

TOWN MATTERS.

It is not necessary for the STAR to refer to what it has said about our Town affairs. It is generally conceded that the management of affairs in Chatham would disgrace Timbuctoo or any hamlet in the interior of Africa. The people of the Town have surrendered at discretion their town management into the hands of strangers, and as a consequence, can now boast of the dirtiest town in the Dominion of Canada.

Our streets are a disgrace to our civilization. Our sidewalks are a reproach to our intelligence and our sewers are breeders of disease and pestilence. The public slip in the very centre of the town is a cesspool of corruption. Our steam fire engine is so managed, that it is brought out as an erudition when a fire is extinguished or a building burnt down, our police, appointed by and only responsible to our Councilors, are their own masters, and our taxes are levied in a most unequal manner. Our whole system is rotten and requires a radical change. The little clique who have so long ruled the town and brought it to its present degraded position should be routed, and a new departure made in the interests of order and cleanliness. Let the people of the town do their duty and the Party of dirt will be regulated to their proper positions.

The ratepayers should take an interest in our local affairs. It is a slur on their intelligence for them to allow a few wire pullers to make the town management a means of political strife. Our every interest is so bound up with a proper system of local administration that the man who endeavors to make it a political question is a traitor to the community.

We have had enough of phantom Councilors. We now want men who can raise above party, who have spirit enough to carry out the improvements which their good sense will point out to them. It would be too much to expect that any men could accomplish the Herculean task of clearing out the Augean stables of our town at once, but they can at least make a beginning in the needed direction of TOWN IMPROVEMENT.

NORTHUMBERLAND MUNICIPAL ELECTIONS.

The election of Councilors to serve in the Municipal Council of this County for the ensuing year takes place on Tuesday next. With respect to this matter, we would remind the Ratepayers that it is not only their interests but their duty to ignore those candidates who have year after year been brought out by selfish cliques who have axes to grind and make it their business to bring out the men who are best fitted by nature to turn the stone and hold the axe, while they, from behind the scenes, order and direct them what to say and do. This County has been too long ruled by these irresponsible cliques, and it is time that the Ratepayers took the matter in hand and elected men to serve them and not their own interests, and when they are served, consider that Parish matters have been well attended to.

During the last few years the men returned by this Parish have been the nominees of a political caucus, and it has been the interests of the party that caucus represents and not the Parish nor its people that they looked after and attended to. The rule of this clique has at last become so tyrannical that even some of their staunchest men have turned upon them and refused to do their bidding. As a proof of this we have only to refer to the difficulties between them and their discarded Councilors of this and last year. Because the good sense and honesty of these men would not allow them to act unjustly and sacrifice the interests of the Parish to that of the party's clique, they have been wedged out and made to give place to a pliable and willing tool that is eager and willing to perform the work that is given him to do whether it is right or wrong. That a change has long been needed everybody allows, and we would have had it long before this but for the opposition of the leaders of the clique who consider that such a move would be detrimental to the interests of the "Party of Parity" in this Parish. Fortunately the power of the clique is now broken as it has only one candidate in the field, Mr. John Forthingham, a gentleman who in days gone by served them and their party well and faithfully in the Council. Opposed to him is Mr. Peter Loggie, who comes out as the nominee of no political party but in the interests of the better government of the Parish and those of our people who are desirous of seeing such a change will, we feel confident, give him their support.

port. Mr. McLaughlin the third candidate, has for years been a follower of the clique, but, we understand, he comes out independent of them, and if returned will not be a servile tool in their hands. The matter is now in the hands of the people and we have no doubt but that they will select as Councilors those men who will look after their interests and not those of the irresponsible clique who have so long had the management of our Parish affairs.

TOWN INCORPORATION, &c.

We have ever been in favor of the incorporation of the Town. If we mistake not we believe it was opposed when spoken of some years ago by the Councilors Messrs. Lawlor and Forthingham. They were then however independent of the party who now support them. Would it not be well for the present candidates to give us their views on this and other matters? Should we not have a public meeting, say on Monday evening and hear their views? We think that the ratepayers of Chatham are entitled to some consideration and we are sure many of them would like to hear from the candidates in regard to local matters. If Mr. Forthingham takes Mr. Goggin's place, will he endeavor to keep the cows off the streets? What do our Councilors think of this cow question anyway? What about the management of the fire engine, about our roads, our public square, our police, and other matters? We ask them in the name of the people to call a public meeting and let the ratepayers know their views on these questions.

