JAMES MCCORDOCK. The death occurred at Whitby Cove, Queens County, Sunday, June 7, 1908. Deceased was one of the best known residents of that section. He had been ill for the last three months with heart trouble and dropsy. He was in the seventieth year of his age. He is survived by one daughter, Mrs. John Collins, of this city, and by two sons, James at home and Charles of Fredrickton.

IMMIGRATION SHOWS A CONTINUED DECREASE

For First Four Months There Has Been a Falling Off Amounting to 46 Per Cent.

OTTAWA, June 8.—The immigration figures for April show total arrivals of 28,785 for the month, as compared with 44,031 for April of last year, a decrease of 35 per cent. For the first four months of this year immigration decreased 46 per cent. via ocean ports and increased 85 per cent. from the United States. The decrease is in line with the policy of the department in limiting this year the arrivals from Europe who would be likely to cause any congestion in the Canadian labor market.

ROUND THE WORLD.

The hair of the head grows faster in summer than in winter. In Russia factories are usually near forests, wood being the chief fuel. Wild canaries were not yellow originally, but green or grey in color. Seven per cent. of men in Europe are blind, but only five per cent. of women.

A watch that makes five beats a second makes 42,000 in a day, or nearly 155 millions in a year. Of the population of Switzerland 71.3 per cent. speak German, 21.4 French, and 5.6 Italian. An orange tree in full bearing has been known to produce 15,000 oranges, or a lemon tree 6,000 fruit.

In every mile of railway there are seven feet and four inches not covered by the rails—the space left for expansion. There are no less than 3,263 different species of fish inhabiting the waters of America north of the Isthmus of Panama. The Russian Government has ordered private maritime companies to discharge all foreigners who refuse to become Russian subjects.

The radiometer is so delicate an instrument that it will measure the amount of heat given off by a human body at 2,000 feet distance. In South Australia there exists a language test for intending immigrants. Unless a man can speak or write English he is not permitted to land. The Bank of England is empowered by its charter to sell any goods or merchandise upon which it has advanced money, and which have not been redeemed.

The great Empire of China and the little island of Iceland have each 24 newspapers. China, however, claims in the Pekin Gazette the oldest journal in the world.

In water of 12 fathoms or under a large ship of twenty knots loses about three-quarters knot speed compared with her pace when travelling in water 30 fathoms or over. Six thousand is the record number of roses produced by one tree at a time. This was in Holland, on Madame Rejnars' land.

A ton of root results from the burning of 100 tons of coal. The Peruvians have a different name for every day in the month. A railway engine may roughly be said to be equal in strength to 900 horses. The human voice has been heard in the open air at a distance of 15,480 feet. The number of papers in the Philippines Islands is estimated at about 120.

It is supposed that the average depth of sand in the deserts of Africa is from thirty to forty feet. The first merschaum pipe was smoked at Zeeb in 1728. It is still in the museum in that town. The longest race ever run on stiles took place from Borden to Biarritz in 1895. The distance is 303 miles. New York has now 60,000 telephone stations, which rank it as the largest of the world's city telephone systems. Java has thunderstorms on at least 97 days in the year, and in Jamaica there are often such storms on 150 days.

Australians hold the world's record for tea-drinkers, consuming 71-2 lbs a head yearly. New Zealanders drink 71-4 lbs. The bamboo holds the record among plants for quick growth. It has been known to grow two feet in twenty-four hours. The largest wooden statue in the world is to be seen in Tokyo, Japan. It is 84 feet high, and the head will hold twenty people. Spiders are met with in the forests of Java whose webs are so strong that it requires a knife to cut through them.

The lakes on the Mangshihale Peninsula in the Caspian Sea are sweet smelling, owing to the presence of a violet-scented seaweed. Every adult male Mohammedan is liable to military service, except those who have had the good fortune to be born in Constantinople.

SCHOOL BOARD DECIDES TO LEASE LEINSTER ST. ROOMS FOR ONE YEAR

The Board of School Trustees, last evening decided to lease from the trustees of the Leinster street Baptist church rooms to be used for school purposes. The lease will be for one year only, as it is considered likely that the project of building a school on the Weston lot will be revived. The board also decided to install a hot water heating system in the Manual Training School.

Mayor Bullock, who has so generously provided the schools with flags, was formally thanked by the board last evening. The voluminous report of Architect Brodie on the need of the school buildings for fire escapes and fire exits was referred to the Safety Board for instructions.

When the minutes of the preceding meeting were read Trustee Day asked what at a special meeting any subject but that for which the meeting had been called could be considered. He alluded to the fact that at a meeting called for the purpose of arranging for the purchase of lots in the rear of the Winter street school the contract for printing the board's annual report had been given to John A. Bows.

