## LIVELY BRUSH IN THE HOUSE LAST NIGHT

Hon. Mr. Baxter and Hon. Mr. Tweeddale Exchange Compliments.

## THE ST. JOHN MAN HAD BETTER OF EXCHANGE

Hon. Mr. Veniot Did Not Take Up Challenge of Hon. B. F. Smith.

(By George McDade).  
Special to The Standard.  
Fredericton, June 21.—A lively brush between Hon. Mr. Baxter and Hon. Mr. Tweeddale, in which the minister of agriculture came out second best, enlivened the proceedings in the house tonight. The measure before the house in committee was the government bill to amend the act dealing with the protection of sheep from dogs.

Hon. Mr. Baxter intimated that the county council was already authorized on the petition of ratepayers to take the necessary steps and asked if the council had ever refused to act in the matter.  
Hon. Mr. Tweeddale said he did not know whether the council had or not, but he was sure that he would not be asked why the bill had not been presented earlier.

For Political Effect.  
The minister's remarks were for political effect. Hon. Mr. Baxter said that it was not that he desired to expedite the business of the house but that he wanted to see the bill passed. He would not forget that the bill was not one which could not have been introduced earlier in the session and if the administration had a minister of agriculture who was capable of it would have been introduced. If he had less wind and more weight he would get along much better, said Hon. Mr. Baxter referring to the minister.

Mr. Michael said that there had been difficulty in getting the by-law passed by the council as objection had been taken by those opposed to drastic action in dealing with the matter.  
"That's what I wanted to know," said Hon. Mr. Baxter, "and if my honorable friend from Madawaska occupied the chair of the minister I think this house would be much better off."

Messrs. B. F. Smith and Veniot.  
Members were anticipating an interesting debate between Hon. Mr. Veniot and Hon. Mr. Smith of Carleton regarding public works affairs. The minister had intimated last night that he intended to discuss several matters appertaining to what he styled the business methods of his predecessors and Hon. Mr. Smith of Carleton was ahead, but the estimates for roads and bridges were stood over until today.

Both Hon. Mr. Veniot and Hon. Mr. Smith are excellent speakers and the house looked for an interesting debate, but when the estimates for roads and bridges came up tonight Hon. Mr. Veniot allowed them to pass without saying a word as regards the administration of the department under his predecessors. Probably Hon. Mr. Veniot realizes that the conduct of the department under Hon. Mr. Smith was both systematic and economical. Certainly no minister did more in the interests of the province than the senior member for Carleton during the time he presided over the affairs of the department.

His road policy alone is enough to stamp him as one of the ablest of the department in the history of the province.  
City and Food Supplies.  
Referring to the act passed by the legislature, giving cities and municipalities the right to deal in food supplies, etc., and fixing a limit of \$50,000 to be used for this purpose in St. John, Mayor Hayes says no steps have yet been taken to take advantage of the new act. So far no requests have been received for a special civic action in the matter and no complaints have been registered regarding lack of food supplies or prices charged.

Freemasons Church Parade.  
The Freemasons of the city are to attend service on Sunday afternoon at St. Paul's (Valley) church. The craft will meet at Freemasons' Hall at 2:30 and the Temple of Honor Band will be in attendance. The service will be conducted by the Grand Chaplain, Archdeacon Crowfoot.

## FRED F. PARDEE OPPOSES LAURIER'S AMENDMENT TO CONSCRIPTION MEASURE

Another Leading Ontario Liberal Regretfully Announces in House of Commons that He is Obligated to Dissent from His Chief's Ideas and Will Support Government Compulsion Bill.

## QUEBEC LIBERAL MEMBER THREATENS CIVIL WAR IF MEASURE ENFORCED

L. P. Gauthier of St. Hyacinthe Creates Sensation in Commons—What Will Dr. Pugsley Do?—More Liberal Deflections Expected—Debate to Close Soon.

(By ALFRED E. MCGINLEY.)  
Ottawa, June 21, (Special to The Standard).—Two Liberals definitely broke with their party and their leader today. Fred F. Pardee, for years chief Liberal whip and one of the most influential men in the party in Ontario, came to the front early in the afternoon with the statement that he could not support the Liberal party or Sir Wilfrid Laurier in their opposition to the conscription measure. Mr. McCraney of Saskatchewan tonight declared strongly for the government measure.

Mr. Pardee's defection, following as it did, close on the heels of a similar break by Mr. Hugh Guthrie, is the political sensation of the hour. It is safe to say that never before in the history of Canada has a political party leader suffered the loss of two so influential and powerful supporters in a single week. That others will follow the lead set for them is certain. It was never supposed that Ontario or Western Liberals would see eye to eye with their chief on this measure, their interest in the war and in the success of our boys at the front being too deep, too vital, to permit the beam of partisanship to blind their eyes to the danger of that sort. If such a danger menaced Sir Wilfrid would have been ready to meet it. Hon. Mr. Meighen pointed out that the only reason Canada was not in danger of an invasion was that the operations in France and Flanders rendered it impossible. That being the case it was the right and duty of the government to send troops to the spot on which that danger was being combated, and that was on the battlefields of France.

Hon. Charles Murphy.  
Hon. Charles Murphy followed. He took the Liberal side of the argument and announced that he would support the Laurier amendment. "This was expected. After recess J. A. M. Armstrong, Conservative of North York, took up the discussion. He was eloquent and handled his subject well. One particularly striking phrase in his speech had to do with the Laurier argument that the compulsory measure was unconstitutional. On this point Mr. Armstrong said "I do not care a straw whether it is constitutional or not. I would puncture the constitution in a dozen places if by so doing I could assist the boys at the front."

Gauthier War Like.  
L. P. Gauthier, Liberal of St. Hyacinthe, followed and created something of a sensation. Practically predicting that if conscription was enforced it would be resisted by Quebec even to the length of civil war, he made an impassioned speech and when he had concluded walked out of the chamber. He was received with applause by the French-Canadian Liberals, but Sir Wilfrid Laurier sat silent and did not repudiate him. Mr. Gauthier was dramatic in his presentation of the case from the Quebec viewpoint and his peroration was of a tone fortunately not often heard here. After declaring upon the alleged injustice of the measure he concluded with these words:

"This is the most solemn moment of my life. It may be the last opportunity I will have to address the House of Commons of my country. I say to the government if you press the passage of this bill my people, declaring that they will use the very bill itself to fight it out. We acknowledge that in this fight there will be suffering, there will be pain, we may have to go to the direct consequences. If you impose on my people such legislation they are prepared to go to the limit, and I tell you, sir, that I believe they will be right and I will do as they will do."