We think the incorporation of the town a necessity, but we greatly fear that the pernicious system of political interference would then be redoubled. The predominant party would want to nominate all the Councilors and our Town affairs would still remain in the hands of a ring. This is to us the great objection to town incorporation. We do not think our present representative approves of this interference, but believe he is following evil counsel. Will he not be public spirited enough to put an end to a system which is so detrimental to the best interests of the town.

DR. HOLLAND.

Yet another heavy calamity has befallen American literature. It seems but the other day that we were mourning the deaths of Dana, Bryant and Bayard Taylor, which followed one another in such quick succession. And now one who indeed may be called a Father to American literature is gone. Dr. Holland first won the hearts of the people under the name of *de plume* of "Timothy" "Holland," which he adopted when Associate Editor of the Springfield Republican, and over which he wrote his most popular works,—"Letters to the Young," "Gold Foil," "Lessons in Life," and others. His poems, "Kathrina," "Bitter Sweet," and many minor lyrics, though not in the first rank, are sweet and true and healthy in tone, and caught the popular ear in a very remarkable degree. "Nicholas Minstrel" and "Arthur Bonnicastle," the best known among his novels, have the characteristics always looked for in his work, an unmistakable ring of sincerity, a glow of warmth of heart and loving kindness, and an all-pervading quality of robust manliness. He had true reverence for his art, and abhorred slovenly haste; but set not the form above the matter, nor was enamoured of sound for sound's sake.

It was as head and heart of *Scribner's Magazine* that Dr. Holland was most potent in his influence over American letters. His energy and wisdom and perseverance raised that publication to its position of chief among periodicals. His breadth and liberality of thought gave to it that freshness of tone, and "modernity" for which it is noted. His discriminating criticism, kindly encouragement, and generous appreciation called forth and fostered a great part of the best work done on this continent during the last few years, and has surrounded "Scribners" with a staff of rising authors who are the pride of the present day and the well-grounded hope of the future. Perhaps from among those his place on the publication which he directed may be filled, but his place in many thousand hearts will remain vacant.

EDITORIAL GLEANINGS.

THE ZULU DIFFICULTY.

Sir Evelyn Wood has been sent to Zululand, it appears, to make an investigation into the cause of the recent war between John Dinn and the native chiefs who rule the Zulus. John Dinn was Cetewayo's chief adviser before the recent war, and was rewarded for his treachery in deserting his master by being placed over part of his kingdom. His first act as a ruler, such as refusing to allow missionaries among his subjects and the arming of the tribe which he governs, were both tyrannical and in defiance of the terms upon which he was made a ruler by Britain. There can be little doubt as to where the fault lay, when a war arises between such a man with an armed people and native chiefs whose tribes are unarmed. John Dinn's usefulness was gone when the war ended. The British seem to have thought that, by making him ruler over that part of Zululand which borders on Natal, they would secure Natal from the danger of attack. The danger of such an attack was exaggerated by the alarm consequent

upon the Isandula defeat. As a matter of fact, the Zulus never threatened Natal, they simply defended their own country. To guard against an imaginary trouble the English have brought upon themselves a real trouble in all probability. So long as John Dinn rules nothing but trouble need be expected.

CANADIAN PROGRESS.

Senator Warner Miller, in a recent speech, thus referred to the progress made by Canada during the last twenty years. "The present census will show that the increase in the material wealth in this country during the past twenty years, when we have had no continuous line of policy on this tariff question, has been the most astounding ever witnessed. During the past twenty years we have opened up hundreds of our cities; we have opened the great West, and settled it with almost untold thousands of emigrants. In our manufacturing industries we are not rivaled by any portion of the world, and in the great one of iron—I simply cite it as an illustration of what is true of all—in 1760 this country could produce only 900,000 tons of iron. The census will show that during the last year it has produced nearly four millions of tons. (Applause.) And what have we been doing with all these great energies and these labours? We have spanned our continent with the iron rails. We have made all the thickly-settled portions of our country a network of iron. We have stretched our telegraph wires in all directions, and to day, under this wise legislation, the American people are enjoying a greater prosperity among all classes than any other portion of the world."

THE MINISTER OF MARINE.

