

The Senate of France
science, based upon Practice and Experience,
has given its verdict in favor of

DR. BIRNBAUM'S Rheumatism and Gout Remedy

Which is prescribed by the leading Physicians in Europe
as well as on this Continent, for

**Rheumatism, Gout, Neuralgia, Lumbago, Wandering
Pains, Stiffness in the Limbs or Joints, Sprains,
Swellings, &c.**

In Canada it is particularly recommended by the following prominent Physicians of
Montreal, including Professors of McGill, Victoria and Bishop's College Universities:

Professors **SMALLWOOD, PELTIER, MUNRO, DAVID, LEPROHON, GIRD-
WOOD, JOTOT, ROBILLARD and BROUSSEAU, and Drs. BESSEY, McDON-
NELL, McCALLUM, SELLEY, THOMPSON and TURGEON.**

It was applied in the Military and Civil Hospitals of Germany, and has rendered the most valuable
services during the late Franco-German War, where so many Soldiers and even Officers of the
highest rank were suffering from Rheumatic Affections, and it is now universally considered the
most effective and reliable remedy for the above mentioned diseases. Send for Circular with Cer-
tificates of Physicians.

Sold by all Respectable Druggists, in Bottles at Fifty Cents and One Dollar.

It Cures the Physicians!

Send the following Certificates from two Physicians of long experience and extensive practice,
taken from among many others:—

From DR. DUNCAN McCALLUM:

I, the undersigned, have been suffering very much for the past two years from Rheumatism in
the Ankle Joint, so much so, that I was often prevented from attending to my calling; but three
applications of "Dr. Birnbaum's Rheumatism and Gout Remedy," gave me that relief from pain and
inflammation which I did not experience for the last two years, and, after eight days' use of this remedy,
I feel myself entirely cured. I owe this statement to the public, to the profession, to the merits
of that genuine article,
Montreal, March 25th, 1872.

DUNCAN McCALLUM, M.D.

From DR. JOHN B. SELLEY:

Having used "Dr. Birnbaum's Rheumatism and Gout Remedy," I willingly concur in the testi-
mony given in its favour by the medical gentlemen above named.
Montreal, October 24th, 1872.

PREFACE.

IN presenting this their first edition of "THE TORONTO DIRECTORY FOR 1873," the Publishers feel happy in acknowledging the very liberal support they have received; they most sincerely thank their subscribers for their patronage and would state that every effort has been made on their part to make it worthy of the same,—neither expense, pains, nor labor having been spared to make it complete in its several departments. Trustworthy Agents were engaged in taking the occupations, names, and general information embodied in the work, all of which has been carefully revised by Mr. Cherrier himself previous to being put in press. It has been compiled in the most condensed form, as the real value of a Directory consists in giving the greatest sum of information in the smallest possible space, and they here would remark that the "Street Directory," which has been set up in three columns, contains the names of 272 streets, making an increase on former publications of 72 streets, 50 of which are built upon. This they here mention as a proof of the correctness of this issue.

A Miscellaneous Directory of 37 pages, the most complete yet published in a Directory of this city, has been compiled with special pains, and will be found of much local interest.

In the "Advertisers and Subscribers Business Classified Directory," containing 26 pages, great care was bestowed in classifying all business men in general, so that all might benefit by the advantages derived therefrom.

A DESCRIPTION OF THE CITY, of its wealth and prosperity, has been written especially for the work, and great care has been exercised in its preparation, in fact every portion of the work has had the most careful supervision.

Directories of the surrounding villages of Toronto have also been added. It has been the aim of the Publishers to make "THE TORONTO DIRECTORY" not only a work of credit to themselves, but also to the "Queen City" of the West, and in supplying a handsome as well as a useful and valuable book, they hope to receive for their next edition the favor of the public in general, their patrons and advertisers.

It is their intention to make "THE TORONTO DIRECTORY" a yearly publication, of increasing circulation and proportionate value.

Due notice of the next edition will be given.

In taking leave of the public till next year, the Publishers take this opportunity of tendering their thanks to the PRESS, to the officers of the Government, City Corporation, Societies, Companies, Clubs, and public institutions, for their readiness in giving their Agents the necessary information.

TORONTO.