Mr. Burnham Approves.  
J. H. Burnham, of Peterboro, who followed approval of the bill. If there was to be any sort of appeal to the people he favored a general election rather than a referendum proposal of Sir Wilfrid Laurier.  
The tendency of the debate is in the direction of shorter speeches. None of the gentlemen who spoke today occupied more than an hour. It is expected that Monday may see the end of it. In fact in would not be altogether surprising if a vote should

## ST. HYACINTHE GRIOT WANTS REBELLION

L. P. Gauthier Makes Seditious Announcement in Commons.

## LAURIER FAILS TO REPUDIATE REMARKS

Fiery Portion of Gauthier's Speech May Be Expurgated.

Special to The Standard.  
Ottawa, June 21.—Civil war was threatened in the Commons this evening. Rebellion was promised if the conscription bill is enforced in the province of Quebec. Mr. L. P. Gauthier of St. Hyacinthe, one of the most prominent French-Canadian Liberals, made the statement that if the legislation is imposed his people would go to the limit, and he would support them.  
Sir Wilfrid Laurier was in the house when Mr. Gauthier made his seditious announcement, and did not repudiate the threats of revolt. He had a conference with Mr. Gauthier afterwards, and it was rumored that portion of the speech which contained the threats would be eliminated from the parliamentary record, but inquiry at the House office at a late hour showed that no effort had been made in that direction by the Liberal leader or by Mr. Gauthier himself.

Will Lose Votes.  
The incident has had a marked effect upon the attitude of some of the English-speaking Liberals regarding the conscription bill and it is expected that as a result some who have been wavering will now support the bill. Three Liberals have formally announced in the house their support of conscription. F. F. Pardee, the chief Liberal whip, Hugh Guthrie, of South Wellington, and George E. M. Craney, of Saskatchewan. They are three of the most prominent men in parliament, and their support is of great value.

## THE BRITISH FORCES REPEL THE ENEMY SOUTH OF THE BAPAUME-CAMBRAI ROAD

French Make Several Important Advances in the Champagne District and Gain Advantage East of Vauxaillon—Enemy Still Hold One Salient, However.

## STEWART LYON REPORTS ENEMY NERVOUS ON CANADIAN FRONT

Enemy's Artillery Active During Yesterday South and North of Scarpe River—Germans Direct "Hurricane Barrage" at Canadians.

London, June 21.—The British official communication issued this evening says:  
"Hostile raiding parties were repulsed by our fire last night south of the Bapaume-Cambrai road, east of Laventie and in the neighborhood of Lombaertzyde. Another party of the enemy succeeded in entering one of our front line positions near Lombaertzyde, but at once was driven out. A few of our men are missing.  
"The enemy's artillery was active during today south and north of the Scarpe river."  
Enemy Nervous.  
Canadian Headquarters in France, via London, June 21.—(By Stewart Lyon, special correspondent of the Canadian Press)—The enemy is very nervous along the western front. The slightest sign of an abnormal movement on the part of the British or Canadian troops brings down what the official report characterizes as "hurricane barrages," the enemy depending chiefly upon his guns for the holding of the line. To counteract this our heavy artillery is taking on daily for destruction several of the enemy's more aggressive batteries.

Paris, June 21.—The official communication issued by the war office tonight reads:  
"In the course of the day fighting was continued on our advantage east of Vauxaillon. A counter-attack by our troops in a trench section occupied by the enemy in the sector of the Scarpe river gave important results. At this hour we have retaken all of our positions, with the exception of a salient situated 400 metres north-east of this farm, where enemy groups are still maintaining themselves.  
"The artillery action remains very lively in this region. Between Hurtebise and Craonne our first lines were quite violently bombarded.  
"In Champagne the advances made this morning by our troops northeast of Mont Carnillet was accomplished under particularly brilliant conditions. A German attempt to recapture positions which we had taken from them on the 18th between Mont Carnillet and Mont Blond was repulsed by our grenadiers, who taking the offensive in their turn, pushed the enemy detachments into their own trenches which they captured. We made also an advance of 300 metres in depth of an extent of 600 metres. About 100 Germans, dead remained on the ground."  
The late board of directors had retired the president, Mr. Sumner, had furnished him with a very full report on the work. The report of the engineer stated that it would cost in round figures \$1,000,000 to complete the work, now under contract. Against this the company should have available according to Auditor Williams, \$168,884 subsidy due on the Gagetown-Centreville section, \$256,000 subsidy due on Gagetown-Westfield section, and \$2,600 in the hands of the Prudential Trust Company, making a total of \$447,484. There were some right of way claims to be arbitrated. The average force employed during the month according to the engineer was 430 men, 32 teams, 9 steam shovels, 4 locomotives and 5 donkey engines. The engineer had reported that great difficulty had been experienced in securing the necessary rails for the main line owing to officials of the government railway being unable to carry out their agreement to furnish the same.

Prudential Trust Co.  
Hon. Mr. Baxter wanted to know why the moneys in the hands of the Prudential Trust Company were not used for construction work. The company had taken the stand that under the mortgage they were the trustees of the money and it could only be drawn as the work progressed. The late government had contended that it could withdraw the money as it deemed necessary and that the road would be ample security for the bondholders. He thought it would be a sinking fund when it should go into construction work and would not be carrying out the agreement with the bondholders.  
Hon. Mr. Foster said that the company could not depend upon the Prudential Trust Company to supply the money to go on with the work. They thought it better to make a bond issue and use the money as a sinking fund as it came in.  
Hon. Mr. Baxter said that he did not think the Prudential Trust Company should be given any loop hole. He had found that they had resorted to the most devious obstruction in order to avoid carrying out their agreement. As attorney general he had experienced a great deal of difficulty in trying to get decent treatment from these people.

## VALLEY RY. LEGISLATION IS ADOPTED

Evening Session of Legislature Clears Up Considerable Business—Theatre Tax Bill Still Pending.

Fredericton, June 21.—The committee resumed at 8 o'clock and went into consideration of a bill to amend the general mining act.  
Hon. Mr. Robinson explained that the bill had been framed to assist the owners of a tungsten mine in York county to construct a road through the wood to their property. The bill was agreed to.  
Hon. Mr. Byrne introduced a bill to amend the schools act which on the grounds of urgency was read a second time. He explained that the bill was an amalgamation of three bills promoted by the cities of St. John, Moncton and Fredericton, all of which had been through the committee stage of the House. He asked that the order for third reading of those bills be discharged.

