MAYOR GAYNOR DIED ON SHIP CAREER AS REFORMER NOTABLE

Man Who Did Much to Purify Municipal Life in New York, Succumbs to Heart Failure, Indirect Result of Murderous Attack Three Years Ago.

NEW YORK, Sept. 11.—(Can. Press.)—William J. Gaynor, mayor of New York, died in mid-ocean on the steamer Baltic at 1 o'clock Wednesday afternoon of heart failure.

News of his death was received here today in a message by wireless and cable to Robert Adams, his secretary, by Mayor Gaynor, his son, who sailed with him.

The message read as follows: "Father died at 1 o'clock due to heart failure. Notify mother."

Mayor Gaynor sailed away from New York, a fast-falling man, on the morning of Sept. 4. He felt that the tonic effect of the sea would restore him in some measure to health.

The Baltic was due at Queenstown today. The mayor died as she was nearing the other shore. The news of his death was sent by wireless to Crockhaven by Rufus W. Gaynor and relayed from Crockhaven to New York by cable.

Mayor Gaynor left New York at a time when the city was seething in one of the strangest municipal political campaigns in its history.

The day before his departure he was notified on the city hall steps by representatives of independent political organizations that they had chosen him as their standard-bearer in the mayoralty campaign.

He had prepared a speech of acceptance, but was so weak that he was unable to deliver it, and his secretary read it for him.

Mayor Gaynor's death was indirectly due to the bullet wound inflicted in his neck on Aug. 9, 1910, by a lunatic, James J. Gallagher. The mayor had suffered from throat trouble more or less ever since.

Mayor Gaynor's Career

Born at Whitestown, Oneida County, New York, 1851. Early education received at Whitestown seminary. Moved to Brooklyn in 1873. Was a reporter on The Brooklyn Argus, studying law at night. Admitted to the bar in 1875, and commenced a campaign for political purity which gained him a national reputation as a foe of corruption.

In 1892 he was elected a justice of the supreme court for a term, expiring Dec. 31, 1907. Re-elected in 1907 for a term expiring Dec. 31, 1921, but resigned in 1909 to accept the Democratic nomination for mayor of New York City.

Elected mayor of New York in November, 1909. Succeeded by James J. Gallagher, a discharged dock department watchman on Aug. 9, 1910. Served nearly three months in St. Mary's Hospital, Hoboken, N.J., before he recovered from the wound.

He was nominated for the office of mayor, Mr. Gaynor, in the meantime, had been nominated for the supreme court of New York. He made a strong fight and the McLaughlin ring was defeated by a plurality of 26,000.

While justice of the supreme court, Mr. Gaynor's name was at different times before the national, state and municipal democratic bodies as a possible candidate for mayor, governor and vice president, but it remained for the Democratic crisis of November, 1909 to summon him from the ranks of the judiciary to official life.

At the call of his party, Mr. Gaynor resigned as justice of the supreme court, the his term would not have run out until 1921, and consented to head the Democratic ticket in the mayoralty fight against William Randolph Hearst, the independent candidate and Otto T. Bannard, his candidate of the republican machine.

The ensuing campaign resulted in a personal victory for the former justice. He was elected by a majority of 75,000 while the rest of his party went down to defeat.

Thaw Deportation Subject of Much Compliment for Celerity and Justice.

NEW YORK, Sept. 11.—(Can. It has found a way to put a summary end to the Thaw game of trifling with its courts. While the Thaw lawyers were talking bravely of fighting the issue up in a leisurely way through the colonial courts and thus to London, the immigration officers suddenly cut the whole tangle of technicalities and dumped the bewildered lunatic across the border, leaving a lot of attorneys and alienists sorrowing for the loss of vast prospective fees."

WAS RUBENSTEIN PREY OF NEGROES?

Ottawa Police Believe Man Was Lured to Room by Negroes.

PUT BODY IN TRUNK

Negro Hired and Drove Wagon, Presumably Containing Remains.

