetings will be held at places and dates indicated below. W. S. Blair, horticulturist of the Maritime Experimental Farm, will speak on "The Planting and Managements of Orchards." S. L. Peters, Queenstown, N. B., will speak upon "Dairying for Profit." Everybody is invited to attend the meetings and take part in the discussions. Ladies especially invited. Musical additions to the programs will be appreciated. The dates are: Tuesday, July 12th, 7:30 p. m., at Glassville; Wednesday, July 13th, 7:30 p. m. at Bath; Friday July 15th, 7:30 p. m. at Waterville. Mr. Blair will also visit orchards and fruit gardens on invitation.

Two Cheap Excursions.

To The Canadian North West.

Second class return tickets good to go on July 13 and 19th only, and to return within sixty days from date sold at following rates: Deloraine, Reston, Estevan, Binscarth, Moosomin, or Winnipegosis \$28.00 each; Regina, Moose Jaw or Yorkton \$30.00; Prince Albert or Calgary \$35.00; Red Deer or Edmonton \$40.00. Extension can be obtained at destination, not to exceed sixty days, on payment of \$5.00 extra per month, or part thereof. Stop over allowed at Winnipeg or West thereof only, on application to Conductors. Side trips in same territory at single fare, on application at Junction points.

Wheat Crop Failure.

Notwithstanding the good season there is a failure in local wheat crops. It seems that the seed did not all grow and part of what has grown has died as though blighted by some kind of an insect. It was expected there would be a largely increased production of wheat but from prospects now only an average yield will result, although there is larger acreage.

A terrible cloudburst, waterspout, and cyclone visited the district around about Chatham and Richbucto on Sunday. Rain fell in torrents nearly all day, and toward night the terrible storm burst. The recent heavy rains have caused the farmers in this section to lay by their hoes for the present. We have every prospect of an abundant crop of hay, but your correspondent is of the opinion that the grain crop will not be up to the average if wet weather continues much longer.

Our school closed today. About twenty-five visitors were present at the examination. Mr. and Mrs. Ackerman and daughter, Miss Faulkner and the Misses Tedford from Windsor proper were to be seen among the visitors. We feel safe in saying that under the fine teaching qualities of Miss Ericson, who has taught here for two years, that she leaves this school in a position second to none in the Parish of Brighton. And while she goes to spend her holidays at her home in Newcastle she takes with her the best wishes of both parents and children. We must congratulate the trustees of Mount Pleasant on being so fortunate as to secure her services for the next term.

A lot of our boys have gone to Sussex to the annual drill. No doubt when they return they will be qualified to help Uncle Sam lick Spain.

Rev. G. A. Giberson paid a pastoral visit here last week and held services in the East Windsor church. He has been engaged for another year, so your correspondent was informed. It is now about nine years since he took charge of the church at East Windsor.

The trustees have engaged Mr. Ross for the coming term. We hope he may be just as successful as our former teacher, Miss Ericson.

It is reported that an Orange Hall will be erected here in the near future at Belyea's Corner. How much this building will cost is not for me to say, but it will be away up in the hundreds no doubt.

Chronic Eczema Cured

One of the most chronic cases of Eczema ever cured is the case of Miss Grace Ella Aiton, of Hartland N. B. On a sworn statement Mr. Aiton says: I hereby certify that my daughter Grace Ella was cured of Eczema of long standing by using four boxes of Dr. Chase's Ointment. William Thistle, druggist of Hartland also certifies that he sold four boxes of Dr. Chase's Ointment which cured Grace Ella.

Bloomfield.

Charles Cheney has purchased a building-lot from Isaac Graham and has erected a large structure, which he is to fit up as a general store next week.

Mrs. G. H. Stokoe has a young son; born the 8th inst.

We had no preaching service last Sunday as our ministers were attending Conference at Charlottetown, P. E. I., but there will be meeting tomorrow evening again.

Miss Pearl Stokoe has resigned her position as teacher at Lower Bloomfield. The closing exercises consisting of 4 dialogues, 10 recitations and 4 compositions interspersed among the lessons, took place yesterday afternoon and were well attended by the people of the district. The school here, under Miss Janie Smith, and the one at Up-

per Bloomfield, under Mrs. Harold, also closed yesterday. The same teachers are expected to take charge of them again after vacation.

Havelock Black has just erected a granary.

Mrs. Joseph Cheney's sister, with her husband and little boy, from Boston, Mass., is visiting at Mr. Cheney's.

Everybody is engaged in strawberry-picking. The berries are very plentiful this season, and people are laying in a good supply as they did not get many last year.

