WEDNESDAY, JANUARY 28TH, 1903

That the abolition of duty on coal imports by the United States will be followed by a corresponding concession on the part of Canada seems quite probable.

It was with the expectation of reciprocal relations being effected that the bill for the abolition of duty was adopted by the United States government.

While Nova Scotia is expected to be the gainer by the opening of the New England markets, Louisiana's bituminous products admitted free into the upper provinces would make the benefit mutual.

At the same time the movement is to be regarded as a tentative step towards the establishment of reciprocity between the two countries, but its reception has not been calculated to encourage further effort in the same direction.

The rebate of duties will be a small factor in regulating the price of coal in New England as the surplus of the product after the local consumers are supplied is too limited to have any important effect on the market.

The retail dealers and the coasting freighters are still taking advantage of the situation to keep up the price of the commodity.

The St. John Sun presents the views of the opponents to the proposed reciprocal arrangements as follows:

The removal of the United States coal duty does not create the least obligation on the part of Canada to supply foreign coal for the United States as it is a temporary measure intended to meet a temporary emergency, and makes no suggestion of reciprocity.

It therefore remains for Canada to legislate absolutely and wholly in the interest of Canada.

It is not in New York to meet Rockefeller to inform him in regard to the needs of Acadia.

THE FRUIT GROWERS' ASSOCIATION.

Editor of Monitor, Dear Sir— I am very anxious that the first annual meeting of the Fruit Growers' Association to be held in our country, may prove a decided success.

I was thinking of writing a short article for your paper urging the necessity of a large attendance at the Fruit Growers' meeting on that occasion, but on reading the communication of Mr. G. C. Miller, in reference to this matter in the last "Outlook," all of which I heartily endorse, I do not see the necessity of another article but would consider it a favor if you would publish some in the next issue of your valuable paper.

Yours truly, S. SPURR, Vice-president for Annapolis Co.

Appended is Mr. Miller's letter as published in the Outlook of 23rd inst.— Mr. E. J. W. Miller writes me as follows: I wish through the columns of your valuable paper to address a few lines in all kindness to my brother orchardists who have never yet availed themselves of the privilege of assembling with the fruit growers.

Only those who have been in the habit of attending the meetings of this kind and the people have given up the idea of horticulture than our own association a recognition and hearty support which has reacted on them in a most magnificent way.

SLEIGHING PARTY.

Dear Editor— Kindly grant me space in your paper to give your readers an account of a sleighing party from Margareville to Cambridge and Brooklyn Street, Kings County.

Just as the sleigh bells and we knew that I might not, the day was perfect, the roads could not have been better and the scenery was grand.

Our party consisted of the following persons: Messrs. Milton Munro, Alison Smith, Otto Nixon, David Downie, and Mrs. Munro, Mrs. Smith, Miss Marchant and Miss Edith Harris.

At the home of Mr. and Mrs. F. W. Weidner where a royal welcome and grand reception was given us.

We made our homeward trip in a very fine pair of twin colts of the English Hackney breed.

Also a two year old Warren Grey, which tip the scales at 12 lbs. When we returned to the ladies at the house, we were greeted by social trainees.

On the account of the threatening weather, we did not carry out all the program planned by our genial host and hostess.

Let us awaken out of our sleep of quiet satisfaction over attainments of 25 years ago, and come forward and take our proper position.

Mr. M. makes this trip as complimentary from the Maritime Farmer. Mr. Harold Campbell, of Philadelphia who has been spending a week with his grandparents, Hon. J. and Mrs. John Aldous, will on his return home take a position as instructor on a training ship for boys. A Jacksonville, Florida, paper says: J. A. Metairie is entertaining at the Ponce de Leon for a few days. Hon. D. Shafer, Mayor of Bridgetown, Nova Scotia, and a leading Canadian ship builder, Mayor Shafer and Mr. MacGuire are old friends. They have not met for many years, and the visitor is being most royally entertained. Mr. Shafer is on a tour of the seaports of the United States, where his vessel, and his next stopping place will be Mobile. G. O. E. RICKER BUYS LAND AT BRWSTER. A subscriber contributes the following extract from a son-in-law of W. H. Bishop, Esq., of Paradise— George E. Ricker, formerly of Wakefield, who has been successful as proprietor of Hotel Woodbridge, West of Toronto, in several years past has purchased forty acres of land bordering on Long Point in Brewster (Cape Cod), and on one of the best portions of the property he will build at once a forty-room summer hotel, which will be equipped with all the very latest modern improvements. Already the cellar is in progress of excavation, and Mr. Ricker expects to have the hotel ready for occupancy next July. He says that Brewster is one of the best summer resorts in New England. Mr. Ricker was formerly one of Wakefield's Selectmen, and at another time had charge of our highway department. He was well liked while a resident of this town, and his many friends here will be glad to learn of his increasing success in the hotel business. A. ST. JOHN MAN IN HALIFAX. J. S. Harding, of St. John, was at the Halifax Hotel on Saturday. He told a Chronicle man that he does not understand why people who have bread are foolish enough to get Ogilvie's, says that when one considers the fact that it makes so many more loaves to the bushel than ordinary flour and that the bread is stronger and therefore has more nourishment, it will be readily seen that there is a distinct advantage in using Ogilvie's. Ogilvie's flour is now the favorite in Nova Scotia as well as in Canada, and in Bermuda and the British West Indies it has captured the market. CABD OF THANKS. Permit me, through the columns of your paper, to express my gratitude to the friends who so kindly ministered to my husband during his sickness and death, and to myself as well. Also to the merchants of Lawrenceville and to his brothers and sisters for their beautiful floral offerings placed upon his casket. MRS. JAS

Practical Talks and Plain Precepts for Farmers.