The Valley Railway.  
The House again went into committee with Mr. Leger (West) in the chair, and took up consideration of a bill respecting the St. John and Quebec Railway Company.  
Hon. Mr. Foster said that as the building of the St. John and Quebec Railway was the greatest undertaking in which the province had ever engaged a brief statement from him in regard to the present condition of affairs might be in order. He regretted that he was not able to speak from a personal inspection of the construction work but had before him a report

Has Narrow Margin in Vote on Valley Railway Affairs.  
HOUSE PUTS THROUGH MUCH BUSINESS  
Mr. Tilley Favors Free Beds at the Jordan Sanitarium.

Special to The Standard.  
Fredericton, June 21.—The House put through considerable business today, the members on both sides showing a desire to expedite matters with a view of reaching prorogation either tomorrow or Saturday.  
Some rather important government legislation has been brought down into the dying hours of the session but with the absolutely necessary legislation the opposition offered no objection. However, Messrs. Potts and Campbell of St. John did take the ground that the government should have printed copies of the measures and distribute them among the members, a view shared by Mr. Smith of Charlotte. Mr. Potts has asked for the Speaker's ruling as to whether the suspension of rules requires the unanimous consent of the House.  
To Fund \$700,000.  
A government measure providing for the funding of \$700,000 to provide for alleged over-expenditure in late administration was introduced today, but was stood over until next session. Hon. Mr. Murray and Hon. Mr. Baxter in able addresses strongly pointed out that there has been no over-expenditure under the late government and that the legislation was unnecessary. The amount of the alleged over-expenditure is, however, the capital account at the present time or it is owing to creditors of the province. As the late government, after paying all accounts had a comfortable balance, there can be no creditors and therefore it is only logical that if there was an over expenditure which is positively not the case the amount is already included in capital account. Hon. Mr. Robinson said today that it was not an over expenditure but the members might call it an over expenditure for convenience. Hon. Mr. Foster referred to the matter as only a change in the system of bookkeeping.  
Jordan Sanitarium  
Mr. Tilley in an able address in the House in committee on supply cases pointed out strongly in favor of the principle of free beds at the Jordan Memorial Sanitarium for tuberculosis patients. It was pointed out that the funds of the province would be permitted of such a departure, but Hon. Mr. Murray said that as soon as the year had been concluded conditions would be such as to enable this matter to be taken up. The leader of the opposition and Hon. Mr. Robinson in short addresses referred to the important work being carried on at that institution, while Mr. Carson took occasion to refer to the success of the work at the St. John County Hospital, an institution established during his term as warden of the municipality.  
Valley Railway.  
There was a division tonight on the bill in addition to the act respecting the St. John and Quebec Railway Company.  
The government had embodied unnecessary sections in the act to provide for the cancellation of contracts with the contractors. As that power already exists in the contract with the construction of the road, these provisions were unnecessary. The government's majority on the division was only four. The impropriety of some features of the legislation was pointed out by Hon. Mr. Baxter, but the ex-attorney general said that if the government was prepared to take the responsibility for these phases of the bill it would be futile to further discuss it.  
The House was in session until after midnight and will resume at 11 a. m. on Friday.  
Brown-Dalling.  
A quiet wedding took place at the home of the officiating clergyman, Rev. S. H. Culp, 4 Queen street, when he united in marriage Miss Elizabeth Theresa Dalling and Haliburton B. Brown. They were attended by Miss Marion Thomas and Thomas Dalling. The happy couple will make their home in the city.

# EARLY RESUMPTION OF OPERATIONS EXPECTED

## LEGISLATURE RUSHING ITS BUSINESS THROUGH

**Mr. Potts and Dr. Campbell Protest—Bill to Prevent Hospitals Being Imposed On—Early Closing Movement Endorsed—Other Matters Discussed.**

(From Official Report.)

**Federicton, June 21.**—Hon. Mr. Foster introduced a bill to amend the New Brunswick Companies act of 1916 which relates to the deposit of bonds by companies as guaranties. He also introduced a bill to amend the theatres and cinematographs act which provides the imposition of a tax of 1 cent per ticket of admission where the price of such ticket is not more than 25 cents and 2 cents up to 50 cents. On the ground of urgency, Hon. Mr. Foster moved that the bills be read a second time. Mr. Potts said as usual the bills of the most interest and importance were delayed until the dying hours of the session. There were some things in the nature of entertainments which should pay a good revenue such as a circus or a carnival but the moving picture shows were essentially a working man's amusement and should certainly not be taxed. It was not as though the proposed tax would come out of the pockets of the proprietors. It was a direct tax upon the people who attended the shows. He had no doubt that the government felt the need of more revenue but why not go to some source that could afford more taxes, such as the crown lands. He thought the bill was neither fair nor reasonable and he wished to go on record as being strongly opposed to it.

**The Valley Railway.**  
Hon. Mr. Foster introduced a bill relating to the St. John and Quebec Railway. He explained that the bill was to enable the company to get some rails. The I. C. R. had promised some time ago to supply the rails but owing to the demand from Europe for rails they have not been able to spare any more. There was a twenty mile stretch of road belonging to the N. B. and Seaboard railway which was not now in use and it was proposed to borrow the rails from that to go on with. On the ground of urgency he moved that the bill be read the second time.  
Mr. Campbell rose to protest. He did not approve of having bills rushed through the house in the way the

premier was attempting to do. Not one of the three bills introduced that afternoon had been either printed or circulated and he thought members ought to have a chance of seeing what they contained before second reading.  
Hon. Mr. Baxter said that the subject matters of the bills referred to were simple and non-contentious. In the case of the St. John Valley Railway bill he hoped to see no delay for the reason that every day construction was delayed meant added loss to the province.  
Mr. Potts said he wished to see the rules of the house complied with. Mr. Campbell could see no reason for the usual course being departed from.  
Hon. Mr. Foster said the course he was asking the house to take was one that was adopted every session by every government. There had been unavoidable delay in getting these bills brought down and no harm would come by passing second readings.

**Upholds Premier.**  
Hon. Mr. Murray (Kings) said the course proposed by the premier was the usual one and in no way interfered with the rights of members to criticize but unless they were going to relax the rules members must make up their minds to come back next week.  
Ultimately Messrs Campbell and Potts withdrew their opposition, but the latter asked for Mr. Speaker's ruling as to whether the point that he (Potts) had taken was not correct.