Miss Idella Black has returned from attending school at Jacksonville. She expects to go to Woodstock Tuesday to write the Normal School entrance examinations. Miss Pearl Stokoe intends driving out with her to visit friends in Woodstock and vicinity. Miss Ida Beckin who has been attending school at Long's Settlement, also intends writing the exams.

Mrs. E. A. Stokoe spent a few days of last week here before going to Jacksonville to stay with her aunt, Mrs. Jane Kearney, whose eyesight has been failing for some time and who is now almost entirely blind.

Mrs. T. A. Stokoe has recovered from a slight attack of pneumonia which lasted over three weeks.

Revs. Dystant and Leard, two of the ministers on our circuit have been ordained and appointed to new fields of labour. Although we rejoice at their success, we are very sorry to lose them.

We are very glad to have Rev. G. A. Sellar returned to us. He has no permanent assistant to take Mr. Leard's place as yet, but expects Rev. Stanley Young to help him until college opens, and we hope to have some one else by that time. We understand that Rev. Jarvis Rice takes Mr. Dystant's place.

Last Wednesday, Miss Minnie Crandemire was united in marriage to Mr. Scott Emery of Williamstown. The ceremony was performed by Rev. Jas. Jahill in the presence of a number of invited guests. After the ceremony the bridal pair drove to their future home at Williamstown.

Paine's Celery Compound,

Is the world's great nerve medicine. This is the month when overworked men, women and girls in the home, workshop, store and office feel nervous, tired, dull, irritable, languid and weak. These conditions result from weak and unstrung nerves.

The nerves regulate the blood supply through the body. Upon the healthy action of the nerves, health and happiness depend. People who have their nerves out of repair in the hot weather are the most miserable of mortals.

Paine's Celery Compound is the only true and safe specific for diseased nerves—it is the one medicine for the banishment of all hot weather ills and weaknesses. Physicians recommend it every day; it is the favorite life-giver with millions on this continent. Take no substitute from your dealer; 'Paine's' is the kind that cures.

Love Makes Obedience Easy.

With a heart full of love to Christ, there could be no hardship in fulfilling the divine commands. They would not longer be a hard and irksome bondage, but they would become the very joy of life. What is greater happiness than to fulfil the desires of some loved one? Is it not an infinitely greater happiness than to gratify one's own wishes? Nay, it is fulfilling one's own wishes, for there is no difference where love is. You are at one with the object of your love. Where is there a tenderer plea for obedience to God's laws than when the Saviour says, "If you love me keep my commandments" That should be an irresistible plea. Faithfulness may be a strong compelling influence, but it dwindles into insignificance besides that of love. The expulsive and impulsive power of love is beyond computation, and our ability to love is the measure of our power of accomplishment.

Love is the spirit that animated Christ in his great gift of himself to the world. It was the spirit that made him gentle, patient, and full of tenderness and long-suffering to those who had refused and rejected him, who repelled his offers of mercy, and distrusted his purposes of salvation. Love is the very crown of Christ's attributes, the argument which brings men to the foot of the cross upon which love hung him that he might save others by his death.—Mrs. Geo. A. Paull.

Don't forget us when you want a horse hoe hay fork, or anybody else for haying, we run the Hardware Store, where we sell all kinds of hardware, stoves, tinware, farm implements, bike etc. Shaw & Dibblee.

WELLS & RICHARDSON Co.,
DEAR SIRS:—I think it a duty to write you for the benefit to all who have delicate children, and to make known what Paine's Celery Compound has done for my child. She has been delicate all her life. I have tried many medicines, and have had her under allopathic and homoeopathic treatment with but little benefit. Almost in despair, and as a last resort, I tried Paine's Celery Compound, and after using three bottles she is now perfectly well and strong. I have also used your medicine myself for complications arising from overwork and loss of rest, and am greatly benefited thereby. I would strongly urge all who are in any way afflicted to do as I have done "try Paine's Celery Compound," and be convinced of its wonderful curing power.
Yours gratefully,

Wreck of the Heather Bell.

A ballad describing the loss of the wood boat Heather Bell on the St. John River, N. B., in November, A. D. 1877, by collision with the steamer Soulanges, an old and extremely erratic craft, which then ran as a night boat between St. John and Fredericton.

BY FRANK H. RISTEN.

It was the wood boat Heather Bell
That plowed the wintry main;
And the skipper his name was Bowser,
And the crew his name was Kane.

White was the deck with the evening frost,
Her sails and her mast all white,
And over her bow in the darkling gloom
There glimmered her signal light.

The skipper he stood beside the helm,
His pipe in his mouth was set,
White a cross of matches lay strewn around
He had scratched on his pantalette.

And with every squally gust that blew
He would light another match,
And for every griping flaw that flew
His gable end he'd scratch.

