AUSTRIA PLANS TO ABANDON THE SHIP OF STATE

Nation Not Anxious to Go into Bankruptcy But Cannot Pay Bills Now.

CLAIM VERSAILLES TOOK TOO MUCH

Cannot Pay Even Government Clerks Let Alone Secure Raw Materials for Use.

Paris, Jan. 13.—The allies are understood to be considering another effort to save Austria by floating loan equity, about \$250,000,000, as proposed by the Austrian government, to the reparations committee. This sum, the experts estimate, will be sufficient to enable the country to put its industries to work and gradually become self-supporting. France is in favor of this project, but is unable to furnish the funds herself.

Paris, Jan. 13.—In a statement today regarding the situation in Austria Baron Eicheloff, Austrian minister to France, said the prospective resignation of the conservative minister of Chancellor Mayr, which is expected any time, will in the opinion of Austrians leave the country in a state of political chaos. No party is ready to assume responsibility for governing the nation without money even to pay the clerks in the different departments.

Cannot Pay at Present

Austria will not declare bankruptcy, said Baron Eicheloff, "because she does not, like a bankrupt, want to wipe the slate, pay what she has in sight and start a new deal. Austria wants to pay all she owes, but she simply cannot do it now. She cannot even pay her running expenses. What will happen is that the government machines will simply stop from lack of propulsion."

Other Nations Step In
The Socialists have declared they will not accept power. This will leave the state without a government, opening the way for the extremists in Vienna, Berlin and Italy, and perhaps Switzerland, are expected to take measures that the regions of Austria bordering on their territory will not fall into a situation menacing to their territory.

WANTS COURT TO MAINTAIN MEMBERSHIP

Pres. Tom Moore Not Worried Over Action Taken by Halifax Labor.

Ottawa, Jan. 13.—The right of the Trades and Labor Congress of Canada in revoking the charter of the Canadian Brotherhood of Railroad Employees will be fought out and decided in the courts. A writ issued on behalf of the Brotherhood today seeks an injunction restraining the Trades and Labor Congress of Canada from any way excluding the Canadian Brotherhood of Railroad Employees, or its members from the rights arising from membership in the congress and restraining the defendant body from interfering with members of the plaintiff organization by urging them to leave that organization for some other body.

Wants Membership Held
The Brotherhood further seeks a declaration that the C. B. R. E. and its members are still members of the Trades and Labor Congress of Canada notwithstanding the action of the Dominion executive expelling them from membership therein, and that the said action of the executive is "invalid, void and of no effect." A claim for an unstated amount of damages and costs is made.

Moore Not Worried
Ottawa, Jan. 13.—Tom Moore, president of the Trades and Labor Congress of Canada when approached concerning the action of the Halifax council last night in electing William Furzey as president, stated that he considered it an act of personal apportion on the part of the members for the work of the C. LORD MAYOR ALWAYS "OUT" FROM OFFICE

O'Callaghan Says His Desk is Wherever He Happens to Be.

HASN'T SLEPT HOME FOR OVER TWO YEARS

Declares Troops Have Raided His Cork Office Eight Times in Two Years.

Washington, Jan. 13.—Daniel J. O'Callaghan, Lord Mayor of Cork, who came to the United States as a stow-away, and whose deportation is now under consideration, testified today before the "Commission from the committee of One Hundred, investigating Irish conditions." He devoted his testimony to describing the job of a city chief magistrate, who has to exercise his official functions while "on the run."

Never Sleeps Home
O'Callaghan said he had not slept in his own home for two years, and that in his absence his house had been raided eight times by the crown forces. His visits to the City Hall, he said, were few and far between, and his office was "wherever he happened to be."

The fact that the witness may be deported before his testimony is completed was not mentioned at the hearing, but O'Callaghan's status with the immigration authorities was referred to once.

During his evidence, O'Callaghan mentioned that Mr. Lloyd George had been found guilty of murder by the coroner's jury in the case of the late Lord Mayor Mac Curtain, of Cork.

Case of Lloyd George

"Our immigration laws, than, would bar Lloyd George from the United States," remarked M. J. Doyle, counsel for O'Callaghan. "But the State Department would let him in," replied Senator Norris, of Nebraska, a member of the commission. In the course of the hearing, O'Callaghan made the charge that newspapers in the United States were "British controlled," because they did not give more publicity to "outrages in Ireland."