Decide It Was Proper

Some discussion ensued and it was decided that the award of the contract at the time mentioned was proper, but that in the future a special meeting should be called could be considered at such a meeting. Communications were then taken up. Mary A. Gilliland of Silver Falls applied for a position on the teaching staff. The matter was referred to the application committee.

Letters of acceptance were received from Ida S. Northrup of Stanley, York County, and Frank E. Morrison of St. Stephen, recently appointed to the city teaching staff. Stella S. Payson of the Victoria School asked for the payment of three months' salary lost through sickness. Paulina P. Fox of Douglas Avenue School applied for a year's salary in absence to enable her to pursue her studies at the U. N. B.

A letter from Col. Chipman, chairman of the St. Stephen School Trustees, recommending Mr. Morrison, was read and the board agreed to accept the recommendation.

No Fifth There

Trustee Bullock said he was surprised at such a letter being written, as there was no fifth on the school premises.

A bill of \$22.10 from D. Mullin, K. C., for arranging concerning a deed was ordered to be paid. R. B. Emerson, behalf of the committee.

AGADIA FREE FROM DEBT FOR THE FIRST TIME IN 79 YEARS

The meetings of the 4th annual convention of the 7th district of United Baptists were continued yesterday.

The afternoon session started at 2:30 o'clock with the new president, Rev. E. V. Buchanan in the chair. After receiving the reports of a number of committees the gathering was addressed by Rev. W. L. Archibald of Wolfville, who spoke in the interests of the Baptist educational institutions. He described the charming location of these schools of learning, which cover an area of thirty-five acres. There was a staff of forty-two able instructors. Last year 81 students were received in the various departments, and the year was one of the most successful in the history of the college. Owing to the success of the second forward movement the college was now entirely free from debt for the first time in 79 years. A new sciences building was now under construction to cost \$30,000. This building was the gift of Andrew Carnegie. There was an endowment fund of \$20,000. The governors had under consideration the establishment of a theological department. The speaker urged the continued interest and support of the church. At the close of the address there was some discussion and the meeting adjourned at 7:30 p. m. The evening session was devoted to the subject of temperance. After the Scripture has been read and prayer offered by Rev. M. E. Fletcher the address of the evening was delivered by Rev. W. C. Kierstead, D. D., of Woodstock. It was an able presentation of the subject of temperance and held the attention of the large number present for nearly an hour. The reverend gentleman said that the temperance problem was of a more complex nature than many supposed. It was a manifestation of the power of the kingdom of evil. The individual drunkard made the saloon a cover for evil in the home. In the school, in business or politics, even reached the church. It would be better to make a flank attack. There must be an application of the gospel of Jesus Christ to the individual life. The home must be built up in Christian principles. He had heard that some men had taken to drink because cooking was bad. Mr. Kierstead said that the home should be made attractive to the father. The children should have Christian influence thrown around them during the formative period of life. The speaker thanked God that he had been brought up in a Christian home. Our schools should not only furnish teaching for the intellect but also moral and religious teachings.

DELEGATION TO URGE ERECTION OF DRILL HALL

On Wednesday evening the harbor facilities committee, consisting of His Worship Mayor Bullock, Ald. Frith, Ald. Baxter, Ald. Elkin and T. H. Estabrook and H. B. Schofield from the Board of Trade, will leave for Ottawa to urge upon the Dominion government the necessity of adopting a certain course with regard to the improvement of St. John harbor. The committee will also discuss with the government vacant matters of importance to this city, the most important of which will be the early erection of the new drill hall and the securing for 1909 of the \$50,000 grant for a Dominion exhibition.

The vexed question of the drill hall site was also discussed. The committee will also discuss with the government the matter of the improvement of the harbor. The committee will also discuss with the government the matter of the improvement of the harbor. The committee will also discuss with the government the matter of the improvement of the harbor.

Trustee Bullock asked if the new issue of bonds would carry with them a sinking fund. The general opinion of the trustees was that the bonds should carry a sinking fund.

Manual Training Department

The report of the manual training committee was presented. The heating of the manual training school was re-estimated. The opening of the additional room for manual training was also recommended. Trustee Bullock explained that a hot water system was preferable to hot air and would cost about \$500. The report was adopted and the committee was given power to act.

Trustee Coll moved that the chairman Bullock be authorized to sign the check for \$120 for the payment for the Johnston lot on Spring street, carried.

