PROBS: Strong easterly to westerly winds; mostly fair and moderately cold.

Rip Van Winkle's Tails!

What would you think of a business house whose managers and owners were on hand once a fortnight only?
That's the case of the city council of Toronto.
Questions of the most pressing kind are at the doors, but no one is moving. The council will look at them once in a fortnight—and shove them over if it can.
Here is the very time of year that a lot of things ought to be settled in order to get legislation confirming the settlement at this session of the legislature. We can see nothing being done. Indeed, the game of the hidden hand, ably assisted by the newspapers, is to hold everything back until it is too late! The Globe is silent, and The Mail, The Telegram, The Star, The News—not a paper, outside of The World, pressing for anything.
Take the question of traction. We have municipal lines to build, suburban or radial franchises within the city to buy out, in order to secure single fares, a traffic expert to be appointed, a better service to get from the Toronto Railway, entrances provided for radials, if that be possible, AND NOT A THING IS BEING DONE. The council could handle all this in one short resolution asking that the hydro-electric commission be reorganized into a public utilities commission, with power to deal with the above and other questions, and with power to raise money, say to the extent of ten to twenty million dollars. The commission would get busy with an expert traffic manager, a high-class engineer and a credit to do things with. But not a thing is under way. We do not even know what legislation Mr. Drayton would advise the city to ask for.
Next take annexation: people are fed up with double fares, lack of water supply, uncertainty as to when they can get into the city. Manufacturers are going to Hamilton and other places, because they can neither see city conveniences for their factories nor homes for their workmen in the suburban slates that have been offered them.
A single, short resolution of the council would annex North Toronto, and then the council could take up a new boundary for the city, running west from North Toronto, and another running east from North Toronto. But the board of control have not been able, in two meetings, to settle the proposal to annex even Moore Park. They dally.
When people, who are to all intents and purposes willing to come into Toronto, ask to be taken in—people willing to come in and pay city taxes—they are treated as burglars by the council and by the press! And yet Toronto is growing faster than any other city in America! There are papers in Toronto who are dead sore and disappointed that we have not struck a slump! There are officials at the city hall that had laid in a stock of sackcloth. Their deliberations of lack of confidence in Toronto's future are being printed in the English newspapers!
Where are the mayor and controllers? Where are the newspapers? Where is the board of trade? Where is the Civic Guild? Rip Van Winkle cocktails they find palatable.

PUBLIC IN DARK COAL CRISIS ACUTE

Miners Will Confer With Asquith Cabinet To-Day, and Unless Present Deadlock is Broken, Big Strike Will Be in Effect on Thursday—Minimum Wage the Crux.
LONDON, Feb. 26.—(Can. Press.)—On the eve of the resumption of the conference between Premier Asquith and other cabinet ministers and the miners' representatives, which mark the most critical stage of the government's efforts to avert a coal strike throughout the United Kingdom, the nation is kept actually in the dark as to what has been accomplished in the direction of securing peace since the negotiations opened on February 22. On that date the miners' delegates informed the premier that they were powerless to agree to anything, or to assume any responsibility, until authorization had been obtained from the miners' federation, which meets to-morrow in London. As a consequence, the subsequent conferences have been with the coal owners alone.
It was announced to-night, however, that the executive of the miners' federation had decided to recommend to the conference the acceptance of the premier's invitation to meet him and his colleagues and discuss the situation. This invitation was extended to the miners' representatives on Feb. 22, by the premier, who asked that a committee be appointed from the national federation to hear the whole subject of the controversy, with the cabinet ministers.
The conference to-day lasted two hours, but, according to the rule, which has been rigidly observed, with respect to all previous meetings, the official report given out contained not the slightest hint as to what transpired. In the meantime, the strike was actually begun.
A few thousand miners employed in the Derbyshire district ceased work at noon. To-morrow several thousand more notices expire, and it is not likely that the miners will consent to work until Thursday night, the date fixed for the general strike. On Wednesday 100,000 miners can desert the pits on notices already handed in.
A hopeful feature of the crisis is the absence of inclination to violence on the part of the leaders of the men. No objections have been raised to the employers securing the necessary labor to keep the pits open during the strike. Even in South Wales, where the controversy has been the bitterest, this arrangement has been made and the South Wales Miners' Federation issued an appeal to-night to the men not to go to the colliery premises and to abstain from doing damage in event of a strike.
Minimum Wage or Strike.
Unless the owners agree to concede a minimum wage, on which the miners of all sections are inflexible, a national strike would seem inevitable, but there is undoubtedly an optimistic feeling abroad that the government practically has succeeded in persuading the owners to yield for a few months at least. It is believed in some quarters that the government has undertaken to reimburse them, if yielding on this important point results in any loss, but it is all a matter of surmise.
Look for Settlement.
The Liberal morning papers anticipate a speedy settlement and an avoidance of a coal strike. The Chronicle believes that the trouble will be settled by Friday. The Daily News hints that unless the owners consent to the principle of a minimum wage the government will quickly pass a minimum wage bill through parliament.

TO AVOID BISLEY IF ROSS RIFLE IS BARRED

Minister of Militia Roundly Condemns Interference of National Rifle Association, and Declares Much-Criticized Rifle to Be Unbeatable—Hostility Inspired by British Manufacturers.
OTTAWA, Feb. 26.—(Special.)—If Canada is to be represented at the next Bisley meet, the National Rifle Association will have to mend its ways.
This was the direct challenge issued by Hon. Sam Hughes, minister of militia, when E. M. Macdonald (Picotee), on the orders of the day being called, moved the adjournment of the house to discuss the policy of "pin pricking" shown by the N.R.A. in the treatment of Canadian marksmen in connection with the use of the Ross rifle.
"If this sort of thing is continued," said the minister, "in the first place I doubt if the association (the D.R.A.) will send them, and in the second place I doubt if the men would go."
"It does not rest with the National Rifle Association to define for the Dominion of Canada, what form of rifle or what form of sight we shall use."
Snubbed by D. R. A.
He intimated that the Canadian Government had offered to loan the \$600 to 10,000 long Ross rifles in order to place British and other competitors on an equality with our boys. So far, however, the association has not seen fit to avail themselves of the offer.
Mr. Macdonald reviewed the history of the trouble, which he ascribed to the hostility of British rifle makers and the fact that the Canadians, thru the use of the Ross rifle, as it was nicknamed the ill-will of the N. R. A. by winning too much prize money.
He read a couple of letters showing that the average winnings of Canadians had jumped from \$20 to \$25 when the new rifle was adopted.
The latest regulation, adopted in the autumn of 1911, prescribed that the back sight had to be attached in the same way as it was on the British army rifle. This was a mere pretext to bar the Ross rifle, as it was impossible to attach the sight to it in this manner.
He charged that the N. R. A. were not acting in good faith and asked the

John A. Campbell, a Former Guard at the Mimico Industrial School, Makes an Affidavit Regarding Cases of Ill-Treatment—Government Appoints Dr. Bruce Smith to Conduct an Investigation Under Oath.

Mr. Hanna Orders Investigation.
Hon. W. J. Hanna acted quickly in regard to the charges of cruelty to the children confined in the Mimico Industrial School. He has appointed Dr. Bruce Smith, inspector of asylums and prisons, to investigate conditions at the school.

John A. Campbell, 35 Stewart-street, formerly a guard at the Mimico Industrial School, but who left there a short time ago because, as he says, he could no longer bear to see little children treated as wild beasts, made a statutory declaration yesterday regarding some of the cases of ill-treatment of the children at the school. Where he could remember names he supplied them. He pledged his oath as to the truth of his statements. This is his declaration:
In the Matter of the said Province of Ontario, County of Victoria, Industrial School, Mimico, Ontario.
I, John Alexander Campbell of the City of Toronto, do solemnly declare that:
I was employed as a guard at Victoria Industrial School, Mimico, from Nov. 22, 1910, till Feb. 10, 1912. During that time I was in charge of Cottage 3 and acted as instructor in the shoe shop.
While I was there I saw Wilbert Spain, the boy referred to in an article in The Sunday World of Feb. 23, 1912. He was in his bed in the basement of Cottage No. 6. He had at that time a pair of common handkerchiefs upon his ankles. I saw him first a few days after he last ran away from the school, and then on about ten different occasions up till Feb. 8, and on each occasion the handkerchiefs were on his ankles. I also saw welts and bruises on his back and legs which he said were the result of his beating by Porter, the superintendent of the school.
I saw Smith, another boy, take Spain his food over a period of three weeks and this food was bread and water and nothing else. It is the common practice at the school for a boy to be fed nothing but bread and water for one week.

