General News.

Halifax, N. S., June 26—G. W. Bonner, manager of the Bank of Nova Scotia, and one of the best known business men in Halifax died suddenly tonight from heart disease.

Halifax, N. S., June 26—Under the cover of darkness last night, the Kingdom, the flagship of the Holy Ghosts, which has been in port for the last week, lifted anchor and started out to sea with Elijah Sanford and his band of motley-looking converts on board. Where the Kingdom sailed for is unknown, as she did not enter or clear at the customs, but the staff at the signal station at Camperdown saw her disappear to the westward and it is thought she is bound to St. John.

Lisbon, June 26—Following the request of King Manuel, Don Antonio Taxisera De Sousa, the ex-minister of finance, has formed a Cabinet with himself as premier and minister of the interior.

The ministry under the presidency of Francisco Da Veiga Beirao resigned on June 17, after having recommended the dissolution of the chamber of deputies, which was opposed by the King as well as by the Liberals.

Washington, June 25—Chas. W. Morse, consigned in the Atlanta prison has a son who was in this year's graduating class at Yale. In a letter to President Taft dated June 17 Mr. Morse expressed a desire to be present at the commencement exercises. The request has been granted.

Oyster Bay, N. Y., June 25—Col. Roosevelt may never make another political speech in his life, but he is going to roll up his sleeves and plunge into the thick of the political fight this fall for the control of New York state. He persists in his refusal to talk politics for publication but he will devote every effort to save the Republican party from the defeat which he thinks menaces it in this state, and will not shrink the responsibilities which have been placed on his shoulders by those who look to him as the one man who can command the situation.

Public Notice

Notice is hereby given that I have received the assessment list for the town of St. George for the year 1910, and that all persons assessed in the said town shall be entitled to a reduction or discount of five per centum on the amount assessed against them respectively upon payment of their respective rates to me within ten days and a like discount of two and a half per centum, upon payment within twenty days and more than ten days after first publication of this notice, after which time no discount will be allowed, and all rates and taxes must be paid within thirty days after first publication of this notice.

St. George, N. B. July 14th, 1910 HENRY G. McDOUGALL, Town Treasurer.

Wanting the earth isn't particularly unusual. Not to want is remarkable.

By The Way.

President Taft must feel as if he were somewhat of a back number judging by the grand reception tendered Mr. Roosevelt.

The first flight of a passenger airship was successfully made in Germany last week; but this is nothing to the ascensions that the players are taking out at the new ball field.

Reports say that Morse, the imprisoned banker will be allowed to see his son graduate at Yale. Uncle Sam is certainly good to his convicts.

Those who have been attending the baseball practices on the new diamond have expressed themselves as much pleased with the improvement in the playing.

Rannie O'Brien has improved the appearance of his residence by building new concrete steps and terracing the lawn. The work was done by Fred Cawley.

Costs that day lost Whose low descending son Sees goods sold at less than cost, And business done for fun.

The big fight comes off on Monday next. Probably no two fighters ever face one another who are so skilled in many arts. May the best man win regardless of color. (Of course we think Jeffries the best).

She—Sometimes you appear really manly and sometimes you are absolutely effeminate. How do you account for it?

He—I suppose it is hereditary. Half my ancestors were males, and the other half females!

"Let us not waste our time," yelled a temperance lecturer. "Let us not waste our time in dealing with small saloons and beer shops. Let us go to the fountain head. Let us go to the brewery, my friends."

"All right, boss," chimed in an old soaker from the back seat. "I'm with you."

Two burglars were on their trial and had engaged a smart lawyer for their defence, who, on cross examining one of the witnesses said: "You say that on the night in question the moon was so bright that you could see the burglars in the room. Was your husband awake at the time?"

Witness—I don't know. "Was his face turned towards you or not?"

The witness answered that she did not know. "What! You don't know? Now, come, tell me, was his face turned toward you or the wall?"

"I don't know." "Ah, ha! I thought so?" (turning to the jury.) "She could not see. She who identifies the prisoners could not see which way her husband's face was turned. Explain that if you can."

"Well, sir my husband is so bald that in a dim light I can't tell his face from the back of his head."

Public School Examinations.

Presentation to Mr. Lord

A very pleasing incident and surprise occurred at the high school closing on Saturday last when Charlie Cawley on behalf of the members of the Nestorian Society presented Principal Lord with a handsome silver shaving mug, thus showing their appreciation of the services he had rendered them during the past year. Probably St. George has never had a principal who has been a better companion and friend to the members of the school and at the same time brought the St. George high school to such a high state of efficiency as has Mr. Lord. This seems to be the universal opinion of the ratepayers and it is hoped that his succession may be able to maintain this standard.

Mr. Lord has been a favorite in all circles. He has established The Nestorian Society in the school which has been a great success; along this line he has encouraged debating which art should be cultivated in all schools. In all branches of athletic life he has shown a marked interest and has helped the various teams of the school win several victories. In the departure of Mr. Lord St. George loses a valuable principal, an active sportsman and a good townsman. We understand that Mr. Lord is looking toward the West as his new field for teaching; however, wherever he may go we wish him success.

GRADE IV Division I

THE WORLD LOOKS DARK

To the Dyspeptic. How to Make It Bright.

Father Morrissey, the learned physician, realized that many of the difficulties and troubles of this world are due to indigestion. He believed that to get a proper mental and spiritual attitude, a normal digestive apparatus is very helpful. The good Father therefore gave much study to the important question of the stomach.

His famous prescription, "No. 11," for dyspepsia and indigestion, consists of simple natural elements compounded from the materials in Nature's laboratory. Each tablet will perfectly digest a full meal of 15 pounds of food.

Father Morrissey's "No. 11" has brought ease and continued health to thousands of sufferers who had previously tried other remedies in vain. It instantly relieves and in due time restores the stomach to full vigor.