The Queen City of the West and the fair and prosperous capital of Ontario is situated on the north-west shore of Lake Ontario, county of York. The city faces a spacious bay. From a distance it presents no striking aspect, owing to its site being rather flat, but on nearing it, especially from the lake, it gradually unfolds itself. Magnificent buildings come into view, topped by the domes and spires of the churches and public buildings, giving it an imposing and picturesque appearance. Little more than half a century ago it was not. Where straight and spacious streets now intersect each other, showing at every opening some building inchoate or complete which would not be out of keeping with the surroundings in London or Paris; where lofty stores and warehouses are rising almost hourly; where large and handsome churches tower to heaven; where in the midst of a handsome Park there gleams "a college which might stand in the High street of Oxford," there, within the memory of men still living the sportsman shot wildfowl. It required no extraordinary perception to appreciate the value of Tamarac swamp as a site for a city, and nature may be said to have guided the choice of Governor Simcoe. Standing in the midst of a wealthy agricultural country Toronto is a great and growing market and forms a connecting link between the old world and the daily-developing resources of the vast west. From the lake the traveller beholds a city carefully laid out, rising gradually to the horizon, and diversified and dignified by spire and tower and domes. Even new comers to our shores can see how rapidly the city is progressing. Within a few years some of its most conspicuous buildings have been put up; and every twelvemonth sees its proportions and its attractions increased. In 1819 the "city" lay east of the present market place. But in a very short time it began to grow westward, and its growth has steadily continued in that direction. Up King street towards the setting sun the stores gradually crept. Then the streets were laid out. That portion of the city now known as Queen Street was then Macaulay Town, while the portion west of Yonge street was called the New Town. Where the Metropolitan Methodist church stands Captain McGill owned a farm, and there was a hay barrack on the site of the Roman Catholic Cathedral. In 1829 there were only seven brick houses in the entire place, and what would now be sneered at as a miserable shanty was considered an important and comfortable, if not an imposing edifice. But the great forward impetus did not come until some twenty years ago the first shriek of the railway whistle was heard, and ever since that the city has advanced with giant strides, and taken no small part in the development of the North-west, in the *exploitation* of which the future wealth of Toronto will be found. Some idea—but by no means a commensurate idea, of the vast business done in the city, may be gathered from the fact that the dutiable goods imported for the twelvemonths ending the 30th June, 1872, amounted to \$11,127,193; free \$1,970,102; total, \$13,097,295.

The principal street is King street. This is at once the great business route and the fashionable promenade of Toronto. Magnificent stores are to be

seen on either side. In this street stand the offices of the three leading journals of the Dominion—the *Globe*, the *Mail*, and the *Leader*. King street stretches east and west in a straight line as far as the eye can see. Yonge street is, from a business point of view, a formidable rival, and runs northward into the country. In the streets lying to the north of King street and running parallel to or at right angles with it, are many private houses, which are models of tasteful domestic architecture,—Jarvis street being especially well built. In the summer time a brisk walk northward will bring the visitor into streets newly laid out, and where houses are being erected on ground lately redeemed from the forest.

Amongst the churches, St James's Cathedral, facing on King street, stands first, and is indeed a fine specimen of Gothic architecture. The original church was built of wood at a cost of £1,200, a square of six acres being apportioned for the use of the settlers in 1803; a steeple was added in due time. In 1832 the wooden edifice was replaced by a stone building capable of seating 3000 persons. This building was burned on the 7th April, 1849, and in ten months afterwards the present structure rose upon its ruins. The internal height of the nave is 70 feet, and of the aisles 35 feet; length 200 feet; width 115 feet. The chancel, which is semi-octagonal in form is pierced by windows of the transition period, and the graining and general ornamentation in keeping with the Gothic character of the building. The church can accommodate 2,000 persons. The spire is not yet put up.

Scarcely inferior to this in beauty and finish—if indeed at all inferior, is the Metropolitan, the largest Methodist church in the world, it is said. It will accommodate 3,000 persons, and, though presenting a slightly gaudy appearance outside, is yet a fine specimen of florid ecclesiastical Gothic. The inside is characterised by beauty, neatness, and light.

The Roman Catholic Cathedral is a chaste structure outside, and a great addition to the beauty of the city. It is gorgeously ornamented inside, and with the exception of the Jesuit church in Montreal, the handsomest church in Canada. Of St. Paul's church, Trinity church, St. George's church, Knox's church and many others, it is enough to say that there is not one of them which would not adorn any town or city.

The St. Lawrence Hall, erected in 1850, is a very fine building. It will accommodate a thousand people, and is well calculated to subserv the purposes for which it was intended. In its rear runs the St. Lawrence market and arcade, 200 feet in length by 39 feet in breadth, with stores arranged on either side. At the southern end there is another front consisting of general stores. The northern front of the St. Lawrence Hall extends along King street for 140 feet. The hall is well finished inside. The front is of cut stone, and in that order of architecture known as Roman Corinthian. In the handsome cupola there is a fine-toned alarm bell, weighing 2130 lbs.

The City Hall, a building in the Italian style, with a frontage of 140 feet, and two wings, extending a length of 178 feet to the bay, was erected in 1844-45 and completed in 1857, at an aggregate cost of \$13,000.

This is the new post office, and will be, when finished, for completeness of architectural beauty, capable of comparison with any building in any city on the continent. On our left is the present post office, which has been condemned, a building of the Ionic style, with a frontage of 48 feet, and a depth of 90 feet.

