THE Advantages offered to the Public by this Institution are MANY and IMPORTANT, and the Rates of Premium quite as LOW as security to the Assured, and safety to the Office, will admit of.

The following are some of the advantages offered by this Society:—

The neculiar Benefits sectored to the Assured.

The peculiar Benefits

The peculiar Benefits secured to the by the principle of the LOAN Department.
One half of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on Interest, to be deducted from the Party on the death of the Assured.

Insurers can at all times demand; as a right, a Loan to the extent of two-thirds the amount of Premium they have paid—upon deposit of their Policy, and guaranteeing it will be kept in force. This important advantage removes the fear so many entertain of being obliged, through pecuniary emberrassment, to let their Policies lapse, and at a time such a provision is absolutely needed for their families.

No Charge for \$tamp Duty, nor for Medical Examination.

The Bonuses divided Annually, either in Cash, Reduction of Premium, or in addition to the sum Assured, whichever of these three ways the Assured may each year desire, after being a Policy holder for Four Years, at which period a Bonus is syable for the Four Years—Annual THIRTY DAYS allowed after

The President of the United States. The telegraphic despatch published by us yesterday morning, announced the dangerous, illness of the President of the Republic of the United States, General Zachary Taylor. It was reported in town at an early hour yesterday, that advices had been received of the fatal termination of the illness. Thus a brave and gallant soldier, and a illness. Thus a brave and gallant soldier, and a good and honorable man, estimable and beloved in every relation of life, has been gathered to his fathers, in a little more than a year after his elevation, by the free choice of a free people, to what is, perhaps, the proudest situation on this earth—the rulership over twenty-five millions of Anglo-Saxon freemen. Mr. Peter Yates, of Wisconsin, with his newly invented pully engine, threatens to revolutionize the old-fashioned engine. One of the most destructive conflagrations that ever occurred in this city was wirnessec yesterday afternoon and evening. The fire first broke out at 44. P. Two or three terrific explosions took place, originating, it is supposed, from about 1000 bags of saltpetre, stored in Buck's Warehouse, Delaware Avenue, which as completely filled with a mass of human eings, among whom were several hundred noble pletely filled with a mass o and gallant firerien. The first explosion did not seem to cause much excitement or .ear,—nor did the second, except some slight fears for safety, when they moved towards the eastern extremity the Wharf. The third explosion, however, was fatal in many cases, and caused the death of many men, women, and children. In Delaware Avenue and Water Streets the scene presented was fright and Water Streets the scene present.

Draw Siz.—I have great pleasure in stating to you my very favorable ophbou of the Plantagenet Water, so favorably known and extensively used in Montreal. During the prevalence of the Cholera, and in fact through the whole of last Summer. I used it with great advantage to my health. I still use it freely, and have been assured by many of my friends who have tried it, that they have fully experienced its beneficial effects upon their general health. I am, respectfully.

RADWAY'S READY RELIEF for pain, is truly a blossing to suffering humanity. The Laine are rejoided at its curative properties, for they can dispense with their crutches and walk. The Weak bless it as an instrument in the hands of Providence, for by its healing and strengthening qualities they become strong. The Bed-Ridden welcome it as a blessing from high heaven, for it relieves them of their pain and misery, cures their diseases, whether it be Rheumstism, Lambago, Gout, Paralysis, Strains, Burias, Seads, Sores, Sprains, and affections of the Sprine, or contracted Tendons, for by its use they are enabled to arise from their bed of ackness, and enjoy the pleasures and blessings of health. The Sufferer of Neuralgia and Tie Dolereux, welcomes it as their only remedy in relieving them of the cruel pains, shooting, like electric shocks, through the face, head, and system, paralyzing in an instant their energies and brightest hopes, for the Ready Relief, for it will cure the most torturing Tooth Ache in a few seconds.

So quick, powerful, and effectual is Radway's Ready Sequence. The Steward; a Romance of Real Life. By Henry Cockton. J. R. BOYCE, HAIR-DRESSER, PER-FUMER, and WIG-MAKER, in returnfew seconds.

J. FUMER, and WIG-MARER, in returning thanks for the liberal support he has received during the past year, in St. François Xavier Street, begs to intimate to his Friends and the Public in general, that he has REMOVED tomuch more convenient and extensive PRE-MISES, No. 157, Notre Dame Street, (West) where he trusts to receive a continuance of their favors. Helief in all cases where pain is caused by external injuries or internal derangengost, that it has relieved the most severe pains of Chronic Rheumatism during one application of the Relief.