If you suffer at times or regularly from a sick, sour, dyspeptic stomach, try No. 11, and see how quickly you can again enjoy hearty meals, and how bright the world looks once more.

In convenient flat boxes at 50c each. Get a box from your dealer, or from Father Morrissey Medicine Co., Ltd., Chatham, N.B.

Farming By Lighting

Many and diverse are the practical uses to which electricity is being put in these modern days. A Russian investigator, Professor Lemstrom, of the University of Helingsfor has been conducting a series of experiments in England which promise to demonstrate the utility of electricity in its application to agriculture. He has conducted electricity by a net work of wires about fields of growing crops and claims to have increased their productivity enough to pay for almost half of his electric installation in the first year. The increased yield of wheat was 45 per cent. of corn, from 35 to 40 per cent.; of potatoes, 23 per cent.; of strawberries, from 50 to 128 per cent.; and of beets, 26 per cent. Prof. Lemstrom got his idea from the Far North, where he suspected that the electrical conditions stimulated the rapid growth of summer vegetation. His experiments were begun in England and Germany eight years ago and seem to have been conducted with great thoroughness, a field electrically treated, being put in close comparison with a field of the same size and under the same conditions except for the application of electricity. If the plan works when applied on a large scale, it should, an American commentator thinks, be used successfully in assisting the effort which various Eastern railroads and the New York Produce Exchange are making to revive farming on the deserted but once populous hill sides. All through New England and the Middle States there are water powers, few of which have been utilized. Some of these are on brooks too small to have been useful before the application of electricity to industry. Now, all through the hill country will be found ingenious farmers who have hitched a dynamo to a mill wheel, turned by a little brook close by, and have utilized the combination to light their houses and barns with a luxury and convenience not dreamed of until lately, to turn the separator, churn and butter, saw the wood and cut up the ensilage. The men who are raising money to stimulate agriculture on such farms, might find it profitable to invest some of the money in experiment stations after the Lemstrom.

Unnecessary

A new qualified judge in one of the small towns of the South was trying one of the first criminal cases. The accused was an old darky who was charged with robbing a hencoop. He had been in court before a similar charge and was then acquitted.

"Well, Tom," began the judge, "I see you in trouble again."

"Yes, sah," replied the darky, "the last time, Judge, you was ma lawyer."

"Who is your lawyer this time?" answered Tom, "I'm going to tell the truth."

The story is told of a certain town in the West, which had gone dry, that a stranger applied at the hotel for a drink of whiskey. He was told that it could not be sold to anyone unless bitten by a rattlesnake. Upon enquiring whether there were any rattlesnakes in town, he was given the name of a man who had one. That said his informant, there's no use in you going there, for that snake's engaged for ten weeks ahead."

Temporary blindness in children calls for the slipped treatment.

Kitty of Coleraine.

As beautiful Kitty one morning was tripping
With a pitcher of milk from the fair of Coleraine,
When she saw me she stumbled, the pitcher tumbled,
And all the sweet buttermilk watered the plain.
"O! what shall I do now twas looking at you now."
"Sare, sare, such a pitcher I'll ne'er meet again!"
"Twas the pride of my dairy: O, Barney McClary!"
"You're sent as a plague to the girls of Coleraine."
I sat down beside her and gently did kiddle her,
That such a misfortune should give her such pain;
A kiss then I gave her, and ere I did leave her,
She wou'd for such pleasure she'd break it again.
Twas hay-making season, I can't tell the reason,
Misfortunes will never come single, that's plain,
For very soon after poor Kitty's disaster
The devil a pitcher was whole in Coleraine.
--Edward Lynght.

CHARACTER TOLD AT A GLANCE.

Character can be read in a person's carriage, it is claimed. Business takes long strides, and has a quick, nervous gait. Stubbornness waddles, pointing determinedly to self with every step. Happy go lucky has a free and easy walk, throwing his arms and legs about as if hung on pivots. Dignity is stidiously erect, measuring her steps carefully and looking neither to the right nor left. It is exaggerated style of correct poise. Independence struts, positively tipping backward and swaggers his shoulders and tips his hat, saving in appearance, if not in words: "A fig for your opinion."

Prudery walks cautiously, with small, mincing steps. Equipose walks with such grace, with such ease, she attracts the eye of the admiring throng. Entering a room, she fascinates all about her.

It is the little things in a day which combine to make the events of lifetime; We cannot be too careful in guarding the training of the body. Some are blessed with beautiful faces; other with fine figures, may have luxuriant hair and a graceful carriage. Yet it is possible for each to possess, in part, all of these tributes of beauty, with study and practice.

And the last among these attractions is not the walk, for a woman is often judged by the manner in which she carries herself than in any other way known.

Labor in Demand

There is employment now for every man in New Glasgow. Carpenters, joiners, masons, plasterers, and all who have to do with building are in demand. Laborers, who are good with pick and shovel, are wanted on our streets and thoroughfares. Gardeners, who have some knowledge of gardening, trimming hedges, pruning trees, mowing and fixing lawns, laying out grounds, etc., are wanted. One man told me he could find employment for a dozen men at garden and lawn work. So many of our citizens are beautifying and making more attractive their gardens and grounds this summer that they find it difficult to get the necessary work done when they want it. However it is a good sign that this desire for improvement is so contagious and general; and we only hope that more capable men may be found to supply the demand for good gardeners and trimmers.

Women's Period of Pain. Regularity of the system can only be secured by maintaining strong healthy circulation. If feeble, run-down, nervous, be sure that circulation is poor. The natural result is congestion that excites so severe a penalty. Besides being a food former and nerve tonic, Ferrozone adds additional vigor to the heart and ensures strong blood circulation. This is the only means of preventing congestions that cause pain, headache and nerve weakness. The whole system is renewed and fortified with strength and endurance. For girls and women suffering equals Ferrozone, 5c. at all dealers.

