BRITISH ADVANCE NORTH OF ARRAS CAMBRAN LINE

Posts Established In Vicinity of Souchy-Cauchy and Oppy

Capture of Maisemey Adds Another Important Position to Those Recently Taken Along Ridges West of St. Quentin—British Gunners Bombard Hindenburg Line With Resulting Heavy Losses to the Enemy—Gain on Flanders Front

London, Sept. 16.—British troops last night advanced their line north of the Arras-Cambrai line, establishing posts in the vicinity of Souchy-Cauchy and Oppy, according to today's report from Field Marshal Haig.

On the Flanders front the British pushed ahead in a successful minor operation on both sides of the Ypres-Comin Canal on a front of more than two miles.

Little Tots Among Survivors Cry for Murdered Parents, While Other Fathers and Mothers Seek Children in Vain

Plymouth, Sept. 16.—Heart-rending scenes were witnessed when survivors of the torpedoed steamer Galway Castle were landed at 7 o'clock on Thursday morning. The passengers were mostly women and children, and it is believed that whole families have been lost.

Among the survivors were little tots scarcely able to walk, crying in vain for their parents. Parents were searching in vain, dry clothing was distributed to the survivors snatched as they left the ship. Their one thought was to get news of their relatives and friends.

There seems no reason to doubt that the vessel was torpedoed without the slightest warning. The explosion occurred between the engine room and stokehold, a fact which is taken to rule out any possibility that the ship struck a mine. The explosion caused comparatively little noise, but caused the ship to lurch in a most extraordinary manner. She was damaged at the extreme bow and was bent almost clear to the upper deck and seemed likely to break in two at any moment. The inquiry over German territory. The extensive damage done has been confirmed by photographs in many cases. The German territory was definitely into the Rhine valley represents a belt in the Rhine valley approximately 300 miles in length.

Today brought the first fair weather in British front has seen for a week. The sun came out brightly and warm in morning and has been rapidly drying out the water-logged ground which it was becoming increasingly difficult for troops to operate.

RENCH CAPTURE TOWN OF VALLEY. The town of Valley in the north bank of the Aisne, east of Soissons, has been captured by the French. The French have continued their progress between the Oise and the Aisne and captured Metz-Singes.

Attacks Repeated. Paris, Sept. 15.—Three enemy counter-attacks in the region of Vaux Allions, northeast of Soissons, were repulsed last night by the French troops, says the war office announcement today. The stations and tracks at Metz-Singes and Courcelles have been attacked, as well as various enemy concentration points. Three British machines are missing.

CANADIANS TAKE CAPTURED POSTS. Recapture Advanced Positions Which Had Been Yielded—Fifty Medals to One Brigade for Gallant Conduct

With the Canadian Forces in France, Sept. 15.—(By J. P. B. Levesque, Correspondent of the Canadian Press, 3 p. m.) Dripping weather has given place to sunshine, and spirits, never drooping, have risen to the brighter skies. Intermittent local activity continues along the Canal du Nord. The German side permits of closer concentration and posts have been taken and re-taken always to our profit in the end. Two days ago the Germans took two of our small posts and established others after our men had exhausted their ammunition and withdrawn. Yesterday we re-took them all and extended our own occupation, killing and capturing several of the enemy. In no case have we left anything to the enemy but the uncertain fate of the day.

Today, a brilliant day, the corps commander presented medals to a brigade high distinguished itself in the Amiens campaign by the capture of Fouquescourt and ended up an unusually strong nest of machine guns and trenches in that district. About fifty officers and men received military medals or crosses.

The ceremony took place in the rear of the front line, and the medals, which were of the highest quality, were presented to the victors. The medals were of the highest quality, and the ceremony was a most impressive one.

THREE DELEGATIONS BEFORE THE COMMON COUNCIL

Protest Against Use of One-Man Cars

Business Men Object to Laying Rails in Molasses Storage Space—Police Union Lay Accidental Facts Before the Commissioners

This morning's meeting of the city council was one of the longest morning sessions held since the adoption of the commission form of government. Three delegations waited on the council, one representing the molasses importers, one from the street railway union and one representing the men endeavoring to form a local licensees' union. The first delegation consisted of L. G. Crosby, representing the Crosby Molasses Company; R. O. Finley, representing W. E. Hatheway & Co., Ltd.; Percy B. Evans, A. P. Peterson, representing Beal & Peters; F. B. Schofield, representing Jones & Schofield; A. H. Wetmore, representing Fudington, Wetmore, Morriss, Ltd. This delegation appeared to protest against the laying of tracks being removed from the front of Pethingue and McLeod wharves.

The second delegation, representing the Street Railway Men's Union, was composed of L. D. Kierstead, president, James B. Power, F. A. Campbell and F. M. O'Connell. They asked for a hearing against the inauguration of the one-man car system in this city.

The third delegation consisted of J. A. Barry, solicitor for the former members of the police force who are endeavoring to form a union, John Sheehan, Percy Spinary and also Straight, F. A. Campbell, vice-president of the Trades Council of this city, accompanied this delegation.

Mr. Peterson said that the harbor facilities for handling molasses were very inadequate and if the facilities at the Pethingue and McLeod wharves were taken away they did not know where they would handle it.

The harbor master said he thought the tracks should be left where they are. If the tracks were removed they would be replaced. He felt that the harbor master should be left to handle the matter as he saw fit.

In answer to Mr. Peterson, he said that the harbor master should be left to handle the matter as he saw fit. He felt that the harbor master should be left to handle the matter as he saw fit.

COOLIE LABOR PROBLEM ONE OF CHIEF QUESTIONS. Report of Military Service Act Also Before Trades and Labor Congress

Quebec, Sept. 16.—The thirty-fourth annual convention of the Trades and Labor Congress of Canada was opened this morning in the Columbus Hall with 418 delegates from all parts of the dominion in attendance. P. M. Draper, secretary-treasurer of the congress, said the principal subjects to be discussed in the convention were the coolie labor problem, which he says, is causing real concern to labor men, particularly in the maritime provinces. Resolutions will also be submitted asking for the repeal of the Military Service Act and urging the federation of all unions in Canada as a means of meeting capitalism.

Another question around which much interest centers is the fight for the present. The strongest opponent of J. C. Watters, the present holder of that office, is James Simpson, who is supported by the Toronto Trades Union. Mr. Simpson is at present in New Zealand where he is conducting a temperance campaign.