TOO RADICAL HERE EVEN FOR TEDDY

Freedom of Ontario Legislature Beyond His Aims, He Says.
BOSTON, Feb. 26.—(Can. Press.)—Standing in the assembly chamber of the Massachusetts capital to-day, Theodore Roosevelt explained and emphasized his project for the recall of judicial decisions. Col. Roosevelt struck out boldly at those who have criticized his plan.
"Our system of government is a confessed failure," he said, "unless the people are to be trusted to govern themselves."
Col. Roosevelt's visit to the state house was unexpected. After appearing in the house, he went to the senate chamber and spoke briefly. In both instances he was received cordially, although there was no prolonged applause during his speech.
In discussing his plan for a recall of the decisions of the courts, Col. Roosevelt, after pointing out that sovereignty belonged to the people alone, not to the legislature, the executive or the judiciary, said:
"In the last resort the people after due deliberation are to be and must be the masters, and their representatives their servants. I am not advocating the recall of judges. I am advocating a measure which, if adopted, will prevent the necessity of the recall of judges."
"My proposal applies only to the legislative acts which the courts declare unconstitutional. I refer specifically to laws passed in the collective interests of the whole community. If such a law is declared unconstitutional by the court, I ask that the people be given the right, if they choose, to exercise that right themselves to pass final judgment upon the proposition."
Ontario Too Progressive.
"To listen to the arguments of certain worthy individuals, you would think that the purpose was to substitute the gusty passion of a mob for the decision of a court. Just across the St. Lawrence and great lakes from the State of New York lies the great commonwealth of Ontario, part of Canada, a commonwealth with essentially, precisely the same kind of government as New York, precisely the same kind of population, precisely the same problems to face in that commonwealth as in every commonwealth of Australia and Canada, as in Great Britain, as in Germany, as in France, as in practically all other great civilized nations. In that commonwealth the court has no power whatever to declare a legislative act unconstitutional."
"Now, I do not want to go as far as that. I think it is better that we should give the courts equal power with the legislature, but I want to keep the people as the judge between them, when they differ as to whether a given law is within the power and the right of the people to pass."

LAURIER WOULD EVADE ISSUE

Expectation is That He Will Move Six Months' Hoist on Manitoba Boundary Settlement.
OTTAWA, Feb. 26.—(Special.)—When the Manitoba boundaries bill is brought down to-morrow it will probably be found that Sir Wilfrid Laurier will have found his cards on the table and move a six months' hoist. He will move it on the ground that the financial terms granted to Manitoba are too lavish and that the other provinces should be consulted in the matter.
The move of the leader of the opposition is very crafty, for he believes that by so doing and avoiding the issue of the separate schools he will be able to keep his own English and French followers in line, and at the same time he will make a bid for the Nationalist vote.
By means of figures prepared by the Hon. W. T. White it will be found that Manitoba by the new financial arrangement will get an annual subsidy of \$1,340,345.32, while for arrears since 1905, to which date the bill is made retroactive, Manitoba will get \$2,178,648.52.
The resolution upon which the bill is to be based will be introduced to-morrow and its entry is awaited with the keenest interest. Premier Borden has been confined to his home for a couple of days, but it is expected that he will be able to present his resolution to-morrow.

ANOTHER STORM VISITS TORONTO

Second Blizzard in Few Days Tied Up Traffic and Caused Much Inconvenience.
The people of Toronto and many other places in Ontario in their struggles against the blizzard of yesterday are wondering if it is a return of last week's tornado.
Locally the storm caused much discomfort on the streets and interfered greatly with the railway traffic.
The blizzard from the southwestern part of the States had its origin in the same place as the storm of last week. The first disturbance was noticed in Utah and gradually gained force and spread to Texas and thence to Oklahoma, where ten lives are reported lost and twenty-five persons injured. Indiana and Illinois also got a goodly share of the snow and high winds.
Southern Ontario, extending from Lake Michigan to Quebec, is under the sway of the storm which is prophesied to last until to-day, turning into sleet and rain in many localities and passing off the upper lakes.
In the west the weather is extremely cold, being 18 below at Winnipeg. Alberta and Saskatchewan are only moderately cold as also are the Maritime Provinces. The wind was going at the rate of 48 miles an hour yesterday.
Kingston Again Blocked.
KINGSTON, Feb. 26.—(Special.)—The Bay of Quinte trains are running to-day for the first time since last Wednesday on account of the big storm. To-night another big storm set in and it looks as if the line will be blocked again. The street car service was put out of business again.

UNIONISTS GAIN IN GLASGOW

Rt. Hon. T. McKinnon Wood's Majority is Greatly Reduced.
LONDON, Feb. 26.—(C.A.P.)—In the by-election for the St. Killox division of Glasgow, caused by the appointment of Rt. Hon. T. McKinnon Wood as secretary for Scotland, the vote was: Wood (Lib.), 8530; H. MacQuiston (Unionist), 8061, a majority of 461.
In the general election the vote was: Wood, 9271; A. R. Chamberlayne (Unionist), 7774, a Liberal majority of 1917. It will be seen that the Liberal vote fell off by 761 in the by-election, while the Unionist vote increased by 687.

METEORITE ALMOST STRUCK LINER

BOSTON, Feb. 26.—A narrow escape from being struck by a meteorite was experienced by the Lyndian Line steamer Bostonian, which arrived today from Manchester, Eng.
At 5 a.m. on Saturday last, Captain Perry reported he saw the meteorite, flashing brilliantly, falling to the southwest of the vessel. There was a loud hissing sound as it approached the water and then with a loud report it fell into the ocean a few ship-lengths from the bow of the steamer. So great a disturbance did it cause in the sea that water was dashed over the decks of the steamer.

GOOD ROADS LEGISLATION WAS HIGHLY COMMENDED

Four Million Dollars Could Be Spent This Year According to Speakers at Big Convention—A Fair Division of County Roads Cost Would Be One-Half to Dominion, One-Quarter to Province and Remainder to County Benefited.
Mayor Geary found the county municipal hall filled by delegates to the Good Roads Convention when he arrived yesterday afternoon to extend for a third time a civic welcome.
Major Kennedy of Dixie, president of the association, called the convention to order at 11.15 for the forenoon session. There were then present: Lt.-Col. Farewell, Whitby; H. T. Routly, Coleman Township; J. P. Griffin, Warden of County of Halton; J. S. Beck, Warden of Peel; J. G. Wilson, Halton County; J. G. Hurst, Woolwich Township, Waterloo County; L. A. Hamilton, Lorne Park, Co. Durham; James Curry, Burnhamthorpe, County of Peel; R. H. Jupp, County of Simcoe; Orilla; Richard Spratt, County of Carleton; Wm. R. Cummings, Carleton; J. A. Sanderson, Leeds and Grenville; G. S. Beck, Brampton; E. Meek, Port Rowan; W. H. Pugsley, York, Ont. President.
After registering the delegates adjourned to the Queen's Hotel for luncheon as the guests of President Kennedy.
At two o'clock the president gave his annual address. He expressed gratification that the federal and provincial governments had recognized that the

BELLEVILLE, Feb. 26.—(Special.)—John Mack was this afternoon found guilty of interfering and assaulting a bailiff in the discharge of his duties. The accused used a pitchfork on the constable who accompanied the bailiff and also tried to use an axe.
Mrs. Mack, who assisted her husband, was also convicted. The man was sent to the Central Prison for six months and Mrs. Mack to jail for four months.

