LONDON, March 11.—Several wounded arrived today at the British hospital at Netley, near Southampton, including Pte. C. W. Ford of the Toronto

During the past four days fighting was comparatively light where the Canadians were entrenched, altho artillery firing kept steadily doing effective work. The infantry has had many lively fights with snipers. No fighting has yet occurred outside the trenches, despite reports of bayonet charges by the western battalion.

The first brigade was in contact with Prussians and Bavarians and at one place the trenches were only 30 yards apart.

The men are billeted in buildings three miles back from the firing lime when not doing duty in the frenches in 24-hour shifts.

Letters received from the men show that they are in good spirits, and that they are making a very creditable showing after the brief experience they have had under fire.

I understand that the Canadians will soon be fighting as a division.

Novelty in the millinery world is upheld this spring by the advent of specimens from the vegetable and animal kingdoms. These are being used as trimming to such a vast extent that one fascinating chapeau rethe honey was really there.

over which clusters of delicious-looking grapes fall in a most natural manner. Apples and many other fruits are placed in most attractive fashion on brim or crown, while cherries render still more models chic and alluring to gaze upon. These fruits are most beautifully made; all, are startlingly realistic; so perfect are their coloring and fogmation. Butterfiles and queer little insects, with quite unnatural-looking horned affairs stuck on them at various angles, are considered most artistic and are in the height of fashion.

Other motifs in worsteds and silks are also favored, as are the little cockades in brilliant hues, and the feather flags of the allied nations. Trimming is still sparsely used—the most exclusive Paris models showing the least adornment—but these are employed in a truly artistic manner.

How Thin People Can Put on Flesh

A New Discovery

Thin men and women—that big, hearty, came of all that fat-producing nourish-

filling dinner you ate last night. What became of all that fat-producing nourighment it contained? You haven't gained in weight one ounce. That food passed through your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are sadily out of gear and need recognituation.

Cut out the foolish foods and funny aswdust diets. Omit the flesh cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet. In two weeks note the difference. Five to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with million of fresh new red blood corpuscies—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scentific combination of six of the best flesh-producing silement; known to chemistry. They come 60 tablets and in-expensive. All druggists in Torento and visibility sell them subject to the shoulte.

PRIDAY MORNING, MARCH 12.

York and Toronto Reduce

Friends of the hydro-electric system and patrons of the Toronto Elec-tric Light Co alike will be pleased to hear of the latest reduction in rates for lighting in Toronto. It is a sign for friends of Sir Adam Beck and his amission that they have been suc-eful in what they started out to do. that task was to deliver power to the scople at cost. The figures which people at cost. The figures which have been in force for some time past were just half what was formerly charged in the city, and the new rates make a still further reduction. Many are apt to forget to whom they owe the reduction, but it must not be for-

New York has just exercised its authority with the Edison Company of New York in order to reduce rates in that city. The result offers also an excellent example of what a public service commission can do, and what it cannot do. Toronto people and Contario people generally have frequently been told that a thoroly good substitute for public ownership was in connection with light and power, in connection with telephones, in connections. But it has never been shown to be so effective as public ownership itself. Perhaps that is why the corporations look upon it as each.

Those who defeated the proposals to proposals to purchase the franchises should not leave their work unfinished, and they should be able to exert a good deal of influence at the legislature to save the city from further impositions. If Yonge street is to be double-tracked it should be under city control, and the city gets control of its own streets, while making such just and fair traffic arrangements as may be determined upon. The city has no desire to confiscate rights, and neither has it any willingness to have its rights confiscated.

Those who defeated the proposals homestead of our ancestors and for the comfort and speedy attention that will be given to Canada's capenders who are now and will be in the war zone. If wounded or in any way unfitted for duty, and what is greater, to retain freedom under British institutions against oppression.

Words written were never made operative in such a short time as those Kipling composed, "Daughter in my mother's house but mistress in my own." by the action of Canada's stay-at-homes should do all possible to make the burden as light as they can upon the state.

FIREMEN MAY HAVE TO MAKE UP AMOUNT

If the city council does not grant the \$4000 asked for this year for the firemen's benefit fund it appears that the fund will be precioully insolvent on account of a liability against if that has to be wiped out. At the present time the firemen are paying five per cent of their salaries towards the fund, and if the city council does not give the money the men will have to bear a heavier burden and pay the \$4000 themselves.

In 1907 the city council granted an annual amount of \$8750, and the \$4000 in question is an extra grant. The members of the fire department do not entertain a friendly feeling towards the private bills committee because they struc kout the clause in the bill regarding the granting of the money.

E. Phillips Oppenheim, one of England's most prolific writers, has been turning out the best work of his successful career lately. An indication of this is "The Black Box," a dramatic story sure to hold the reader's attention till the last syllable. This story, which will run serially for several weeks, starts in next Sunday's World. You shouldn't miss a paragraph. It is so good that it has been enacted into moving pictures, contrary to the general rule, where the pictures are made first and the story written around them. There is life and action in every line.