TOO HIGH VALUE PLACED ON BELL 'PHONE IS CLAIM

Cross-Examination at Ottawa to Show Plant Estimated Too Generously.

BOND EXPERT IS CALLED AS WITNESS

Thinks Bonds Could be Issued for Greater Amount Than at Present.

Ottawa, Jan. 13.—Today's proceedings in the hearing of the Bell Telephone Company's application to the Ontario Board for an increase in rates were of a highly technical nature throughout practically the entire sitting. H. E. Gully, a Toronto accounting expert, was on the stand. His chief assertions on behalf of Toronto city were that the Bell Telephone Company's system of bookkeeping had a tendency to largely increase the actual value of the company's plant and its depreciation reserves.

Some Things Overlooked

Ex-Judge Phippen, in a cross-examination covering a period of several hours, was able to secure some admissions to the effect that there had been certain things overlooked in going over the books of the company. Incidentally he declared that some information asked for had not been furnished by the company.

Late in the afternoon, W. A. MacKenzie, bond and financial broker of Toronto, was called by Mr. Geary, counsel for Toronto. He said that his firm disposed of large number of bonds.

Might Issue More Bonds

He disagreed with the statement that further financing which could not be done by the Bell Telephone Company were about \$50,000,000 and bonds to the value of \$17,000,000 had been issued against them. He thought that bonds might be issued to fifty per cent of the company's assets.

In answer to Mr. Phippen, Mr. MacKenzie agreed that it was important that the bonds be issued to the company to carry on. He regarded the company as being a well managed concern in all particulars. The payment of 5 per cent on common stock was reasonable and there was no necessity for a reduction.

Austria A Bankrupt And End Is At Hand

Only a Question of Weeks, Probably Days, Before Old Nation Will Be Smashed.

Paris, Jan. 13.—The complete political collapse of Austria within a month is expected in official Austrian circles here.

"It is no longer a question of months," said Baron Elichoff, the Austrian minister to France, today. "It is only a question of weeks, perhaps days."

Although the French government has received no official confirmation of the report in a recent Berlin dispatch to the London Times that the Austrian Government had found itself "no longer in a position to continue," and that it had declared its intention to retire January 15 and place the administration of the country in the hands of the reparations commission, it was indicated at the foreign office today that no surprise would be occasioned there if it were to develop that Austria had some such move in mind.

Marysville Plays Snappy Hockey

Defeated the Capital City Six in a Very Exciting Game Last Night.

Fredrickton, N. B., Jan. 13.—Marysville was from Fredrickton by a score of 4 to 3 tonight, before one of the largest crowds that have seen a hockey match here in recent years in the latest game that has been played here this season.

Marysville's superior shooting and their persistence in boring in on Fredrickton's nets, together with the Marvellers' goal tending of Peasey, their recent "find," proved the winning factors. Fredrickton took the advantage of more space by shooting wide of the mark and failing to take advantage of the opportunity of using their substitutes until too late in the game.

Marysville Plays Snappy Hockey

With the players over-anxious, here were some disputes, but Sandy Staples headed the game in a capable manner and there were no serious offences, and only one major penalty was inflicted, and it was for a repetition of offences by Roy Robertson, who, after an absence from the game of six years, was banished twice for tripping. Peasey, the new Marysville goalie, was put out of action temporarily in the last period, when he was struck on the head by the puck and fell to the ice. He resumed play after a few minutes, but fell again to the ice with a thigh not having thoroughly recovered from the shock. After being revived, he gamely continued and the closing minutes of the game found him playing his best game since more.

Marysville Plays Snappy Hockey

Fredrickton scored the first goal in the opening period, when Jewett hit a hat trick. The goal judge's decision was not over-ruled by the referee, and the score counted, thus putting Marysville in the lead; but H. Smith, Marysville, was credited with his duties as goal judge, and K. Staples, of Devon, replaced him. Jewett scored the score after a spectacular individual rush, a minute after the opening of the final period, but Clarence Wade's counter put Marysville in the lead again, and Brewer, having recovered his senses, made a hat trick. The goal judge's decision was not over-ruled by the referee, and the score counted, thus putting Marysville in the lead; but H. Smith, Marysville, was credited with his duties as goal judge, and K. Staples, of Devon, replaced him.