Then up spoke the skipper's mate
(Likewise his name was Kane),
"I pray thee, put into Otnabeg,
For I fear a hurricane.

The mainsail sheet is frozen stiff,
The martengale leaks fast,
The piston rod is smashed in twain,
And the spinaker jaws the mast!"

"Then haul the bobstay hard to port
And hammer down the hatch!"
And the skipper laughed a scornful laugh
As he lighted another match.

"No fear have I," old Bowser cried,
"Of weather, wind or sea;
Trice up the binnacle to the poop
And splice the whiffletree!"

But wilder and wilder came the gale,
And the darkness and the rain,
Twin specters from a world of woe,
Their wings spread o'er the main.

Then up spake the boatswain bold
(His name likewise was Kane),
"O, let us take the larboard tack—
The Jimsag we may gain."

"Go bowsen up the collar beam,"
The skipper roared aloud,
"And tightly reef the throttle valve
And jibe the scupper shroud!"

And still from the Devil's Back
And o'er the Reach it blew,
And down the vale of Nerepis
The fierce tornado flew.

It swept the jilpoke off the poop,
It ripped the sails like tow,
It stove the gangway into shreds
And bilged the dynamo.

Yet though the wind blew fierce and fast,
And though the blast blew raw,
The skipper cheerily sought to light
The pipe that would not draw.

"O, skipper, I hear the sound of guns,
O, say what may it be?"
"Tis a Nerepis maiden chewing gum
And cracking her teeth, said he.

"O, captain, I hear a wailing cry,
O, say, what may it be?"
"Tis a mermaid singing her bridal song,
In the eel-grass on our lea."

"Oh, Bowser, I see a gleaming light,
O, say what may it be?"
"Tis old Soulanges on our bows,
And dead men both are we!"

At daybreak on the Long Reach shore
The inhabitants stood aghast
At the sight of a seemingly defunct
Lying close to a broken mast.

The limbs were fixed, and fixed the eyes
That met their startled sight,
And fixed in the stern unyielding mouth
Was the pipe he had tried to light.

They watched and waited long in hope
Some glimmer of life to see,
When lo! the form riz up and roared:
"Bring hither a match to me!"

Ah, sires, 'twas piteous to see
That ancient river man
As in a rage he smote the match
Upon his diaphragm.

"Shake out the mizzen jib," he cried,
"The whisker pole let free!"
Then jammed his helm hard to port
And steered for the unknown sea.

And this is the tale of the Heather Bell
That plowed the wintry main,
Which the skipper, his name was Bowser,
And the crew, his name was Kane.

A score of years had elb'd and flow'd
Above her resting place,
Yet still her flying form is seen
Where the night-long breakers race.

White is her deck with the evening frost,
Her sails and her masts all white,
And over her bow in the darkling gloom
There glimmers her signal light.

Alfonso Interviewed.

The Boy King Cracks Some Jokes That Cause Trouble

It was a rainy day. I felt as proud as a janitor reigning over his Harlem flat as I skipped up the magnificent Escolera Principal, which led to the king's palace and the gardener's sleeping apartment. I knocked several times, but nobody came to the door, so I walked down the stairway again (as proud, etc.) and went round to the back entrance. After a terrific bombardment of several hours I managed to wake up the cook, who stuck her head out of the door and sweetly screamed:

"Oi tell yez that we don't want any atlusses of ther wurrd, or histories of Englund, or Dorry's galleries, or—"

"But madam, I am no book agent," I implored, as she was about to slam the door in my face.

"Thin wot is it yez want?"

"I would like to interview the king."

"Thin woipe yer feet, an Oi'll take yez to ther kid."

So from the kitchen I was ushered into the Salon de Embajadores, where I sat on a soap box to await the boy ruler of Spain. (Hiss) Suddenly I saw him come sliding down the banister, a page set in black silk on one side of him and another page set in pica on the other side.

"Have I the honor of confronting Alfonso XIII?" I courteously asked.

"Alfonso 12½ instead of thirteenth, I guess."

"Why, what do you mean?" I impatiently inquired.

"Well, you see, I've got to get another half—a better half. Ha, ha!"

This bit of satire caused an innocent butler to smile, and the king immediately ordered the family butcher to cut his head off, adding, "Do you think I crack jokes for fun?"

Then I continued my interview:

"Do you think the war is fluctuating your industries?"

"Certainly. Your American shots are making real estate go up and shipbuilding go down, but this may probably be due to England loaning you her ship."

"Her ship—what ship?"

"Friendship."

And just then a dynamite shell exploded in the soap box and immediately killed the author of this sad tale.—New York Journal.