Sunday Magazine Reading

At a recent investigation, Henry Ford said that he could take a prisoner out of a fail and make a man of him. The Sunday World, in a special story, tells just how he is doing this very thing, with an insight into his unusual methods of running a factory. It is by far the most interesting factory story ever written, and, if you are at all interested in factories or Henry Ford, you should read it. HENRY FORD'S MAN FACTORY

STAMP STICKING-A WAR-TIME SPORT FOR PEACEFUL PEOPLE We'll presently be sticking stamps on all sorts of things. The subject of stamp sticking opens up an amazing range of possibilities. This story looks on the humorous side of it.

KIPLING TELLS TWO FINE TALES

It's a long time since any Canadian paper ran such an all-round interesting series of tales as these "Abaft the Funnel" stories of Rudyard Kipling's. They cover a wide range of subjects, and are written in what many consider his best style.

SEEING THE RESURRECTED CHRIST

An article on a remarkable picture by a famous painter, and its bearing on a profoundly significant incident in the Christian tragedy.

The Fashion Page which The Sunday World runs every week in its Magazine Section touches on the costume cycle provided by today's attractive modes.

A VARIED LIST OF SUNDAY STORIES

In the five reading-matter sections of The Sunday World will be found articles of widespread interest, touching on every phase of day-to-day activity. Albert Ernest Stafford, in "Crusts and interest, deals, as does Rodney Thomson in a remarkable page cartoon-sermon, with "Habits." There is an article on "The Book in the Time of War," a story written by Lady Jellicoe on the Women's Volunteer Reserve Force, an article on the passing of the student fire-ranger, and a wonderful article on a bayonet charge, a most vivid bit of narrative. Altogether there are 200 columns of reading matter in The Sunday World every week, well chosen and well written.

Canadians in Action-Pictures

The big picture feature of The Sunday World this week is the full-page drawing of a thrilling incident in the work of the Canadians at the front—it illustrates how a party out cutting wire entanglements from in front of German trenches were suddenly revealed to the enemy by the fog lifting. Life in the trenches and on the field is profusely pictured in The Sunday World's two Illustrated Sections this coming week. Some of the many war subjects are: "Thirty-four Flying Machines in the Biggest Air Raid of the War," "The Harbor of Constantinople With the Turkish Warships Before They Left," "Australian Troops Marching Thru Crowded Sydney Streets on Their Way to War," "The Kind of Zeppelins Now Being Turned Out," "One of the Latest German Submarines Approaching a Merchantman," "Night Work of Royal Engineers in 'No Man's Land," "An Indian Encampment Along the Banks of the Suez Canal," "French Engineers Boring a Tunnel Under a House to Get at the Trenches Beyond," "Wounded Indians in a Canadian Ambulance," "A Splendid Portrait of Brigadier-General Mercer of Toronto in His New Uniform," "The New British Defence Device," and several other pictures of peculiarly local interest.

THE SUNDAY WORLD IS FOR SALE EVERYWHERE AT FIVE CENTS.

covery bit as much-of the braise as the local club. Varsity had the speed, but it avalied them nothing with Hedlin skating the carrier off or stopping him with a tantalizing check. They pressed in turns, with Varsity getting the first goal when Gou. lock show done round the post from behind in a scramble. Shirk soon evened it up by batting in a rebound from White's shot. They battied end to end untill Gouinlock showed his worth with a rush that landed the puek in the net. Varsity flashed with a couple of combination rushes, but the pretty passing avalled them nothing as the shooting was erratic. There was a short delay when Schnarr drove the puck as from a rifle and nearly took Malone's ear off when he ducked to let it pass over the net. The Varsity goaler was able to continue after getting patched up. Varsity missed annother one with bad shooting from a three-man combination, and Gamey Stratton missed an open net a second later. A Smythe-Gouinlock combination put Varsity ahead. Captain Conuwas at the goal mouth to bat in the pass from the corner. Berlin got the next. Karges went alone thru the whole bunch to score, and Schnarr batted in one from a pass. There was no further scoring in the first period.

It was much the same in the second period. Berlin never let up in their checking and it worried the students a whole intended the parade off the cashelon. The pace told oh the Varsity outif and they welcomed the rest bell. Play pened with end to end rushes. The layers got bolsterous and Schnarr and tratton-led the parade off the ice. Shelon went next, giving Berlin a 5 to 4 dvantage, but nothing Came of it. Shirk corred the first goal of the period. Krug carried it down the side and passed nicely to Shirk in front of the goal. They hand in it. Erb broke his skate and Connie Smythe went off to even it up. Away they tore, end to end, with the honors even. Saunders again thed it up by going up alone, wiggling his way well in and batting it into the corner of the net. This left the score four-all and still a tie on

FEDERAL TEAM FOR NEWARK.

NEW YORK. March 11.—Patrick T. Powers, who, with Harry Sinclair, owns the Newark Club of the Federal League, asserted today that no matter what the iesue of the league's legal dispute with the Kansas City men, Newark was assured of the team.

"We bought the franchise and that's all there is to it," said Powers. "It is up to the league to settle any wrangle over the Kansas City Club."

The executive committee of the Federal League will meet here tomorrow, it was stated.

HUMBERSIDE CHAMPIONS.

HUMBERSIDE CHAMPIONS.