HARD BLOW FOR UNIONS
Winnipeg Plumbers Fined Two Thousand Dollars.
WINNIPEG, June 8—The long-drawn-out litigation arising out of the claim for damages entered by the Master Plumbers against the Plumbers' Union, as the result of the strike two years ago, was concluded today, when Justice Mathers gave judgment which will have a very far-reaching effect on similar labor troubles. He found the defendants guilty, and fined the

TORIES WIPED OUT IN QUEBEC; ONTARIO GRITS HOLD THEIR OWN

MONTREAL, June 8—The result of today's election is fairly satisfactory to the Gouin government and gratifying to an unexpected degree to the Dominion Liberals. It is true that the government suffered by having its leader defeated in the James division of Montreal by Henri Bourassa, the Nationalist leader, and that its opponents return to Quebec with their major numbers of the last session increased to 16, but this is more than compensated by the fact that the two Conservative leaders, Hon. L. P. Pelletier in the Quebec district, and Mr. LeBlanc in the Montreal district, the former in overthrowing the party in power in that city, were both beaten. In their stead re-enters Henri Bourassa, a Liberal, who has no sympathy with the Conservative party at Ottawa. While the opposition goes back to Quebec somewhat stronger, it is as a Nationalist opposition and not as Conservative.
The parties will probably stand in the new house: Government, 58; opposition, 16, as against 67 to 7 in the first house.
The defeat of Premier Gouin was not expected, and the fact that Gouin was again candidate in Portneuf, where he was elected by over 800 majority, tended to weaken him in St. James.
Election day was very quiet in Montreal, as only a few of the divisions. In fact, the St. James contest was the only one to excite marked interest. There was very little cheering over the result, the bulletin boards being deserted early in the evening as soon as it was seen that the government was more than safe and the result of the city divisions had been made known.
Severe Blow to Conservatives
The defeat of Mr. LeBlanc and Mr. Pelletier was a severe blow to the Conservatives and robbed the result of any encouragement it might have contained.
All the members of the government were returned though, like Premier Gouin, Mr. Deschamps, who was running in Charlevoix, as well as in Montmorency, was defeated in the former.
Three elections, Gaspé, Magdalen Islands and Chicoutimi, take place later today. The results are expected to be: Gaspé, Chateauguay, Compté, Two Mountains, Jacques-Cartier, Joliette, Magdalen Islands, Megantic, Montmagny, St. James and St. Antoine of Montreal, Ottawa, Shefford and Vertere.
Independent Liberal—Assomption and Quebec east. Elections postponed. Magdalen Islands and Chicoutimi.
The remaining seats are all Liberal.
Bourassa Beaten in St. Hyacinthe
Though Mr. Bourassa defeated Premier Gouin in St. James he lost his other seat in St. Hyacinthe. This

MONARCHS ARE NOW USING THE AUTOMOBILE

In the long ago, monarchs traveled slowly in state, now the Duke of Sparta, Crown Prince of Greece, and in automobiles. Practically every crowned head in the world from the Kaiser to the Emperor of Ethiopia, has a motor car.
Not unaturally, monarchs have had their share of automobile mishaps. In 1926, his car was badly damaged by a member of a reigning house who had escaped so free.
THE ONLY ONE.
The King has been an ardent motorist for eight years, for he ordered his first car in the spring of 1926. Yet so careful are his drivers that his only mishap worth mentioning was when, on his way to Newmarket, in the autumn of 1926, his car knocked down and injured a pedestrian.
In the very same month, Princess Christian had a very narrow escape from a bad accident. Motoring near Grenoble, in France, the braided hair duchess, who was following at the top of a bad hill. Luckily, the chauffeur had the presence of mind to get out of the car and run to the bank. The car turned over, but none of its occupants were worse than shaken.
The Duke of Cambridge is the only one of British royalties who has been hurt in an automobile accident. As he was leaving Edinburgh for the autumn, his car was run into an unlighted wagon. The car was smashed, and the duke himself somewhat seriously injured.

ENTHUSIASTIC DUKE.
The most adventurous of living royal motorists, undoubtedly, the Duke of the Abruzzi, the Duke has climbed virgin Alps, traveled in wild lands, and has even reached the North Pole. In any explorer, six years ago he took to motoring with tremendous enthusiasm and having bought a fast car, was challenged by Count Colletti to a race.
This race took place in November, 1922, and the course was from Turin to Bologna. The weather was wet and the roads greasy. Running at fifty-three miles an hour, the duke's car skidded at a nasty angle and about 300 yards off the car, of course, was smashed to pieces, but by a miracle the duke got off with a bruised leg.
A TERRIBLE ACCIDENT.
The very first time that the Duke of Sparta, Crown Prince of Greece, owned a car he came very near to being killed. He was descending a steep hill on the road from Desofia to Athens, when the car averaged and dropped into a wide ditch eight feet deep.
The duke was picked up unconscious, with deep cuts on his face and neck. Both his companions were seriously injured. The duchess, who was following in her carriage had also a very narrow escape. Her horses took fright at the crash and nearly bolted down the hill.
"GO YOURSELF"
Leopold, King of Belgium, was the very first of living monarchs to go in for an automobile, and the story of his mishaps would fill a small volume.
On one occasion Leopold's car broke down near Ledeburg, in Belgium, and the chauffeur found the damage beyond immediate repair. A policeman gave him the chauffeur:
"Please fetch a horse to pull His Majesty's car to the village."
The duke said "car did you say?" asked the officer.
"His Majesty's the King of the Belgians."
The policeman laid his finger on his nose.
"They all say that," he remarked, "with a grin. "Go and fetch the horse yourself!"

