

BIG COAST STRIKE TO START TODAY

If Union Promises Good Industrial Vancouver will Be Tied Up

Vancouver, B.C., June 3.—If the promises of labor leaders are made good, Vancouver will be "tied up" in the industrial sense on Monday morning. Today no other subject than that of the striking of the labor and the employing is being talked of on the streets. Some half-hearted efforts at mediation have been made but the fight seems to be well advanced on both sides and there is a disposition in both camps to have the battle as big as possible while it lasts and have it over with. The question will be settled whether Vancouver will be a town of closed general business. Today interest centres around the attitudes of the B.C. Electric Railway men and workmen employed at the single power and electric plants that supply current for street cars and industries. The two chief labor leaders, Pettigrew and McVey, have agreed to deliver the closing of all power and lighting and to stop the street cars as well, so as to cause all union workers in the city to quit. For two days the street railway men have been voting whether to strike or not. They must have a two-thirds majority. If they strike a serious situation will be created. If they do not tie-up will not be called for confined very largely to the building trades.

Many Non-Union Men in City. As there are already thousands of non-union men in the city, especially in the building trades, the strike would not have a very appreciable effect on general business. The trouble started with a carpenter's strike. The men asked for four and a half instead of four dollars a day. The bosses offered four and a quarter, complaining at the time that their contracts had been made for the four dollar basis, but there were hundreds of workmen who were not unionists and the day the strike started these non-union men were put on and open shop declared by a dozen big contractors. Hundreds more men came in from Seattle. Suddenly the union men broke to the fact that their labor temple, for which the contract was signed in March, was being executed by non-unionists as an open shop. Fifteen days after the strike was called the contractors announced that every job they had was going ahead well and that they would probably be the bricklayers saved the situation for the bosses by staying at work. Then the carpenters carried their ad- vance to the labor council consisting of thirty-two unions.

Town Going Open Shop. "If you are a non-union man, we must all fight or unionism will die," they said. The labor council agreed that there should be a general strike, hoping in the interval before June 5th that the bosses would come to time and make concessions to take back the carpenters on a higher basis. Mayor Taylor who had been elected by the laborites, proposed mediator, and the city council secured the appointment of a committee, though several aldermen warned him that the attempt was useless and that the men and employers ought to be left to fight it out. The master builders backed by the employees association declined to accept arbitration, holding that the strike was over and that they had plenty of men and were getting along very well. Labor sent an appeal to the federal government, but the minister of labor to mediate, but the employers sent to him the same reply they made to the labor council.

Newspaper printers have wired to International President Lynch to inquire whether they will join the strike. No reply has been received. The attitude of the street railway and power men will not be known until Sunday night. If the street railway men put off the strike will probably not amount to much.

Quotient Remains in West. Ottawa, Ont., June 5.—R. L. Borden, when seen today in reference to a Winnipeg dispatch which stated that he would open the Winnipeg fair on July 12, said that he had not yet received an invitation to do so. He added that it would not in all probability be possible for him to remain in the west until that date.

A BOOK OF INTEREST TO HORSE OWNERS. Every horse owner worthy of the name takes a natural and commendable pride in keeping his horse in prime condition. With sensible feeding, proper care and a reasonable amount of work there is no trouble in doing this. Under such conditions a sound horse looks fine and feels well. It is always ready for service and brings the best results.

SMUGGLING OPIUM. \$30,000 Worth of Drug Discovered in the Canadian Soo. The British Columbia coasting steamer, *Manchester*, bound from Vancouver to Seattle, was stopped at the Crane Island light house during a dense fog. The ship was proceeding up the river under half steam when she was sighted by a patrol boat known as *White Island*, one of the most dangerous places below Quebec. After being grounded for about two hours the *Manchester*, with the rising tide, floated without assistance and proceeded on her voyage. According to the reports the steamer was considerably damaged forward and is making water freely, but the pumps were able to keep her fairly clear.