The P. E. I. Patriot thus refers to the illness and projected retirement of Hon. J. C. Pope from public life:—"It is greatly to be regretted that the Hon. J. C. Pope should be compelled to resign his seat in the Cabinet under such melancholy circumstances. Before such affliction as his, both political opposition and private enmity are disarmed. There is no one, no matter what his political opinions may be, who does not feel a pang of sorrow at seeing Mr. J. Pope's career come to so sad and so untimely an end. To see a man of great energy, of unflinching courage, and of good abilities, after a life of toil and struggle, compelled from sheer exhaustion to give up the contest and doomed to drag through the evening of his days broken down in body and mind, is indeed pitiful. Who, when he contemplates such a wreck, has the heart to give a thought to the blemishes of his character or the mistakes of his life? He fought long and bravely; he has been sorely wounded; he, like many and many a brave man before him, has been overcome in the strife. Let us now think only of his virtues, and speak of him none but words of kindness and sympathy."

COMMUNICATIONS.

COUNCIL ELECTION &c.

The Election for Councilors will take place on Tuesday next, the 25th inst. For the Parish of Chatham three candidates are in the field, Messrs. Loggie, McLaughlin and Forthingham. Mr. Lawlor who held a seat in the Council since the incorporation of the County retires on account of business engagements.

Mr. Forthingham comes out as the nominee of a party. He had been a councillor before. He first came out as an independent candidate and was elected. Afterwards he accepted the nomination of a party, who, however, made him give way two years ago to another man. Last year he was again passed over, and he is now in the field again, not on his own responsibility, but as the candidate of a political party. Mr. Goggin, who was the party candidate last year, was it understood to run again. He had his nomination filed and was quite prepared for the election. Either Mr. P. Connors or Mr. S. Waddleton it was said was to be the candidate with him. Everything was going on smoothly when on Monday evening it was learned that Mr. Thomas McLaughlin had filed his nomination and also that Mr. Peter Loggie was coming out.

An informal meeting was then called attended by the leaders of the Liberal Reform party. Mr. Goggin was sit upon and compelled to withdraw and Mr. Forthingham, who often asserted that he would not come out, was nominated. He accepted. Mr. McLaughlin was nominated, but as he was already in the field and had never been consulted until they knew he was in the field, he was not very particular as to whether they selected him or not. We learn now that the party repudiate Mr. McLaughlin and intend to concentrate their force on Mr. Forthingham. They do not like Mr. McLaughlin's independence, and think everything crooked that does not square with their party interests.

The introduction of Dominion politics into Parish affairs should be deprecated. It is not done in any respectable town or city in the Dominion. We never heard of it in St. John, and no one over board of Sir Leonard Tilley or Messrs. Burgess or Weldon attending a ward meeting to select candidates for civic positions. If they did so their interference would be promptly resented, and they have too much respect for their positions to degrade them by such conduct. The respectable papers of Ontario are strongly opposed to mixing up politics with municipal affairs, and I hope that the citizens of Chatham will on Tuesday put an end to such meddling by electing the independent candidates who are asking their suffrages without regard to party.

This mixing up of politics with local

affair prevents good and solid men from taking that stand in them they should. Under the present system a man is selected not for his ability or standing, but simply for his party or sectional popularity. A man has to back out from being a candidate not because he lacks experience, but because the party think he is less popular or pliable, or both, than the one selected, and the persons who are best qualified for the position will not come out at all, not wishing to mix themselves up in political strife.

I hope then on Tuesday this evil system will be destroyed and that the two independent candidates will be elected. The Conservative party as such, take no part in the election, and do not think that it makes any difference in Dominion affairs who may be the Councilors for Chatham. The appointment of a constable or hog greave for the Parish of Chatham they can leave as a large matter, with the "Great Liberal Reform Party."

Yours, etc., A VOTER.

ALNWICK NOTES.

To the Editor of the STAR, Sir.—The Election for Councilors in this parish is over, and Romain Savoy, Esq., and Alexander Martin, Esq., were elected by acclamation. This morning we had a heavy snow-storm; there is seven inches of snow upon the ground and for this time of year it has a very wistly appearance. In this parish more than half of the potatoes are in the ground, and some farmers have as many as five hundred bushels to save as yet; the crop will amount to a little more than half of that of last year. The rest of the crops are very fair. I have read in a weekly paper printed in your town the following information respecting affairs in this Parish:—"A Mistake.—It is said that the Revisors of Votes for Alnwick intend to meet on the 20th instead of the 25th inst., for the purpose of adjudicating upon the names to be added to or stricken from the electoral list of the parish. There must be some mistake about the rumor as any such meeting on the 20th or on any other day but the 25th (unless the latter was on Sunday) would be illegal."

