ORANGE BLOSSOMS.

A Fashionable Wedding

One of those pleasant and ever popular social events, which never fails to awaken a responsive chord in the hearts of young people, was solemnized in the Presbyterian church, Atwood, on Tuesday evening, June 24th, the contracting parties being John Knox, of Atwood, to Miss Annie C., daughter of William Dunn. Hundreds of people wended their way into the spacious edifice, which presented a most entrancing appearance, decorated as it was with appearance, decorated as it was with the choicest and rarest flowers beautifully and ingeniously arranged to suit the trained tastes of the artists. To endeavor to describe the indescribable would be folly, we could but admire and adore the infinite wisdom and matchless handiwork of the God of the field and forest.

Shortly before 8 o'clock the exultant strains of Mendelsohn's Wedding March (played by Miss Climie) filled the place with gladness, softly blending its notes with the harmonious whole. Precisely at 8 o'clock two little maids of honor. Misses Belle and Flora Campbell, led the bridglapposession by the sigle, followed At 80 clock with the bridal procession up the aisle, followed by the bridal guests took their places in the three first seats in the centre of the church reserved for the purpose. T. M. Wilson and R. S. their places in the three first seats in the centre of the church reserved for the purpose. T. M. Wilson and R. S. Pelton, of The Bee, performed the duties of ushers. The officiating minister, Rev. Andrew Henderson, M. A., at once proceeded with the ceremony, and amid a galaxy of living beauty, in the company of her numerous friends, and on a delightful summer's evening, Miss Annie C. Dunn was made Mrs. John Knox. The bride looked very becoming attired in white silk. The usual congratulations were then exchanged freely, after which the bridal party drove to "Dunsmere Hall," the bride's home, where the wedding supper was partaken of. Following are the names of those who sat down: The groom and bride, Rey. A. Henderson, M. A., Mr. and Mrs. Dunn, Misses Alice and Miriam Dunn, Messrs. T. M. Wilson, W. Mitchell, R. S. Pelton, Atwood; Warren Hay, Miss Climie, Listowel; Mrs. R. J. Gray, Detroit, Mich.; Misses Ella F. Hawke, Uxbridge; Belle Sharman, Beckie Easson, Belle McKnight, Stratford; Mr. and Mrs. B. Knox, Atwood, and Mrs. T. G. Holt, Durham. Here the floral decorations were tastily arranged, in fact "Dunsmere Hall" presented the appearance of a conservatory of most exquisite beauty. Wreaths of orange blossoms, anchors made of cut flowers, etc., were here and there entwined with evergreens and flowers. flowers, etc., were here and there en-twined with evergreens and flowers, Tea over the guests repaired to the draw-ing room where an informal program was given, and together with social chat the evening was pleasantly whiled away.

The wedding gifts were beautiful, and gave tangible expression of the esteem in which the bride and her sister Alice (who accompanies Mrs. Knox to Colorado, where she will be wedded to C, H. A last (Friday) night's London cable gives the following proceedings of the court in the baccarat case: After the cross-examination of Mrs. Wilson had been finished the defence called Lord Coventry, who with General Williams drew up the incriminating document which was signed by the plaintiff. Witness stated that when on the evening of September 10th Mr. Lycett Green made the communication to him which was afterwards repeated in the presence of General Williams and Mr. A. Stanley Wilson he had felt, as those gentilems subsequently felt, that the Prince of Wales, having long honored the plaintiff with his friendship, they could not allow the Prince to continue that friendship without putting him in possession of what they knew of Sir William's conduct during the games of Sept. 8th and 9th.

Continuing, witness related the circumstances of the notorious interview with Sir William. When witness told plaintiff of the nature of the accusation against him the latter denounced it as "false," and asserted that it was merely the statement of a parcel of inexperienced boys who were unentitled to belief. Subsequently the MARD PATE OF A GALLANT PELLOW.

asserted that it was merely the statement of a parcel of inexperienced boys who were mentitled to belief. Subsequently the plaintiff had seen the Prince in company with the witness and General Williams, and had declared his innocence. To the declaration of Sir William the Prince simply responded. "There are five against you." Witness had himself told Sir William that Mr. Lycett Green wished to confront him, yet plaintiff had failed to express a desire to meet this accuser.

THE HINT TO GO.