OTTAWA, Sept. 11.—(Can. Press.)—The police this afternoon are working on a new clue in the Rubenstein murder mystery. They have learned that on Aug. 28 at midnight Rubenstein was seen on Queen street with two negroes and that he was followed by three negroes. The theory is that he was lured to a room by the negroes and there murdered for his money.

A few hours later a negro in a great state of excitement visited a nearby livery stable and hired a transfer wagon to deliver a trunk. He drove the wagon himself and returned in half an hour. This is now thought to have been the trunk with Rubenstein's body. The liveryman went to Montreal with a detective this afternoon in an effort to identify the negro at Blue Bonnets. Rubenstein's parents are working on the local end and a detective from New York today identified the body.

Italian Under Suspicion.

MONTREAL, Sept. 11.—(Can. Press.)—That they expected to make an arrest soon was the statement made this morning by Detective McCaskill, who with Detective Joliet of Ottawa, is working on the local end to the mystery of the death of Abe Rubenstein.

Both detectives today continued their examination of the race track followers attending the Blue Bonnets meeting who also attended the Ottawa race meeting. They are looking for an Italian who is believed to have quarreled with Rubenstein over a card game at Windsor, Ont. A closer has been set on all railway stations to prevent the suspect who is believed to be still in Montreal from getting away.

Tracing Negroes.

The detectives have received information that the negro woman supposed to know something about the mystery had come to Chambly, Que. They will likely get in touch with them there.

WORE A GREEN STAR

British Visitor Met a Friend on Stepping From Train.

H. Bowlingbrooke Mudge of London, Eng., a member of the black exchange and a kinsman to the founder of the Mudge Library, had a rather unusual experience on his arrival in Toronto yesterday. The Englishman is a great enthusiast of Esperanto and wears the green star on his coat lapel, which all those speaking the language are now wearing.

While on his way to the King Edward Hotel, and was surprised to find himself addressed by a speaker of Esperanto. The green star led to the recognition.

The visitor was even more surprised to find that an organization meeting of the Toronto Esperanto Society was to be held last night, and being the president of the Esperanto Society of Great Britain, he lost no time in accepting the invitation to attend.

BIG CORN ROAST

New Beach Residents Had Fine Time to Close.

A gigantic corn roast was held by Kew Beach residents between Waverley road and Kenilworth avenue last night when 90 Kew Beachers and their friends enjoyed themselves in Toronto yesterday in the general festivities.

A huge two-story bonfire illuminated the proceedings, and the night was the biggest ever. A tank containing several gallons of coal oil was placed on the beach, and a hundred feet of air.

A musical program by local amateur performers followed at 9 o'clock. The front, finished off the night's celebration.

OVERCROWDING IN SCHOOLS, SERIOUS

Half-Time Classes and the Basements of Buildings Have to be Utilized.

USE PORTABLE SCHOOLS

Solution Proposed by Subcommittee Appointed to Inquire Into the Situation.

Appointed to deal with the overcrowding in the schools, the subcommittee of the management committee of the board of education, brought in a report to the management committee, advising that several new rooms be opened as soon as possible, and that down to a half-day in order that none of the pupils will be kept out of school.

New classes will have to be opened in Withrow Avenue, McCaul, Ryerson, Carlton and Howland Park schools. Extra accommodation to the extent of one room will have to be provided as soon as possible in Essex Street, Pyna, Brown, Ryerson, and Perth Avenue schools, while half time classes will have to be held in Balm Beach, Howland, Queen, Victoria, Manning Avenue and Withrow Avenue schools. This will in all cases be only temporary as the management are hopeful that portable rooms can in all cases be erected in about two weeks. More pupils returned to school after the first week and this rendered imperative the securing of extra accommodation. In a couple of cases classes are being held in the basements, but the necessity for this will be removed as soon as the portable rooms can be constructed.