TIP BITS FOR LOCAL FANS.

Since Lynch told Bresnahan to "get in the game and earn his salary" the cardinals have been the sensation of the league. A good call-down does a man good.

The St. Louis Cardinals have been playing Fourth of July ball, says a fan who has just come from the West. They aren't travelling beyond their speed, but their at the top of it.

A few years ago umpires didn't dare come through the grandstands to the field.

"In the old days it was worth an umpire's life to walk anywhere near the fans," says Manager O'Connor.

"Some fan would have been sure to make trouble, and the umpires in those days used to sneak on the field and get off of it as quickly as possible after. But things have changed.

Those squeeze plays are like four flash or the other fellow's umbrella all right, if you can get away with 'em.

These are off days for the paragon Rube Waddell in the hospital, Larry McLean on the water wagon and Dugg Raymond securely pinned to the straight and narrow. Diamond performers who do nothing by play baseball afford little food for the jester.

Rhody Wallace is past the juvenile stage, but nevertheless he is still you the heat of his career and showing the way to all third base rivals in the American League. --Pittsburg. Some of the National League experts will have to wake up and pick the right ones.

The record for the present year as to number of men engaged in a game was made at New York the other day, when 28 cherubs took part--12 for Cleveland and 16 for the Highlanders.

In proportion to the number of hits he makes Lejock has a smaller number of runs slow in running bases. His ratio is eight runs to 42 hits.

The Decoy

"I notice," said the man to the person "that although I am in the front par there is always a \$5 bill on the collector's plate when it comes to me. Is that the contribution of the man who takes up the collection?"

"Not at all," replied the person who believed in business methods, "that's our decoy."

Farming a Loss

Ask any farmer how much each dollar he has received in returns cost him to produce. Ask him whether the expenditure of one dollar in capital and labor returned him \$1.10 or ninety cents.

He can't answer. The little tittle of the fertilizer is a void so far as he is concerned and the part played in the production of an acre of corn by such means is not a hand, interest and depreciation of machinery, man labor and horse labor, has never entered into his calculations. If he should sit down and figure out his losses in all the minutiae of detail that is necessary for the proper conduct of the business undertakings, mercantile or manufacturing, he might find that he was actually producing crops at a loss. A large percentage of American farmers, probably the majority of them, actually are producing foolstuffs at a loss on the basis of the science of modern business. Van Vleet Adling in Book-Keeper for June.

TRUTHFUL ADVERTISING THE BASIS OF SUCCESS.

Since the Ingredients Entering Peruna Are Known, Its Power as a Catarrh Remedy and Tonic is Understood.

COLUMBUS, OHIO.—The active ingredients entering the most popular household remedy in the world have been made known to the public. This means a new era in the advertising of popular family medicines—Peruna leads.

Peruna contains among other things, golden seal, powerful in its effect upon the mucous membranes. Cedron seed, a rare medicine and unsurpassed tonic. Cubebs, valuable in nasal catarrh and affections of the kidneys and bladder. Stone root, valuable for the nerves, mucous membranes as well as in dropsy and indigestion.

After a woman has been married she should be willing to admit that her husband doesn't know what he's doing.

Let's Now See How They Are Wasting Money On Roads.

Amherst, N. B., June 24. A. W. Campbell, deputy minister of railways and canals, arrived in Amherst on a special train today, accompanied by members of the railway board and W. B. McKenzie, chief engineer of the L. C. R.

Mr. Campbell delivered a large meeting of citizens of the town and surrounding country tonight on the subject of roads. He said he was one of the few who were not in an Amherst club. He condemned the present system of road making in this province and said it is a waste of labor and of money.

Str. Prinz Oskar Ashore At Flower Ridge, Floated

Montreal, June 24.—It is reported from Point Amour that the Prinz Albert of the Canada line, has been successful in her endeavor to tow the Prinz Oskar off the reef at Flower Ridge, on which she stuck, and where she has been fast for two days. Although she has a considerable quantity of water in her fore hold, it is believed that her bulkheads will prove strong enough to prevent any flooding of the after part of the ship, and as the Lord Statueon will arrive here tomorrow with the most powerful pumping apparatus which exists on the coast, she may still be towed into Quebec and saved.

Driver (on front) I wasn't always driving an ice wagon. I once owned a string of horses and wore diamonds.

Welcher (on back) That's nothing. I used to own my own mansion and motor every day to bill time.

Boss (on sidewalk) Say, you fellows, stop letting off so much "hot air," will you? First thing you know you'll be in the ice and we'll go in short. --George News.

Moncton Decides on Carnival Week.

Moncton, N. B., June 24. Moncton is to have a carnival week, beginning Monday, August 8. This was definitely decided at a large and representative meeting of the greater Moncton club tonight in the city. The meeting was unanimous in favor of the proposal and all entered heartily into forwarding the scheme. Committees for the different branches of the carnival were appointed.

The programme for the week was decided as follows:

- Monday, Society parades, baseball, airship flights, hand concerts.
- Tuesday, Athletic sports, baseball, airship flight, hand concerts.
- Wednesday, Visit to oil wells, airship flight, masquerade ball.
- Thursday, Visit to new I. C. R. shops, baseball, airships, hand concert, fireworks.
- Friday, Visit to oil wells, horse race, airship.
- Saturday, Labor parade, horse races, airship, hand concerts, fireworks.

Statistics show that in the city of New York there are 25,000 women who by their labors support their husbands and families.

Commerce, Business!

