LABOR MAN
SECRETARY OF A UNION
But He is Taking Time to Consider
Candidature in West
Birmingham.

(Canadian Associated Press Cable)
London, Dec. 2.—The Scottish Chamber of Agriculture of Edinburgh yesterday agreed to ask Chamberlain to address a meeting on the proposed fiscal changes, with special reference to agriculture. Chamberlain was informed that the chamber is not pledged to his proposals.

W. Davy, secretary of the National Society of Amalgamated Brass Workers of Birmingham, has been selected as labor candidate, to oppose Chamberlain in West Birmingham. Davis is considering the matter.

C. W. Long, M.P., speaking at the Metropolitan division of the National Union of Conservative Associations yesterday, said that any statesman holding Chamberlain's views was bound to put them before the country when he found the colonies ready to meet us half way to make the empire one sustaining whole. As it ought to have been many generations ago.

The Glasgow Herald, referring to Laurier's plan of creating a Canadian navy, says: "We prefer this alternative of subsidizing the North American squadron." The paper hopes it will be a fleet, and not the monitors, but, in the event of an imperial war, ready for service anywhere.

The Parliamentary Committee of the Trade Union Congress has issued a manifesto headed, "Chamberlain's Methods with regard to Workingmen and Protection."

Justine Alverston and six others yesterday examined Gray's witnesses' exclusion of Beitha Cave from the bar. In her contention, she quotes Toronto's lady barrister.

C. B. Hoffmann, M.P., speaking at Hull yesterday, said free trade was the only policy which would bring America and Germany, Chamberlain had been forced in his latest revised speech to give up the idea of the colonies were not taking the initiative on this question.

The Times prints a survey of the position of Canada in relation to the United States, by Secretary Goheen of the British Columbia Bureau of Information. He details the manifold part Canada has taken in helping out a nation by a structure of her own and believes that a stimulated competition between the two countries would work out a greater future than if they were united.

Lord Coleridge, speaking at Wellington yesterday, said the introduction of protection was the establishment of the Agricultural Society of Western Canada has written to the British government, but the Eastern manufacturers.

CRUISER AT PORT ARTHUR.
The Russian and a Russian battleship arrived yesterday.

St. Petersburg, Dec. 2.—The Russian armored cruiser Bayan and the battleship Tsvetich arrived at Port Arthur today.

ULTIMATUM DESIRED.
Tokyo, Japan, Dec. 2.—A meeting of the Shimpou members of the Diet yesterday passed a resolution denouncing the cabinet's dilatory foreign policy and requiring the cabinet to give information on the far East demands the evacuation of Manchuria and the opening of the principal ports of the coast.

MAY BAR HOCKEY PLAYERS' GET.
Lincoln, Neb., Dec. 2.—The John D. Rockefeller donation of \$100,000 to the University of Nebraska building devoted to religious and scientific study is not likely to be accepted for the reason that the remainder of the university cannot be raised. Those were the terms on which Mr. Rockefeller made his offer, and the committee which for many years has been working to raise the amount has almost abandoned its task. The committee has another month before the time limit expires, but has little hope of success. Not quite half the required amount has been raised. The proceeds against Mr. Rockefeller's offer is accepted as the cause of failure.

GOOD NEWS TO MANY.
Received increases in pay.

Montreal, Dec. 2.—The engineers and firemen of the Canadian Pacific Railway Company, as the result of an agreement which was reached today, have received certain increases. The increases to the firemen range all the way from 7 to 25 per cent., and those to the engineers from 8 to 25 per cent. The agreement goes into effect at once and may be terminated at 30 days' notice.

Great Northern of Quebec Taken Over
by the Mackenzie and Mann
Interests.

Montreal, Que., Dec. 2.—There was quite a gathering of railway magnates today. Among those present were William Mackenzie, D. Mann, T. B. Hanna, third vice-president of the Canadian Northern, and James McNaught, H. H. Melville and others of the Great Northern of Canada. It is understood that this meeting signifies the taking over of the Great Northern of Quebec by the Canadian Northern, and the ultimate result may be an independent third line to the Pacific Coast via all-Canadian ports.

CHAMBERLAIN.
as Labor candidate, to oppose Chamberlain in West Birmingham. Davis is considering the matter.

"We are getting along very well as we are. I cannot properly say that the attitude would be without any previous knowledge of the nature of the advances of the Grand Trunk Pacific you mention. We are perfectly satisfied with our present conditions of production."

"Then I can say positively that no advances have been made of any description to acquire the Mackenzie and Mann interests."

"You can," was the terse reply of Mr. Mackenzie.

"Of course you know that there is a rumor that if this absorption took place the Great Northern of Quebec would be a continental undertaking would be relieved."

"I believe it would," was the smiling answer.