Arrangements were made as to the evening classes which commence next month. Evening classes will be held in eleven schools from the first of October until the end of March, for three nights a week. Evening classes in domestic science and manual training will be started at the same time in seven schools and instructors were appointed to supervise the same. Voluntary assistants in connection with Sackville and other night-schools in which foreign work can be carried on, will be appointed by Inspector Cowley, and this will include the class for Finlanders in Ogden school.

Stating that the doors of Western Avenue school are in a very bad condition, and that at present there is a bad fire trap at Western Avenue, motion was put thru by Trustees Hopkins and Conboy, providing that conditions relating to the school be made so that they can be easily opened by the pupils.

No less than nineteen teachers were appointed to positions on the temporary staff of the schools, and three vacancies on the high school staffs will be filled.

PARNELL LETTERS TO BE PUBLISHED

Widow of Great Irish Leader Decides to Make Them Public.

Special Cable to The World, Copyright by The Toronto World and N. Y. World, Sept. 11.—A new light is to be thrown on the events which led to the political downfall of Charles Stewart Parnell, the great Irish leader who died in 1891, with the publication of his love letters by the widow of the late Mrs. Parnell. The decision to make public these letters is the result of statements made by William O'Brien, M.P. The former Mrs. O'Brien, a "quite agreeable with you as to the insult to myself, your father's memory and the respectability of the family," Mrs. Parnell, that is contained in the unvarnished interpretation Mr. O'Brien has put upon the letters of his husband's wife, and has published, and I now propose, with your consent, to publish them as part of my own history of the friendship between his wife and the late Irish leader.

JOHN BUNNY KING OF MARDI GRAS

Famous Actor Selects Lillian Walker as His Queen at Luna Park.

The business men of Coney Island, New York, selected Mr. John Bunny, the world-famous Vitagraph comedian, to be king of the Mardi Gras of 1913, which was held for one week beginning Sunday, September 7. Having the power to choose the woman who will act as queen, Mr. Bunny promptly selected Miss Lillian Walker, the justly renowned Vitagraph beauty. On the opening day of the Mardi Gras the king and queen were crowned in high state at Luna Park, and for a week they reigned together over the kingdom of fun. They proved to be wonderful drawing cards for the big show, to say nothing of the incidental publicity they will bring to the Vitagraph Company.

ELECTRICITY IN FARM OPERATIONS

Reliable, Safe, Clean and Flexible, Some of Its Advantages.

The possibilities of the use of hydro-electric power in connection with farming and agricultural work are many, says The Engineering Magazine, and offer one of the most promising fields of the future. The unsullied water which flows through the mountains and valleys is a factor of so much importance that it must not be seriously considered as affecting both the cost and quality of the products of the farm. Compared to other forms of applied power, the chief advantages of electricity are reliability, safety, cleanliness and flexibility in application. Power can be readily and economically distributed to the scattered locations of the various buildings, where the cost of providing separate engines would be practically prohibitive. Fire risk is reduced to a minimum, which is the greatest importance on isolated farms where fire-fighting appliances are limited. With a number of motors installed for the various classes of service the operating periods can be so arranged as to secure a very good load factor, thus making the cost of power a minimum.

The use of electricity for the stimulation of vegetable growth is now being extensively investigated, and it is surprising to note the number of experiments that have been made, the prominence of the men conducting them, and the results which have been attained, also as yet on a very small scale. The lead of Europe is being followed to some extent in America, and the results already have been duplicated here. In the near future we will undoubtedly know more about this subject, and be in a better position to determine whether or not these principles can be utilized to practical advantage.

\$14,000 Goes to Religious Charities Rest to Folks.

MINNEAPOLIS, Minn.—Edgar Allen Sloane, a wandering tinsmith, who had made his headquarters for the last few years in Minneapolis, has been buried at Lebanon, N.D., where several months ago he chose a spot as his final resting place. A will left by Sloane directs that the First Baptist Church of Minneapolis shall receive \$10,000 of his estate, that \$4000 shall go to a theological school in Minnesota, and that relatives in the east shall receive the rest.