**Minister of Lands and Mines.**  
Hon. Mr. Smith introduced a bill respecting the crown timber lands of the province which provided for the expenses of the crown land survey on the ground of urgency the bill was read the second time.  
Hon. Mr. Tweeddale introduced a bill to amend Cap. 97 C. S. 1903 respecting the protection of sheep from dogs. He said the time had now arrived when the farmers of N. B. had to choose which they would keep sheep or dogs.  
The Farmers and Dairymen's As-

sociation and the Agricultural committee had asked for some legislation which would protect the sheep. There was a law already but it was optional with the municipal council to enforce it and as a rule they did not. The present bill was to make it compulsory on the council when demanded by twenty-five ratepayers.  
Hon. Mr. Byrne introduced a bill to amend the act relating to the court of divorce and matrimonial causes.  
Hon. Mr. Robinson laid on the table of the house the report of Price, Waterhouse and Co., on the public accounts.

**Debt of Province.**  
Hon. Mr. Robinson introduced a bill to permit of the finding of the floating debt of the province. He said that the report of the auditors recommended a change in the bookkeeping system and before commencing this it was necessary to clear up the position. According to the report there was \$700,000 over expended on current account up to the end of the last fiscal year. It was proposed to fund this investing the crown lands sinking funds in it.  
Hon. Mr. Murray (Kings) said he was not quite clear as to the situation.

His Hon. friend had described it as an over expenditure but yet not an over expenditure. Did he mean to say that there was that much shortage in last year's accounts? Hon. Mr. Robinson said he had explained that it was the accumulation of several years and the particulars were all detailed in the report.  
Hon. Mr. Murray (Kings) said he could not appreciate the importance of the report until he had had time to thoroughly read and consider it. He would like to know if the matter of funding the debt could not stand over. The matter was one of considerable importance to himself and his party. Hon. Mr. Foster said he would be perfectly willing for the matter to stand over until next session and the bill was withdrawn. Hon. Mr. Foster presented the report of the Belgian relief committee.

**Minister of Lands and Mines.**  
Hon. Mr. Smith introduced a bill to amend the general mining act which increases the royalties on coal from 10 cents to 15 cents.  
Hon. Mr. Murray (Kings) asked for leave of absence for Mr. Jones until the end of the session on account of illness which was granted.

**St. John Hospital.**  
The house went into committee with Mr. Young in the chair and took up the consideration of the bill relating to the payment of fees for the maintenance of patients unable to pay for board and treatment at the St. John public hospital. This was introduced as a private bill but its provisions have been incorporated in a general bill to apply to all public hospitals in the province. It empowers the governing bodies of hospitals to collect

## ENTENTE ALLIES PREPARING FOR IMPORTANT FIGHTING

**Situation More or Less Obscure—Heavy Artillery Fire—French Recapture Part of Lost Positions.**

Indications point to an early resumption of operations on a grand scale in Belgium and France, if, indeed, they have not already begun in Flanders and Champagne. A significant statement in the latest Berlin official communication says that in Flanders and Champagne, "the fighting activity has been revived at several points."  
Aside from this there is no information as to the exact status of affairs in Champagne the Germans have made an attempt to recapture positions between Mont Blood and Mont Carnille taken by the French Monday, but met with repulse, suffering heavy casualties.

from the towns, cities and municipalities fees for the support and treatment of patients when such patients themselves are unable to pay for the same. The municipalities where such patients had a settlement can in turn collect the amount from their property or income by due process of law and if it cannot be recovered in that way the amount may be assessed as a tax upon municipalities.

Mr. Hetherington said that some persons suffering from incurable diseases made a practice of visiting different hospitals and often became a nuisance. He thought their case should be dealt with by the bill.  
Hon. Mr. Baxter submitted an amendment which he thought would meet the case. It requires the governing body of a hospital to notify other hospitals of the discharge of patients suffering from incurable diseases and if after receiving such notification any patient is admitted to a hospital payment for board and treatment cannot be recovered from a municipality. The bill was agreed to.

Hon. Mr. Foster moved that the order for the third reading of the bill to refund the public debt be discharged and the bill be referred back to the committee of the whole house for an amendment.

**Early Closing of Shops.**  
The house again went into committee with Mr. Leger in the chair and took up consideration of the bill relating to the early closing of shops. This bill provides that where three-fourths of the people engaged in any particular line of business petition a city or town council, the council shall require

ties. To the northwest around Craonne, heavy artillery duels are being fought.  
The situation in Flanders is even more obscure, as neither the British nor French statement tends to clarify the French report of the extent of hostilities. Artillery duels of great intensity are known to have been in progress between the Boesinge and Frelinghien and in the regions of Steenstraet and Hetsas, while to the south in France, in the neighborhood of Bapaume-Cambri road, the British troops have resumed their trench raiding operation, destroying German dugouts and taking prisoners.

that during the whole or part of the year the stores shall be closed from six o'clock p.m. till five o'clock a.m. on each week day except Saturdays. This provision will not apply to municipalities. Stores are not to be closed on evenings preceding public holidays or during the last three weeks of December or the first two weeks of January. The provision of the act will not apply to persons who close their stores at one o'clock on Saturday afternoon. Violations of the act are punishable by a penalty of not less than \$10 or more than \$40. The bill was agreed to.

**The Stumpage.**  
The committee next took up consideration of the bill to facilitate the collection of stumpage.  
Mr. Peck said that as far as lumber cut on crown land was concerned the government kept a record, but as to the lumber cut on private lands the only account as to quantity they could get was the bill from the mill which did the sawing.

Hon. Mr. Smith, minister of lands and mines, said that if the lumbermen purchased logs they were entitled to presume they were cut of granted lands.  
Mr. Pinder could not see what the government wanted this information for. It was quite enough for them to know what lumber was cut off their ground without troubling as to what operators cut off their own private lands. The government ought to know

from their own scales what the cut of the crown lands was, and if at the present time there were no men competent enough in their employ to get the information they had better make a change and get someone who did.  
Hon. Mr. Baxter said he was thoroughly in sympathy with the department in wanting all the information possible, but it seemed to him to be rather useless to attempt to get at the cut for the previous year owing to the fact that there were very few men who kept proper records. He thought the department should prepare a form to be sent out to the lumbermen with instructions as to how it should be filled up.  
Hon. Mr. Smith, the minister of lands, said he thought that ninety per cent. of the lumbermen could say

## ANOTHER BREAK IN THE RANKS.

Surely by this time Sir Wilfrid Laurier must realize that he no longer leads a united Liberal party. A few days ago Mr. Hugh Guthrie, stalwart of the stalwarts, who during his whole long parliamentary career has been an ardent follower of "The White Plume" and who would have become Minister of Justice if the Laurier party had been returned in 1911, announced that he could not follow his leader in the opposition to the conscription measure.