Man Who Poisoned J. Ogden Goellet Has Come Here.
New York, Dec. 2.—James Abel, who is sought as the man who poisoned J. Ogden Goellet and won the attention of a telegraph girl, is now in one of the eastern penitentiaries of Canada and has been across the border for two weeks. It is known beyond doubt that he came here from New York on November 8, and on the 10th he was taken to the penitentiary at Hull, where he was held in custody until his latest revised speech to give up the idea of the colonies were not taking the initiative on this question.

DRANK HEALTH IN POISON.
Father Toasted Baby in Carbolite Acid by Mistake.
Cleveland, Dec. 2.—Frank Melcher, a baker, just as he was about to leave his home early this morning, raised a glass to his lips filled with what he supposed was liquor, drank it and the result was a new-born baby. The glass contained carbolic acid. Melcher, who is a father of five children, was the victim of a mistake which cost the life of his youngest child. He was drinking from a bottle of carbolic acid which he mistook for liquor. The mistake was made at the house of a friend, where he was drinking with several other men.

GANG OF BURGULARS.
Woodstock, Dec. 2.—Several of the local banks have received a warning from the detective department at Ottawa regarding a number of professional burglars from the States who are believed to have crossed the line to carry on their work in this province. The banks have already taken extra precautions. The burglar is a man of about 35 years of age, with a mustache, and is believed to be a member of a gang of professional burglars who are active in the Ottawa district.

FOR A FARMERS' TRUST.
Meeting in Chicago to Form a National Organization.
Chicago, Dec. 2.—Farmers representing ten Western states gathered at the Grand Pacific Hotel today to discuss a plan of merging their local bodies into a national organization, with a view to securing better prices for their products. W. P. Hendricks, president of an organization in Oklahoma and southern Kansas, said that his organization had 20,000 members and was anxious to affiliate with any national body that would benefit the agriculturists. B. Day described a plan for farmers operating their own grain elevators, a plan which had been in successful operation in Nebraska for several years. The farmers, he explained, were eligible for elevator stock, and sufficient funds for a new elevator are secured work on the structure is being done. Other speakers were John Ames of Wisconsin and Robert Lindholm of West Union. He was bitten by a sheep head dog two months ago, but expressed no ill effects until a few hours after his wedding, when he terrified his bride by going into convulsions and frothing at the mouth. For forty-eight hours his wife shared his suffering.

Toronto Dowieites Loyal
Many Intend Going to Zion

The Lord Helped Him Before
and Will Do so Again—
They Say.

Zion City is in the hands of the receiver. It was the result of a judgment rendered by the court yesterday by which the Zion City, under the management of the receiver, was sold to the Zion City, under the management of the receiver, for the sum of \$100,000. The Zion City, under the management of the receiver, was sold to the Zion City, under the management of the receiver, for the sum of \$100,000.

There is, however, implicit confidence in the wisdom and power of the prophet, "Biblic, the Receiver," displayed by his local adherents. For some time past Canada has been adding to Zion's population and the report of impending disaster is not deterring the prophet's followers who intend going to the "clean city for Zion," from going on with their preparations for departure.

In fact there is no Dowieite in Toronto who believes in the statement that Dr. Dowie is insolvent. "The Lord helped him before when disaster threatened and will do so again," they all say.

In the past year it is stated that some 20 families have left the city for the home of the Zionites. Employment is promised to the Zionites, and many are employing the majority of the 10,000 souls composing the city. Others there are who live on their means. Several law industries were said to be under way and the Zionites are expected to be the reason of an almost general exodus of Zionites to Zion.

It is the belief that if Dr. Dowie is really the prophet, he will have millions of dollars given to him at once. One devotee in the city who has been one of the close for a number of years, declared that if Dr. Dowie should really be in such a position, he would not only have a fortune, but would have a fortune of \$100,000,000.

DOWIE RAINING "THE GHOST."
Chicago, Dec. 2.—A great gathering of the Dowieites was held in the tabernacle at Zion City to-night. It was called by Dowie for the purpose of starting a fund of \$1,000,000, with which to carry out the Zionite scheme of building a city in the West. The Zionite scheme is to build a city in the West, and to build a city in the West.

LAURIER'S DENIAL.
Ottawa, Dec. 2.—The Canadian Associated Press refers today to a letter which appears in the English press from Sir Wilfrid Laurier. It is the statement attributed to him with regard to imperial defence. This is the statement denied by Sir Wilfrid Laurier in his letter to the Canadian Associated Press.

THE IMPERIAL LIFE.
Is your life insured under an Imperial policy? If not, it will pay you to examine the fairest and best policy obtainable. Apply to the Head Office, Toronto.