Secretary Baker in London. London, Sept. 16.—Newton D. Baker, United States secretary of war, arrived in London today from Paris.

Police and Pethingue. The police situation remained about the same today. The policemen of the strike held a meeting at one-thirty o'clock to hear the report of a delegation from the common council. A few members of the force who are joining the policemen are still reported on the force. It was explained this morning why the sergeants were not taken into the union at the common council. The union has been forced, the sergeants were at the head of the force and the union officials of the union differ a little with respect to the number of policemen left on the force. While the chief says he has twenty-one, the policemen say that he has only fourteen, including six sergeants. While the chief would make no statement regarding this, yet the policemen say that three men that were hired resigned from their duties on the following day.

The president of the union received a letter from E. R. Watson, an ex-policeman, stating that it had been removed that he had rejoined the force. He wished to state that he was a union man and in favor of all unions, and under no condition would he join the police force again under its present head, and under no condition he is a policeman and a scab himself.

SEEK COMMUTATION OF DEATH SENTENCE. Fredericton, Sept. 16.—The case of Robert Kierstead, sentenced to hang at Gagetown on September 24, for the murder of his wife, is being considered at Ottawa and his counsel, A. R. Slip, K. C., is hourly expecting a writ concerning the decision. An application was made for commutation of the sentence.

BURIED TODAY. The funeral of Mrs. Mary McIntyre took place this morning from the Mater Misericordiae Home. The body was taken to Sussex, where high mass of requiem was celebrated by Rev. J. McDermott. Interment was made at Ward's Creek.

FIGHT ON IS ANSWER TO HUNS' PEACE OFFER

London and American Press Views on Latest Offer—Austria Being Used as a Catspaw

Washington, Sept. 15.—Germany's latest peace offer advanced through Austria, it was officially stated today, best finds its answer in President Wilson's Baltimore speech delivered last April.

"Force, force to the utmost, force without stint, or limit, the righteous and triumphant force which shall make right the law of the world, and cast every selfish dominion down in the dust." That was the president's answer then and, it was reiterated today, it is his answer now. No one doubts that it is the answer of all the Allies.

New York, Sept. 15.—"Force, force to the utmost; force without stint or limit," is the slogan adopted by all the responsible New York papers this morning, in their comment on the Austrian peace proposal.

Only One London Paper. The London press comment thus far received in London indicates surprise at the action of Austria in sending the note.

The German press comment thus far received in London indicates surprise at the action of Austria in sending the note.

The Austrian note does not bring real peace any nearer," says the Daily Express. "Preliminary conditions to peace have been stated over and over again by the Allies and there is not the faintest suggestion that the Central Powers will accept any one of these conditions. They who drew the sword are scheming to save themselves from perishing by the sword. The disingenuousness of the note betrays that it was written in Wilhelmstrasse in Berlin."

Relative to the offer of peace to Belgium, the Express says: "This is another French-Litovak scheme and part of the same plan for preserving the power of the Hohenzollerns."

After referring to the sinking of the Lusitania, the Express says: "The Allied peoples will not shake hands with a man who has murdered 1,200 of their fellow-citizens. Democracy is now at the helm of the world and it is not to be trifled with. If the German people desire to save themselves from falling into the hands of the Allies, they must insist on preliminary conditions which allow us to make talk possible."

Germany Knows Them. "Our peace terms have been made abundantly clear," says the Post. "When Germany and her dependents are ready to accept them they can let us know. There will be no abatement to them. Germany must be beaten, and must recognize she is beaten. Until then her suggestions for peace conferences are not to be regarded any more than the crackling of thorns under a pot."

The Daily News says: "There is no need to ground upon which statesmen so eagerly for peace can justify the rejection of the Austrian proposal. Discussion of the possibilities of peace was dispatched by Baron Barian, the Austro-Hungarian foreign minister, on the order of Emperor Charles, so the Cologne Volks Zeitung declares."

Germany Stands Aloof. Paris, Sept. 16.—(Havas Agency)—It is reported from a Berlin semi-official source that Foreign Minister Barian's move in inviting the belligerents to a conference constituted an act binding Austria alone, says a Zurich despatch today. Germany, it is declared, took no part whatever in drawing up the note.

Manchester Guardian. Manchester, Sept. 16.—The Guardian, discussing the Austrian peace note, asks if the Central Powers would be willing to restore the countries they have overrun, reverse the Brest-Litovsk treaty, set Russia free and leave Poland, Lithuania, Finland and the Ukraine to determine their own destinies.

"These," it declares, "are among the questions which the Allied governments are entitled to ask before commencing to enter upon confidential negotiations." In the Reichstag.

An Important Conference. An important conference of leaders of the majority parties in the Reichstag was held on Sunday with reference to the Austrian peace note, say telegrams from Berlin today. It was said the deliberations would be continued today.

An Impudent Shame. London, Sept. 16.—"An Impudent Shame," is the Daily Mail's editorial head over its comment on the note, which it describes as "another form of an old German trick."

As to the offer to Belgium, the Mail says it is insulting and only "offers Belgium one more scrap of paper." "The note is absurd on the very face of it," says the Telegraph.

Berlin Paper Pessimistic. Amsterdam, Sept. 16.—The peace initiatives should have been left to the Entente Allies, according to the Tages Zeitung of Berlin, which comments on the Austrian peace note. "The fate of all previous announcements as to readiness for peace and a conciliatory spirit on the part of the Central Powers does not encourage great hopes that this offer will meet with greater success," the newspaper says. "It is naturally encountered greater skepticism on our part."

BOLSHEVIKI IN MAD STAMPEDE

Losing Confidence in the Magyar Leadership, Revolutionary Troops Retreat in Great Disorder

Vladivostok, Sept. 5.—(By the Associated Press)—A stampede of the Magyar and Bolshevik forces, subsequent to the destruction of a thousand Russians who were recruited at the point of the bayonet, is related in despatches received here from Tikhonov, on the west coast of the Ussuri River, thirty miles east of Lake Khabarovsk.