TRAIN KILLED YOUNG ENGINEER

WELLAND, Feb. 26.—C. A. Nodmarcu, an engineer engaged erecting the new waterworks system at Welland by the Canadian Bovine Co., Toronto, was instantly killed by a Michigan Central train early this morning, near the depot here. He was a young man and had only been out from Sweden about a year, and had returned from Niagara Falls and Buffalo. He wandered on the track and was struck by the train.

COUNSEL WILL REPRESENT ONTARIO

Sir James Whitney Feels Pretty Sure That This Province Will Take Advantage of Suggestion Made by Minister of Justice—Bill to Govern the New Provincial Museum.

Counsel representing Ontario will be appointed to watch the discussion before the privy council of the marriage question arising out of Mr. Lancaster's bill in the house of commons. Sir James Whitney read a communication in the legislature yesterday afternoon from the minister of justice at Ottawa, setting forth the features of the bill to be discussed, and inviting the Ontario government to add any further suggestions that would be of particular interest or concern to the people of this province. The appointment of counsel from Ontario at the privy council hearing was also referred to. Sir James Whitney remarked after the house had adjourned that he didn't know just yet who the counsel would be, but he felt pretty sure that Ontario would be represented when the case was heard.

Questions of law were before the legislature at yesterday afternoon's session. Hon. J. J. Coy's bills to make alterations in the acts respecting the law society of Upper Canada, respecting barristers-at-law, and to amend county judges acts were some of the bills discussed. The Ontario museum bill was also discussed. The Ontario museum bill was also discussed. The Ontario museum bill was also discussed.

The bill also provides for fixing the name of the institution as the Royal Ontario Museum, which will be under joint control of the university governors and the provincial government.

H. H. Stevens, M.P., of Vancouver, Speaking at Canadian Club, Claims That All White People Are Opposed to the Admission of Wives of Sikhs.

Once again did H. H. Stevens, M.P. for Vancouver, uncork his views on Oriental immigration, this time before the Canadian Club yesterday. He made a thorough analysis of the situation on the coast and declaring against the Hindu, Jap and Chinaman, said he was opposed for the majority of the white people in British Columbia. He refrained from being sensational, and despite the repetition of charges against the Sikhs, he confined himself to the rule of the club, which is, no personalities. He characterized the Hindu as a perjurer and decidedly unreliable. He dealt with the entire problem of Asiatic immigration, and his main objection to their entrance into Canada was his argument that assimilation of the races was impossible. Therefore he opposed the bill which would fundate the country and tend to build up a number of separate nations, creeds and races, and thus work serious menace. K. J. Dunstan presided.

Unreliability was one fault of the Hindus, he said. They could not be trusted. They perjured themselves in the courts. The judges of the coast never pronounced sentence on a Hindu for anything but a fine. He said that the Hindu was a perjurer and decidedly unreliable. He dealt with the entire problem of Asiatic immigration, and his main objection to their entrance into Canada was his argument that assimilation of the races was impossible.

He admitted that the "continuous journey" regulation was a "straw man" but it was clung to as a last straw because otherwise the country would be inundated with aliens. This legislation applied to every alien and what was needed was common sense regulation. However, it was a self-defeating law. He said that the Hindu was a perjurer and decidedly unreliable. He dealt with the entire problem of Asiatic immigration, and his main objection to their entrance into Canada was his argument that assimilation of the races was impossible.

Sunder Singh's Reply

Before leaving for Vancouver last night, Dr. Sunder Singh prepared the following statement for the World: "Mr. H. H. Stevens, the energetic member of parliament for Vancouver, B.C., is trying to fan up the flame of race hatred and prejudice against the loyal Sikhs. He did not go into personalities and regale the audience with hearing abuse on my poor head, as he did before the Women's Canadian Club the other day. For if the question of Hindu immigration is to be settled at all it is by hard matter of fact and business like presentation of the pros and cons of the case and not by abusing a person or set of persons. I hold no brief for oriental immigration and it is an outrage on the Sikhs and the empire to be lumped together with the Chinese and the Japanese. Mr. Stevens says that the Hindus are not perjurers. Perhaps he is right, but the great Uganda Railway in East Africa, the prohibitive terms demanded by the township. The township council did not think this could be done because most of the present franchise holders, however, they required not only the city's indemnity, but also the bond of a guarantee company, to the effect that the city would be responsible for the franchise. This was refused by the private bills committee. Proposal to Take Over the Mimico Radial Line Will Be Discussed - City Required to Give a Bond to Make Good Its Obligations and Protect Township From All Loss.

Mayor Geary stated yesterday that there would be a conference between the city and Etobicoke Township tomorrow regarding the city's proposal to take over the Mimico Radial Line, running thru that township. In the past the city has been unable to secure the line, owing to prohibitive terms demanded by the township. NEW PARKS COMMISSIONER WILL SOON BE RECOMMENDED

By Monday or Earlier Parks Committee Will Send a Name to Council, and Probability is That Chas. Chambers Will Be Suggested.

Controller Foster stated at the meeting of the parks committee yesterday afternoon that a recommendation as to who should be the new parks commissioner would be made by the board of control at the meeting of the council on Monday. The committee has been working on the matter since the resignation of the late Commissioner, Charles Chambers, or Thos. Hogg.

AT THE THEATRES

At the Princess

The Spring Maid. "The Spring Maid" is a hummer... with a long string of successes chalk-... up in its favor, this delicious, fascin-... whole acted like balm when it is con-... Toronto at the Princess last night... proved to the hilt that the avalanche... of acclamations that fell upon Toronto... far the past few weeks was well merit-... Even the first-nighters are prone... to admit that it equals "The Chocolate... Soldier" and "The Merry Widow" in... useful, lingering strains and surpasses... them in witty lines and in picturesque... and costly scenery.

Miss Christie MacDonald scored a... complete triumph as the coquettish lit-... tle Princess Bosena, who, in the role of... the fountain girl, taught the flirtatious... Prince Aladar a lesson in diplomacy... Sparkling with bright, bristling wittic-... isms and fairly buried in songs that... carry ripe to the memory. "The Spring... Maid," with vivacious, clever, Miss... MacDonald as the star, will surely ever... meet with general delight—until some-... thing better crops up, which will be a... pretty large order. The scenery and the... gorgeous costumes and company as a... whole acted like balm when it is con-... sidered some of the clatpatik variety... of musical comedies that come and go.

Tom McNaughton, as Roland, the... famous English tragedian, whose fa-... vorite role was Othello, was a scream... His blasé manner scored a hit right... off and his persistency in uncocking... guns which hindered the ham actor... was refreshing. Thomas Conkey, the... prince, was the bold and dashing lover... of the imagination, and his tender val-... ue was more than pleasing. Ben Hen-... dricks, as Prince Nepomuk, whose an-... cestral tree was more certain than his... income, was excellent and versatile both... as aunt and uncle. Arthur Royd and... Miss Jerric Bradbury were praisewor-... thy in their respective roles, and the... latter for a plump person hopped about... with the agility of a fawn and abandon... of a gazelle.

Miss MacDonald's superb voice along... with Thomas Conkey's blended beauti-... fully in the duet, "Day Dream" and... "Two Little Love Birds." Both were... honored time and again. All the songs... which numbered the dozen notch, were... truly his.

The opera revolves around a legend... of more properly speaking, a mythical... fountain where the spring maid is the... centre of admiration. When the foun-... tain dried up the prince was to fall into... the abyss of matrimony with the said... maid. But why tell the story? Go... and see. Like the fountain which... gushes forth water, the opera gushes... forth continuous mirthful melody.

At the Royal Alexandra

The Never Homes. Last night's production at the Royal... Alexandra, "The Never Homes" is a... screaming farce, based on the woman... suffrage movement, but so much ex-... aggerated as to deprive it of any sting... Indeed, those in favor of the cause can... enjoy the humor quite as much as its... opponents, and no better recommen-... dation of the play can be offered. From... beginning to end the satire is provoca-... tive of laughter and it is admirably... relieved by the very large company... comprising many of the very best fun-... makers on the stage.