Witness then said that when further stipulated to depart from the Tranby Croft residence early on the morning of the folresidence early on the morning of the col-lowing day, the document was signed by Sir William under the circumstances re-lated and was later forwarded to the Prince

The notebook of the witness was then The notebook of the witness was then produced, and Sir Charles proceeded to read therefrom. It was found that Lord Coventry's diary of events at Tranby Croft agreed in every material respect with his testimony as given in court. General Williams and himself submitted the paper for the plaintiff to sign. The latter had said, "This is tantamount to an admission of guilt; I won't sign." To this witness and General Williams replied, "That's so." There was nothing in the actions of Sir William on the occasion in question to suggest that he had lost his head. After the brief conversation related above witness

Here the defence rested its case. Sir Charles Russell rose to address the court. He referred satisfically to the altered tone of the court of the cour He referred satisfically to the altered tone of the prosecution since it had become familiar with the damning evidence presented by the defence. A London cable says: There was no diminution in the attendance at the baccarat trial to-day, though much disappointment was felt at the absence of the Prince of Wales, who had gone to the Ascot races. On the opening of the court Gen. Owen Williams, one of the defendants, arose and addressed the Lord Chief Justice, saying, My Lord. I have to ask your protection. The Lord Chief Justice—I cannot hear any statement from you, Gen. Williams.
The General then retired with an expression of displeasure at his rebuff.
The Lord Chief Justice then began his summing up of the evidence. It was noticed throughout that his charge was favorable to the defendants. The audience listened with breathless attention to the words of the address, upon the tenor of which so much depended. The court explained at length the differences between an action for slander such as this one, and an action for lield. His Lordship entreated the jury to keep their minds steadily upon the evidence. The extraneous matter which had been brought into the arguments of counsel must be eliminated from the minds of the jury in their consideration of the facts.

with Lord Middleton.

The charge of Lord Coleridge is regarded as unnecessarily severe against the plaintiff. The evidence was sufficiently one-sided without His Lordship throwing his personal interpretation into the scale against Cumming. The charge is pronounced by lawyers as practically an instruction to find a verdict for the defendants.

As Sir William Gordon Cummir

As Sir William Gordon Cumming entered his carriage the crowd raised a loud obeer. The demonstration was all the more noticeable from the fact that the Wilsons had driven off a minute before amid silence. The effect of the verdict is that Sir William must be cashiered from the sir William Gordon Cumming is about 45, younger perhaps, and a lieutenant-colonel in the Scots Guards, one of the crack regiments of the British service, their special duty to guard the person of the Sovereign. There are all kinds of traditions and legends twisted around his family tree, but as blood goes, blood in direct descent and alliances, the family of Gordon Cumming is better than that of the Prince of Wales. There was a De Comyn who was killed at the battle of Alnwick. Malcolm was also slain in the siege of Alnwick Castle, and De Comyns at his side—so we may know there was fighting blood in his family 800 years ago. There was likewise a Bruce—dear to all 5 Sootchmen—Robert the Bruce, a renowned fighting blood in his family 800 years ago. Cumming is an inherent sportsman. The Highland blood tingled in every vein. He seemed a part of the forest and the moor. He had dared the tiger in the jungle, the elephant in the Indian forests, and traced the Rocky Mountains and the Mexican Cordilleras in his craving for sport. He has won fame as a gallant soldier in the army, his daring deeds in the Scudan and Africa being matters of history.

WHAT THE PRESS SAYS.

WHAT THE FRESS SAYS.

The Sus says it was really a second affair of the diamond necklace, the accusation being of secondary importance to its surroundings. In our judgment no other verdict was possible. Gordon Cumming's signing the paper was damnable. It is a pity that the heir to the throne was at the baccarat table. The Prince should show a cleanly life to his future subjects. It is groteeque to have the Prince carrying about baccarat counters wherever he goes as a Moham-

to have the Prince carrying about baccarat counters wherever he goes as a Mohammeden carries his praying carpet.

The Telegraph eulogizes the judgment of the court and arges: pity with condemnation. It defends the Prince, although regarding him as indescreet, but thinks a generous world will forgive him for signing the paper of condonation.

generous world will forgive him for signing the paper of condonation.

The Chronicle condemns the jury's finding and the partiality of Chief Justice Coleridge, and says there is no evidence inconsistent with the hypothesis that Cumming merely played the well-known coup de trois. The Chronicle says that the verdict means, according to the jury, that Cumming deliberately coursed his illustrious but impecunious friend by a trick re-Couming deliberately coursed his litustrious but impecunious friend by a trick requiring long and tiresome years of practice to acquire. The Standard (Tory) says that if the plaintiff comes first out of the affair it must be admitted that the defendants and in the many that the samewhat tarnished.

The Times says the case is ended in the only possible way that an impartial jury believed possible. "We express the universal feeling of English men and women when we say we profoundly regret the connection of the Prince of Wales with the affair."

The Times almost wishes that the Prince of Wales for the sake of English society had also signed a declaration never to play cards again.

an action for slander such as this one, and an action for libel. His Lordship entreased the jury to keep their minds steadily upon the evidence. The extraneous master of counsel must be eliminated from the mainds of the jury in their consideration of the facts.