Sloane was known because of his desire to roam about the country, he was believed to be a poor man. He met death recently under the wheels of a train at Beaumont.

WED AFTER FORTY YEARS.

MARLETT POINT, Ore., Sept. 9.—The marriage here of John Livingston of Deer Creek, Ore., and Mrs. Carrie Hermann of this place was the termination of a romance which began forty years ago. The two were sweethearts in their youth, and were engaged to be married, but a quarrel separated them, and each later married another. Years went by, and both lost their mates. A few weeks ago Livingston made a business trip to this section, during which he met his former sweetheart, and the old courtship was renewed.

WISHES EVERYONE COULD SEE PLAY

Rev. C. S. Eby Speaks Very Highly of "Blindness of Virtue."

AN IMPORTANT THEME Will Keep Boys and Girls From Falling Into the Abyss.

That photographs of those who are unidentified and buried from the morgue should be taken, put in the papers, and kept for future reference was the recommendation of Dr. M. C. Eby, a member and formerly the secretary of the Purify Education Association, an organization which in its own unobtrusive way does more good in Toronto than several other organizations which make a great deal more noise, except in the opinion of Rev. C. S. Eby, who attended at the Royal Alexandra Theatre yesterday afternoon. Rev. Mr. Eby went on to say that he considered the plot to be very carefully worked out, and that he could offer no criticism either of the moral taught by the play or of the manner of the presentation. "Nothing is taught by the play which he could identify that could not be handled with much delicacy and tact," he said.

"As to the theme itself, it is one of the most important that could possibly be dealt with in the theatre of the present day. It is that parents realize the absolute necessity of imparting to their sons and daughters instruction along the line indicated in this play, which will most certainly be the means of keeping them from the abyss into which they are in great danger of falling."

MURDER VICTIM WAS IDENTIFIED

Dismembered Body Found in Hudson That of New York Woman.

NEW YORK, Sept. 11.—(Can. Press.)—The woman who was murdered ten days ago and whose body was cut up and thrown into the Hudson River, was identified this afternoon as Mrs. Casper Janin of this city. Although the arms and legs are missing, the body was identified by a mark on the back. The woman's husband made the identification and told the police she had disappeared from her home on Aug. 14.

The identification was made at the morgue in Hoboken.

Casper Janin, the husband, told the Hoboken police that he and his wife lived at Barcelona, Spain, up to about three years ago, when the woman left him and came to this country. Janin said that he followed her soon after and found her living at a house on W. 144th street, New York.

HOPES FOR CUT IN OCEAN RATES

Hon. Mr. Drayton Seeks to Establish a Freight Commission.

LONDON, Sept. 11.—(C.A.P.)—At a meeting of the Manchester Chamber of Commerce attention was called to the enormous increase that had recently taken place in freight rates to Canada. In some instances the advances were said to be as high as 100 per cent.

The chamber decided to seek a conference on the subject with the board of trade, and with Chairman Drayton of the Dominion Railway Commission, now in London.

Mr. Drayton says that as a result of his visit he is hopeful of bringing about, in conjunction with the British Board of Trade, with whom he is closely in touch, the establishment of a British-Canadian freight rates commission. He states that the passenger and freight was between the Hamburg-American and North German Lloyd steamship companies, and considerably help matters and disorganize the Atlantic conference, and force all English lines into a fight. The latter is notifying their agents through the United States and Canada that sweeping reductions in cabin, steerage and freight rates may be made at any moment.

ANOTHER UNKNOWN BURIED FROM MORGUE

Pictures Sent to Papers Would Help, Says Coroner Mason's Jury.

That photographs of those who are unidentified and buried from the morgue should be taken, put in the papers, and kept for future reference was the recommendation of Dr. M. C. DIED OF INJURIES

Inquest Opened into the Death of Miss Edith Cox.

An inquest into the death of Miss Edith Cox, the young woman who died in the General Hospital yesterday morning, as the result of being hit by a motor car on Bloor street Wednesday evening, was opened at the morgue last night.