Yesterday, Mr. Fred Pardee, Sir Wilfrid's confidant and friend, chief whip of the Liberal party, who was so close to his leader that at Laurier's request, he conducted the coalition negotiations with Hon. N. W. Rowell, of Ontario, when there was a possibility that the two parties might come together in a war administration, came out openly in opposition to Laurier on the conscription issue.

These things are significant, in that they illustrate the trend of opinion in this country. They show that English Liberals, men who place the welfare of the country ahead of any political allegiance, have come to the conclusion that Sir Wilfrid Laurier is not a safe pilot for the Canadian ship. Even in opposition he is an unwise counsellor as he opposed the conscription measure for no other reason than to please the Marquis, the Bourassas, the Lavergnes and the Lemieux of Quebec. That is not the sort of leader English Liberals are prepared to trust in the time of national crisis. Sir Wilfrid's power has been waning since his defeat in 1911, but it is difficult to imagine any two incidents happening in the same week which would combine to strike a greater blow at his prestige than the defection of his prospective ministers of Justice and his chief whip. The Liberal ship is rapidly sinking beneath the feet of the tall, spare, white-haired figure who stands unsteadily upon the bridge.

## WAR AND WALTHAM.

The Guaranty Trust Company of New York has recently copyrighted a small brochure under the title of "Mobilizing Money for War" which in a popular manner explains to the people of the United States the relation of the nation's wealth to the winning of the war. It also indicates the duty of the individual citizen to assist their country at this time by a mobilization of their wealth. The purpose of this pamphlet is distinctly educational we are informed and as a result of this propaganda the ensuing months will witness, undoubtedly, a vast transfer of the wealth of the individual to the national exchequer through the purchase of such government securities as are offered for the raising of war funds.

In the course of this document some interesting facts are revealed as to the wealth of America and the manner of its investment. For example we are told that in the United States "less than one-fifth of one per cent. of the people own bonds, and only a fraction of these are holders of government securities, while in both France and England, more than eleven per cent. of the people have helped individually to finance the countries in performing their part in the present war."

Since this publication was circulated in a vast sum of some seven billions of dollars authorized by the United States as a first mobilization of the wealth of the country has met with a most encouraging reception. This was to be expected. The people of the United States have always rallied to the side of their government in any time of national crisis. It will be recalled that during the period of the Spanish-American war the mobilization of the money of the nation was accomplished with marvellous rapidity. "A government bond issue," we are reminded, "for \$200,000,000 at three per cent, was offered at par and was nearly eight times over-subscribed, and so popular was this loan that it went to a premium of six per cent. within three months, and rose in the following year to 110%." Yet there were only 320,000 subscribers to this loan.

As pointed out by the secretary of the treasury, the wealth of the United States is colossal. That nation today holds more than one-third of the world's supply of gold, close on three billion dollars, and the national assets of the United States equal the combined wealth of Great Britain, Russia, France, and Italy, "with two and a quarter times as much wealth as Great Britain; four times as much wealth as France and eight times as much wealth as Italy."

"Since the war began Great Britain has borrowed a little more than one-fourth of the amount of her national wealth; the borrowings of France and Russia are less than one-fifth, and Italy's proportion is a little more than one-tenth." Computed in the same way the possible borrowings of the United States, it is pointed out, would approximate some forty billions of dollars.

Energy, thrift and frugality are great virtues and that nation whose people cultivate them is bound in the long run to occupy a place of commanding power and influence in the world. Too many people in every country live from day to day earning and spending as they go with but little thought for the morrow. In the past while facilities have been afforded for those who wished to lay away their savings to do so, yet the matter of educating the mass of the people in the wisdom of such frugality has received but scant attention, and as a consequence only a small proportion of the people have reaped the benefits of this road to self-respect, independence

## MAY TAKE THE PLUNGE.

A mysterious rumor was in circulation last evening to the effect that as soon as the Telegraph emerges from a period of mourning and weeping for the woman suffrage bill, which was killed by its friends, it may possibly muster sufficient courage to inform its readers where it stands on the question of conscription. No doubt the Telegraph is still a supporter of Sir Wilfrid Laurier, and

it is possible it may endorse conscription and the Laurier attitude at the same time. It is probably too much of an opportunist organ still to take the stand of the Toronto Globe and other really Liberal newspapers.

## LIP-LOYALTY.

When Right Honourable A. J. Baibour addressed the Canadian Parliament, Sir Wilfrid Laurier, in replying, dwelt with characteristic eloquence, upon the glory of England:

"England, great at all times, was never greater than at this moment; never greater, I repeat, and because of war! Because today England is the home of civilization and the terror of the enemies of civilization. In Germany today the cry is 'Gott strafe England.' But everywhere else, on the seven seas throughout the five continents, in the mansions of the great, and in the cottages of the lowly, there rests every day the fervent and ever more fervent prayer, 'God bless England.' God bless England for all the sacrifices she has made, for the duties she has undertaken, for the risks she has assumed."

What a splendid thing it would be for Canadian war effort and for the Empire if only these brave words were backed by patriotic action! But, alas, they have been shown to be nothing more than the insincere generalities of an accomplished rhetorician. Reading them today, England may well exclaim: "These people honor me with their lips, but their hearts are far from me."

## A GOOD MAN.

Since the new administration at Fredericton has seen fit to appoint a deputy attorney-general it is well that a qualified man has been selected for the position. Dr. T. C. Allen, the new appointee, is an eminent lawyer, in fact as Hon. Mr. Baxter put it in the House he is without a peer.

The unpatriotic conduct of Charles James Fox at the time of the Napoleonic wars kept the Whigs out of office in Britain for nearly a quarter of a century. The unpatriotic conduct of Sir Wilfrid Laurier in the present crisis will hang like a mill-stone around the neck of the Liberal party for generations to come.

If Canada has not national unity today it is not the fault of Sir Robert Borden. The Prime Minister can face his countrymen strong in the consciousness that he has striven, as no Canadian political leader has ever striven before, to close up the ranks of the Canadian people in face of the common foe.