The tone of his address seemed decidedly in the plaintiff's favor. But when he proceeded to an analysis of the evidence given by General Williams, Earl Coventry, and the Prince of Wales, the effect was in the nature of an endorsement of their testimony. He dwelt at length upon Sir William Gordon Cumming's high position and brave career, and described his visit to Tranby Orott as an honored guest. Referring to the insinuations against the Prince of Wales, the Lord Chief Justice indulged in criticisms as a cheap way of gaining notoriety, it was noticeable that they were all very much pleased to have the Prince, Earl Coventry, and Lord This and That at their houses. (Laughter.)

While the jury were out Sir William Gordon Cumming showed no signs of aervousness, and sat quietly reading some letters. His friends, however, plainly betrayed their apprehension. The defendants were also uneary and anxious. When the verdict was announced Sir William dans were also uneary and anxious. When the verdict was announced Sir William was marvellously cool. Drunken Brutes Try To Hide Their Villan

By Arson and Murder. By Arson and Murder.

A Berlin cable says: A horrible outrage by a party of drunken youths was committed at Drossen, Prussia, a few nights ago. The party was carousing in Tohernow's inn, and finding the host convivially disposed, they plied him with liquor until he was helplessly intoxicated. They then locked him in a room, and after overpowering the barman and locking him up also, they assaulted Tohernow's wife and 14 year-old daughter. The fiends then locked the two women in a room, so that they could not escape, and set fire to the building, hoping thus to crass all evidence of the terrible crime they had perpetrated. In this, however, they did not wholly succeed, for though Tchernow was suffocated to death and the daughter badly burned, the flames were subdued by the aroused townspeople in time to save the landlady's life. She was able to give a good description of the miscreants, but as they had fled immediately upon setting fire to the place, they had succeeded in getting safely away, for the time at least. Young Woman Killed and Her Body Thrown Into a Well.

A Marquette (Man.) despatch says that James Tadgell, a farmer living near Woodlands post-office, left his house at 6 p. m. yesterday to attend a trustee meeting, leaving his sister in law and a young Englishman about 17 years of age, whom he was bringing up, at home. When he returned, about 7.30, he could find neither. On a search being made blood was found near the door, covered with earth, and also on the search being made blood was found near the door, covered with earth, and also on the curbstone, on the well, and on a pail of butter down in the well. On lowering a light into the well feet were seen projecting above the water, the body having been pitched down head first. Tadgell's watch and gun were gone. A neighbor named Edward Langley heard two shots fired shortly after 6 c'clock. There is no doubt the young Englishman is the murderer.

There was no insurance about this whatever, it was merely a huge pool in which the new comers paid the claims of the old at the rate of three to one, and it was a very simple arithmetical question to figure out the probable duration of the scheme, and the ratio of dupes to successful claimants. If you are a fatalist or even inclined to be superstitions there is food for reflection in the queer circumstances connected with the visits of a female patient of the Manhattan Eye and Ear Hospital, says the New York Herald. Three deaths have followed the woman's visits, and the physicians have caused to be wristen on the records after her name the words "fatal patient." Of course the doctors will not disclose the woman's name, for she is young and, what is more, is quite she is young and, what is more, is quite

The "fatal patient" came to the hospital about two years ago. She is suffering from a catarrhal affection of the throat and was therefore sent to the throat department of the institution. In the room are desks ranged about, which are termed cabinets. Dr. Charles G. Johnson, at that time, was in charge of cabinet D, to which the young lady was assigned.

Dr. David Phillips returned to his home at number 181 East Eighty-sixth exceet, that evening and dressed himself, preparatory to dining out. After having cined he made some professional calls. He returned home late and before retiring complained of not feeling particularly well. He did not appear at breakfast Thursday morning.

His mother looked into his room and saw him lying in bed, as she thought, fast asleep. When luncheon was ready, at 1 o'clock, an effort was made to awaken Dr. Phillips. It was found that he was dead. "Mrs. Partanbridge? Oan it be possible?" and hospitable little Mary Mickleberry dropped her work and hastened to greet and welcome her new guest, the paragon among women, the neek and slowly and well-trained wife of the doughty Job. Mrs. Partanbridge came into the room with the tread of a giantess and the aspect of an Amazon. She was a tall, large woman, red-faced and resolute, with the faint shade of a mustache on her upper lip, and a deep voice like that of a grenadler, and she wore her cloak as if it had been a man's overcoat, the two sleeves tied around her neck, while her sailer hat would have been a snug fit for her huswould have been a snug fit for her hus-

Job hasn's no more wit than a yellow dog when he's left to himself—you know you haven't Job, so you may just as well leave off opening and shutting your mouth like a newly landed fish—and I mean to be boss myself, Job!"

Moses Mickleberry went home and told his wife all about what Partanbridge had said. Mary laughed and colored, but she was a little angry withal.

"I wish Mr. Partanbridge would mind his own business," said she. "I'm tired of hearing about 'my wife.' She must be a goor, spiritless concern."

THE NEWSPAPER.

And What People Think They Have a Right to do with It.