The scene is in Lillydale and... us with a demonstration of the suf-... frages and suffragists, and the re-... sult of mankind from administra-... tive responsibility. Later scenes show... city under the control of the ladies... with a police force, fire department and... court of justice all run by their repre-... sentatives. The methods that character-... ize the new regime are distinctly orig-... inal and exceedingly funny. That after... all is the object of the producers, and... it has been fully attained. Certainly... for all who want an evening's merriment... nothing more satisfactory could be offered.

Much of the drollery rests with Geo... W. Monroe, who impersonates Patricia... Flynn, the female politician, who... who unites the offices of police court... judge and chief of the fire department... His humor is thoroughly amusing, as was... that of Jess Dandy, the well known... German comedian, who, as Herman... Dinglebender, had a thoroughly congenial... role. Al Leach, as Dady Bunter, con-... tributed a full share of the fun, and... Denman Mailey acted with much acceptance... as Dr. Augustus Breeze. Tiny Will... Archie sustained his reputation as a... midge comedian in the part of Jimmy... Loner.

At the Star

The Darlings of Paris. "The Darlings of Paris," one of the... most amusing burlesque shows of the... season, is at the Star this week. It con-... sists of two burlesques, in each of which... there is more action per minute than one... usually finds in such sketches, and sand-... wiched between them is an olio that is... a scream from start to finish. The cast... includes Gladys Sears, J. Theo. Murphy... and Miss Lillian Washburn, a niece of... the late Dr. Cronynskata. In "Mur-... phy's Troubles," the opening skit, oppor-... tunity is given these performers for a... display of exceptional comedy work... and in the closing farce entitled "The Gobb-... ling," the singing and dancing features... are well developed. The scenery is el-... eborate, the costumes dainty, and the... chorus is composed of a bevy of winsome... girls.

At the Gayety

Jardin de Paris Quena. That the root of all evil is not what... some people believe in, but an act of... that name presented this week... by "The Parisian Queens" at the Gayety... start to finish and opportunity is afford-... ed the company—which by the way is of... an exceptionally high standard—to dis-... play their ability as dancers and singers... briefly the features of the young Am-... ericans who are being sent abroad to study... full amount fact company, and as their... funds run low are forced to leave behind... a trail of promissory notes. These billet-... doux in due course reached their fathers... who decided forthwith to set out to locate... their erring offspring. From that mo-... ment—or even before that—the fun starts... Among the features is the "Parisian... and the "grizzly bear" dance. Added to... the general hilarity is a chorus of pretty... girls and a display of scenic and general... stage effects far above the average.

At the Grand

The Penalty. A new play was presented at the Grand... last night for the first time in this city... and while it cannot be called a great... drama, it has more than ordinary worth... "The Penalty" is the title that the au-... thor, Henry C. Colwell, has attached to... it, and it is fairly well written.

The story is that of a woman who has... divorced her husband, and, while her... son is away at college, she becomes the... friend of a man who furnishes the money... for her social advancement and her son's... maintenance and education. The son has... become the best friend at college of one... of the families among which his mother... wishes to mix, and the boy has met and... loves the daughter of the same family... Seeing that her social position is to be... assured by the marriage of her son to... the daughter of the Dexter family, she... finds that marriage to Carpenter, her... supporter, is necessary. This Carpenter... has no intention of doing, and the mother... faces disgrace for herself and her son... as well as the loss of his love for her... The son discovers evidence sufficient to... start him investigating, and procuring... a cheque which she has received from... Carpenter, he faces her with it. She... claims that Carpenter is to marry her as... soon as he marries Miss Dexter, but Car-... penter steps forward and announces that... he is not to marry her, but he himself... is to marry Miss Dexter, thru negotia-... tions made with Mrs. Dexter. Shadows... of a happy ending are close at hand, but... are admirably put aside when the mother... in the last act, after telling her son and... imbrued daughter-in-law a good night... passes into the room where the body of... Carpenter lies, and pays the penalty of... her life with a bullet, and the curtain... falls with reminiscences of Tolstoy's "An-... na Karenina."

At Shea's

Lashwood Heads Good Bill. George Lashwood made a decided hit... at Shea's last night. Long applause fol-... lowed every song, and extended at the... conclusion of his act, halfway into the... next, somewhat spoiling the effect of... that number.

George Lashwood is a comedian of... great merit and wide ability, but some... of his jokes are rather raw.

The entire program is good this week... there being no weak numbers to pull... down the average. That old friend, "The... Chalk Line," the quaint playlet of village... life, draws tears as well as laughter, just... as much as ever.

A wonderful bit of stagecraft is the... act of Staley and Birbeck with its light-... ning-like changes of scenery. "Bob," the... boxing kangaroo, is some fighter. Wil-... lette Whitaker, singer of sunny songs, is... good.

Raymond and Calverly as the Ger-... mans bring tears of joy to the eyes of the... audience. They are funny. The three... Aeroplanes girls finish the bill with a... charming act, laughing by their teeth... an act that is bright and thrilling.

At the Strand

All who love the thrilling of a southern... girl's heroism will want to see the photo-... play at the Strand this week. It tells... how the heroine takes up her brother... who has been severely wounded... and, dressed as a boy, eludes the federal... sentries and reaches a hide which she... blows up, thus enabling the enemy's force... to be made prisoners. The play closes... with the Confederate General Stuart's... visit to her house and his discovery of... the girl to whom he owes his victory.

The scenes of world events, always a... special feature of the Strand, is particu-... larly interesting. War pictures from... Tripoli and a terrific gale off Denzness... with the casting up of a wrecked steam-... ship race at Paris are very good. On... the musical side the Strand is strong... Miss Eva St. Clair, a former favorite, and... Miss Kummertfeld, soloist with the... Cleveland Symphony Orchestra, both sing... charmingly and the orchestra sustains... its reputation. The good nature house... are a tribute to the popularity of the... Strand's entertainments.

Men who don't exercise suffer from indigestion, head-... aches, poor appetite, sleeplessness. Nothing so sure to "Set Up" a Man... Make Him Feel Bristle and Vigor... as Dr. Hamilton's Pills. Lack of exercise and overwork were... the causes that combined to almost kill... Samuel S. Stephens, Jr., one of the best... known citizens in Woodstock. In his... convincing letter Mr. Stephens... says: "A year ago I returned home after... long trip, completely worn out. I was... so badly affected by chronic indigestion... as to have to take a course of Dr. Ham-... iltou's Pills. I was always tired and... had no energy and spirit. I was... unable to sleep for more than four... hours. My appetite was so weak that... I could not eat anything, and in con-... sequence lost weight and strength. I... had had dark rings under my eyes... that made me look like a shadow.

Preston Wins C.C.A. Intermediate Championship

Note and Comment

A. R. Morrison of the Wanderers Cricket Club of Winnipeg, and secretary of the league of that city, arrived in Toronto yesterday for to-night's meeting of the Canadian Cricket Association. He says the upbuilding of the game in the Middle West is a pleasant but difficult task, but that they are meeting with splendid success.

The Winnipeg Cricket League, thru the magnanimity of the park board, control five fine creases in Assiniboine Park, and these will keep ten teams in matches every Saturday throughout the summer. Besides the board built the cricketers a serviceable pavilion containing two large dressing rooms, large hall and observation tower.

Mr. Morrison was surprised when he read on arrival that he and Hon. Mr. Macdonald were slated for the chief of-figures in the C.C.A. However, if the delegates desire the statement concerning Mr. Macdonald's enthusiasm. The latter never misses a match and is always in his place at the meetings as president of the Winnipeg Cricket Club, an office he has held for 30 years.