After the battle of Kneveld on Aug. 26, the Bolshevik army, estimated to number between 9,000 and 12,000 men, under command of Colonel Shovkoff, a former Russian imperial army officer, retreated across the Ussuri River in howls and in confusion and trains amid the greatest disorder. They were puzzled by the character of the attacking forces. The Magyar leaders sought to convince the Bolshevik troops that the enemy's forces were General Semenov's Cossacks disguised as Japanese and that they were to be taken to the rear. The Bolsheviks, however, already had begun to distrust the Magyar leadership and, disheartened by the severe punishment they had received at the hands of the Japanese, they refused to rally. They also were short of ammunition and provisions.

The Bolshevik retreat soon became a race toward Khabarovsk, the capital of the Russian province, about 200 miles north of Vladivostok. The effort made by German engineers to blow up the bridge over the Ussuri was foiled by the Russian engineers. An Bolshevik agent visited Khabarovsk and who returned to Tikhonov on Sept. 8, said there were only 8,000 Magyar and Bolshevik troops at the former place.

Sends Congratulations. Washington, Sept. 16.—Premier Lloyd George, on behalf of the British war cabinet, has sent a telegram to Professor Thomas G. Masaryk, president of the Czech-Slovak National Council, congratulating him on the success being done by the Czech-Slovak forces in Siberia against the Germans and Austrians.

LOCAL NEWS

Twenty-nine members of the Temple Band returned on Saturday night from St. Stephen.

H. C. Groot, general superintendent of the Atlantic division of the C. P. R., left last evening on a trip of inspection.

A baby girl about three weeks old was found at 12:30 Sunday morning on the steps of the Children's Aid Society home in Garden street.

A serious accident occurred on Saturday afternoon at Garnett Settlement, when the fourteen-year-old son of Thomas Moore was struck by an automobile.

Lemon Juice For Freckles

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

mobile and sustained painful injuries, while his brother who was with him, had a narrow escape from having both legs crushed. The boy was brought to the General Public Hospital, where it was found that he received a serious cut about one of his ears and severe laceration of the back of the head.

On Saturday night W. M. Campbell, W. C., in command of St. John Royal Searlet Chapter, accompanied by a party of chapter officers, visited Kinnear, O. L. No. 44 at Upham and conferred the Royal Searlet and chapter degrees on five candidates.

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound is Prepared For Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's ills.

Every uterine and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles. It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills. The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

#### THE BID FOR PEACE

The latest German move for peace has resolved itself into certain proposals, elsewhere outlined. They are made, it is asserted, through the Austrian Emperor. They will be definitely declined by the Allies. The Germans know our peace terms, they have been plainly enunciated by both Mr. Lloyd George and President Wilson, with the full endorsement of the other Allied powers. Those statements said, the Allies stand by.

It is characteristic of the enemy that Germany is willing and anxious for peace always when things are going badly for her, as they surely are now. It is also characteristic of the Hun's effrontery that they commit another atrocious crime at sea, even while preparing to send out the dove of peace on its mission.

Germany may choose to believe that the Allies will moderate their terms, but she may as well disabuse her mind of that idea. Peace will come when the Allies dictate it, not when Germany suggests this and that proviso.

The despatches today bring interesting comment from London and American editors on the new effort to bring the war to an end by negotiation, and the Germans will find little consolation in reading the views of the people of Allied nations as set forth in the press. Germany is receiving an even more definite and disconcerting answer on the battlefield.

#### SUGAR AND THE TEETH

Those who are reducing their consumption of sugar will perhaps be comforted by some remarks made by Dr. Harvey W. Wiley, health expert of Washington, who says—

"The sugar shortage is one of the greatest blessings that ever happened to the people of this country, and if it will have done nothing better than to teach us that we can do without sugar, the war will have paid for itself in the general health of our people, and especially of the teeth, and more teeth have been destroyed in this country by sugar than by all other means combined. You may think this is a very extravagant statement. I believe it is true. The worst enemy of the child is usually the mother, in spite of the old proverb that a boy's best friend is his mother. A mother who grants the wishes of her children when they come for sweets is an enemy of her child. I would like to be food director for a little while. I would not beg you to do this or that, but would make you do it. I would close every candy factory in this country, every single one; not only during the war, but for ever afterwards, and pass a law in every state, making it a penitentiary offence to give sugar to any child under fifteen years of age. Even with nothing else that would mean a fifty per cent improvement in the young people's teeth in this country. Sugar disintegrates foods out of which teeth are made. Sugar creates no tissue except fat. Fat is the only thing that it will make. You could not build teeth out of sugar. Nor can you build muscle, or nerve, or brain out of it. What you can do is to feed the child so much of it that he does not have room for wholesome food."

It is said of Dr. Wiley that he has a tendency to go to extremes, but he is nevertheless a recognized authority, and even if we discount his statements fifty per cent there will still be good reason for using discretion along with our sugar.

#### MR. HOOVER'S MESSAGE

Mr. Hoover says to the people of the United States:

"Upon North America falls the burden of food supply. While Canada can export 100,000,000 bushels of grain this year, the major part of the allied programme for next year falls upon us. We have also to feed our own enormous army. We can do it if we simply have the will to live with every economy and to waste nothing."

Mr. Hoover pays a high compliment to the women of the Allied countries when he says—

"The harvests in France, England and Italy are better than one could expect in the tremendous drain of man-power to the front. This is due to the women. There is no sight in the world that would appeal to the American heart as that of the literally millions of women doing all the work of getting in the harvests while their men are at work in the shops or driving back the Germans."

Every appeal to the American people since they entered the war has been heartily met, and it is wonderful to what an extent the newspapers and periodical press have kept public interest and feeling aroused, and the people keyed up to a high pitch of patriotic enthusiasm. The present danger is that the great success achieved by the Allies in the last month may create an impression that we are near the end of the war. It is as true today as it was one or two or three years ago, that we cannot afford to relax our war efforts for a moment. The enemy is not yet beaten, and we never know what complications may arise. Convinced as we may be that the war will end next year, we must act as if we anticipated a much longer struggle.

#### THE BARBARIAN WAY

##### Another Fearful Example of German Savagery

(Chatham World.)

The British soldier, it has been said, is a most difficult man to impress or depress. He takes for granted whatever comes his way. Nothing surprises him very much, least of all any new device that may be introduced to him by the German. It is "what you expect from the Boche."

The result of this attitude is that first-hand evidence of German atrocities, which is very rarely available. The eye-witness does not think that anything so natural as German cruelty is worth reporting officially. He mentions it casually perhaps to a friend, who passes it on to another, and by time it reaches the ears of those in authority the identity of the actual eye-witness is lost.