NO TRACE OF LOST CREW
British War Sloop Searches in Vain for Traces of the Bark Silbertown.

SAN FRANCISCO, June 7.—The British sloop of war Shearwater arrived today after five months' unsuccessful search for any survivors of the British bark Silbertown. While bound from Newcastle, England, to West Coast, and with forty officers and men, the Silbertown took fire off South America last August and all hands were lost. A passing merchant vessel sighted the doomed bark with all boats gone and decks and cabins deserted, drifting about. Among the crew was an apprentice whose family was identified with the British government and a government search was urged.
About six months ago the Shearwater, in service at Victoria, was ordered to prepare for the cruise and in month later she started under command of Captain Crawford for the West Coast. For five long months the vessel cruised along South and Central America, but to no avail. Not so much as a bit of wreckage was discovered. Every island along the coast, including Juan Fernandez, was visited.

THE SHAH IS AFRAID
Leaves the Capital and Goes to His Summer Palace in the Hills.

TEHERAN, June 7.—The Shah, whose unexpected departure from the city caused some excitement yesterday leading to a report that he intended to leave the country, has gone to the summer palace in the hills in the neighborhood of the capital. He left Teheran in consequence of reports of fresh plots against his life. There is an unconfirmed rumor that he has sent his jewels to Russia, whether he will follow to invoke the Czar's help against his rebellious subjects.

50,000 FISH IN A HAUL.
Capt. Sol Jacobs Back From Nova Scotia With Gigantic Trip.

(Boston American.)
Captain Sol Jacobs, the king of mackerel killers, who for many years has held first place among mackerel seiners, made his first appearance at T wharf yesterday in his schooner, the A. M. Nicholson.
He brought in the second direct-trip of mackerel to be landed this season from the Cape Shore, off Nova Scotia. His trip is little short of phenomenal, consisting of 50,000 fish of various sizes, all secured in one set of the seine. Previous to this he had gotten 50 barrels of mackerel in the same way.
In making stock Captain Jacobs stands without a peer. Only a few years ago in his steamer, Alice M. Jacobs, he landed a fare of mackerel at T wharf that brought a price never since or before equalled.
Several two wall of vessels were on the grounds when Captain Sol left there, and many of them will come to the legal market.
Last week and this week promise to be record breakers for a beginning. The dealers at the opening of the market today will have of mackerel alone 800 barrels from St. John and Yarmouth steamers, besides the Nicholson's fare, so that in the absence of groundfish mackerel will hold first place.

TURKEYS AND GRASSHOPPERS.
Machines for gathering grasshoppers have been invented and tried, but the most successful grasshopper gatherer is the turkey. It is the advantage of being a very profitable one too. A ranchman in western Kansas raised turkeys enough last year to keep eighty acres free from damage by this insect pest. Next year this ranchman pretends raising turkeys very extensively for this purpose, and nearly all of his neighbors are planning to do the same. If there were a hundred turkeys to each quarter section in this alfalfa belt there would not be enough grasshoppers left to damage any crops.

REMANDING PRISONERS.

Some interest is noticeable in the announcement that Sheriff Ritchie yesterday released from jail a number of prisoners who had been remanded by Magistrate Ritchie and who had not been dealt with within the proper time. As a matter of fact, this is not a rare occurrence but has happened frequently in the past without any particular fuss being made about it. When prisoners are brought before the police court and remanded without any definite time being announced the period of remand is made for three days. If such prisoners are kept in jail for a longer time than this, the sheriff having no authority to hold them becomes liable for false imprisonment. It is naturally his desire to avoid such complications and in the regular course of his official duties he discharges those who are not dealt with by the court. It is apparent that no close check is kept on those who are sent into jail and this is no doubt due to a looseness of system in the police court. Such cases should not arise. There is no reason why prisoners should be forgotten in jail and a good many people think there is no particular reason why so many should be remanded.

ONTARIO AND QUEBEC.