Miss Cox and her sister, were walking on Bloor street about 10 p.m. toward their home at 204 Cottingham at. When they arrived at Balmuto street they attempted to cross Bloor, when Miss Cox was hit and dragged under a motor car driven by a man named Macintosh. Her sister barely escaped by jumping back. They could not see the car coming on account of the trees on the boulevard. The inquest was adjourned until Sept. 16.

FELL FROM BICYCLE

As the result of the collapse of her bicycle which she was riding at the time, Ursula Collier, aged ten, lies in St. Michael's Hospital with half a dozen stitches closing a gaping wound in her leg. The accident happened on Church street near Bloor 5.30 yesterday afternoon, she was taken to the hospital in a private motor car.

CHARGED WITH THEFT

Charged with the theft of a quantity of horse feed from the Farm Horse Food Co., of Dupont street, Edgar Hand, 240 Marguerette street, was arrested yesterday evening at his home by Detective Wickert.

EARLS COURT

The tight money market of the year did not, to any appreciable extent, curtail building operations in the Earls Court district. Should there be an ease up next spring, which it is expected there will be, an unprecedented impetus will be given to the building and all other work.

The delivery of coal this winter will not be the difficult matter it was last year, for which he expresses his thanks thru the columns of The World.

Editor of Public School Library.

The World and an old resident of the Earls Court district was glad to see the Earls Court items, a grumble for a public library for the district.

The case for the public library, which should be done in this direction, as the nearest library for the public is at the Earl of College street, which is practically out of our reach.

In the small town in the north of England where I came from there is a large public library, which was always well attended and patronized by residents.

It is certain a public library in this district, centrally situated, would be boon to the people. The long winter evenings are fast approaching, and library and reading room would enable us to pass the time pleasantly and profitably.

I will be glad to join with anyone to set up a petition to lay before the city council to further this object, and I will be glad to bring this about to a successful issue.

NORWAY

Norway's population has been increasing so rapidly that the parish church of St. John the Baptist increased attendance. At present the church seats 560, but fifty feet will be added to the west end to make room for 250 more. A new baptistry will be built and another story added to the parish house, to provide room for the new Sunday School, which has now a membership of over 400.

The pastor, Rev. L. Baynes Reed, will shortly take up residence in his new house, 156 Kingston road.

Rev. Canon E. J. Worley of Halfway Tree, Jamaica, is the guest of Mrs. Burke at the Edgewater avenue.

The funeral of the late Arthur W. Bryson, a taken place today from his residence, 114 Kingston road, to St. John's Cemetery, Norway, at 4 p.m.

LEGAL TECHNICALITY OVER SCHOOL SECTION

Judge Winchester Will Settle North Toronto Tangle on Monday Next.

When the old town of North Toronto was incorporated in 1880, part of York Township, school section No. 2 was incorporated as a municipality, however, they have certain interest in the school buildings, and have taken the matter to arbitration. The case will come up before Judge Winchester at the city court on September 15. Geo. S. Henry is arbitrator for the Township of York, and Assessor Commissioner Foreman is arbitrator for the city. The township part of the school section adjoins Leavitt, and when the case has been disposed of, a new school section in conjunction with Leavitt.

SCARBORO

Farmers living along the line of the good roads in Scarborough Township are up in arms against the inaction of the authorities in failing to provide for the oiling of the completed portions of the roads and sections are rapidly being destroyed through neglect. On Saturdays and Sundays especially scores of automobilists from the city race up and down the good roads, raising clouds of dust, which especially in the villages is causing a great deal of annoyance.

It was stated last fall by the highway commission that they would this summer assume control and keep the system well oiled, but nothing so far has been done.

BRAMPTON

The work of installing the new town clock on the postoffice building was commenced yesterday. Contractor T. McClure has the work in hand and expects to be finished in two weeks' time. This will add greatly to the appearance of the postoffice, and the efforts of Richard Blain, M.P., will be appreciated by the citizens.