Stratford, Ont., June 5.—The London conference rose to a man this afternoon when a resolution condemning the *Ne Temere* decree was put. Then the big gathering broke into "God Save the King" and applauded. There was a mistaking the spirit of the conference as being a unit in favor of a strong resolution. The conference was a very successful one after a lively discussion. Two hundred and thirty four votes were polled and the majority was 146.

A MOTHER'S PRAISE OF BABY'S OWN TABLETS

Mrs. Allen Mason, Carleton, N.B., writes: "I have used Baby's Own Tablets ever since I have had children, and that is going on fifteen years. I have always found them most efficacious for all the ailments of little ones and feel that I cannot praise them too highly. My own children are just that of thousands of mothers who consider Baby's Own Tablets the only safe and sure remedy to keep in the house for their little ones. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

TO ASSIST WORK OF LABOR BUREAU

Resolution at Imperial Conference to Facilitate Filling of Vacancies.

Canadian Associated Press. London, June 5.—At today's session of the Imperial Conference, Rt. Hon. Sydney Buxton moved "That the governments of the various dominions should consider in concert with the imperial government the possibility and best method of utilizing the machinery of the various dominions for the exchange of vacancies in the United Kingdom by the Labor Exchange Act of 1919." The resolution was adopted by a large majority. The resolution provides for the exchange of vacancies between the dominions and the United Kingdom. Sir Wilfrid Laurier said Canada would not view with any favor any system of exchange of vacancies and various objections had been advanced. The government did not look with favor on the direct promotion of the various dominions for employment as between the dominions and the United Kingdom.

Favor British Goods. At the conclusion of Friday's proceedings, Hon. Arthur Meighen, premier of Australia, moved a resolution to the effect that it was desirable in the interest of the United Kingdom and the Dominions, that efforts be made for British manufactured goods and shipping being supported as far as possible by the labor council.

STEAMER GROUND IN ST. LAWRENCE. Quebec, June 5.—The *Manchester* Line steamer, *Manchester*, bound from Vancouver to Seattle, was stopped at the Crane Island light house during a dense fog. The ship was proceeding up the river under half steam when she was sighted by a patrol boat known as *White Island*, one of the most dangerous places below Quebec. After being grounded for about two hours the *Manchester*, with the rising tide, floated without assistance and proceeded on her voyage. According to the reports the steamer was considerably damaged forward and is making water freely, but the pumps were able to keep her fairly clear.

IN THE NEW GARDEN OF CANADIAN WEST

London Mail Publishes Article Dealing With Undeveloped Northern Alberta and British Columbia With Particular Reference to Mountain Section of G. T. P.

The grand Trunk Pacific is opening up in the hinterland of Northern Alberta, and British Columbia, a wonderful country upon which Nature has bestowed wealth with a lavish hand. How great are the possibilities of the country in farming, mining, lumbering, stock raising and fruit growing can only be imagined at present, but that it is a country with a great future before it is undoubted. The title "The New Garden of Canada," which Mr. F. A. Talbot has given to his interesting book on this tract of undeveloped hinterland, shows that he appreciated the fact that there was a country well worthy of attention. It is a country with enormous quantities of agricultural, mineral, timber, industrial—all living dormant.

CROP OUTLOOK IS BEST FOR YEARS

W. J. White Says Land Values Will Greatly Increase as Result.

Ottawa, June 6.—W. D. Scott, superintendent of immigration, has received a telegram from W. J. White, Inspector of U.S. Agencies, dated Edmonton, of which the following is an extract: "The crop outlook pronounced the best for many years. I have seen spring wheat measuring fourteen inches and fall wheat about thirty. I have been south and north of Regina and along the Canadian Northern one hundred miles east of Saskatoon to Edmonton. Splendid rains at the present time and ideal growing conditions. The large area of coal land tracts and large areas of land everywhere they are doing a good business. Prices of all lands will increase to fifteen per cent as a result of the year's crop."