Still passing up King street to the west we find ourselves at the Rossin House, which faces on York street. This is a very fine hotel, extending along York street for 150 feet, and 200 feet along King street.

"The Queen's" and the Rossin House are the two first hotels in Toronto. The outlook from the Queen's is pleasant, as the front windows command the bay and lake. Both these hotels will compare with anything in the Dominion. The "Mansion House," "American" and the Revere House, on the corner of King and York streets, are also very good hotels.

The Houses of Parliament, which are exceedingly old-fashioned, being built of red brick, and partaking of the appearance of a small terrace of private dwellings, occupy the whole block bounded by Wellington, Simcoe, John and Front streets. They face the bay. The Chamber of the Legislature is a handsome room, and there is a library attached which possesses a goodly assortment of standard books.

To the North-east of the Parliament buildings is the Government House, —a fine building—entirely palatial, as it should be.

Proceeding Northward and then along Queen street to the East we come upon the Lunatic Asylum, a spacious building which has recently been enlarged, the lofty dome of which may be seen from the lake at the distance of 30 miles. This institution was erected about 23 years ago, a lot of fifty acres of land on the garrison common having been granted for the purpose. Two new wings, giving it a capacity of about double what it was, have been recently erected. It is constructed of pale yellow bricks, with cut stone plinth belt, cornices and window dressings. The gutters are of copper, and the roofs covered with tin. "The chief architectural feature about the building consists" says a writer in the *Globe*, "of a hexastyle portico in the Grecian Ionic order, of cut stone; the columns are raised upon a lofty rusticated base, occupying a story and a half in height, with two handsome flights of stone steps, and bold stone landing; the tympanum of the pediment is ornamented with the Royal Arms in *bas relief*. The centre building is surmounted by a lofty dome covered with tin, (which can be seen for thirty miles on the Lake,) within which is the wrought iron tank or reservoir, capable of containing eleven thousand gallons of water, which is pumped up daily from the Lake by a steam engine.

Trinity College is situated on Queen street West, nearly opposite the Lunatic Asylum, and is devoted to the Church of England. It is in the third period of English architecture, which prevailed in the fourteenth and the beginning of the fifteenth century. Its rooms and chapels, enclosing a quadrangle of 170 by 120 feet, are fitted up in the very best style. The university of this College confers no degrees unless the candidate declares on oath that he is sincerely attached to the Church of England.

Osgoode Hall cannot fail to attract the returning visitor;—a long two-

storied building with two large projecting wings faced with stone. This is the Westminster Hall, Temple, and Chancery Lane of Toronto, all in one; and indeed it does well for English lawyers if their courts were as roomy and as well ventilated as those to be found in Osgoode Hall.

We have already alluded to the University buildings in the Queen's Park whose massive Norman tower, rising from an architectural square which, when Toronto becomes all that fate has in store for it, will yet be conspicuous for its beauty, adds greatly to the ornamentation of the city. The style of the building is Norman Romanesque, and is of a massive, imposing character.

The Queen's Park is a very fine, picturesque, open space, with an artificial lake in the midst nicely diversified with hills and timber. As time goes on and the trees grow the park will become magnificent.

The Queen's Statue stands in the park immediately inside the entrance at the junction of the two avenues. It is in bronze, and stands on a wooden pedestal, the city not having yet bought it from the architect.

Here too stands the monument to the brave men who fell fighting filibustering Fenians at Ridgeway. It is surmounted by a figure of Britannia. On one side is Grief, and on the other Resignation. The figures of an infantry soldier and a volunteer complete the monument, which is not a model of the skill of the statuary. The whole is surrounded by a *cheveux de frise*.

The observatory is also in the Park, hard by the University, and is fitted up with all modern appliances.

To the west of the entrance to the Park is the cricket ground, one of the prettiest in the Dominion.

The legislature in 1850 appropriated £15,000 for the purchase of a site and the erection of buildings for a model school, and an additional £10,000 in 1852; making in all £25,000. The corner stone of the building in Church street was laid on the 2nd July, 1851, by the Earl of Elgin, and the premises were formally opened on the 24th November, 1852. The building, which faces Gould street, is flanked on the left by Church street, and on the right by Gerrard street. The front is in the Roman Doric order of Palladian character, having for its centre four pilasters of the full height of the building, with pediment surmounted by an open Doric cupola of the extreme height of 95 feet. The principal entrance is in this front, the male and female students entering at the east and west sides respectively. The large hall in the centre, open to the roof, and lighted by a lantern, is used for a lecture hall and for the annual examinations; the body of the theatre being able to accommodate 470 persons and the gallery 150. The class rooms are large and well ventilated, and the whole building is warmed by hot air. The pictures are copies, but are worth seeing. The normal school and model are in one building, and both schools are capable of accommodating 400 children.

The garden round the normal school is exceedingly pretty and well kept.