There is nothing in the results of the elections in Ontario and Quebec to bring particular joy to the hearts of either political party. Whatever changes have taken place have been unimportant. In Quebec the Conservative leadership have been defeated; that party although slightly stronger than during the past four years has lost its recognized standing giving place to the Nationalist opposition of which Mr. Henri Bourassa is the head. The government which carried the whole Province in the last elections by an utter disorganization of the Conservative forces has now lost those few seats to which it never had any claim. The value of the result is in indicating just what strength the Conservative party has under proper organization and the knowledge cannot be regarded by members of that party as satisfactory. The opposition in the new legislature will undoubtedly be vigorous—Mr. Bourassa knows how to keep people awake—and the young Nationalist leader now faces the greatest opportunity of his career. He has ability, he holds strong support, and if he shows himself to be possessed of a true appreciation of the fitness of things, able to exercise calm judgment, he may eventually rise to a much more responsible position than he now occupies. There will be no change in the policy of the Gouin government which during the past has been eminently satisfactory to the people of Quebec.

In Ontario it is apparent that the minor local issues over which the contest was fought have not appealed to the electors in a manner sufficiently serious to overcome party prejudice. No doubt the analyzed result will show that Premier Whitney has secured a smaller proportion of the total vote than in the last contest, this being chiefly due to the dissatisfaction of the temperance party with his policy. But the changed vote has been so thinly distributed that it has not affected the result in any one constituency. The Liberal opposition has held its own.

Judging from the total result in the two Provinces there is nothing what- ever indicative of a change of feeling one way or the other. The limit of labor legislation appears to have been reached in Britain. Under the Workmen's Compensation Act a widow claimed £10, equal to three years' earnings, for her deceased husband because the latter was killed when employed at a wind-mill near Newmarket. The windmill was struck by lightning and the woman's husband was so seriously injured that he died two days later. The facts of the case were not denied, the only point at issue being as to whether the accident arose out of the deceased's employment and as to whether the risk run in this particular employment was more than normal. The judge gave his decision in favor of the plaintiff, ordering £50 to be paid at once, the remainder in quarterly instalments.

Lloyd's weekly newspaper rather sarcastically prints a paragraph to the effect that Wu-Ting-Fang, the Chinese minister to the United States, enjoyed a bath and that New York reporters appeared to be keenly interested in his ablutions. This is described as modern journalism.

Dr. McLeod, of Barrie, will find many to support his criticism of the church's policy of boozing of foreign converts while workers at home are neglected. He might have gone further and spoken of the lavish expenditure of funds to Christianize the happy South Sea Islanders while thousands at our own doors are living in ignorance and misery.

A boy arrested in Detroit on the charge of truancy and larceny was sentenced in juvenile court to learn the ten commandments and to read a chapter of the Bible every week. His ability to explain what he has read is to be taken in lieu of punishment.

The Waltham watch factory, doing business on tick and running on slow time, has stopped until its balance is adjusted.

OPEN THE NORTH GATE.

The West has other resources besides timber, mines and wheat. She has poets. One of the best of them is Charles Blair. If his advice had been taken in 1885 the Riel rebellion might have been prevented. Twenty years ago he saw the possibilities of the Hudson Bay route to Europe. He saw more. He saw that the West would never be satisfied till she got another eastward outlet, and he put this in underlying belief into words in the following poem:

Open the Bay, which o'er the North-land broods,
Dumbly in labor with a mighty fate!
Open the Bay! Humanity intrudes,
And gropes prophetic round its solitudes
In eager thought and will no longer wait.

Open the Bay which Cabot first explored
In days when tiny bark and pin-
-na-
-ce bore
Stout pilots and brave captains true
and tried—
Those dauntless souls who battled far
and wide,
With wind and wave in the great
days of yore.

Open the Bay which Hudson—doubly
crowned
By fame—to science and to history
gave,
This was his limit, this his utmost
bound—
Here, all unwittingly, he sailed and
found
At once a path of empire and a
grave.

Open the Bay! What cared that sea-
-man grim
For towering iceberg or the crash-
-ing
-foe?
He sped at noonday or at midnight
dim,
A man and hence, there was a way
for him
And where he went a thousand ships
can go.

Open the Bay! the myriad prairies
call;
Let homesteads rise and comforts
multiply;
Give to the world the shortest route
of all
Let justice triumph though the hea-
-vens
-should fall
This is the voice of reason—man-
-hood's cry.

DEVIL'S AUCTION.

(Halifax, N. S., Recorder, June 2, 1908.)