TOFIELD CLAY DEPOSITS

Believed Good for Earthenware. Several fine terra cotta and Toleid, Alta., June 6.—While the people of Toleid have been basting their faith in the town's future greatness on the rich agricultural districts and the large area of coal land tributary to it, there is reason to believe that the town has an asset even more valuable than these, but which until recently, was considered of little importance. This asset is the clay deposits which are found in great quantities in the Toleid district. The clay is not only suitable for the manufacture of the best quality of earthenware, sewer pipe, terra cotta and other clay products.

GUNNER THOS. ALLEN CAUSES SENSATION

On Trial for Second Time for Murder of Capt. Peter Elliott, He Demands Privilege of Addressing Court—Is Restrained by His Counsel.

Victoria, B.C., June 5.—Gunner Thomas Allen, charged for the second time with the murder of Capt. Peter Elliott, who died in the Tuleid district court this morning, when he demanded the privilege of addressing the court, was restrained by his counsel. Allen, a Canadian, had been arrested in August 1, last, created a sensation in the district court this morning, when he demanded the privilege of addressing the court, and the jury selected, he arose in the docket and exclaimed, amid a death rattle, "I am a Canadian, I wish to make a statement. I do not wish to go to the gallows. I wish to be allowed to speak."

CEMENT SHORTAGE TO END SOON. Fifty car loads of cement will arrive in Edmonton in the course of the next few days for delivery to the various contractors. The cement is being shipped from the Calgary Portland Cement Works. The supply of cement is being increased by the immediate building needs of the city, though as much more is required for the construction of the new city hall.

FORCED TO GRANT LICENSE

Sumner Court of British Columbia Issued Order Compelling Commission to Make Renewal. Vancouver, B.C., June 5.—A. J. Fradette, proprietor of Savoy Hotel, Prince Rupert, obtained an order from the Supreme Court today forcing the license commissioners of the northern town to grant him a renewal of his license. It was argued that the commissioners refused him the license because the unions of Prince Rupert opposed it in view of the fact that the license was held by Fradette's partner, who was not a resident of the town.

CROP PROSPECTS GOOD.

Prince Albert, June 6.—Crop conditions are extremely favorable in the district and farmers are predicting that with favorable weather all records as to yield will be broken this year. Wheat and other grain statistics are further advanced than for several years back and there has been just the right quantity of moisture. A heavy rain last night followed several warm days, and while it was not badly needed it was welcome.

WEST SHOULD GET THE BEST OF PLAYS SOON

Albert Chavelier, the Eminent Artist, Discusses the Situation—Good Time to Educate Public—Object to Mixing Up of Shows at Theatres. Calgary, June 6.—"Within five years I expect that all the best companies that are appearing in the East will be touring the Canadian Northwest. This is the optimistic prophecy of Albert Chavelier, famous as an originator of 'My Dutch' and a hundred other amusing phantasies and farces which have amused audiences all over the world, as he putted at an inspiring pipe at the Alberta Theatre last night. Preparatory to appearing at the Lyric for three whole nights this week.

Should Get the Best. "There is a great field here," he emphasized several times. "All it requires is organizing. There is plenty of money here, and there is no serious reason why you shouldn't get the best of plays. It is a little difficult to get a continuous circuit here yet, for there isn't the population to warrant it—well, not yet. But you will get it, and five years is my estimate."

Keep Plays Separate. "Keep your plays separate, and while you can, set a standard. Now is just the time in Calgary when the public can be educated in good theatrical plays—just at the beginning. Mix the plays at the same theatre, and the man who comes doesn't know what he is getting. Money what kind of thing he is getting to see. That fault is too potent for the States, where they have the habit of dishing up a knock-out man one evening and 'Hamlet' the second. Separate the plays," advised Mr. Chavelier. "He is as amusing 'on' as 'on.'"

ACCIDENTAL SHOOTING.

