A meeting of the directors of Among other matters taken up was the resignation of C. L. Smith as president and member of the Executive Board. Owing to the illness of Mrs. Smith (who is in Washington) which made it necessary for Mr. Smith to be away from home the greater part of the winter, he felt that a younger man could better serve the interests of the company. The directors were unanimous in expressing regret at the necessity of being compelled to acept Mr. Smith's resignation, and the following resolution was passed:

"We the Directors here assembled regret very much the necessity of accepting Mr. Smith's resignation, due to causes over which we have no control and regret the iliness in his family, which necessitated his absence to day."

UNABLE TO WORK FOR EIGHT MONTHS

For 4 Years Conductor Could Only Work Half Time-Never Misses an Hour, Now

The remarkable results being obtained from Tanlac is further evidenced in the case of Albert Burgess, a popular conductor on the Winnipeg Electric Railway who lives at 453 Stradbrook avenue, Fort Rouge. Mr. Burgess called at Ligget's drug store for his fitth bottle of Tanlac, recently, and made the following statement:

I have been so wonderfully benefited by Tanlac that I will never stop praising it," said Mr. Burgess. "For the past four years I have not been able to work but about three days a week and have had to spend a good part of my wages trying to get. my health back. 15 YEARS' FIRE

Just think! That is the time through which Mr. H. C. Buckley endured all the fiery torture of itching, burning eczema. His life was a perfect misery until kam-Buk—the great herbal skin cure—brought complete relief.

Mr. Buckley, who lives at 461 East Broadway, Fortland, Oregon, writes:—"For fifteen years I suffered with eczema, and although I tried many so-called 'eczema cures, nothing seemed capable of dealing with a case like mine. It was not until I had Zam-Buk recommended to me that I began to have hope. This wonderful skin healer soon brought about a change for the better. "As I persevered with Zam-Buk the burning sensation got less. I found Zam-Buk wonderfully soothing Gradually the patches of soreness and the inflammation were reduced, and complete and permanent cure finally resulted. I would strongly advise all afflicted with eczem to give Zam-Buk a trial. It will give them satisfaction. They will not be disappointed."

No skin disease can resist the potent healing forces, stored up in Zam-Buk, which is unequalled for old wounds, ulcers, shacesses, had legs, scalp sores, blood-poisoning. Pless, saids, lurns, cute and all skin injuries. All druggists and stores, or Zam-Buk Co., Toronto. 50c. box.

Are You a Gambler?

You'll probably answer "no". You'll emphatically declare that you never risk your money on games of chance. That, however, does not give you a clean "bill of health" on the gambling proposition. The most dangerous, careless, unmindful, reckless gambler of all is he who gambles with his a clean "bill of health" on the gambling proposition. The most dangerous, careless, unmindful, reckless gambler of all is he who gambles with his future and the future appiness of his family. Are you staking those precious things—banking on your luck that the "dice of fate" will not turn against you? Are you gambling that the next throw will not bring to you, a fire that will wipe out your property, sickness that will abate your salary, a serious accident that will halt your earning capacity or even the extreme calamity of death?

Are You Gambling Against These Elements of Daily Occurrence?

and then, too, there are the smaller set backs. Someone may burglarize your house, steal your car, break your window glass or you may have an auto collison. These are all the chances you are taking every day unless you protect yourself with insurance. The premiums are so small and the risks so great that natural precaution, good business judgment and a proper sense of responsibility all admenish you to let a good reliable insurance company carry the burden of chance. Help the Kidneys in Time

END STOMACH TROUBLE. GASES OR DYSPEPSIA

"Pape's Diapepsin" makes alck, sour gasky stomachs surely feet fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, or you beleh gas and cructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-headache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by food fermentation.

Head and shoulders above the crowd stands Thomas A. Edison!

"Head and shoulders" above the crowd of ordinary phonographs and "talking machines" stands Edison's great contribution to the world's enjoyment-

THE NEW DIAMOND

No product can be bigger than the brain that evolves it. No other brain in the world today has the inventive ability of Edison's. That fact alone is sufficient proof of the absolute superiority of the Amberola.

But the Amberola can quickly and easily prove its own superiority. Its tone-oh, what a revelation, compared to metallic "talking machines" and shrill-sounding phonographs! None but Edison could workthat miracle of tone.

Then the Amberol Records, made for the Amberola alonel They are practically unbreakable and everlasting what a contrast to the costly fragileness of other phonograph records.

And for range of musicthe widest in the world-all

the best, all the greatest, all the latest. An endless feast of fascinating melody.

Yet the biggest surprise of all is the price! This wonder phonograph costs less than inferior competitors! There is not a single draw-back to your owning an Amberola right nowl

Don't listen to the claims of other manufacturers-listen to their machines. Then come in and compare the matchless tone of the Amberola. Edison's wizardry will win you every time.

We'll expect you in today now don't forget.

"You could get drunk on fresh bread if you could eat enough of it at one time," said a chemist to a woman cus-

"I don't believe it," the woman an-

"And yet it is a fact," the chemist pursued. "It used to be thought that the alcohol which bread in its ferment-ing generated all passed out in the baking, but Thomas Bolas, a distinguished scientist, proved that bread after it is ready for eating still contains alcohol. I myself analyzed the other day twelve loaves of fresh bread and found that they contained on the average alcohol in the proportion of .314 per cent. When, therefore, you have eaten 100 pounds of bread, you have consumed five ounces of alcohol. That is quite as much alcohol as you would get in a

pint of whisky. "You, madam, eat, I fancy, about 350 pounds of bread a year. That is 3,500 pounds in ten years. In those 3,500 pounds there are 175 ounces of alcohol, which is the same as seventeen quarts of whisky. Think of it! Every ten years you consume seventeen quarts of whisky with your bread!"

"I don't believe it," said the woman.

Lunaey and Gentus. "Is there any sure test by which a fool can be distinguished from a wise man?" asked a pubil of Esquirol, the well known specialist, and the latter replied by inviting him to take breakfast with him the following morning When he arrived, the pupil found two other guests, one of whom was elegantily dressed and apparently well educated, while the other was rather uncouth, noisy and extremely self confident.

After breakfast the pupil rose to take leave, and as he shook hands with Esquirol he said to him: "The problem is very easy after all. That quiet, well dressed man is certainly distinguished in some line, whereas the other is un-doubtedly a lunatic and ought to be

locked up."
"You are wrong, my friend," replied Esquirol, with a smile. "That quiet, well dressed man, who seems to talk so rationally, has for years labored under the delusion that he is God the Father, whereas the other man, whose exuberance and self confidence have surprised you, is M. Honore de Balzac, the greatest French writer of the day."

Some Odd Spelling. Americans, says the London News, employ the word "Britisher," which they invented, in a contemptuous sense. It was a certain Philadelphia wit who is said to have asked his friends what **AUTOMOBILES** a "Britisher" would mean to convey by a "Briusner" would mean to convey by the written word "ghoughphtheight-teeau." He had to explain to them that, according to the genius of the English language, it meant "potato.