Julius Chambers, editor of the New York

Julius Chambers, editor of the New York World, in his "Arena" article on "The Chivalry of the Press," says the chivalry of the public toward the newspaper is peculiar. The public would appear to believe that anything it can coax, wheedle or extert from the newspaper is fair salvage from the necessary expenditures of life.

Recently I listened in amazement to the Rev. Robert Collyer boast at a Cornell University dinner of having beguiled the newspapers of the country. He told how he had schemed and got money to build a new church after the Chicago fire. He did not make it very clear that the civilized members of his race clamored for the new edifice, but he made painfully apparent his ideas of chivalry to the press.

"In this matter," he began, "I have always been proud of the way in which I worked the newspapers." I succeeded in raising the money, because I coaxed the editors into co-operating with me. I wrote long puffs about the congregation and its pastor, and got them printed. Then I hurried round with the subscription list and a copy of the paper."

Of course this was all said good-naturedly, was meant to be funny, and was uttered from a public rostrum with an utter obliviousness to the mental obliquity that a moment's thought will disclose. It left upon my mind much the same impression as that once made by hearing an apparently respectable man boast of having stolen an umbrella out of a hotel rack.

Later in the evening, when the reverend gentleman occupied a seat near mine, I

stolen an umbrella out of a hotel rack.

Later in the evening, when the reverend gentleman occupied a seat near mine, I asked, with as much naivete as I could command, if he had "worked" the plumbers, the architects, the masons, the carpenters and the bell founders. To each of these questions he returned a regretful, "No."

Despite his apparent innocence regarding the purport of my inquiry. I doubt if

Despite his apparent innocence regarding the purport of my inquiry. I doubt if this gentleman would have boasted that he secured his clothes for nothing, that he wheedled his chope from his butcher, or coxxed his groceries from the shopkeeper at the corner of his street.

And yet, he spoke with condescension of the editor and his means of livelihood!

Theoretically, the editor is the public's mutton. Men who know him boast of their influence with him, and over him.

They diotate his policy on the condescension of the condescensi

their influence with him, and over him. They diotate his policy for him—or say they do, which, of course, is the same thing. Men who never saw him claim to own him. Strangers, casually introduced, ask him questions about his personal affairs that would be instantly resented in any other walk of life.

An experience of my own will illustrate what I mean. At a country house, near Philadelphia, I was, introduced to a respectable looking old man. In the period following dinner, as we sat on the porch to enjoy a smoke, this stranger interrogated me in the most offensive way. When he had paused for breath I gave him a dose of his own medicine.

WHAT HE ASKED. I hear you are an editor? Do most newspapers pay? How much do editors earn? You began as a reporter? You began as a reporter?

The editor may be to blame for this sort of thing; but if so, his good nature is responsible. He endures more than other men. He is often worried by the troubles of other people; but he never has been weaned from the milk of human kindness. He may be over-persuaded, he may be deceived, and editors have been fooled, like judge and jurors, by the perjured affidavit of apparently honorable men—but he still continues to believe in mankind.

Many of them, the writer adds, divide the year between the United States and Scot. land, and while earning the highest current wages at home always exact full union rates in this country. They begin to come here as a rule about March, and remain until the cold weather sets in, when they know that no more work is possible until the rext year, and consequently hie themselves off to Scotland to see what is to be done there. Stonemasons' wages in America are on an average about double what they are in Scotland. In this city and neighborhood, where wages for this class of labor are higher than elsewhere, masons get \$4 for a day of eight hours, and at this rate it is not it omake \$550 or \$700. Many Scotch, as well as English and Italian, granite cutters also divide the year between America and Europe. A large number, perhaps a majority, of the brownstone-cutters are likewise Scotch, but as their work can be carried on under cover all through the year most of them take up their residence here altogether.

Mr. Haggart said that the restriction had not been removed.

sustain them. In reply to the objection of Mr. Tupper that a select Committee of Investigation should be called for, he said that the facts were so well known that a committee was not necessary. The accusation that the Liberals were trying to hand their country over to a foreign power was false and unwarranted. They were told that from the fact that Mr. Farrer had avowed annexation sentiments, the Globs was an annexationist paper. That was a groundless charge. There was in the Cabinet to-day a gentleman who had signed an annexation manifesto, and there never had been a time that one of those who had signed that document was not in the Government. Unsestricted Reciprocity had not been adopted as the policy of the Liberals until it had been thoroughly considered. The difference between the Liberal party and Erastus Wiman was that the former favored Unrestricted Reciprocity, while the latter believed in Commercial Union. Unrestricted Reciprocity allowed both countries, while admitting products of each free, to control their tariffs against the rest of the world, while Commercial Union assimilated the tariffs of both countries. It had been said by hon gentlemen opposite that Mr. Wiman was a traitor, while the

ean free, to control their tariffs against the rest of the world, while Commercial Union assimilated the tariffs of both countries. It had been said by hon, gentlemen opposite that Mr. Wiman was a traitor, while the fact was that he was still a British subject, and was doing everything in his power for the good of Canada. He had been publicly thanked in the House, at the instance of Sir Charles Tupper, for the services he rendered his country. Hon, gentlemen opposite were not always as much opposed to Americans as they appeared to be. He knew a clergyman in Ottawa who was very loud in his denunciations of Americans, but who was not averse to accepting an offer to go to Detroit, and besides becoming an American he changed from Methodist to Presbyterian. Sir Charles Tupper's conduct rendered him liable and made him deserving of the censure of the House.