Commerce, Business, these stand at the head of the so called professions today. And what a change has taken place in such professions. The time was even a quarter of a century ago, that "Let the buyer Beware" could be placed over every commercial transaction. Now, the seller, simply cannot afford to take advantage of the buyer, if he wishes to keep in business. "We are Brothers all" is now the motto of the prosperous business man, so that while in years gone by, the business man was a person who not only thrived by taking advantage of the necessities of the people, and who banked on their ignorance of values, now he knows the best way to help himself is to help his neighbor. To benefit others is to benefit himself. It is a recognition of these truths that has today placed the Business Man at the head. He ministers to the necessities of humanity, and he ministers to the happiness and well-being of the life of another, is he not doing God's work? Men must eat, they must be clothed, they must be housed. It is quite as necessary that we should eat good food, or hear good music, or hear good sermons, or look upon beautiful pictures. It is quite as necessary that we wear good and suitable clothing and be comfortably housed. Commerce, the business today seeks to give us these things. We honor the Business Man or these times in which we live. We would lift our hat to him and give him a chance in his effort to change environment and give us a better society.

How dependent we are upon these "professions." Take, for example, our Grocer, we can't eat a meal without first interviewing him.

We can omit the preacher, avoid the lawyer, but we will have to deal with the doctor unless we deal with the right Grocer. Our lives are literally in his hands. He supplies the fuel that keeps our vital processes in motion. Just a little of the wrong kind of food and our outlook on the world is disturbed, and life is a burden. Of all men then our grocer should be a man of integrity and intelligence. He sells what he advertizes and advertizes what he sells. So with all these honored professions.

The high school sent a baseball team over to St. Andrews on Saturday last and a very interesting game of ball was played. The score was decidedly in favor of our boys being 21 to 10. We hope the game will be returned.

The lineup was as follows:—

St. Andrews	St. George
Grimmer	McNichol
Williamson	Dowe
McGould	1st. H. Gillmor
McMullon	2nd. McMann
Treadwell	3rd. Johnson
Russell	S. S. O'Neill
Greenlaw	C. F. Stewart
Iverett	E. F. Cameron
Armstrong	R. F. Hibbard

Score—1, 2, 3, 4, 5, 6, 7, 8, 9.
St. George, 1, 0, 5, 0, 2, 5, 3, 2, 3--21.
St. Andrews, 0, 0, 1, 1, 1, 0, 3, 2, 2--10.
The local boys also won in track sports with a score of 25 to 11.

Correspondence.

To the Editor of Greetings—
Sir, on looking over your issue of June 22, I was very much surprised to see that a number of young people of our town had spent an evening in Whist and dancing at my home, I wish to emphatically deny this statement. Trusting that you will give this article a prominent place in the columns of your next issue, and requesting that in future you be a little more careful as to the veracity of your reports of social gatherings.

I am yours truly
T. S. MCADAM.

Editor's Note:—
We regret very much the error in our last issue. Our only excuse is that owing to the temporary vacancy in our office staff we were unable to give our full attention to the happenings of the town. We accept the much needed (?) advice. Our columns are always open to criticism and we stand corrected in all errors.

Baseball.

On Friday, July 1st, the St. George Baseball team will play the first match game of the season on the new diamond with one of the fastest aggregations of ball players in New Brunswick. They will cross bats with the famous Lord's Cove ball tossers. The latter team possess a very fast pitcher in Richardson, and will come to St. George with expectations of an easy victory. On the other hand St. George has a fast, well balanced team and will give a good account of themselves.

Lord's Cove has defeated the Pleasant Point Indians, and an Eastport team, two fast teams, and if St. George wins she will have made a reputation at the beginning of the season.

A grand parade will be formed composed of the St. George Cornet Band and both teams and march to the field, and will undoubtedly be followed by the largest crowd that ever witnessed a ball game in St. George. The band will render excellent music at intervals during the game.

The association has been put to considerable expense in putting the new diamond in shape and at this time are in need of funds. It is therefore the duty of every lover of sport in St. George to attend the game and help the boys out.

An admission fee of 25cts. will be charged for ladies and gentlemen, children 10cts. The line up of the St. George team will be given on posters.

GO TO EASTPORT on July 4th

MOTOR BOAT RACES, BASE BALL TOURNAMENT, GRAND MILITARY PARADE

2 WARSHIPS 2
If you desire to enter any class in the Motor boat races communicate with Robt. Spear, Thos. Mitchell, or J. E. Weir.

Large Number Attend Dance.

On Wednesday evening June 22, the St. George Band Class held their first dance, and never have the walls of Coutts Hall witnessed a more gayly spent evening. By nine o'clock a large crowd of pleasure-seekers had gathered on the floor, and shortly after the music started and the dance was commenced, a programme of 18 dances was gone through and if there was anyone there who did not enjoy themselves thoroughly they have not yet been heard of. Quailles, Lancers and Waltzes followed each other in an endless chain and there was nothing to diminish the ardor and enthusiasm of youth and beauty. The shuffling of light feet was mingled with laughter and jest, and indeed there was everything present essential to a good dance. The floor was in exceptionally good condition and it was largely due to its smoothness that the dance could be continued as long as it was. After the ninth dance refreshments were served. These were simple but good, cake of all kinds and ice cream comprised the menu and it was greatly enjoyed as was shown by the manner in which it disappeared. Shortly after the intermission dancing was resumed and was continued into the "wee small hours" in the morning.

The Band Class is to be congratulated on the music of the orchestra which kept perfect time. They were also very generous in giving encores and extra waltzes, which did not figure on the dainty blue and white programmes. Perhaps the best praise for the orchestra is found in the remarks of a large number who said they had never heard better music at a dance in St. George. The attendance was over one hundred and fifty and was increased by a party of thirty from St. Andrews who sailed over in the afternoon. They added greatly to the pleasure of the evening and after leaving giving three cheers for St. George they started home by moonlight. It was a most successful dance and all praise and credit to the dance committee.