Amherst Hockey Player Makes Good

Favorably Impresses Followers of the Puck at Hamilton, Ont.

Hamilton, Ont., Jan. 13.—Bill Stewart, the Amherst hockey player, made an exceptionally good impression here last night when St. Patrick's defeated Hamilton by a score of 4 to 2.

Stewart did not arrive in Toronto until Monday evening and it was considered he would be handicapped by his lack of practice. However, taking advantage of a practice with one of the Toronto school teams the same evening, he worked the stiffness out of his system and last night appeared to good advantage, despite his apparent handicap.

Amherst Hockey Player Makes Good

Stewart replaced Randall on the defence, Randall being shifted to left wing. Stewart made several spectacular rushes and, although he did not figure in the scoring column, it was more a matter of bad fortune than lack of playing ability. He bared in well and skated with an easy motion. From present indications, it looks as if Stewart will be a valuable acquisition to the team. He received the first penalty of the game last night for a minor infraction of the playing code.

Willard And Dempsey Fight

Jack Kearns Says Fight May Be Called off on Account of Recent Ruling.

Los Angeles, Cal., Jan. 13.—Jack Kearns, manager for Jack Dempsey, heavyweight champion, said today the match between Dempsey and Jess Willard in New York might be called off because of the recent ruling by the New York Boxing Commission fixing \$15 as the highest admission fee to be charged at championship matches.

He said this meant that not more than \$15,000 could be obtained if the bout was held at Madison Square Garden, the largest place available in New York at that time of the year. "That sum is not enough to handle the match," he said.

PLAYING THE GAME.

The fact that there is an embargo upon Canadian cattle entering Britain except for immediate slaughter at the port of landing, is and has been for several years, a source of considerable annoyance to Canada, which feels that an altogether unjust and unfair inference is drawn from the point of view is indefensible, but he this as it may, Britain is just as much within her rights in maintaining it as Canada is in placing heavy import duties on goods of British manufacture.

THE IRISH REPORT.

It is much to be regretted that the report of the British Labor Party's commission to Ireland has not been of a more impartial character. Reliable information respecting events in Ireland is much to be desired. One can easily conceive the possibility of independent reports, if bearing on their face marks of fairness, would be helpful to all concerned. The report of a committee of the British Quakers, although manifestly sympathetic in a considerable degree with Irish grievances, displayed a commendable spirit of impartiality. The Labor Party's committee had an opportunity to do a similar service in a broader way. Unfortunately the committee report throughout is marked by hostility to the British Government.

The Best Quality at a Reasonable Price. SHORT DAYS MAKE EYE STRAIN GREATER. Daylight is best for the eyes. As the days grow shorter more work and reading must be done by artificial light, and the tendency to eye strain increases. If your sight is not so good as it used to be, or if your eyes blur, grow tired, ache, itch or run water, if you have headaches, are nervous, dizzy or exhausted, consult Sharpe's, for these are all symptoms of eye strain. But it may be said Canada needs a revenue and goods imported from Britain must help to pay it. Very good. British goods pay. But Britain does not want Canadian cattle for feeding purposes, so she keeps them out, and Canadian breeders pay in consequence. One custom is as fair as the other. Canada is strictly within her rights in stipulating the terms on which British goods shall enter this country, and Britain is equally entitled to say on what terms cattle shall, or shall not, be admitted there. It may be news to some people that until lately no cattle from any country whatever were allowed to enter Britain except for immediate slaughter. This rule has however been suspended within late years to admit the importation of Holstein-Friesian cattle, which a few years ago were totally unknown in any part of the British Isles.

In the year 1919 Canada exported to Great Britain over \$540,000,000 worth of commodities, on which duties of which any import duty was imposed. If Britain were to place the same amount of taxes upon commodities sent there from Canada as Canada does upon goods sent here from Britain, would it not probably materially reduce the volume of business done, to the detriment of this country?

Canada imposes these taxes not only to help to raise a revenue, but also to protect her manufacturers against competition. Has not the British Government just as good a right to protect the British farmer against the importation of Canadian cattle as the Canadian Government has to protect its manufacturers? When Canadians "kick" against the embargo, they are not "playing the game."