Mr. Kenny said that during this debate they had been following the extremely unBritish course of attacking a man behind his back. The amendment was not only un-British but it was unmanly. A few members of the House seemed to be actuated by personal hostility and vindictiveness. The last elections far transcended in importance anything that had ever co-courred in Canada, not excepting Confederation. Our very national existance was threatened. If Sir Charles Tupper believed this, it was his bounden duty to come to Canada and defend his country.

AFTER BECESS.

Sir Hector Langevin moved that the time for receiving reports of the Committee on Private Bills be extended till Tuesday, 80th inst.

Tuesday, 30th inst.

Mr. Fraser, continuing the debate on the resolution of Mr. Laurier condemning Sir Charles Tupper, said there was a very evident desire on the part of the Conservatives to fasten upon the Liberals the stigma which Sir Charles cast during the last election. The method of political warfare of Sir Charles Tupper was beneath the dignity of Parliament, for he appealed to the electorate on the lowest possible grounds. It was said that this motion was an attack upon Sir Charles Tupper behind grounds. It was said that this motion was an attack upon Sir Charles Tupper behind his back. Well, it must not be forgotten that Sir Charles Tupper stabbed a great many Canadians in the back. It was a moribund Government that went to the country on moribund lists and on a moribund policy. They had called upon the magic doctor to supply an clixur to save the life. on moribund lists and on a moribund policy. They had called upon the magio doctor to supply an elixir to save the life of the party. If it was disloyal to oppose the Conservative policy, then he accepted that disloyalty. They had forced upon this country the worn-out shreds of Republican protection, and as a logical conclusion they were now insisting on the American principle that "to the victors belong the spoils." Following Sir Charles' example, every civil servant would take his fate in his hand, become a soldier of fortune, and stand by the Government because the Government because the Government should imagine that they were serving the Government instead of the people of Canada, who paid their salaries. Neither Sir Charles Tupper's skill, influence or elequence was used to the best advantage during the last election. It was said that the Opposition were allying themselves with the United States, and that they were disloyal. The Conservatives were disloyal because their methods were American, because they were tarking the pagence they were carking the

DOMINION PARLIAMENT.

Mr. Gircuard presented the first report of the Committee on Privileges and Elections with our neighbors; who wished to make his home more prosperous, to lessen the difficulties of living, to secure the freest possible relations with our neighbors; who wished to make this country a cheap one to live in make this country a cheap one to live in and to get most for his labor; to purchase in the cheapest and sell in the dearest market, he was a true and loyal Canadian. The policy of the Government was making the people of Canada disloyal, because it made the conditions of life harder, depleted the country, and sent our best young men over the border to seek homes there.

Mr. Gillies said that a great injustice had been done to Sir Charles Tupper. When they thought of what Sir Charles had done for the Province by the sea it ill became any member to speak of him in the manner that Mr. Fraser had spoken of him.

Mr. Langelier said that if Charles Tupper's visit to Quebec entitled him to be called the high briber. He had promised the release of one million dollars of the debentures due from the North Shore Railway to the Government; the construction of the Quebec bridge at a cost of four the province by the sea at a cost of four the province by the sea it ill became any member to speak of him in the manner that Mr. Fraser had spoken of him.

debentures due from the North Shore Railway to the Government; the construction of the Quebec bridge at a cost of four millions, and a fast line of steamers equal to the Teutonic. Since the election Sir Charles had attacked Quebec and had done his best to prevent Mr. Mercier from successfully floating the loan for the Province. Sir Charles Tupper should be branded as a traitor to Canada, and especially to the Province of Quebec.

Province of Quebec.

Mr. Tisdale said he desired to make the statement that in his riding, which re-turned a Government supporter, and in the adjoining riding, where the Grand Trunk Railway had considerable power, the com-pany had in no way interfered, but, on the

contrary, a large number of employees voted for him. (Applause.) Mr. Paterson (Brant) said this was the most important contribution to the debate, as it established the truth of the position

as it established the truth of the position taken by the Opposition.

Mr. Skinner said Sir Charles not only represented the whole people of the Dominion, but the Government of the day, and if there was a change he would not continue as the representative of the country in England.