Those who went to the Academy of Music last evening for the first night of the annual engagement of the Devil's Auction had a novel experience in seeing all the scenery played in position, and being in the theatre until a half hour past midnight. The company played in St. John's, Vermont, Saturday night, and were due to arrive here on the Maritime Express at 5 p. m., but through a drawhead on one of the cars being broken, they were delayed and did not arrive until after 7:30. All their carload of scenery had to be taken off, loaded on trucks, and brought to the theatre, and through the splendid work of the Transfer Company this was done in quick time. M. W. Wise, the general manager, explained to the audience the cause of their delay, asked them indulgence, and then gave many the opportunity of witnessing what they had never seen before—the scenes being placed in position in front of the audience. It was a few minutes of ten before the performance commenced, but the audience were patient, and en-

joyed the popular Auction so much that all remained to the finish at 12:30. The Auction is in many respects better than before; there is plenty new scenery, new costumes, and a number of new faces, and for those who have never witnessed the piece before it is the greatest novelty which comes to the Province. Geo. Topack as Toby, W. H. Lorella as Pere Andoche, and Henry P. Thomas as Menbisto, are with us again, just as clever as ever. Maud Scott as Carol, Alma Merrill as Madeline, and Marie Wilson as the Fairy Queen, are all new comers. They were all good in their respective roles, and Miss Wilson was enthusiastically applauded for her songs. Emma Wise is a dainty Janet, and as the principal dancer, the Hill Bros. are among the best acrobats seen on the Academy stage. The Auction remains but two nights longer, and the only matinee will be tomorrow.

A NEW SERUM TO CURE RABIES

Will be Effective in Urgent Cases, Says Discoverer.

Chief of Pasteur Institute Laboratory in Paris Obtains Fluid From Sheep Which Will Immunize Even Dogs.

PARIS, June 7.—Dr. Auguste Marie, chief of the laboratory of the Pasteur Institute, has been experimenting for several years with the modified treatment for advanced cases of rabies like the recent one of Mr. Marsh of Brooklyn. Although he was unwilling today to give details of the results until he makes them known through an official course, he says they are most encouraging.

With the Pasteur treatment, as used since its discovery in 1885 until now, full immunity is not reached until nearly five weeks after the first injection is given, the treatment lasting a minimum of eighteen days now. In cases of severe bites on the face the disease may develop in three weeks or even less.

Dr. Marie has succeeded in obtaining from sheep which had been immunized against rabies a serum which, when mixed in certain proportions with fresh virus of rabies, rendered the latter innocuous when injected into animals and human beings. This mixture of virus and serum permits the beginning of the Pasteur treatment with a material which secures immunity much quicker than when the ordinary method is used. It is precisely what has been needed for severe cases and the results obtained within the past two years have amply fulfilled Dr. Marie's hopes.

Furthermore the new form of treatment will be of great practical value in immunizing dogs, inasmuch as two in-

jections rapidly immunize a dog against rabies, and this immunity lasts for a year or more. The new method will be introduced in the New York Pasteur Institute when Dr. Ramboad, who sails on La Povenue on June 13, returns. Dr. Marie having supplied him with enough of his serum to fill the needs of the New York institute until it is able to make his own serum.

WORE SUNDAY BEST TO DIE.

Lovestick Maiden Threw Herself in Front of a Train.

MASSILLON, O., June 7.—Leona Heidy, sixteen, of New Philadelphia, engaged as a domestic, tried to commit suicide by throwing herself in front of a passenger train on the Pennsylvania Railroad. Her right foot was crushed and had to be amputated near the ankle.

The girl left the wash tub, took her best clothes, and this morning went to the railroad tracks, where she changed her garments. Despondency over a lost affair is said to have been her reason.

THE SWAN. The common or mute swan (the latter is the correct name) is really an English bird, though it is better known less rare and less expensive than the three American breeds, the whistling swan, the trumpeter and the whooping swan, named obviously for the peculiar note each sounds. American swans are less common than the mute because of the fact that they will not breed in captivity and also because they are being killed in great numbers during the breeding season, when the birds fly far north. The swans molt early, before the newly hatched birds are able to take care of themselves, and it is a peculiarity of the molt that all of the wing feathers drop off almost at the same time, leaving the bird helpless. While the swans are in this condition the Eskimos slay them with clubs, and the destruction of one pair of adult birds of course means the death of a nestful of little ones.—St. Louis Republic.

END OF FAMOUS WRITERS. Literary Geniuses Who Died Miserably Poor and Destitute.