## DOLLARS MEAN BULLETS.

Dollars mean bullets. The man at the front must be munitioned. A turning point of the war was reached when Britain created its Munitions Ministry. Mr. Lloyd George had been Chancellor of the Exchequer. He was made Minister of Munitions. He knew the need of shells and the need of money to make shells. He had the vision of the battlefield and practical experience of finance. He knew the money and shells were inseparable. The Imperial Munitions Board of Canada is doing a colossal service in the output of shells. Canadians in France and Flanders have won the admiration of the world. The Dominion needs money to finance its war undertakings. Government War Savings Certificates can be secured at the nearest Money Order Post Office. Bank. The are issued for three years in amounts of \$25, \$50 and \$100. They pay interest equal to 5.2 per cent, compounded each year. You can help yourself and help the men who are fighting for you at the front. What will you do with your savings?—E-1.

## A LAURIER ARGUMENT.

When he opposed the conscription measure in the House of Commons on Monday afternoon Sir Wilfrid Laurier scoffed at the idea of there being any danger of an invasion of Canada. If there was such danger, or if necessity existed for calling out troops for the defence of Canada, he would agree to their going but, he continued, the Government had no constitutional right to compel Canadians to go overseas when Canada was not threatened. It did not take long yesterday afternoon for Hon. Arthur Meighen to ride the Laurier argument. Mr. Meighen showed that the present situation in Canada is in danger of invasion, or is not. If in danger of invasion, the Government, according to Sir Wilfrid's argument, has power to compel troops to go to repel that danger; if not in danger of invasion it is because the defence of Canada is wrapped up in the success of the operation of the Canadian troops in France, and consequently, again citing Sir Wilfrid's argument, as the Government has power and right to send troops to the defence of Canada, it has the right to send those troops to France, where that defence is being made.

That is exactly the point. That is the whole argument in justification of conscription. The troops to be raised by conscriptive methods are to be used in the defence of Canada, and it is high time for Canadians to realize that the defence of Canada will be made, not on this side of the Atlantic, but in France and Flanders, where the boys from the land of the Maple are so bravely and so successfully holding the lines. That is where Canada is being defended today and if that line of defence falls then it will be useless to attempt to form a second line in Canada itself. The future of this country is so completely dependent upon the result of the struggle in France that every lad who dons khaki and sails overseas is, in reality, fighting for the defence of his own home and his own hearthstone.

## SINN FEINERS ARE AGAIN CELEBRATING

Dublin, June 21.—The Sinn Feiners, who have held several demonstrations since the release of the persons arrested at the time of the uprising last year, brought about further disorders today. Some 600 of them, carrying Sinn Fein flags, attacked residences of former soldiers, over which Union Jacks were flying. Windows were smashed and police who came up were stoned. Eight men and five women were arrested.

## BODY RECOVERED.

Buctouche, June 21.—The body of Joseph Landry, who was drowned while fishing in Buctouche harbor about a month ago, has been found on the shore. Landry left a family.

## Hard to Drop Meat!

All depends on what you eat as a substitute. It is a good time to study "food value." You may be eating the wrong foods, the foods that cost most and give the least nutriment. Shredded Wheat Biscuit contains more real, body-building nutriment, pound for pound, than meat, eggs or potatoes and costs much less. Two of these Biscuits with milk and a little fruit make a nourishing meal at a cost of a few cents. Make Shredded Wheat your "meat." A satisfying breakfast on which to start the day's work. It is ready-cooked and ready-to-eat. Made in Canada.

# MAIN GAME YESTERDAY

Large Crowd Witness Hard Fought Game on St. Peter's Grounds—Contest Went Four Innings—Score Five to Four.

Doyle showing remarkable pitching ability, displaying fastest balling, and watching the bats with both eyes, was to a large extent the reason the Thistles pulled out of last night's game the winners 5 to 4. "Dab" was without a doubt the king of the diamond. With ten fans to his credit, three hits, one of which was a clean three bagger, and allowing but two men to walk to the base, he won for himself a name in the history of local balldom. Exercising some of his old time speed, it was a sight to see him wing that sphere 5 to 4. "Dab" was the last of the third showed the sturdy pitcher up in good style. On this occasion he retired three of O'Connor's heroic sluggers in rapid succession.

Another feature of the contest was the hitting of Haggerty. Last year this man fooled around the lower rungs of the ladder, but with constant practice he is now considered a sure hitter. In addition to the wallop disease he has developed wonderful speed for base running.

The game started away with the Maples registering three runs in the first inning. Art McGuire's slam did the trick. Harrington and Dever were on the bags waiting for a boost home, and their desire was gratified when McGuire punctured.

The Thistles managed to tie the score in the second. McNulty walked and Haggerty got a hit; Garvin, the next man up fanned; Howard sacrificed, scoring McNulty and Haggerty. The Thistles should never have scored two runs, but it was not to be. The Thistles never have scored more than one run in a game, but tonight they managed to score twice. The Thistles were the cause of Lobb scoring in the second for the Maples. The third was a remarkably short inning with no runs registered. In the fourth the Thistles succeeded in getting that winning strike of their own, and it was impossible for the Maples to overtake them. The game was called at the fifth, but the score to the end of the fourth only is counted.

The box score follows:

DIAMOND DOPE  
She was Doyle all the way through last night.

Three times at bat and three punctures is some record, but add to this a three-bagger and ten strikeouts, and the best mathematician in the country will have to go some to make out a correct total.

Haggerty was up all last night figuring with a piece of chalk on the kitchen floor, see if he could ascertain how far his batting average is ahead of "Mugsy" McGraw.

And let the fans understand that Art Howard was swinging a murderous club last night.

You've got to hand a bouquet to Haggerty for his batting this year. That "how stuff" Dubby pulls off is great stuff.

George Doherty could be used to advantage on the bench, but he was never meant for a third bagger. He has the shape of a ball player and that's all.

Shamrocks and Maples to the front tonight.

## "TIZ" FOR SORE, TIRED FEET—AN ITS BUSINESS THROUGH

"Tiz" is Grand for Aching, Swollen, Tender, Calloused Feet or Corns.

Mr. Pinder said that logs were cut by small men on both sides of the river away up to the far end of the county and they were rafted down to Springfield and sold. The man who bought logs there had no idea whatever where they came from.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it!

On Wednesday however, the Boston and Maine lifted the embargo which they had declared, and shipments to New England points are once more being made. The New York, New Haven and Hartford have not as yet given notice of lifting their embargo, and until they do so all lumber shipped to New York will have to go by water.

The three masted schooner Sallie E. Ludlam was rammed by the steamship Corozel of the New York and Porto Rico Line, between the Battery and Governor's Island Sunday afternoon. The schooner was towed to South Brooklyn for repairs.