Mr. Flint said that Mr. Skinner was one of the report eminent authorities on the sub-

Mr. Flint said that Mr. Skinner was one of the most ominent authorities on the subject of annexation to the United States. He had placed on record his deliberate conclusion that the Conservative party of this country was responsible for any annexationist sentiment that existed. The mind that would invent such calumnies as Sir Charles Tupper had uttered against the people of Canada was false as hell itself, and the foul lips that would repeat them were as foul as the beast that conceived them.

Mr. Dupont, speaking in French, defended Sir Charles Tupper and the Gov-

ernment's action.

The House divided at 1 s. m. on Mr. Laurier's amendment to Supply, con-demning Sir Charles Tupper for his inter-

The man who boasted of his loyalty did not

credit that, while he was serving his country, he refused to avail himself of the many chances that were offered to him to accumulate wealth. He lived in an age when, I will not say the aspiration of every man is to grow rich, but it largely influences the conduct of life in most of us, and it is very much to the credit of the deceased statesman that, living during a period when men were intent on creating wealth, he still remained poor. However much we may differ from him politically, we are all willing at the present moment to accord to him the distinguished attributes of character which he possessed to a marked degree.

Senator Tasse—Although it is customary on such an occasion to limit the speeches of the loaders of both sides of the House, I ask the liberty, at the request of a certain number of French members of this House, to say a few words in the language of the race of which the late lamented statesman was the friend. I cannot help associating myself publicly with the expression of grief at the loss which the nation has just sustained, and to support the noble words of regret which have fallen from the eloquent lips of the hon. the leader of this House. It is the father of the country who has just died. He was one of the greatest statesmen the world has even known. He would have achieved pre-eminent greatness in any country, or any continent, for he was born for great things. Her Majesty the Queen had learned to look upon him as one of the props of her throne, and she made him one of her Privy Councillors. She regarded him as one whose influence was among the most powerful of those that go to maintain the integrity of the empire. We all know with what anxious solicitude she cabled for the latest tidings during the last days when the old chief lay dying.

Senator Abbott—I had proposed to ask the House to adjourn out of respect to Sir John's memory, and I shall also ask for an extended adjournment. Of course the House will understand why such an adjournment is necessary. I understand that the other House will adjourn until Tuesday week, and it has been suggested here that our adjournment should be until Wednesday week at halfpast eight in the evening.

Senator Scott—Before the question is put I would like to ask my hon. friend if he is in a position to say who has been sent for to form a Government.

Senator Abbott—No one as yet. I think it is understood that no one will be sent for until after the funeral. I presume I may convey to my colleagues the willingness of the Senate that the Chamber shall be used for the purposes of the funeral coremony. on such an occasion to limit the speeches to the leaders of both sides of the House, I

country—will continue without him. His loss overwhelms us. Sir John A. Macdonald now belongs to the ages, and it can be said with certainty that the career which has just been closed is one of the most remarkable careers of this century. I think it can be asserted that for the supreme art of governing men Sir John Macdonald was gifted as few men in any land or in any age were gifted—gifted with the most high of all qualities—qualities which would have shone in any theatre, and which would have shone all the more conspicuously the larger the the more conspicuously the larger the theatre. The fact that he could congregate together elements the most heterogeneous and blend them into one compact party, and to the end of his life kept them steadily and to the end of his life kept them steadily under his hand, is perhaps altogether unprecedented. The fact that during all these years he maintained unimpaired, not only the confidence, but the devotion, the ardent devotion, and affection of his party, is evidence that, beside these higher qualities of statesmanship to which we were the daily witnesses, he was also endowed with this inner, subtle, undefinable characteristic of soul which wins and keeps the hearts of men. As to his statesmanship, it is

men. As to his statesmanship, it is written in the history of Canada. Although my political views compel me to say that, in my judgment, his actions were not always the best that could have been taken in the interest of Canada, although my conscience compels me to say that of late he has imputed to his opponents motives which I must say in my heart he has misconcively, yet I am only too glad here to sink these differences, and to remember only the great services he has performed for his country—to remember that his actions displayed unbounded fertility of resource, a high level of intellectual conception, and, above all, a far-reaching vision beyond the event of the day, and, still higher, permeating the whole, a broad patrictism, advancement, and Canada's glory. The life of a statesman is always an arduous one, and very often it is an ungrateful one; more often than otherwise his actions do not mature until he is in his grave. Not so, however, in the case of Sir John Macdonald; his has been a singularly fortunate one. His reverses were few and of short duration. He was fond of power, and in my judgment, if I may say so, that was the turning point of his history. He was fond of power, and he never made any secret of it. Many times we have heard him avow it on the floor of this Parliament, and his ambition in this respect was gratified as perhaps no other man's ambition ever was. In my judgment even the career of William Pit can hardly compare with that of Sir John Macdonald in this respect, for although William Pit, moving in a higher sphere, had to deal with problems greater than ours, yes I doubt if in the management of a party William Pit, moving in a higher sphere, had to deal with problems greater than ours, yes I doubt if in the management of a party william Pit, moving in a higher sphere, had to deal with problems greater than ours, yes I doubt fine the word to carried away from the floor of Parliament to die. German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hard-

ly appreciate what a truly wonderful medicine it is... The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorr-hage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.