I would say that, notwithstanding the legal advice of the Editor, the revisors of this Parish will meet on the 20th as the law requires—for the purpose of adjudicating, adding or striking off names to or from the list of qualified electors of this parish. I would advise the editor of that dingy old weekly to come among the "Indians" to practice law before he takes the responsibility to publicly correct the revisors of this parish, when they are correct. If the said editor had any respect for himself he would correct in his next issue the erroneous advice he has given. But in almost every case in which he gives advice, the poor unfortunate who follows it is invariably led into error.

Yours, etc.,

Alnwick, 18th Oct., 1881.

MUNICIPAL ELECTIONS IN TRACADIE.

To the Editor of the STAR, DEAR SIR.—Our Municipal election passed off quietly here. John Young and Justinian Savoy, Esq., were returned without opposition, and Peter LeBreton and Alex. R. Young for the new Parish of St. Isadore. Three other candidates, Ambrose Bussard, Leandre Haebbe and Antoine Landry having offered. Their nominations were rejected by the Parish Clerk as they were not nominated according to law.

COUNTY OF KENT.

A correspondent at Kouchibouguac writing to us the other day says:—"One of our Miramichi fish mongers, by the name of J. U. Loggie, has secured through his Broker, George McLeod, Esq., all that valuable Salmon Beach at the mouth of the Kouchibouguac River, in extent five miles, for the sum of \$700, cash, in Bank of Nova Scotia notes, and all new. He purposes by this purchase to secure control of all the salmon privileges there and to have the water opposite those beaches thoroughly fished next year. He found that by supplying twine and rope to the needy who owned the privileges his expectations of supply fell short in catch and delivery, hence his purchase. He has a freezer here as well as a Lobster Factory, with another now building at Spruce Point. When he gets those under way, he expects to drive away all interlopers from Kent County, and thus purposes to do an honest business. Not being successful in filling his freezer with salmon this season, he has secured a large quantity of mackerel and fall Bass. The prices for these goods being 1 cent per pound for the former and 3 cents per pound for the latter. He has a considerable quantity frozen for winter shipments or when prices advance to 10 cents per pound for fresh mackerel and 17 cents per pound for bass."

DIED.

At Tabusintac, on the 13th inst., of a lingering illness, Phiby Strang, 81 years of age, beloved wife of the late William Price. She leaves a large circle of friends and acquaintances to mourn their loss.

NOVA SCOTIA GLASS FACTORY.

New Glasgow's New Industry.—SEVENTY HOURS AT WORK.—THE MARITIME PROVINCES TO SUPPLY THE DOMINION WITH GLASSWARE.