Ogdensburg, Wis.—"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

Mrs. ERTA DORION, Ogdensburg, Wis. Physicians undoubtedly tried their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old-fashioned roots and herbs combined in Lydia E. ## SHIPPING LUMBER TO U. S. BY RAIL IS RESUMED

Shipments of lumber by rail to the United States have been resumed as far as New England States are concerned, as the Boston and Maine have lifted the embargo on lumber laden cars which was declared about a week ago by themselves and the New York, New Haven and Hartford.

On Wednesday however, the Boston and Maine lifted the embargo which they had declared, and shipments to New England points are once more being made. The New York, New Haven and Hartford have not as yet given notice of lifting their embargo, and until they do so all lumber shipped to New York will have to go by water.

## About the Eyes

Liver Was All Upset and There Was Pain Under the Shoulder-blade—Two Interesting Letters.

Toronto, Ont., June 21—So many people suffer from derangements of the liver that we feel sure these two reports, just recently received, will prove interesting reading and valuable information to many readers of this paper.

Mrs. F. L. Harris, Kestley, P. O. Sask., writes: "I was suffering from liver trouble—had a heavy pain under one shoulder blade all the time, and was nearly as black as dirt around the eyes, so I concluded to try some of Dr. Chase's Kidney-Liver Pills. I did so, and before I had taken one box, the pain had left me and I commenced to gain in flesh, and by the time I had taken two boxes I was completely cured and felt like a new person. My trouble was caused by heavy work out-of-doors, and, of course, heavy eating and constipation. I would advise anyone suffering from kidney or liver trouble to give Dr. Chase's Pills a try."

Mrs. Charles Terry, Tweed, Ont., writes: "Before I was married I was troubled with enlargement of the liver. My liver became so enlarged that you could detect the swellings on either side, and it was only with difficulty that I could get my clothes on. A friend advised me to get Dr. Chase's Kidney-Liver Pills and take them. I commenced this treatment, and used nine boxes, which cured me at that time. Then, about two or three years afterward I was troubled again with the swelling, but only on my right side. I secured some more Kidney-Liver Pills, and took them. I have not been troubled in this way since."

Dr. Chase's Kidney-Liver Pills are a pill a dose 25c, a box, 5 for \$1.00, at all dealers, or Edmanston, Bates & Co., Limited, Toronto.

How to Rid the Skin of Objectionable Hairs (Aids to Beauty.)

A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required. Mix a stiff paste with some powdered delatone and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and every hair will vanish. This simple treatment cannot cause injury, but care should be exercised to get real delatone.

Cocconut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle and is very harmful. Just plain milled cocconut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Slightly moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get milled cocconut oil at most any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months.

THE MOTHER ON THE SIDEWALK

By Edgar A. Guest. The mother on the sidewalk as the troops are marching by is the mother of Old Glory that is waving in the sky.

Men have fought to keep it splendid, men have died to keep it bright, But that flag was born of woman and her sufferings day and night;

'Tis her sacrifice has made it, and once more we ought to pray For the brave and loyal mother of the boy that goes away.

There are days of grief before her, there are hours that she will weep, There are nights of anxious waiting when her fear will banish sleep; She has heard her country calling and has risen to the test, And has placed upon the altar of the nation's need, her best.

And no man shall ever suffer in the turmoil of the fray, The anguish of the mother of the boy who goes away.

You may boast men's deeds of glory, you may tell their course great, But to die in easier service than alone to sit and wait.

And I hail the little mother, with the tear-stained face and grave, Who has given the flag a soldier—she's the bravest of the brave. And that banner we are proud of, with its red and blue and white, Is a lasting tribute holy to all mothers' love of right.

TEASPOON PEPPER AND ONE-HALF ONION

juice. Press through potato ricer. Moisten with one egg and one tablespoon melted butter. Drop mixture in buttered molds. Place molds in pan of hot water.

Bake about twenty minutes. Serve on hot platter with white sauce and garnish with slices of hard-boiled eggs.

Leftover Favorites.

Chop fine any kinds of meat left over (ham included); also boiled or fried eggs left over, a green pepper, a few sprigs of parsley, or some celery, a dash of salt and pepper. When all is thoroughly chopped fine, add one beaten egg (can be omitted), a little sweet milk and enough of cracker crumbs to have mixture easy to handle.

Now make a pie crust dough by using scant pint of flour, two tablespoon lard (or drippings), one teaspoon baking powder, one-quarter teaspoon salt and milk enough to mix. Roll thin, spread meat mixture over, roll up, bake in a quick oven until nice brown, say twenty to twenty-five minutes; serve hot.

PLAIDS AND CHECKS FOR SKIRTS

We have progressed very much in our definition of the word "checked" since last year. Then a check was understood ordinarily to mean a combination of white and black, or of colors, of small dimensions, so that at a short distance a monotone effect was given.

Now, however, fashion has decreed that to be absolutely smart the checks of the fabrics of the present season must not be less than two inches square. This means that what we term checks are really plaids excepting that fewer colors enter into the designs.

Fortunately, most of these enormous checks are taken for sport skirts; and the latter are plaited from waist to ankle and the area of black and white blocks is happily broken. Along with the popular black and white there are such combinations as red and purple, red and gray, green and tan and yellow and blue.

They are to be worn with the lingerie shirtwaist, usually topped with a sweater whose color matches the most vivid or striking one introduced in the skirt design.

A Novelty Shower. A novelty shower was tendered Miss Dunn last night when thirty friends gathered at the home of her sister, Mrs. McCalister, King street. Miss Dunn, who is to be one of the principals in an interesting event this month, was taken by surprise, but she responded to the occasion nobly. A happy evening was spent in games, music and singing.

ANTONIO MORENO IS SIGNED BY ASTRA FOR PATHE.

Astra has signed Antonio Moreno to appear in Pathe Gold Roosters. Since the Antonio Moreno of Montecarlo Moreno, has been one of film-land's best known leading men, and comes from a long engagement with the Vitagraph, where he had leading parts in many of that company's best known pictures, among them "The Island of Regeneration" and "Kennedy Square."

Mr. Moreno joins the fast growing company of Pathe Gold Rooster stars, a company which now includes Mrs. Vernon Castle, Pearl White, Mollie King, Gladys Hulette, Florence La Badie, Frederick Warde and others. He will be under the direction of George Fitzmaurice, who directed "Kick in." "The Singing of the Hawk" "Via Wireless" and many other Gold Rooster successes.

Maurice and Walton, the dancers, are soon to go abroad, where they will both aid Florence. Maurice is to serve as an ambulance driver and Miss Walton will do war relief work in Paris.