Another horrible story is added to the many with which Germany has provided the world, probably a true story; but it is "not evidence."

In some such way, no doubt, the story of what happened to a soldier in Staff Redoubt in October, 1918, went the rounds. The stretcher-bearer who took it to his friends, perhaps. The story got about. Nobody knew whether it was truth or legend. It was always somebody else who had actually seen it, never the actual narrator. And then after two years, the stretcher-bearer himself mentions the affair casually in a letter. This time the matter is taken up promptly. He is asked if he is willing to sign a statement that he saw this thing with his own eyes. He tells the story again of that unforgettable sight, and puts his name to it. And this is the story:

The 23rd Division had taken some trenches at Staff Redoubt by Thiepval. This stretcher-bearer was one who went into the trenches after they had been taken, in order to remove the wounded. There he came across something which, as he says, almost turned him sick with horror.

A German dugout. In the middle of the dugout was a chair. Tied by ropes to the chair the body of a British soldier. And the body had no hands, no ears, only one eye visible—other mutilations not to be described.

That was all. Just a young British soldier after certain Germans had finished with him.

Well, that was two years ago. One gathers that those who saw this German work, did not, after that first horror, think the matter worth reporting. It may be that in this fifth year of German self-revelation the general attitude will be much the same. It is the barbarian way—just one more example of it.

#### WHEN WILL THE WAR END?

Absolute knowledge have I none, But my aunt's washerwoman's sister's son, A policeman on his beat Say to a laborer on the street, That he had a letter just last week, Written in the finest Greek, From a Chinese coolie in Timbuctoo, Who said that the darkeys in Cuba knew Of a colored man in a Texas town Who got it straight from a circus clown, That a man in Klondike heard the news, From a gang of South American Jews, About somebody in Borneo Who heard a man who claimed to know Of a well society female fake Whose mother-in-law will undertake To prove that her husband's sister's niece Has stated in a printed piece That she has a son, who has a friend Who knows when the war is going to end.

#### CONFLICTING ADVICE

"Be careful how you burn your gas," Exclaims one cheerful soul.

"If you would warm your happy home Pray manage it with coal."

"No, no," exclaims a second soul, "Your coal you must not burn.

For to depend on gas it does Behove us all to learn."

A third from whom you seek advice Will say, with gesture grave,

"Our gas we must by no means burn, Our coal, sir, we must save."

And which is right, and which is wrong, I frankly do not know.

But on one thing you may depend, If you are wrong some cheerful friend Will yell, "I told you so!"

#### THE LYING KAISER

In his recent speech at Essen the Kaiser said:

"But to whom, after all, do we owe the victory? To the very legions of the war of starving out the German women and children? Who was it that introduced the terrible rationing into the war? It was the enemy."

"Everyone of you in the remotest corner of the farthest reaches of the earth as far as possible for you and your people and the entire civilized European world. In December, 1918, I presented the enemy public with a clear and unambiguous offer of peace in the name of the German empire and my allies. Jeers, mockery, and contempt were the answer. He, up above, knows my sense of responsibility. Repeatedly during the past month the responsible leaders of the imperial government have unambiguously wished to understand, to everyone who wished to understand, that we are at all times ready to offer the hand of peace."

#### THE ARMY HUTS

(Daily Telegraph.)

All over Canada the Knights of Columbus are now engaged in a campaign for funds for the support of the Army Huts under the direction of their military chaplain service. These huts, which are duly recognized by the army authorities, do not in any way interfere with other organizations having such agencies at the front. They supply for Catholic soldiers in the Allied armies such religious and material services as the Y. M. C. A. and other organizations provide for Protestant soldiers. The building and maintenance of these huts are not reserved for Catholics alone but are at all times open to all soldiers regardless of creed or nationality.

Here, then, is another good cause for which the support of the public may be asked with every confidence that it will be generously treated. Any agency ministering to the welfare of our soldiers in the field has a just claim upon civilians at home. St. John has contributed liberally to many good causes, but the end is not yet reached. The building of these huts is a work of this character which should be recognized. In this city and province there should be generous and vigorous co-operation in making the present appeal for funds a success.

### TRADES AND LABOR CONGRESS OPENS

Important Matters In Report of Executive Council

A GROWING MEMBERSHIP

Total at Close of 1917 Was 204,630 and in That Year 4,839 Enlisted for Active Service—Political Matters—Organization in Provinces—Wants C. P. R. Under Government Management

Quebec, Sept. 16.—The report of the executive council of the Trades and Labor Congress, which opened its annual convention here this morning, announced that, viewing the situation from both the industrial and political aspects, the organized labor movement has every reason to be proud of the last convention. The report points out that the membership of trades and labor organizations during 1917 and 1918 had more than compensated for the strenuous efforts to prevent a further slump in membership. At the close of 1917 the membership for all classes of trades unions was 204,630, and at the close of 1918 there were 4,839 trades unionists enlisted for active service. With the enforcement of conscription the total membership of the Trades and Labor Congress had every reason to be proud of the increase in the membership of the unions has given added vitality to the movement for increased wages to meet the increased cost of living. Through the Industrial Disputes Investigation Act many disputes had been settled in the interests of the workers without resort to strikes, and where strikes had been necessary in some cases, in proportion to the number of demands for higher wages the industrial disturbances had been few.

In the political field, the report continues, considerable progress has been made both in the recognition of the organized labor movement by the government and in the organization of the independent Labor party in the different provinces. Prior to the general election, it is contended in the report, the congress had every reason to be proud of the action of the government in ignoring the demands of labor and, unlike the governments of other Allied countries, no action had been taken to co-operate with the labor movement in the prosecution of many of the essential policies of the war. With the entry of the union government into power there was an immediate change in the policy and representatives of organized labor were invited to Ottawa to confer with the members of the war council and the cabinet with reference to such important questions as the conscription of labor for farm and industrial purposes, nationalization, the enforcement of the military service act, and other vital questions. There was also a noticeable change in the attitude of the Imperial Munitions Board towards the labor organizations, and the report argues that which was evident in 1917 had almost disappeared.

The most important advancement in the political field has been the carrying out of the recommendation of the Ottawa convention that the different provincial branches of the labor movement along the same lines as the British Labor party. At least seven of the provinces have already organized for definite political action.