Owing to having bruised one foot in his exercise recently, the Derby candidate, White Star, was absent from the training grounds for several days. He was second choice to London. On Feb. 12 a bet of \$500 to \$100 was booked in his behalf. Jenkinson, a prominent candidate for the Liverpool Grand National and who was recently sent to G. W. Blundell for \$15,000, also reports.

Miss I. Anson, a well-known English racing official, died on Feb. 13. He was the owner of the Blimp Benny and established by his father, who bred the famous Bonnie Scotland, a horse whose produce played an important part in American turf affairs.

In the first betting recorded on the Lincoln Handicap, which is to be run on March 25, J. B. Joe's Spanish Prince, 7 years, 124 pounds, is favorite at 3 to 1.

Johnny Kilbane, the new featherweight champion, is likely to prove a popular title-holder. He is 22 years old, married and has one child, and is undoubtedly a provider for his aged father, who is blind. He has been fighting for three and a half years. His first battle was fought Dec. 2, 1907, in Cleveland. It was a three-round affair and a good one, since there he was figured in 60 battles, a large majority of which were victories.

MERCANTILE HOCKEY NEWS.

The Massey-Harris aggregation, despite the loss of Millard and Shields, are putting up a great battle in the Mercantile League. The indicator for the last four games against Johnston, Nesbet & Auld, mentioned having been handed goose eggs. To an outsider it would look very much as though the handsome Alkenhead trophy would travel King street West this spring.

Balmey Beach Gun Club.

Saturday was victory day at the Balmey Beach Gun Club, and judging from the turnout one would think that the older generation of this country was getting younger. All of seventy-five were in attendance for the over and a good day's sport was spent.

The club house was beautifully decorated for the occasion under the watchful eye of O. E. (Tiny) McGaw. It is situated on Eastern-avenue, just west of the Woodbine, and has a membership of forty. The shoot is held every Saturday, rain or shine, and the first of May, December, and ending the first of May. It is in line sport for the third business man, and anyone wishing to take part will be made welcome.

TORONTO BALL CLUB'S GAMES HOME AND ABROAD

List as Taken From Official Schedule as Printed Prematurely in Different Centres.

The International Baseball League schedule was given out in Montreal and elsewhere ahead of time without the authority of the president. In Montreal the unofficial figures were only slightly incorrect, but in places like Hamilton the papers could give the official list yesterday with every date right and the same that will be played the coming season. Sammy Lichtenhan's name was given in discredit of handing out the information, and it is said for his misbehavior he will be fined \$200, but how about the other places? The following is the list of games of the Toronto Club this coming season at home and abroad as taken from the official schedule printed yesterday. The Hamilton Spectator, who shows the games to begin in Toronto with Jersey City on Monday, May 6, Toronto opens the season April 19, Jersey City, and closes this year at home on Saturday, Sept. 21, with Rochester.

WINNIPEG BONSPIEL

Braden's Phenomenal Success Feature of the Curling—His Margins.

C. C. Stein in Winnipeg Tribune. Braden's phenomenal run in curling was easily the feature of the bonspiel just closed, although it will go down in curling history that the visit of the Scotch curlers was primarily responsible for the greatest gathering of curlers ever recorded on this continent. Over 1000 of the most skillful curlers of the season and many actual knights of the bonspiel were present and the best previous record set was shattered by nearly seventy additional men who were principally due to the presence of the old boys from the curling club.

ABROAD.

April 19, 20, 21, at Jersey City. April 22, 23, 24, at Newark. April 25, 26, 27, at Providence. May 1, 2, 3, 4, at Baltimore. May 23, 24, 25, at Montreal. May 26, 27, 28, at Rochester. Toronto Hockey League Finals.

The juvenile finals of the Toronto Hockey League will be played at the Excelsior rink at 8.15 Wednesday evening. The winners of the Excelsior rink will play the winners of the Riverdale Hockey Club, winner of the senior section, and St. Helen's Hockey Club, winner of the western section. Both these teams have won their districts from fast juvenile teams who were in the game, and as both teams are confident of winning the championship it will be a sure to be seen. The winners of this game will be entered in the All-Toronto championship series. It will also be the Senior Riverdale and the Scotch Thistles, winners of the Senior and Junior Toronto Hockey League respectively. The complete schedule of the league will be published immediately after the juvenile finals.

All-Toronto Hockey Association.

The regular meeting of the All-Toronto Hockey Association will be held at the Central Y. M. C. A. parlors on Wednesday evening at 8.30 sharp. The All-Toronto curling has been very fortunate in securing the handsome cash which have been fought for by the O. A. A. for many years and which were represented by the new John Ross Robertson trophy. The Garland Trophy presented to the better known as the Dunlop Trophy, which was presented by the late Col. Cosby, will be emblematic of the Senior and Junior All-Toronto championship respectively, while a trophy in keeping with the above cups will be donated for the juvenile series. The winners of the All-Toronto last shield on the new bases are the first Hockey Club, representing Y. M. C. A. Hockey Club (Senior); Scotch Thistles Hockey Club, representing Toronto Hockey League (Junior); Broadview Union League (Juvenile).

WINNIPEG BONSPIEL

Braden's Phenomenal Success Feature of the Curling—His Margins.

C. C. Stein in Winnipeg Tribune. Braden's phenomenal run in curling was easily the feature of the bonspiel just closed, although it will go down in curling history that the visit of the Scotch curlers was primarily responsible for the greatest gathering of curlers ever recorded on this continent. Over 1000 of the most skillful curlers of the season and many actual knights of the bonspiel were present and the best previous record set was shattered by nearly seventy additional men who were principally due to the presence of the old boys from the curling club.

Toronto Hockey League Finals.

The juvenile finals of the Toronto Hockey League will be played at the Excelsior rink at 8.15 Wednesday evening. The winners of the Excelsior rink will play the winners of the Riverdale Hockey Club, winner of the senior section, and St. Helen's Hockey Club, winner of the western section. Both these teams have won their districts from fast juvenile teams who were in the game, and as both teams are confident of winning the championship it will be a sure to be seen. The winners of this game will be entered in the All-Toronto championship series. It will also be the Senior Riverdale and the Scotch Thistles, winners of the Senior and Junior Toronto Hockey League respectively. The complete schedule of the league will be published immediately after the juvenile finals.

TUESDAY MORNING, FEB. 27, 1912.

SABBATARIAN INCONSISTENCY.

In their campaign against sliding down a hill that you can walk down on Sunday without incurring ecclesiastical penalties the "gold guids" have been guilty of not a few inconsistencies. They object to the common or garden variety of citizen or citizenship getting on a toboggan or a toboggan and permitting the force of gravity to carry them along, but they have not the least objection in the world to the wealthy members of the religious bodies with which they identify themselves, using their automobiles and carriages on Sunday for their own convenience or amusement. One aspect specimen of the tribe professed to find a difference between the driveways and the slides because the city, it is provided and maintained the driveways, did not provide the autos. When confronted with the fact that the city did not provide the toboggans, he had no answer, but was still insistent that there should be one rule for the rich and another for those without riches.

Great stress was laid by the objectors to Sunday sliding on the necessity laid upon the police force to provide protection for the users of the slides and the onlooking public. They were quite careful in their lamentations over this unusual duty laid upon the police, even after assurance had been given that it entailed no extra burden. Last Sunday, according to report, a staff of constables were detailed to keep the common people off the slides. But will these Sabbatarians object to employment for this deterrent duty. Certainly not, and the absence of any protest on their part will reveal the inherent hypocrisy of the original protest. At the next election, the common people will have the opportunity to declare themselves over this illustrative incident, which is not closed, nor will it be forgotten.

ROOSEVELT AFTER TAFT.

Those who fear the ambition of Theodore Roosevelt will not be slow to recall the decision of Caesar to cross the Rubicon when they learn that Col. Roosevelt has announced that he will accept if he is nominated for president of the United States by the Republican National Convention. He is disobeying no law of the state in permitting his name to go before the convention, but his candidacy will be a direct defiance of the unbroken tradition which forbids the election of any man to the presidency for a third term. That Mr. Roosevelt's first term came by succession and not by election will not be regarded as material in view of what he himself has said upon this subject.

