Two interesting documents were shown The Advertiser reporter today by General Manager E. V. Buchanan in the form of letters to him seeking for business. The first was an instance of enterprise on the part of a big firm formerly concerned in the production of spirituous refreshment, which had, and indeed still has, a worldwide reputation. Prohibition has struck a death-blow at the former industry of the company, but instead of going under, as many firms have done, this one has entered the metal-making business, making a specialty of producing nickel and nickel alloys in forms much used in the electrical business.

The second letter was from a German firm offering all kinds of electric lighting apparatus. The letter says: "These goods are fully equal to the best British makes, and must not be confused with the cacap continental goods." Every inducement toward the best British makes, and must not be confused with the cacap continental goods." LIQUOR VALUED AT \$15,000 IS

William Morton Fined \$3,600 For O. T. A. Breaches At Border.

WINDSOR. May 11 .- Liquor con-Ascations ordered by Magistrate Gundy in police court today involved 275 cases, valued at approximately \$15,000.

On 17 charges of violating the Ontario temperance act, William Morton was fined \$3,600 and costs of \$288. He pleaded guilty to all charges. The charges arose out of information given license department inspectors by J. Neil Mitchell, who admitted having received a \$1,000 tip from Morton for withholding waybills on 16 shipments in-volving 500 cases of liquor. Morton after the fines were imposed, gave his personal check for the full amount.

The liquor was valued at \$25,000, and

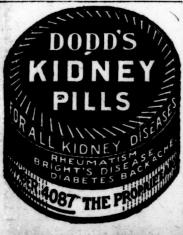

has not been seized by the license department. It was removed from Do-minion Express car No. 5533 without their knowledge on May 1. Official confirmation of most of the changes in customs and tariffs is ex-

pected here this week. Instructions

regarding alcoholic liquors were re-ceived today. Frank Reid, Detroit, admitted in police court today that he forged the name of Dr. James Gow to a prescrip-tion form and took it to the Government vendor's office, where the forgery was discovered. He was fined \$200 or three months in jail.

AN EARLY ELECTION. An election in September is by no means beyond the realm of possibilfty. Bad fortune in the pending byelections in York-Sunbury and Yamaska may bring it on. Both among Government and Opposition forces a realization is being reached that organization should be proceeded with at once, and that candidates should be got into the field as soon as possible. Government organization throughout the Dominion is in a somewhat chaotic condition, never having been properly revived since the formation of Union Goverment. Liberal organization, saving in Quebec, the Maritime Provinces, British Columbia and many parts of Ontario, is also badly lacking. The problems which he has to face are too big for his cabinet, and they will become more cil is on good ground, and it is to acute before they are finally solved. Germany has proved herself to be

an adept in the art of bluster and bluff, and when this did not have the desired effect she shed crocodile tears and called upon the rest of the world to witness how badly she had been treated, but, as an antidote to her bluster there stood Marshal Foch with the men of France in a solid phalanx behind him, and as a remedy for her bluff there were the clear-cut and unequivocal replies of Great Brittain's prime minister, Mr. Lloyd George. MINISTERS AND THE MOVIES

Amongst the subjects dealt with at the convention of the Social Service Council of Ontario which has just concluded its sittings at Peterboro, was that of casting ridicule on religious leaders or religious work. This matter arose in connection to prejudice their cause in the eyes of with the report of the motion picture and theatrical committee, in which the question of the elimination of Council, they might have obtained a objectionable features was discussed. BIRD NOTES (Contributed by Mctiwraith

thological Club.

The best times to see and hear the birds are the early hours of the morn ing, and then again toward evening. Birds in their migrations usually make their flights at night, thus it happens that during the migrating season each morning brings its new arrivals, and there is a peculiar enchantment for the bird student in keeping track of these. It is very interesting to keep the dates of the arrivals of the different birds each year in a certain locality. The writer has kept a record of the arrivals as observed about his garden for a number of years, and enjoys very much comparing one year with another.

Some of the birds that usually tarry with us for a week or two on their way north have made only a very short stop this year. The Hermit Thrush was only noticed for one day, and White-Throated Sparrow stayed but a day or two.