Among the many industries created by the National Policy has been three or four glass manufacturing. New life has been infused into the factories at Hamilton, and extensive establishments have been erected at Napapan, Ontario, Montreal and New Glasgow, Nova Scotia. The latter establishment is now in full blast, operations having been commenced some weeks since. New Glasgow is one of the most rapidly growing manufacturing centres in the Maritime Provinces. It is admirably located, the junction of the railway system of Eastern Nova Scotia, with excellent water communication, and in the immediate vicinity of inexhaustible fields of coal and iron. Surrounding the glass factory are the extensive works of the Nova Scotia Forge Company, Matheson's Foundry and Boiler Works, the New Glasgow Machine Works, and the newly organized Nova Scotia Steel Spring Company. The site of the glass factory comprises four acres, and was the free gift of Mr. Harry Townsend, a public spirited farmer. The capital paid up stock of the company is \$50,000, held principally by members of the Opposition party, including such well known names as those of Mr. J. W. Carmichael, ex-M. P., Mr. D. G. Ferguson, Mr. J. D. McGregor, and Mr. James Baedlow. The glass house is 90 feet square, two stories high. The furnace, a very large one, containing thirteen "crucibles," imported from Pittsburgh, is in the centre of this building. The sorting and packing house is 210 feet long by 20 feet wide, and is two stories high. The boiler house is 30x40. The building cost about \$25,000. Seventy-five hands are now employed, and many more are wanted. A second gang of men are expected to arrive in a few days. The work, when running at full capacity, will give employment to 175 hands—and this number will be employed as soon as they can be obtained. The manager and one of the principal shareholders is Mr. W. G. Beach, formerly of the Burlington Glass Works, at Hamilton, who in April last, set to work to establish a factory in the immediate neighborhood of the Nova Scotia coal fields, and the investment offering such good returns, the most violent opponents of the N. P. did not hesitate to invest their capital in the new enterprise. Among the advantages possessed by this establishment is the fact that while the Hamilton and Napapan factories are paying \$4.50 per ton for coal, this establishment is supplied at forty cents per ton, and as they consume from eight to ten tons per day, the saving in this item alone is from \$35 to \$40 per day—\$240 per week or \$13,000 per annum. The rate of freight from New Glasgow to Winnipeg, or to Victoria, is almost as low as from Montreal or Hamilton. For some time past the Maritime Provinces have been over-run with Canadian drummers. But now the tide has turned. The Maritime Provinces are sending their representatives up to the Upper Provinces. Mr. Beach arrived in St. John last night en route for Quebec, Montreal, Toronto, Hamilton and London, where he will solicit orders for his manufactures. In conversation with a Daily News Reporter to-day, Mr. Beach said that his company were able to undersell the imported article, providing they can get a fair share of Canadian trade. He had with him samples of various sizes and patterns of lamp chimneys, plain and figured tumblers and goblets and other table ware. Other varieties are being manufactured as rapidly as possible. These goods are noted for the billiency of the glass and superior workmanship. The company aim to manufacture an article equal to the best imported from either Europe or the United States. Mr. Beach claims that the prices are lower to day than they ever were in the history of the trade, and that the Canadian manufacturers are able to place their goods on the market at less than the imported article can be sold for.

There is a marked increase in the demand for glassware, and this article is coming into more general use among the masses; and every one will rejoice that the Maritime Provinces are prepared to supply that demand.

LOCAL MATTERS

Top Relief.

The Machinery on board the Relief was being removed this week, to be put into a shed for the winter. We understand that the boat will undergo immediate repairs, and that she will be remodelled. However, she will be ready to enter into active work in the spring.

Bargains are to be had at the wharves at present. There were 3 or 4 dozen pigs sold this week; prices ranging from 2 to 4 1/2 dollars. Cabbages were purchased for \$0.50 per dozen. Butter 20 cts. per lb. Caraqueet Herring was sold for \$4.25 pr. bbl. The price for Codfish is lowering, this week it ranged from \$4.00 to \$2.50. There were 405 head of Cattle out of one schooner sold for \$13 per head; and later on there were 12 head sold at the average price of \$10.50.

Stranded. A despatch from J. J. Fox, Esq., Agt. of Norwegian Lloyds, dated House Harbor, Magdalen Islands, Oct. 18th, says: Barque "Tonni" is dimasted, stranded and sunk decks to water here. This last trip was her second to Chatham this year; in her first load was from Guy, Bevan & Co.

Potato Boom. The rush for potatoes in the St. John market for shipment to the States is immense, agents from the States have scoured P. E. Island, so much so, that the Island coasters cannot get cargoes for their usual winter ports. It is astonishing that buyers do not come to Chatham, 1,000 to 2,000 barrels could be got here without trouble. Prices paying in St. John for potatoes are \$1.60 to \$2.00 per barrel.

Shooting. Messrs. Clark and Loggie started from Chatham for the Tabusintac beaches on a goose shooting expedition on the morning of Thursday last and returned this morning. They report lots of geese and brant but the wind unfavorable. During the two days they were on the ground they shot 6 geese and 18 brant. We return Mr. Clark many thanks for a fine fat goose.

Wrecked. During the storm of Tuesday night last, a schooner, name unknown, from Grand Ance to P. E. I. loaded with grindstones, while trying to enter McLeans Gulley, Beausimian, struck and went to pieces. Not a vestige of her is now to be seen. Crew saved with what they stood in. Part of the cargo has been fished up, and is now sold among the inhabitants to raise money to take the crew home.