If the aversion to a third term, which undoubtedly does exist among people of the United States, is overcome, it will be because the people feel that there is a national crisis with which only one man is prepared to grapple. In this opinion it may be said without offence that Mr. Roosevelt concurs. He believes, no doubt sincerely, that his reelection to the presidency would be in the best interests of the country. No one supposes him to have been insincere in saying that the popular prejudice against a third term was well-founded. At that time and later on he anticipated that his successor would carry out his policies and deal with the vested and the United States in much the same manner as he would have done himself.

In short, Colonel Roosevelt believes that a great change must come at once in the United States. He regards President Taft as a reactionary, and the logic of events may compel him to oppose the president at the polls should the latter capture the convention. Indications are, however, increasing that Roosevelt will sweep the country, and that far-reaching consequences may follow such a significant change of sentiment as would be advanced by the disregard of the tradition prevalent in the United States against the third presidential term and dating from the time of Washington.

GREAT SCOTT!

For several years past the Scott government has been guaranteeing bonds to the extent of \$12,000 per mile for the construction of railway lines within the Province of Saskatchewan. These lines were built with money raised upon the credit of the province. Now, when these farmers and shippers who use these railways, complain of excessive freight rates, they are told by the Scott government that they must carry their complaints to the railway commission at Ottawa. In short, the province pledged its credit to assist the Canadian Northern and other transcontinental

At the Motor Show

The motor show continues to draw record crowds. Over ten thousand people visited the armories Saturday, and it has been decided to continue the show till Friday evening, March 1. One of the most interested visitors is Mr. Charles C. Moore of the Wyman & Gordon Forging Co. of Cleveland, who make a specialty of drop forged crank shafts. Mr. Moore informed The World that his company made 40 per cent. of all the four throw and 85 per cent. of all six throw shafts forged in the United States last year, and, although they are not exhibiting here, they made the crank shafts for over half the cars shown here.

E. E. Gott, sales manager for the White Company of Cleveland, is here with the White exhibit, and reports numerous sales.

E. H. Baker, president, and E. A. Green, secretary-treasurer, of the Bros. Motor Car Co., Buffalo, are showing the Cole Eory and are establishing an agency here. They have sold several models thru their Hamilton agent, Mr. Patterson. William Hepler of West King is purchaser of a roadster, a beautiful model finished in pure white.

P. D. Newland's Factory representative, the Lion Motor Car is here with the Lion exhibit of the Riverdale Garage, and says that Toronto has the finest show he has ever seen outside of New York.

Mr. Reid of London, Canadian distributor for the Mitchell Car, reports that business surpassed all their expectations and they are disposed of their entire exhibit of six cars, and booked orders for many others for spring delivery.

Mr. Alkenhead, sales manager of the Paige Motor Car Co., is in the charge of the Paige exhibit and has just closed a contract with a Toronto agency to handle fifty of their cars this season.

The Ontario Motor Co. are more than pleased with the success of the show and have sold several Packard Sixes and also four trucks to the McClary Manufacturing Co. D. E. Whipple, of the Detroit Electric Co. is with their exhibit and reports that their cars are rapidly increasing in popularity in Toronto.

Mr. Bailey, sales manager for the Branford Motor Co., whose light delivery truck made the trip to the show from the factory under its own power, reports that the Branford is very popular, and says that although this is their first show in Toronto, they have already made several satisfactory sales.

Harry White, sales manager for the Peerless Motor Car Co. and Mr. King, representing the Peerless trucks, are with the exhibit of the Dominion Automobile Co.

Gordon Myles, 25 Toronto-street, has secured the agency for the K. R. I. T. Car, and is assisted at the show by A. E. J. Males, head of the sales and service departments of the K. R. I. T. Motor Co.

The Jackson exhibit is in charge of Mr. Matthews, general manager of the Jackson Motor Co., and A. E. Wilson, agent for Central Canada, and Mr. Christopher, agent for Ontario, who has been entirely sold.

The American Underling Car is one of the sensations of the show, and, although the sales of this car in Toronto are reported, Mr. Vale, manager of Richmond and Yonge-sts. reports that the Underling is selling the purchaser of their American Scooter.

FITZSIMMONS BODY WORKS. The Fitzsimmons Body Works of Collingwood, Ont., are showing at the armory this week one of their complete four door flush side, low line, touring bodies on a 46 h.p. G. T. G. chassis, which they also handle, and the combination makes a car of most pleasing design. The lines are long, harmonious and graceful, and the color scheme is a rich, dark blue, with the interior in fender black, while the gear is painted a nice shade of antique.

The upholstery is done in black leather of best quality, the lamps, etc., being nickel and black.

The firm are showing a new design of roadster body in the white with folding rubber seat, which will accommodate two passengers with comfort. There is also a very large compartment for baggage, etc., which is easily accessible at the rear, without disturbing the comfortable seat. Particular attention is being given to the fitting of a body of this kind should not fall to see this one. The firm enjoys the reputation of building right here in Canada a line of bodies that cannot be surpassed for design or finish by foreign manufacturers, and cater to a special motor work of any design to fit any car.

PASTOR RUSSELL'S SERMONS. Editor World: For some weeks past we have noticed in your paper that Pastors Russell and a committee have been investigating foreign missions. They indeed have been busy, and I have no doubt they will have a lengthy report to submit when they get back to America. Glad to see that the pastor is spreading the true gospel to the heathen. On their part, I am sure, will receive it with joy, glad to know that their ancestors, whom they worship, are not being eternally tormented. These so-called heathens will be better able to grasp the truth, as they will not associate superstition and credulity with the Bible, as Christendom has done in the past. For my part, I look forward each Monday morning to see the sermon of Pastor Russell, which is mostly all kernel and very little husk. G. W. Redford, 55 Tiverton-ave., City.

Lunatic Made Scene In House of Commons

Fired Off Revolver Several Times and Proclaimed Himself "Messiah". LONDON, Feb. 26.—(Can. Press.)—A sensation was caused among the members of the house of commons this evening by an individual dressed in clerical garb who called himself the "Messiah," discharging several shots from a revolver toward the ceiling in the lobby.

The stranger was sitting in the outer lobby, when he suddenly opened his coat, causing a stampede among the members, and then he proclaimed himself the "Messiah."

The man was arrested and removed, shouting, "Hands off the Messiah."

GOOD PLACE TO WORK. Editor World: Having been an employe of the T. Eaton Co., Ltd., for a number of years, and having recently read a ridiculous account in a Toronto weekly paper regarding the treatment of the employes in the store, I felt that I could not let such statements pass without comment.

Personally, I consider that any one employed by the T. Eaton Co. is well respected and treated in every way with the greatest consideration. I am sure that I could not be more contented in any other firm. It would be impossible to find a more honorable and profitable position than I have found with the T. Eaton Co., Ltd., Toronto, Feb. 26, 1912.

PEOPLE WHO LIKE TO SHOW OFF AT A CONCERT. There is something about music that appeals to a good many people, and as their interest in the matter grows, they are some interesting observations on the subject. I have just read in your issue of the 23rd inst. an article by Mrs. W. J. W. on the subject of "The Usual Elks' Innumeration—too free a use of things and sixths."

The poor, indeed, show low creatures who within a parish, and there were many—advertising the smallness of their own souls.

Music creates a powerful emotional disturbance, and its tendency is to make one think. Technically, it is very little effect and practically no thought at all. It is a matter of leaving a few rules, and infinitely easier than to grasp the big creative and emotional values, really to feel the music.

"When you hear people talk like the two ladies in the concert you mention, you are sure to find them in the formulae that they have no real desire or enjoyment in the music, but are only airing of their own little foolish knowledge."