It was good to welcome the return of the Warbling Vireo, which never ceases to pour forth his cheery warble as he hunts for insects among the leaves of the taller trees. The Baltimore Oriole also greeted us yesterday morning, and the Least Flycatcher is here, calling "Chebeck! Chebeck!" from the treetops, darting out after some un-wary fly or insect, and then hopping about the branches as if hunting for a nesting spot, which we hope it will find in one of our trees, as it has done other years. The Rose-Breasted Gros-beak, with its full, rich song, and the Cathird, one of our best singers, are But of that row of cedars stiff and the latest arrivals. THE CAUSE OF BACKACHE

Many People Think It Is Due to Kidney Trouble.

Every muscle in the body needs con stantly a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment, and the result is a sensation of pain in those muscles. Some people think pain in the back means kidney trouble, but the best medical authorities agree that backache seldom has anything to do with the kidneys. Organic kidney disease may have progressed to a criticial point without developing a pain in the back. This be ing the case, pain in the back should always lead the sufferer to look to the condition of his blood. It will be found in most cases that the use of Dr. Williams' Pink Pills to build up the blood will stop the sensation of pain in illnourished muscles of the back. How much better it is to try Dr. Williams How Pink Pills for the blood than to give away to alarm about your kidneys. you suspect your kidneys, any can make tests in ten minutes that will set your fears at rest, or tell you the worst. Children Cry For CASTORIA A Word About Truth.

"Great is Truth, and mighty above all things." So says the Old Testament, yet it is equally true to-day. Truth shows no favors, fears no enemies.

From the inception of Fletcher's Castoria, Truth has been the watchword, and to the conscientious adherence to this motto in the preparation of Fletcher's Castoria as well as in its advertising is due the secret of its popular demand.

All imitations, all substitutes, all just-as-good preparations lack the element of Truth, lack the righteousness of being, lack all semblance even in the words of those who would deceive.

And you! Mothers, mothers with the fate of the World in your hands, can you be deceived? Certainly not. Fletcher's Castoria is prepared for Infants and Children. It is

distinctly a remedy for the little-ones. The BABY'S need for a medicine to take the place of Castor Oil, Paregoric and Soothing Syrups was the sole thought that led to its discovery. "Life" and "The Drum" were also ineluded in this group, the latter a very dramatic song, in which can be heard the beat of the drum for the dead sol-

VERDICT OF NOT, GUILTY FOR DR. FAED

Acquitted in Manslaughter Trial in Connection With Miss Monica Kenney's Death.

SECOND CHARGE IS LIKELY

Mrs. Emily Bond Died Under Similar Circumstances About the Same Time.

TORONTO, May 11.—Dr. Percy Faed. charged with manslaughter in connec-tion with the death of Miss Monica Kenney of this city on January 8 last, from the effects of a strong drug administered by the accused, was found not guilty by a jury at the assizes here this afternoon. Another woman died under similar circumstances about the same time, Mrs. Emily Bond, and Crown Counsel Gordon Waldron anounced that in connection therewith a second charge of manslaughter would be laid against Dr. Faed. The doctor was thereupon released on bail.

Dr. Faed accepted the verdict of not guilty without any display of emotion. Throughout his trial he had shown no apprehension as to the outcome, though he seemed to appreciate the seriousness of his situation.

Must Not Relax. Following the announcement of the verdict Mr. Justice Kelly, the presiding judge, stated that he did not wish the decision to be regarded in any way as condoning any relaxation of care on the part of physicians in the discharge of their duties.

At the resumption of the trial this morning Mr. Justice Kelly gave his decision on an application by the de-fendant's counsel, J. M. Ferguson, just at adjournment yesterday, for a nonsuit, which his lordship refused.

Dr. Faed testified in his own behalf.

Will Be Different.
Mr. Justice Kelly, the presiding judge, pointed out that this trial would be different from the trial of the Garfield brothers at Woodstock, because there one defendant had made a confession without the knowledge of the other. In the present case there had been no such confession, he said.