There has been a noticeable tendency on the part of workers holding different views as to principle and tactics to emphasize the points of agreement and minimize the points of difference. This attitude has led to the uniting of trade unionists and societies, and the prospects for a strong and aggressive National Labor Party were never brighter than they are today.

Dealing with the need for a thorough organization, the report says that there are only 4,000 women in the ranks of the unionists representing in the machine and textile industries important progress has been made. The enfranchisement of women, the report argues, has made it all the more necessary that women should be organized industrially as well as politically.

The War.

In regard to the war, the executive council states that its attitude is the same as it was in 1918 when it was announced that "our quarrel is with autocracy, and not with democracy, hence our quarrel is with the German government and not with the German people."

While, however, organized labor was considering every available means of assisting the dominion in its efforts to play an honorable, patriotic and effective part in this epoch-making struggle, they must not allow the future to be obscured, nor the interests of the working classes which it holds, to be "overlooked or neglected."

The council reports that on the subject of conscription, after the verdict of the polls, it sees no object—good, bad, or indifferent, would be attained in referring to it.

The report also touches on the government ownership of railroads, approving of the acquisition of the Canadian Northern Railway and the Grand Trunk Pacific, and stating that the congress cannot be satisfied until the Canadian Pacific Railway is included in the railways under government control; demands from the government a declaration of policy on the question of ownership and control of aircraft; regrets that the government has done very little to meet the wishes of the congress with reference to the increasing of pensions of soldiers; recommends that the executive be authorized to press for amendments to the Industrial Disputes Investigation Act; urges that the committee be entrusted with the work of organizing women workers; and suggests that the fully of expecting new men can be successfully conducted in Canada without a progressive movement of technical education, be pointed out to the government.

In conclusion, the executive council expresses "particular satisfaction at this gathering in the province of Quebec, the home of our French-Canadian fellow workers, as it demonstrates the unity and universality of labor interests."

The report of President J. C. Walters on his work as parliamentary representative, states that the record of the last session of parliament, the order-in-council issued, the administration of the vari-

### COAL \$9.50 Per Ton

### And Real Genuine BROAD COVE Coal Too

The recent fire in our coal sheds forced us to sacrifice most of our stock of BROAD COVE soft coal to steam plants. We managed, however, to save about 400 tons of good lump Screened Coal. This coal has been wet and smoked, but to all intents and purposes it should be as good as ever for household use. Whatever damage it sustained is more in looks than burning qualities.

This 400 tons must be moved at once to make room for repairs to our wharves and sheds.

The regular price of Broad Cove Screened Coal is \$13.50 per ton now-a-days. The price on this lot for immediate sale, \$9.50, dumped at your door.

Terms strictly Cash with Order, and all coal must be received "dumped." Time will not permit of the delay in delivery in bags.

BROAD COVE is the soft coal so free from soot that you can burn it in the range and small heating stove—not a "self-feeder"—without fear of soot trouble so common with other soft coals.

Departments of government, together with the industrial unrest so much in evidence, all herald the approach of a new day. Mr. Waters continues: "It is not to be seen whether the new day will see civilization dead and the world of human beings thrown into a state of chaos or whether a democracy will be born, such as that of which philosophers and poets have dreamed and sung, and for which the slaves and serfs and poverty-oppressed of all the ages have hungered."

Mr. Waters' report gives a synopsis of all legislation dealt with at Ottawa during the last session of parliament and also details the part he had been called upon to play in the settlement of industrial disputes among the miners and steel workers in Nova Scotia, the moulders at Toronto and Hamilton, the moulders at the Great North Western Telegraph Company, and the letter carriers.

#### THE CROP REPORT.

The Dominion government has compiled the statistics of the crop report for this province for the year and forwarded the same to the provincial department of agriculture. These returns were obtained by sending cards through the school teachers to the farmers of the province. The replies from this source were then sent to Ottawa to be compiled, and calculations were made according to the last census of Canada. There are necessarily some errors made by the departments in arriving at the calculations, but the returns are as near as can be given out at the present time. There are over thirty thousand farmers in the province,

and less than half that number sent in replies on the cards. To be exact 18,087 were received.

The figures are as follows:

Spring wheat—Estimated acres under cultivation in province: 49,483.

Date estimates: 23,442 acres.

Barley, 6,608 acres.

Potatoes estimate 57,272 acres.

Turnips estimate 15,015 acres.

Hay estimates 740,087 acres.

The wheat estimate is given by counties as follows:—

Albert, 1,051 acres; Carleton, 7,098

acres; Charlotte, 505 acres; Gloucester, 8,985 acres; Kent, 5,408 acres; Kings, 1,407 acres; Madawaska, 2,716 acres; Northumberland, 3,862 acres; Queens, 418 acres; Restigouche, 1,929 acres; St. John, 921 acres; Sunbury, 355 acres; Victoria, 6,817 acres; Westmorland, 6,184 acres; York, 8,415 acres.

Captain Mellish also presented a resolution expressing the opinion that newspapers and others publishing the names of chaplains in war service use the English form "chaplain, the reverend," etc., and avoid using the military rank.

### LENINE AND TROTSKY DREW PAY FROM HUNS

Document Proves That Bolsheviki Leaders Were Enemy Agents—Germans Financed the Revolution

Washington, Sept. 15.—Proofs removing any doubts that Lenin and Trotsky, the Bolsheviki leaders, are paid German agents—if indeed any doubts remained—are laid before the world today by the United States government in the installment of an amazing series of official documents disclosed through the committee on public information.

Secured in Russia by American agents, these documents not only show how the German government, through its imperial bank, paid its gold to Lenin, Trotsky and their immediate associates to betray Russia into deserting her allies, but give added proofs, if any be necessary, that Germany had perfected her plan for a war of world conquest long before the assassinations at Sarajevo, which as the world now is convinced, conveniently furnished her pretext.

Not only do the disclosures prove that Lenin, Trotsky and their band are paid German agents. They show that the Bolsheviki revolution which threw Russia into such orgy of murder and excesses as the world has seldom seen, actually was arranged by the German general staff. They show how the paid agents of Germany betrayed Russia at the Brest-Litovsk "peace" conference; how German staff officers secretly have been received by the Bolsheviki as military advisors, how they have acted as spies upon the embassies of the nations with which Russia was allied or at peace, how they effectually have directed the Bolsheviki foreign, domestic and economic policy wholly in the interest of Germany and to the shame and degradation of Russia.