Ontario's Farms

More Than Nine Million Acres Were Under Crop Last Year. That Ontario has 28,947 acres of orchards, 24,384 acres of small fruits, and 57,982 acres of gardens is shown by the report of the bureau of industries for the Province of Ontario for 1910, which has just been issued. The total number of acres under crop in 1910 was 9,725,884, as compared with 9,578,322 in 1909. The total value of the crop for 1910 was \$175,115,742, an increase of \$4,000,000 more than that of 1909.

ROAD IN U.S. "T.R." THE CAUSE

Politicians and Newspapers Show Interest of Liveliest Sort—Taft Feels Situation Keenly.

BOSTON, Feb. 26.—"We're in the light, that's all," said Theodore Roosevelt today. It was his only comment upon his statement, issued yesterday. He said that whether or not he embarked upon a speaking campaign, he would reiterate his belief in the political principles which he set forth in his speech at Columbus, Ohio.

"Expected it," says Bryan. OGDEN, Utah, Feb. 26.—William J. Bryan said today: "The announcement of Mr. Roosevelt's candidacy for president is news that is news, except that it was fore-shadowed by his speech at Columbus, Ohio, and by an Outlook editorial on a third cup of coffee."

Mr. Bryan added it would be an interesting light which the Democrats would watch intently. Taft Deeply Wounded. WASHINGTON, D. C., Feb. 26.—The only remark emanating from President Taft today that at all bore upon the tense political situation was made to a senator. "It was this," he said, "that was right, and I am confident that we will be successful."

This he is deeply hurt to learn that from now on he must engage in an open contest against the man under whom he served for many years is certain. The Line Up. Candidates now definitely in the field are: REPUBLICAN: President Taft, Theodore Roosevelt. DEMOCRAT: Champ Clark, Missouri; Oscar W. Vanderwood, Alabama; Gov. Wilson, New Jersey.

All Look Alike, Says Champ. WASHINGTON, Feb. 26.—Some of the comment today is: Speaker Champ Clark: "We can beat one Republican as well as another this year. Representative Robert E. Henry of Texas, author of the resolution to investigate the money trust. The Democrats can easily defeat Roosevelt with a strictly progressive candidate. I consider Roosevelt the decay duck of the special interests and Wall-street."

Representative Norris (Rep.), Nebraska: Roosevelt will be nominated and elected. Senator Works (Rep.), California, and Representative Jackson (Rep.), Kansas: Roosevelt will win.

New Editorial "Anvil Chorus." NEW YORK, Feb. 26.—A chorus of newspaper disparagement of the Roosevelt candidature came from many "old guard" Republican newspapers today. The editorials, varying with that of the Democratic press, are highly critical, not to say vitriolic, comment. A few of the gems of thought are: "Valiant and intriguing."

"The Times." "For two years he has been scheming and intriguing for the nomination. He has worked for it without ceasing and he has worked in the vulgar way. The whole country knows that."

"The World (Dem).": It is not Theodore Roosevelt, but the American people who are on trial. Mr. Roosevelt has torn up his solemn promise of Nov. 8, 1904, that: "Under no circumstances will I be a candidate for or accept another nomination." But the promise remains as valid as it was on the day it was written.

Betrayed Friend Taft. The Sun (Ind. Dem.): "Neither the very distinctly recorded, pledge not again to be a candidate for and under no circumstances again to accept a nomination for president, nor the ordinary obligations of decent behavior towards the loyal friend who for some years yet written reason now incurs his just resentment, has prevailed over the selfish considerations of the hunger for the ears and eyes of the multitude, the inevitable ambition to be at the centre of things, the lust for power and primacy."

"We give Col. Roosevelt the credit for semi-unconsciousness of the despicable nature of his performance." The Herald's Sarcasm. The Herald, independent and anti-Roosevelt, says: "The big parade! Have the flags and ring the bells! About the dynamite? See that it is ready! Will the big balloon hold the hot air? Make her staunch and tight! Where are the Abernethy kinds! Is the aeroplane ready, and how about the hydroplane, to say nothing of the submarine?"

Not All Knocks. Boston Journal: "Col. Roosevelt has nothing to gain by becoming candidate for the nomination. He has had the power and the prestige had everything to gain in Roosevelt's candidacy. He is, we believe firmly, the one Republican who can win the election."

Roosevelt Establishes Headquarters. NEW YORK, Feb. 26.—(Can. Press.)—Permanent offices from which supporters of Theodore Roosevelt will wage his fight to secure the Republican presidential nomination were opened at 1 Madison-ave. today in charge of Oliver Clinton Carpenter, a lawyer, and one of the lieutenants of Geo. B. Cortelyou, chairman of the Republican national committee in 1904.

MUST RESIDE IN ONTARIO. The provincial act respecting building societies and loan corporations that has been revised by the statute revision commission contains important changes. Hereafter the majority of the directors must at all times be resident in Ontario and be British subjects by birth or naturalization.

THEY NEED THE MONEY. Manager Orr and George W. Gouinlock, director of the Canadian National Exhibition building, have been invited yesterday to get details of the grant that has been made by the federal government for a new provincial building at the exhibition. It is the desire of the management to get control of the money as soon as possible, so that the building operations on the new structure can be commenced without delay.

Filling Night With Sunlight

YOU can increase the power of your store lighting more than two and one-half times its present strength by the use of the Tungsten lamp. Hundreds of stores in Toronto are now using Tungsten lamps, and many more are planning to do so.

CUSTOMERS follow the light. It is an obvious advantage to light your store from two to three times as brilliantly as formerly—especially when the monthly bills for current show no increase.

THE clear white, intensely white light from Tungsten lamps cannot fail to increase the trade-compelling possibilities of any store dependent upon the right sort of artificial lighting to meet the special requirements of its trade.

THE light from Tungsten lamps is so natural that it has received the apt appellation of "bottled sunlight."

NO matter what kind of illumination you now use—you should know whether or not it is the best kind adapted to YOUR store requirements. You CAN know by consulting, without charge, our Service Department.

SUPPLEMENTARY ESTIMATES PRESENTED TO LEGISLATURE

More Than \$4,000,000 Will Be Voted for Salary Increases and Expenditures on Public Buildings, in Addition to \$8,000,000 Voted on Main Estimates Last Year—New Land at Whitby and Guelph—Salaries Are Voted for New Farm Director, Probation Officer and Boiler Inspectors Yet to Be Appointed.

Supplementary estimates for the fiscal year ending Oct. 31, 1912, were presented to the legislature yesterday by Sir James Whitney, in the absence of the Hon. A. J. Matheson, provincial treasurer, who is ill. Including a grant for the extension of the line thru Hanover, Greer and Bruce, and \$2,000,000 to the hydro-electric commission, the supplementary total \$4,077,454.18. The main estimates, presented during the last session of the legislature, called for an expenditure of \$8,090,911.66, so that the total estimated expenditure for the current fiscal year is \$12,168,365.84. In addition to this sum, further supplementary estimates will be presented during the session, bringing the amount up to several hundred thousand dollars more.

Most of the sums contained in the volume presented yesterday are increases in salaries for civil servants. A new position is created, at a salary of \$1800. It is the intention of the provincial government to appoint a parole officer, who will visit prisoners paroled from the Central Prison farm at Guelph, and assist them in obtaining employment after their discharge. Increases of \$100 a year are given to all the deputy ministers and to several chief clerks and accountants. For constitutional questions \$20,000 additional is set apart. A new registry office will be erected at Kenora at a cost of \$8000, and the completion of the new court house will cost \$2500. Other expenditures at Kenora bring the total up to \$26,238.