A HONEYMOON ADVENTURE.

An Unpleasant Incident on the Marriage

The wedding tour of Mr. and Mrs. R. The wedding tour of Mr. and Mrs. R. McDougall Patterson, their many friends will regret to hear, was suddenly and rather unpleasantly arrested. The young couple met with their first adventure early in married life. They were staying at the hotel at Au Sable Chasm, N. Y., one of the most beautiful spots along the west shore of Lake Champlain. Last night the hotel caught fire and burned so rapidly that the inmates had to make a hurried escape. Mr. Patterson was the first to discover the fire and promptly gave the alarm. No lives Mr. Patterson was the first to discover the fire and promptly gave the alarm. No lives were lost, but the building was a complete wreck. The guests lost the greater part of their luggage. Mr. and Mrs. Patterson returned to the city this morning. Their jewelry was lost in the fire and the greater part of their clothing. They actually had to borrow a number of articles to wear home.—Montreal Star.

The Physician as a Despot, The Physician as a Despot.

Without any pretence of faith in any doctor who is not regular, and without prejudice to a sincere intention of calling in a thoroughly instructed and expert practitioner whenever occasion demands, it is still permissible to smile amiably at the professional jealousy of quacks. We are vaguely aware of the limitations of his knowledge; we know that he has to guess first what is the matter with us, and next what will do us good, and that though there are facts his acquaintance with which helps him to guess right, many theories that regulate his professional action are still hypothetical, and may or may not be correct. We know that he has discovered that many of the methods his father used were unwise and deletrious, and that the doses his grandfather gave often hastened the result they were intended to prevent, and hindered what they were designed to induce. We know not only that he is a man, and therefore fallible, but that his professioal science, like his father's and grandfather's, is progressly, and is still very far from being exact. Nevertheless, when anything ails us, in spite of all we know of his limitations, we fly to him as though we were all wise, and do as nearly what he tells us to as our flesh and our pockets permit. For we believe that, erring and inadequate as he is, he knows more than we do, and that his knowledge is, on the whole, the best that is at our command.

Spiders and Their Young.

Exhibitions of maternal affection are by no means confined to the higher animals. Even the spider is capable of displaying great heroism, where her young are concerned. It is said that one spider, the lyoose, when her egg-bag was captured by an ant-lion, refused to leave it, preferring to share the fate of her eggs, and be swallowed up. When taken away by force she still persisted in returning to the scene of danger.

A French naturalist tells the following anecdote of one of the minute yellow spiders which live in nests made amon spiders which live in nests made among the stalks of growing cats: On looking into a nest, the naturalist found there a great number of little eggs in various stages of development. The mother spider became very much frightened at his proceedings, and vainly endeavored to collect her treasures. She evidently had no idea of fleeing from the danger threatened by the monster hovering over her. From another nest the observer tore away the protecting web, but the diligent mother immediately began spinning a patch to cover exactly the breach he had made. He several times repeated the experiment, and several times repeated the experiment, and the spider as often repaired the mischief. The iyoosa gathers her eggs, as soon as they are laid, into a ball, which she covers with a thin but compact web of silken tissue. This ball, fastened to her web, she drags about after her wherever she goes. When pursued, she runs as rapidly as the weight of the egg-ball will allow; but if any attempt he made to seize the cocoon, she stops at once and defends it, often showing great courage and fighting capacity. If the cocoon is destroyed, the lycoss retires into a corner, and in a short time dies. When the eggs are hatched, the mother spider takes her young upon her back and carries them about with her. Naturally quick and jerky in her movements, she acquires a much gentler motion in bearing her treasures. She carefully avoids all dangers, only attacks easily-won prey, and, in short, accommodates herself to whatever conditions are most favorable to the young which swarm by hundreds about her body. everal times repeated the experiment

He Let His Light Shine.