Mr. J. E. Stewart, of Andover, appears to be on the warpath again with one of his hair-brained schemes for constructing a dam across the St. John River. This time he seems somewhat about the "steenth" time he has taken up this project, only to be turned down every time. Still, like Bruce's spider, he starts afresh again, nothing daunted. Just what his object is in bringing forward these various projects, no one seems to know; they never seem to have any responsible backing, either in the way of capital or influence. Unless he has something more to offer for his present venture, it is not unlikely, we imagine, to meet the same fate as his previous ones have done.

WHAT OTHERS SAY. Cure for Hiccoughs. "Here is another remedy for the hiccoughs," a Western reader writes, apropos of a "cure" quoted in this column. "Our leading grocerman was suffering with hiccoughs and could get no relief. An old sawney customer, came in from a neighboring reservation. She saw his predicament, and with one hand grabbed up a black-pepper box from a table and with the other hand pulled back his head (by the hair) and held the pepper-box to his nose. Of course he sneezed—sneezed hard for the next five minutes. But he did not hiccup again. He was all right the next day, and when the squaw came in to his store he presented her with a big chunk of dried beef as a grateful tribute to her medical skill!"—New York Outlook.

Cash—Keep it Working. A tremendous impetus would be given to business right now if every man who has ten dollars in his pocket would go straightaway and pay it to somebody he owes it. A few years ago there was a widespread Pay Up movement in Toronto and elsewhere in the province, and it limbered up business in a remarkable way. Retail merchants, especially, will recall the almost magical effects that were produced in two or three weeks. It is simple enough. There is a given amount of money in circulation, and its function is to circulate. If it isn't doing that it is out of work. A ten dollar bill in your pocket is, while it remains there, much like any other piece of paper; it is only when it is put to its special use that it discloses its special value. If one man keeps ten dollars in his pocket all week and pays it out on Saturday, and another business of waiting, makes his payment on Monday, one of those bills has idle for the week, but the other may be in rapid circulation, solving, settling, closing down five hundred or a thousand dollars worth of business. When one man pays his bill another man is enabled forthwith to pay his, and so it goes. But if everybody holds back, business slows down, and while there may be plenty of currency it is not current enough—it is hoarded, held, stowed in a thousand, ten thousand, a hundred thousand hands. There is this withheld from

Bolsheviks Are Caught In A Gigantic Hoax

(Copyright, 1921, by Public Ledger.) Calcutta, Jan. 11.—One of the biggest hoaxes which even the Bolsheviks have to their credit has just been attempted at the expense of India. At their so-called "Oriental Congress," held at Baku in August, a pro-Bolshevik document was put in which purported to bear the signatures of the "Amirs of India." Of the signatories the following were already dead at the date of the meeting of the congress. The date of their deaths is appended: Sir Mir Mahub Ali Khan, Nizam of Hyderabad. Died in 1899. Her Highness Nawab Shah Jehan Begum, ruler of Bhopal. Died in 1901. The Nawab Sher Muhammad Khan, Nawab of Palampur. Died in 1918. The Nawab Muhammad Ismail Khan, Nawab of Jaora. Died in 1905. WAS SUFFERING FROM INDIGESTION No Fear of Pains Now.

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The pain and souring of the food, pains in the stomach, heartburn, water brash, belching of wind, vomiting shortly after eating, etc., are some of the symptoms. There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right. Mr. H. H. Collins, Norton, N. B., writes:—"I was with the overseas forces for four years and two months, and in October, 1916, I was unfortunately enough to be wounded and taken prisoner. I was a prisoner for two and a half years, and the food they gave us was not good, at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, was nearly a wreck. I was told to use Burdock Blood Bitters. I did so at once, and in a few days I was able to eat without fear of pain and sickness. I would recommend B. B. B. to all who suffer from indigestion. Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The T. First prize in the Subscribers' Guessing Contest will be a 5-Passenger Ford Touring Car, purchased from the Universal Car Company, 85 Prince William Street. Second prize will be a \$215.00 Phonograph. Five \$10 Cash Prizes will follow, then five \$5 Cash Prizes, then 10 orders for one year's subscription to The Standard—22 Free Prizes in all.