THE INN CAMPOBELLO ISLAND

OPENS JULY 1st. Table and service the best. Sea-food direct from the water to the table. Poultry, vegetables etc, from our farm; SPECIAL attention will be given to week end parties.

CAMPOBELLO.

Miss Brooks of Baltimore has opened her cottage and is planning to build another to be occupied by some of her Baltimore friends.

Mr. L. L. Prince of St. Louis is at the Inn where he will remain until the arrival of his family.

Travis Cochran's yacht Marvis R. K. Y. C. is in commission. Mr. Cochrane and his family arrived from Philadelphia last week.

Franklin Roosevelt's yacht arrived New York a few days ago.

S. Y. Lolita anchored here over Sunday. S. Y. Weow, E. Y. C. of Boston, was in port last week.

Major Archer-Shee M. P. of London is expected to open his cottage in August for a brief stay on this side. His yacht Pelican is being placed in commission. Major Archer-Shee's entrance into British politics will probably preclude his spending very much time here for some time to come. Mrs. Archer-Shee is a niece of Mr. J. Pierpont Morgan who will be later.

Always insist on getting Red Rose Tea. It possesses quality and you can buy it for the same price as other teas.

The Stmr. Connors Bros. arrived on Monday last and discharged a large cargo of freight from St. John.

The work on Frauley and McGowan's new meat and provision store is coming along nicely and it will be ready for business in a few days.

A fearful crime took place on North St. St. John on Sunday afternoon, when a young Italian, Diego Siracuso was found by the police in the rear of his store with a fractured skull. The victim was removed to the hospital and will die. The would-be assassin is believed to be Andrew Kosa, an Italian, who was stopping with Siracuso. The motive of the crime is thought to be robbery.

What is believed to have been the largest salmon ever caught in the East, was taken last Saturday at New Mills N. B. The fish was found in the nets of the D. W. Hoegg Company and put up a tremendous fight before it was finally gotten into the boat. The salmon weighed exactly 61 lbs. It was 45 inches through from the top of its back to its stomach. Through its sides it measured 5 1/2 inches.

A contract between the Nova Scotia government and the Halifax & Eastern Railway Company was signed on Monday for the building of 204 miles of railway from Halifax to Guysboro, with a branch across the province from New Glasgow to Country Harbor on the Atlantic seaboard.

The enterprise has been promoted by J. B. Bartram, of Toronto, and the company is composed chiefly of London capitalists. T. B. Fogg, lately of the Toledo Terminals Railway, is the general manager. One of the London financiers is Zeigmond Hirsch and the others belong to what is known as the South African group. This road will be completed within three years. It has subsidies from the provincial and dominion governments of \$12,800 a mile.

THE GRANITE TOWN GREETINGS

Greatest Year in Canada's History

Record Revenue and Surplus

Ottawa, June 10.—Final figures of revenue and expenditure for the fiscal year ended March 31 last, made public by the department of finance this afternoon, shows a record surplus of \$22,092,185 in revenue over all ordinary expenditure. This exceeds by more than \$2,500,000 the previous high record of 1907-8, and is \$5,000,000 better than the estimate given by the finance minister in his budget speech of December last.

The total revenue was \$101,507,034, an increase of \$16,500,000 over the preceding year.

The total expenditure on consolidated fund account was \$79,408,849, or \$4,500,000 less than 1908-9.

On the account last year there were \$114,994, including \$19,968,064 on construction of the National Transcontinental Railway.

Out of revenue last year Canada paid every item of ordinary and capital expenditure, exclusive of the National Transcontinental, and had more than \$3,500,000 still left towards the construction of the railway.

Probably no other country in the world can show anything like so satisfactory a financial statement for the year, and with the revenue for this current year increasing at the rate of \$1,500,000 monthly, indicates a point of an even greater surplus for the next month.

The net debt of the dominion at the end of the fiscal year was \$336,266,348, an increase during the year of \$12,336,348, as has been noted, to three-fifths of the year's expenditure on the National Transcontinental.

Ontario, especially, will for many years deserve the title, "the Playground of America." Though it contains a population of two and a half million people yet not more than one-third of the province may be regarded as settled. The remainder is still more or less in the primitive condition which nature created. For a distance of five hundred miles north of Lake Simcoe there lies a vast semi-mountainous district well suited to the desires of the holiday maker, the canoeist, the fisherman, and the hunter. The lakes and rivers are numerous and well stocked with fish. The former are studded with islands, which afford splendid sites for summer cottages and camps. Along the east coast of the Georgian Bay, there is a district known as the Thirty Thousand Islands which is yearly attracting a great number of the campers and sportsmen. The scenic splendour of this whole district is magnificent, and sufficiently varied to prevent monotony.

The open season for pickering begins on May 15th and that for bass and muskonge on June 15th. These are the three most common fish, although speckled and salmon trout are also found in certain waters. The duck season runs from September 1st to the end of the year and the deer season from November 1st to 15th. July and August are the favourite months for the canoeist and the fisherman; November is the one which attracts the huntsman.—Canadian Courier.

Chief Justice Sifton's Humour

A good story is told of Chief Justice Sifton of Alberta, who was once a famous stump speaker. This story explains why he was accounted such a marvellous orator. His memory was a miracle. On one occasion he and Doctor Brett were having a campaign in the Banff district. The two candidates were friends as well as competitors and were holding joint meetings. It had been so arranged between them that on one evening Dr. Brett would speak first and Mr. Sifton would reply. Then on the following evening the order of things would be reversed and Mr. Sifton would speak first and Dr. Brett reply.

And so it was that on one occasion when it was Mr. Sifton's turn to take the platform first, he finished his discourse before the Doctor had arrived, an emergency call having delayed the representative of the medical profession. In order to keep the meeting going Mr. Sifton arose and assured the assembled audience that he had heard Dr. Brett's speech, word for word as he had heard it on several occasions. He told all the Doctor's stories, and told them well.