If S SUPERIOR STRENGTH.

RADWAY'S READY RELIEF is also the most economical Medicine in-use; it can be used with the most happy results, both internally and externally. Cramps in the Stomach. Colic, or Cholera Mortus, are relieved in ten minutes, and cured entirely in fifteen or twenty. Also, if you wish to make an Unitinent of it, for the cure of sore Lips, Chepped Fiesh, Pustular Eruptions, take a teaspoonful of the Relief, and a table-apoonful of Sweet Oil, or tog, of Lard, and you have a better Oilment or Salve than my other article now in use.

In fact, this Medicine, when reduced to two-thirds its own strength by adding as much Spirits of Wine, will give you better Liniment than any now in rese.

See that each bottle bears the fac smile signature of Radway & Co., note other is genuine. Price 25 cents, large bottles.

ANALYSIS OF THE ST. LEON WATER. ANALYSIS OF THE S.F. LEON WATER. I HAVE submitted to analysis the Water from the Source of St. Leon, and find it to be strongly saline. It contains chloride of sodium in large quantity, with magnesia and lime, parily as carbonatea, dissolved by the excess of carbonic acid, and parily as chlorids. Lake most of the other saline waters of the country, it contains bromine and loadine; in addition to which, I have detected, in small quantities, salis of barytes and strontia, which had hitherto been met with only in the waters of Vareanes. In its general characters, it is alied to the Sources of Caxton, Plantagenet, and the Intermittent of Caledonia,

donia, Trannagener, and the International Condina, The contents of one pound of 7000 grains, as calculated from my analysis, are as follows:—

PERPECT CURE AND NO MISTAKE.—We are committed to the committee of the commi PERPECT CURE. AND NO MISTARE.—We are about to write a voluntary statement of a cure recently effected by Dr. Wistars Baisam of Wild Cherry, which the Editor of this paper is willing to give under his own signature. We make it pro hono publico, as we have never seen the proprietor of this invaiuable medicine, and know nothing at all about him. About four weeks assue ont of the compositors in this office was suffering so hadly from a cough, that he was unable to steep nights, and too weak to stand at his case. He became very pale and thin, and gave symptome of falling a victim to quick consumption. We recommended to him various medicines which had no effect. Funily we gave him one bottle of WISTAR BALSAM OF WILD CHERRY; it afforded bim immediate relief, and he is now a well man, gaining in fiesh, with a ruddy complexion, and not the slightest symptom of a cough. These are fasts, and further particulars may be learued at this office. We should add that the cough was accompanied by profuse spitting of blood.

Craig Street. Analysis of Mineral Water of Point du Jour From Mr. Hunt's Analysis of the Water of the Mineral Spring at Point du Jour, near L'Assomption, I inter that it will prove a valuable addition to those already discovered in Canada.

It appears to be well adapted to cases of scrofula, diseases of the skin, gout, rheumatism, and dyapeptic complaints generally.

Mineral Water to be useful should be taken for the skin and when it appears to love its effect.

Mineral Water to be useful should be taken for some time, and when it seems to lose its effect, that from another spring should be substituted; and one not agreeing with an individual, another may act kindly and effectually. Weak and delicate persons should seek the advice of a physician with regard to the employment of these waters.— It would be a great blessing to the society if these productions from the laboratory of nature were to supersede the vile and heterogenous compounds, with which the world is cursed, under the name of "Patent Medicines."

of "Patent Medicines."

WD. NELSON, M, D. Montreal, 11th March, 1850.

I certify that I have used the Point du Jour Spring Water in my practice and have found it to act as a mild purgative and alterative. From the quantity of lodine it contains, it will, I doubt not, be tound useful in scrofulous diseases and in some form of syphilis, in addition to other remedies.