That Ouida should have died as she died in poverty and loneliness, an exile though a voluntary one, from the land of her birth was an undoubtedly pitiful ending to an exceptionally brilliant career, says "The Bells." Equally sad has been the fate reserved for some literary geniuses in the past. For instance, Richard Savage, the gifted poet died in a debtors' prison at Bristol, after enduring the pangs of semi-starvation for 3 years. Chatterton, driven desperate through hunger, poisoned himself at the age of 18. Swift died mad, as he had all along predicted he would. Doctor Dodd, whose "Beauties of Shakespeare" is well known, was hanged for forgery. George Gissing, after suffering hardships that embittered his whole existence, died just as fame was beginning to be assured to him. Stow, the famous antiquarian, author of the survey of London, became in his old age a licensed beggar, asking alms from door to door, "through 28 counties." Wycherley, from being the spoiled idol of society, fell to the lowest depths of destitution and was eventually consigned to the Fleet Prison for debt, where he remained several years. Cotton also spent many years in a debtors' prison and eventually died there by his own hand. Robert Burns, writing only 14 days before his death, implored his friend, Cunningham, to use his influence with

LOCAL NEWS

The police report finding a lady's glove and three keys on the corner of Waterloo and Union streets last night.

Our specialty is good reliable quality in suits and clothing at lowest prices. C. E. Fiddens, corner Main and Bridge streets.

The flag was flying to the breeze from the pole on Vassie and Co.'s building today in honor of the birth of an heir to Mr. Walter E. Foster, the vice-president of the company.

At midnight Sunday, Arthur Cameron's barn near Lower Tower Hill, Charlotte County, was destroyed by fire. A horse and some cattle along with hay and machinery were destroyed. The loss is \$1,000.

The Custom House baseball team announce that they will be ready to play a game of ball on the Victoria grounds Friday afternoon, and a team composed of players from the North and South wharves.

Police Officer Jas. Greer, of the north end department has been on duty since last Saturday. Chief Clarke this morning stated that it was not likely that Greer would be taken back on the force again, but refused to make any further statement.

Wm. Evans has been reported by I. C. R. policeman Scott Smith, for trespassing on the I. C. R. property at government wharf. Evans is also charged by Peter Sharkey with using abusive language to him when Mr. Sharkey ordered him to move off the wharf.

A jolly party of college boys and girls left on the S. Champlain today for a camping trip on the river. Tents will be pitched at Oak Point, and from there trips will be taken to neighboring points by canoe and motor boat. St. John is represented in the party by Miss Barnaby and Messrs. Simms and McIntosh.

A meeting of the civic delegates to Ottawa will be held in the mayor's office tomorrow at 11 o'clock. The matters which they will take up when they reach the capital, H. B. Schofield has signified his intention to go as one of the representatives of the board of trade.

As a gentle hint Chief of Police Clark remarked this morning that there had been no complaints about persons not having the number of their houses on over the doors. He said that in the course of a short time the officers would report all householders who failed to have numbers on their premises.

The steamer Sincennes got only as far as Miller's Mill in the Narrows this morning when she broke her air pump. The tug Daniel took her in tow and docked her at Indiantown. The steamer's passengers and crew were taken up river by the steamer Champlain. The accident will not be overcome for a few days as a new pump will have to be cast.

There was plenty of excitement in a yard off Erin street last night, when a lively racket was caused by two women. A large crowd of people gathered to witness the disgraceful occurrence. As a result Mary Walsh has been reported by the police for assaulting and beating Mabel Doherty, and the witness to the affair are Eddie Thomas and Mary Stevens. The matter will be given an airing in police court tomorrow.

The police officer doing duty on King Street yesterday when he missed seeing a rather brutal assault committed on the north side of the square. An intoxicated man got into one of the carriages ranged along the square, and when he refused to move out the driver hauled him out on the ground and gave him several blows on the face. Leaving the man bleeding on one of the benches, the caddy drove away on his team to avoid any further trouble. Some persons who saw the assault say it was unwarranted.

The race for the harbor master's position still continues with unabated energy. One of the North End aldermen wants a special meeting of the council to consider the matter, but the others do not seem in a hurry to settle the matter. The proposition that F. D. Alward, the present wharfage collector, who is acting as harbor master pro tem, should continue to hold both positions, is receiving support in some quarters. If this is done, however, it would probably be necessary to give him an assistant, in order that he might be able to spend more of his time in his office.

The R. K. Y. C. received a very valuable addition to their fleet on Saturday afternoon, when Stanley Emerson's new 35 ft. gasoline cruising launch arrived at Millidgeville. The yacht was built at Table Landing by Geo. Gollen, and is a handsome finished craft. The interior of the cockpit and the large and comfortable hasting cabin are finished in mahogany. The latter is fitted with very convenient to make cruising a thoroughly enjoyable pastime. The 15 h.p. motor which is the Smalley type, was supplied by Geo. H. Evans, is a beautiful piece of workmanship and runs in a very satisfactory manner the absence of noise and vibration being very noticeable. This, with the 35 horse power motor recently placed in J. Fraser Gregory's yacht, gives the Smalley engine a prominent place in the Millidgeville fleet.