The automobiles which will be given away in connection with The Standard's big \$15,000 Prize Contest will not be driven around the country or city by members of the Contest Department or any other persons. We are giving away NEW cars in this contest—not second-hand machines.

HARRY CAREY (Universal Film Star) IN HIS STUDEBAKER

Harry Carey, popular Universal Western Movie Star, drives a big seven-passenger Studebaker, similar to the one offered as first prize in The Standard's Auto and Movie Star Contest. Here he is at the wheel of his Studebaker. Two of the prizes to be given away in The Standard's big Auto and Movie Star Contest are opportunities to become Movie Stars with The Universal Film Company of Universal City, California.

The automobiles which will be given away in connection with The Standard's big \$15,000 Prize Contest will not be driven around the country or city by members of the Contest Department or any other persons. We are giving away NEW cars in this contest—not second-hand machines.

OBEY THAT IMPULSE

Send in your Entry Blank TODAY. Although active voting in the Contest does not begin until Jan. 22nd, votes will be issued on subscriptions secured before that date. Receipt Books will be ready at the Contest Department of The Standard, and there is nothing to prevent you from getting a run-away start while others are making up their minds as to whether they will enter or not.

Send in your Entry Blank at once, and get in your order for receipt books and other supplies. Then phone or write all of your friends whom you cannot personally call on. Tell them that you are going to enter the competition and that you would appreciate their support.

Do not wait until the first vote period is nearly over before making your start. The early start is half the battle.

NOT LUCK! NOT CHANCE! EFFORT ALONE WILL WIN THE PRIZES!

The Object of the Prize Contest

The object of this big undertaking is to secure new prepaid subscribers to The Morning and Semi-Weekly Standard; also to secure renewals, and collections of back subscription accounts, and while doing this to ascertain who are the most ambitious, persevering and determined men and women of this section of Canada, it costs nothing to participate in the competition. We furnish valuable prizes, while you furnish the new subscriber's, renewals or collections in your spare moments.

An Early Start for Winners

One of the outstanding features of a short competition of this kind is that the early entrants usually carry off the big prizes. The declining vote schedule will also undoubtedly give the "early birds" an advantageous lead over those entering later.

AN EARLY START IS HALF THE BATTLE. ENROLL TODAY. THE CONTEST ONLY LASTS A FEW SHORT WEEKS.

The Districts

The territory covered by The Standard has been divided into two districts to equalize the distribution of the prizes, as follows:

DISTRICT NO. 1—Comprises all territory within the city limits of Greater St. John, including all suburbs and sub-divisions.

DISTRICT NO. 2—Comprises all territory outside the city limits of Greater St. John.

NOTE:—Candidates are not confined to their own districts in securing votes or subscriptions—these may be secured anywhere by any of the candidates or their friends.

There Will Be No Losers

To each and every active candidate who works up to the close of the contest and does not win one of the valuable prizes, we will give ten per cent on all subscription money which he or she has personally collected, provided the amount turned in by said active candidate exceeds the sum of \$35. There will, under this plan, be no losers. Every candidate who has earnestly made an effort to win one of the costly prizes will get something for his or her efforts.

RULES OF THE SUBSCRIBERS' GUESSING CONTEST

1. A subscriber may enter into the Barley Guessing Competition, provided he or she gives a subscription to a candidate in The Standard's Big Prize Contest, or pays a subscription into the Contest Office of The Standard for the benefit of a candidate.

NOTE:—Read rule 1 carefully. Notice that the subscriber must pay directly to a candidate or to the contest office. A subscriber will NOT be allowed an estimate if his or her subscription is paid to an agent who demands a commission on the subscription.

2. One guess will be given for each dollar paid on subscription under the above conditions.

3. The Free Prizes for the Subscribers' Guessing Contest will consist of the following:

- 5 Passenger Ford Touring Car—\$215.00
- Five \$10.00 Cash Prizes
- Five \$5.00 Cash Prizes
- 10 Orders for 1 Year's Subscription to The Standard.

4. Either the candidate or the Contest Department of The Standard will supply you with the necessary blank or blanks to fill in your guesses.