Asaya-Neurall

THE NEW REMEDY FOR Nervous Exhaustion

Alcoholic and physical excesses, mental shocks and bodily injuries drain the nervous system with surprising rapidity. Severe nervous exhaustion frequently results. The only remedy is Food, Rest and nerve repair. "ASAYA-NEURALL" makes possible this cure. It feeds the nerves, induces sleep, quickens the appetite and digestion, restores full nerve vigor. \$1.50 per bottle. Local agent.

Local Agent:
W. A. H. Johnson, Victoria,
Hisco, Coates & Co., St. George.

Canadian Immigrants

There are two kinds of Canadian immigration, that which is permanent and that which is temporary. The permanent immigration was dealt with a recent issue; this number is devoted to a consideration of the temporary. The tourists who come to visit us for the purpose of seeing what the country is like and those who come to spend a few months during the summer season constitute a great invasion.

When the summer sun begins to make life somewhat burdensome in the great cities of the United States, those who can afford the trip, start northward. From the New England cities, the visitors come to the Maritime Provinces or Quebec. The balmy air of Nova Scotia, New Brunswick and Prince Edward Island gives renewed life to the weary workers of the manufacturing cities which stretch from Boston to Pittsburg. The shores of the St. Lawrence, or the higher inland mountain districts to the north, attract many visitors searching for the pleasures and benefits of a few weeks' freedom in districts where coal-smoke is unknown.

The province of Ontario, with its hundreds of inland lakes and equally numerous shallow streams, affords an equal opportunity for those who are fleeing from the discomforts of mid-summer life in the Middle States. The thousand Islands district, the Rideau and Ottawa section, the Kawartha Lakes region, Muskoka, French River and Metagamie are all becoming very familiar to those humans who, like the birds, make a year-migration northward. Just now several hundred summer hotels are being reopened and several thousand summer cottages are waiting expectant.

Westward of Lake Superior, summer tourist business has not grown to large proportions except along the Pacific coast. The Rockies, of course, will always have a certain vogue, and the excellent C. P. R. hotels at Banff, Lake Louise and elsewhere have had a full complement of summer visitors for a number of years. Lake Winnipeg and the Rainy Lake districts, however, are as yet used only as summer resorts by the residents of the adjacent Canadian cities and towns. Here is where there is likely to be a tremendous development in the next decade.

Tourist travel up the Pacific coast will also develop fast with the growth of the coast towns and steamer facilities. A trip from Seattle, Tacoma and Portland to Victoria, Vancouver, Prince Rupert, Port Simpson and even Skagway should be most popular in the near future. The Port and Canal district is developing fast and should soon attract sight-seeing traffic as well as the present stream of adventurers and prospectors.

Along with these developments will come a tourist traffic moving northward to the Saskatchewan, the Peace, the Slave and the Mackenzie Rivers. Here is a new country, singular because of its majestic vastness and its primitive simplicity, which is sure to attract a yearly invasion of temporary immigrants.

When he was nearly through Dr. Brett arrived in great haste and Mr. Sifton at once sat down. The Doctor ascended the platform and began to deliver his address. The smiles that spread over the faces of the audience who had gathered that night at the little town of Anthracite may be easily imagined, but it was some time before Dr. Brett could discover what had gone wrong with his audience.

PAIN
Pain in the head—pain anywhere, has its cause in blood impurities, pain in blood pressure—nothing else usually. At least, as says Dr. Shoop, and it proves in his case a little pink tablet. The tablet—called Dr. Shoop's Headache Tablets—removes blood poisons away from pain centers. In fact, in charming, pleasantly delightful, gentle, though subtle, it simply equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you have dizziness, vertigo, nervous, it's blood congestion—blood pressure. That supply is a cure for Dr. Shoop's Headache Tablets done in 20 minutes, and the tablet simply discards the unnatural blood pressure.

Brush your finger and doesn't get red, and swell, and pain your. Of course it does, it's a congestion blood pressure. You'll find it where pain is—always. It's simply Common Sense. We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

Wives and Husbands

"If every pair for whom wedding bells ring this June," says Margaretta, "would take to heart the thought that their private affairs are their own, not to be told to outsiders and not paralleled to the world, they would insure and safeguard their self respect and the permanence of their home. The temptation may arise when first there is a little friction to seek sympathy from mother, sister or intimate friend. That temptation should be trampled under foot. Confidential friends are not invariably to be trusted. With or without the best intention the third party intruding in the affairs of a married couple is in peril of making mischief. Make it a rule to confide wholly without secrets or reserves in one another from the hour that you become husband and wife, and you will have little to fear, though the four winds should blow around your house. It will stand against any tempest and prove itself strong and hallowed, your sanctuary and your castle if you confide in and defend your sacramental union. Never let a quarrel last overnight. Present a brave front to the world. There is common sense in the homely advice to put the best foot forward. Don't begin by thinking that you must have everything on the same plan with your neighbors. Live within your means, although your living be of the simplest. Try to save a little each week or month toward coming days when expenses may be larger. Much comfort is theirs who are aware that they have laid aside a provision."