Canada Presbyterian: The death of Chief Justice Dorion reminds us of an incident that has its lessons. Years ago a friend of the writer, a stalwart Protestant, trained in a rigid school, was elected to represent a constituency in Western Ontario. He went to Parliament with a feeling against Roman Catholics which he himself described as strong prejudice. He was not long there until he became intimately acquainted with Mr. A. A. Dorion. The purity of Mr. Dorion's life, his polite, refined manner, his high aims and scrupulous honor so impressed our friend that he nearly lost his aversion to Roman Catholicism. Years of intercourse with the late He Let His Light Shine. nearly lost his aversion to Roman Catholic-ism. Years of intercourse with the late Chief Justice when he was a member of Parliament led this stalwart Protestant to think that even a French Roman Catholic may be an estimable, lovable man. There is an important lesson here. If a Roman Catholic can so live, even in Parliament, as to disarm prejudice, and almost commend Catholic can so live, even in Parliament, as to disarm prejudice and almost commend his religion to one who was trained to look upon that religion as repulsive, how much more should Protestants be able to commend their religion to those who do not like it? After all, daily life is the most powerful kind of argument. Where we all fail is in living in such a way as to commend the religion of the Lord Jesus Christ to those around us. The best Protestant is the man who commends Protestantsm by his daily life.

Photographing the Dead.

It appears that a somewhat morbid oustom exists among the Viennese of having the dead bodies of children and other persons dear to them photographed, and for this purpose the corpse used to be taken to the photographer's studio. The attention of the sanitary authorities having been drawn to danger of the dissemination of infectious disease by this practice, a decree has been issued by the Austrian Minister of the Interior absolutely forbidding the photographing of corpses in studios open to the public, and the photographing of bodies of persons who have died of any infectious disease by professional photographers, even in private houses. Exception is made of cases in which such photographs may be required for police or medico-legal proposes. In the case of persons who have died of non-infectious disease, the corpses may be photographed at the private residence of the deceased, subject to the approval and on the responsibility of the medical official whose duty it is to verify deaths. COBDEN ON CANADA.

On March 20th, 1865. Richard Cobden wrote as follows to Colonel Cole: "The most interesting debate of the esaon hitherto has been on Canadian affairs. This is a subject of increasing interest, and the projected confederation of the British North American colonies will bring it into great prominence this session. It seems North American colocies will bring is into great prominence this session. Is seems to be generally accepted here as a desirable change, though I fail to discover any immediate interest which the British public have in the master. There is no proposal to rolieve us from the expense and it or rolleve us from the expense and it or rolleve us from the expense and the United States—a task which, by the way, everybody admits to be beyond our power. Then I cannot see what substantial interest the British people have in the connection to compensate them for guaranteeing three or four millions of North Americans living in Canada against another community of Americans living in their neighborhood. We are told indeed of the loyalsty of the Canadians, but this is an ironical term to apply to people who no relied the property over an arco of their territory, and who claim the right of imposing their own customs duties, even to the exclusion of our manufactures. We are told the sovereignty over an arco of their territory, and who claim the right of imposing their own customs duties, even to the exclusion of our manufactures. We are to be parties to all intents and purposes, and it is a perilous delusion to both parties to all intents and purposes, and it is a perilous delusion to both parties to a teampt to keep up a sham connection and dependence which will snap asunder if it should ever be put to the estrain of stern reality. It is all very well for our Cockney newspapers to take the dependence which will snap asunder if it should ever be put to the estrain of stern reality. It is all very well for our Cockney newspapers to take the dependence which will snap as a puscible for the United States. It is simply an impossibility. Nor must we forget that the only serious danger of a quarrel between those two neighbors arises from the connection of Canada with this connection of canada with this connection of connerce and friendly intercourse as with other nations. I have felt an interest in this confederation. I may be some dif

His Honor etc.

THE JUDGE'S ADDRESS.

His Honor after referring to the cases before the court called the Grand Jury's attention to the fact that there were 5 persons at present confined in the county jail for the "crime" of vagrancy. All were aged persons, the average age of the five being slightly over 80 years. A blind man aged 49 had also been committed to the jail by the magistrate, out of kindness, as the unfortunate had no place to go to for shelter. The judge remarked that this incarceration of the aged poor and the unfortunate in the common jail was a strange commentary upon a civilization and a Christian feeling that could tolerate the like. He invited the jury to give the subject its consideration. His Honor in closing paid a high tribute to the memory of Sir John Macdonald.

PETIT JURORS.

"That we believe the matter of providing a House of Refuge for those who from any cause are unable to support themselves should be no longer delayed. We found a number of aged persons in the jail whose only crime was that they were poor and friendless. To treat such unfortunates like criminals is neither charitable nor just, and as the Ontario Government offers liberal grants towards the building of such institutions, we strongly urge that the county council take up the matter at once instead of treating it with indifference as is their usual custom.

Stratford and the County of Perth.

"That we desire to express our sincere regret at the death of the Right Hon. Sir John A. Macdonald, Premier of Canada. The loss to a country of a man who for so many years has been its virtual ruler, cannot but be serious, and while we believe that Canada is greater than any of its citizens and will survive them, and that a kind Providence will continue to control the destinies of our nation, we feel that in the death of the distinguished statesman our country has suffered an almost irreparable loss. It is gratifying to know that his name will always be prominently connected with the history of our country, the Confederation of the provinces being a monument to his greatness which so long as Canada itself exists cannot be overthrown.