They show how a picked German commander was detailed "to defend" Petrograd against the German army and an extent of German intrigue and domination almost beyond the realm of imagination.

Originals of documents, photographs of originals and typewritten circulars, some of them marked "very secret" or "private" and many of them bearing the annotations of the Bolsheviki leaders themselves; some of them containing references to "Comrade Trotsky" or "Comrade Lenin."

### DEATH OF YARMOUTH MAN WHO WAS NOTED FIGURE IN STATES

(New York Times.)

Anthony Weston Dimock, for many years well known in New York city as financier, explorer, steamship owner, and author, died suddenly at his country home in Happy Valley, Catskill Mountains, near the village of Peekamoose, on Thursday. He was widely known because of diversified occupations, and because of the genius and ability he displayed in each.

Mr. Dimock was born in Yarmouth, N. S., on Aug. 27, 1842. He was graduated from Phillips Academy, Andover, Mass., in 1869, and in 1872 received the A. M. degree from Columbian University. He went to New York and began his business career, being accepted as a member of the Stock Exchange before he was twenty-one years old. He dominated the gold market of the country at the age of twenty-three, and at thirty he controlled the Bannock and other banks of the Atlantic coast and was president of the Atlantic Mail and other steamship lines. He was first a member of the firm of Marquand & Dimock, bankers and brokers, and later A. W. Dimock & Co.

At the height of his career he left New York City to seek adventure among the Indians and hunters of the West. When he returned East a few years later he took a prominent part in the development of Elizabeth, N. J., building miles of streets and several hundred dwellings, costing from \$5,000 to \$150,000 each. A gymnasium and other public buildings were constructed by him. He then went to the Palisades on the Hudson, where he spent a quarter of a million in the beautifying of his estate, upon which he built a palatial residence. After living there for several years he went to Happy Valley, which he discovered and made famous, and where he remained the rest of his life.

Mr. Dimock was the author of several books. His most recent work, "Wall Street and the Wilsons," an autobiography, was published two years ago and attracted much attention. "Florida Enchantments" and "The Book of the Tarpon" are recognized as classics of the angling art. Among his juvenile works, published in recent years, are "Dick in the Everglades," "Dick Among the Seminoles" and "Dick Among the Lumberjacks." The books were based upon incidents in his life.

He was a member of the Authors' League of America, and of the Authors' Club of New York, and the Camp Fire of America. He was twice married. His first wife was Miss Helen Weston of Elizabeth, N. J., and they were married in 1873. She died in 1901 and in 1908 he married Miss Lella B. Allen, also of Elizabeth, N. J.

Many authors, painters, sportsmen, financiers, and men of national prominence visited Mr. Dimock at his retreat, Happy Valley.

power to provide for at least one civil secretary in ecclesiastical province said that only 88,000 had been given for Sunday schools in the whole dominion, "the price of one or two impositions, which are being bought in thousands."

"It is not the extension of the church's machinery that we need," declared Bishop Richardson, of Fredericton (N. B.), but the creation of a living work. Missionaries were getting \$700, \$800 or \$900 a year, and were compelled to pay for their own travelling expenses while doing the church's work. He could not have it on his conscience to go back and ask his diocese for money for other objects while his own clergy were struggling with a poverty that was grinding them into the ground.

# Fall Fashion Opening

Truly a Remarkable Fashion Event, Arranged in Spite of Great Difficulties, But a Pleasing Occasion Full of Delightful Surprises and Assured Fall Fashion Facts

In bringing together such a comprehensive assortment of Fall apparel and accessories, we modestly claim a little more credit than usual. For, as you know, the labor situation is serious, there is a shortage of woolsens, dyestuffs are none too plentiful and there is a genuine scarcity of good apparel. But large assortments are here for your inspection and gratification. We've accomplished our avowed purpose of obtaining the best Fall merchandise the markets could afford.

May we tell you of our manufacturers' prices—briefly? They are going up almost daily and are considerably higher now than when we contracted for the great majority of our Autumn stocks. You will benefit by our foresightedness in buying early.

And so we cordially invite you to our Fall Opening, which in many respects is the most remarkable event of its nature this store has ever requested you to attend! Opening Days: TUESDAY 17th, and WEDNESDAY 18th.

### DELIGHTFULLY PLAIN ARE THE NEW SUITS

In these new suits, the straight line silhouette has reached its highest point of development. Coats are about three-quarters length. Skirts are somewhat narrower and longer than last season. Many have no trimmings—others have fur adornments. Oxford cloth, crepe, duvet du laine, duveten and velour are the favored fabrics. You're bound to like these new suits. Prices range from \$25.00 to \$15.00.

### THE NEW FALL WAISTS ARE RATHER PLAIN BUT VERY COLORFUL

The approved trimmings are beads and embroidery but these are not used lavishly. Color is the feature that makes these models striking. Navy, taupe, and ecru are favorites. Fabrics are China silk, voile, tafeta, gorgette and heavy crepe de Chine. Round and V-necks, roll and Buster Brown collars, big sleeves and novel cuffs give a pleasing variety of effects. You'll want immediate possession of several of these waists now on display. Prices range from \$4.75 to \$15.00.

### FANCY FRILLS ARE ABSENT FROM THE NEW COATS

Simple straight lines characterize these beautiful coats of velour, bolivia, suede-finished cloth, velvets, plush, silk velour and other pile fabrics. Knee to shoe-top lengths, slightly flared skirts, large collars, fur trimmings, big pockets, buttons and belts are features. You'll find that one of these new coats is a delightful necessity. Prices range from \$20.00 to \$95.00.

### THE NEW DRESSES STRONGLY FAVOR SIMPLE LINES

And they are strikingly graceful with a leaning toward youthfulness, particularly in neck designs and bell shaped sleeves. Jersey, velour, gabardine, gorgette, crepe de Chine, tricolette and taffeta are the approved fabrics. Pleats, drapes, gathers, slashes, embroidery, beads, braid and buttons give handsome trimming effects. It will be a distinct pleasure to see these garments. Prices range from \$18.50 to \$63.00.

Mr. Hoover "Citizen of Honour and Friend of the Belgian People" Pleads for the Belgian Children

Mr. Herbert Hoover, Food-Controller of the United States, has earned the title bestowed upon him by King Albert and the Belgian Government—"Citizen of Honour and Friend of the Belgian People."