They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them; upon the contrary, they are found to improve and strengthen. The large sumber of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of who have given their written recommendation of the Waters, are here given. Sir.—Since you are desirous to ascertain the effect which the Waters of the Point di Jour Springs have produced on myself, I must inform you, that I have used them medicinally at their Source, and have found them highly salubrious. I was at the time so affected by the consequences of a severo disease of the Digestive Organe, that my Physician judged it right to suspend for a time all active remedies, even for the represents of Dysrepsis and an absolute Retention of the Bowels, under both of which I was suffering severely. He prescribed for my relief the Mineral Waters, and I made use of those of the Point du Jour, as being severely. It kept my feet. However, at the expuration of three weeks, I was restored by using the Waters. These Waters are of a gascous nature, containing a large quantity of saline particles, and agree-able in the unste—saken in a large dose they are strongly anxiets, but their purgative properties are unsttended with gripings,—those even who have been using them have not been weakened or enervated in their emstitution in consequence; upon the contrary, by using them they find their appetite increasing the urinary secretions at first, and that these decreased in the same proportion that the alvine secretions increased, The action of the assessment and sangunary systems were thereby then of the assessment and an insulated of finding myself secretions at first, and that incess decreased at the acproportion that the alvine secretions increased. The action of the nervous and sangunary systems were thereby
moderately augmented, and, instead of finding myself
morose and sad as I had been during some days before
then, I perceived myself involuntarily dispused to pleasure and gaisety. Many who, in the same circumstances,
made use of the Waiters by the recommendation of Dr.
Cazeneuve, experienced the same effects. To conclude,
I am of opinion, in conformity with the Anlysis made by
T. S. Hunt, Esq., that Physicians might employ it successfully in the same diseases for which the Plantagenet
Waiters are so judiciously recommunited,
Yours, respectfully.

Siz.—I observe with pleasure that the Minerai Waters, their source at Point du Jour, Parish of the Assomption, L'Assomption,) are acquiring the celebrity they deserve, For myself, who am, perhaps, one of the first that alluded o them in the newspapers, in the year 1868, I can testify, hat since then I have had occasion to try various Minerai waters, nevertheless I have never doubted that the pre-reince must be given to those of Point du Jour—having nyself had much experience.

The Proprietors have their Depot established at No. 6, Jacques Cartier Place, next door to the Hotel of Serafine Giraldi, Esq. The distance for conveying the Waters to the Depot is so trifling, that we are enabled to have a constant supply fresh, and are consequently in possession of a botter market than any other person. Prices, 74d. per gallon, and 2s. the dozen, (in bottles.) Sick persons, unable to pay for it, can have some gratis, by producing a certificate from their Physician, since we are unwilling that any should be deprived of these healing and wonderful waters, prepared by Providence for his creatures, which are apparently designed for the alleviation and cure of many protracted and dangerous discases.

From Belpast.]

No. 33, St. Lewis Street, near Donegenas' Hotel,

Beis to return his best thanks to the Public of Montreal, for the kind manner in which he has been patronsed for the last four years, and now craves a continuance of the same. He will carry on his Trade as formerly in all its branches, viz:—Dying all kinds of Silks, Satins, Crapes, Woollens, &c.; as also, Scouring all kinds of Silk and Woollen Shawls, Moreen Window Cuitains, Bed Hangings, Silks, &c., Dyed and Watered. He begs to state he has procured a new Patent Watering Machine for Watering Silks. Shopkeepers, Tradesmen, and others, who may require anything done in the above line, will find it greatly to their advantage to call on him. He also engages to renew the colour of all sorts of Woollen Cloths that has lost them, and to make the cloth look as when new. All kinds of Stains, such as Tar, Paint, Oil, Grease, Iron Mould, Wine Stains, &c., carefully extracted.

N. B.—As many of my customers are of opinion that I have opened another Establishment in Notre Dame Street, I wish to correct the mistake, by informing them that I have nothing to do with any place but the above, and that I have leased the same for six years from the 1st May.

Dn. G. W. HALSET:—I believe your Forest Wine and Pills have been the means of saving my life. When I commenced taking them, I land at the point of death, with Dropsy, Piles, and Asthma. My Physicians had given me over as past, cure, and my family had lost all hope of my recovery. While in this deadful situation, your Forest Wine and Pills were procured for me, and before I had finished the first bottle of the Wine, and box of Pills, I experienced great reliaf; my body and limbs, which were greatly swollen, became sensitly reduced. Hopes of my recovery began now to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was also nearly gone. I have continued the use of your Medicines until the present time, and I now enjoy as perfect health as ever I did in my life, although I am more than sixty years of age. I ascribe my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also used them with similar success in obstinate complaints, and I can sheerfully recommend them to the public.

Voure respectfully.

I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Palis, I had recours to the best medical treatment, but continued to grow worse to an alarming degree. Some of my freeds spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundreds who are dissuaded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertisements. But, what a pity it is that the deception used by others should be the means of dasuading many labering under disease, from making trial and being cured by your excellent remedies. Humanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in aix weeks from the time I purchased the Medicines, to the great surprise of all my friends, I was entirely cured, and had increased fitteen pounds in weight, having taken one box of the Pills and two bottles of the wine. Would to God that every poor sufferer would avail himself of the same remedies I Yours, &c.,