For the first time in many years the Humberside Collegiate Institute have landed the hockey championship in the High School League. Yesterday afternoon in a clean fast game at the Arena they defeated the runners-up from Harbord Collegiate Institute by the score of 5-2. Fred Waghorne refereed and had few penalties to impose. Humberside had some exceptionally good hockey material this year, and under the able and enthusiastic coaching of W. B. Clarke of the staff, were able to capture the championship with comparative ease. Bach of the seven members of the team with their manager will receive one of the medals donated to the league. The team took down about 400 supporters, and their opponents had an equal number on hand, who kept things lively at all times. The line-up was as follows: Goal, Dudley; defence, Wright and Irwin; centre, Hudson; rover, R. Webb; wings. S. Webb and McDonald. Wright and Hudson starred for the Wes: Toronto school, while Tropp of Harbord was one of the best men on the lee. W. B. Clarke was yesterday announced adjutant of the second battalion of the newly-organized collegiate cadet corps.

Manager Solman of the Arena was n spectator at the game Wednesday night in Ottawa and the Wanderers lost by four goals. He is of the opinion that they have a fine chance to pull down the lead in the return game at Montreal Saturday night. Condi.ions in Ottawa greatly favor the home team.

MOSS PARK PHYSICAL ACTIVITIES. Indoor baseball leagues are the activities occupying the minds of the gymnasium men during the last two weeks. Leagues are being organized for the boys in all classes, and some very good baseball is handed out by them. The school boys' league will be started this afternoon.

SAYS HE WAS URGED TO BLOW UP POWDER HOUSE

Provincial Police Cannot Get Satisfactory Explanation From Szyazkoe.

COBALT. March 11.—Ne satisfactory ground as to the motive of Thomas Szyazkoe in attempting to blow up the Niplssing powder house can be secured by the provincial police up to the present. He persists that the other two men in custody jointly kept urging him for two days to commit the deed; but he was sober then, and when he did make the attempt he had been drinking.

"They just told me to go and do it for fun," said the prisoner. That has been his answer every time.

He said he had not taken out naturalization papers as he left his wife and family in Germany.

About 150 cases of explosive powder was in the Niplssing powder-house, amounting to over eight thousand sticks of dynamite at the time the fuse was lit and burned itself out.

The penalty in a case of this kind is said to be life imprisanment.

The penalty in a case of this kind is said to be life imprisonment.

OTTAWA, March 11.—The commons railway committee today passed the bill allowing the amalgamation of the Toronto, Hamilton and Buffalo Railway, and the Erie and Ontario Railway. Last evening the junior league played two fast games, the first between the Beavers and Orterios, while in the eccond game the Maple Leafs met the fast coming Canadiams. Both games were stubbornly con ested, the boys playing the game with might and main until the last man was out, but the pitching ability of the men in the box for both the Canadians and Beavers could not be denied and both of these teams were victors.

WARMLY GREETED

Toronto Men Welcomed at Canterbury by Fort Garry Horse.

ancient town has witnessed a remarkable meeting between two branches of Canada's mounted troops this week.

Fort Garry Horse, which came to England with the first contingent as infancy, has now been converted into cavalry corps as originally intended, and, having come along from Tidworth, is new located at the barracks here under Col. R. W. Patterson.

Men and officers are delighted to be once more cavalrymen. They are undergoing severe training, but are in splendid fettle.

Compades Greeted.

Capterbury has also welcomed the Mounted Rifles from Toronto, which came along with that portion of the second contingent reaching here this week. This mounted section, under Major McColl, reached Canterbury almost the same time as the Fort Garry Horse arrived in this famous city. They, too, are delighted with the location.

Both sections have been most warmly welcomed by British cavalry, for which Canterbury has long been one of the most important depots. The health of both corps is excellent.

Things with Canadians at Shorn-cliffe and settling down rapidly. Today's weather is springlike. The new arrivals from Canada gave British comrades today an initiation into the mysteries of baseball.

Other developments which contriuted to the better tone of the market
neluded more record-breaking exports
and additional price advances in cerain finished steel products. Some encouragement was also derived from
atest advices respecting European
and Mexican conditions.

The sale by the Eric Railroad Comany of \$10.000,000 one-year five per
cent notes, which really constitutes an
animized extension of a note issue, expiring April 1 next, gave rise to reports of more railway and industrial
functing. Prospects of additional acapplances for the establishment of
tonism credits also were taken into
account.

Exchange irregular.

Exchange markets took on a more lable tone, sterling on London being the while greater firmnes was my in remittances to the contintrate of the new Swiss vernment notes and the new German war notes, for both of which an reased demand was manifested. Smallest Adverse January Balance of Recent Years-Record Exports.

While the Canadian trade return for anuary, recently issued, showed the blance against Canada for the first time in several months, several feawers of the statement are attracting worsble attention. One is that deavorable attention. One is that despits the scarcity of ocean tonnage—a scarcity that in quite a few cases has compelled the refusal of profitable business offered to Canadian manufacturers—the exports for the month made a new high record for anuary. A four-million increase was own over the previous year, and the ss of imports over exports, furrmore, was the smallest of recent ord for the opening month of the