5. A subscriber or candidate may send subscriptions to boys at Military Hospitals or to other friends, and be entitled to send in guesses.

6. In the event the person subscribing does not wish to take advantage of the Subscribers' Guessing Contest, the candidate who secured the subscription may enter guesses on the subscription, provided said subscriber gives the candidate written permission to do so. In a case of this kind the following is to appear on the back of the guessing coupon: "I have submitted this guess, as subscriber did not wish to take advantage of the Guessing Contest," the candidate's signature must be attached. Then, also, this article must follow: "I relinquish all claims to any prize in your subscribers' contest which this coupon may win, in favor of the above named candidate." Subscriber's signature must be attached.

7. In the event of a tie, priority will be the deciding factor, and the tying guesses which reached us first will be given the preference. If the tying guesses reached the Contest Department simultaneously, the subscriber who gave the longest term subscription will be given the preference. If the tying guesses arrived simultaneously and the same amounts were paid by the parties tying, new subscribers will be given the preference over renewals or arrearage subscriptions.

8. A subscriber may give his or her subscription or subscriptions now and send in his or her guesses any time before the close of the subscribers' Guessing Contest, which will be the same night as the close of the Candidate's Big Prize Contest.

9. We would suggest that you get a jar similar to the officially filled jar, fill your jar with barley, and count the kernels in it, and thus arrive at some sort of an estimate.

10. The winners of the Subscribers' Contest will be announced with the other prize winners at the close of the Big Auto Contest.

One year's subscription to The Standard may cause you to win this elegant 5-Passenger Ford or one of the other valuable prizes offered in connection with the Subscribers' Guessing Contest. You will be assisting yourself and a candidate as well by subscribing.

Women's Hospital Aid Meeting

Executive Decide That Organization Will Pay One-Third Cost of Nurses' Home Linen

It was decided at a meeting of the executive committee of the Women's Hospital Aid that this organization will pay one-third of the cost of linen for the Nurses' Home. The executive met yesterday afternoon at the Board of Trade rooms, the president, Mrs. E. Atherton Smith presiding.

Delegation Present

A delegation was present from the Board of Hospital Commissioners, consisting of the chairman, Miss E. Agst, Alexander McMillan, F. Flewelling and Dr. H. J. Hodden, superintendent of the General Public Hospital. Matters in connection with the furnishing of the Nurses' Home were thoroughly discussed, and it was decided to appoint a committee of the Aid to act in co-operation with Dr. Hodden in purchasing linen for the Home, so that it may be of a uniform standard, the Aid to pay its share of one-third of the cost. It is hoped that by the first of May the Home may be ready for occupancy.

Sketches Exhibited

After the commissioners retired, sketches of furnishings for the Home were exhibited, and a committee appointed to deal with the matter of door-plates on the rooms furnished by individuals and societies.

The furnishing of nearly all the bedrooms has been allotted. The Aid is enthusiastic over the success of the appeal to the public, to which such a general response has been made. It is expected that at the regular meeting to be held this week, all estimates for furnishings will be submitted.

Perhaps the most quickly written hymn was "From Greenland's Icy Mountains," which was composed by Bishop Heber in little more than 15 minutes.

St. John Art Club Holds Monthly

Rev. R. A. Armstrong Gave Interesting Talk on "Buried Cities of Sicily."

Members in large numbers attended the regular monthly lecture of the St. John Art Club in the Studio on Post street last evening. The speaker of the evening, the Rev. R. A. Armstrong, spoke on "The Buried Cities of Sicily," describing, in a graphic manner, the beauty of the ancient ruins which he was privileged to view at first hand, on a tour made to Italy some years ago. A large number of slides were thrown on the screen showing the ruins, modern and ancient, of the cities of Taormina, Messina and Syracuse.

Miss Gladys Dykeman favored the assembly with several vocal solos and was warmly applauded. W. F. Burditt, the chairman, presided, and W. M. Brodie filled the duties of secretary in the absence of P. N. Woodley, who was absent because of illness.

Interesting Cases Before The Court

Augustus Watters Defendant in False Pretense Case—Assault Case Heard.