The Boys Shadow

Recently the mother of a boy who is about twelve years of age made complaint before a Judge that her son was unruly and she feared he was associated with company that in the end would bring disgrace to him and her. The Judge told the son to step near him, and in pleasant tone of voice said, pointing to the parent, "Boy, there is the only true friend you have; obey her. Let me impress this on your mind; think of it, remember! Whatever shadow you cast in life will follow you as long as you live and always keep up to you. This is your reputation. It is always in sight and just your size exactly, and how proud and happy it will make your fond mother if you will stop going with bad youths and stand in such a position in the sunlight of heaven that your shadow will always be on the side of honesty and respectability. Go home this time with your mother, turn over a new leaf and prevent the law from sending you to the reform school." Golden words. No more pertinent truth was ever more aptly spoken; no wiser counsel ever proffered by mortal lips. Your reputation in your community is your shadow. It is exactly your size, and you can never get away from it; though you may flee a thousand miles of a cloudy day, the moment you show yourself in public your shadow is at your side. Your habits and modes of thought have left their imprint upon your feathers, unconsciously controlling your speech and action, and dissembling as much as you may, are constantly signaling from behind the mask that you are not what you pretend to be.

Be Not Too Hasty

Hard words, unkind acts may be forgiven, but they may never be effaced from memory. An injustice that wrongs or injures or pains a brother, sister or friend stands there forever. You may atone for it, repent of it, try to repair it, make double or treble compensation for it, but you cannot recall it; it is done and can never be helped, though it might have been prevented before it happened. Many a hasty, inconsiderate act has led to a life sorrow; many an act, even trivial, has been the occasion of frequent bitter memories for a long lifetime; whereas an act of kindness and forgiveness, which it would have been better and wiser and easier to do, would have rewarded the doer with a glow of grateful pride and pleasure, every time in after years it came to mind.

Encouragement in Right Doing

We often wonder why it is that people seem to think it their duty to keep the fact a secret, never to be divulged until their neighbor has passed away and is laid in his grave, and then to be brought to light when it can be of no earthly benefit to him. It is not so with their faults, which all take more or less pleasure in magnifying before the public. Many a man has been driven to the dogs for want of a little encouragement and a just recognition of his best efforts to do right, that are not appreciated by his fellow men. If people would take one half the trouble to encourage others in well doing, that they do to circulate everything they have derogatory of them the world would be much better and many a man saved from becoming a criminal. Men whose good deeds are ignored by society and whose slightest fault is continually harped upon and magnified, soon lose all self respect and care nothing for society, because society cares nothing for them. They may know they do wrong, but if it is no credit to do right what encouragement have they to do better? One-half of the criminals in our jails and penitentiaries have been made such by the unkindness of their fellow men, who have always stood ready to condemn every little offense, without stopping to inquire into the circumstances that may have caused the party to do wrong. We should put ourselves in the neighbor's place surrounded by the same circumstances, then we would be better able to judge and not have to wait till they are dead before we could say something good about them.

Many Converts in Torrey Campaign

Fredericton, N. B., June 20.—The results of the evangelistic campaign recently conducted in this city by Dr. Torrey and those associated with him are becoming apparent in the marked increase in church membership as far as the four churches engaged in the campaign are concerned. Baptists took place in large numbers at both the Brunswick street and George street Baptist churches last night. At the Methodist church there will be a baptismal service next Sunday morning and a reception service in the evening at St. Paul's Presbyterian church the reception service will be held on Friday evening.

Principal Assessor Sterling has completed work on the city assessment roll and this morning made public his statistics. The rate per \$100 is \$1.30, against \$1.43 last year. Real estate valuation is \$2,831,210 personal property, \$1,472,647, and income \$389,025, making a total of \$4,732,872. The number of polls is 1802, against 1760 last year.

Henry Morgan, father of Miss Morgan milliner, of this city, is dead in Ottawa. Miss Morgan went to Ottawa last Tuesday. Ald. H. C. Jewett is endeavoring to stop a runaway horse at the trotting park this morning, was thrown to the ground and dragged some distance. He received a severe shaking up.

A. H. Borden, late of Halifax, is here today, conducting military examinations at the Normal school. All the student teachers are now required to pass in military drill and physical training.

The divorce court will meet here on July 5.

Sydney Leach, of Kingclear, and Miss Louise Webb, of this city, were married in St. Peter's church, Springhill, this afternoon by Rev. Mr. Shewan.

J. Brooks, B. T., who was this month graduated from the U. N. B., has accepted the position of principal of the Superior school at Fredericton Junction, and will enter upon his duties there at the commencement of the next school year.

Why Cough Syrups Fail.

Every breath sends healing balsams in the inflamed tissues. Tightness, soreness and inflammation are cured by healing pine essences. The cough goes away, throat is strengthened, business is cared. Nothing so simple, so convenient, so certain to cure as Carter's. Try it 25c. and \$1.00 sizes, sold everywhere.

Does not Color the Hair

AYER'S HAIR VIGOR
Stops Falling Hair
Destroys Dandruff
An Elegant Dressing
Makes Hair Grow

Ingredients: Sulfur, Glycerin, Quinine, Saffron, Chloride, Capsicum, Sarsaparilla, Alcohol, Water, Perfume.

A hair preparation made from this formula is harmless, yet possesses positive merit. A hair food, a hair tonic, a hair dressing. Consult your doctor about these hair problems.

J. C. AYER & COMPANY, Lowell, Mass.

Co-Operators in Canada

The growth of co-operative societies in Canada has been slow and comparatively silent. If the average Canadian were asked how many co-operative associations exist in the Dominion, he would probably be unable to name a single one. The movement, nevertheless, has been gaining ground surely, if not swiftly, and has now reached such a stage that the Co-operative Union of Canada is publishing a bright little monthly magazine from Brantford, and the list of officers indicates that there are co-operative concerns at Guelph, Hamilton, Brantford, and in Nova Scotia.

The C. P. R. and Nova Scotia.

The business men of the city, represented by the Board of Trade, will have the pleasure of welcoming today Sir Thomas Shaughnessy, who with three of his colleagues on the Directorate of Canadian Pacific Railway, has been a hurried inspection of the Dominion Atlantic system. Sir Thomas has been in Halifax on several occasions, yet special interest to his present visit, for the great corporation over which he so ably presides, can now be said to have a real and substantial stake in Nova Scotia.