ALICE FAIRWEATHER. WEDDINGS

Elgee-Dykeman. A very pretty wedding was witnessed in the Jesmer Baptist church at six o'clock Wednesday afternoon when Rev. A. W. Brown united in marriage Miss Lottie C. Dykeman, daughter of Mrs. C. B. Dykeman, and Burpee L. Elgee, both popular young residents of Jesmer. The bride entered the church on the arm of her brother, Herman S. Dykeman, to the strains of the wedding march rendered on the church organ by Miss Muriel Elgee. The bride, who was unattended, looked charming in a wedding gown of oriental lace and duchess satin with pearl trimmings, also Juliet cap and veil. She carried a bouquet of bridal roses

"The Double Cross Mystery." One of the chief requirements of a mystery serial is that it shall be a mystery and those who follow this, you just get your mind made up that it is one person when it turns out that that particular person was not there at all but somewhere quite different.

The theme is distinctly modern and the personality of the cast is a strong drawing card. It is rather a turnover to have Leon Barry as the hero after his rian in "The Shielding Shadow," but he makes a very attractive lover and anyway I liked him better than Ralph Kellard. Mollie King is pretty and will no doubt prove as popular as other heroines. The double cross is most mysterious.

The scenes in the first episode take place on ship-board. Peter Hale is returning to America when he receives a wireless message relating to his father's will. On the ship Peter has been much interested in a lady and he learns that she is also interested in him. "The Girl in No. 7" is the title of the opening chapter and it is safe to say that those who see the first episode will not want to miss the following ones. I saw several chapters and thought it a splendid serial.

The cast is as follows: Mollie King, Phillips Brewster, Leon Barry, Bridge Bentley, Ralph Stuart, Dick Amessley, Gladden James, The Masked Stranger.

This serial comes to a fine finish in a way that will satisfy everyone. I am not going to tell the identity of the Secret Menace for you will want to see the unveiling of that plot for yourself, but I will just say that Pearl is perfectly justified with the way things turn out.

EARLE WILLIAMS.

Earle Williams, star of Greater Vitagraph's Blue Ribbon productions, has just received word that he was selected the winner of a popularity contest conducted by the Minneapolis Journal. The paper invited the people of the city to vote for their favorite photoplay star and Mr. Williams took a big majority. He has sent a personal letter of greeting and thanks to the friends who thus showed their appreciation of his work on the screen.

LAUGHS COME HIGH.

William Fox is spending thousands of dollars in the erection of huge picture palaces, and he is spending them just so that the audiences who see Hank Mann's next Fox film comedy may laugh. It has been estimated that each laugh will cost Mr. Fox the unparalleled expenditure of \$500.

Statisticians who are expert in such matters figure that a single smile in this comedy of humanity will be priced approximately \$4.88.

CHARLOTTE BURTON IS NOW MRS. WM. RUSSELL.

A film romance pure and simple culminated last night with the announcement from the west coast of the marriage of William Russell and Charlotte Burton.

This couple affair had its inception at the Santa Barbara studios of the American Film Company. Miss Burton joined the forces of the American Mutual studios about five years ago. Russell was engaged for the serial, "The Diamond from the Sky," and Miss Burton played opposite him.

ROBERT HARRIS STRUCK ON HEAD BY A ROCK WHILE GOING HOME - PICKED UP UNCONSCIOUS - NEVER ABLE TO MAKE STATEMENT - BELIEVED TO BE CASE OF MANSLAUGHTER.

Robert Harris, Jr., apprentice in the employ of Frank Walker, the plumber, died at the St. John Infirmary last night, the 14th inst.

From what has been learned of the case, it is believed that the injuries were not received by accident, but by some person who struck him on the back of the head with a rock, and now that the young man has died as a result of the injury received, if any person was responsible for such a death, that person is guilty of manslaughter.

Robert Harris, who was twenty years of age, was a young man with hosts of friends in the city, and from what can be learned, should not have had an enemy in the world. He had been working faithfully at the plumbing trade and would not have served his time as an apprentice until this coming fall.

On Thursday night, the 14th, just a few minutes before eleven o'clock, he was walking along Rockland road towards his home on Pine street, when suddenly and without warning he was struck on the back of the head presumably with a rock, which it is believed was thrown by some person.

A short time after the unconscious form of Harris was found lying on the road by a young man named Wilson. A coach was procured and the unconscious form was conveyed to his home and a physician summoned.

There seems no doubt in the minds of young Harris' relatives and friends, but that he had been assaulted by some cowardly assassin, but here being no person present at the time, (that could be learned of) and the fact that no statement had been made by Harris, the case is at the present stage one of mystery.

Dr. F. L. Kenney, the coroner, was notified early this morning of the death and gave permission for the removal of the remains to Fitzpatrick Brothers' undertaking parlors on Waterville street, and later this morning the coroner will view the remains and decide regarding an inquest.

TOTTEN BOY STILL MISSING; WAS NOT WITH THE GYPSIES

Another day has gone and still there is no trace of little Ronald Totten, who disappeared from his home on Sunday afternoon. The boy scouts were out again last night and will keep up the search as long as there is a possibility of doing any good.

The clue which pointed to the Gypsies having taken the boy was followed up as far as the band seen at St. Martins could be found that they had him with them when rounded up.

Following a telephone message from Chief Simpson, Rev. W. R. Robinson, who was at St. Martins, investigated the matter, and yesterday morning caught the party near Sussex, but found no signs of the missing lad.

The Gypsy band arrived at St. Martins on Wednesday morning and a dozen or more school children, between the ages of fourteen and sixteen, saw a white child with the party, and this was before they knew anything about the Totten boy having disappeared.

After the Gypsies had left St. Martins on their way toward Sussex, they stopped a lad at Hamford Brook and asked his name, and if his father was home, he did not tell them his name, but did say that his father was home and they drove on.

While in the village one of the women got from one man \$10, and from another \$3, but a posse followed and caught them about a mile out and got back \$75 of the \$83, the \$10, then the balance of the \$83. A watch which was stolen from a man with whom they traded horses was recovered yesterday at Sussex.

About four o'clock yesterday morning Constable John A. Howard, Wendal B. Bentley, W. S. Brown and Constables S. C. Osborne and C. E. Mosher left in Mr. Bentley's car to follow them with the hope of recovering the boy. At Hamford River, Mr. Robinson telephoned to Chief Abell of Sussex, and about six miles from the town the three parties met.

Mr. Robinson returned to the city tomorrow and the men from St. Martins returned to their homes. Mr. Robinson said last night to The Standard, that too much credit could not be given to the men with him who had done everything in their power and given up the entire day to the pursuit of the band of Gypsies.