The case of Augustus Watters, charged with obtaining \$1,419.41 by false pretences from the Columbia Hide Company, with whom he was employed, was resumed in the police court yesterday. F. H. Deering, manager of the company, was cross-examined by J. E. H. Toed, for the defence. Marjorie H. Lane and W. A. Ross also testified, and the further hearing adjourned until Friday. REFLECTIONS OF A BACHELOR GIRL

By HELEN ROWLAND

(Copyright, 1920, by The Wheeler Syndicate, Inc.)

MARRIED WOMAN: A person, who hangs up the mistletoe at Christmas, "just for looks."

First, a boy longs for a real dog, then for a real horse, then for a real automobile, and then for a real girl. What he usually gets is a cotton-fannel poodle, a hobby horse, a red pushmobile, and a painted "baby-doll."

Flirtations come in many varieties; simple and complex; cheap and expensive; abbreviated and full length; with or without the "frills"—but they are all out of the same old flimsy cloth.

Never despair. Thoughts are things; and if you keep on expecting it long enough, your husband (or wife) will live down to your wildest suspicions.

Brains in a beautiful woman's head are not actually immoral; they are merely an unfortunate affliction, as far as men are concerned.

Dreams go by contraries—but love usually comes that way.

Love so seldom lives long enough to grow up, that he has never been pictured as anything but a baby with a quiver of toy arrows.

Test for a lover: Watching (and listening) to him pack and strap a trunk; watching him eat spaghetti; "hearing" him play golf; hearing him break an engagement over the telephone; meeting him when he is wearing his fishing clothes, a low, soft collar and a two-day beard; trying to love the aroma of his pipe. If your love survives all these, a little thing like marriage will never strain it.

Marriage is what changes a woman from a man's "Saturday Evening" to his "Sunday Morning."

Jas. McBrien was charged with being drunk and also with stealing a pepper and salt shaker, and a bottle of table sauce from the King Cafe, was fined \$8. He paid his fine.

Studying Methods Of Our Port Work

Immigration Secretary of World's Y.W.C.A. Pleased With Conditions Here.

Canadian women do not do patriotic work for praise, but those who have been on port committees must feel gratified to learn that workers of other countries are studying our methods and visiting our immigration departments to see how the port work is carried on. Miss Mary E. Harbut, immigration secretary of the World's Y. W. C. A. committee who arrived in St. John yesterday, has been at Ottawa where she has had interviews with Mrs. Robson and others of the Women's Advisory Council on Immigration. Miss Harbut is filled with admiration as to the way in which Canadians have risen to meet the problem of port work, and particularly the manner in which voluntary workers have come forward to welcome and speed on their way the settlers who knock on the gates of the Dominion.

That Princess Mary's favorite pets are the large flock of pigeons that she maintains at Sandringham, and at one time and another she has gained several prizes both with pigeons and rabbits, of which she is very fond.

In many parts of England there still exists the superstition that a newborn child should be taken upstairs before it is carried down, in order to insure his rising in the world later on in life.

The new Belgian Academy of Letters, which is being organized along the lines of the famous French academy, will be the first institution of its kind in Europe to admit women to full membership.

A trade heretofore monopolized by men that of house building, is being rapidly encroached upon in England by women. Already a firm styled Women Builders has opened offices in London and begun work on several operations.

Praise's Work Here.
Miss Harbut expressed her wonder as to whether it will be possible to make nations, who have no direct sea outlet for emigration understand their responsibility. She praised highly the excellent way in which port workers in St. John have unselfishly met the immigrants and cared for them at the landing place and as far as possible helped them on their journey.

Led by judicious questioning on the part of one who knew what splendid work she had accomplished, Miss Harbut talked of the time she spent in Czechoslovakia. She explained that the daughter of the president of this newly formed nation, Alice Masaryk, studied at the University of Chicago and was deeply interested in social welfare. Through her interest two American girls, of whom Miss Harbut was one, were asked to come to Czechoslovakia and make a survey of the resources of the country from the viewpoint of social betterment. This was done and the results are now embodied in five volumes which will be of the utmost value to the nation in their reconstruction period. Classes were held for leaders which were eagerly attended, two hundred applicants being received. Other results may be measured in the fact that Prague now has a police woman, and that a number of modern improvements are being rapidly established in the country. The Government has a ministry of welfare which includes a recreational department.

