### The Budget.

conclusion of Mr. Shaw's speech.

Faintly April 27.

Mr. Shaw resumed the debate on the motion to go into supply. After opening the Government for adjourning the House at six o'clock last evening in order that members might attend the opera, and thus neglecting the business they were to transact, he proceeded to quote the statements made by the hon. member for the Government who was passing the debenture bill, referring especially to his statement that the Province would be in a most deplorable condition if the Government failed to pass the bill. He then referred to the fact that the Government had passed the bill, and that the Province was in a most deplorable condition if the Government failed to pass the bill. He then referred to the fact that the Government had passed the bill, and that the Province was in a most deplorable condition if the Government failed to pass the bill.

capture only one vote, and that to his credit he said, voted against them. They built eighty feet of new work at Upper Point, and they also gave the names of the men employed. He boldly charged that the men who said they would vote for McDonald and Shaw were discharged. The sum of \$2,000 was spent in that polling district just previous to the election. A though the wharf had been referred to could be built for \$500 or \$600 in winter, eighty feet of work in 1893 was \$1,500. This was not much money in this transaction. He then referred to Cardigan Bridge, and said that a dock had been filled up there at a cost of \$180 to specify two kicking girls. It was no wonder there was a deficit of \$120,000. Gentlemen on the other side blame us for passing the wharf bill in 1893. He warned that the Province would be in a most deplorable condition if the Government failed to pass the bill. He then referred to the fact that the Government had passed the bill, and that the Province was in a most deplorable condition if the Government failed to pass the bill.

### Highest of all in Leavening Power.—Latest U. S. Gov't Report.

## Royal Baking Powder

ABSOLUTELY PURE

Whereas the Lower of the Government during the last session, promised the people of this Province that he would not introduce or pass into law any system of taxation, without first consulting the people, and the fact of this promise a large majority of the members supporting the Government was their decision. This House is therefore of opinion that it would be a gross breach of faith towards the electors of this Province to introduce any system of taxation without first submitting the same to the people at the polls for their approval.

Mr. Shaw asked the Commissioner of Public Works to explain certain sums unaccounted for on certain bridges. For instance, the contract for the North Point bridge was let for \$227. The inspection cost \$27.70, and extra \$45.40—a total of \$300.10. The report of the Commissioner of Public Works shows that the total amount to be paid \$300.28, leaving a balance of \$5.18 unaccounted for. The contract on Killdare bridge was let for \$115. The inspection cost \$5. There was no extra for extra. The total amount to be paid, therefore, was \$120. The report of the Commissioner of Public Works shows that \$125 were paid. The balance unaccounted for is \$5.