Edited for the Farmer readers of the MONITOR by an Annapolis Valley Agriculturist

We invite communications from farmers, giving their experience on matters interesting to the farmer, to be published in the MONITOR. We cannot accept them unless we receive the name of the contributor and his address. Questions must always be accompanied by name and address, though not necessarily for publication.

Annapolis County Farmers' Association.

(The Outlook.) The annual meeting of the above society opened at Annapolis on Monday afternoon, Jan 13th, at the residence of Mr. H. Chipman, president, and Mr. E. E. Eliott, secretary. The meeting was held at the residence of Mr. H. Chipman, secretary for agriculture, E. E. Eliott, president of the Maritime Stock Breeders' Assn., John Donaldson, president of N. S. Farmers' Assn., G. H. Vroom, Dominion Fruit Inspector, and H. Robinson, Supt. Experimental Farm. L. W. Eliott and A. Owen Farm were appointed a committee on resolutions and found about 60 representatives present. The president's annual address referred to the very important matter of improvement and the cause of so many losses in breeding. He was entirely in agreement with the speaker on the subject of the provincial association that had been organized in 1902 and a promise of \$25.00 per year from the government for each county association, provided a government inspector was given from the municipal councils of the counties; each county is entitled to a government inspector of \$25.00 per year for exhibition purposes the advantage of holding an exhibition in Annapolis county in 1903 would be brought before the association; this association has now the privilege of sending two delegates to the Provincial Farmers' Association. Report adopted.

Fred E. Cox then read a paper on exhibitions, giving a sketch of the history of the exhibition and pointing out their value, the backwardness of Annapolis county in this matter and the importance of improving the exhibition. He also explained that a favorable opportunity of holding a county exhibition this year.

The executive committee that strong encouragement had been given that a \$500 government grant would be given to Annapolis county in 1903. Mr. H. Robinson, Supt. Experimental Farm at Nappan, was the next speaker. He came to get acquainted with Annapolis County, farmers, and would be very glad to see them at Nappan either individually or as a picnic. The excursion rate on the I. C. R. will be very glad to see them at Nappan either individually or as a picnic. The excursion rate on the I. C. particularly so and should be published. So far as the time permitted valuable discussions followed the papers. Before the meeting adjourned a motion was unanimously passed that provided satisfactory financial arrangements be made with the government. Municipal Council, and Bridgetown City Council, that the exhibition be held next fall at Bridgetown. Votes of thanks to Annapolis Royal, and to speakers were passed. The list of outside speakers at the meeting of the association was particularly good. The attendance was very representative throughout the county, but the local attendance scarcely what it should have been. The exhibition scheme was heartily supported by all the representatives, although there was a healthy rivalry for its location, the matter was settled harmoniously. The prospect for a successful exhibition in Annapolis Co. are good.

DOWN IN DIXIE.

Amid the Singing Pines Away from Frost and Cold.

Just now a number of our readers are planning where they will go for the winter and no doubt the majority of them will do as they have done in the past, buy round-trip excursion tickets good for six months, to Southern Pines, N. C., and those who want to make side trips of a few weeks to Florida, Louisiana or Texas can round trip tickets from Annapolis to the points they desire to visit at the most favorable rates and that save unnecessary expenses. Southern Pines is the headquarters for North-eastern tourists. It is located in the high sand hills about the Long Leaf Pine. The seaboard of Line Railway, which is the most direct route between New York, Washington and Jacksonville, Florida.

Sound Investment at Home in a Rich Mining Property.

The Eastern National Copper Company, Limited, whose Gold and Copper Deposits are at Cheticamp, Cape Breton, is capitalized at \$500,000. The Board of Directors of eight includes some of the Best Known and Most Reputable Business men of Halifax, who have become members of this company, confident that the property it has acquired is one of the most valuable in Canada, and situated in one of the most promising mining districts in America. The mining areas purchased by the Eastern National Copper Company, Limited, have been thoroughly prospected and have undergone expert examination by trustworthy engineers during the past eighteen months. It has been on the evidence of mining men competent to testify as to the worth of the property that many have already been satisfied to subscribe for stock, believing that they were joining in an enterprise giving promise of large returns and that their shares would assuredly advance in value as the development operations proceeded.