Government Supports Work.
The government supported the welfare workers, who arrived in Prague accompanied by an interpreter, in every way. Miss Harbut said that they had plenty of castles so they gave to Czechoslovakia and she assisted their researches faithfully.

Questioned about the country, Miss Harbut told of its dual nature, Slavonia being a nation of peasants where the old customs still sway. The women here wear short full skirted-dresses and from the style of their costume you can tell whether they are married or single, and from which district they come. Their dialect is also very different in the various districts. The men dress in white sheepskin clothing, wearing a sort of many colored ribbons at the throat of their coats when they go courting. Their hats may be a high sheepskin one, or a small derby-shaped felt with a tall cascade of flowers and grasses stuck at one side. These are worn tilted, with a jaunty effect.

In contrast to this, the people of Czechy are filled with modern ideas and are alert in every particular. They had many what may be termed admirable old fashioned charities, such as orphan asylums managed by nuns, but had been unable, under Austria, to introduce any new theories. The Austrian government frowned upon organizations, suspecting political complications. The people of Prague, and other cities are keen thinkers, and in working out details with the welfare worker from overseas would modify their ideas to suit local conditions and suggested splendid methods of reform.

Help Delinquent Boys.
One most interesting plan was carried out in regard to delinquent boys. It was thought by some social workers that the badness of these boys might be only self-directed zeal, and so they studied the lads very carefully, calling in the services of artists, mechanical geniuses and musicians. It was discovered that a number of the delinquents were, in reality, especially talented, and they are now being trained along their particular lines. A holiday camp for thirty of these boys was established in Switzerland, and the experiment

County Hospital Enjoy Entertainment

Empress of Britain Company Gave Delightful Concert for Pleasure of Inmates.

The Empress of Britain Concert Company, the same that entertained so delightfully at the Seaman's Institute Wednesday night, visited the County Hospital last evening and gave one of their pleasing concerts for the benefit of the hospital inmates. Any one who has heard this popular company can well appreciate the pleasure they gave the inmates at the hospital. Their work was up to its usual high standard, each and every number on the programme being received with hearty applause.

After the company had finished its programme the members were entertained at an informal dance by the hospital staff, after which delicious refreshments were served. The occasion was a most enjoyable one for all concerned.

Sugar Truths.
There is an abundance of "free" sugar now, as all the grocers' shops proclaim. The explanation is that the attempted American "corner" has failed, and that prices are tumbling rapidly. During the summer citizens of the United States were paying the equivalent of 1s. 11d. a pound for granulated sugar. If our own Sugar Commission had not accumulated reserves, and had not been able to buy the Mauritius crop, the price would have been still higher here and elsewhere. British consumers may be grateful that they were able to stand aloof from the American gamble. The prospects for next year are good, because Czechoslovakia, are again producing sugar for export, and the world will come to be entirely dependent on the tropics.

FROM HERE AND THERE.
Many a woman injures her eyesight by looking out for number one.

They had many what may be termed admirable old fashioned charities, such as orphan asylums managed by nuns, but had been unable, under Austria, to introduce any new theories. The Austrian government frowned upon organizations, suspecting political complications. The people of Prague, and other cities are keen thinkers, and in working out details with the welfare worker from overseas would modify their ideas to suit local conditions and suggested splendid methods of reform.

Help Delinquent Boys.

MEL HODGE HEALING BY MIRACLE MAN

Healer in South France Drinks Cognac Before He Starts Treatment.

PROSPERITY COMES TO THE VILLAGE

People Object to Law Touching Man Who Brought Fame and Riches to Them.

Paris, Jan. 12.—With empty pockets and tattered clothes some fourteen months ago there arrived in a little village near Avignon in Southern France, a tall, thin man, whose fate is now being sharply contested between the villagers and the police.

Some paid and did not recover, and two especially, a man who was treated for blindness, and became worse after his rubbings, and a woman whose paralysis, from being partial, became complete, have begged up their voices so loud in complaint, that the police have opened inquiries with a view to suppressing the healer's activities.

The villagers declare that if their "miracle man" is prosecuted their village as well as losing its fame will lose money. At the first encounter, six persons gathered in the healer's waiting room, showed themselves so hostile that the police had to beat a retreat and content themselves with carrying off some of the healer's wares.