Brampton Poultry Association held a meeting in the market building last night that was largely attended. Owing to the resignation of Jos. Foster from the office of 2nd vice-president, Thomas Thaurban was elected to fill the office. The following board of directors was also elected: Samuel Charters, M.L.A., J. R. Falls, T. Thaurban, A. Garbutt, George Pearson of Beasleys, and W. Thompson. A prize list committee was also elected as follows: T. Thaurban, H. Mullis, W. Bartlett, W. Findlay and Ronald Harrison.

The association now has 53 members. Previous to the show last January they were 59 in debt, but now have \$82 on the right side of the balance sheet. The first week in January has been chosen for the next poultry show.

Feature filled, bright and new.

On sale Saturday night everywhere.

Engineer of Bagdad Railway is Examining Canadian Railway Operation. TO COPY THE SYSTEM OF C. P. R. Ready-Made Farms in the Land of Haroun Alraschid.

When an international railway sends one of its leading officials to Canada to get up-to-date ideas on railroading, it is not only to get up-to-date ideas on railroading, it is also to get up-to-date ideas on the person of Prof. A. Fritz Frech of Breslau University, Germany, who has been sent to examine the Canadian railway system.

War Delayed Railway. Speaking at an interview with The World, Mr. Frech said that the road was now completed from Constantinople as far as the Zaire River, and predicted that the steel would be laid right through to Bagdad within two years' time.

HALF MILLION FOR A FRUIT MARKET

Big Development Predicted From Conference of Three Different Bodies. A half million dollar fruit market near the foot of Church street became a probability yesterday during a conference between representatives of the board of control, harbor commission and board of trade.

The board of control will invite the harbor commission to co-operate in the establishment of a waterfront fruit market, with rental revenues paying the harbor commission. This project will enable the harbor commission to develop a practical plan for a fruit market at the best assembling point for transportation.

Another Polar Expedition. J. Foster Stackhouse, who was intimately associated with the late Captain Scott in organizing the heroic expedition to the South Pole, is arranging for another trip to Antarctica. The plans are for an expedition to start from London in August, 1914, to explore King Edward VII. Land. It is expected that the explorers will be away for nearly two years, sailing in the steam yacht Polaris, specially built for navigation in Polar regions.

Board of Education Officials Admit That System of Accounting Was Defective.

ADDITIONS LUMPED And Alterations Made by Contractors Were Not Shown on Books of Department.

It was brought out at the resumption of the enquiry into the awarding of school contracts before Judge Winchurster yesterday that the board of education officials did not keep memoranda as to how settlements were adjusted.

When was that general adjustment demanded his honor.

Mr. Geary referred to the memorandum which was on hand in this case, but there was no reference to this item in it.

"I had you a memorandum of this?" "I must have had, I could not keep them all in my mind."

The deviations from the specifications were innumerable, all of which were defended. His invariable answer was that it was taken into consideration in the adjustment.

Some changes he supported as beneficial improvements, but notwithstanding the same specifications were given in subsequent contracts.

Mr. Geary stated that Mr. Waste thought a contractor would not be insisted on had an advantage over contractors who had not that advantage, but Mr. Waste failed to see it.

The case was postponed until Monday at 10:30 a.m. in order that the witnesses at present out of the way may be on hand to give evidence.

Police Think Taylor Was Perfectly Sober on Night of Crime.

BRANTFORD, Sept. 11.—(Special.)—The plea of being drunk entered by James Taylor, self-confessed murderer of Charles Dawson, is not maintained by the police here. Several witnesses came forward today to state that when Taylor was seen on the night of the crime, both before and after the deed, he was perfectly sober. The prisoner freely discussed the crime with his spiritual adviser today, stating that he was drunk. He does not seem to be aware of the extreme penalty for his fiendish crime. There is no special watch being kept on Taylor, Governor J. A. Brown of the county just indicated this morning that Taylor was unconvicted, and so far as he was concerned was merely an ordinary prisoner, and he was not to be considered a dangerous man.