The Company is now Blocking Out a Body of Copper Ore estimated to contain 160,000 TONS. The average result of the tests so far made to determine the Value of the Ore is ELEVEN DOLLARS PER TON, and when the work now under way is completed it is calculated that there will be ORE IN SIGHT to the Value of \$1,600,000.

The Development Operations are Proceeding with Pay Ore on All Sides of a Two Hundred Foot Slope which is being driven through the Main Deposit.

Other Beds of Copper are known to Underlie and Overlie the Bed Now Being Developed, and it is confidently Expected that This Mining Property will prove of Vast Value when a Few Months' More Work has been performed.

Gold is Associated with the Copper Contents of the Eastern National Ore, in Quantity Probably More than Sufficient to Pay the Expense of Mining and Milling, Leaving the Other Contents to the Good.

The Operations now being conducted by the Eastern National Copper Company, Limited, were begun only after the proposition had been most carefully investigated and large expenditure of money had been justified by the results of such investigation. The Company considers the opportunity for investment one of the most attractive before the public. Stock which is now being sold at a low figure will certainly advance as progress is made on the Deposits. Several offers to purchase this property were received and declined before the present Company acquired it. The former owners are shareholders in the Eastern National, having accepted stock in payment for their interests and so demonstrated their confidence in the worth of the Copper Deposit now being opened and other Deposits which it is proposed to develop at an early date.

The sum of \$10,000 is to be expended in the present operations, in order to further establish the extent of the Copper Beds, and place a large quantity of Ore in Sight. Part of this amount is being raised by the sale of a block of stock at 30 per cent. of par, Fully Paid Up. Additional stock will not be offered at present. That already marketed is held by the purchasers for higher prices.

Applications for stock should be addressed to ALFRED BENNETT & CO., 16 Prince Street - Halifax, N. S.

Copies of the Prospectus and any information respecting the foregoing proposition may be obtained from ALFRED BENNETT & CO, or from the EASTERN NATIONAL COPPER CO., Ltd. 16 Prince St. - Halifax, N. S.

John's Corner. Too Generous. "What was the trouble between Arabelle and her young man that they gave up the idea of marrying?" asked a former resident of Bushby. "Arabelle was always leechy," said the young lady's aunt with impersonal calmness, "and that was the trouble—she and her young man had a terrible risky combination of qualities."

The Yearning of a Weary Soul. Horace Squibb, M. D., has an office in the front part of a South side flat. He is young yet, and occasionally "should his chest" and is a little tired. He sent her a five pound box, poor, doubled critter, and she up and broke at the engagement, and his little sister ate the candy and enjoyed it, by what I hear.

The old schoolmaster was deeply affected. His scholars, noticing the dejected appearance of his class, had presented him with a new for Christmas. "My dear boys," said the kindly old pedagogue, with tears in his eyes. "I can never hope to tell you how you have made me feel by this token of your love for me. All I can do is to thank you for the sacrifice you have made of your little purses for the sake of my comfort. If you have found me severe at times, I trust you realize that it has always been for your own good. I hope to always have your full confidence, as you have ever had mine."

Scale Not Small. "Mrs. Jones had hired two men to help her with her house-cleaning. "These picture frames," she told them, "should be cleaned with care." One of the men, "and if you could let us get some whiskey, why," it's the one with the scale not small. "Oh," she answered, "if whiskey will clean them, I will send down a bottle of it. I have upstairs, and is on the table." The men washed the frames with soap and water, and of course, drank the whiskey. When Mrs. Jones saw the frames bright and glistening she remarked: "And so whiskey cleaned those pictures, but it didn't clean the men." "It was the whiskey that did it," said the man who had the scale not small. "I had always been very sure that whiskey away. I bathed poor Fred with it before he died, you know."

In order to discourage the use of objectionable words, the father had evolved a system of fines, somewhat after this fashion: "Darn it—Two cents. Gosh—Three cents. Good darn—Two cents. The boy who was to be reformed by this method studied the tariff with considerable interest, but it was some time before he spoke. "Well," he said at last, "I guess I know some words that would cost a quarter—Chicago Post.

The physicians were holding a consultation beside the cot of the man supposed to have appendicitis coming. "What about his person?" "I believe," said one of the surgeons, "that we should wait and let him get comfortable before we make a cut." Before the other prospective operators could reply, the patient turned to the nurse and said: "What do you take me for—a cheese?" "Note—He was an insurance agent."

He-it is reported that you and I are engaged. She—"Did you deny it?" "No, I was afraid to do so without first seeing you—Stray Stories.

The Raisin Generation. The other day a well dressed woman entered a street car accompanied by a boy about four years old. They had evidently been shopping for Christmas, as the woman's arms were laden with bundles. She sank into the only vacant seat, which happened to be next to a fatherly looking man, who smiled benignly on the child. The woman's hands had no sooner comfortably seated herself, however, than the boy set up a howl and began to slap at the woman's hands. "What do you want, dear?" she asked kindly. "I want to sit in that seat," said the boy. "Oh, no, mamma's tired, you sit on my lap."