Man So Nervous and Sober He Shot Wife and Self. Toronto, June 6.—Mrs. J. E. Phillips, now in the hospital, with a bullet wound from a revolver in the hand of her husband, will take the stand in his defence when he comes up for trial next week.

U.S. Nominations Wednesday.

Hallfax, N.S., June 4.—Nominations will take place for the provincial election on Wednesday. The candidates for the various constituencies are named in each of the eighteen constituencies.

CORRESPONDENCE

THE EDMONTON CONSTITUTION. Editor Bulletin. Sir—The city is passing through an experience illustrative of the impossibility of good government by an executive independent of the legislature and divided against itself. The city constitution, avowedly formed with the object of this separation of the executive from the legislature, unfortunately the American copy when eventually evolved, was very dissimilar to the British original. A result which was in consequence of a misunderstanding of a cardinal feature of the British constitution. The framers of the constitution, looking to the British constitution for a model, were guided in their interpretation of that model by Montesquieu.

KELLY CONFESSES HE DID SHOOTING

Hold-up Man in Red Deer Admits He Fired at Chief

Special to the Bulletin. Red Deer, June 4.—Arthur Francis Kelly, now under arrest, has confessed to the shooting of Chief of Police Bell here on Thursday night. He is still confined in the dark room of the court house and before Acting Chief Anderson and several prominent citizens as witnesses confessed to the same as it has been stated by the police where they will find the money he took from Munroe and the police have his other weapons and details of the confession of Kelly are obtainable.

A movement is on foot to send a detachment of the Boy Scouts who made the capture to the coronation. The trial will be held at 10 a.m. Monday before Magistrate Walker and Weller. At 10 o'clock tonight Chief of Police's condition was the same as it has been all day and he seems to be progressing very favorably. When asked how he was he said "I'm feeling fine." It cannot yet definitely be said what his chances for recovery are.

KILLED HIS WIFE

Machinist's Helper at New Westminster Shot Her Down in Cold Blood—Cause Recently from England.

New Westminster, B.C., June 5.—Henry Jones, a machinist's helper, murdered his wife here early this morning. The murder was discovered this morning by a constable on duty in the morning he heard his father had bought a revolver the previous day. He immediately hurried home. When near the house he met his father walking away. The father said to him "Where are you going? To this son of a bitch." "Oh, just to the house on business."

Entering the house he immediately proceeded to take in the association and the right exit into the temple. The physicians who examined the body stated that death was instantaneous. He was found to be in the house at the time of the shooting. He was found to be in the house at the time of the shooting. He was found to be in the house at the time of the shooting.

BUILDING OPERATIONS REPORTED IN LEADING CANADIAN CITIES

Construction for June contains the following review of building operations in thirty leading Canadian cities:

Although more decreases occurred than last month in every region, the total amount of building work undertaken in thirty cities reporting to "Construction" for April, amounted to \$13,792,239, as against \$11,846,496 in the corresponding period of last year. Such losses as were sustained in the less fortunate localities were more than offset by the substantial totals piled up in the more successful ones.

Considering the high state of development in the period immediately preceding, and the fact that later disturbances and a somewhat late spring interfered with construction work in several sections, the headway made in general was all that could be expected.

Of the significant features of the month, it was by far the outstanding feature of the month, in particular is most attractive. Not only is this amount far in excess of the corresponding figures, but is over \$1,500,000 greater than is noted in the corresponding figures for Ontario, in all reports six losses and seven gains, the former approximating one-half the decrease indicated in the accompanying table.

Fort William, where a marked advance was made in the previous month, suffered a decline of 15 per cent. Detroit fell behind 35 per cent. Ottawa and Port Arthur were both in the rear last month, and Stratford and Stratford experienced setbacks of 23 and 42 per cent in order named, respectively. In other places, however, the province witnessed some very substantial improvements. Hamilton issued "without showing," Hamilton issued permits aggregating in value \$24,150, as against \$32,175 for the month in the previous year. London also, as indicated in her amount of \$12,374, representing a gain of 24 per cent, experienced a busy time of it, and as much can be said for "Treston," where the volume of work amounted to \$11,000. Other substantial gains noted are: Berlin, 23 per cent; St. Thomas, 31 per cent; and Windsor, 34 per cent.