The visitor should see the Horticultural gardens which though not large are in every other respect worthy of Toronto. It is situated between Gerard and Carlton streets.

the supervision of an inspector. The system is undenominational, but the Roman Catholics may have separate schools if they wish; and availing themselves of this provision they have schools of their own, and are not taxed for the maintenance of other schools.

The theatre is small and imperfect, but it is a great improvement on what it has succeeded; and a new theatre will soon rise immediately behind it, while an opera house of a character worthy the city will also rapidly come into existence if we may depend on the important names which appear in support of the undertaking.

The fire alarm system is very perfect. There are boxes at certain corners, the keys of which are near, and in a few minutes after a fire appears a bell is rung which tells the whole city in what quarter the flames are breaking out.

The city is also well served by the Montreal and Dominion Telegraph Companies.

One of the largest distilleries on the continent is Gooderham & Worts'.

The new jail is a large stone building across the Don without any architectural pretensions.

The emigration shed is entirely—office and all—of wood, and is well arranged and managed.

The city is supplied by five systems of railway—the Grand Trunk, the Great Western, the Northern, the Grey & Bruce, the Nipissing; and to these will soon be added the Credit Valley.

The new Union Railway Station rising in the south-west will be one of the handsomest buildings in the city.

Near the Asylum are the old and new forts, the latter built substantially of stone.

The three principal places of interment, are, the Necropolis, the St. James', and the Roman Catholic Cemetery. The St. James' Cemetery is very beautiful, and has an air of seclusion which adds to its impressiveness. The grounds are tastefully disposed, and separate spaces are allotted for the various Churches. Here one may see monuments as tasteful and as costly as in any graveyard in the old country. Flowers are strewn on the graves, and the whole scene is suggestive. The Necropolis and the Roman Catholic Cemeteries will also well repay a visit.

In addition to Roman Catholics, Episcopalians, Methodists, Baptists, and Independents, there are represented in Toronto by Churches the Plymouth Brethren, the Lutherans and the Swedenborgians.

Toronto has grown rapidly, and, as we have said, is marching forward with giant strides in the path of progress. We have only to walk through its streets to judge of its business energy, and to appreciate the fineness of the race which has built it up. Strong men and handsome women with fine, free, open, frank faces meet us on every side. There is no sign of poverty anywhere; purpose is written on every face, and comfort and prosperity are evidently allied with industry and enterprise. Yet a few years and what we have said will fall too short of what Toronto will be. She must grow with the province. All

the trade of the North West must enrich her, and the Queen City of the West is, we believe, destined to take its place side by side with New York, Chicago, and Montreal in business enterprise, in culture, in enlightenment, and in those amenities and agreeable innocent pleasures which give a zest and flavour to life in a great city such as can never be found elsewhere.

Distant from Hamilton 45 miles, from Niagara Falls 50 miles, from Collingwood 94 miles, from London 114 miles, from Kingston, 165 miles, from Ottawa 233 miles, from Montreal 333 miles, from Quebec 513 miles, from New York 500 miles, from Boston 593 miles, from Liverpool 3,083 miles. Value of assessed property in 1870, about \$27,000,000. Mail daily. Population about 70,000.

TORONTO FIRE ALARM TELEGRAPH.

DIRECTIONS TO KEYHOLDERS.

Upon positive information of a fire near your signal box, unlock the door, and pull the hook all the way down, once only, and let it go; then wait a few minutes, and if you hear no ticking in the box, or alarm on the bells, go to the next nearest box to the fire, and pull the hook in that box.

Never open the box or touch the hook except in case of fire.

Never give an alarm except from the box nearest the fire.

If you hear the bell in the box striking, it indicates that an alarm is being sounded, from some other box. In such cases do not pull the hook until the alarm is entirely finished.

Be sure the box is locked before leaving it. Never let the key go out of your possession, unless to some responsible person for the purpose of giving an alarm, or when called for by the Superintendent or Chief Engineer of the Fire Department.

Complaints concerning wires, &c., should in all cases be made at the Fire Alarm Office, Bay and Temperance sts.

GRAMMAR SCHOOLS OF ONTARIO.

Each of these schools (which form the intermediate link between the Common schools and the Universities) is managed by a Board of Trustees, appointed jointly by the county and town councils. In cities the trustees are all appointed by the city council, except where there is only one school in the county. The head master must be a graduate of a British or Colonial University, unless certificated and appointed by the 18th September, 1865. Besides fees, local rates or contributions to the extent of half the Government grant must be raised for the master's salary. The grant is payable to those schools only which attain a certain standard, and is based on the average attendance of pupils in the prescribed studies. An extra grant is provided for masters taking certain meteorological observations, and giving preparatory scientific military instruction. Pupils attending these schools are prepared for matriculation in the Universities.

There were 101 Grammar schools in operation in 1869.