The world knows what was accomplished under Hoover's administration before America's entrance into the War. In July of this year, he was in London in connection with his responsibilities as Food Controller, and took the opportunity to learn how things stood in Belgium.

So terribly serious are conditions there among the children that Mr. Hoover wrote an urgent plea, parts of which are quoted: "On May 14th, 1917, I advised you of the financial arrangement with the United States Government whereby funds were provided for the general relief of the civilian population of Belgium..."

Read between the lines of Mr. Hoover's letter to his associates, and you will realize the ever fresh tragedy of Belgium. You will see little babies, pinched with hunger, waiting in line for the bowl of soup and the two pieces of bread that form their daily ration.

TRADES AND LABOR CONGRESS OPENS

(Continued from page 4.) Addresses of welcome were tendered the delegates by Sir Lomer Gouin, on behalf of the province, Hon. L. A. Taschereau, minister of public works and labor of Quebec, Mayor Lavigneur, and M. M. Walsh, president of the Quebec Trades and Labor Council.

WOMEN'S PLACE AFTER WAR

Referring to the business that might be considered by the convention, Mr. Taschereau said that it was appropriate that the delegates would carry back to the homes the impression that the French of Quebec were above all "Canadian in sentiment."

AUSTRIA'S NOTE OF NO EFFECT IN WALL STREET

New York, Sept. 16.—(Wall Street)—In the face of the renewed peace efforts by the Central Powers, the stock market opened only steady today, supported by the readjustment of values as begun on Saturday after last week's liquidation. The effect of Austria's political move were entirely negative. U. S. Steel was unchanged to one-quarter of a point off, and other their representatives issues and the investment shares were slightly higher. A subsequent sharp break in American Sumatra Tobacco, which declined five and a half points, and a loss of two and a half points in United States Alcohol, caused the market to yield a fraction in sympathy.

"ON TRIAL," the most intensely dramatic offering offering on the stage in recent years, which swept the country with its wide appeal, makes in its production as a super-feature of motion pictures, a play unrivalled for its gripping moments. Imagine a man happily married, the father of a little daughter, accused of murdering his friend. Picture him, a prisoner at the bar of justice, hearing for the first time that his beloved wife before marriage was the dupe of the man he killed. With suspicious resting on her, he takes the stand, facing electrocution to shield her. The trial culminates under the most unexpected and unforeseen circumstances.

**GOING TO RUSSIA.**  
A cable received today from Signaller Fred N. Myles states that he has been attached to a certain battery of Canadian field artillery, exposed to the front, and was leaving for northern Russia. He went overseas with the 9th Siege Battery and now is in London awaiting sailing orders. Two other St. John boys, John Jordan and Robert McConnell, it is understood, are going to Russia with the same unit.

**CALNEK-REED.**  
A wedding of interest took place on Saturday at 4 p. m. at the home of the bride's parents, when Beatrice Lennox, eldest daughter of Mr. and Mrs. Thomas Reed, 94 Wentworth street, was united in marriage to Captain S. H. Calnek, A. M. C. The ceremony was performed by the Rev. D. J. MacPherson. After the ceremony a light luncheon was served. Dr. and Mrs. Calnek left for Montreal on a short honeymoon trip and on their return will reside at 244 Union street.

**MARRIED IN MONTREAL.**  
The marriage of Miss Beatrice Gertrude Cartie, youngest daughter of Mr. and Mrs. W. R. Cartie, to R. V. Raine, youngest son of Mr. and Mrs. J. M. Raine, of Halifax, was quietly celebrated at half-past four on Wednesday afternoon in Trinity church, Montreal. The Rev. E. C. Earp, acting rector, officiated at the ceremony. Mr. Cartie gave away the bride, who wore ivory tulle and georgette crepe, with silver trimmings, and tulle veil adorned with orange blossoms. Miss Ethel M. Lebb was her only attendant, and was gowned in peach-colored tulle with large black picture hat. The best man was J. M. Raine, brother of the bridegroom. The bridegroom's gift to the bride was a silver vanity case, and to the best man a silver cigarette case. Amongst the wedding gifts was a cabinet of silver, from the Furness-Witty Co., which the bridegroom is employed. Mr. and Mrs. Raine left for a trip to Toronto, Niagara and Buffalo, the bride traveling in a navy blue tailored suit with hat to match and cross fox fur, the gift of the bridegroom. On their return they will reside at 672 Dorchester street, Outremont.

**SUIT CASE, WELL STOCKED, WAS TOO HEAVY FOR HIM**  
**Seizure of Nine Gallons of Liqueur—Belgians Plead Guilty in the Police Court**  
Two Belgians, Joe A. Welling and Gus Bentrock, were before the police magistrate this morning on a charge of having liquor in their possession and also with bringing it into the city. Both pleaded guilty and were remanded. They were arrested yesterday by Sub-Inspectors McAlinh and Garnett in the Union station. The men were transferring their suit cases from the Montreal train to the C. G. R. as Inspector Garnett was watching them. Bentrock was carrying two suit cases and they proved to be heavy that he fell with them. By the time he got to his feet Welling came along with another suit case and the two boarded the train. The inspector let them go and after they got into the Sussex train and were seated he went up to them and asked them what they had in the suit cases. The reply was "nothing." Garnett then demanded that the suit cases be opened and a fairly up-to-date grocery met his eyes. The cases contained nine gallons of liqueur and gross of corks. The Belgians were bound for Miramichi, N. B.  
Two men were before the court on a charge of drunkenness. Both pleaded guilty and were remanded.

**GERMANS FORCED TO USE THOUSANDS OF WOMEN IN WAR AREA**  
British Headquarters in France, Sept. 15.—(Reuters)—Striking evidence of the shortage of enemy manpower is given by prisoners. They assert that men, women and boys, who had been graded for national service at home, are being brought to the back areas to replace troops along the line of communication. They assert that there already are some 15,000 women in the fourth German army alone. It is reported that boys of seventeen years are being assembled in the region of Sedan for auxiliary service.  
**CHICAGO MARKETS.**  
Chicago, Sept. 16.—Corn weakened in value today owing chiefly to an embargo on shipments of grain to Kansas City, St. Louis and Omaha. The embargo was expected to increase the movement to Chicago, now the sole big centre that has not suffered from congestion. Peace talk tended to emphasize bearish sentiment, but only in a minor degree. Opening prices, which varied from unchanged figures to 7-8 lower, with October 1.92-8-4 to 1.92-8-4, November 1.49-4-4 to 1.49-8-4, were followed by a material setback all around.  
Oats displayed comparative strength. Recent buying for government and export interests was the main basis. After opening unchanged to 8-1 cent higher, the market reacted somewhat with corn.  
Provisions lacked support. Weakness of corn more than offset the firm tone of the hog market.