In this connection, it might be said that there are numerous secondary towns and cities throughout the province that are prospering in an unusual degree, but in many cases no permits are required, and hence no system of record kept, the totals for these places are unavailable.

As regards the West, operations were exceedingly brisk in many centers. Winnipeg, however, by a loss of 17 per cent, again sustains a decrease, and Vancouver, whose tremendous activities have so far this season attracted widespread attention, meets its first setback in a loss of 13 per cent.

WINNIPEG CHILD KILLED BY WAGON

Winnipeg, June 2.—The police are looking for the cowardly driver who drove over and killed three-year-old Mollis Zalkowsky at the corner of St. John and Brown streets yesterday afternoon. The child was playing on the street with her two-year-old brother, the only witness, when a motor car with an unknown driver swung round the corner and ran over the child.

French Warship Grounded

Halifax, N.S., June 2.—On the thick weather at six o'clock this morning the French warship Desaix, commanded by Capt. Prouzet, struck on

THE CONFERENCE ENDORSES PACT

Declaration of London is Approved After Considerable Discussion

DECLARATION OF LONDON—WHAT IT IS

The declaration of London was adopted at a conference of the chief naval powers held in London from December, 1908, until February, 1909, in the Rules of Prize in naval warfare. The object of the conference was to draw up a definite code, following the precedent of the Declaration of London, 1864, for the purposes of the International Prize Court to be established by the Convention of 1907. The result was the present declaration, which is signed by the representatives of Great Britain as well as those of the United States, France, Germany, Italy, Japan, and the Netherlands.

ATTEMPT TO KILL MEXICAN LEADER

Large Can of Dynamite With Time Fuse Attached Was Taken from Pocket of Man in Ballroom Where 600 People Were

El Paso, Texas, June 2.—Soon after the departure of Francisco I. Madero for Mexico City today, details were made known of an alleged attempt to dynamite him. The plot according to the insurance police was to have been carried out during the ball which Senor Madero attended in Juarez last night.

COLONEL MUNKOE IS ACQUITTED

Judge Winchester holds that Defunct Bank President Not to Blame

Toronto, June 2.—Late this afternoon Judge Winchester handed out one hundred and eight page typewritten judgment acquitting Col. Munkoe, president of the defunct Farmers Bank on the charge of unlawfully and wilfully making false and untrue statements in returns of the assets and liabilities of the Bank of the Dominion Government for eleven months in 1910. Should the crown desire to take the opinion of the court on appeal upon this matter his honor will grant a stated case.

THE FASTEST TRAIN ON EDMONTON RUN

Winnipeg, June 2.—The Grand Trunk Pacific announces their new service to Edmonton and claim to have the fastest train in Western Canada on this run. The train known as the Daily Limited, will leave Winnipeg at 8:30 p.m., arriving in Edmonton at 8:30 p.m., doing the trip in 24 hours and 40 minutes. The present time is 30 hours and fifteen minutes. In all the G.T.P. announces nine new passenger trains for the summer service.

CRIPPLE FROM RHEUMATISM

ZAM-BUK SAVED THIS BABY

NOW IN PERFECT THANKS TO "FRUIT"

Mr. E. E. Mills, (assistant at Knowlton, Que.) also writes: "I honestly believe that it is the greatest Rheumatism cure in the world." Try it yourself.

Spec. a box, 6 for \$2.50, 12 for \$4.50, from Frut-O-Town, Ottawa.