On Public Buildings. Large amounts will be spent on the public buildings of the province for new buildings and improvements, including \$200,000 for the purchase of farm land, erection and equipment of the new hospital for insane, to be erected at Whitby. A similar amount is included for the erection of buildings for the provincial prison at Guelph. This amount may be subdivided and charged to the various departments. Additional buildings and farm land equipment for the hospital for the insane at Brockville will require \$50,000, of which \$15,000 is a re-vote. A new dormitory building for the institution of the blind at Brantford will cost \$65,000, and a similar amount will be spent on the deaf and dumb institute at Belleville. London Expenditures. To replace the kitchen and amusement hall at the London Hospital for the insane, which was destroyed by fire, there is an item of \$25,000. Additional buildings at the Ophthalmic Hospital for People-Minded will cost \$20,000. A new residence for the medical superintendent at Woodstock institution calls for \$6500. For electric wiring in the hospital at Mimico \$10,000 is provided, of which \$8000 is a re-vote. For repairs

to the Hamilton asylum, made necessary by fire, \$18,453 will be needed. On the parliament and departmental buildings \$12,219 will be spent this year, including increases in salaries to various employees, and \$3150 to provide salaries for additional watchmen and two boiler inspectors, yet to be appointed. For the completion of the north wing of Osgoode Hall \$21,000 is set aside, containing a re-vote of \$13,068. For the new Government House \$50,000 is needed, and for the completion of the reconstruction and deepening of the west wing of the parliament buildings, \$200,000 is necessary. New land will be purchased as an additional experimental plot at the O. A. G. Guelph, at a cost of \$18,500. Electrical plant will cost \$10,000, part of which is a re-vote. The new dining hall will cost \$75,000, new dairy stables \$15,000, new building for field husbandry and experimental department, an amount to be decided upon later. The reconstruction of the Ontario Government building in London, in the interests of the province, calls for an expenditure of \$15,000 this year, more than one-third of which is a re-vote. Technical Education. For technical education in the province the sum of \$34,530 is set apart, of which \$3500 is for the salary of the director, \$25,000 for day industrial classes and \$4000 for agricultural training in high schools. For public and separate school education more than \$115,000 will be voted, including \$20,000 for rural, public and separate schools in counties, \$23,000 for examiners for departmental examinations, \$10,500 for continuation schools, \$19,000 for public and separate schools in new districts, and other miscellaneous grants. To provide for a farm director \$2500 is placed in the amounts to be voted. The director has yet to be appointed. For Charities. As a result of numerous deputations asking for grants, several special amounts have been placed in the estimates for charitable purposes, as follows: For institutions mentioned in the statutes, \$7100; sanatoria for consumptives, \$11,571.45; industrial schools, \$9825.46; children's aid work, \$1241.23; Alexandra

BERMUDA. NEW YORK, Feb. 26.—(Can. Press.)—Edward King, alias Collins, who described himself as a prizefighter and a restaurant waiter, was locked up in the Tombs to-night, charged with being the principal in the recent robbery of two East River National Bank messengers of \$25,000 on the afternoon of Feb. 15. The robbery occurred in the heart of the financial district, while the bank messengers were traveling in a taxicab with \$25,000 cash from the Plankers' Exchange Bank. Five men participated in the hold-up. Kinman, the alleged principal, another man and two women, were arrested at the Grand Central Station late this afternoon as they were about to board a train for Chicago. The police were reticent as to their actions, and it was said that other arrests were to be made.

Real Estate and Building--News and Opportunities

NEW REALTY OFFERING
Wooded Subdivision on Danforth Avenue Opening Up This Spring--On New Car Lines and Well Within City Limits.

The closest-in subdivision in the city limits is to be placed on the market this week. It is the Ashbridge Estate property of 48 acres, extending from Danforth-road south to the G. T. R. eastern line.

The property is just a short distance east of Greenwood-avenue, to which the Ashbridge-avenue, to which the property goes thru. There is quite a wave of sentiment in its favor throughout the east.

The property will be called Monarch Park, and will be sold at about \$25 a foot, and over 200 lots are available to street, will tend to make it an attractive home spot subdivision, and Thayer and Gates, the selling agents, anticipate no difficulty in disposing of the land.

THE OWNERS, THE MONARCH REALTY AND SECURITIES CORPORATION, will start grading the streets at once, and will also apply for all local improvements. This is the property which the city two years ago bought for a park, the deal falling thru chiefly because the city fathers thought the district so sparsely settled that it needed no park. Now the land, therefore, will be built up solidly this year, even as the other sections of Riverside have grown up almost overnight, and while the residents of the other parts of the city were unaware.

PIONEER ARTIST DIES IN PENURY
MONTREAL, Feb. 25.—John Warner Gray, pioneer artist, to whom Montreal is due to a large extent indebted for her Art Association, her art gallery and all that is artistic in her life, died last night in the Moore Home at Longue Pointe, a penniless and almost forgotten. Gray was in his 89th year.

CATTLE ARE SCARCE 34 CARS AT UNION YARDS CATTLE TRADE STEADY

Blockade on Railway Lines Affects Stock Yards—Hogs Score an Advance.

MONTREAL, Feb. 26.—At the Montreal stock yards, the trade in cattle was light, receipts being only 34 cars at the Union Stock Yards, 312 hogs, 419 sheep and lambs, 25 calves and 4 horses.

There being a light run of cattle, there was a fairly active market. Prices ruled steady to strong at last week's quotations, which is not saying much for the state of the beef market, when we consider that there were only 100 head of cattle.

The market to-day was far from being encouraging for heavy shipments of cattle, and it still thins the signs all along to lower prices for cattle before they are here.

Cattle were bought for export, as the American export firms all state that they can buy the cheaper at home.

Best heavy steers, \$5.35 to \$5.55; prime butchers, \$4.25 to \$4.50; loads of good, \$3 to \$3.25; inferior, \$2.50 to \$3; cows, \$2 to \$2.25; springers, \$3 to \$3.25.

Chicago Gossip. Week-End News Generally Bearish—Sentiment is Variable. J. P. Bickell & Co. received the following telegram from St. Louis, Mo.:

Wheat—Net decline in wheat futures for the day is a trifle. The trade appeared to be looking for important market news to buy or sell but early and smaller volume shipments had exceeded higher prices for low grade Canadian wheat.

Oats—Canadian western oats, extra No. 1 feed, 45c; No. 1 feed, 44c; lake extra No. 1 feed, 43c; No. 2 feed, 42c; No. 3 feed, 41c; No. 4 feed, 40c; No. 5 feed, 39c; No. 6 feed, 38c; No. 7 feed, 37c; No. 8 feed, 36c; No. 9 feed, 35c; No. 10 feed, 34c.

Manitoba wheat—No. 1 northern, \$1.12; No. 2 northern, \$1.10; No. 3 northern, \$1.08; No. 4 northern, \$1.06; No. 5 northern, \$1.04; No. 6 northern, \$1.02; No. 7 northern, \$1.00; No. 8 northern, \$0.98; No. 9 northern, \$0.96; No. 10 northern, \$0.94.

Chicago Markets. J. P. Bickell & Co., Standard Bank, Reg. received the following fluctuations on the Chicago Board of Trade:

EATON'S

Is Your Horse Ever Sick?

A horse is different from the majority of animals in sickness. He takes ill suddenly and without warning and diseases with him usually develop rapidly unless aid is administered quickly.

DRENCHING OR MEDICINE BITS—Another useful article. Should be in every stable. Makes the administration of medicine an easy matter and saves all waste.

FLOATS FOR DRESSING TEETH—The best Veterinary authorities are unanimous that the dressing of horses' teeth is very beneficial. The long, outside edges of the back teeth are trimmed, enabling the horse to masticate his food better and get more benefit from it.

Hoof Knives. Both right and left cut. Useful article. Best grade of highly tempered steel. —Basement. .50

The new ribbons are being featured in the best spring millinery. Take a walk through our millinery department, and you will get inspiration for your new hat.

Among the new ribbons for the season are the Ombres, or shadow ribbons, in plain and fancy effects. These are exceptionally strong in New York and Paris. Plaids in their many effects will be greatly used. The floral effects are new; a new ribbon style is known as Cathedral, an evolution of the paisley and Orientals of last season; then there is the various ribbons with the plait edge, old fashioned, but new.

The colors this season are good, with the introduction of the new tans, new blues, and the new greens, they are very beautiful.

There will be a special display in all lines, but our fancy ribbons at 50c per yard will be specially displayed, and should be of special interest to the home and shop milliners.