Old Moore's Prophecy.
Old Moore has prophesied in an exceptionally hard and cold winter, and many of his wisest adherents are here. Certainly it needs to be prophesied to send people to Fairweather's, 84 Yonge street, for their reputation for reliability and for quality is a continental one.

THE FOLLOWING IS A COPY OF THE LETTER TO WHICH SIR WILFRID LAURIER REPLIED: "CONEY STREET, Nov. 3, 1903.—To Sir Wilfrid Laurier, Ottawa, Ontario. I have the honor to acknowledge the receipt of your letter of the 29th inst., wherein you call my attention to the statement made in your city to THE EFFECT THAT THERE WAS A SCHEME ON FOOT IN CANADA TO CONTRIBUTE A GREAT SUM TOWARDS NATIONAL DEFENCE, and that Mr. Chamberlain had so frightened a third of the population—the French-Canadians—that the scheme had been dropped. I fully corroborate Mr. Chamberlain's answer to your enquiry. The statement is altogether without foundation. THERE NEVER WAS IN CANADA A SCHEME ON FOOT TO CONTRIBUTE ANY SUM TOWARDS IMPERIAL DEFENCE. (Signed) Wilfrid Laurier."

ON EYE OF
ELECTIONS

The political parties in Toronto are getting ready for the battle at the polls. The Globe is sounding the tocsin, and if it can be relied on the date of the general election throughout the Dominion will be announced in a few days. An impression prevails that the voting will take place in January. One prominent politician said last night that he was willing to bet a hat that Jan. 24 would be about the date, while another well-informed politician professed to have information that the date of the government would be decided in February, early in the month.

The Eye on the South.
The Liberals are counting on one of the new Toronto constituencies as a good fighting ground for a strong campaign. This constituency is South Toronto. Peter Ryan has been talked of, but The World is informed that he has definitely refused to run and has promised his support to T. C. Robinson, K.C., who is regarded as the best man who could be selected. Mr. Robinson will undoubtedly receive the nomination. Who will oppose him is a matter of considerable doubt, but the names of John Laxton, Dr. Orr and E. F. Clarke, M.P., have been freely mentioned. There is a movement on foot to induce Mr. Clarke to take the field, but his friends say he is entitled to refuse. Mr. Ryan, if he chooses to make the fight in that constituency.

Labour Candidate, Maybe.
Mr. Harvey Hall is prominently mentioned as a possible candidate in the labor interest. He is a strong man, and would undoubtedly receive formidable support. Mr. Hall has been before the public for some time as representative of the Railway Brotherhood of Toronto. He has done excellent work in the past, and his selection as a labor candidate would be a great asset to the party.

to the Queen's Park combination is more ominous than the cancer of corruption and barnacle which has been growing on the Globe and has been trying to persuade the government to put its house in order. The government and the party managers, instead of accepting these friendly warnings, determined to threaten the Globe and have now succeeded in getting the government to put its house in order. The result shows the futility of trying to reform the government from within. It will not reorganise; it will not remove the barnacles and parasites. The remedy must be more radical and complete change of government.

ment and endowment by the state of a Roman Catholic university, and rumors are rife that the government has set on foot on this basis with a view to secure the National vote. Apart from political tactics, the Irish members would probably support a protectionist policy favoring the interests of their country, so that an ultimate arrangement on this line is quite on the cards. Then the relations between the Liberal and Irish parties are at present strained, principally over the support accorded by the latter to the English Education Bill, a measure distasteful in the highest degree to the Nonconformists, the backbone of the opposition. Looking to the whole circumstances and the more recent declarations of Ministerial policy, it does not seem probable that there will be any immediate appeal to the country. The opposition are naturally impatient, but many reasons complicate to induce delay on the part of the cabinet, and it is these considerations which usually prevail.

THE NEW SCHOOL BOARD. The importance of the new Board of Education to be elected in Toronto a month hence is not fully recognized. This body will take the place of the Board of Technical Schools, which has done a great deal to say about the education of more than 30,000 children, from the kindergarten to the university, or to the beginning of the active practical work of life.

PARCELS BY POST. President Mills of the Agricultural College wants the government to take over the business of carrying small parcels. There is a great deal of difficulty in this, which would be merely an extension of the postoffice business. The postoffice carries parcels now; all that is necessary is to allow larger quantities to be carried, to liberalize the regulations and to improve the facilities of the branch of the service. One can hardly imagine a simpler and easier way of conferring a good boon upon the public.

THE THREAD TRUST. A popular argument against the principle of protection is that trusts and combines flourish under a high tariff. This theory is somewhat damaged by the fact that trusts are free-trade England as well as in the United States. The trusts are, no doubt, to be seen in their worst form in the United States, but their power is not wholly a matter of tariff encouragement.