VERY FEW DAYS WHEN NO ARRESTS ARE MADE

Police Reports Show Only Seven Clear Sheets Since September 25th, 1906.

The police did not make a single arrest last night and as a result there was a clear sheet in the police court this morning. The fact that the police failed to make an arrest during the day or night does not seem to be a remarkable occurrence, but a glance over the record of arrests kept in the central police station, shows that a clear sheet in the police court is getting to be rather an extraordinary thing. The sheet this morning was the first one since Wednesday, November 27th, and every morning since that date up till this morning when court opened, there were always some unfortunate to be disposed of.

The present record book in central station was commenced on September 25th, 1906, on which date the police made four arrests. For every court day following there is an unbroken record, the police managing to have from one to a dozen or more arrests recorded until Tuesday, February 19th, 1907, when the book shows that no arrests were made. The only other dates following when no arrests were made were: Wednesday, March 6th, 1907; Wednesday, May 30th, 1907; Friday, October 25th, 1907; Thursday, November 21st, 1907; Wednesday, Nov. 27th, 1907. From the latter date until yesterday the police sheet continually had the name or names of some prisoners on it, and the record for the past months has been rather out of the ordinary.

Since Sept. 25th, 1906, up to date, the police have arrested no less than 237 persons. Besides this number a great many persons have sought protection at central station and the number of arrests does not by any means give the total number of cases that have been dealt with in the police court, as complaints are frequent, and in many cases fines are imposed on persons whose names do not appear on the arrest book.

ANNUAL MEETING OF METHODIST MINISTERS

Candidates for Ministry Examined and Make Satisfactory Showing—Sessions Continue.

The annual meeting of the ministerial members of the St. John district of the N. B. and P. E. I. conference of the Methodist church was opened this morning at nine o'clock in Portland St. Methodist church. The Rev. James Crisp, President of the conference, occupied the chair. The meeting started with devotional exercises consisting of singing hymn No. 54, Scripture reading by Rev. Samuel Howard, and prayer by Rev. Dr. Wilson. About twelve ministers answered the roll call.

On the second ballot Rev. Stanley Young was elected secretary of the ministerial session.

T. Spencer, F. Crisp and E. Rowlands presented themselves as candidates for the ministry and were subjected to the usual examination on the doctrinal and church questions. The examiner was Rev. Dr. Evans, who performed the duties of his office in his usual efficient style. The question of ministerial character was satisfactorily answered in every case.

The session was brought to a close at noon with the benediction, pronounced by Rev. Dr. Campbell.

This afternoon the full session, including the lay representatives, will meet. The discussion of financial matters will occupy most of the afternoon. There will be a public session this evening, when the work of God in the district will be discussed.

PERSONAL

Mr. and Mrs. F. C. McLean, accompanied by Miss Annie Irwin, have gone to South Bay to spend the summer months.

Miss Maud Daly, of St. John, is visiting in the city, the guest of Miss Jerry, Robinson St.—Transcript.

Sister M. Carolla, of the Sisters of Charity Convent, St. John, is in the city, visiting her parents, Mr. and Mrs. James Gillespie, Weldon St.—Transcript.

Rev. Dr. McLeod, of Fredericton, arrived in the city on the C. P. R. train at noon on this morning.

Fred S. Crosby came in on the C. P. R. at noon.

Jack Pugley reached the city on the C. P. R. express this morning.

J. P. McBay, the Victoria street grocer, has just returned from a trip to Boston, Fall River and New York.

MEMULKIN-WEBSTER

The river boats at Indiantown were gaily decked with flags and pennants today in honor of the wedding of Stanley McMullin, the purser of the S. S. Champlain, which will take place this evening.

The bride is Miss Blanche Webster, of Wickham, and the ceremony will take place at the home of the bride's parents. The service will take place at nine o'clock, the officiating minister being Rev. Gideon Swin, of this city. The young couple will reside for the summer at Bellisle Point.

At the meeting of the governors of the Boys' Industrial Home, which takes place this afternoon, it is likely that action will be taken to apply to the government for an increased grant to enable them to properly carry on the work of the institution. There are now 21 boys in the home, which is the largest number since it was founded and the need of more financial support is being felt by the governors.

It is felt that something ought to be done to provide the boys with some system of manual or trade training, and it is possible that efforts will be made to secure a teacher, who will be able to give this instruction in addition to the usual school subjects.

The water main on the corner of Prince Wm. and Duke streets burst this morning, and that section of the street is flooded.