A stranded. The pilot boat "Empress" whilst coming in from sea last Tuesday morning, struck a rock on the point of Portage Island, when she began to leak and the sea beat so heavily upon her that the men on board, four in number, had to abandon her as they had no means of fastening neither could they control her in any way, having lost their anchor, anchor chain, and rudder. They left her at 10 a. m. on Tuesday and when she had been 20 hours alone was picked up by the "Princess Louise" at 6 o'clock on Wednesday. The latter towed the wreck and also brought her crew to Chatham. The "Empress" is now undergoing repairs.

Frank Leslie's Popular Monthly. The contents of the November number are exceedingly interesting, and afford much valuable information. Mr. Ackroyd's article on "The Phonograph," with its eleven illustrations, "Amy Robart" by N. Robinson, "The City of Rouen," by Professor Charles A. Joy, "Charles XII. of Sweden," "Little Huskies: the Homes and Ways," by S. J. Douglass, an "American Beef" are among the prominent contributions, and are valuable papers. In the department of fiction are the conclusion of Benedict's serial "A Late Remorse"; a charming story by Jane G. Austin, "The Countess's Demands," "Her Secret," by Walter Edgar McCann; "Jet," "Magnanimity," "Madge," etc., etc. There are admirable sketches, thrilling adventures, some very excellent poems, and a miscellany embracing all sorts of subjects, entertaining and instructive. The number contains 128 quarto pages, 100 illustrations at a beautiful colored frontispiece, "The Assassination of Amy Robart." Its comprehensiveness, excellence and clearness, this publication is, we think, unrivalled. The price of a copy is only 2 cents; annual subscription \$3; or \$1.50 for six, or \$1 for four months, sent post free. Address, Frank Leslie, Publisher, 53, 55 and 57 Park Place, New York.

LOCAL MATTERS

Vote for Loggie and break up the ring. Let us have a change.

We have had the reign of dirt long enough, let us not perpetuate it.

Our public slip is left in dirt and disorder, while back streets are cleaned and repaired.

Back leaders of the ring live on the back streets. They must be provided for.

Malignant measles is reported to be raging among the Esquimaux in Labrador, and a large number of deaths have occurred.

It is estimated that nearly forty-four thousand tons of produce was lost at sea during the recent gales in the British Isles.

The Hungarian Government is making arrangements to float a loan of one hundred and fifty million dollars in the United States.

It is asserted that the British Government will co-operate in an international expedition in search of the missing Arctic steamer Jeannette.

It is proposed to form a company in Windsor, N.S., with a capital of \$75,000, for the erection of an organ factory in that place.

By next week it is more than likely that the date of the Quebec general elections will have been fixed. It is expected it will be an early one.

The subscription in aid of the Michigan sufferers now amount to nearly half a million dollars in cash, besides a large amount of supplies.

Thursday last being a Public Holiday, all the principal stores were closed, and the Post Office was also closed for part of the day.

Our report of the Northumberland Agricultural Society's Ploughing Match and Cattle Show crowded out of this issue but will appear in our next.

Passing the square this morning, we noticed an auction flag fastened to a telegraph post, on enquiring we found that the Auctioneer's poster had lost his way in hunting for the lamp post on the public square, Water Street.

One hundred and five women were arrested in New York on Sunday afternoon last, charged with being vagrants or habitual drunkards, and were sentenced on Monday to ten days to six months' imprisonment each.

The recent typhoon in the China seas has done incalculable damage to the Chinese and Japanese coasts.

Hundreds of lives have been lost and hundreds of buildings swept away. One entire village in China has been destroyed and all the inhabitants drowned.

Mr. A. N. Archibald, the Secretary of the British American Book and Tract Society in Chatham soliciting donations for the Colportage Work of that society. We hope our townsmen will contribute liberally to the support of this very effective home mission work.

Frank Leslie's Popular Monthly. The contents of the November number are exceedingly interesting, and afford much valuable information.

STAR BRIEFS. And Johnny's come back again. John is the forlorn hope of the "party of purity."

Poor John! He has to do what he is told. His masters say to him "stay out," and he stretch, "Come out," and he cometh! Poor John.

Will the ratepayers elect a man for Councillor who is only the tool of a clique?

Some men's politics are like bad furniture, crooked and rickety.

The poor ratepayers pay the bills, and the leaders laugh at their simplicity.

Some men seek a cheap popularity, but like cheap boots it does not wear well.