A BIG PROPOSAL FOR SASKATOON

Harry Evans, of Edmonton Has Two Million Dollar Scheme for City

Saskatoon, June 2.—Without doubt the biggest project ever launched in this part of the country, if not in the Dominion, over any former service, is the proposed extension of the coast outside of the metropolitan area of Manitoba. The proposition put up by Harry Evans, of Edmonton, who, acting on behalf of a number of London financial men made a bid for power rights on the Saskatchewan river at this point, and also for a twenty-year franchise for a street railway. As a guarantee of good faith Evans has deposited in the Bank of Montreal today, and it is declared that the Dominion should be afforded an opportunity for competition in the matter of the proposed extension of the coast outside of the metropolitan area of Manitoba.

C. P. R. TRACKMEN DEMAND REDRESS

Ottawa, June 2.—A. B. Low, St. Louis president of International Brotherhood of Railway Employees, who is in the city on Tuesday next for the purpose of asking the railway commission to deal with the grievances of the men of the Maintenance of Way Department of the C. P. R. between Port Arthur and St. John.

OIL TANKS BURN AT NEW ORLEANS

New Orleans, June 2.—Eight immense oil tanks of the Indian Refining Co., seven miles below here on the river, containing 20,000 barrels of gasoline and two thousand barrels of kerosene, valued at \$250,000, were destroyed when a bolt of lightning struck one of the tanks.

MEXICAN LEADER SHOT FOR TREASON

Chihuahua, Mexico, June 2.—"Red" Lopez, ordered imprisonment by Francisco I. Madero on the charge that he sold out to American interests in command of a section of the insurgent garrison at Agua Prieta, had been put to death Lopez was being confined here to serve an eight year sentence imposed by court martial.

CONTINGENT FOR CORONATION SAILS

Empress of Ireland Carries a Distinguished Party Out From Here

Quebec, June 2.—The Empress of Ireland sailed today for London and the coronation of King George V. The party consists of 100 persons, including the Hon. J. G. Macdonald, M.P., and Mrs. Guthrie.

SURVEY FOR THE ALBERTA ELECTRIC

Calgary, June 2.—Within six weeks a general survey for the location of the Alberta Electric Railroad from Calgary to Banff, Medicine Hat, Lethbridge and Macleod, will be commenced according to the local manager, George B. Wood, who has been appointed to the position. The C.P.R. had made overtures with a view to gaining possession of the route.

FATHER SINNOTT MAY BE MADE BISHOP

Winnipeg, June 2.—The rumor is current in Catholic circles that Rev. Father Sinnott, secretary of the papal legation at Ottawa, has been appointed auxiliary bishop of Regina. The effect of this appointment will be to remove Father Sinnott from the Ottawa legation and to appoint him to the post of auxiliary bishop of Regina. The appointment of Father Sinnott was given in the same news despatch in which it was stated that the appointment of Father Sinnott was given in the same news despatch in which it was stated that the appointment of Father Sinnott was given in the same news despatch.

A Fire-pot That Won't Crack

The greatest strain falls midway between the top and bottom of a one-piece fire-pot, because the live coils are located at the centre of the fire. This continued strain overtaxes the expansion powers of a one-piece fire-pot and causes it to bulge out and crack at the centre, and through the cracks, dust and deadly coal gas escape and eventually pass through the registers. In self-defence, you have to buy a new fire-pot. Every

Kind of a fire-pot you want in the furnace you are going to have installed in your new house. Get the Sunshine—the economical, guaranteed furnace. It's the A1 furnace investment.

TO REPARTRATE WORTHY

Edinburgh, June 2.—People who develop into a fine, well-proportioned, well-representing Scotland, ago, it will be remembered, established a fund by which who had fallen on evil countries were assisted in their distress. The fund was established in 1844 and has since that time been a source of help to many who have fallen on evil days.

WINNIPEG CHILD KILLED BY WAGON

Winnipeg, June 2.—The police are looking for the cowardly driver who drove over and killed three-year-old Mollis Zalkowsky at the corner of St. John and Brown streets yesterday afternoon. The child was playing on the street with her two-year-old brother, the only witness, when a motor car with an unknown driver swung round the corner and ran over the child.