**AIR RAID ON PARIS.**  
Paris, Sept. 16.—Several enemy aerial squadrons flew over the region of Paris this morning. They were subjected to a heavy anti-aircraft fire, but succeeded in dropping some bombs. There were a few victims and some material damage. The alarm was sounded at 1:25 and the "all clear" signal was given at 3 o'clock.

**SUDDEN DEAD**  
**OF W. H. BARNABY**  
Passed Away During Night At Country Home at Acamaac  
City Shocked By News of Passing Away of Prominent Citizen—Had Long Business Career and Took Keen Interest in Public Affairs  
News of the death of W. Hasen Barnaby at his country place on the Acamaac shore, a few miles from the city, at an early hour this morning was a shock alike to his immediate family, his former business associates and the community at large.  
Mr. Barnaby retired in his usual health last evening, arose early and went to his study, and when members of the household found him he was dead. Mr. Barnaby made no outcry and there was no thought of his being other than in his usual condition of health.  
When his son-in-law, Dr. J. H. Allingham of Millville, was hastily summoned it was found that heart trouble had instantaneously caused death. Naturally the household was overwhelmed with the loss, so sudden and so severe. Preparations were made to have the body brought to the city, where the home of the deceased is on the corner of Princess and Carmarthen streets was re-opened.  
Mr. Barnaby, a very prominent citizen, leaves his wife, daughter of the late Wesley Thompson, and sister of Alexander Thompson and Mrs. John H. Thompson, one son and three daughters. The son is Capt. Hasen O. Barnaby, a staff officer in England with the Royal Flying Corps, and a veteran in the big light in various campaigns. Mrs. Winifred White, wife of Col. M. F. White, prominently engaged with the British army's campaign in Palestine, and Mrs. Nan Ryder, wife of Major T. Escott Ryder, who has been nearly four years in the expert artillery section of the Canadian forces, and who has been promoted during his absence, are daughters. Major Ryder is manager of the Canadian Fairbanks Morse Corporation. A third daughter is Marguerite, wife of Dr. H. H. Allingham of Lancaster. There are two grandsons, the son of Col. and Mrs. White, who have been members of their grandparents' household along with their mother while the war has been on. Mrs. Ryder has also been staying at her home. Mr. Barnaby's sister is Mrs. Robertson, widow of T. Nesbit Robertson. He leaves no brothers.  
St. John has possessed few men in its commercial career, who more sturdily and enthusiastically forwarded the interests of the city and port than did Mr. Barnaby. He was willing at all times with word, work or purse to aid good causes and progressive movements. A few years ago when the public became nervous over the steadily mounting cost of civic administration, Mr. Barnaby accepted the chairmanship of a representative committee to investigate and find some means of changing matters.  
Out of this stringing up of public interest, the present commission form of city administration came and was crystallized into action also under the chairmanship of Mr. Barnaby.  
Consistently Liberal in his federal and provincial political views, the late Mr. Barnaby was a candidate for broad-minded and really belonged to, what some are pleased to call, the old-fashioned school of unflinching and honest outspokenness. Mr. Barnaby was an exacting business man, but invariably kind and disposed to those of his staff with whom he came in contact.  
Soon after his retirement from the corporation interests of Manchester, Robertson, Allison, Ltd., in which he was a manager, treasurer and director, Mr. Barnaby accepted a candidature for the local legislature under the banner of Hon. Walter E. Foster, but failed to win his seat. It can be very truthfully said of Mr. Barnaby that he entered the political arena in a frank spirit of public service, for, had he considered his private affairs and inclinations, he would have escaped the excitement and vigors of a campaign.  
Late in January, 1917, Mr. Barnaby retired from the corporation of M. R. A., Ltd., after forty-eight years of continuous service, fifteen of which had been as a member of the firm. In that long period, Manchester, Robertson, Allison, Ltd., grew from a modest dry goods business to a departmental establishment of wide ramifications, both wholesale and retail. Much of the success of the firm, afterwards the stock company, was due to Mr. Barnaby's keen judgment and exceptional grasp of finance and knowledge of the financial resources of those with whom his firm had dealings. In a word he was generally considered one of St. John's outstanding figures, as a "safe, sane, financial man," a term used with great deal in banking circles. It was one of Mr. Barnaby's special characteristics to have personal acquaintanceship with the many wholesale customers of his firm, and to have a fund of knowledge.  
Mr. Barnaby was a man who delighted greatly in the sweetness of his home life with his children and his grandchildren. His tastes were simple and his chief recreations, just a few days ago he told some friends that he was feeling very well indeed, and had been enjoying his summer at Acamaac immensely.

**KNIGHTS' DRIVE ON**  
Cheerful Announcement Made By C. A. Owens at Noon  
The Knights of Columbus' drive for \$25,000 in St. John for Catholic army units, is on, and some cheering reports were made by collectors in the early hours today. Knights and members of the Rotary Club, who are assisting them, were today calling on the business men. Charles A. Owens, who is organizer and manager of the drive in New Brunswick, at noon met the collectors who were calling on the business men today were meeting with a great reception and there was a general feeling of commendation for the Knights in the effort they were putting forward in the interests of all the soldiers. Some very generous subscriptions were being received. At time of speaking, he said, the lists were not in order for publication, but the names of contributors will be published later. The collectors will make returns of the first day at the Knights' headquarters this evening.

**OAK HALL**

**SPECIAL** **SPECIAL**  
On Tuesday, Sept. 17, we are going to offer fifty of these Casseroles, exactly as illustrated, at \$1.99 each, far below the usual price. The dish is round and measures 8 inches across, a convenient size for the average family. It is made from brown and whiteware, brown outside and white-glazed inside, and the heat of the oven will not crack it. The special advantage is that the dish is also used for serving, and is taken directly from the oven, placed in the bright plated metal holder and is ready for the table.  
We have only fifty of these, and will sell them only on the one day. If you secure one, you will wonder how you ever got along without it. If you don't, you will wonder how you came to miss such a snap.