When the crown prosecutor announced that the accused would be tried sep-arately, the judge having consented to this, McFadden was led from the prisondock and taken back to jail. In court room he appeared the cooler of the two prisoners, and as he was being taken away he smiled faintly at some persons whom he recognized.

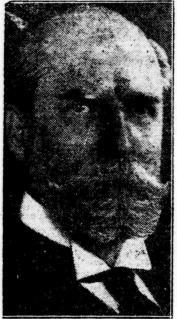

Family at Doors.
William McFadden's grey-haired, sorowing, anxious mother, and his sister linked arm in arm, accompanied by a brother of the accused, waited at the outer door of the courroom before the case was called. They had come down from London, Ont., to hear "Bill's" trial, the mother said, with a sigh. They waited in the hope that William would

come out. "I want to see my boy." the mothe said softly. She said he had always been a good boy.

"Oh, if he had only come home when he was out of work, instead of getting mixed up in this trouble," she exclaimed.

Mrs. McFadden said William had written to her twice a week since his ar-rest. He had told her in his letters right in the end. "We are going to stick together," she said. The sister of the accused remarked sorrowfully: "He was

the lowest in six years. The weakening market has been due to the poor export demand.

Not in eight years have hog prices been so low. There was another general decline all over Canada and the United States on Wednesday. They now sell at the local market for \$9.50 and \$9.75 per cwt; fat sows bring \$4.50 @4.75. There was a heavy shipment to Toronto on Wednesday. Buyers and market officials are of the opinion that there will be a big slump in all lines of meat owing to the passing of the Fordney bill by the United States Government. One buyer predicted that live hogs would be selling at \$6 per cwt in sixty days time.

Oats also took a decided slump. They now bring from \$1.35@1.40 per cwt, and 46@48c per bushel. This is the lowest oats have been for some time.

Egg prices were also lower. Wholesale they bring 26c per dozen and 30@32c retail. There was a fairly good demand today.

Heavy supplies of vegetables were offered, and this was responsible for a drop in the price of asparagus and rhubarb. The former now brings from 90c @\$1 per dozen, or from 10@15c per bunch. Rhubarb sells for 40@45c per dozen. Potatoes were in poor demand. Apples were plentiful, but the demand was slow.

Downing, the assistant in Grace Hospital laboratory, had calculated the price of the drugs, as had been stated in evidence. It was Dr. Brodey who had figured out the price, he said.

Looked at Tubes.

Dr. Faed admitted that he had administered diarsenol and had looked at the tubes before he prepared the drug for administration in the case in question, but said he did not think, as the crown counsel suggested to him, that the dosage was marked across the face of the box of every tube. It was always on the cover, though, he said. He admitted having thrown away the tubes two hours after he had learned of the death of Miss Kenney.

The same peculiarity is noticeable in the more ardent lovers of Charles Lamb. Lesser lights burn quite as steadily. Pope and Goldsmith re-appear on the lips of people whose owledge of the "Essay on Man" is of the very haziest character, and whose acquaintance with "She Stoops to Conquer" is confined exclusively to Mr. Abbey's graceful illustrations. -Do Your Share for the United Welfare Fund

It's easy enough to say "No"-if you don't stop to think it over. If you do realize what the United Welfare Fund is for, you'll find it hard to say "No"-a "No" to the United Welfare canvasser puts one in the class of the duty shirker.

This week is the one week in the year you are asked to contribute toward the upkeep of the organizations and societies that conduct the welfare work of the city. In one donation-no matter how small-you can do a bit toward caring for the orphans and the aged, cheering the sick and the infirm, saving the babies, providing friends for the friendless, and building up the young manhood and womanhood of our city. Fifteen welfare organizations of the city will benefit by what you give.

The canvassers who call on you are all business and professional men of the city who are devoting some of their working hours to this good cause. They have taken this time so that all the welfare societies of the city can make their ap= peal together, so that the old method of many appeals throughout the year can be abolished.

Figure out how much you can give. Divide your donation into monthly or quarterly payments as you desire-and have your card filled out ready for the canvasser.

Allotment of donations to one or more societies or or= ganizations is permitted but not encouraged.