The acquisition of control of the Dominion Atlantic places the C. P. R. in possession of a railway route which traverses one of the most productive sections of the Dominion. Apart from its value as a tourist and scenic line, linking up Nova Scotia with the populous centres of New England and appealing to an annually growing host of vacation seekers, it has enormous traffic possibilities in the development of the agricultural and horticultural wealth of the tributary country.

Sir Thomas and his associates had the opportunity yesterday of seeing from their car windows but a mere strip of Nova Scotia's great orchard, which is still in the primary stages of development. Not even the wheat lands of the Canadian West have greater potentialities than the fertile valleys of our Province. This year Nova Scotia's crop for export, in all probability will be one million barrels, and the time is not far distant when we shall be sending markets other than our own five million barrels of apples. In the development of this industry the C. P. R. may be expected to be an important factor.

And what is true of the natural wealth of this section is true of all sections of the Province. Nova Scotia has vast resources in sea, forest, farm and mine, and in the basic materials for manufacturing which make it one of the richest Provinces potentially in the Dominion. Even now, when we are only scratching the surface, to use the trite phrase, the value of our products last year was more than One Hundred and Fourteen Million Dollars—an impressive showing for a population of half a million. We have the finest fishing grounds on the Atlantic seaboard, practically the only remaining lobster supply, large tracts of pulp and timber lands, vast deposits of iron ore, vast deposits of coal fields in Cumberland, Pictou, Inverness and Cape Breton; steel mills at New Glasgow, Sydney mines and Sydney, a great corporation in Cape Breton enjoying twelve thousand of the best paid men in Canada, and a plant at Sydney which already has an output in Steel Million Dollars. This, in some measure, indicates the industrial possibilities of this Province.

The superiority of Halifax as a transatlantic terminus, offering the quickest and safest between the Dominion and the Old Country, we dare say is fully realized by Sir Thomas Shaughnessy, but his strategic position as a port for handling the trade of the West Indies and the South American Republic which promises to be one of the largest carrying trades of the future is no less marked. It may be worth repeating that Halifax is nearer every South American port from Pernambuco down than any shipping port in the United States.

The prospective conclusion of a reciprocity arrangement with the British West Indies, as the result of the inquiry of the Royal Commission now completing its work in London, promises a large increase in Canada's trade with the sister colonies through the port of Halifax, and in the development of this trade Canadian transportation companies will have a large interest. The prospects for development, to of tourist travel, (in which the C. P. R. has been conspicuously successful) to and from the south, are worthy of attention.

An edict that was issued from Washington, D. C., a short time ago, condemning the English sparrow to death, seemed, on his face, cruel. The sparrow, however, signs his own death warrant, and for many reasons. Not only is he destructive to all kinds of insect life, but his cruelty and pugnaciousness have practically driven from many parts of the United States and Canada birds that are absolutely essential to the grain and fruit growers.

He attacks apparently without reason birds that in no way interfere with him, and simply, it would seem, for the joy of battle. A sad case was seen on Tuesday evening. Some boys noticed a number of sparrows chattering noisily and apparently fighting. When they investigated the cause of the unusual noise, they found a little yellow bird—commonly called by children from its song, "the one-two-three bird" lying dead on the ground, its eyes pecked out by the vicious sparrows.

The victim was a pretty, harmless little creature, entirely inoffensive, and the tragedy is but one of which the sparrows are the instigators. Notifying the police and newspaper paragraphs are alike ineffective. Ottawa will have to combine with Washington to meet the needs of the case. The song birds are rapidly disappearing. Many of the causes are unpreventable; the nuisance of the English sparrow is not among the number.

Estimate Greatly Exceeded
In his budget speech Hon. Mr. Fielding conservatively estimated the total revenue at \$97,300,000. The actual revenue went \$4,500,000 beyond his estimate. He estimated the total expenditure on consolidated fund account at \$81,000,000. It fell short of this by \$500,000. The principal items of revenue were as follows: Customs, \$60,156,133; excise, \$16,253,352; post office, \$7,958,547; public works, including railways, \$10,114,960; miscellaneous, \$8,018,009.

The principal items of expenditure on capital account were as follows: Public works, railways and canals, \$26,571,225; militia, \$1,209,970; railway subsidies, \$2,048,097; bounties, \$2,417,095.

Jack Campbell, Harlow Kinney, Bernard Connors and Willie Connors of Blacks Harbour, visited Letang on Sunday.

Thomas Magowan returned to St. George on Friday, after spending a few days with his daughter, Mrs. Frank Chaffey.

In one of the tallest office buildings in New York a man and his wife kept house. "When they came to me and asked to rent a suite of offices for house-keeping purposes," said the agent of the building, "I told him it couldn't be done. I had heard of janitors keeping house in office buildings, but I hadn't heard of anybody else trying it. So I told them no."

"But the young man reasoned with me. We've got to be as high as we can go," he told me.

"I want to lodge mosquitoes?" said I.

"Not quite that," said he. "My wife has an aunt who won't ride in elevators. She has trailed us up twelve flights of stairs, but I think she'd balk at twelve floors."

April 12, 10

Synopsis of Canadian North-West Land Regulations.

Any person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any Agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months residence and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section along side his homestead. Price \$3.00 per acre. Duties—must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties—must reside six months in each of three years, cultivate fifty acres, erect a house worth \$300.00.

W. W. CORY, Deputy of the Minister of the Interior.

ASSESSOR'S NOTICE.

The undersigned hereby give notice of their appointment as assessors of the town of Saint George for the year 1910 A. D., and request all persons and bodies corporate, liable to be assessed in the said town, to hand to the assessors a written, detailed statement of their real and personal estate and income, sworn to as required by law, within thirty days from date of this notice.