EDWARD THE PEACEMAKER. The Pittsburgh Gazette, writing of the Anglo-French arbitration treaty, says: "The King of England can go into history as Edward the Peacemaker. In the long list of official titles which follow his name, the declaration of the French Premier places him with reasonable accuracy as the peacemaker of the world. He is the only monarch who ended with a speech, except as other nations gave effect to his speech. He is the only monarch who ended with a speech, except as other nations gave effect to his speech. He is the only monarch who ended with a speech, except as other nations gave effect to his speech."

A CLEVER POLICEMAN. Berlin, Nov. 29.—At Charlottenburg, near Berlin, a young man named Berner, who lodged with a widow named Vogel, recently inherited £100, which Vogel's wife hid in a sofa in his room. Coming home one day, he found the sofa had been moved, and the money had disappeared. He then went to the police, who made inquiries and found the sofa had been moved, and the money had disappeared. For Excitement and Money Three Youths Do Murder

Chicago Shocked by the Result of Reading Dime Novels—Death Awaits Them. Chicago, Ill., Dec. 2.—(Staff special.)—The spectacular career of three boy bandits which extended over several months in which robbery and murder were of slightly occurrence, closing with the battle with an army of detectives in which several men were killed, has supplied food for some very serious reflection in Chicago during the past few days. The story reads more like the chapter of a yellow novel than the experience of a modern city with boys just graduated from their public school. In no light, however, do the records of the young outlaws justify the theory of modern sociologists that the criminal is the product of his environment, nor the old notion that he is the creature of his heredity. The boys were trained to take the case seriously, and perhaps learn a lesson that would be of benefit to the young outlaws, justifying the theory of modern sociologists that the criminal is the product of his environment, nor the old notion that he is the creature of his heredity.

Operated with Immunity. Another feature of the case is the immunity with which the gang operated. The five months they have been holding up people in Chicago, they have never been arrested. How it is Explained. The chief of the police department explains the escape of these criminals in a simple process not altogether clear to the lay mind. He declares the men have been following false scenting of the police. Excitement and Money. The prisoners discuss their blood-thirsty life in a display of morbid gloom. Even more incomprehensible is the motive which they assign as impelling them to their crime—excitement and money. The prisoners discuss their blood-thirsty life in a display of morbid gloom. Some indications of Nervous Disorders. The Warning Signals Which Foretell the Approach of Nervous Prostration, Paralysis and Locomotor Ataxia. Twitching of the muscles, sensitiveness to light, sound and motion, grinding of the teeth during sleep, jerking of the limbs, continual movement such as tapping the fingers, or the hands, or the symptoms of exhausted nerves, dizziness, vertigo, headache during the night, spots before the eyes, disorders of sight and hearing, and other symptoms, which nervous collapse is approaching.

Dyspepsia Acts in Many Ways. In his confession, one of the boys says they were tired of work, tired of school and wanted some excitement. They were born and raised in the same neighborhood. Many dime novels had been read and they had talked of the crimes. They had not yet begun to carry revolvers. A few months ago they thought they were sufficiently desperate to purchase revolvers. They had no money, but, pawing a watch, they purchased one small pistol. They needed more money and to secure it they planned a hold-up. A customer was selected. One took the pistol and with their faces covered with handkerchiefs, they rushed in, shot the storekeeper and stole the contents of the safe. They purchased one small pistol. They needed more money and to secure it they planned a hold-up.

four saloons and each time killed either the bartender or some person who happened to be present. Then they "pulled off," as he described it, the "biggest bunch of money ever seen in the neighborhood." The boys had been raised in the particular neighborhood, but were never suspected. This raid netted the murderers \$2300. In spite of the fact that these boys were not working and were spending their booty like millionaires, they were never even suspected. They had long since outgrown the first pot-metal novels with which they started on the road gang business. In fact, it was this craving for excitement they could carry concealed in their pockets that ultimately led to the catastrophe that landed the outfit in jail.

How It Came Out. A week ago, a neighbor boy told a policeman that a man named Marx was owned by a boy named Marx next door. The policeman did not suspect Marx of the desperate work, but was looking for every weapon of this pattern, in the hope of catching the murderer. They found him in a saloon. As they entered, wholly unperceptive of personal danger, the youthful bandit jerked out the magazine gun and began to shoot. One was killed instantly, and the remaining of the weapon saved the other.

Port Colborne. Port Colborne, Ont., Nov. 29.—County Judge Haskins was initiated into the lodge of Elks last Thursday night. Owing to his advanced age most of the initiatory ceremonies were supplied in his case. Two other younger men were initiated into the lodge the same night. The ceremonies were witnessed by the crowd. He was convalesced with laughter, which continued long after he had departed. The physicians announce that he has broken a blood vessel in his stomach and cannot recover.—Leitner Herald.
